(c) *Other situations to be specified by Commissioner.* The Commissioner may designate in the Internal Revenue Bulletin situations that, although described in paragraph (a)(2) of this section, will not be treated as potentially abusive because they do not have the effect of significantly misstating basis or amount realized (see § 601.601(d)(2)(ii) of this chapter).

(d) *Consistency rule.* The issuer's determination that the debt instrument is or is not issued in a potentially abusive situation is binding on all holders of the debt instrument. However, the issuer's determination is not binding on a holder who explicitly discloses a position that is inconsistent with the issuer's determination. Unless otherwise prescribed by the Commissioner, the disclosure must be made on a statement attached to the holder's timely filed Federal income tax return for the taxable year that includes the acquisition date of the debt instrument. See § 1.1275–2(e) for rules relating to the issuer's obligation to disclose certain information to holders.

[T.D. 8517, 59 FR 4822, Feb. 2, 1994]

§ 1.1274–4 Test rate.

(a) *Determination of test rate of interest*—(1) *In general*—(i) *Test rate is the 3-month rate.* Except as provided in paragraph (a)(2) of this section, the test rate of interest for a debt instrument issued in consideration for the sale or exchange of property is the 3-month rate.

(ii) *The 3-month rate.* Except as provided in paragraph (a)(1)(iii) of this section, the 3-month rate is the lower of—

(A) The lowest applicable Federal rate (based on the appropriate compounding period) in effect during the 3-month period ending with the first month in which there is a binding written contract that substantially sets forth the terms under which the sale or exchange is ultimately consummated; or

(B) The lowest applicable Federal rate (based on the appropriate compounding period) in effect during the 3-month period ending with the month in which the sale or exchange occurs.

(iii) *Special rule if there is no binding written contract.* If there is no binding written contract that substantially sets forth the terms under which the sale or exchange is ultimately consummated, the 3-month rate is the lowest applicable Federal rate (based on the appropriate compounding period) in effect during the 3-month period ending with the month in which the sale or exchange occurs.

(2) *Test rate for certain debt instruments*—(i) *Sale-leaseback transactions.* Under section 1274(e) (relating to certain sale-leaseback transactions), the test rate is 110 percent of the 3-month rate determined under paragraph (a)(1) of this section. For purposes of section 1274(e)(3), related party means a person related to the transferor within the meaning of section 267(b) or 707(b)(1).

(ii) *Qualified debt instrument.* Under section 1274A(a), the test rate for a qualified debt instrument is no greater than 9 percent, compounded semiannually, or an equivalent rate based on an appropriate compounding period.

(iii) *Alternative test rate for short-term obligations*—(A) *Requirements.* This paragraph (a)(2)(iii)(A) provides an alternative test rate under section 1274(d)(1)(D) for a debt instrument with a maturity of 1 year or less. This alternative test rate applies, however, only if the debt instrument provides for adequate stated interest using the alternative test rate, the issuer provides on the face of the debt instrument that the instrument qualifies as having adequate stated interest under section 1274(d)(1)(D), and the issuer and holder treat or agree to treat the instrument as having adequate stated interest.

(B) *Alternative test rate.* For purposes of paragraph (a)(2)(iii)(A), the alternative test rate is the market yield on U.S. Treasury bills with the same maturity date as the debt instrument. If the same maturity date is not available, the market yield on U.S. Treasury bills that mature in the same week or month as the debt instrument is used. The alternative test rate is determined as of the date on which there is a binding written contract that substantially sets forth the terms under which the sale or exchange is ultimately consummated or as of the date of the sale or exchange, whichever date results in a lower rate. If there is no binding written contract, however, the alternative test rate is determined as of the date of the sale or exchange.

(b) *Applicable Federal rate.* Except as otherwise provided in this section, the applicable Federal rate for a debt instrument is based on the term of the instrument (i.e., short-term, mid-term, or long-term). See section 1274(d)(1). The Internal Revenue Service publishes the applicable Federal rates for each month in the Internal Revenue Bulletin (see §601.601(d)(2)(ii) of this chapter). The applicable Federal rates are based on the yield to maturity of outstanding marketable obligations of the United States of similar maturities during the one month period ending on the 14th day of the month preceding the month for which the rates are applicable.

(c) *Special rules to determine the term of a debt instrument for purposes of determining the applicable Federal rate*—(1) *Installment obligation.* If a debt instrument is an installment obligation (as defined in §1.1273–1(e)(1)), the term of the instrument is the instrument's weighted average maturity (as defined in §1.1273–1(e)(3)).

(2) *Certain variable rate debt instruments*—(i) *In general.* Except as otherwise provided in paragraph (c)(2)(ii) of this section, if a variable rate debt instrument (as defined in §1.1275–5(a)) provides for stated interest at a qualified floating rate (or rates), the term of the instrument is determined by reference to the longest interval between interest adjustment dates, or, if the variable rate debt instrument provides for a fixed rate, the interval between the issue date and the last day on which the fixed rate applies, if this interval is longer.

(ii) *Restrictions on adjustments.* If, due to significant restrictions on variations in a qualified floating rate or the use of certain formulae pursuant to §1.1275–5(b)(2) (e.g., 15 percent of 1-year LIBOR, plus 800 basis points), the rate in substance resembles a fixed rate, the applicable Federal rate is determined by reference to the term of the debt instrument.

(3) *Counting of either the issue date or the maturity date.* The term of a debt instrument includes either the issue date or the maturity date, but not both dates.

(4) *Certain debt instruments that provide for principal payments uncertain as to time.* If a debt instrument provides for principal payments that are fixed in total amount but uncertain as to time, the term of the instrument is determined by reference to the latest possible date on which a principal payment can be made or, in the case of an installment obligation, by reference to the longest weighted average maturity under any possible payment schedule.

(d) *Foreign currency loans.* If all of the payments of a debt instrument are denominated in, or determined by reference to, a currency other than the U.S. dollar, the applicable Federal rate for the debt instrument is a foreign currency rate of interest that is analogous to the applicable Federal rate described in this section. For this purpose, an analogous rate of interest is a rate based on yields (with the appropriate compounding period) of the highest grade of outstanding marketable obligations denominated in such currency (excluding any obligations that benefit from special tax exemptions or preferential tax rates not available to debt instruments generally) with due consideration given to the maturities of the obligations.

(e) *Examples.* The following examples illustrate the rules of this section.

Example 1. Variable rate debt instrument that limits the amount of increase and decrease in the rate—(i) *Facts.* On July 1, 1996, A sells nonpublicly traded property to B in return for a 5-year debt instrument that provides for interest to be paid on July 1 of each year, beginning on July 1, 1997, based on the prime rate of a local bank on that date. However, the interest rate cannot increase or decrease from one year to the next by more than .25 percentage points (25 basis points).

(ii) *Significant restriction.* The debt instrument is a variable rate debt instrument (as defined in § 1.1275–5) that provides for stated interest at a qualified floating rate. Assume that based on all the facts and circumstances, the restriction is a significant restriction on the variations in the rate of interest. Under paragraph (c)(2)(ii) of this section, the applicable Federal rate is determined by reference to the term of the debt instrument, and the applicable Federal rate is the Federal mid-term rate.

Example 2. Installment obligation—(i) *Facts.* On January 1, 1996, A sells nonpublicly traded property to B in exchange for a debt instrument that calls for a payment of $500,000 on January 1, 2001, and a payment of $1,000,000 on January 1, 2006. The debt instrument does not provide for any stated interest.

(ii) *Determination of term.* The debt instrument is an installment obligation. Under paragraph (c)(1) of this section, the term of the debt instrument is its weighted average maturity (as defined in § 1.1273–1(e)(3)). The debt instrument's weighted average maturity is 8.33 years, which is the sum of (A) the ratio of the first payment to total payments (500,000/1,500,000), multiplied by the number of complete years from the issue date until the payment is due (5 years), and (B) the ratio of the second payment to total payments (1,000,000/1,500,000), multiplied by the number of complete years from the issue date until the second payment is due (10 years).

(iii) *Applicable Federal rate.* Based on the calculation in paragraph (ii) of this example, the term of the debt instrument is treated as 8.33 years. Consequently, the applicable Federal rate is the Federal mid-term rate.

[T.D. 8517, 59 FR 4823, Feb. 2, 1994]

§ 1.1274–5 Assumptions.

(a) *In general.* Section 1274 does not apply to a debt instrument if the debt instrument is assumed, or property is taken subject to the debt instrument, in connection with a sale or exchange of property, unless the terms of the debt instrument, as part of the sale or exchange, are modified in a manner that would constitute an exchange under section 1001.

(b) *Modifications of debt instruments*—(1) *In general.* Except as provided in paragraph (b)(2) of this section, if a debt instrument is assumed, or property is taken subject to a debt instrument, in connection with a sale or exchange of property, the terms of the debt instrument are modified as part of the sale or exchange, and the modification triggers an exchange under section 1001, the modification is treated as a separate transaction taking place immediately before the sale or exchange and is attributed to the seller of the property. For purposes of this paragraph (b), a debt instrument is not considered to be modified as part of the sale or exchange unless the seller knew or had reason to know about the modification.

(2) *Election to treat buyer as modifying the debt instrument*—(i) *In general.* Rather than having the rules in paragraph (b)(1) of this section apply, the seller and buyer may jointly elect to treat the transaction as one in which the buyer first assumed the original (unmodified) debt instrument and then subsequently modified the debt instrument. For this purpose, the modification is treated as a separate transaction taking place immediately after the sale or exchange.

(ii) *Time and manner of making the election.* The buyer and seller make the election under paragraph (b)(2)(i) of this section by jointly signing a statement that includes the names, addresses, and taxpayer identification numbers of the seller and buyer, and a clear indication that the election is being made under paragraph (b)(2)(i) of this section. Both the buyer and the seller must sign this statement not later than the earlier of the last day (including extensions) for filing the Federal income tax return of the buyer or seller for the taxable year in which the sale or exchange of the property occurs. The buyer and seller should attach this signed statement (or a copy thereof) to their timely filed Federal income tax returns.

(c) *Wraparound indebtedness.* For purposes of paragraph (a) of this section, the issuance of wraparound indebtedness is not considered an assumption.

(d) *Consideration attributable to assumed debt.* If, as part of the consideration for the sale or exchange of property, the buyer assumes, or takes the property subject to, an indebtedness that was issued with OID (including a debt instrument issued in a prior sale or exchange to which section 1274 applied), the portion of the buyer's basis in the property and the seller's amount realized attributable to the debt instrument equals the adjusted issue price of the debt instrument as of the date of the sale or exchange.

[T.D. 8517, 59 FR 4824, Feb. 2, 1994]

§ 1.1274A–1 Special rules for certain transactions where stated principal amount does not exceed $2,800,000.

(a) *In general.* Section 1274A allows the use of a lower test rate for purposes of sections 483 and 1274 in the case of a qualified debt instrument (as defined in section 1274A(b)) and, if elected by the borrower and the lender, the use of the cash receipts and disbursements method of accounting for interest on a cash method debt instrument (as defined in section 1274A(c)(2)). This section provides special rules for qualified debt instruments and cash method debt instruments.

(b) *Rules for both qualified and cash method debt instruments*—(1) *Sale-leaseback transactions.* A debt instrument issued in a sale-leaseback transaction (within the meaning of section 1274(e)) cannot be either a qualified debt instrument or a cash method debt instrument.

(2) *Debt instruments calling for contingent payments.* A debt instrument that provides for contingent payments cannot be a qualified debt instrument unless it can be determined at the time of the sale or exchange that the maximum stated principal amount due under the debt instrument cannot exceed the amount specified in section 1274A(b). Similarly, a debt instrument that provides for contingent payments cannot be a cash method debt instrument unless it can be determined at the time of the sale or exchange that the maximum stated principal amount due under the debt instrument cannot exceed the amount specified in section 1274A(c)(2)(A).

(3) *Aggregation of transactions*—(i) *General rule.* The aggregation rules of section 1274A(d)(1) are applied using a facts and circumstances test.

(ii) *Examples.* The following examples illustrate the application of section 1274A(d)(1) and paragraph (b)(3)(i) of this section.

Example 1. Aggregation of two sales to a single person. In two transactions evidenced by separate sales agreements, A sells undivided half interests in Blackacre to B. The sales are pursuant to a plan for the sale of a 100 percent interest in Blackacre to B. These sales or exchanges are part of a series of related transactions and, thus, are treated as a single sale for purposes of section 1274A.

Example 2. Aggregation of two purchases by unrelated individuals. Pursuant to a plan, unrelated individuals X and Y purchase undivided half interests in Blackacre from A and subsequently contribute these interests to a partnership in exchange for equal interests in the partnership. These purchases are treated as part of the same transaction and, thus, are treated as a single sale for purposes of section 1274A.

Example 3. Aggregation of sales made pursuant to a tender offer. Fifteen unrelated individuals own all of the stock of X Corporation. Y Corporation makes a tender offer to these 15 shareholders. The terms offered to each shareholder are identical. Shareholders holding a majority of the shares of X Corporation elect to tender their shares pursuant to Y Corporation's offer. These sales are part of the same transaction and, thus, are treated as a single sale for purposes of section 1274A.

Example 4. No aggregation for separate sales of similar property to unrelated persons. Pursuant to a newspaper advertisement, X Corporation offers for sale similar condominiums in a single building. The prices of the units vary due to a variety of factors, but the financing terms offered by X Corporation to all buyers are identical. The units are purchased by unrelated buyers who decided whether to purchase units in the building at the price and on the terms offered by X Corporation, without regard to the actions of other buyers. Because each buyer acts individually, the sales are not part of the same transaction or a series of related transactions and, thus, are treated as separate sales.

(4) *Inflation adjustment of dollar amounts.* Under section 1274A(d)(2), the dollar amounts specified in sections 1274A(b) and 1274A(c)(2)(A) are adjusted for inflation. The dollar amounts, adjusted for inflation, are published in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii) of this chapter).

(c) *Rules for cash method debt instruments*—(1) *Time and manner of making cash method election.* The borrower and lender make the election described in section 1274A(c)(2)(D) by jointly signing a statement that includes the names, addresses, and taxpayer identification numbers of the borrower and lender, a clear indication that an election is being made under section 1274A(c)(2), and a declaration that the debt instrument with respect to which the election is being made fulfills the requirements of a cash method debt instrument. Both the borrower and the lender must sign this statement not later than the earlier of the last day (including extensions) for filing the Federal income tax return of the borrower or lender for the taxable year in which the debt instrument is issued. The borrower and lender should attach this signed statement (or a copy thereof) to their timely filed Federal income tax returns.

(2) *Successors of electing parties.* Except as otherwise provided in this paragraph (c)(2), the cash method election under section 1274A(c) applies to any successor of the electing lender or borrower. Thus, for any period after the transfer of a cash method debt instrument, the successor takes into account the interest (including unstated interest) on the instrument under the cash receipts and disbursements method of accounting. Nevertheless, if the lender (or any successor thereof) transfers the cash method debt instrument to a taxpayer who uses an accrual method of accounting, section 1272 rather than section 1274A(c) applies to the successor of the lender with respect to the debt instrument for any period after the date of the transfer. The borrower (or any successor thereof), however, remains on the cash receipts and disbursements method of accounting with respect to the cash method debt instrument.

(3) *Modified debt instrument.* In the case of a debt instrument issued in a debt-for-debt exchange that qualifies as an exchange under section 1001, the debt instrument is eligible for the election to be a cash method debt instrument if the other prerequisites to making the election in section 1274A(c) are met. However, if a principal purpose of the modification is to defer interest income or deductions through the use of the election, then the debt instrument is not eligible for the election.

(4) *Debt incurred or continued to purchase or carry a cash method debt instrument.* If a debt instrument is incurred or continued to purchase or carry a cash method debt instrument, rules similar to those under section 1277 apply to determine the timing of the interest deductions for the debt instrument. For purposes of the preceding

sentence, rules similar to those under section 265(a)(2) apply to determine whether a debt instrument is incurred or continued to purchase or carry a cash method debt instrument.

[T.D. 8517, 59 FR 4824, Feb. 2, 1994]

§1.1275–1 Definitions.

(a) *Applicability.* The definitions contained in this section apply for purposes of sections 163(e) and 1271 through 1275 and the regulations thereunder.

(b) *Adjusted issue price*—(1) *In general.* The adjusted issue price of a debt instrument at the beginning of the first accrual period is the issue price. Thereafter, the adjusted issue price of the debt instrument is the issue price of the debt instrument—

(i) Increased by the amount of OID previously includible in the gross income of any holder (determined without regard to section 1272(a)(7) and section 1272(c)(1)); and

(ii) Decreased by the amount of any payment previously made on the debt instrument other than a payment of qualified stated interest. See §1.1275–2(f) for rules regarding adjustments to adjusted issue price on a pro rata prepayment.

(2) *Bond issuance premium.* If a debt instrument is issued with bond issuance premium (as defined in §1.163–13(c)), for purposes of determining the issuer's adjusted issue price, the adjusted issue price determined under paragraph (b)(1) of this section is also decreased by the amount of bond issuance premium previously allocable under §1.163–13(d)(3).

(3) *Adjusted issue price for subsequent holders.* For purposes of calculating OID accruals, acquisition premium, or market discount, a holder (other than a purchaser at original issuance) determines adjusted issue price in any manner consistent with the regulations under sections 1271 through 1275.

(c) *OID.* OID means original issue discount (as defined in section 1273(a) and §1.1273–1).

(d) *Debt instrument.* Except as provided in section 1275(a)(1)(B) (relating to certain annuity contracts; see paragraph (j) of this section), debt instrument means any instrument or contractual arrangement that constitutes indebtedness under general principles of Federal income tax law (including, for example, a certificate of deposit or a loan). Nothing in the regulations under sections 163(e), 483, and 1271 through 1275, however, shall influence whether an instrument constitutes indebtedness for Federal income tax purposes.

(e) *Tax-exempt obligations.* For purposes of section 1275(a)(3)(B), exempt from tax means exempt from Federal income tax.

(f) *Issue.* Two or more debt instruments are part of the same issue if they have the same credit and payment terms and are sold reasonably close in time either pursuant to a common plan or as part of a single transaction or a series of related transactions. See §1.1275–2(d)(2) for special rules relating to reopenings of Treasury securities.

(g) *Debt instruments issued by a natural person.* If an entity is a primary obligor under a debt instrument, the debt instrument is considered to be issued by the entity and not by a natural person even if a natural person is a co-maker and is jointly liable for the debt instrument's repayment. A debt instrument issued by a partnership is considered to be issued by the partnership as an entity even if the partnership is composed entirely of natural persons.

(h) *Publicly offered debt instrument.* A debt instrument is publicly offered if it is part of an issue of debt instruments the initial offering of which—

(1) Is registered with the Securities and Exchange Commission; or

(2) Would be required to be registered under the Securities Act of 1933 (15 U.S.C. 77a *et seq.*) but for an exemption from registration—

(i) Under section 3 of the Securities Act of 1933 (relating to exempted securities);

(ii) Under any law (other than the Securities Act of 1933) because of the identity of the issuer or the nature of the security; or

(iii) Because the issue is intended for distribution to persons who are not United States persons.

(i) [Reserved]

(j) *Life annuity exception under section 1275(a)(1)(B)(i)*—(1) *Purpose.* Section

1275(a)(1)(B)(i) excepts an annuity contract from the definition of *debt instrument* if section 72 applies to the contract and the contract depends (in whole or in substantial part) on the life expectancy of one or more individuals. This paragraph (j) provides rules to ensure that an annuity contract qualifies for the exception in section 1275(a)(1)(B)(i) only in cases where the life contingency under the contract is real and significant.

(2) *General rule*—(i) *Rule.* For purposes of section 1275(a)(1)(B)(i), an annuity contract depends (in whole or in substantial part) on the life expectancy of one or more individuals only if—

(A) The contract provides for periodic distributions made not less frequently than annually for the life (or joint lives) of an individual (or a reasonable number of individuals); and

(B) The contract does not contain any terms or provisions that can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants).

(ii) *Terminology.* For purposes of this paragraph (j):

(A) *Contract.* The term *contract* includes all written or unwritten understandings among the parties as well as any person or persons acting in concert with one or more of the parties.

(B) *Annuitant.* The term *annuitant* refers to the individual (or reasonable number of individuals) referred to in paragraph (j)(2)(i)(A) of this section.

(C) *Terminating death.* The phrase *terminating death* refers to the annuitant death that can terminate periodic distributions under the contract. (See paragraph (j)(2)(i)(A) of this section.) For example, if a contract provides for periodic distributions until the later of the death of the last-surviving annuitant or the end of a term certain, the terminating death is the death of the last-surviving annuitant.

(iii) *Coordination with specific rules.* Paragraphs (j) (3) through (7) of this section describe certain terms and conditions that can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants). If a term or provision is not specifically described in paragraphs (j) (3) through (7) of this section, the annuity contract must be tested under the general rule of paragraph (j)(2)(i) of this section to determine whether it depends (in whole or in substantial part) on the life expectancy of one or more individuals.

(3) *Availability of a cash surrender option*—(i) *Impact on life contingency.* The availability of a cash surrender option can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants). Thus, the availability of any cash surrender option causes the contract to fail to be described in section 1275(a)(1)(B)(i). A cash surrender option is available if there is reason to believe that the issuer (or a person acting in concert with the issuer) will be willing to terminate or purchase all or a part of the annuity contract by making one or more payments of cash or property (other than an annuity contract described in this paragraph (j)).

(ii) *Examples.* The following examples illustrate the rules of this paragraph (j)(3):

Example 1. (i) *Facts.* On March 1, 1998, X issues a contract to A for cash. The contract provides that, effective on any date chosen by A (the annuity starting date), X will begin equal monthly distributions for A's life. The amount of each monthly distribution will be no less than an amount based on the contract's account value as of the annuity starting date, A's age on that date, and permanent purchase rate guarantees contained in the contract. The contract also provides that, at any time before the annuity starting date, A may surrender the contract to X for the account value less a surrender charge equal to a declining percentage of the account value. For this purpose, the initial account value is equal to the cash invested. Thereafter, the account value increases annually by at least a minimum guaranteed rate.

(ii) *Analysis.* The ability to obtain the account value less the surrender charge, if any, is a cash surrender option. This ability can significantly reduce the probability that total distributions under the contract will increase commensurately with A's longevity. Thus, the contract fails to be described in section 1275(a)(1)(B)(i).

Example 2. (i) *Facts.* On March 1, 1998, X issues a contract to B for cash. The contract provides that beginning on March 1, 1999, X will distribute to B a fixed amount of cash each month for B's life. Based on X's advertisements, marketing literature, or illustrations or on oral representations by X's sales personnel, there is reason to believe that an affiliate of X stands ready to purchase B's contract for its commuted value.

(ii) *Analysis.* Because there is reason to believe that an affiliate of X stands ready to purchase B's contract for its commuted value, a cash surrender option is available within the meaning of paragraph (j)(3)(i) of this section. This availability can significantly reduce the probability that total distributions under the contract will increase commensurately with B's longevity. Thus, the contract fails to be described in section 1275(a)(1)(B)(i).

(4) *Availability of a loan secured by the contract*—(i) *Impact on life contingency.* The availability of a loan secured by the contract can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants). Thus, the availability of any such loan causes the contract to fail to be described in section 1275(a)(1)(B)(i). A loan secured by the contract is available if there is reason to believe that the issuer (or a person acting in concert with the issuer) will be willing to make a loan that is directly or indirectly secured by the annuity contract.

(ii) *Example.* The following example illustrates the rules of this paragraph (j)(4):

Example: (i) *Facts.* On March 1, 1998, X issues a contract to C for $100,000. The contract provides that, effective on any date chosen by C (the annuity starting date), X will begin equal monthly distributions for C's life. The amount of each monthly distribution will be no less than an amount based on the contract's account value as of the annuity starting date, C's age on that date, and permanent purchase rate guarantees contained in the contract. From marketing literature circulated by Y, there is reason to believe that, at any time before the annuity starting date, C may pledge the contract to borrow up to $75,000 from Y. Y is acting in concert with X.

(ii) *Analysis.* Because there is reason to believe that Y, a person acting in concert with X, is willing to lend money against C's contract, a loan secured by the contract is available within the meaning of paragraph (j)(4)(i) of this section. This availability can significantly reduce the probability that total distributions under the contract will increase commensurately with C's longevity. Thus, the contract fails to be described in section 1275(a)(1)(B)(i).

(5) *Minimum payout provision*—(i) *Impact on life contingency.* The existence of a minimum payout provision can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants). Thus, the existence of any minimum payout provision causes the contract to fail to be described in section 1275(a)(1)(B)(i).

(ii) *Definition of minimum payout provision.* A minimum payout provision is a contractual provision (for example, an agreement to make distributions over a term certain) that provides for one or more distributions made—

(A) After the terminating death under the contract; or

(B) By reason of the death of any individual (including distributions triggered by or increased by terminal or chronic illness, as defined in section 101(g)(1) (A) and (B)).

(iii) *Exceptions for certain minimum payouts*—(A) *Recovery of consideration paid for the contract.* Notwithstanding paragraphs (j)(2)(i)(A) and (j)(5)(i) of this section, a contract does not fail to be described in section 1275(a)(1)(B)(i) merely because it provides that, after the terminating death, there will be one or more distributions that, in the aggregate, do not exceed the consideration paid for the contract less total distributions previously made under the contract.

(B) *Payout for one-half of life expectancy.* Notwithstanding paragraphs (j)(2)(i)(A) and (j)(5)(i) of this section, a contract does not fail to be described in section 1275(a)(1)(B)(i) merely because it provides that, if the terminating death occurs after the annuity starting date, distributions under the contract will continue to be made after the terminating death until a date that is no later than the halfway date. This exception does not apply unless the amounts distributed in each contract year will not exceed the amounts that would have been distributed in that year if the terminating death had not occurred until the expected date of the terminating death, determined under paragraph (j)(5)(iii)(C) of this section.

(C) *Definition of halfway date.* For purposes of this paragraph (j)(5)(iii), the halfway date is the date halfway between the annuity starting date and the expected date of the terminating death, determined as of the annuity starting date, with respect to all then-surviving annuitants. The expected date of the terminating death must be determined by reference to the applicable mortality table prescribed under section 417(e)(3)(A)(ii)(I).

(iv) *Examples.* The following examples illustrate the rules of this paragraph (j)(5):

Example 1. (i) *Facts.* On March 1, 1998, X issues a contract to D for cash. The contract provides that, effective on any date D chooses (the annuity starting date), X will begin equal monthly distributions for the greater of D's life or 10 years, regardless of D's age as of the annuity starting date. The amount of each monthly distribution will be no less than an amount based on the contract's account value as of the annuity starting date, D's age on that date, and permanent purchase rate guarantees contained in the contract.

(ii) *Analysis.* A minimum payout provision exists because, if D dies within 10 years of the annuity starting date, one or more distributions will be made after D's death. The minimum payout provision does not qualify for the exception in paragraph (j)(5)(iii)(B) of this section because D may defer the annuity starting date until his remaining life expectancy is less than 20 years. If, on the annuity starting date, D's life expectancy is less than 20 years, the minimum payout period (10 years) will last beyond the halfway date. The minimum payout provision, therefore, can significantly reduce the probability that total distributions under the contract will increase commensurately with D's longevity. Thus, the contract fails to be described in section 1275(a)(1)(B)(i).

Example 2. (i) *Facts.* The facts are the same as in *Example 1* of this paragraph (j)(5)(iv) except that the monthly distributions will last for the greater of D's life or a term certain. D may choose the length of the term certain subject to the restriction that, on the annuity starting date, the term certain must not exceed one-half of D's life expectancy as of the annuity starting date. The contract also does not provide for any adjustment in the amount of distributions by reason of the death of D or any other individual, except for a refund of D's aggregate premium payments less the sum of all prior distributions under the contract.

(ii) *Analysis.* The minimum payout provision qualifies for the exception in paragraph (j)(5)(iii)(B) of this section because distributions under the minimum payout provision will not continue past the halfway date and the contract does not provide for any adjustments in the amount of distributions by reason of the death of D or any other individual, other than a guaranteed death benefit described in paragraph (j)(5)(iii)(A) of this section. Accordingly, the existence of this minimum payout provision does not prevent the contract from being described in section 1275(a)(1)(B)(i).

(6) *Maximum payout provision*—(i) *Impact on life contingency.* The existence of a maximum payout provision can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants). Thus, the existence of any maximum payout provision causes the contract to fail to be described in section 1275(a)(1)(B)(i).

(ii) *Definition of maximum payout provision.* A maximum payout provision is a contractual provision that provides that no distributions under the contract may be made after some date (the termination date), even if the terminating death has not yet occurred.

(iii) *Exception.* Notwithstanding paragraphs (j)(2)(i)(A) and (j)(6)(i) of this section, an annuity contract does not fail to be described in section 1275(a)(1)(B)(i) merely because the contract contains a maximum payout provision, provided that the period of time from the annuity starting date to the termination date is at least twice as long as the period of time from the annuity starting date to the expected date of the terminating death, determined as of the annuity starting date, with respect to all then-surviving annuitants. The expected date of the terminating death must be determined by reference to the applicable mortality table prescribed under section 417(e)(3)(A)(ii)(I).

(iv) *Example.* The following example illustrates the rules of this paragraph (j)(6):

Example: (i) *Facts.* On March 1, 1998, X issues a contract to E for cash. The contract provides that beginning on April 1, 1998, X will distribute to E a fixed amount of cash each month for E's life but that no distributions will be made after April 1, 2018. On April 1, 1998, E's life expectancy is 9 years.

(ii) *Analysis.* A maximum payout provision exists because if E survives beyond April 1, 2018, E will receive no further distributions under the contract. The period of time from the annuity starting date (April 1, 1998) to the termination date (April 1, 2018) is 20 years. Because this 20-year period is more than twice as long as E's life expectancy on April 1, 1998, the maximum payout provision qualifies for the exception in paragraph (j)(6)(iii) of this section. Accordingly, the existence of this maximum payout provision does not prevent the contract from being described in section 1275(a)(1)(B)(i).

(7) *Decreasing payout provision*—(i) *General rule.* If the amount of distributions during any contract year (other than the last year during which distributions are made) may be less than the amount of distributions during the preceding year, this possibility can significantly reduce the probability that total distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants). Thus, the existence of this possibility causes the contract to fail to be described in section 1275(a)(1)(B)(i).

(ii) *Exception for certain variable distributions.* Notwithstanding paragraph (j)(7)(i) of this section, if an annuity contract provides that the amount of each distribution must increase and decrease in accordance with investment experience, cost of living indices, or similar fluctuating criteria, then the possibility that the amount of a distribution may decrease for this reason does not significantly reduce the probability that the distributions under the contract will increase commensurately with the longevity of the annuitant (or annuitants).

(iii) *Examples.* The following examples illustrate the rules of this paragraph (j)(7):

Example 1. (i) *Facts.* On March 1, 1998, X issues a contract to F for $100,000. The contract provides that beginning on March 1, 1999, X will make distributions to F each year until F's death. Prior to March 1, 2009, distributions are to be made at a rate of $12,000 per year. Beginning on March 1, 2009, distributions are to be made at a rate of $3,000 per year.

(ii) *Analysis.* If F is alive in 2009, the amount distributed in 2009 ($3,000) will be less than the amount distributed in 2008 ($12,000). The exception in paragraph (j)(7)(ii) of this section does not apply. The decrease in the amount of any distributions made on or after March 1, 2009, can significantly reduce the probability that total distributions under the contract will increase commensurately with F's longevity. Thus, the contract fails to be described in section 1275(a)(1)(B)(i).

Example 2. (i) *Facts.* On March 1, 1998, X issues a contract to G for cash. The contract provides that, effective on any date G chooses (the annuity starting date), X will begin monthly distributions to G for G's life. Prior to the annuity starting date, the account value of the contract reflects the investment return, including changes in the market value, of an identifiable pool of assets. When G chooses the annuity starting date, G must also choose whether the distributions are to be fixed or variable. If fixed, the amount of each monthly distribution will remain constant at an amount that is no less than an amount based on the contract's account value as of the annuity starting date, G's age on that date, and permanent purchase rate guarantees contained in the contract. If variable, the monthly distributions will fluctuate to reflect the investment return, including changes in the market value, of the pool of assets. The monthly distributions under the contract will not otherwise decline from year to year.

(ii) *Analysis.* Because the only possible year-to-year declines in annuity distributions are described in paragraph (j)(7)(ii) of this section, the possibility that the amount of distributions may decline from the previous year does not reduce the probability that total distributions under the contract will increase commensurately with G's longevity. Thus, the potential fluctuation in the annuity distributions does not cause the contract to fail to be described in section 1275(a)(1)(B)(i).

(8) *Effective dates*—(i) *In general.* Except as provided in paragraph (j)(8) (ii) and (iii) of this section, this paragraph (j) is applicable for interest accruals on or after February 9, 1998 on annuity contracts held on or after February 9, 1998.

(ii) *Grandfathered contracts.* This paragraph (j) does not apply to an annuity contract that was purchased before April 7, 1995. For purposes of this paragraph (j)(8), if any additional investment in such a contract is made on or after April 7, 1995, and the additional investment is not required to be made under a binding contractual obligation that was entered into before April 7, 1995, then the additional investment is treated as the purchase of a contract after April 7, 1995.

(iii) *Contracts consistent with the provisions of FI–33–94, published at 1995–1 C.B. 920. See §601.601(d)(2)(ii)(b) of this chapter.* This paragraph (j) does not apply to a contract purchased on or after April 7, 1995, and before February 9, 1998, if all payments under the contract are periodic payments that are made at least annually for the life (or lives) of one or more individuals, do not increase at any time during the term of the contract, and are part of a series of distributions that begins within one year of the date of the initial investment in the contract. An annuity contract that is otherwise described in the preceding sentence does not fail to be described therein merely because it also provides for a payment (or payments) made by reason of the death of one or more individuals.

[T.D. 8517, 59 FR 4825, Feb. 2, 1994, as amended by T.D. 8746, 62 FR 68183, Dec. 31, 1997; T.D. 8754, 63 FR 1057, Jan. 8, 1998]

§ 1.1275–2 Special rules relating to debt instruments.

(a) *Payment ordering rule*—(1) *In general.* Except as provided in paragraph (a)(2) of this section, each payment under a debt instrument is treated first as a payment of OID to the extent of the OID that has accrued as of the date the payment is due and has not been allocated to prior payments, and second as a payment of principal. Thus, no portion of any payment is treated as prepaid interest.

(2) *Exceptions.* The rule in paragraph (a)(1) of this section does not apply to—

(i) A payment of qualified stated interest;

(ii) A payment of points deductible under section 461(g)(2), in the case of the issuer;

(iii) A pro rata prepayment described in paragraph (f)(2) of this section; or

(iv) A payment of additional interest or a similar charge provided with respect to amounts that are not paid when due.

(b) *Debt instruments distributed by corporations with respect to stock*—(1) *Treatment of distribution.* For purposes of determining the issue price of a debt instrument distributed by a corporation with respect to its stock, the instrument is treated as issued by the corporation for property. See section 1275(a)(4). Thus, under section 1273(b)(3), the issue price of a distributed debt instrument that is traded on an established market is its fair market value. The issue price of a distributed debt instrument that is not traded on an established market is determined under section 1274 or section 1273(b)(4).

(2) *Issue date.* The issue date of a debt instrument distributed by a corporation with respect to its stock is the date of the distribution.

(c) *Aggregation of debt instruments*—(1) *General rule.* Except as provided in paragraph (c)(2) of this section, debt instruments issued in connection with the same transaction or related transactions (determined based on all the facts and circumstances) are treated as a single debt instrument for purposes of sections 1271 through 1275 and the regulations thereunder. This rule ordinarily applies only to debt instruments of a single issuer that are issued to a single holder. The Commissioner may, however, aggregate debt instruments that are issued by more than one issuer or that are issued to more than one holder if the debt instruments are issued in an arrangement that is designed to avoid the aggregation rule (e.g., debt instruments issued by or to related parties or debt instruments originally issued to different holders with the understanding that the debt instruments will be transferred to a single holder).

(2) *Exception if separate issue price established.* Paragraph (c)(1) of this section does not apply to a debt instrument if—

(i) The debt instrument is part of an issue a substantial portion of which is traded on an established market within the meaning of § 1.1273–2(f); or

(ii) The debt instrument is part of an issue a substantial portion of which is issued for money (or for property traded on an established market within the meaning of § 1.1273–2(f)) to parties who are not related to the issuer or holder and who do not purchase other debt instruments of the same issuer in connection with the same transaction or related transactions.

(3) *Special rule for debt instruments that provide for the issuance of additional debt instruments.* If, under the terms of a debt instrument (the original debt instrument), the holder may receive one or more additional debt instruments of the issuer, the additional debt instrument or instruments are aggregated with the original debt instrument.

Thus, the payments made pursuant to an additional debt instrument are treated as made on the original debt instrument, and the distribution by the issuer of the additional debt instrument is not considered to be a payment made on the original debt instrument. This paragraph (c)(3) applies regardless of whether the right to receive an additional debt instrument is fixed as of the issue date or is contingent upon subsequent events. See §1.1272–1(c) for the treatment of certain rights to issue additional debt instruments in lieu of cash payments.

(4) *Examples.* The following examples illustrate the rules set forth in paragraphs (c)(1) and (c)(2) of this section.

Example 1. Exception for debt instruments issued separately to other purchasers. On January 1, 1995, Corporation M issues two series of bonds, Series A and Series B. The two series are sold for cash and have different terms. Although some holders purchase bonds from both series, a substantial portion of the bonds is issued to different holders. H purchases bonds from both series. Under the exception in paragraph (c)(2)(ii) of this section, the Series A and Series B bonds purchased by H are not aggregated.

Example 2. Tiered REMICs. Z forms a dual tier real estate mortgage investment conduit (REMIC). In the dual tier structure, Z forms REMIC A to acquire a pool of real estate mortgages and to issue a residual interest and several classes of regular interests. Contemporaneously, Z forms REMIC B to acquire as qualified mortgages all of the regular interests in REMIC A. REMIC B issues several classes of regular interests and a residual interest, and Z sells all of those interests to unrelated parties in a public offering. Under the general rule set out in paragraph (c)(1) of this section, all of the regular interests issued by REMIC A and held by REMIC B are treated as a single debt instrument for purposes of sections 1271 through 1275.

(d) *Special rules for Treasury securities*—(1) *Issue price and issue date.* The issue price of an issue of Treasury securities is the average price of the debt instruments sold. The issue date of an issue of Treasury securities is the first settlement date on which a substantial amount of the securities in the issue is sold.

(2) *Reopenings of Treasury securities*—(i) *Treatment of additional Treasury securities.* Additional Treasury securities issued in a qualified reopening are part of the same issue as the original Treasury securities and have the same issue date as the original Treasury securities. The issue price of both the original Treasury securities and the additional Treasury securities is the average price at which the original Treasury securities were sold. This paragraph (d)(2) applies to qualified reopenings that occur on or after March 25, 1992.

(ii) *Definitions*—(A) *Additional Treasury securities.* Additional Treasury securities are Treasury securities with terms that are in all respects identical to the terms of the original Treasury securities and that are issued (without regard to paragraph (d)(2)(i) of this section) not more than 12 months after the original Treasury securities were first issued to the public.

(B) *Original Treasury securities.* Original Treasury securities are securities comprising any issue of outstanding Treasury securities.

(C) *Qualified reopening.* A qualified reopening is a reopening of Treasury securities intended to alleviate an acute, protracted shortage of the original Treasury securities.

(e) *Disclosure of certain information to holders.* Certain provisions of the regulations under section 163(e) and sections 1271 through 1275 provide that the issuer's determination of an item controls the holder's treatment of the item. In such a case, the issuer must provide the relevant information to the holder in a reasonable manner. For example, the issuer may provide the name or title and either the address or telephone number of a representative of the issuer who will make available to holders upon request the information required for holders to comply with these provisions of the regulations.

(f) *Treatment of pro rata prepayments*—(1) *Treatment as retirement of separate debt instrument.* A pro rata prepayment is treated as a payment in retirement of a portion of a debt instrument, which may result in a gain or loss to the holder. Generally, the gain or loss is calculated by assuming that the original debt instrument consists of two instruments, one that is retired and one that remains outstanding. The adjusted issue price, holder's adjusted basis, and accrued but unpaid OID of the original debt instrument, determined immediately before the pro rata prepayment, are allocated between these two instruments based on the portion of the instrument that is treated as retired by the pro rata prepayment.

(2) *Definition of pro rata prepayment.* For purposes of paragraph (f)(1) of this section, a pro rata prepayment is a payment on a debt instrument made prior to maturity that—

(i) Is not made pursuant to the instrument's payment schedule (including a payment schedule determined under § 1.1272–1(c)); and

(ii) Results in a substantially pro rata reduction of each payment remaining to be paid on the instrument.

(g) *Anti-abuse rule*—(1) *In general.* If a principal purpose in structuring a debt instrument or engaging in a transaction is to achieve a result that is unreasonable in light of the purposes of section 163(e), sections 1271 through 1275, or any related section of the Code, the Commissioner can apply or depart from the regulations under the applicable sections as necessary or appropriate to achieve a reasonable result. For example, if this paragraph (g) applies to a debt instrument that provides for a contingent payment, the Commissioner can treat the contingency as if it were a separate position.

(2) *Unreasonable result.* Whether a result is unreasonable is determined based on all the facts and circumstances. In making this determination, a significant fact is whether the treatment of the debt instrument is expected to have a substantial effect on the issuer's or a holder's U.S. tax liability. In the case of a contingent payment debt instrument, another significant fact is whether the result is obtainable without the application of § 1.1275–4 and any related provisions (e.g., if the debt instrument and the contingency were entered into separately). A result will not be considered unreasonable, however, in the absence of an expected substantial effect on the present value of a taxpayer's tax liability.

(3) *Examples.* The following examples illustrate the provisions of this paragraph (g):

Example 1. A issues a current-pay, increasing-rate note that provides for an early call option. Although the option is deemed exercised on the call date under § 1.1272–1(c)(5), the option is not expected to be exercised by A. In addition, a principal purpose of including the option in the terms of the note is to limit the amount of interest income includible by the holder in the period prior to the call date by virtue of the option rules in § 1.1272–1(c)(5). Moreover, the application of the option rules is expected to substantially reduce the present value of the holder's tax liability. Based on these facts, the application of § 1.1272–1(c)(5) produces an unreasonable result. Therefore, under this paragraph (g), the Commissioner can apply the regulations (in whole or in part) to the note without regard to § 1.1272–1(c)(5).

Example 2. C, a foreign corporation not subject to U.S. taxation, issues to a U.S. holder a debt instrument that provides for a contingent payment. The debt instrument is issued for cash and is subject to the noncontingent bond method in § 1.1275–4(b). Six months after issuance, C and the holder modify the debt instrument so that there is a deemed reissuance of the instrument under section 1001. The new debt instrument is subject to the rules of § 1.1275–4(c) rather than § 1.1275–4(b). The application of § 1.1275–4(c) is expected to substantially reduce the present value of the holder's tax liability as compared to the application of § 1.1275–4(b). In addition, a principal purpose of the modification is to substantially reduce the present value of the holder's tax liability through the application of § 1.1275–4(c). Based on these facts, the application of § 1.1275–4(c) produces an unreasonable result. Therefore, under this paragraph (g), the Commissioner can apply the noncontingent bond method to the modified debt instrument.

Example 3. D issues a convertible debt instrument rather than an economically equivalent investment unit consisting of a debt instrument and a warrant. The convertible debt instrument is issued at par and provides for annual payments of interest. D issues the convertible debt instrument rather than the investment unit so that the debt instrument would not have OID. See § 1.1273–2(j). In general, this is a reasonable result in light of the purposes of the applicable statutes. Therefore, the Commissioner generally will not use the authority under this paragraph (g) to depart from the application of §1.1273-2(j) in this case.

(4) *Effective date.* This paragraph (g) applies to debt instruments issued on or after August 13, 1996.

(h) *Remote and incidental contingencies*—(1) *In general.* This paragraph (h) applies to a debt instrument if one or more payments on the instrument are subject to either a remote or incidental contingency. Whether a contingency is remote or incidental is determined as of the issue date of the debt instrument, including any date there is a deemed reissuance of the debt instrument under paragraph (h)(6) (ii) or (j) of this section or §1.1272–1(c)(6). Except as otherwise provided, the treatment of the contingency under this paragraph (h) applies for all purposes of sections 163(e) (other than sections 163(e)(5)) and 1271 through 1275 and the regulations thereunder. For purposes of this paragraph (h), the possibility of impairment of a payment by insolvency, default, or similar circumstances is not a contingency.

(2) *Remote contingencies.* A contingency is remote if there is a remote likelihood either that the contingency will occur or that the contingency will not occur. If there is a remote likelihood that the contingency will occur, it is assumed that the contingency will not occur. If there is a remote likelihood that the contingency will not occur, it is assumed that the contingency will occur.

(3) *Incidental contingencies*—(i) *Contingency relating to amount.* A contingency relating to the amount of a payment is incidental if, under all reasonably expected market conditions, the potential amount of the payment is insignificant relative to the total expected amount of the remaining payments on the debt instrument. If a payment on a debt instrument is subject to an incidental contingency described in this paragraph (h)(3)(i), the payment is ignored until the payment is made. However, see paragraph (h)(6)(i)(B) of this section for the treatment of the debt instrument if a change in circumstances occurs prior to the date the payment is made.

(ii) *Contingency relating to time.* A contingency relating to the timing of a payment is incidental if, under all reasonably expected market conditions, the potential difference in the timing of the payment (from the earliest date to the latest date) is insignificant. If a payment on a debt instrument is subject to an incidental contingency described in this paragraph (h)(3)(ii), the payment is treated as made on the earliest date that the payment could be made pursuant to the contingency. If the payment is not made on this date, a taxpayer makes appropriate adjustments to take into account the delay in payment. However, see paragraph (h)(6)(i)(C) of this section for the treatment of the debt instrument if the delay is not insignificant.

(4) *Aggregation rule.* For purposes of paragraph (h)(2) of this section, if a debt instrument provides for multiple contingencies each of which has a remote likelihood of occurring but, when all of the contingencies are considered together, there is a greater than remote likelihood that at least one of the contingencies will occur, none of the contingencies is treated as a remote contingency. For purposes of paragraph (h)(3)(i) of this section, if a debt instrument provides for multiple contingencies each of which is incidental but the potential total amount of all of the payments subject to the contingencies is not, under reasonably expected market conditions, insignificant relative to the total expected amount of the remaining payments on the debt instrument, none of the contingencies is treated as incidental.

(5) *Consistency rule.* For purposes of paragraphs (h) (2) and (3) of this section, the issuer's determination that a contingency is either remote or incidental is binding on all holders. However, the issuer's determination is not binding on a holder that explicitly discloses that its determination is different from the issuer's determination. Unless otherwise prescribed by the Commissioner, the disclosure must be made on a statement attached to the holder's timely filed Federal income tax return for the taxable year that includes the acquisition date of the debt instrument. See §1.1275–2(e) for rules relating to the issuer's obligation to disclose certain information to holders.

(6) *Subsequent adjustments*—(i) Applicability. This paragraph (h)(6) applies to a debt instrument when there is a change in circumstances. For purposes of the preceding sentence, there is a change in circumstances if—

(A) A remote contingency actually occurs or does not occur, contrary to the assumption made in paragraph (h)(2) of this section;

(B) A payment subject to an incidental contingency described in paragraph (h)(3)(i) of this section becomes fixed in an amount that is not insignificant relative to the total expected amount of the remaining payments on the debt instrument; or

(C) A payment subject to an incidental contingency described in paragraph (h)(3)(ii) of this section becomes fixed such that the difference between the assumed payment date and the due date of the payment is not insignificant.

(ii) *In general.* If a change in circumstances occurs, solely for purposes of sections 1272 and 1273, the debt instrument is treated as retired and then reissued on the date of the change in circumstances for an amount equal to the instrument's adjusted issue price on that date.

(iii) *Contingent payment debt instruments.* Notwithstanding paragraph (h)(6)(ii) of this section, in the case of a contingent payment debt instrument subject to § 1.1275–4, if a change in circumstances occurs, no retirement or reissuance is treated as occurring, but any payment that is fixed as a result of the change in circumstances is governed by the rules in § 1.1275–4 that apply when the amount of a contingent payment becomes fixed.

(7) *Effective date.* This paragraph (h) applies to debt instruments issued on or after August 13, 1996.

(i) [Reserved]

(j) *Treatment of certain modifications.* If the terms of a debt instrument are modified to defer one or more payments, and the modification does not cause an exchange under section 1001, then, solely for purposes of sections 1272 and 1273, the debt instrument is treated as retired and then reissued on the date of the modification for an amount equal to the instrument's adjusted issue price on that date. This paragraph (j) applies to debt instruments issued on or after August 13, 1996.

[T.D. 8517, 59 FR 4826, Feb. 2, 1994, as amended by T.D. 8674, 61 FR 30142, June 14, 1996]

§ 1.1275–3 OID information reporting requirements.

(a) *In general.* This section provides legending and information reporting requirements intended to facilitate the reporting of OID.

(b) *Information required to be set forth on face of debt instruments that are not publicly offered*—(1) *In general.* Except as provided in paragraph (b)(4) or paragraph (d) of this section, this paragraph (b) applies to any debt instrument that is not publicly offered (within the meaning of § 1.1275–1(h)), is issued in physical form, and has OID. The issuer of any such debt instrument must legend the instrument by stating on the face of the instrument that the debt instrument was issued with OID. In addition, the issuer must either—

(i) Set forth on the face of the debt instrument the issue price, the amount of OID, the issue date, the yield to maturity, and, in the case of a debt instrument subject to the rules of § 1.1275–4(b), the comparable yield and projected payment schedule; or

(ii) Provide the name or title and either the address or telephone number of a representative of the issuer who will, beginning no later than 10 days after the issue date, promptly make available to holders upon request the information described in paragraph (b)(1)(i) of this section.

(2) *Time for legending.* An issuer may satisfy the requirements of this paragraph (b) by legending the debt instrument when it is first issued in physical form. Legending is not required, however, before the first holder of the debt instrument disposes of the instrument.

(3) *Legend must survive reissuance upon transfer.* Any new physical security that is issued (for example, upon registration of transfer of ownership) must contain any required legend.

(4) *Exceptions.* Paragraph (b)(1) of this section does not apply to debt instruments described in section 1272(a)(2) (relating to debt instruments not subject to the periodic OID inclusion rules), debt instruments issued by natural persons (as defined in § 1.6049–4(f)(2)), REMIC regular interests or other debt instruments subject to section 1272(a)(6), or stripped bonds and coupons within the meaning of section 1286.

(c) *Information required to be reported to Secretary upon issuance of publicly offered debt instruments*—(1) *In general.* Except as provided in paragraph (c)(3) or paragraph (d) of this section, the information reporting requirements of this paragraph (c) apply to any debt instrument that is publicly offered and has original issue discount. The issuer of any such debt instrument must make an information return on the form prescribed by the Commissioner (Form 8281, as of September 2, 1992). The prescribed form must be filed with the Internal Revenue Service in the manner specified on the form. The taxpayer must use the prescribed form even if other information returns are filed using other methods (e.g., electronic media), unless the Commissioner announces otherwise in a revenue procedure.

(2) *Time for filing information return.* The prescribed form must be filed for each issue of publicly offered debt instruments within 30 days after the issue date of the issue.

(3) *Exceptions.* The rules of paragraph (c)(1) of this section do not apply to debt instruments described in section 1272(a)(2), debt instruments issued by natural persons (as defined in §1.6049–4(f)(2)), certificates of deposit, REMIC regular interests or other debt instruments subject to section 1272(a)(6), or (unless otherwise required by the Commissioner pursuant to a revenue ruling or revenue procedure) stripped bonds and coupons (within the meaning of section 1286).

(d) *Application to foreign issuers and U.S. issuers of foreign-targeted debt instruments.* A foreign or domestic issuer is subject to the rules of this section with respect to an issue of debt instruments unless the issue is not offered for sale or resale in the United States in connection with its original issuance.

(e) *Penalties.* See section 6706 for rules relating to the penalty imposed for failure to meet the information reporting requirements imposed by this section.

(f) *Effective date.* Paragraphs (c), (d), and (e) of this section are effective for an issue of debt instruments issued after September 2, 1992.

[T.D. 8431, 57 FR 40322, Sept. 3, 1992; 57 FR 46243, Oct. 7, 1992, as amended by T.D. 8517, 59 FR 4827, Feb. 2, 1994; T.D. 8674, 61 FR 30143, June 14, 1996]

§1.1275–4 Contingent payment debt instruments.

(a) *Applicability*—(1) *In general.* Except as provided in paragraph (a)(2) of this section, this section applies to any debt instrument that provides for one or more contingent payments. In general, paragraph (b) of this section applies to a contingent payment debt instrument that is issued for money or publicly traded property and paragraph (c) of this section applies to a contingent payment debt instrument that is issued for nonpublicly traded property. Paragraph (d) of this section provides special rules for tax-exempt obligations. See §1.1275–6 for a taxpayer's treatment of a contingent payment debt instrument and a hedge.

(2) *Exceptions.* This section does not apply to—

(i) A debt instrument that has an issue price determined under section 1273(b)(4) (e.g., a debt instrument subject to section 483);

(ii) A variable rate debt instrument (as defined in §1.1275–5);

(iii) A debt instrument subject to §1.1272–1(c) (a debt instrument that provides for certain contingencies) or §1.1272–1(d) (a debt instrument that provides for a fixed yield);

(iv) A debt instrument subject to section 988 (except as provided in section 988 and the regulations thereunder);

(v) A debt instrument to which section 1272(a)(6) applies (certain interests in or mortgages held by a REMIC, and certain other debt instruments with payments subject to acceleration);

(vi) A debt instrument (other than a tax-exempt obligation) described in section 1272(a)(2) (e.g., U.S. savings bonds, certain loans between natural persons, and short-term taxable obligations);

(vii) An inflation-indexed debt instrument (as defined in §1.1275–7T); or

(viii) A debt instrument issued pursuant to a plan or arrangement if—

(A) The plan or arrangement is created by a state statute;

(B) A primary objective of the plan or arrangement is to enable the participants to pay for the costs of post-secondary education for themselves or their designated beneficiaries; and

(C) Contingent payments on the debt instrument are related to such objective.

(3) *Insolvency and default.* A payment is not contingent merely because of the possibility of impairment by insolvency, default, or similar circumstances.

(4) *Convertible debt instruments.* A debt instrument does not provide for contingent payments merely because it provides for an option to convert the debt instrument into the stock of the issuer, into the stock or debt of a related party (within the meaning of section 267(b) or 707(b)(1)), or into cash or other property in an amount equal to the approximate value of such stock or debt.

(5) *Remote and incidental contingencies.* A payment is not a contingent payment merely because of a contingency that, as of the issue date, is either remote or incidental. See § 1.1275–2(h) for the treatment of remote and incidental contingencies.

(b) *Noncontingent bond method*—(1) *Applicability.* The noncontingent bond method described in this paragraph (b) applies to a contingent payment debt instrument that has an issue price determined under § 1.1273–2 (e.g., a contingent payment debt instrument that is issued for money or publicly traded property).

(2) *In general.* Under the noncontingent bond method, interest on a debt instrument must be taken into account whether or not the amount of any payment is fixed or determinable in the taxable year. The amount of interest that is taken into account for each accrual period is determined by constructing a projected payment schedule for the debt instrument and applying rules similar to those for accruing OID on a noncontingent debt instrument. If the actual amount of a contingent payment is not equal to the projected amount, appropriate adjustments are made to reflect the difference.

(3) *Description of method.* The following steps describe how to compute the amount of income, deductions, gain, and loss under the noncontingent bond method:

(i) *Step one: Determine the comparable yield.* Determine the comparable yield for the debt instrument under the rules of paragraph (b)(4) of this section. The comparable yield is determined as of the debt instrument's issue date.

(ii) *Step two: Determine the projected payment schedule.* Determine the projected payment schedule for the debt instrument under the rules of paragraph (b)(4) of this section. The projected payment schedule is determined as of the issue date and remains fixed throughout the term of the debt instrument (except under paragraph (b)(9)(ii) of this section, which applies to a payment that is fixed more than 6 months before it is due).

(iii) *Step three: Determine the daily portions of interest.* Determine the daily portions of interest on the debt instrument for a taxable year as follows. The amount of interest that accrues in each accrual period is the product of the comparable yield of the debt instrument (properly adjusted for the length of the accrual period) and the debt instrument's adjusted issue price at the beginning of the accrual period. See paragraph (b)(7)(ii) of this section to determine the adjusted issue price of the debt instrument. The daily portions of interest are determined by allocating to each day in the accrual period the ratable portion of the interest that accrues in the accrual period. Except as modified by paragraph (b)(3)(iv) of this section, the daily portions of interest are includible in income by a holder for each day in the holder's taxable year on which the holder held the debt instrument and are deductible by the issuer for each day during the issuer's taxable year on which the issuer was primarily liable on the debt instrument.

(iv) *Step four: Adjust the amount of income or deductions for differences between projected and actual contingent payments.* Make appropriate adjustments to the amount of income or deductions attributable to the debt instrument in a taxable year for any differences between projected and actual contingent payments. See paragraph (b)(6) of this section to determine the amount of an adjustment and the treatment of the adjustment.

(4) *Comparable yield and projected payment schedule.* This paragraph (b)(4) provides rules for determining the comparable yield and projected payment schedule for a debt instrument.

The comparable yield and projected payment schedule must be supported by contemporaneous documentation showing that both are reasonable, are based on reliable, complete, and accurate data, and are made in good faith.

(i) *Comparable yield*—(A) *In general.* Except as provided in paragraph (b)(4)(i)(B) of this section, the comparable yield for a debt instrument is the yield at which the issuer would issue a fixed rate debt instrument with terms and conditions similar to those of the contingent payment debt instrument (the comparable fixed rate debt instrument), including the level of subordination, term, timing of payments, and general market conditions. For example, if a §1.1275–6 hedge (or the substantial equivalent) is available, the comparable yield is the yield on the synthetic fixed rate debt instrument that would result if the issuer entered into the §1.1275–6 hedge. If a §1.1275–6 hedge (or the substantial equivalent) is not available, but similar fixed rate debt instruments of the issuer trade at a price that reflects a spread above a benchmark rate, the comparable yield is the sum of the value of the benchmark rate on the issue date and the spread. In determining the comparable yield, no adjustments are made for the riskiness of the contingencies or the liquidity of the debt instrument. The comparable yield must be a reasonable yield for the issuer and must not be less than the applicable Federal rate (based on the overall maturity of the debt instrument).

(B) *Presumption for certain debt instruments.* This paragraph (b)(4)(i)(B) applies to a debt instrument if the instrument provides for one or more contingent payments not based on market information and the instrument is part of an issue that is marketed or sold in substantial part to persons for whom the inclusion of interest under this paragraph (b) is not expected to have a substantial effect on their U.S. tax liability. If this paragraph (b)(4)(i)(B) applies to a debt instrument, the instrument's comparable yield is presumed to be the applicable Federal rate (based on the overall maturity of the debt instrument). A taxpayer may overcome this presumption only with clear and convincing evidence that the comparable yield for the debt instrument should be a specific yield (determined using the principles in paragraph (b)(4)(i)(A) of this section) that is higher than the applicable Federal rate. The presumption may not be overcome with appraisals or other valuations of nonpublicly traded property. Evidence used to overcome the presumption must be specific to the issuer and must not be based on comparable issuers or general market conditions.

(ii) *Projected payment schedule.* The projected payment schedule for a debt instrument includes each noncontingent payment and an amount for each contingent payment determined as follows:

(A) *Market-based payments.* If a contingent payment is based on market information (a market-based payment), the amount of the projected payment is the forward price of the contingent payment. The forward price of a contingent payment is the amount one party would agree, as of the issue date, to pay an unrelated party for the right to the contingent payment on the settlement date (e.g., the date the contingent payment is made). For example, if the right to a contingent payment is substantially similar to an exchange-traded option, the forward price is the spot price of the option (the option premium) compounded at the applicable Federal rate from the issue date to the date the contingent payment is due.

(B) *Other payments.* If a contingent payment is not based on market information (a non-market-based payment), the amount of the projected payment is the expected value of the contingent payment as of the issue date.

(C) *Adjustments to the projected payment schedule.* The projected payment schedule must produce the comparable yield. If the projected payment schedule does not produce the comparable yield, the schedule must be adjusted consistent with the principles of this paragraph (b)(4) to produce the comparable yield. For example, the adjusted amounts of non-market-based payments must reasonably reflect the relative expected values of the payments and must not be set to accelerate or defer income or deductions. If the debt instrument contains both market-based and non-market-based payments, adjustments are generally made first to the non-market-based payments because more objective information is available for the market-based payments.

(iii) *Market information.* For purposes of this paragraph (b), market information is any information on which an objective rate can be based under § 1.1275–5(c) (1) or (2).

(iv) *Issuer/holder consistency.* The issuer's projected payment schedule is used to determine the holder's interest accruals and adjustments. The issuer must provide the projected payment schedule to the holder in a manner consistent with the issuer disclosure rules of § 1.1275–2(e). If the issuer does not create a projected payment schedule for a debt instrument or the issuer's projected payment schedule is unreasonable, the holder of the debt instrument must determine the comparable yield and projected payment schedule for the debt instrument under the rules of this paragraph (b)(4). A holder that determines its own projected payment schedule must explicitly disclose this fact and the reason why the holder set its own schedule (e.g., why the issuer's projected payment schedule is unreasonable). Unless otherwise prescribed by the Commissioner, the disclosure must be made on a statement attached to the holder's timely filed Federal income tax return for the taxable year that includes the acquisition date of the debt instrument.

(v) *Issuer's determination respected*—(A) *In general.* If the issuer maintains the contemporaneous documentation required by this paragraph (b)(4), the issuer's determination of the comparable yield and projected payment schedule will be respected unless either is unreasonable.

(B) *Unreasonable determination.* For purposes of paragraph (b)(4)(v)(A) of this section, a comparable yield or projected payment schedule generally will be considered unreasonable if it is set with a purpose to overstate, understate, accelerate, or defer interest accruals on the debt instrument. In a determination of whether a comparable yield or projected payment schedule is unreasonable, consideration will be given to whether the treatment of the debt instrument under this section is expected to have a substantial effect on the issuer's or holder's U.S. tax liability. For example, if a taxable issuer markets a debt instrument to a holder not subject to U.S. taxation, the comparable yield will be given close scrutiny and will not be respected unless contemporaneous documentation shows that the yield is not too high.

(C) *Exception.* Paragraph (b)(4)(v)(A) of this section does not apply to a debt instrument subject to paragraph (b)(4)(i)(B) of this section (concerning a yield presumption for certain debt instruments that provide for non-market-based payments).

(vi) *Examples.* The following examples illustrate the provisions of this paragraph (b)(4). In each example, assume that the instrument described is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the instrument is a debt instrument for Federal income tax purposes.

Example 1. Market-based payment—(i) *Facts.* On December 31, 1996, X corporation issues for $1,000,000 a debt instrument that matures on December 31, 2006. The debt instrument provides for annual payments of interest, beginning in 1997, at the rate of 6 percent and for a payment at maturity equal to $1,000,000 plus the excess, if any, of the price of 10,000 shares of publicly traded stock in an unrelated corporation on the maturity date over $350,000, or less the excess, if any, of $350,000 over the price of 10,000 shares of the stock on the maturity date. On the issue date, the forward price to purchase 10,000 shares of the stock on December 31, 2006, is $350,000.

(ii) *Comparable yield.* Under paragraph (b)(4)(i) of this section, the debt instrument's comparable yield is the yield on the synthetic debt instrument that would result if X corporation entered into a § 1.1275–6 hedge. A § 1.1275–6 hedge in this case is a forward contract to purchase 10,000 shares of the stock on December 31, 2006. If X corporation entered into this hedge, the resulting synthetic debt instrument would yield 6 percent, compounded annually. Thus, the comparable yield on the debt instrument is 6 percent, compounded annually.

(iii) *Projected payment schedule.* Under paragraph (b)(4)(ii) of this section, the projected payment schedule for the debt instrument consists of 10 annual payments of $60,000 and a projected amount for the contingent payment at maturity. Because the right to the contingent payment is based on market information, the projected amount of the contingent payment is the forward price of the payment. The right to the contingent payment is substantially similar to a right to a payment of $1,000,000 combined with a cash-settled forward contract for the purchase of 10,000 shares of the stock for $350,000 on December 31, 2006. Because the forward price to purchase 10,000 shares of the stock on December 31, 2006, is $350,000, the amount to be received or paid under the forward contract is projected to be zero. As a result, the projected amount of the contingent payment at maturity is $1,000,000, consisting of the $1,000,000 base amount and no additional amount to be received or paid under the forward contract.

(A) Assume, alternatively, that on the issue date the forward price to purchase 10,000 shares of the stock on December 31, 2006, is $370,000. If X corporation entered into a §1.1275–6 hedge (a forward contract to purchase the shares for $370,000), the resulting synthetic debt instrument would yield 6.15 percent, compounded annually. Thus, the comparable yield on the debt instrument is 6.15 percent, compounded annually. The projected payment schedule for the debt instrument consists of 10 annual payments of $60,000 and a projected amount for the contingent payment at maturity. The projected amount of the contingent payment is $1,020,000, consisting of the $1,000,000 base amount plus the excess $20,000 of the forward price of the stock over the purchase price of the stock under the forward contract.

(B) Assume, alternatively, that on the issue date the forward price to purchase 10,000 shares of the stock on December 31, 2006, is $330,000. If X corporation entered into a §1.1275–6 hedge, the resulting synthetic debt instrument would yield 5.85 percent, compounded annually. Thus, the comparable yield on the debt instrument is 5.85 percent, compounded annually. The projected payment schedule for the debt instrument consists of 10 annual payments of $60,000 and a projected amount for the contingent payment at maturity. The projected amount of the contingent payment is $980,000, consisting of the $1,000,000 base amount minus the excess $20,000 of the purchase price of the stock under the forward contract over the forward price of the stock.

Example 2. Non-market-based payments—(i) *Facts.* On December 31, 1996, Y issues to Z for $1,000,000 a debt instrument that matures on December 31, 2000. The debt instrument has a stated principal amount of $1,000,000, payable at maturity, and provides for payments on December 31 of each year, beginning in 1997, of $20,000 plus 1 percent of Y's gross receipts, if any, for the year. On the issue date, Y has outstanding fixed rate debt instruments with maturities of 2 to 10 years that trade at a price that reflects an average of 100 basis points over Treasury bonds. These debt instruments have terms and conditions similar to those of the debt instrument. Assume that on December 31, 1996, 4-year Treasury bonds have a yield of 6.5 percent, compounded annually, and that no §1.1275–6 hedge is available for the debt instrument. In addition, assume that the interest inclusions attributable to the debt instrument are expected to have a substantial effect on Z's U.S. tax liability.

(ii) *Comparable yield.* The comparable yield for the debt instrument is equal to the value of the benchmark rate (i.e., the yield on 4-year Treasury bonds) on the issue date plus the spread. Thus, the debt instrument's comparable yield is 7.5 percent, compounded annually.

(iii) *Projected payment schedule.* Y anticipates that it will have no gross receipts in 1997, but that it will have gross receipts in later years, and those gross receipts will grow each year for the next three years. Based on its business projections, Y believes that it is not unreasonable to expect that its gross receipts in 1999 and each year thereafter will grow by between 6 percent and 13 percent over the prior year. Thus, Y must take these expectations into account in establishing a projected payment schedule for the debt instrument that results in a yield of 7.5 percent, compounded annually. Accordingly, Y could reasonably set the following projected payment schedule for the debt instrument:

Date	Noncontingent payment	Contingent payment
12/31/1997	$20,000	$0
12/31/1998	20,000	70,000
12/31/1999	20,000	75,600
12/31/2000	1,020,000	83,850

(5) *Qualified stated interest.* No amounts payable on a debt instrument to which this paragraph (b) applies are qualified stated interest within the meaning of §1.1273–1(c).

(6) *Adjustments.* This paragraph (b)(6) provides rules for the treatment of positive and negative adjustments under the noncontingent bond method. A taxpayer takes into account only those adjustments that occur during a taxable year while the debt instrument is held by the taxpayer or while the taxpayer is primarily liable on the debt instrument.

(i) *Determination of positive and negative adjustments.* If the amount of a contingent payment is more than the projected amount of the contingent payment, the difference is a positive adjustment on the date of the payment. If the amount of a contingent payment is less than the projected amount of the contingent payment, the difference is a negative adjustment on the date of the payment (or on the scheduled date of the payment if the amount of the payment is zero).

(ii) *Treatment of net positive adjustments.* The amount, if any, by which total positive adjustments on a debt instrument in a taxable year exceed the total negative adjustments on the debt instrument in the taxable year is a net positive adjustment. A net positive adjustment is treated as additional interest for the taxable year.

(iii) *Treatment of net negative adjustments.* The amount, if any, by which total negative adjustments on a debt instrument in a taxable year exceed the total positive adjustments on the debt instrument in the taxable year is a net negative adjustment. A taxpayer's net negative adjustment on a debt instrument for a taxable year is treated as follows:

(A) *Reduction of interest accruals.* A net negative adjustment first reduces interest for the taxable year that the taxpayer would otherwise account for on the debt instrument under paragraph (b)(3)(iii) of this section.

(B) *Ordinary income or loss.* If the net negative adjustment exceeds the interest for the taxable year that the taxpayer would otherwise account for on the debt instrument under paragraph (b)(3)(iii) of this section, the excess is treated as ordinary loss by a holder and ordinary income by an issuer. However, the amount treated as ordinary loss by a holder is limited to the amount by which the holder's total interest inclusions on the debt instrument exceed the total amount of the holder's net negative adjustments treated as ordinary loss on the debt instrument in prior taxable years. The amount treated as ordinary income by an issuer is limited to the amount by which the issuer's total interest deductions on the debt instrument exceed the total amount of the issuer's net negative adjustments treated as ordinary income on the debt instrument in prior taxable years.

(C) *Carryforward.* If the net negative adjustment exceeds the sum of the amounts treated by the taxpayer as a reduction of interest and as ordinary income or loss (as the case may be) on the debt instrument for the taxable year, the excess is a negative adjustment carryforward for the taxable year. In general, a taxpayer treats a negative adjustment carryforward for a taxable year as a negative adjustment on the debt instrument on the first day of the succeeding taxable year. However, if a holder of a debt instrument has a negative adjustment carryforward on the debt instrument in a taxable year in which the debt instrument is sold, exchanged, or retired, the negative adjustment carryforward reduces the holder's amount realized on the sale, exchange, or retirement. If an issuer of a debt instrument has a negative adjustment carryforward on the debt instrument for a taxable year in which the debt instrument is retired, the issuer takes the negative adjustment carryforward into account as ordinary income.

(D) *Treatment under section 67.* A net negative adjustment is not subject to section 67 (the 2-percent floor on miscellaneous itemized deductions).

(iv) *Cross-references.* If a holder has a basis in a debt instrument that is different from the debt instrument's adjusted issue price, the holder may have additional positive or negative adjustments under paragraph (b)(9)(i) of this section. If the amount of a contingent payment is fixed more than 6 months before the date it is due, the amount and timing of the adjustment are determined under paragraph (b)(9)(ii) of this section.

(7) *Adjusted issue price, adjusted basis, and retirement*—(i) *In general.* If a debt instrument is subject to the noncontingent bond method, this paragraph (b)(7) provides rules to determine the adjusted issue price of the debt instrument, the holder's basis in the debt instrument, and the treatment of any scheduled or unscheduled retirements. In general, because any difference between the actual amount of a contingent payment and the projected amount of the payment is taken into account as an adjustment to income or deduction, the projected payments are treated as the actual payments for purposes of making adjustments to issue price and basis and determining the amount of any contingent payment made on a scheduled retirement.

(ii) *Definition of adjusted issue price.* The adjusted issue price of a debt instrument is equal to the debt instrument's issue price, increased by the interest previously accrued on the debt instrument under paragraph (b)(3)(iii) of this section (determined without regard to any adjustments taken into account under paragraph (b)(3)(iv) of this section), and decreased by the amount of any noncontingent payment and the projected amount of any contingent payment previously made on the debt instrument. See paragraph (b)(9)(ii) of this section for special rules that apply when a contingent payment is fixed more than 6 months before it is due.

(iii) *Adjustments to basis.* A holder's basis in a debt instrument is increased by the interest previously accrued by the holder on the debt instrument under paragraph (b)(3)(iii) of this section (determined without regard to any adjustments taken into account under paragraph (b)(3)(iv) of this section), and decreased by the amount of any noncontingent payment and the projected amount of any contingent payment previously made on the debt instrument to the holder. See paragraph (b)(9)(i) of this section for special rules that apply when basis is different from adjusted issue price and paragraph (b)(9)(ii) of this section for special rules that apply when a contingent payment is fixed more than 6 months before it is due.

(iv) *Scheduled retirements.* For purposes of determining the amount realized by a holder and the repurchase price paid by the issuer on the scheduled retirement of a debt instrument, a holder is treated as receiving, and the issuer is treated as paying, the projected amount of any contingent payment due at maturity. If the amount paid or received is different from the projected amount, see paragraph (b)(6) of this section for the treatment of the difference by the taxpayer. Under paragraph (b)(6)(iii)(C) of this section, the amount realized by a holder on the retirement of a debt instrument is reduced by any negative adjustment carryforward determined in the taxable year of the retirement.

(v) *Unscheduled retirements.* An unscheduled retirement of a debt instrument (or the receipt of a pro-rata prepayment that is treated as a retirement of a portion of a debt instrument under §1.1275–2(f)) is treated as a repurchase of the debt instrument (or a pro-rata portion of the debt instrument) by the issuer from the holder for the amount paid by the issuer to the holder.

(vi) *Examples.* The following examples illustrate the provisions of paragraphs (b) (6) and (7) of this section. In each example, assume that the instrument described is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the instrument is a debt instrument for Federal income tax purposes.

Example 1. Treatment of positive and negative adjustments—(i) *Facts.* On December 31, 1996, Z, a calendar year taxpayer, purchases a debt instrument subject to this paragraph (b) at original issue for $1,000. The debt instrument's comparable yield is 10 percent, compounded annually, and the projected payment schedule provides for payments of $500 on December 31, 1997 (consisting of a noncontingent payment of $375 and a projected amount of $125) and $660 on December 31, 1998 (consisting of a noncontingent payment of $600 and a projected amount of $60). The debt instrument is a capital asset in the hands of Z.

(ii) *Adjustment in 1997.* Based on the projected payment schedule, Z's total daily portions of interest on the debt instrument are $100 for 1997 (issue price of $1,000 × 10 percent). Assume that the payment actually made on December 31, 1997, is $375, rather than the projected $500. Under paragraph (b)(6)(i) of this section, Z has a negative adjustment of $125 on December 31, 1997, attributable to the difference between the amount of the actual payment and the amount of the projected payment. Because Z has no positive adjustments for 1997, Z has a net negative adjustment of $125 on the debt instrument for 1997. This net negative adjustment reduces to zero the $100 total daily portions of interest Z would otherwise include in income in 1997. Accordingly, Z has no interest income on the debt instrument for 1997. Because Z had no interest inclusions on the debt instrument for prior taxable years, the remaining $25 of the net negative adjustment is a negative adjustment carryforward for 1997 that results in a negative adjustment of $25 on January 1, 1998.

(iii) *Adjustment to issue price and basis.* Z's total daily portions of interest on the debt instrument are $100 for 1997. The adjusted issue price of the debt instrument and Z's adjusted basis in the debt instrument are increased by this amount, despite the fact that

Z does not include this amount in income because of the net negative adjustment for 1997. In addition, the adjusted issue price of the debt instrument and Z's adjusted basis in the debt instrument are decreased on December 31, 1997, by the projected amount of the payment on that date ($500). Thus, on January 1, 1998, Z's adjusted basis in the debt instrument and the adjusted issue price of the debt instrument are $600.

(iv) *Adjustments in 1998.* Based on the projected payment schedule, Z's total daily portions of interest are $60 for 1998 (adjusted issue price of $600 × 10 percent). Assume that the payment actually made on December 31, 1998, is $700, rather than the projected $660. Under paragraph (b)(6)(i) of this section, Z has a positive adjustment of $40 on December 31, 1998, attributable to the difference between the amount of the actual payment and the amount of the projected payment. Because Z also has a negative adjustment of $25 on January 1, 1998, Z has a net positive adjustment of $15 on the debt instrument for 1998 (the excess of the $40 positive adjustment over the $25 negative adjustment). As a result, Z has $75 of interest income on the debt instrument for 1998 (the $15 net positive adjustment plus the $60 total daily portions of interest that are taken into account by Z in that year).

(v) *Retirement.* Based on the projected payment schedule, Z's adjusted basis in the debt instrument immediately before the payment at maturity is $660 ($600 plus $60 total daily portions of interest for 1998). Even though Z receives $700 at maturity, for purposes of determining the amount realized by Z on retirement of the debt instrument, Z is treated as receiving the projected amount of the contingent payment on December 31, 1998. Therefore, Z is treated as receiving $660 on December 31, 1998. Because Z's adjusted basis in the debt instrument immediately before its retirement is $660, Z recognizes no gain or loss on the retirement.

Example 2. Negative adjustment carryforward for year of sale—(i) *Facts.* Assume the same facts as in *Example 1* of this paragraph (b)(7)(vi), except that Z sells the debt instrument on January 1, 1998, for $630.

(ii) *Gain on sale.* On the date the debt instrument is sold, Z's adjusted basis in the debt instrument is $600. Because Z has a negative adjustment of $25 on the debt instrument on January 1, 1998, and has no positive adjustments on the debt instrument in 1998, Z has a net negative adjustment for 1998 of $25. Because Z has not included in income any interest on the debt instrument, the entire $25 net negative adjustment is a negative adjustment carryforward for the taxable year of the sale. Under paragraph (b)(6)(iii)(C) of this section, the $25 negative adjustment carryforward reduces the amount realized by Z on the sale of the debt instrument from $630 to $605. Thus, Z has a gain on the sale of $5 ($605 − $600). Under paragraph (b)(8)(i) of this section, the gain is treated as interest income.

Example 3. Negative adjustment carryforward for year of retirement—(i) *Facts.* Assume the same facts as in *Example 1* of this paragraph (b)(7)(vi), except that the payment actually made on December 31, 1998, is $615, rather than the projected $660.

(ii) *Adjustments in 1998.* Under paragraph (b)(6)(i) of this section, Z has a negative adjustment of $45 on December 31, 1998, attributable to the difference between the amount of the actual payment and the amount of the projected payment. In addition, Z has a negative adjustment of $25 on January 1, 1998. See *Example 1*(ii) of this paragraph (b)(7)(vi). Because Z has no positive adjustments in 1998, Z has a net negative adjustment of $70 for 1998. This net negative adjustment reduces to zero the $60 total daily portions of interest Z would otherwise include in income for 1998. Therefore, Z has no interest income on the debt instrument for 1998. Because Z had no interest inclusions on the debt instrument for 1997, the remaining $10 of the net negative adjustment is a negative adjustment carryforward for 1998 that reduces the amount realized by Z on retirement of the debt instrument.

(iii) *Loss on retirement.* Immediately before the payment at maturity, Z's adjusted basis in the debt instrument is $660. Under paragraph (b)(7)(iv) of this section, Z is treated as receiving the projected amount of the contingent payment, or $660, as the payment at maturity. Under paragraph (b)(6)(iii)(C) of this section, however, this amount is reduced by any negative adjustment carryforward determined for the taxable year of retirement to calculate the amount Z realizes on retirement of the debt instrument. Thus, Z has a loss of $10 on the retirement of the debt instrument, equal to the amount by which Z's adjusted basis in the debt instrument ($660) exceeds the amount Z realizes on the retirement of the debt instrument ($660 minus the $10 negative adjustment carryforward). Under paragraph (b)(8)(ii) of this section, the loss is a capital loss.

(8) *Character on sale, exchange, or retirement*—(i) *Gain.* Any gain recognized by a holder on the sale, exchange, or retirement of a debt instrument subject to this paragraph (b) is interest income.

(ii) *Loss.* Any loss recognized by a holder on the sale, exchange, or retirement of a debt instrument subject to this paragraph (b) is ordinary loss to the extent that the holder's total interest inclusions on the debt instrument exceed the total net negative adjustments on the debt instrument the holder took into account as ordinary loss. Any additional loss is treated as loss from the sale, exchange, or retirement of the debt instrument. However, any loss that would otherwise be ordinary under this paragraph (b)(8)(ii) and that is attributable to the holder's basis that could not be amortized under section 171(b)(4) is loss from the sale, exchange, or retirement of the debt instrument.

(iii) *Special rule if there are no remaining contingent payments on the debt instrument*—(A) *In general.* Notwithstanding paragraphs (b)(8) (i) and (ii) of this section, if, at the time of the sale, exchange, or retirement of the debt instrument, there are no remaining contingent payments due on the debt instrument under the projected payment schedule, any gain or loss recognized by the holder is gain or loss from the sale, exchange, or retirement of the debt instrument. See paragraph (b)(9)(ii) of this section to determine whether there are no remaining contingent payments on a debt instrument that provides for fixed but deferred contingent payments.

(B) *Exception for certain positive adjustments.* Notwithstanding paragraph (b)(8)(iii)(A) of this section, if a positive adjustment on a debt instrument is spread under paragraph (b)(9)(ii) (F) or (G) of this section, any gain recognized by the holder on the sale, exchange, or retirement of the instrument is treated as interest income to the extent of the positive adjustment that has not yet been accrued and included in income by the holder.

(iv) *Examples.* The following examples illustrate the provisions of this paragraph (b)(8). In each example, assume that the instrument described is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the instrument is a debt instrument for Federal income tax purposes.

Example 1. Gain on sale—(i) *Facts.* On January 1, 1998, D, a calendar year taxpayer, sells a debt instrument that is subject to paragraph (b) of this section for $1,350. The projected payment schedule for the debt instrument provides for contingent payments after January 1, 1998. On January 1, 1998, D has an adjusted basis in the debt instrument of $1,200. In addition, D has a negative adjustment carryforward of $50 for 1997 that, under paragraph (b)(6)(iii)(C) of this section, results in a negative adjustment of $50 on January 1, 1998. D has no positive adjustments on the debt instrument on January 1, 1998.

(ii) *Character of gain.* Under paragraph (b)(6) of this section, the $50 negative adjustment on January 1, 1998, results in a negative adjustment carryforward for 1998, the taxable year of the sale of the debt instrument. Under paragraph (b)(6)(iii)(C) of this section, the negative adjustment carryforward reduces the amount realized by D on the sale of the debt instrument from $1,350 to $1,300. As a result, D realizes a $100 gain on the sale of the debt instrument, equal to the $1,300 amount realized minus D's $1,200 adjusted basis in the debt instrument. Under paragraph (b)(8)(i) of this section, the gain is interest income to D.

Example 2. Loss on sale—(i) *Facts.* On December 31, 1996, E, a calendar year taxpayer, purchases a debt instrument at original issue for $1,000. The debt instrument is a capital asset in the hands of E. The debt instrument provides for a single payment on December 31, 1998 (the maturity date of the instrument), of $1,000 plus an amount based on the increase, if any, in the price of a specified commodity over the term of the instrument. The comparable yield for the debt instrument is 9.54 percent, compounded annually, and the projected payment schedule provides for a payment of $1,200 on December 31, 1998. Based on the projected payment schedule, the total daily portions of interest are $95 for 1997 and $105 for 1998.

(ii) *Ordinary loss.* Assume that E sells the debt instrument for $1,050 on December 31, 1997. On that date, E has an adjusted basis in the debt instrument of $1,095 ($1,000 original basis, plus total daily portions of $95 for 1997). Therefore, E realizes a $45 loss on the sale of the debt instrument ($1,050–$1,095). The loss is ordinary to the extent E's total interest inclusions on the debt instrument ($95) exceed the total net negative adjustments on the instrument that E took into account as an ordinary loss. Because E has not had any net negative adjustments on the debt instrument, the $45 loss is an ordinary loss.

(iii) *Capital loss.* Alternatively, assume that E sells the debt instrument for $990 on December 31, 1997. E realizes a $105 loss on the sale of the debt instrument ($990 − $1,095). The loss is ordinary to the extent E's total interest inclusions on the debt instrument ($95) exceed the total net negative adjustments on the instrument that E took into account as an ordinary loss. Because E has not had any net negative adjustments on the debt instrument, $95 of the $105 loss is an ordinary loss. The remaining $10 of the $105 loss is a capital loss.

(9) *Operating rules.* The rules of this paragraph (b)(9) apply to a debt instrument subject to the noncontingent bond method notwithstanding any other rule of this paragraph (b).

(i) *Basis different from adjusted issue price.* This paragraph (b)(9)(i) provides rules for a holder whose basis in a debt instrument is different from the adjusted issue price of the debt instrument (e.g., a subsequent holder that purchases the debt instrument for more or less than the instrument's adjusted issue price).

(A) *General rule.* The holder accrues interest under paragraph (b)(3)(iii) of this section and makes adjustments under paragraph (b)(3)(iv) of this section based on the projected payment schedule determined as of the issue date of the debt instrument. However, upon acquiring the debt instrument, the holder must reasonably allocate any difference between the adjusted issue price and the basis to daily portions of interest or projected payments over the remaining term of the debt instrument. Allocations are taken into account under paragraphs (b)(9)(i) (B) and (C) of this section.

(B) *Basis greater than adjusted issue price.* If the holder's basis in the debt instrument exceeds the debt instrument's adjusted issue price, the amount of the difference allocated to a daily portion of interest or to a projected payment is treated as a negative adjustment on the date the daily portion accrues or the payment is made. On the date of the adjustment, the holder's adjusted basis in the debt instrument is reduced by the amount the holder treats as a negative adjustment under this paragraph (b)(9)(i)(B). See paragraph (b)(9)(ii)(E) of this section for a special rule that applies when a contingent payment is fixed more than 6 months before it is due.

(C) *Basis less than adjusted issue price.* If the holder's basis in the debt instrument is less than the debt instrument's adjusted issue price, the amount of the difference allocated to a daily portion of interest or to a projected payment is treated as a positive adjustment on the date the daily portion accrues or the payment is made. On the date of the adjustment, the holder's adjusted basis in the debt instrument is increased by the amount the holder treats as a positive adjustment under this paragraph (b)(9)(i)(C). See paragraph (b)(9)(ii)(E) of this section for a special rule that applies when a contingent payment is fixed more than 6 months before it is due.

(D) *Premium and discount rules do not apply.* The rules for accruing premium and discount in sections 171, 1272(a)(7), 1276, and 1281 do not apply. Other rules of those sections, such as section 171(b)(4), continue to apply to the extent relevant.

(E) *Safe harbor for exchange listed debt instruments.* If the debt instrument is exchange listed property (within the meaning of § 1.1273–2(f)(2)), it is reasonable for the holder to allocate any difference between the holder's basis and the adjusted issue price of the debt instrument pro-rata to daily portions of interest (as determined under paragraph (b)(3)(iii) of this section) over the remaining term of the debt instrument. A pro-rata allocation is not reasonable, however, to the extent the holder's yield on the debt instrument, determined after taking into account the amounts allocated under this paragraph (b)(9)(i)(E), is less than the applicable Federal rate for the instrument. For purposes of the preceding sentence, the applicable Federal rate for the debt instrument is determined as if the purchase date were the issue date and the remaining term of the instrument were the term of the instrument.

(F) *Examples.* The following examples illustrate the provisions of this paragraph (b)(9)(i). In each example, assume that the instrument described is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the instrument is a debt instrument for Federal income tax purposes. In addition, assume that each instrument is not exchange listed property.

Example 1. Basis greater than adjusted issue price—(i) *Facts.* On July 1, 1998, Z purchases for $1,405 a debt instrument that matures on December 31, 1999, and promises to pay on the maturity date $1,000 plus the increase, if any, in the price of a specified amount of a commodity from the issue date to the maturity date. The debt instrument was originally issued on December 31, 1996, for an issue price of $1,000. The comparable yield for the debt instrument is 10.25 percent, compounded semiannually, and the projected payment schedule for the debt instrument (determined as of the issue date) provides for a single payment at maturity of $1,350. At the time of the purchase, the debt instrument has an adjusted issue price of $1,162, assuming semiannual accrual periods ending on December 31 and June 30 of each year. The increase in the value of the debt instrument over its adjusted issue price is due to an increase in the expected amount of the contingent payment and not to a decrease in market interest rates. The debt instrument is a capital asset in the hands of Z. Z is a calendar year taxpayer.

(ii) *Allocation of the difference between basis and adjusted issue price.* Z's basis in the debt instrument on July 1, 1998, is $1,405. Under paragraph (b)(9)(i)(A) of this section, Z allocates the $243 difference between basis ($1,405) and adjusted issue price ($1,162) to the contingent payment at maturity. Z's allocation of the difference between basis and adjusted issue price is reasonable because the increase in the value of the debt instrument over its adjusted issue price is due to an increase in the expected amount of the contingent payment.

(iii) *Treatment of debt instrument for 1998.* Based on the projected payment schedule, $60 of interest accrues on the debt instrument from July 1, 1998 to December 31, 1998 (the product of the debt instrument's adjusted issue price on July 1, 1998 ($1,162) and the comparable yield properly adjusted for the length of the accrual period (10.25 percent/2)). Z has no net negative or positive adjustments for 1998. Thus, Z includes in income $60 of total daily portions of interest for 1998. On December 31, 1998, Z's adjusted basis in the debt instrument is $1,465 ($1,405 original basis, plus total daily portions of $60 for 1998).

(iv) *Effect of allocation to contingent payment at maturity.* Assume that the payment actually made on December 31, 1999, is $1,400, rather than the projected $1,350. Thus, under paragraph (b)(6)(i) of this section, Z has a positive adjustment of $50 on December 31, 1999. In addition, under paragraph (b)(9)(i)(B) of this section, Z has a negative adjustment of $243 on December 31, 1999, which is attributable to the difference between Z's basis in the debt instrument on July 1, 1998, and the instrument's adjusted issue price on that date. As a result, Z has a net negative adjustment of $193 for 1999. This net negative adjustment reduces to zero the $128 total daily portions of interest Z would otherwise include in income in 1999. Accordingly, Z has no interest income on the debt instrument for 1999. Because Z had $60 of interest inclusions for 1998, $60 of the remaining $65 net negative adjustment is treated by Z as an ordinary loss for 1999. The remaining $5 of the net negative adjustment is a negative adjustment carryforward for 1999 that reduces the amount realized by Z on the retirement of the debt instrument from $1,350 to $1,345.

(v) *Loss at maturity.* On December 31, 1999, Z's basis in the debt instrument is $1,350 ($1,405 original basis, plus total daily portions of $60 for 1998 and $128 for 1999, minus the negative adjustment of $243). As a result, Z realizes a loss of $5 on the retirement of the debt instrument (the difference between the amount realized on the retirement ($1,345) and Z's adjusted basis in the debt instrument ($1,350)). Under paragraph (b)(8)(ii) of this section, the $5 loss is treated as loss from the retirement of the debt instrument. Consequently, Z realizes a total loss of $65 on the debt instrument for 1999 (a $60 ordinary loss and a $5 capital loss).

Example 2. Basis less than adjusted issue price—(i) *Facts.* On January 1, 1999, Y purchases for $910 a debt instrument that pays 7 percent interest semiannually on June 30 and December 31 of each year, and that promises to pay on December 31, 2001, $1,000 plus or minus $10 times the positive or negative difference, if any, between a specified amount and the value of an index on December 31, 2001. However, the payment on December 31, 2001, may not be less than $650. The debt instrument was originally issued on December 31, 1996, for an issue price of $1,000. The comparable yield for the debt instrument is 9.80 percent, compounded semiannually, and the projected payment schedule for the debt instrument (determined as of the issue date) provides for semiannual payments of $35 and a contingent payment at maturity of $1,175. On January 1, 1999, the debt instrument has an adjusted issue price of $1,060, assuming semiannual accrual periods ending on December 31 and June 30 of each year. Y is a calendar year taxpayer.

(ii) *Allocation of the difference between basis and adjusted issue price.* Y's basis in the debt instrument on January 1, 1999, is $910. Under paragraph (b)(9)(i)(A) of this section, Y must allocate the $150 difference between basis ($910) and adjusted issue price ($1,060) to daily portions of interest or to projected payments. These amounts will be positive adjustments taken into account at the time the daily portions accrue or the payments are made.

(A) Assume that, because of a decrease in the relevant index, the expected value of the payment at maturity has declined by about 9 percent. Based on forward prices on January 1, 1999, Y determines that approximately $105 of the difference between basis and adjusted issue price is allocable to the contingent payment. Y allocates the remaining $45 to daily portions of interest on a pro-rata basis (i.e., the amount allocated to an accrual period equals the product of $45 and a fraction, the numerator of which is the total daily portions for the accrual period and the denominator of which is the total daily portions remaining on the debt instrument on January 1, 1999). This allocation is reasonable.

(B) Assume alternatively that, based on yields of comparable debt instruments and its purchase price for the debt instrument, Y determines that an appropriate yield for the debt instrument is 13 percent, compounded semiannually. Based on this determination, Y allocates $55.75 of the difference between basis and adjusted issue price to daily portions of interest as follows: $15.19 to the daily portions of interest for the taxable year ending December 31, 1999; $18.40 to the daily portions of interest for the taxable year ending December 31, 2000; and $22.16 to the daily portions of interest for the taxable year ending December 31, 2001. Y allocates the remaining $94.25 to the contingent payment at maturity. This allocation is reasonable.

(ii) *Fixed but deferred contingent payments.* This paragraph (b)(9)(ii) provides rules that apply when the amount of a contingent payment becomes fixed before the payment is due. For purposes of paragraph (b) of this section, if a contingent payment becomes fixed within the 6-month period ending on the due date of the payment, the payment is treated as a contingent payment even after the payment is fixed. If a contingent payment becomes fixed more than 6 months before the payment is due, the following rules apply to the debt instrument.

(A) *Determining adjustments.* The amount of the adjustment attributable to the contingent payment is equal to the difference between the present value of the amount that is fixed and the present value of the projected amount of the contingent payment. The present value of each amount is determined by discounting the amount from the date the payment is due to the date the payment becomes fixed, using a discount rate equal to the comparable yield on the debt instrument. The adjustment is treated as a positive or negative adjustment, as appropriate, on the date the contingent payment becomes fixed. See paragraph (b)(9)(ii)(G) of this section to determine the timing of the adjustment if all remaining contingent payments on the debt instrument become fixed substantially contemporaneously.

(B) *Payment schedule.* The contingent payment is no longer treated as a contingent payment after the date the amount of the payment becomes fixed. On the date the contingent payment becomes fixed, the projected payment schedule for the debt instrument is modified prospectively to reflect the fixed amount of the payment. Therefore, no adjustment is made under paragraph (b)(3)(iv) of this section when the contingent payment is actually made.

(C) *Accrual period.* Notwithstanding the determination under § 1.1272–1(b)(1)(ii) of accrual periods for the debt instrument, an accrual period ends on the day the contingent payment becomes fixed, and a new accrual period begins on the day after the day the contingent payment becomes fixed.

(D) *Adjustments to basis and adjusted issue price.* The amount of any positive adjustment on a debt instrument determined under paragraph (b)(9)(ii)(A) of this section increases the adjusted issue price of the instrument and the holder's adjusted basis in the instrument. Similarly, the amount of any negative adjustment on a debt instrument determined under paragraph (b)(9)(ii)(A) of this section decreases the adjusted issue price of the instrument and the holder's adjusted basis in the instrument.

(E) *Basis different from adjusted issue price.* If a holder's basis in a debt instrument exceeds the debt instrument's adjusted issue price, the amount allocated to a projected payment under paragraph (b)(9)(i) of this section is treated as a negative adjustment on the date the payment becomes fixed. If a holder's basis in a debt instrument is less than the debt instrument's adjusted issue price, the amount allocated to a projected payment under paragraph (b)(9)(i) of this section is treated as a positive adjustment on the date the payment becomes fixed.

(F) *Special rule for certain contingent interest payments.* Notwithstanding paragraph (b)(9)(ii)(A) of this section, this paragraph (b)(9)(ii)(F) applies to contingent stated interest payments that are adjusted to compensate for contingencies regarding the reasonableness of the debt instrument's stated rate of interest. For example, this paragraph (b)(9)(ii)(F) applies to a debt instrument that provides for an increase in the stated rate of interest if the credit quality of the issuer or liquidity of the debt instrument deteriorates. Contingent stated interest payments of this type are recognized over the period to which they relate in a reasonable manner.

(G) *Special rule when all contingent payments become fixed.* Notwithstanding paragraph (b)(9)(ii)(A) of this section, if all the remaining contingent payments on a debt instrument become fixed substantially contemporaneously, any positive or negative adjustments on the instrument are taken into account in a reasonable manner over the period to which they relate. For purposes of the preceding sentence, a payment is treated as a fixed payment if all remaining contingencies with respect to the payment are remote or incidental (within the meaning of §1.1275–2(h)).

(H) *Example.* The following example illustrates the provisions of this paragraph (b)(9)(ii). In this example, assume that the instrument described is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the instrument is a debt instrument for Federal income tax purposes.

Example: Fixed but deferred payments—(i) *Facts.* On December 31, 1996, B, a calendar year taxpayer, purchases a debt instrument at original issue for $1,000. The debt instrument matures on December 31, 2002, and provides for a payment of $1,000 at maturity. In addition, on December 31, 1999, and December 31, 2002, the debt instrument provides for payments equal to the excess of the average daily value of an index for the 6-month period ending on September 30 of the preceding year over a specified amount. The debt instrument's comparable yield is 10 percent, compounded annually, and the instrument's projected payment schedule consists of a payment of $250 on December 31, 1999, and a payment of $1,439 on December 31, 2002. B uses annual accrual periods.

(ii) *Interest accrual for 1997.* Based on the projected payment schedule, B includes a total of $100 of daily portions of interest in income in 1997. B's adjusted basis in the debt instrument and the debt instrument's adjusted issue price on December 31, 1997, is $1,100.

(iii) *Interest accrual for 1998*—(A) *Adjustment.* Based on the projected payment schedule, B would include $110 of total daily portions of interest in income in 1998. However, assume that on September 30, 1998, the payment due on December 31, 1999, fixes at $300, rather than the projected $250. Thus, on September 30, 1998, B has an adjustment equal to the difference between the present value of the $300 fixed amount and the present value of the $250 projected amount of the contingent payment. The present values of the two payments are determined by discounting each payment from the date the payment is due (December 31, 1999) to the date the payment becomes fixed (September 30, 1998), using a discount rate equal to 10 percent, compounded annually. The present value of the fixed payment is $266.30 and the present value of the projected amount of the contingent payment is $221.91. Thus, on September 30, 1998, B has a positive adjustment of $44.39 ($266.30–$221.91).

(B) *Effect of adjustment.* Under paragraph (b)(9)(ii)(C) of this section, B's accrual period ends on September 30, 1998. The daily portions of interest on the debt instrument for the period from January 1, 1998 to September 30, 1998 total $81.51. The adjusted issue price of the debt instrument and B's adjusted basis in the debt instrument are thus increased over this period by $125.90 (the sum of the daily portions of interest of $81.51 and the positive adjustment of $44.39 made at the end of the period) to $1,225.90. For purposes of all future accrual periods, including the new accrual period from October 1, 1998, to December 31, 1998, the debt instrument's projected payment schedule is modified to reflect a fixed payment of $300 on December 31, 1999. Based on the new adjusted issue price of the debt instrument and the new projected payment schedule, the yield on the debt instrument does not change.

(C) *Interest accrual for 1998.* Based on the modified projected payment schedule, $29.56 of interest accrues during the accrual period that ends on December 31, 1998. Because B has no other adjustments during 1998, the $44.39 positive adjustment on September 30, 1998, results in a net positive adjustment for 1998, which is additional interest for that year. Thus, B includes $155.46 ($81.51+$29.56+$44.39) of interest in income in 1998. B's adjusted basis in the debt instrument and the debt instrument's adjusted issue price on December 31, 1998, is $1,255.46 ($1,225.90 from the end of the prior accrual period plus $29.56 total daily portions for the current accrual period).

(iii) *Timing contingencies.* This paragraph (b)(9)(iii) provides rules for debt instruments that have payments that are contingent as to time.

(A) *Treatment of certain options.* If a taxpayer has an unconditional option to put or call the debt instrument, to exchange the debt instrument for other property, or to extend the maturity date of the debt instrument, the projected payment schedule is determined by using the principles of § 1.1272–1(c)(5).

(B) *Other timing contingencies.* [Reserved]

(iv) *Cross-border transactions*—(A) *Allocation of deductions.* For purposes of § 1.861–8, the holder of a debt instrument shall treat any deduction or loss treated as an ordinary loss under paragraph (b)(6)(iii)(B) or (b)(8)(ii) of this section as a deduction that is definitely related to the class of gross income to which income from such debt instrument belongs. Accordingly, if a U.S. person holds a debt instrument issued by a related controlled foreign corporation and, pursuant to section 904(d)(3) and the regulations thereunder, any interest accrued by such U.S. person with respect to such debt instrument would be treated as foreign source general limitation income, any deductions relating to a net negative adjustment will reduce the U.S. person's foreign source general limitation income. The holder shall apply the general rules relating to allocation and apportionment of deductions to any other deduction or loss realized by the holder with respect to the debt instrument.

(B) *Investments in United States real property.* Notwithstanding paragraph (b)(8)(i) of this section, gain on the sale, exchange, or retirement of a debt instrument that is a United States real property interest is treated as gain for purposes of sections 897, 1445, and 6039C.

(v) *Coordination with subchapter M and related provisions.* For purposes of sections 852(c)(2) and 4982 and § 1.852–11, any positive adjustment, negative adjustment, income, or loss on a debt instrument that occurs after October 31 of a taxable year is treated in the same manner as foreign currency gain or loss that is attributable to a section 988 transaction.

(vi) *Coordination with section 1092.* A holder treats a negative adjustment and an issuer treats a positive adjustment as a loss with respect to a position in a straddle if the debt instrument is a position in a straddle and the contingency (or any portion of the contingency) to which the adjustment relates would be part of the straddle if entered into as a separate position.

(c) *Method for debt instruments not subject to the noncontingent bond method*—(1) *Applicability.* This paragraph (c) applies to a contingent payment debt instrument (other than a tax-exempt obligation) that has an issue price determined under § 1.1274–2. For example, this paragraph (c) generally applies to a contingent payment debt instrument that is issued for nonpublicly traded property.

(2) *Separation into components.* If paragraph (c) of this section applies to a debt instrument (the overall debt instrument), the noncontingent payments are subject to the rules in paragraph (c)(3) of this section, and the contingent payments are accounted for separately under the rules in paragraph (c)(4) of this section.

(3) *Treatment of noncontingent payments.* The noncontingent payments are treated as a separate debt instrument. The issue price of the separate debt instrument is the issue price of the overall debt instrument, determined under § 1.1274–2(g). No interest payments on the separate debt instrument are qualified stated interest payments (within the meaning of § 1.1273–1(c)) and the de minimis rules of section 1273(a)(3) and § 1.1273–1(d) do not apply to the separate debt instrument.

(4) *Treatment of contingent payments*—(i) *In general.* Except as provided in paragraph (c)(4)(iii) of this section, the portion of a contingent payment treated as interest under paragraph (c)(4)(ii) of this section is includible in gross income by the holder and deductible from gross income by the issuer in their respective taxable years in which the payment is made.

(ii) *Characterization of contingent payments as principal and interest*—(A) *General rule.* A contingent payment is treated as a payment of principal in an amount equal to the present value of the payment, determined by discounting the payment at the test rate from the date the payment is made to the issue date. The amount of the payment in excess of the amount treated as principal under the preceding sentence is treated as a payment of interest.

(B) *Test rate.* The test rate used for purposes of paragraph (c)(4)(ii)(A) of this section is the rate that would be the test rate for the overall debt instrument under §1.1274–4 if the term of the overall debt instrument began on the issue date of the overall debt instrument and ended on the date the contingent payment is made. However, in the case of a contingent payment that consists of a payment of stated principal accompanied by a payment of stated interest at a rate that exceeds the test rate determined under the preceding sentence, the test rate is the stated interest rate.

(iii) *Certain delayed contingent payments*—(A) *General rule.* Notwithstanding paragraph (c)(4)(ii) of this section, if a contingent payment becomes fixed more than 6 months before the payment is due, the issuer and holder are treated as if the issuer had issued a separate debt instrument on the date the payment becomes fixed, maturing on the date the payment is due. This separate debt instrument is treated as a debt instrument to which section 1274 applies. The stated principal amount of this separate debt instrument is the amount of the payment that becomes fixed. An amount equal to the issue price of this debt instrument is characterized as interest or principal under the rules of paragraph (c)(4)(ii) of this section and accounted for as if this amount had been paid by the issuer to the holder on the date that the amount of the payment becomes fixed. To determine the issue price of the separate debt instrument, the payment is discounted at the test rate from the maturity date of the separate debt instrument to the date that the amount of the payment becomes fixed.

(B) *Test rate.* The test rate used for purposes of paragraph (c)(4)(iii)(A) of this section is determined in the same manner as the test rate under paragraph (c)(4)(ii)(B) of this section is determined except that the date the contingent payment is due is used rather than the date the contingent payment is made.

(5) *Basis different from adjusted issue price.* This paragraph (c)(5) provides rules for a holder whose basis in a debt instrument is different from the instrument's adjusted issue price (e.g., a subsequent holder). This paragraph (c)(5), however, does not apply if the holder is reporting income under the installment method of section 453.

(i) *Allocation of basis.* The holder must allocate basis to the noncontingent component (i.e., the right to the noncontingent payments) and to any separate debt instruments described in paragraph (c)(4)(iii) of this section in an amount up to the total of the adjusted issue price of the noncontingent component and the adjusted issue prices of the separate debt instruments. The holder must allocate the remaining basis, if any, to the contingent component (i.e., the right to the contingent payments).

(ii) *Noncontingent component.* Any difference between the holder's basis in the noncontingent component and the adjusted issue price of the noncontingent component, and any difference between the holder's basis in a separate debt instrument and the adjusted issue price of the separate debt instrument, is taken into account under the rules for market discount, premium, and acquisition premium that apply to a noncontingent debt instrument.

(iii) *Contingent component.* Amounts received by the holder that are treated as principal payments under paragraph (c)(4)(ii) of this section reduce the holder's basis in the contingent component. If the holder's basis in the contingent component is reduced to zero, any additional principal payments on the contingent component are treated as gain from the sale or exchange of the debt instrument. Any basis remaining on the contingent component on the date the final contingent payment is made increases the holder's adjusted basis in the noncontingent component (or, if there are no remaining noncontingent payments, is treated as loss from the sale or exchange of the debt instrument).

(6) *Treatment of a holder on sale, exchange, or retirement.* This paragraph (c)(6) provides rules for the treatment of a holder on the sale, exchange, or retirement of a debt instrument subject to this paragraph (c). Under this paragraph (c)(6), the holder must allocate the amount received from the sale, exchange, or retirement of a debt instrument first to the noncontingent component and to any separate debt instruments described in paragraph (c)(4)(iii)

of this section in an amount up to the total of the adjusted issue price of the noncontingent component and the adjusted issue prices of the separate debt instruments. The holder must allocate the remaining amount received, if any, to the contingent component.

(i) *Amount allocated to the noncontingent component.* The amount allocated to the noncontingent component and any separate debt instruments is treated as an amount realized from the sale, exchange, or retirement of the noncontingent component or separate debt instrument.

(ii) *Amount allocated to the contingent component.* The amount allocated to the contingent component is treated as a contingent payment that is made on the date of the sale, exchange, or retirement and is characterized as interest and principal under the rules of paragraph (c)(4)(ii) of this section.

(7) *Examples.* The following examples illustrate the provisions of this paragraph (c). In each example, assume that the instrument described is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the instrument is a debt instrument for Federal income tax purposes.

Example 1. Contingent interest payments—(i) *Facts.* A owns Blackacre, unencumbered depreciable real estate. On January 1, 1997, A sells Blackacre to B. As consideration for the sale, B makes a downpayment of $1,000,000 and issues to A a debt instrument that matures on December 31, 2001. The debt instrument provides for a payment of principal at maturity of $5,000,000 and a contingent payment of interest on December 31 of each year equal to a fixed percentage of the gross rents B receives from Blackacre in that year. Assume that the debt instrument is not issued in a potentially abusive situation. Assume also that on January 1, 1997, the short-term applicable Federal rate is 5 percent, compounded annually, and the mid-term applicable Federal rate is 6 percent, compounded annually.

(ii) *Determination of issue price.* Under § 1.1274–2(g), the issue price of the debt instrument is $3,736,291, which is the present value, as of the issue date, of the $5,000,000 noncontingent payment due at maturity, calculated using a discount rate equal to the mid-term applicable Federal rate. Under § 1.1012–1(g)(1), B's basis in Blackacre on January 1, 1997, is $4,736,291 ($1,000,000 down payment plus the $3,736,291 issue price of the debt instrument).

(iii) *Noncontingent payment treated as separate debt instrument.* Under paragraph (c)(3) of this section, the right to the noncontingent payment of principal at maturity is treated as a separate debt instrument. The issue price of this separate debt instrument is $3,736,291 (the issue price of the overall debt instrument). The separate debt instrument has a stated redemption price at maturity of $5,000,000 and, therefore, OID of $1,263,709.

(iv) *Treatment of contingent payments.* Assume that the amount of contingent interest that is fixed and paid on December 31, 1997, is $200,000. Under paragraph (c)(4)(ii) of this section, this payment is treated as consisting of a payment of principal of $190,476, which is the present value of the payment, determined by discounting the payment at the test rate of 5 percent, compounded annually, from the date the payment is made to the issue date. The remainder of the $200,000 payment ($9,524) is treated as interest. The additional amount treated as principal gives B additional basis in Blackacre on December 31, 1997. The portion of the payment treated as interest is includible in gross income by A and deductible by B in their respective taxable years in which December 31, 1997 occurs. The remaining contingent payments on the debt instrument are accounted for similarly, using a test rate of 5 percent, compounded annually, for the contingent payments due on December 31, 1998, and December 31, 1999, and a test rate of 6 percent, compounded annually, for the contingent payments due on December 31, 2000, and December 31, 2001.

Example 2. Fixed but deferred payment—(i) *Facts.* The facts are the same as in paragraph (c)(7) *Example 1* of this section, except that the contingent payment of interest that is fixed on December 31, 1997, is not payable until December 31, 2001, the maturity date.

(ii) *Treatment of deferred contingent payment.* Assume that the amount of the payment that becomes fixed on December 31, 1997, is $200,000. Because this amount is not payable until December 31, 2001, under paragraph (c)(4)(iii) of this section, a separate debt instrument to which section 1274 applies is treated as issued by B on December 31, 1997 (the date the payment is fixed). The maturity date of this separate debt instrument is December 31, 2001 (the date on which the payment is due). The stated principal amount of this separate debt instrument is $200,000, the amount of the payment that becomes fixed. The imputed principal amount of the separate debt instrument is $158,419, which is the present value, as of December 31, 1997, of the $200,000 payment, computed using a discount rate equal to the test rate of the overall debt instrument (6 percent, compounded annually). An amount equal to the issue price of the separate debt instrument is treated as an amount paid on December 31, 1997, and characterized as interest and principal under the rules of paragraph (c)(4)(ii) of this section. The amount of the deemed payment characterized as principal is equal to $150,875, which is the present value, as of January 1, 1997 (the issue date of the overall debt instrument), of the deemed payment, computed using a discount rate of 5 percent, compounded annually. The amount of the deemed payment characterized as interest is $7,544 ($158,419 − $150,875), which is includible in gross income by A and deductible by B in their respective taxable years in which December 31, 1997 occurs.

(d) *Rules for tax-exempt obligations*—(1) *In general.* Except as modified by this paragraph (d), the noncontingent bond method described in paragraph (b) of this section applies to a tax-exempt obligation (as defined in section 1275(a)(3)) to which this section applies. Paragraph (d)(2) of this section applies to certain tax-exempt obligations that provide for interest-based payments or revenue-based payments and paragraph (d)(3) of this section applies to all other obligations. Paragraph (d)(4) of this section provides rules for a holder whose basis in a tax-exempt obligation is different from the adjusted issue price of the obligation.

(2) *Certain tax-exempt obligations with interest-based or revenue-based payments*—(i) *Applicability.* This paragraph (d)(2) applies to a tax-exempt obligation that provides for interest-based payments or revenue-based payments.

(ii) *Interest-based payments.* A tax-exempt obligation provides for interest-based payments if the obligation would otherwise qualify as a variable rate debt instrument under §1.1275–5 except that—

(A) The obligation provides for more than one fixed rate;

(B) The obligation provides for one or more caps, floors, or governors (or similar restrictions) that are fixed as of the issue date;

(C) The interest on the obligation is not compounded or paid at least annually; or

(D) The obligation provides for interest at one or more rates equal to the product of a qualified floating rate and a fixed multiple greater than zero and less than .65, or at one or more rates equal to the product of a qualified floating rate and a fixed multiple greater than zero and less than .65, increased or decreased by a fixed rate.

(iii) *Revenue-based payments.* A tax-exempt obligation provides for revenue-based payments if the obligation—

(A) Is issued to refinance (including a series of refinancings) an obligation (in a series of refinancings, the original obligation), the proceeds of which were used to finance a project or enterprise; and

(B) Would otherwise qualify as a variable rate debt instrument under §1.1275–5 except that it provides for stated interest payments at least annually based on a single fixed percentage of the revenue, value, change in value, or other similar measure of the performance of the refinanced project or enterprise.

(iv) *Modifications to the noncontingent bond method.* If a tax-exempt obligation is subject to this paragraph (d)(2), the following modifications to the noncontingent bond method described in paragraph (b) of this section apply to the obligation.

(A) *Daily portions and net positive adjustments.* The daily portions of interest determined under paragraph (b)(3)(iii) of this section and any net positive adjustment on the obligation are interest for purposes of section 103.

(B) *Net negative adjustments.* A net negative adjustment for a taxable year reduces the amount of tax-exempt interest the holder would otherwise account for on the obligation for the taxable year under paragraph (b)(3)(iii) of this section. If the net negative adjustment exceeds this amount, the excess is a nondeductible, noncapitalizable loss. If a regulated investment company (RIC) within the meaning of section 851 has a net negative adjustment in a taxable year that would be a nondeductible, noncapitalizable loss under the prior sentence, the RIC must use this loss to reduce its tax-exempt interest income on other tax-exempt obligations held during the taxable year.

(C) *Gains.* Any gain recognized on the sale, exchange, or retirement of the obligation is gain from the sale or exchange of the obligation.

(D) *Losses.* Any loss recognized on the sale, exchange, or retirement of the obligation is treated the same as a net negative adjustment under paragraph (d)(2)(iv)(B) of this section.

(E) *Special rule for losses and net negative adjustments.* Notwithstanding paragraphs (d)(2)(iv) (B) and (D) of this section, on the sale, exchange, or retirement of the obligation, the holder may claim a loss from the sale or exchange of the obligation to the extent the holder has not received in cash or property the sum of its original investment in the obligation and any amounts included in income under paragraph (d)(4)(ii) of this section.

(3) *All other tax-exempt obligations*—(i) *Applicability*. This paragraph (d)(3) applies to a tax-exempt obligation that is not subject to paragraph (d)(2) of this section.

(ii) *Modifications to the noncontingent bond method.* If a tax-exempt obligation is subject to this paragraph (d)(3), the following modifications to the noncontingent bond method described in paragraph (b) of this section apply to the obligation.

(A) *Modification to projected payment schedule.* The comparable yield for the obligation is the greater of the obligation's yield, determined without regard to the contingent payments, and the tax-exempt applicable Federal rate that applies to the obligation. The Internal Revenue Service publishes the tax-exempt applicable Federal rate for each month in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii) of this chapter).

(B) *Daily portions.* The daily portions of interest determined under paragraph (b)(3)(iii) of this section are interest for purposes of section 103.

(C) *Adjustments.* A net positive adjustment on the obligation is treated as gain to the holder from the sale or exchange of the obligation in the taxable year of the adjustment. A net negative adjustment on the obligation is treated as a loss to the holder from the sale or exchange of the obligation in the taxable year of the adjustment.

(D) *Gains and losses.* Any gain or loss recognized on the sale, exchange, or retirement of the obligation is gain or loss from the sale or exchange of the obligation.

(4) *Basis different from adjusted issue price.* This paragraph (d)(4) provides rules for a holder whose basis in a tax-exempt obligation is different from the adjusted issue price of the obligation. The rules of paragraph (b)(9)(i) of this section do not apply to tax-exempt obligations.

(i) *Basis greater than adjusted issue price.* If the holder's basis in the obligation exceeds the obligation's adjusted issue price, the holder, upon acquiring the obligation, must allocate this difference to daily portions of interest on a yield to maturity basis over the remaining term of the obligation. The amount allocated to a daily portion of interest is not deductible by the holder. However, the holder's basis in the obligation is reduced by the amount allocated to a daily portion of interest on the date the daily portion accrues.

(ii) *Basis less than adjusted issue price.* If the holder's basis in the obligation is less than the obligation's adjusted issue price, the holder, upon acquiring the obligation, must allocate this difference to daily portions of interest on a yield to maturity basis over the remaining term of the obligation. The amount allocated to a daily portion of interest is includible in income by the holder as ordinary income on the date the daily portion accrues. The holder's adjusted basis in the obligation is increased by the amount includible in income by the holder under this paragraph (d)(4)(ii) on the date the daily portion accrues.

(iii) *Premium and discount rules do not apply.* The rules for accruing premium and discount in sections 171, 1276, and 1288 do not apply. Other rules of those sections continue to apply to the extent relevant.

(e) *Amounts treated as interest under this section.* Amounts treated as interest under this section are treated as OID for all purposes of the Internal Revenue Code.

(f) *Effective date.* This section applies to debt instruments issued on or after August 13, 1996.

[T.D. 8674, 61 FR 30143, June 14, 1996, as amended by T.D. 8709, 62 FR 618, Jan. 6, 1997]

§ 1.1275–5 Variable rate debt instruments.

(a) *Applicability*—(1) *In general.* This section provides rules for variable rate debt instruments. Except as provided in paragraph (a)(6) of this section, a variable rate debt instrument is a debt instrument that meets the conditions described in paragraphs (a)(2), (3), (4), and (5) of this section. If a debt instrument that provides for a variable rate of interest does not qualify as a variable rate debt instrument, the debt instrument is a contingent payment debt instrument. See §1.1275–4 for the treatment of a contingent payment debt instrument. See §1.1275–6 for a taxpayer's treatment of a variable rate debt instrument and a hedge.

(2) *Principal payments.* The issue price of the debt instrument must not exceed the total noncontingent principal payments by more than an amount equal to the lesser of—

(i) .015 multiplied by the product of the total noncontingent principal payments and the number of complete years to maturity from the issue date (or, in the case of an installment obligation, the weighted average maturity as defined in §1.1273–1(e)(3)); or

(ii) 15 percent of the total noncontingent principal payments.

(3) *Stated interest*—(i) *General rule.* The debt instrument must not provide for any stated interest other than stated interest (compounded or paid at least annually) at—

(A) One or more qualified floating rates;

(B) A single fixed rate and one or more qualified floating rates;

(C) A single objective rate; or

(D) A single fixed rate and a single objective rate that is a qualified inverse floating rate.

(ii) *Certain debt instruments bearing interest at a fixed rate for an initial period.* If interest on a debt instrument is stated at a fixed rate for an initial period of 1 year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period, and the value of the variable rate on the issue date is intended to approximate the fixed rate, the fixed rate and the variable rate together constitute a single qualified floating rate or objective rate. A fixed rate and a variable rate will be conclusively presumed to meet the requirements of the preceding sentence if the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than .25 percentage points (25 basis points).

(4) *Current value.* The debt instrument must provide that a qualified floating rate or objective rate in effect at any time during the term of the instrument is set at a current value of that rate. A current value is the value of the rate on any day that is no earlier than 3 months prior to the first day on which that value is in effect and no later than 1 year following that first day.

(5) *No contingent principal payments.* Except as provided in paragraph (a)(2) of this section, the debt instrument must not provide for any principal payments that are contingent (within the meaning of §1.1275–4(a)).

(6) *Special rule for debt instruments issued for nonpublicly traded property.* A debt instrument (other than a tax-exempt obligation) that would otherwise qualify as a variable rate debt instrument under this section is not a variable rate debt instrument if section 1274 applies to the instrument and any stated interest payments on the instrument are treated as contingent payments under §1.1274–2. This paragraph (a)(6) applies to debt instruments issued on or after August 13, 1996.

(b) *Qualified floating rate*—(1) *In general.* A variable rate is a qualified floating rate if variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the debt instrument is denominated. The rate may measure contemporaneous variations in borrowing costs for the issuer of the debt instrument or for issuers in general. Except as provided in paragraph (b)(2) of this section, a multiple of a qualified floating rate is not a qualified floating rate. If a debt instrument provides for two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the instrument, the qualified floating rates together constitute a single qualified floating rate. Two or more qualified floating rates will be conclusively presumed to meet the requirements of the preceding sentence if the values of all rates on the issue date are within .25 percentage points (25 basis points) of each other.

(2) *Certain rates based on a qualified floating rate.* For a debt instrument issued on or after August 13, 1996, a variable rate is a qualified floating rate if it is equal to either—

(i) The product of a qualified floating rate described in paragraph (b)(1) of this section and a fixed multiple that is greater than .65 but not more than 1.35; or

(ii) The product of a qualified floating rate described in paragraph (b)(1) of this section and a fixed multiple that is greater than .65 but not more than 1.35, increased or decreased by a fixed rate.

(3) *Restrictions on the stated rate of interest.* A variable rate is not a qualified floating rate if it is subject to a restriction or restrictions on the maximum stated interest rate (cap), a restriction or restrictions on the minimum stated interest rate (floor), a restriction or restrictions on the amount of increase or decrease in the stated interest rate (governor), or other similar restrictions. Notwithstanding the preceding sentence, the following restrictions will not cause a variable rate to fail to be a qualified floating rate—

(i) A cap, floor, or governor that is fixed throughout the term of the debt instrument;

(ii) A cap or similar restriction that is not reasonably expected as of the issue date to cause the yield on the debt instrument to be significantly less than the expected yield determined without the cap;

(iii) A floor or similar restriction that is not reasonably expected as of the issue date to cause the yield on the debt instrument to be significantly more than the expected yield determined without the floor; or

(iv) A governor or similar restriction that is not reasonably expected as of the issue date to cause the yield on the debt instrument to be significantly more or significantly less than the expected yield determined without the governor.

(c) *Objective rate*—(1) *Definition*—(i) *In general.* For debt instruments issued on or after August 13, 1996, an objective rate is a rate (other than a qualified floating rate) that is determined using a single fixed formula and that is based on objective financial or economic information. For example, an objective rate generally includes a rate that is based on one or more qualified floating rates or on the yield of actively traded personal property (within the meaning of section 1092(d)(1)).

(ii) *Exception.* For purposes of paragraph (c)(1)(i) of this section, an objective rate does not include a rate based on information that is within the control of the issuer (or a related party within the meaning of section 267(b) or 707(b)(1)) or that is unique to the circumstances of the issuer (or a related party within the meaning of section 267(b) or 707(b)(1)), such as dividends, profits, or the value of the issuer's stock. However, a rate does not fail to be an objective rate merely because it is based on the credit quality of the issuer.

(2) *Other objective rates to be specified by Commissioner.* The Commissioner may designate in the Internal Revenue Bulletin variable rates other than those described in paragraph (c)(1) of this section that will be treated as objective rates (see § 601.601(d)(2)(ii) of this chapter).

(3) *Qualified inverse floating rate.* An objective rate described in paragraph (c)(1) of this section is a qualified inverse floating rate if—

(i) The rate is equal to a fixed rate minus a qualified floating rate; and

(ii) The variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate (disregarding any restrictions on the rate that are described in paragraphs (b)(3)(i), (b)(3)(ii), (b)(3)(iii), and (b)(3)(iv) of this section).

(4) *Significant front-loading or back-loading of interest.* Notwithstanding paragraph (c)(1) of this section, a variable rate of interest on a debt instrument is not an objective rate if it is reasonably expected that the average value of the rate during the first half of the instrument's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the instrument's term.

(5) *Tax-exempt obligations.* Notwithstanding paragraph (c)(1) of this section, in the case of a tax-exempt obligation (within the meaning of section

1275(a)(3)), a variable rate is an objective rate only if it is a qualified inverse floating rate or a qualified inflation rate. A rate is a qualified inflation rate if the rate measures contemporaneous changes in inflation based on a general inflation index.

(d) *Examples.* The following examples illustrate the rules of paragraphs (b) and (c) of this section. For purposes of these examples, assume that the debt instrument is not a tax-exempt obligation. In addition, unless otherwise provided, assume that the rate is not reasonably expected to result in a significant front-loading or back-loading of interest and that the rate is not based on objective financial or economic information that is within the control of the issuer (or a related party) or that is unique to the circumstances of the issuer (or a related party).

Example 1. Rate based on LIBOR. X issues a debt instrument that provides for annual payments of interest at a rate equal to the value of the 1-year London Interbank Offered Rate (LIBOR) at the end of each year. Variations in the value of 1-year LIBOR over the term of the debt instrument can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds over that term. Accordingly, the rate is a qualified floating rate.

Example 2. Rate increased by a fixed amount. X issues a debt instrument that provides for annual payments of interest at a rate equal to 200 basis points (2 percent) plus the current value, at the end of each year, of the average yield on 1-year Treasury securities as published in Federal Reserve bulletins. Variations in the value of this interest rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds. Accordingly, the rate is a qualified floating rate.

Example 3. Rate based on commercial paper rate. X issues a debt instrument that provides for a rate of interest that is periodically adjusted to equal the current interest rate of Bank's commercial paper. Variations in the value of this interest rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds. Accordingly, the rate is a qualified floating rate.

Example 4. Rate based on changes in the value of a commodity index. On January 1, 1997, X issues a debt instrument that provides for annual interest payments at the end of each year at a rate equal to the percentage increase, if any, in the value of an index for the year immediately preceding the payment. The index is based on the prices of several actively traded commodities. Variations in the value of this interest rate cannot reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds. Accordingly, the rate is not a qualified floating rate. However, because the rate is based on objective financial information using a single fixed formula, the rate is an objective rate.

Example 5. Rate based on a percentage of S&P 500 Index. On January 1, 1997, X issues a debt instrument that provides for annual interest payments at the end of each year based on a fixed percentage of the value of the S&P 500 Index. Variations in the value of this interest rate cannot reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds and, therefore, the rate is not a qualified floating rate. Although the rate is described in paragraph (c)(1)(i) of this section, the rate is not an objective rate because, based on historical data, it is reasonably expected that the average value of the rate during the first half of the instrument's term will be significantly less than the average value of the rate during the final half of the instrument's term.

Example 6. Rate based on issuer's profits. On January 1, 1997, Z issues a debt instrument that provides for annual interest payments equal to 1 percent of Z's gross profits earned during the year immediately preceding the payment. Variations in the value of this interest rate cannot reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds. Accordingly, the rate is not a qualified floating rate. In addition, because the rate is based on information that is unique to the issuer's circumstances, the rate is not an objective rate.

Example 7. Rate based on a multiple of an interest index. On January 1, 1997, Z issues a debt instrument with annual interest payments at a rate equal to two times the value of 1-year LIBOR as of the payment date. Because the rate is a multiple greater than 1.35 times a qualified floating rate, the rate is not a qualified floating rate. However, because the rate is based on objective financial information using a single fixed formula, the rate is an objective rate.

Example 8. Variable rate based on the cost of borrowed funds in a foreign currency. On January 1, 1997, Y issues a 5-year dollar denominated debt instrument that provides for annual interest payments at a rate equal to the value of 1-year French franc LIBOR as of the payment date. Variations in the value of French franc LIBOR do not measure contemporaneous changes in the cost of newly borrowed funds in dollars. As a result, the rate is not a qualified floating rate for an instrument denominated in dollars. However, because the rate is based on objective financial information using a single fixed formula, the rate is an objective rate.

Example 9. Qualified inverse floating rate. On January 1, 1997, X issues a debt instrument that provides for annual interest payments at the end of each year at a rate equal to 12 percent minus the value of 1-year LIBOR as of the payment date. On the issue date, the value of 1-year LIBOR is 6 percent. Because the rate can reasonably be expected to inversely reflect contemporaneous variations in 1-year LIBOR, it is a qualified inverse floating rate. However, if the value of 1-year LIBOR on the issue date were 11 percent rather than 6 percent, the rate would not be a qualified inverse floating rate because the rate could not reasonably be expected to inversely reflect contemporaneous variations in 1-year LIBOR.

Example 10. Rate based on an inflation index. On January 1, 1997, X issues a debt instrument that provides for annual interest payments at the end of each year at a rate equal to 400 basis points (4 percent) plus the annual percentage change in a general inflation index (e.g., the Consumer Price Index, U.S. City Average, All Items, for all Urban Consumers, seasonally unadjusted). The rate, however, may not be less than zero. Variations in the value of this interest rate cannot reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds. Accordingly, the rate is not a qualified floating rate. However, because the rate is based on objective economic information using a single fixed formula, the rate is an objective rate.

(e) *Qualified stated interest and OID with respect to a variable rate debt instrument*—(1) *In general.* This paragraph (e) provides rules to determine the amount and accrual of OID and qualified stated interest on a variable rate debt instrument. In general, the rules convert the debt instrument into a fixed rate debt instrument and then apply the general OID rules to the debt instrument. The issue price of a variable rate debt instrument, however, is not determined under this paragraph (e). See §§ 1.1273–2 and 1.1274–2 to determine the issue price of a variable rate debt instrument.

(2) *Variable rate debt instrument that provides for annual payments of interest at a single variable rate.* If a variable rate debt instrument provides for stated interest at a single qualified floating rate or objective rate and the interest is unconditionally payable in cash or in property (other than debt instruments of the issuer), or will be constructively received under section 451, at least annually, the following rules apply to the instrument:

(i) All stated interest with respect to the debt instrument is qualified stated interest.

(ii) The amount of qualified stated interest and the amount of OID, if any, that accrues during an accrual period is determined under the rules applicable to fixed rate debt instruments by assuming that the variable rate is a fixed rate equal to—

(A) In the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate; or

(B) In the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the debt instrument.

(iii) The qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest assumed to be paid during the accrual period under paragraph (e)(2)(ii) of this section.

(3) *All other variable rate debt instruments except for those that provide for a fixed rate.* If a variable rate debt instrument is not described in paragraph (e)(2) of this section and does not provide for interest payable at a fixed rate (other than an initial fixed rate described in paragraph (a)(3)(ii) of this section), the amount of interest and OID accruals for the instrument are determined under this paragraph (e)(3).

(i) *Step one: Determine the fixed rate substitute for each variable rate provided under the debt instrument*—(A) *Qualified floating rate.* The fixed rate substitute for each qualified floating rate provided for in the debt instrument is the value of each rate as of the issue date. If, however, a variable rate debt instrument provides for two or more qualified floating rates with different intervals between interest adjustment dates, the fixed rate substitutes for the rates must be based on intervals that are equal in length. For example, if a 4-year debt instrument provides for 24 monthly interest payments based on the value of the 30-day commercial paper rate on each payment date followed by 8 quarterly interest payments based on the value of quarterly LIBOR on each payment date, the fixed rate substitutes may be based on the values, as of the issue date, of the 90-day commercial paper rate and quarterly LIBOR. Alternatively, the fixed rate substitutes may be based on the values, as of the issue date, of the 30-day commercial paper rate and monthly LIBOR.

(B) *Qualified inverse floating rate.* The fixed rate substitute for a qualified inverse floating rate is the value of the qualified inverse floating rate as of the issue date.

(C) *Objective rate.* The fixed rate substitute for an objective rate (other than a qualified inverse floating rate) is a fixed rate that reflects the yield that is reasonably expected for the debt instrument.

(ii) *Step two: Construct the equivalent fixed rate debt instrument.* The equivalent fixed rate debt instrument has terms that are identical to those provided under the variable rate debt instrument, except that the equivalent fixed rate debt instrument provides for the fixed rate substitutes (determined in paragraph (e)(3)(i) of this section) in lieu of the qualified floating rates or objective rate provided under the variable rate debt instrument.

(iii) *Step three: Determine the amount of qualified stated interest and OID with respect to the equivalent fixed rate debt instrument.* The amount of qualified stated interest and OID, if any, are determined for the equivalent fixed rate debt instrument under the rules applicable to fixed rate debt instruments and are taken into account as if the holder held the equivalent fixed rate debt instrument.

(iv) *Step four: Make appropriate adjustments for actual variable rates.* Qualified stated interest or OID allocable to an accrual period must be increased (or decreased) if the interest actually accrued or paid during an accrual period exceeds (or is less than) the interest assumed to be accrued or paid during the accrual period under the equivalent fixed rate debt instrument. This increase or decrease is an adjustment to qualified stated interest for the accrual period if the equivalent fixed rate debt instrument (as determined under paragraph (e)(3)(ii) of this section) provides for qualified stated interest and the increase or decrease is reflected in the amount actually paid during the accrual period. Otherwise, this increase or decrease is an adjustment to OID for the accrual period.

(v) *Examples.* The following examples illustrate the rules in paragraphs (e) (2) and (3) of this section:

Example 1. Equivalent fixed rate debt instrument—(i) *Facts.* X purchases at original issue a 6-year variable rate debt instrument that provides for semiannual payments of interest. For the first 3 years, the rate of interest is the value of 6-month LIBOR on the payment date. For the final 3 years, the rate is the value of the 6-month T-bill rate on the payment date. On the issue date, the value of 6-month LIBOR is 3 percent, compounded semiannually, and the 6-month T-bill rate is 2 percent, compounded semiannually.

(ii) *Determination of equivalent fixed rate debt instrument.* Under paragraph (e)(3)(i) of this section, the fixed rate substitute for 6-month LIBOR is 3 percent, compounded semiannually, and the fixed rate substitute for the 6-month T-bill rate is 2 percent, compounded semiannually. Under paragraph (e)(3)(ii) of this section, the equivalent fixed rate debt instrument is a 6-year debt instrument that provides for semiannual payments of interest at 3 percent, compounded semiannually, for the first 3 years followed by 2 percent, compounded semiannually, for the final 3 years.

Example 2. Equivalent fixed rate debt instrument with de minimis OID—(i) *Facts.* Y purchases at original issue, for $100,000, a 4-year variable rate debt instrument that has a stated principal amount of $100,000, payable at maturity. The debt instrument provides for monthly payments of interest at the end of each month. For the first year, the interest rate is the monthly commercial paper rate and for the last 3 years, the interest rate is the monthly commercial paper rate plus 100 basis points. On the issue date, the monthly commercial paper rate is 3 percent, compounded monthly.

(ii) *Equivalent fixed rate debt instrument.* Under paragraph (e)(3)(ii) of this section, the equivalent fixed rate debt instrument for the variable rate debt instrument is a 4-year debt instrument that has an issue price and stated principal amount of $100,000. The equivalent fixed rate debt instrument provides for monthly payments of interest at 3 percent, compounded monthly, for the first year ($250 per month) and monthly payments of interest at 4 percent, compounded monthly, for the last 3 years ($333.33 per month).

(iii) *De minimis OID.* Under §1.1273–1(a), because a portion (100 basis points) of each interest payment in the final 3 years is not a qualified stated interest payment, the equivalent fixed rate debt instrument has OID of

$2,999.88 ($102,999.88 −$100,000). However, under § 1.1273–1(d)(4) (the de minimis rule relating to teaser rates and interest holidays), the stated redemption price at maturity of the equivalent fixed rate debt instrument is $100,999.96 ($100,000 (issue price) plus $999.96 (the greater of the amount of foregone interest ($999.96) and the amount equal to the excess of the instrument's stated principal amount over its issue price ($0)). Thus, the equivalent fixed rate debt instrument is treated as having OID of $999.96 ($100,999.96 −$100,000). Because this amount is less than the de minimis amount of $1,010 (0.0025 multiplied by $100,999.96 multiplied by 4 complete years to maturity), the equivalent fixed rate debt instrument has de minimis OID. Therefore, the variable rate debt instrument has zero OID and all stated interest payments are qualified stated interest payments.

Example 3. Adjustment to qualified stated interest for actual payment of interest—(i) *Facts.* On January 1, 1995, Z purchases at original issue, for $90,000, a variable rate debt instrument that matures on January 1, 1997, and has a stated principal amount of $100,000, payable at maturity. The debt instrument provides for annual payments of interest on January 1 of each year, beginning on January 1, 1996. The amount of interest payable is the value of annual LIBOR on the payment date. The value of annual LIBOR on January 1, 1995, and January 1, 1996, is 5 percent, compounded annually. The value of annual LIBOR on January 1, 1997, is 7 percent, compounded annually.

(ii) *Accrual of OID and qualified stated interest.* Under paragraph (e)(2) of this section, the variable rate debt instrument is treated as a 2-year debt instrument that has an issue price of $90,000, a stated principal amount of $100,000, and interest payments of $5,000 at the end of each year. The debt instrument has $10,000 of OID and the annual interest payments of $5,000 are qualified stated interest payments. Under § 1.1272–1, the debt instrument has a yield of 10.82 percent, compounded annually. The amount of OID allocable to the first annual accrual period (assuming Z uses annual accrual periods) is $4,743.25 (($90,000×.1082)− $5,000), and the amount of OID allocable to the second annual accrual period is $5,256.75 ($100,000−$94,743.25). Under paragraph (e)(2)(iii) of this section, the $2,000 difference between the $7,000 interest payment actually made at maturity and the $5,000 interest payment assumed to be made at maturity under the equivalent fixed rate debt instrument is treated as additional qualified stated interest for the period.

(4) *Variable rate debt instrument that provides for a single fixed rate*—(i) *General rule.* If a variable rate debt instrument provides for stated interest either at one or more qualified floating rates or at a qualified inverse floating rate and in addition provides for stated interest at a single fixed rate (other than an initial fixed rate described in paragraph (a)(3)(ii) of this section), the amount of interest and OID are determined using the method of paragraph (e)(3) of this section, as modified by this paragraph (e)(4). For purposes of paragraphs (e)(3)(i) through (e)(3)(iii) of this section, the variable rate debt instrument is treated as if it provided for a qualified floating rate (or a qualified inverse floating rate, if the debt instrument provides for a qualified inverse floating rate), rather than the fixed rate. The qualified floating rate (or qualified inverse floating rate) replacing the fixed rate must be such that the fair market value of the variable rate debt instrument as of the issue date would be approximately the same as the fair market value of an otherwise identical debt instrument that provides for the qualified floating rate (or qualified inverse floating rate) rather than the fixed rate.

(ii) *Example.* The following example illustrates the rule in paragraph (e)(4)(i) of this section.

Example: Variable rate debt instrument that provides for a single fixed rate—(i) *Facts.* On January 1, 1995, X purchases at original issue, for $100,000, a variable rate debt instrument that matures on January 1, 2001, and that has a stated principal amount of $100,000. The debt instrument provides for payments of interest on January 1 of each year, beginning on January 1, 1996. For the first 4 years, the interest rate is 4 percent, compounded annually, and for the last 2 years the interest rate is the value of 1-year LIBOR, as of the payment date, plus 200 basis points. On January 1, 1995, the value of 1-year LIBOR is 2 percent, compounded annually. In addition, assume that on January 1, 1995, the variable rate debt instrument has approximately the same fair market value as an otherwise identical debt instrument that provides for an interest rate equal to the value of 1-year LIBOR, as of the payment date, for the first 4 years.

(ii) *Equivalent fixed rate debt instrument.* Under paragraph (e)(4)(i) of this section, for purposes of paragraphs (e)(3)(i) through (e)(3)(iii) of this section, the variable rate debt instrument is treated as if it provided for an interest rate equal to the value of 1-year LIBOR, as of the payment date, for the first 4 years. Under paragraph (e)(3)(ii) of this section, the equivalent fixed rate debt instrument for the variable rate debt instrument is a 6-year debt instrument that has an issue price and stated principal amount of $100,000. The equivalent fixed rate debt instrument provides for interest payments of $2,000 for the first 4 years and $4,000 for the last 2 years.

(iii) *Accrual of OID and qualified stated interest.* Under §1.1273–1, the equivalent fixed rate debt instrument has OID of $4,000 because a portion (200 basis points) of each interest payment in the last 2 years is not a qualified stated interest payment. The $4,000 of OID is allocable over the 6-year term of the debt instrument under §1.1272–1. Under paragraph (e)(3)(iv) of this section, the difference between the $4,000 payment made in the first 4 years and the $2,000 payment assumed to be made on the equivalent fixed rate debt instrument in those years is an adjustment to qualified stated interest. In addition, any difference between the amount actually paid in each of the last 2 years and the $4,000 payment assumed to be made on the equivalent fixed rate debt instrument is an adjustment to qualified stated interest.

(f) *Special rule for certain reset bonds.* Notwithstanding paragraph (e) of this section, this paragraph (f) provides a special rule for a variable rate debt instrument that provides for stated interest at a fixed rate for an initial interval, and provides that on the date immediately following the end of the initial interval (the effective date) the stated interest rate will be a rate determined under a procedure (such as an auction procedure) so that the fair market value of the instrument on the effective date will be a fixed amount (the reset value). Solely for purposes of calculating the accrual of OID, the variable rate debt instrument is treated as—

(1) Maturing on the date immediately preceding the effective date for an amount equal to the reset value; and

(2) Reissued on the effective date for an amount equal to the reset value.

[T.D. 8517, 59 FR 4827, Feb. 2, 1994, as amended by T.D. 8674, 61 FR 30153, June 14, 1996]

§1.1275–6 Integration of qualifying debt instruments.

(a) *In general.* This section generally provides for the integration of a qualifying debt instrument with a hedge or combination of hedges if the combined cash flows of the components are substantially equivalent to the cash flows on a fixed or variable rate debt instrument. The integrated transaction is generally subject to the rules of this section rather than the rules to which each component of the transaction would be subject on a separate basis. The purpose of this section is to permit a more appropriate determination of the character and timing of income, deductions, gains, or losses than would be permitted by separate treatment of the components. The rules of this section affect only the taxpayer who holds (or issues) the qualifying debt instrument and enters into the hedge.

(b) *Definitions*—(1) *Qualifying debt instrument.* A qualifying debt instrument is any debt instrument (including an integrated transaction as defined in paragraph (c) of this section) other than—

(i) A tax-exempt obligation as defined in section 1275(a)(3);

(ii) A debt instrument to which section 1272(a)(6) applies (certain interests in or mortgages held by a REMIC, and certain other debt instruments with payments subject to acceleration); or

(iii) A debt instrument that is subject to §1.483–4 or §1.1275–4(c) (certain contingent payment debt instruments issued for nonpublicly traded property).

(2) *Section 1.1275–6 hedge*—(i) *In general.* A §1.1275–6 hedge is any financial instrument (as defined in paragraph (b)(3) of this section) if the combined cash flows of the financial instrument and the qualifying debt instrument permit the calculation of a yield to maturity (under the principles of section 1272), or the right to the combined cash flows would qualify under §1.1275–5 as a variable rate debt instrument that pays interest at a qualified floating rate or rates (except for the requirement that the interest payments be stated as interest). A financial instrument is not a §1.1275–6 hedge, however, if the resulting synthetic debt instrument does not have the same term as the remaining term of the qualifying debt instrument. A financial instrument that hedges currency risk is not a §1.1275–6 hedge.

(ii) *Limitations*—(A) A debt instrument issued by a taxpayer and a debt instrument held by the taxpayer cannot be part of the same integrated transaction.

(B) A debt instrument can be a § 1.1275–6 hedge only if it is issued substantially contemporaneously with, and has the same maturity (including rights to accelerate or delay payments) as, the qualifying debt instrument.

(3) *Financial instrument.* For purposes of this section, a financial instrument is a spot, forward, or futures contract, an option, a notional principal contract, a debt instrument, or a similar instrument, or combination or series of financial instruments. Stock is not a financial instrument for purposes of this section.

(4) *Synthetic debt instrument.* The synthetic debt instrument is the hypothetical debt instrument with the same cash flows as the combined cash flows of the qualifying debt instrument and the § 1.1275–6 hedge.

(c) *Integrated transaction*—(1) *Integration by taxpayer.* Except as otherwise provided in this section, a qualifying debt instrument and a § 1.1275–6 hedge are an integrated transaction if all of the following requirements are satisfied:

(i) The taxpayer satisfies the identification requirements of paragraph (e) of this section on or before the date the taxpayer enters into the § 1.1275–6 hedge.

(ii) None of the parties to the § 1.1275–6 hedge are related within the meaning of section 267(b) or 707(b)(1), or, if the parties are related, the party providing the hedge uses, for Federal income tax purposes, a mark-to-market method of accounting for the hedge and all similar or related transactions.

(iii) Both the qualifying debt instrument and the § 1.1275–6 hedge are entered into by the same individual, partnership, trust, estate, or corporation (regardless of whether the corporation is a member of an affiliated group of corporations that files a consolidated return).

(iv) If the taxpayer is a foreign person engaged in a U.S. trade or business and the taxpayer issues or acquires a qualifying debt instrument, or enters into a § 1.1275–6 hedge, through the trade or business, all items of income and expense associated with the qualifying debt instrument and the § 1.1275–6 hedge (other than interest expense that is subject to § 1.882–5) would have been effectively connected with the U.S. trade or business throughout the term of the qualifying debt instrument had this section not applied.

(v) Neither the qualifying debt instrument, nor any other debt instrument that is part of the same issue as the qualifying debt instrument, nor the § 1.1275–6 hedge was, with respect to the taxpayer, part of an integrated transaction that was terminated or otherwise legged out of within the 30 days immediately preceding the date that would be the issue date of the synthetic debt instrument.

(vi) The qualifying debt instrument is issued or acquired by the taxpayer on or before the date of the first payment on the § 1.1275–6 hedge, whether made or received by the taxpayer (including a payment made to purchase the hedge). If the qualifying debt instrument is issued or acquired by the taxpayer after, but substantially contemporaneously with, the date of the first payment on the § 1.1275–6 hedge, the qualifying debt instrument is treated, solely for purposes of this paragraph (c)(1)(vi), as meeting the requirements of the preceding sentence.

(vii) Neither the § 1.1275–6 hedge nor the qualifying debt instrument was, with respect to the taxpayer, part of a straddle (as defined in section 1092(c)) prior to the issue date of the synthetic debt instrument.

(2) *Integration by Commissioner.* The Commissioner may treat a qualifying debt instrument and a financial instrument (whether entered into by the taxpayer or by a related party) as an integrated transaction if the combined cash flows on the qualifying debt instrument and financial instrument are substantially the same as the combined cash flows required for the financial instrument to be a § 1.1275–6 hedge. The Commissioner, however, may not integrate a transaction unless the qualifying debt instrument either is subject to § 1.1275–4 or is subject to § 1.1275–5 and pays interest at an objective rate. The circumstances under which the Commissioner may require integration include, but are not limited to, the following:

(i) A taxpayer fails to identify a qualifying debt instrument and the

§1.1275–6 hedge under paragraph (e) of this section.

(ii) A taxpayer issues or acquires a qualifying debt instrument and a related party (within the meaning of section 267(b) or 707(b)(1)) enters into the §1.1275–6 hedge.

(iii) A taxpayer issues or acquires a qualifying debt instrument and enters into the §1.1275–6 hedge with a related party (within the meaning of section 267(b) or 707(b)(1)).

(iv) The taxpayer legs out of an integrated transaction and within 30 days enters into a new §1.1275–6 hedge with respect to the same qualifying debt instrument or another debt instrument that is part of the same issue.

(d) *Special rules for legging into and legging out of an integrated transaction*—(1) *Legging into*—(i) *Definition.* Legging into an integrated transaction under this section means that a §1.1275–6 hedge is entered into after the date the qualifying debt instrument is issued or acquired by the taxpayer, and the requirements of paragraph (c)(1) of this section are satisfied on the date the §1.1275–6 hedge is entered into (the leg-in date).

(ii) *Treatment.* If a taxpayer legs into an integrated transaction, the taxpayer treats the qualifying debt instrument under the applicable rules for taking interest and OID into account up to the leg-in date, except that the day before the leg-in date is treated as the end of an accrual period. As of the leg-in date, the qualifying debt instrument is subject to the rules of paragraph (f) of this section.

(iii) *Anti-abuse rule.* If a taxpayer legs into an integrated transaction with a principal purpose of deferring or accelerating income or deductions on the qualifying debt instrument, the Commissioner may—

(A) Treat the qualifying debt instrument as sold for its fair market value on the leg-in date; or

(B) Refuse to allow the taxpayer to integrate the qualifying debt instrument and the §1.1275–6 hedge.

(2) *Legging out*—(i) *Definition*—(A) *Legging out if the taxpayer has integrated.* If a taxpayer has integrated a qualifying debt instrument and a §1.1275–6 hedge under paragraph (c)(1) of this section, legging out means that, prior to the maturity of the synthetic debt instrument, the §1.1275–6 hedge ceases to meet the requirements for a §1.1275–6 hedge, the taxpayer fails to meet any requirement of paragraph (c)(1) of this section, or the taxpayer disposes of or otherwise terminates all or a part of the qualifying debt instrument or §1.1275–6 hedge. If the taxpayer fails to meet the requirements of paragraph (c)(1) of this section but meets the requirements of paragraph (c)(2) of this section, the Commissioner may treat the taxpayer as not legging out.

(B) *Legging out if the Commissioner has integrated.* If the Commissioner has integrated a qualifying debt instrument and a financial instrument under paragraph (c)(2) of this section, legging out means that, prior to the maturity of the synthetic debt instrument, the requirements for Commissioner integration under paragraph (c)(2) of this section are not met or the taxpayer fails to meet the requirements for taxpayer integration under paragraph (c)(1) of this section and the Commissioner agrees to allow the taxpayer to be treated as legging out.

(C) *Exception for certain nonrecognition transactions.* If, in a single nonrecognition transaction, a taxpayer disposes of, or ceases to be primarily liable on, the qualifying debt instrument and the §1.1275–6 hedge, the taxpayer is not treated as legging out. Instead, the integrated transaction is treated under the rules governing the nonrecognition transaction. For example, if a holder of an integrated transaction is acquired in a reorganization under section 368(a)(1)(A), the holder is treated as disposing of the synthetic debt instrument in the reorganization rather than legging out. If the successor holder is not eligible for integrated treatment, the successor is treated as legging out.

(ii) *Operating rules.* If a taxpayer legs out (or is treated as legging out) of an integrated transaction, the following rules apply:

(A) The transaction is treated as an integrated transaction during the time the requirements of paragraph (c) (1) or (2) of this section, as appropriate, are satisfied.

(B) Immediately before the taxpayer legs out, the taxpayer is treated as selling or otherwise terminating the synthetic debt instrument for its fair market value and, except as provided in paragraph (d)(2)(ii)(D) of this section, any income, deduction, gain, or loss is realized and recognized at that time.

(C) If, immediately after the taxpayer legs out, the taxpayer holds or remains primarily liable on the qualifying debt instrument, adjustments are made to reflect any difference between the fair market value of the qualifying debt instrument and the adjusted issue price of the qualifying debt instrument. If, immediately after the taxpayer legs out, the taxpayer is a party to a § 1.1275–6 hedge, the § 1.1275–6 hedge is treated as entered into at its fair market value.

(D) If a taxpayer legs out of an integrated transaction by disposing of or otherwise terminating a § 1.1275–6 hedge within 30 days of legging into the integrated transaction, then any loss or deduction determined under paragraph (d)(2)(ii)(B) of this section is not allowed. Appropriate adjustments are made to the qualifying debt instrument for any disallowed loss. The adjustments are taken into account on a yield to maturity basis over the remaining term of the qualifying debt instrument.

(E) If a holder of a debt instrument subject to § 1.1275–4 legs into an integrated transaction with respect to the instrument and subsequently legs out of the integrated transaction, any gain recognized under paragraph (d)(2)(ii)(B) or (C) of this section is treated as interest income to the extent determined under the principles of § 1.1275–4(b)(8)(iii)(B) (rules for determining the character of gain on the sale of a debt instrument all of the payments on which have been fixed). If the synthetic debt instrument would qualify as a variable rate debt instrument, the equivalent fixed rate debt instrument determined under § 1.1275–5(e) is used for this purpose.

(e) *Identification requirements.* For each integrated transaction, a taxpayer must enter and retain as part of its books and records the following information—

(1) The date the qualifying debt instrument was issued or acquired (or is expected to be issued or acquired) by the taxpayer and the date the § 1.1275–6 hedge was entered into by the taxpayer;

(2) A description of the qualifying debt instrument and the § 1.1275–6 hedge; and

(3) A summary of the cash flows and accruals resulting from treating the qualifying debt instrument and the § 1.1275–6 hedge as an integrated transaction (i.e., the cash flows and accruals on the synthetic debt instrument).

(f) *Taxation of integrated transactions*—(1) *General rule.* An integrated transaction is generally treated as a single transaction by the taxpayer during the period that the transaction qualifies as an integrated transaction. Except as provided in paragraph (f)(12) of this section, while a qualifying debt instrument and a § 1.1275–6 hedge are part of an integrated transaction, neither the qualifying debt instrument nor the § 1.1275–6 hedge is subject to the rules that would apply on a separate basis to the debt instrument and the § 1.1275–6 hedge, including section 1092 or § 1.446–4. The rules that would govern the treatment of the synthetic debt instrument generally govern the treatment of the integrated transaction. For example, the integrated transaction may be subject to section 263(g) or, if the synthetic debt instrument would be part of a straddle, section 1092. Generally, the synthetic debt instrument is subject to sections 163(e) and 1271 through 1275, with terms as set forth in paragraphs (f) (2) through (13) of this section.

(2) *Issue date.* The issue date of the synthetic debt instrument is the first date on which the taxpayer entered into all of the components of the synthetic debt instrument.

(3) *Term.* The term of the synthetic debt instrument is the period beginning on the issue date of the synthetic debt instrument and ending on the maturity date of the qualifying debt instrument.

(4) *Issue price.* The issue price of the synthetic debt instrument is the adjusted issue price of the qualifying debt instrument on the issue date of the synthetic debt instrument. If, as a result of entering into the § 1.1275–6 hedge, the taxpayer pays or receives

one or more payments that are substantially contemporaneous with the issue date of the synthetic debt instrument, the payments reduce or increase the issue price as appropriate.

(5) *Adjusted issue price.* In general, the adjusted issue price of the synthetic debt instrument is determined under the principles of §1.1275–1(b).

(6) *Qualified stated interest.* No amounts payable on the synthetic debt instrument are qualified stated interest within the meaning of §1.1273–1(c).

(7) *Stated redemption price at maturity*—(i) *Synthetic debt instruments that are borrowings.* In general, if the synthetic debt instrument is a borrowing, the instrument's stated redemption price at maturity is the sum of all amounts paid or to be paid on the qualifying debt instrument and the §1.1275–6 hedge, reduced by any amounts received or to be received on the §1.1275–6 hedge.

(ii) *Synthetic debt instruments that are held by the taxpayer.* In general, if the synthetic debt instrument is held by the taxpayer, the instrument's stated redemption price at maturity is the sum of all amounts received or to be received by the taxpayer on the qualifying debt instrument and the §1.1275–6 hedge, reduced by any amounts paid or to be paid by the taxpayer on the §1.1275–6 hedge.

(iii) *Certain amounts ignored.* For purposes of this paragraph (f)(7), if an amount paid or received on the §1.1275–6 hedge is taken into account under paragraph (f)(4) of this section to determine the issue price of the synthetic debt instrument, the amount is not taken into account to determine the synthetic debt instrument's stated redemption price at maturity.

(8) *Source of interest income and allocation of expense.* The source of interest income from the synthetic debt instrument is determined by reference to the source of income of the qualifying debt instrument under sections 861(a)(1) and 862(a)(1). For purposes of section 904, the character of interest from the synthetic debt instrument is determined by reference to the character of the interest income from the qualifying debt instrument. Interest expense is allocated and apportioned under regulations under section 861 or under §1.882–5.

(9) *Effectively connected income.* If the requirements of paragraph (c)(1)(iv) of this section are satisfied, any interest income resulting from the synthetic debt instrument entered into by the foreign person is treated as effectively connected with a U.S. trade or business, and any interest expense resulting from the synthetic debt instrument entered into by the foreign person is allocated and apportioned under §1.882–5.

(10) *Not a short-term obligation.* For purposes of section 1272(a)(2)(C), a synthetic debt instrument is not treated as a short-term obligation.

(11) *Special rules in the event of integration by the Commissioner.* If the Commissioner requires integration, appropriate adjustments are made to the treatment of the synthetic debt instrument, and, if necessary, the qualifying debt instrument and financial instrument. For example, the Commissioner may treat a financial instrument that is not a §1.1275–6 hedge as a §1.1275–6 hedge when applying the rules of this section. The issue date of the synthetic debt instrument is the date determined appropriate by the Commissioner to require integration.

(12) *Retention of separate transaction rules for certain purposes.* This paragraph (f)(12) provides for the retention of separate transaction rules for certain purposes. In addition, by publication in the Internal Revenue Bulletin (see §601.601(d)(2)(ii) of this chapter), the Commissioner may require use of separate transaction rules for any aspect of an integrated transaction.

(i) *Foreign persons that enter into integrated transactions giving rise to U.S. source income not effectively connected with a U.S. trade or business.* If a foreign person enters into an integrated transaction that gives rise to U.S. source interest income (determined under the source rules for the synthetic debt instrument) not effectively connected with a U.S. trade or business of the foreign person, paragraph (f) of this section does not apply for purposes of sections 871(a), 881, 1441, 1442, and 6049. These sections of the Internal Revenue Code are applied to the qualifying debt instrument and the §1.1275–6 hedge on a separate basis.

(ii) *Relationship between taxpayer and other persons.* Because the rules of this section affect only the taxpayer that enters into an integrated transaction (i.e., either the issuer or a particular holder of a qualifying debt instrument), any provisions of the Internal Revenue Code or regulations that govern the relationship between the taxpayer and any other person are applied on a separate basis. For example, taxpayers must comply with any reporting or disclosure requirements on any qualifying debt instrument as if it were not part of an integrated transaction. Thus, if required under § 1.1275–4(b)(4), an issuer of a contingent payment debt instrument subject to integrated treatment must provide the projected payment schedule to holders. Similarly, if a U.S. corporation enters into an integrated transaction that includes a notional principal contract, the source of any payment received by the counterparty on the notional principal contract is determined under § 1.863–7 as if the contract were not part of an integrated transaction, and, if received by a foreign person who is not engaged in a U.S. trade or business, the payment is non-U.S. source income that is not subject to U.S. withholding tax.

(13) *Coordination with consolidated return rules.* If a taxpayer enters into a § 1.1275–6 hedge with a member of the same consolidated group (the counterparty) and the § 1.1275–6 hedge is part of an integrated transaction for the taxpayer, the § 1.1275–6 hedge is not treated as an intercompany transaction for purposes of § 1.1502–13. If the taxpayer legs out of integrated treatment, the taxpayer and the counterparty are each treated as disposing of its position in the § 1.1275–6 hedge under the principles of paragraph (d)(2) of this section. If the § 1.1275–6 hedge remains in existence after the leg-out date, the § 1.1275–6 hedge is treated under the rules that would otherwise apply to the transaction (including § 1.1502–13 if the transaction is between members).

(g) *Predecessors and successors.* For purposes of this section, any reference to a taxpayer, holder, issuer, or person includes, where appropriate, a reference to a predecessor or successor. For purposes of the preceding sentence, a predecessor is a transferor of an asset or liability (including an integrated transaction) to a transferee (the successor) in a nonrecognition transaction. Appropriate adjustments, if necessary, are made in the application of this section to predecessors and successors.

(h) *Examples.* The following examples illustrate the provisions of this section. In each example, assume that the qualifying debt instrument is a debt instrument for Federal income tax purposes. No inference is intended, however, as to whether the debt instrument is a debt instrument for Federal income tax purposes.

Example 1. Issuer hedge—(i) *Facts.* On January 1, 1997, V, a domestic corporation, issues a 5-year debt instrument for $1,000. The debt instrument provides for annual payments of interest at a rate equal to the value of 1-year LIBOR and a principal payment of $1,000 at maturity. On the same day, V enters into a 5-year interest rate swap agreement with an unrelated party. Under the swap, V pays 6 percent and receives 1-year LIBOR on a notional principal amount of $1,000. The payments on the swap are fixed and made on the same days as the payments on the debt instrument. On January 1, 1997, V identifies the debt instrument and the swap as an integrated transaction in accordance with the requirements of paragraph (e) of this section.

(ii) *Eligibility for integration.* The debt instrument is a qualifying debt instrument. The swap is a § 1.1275–6 hedge because it is a financial instrument and a yield to maturity on the combined cash flows of the swap and the debt instrument can be calculated. V has met the identification requirements, and the other requirements of paragraph (c)(1) of this section are satisfied. Therefore, the transaction is an integrated transaction under this section.

(iii) *Treatment of the synthetic debt instrument.* The synthetic debt instrument is a 5-year debt instrument that has an issue price of $1,000 and provides for annual interest payments of $60 and a principal payment of $1,000 at maturity. Under paragraph (f)(6) of this section, no amounts payable on the synthetic debt instrument are qualified stated interest. Thus, under paragraph (f)(7)(i) of this section, the synthetic debt instrument has a stated redemption price at maturity of $1,300 (the sum of all amounts to be paid on the qualifying debt instrument and the swap, reduced by amounts to be received on the swap). The synthetic debt instrument, therefore, has $300 of OID.

Example 2. Issuer hedge with an option—(i) *Facts.* On December 31, 1996, W, a domestic corporation, issues for $1,000 a debt instrument that matures on December 31, 1999. The debt instrument has a stated principal amount of $1,000 payable at maturity. The debt instrument also provides for a payment at maturity equal to $10 times the increase, if any, in the value of a nationally known composite index of stocks from December 31, 1996, to the maturity date. On December 31, 1996, W purchases from an unrelated party an option that pays $10 times the increase, if any, in the stock index from December 31, 1996, to December 31, 1999. W pays $250 for the option. On December 31, 1996, W identifies the debt instrument and option as an integrated transaction in accordance with the requirements of paragraph (e) of this section.

(ii) *Eligibility for integration.* The debt instrument is a qualifying debt instrument. The option is a §1.1275–6 hedge because it is a financial instrument and a yield to maturity on the combined cash flows of the option and the debt instrument can be calculated. W has met the identification requirements, and the other requirements of paragraph (c)(1) of this section are satisfied. Therefore, the transaction is an integrated transaction under this section.

(iii) *Treatment of the synthetic debt instrument.* Under paragraph (f)(4) of this section, the issue price of the synthetic debt instrument is equal to the issue price of the debt instrument ($1,000) reduced by the payment for the option ($250). As a result, the synthetic debt instrument is a 3-year debt instrument with an issue price of $750. Under paragraph (f)(7) of this section, the synthetic debt instrument has a stated redemption price at maturity of $1,000 (the $250 payment for the option is not taken into account). The synthetic debt instrument, therefore, has $250 of OID.

Example 3. Hedge with prepaid swap—(i) *Facts.* On January 1, 1997, H purchases for £1,000 a 5-year debt instrument that provides for semiannual payments based on 6-month pound LIBOR and a payment of the £1,000 principal at maturity. On the same day, H enters into a swap with an unrelated third party under which H receives semiannual payments, in pounds, of 10 percent, compounded semiannually, and makes semiannual payments, in pounds, of 6-month pound LIBOR on a notional principal amount of £1,000. Payments on the swap are fixed and made on the same dates as the payments on the debt instrument. H also makes a £162 prepayment on the swap. On January 1, 1997, H identifies the swap and the debt instrument as an integrated transaction in accordance with the requirements of paragraph (e) of this section.

(ii) *Eligibility for integration.* The debt instrument is a qualifying debt instrument. The swap is a §1.1275–6 hedge because it is a financial instrument and a yield to maturity on the combined cash flows of the swap and the debt instrument can be calculated. Although the debt instrument is denominated in pounds, the swap hedges only interest rate risk, not currency risk. Therefore, the transaction is an integrated transaction under this section. See §1.988–5(a) for the treatment of a debt instrument and a swap if the swap hedges currency risk.

(iii) *Treatment of the synthetic debt instrument.* Under paragraph (f)(4) of this section, the issue price of the synthetic debt instrument is equal to the issue price of the debt instrument (£1,000) increased by the prepayment on the swap (£162). As a result, the synthetic debt instrument is a 5-year debt instrument that has an issue price of £1,162 and provides for semiannual interest payments of £50 and a principal payment of £1,000 at maturity. Under paragraph (f)(6) of this section, no amounts payable on the synthetic debt instrument are qualified stated interest. Thus, under paragraph (f)(7)(ii) of this section, the synthetic debt instrument's stated redemption price at maturity is £1,500 (the sum of all amounts to be received on the qualifying debt instrument and the §1.1275–6 hedge, reduced by all amounts to be paid on the §1.1275–6 hedge other than the £162 prepayment for the swap). The synthetic debt instrument, therefore, has £338 of OID.

Example 4. Legging into an integrated transaction by a holder—(i) *Facts.* On December 31, 1996, X corporation purchases for $1,000,000 a debt instrument that matures on December 31, 2006. The debt instrument provides for annual payments of interest at the rate of 6 percent and for a payment at maturity equal to $1,000,000, increased by the excess, if any, of the price of 1,000 units of a commodity on December 31, 2006, over $350,000, and decreased by the excess, if any, of $350,000 over the price of 1,000 units of the commodity on that date. The projected amount of the payment at maturity determined under §1.1275–4(b)(4) is $1,020,000. On December 31, 1999, X enters into a cash-settled forward contract with an unrelated party to sell 1,000 units of the commodity on December 31, 2006, for $450,000. On December 31, 1999, X also identifies the debt instrument and the forward contract as an integrated transaction in accordance with the requirements of paragraph (e) of this section.

(ii) *Eligibility for integration.* X meets the requirements for integration as of December 31, 1999. Therefore, X legged into an integrated transaction on that date. Prior to that date, X treats the debt instrument under the applicable rules of §1.1275–4.

(iii) *Treatment of the synthetic debt instrument.* As of December 31, 1999, the debt instrument and the forward contract are treated as an integrated transaction. The issue price of the synthetic debt instrument is equal to the adjusted issue price of the qualifying debt instrument on the leg-in date,

$1,004,804 (assuming one year accrual periods). The term of the synthetic debt instrument is from December 31, 1999, to December 31, 2006. The synthetic debt instrument provides for annual interest payments of $60,000 and a principal payment at maturity of $1,100,000 ($1,000,000 + $450,000 − $350,000). Under paragraph (f)(6) of this section, no amounts payable on the synthetic debt instrument are qualified stated interest. Thus, under paragraph (f)(7)(ii) of this section, the synthetic debt instrument's stated redemption price at maturity is $1,520,000 (the sum of all amounts to be received by X on the qualifying debt instrument and the § 1.1275–6 hedge, reduced by all amounts to be paid by X on the § 1.1275–6 hedge). The synthetic debt instrument, therefore, has $515,196 of OID.

Example 5. Abusive leg-in—(i) *Facts.* On January 1, 1997, Y corporation purchases for $1,000,000 a debt instrument that matures on December 31, 2001. The debt instrument provides for annual payments of interest at the rate of 6 percent, a payment on December 31, 1999, of the increase, if any, in the price of a commodity from January 1, 1997, to December 31, 1999, and a payment at maturity of $1,000,000 and the increase, if any, in the price of the commodity from December 31, 1999 to maturity. Because the debt instrument is a contingent payment debt instrument subject to § 1.1275–4, Y accrues interest based on the projected payment schedule.

(ii) *Leg-in.* By late 1999, the price of the commodity has substantially increased, and Y expects a positive adjustment on December 31, 1999. In late 1999, Y enters into an agreement to exchange the two commodity based payments on the debt instrument for two payments on the same dates of $100,000 each. Y identifies the transaction as an integrated transaction in accordance with the requirements of paragraph (e) of this section. Y disposes of the hedge in early 2000.

(iii) *Treatment.* The legging into an integrated transaction has the effect of deferring the positive adjustment from 1999 to 2000. Because Y legged into the integrated transaction with a principal purpose to defer the positive adjustment, the Commissioner may treat the debt instrument as sold for its fair market value on the leg-in date or refuse to allow integration.

Example 6. Integration of offsetting debt instruments—(i) *Facts.* On January 1, 1997, Z issues two 10-year debt instruments. The first, Issue 1, has an issue price of $1,000, pays interest annually at 6 percent, and, at maturity, pays $1,000, increased by $1 times the increase, if any, in the value of the S&P 100 Index over the term of the instrument and reduced by $1 times the decrease, if any, in the value of the S&P 100 Index over the term of the instrument. However, the amount paid at maturity may not be less than $500 or more than $1,500. The second, Issue 2, has an issue price of $1,000, pays interest annually at 8 percent, and, at maturity, pays $1,000, reduced by $1 times the increase, if any, in the value of the S&P 100 Index over the term of the instrument and increased by $1 times the decrease, if any, in the value of the S&P 100 Index over the term of the instrument. The amount paid at maturity may not be less than $500 or more than $1,500. On January 1, 1997, Z identifies Issue 1 as the qualifying debt instrument, Issue 2 as a § 1.1275–6 hedge, and otherwise meets the identification requirements of paragraph (e) of this section.

(ii) *Eligibility for integration.* Both Issue 1 and Issue 2 are qualifying debt instruments. Z has met the identification requirements by identifying Issue 1 as the qualifying debt instrument and Issue 2 as the § 1.1275–6 hedge. The other requirements of paragraph (c)(1) of this section are satisfied. Therefore, the transaction is an integrated transaction under this section.

(iii) *Treatment of the synthetic debt instrument.* The synthetic debt instrument has an issue price of $2,000, provides for a payment at maturity of $2,000, and, in addition, provides for annual payments of $140. Under paragraph (f)(6) of this section, no amounts payable on the synthetic debt instrument are qualified stated interest. Thus, under paragraph (f)(7)(i) of this section, the synthetic debt instrument's stated redemption price at maturity is $3,400 (the sum of all amounts to be paid on the qualifying debt instrument and the § 1.1275–6 hedge, reduced by amounts to be received on the § 1.1275–6 hedge other than the $1,000 payment received on the issue date). The synthetic debt instrument, therefore, has $1,400 of OID.

Example 7. Integrated transaction entered into by a foreign person—(i) *Facts.* X, a foreign person, enters into an integrated transaction by purchasing a qualifying debt instrument that pays U.S. source interest and entering into a notional principal contract with a U.S. corporation. Neither the income from the qualifying debt instrument nor the income from the notional principal contract is effectively connected with a U.S. trade or business. The notional principal contract is a § 1.1275–6 hedge.

(ii) *Treatment of integrated transaction.* Under paragraph (f)(8) of this section, X will receive U.S. source income from the integrated transaction. However, under paragraph (f)(12)(i) of this section, the qualifying debt instrument and the notional principal contract are treated as if they are not part of an integrated transaction for purposes of determining whether tax is due and must be withheld on income. Accordingly, because the § 1.1275–6 hedge would produce foreign source income under § 1.863–7 to X if it were not part of an integrated transaction, any income on the § 1.1275–6 hedge generally will not be subject to tax under sections 871(a) and 881, and the U.S. corporation that is the counterparty will not be required to withhold tax on payments under the §1.1275–6 hedge under sections 1441 and 1442.

(i) [Reserved]

(j) *Effective date.* This section applies to a qualifying debt instrument issued on or after August 13, 1996. This section also applies to a qualifying debt instrument acquired by the taxpayer on or after August 13, 1996, if—

(1) The qualifying debt instrument is a fixed rate debt instrument or a variable rate debt instrument; or

(2) The qualifying debt instrument and the §1.1275–6 hedge are acquired by the taxpayer substantially contemporaneously.

[T.D. 8674, 61 FR 30155, June 14, 1996]

§1.1275–7T Inflation-indexed debt instruments (temporary).

(a) *Overview.* This section provides rules for the Federal income tax treatment of an inflation-indexed debt instrument. If a debt instrument is an inflation-indexed debt instrument, one of two methods will apply to the instrument: the coupon bond method (as described in paragraph (d) of this section) or the discount bond method (as described in paragraph (e) of this section). Both methods determine the amount of OID that is taken into account each year by a holder or an issuer of an inflation-indexed debt instrument.

(b) *Applicability*—(1) *In general.* Except as provided in paragraph (b)(2) of this section, this section applies to an inflation-indexed debt instrument as defined in paragraph (c)(1) of this section. For example, this section applies to Treasury Inflation-Indexed Securities.

(2) *Exceptions.* This section does not apply to an inflation-indexed debt instrument that is also—

(i) A debt instrument (other than a tax-exempt obligation) described in section 1272(a)(2) (for example, U.S. savings bonds, certain loans between natural persons, and short-term taxable obligations); or

(ii) A debt instrument subject to section 529 (certain debt instruments issued by qualified state tuition programs).

(c) *Definitions.* The following definitions apply for purposes of this section:

(1) *Inflation-indexed debt instrument.* An inflation-indexed debt instrument is a debt instrument that satisfies the following conditions:

(i) *Issued for cash.* The debt instrument is issued for U.S. dollars and all payments on the instrument are denominated in U.S. dollars.

(ii) *Indexed for inflation and deflation.* Except for a minimum guarantee payment (as defined in paragraph (c)(5) of this section), each payment on the debt instrument is indexed for inflation and deflation. A payment is indexed for inflation and deflation if the amount of the payment is equal to—

(A) The amount that would be payable if there were no inflation or deflation over the term of the debt instrument, multiplied by

(B) A ratio, the numerator of which is the value of the reference index for the date of the payment and the denominator of which is the value of the reference index for the issue date.

(iii) *No other contingencies.* No payment on the debt instrument is subject to a contingency other than the inflation contingency or the contingencies described in this paragraph (c)(1)(iii). A debt instrument may provide for—

(A) A minimum guarantee payment as defined in paragraph (c)(5) of this section; or

(B) Payments under one or more alternate payment schedules if the payments under each payment schedule are indexed for inflation and deflation and a payment schedule for the debt instrument can be determined under §1.1272–1(c). (For purposes of this section, the rules of §1.1272–1(c) are applied to the debt instrument by assuming that no inflation or deflation will occur over the term of the instrument.)

(2) *Reference index.* The reference index is an index used to measure inflation and deflation over the term of a debt instrument. To qualify as a reference index, an index must satisfy the following conditions:

(i) The value of the index is reset once a month to a current value of a single qualified inflation index (as defined in paragraph (c)(3) of this section). For this purpose, a value of a qualified inflation index is current if the value has been updated and published within the preceding six month period.

(ii) The reset occurs on the same day of each month (the reset date).

(iii) The value of the index for any date between reset dates is determined through straight-line interpolation.

(3) *Qualified inflation index.* A qualified inflation index is a general price or wage index that is updated and published at least monthly by an agency of the United States Government (for example, the non-seasonally adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers (CPI–U), which is published by the Bureau of Labor Statistics of the Department of Labor).

(4) *Inflation-adjusted principal amount.* For any date, the inflation-adjusted principal amount of an inflation-indexed debt instrument is an amount equal to—

(i) The outstanding principal amount of the debt instrument (determined as if there were no inflation or deflation over the term of the instrument), multiplied by

(ii) A ratio, the numerator of which is the value of the reference index for the date and the denominator of which is the value of the reference index for the issue date.

(5) *Minimum guarantee payment.* In general, a minimum guarantee payment is an additional payment made at maturity on a debt instrument if the total amount of inflation-adjusted principal paid on the instrument is less than the instrument's stated principal amount. The amount of the additional payment must be no more than the excess, if any, of the debt instrument's stated principal amount over the total amount of inflation-adjusted principal paid on the instrument. An additional payment is not a minimum guarantee payment unless the qualified inflation index used to determine the reference index is either the CPI–U or an index designated for this purpose by the Commissioner in the FEDERAL REGISTER or the Internal Revenue Bulletin (see § 601.601(d)(2)(ii) of this chapter). See paragraph (f)(4) of this section for the treatment of a minimum guarantee payment.

(d) *Coupon bond method*—(1) *In general.* This paragraph (d) describes the method (coupon bond method) to be used to account for qualified stated interest and inflation adjustments (OID) on an inflation-indexed debt instrument described in paragraph (d)(2) of this section.

(2) *Applicability.* The coupon bond method applies to an inflation-indexed debt instrument that satisfies the following conditions:

(i) *Issued at par.* The debt instrument is issued at par. A debt instrument is issued at par if the difference between its issue price and principal amount for the issue date is less than the de minimis amount. For this purpose, the de minimis amount is determined using the principles of § 1.1273–1(d).

(ii) *All stated interest is qualified stated interest.* All stated interest on the debt instrument is qualified stated interest. For purposes of this paragraph (d), stated interest is qualified stated interest if the interest is unconditionally payable in cash, or is constructively received under section 451, at least annually at a single fixed rate. Stated interest is payable at a single fixed rate if the amount of each interest payment is determined by multiplying the inflation adjusted principal amount for the payment date by the single fixed rate.

(3) *Qualified stated interest.* Under the coupon bond method, qualified stated interest is taken into account under the taxpayer's regular method of accounting. The amount of accrued but unpaid qualified stated interest as of any date is determined by using the principles of § 1.446–3(e)(2)(ii) (relating to notional principal contracts). For example, if the interval between interest payment dates spans two taxable years, a taxpayer using an accrual method of accounting determines the amount of accrued qualified stated interest for the first taxable year by reference to the inflation-adjusted principal amount at the end of the first taxable year.

(4) *Inflation adjustments*—(i) *Current accrual.* Under the coupon bond method, an inflation adjustment is taken into account for each taxable year in which the debt instrument is outstanding.

(ii) *Amount of inflation adjustment.* For any relevant period (such as the taxable year or the portion of the taxable year during which a taxpayer holds an inflation-indexed debt instrument), the amount of the inflation adjustment is equal to—

(A) The sum of the inflation-adjusted principal amount at the end of the period and the principal payments made during the period, minus

(B) The inflation-adjusted principal amount at the beginning of the period.

(iii) *Positive inflation adjustments.* A positive inflation adjustment is OID.

(iv) *Negative inflation adjustments.* A negative inflation adjustment is a deflation adjustment that is taken into account under the rules of paragraph (f)(1) of this section.

(5) *Example.* The following example illustrates the coupon bond method:

Example: (i) *Facts.* On October 15, 1997, X purchases at original issue, for $100,000, a debt instrument that is indexed for inflation and deflation. The debt instrument matures on October 15, 1999, has a stated principal amount of $100,000, and has a stated interest rate of 5 percent, compounded semiannually. The debt instrument provides that the principal amount is indexed to the CPI–U. Interest is payable on April 15 and October 15 of each year. The amount of each interest payment is determined by multiplying the inflation-adjusted principal amount for each interest payment date by the stated interest rate, adjusted for the length of the accrual period. The debt instrument provides for a single payment of the inflation-adjusted principal amount at maturity. In addition, the debt instrument provides for an additional payment at maturity equal to the excess, if any, of $100,000 over the inflation-adjusted principal amount at maturity. X uses the cash receipts and disbursements method of accounting and the calendar year as its taxable year.

(ii) *Indexing methodology.* The debt instrument provides that the inflation-adjusted principal amount for any day is determined by multiplying the principal amount of the instrument for the issue date by a ratio, the numerator of which is the value of the reference index for the day the inflation-adjusted principal amount is to be determined and the denominator of which is the value of the reference index for the issue date. The value of the reference index for the first day of a month is the value of the CPI–U for the third preceding month. The value of the reference index for any day other than the first day of a month is determined based on a straight-line interpolation between the value of the reference index for the first day of the month and the value of the reference index for the first day of the next month.

(iii) *Inflation-indexed debt instrument subject to the coupon bond method.* Under paragraph (c)(1) of this section, the debt instrument is an inflation-indexed debt instrument. Because there is no difference between the debt instrument's issue price ($100,000) and its principal amount for the issue date ($100,000) and because all stated interest is qualified stated interest, the coupon bond method applies to the instrument.

(iv) *Reference index values.* Assume the following table lists the relevant reference index values for 1997 through 1999:

Date	Reference index value
Oct. 15, 1997	100
Jan. 1, 1998	101
Apr. 15, 1998	103
Oct. 15, 1998	105
Jan. 1, 1999	99

(v) *Treatment of X in 1997.* X does not receive any payments of interest on the debt instrument in 1997. Therefore, X has no qualified stated interest income for 1997. X, however, must take into account the inflation adjustment for 1997. The inflation-adjusted principal amount for January 1, 1998, is $101,000 ($100,000 × 101/100). Therefore, the inflation adjustment for 1997 is $1,000, the inflation-adjusted principal amount for January 1, 1998 ($101,000) minus the principal amount for the issue date ($100,000). X includes the $1,000 inflation adjustment in income as OID in 1997.

(vi) *Treatment of X in 1998.* In 1998, X receives two payments of interest: On April 15, 1998, X receives a payment of $2,575 ($100,000 × 103/100 × .05/2), and on October 15, 1998, X receives a payment of $2,625 ($100,000 × 105/100 × .05/2). Therefore, X's qualified stated interest income for 1998 is $5,200 ($2,575 + $2,625). X also must take into account the inflation adjustment for 1998. The inflation-adjusted principal amount for January 1, 1999, is $99,000 ($100,000 × 99/100). Therefore, the inflation adjustment for 1998 is negative $2,000, the inflation-adjusted principal amount for January 1, 1999 ($99,000) minus the inflation-adjusted principal amount for January 1, 1998 ($101,000). Because the amount of the inflation adjustment is negative, it is a deflation adjustment. Under paragraph (f)(1)(i) of this section, X uses this $2,000 deflation adjustment to reduce the interest otherwise includible in income by X with respect to the debt instrument in 1998. Therefore, X includes $3,200 in income for 1998, the qualified stated interest income for 1998 ($5,200) minus the deflation adjustment ($2,000).

(e) *Discount bond method*—(1) *In general.* This paragraph (e) describes the method (discount bond method) to be used to account for OID on an inflation-indexed debt instrument that does not qualify for the coupon bond method.

(2) *No qualified stated interest.* Under the discount bond method, no interest on an inflation-indexed debt instrument is qualified stated interest.

(3) *OID.* Under the discount bond method, the amount of OID that accrues on an inflation-indexed debt instrument is determined as follows:

(i) *Step one: Determine the debt instrument's yield to maturity.* The yield of the debt instrument is determined under the rules of § 1.1272–1(b)(1)(i). In calculating the yield under those rules for purposes of this paragraph (e)(3)(i), the payment schedule of the debt instrument is determined as if there were no inflation or deflation over the term of the instrument.

(ii) *Step two: Determine the accrual periods.* The accrual periods are determined under the rules of § 1.1272–1(b)(1)(ii). However, no accrual period can be longer than 1 month.

(iii) *Step three: Determine the percentage change in the reference index during the accrual period.* The percentage change in the reference index during the accrual period is equal to—

(A) The ratio of the value of the reference index at the end of the period to the value of the reference index at the beginning of the period,

(B) Minus one.

(iv) *Step four: Determine the OID allocable to each accrual period.* The OID allocable to an accrual period (n) is determined by using the following formula:

$$OID(_{(n)} = AIP_{(n)} \times [r + inf_{(n)} + (r \times inf_{(n)})]$$

in which,

r = yield of the debt instrument as determined under paragraph (e)(3)(i) of this section (adjusted for the length of the accrual period);

$inf_{(n)}$ = percentage change in the value of the reference index for period (n) as determined under paragraph (e)(3)(iii) of this section; and

$AIP_{(n)}$ = adjusted issue price at the beginning of period (n).

(v) *Step five: Determine the daily portions of OID.* The daily portions of OID are determined and taken into account under the rules of § 1.1272–1(b)(1)(iv). If the daily portions determined under this paragraph (e)(3)(v) are negative amounts, however, these amounts (deflation adjustments) are taken into account under the rules for deflation adjustments described in paragraph (f)(1) of this section.

(4) *Example.* The following example illustrates the discount bond method:

Example: (i) *Facts.* On November 15, 1997, X purchases at original issue, for $91,403, a zero-coupon debt instrument that is indexed for inflation and deflation. The principal amount of the debt instrument for the issue date is $100,000. The debt instrument provides for a single payment on November 15, 2000. The amount of the payment will be determined by multiplying $100,000 by a fraction, the numerator of which is the CPI–U for September 2000, and the denominator of which is the CPI–U for September 1997. The debt instrument also provides that in no event will the payment on November 15, 2000, be less than $100,000. X uses the cash receipts and disbursements method of accounting and the calendar year as its taxable year.

(ii) *Inflation-indexed debt instrument.* Under paragraph (c)(1) of this section, the instrument is an inflation-indexed debt instrument. The debt instrument's principal amount for the issue date ($100,000) exceeds its issue price ($91,403) by $8,597, which is more than the de minimis amount for the debt instrument ($750). Therefore, the coupon bond method does not apply to the debt instrument. As a result, the discount bond method applies to the debt instrument.

(iii) *Yield and accrual period.* Assume X chooses monthly accrual periods ending on the 15th day of each month. The yield of the debt instrument is determined as if there were no inflation or deflation over the term of the instrument. Therefore, based on the issue price of $91,403 and an assumed payment at maturity of $100,000, the yield of the debt instrument is 3 percent, compounded monthly.

(iv) *Percentage change in reference index.* Assume that the CPI–U for September 1997 is 160; for October 1997 is 161.2; and for November 1997 is 161.7. The value of the reference index for November 15, 1997, is 160, the value of the CPI–U for September 1997. Similarly, the value of the reference index for December 15, 1997, is 161.2, and for January 15, 1998, is 161.7. The percentage change in the reference index from November 15, 1997, to December 15, 1997, (inf_1) is 0.0075 (161.2/160–1); the percentage change in the reference index from December 15, 1997, to January 15, 1998, (inf_2) is 0.0031 (161.7/161.2–1).

(v) *Treatment of X in 1997.* For the accrual period ending on December 15, 1997, r is .0025

(.03/12), inf_1 is .0075, and the product of r and inf_1 is .00001875. Under paragraph (e)(3) of this section, the amount of OID allocable to the accrual period ending on December 15, 1997, is $916. This amount is determined by multiplying the issue price of the debt instrument ($91,403) by .01001875 (the sum of r, inf_1, and the product of r and inf_1). The adjusted issue price of the debt instrument on December 15, 1997, is $92,319 ($91,403+$916). For the accrual period ending on January 15, 1998, r is .0025 (.03/12), inf_2 is .0031, and the product of r and inf_2 is .00000775. Under paragraph (e)(3) of this section, the amount of OID allocable to the accrual period ending on January 15, 1998, is $518. This amount is determined by multiplying the adjusted issue price of the debt instrument ($92,319) by .00560775 (the sum of r, inf_2, and the product of r and inf_2). Because the accrual period ending on January 15, 1998, spans two taxable years, only $259 of this amount ($518/30 days×15 days) is allocable to 1997. Therefore, X includes $1,175 of OID in income for 1997 ($916+$259).

(f) *Special rules.* The following rules apply to an inflation-indexed debt instrument:

(1) *Deflation adjustments*—(i) *Holder.* A deflation adjustment reduces the amount of interest otherwise includible in income by a holder with respect to the debt instrument for the taxable year. For purposes of this paragraph (f)(1)(i), interest includes OID, qualified stated interest, and market discount. If the amount of the deflation adjustment exceeds the interest otherwise includible in income by the holder with respect to the debt instrument for the taxable year, the excess is treated as an ordinary loss by the holder for the taxable year. However, the amount treated as an ordinary loss is limited to the amount by which the holder's total interest inclusions on the debt instrument in prior taxable years exceed the total amount treated by the holder as an ordinary loss on the debt instrument in prior taxable years. If the deflation adjustment exceeds the interest otherwise includible in income by the holder with respect to the debt instrument for the taxable year and the amount treated as an ordinary loss for the taxable year, this excess is carried forward to reduce the amount of interest otherwise includible in income by the holder with respect to the debt instrument for subsequent taxable years.

(ii) *Issuer.* A deflation adjustment reduces the interest otherwise deductible by the issuer with respect to the debt instrument for the taxable year. For purposes of this paragraph (f)(1)(ii), interest includes OID and qualified stated interest. If the amount of the deflation adjustment exceeds the interest otherwise deductible by the issuer with respect to the debt instrument for the taxable year, the excess is treated as ordinary income by the issuer for the taxable year. However, the amount treated as ordinary income is limited to the amount by which the issuer's total interest deductions on the debt instrument in prior taxable years exceed the total amount treated by the issuer as ordinary income on the debt instrument in prior taxable years. If the deflation adjustment exceeds the interest otherwise deductible by the issuer with respect to the debt instrument for the taxable year and the amount treated as ordinary income for the taxable year, this excess is carried forward to reduce the interest otherwise deductible by the issuer with respect to the debt instrument for subsequent taxable years. If there is any excess remaining upon the retirement of the debt instrument, the issuer takes the excess amount into account as ordinary income.

(2) *Adjusted basis.* A holder's adjusted basis in an inflation-indexed debt instrument is determined under §1.1272–1(g). However, a holder's adjusted basis in the debt instrument is decreased by the amount of any deflation adjustment the holder takes into account to reduce the amount of interest otherwise includible in income or treats as an ordinary loss with respect to the instrument during the taxable year. The decrease occurs when the deflation adjustment is taken into account under paragraph (f)(1) of this section.

(3) *Subsequent holders.* A holder determines the amount of acquisition premium or market discount on an inflation-indexed debt instrument by reference to the adjusted issue price of the instrument on the date the holder acquires the instrument. A holder determines the amount of bond premium on an inflation-indexed debt instrument by assuming that the amount payable at maturity on the instrument is equal to the instrument's inflation-adjusted principal amount for the day

the holder acquires the instrument. Any premium or market discount is taken into account over the remaining term of the debt instrument as if there were no further inflation or deflation. See section 171 for additional rules relating to the amortization of bond premium and sections 1276 through 1278 for additional rules relating to market discount.

(4) *Minimum guarantee.* Under both the coupon bond method and the discount bond method, a minimum guarantee payment is ignored until the payment is made. If there is a minimum guarantee payment, the payment is treated as interest on the date it is paid.

(5) *Temporary unavailability of a qualified inflation index.* Notwithstanding any other rule of this section, an inflation-indexed debt instrument may provide for a substitute value of the qualified inflation index if and when the publication of the value of the qualified inflation index is temporarily delayed. The substitute value may be determined by the issuer under any reasonable method. For example, if the CPI–U is not reported for a particular month, the debt instrument may provide that a substitute value may be determined by increasing the last reported value by the average monthly percentage increase in the qualified inflation index over the preceding twelve months. The use of a substitute value does not result in a reissuance of the debt instrument.

(g) *Reopenings.* For purposes of § 1.1275–2(d)(2), a reopening of Treasury Inflation-Indexed Securities is a qualified reopening if—

(1) The terms of the securities issued in the reopening are the same as the terms of the original securities; and

(2) The reopening occurs not more than one year after the original securities were first issued to the public.

(h) *Effective date.* This section applies to an inflation-indexed debt instrument issued on or after January 6, 1997.

[T.D. 8709, 62 FR 618, Jan. 6, 1997]

§ 1.1286–1 Tax treatment of certain stripped bonds and stripped coupons.

(a) *De minimis OID.* If the original issue discount determined under section 1286(a) with respect to the purchase of a stripped bond or stripped coupon is less than the amount computed under subparagraphs (A) and (B) of section 1273(a)(3) and the regulations thereunder, then the amount of original issue discount with respect to that purchase (other than any tax-exempt portion thereof, determined under section 1286(d)(2)) shall be considered to be zero. For purposes of this computation, the number of complete years to maturity is measured from the date the stripped bond or stripped coupon is purchased.

(b) *Treatment of certain stripped bonds as market discount bonds*—(1) *In general.* By publication in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(*b*) of the Statement of Procedural Rules), the Internal Revenue Service may (subject to the limitation of paragraph (b)(2) of this section) provide that certain mortgage loans that are stripped bonds are to be treated as market discount bonds under section 1278. Thus, any purchaser of such a bond is to account for any discount on the bond as market discount rather than original issue discount.

(2) *Limitation.* This treatment may be provided for a stripped bond only if, immediately after the most recent disposition referred to in section 1286(b)—

(i) The amount of original issue discount with respect to the stripped bond is determined under paragraph (a) of this section (concerning *de minimis* OID); or

(ii) The annual stated rate of interest payable on the stripped bond is no more than 100 basis points lower than the annual stated rate of interest payable on the original bond from which it and any other stripped bond or bonds and any stripped coupon or coupons were stripped.

(c) *Effective date.* This section is effective on and after August 8, 1991.

[T.D. 8463, 57 FR 61812, Dec. 29, 1992]

§ 1.1286–2T Stripped inflation-indexed debt instruments (temporary).

Stripped inflation-indexed debt instruments. If a Treasury Inflation-Indexed Security is stripped under the Department of the Treasury's Separate Trading of Registered Interest and Principal of Securities (STRIPS) program, the holders of the principal and coupon components must use the discount bond method (as described in § 1.1275–7T(e)) to account for the original issue discount on the components.

[T.D. 8709, 62 FR 621, Jan. 6, 1997]

§ 1.1287–1 Denial of capital gains treatment for gains on registration-required obligations not in registered form.

(a) *In general.* Except as provided in paragraph (c) of this section, any gain on the sale or other disposition of a registration-required obligation held after December 31, 1982, that is not in registered form shall be treated as ordinary income unless the issuance of the obligation was subject to tax under section 4701. The term *registration-required obligation* has the meaning given to that term in section 163(f)(2), except that clause (iv) of subparagraph (A) thereof shall not apply. Therefore, although an obligation that is not in registered form is described in § 1.163–5(c)(1), the holder of such an obligation shall be required to treat the gain on the sale or other disposition of such obligation as ordinary income. The term *holder* means the person that would be denied a loss deduction under section 165(j)(1) or denied capital gain treatment under section 1287(a).

(b) *Registered form*—(1) *Obligations issued after September 21, 1984.* With respect to any obligation originally issued after September 21, 1984, the term *registered form* has the meaning given that term in section 103(j)(3) and the regulations thereunder. Therefore, an obligation that would otherwise be in registered form is not considered to be in registered form if it can be transferred at that time or at any time until its maturity by any means not described in § 5f.103–1(c). An obligation that, as of a particular time, is not considered to be in registered form because it can be transferred by any means not described in § 5f.103–1(c) is considered to be in registered form at all times during the period beginning with a later time and ending with the maturity of the obligation in which the obligation can be transferred only by a means described in § 5f.103–1(c).

(2) *Obligations issued after December 31, 1982, and on or before September 21, 1984.* With respect to any obligation originally issued after December 31, 1982, and on or before September 21, 1984, or an obligation originally issued after September 21, 1984, pursuant to the exercise of a warrant or the conversion of a convertible obligation, which warrant or obligation (including conversion privilege) was issued after December 31, 1982, and on or before September 21, 1984, that obligation will be considered to be in registered form if it satisfied § 5f.163–1 or the proposed regulations provided in § 1.163.–5(c) and published in the FEDERAL REGISTER on September 2, 1983 (48 FR 39953).

(c) *Registration-required obligations not in registered form which are not subject to section 1287(c).* Notwithstanding the fact than an obligation is a registration-required obligation that is not in registered form, the holder will not be subject to section 1287(a) if the holder meets the conditions of § 1.165–12(c).

(d) *Effective date.* These regulations apply generally to obligations issued after January 20, 1987. However, a taxpayer may choose to apply the rules of § 1.1287–1 with respect to an obligation issued after December 31, 1982, and on or before January 20, 1987, which obligation is held after January 20, 1987.

[T.D. 8110, 51 FR 45461, Dec. 19, 1986]

§ 1.1291–0 Treatment of shareholders of certain passive foreign investment companies; table of contents.

This section contains a listing of the headings for §§ 1.1291–9 and 1.1291–10.

§ 1.1291–9 Deemed dividend election.

(a) Deemed dividend election.
(1) In general.
(2) Post-1986 earnings and profits defined.
(i) In general.
(ii) Pro rata share of post-1986 earnings and profits attributable to shareholder's stock.
(A) In general.
(B) Reduction for previously taxed amounts.
(b) Who may make the election.
(c) Time for making the election.
(d) Manner of making the election.
(1) In general.
(2) Attachment to Form 8621.
(e) Qualification date.
(1) In general.
(2) Elections made after March 31, 1995, and before January 27, 1997.
(i) In general.
(ii) Exception.

(3) Examples.

(f) Adjustment to basis.

(g) Treatment of holding period.

(h) Coordination with section 959(e).

(i) Election inapplicable to shareholder of former PFIC.

(1) [Reserved]

(2) Former PFIC.

(j) Definitions.

(1) Passive foreign investment company (PFIC).

(2) Types of PFICs.

(i) Qualified electing fund (QEF).

(ii) Pedigreed QEF.

(iii) Unpedigreed QEF.

(iv) Former PFIC.

(3) Shareholder.

(k) Effective date.

§ 1.1291–10 Deemed sale election.

(a) Deemed sale election.

(b) Who may make the election.

(c) Time for making the election.

(d) Manner of making the election.

(e) Qualification date.

(1) In general.

(2) Elections made after March 31, 1995, and before January 27, 1997.

(i) In general.

(ii) Exception.

(f) Adjustments to basis.

(1) In general.

(2) Adjustment to basis for section 1293 inclusion with respect to deemed sale election made after March 31, 1995, and before January 27, 1997.

(g) Treatment of holding period.

(h) Election inapplicable to shareholder of former PFIC.

(i) Effective date.

[T.D. 8701, 61 FR 68151, Dec. 27, 1996, as amended by T.D. 8750, 63 FR 13, Jan. 2, 1998]

§ 1.1291–1T Taxation of U.S. persons that are shareholders of PFICs that are not pedigreed QEFs (temporary).

(a) through (d) [Reserved]

(e) *Exempt organization as shareholder*—(1) *In general.* If the shareholder of a PFIC is an organization exempt from tax under this chapter, section 1291 and these regulations apply to such shareholder only if a dividend from the PFIC would be taxable to the organization under subchapter F.

(2) *Effective date.* Paragraph (e)(1) of this section is applicable on and after April 1, 1992.

[T.D. 8750, 63 FR 13, Jan. 2, 1998]

§ 1.1291–9 Deemed dividend election.

(a) *Deemed dividend election*—(1) *In general.* This section provides rules for making the election under section 1291(d)(2)(B) (deemed dividend election). Under that section, a shareholder (as defined in paragraph (j)(3) of this section) of a PFIC that is an unpedigreed QEF may elect to include in income as a dividend the shareholder's pro rata share of the post-1986 earnings and profits of the PFIC attributable to the stock held on the qualification date (as defined in paragraph (e) of this section), provided the PFIC is a controlled foreign corporation (CFC) within the meaning of section 957(a) for the taxable year for which the shareholder elects under section 1295 to treat the PFIC as a QEF (section 1295 election). If the shareholder makes the deemed dividend election, the PFIC will become a pedigreed QEF with respect to the shareholder. The deemed dividend is taxed under section 1291 as an excess distribution received on the qualification date. The excess distribution determined under this paragraph (a) is allocated under section 1291(a)(1)(A) only to those days in the shareholder's holding period during which the foreign corporation qualified as a PFIC. For purposes of the preceding sentence, the holding period of the PFIC stock with respect to which the election is made ends on the day before the qualification date. For the definitions of PFIC, QEF, unpedigreed QEF, and pedigreed QEF, see paragraph (j) (1) and (2) of this section.

(2) *Post-1986 earnings and profits defined*—(i) *In general.* For purposes of this section, the term post-1986 earnings and profits means the undistributed earnings and profits, within the meaning of section 902(c)(1), as of the day before the qualification date, that were accumulated and not distributed in taxable years of the PFIC beginning after 1986 and during which it was a PFIC, but without regard to whether the earnings relate to a period during which the PFIC was a CFC.

(ii) *Pro rata share of post-1986 earnings and profits attributable to shareholder's stock*—(A) *In general.* A shareholder's pro rata share of the post-1986 earnings and profits of the PFIC attributable to the stock held by the shareholder on the qualification date is the amount of post-1986 earnings and profits of the PFIC accumulated during any portion of the shareholder's holding period ending at the close of the day before the qualification date and attributable, under the principles of section 1248 and the regulations under that section, to the PFIC stock held on the qualification date.

(B) *Reduction for previously taxed amounts.* A shareholder's pro rata share of the post-1986 earnings and profits of the PFIC does not include any amount that the shareholder demonstrates to the satisfaction of the Commissioner (in the manner provided in paragraph (d)(2) of this section) was, pursuant to another provision of the law, previously included in the income of the shareholder, or of another U.S. person if the shareholder's holding period of the PFIC stock includes the period during which the stock was held by that other U.S. person.

(b) *Who may make the election.* A shareholder of an unpedigreed QEF that is a CFC for the taxable year of the PFIC for which the shareholder makes the section 1295 election may make the deemed dividend election provided the shareholder held stock of that PFIC on the qualification date. A shareholder is treated as holding stock of the PFIC on the qualification date if its holding period with respect to that stock under section 1223 includes the qualification date. A shareholder may make the deemed dividend election without regard to whether the shareholder is a United States shareholder within the meaning of section 951(b). A deemed dividend election may be made by a shareholder whose pro rata share of the post-1986 earnings and profits of the PFIC attributable to the PFIC stock held on the qualification date is zero.

(c) *Time for making the election.* The shareholder makes the deemed dividend election in the shareholder's return for the taxable year that includes the qualification date. If the shareholder and the PFIC have the same taxable year, the shareholder makes the deemed dividend election in either the original return for the taxable year for which the shareholder makes the section 1295 election, or in an amended return for that year. If the shareholder and the PFIC have different taxable years, the deemed dividend election must be made in an amended return for the taxable year that includes the qualification date. If the deemed dividend election is made in an amended return, the amended return must be filed by a date that is within three years of the due date, as extended under section 6081, of the original return for the taxable year that includes the qualification date.

(d) *Manner of making the election*—(1) *In general.* A shareholder makes the deemed dividend election by filing Form 8621 and the attachment to Form 8621 described in paragraph (d)(2) of this section with the return for the taxable year of the shareholder that includes the qualification date, reporting the deemed dividend as an excess distribution pursuant to section 1291(a)(1), and paying the tax and interest due on the excess distribution. A shareholder that makes the deemed dividend election after the due date of the return (determined without regard to extensions) for the taxable year that includes the qualification date must pay additional interest, pursuant to section 6601, on the amount of the underpayment of tax for that year.

(2) *Attachment to Form 8621.* The shareholder must attach a schedule to Form 8621 that demonstrates the calculation of the shareholder's pro rata share of the post-1986 earnings and profits of the PFIC that is treated as distributed to the shareholder on the qualification date pursuant to this section. If the shareholder is claiming an exclusion from its pro rata share of the post-1986 earnings and profits for an amount previously included in its income or the income of another U.S. person, the shareholder must include the following information:

(i) The name, address, and taxpayer identification number of each U.S. person that previously included an amount in income, the amount previously included in income by each such U.S. person, the provision of the law pursuant to which the amount was previously included in income, and the taxable year or years of inclusion of each amount; and

(ii) A description of the transaction pursuant to which the shareholder acquired, directly or indirectly, the stock of the PFIC from another U.S. person, and the provisions of law pursuant to which the shareholder's holding period includes the period the other U.S. person held the CFC stock.

(e) *Qualification date*—(1) *In general.* Except as otherwise provided in this paragraph (e), the qualification date is the first day of the PFIC's first taxable year as a QEF (first QEF year).

(2) *Elections made after March 31, 1995, and before January 27, 1997*—(i) *In general.* The qualification date for deemed dividend elections made after March 31, 1995, and before January 27, 1997, is the first day of the shareholder's election year. The shareholder's election year is the taxable year of the shareholder for which it made the section 1295 election.

(ii) *Exception.* A shareholder who made the deemed dividend election after May 1, 1992, and before January 27, 1997, may elect to change its qualification date to the first day of the first QEF year, provided the periods of limitations on assessment for the taxable year that includes that date and for the shareholder's election year have not expired. A shareholder changes the qualification date by filing amended returns, with revised Forms 8621 and the attachments described in paragraph (d)(2) of this section, for the shareholder's election year and the shareholder's taxable year that includes the first day of the first QEF year, and making all appropriate adjustments and payments.

(3) *Examples.* The rules of this paragraph (e) are illustrated by the following examples:

Example 1. (i) *Eligibility to make deemed dividend election.* A is a U.S. person who files its income tax return on a calendar year basis. On January 2, 1994, A purchased one percent of the stock of M, a PFIC with a taxable year ending November 30. M was both a CFC and a PFIC, but not a QEF, for all of its taxable years. On December 3, 1996, M made a distribution to its shareholders. A received $100, all of which A reported in its 1996 return as an excess distribution as provided in section 1291(a)(1). A decides to make the section 1295 election in A's 1997 taxable year to treat M as a QEF effective for M's taxable year beginning December 1, 1996. Because A did not make the section 1295 election in 1994, the first year in its holding period of M stock that M qualified as a PFIC, M would be an unpedigreed QEF and A would be subject to both sections 1291 and 1293. A, however, may elect under section 1291(d)(2) to purge the years M was not a QEF from A's holding period. If A makes the section 1291(d)(2) election, the December 3 distribution will not be taxable under section 1291(a). Because M is a CFC, even though A is not a U.S. shareholder within the meaning of section 951(b), A may make the deemed dividend election under section 1291(d)(2)(B).

(ii) *Making the election.* Under paragraph (e)(1) of this section, the qualification date, and therefore the date of the deemed dividend, is December 1, 1996. Accordingly, to make the deemed dividend election, A must file an amended return for 1996, and include the deemed dividend in income in that year. As a result, M will be a pedigreed QEF as of December 1, 1996, and the December 3, 1996, distribution will not be taxable as an excess distribution. Therefore, in its amended return, A may report the December 3, 1996, distribution consistent with section 1293 and the general rules applicable to corporate distributions.

Example 2. X, a U.S. person, owned a five percent interest in the stock of FC, a PFIC with a taxable year ending June 30. X never made the section 1295 election with respect to FC. X transferred her interest in FC to her granddaughter, Y, a U.S. person, on February 14, 1996. The transfer qualified as a gift for Federal income tax purposes, and no gain was recognized on the transfer (see Regulation Project INTL–656–87, published in 1992–1 C.B. 1124; see § 601.601(d)(2)(ii)(*b*) of this chapter). As provided in section 1223(2), Y's holding period includes the period that X held the FC stock. Y decides to make the section 1295 election in her 1996 return to treat FC as a QEF for its taxable year beginning July 1, 1995. However, because Y's holding period includes the period that X held the FC stock, and FC was a PFIC but not a QEF during that period, FC will be an unpedigreed QEF with respect to Y unless Y makes a section 1291(d)(2) election. Although Y did not actually own the stock of FC on the qualification date (July 1, 1995), Y's holding period includes that date. Therefore, provided FC is a CFC for its taxable year beginning July 1, 1995, Y may make a section 1291(d)(2)(B) election to treat FC as a pedigreed QEF.

(f) *Adjustment to basis.* A shareholder that makes the deemed dividend election increases its adjusted basis of the stock of the PFIC owned directly by the shareholder by the amount of the deemed dividend. If the shareholder makes the deemed dividend election with respect to a PFIC of which it is an indirect shareholder, the shareholder's adjusted basis of the stock or other property owned directly by the shareholder, through which ownership of the PFIC is attributed to the shareholder, is increased by the amount of the deemed dividend. In addition, solely for purposes of determining the subsequent treatment under the Code and regulations of a shareholder of the stock of the PFIC, the adjusted basis of the direct owner of the stock of the PFIC is increased by the amount of the deemed dividend.

(g) *Treatment of holding period.* For purposes of applying sections 1291 through 1297 to the shareholder after the deemed dividend, the shareholder's holding period of the stock of the PFIC begins on the qualification date. For other purposes of the Code and regulations, this holding period rule does not apply.

(h) *Coordination with section 959(e).* For purposes of section 959(e), the entire deemed dividend is treated as included in gross income under section 1248(a).

(i)(1) [Reserved]

(2) *Former PFIC.* A shareholder may not make the section 1295 and deemed dividend elections if the foreign corporation is a former PFIC (as defined in paragraph (j)(2)(iv) of this section) with respect to the shareholder. For the rules regarding the election by a shareholder of a former PFIC, see §1.1297–3T.

(j) *Definitions*—(1) *Passive foreign investment company (PFIC).* A passive foreign investment company (PFIC) is a foreign corporation that satisfies either the income test of section 1296(a)(1) or the asset test of section 1296(a)(2). A corporation will not be treated as a PFIC with respect to a shareholder for those days included in the shareholder's holding period when the shareholder, or a person whose holding period of the stock is included in the shareholder's holding period, was not a United States person within the meaning of section 7701(a)(30).

(2) *Types of PFICs*—(i) *Qualified electing fund (QEF).* A PFIC is a qualified electing fund (QEF) with respect to a shareholder that has elected, under section 1295, to be taxed currently on its share of the PFIC's earnings and profits pursuant to section 1293.

(ii) *Pedigreed QEF.* A PFIC is a pedigreed QEF with respect to a shareholder if the PFIC has been a QEF with respect to the shareholder for all taxable years during which the corporation was a PFIC that are included wholly or partly in the shareholder's holding period of the PFIC stock.

(iii) *Unpedigreed QEF.* A PFIC is an unpedigreed QEF for a taxable year if—

(A) An election under section 1295 is in effect for that year;

(B) The PFIC has been a QEF with respect to the shareholder for at least one, but not all, of the taxable years during which the corporation was a PFIC that are included wholly or partly in the shareholder's holding period of the PFIC stock; and

(C) The shareholder has not made an election under section 1291(d)(2) and this section or §1.1291–10 with respect to the PFIC to purge the nonQEF years from the shareholder's holding period.

(iv) *Former PFIC.* A foreign corporation is a former PFIC with respect to a shareholder if the corporation satisfies neither the income test of section 1296(a)(1) nor the asset test of section 1296(a)(2), but whose stock, held by that shareholder, is treated as stock of a PFIC, pursuant to section 1297(b)(1), because at any time during the shareholder's holding period of the stock the corporation was a PFIC that was not a QEF.

(3) *Shareholder.* A shareholder is a U.S. person that is a direct or indirect shareholder as defined in Regulation Project INTL–656–87 published in 1992–1 C.B. 1124; see §601.601(d)(2)(ii)(*b*) of this chapter.

(k) *Effective date.* The rules of this section are applicable as of April 1, 1995.

[T.D. 8701, 61 FR 68151, Dec. 27, 1996; 62 FR 7155, Feb. 18, 1997, as amended by T.D. 8750, 63 FR 13, Jan. 2, 1998]

§1.1291–10 Deemed sale election.

(a) *Deemed sale election.* This section provides rules for making the election under section 1291(d)(2)(A) (deemed sale election). Under that section, a shareholder (as defined in §1.1291–9(j)(3)) of a PFIC that is an unpedigreed QEF may elect to recognize gain with respect to the stock of the unpedigreed QEF held on the qualification date (as defined in paragraph (e) of this section). If the shareholder makes the deemed sale election, the PFIC will become a pedigreed QEF with respect to the shareholder. A shareholder that makes the deemed sale election is treated as having sold, for its fair market value, the stock of the PFIC that the shareholder held on the qualification date. The gain recognized on the deemed sale is taxed under section 1291 as an excess distribution received on the qualification date. In the case of an election made by an indirect shareholder, the amount of gain to be recognized and taxed as an excess distribution is the amount of gain that the direct owner of the stock of the PFIC would have realized on an actual sale or other disposition of the stock of the PFIC indirectly owned by the shareholder. Any loss realized on the deemed sale is not recognized. For the definitions of PFIC, QEF, unpedigreed QEF, and pedigreed QEF, see § 1.1291–9(j) (1) and (2).

(b) *Who may make the election.* A shareholder of an unpedigreed QEF may make the deemed sale election provided the shareholder held stock of that PFIC on the qualification date. A shareholder is treated as holding stock of the PFIC on the qualification date if its holding period with respect to that stock under section 1223 includes the qualification date. A deemed sale election may be made by a shareholder that would realize a loss on the deemed sale.

(c) *Time for making the election.* The shareholder makes the deemed sale election in the shareholder's return for the taxable year that includes the qualification date. If the shareholder and the PFIC have the same taxable year, the shareholder makes the deemed sale election in either the original return for the taxable year for which the shareholder makes the section 1295 election, or in an amended return for that year. If the shareholder and the PFIC have different taxable years, the deemed sale election must be made in an amended return for the taxable year that includes the qualification date. If the deemed sale election is made in an amended return, the amended return must be filed by a date that is within three years of the due date, as extended under section 6081, of the original return for the taxable year that includes the qualification date.

(d) *Manner of making the election.* A shareholder makes the deemed sale election by filing Form 8621 with the return for the taxable year of the shareholder that includes the qualification date, reporting the gain as an excess distribution pursuant to section 1291(a), and paying the tax and interest due on the excess distribution. A shareholder that makes the deemed sale election after the due date of the return (determined without regard to extensions) for the taxable year that includes the qualification date must pay additional interest, pursuant to section 6601, on the amount of the underpayment of tax for that year. A shareholder that realizes a loss on the deemed sale reports the loss on Form 8621, but does not recognize the loss.

(e) *Qualification date*—(1) *In general.* Except as otherwise provided in this paragraph (e), the qualification date is the first day of the PFIC's first taxable year as a QEF (first QEF year).

(2) *Elections made after March 31, 1995, and before January 27, 1997*—(i) *In general.* The qualification date for deemed sale elections made after March 31, 1995, and before January 27, 1997, is the first day of the shareholder's election year. The shareholder's election year is the taxable year of the shareholder for which it made the section 1295 election.

(ii) *Exception.* A shareholder who made the deemed sale election after May 1, 1992, and before January 27, 1997, may elect to change its qualification date to the first day of the first QEF year, provided the periods of limitations on assessment for the taxable year that includes that date and for the shareholder's election year have not expired. A shareholder changes the qualification date by filing amended returns, with revised Forms 8621, for the shareholder's election year and the shareholder's taxable year that includes the first day of the first QEF year, and making all appropriate adjustments and payments.

(f) *Adjustments to basis*—(1) *In general.* A shareholder that makes the deemed sale election increases its adjusted basis of the PFIC stock owned directly by the amount of gain recognized on the deemed sale. If the shareholder makes the deemed sale election with respect to a PFIC of which it is an indirect shareholder, the shareholder's adjusted basis of the stock or other property owned directly by the shareholder, through which ownership of the PFIC is attributed to the shareholder, is increased by the amount of gain recognized by the shareholder. In addition, solely for purposes of determining the subsequent treatment under the Code and regulations of a shareholder of the stock of the PFIC, the adjusted basis of the direct owner of the stock of the PFIC is increased by the amount of gain recognized on the deemed sale. A shareholder shall not adjust the basis of any stock with respect to which the shareholder realized a loss on the deemed sale.

(2) *Adjustment of basis for section 1293 inclusion with respect to deemed sale election made after March 31, 1995, and before January 27, 1997.* For purposes of determining the amount of gain recognized with respect to a deemed sale election made after March 31, 1995, and before January 27, 1997, by a shareholder that treats the first day of the shareholder's election year as the qualification date, the adjusted basis of the stock deemed sold includes the shareholder's section 1293(a) inclusion attributable to the period beginning with the first day of the PFIC's first QEF year and ending on the day before the qualification date.

(g) *Treatment of holding period.* For purposes of applying sections 1291 through 1297 to the shareholder after the deemed sale, the shareholder's holding period of the stock of the PFIC begins on the qualification date, without regard to whether the shareholder recognized gain on the deemed sale. For other purposes of the Code and regulations, this holding period rule does not apply.

(h) *Election inapplicable to shareholder of former PFIC.* A shareholder may not make the section 1295 and deemed sale elections if the foreign corporation is a former PFIC (as defined in §1.1291–9(j)(2)(iv)) with respect to the shareholder. For the rules regarding the election by a shareholder of a former PFIC, see §1.1297–3T.

(i) *Effective date.* The rules of this section are applicable as of April 1, 1995.

[T.D. 8701, 61 FR 68153, Dec. 27, 1996]

§1.1293–0 Table of contents.

This section contains a listing of the headings for §1.1293–1T.

§1.1293–1T Current inclusion of income of qualified electing funds (temporary).

(a) In general. [Reserved]

(1) Other rules. [Reserved]

(2) Net capital gain defined.

(i) In general.

(ii) Effective date.

(b) Other rules [Reserved]

(c) Application of rules of inclusion with respect to stock held by a pass through entity.

(1) In general.

(2) QEF stock transferred to a pass through entity.

(i) Pass through entity makes a section 1295 election.

(ii) Pass through entity does not make a section 1295 election.

(3) Effective date.

[T.D. 8750, 63 FR 13, Jan. 2, 1998]

§1.1293–1T Current taxation of income from qualified electing funds (temporary).

(a) *In general.* [Reserved]

(1) *Other rules.* [Reserved]

(2) *Net capital gain defined*—(i) *In general.* This paragraph (a)(2) defines the term net capital gain for purposes of sections 1293 and 1295 and the regulations under those sections. The QEF, as defined in §1.1291–9(j)(2)(i), in determining its net capital gain for a taxable year, may either—

(A) Calculate and report the amount of each category of long-term capital gain provided in section 1(h) that was recognized by the PFIC in the taxable year;

(B) Calculate and report the amount of net capital gain recognized by the PFIC in the taxable year, stating that that amount is subject to the highest capital gain rate of tax applicable to the shareholder; or

(C) Calculate its earnings and profits for the taxable year and report the entire amount as ordinary earnings.

(ii) *Effective date.* Paragraph (a)(2)(i) of this section is applicable to sales by QEFs during their taxable years ending on or after May 7, 1997.

(b) *Other rules.* [Reserved]

(c) *Application of rules of inclusion with respect to stock held by a pass* *through entity*—(1) *In general.* A domestic pass through entity takes into account its pro rata shares of the ordinary earnings and net capital gain attributable to the QEF shares held by the pass through entity. A U.S. person that indirectly owns QEF shares through the domestic pass through entity accounts for its pro rata shares of ordinary earnings and net capital gain attributable to the QEF shares according to the general rules applicable to inclusions of income from the domestic pass through entity. For the definition of pass through entity, see § 1.1295–1T(j).

(2) *QEF stock transferred to a pass through entity*—(i) *Pass through entity makes a section 1295 election.* If a shareholder transfers stock subject to a section 1295 election to a domestic pass through entity of which it is an interest holder and the pass through entity makes a section 1295 election with respect to that stock, as provided in § 1.1295–1T(D)(2), the shareholder takes into account its pro rata shares of the ordinary earnings and net capital gain attributable to the QEF shares under the rules applicable to inclusions of income from the pass through entity.

(ii) *Pass through entity does not make a section 1295 election.* If the pass through entity does not make a section 1295 election with respect to the PFIC, the shares of which were transferred to the pass through entity subject to the 1295 election of the shareholder, the shareholder continues to be subject, in its capacity as an indirect shareholder, to the income inclusion rules of section 1293 and reporting rules required of shareholders of QEFs. Proper adjustments to reflect an inclusion in income under section 1293 by the indirect shareholder must be made, under the principles of § 1.1291–9(f), to the basis of the indirect shareholder's interest in the pass through entity.

(3) *Effective date.* Paragraph (c) of this section is applicable to taxable years of shareholders beginning after December 31, 1997.

[T.D. 8750, 63 FR 14, Jan. 2, 1998]

§ 1.1294–0 Table of contents.

This section contains a listing of the headings for § 1.1294–1T.

§ 1.1294–1T Election to extend the time for payment of tax on undistributed earnings of a qualified electing fund.

(a) Purpose and scope.
(b) Election to extend time for payment of tax.
(1) In general.
(2) Exception.
(3) Undistributed earnings.
(i) In general.
(ii) Effect of loan, pledge or guarantee.
(c) Time for making the election.
(1) In general.
(2) Exception.
(d) Manner of making the election.
(1) In general.
(2) Information to be included in the election.
(e) Termination of the extension.
(f) Undistributed PFIC earnings tax liability.
(g) Authority to require a bond.
(h) Annual reporting requirement.

[T.D. 8750, 63 FR 13, Jan. 2, 1998]

§ 1.1294–1T Election to extend the time for payment of tax on undistributed earnings of a qualified electing fund (temporary).

(a) *Purpose and scope.* This section provides rules for making the annual election under section 1294. Under that section, a U.S. person that is a shareholder in a qualified electing fund (QEF) may elect to extend the time for payment of its tax liability which is attributable to its share of the undistributed earnings of the QEF. In general, a QEF is a passive foreign investment company (PFIC), as defined in section 1296, that makes the election under section 1295. Under section 1293, a U.S. person that owns, or is treated as owning, stock of a QEF at any time during the taxable year of the QEF shall include in gross income, as ordinary income, its pro rata share of the ordinary earnings of the QEF for the taxable year and, as long-term capital gain, its pro rata share of the net capital gain of the QEF for the taxable year. The shareholder's share of the earnings shall be included in the shareholder's taxable year in which or with which the taxable year of the QEF ends.

(b) *Election to extend time for payment*—(1) *In general.* A U.S. person that is a shareholder of a QEF on the last day of the QEF's taxable year may elect under section 1294 to extend the time for payment of that portion of its tax liability which is attributable to the inclusion in income pursuant to section 1293 of the shareholder's share of the QEF's undistributed earnings. The election under section 1294 may be made only with respect to undistributed earnings, and interest is imposed under section 6601 on the amount of the tax liability which is subject to the extension. This interest must be paid on the termination of the election.

(2) *Exception.* An election under this § 1.1294–1T cannot be made for a taxable year of the shareholder if any portion of the QEF's earning is includible in the gross income of the shareholder for such year under either section 551 (relating to foreign personal holding companies) or section 951 (relating to controlled foreign corporations).

(3) *Undistributed earnings*—(i) *In general.* For purposes of this § 1.1294–1T the term *undistributed earnings* means the excess, if any, of the amount includible in gross income by reason of section 1293(a) for the shareholder's taxable year (the includible amount) over the sum of (A) the amount of any distribution to the shareholder during the QEF's taxable year and (B) the portion of the includible amount that is attributable to stock in the QEF that the shareholder transferred or otherwise disposed of before the end of the QEF's year. For purposes of this paragraph, a distribution will be treated as made from the most recently accumulated earnings and profits.

(ii) *Effect of a loan, pledge or guarantee.* A loan, pledge, or guarantee described in § 1.1294–1T(e) (2) or (4) will be treated as a distribution of earnings for purposes of paragraph (b)(3)(i)(A). If earnings are treated as distributed in a taxable year by reason of a loan, pledge or guarantee described in § 1.1294–1T(e) (2) or (4), but the amount of the deemed distribution resulting therefrom was less than the amount of the actual loan by the QEF (or the amount of the loan secured by the pledge or guarantee), earnings derived by the QEF in a subsequent taxable year will be treated as distributed in such subsequent year to the shareholder for purposes of paragraph (b)(3)(i)(A) by virtue of such loan, but only to the extent of the difference between the outstanding principal balance on the loan in such subsequent year and the prior years' deemed distributions resulting from the loan. For this purpose, the outstanding principal balance on a loan in a taxable year shall be treated as equal to the greatest amount of the outstanding balance at any time during such year.

Example 1. (i) *Facts. FC* is a PFIC that made the election under section 1295 to be a QEF for its taxable year beginning January 1, 1987. *S* owned 500 shares, or 50 percent, of *FC* throughout the first six months of 1987, but on June 30, 1987 sold 10 percent, or 50 shares, of the *FC* stock that it held. *FC* had $100,000*x* of ordinary earnings but no net capital gain in 1987. No part of *FC*'s earnings is includible in *S*'s income under either section 551 or 951. *FC* made no distributions to its shareholders in 1987. *S's* pro rata share of income is determined by attributing *FC's* income ratably to each day in *FC*'s year. Accordingly, FC's daily earnings are $274*x* ($100,000*x*/365). *S*'s share of the earnings of *FC* is $47,484*x*, determined as follows.

FC's daily earnings × number of days percentage held by *S* × percentage of ownership in *FC*.

Accordingly, *S*'s pro rata share of *FC*'s earnings for the first six months of *FC*'s year deemed earned while *S* held 50 percent of *FC*'s stock is $24,797*x* ($274*x* × 181 days × 50%). *S*'s pro rata share of *FC*'s earnings for remainder of *FC*'s year deemed earned while *S* held 45 percent of *FC*'s stock is $22,687*x* ($274*x* × 184 days × 45%). Therefore, *S*'s total share of *FC*'s earnings to be included in income under section 1293 is $47,484*x* ($24,797*x* + $22,687*x*).

(ii) *Election. S* intends to make the election under section 1294 to defer the payment of its tax liability that is attributable to the undistributed earnings of *FC*. The amount of current year undistributed earnings as defined in § 1.1294–1T(b)(3) with respect to which *S* can make the election is the excess of *S*'s inclusion in gross income under section 1293(a) for the taxable year over the sum of (1) the cash and other property distributed to *S* during *FC*'s tax year out of earnings included in income pursuant to section 1293(a), and (2) the earnings attributable to stock disposed of during *FC*'s tax year. Because *S* sold 10 percent, or 50 shares, of the *FC* stock that it held during the first six months of the year, 10 percent of its share of the earnings for that part of the year, which is $2,480*x* ($24,797*x* × 10%), is attributable to the shares sold. *S* therefore cannot make the election under section 1294 to extend the time for payment of its tax liability on that amount. Accordingly, *S* can make the election under section 1294 with respect to its tax on $45,004*x* ($47,484*x* less $2,480*x*), which is its pro rata share of *FC*'s earnings, reduced by the earnings attributable to the stock disposed of during the year.

Example 2. (i) *Facts.* The facts are the same as in Example 1 with the following exceptions. *S* did not sell any *FC* stock during 1987. Therefore, because *S* held 50 percent of the *FC* stock throughout 1987, *S*'s pro rata share of *FC*'s ordinary earnings was $50,000*x*, no part of which was includible in *S*'s income under either section 551 or 951. There were no actual distributions of earnings to *S* in 1988. On December 31, 1987, *S* pledged the FC stock as security for a bank loan of $75,000*x*. The pledge is treated as a disposition of the *FC* stock and therefore a distribution of *S*'s share of the undistributed earnings of *FC* up to the amount of the loan principal. *S*'s entire share of the undistributed earnings of *FC* are deemed distributed as a result of the pledge of the *FC* stock. *S* therefore cannot make the election under section 1294 to extend the time for payment of its tax liability on its share of *FC*'s earnings for 1987.

(ii) *Deemed distribution.* In 1988, *FC* has ordinary earnings of $100,000*x* but no net capital gain. *S*'s pro rata share of *FC*'s 1988 ordinary earnings was $50,000*x*. *S*'s loan remained outstanding throughout 1988; the highest loan balance during 1988 was $74,000*x*. Of *S*'s share of the ordinary earnings of FC of $50,000*x*, $24,000*x* is deemed distributed to *S*. This is the amount by which the highest loan balance for the year ($74,000*x*) exceeds the portion of the undistributed earnings of *FC* deemed distributed to *S* in 1987 by reason of the pledge ($50,000*x*). *S* may make the election under section 1294 to extend the time for payment of its tax liability on $26,000*x*, which is the amount by which *S*'s includible amount for 1988 exceeds the amount deemed distributed to *S* during 1988.

(c) *Time for making the election*—(1) *In general.* An election under this § 1.1294–1T may be made for any taxable year in which a shareholder reports income pursuant to section 1293. Except as provided in paragraph (c)(2), the election shall be made by the due date, as extended, of the tax return for the shareholder's taxable year for which the election is made.

(2) *Exception.* An election under this section may be made within 60 days of receipt of notification from the QEF of the shareholder's pro rata share of the ordinary earnings and net capital gain if notification is received after the time for filing the election provided in paragraph (c)(1) (and requires the filing of an amended return to report income pursuant to section 1293). If the notification reports an increase in the shareholder's pro rata share of the earnings previously reported to the shareholder by the QEF, the shareholder may make the election under this paragraph (c)(2) only with respect to the amount of such increase.

(d) *Manner of making the election*—(1) *In general.* A shareholder shall make the election by (i) attaching to its return for the year of the election Form 8621 or a statement containing the information and representations required by this section and (ii) filing a copy of Form 8621 or the statement with the Internal Revenue Service Center, P.O. Box 21086, Philadelphia, Pennsylvania 19114.

(2) *Information to be included in the election statement.* If a statement is used in lieu of Form 8621, the statement should be identified, in a heading, as an election under section 1294 of the Code. The statement must include the following information and representations:

(i) The name, address, and taxpayer identification number of the electing shareholder and the taxable year of the shareholder for which the election is being made;

(ii) The name, address and taxpayer identification number of the QEF if provided to the shareholder;

(iii) A statement that the shareholder is making the election under section 1294 of the Code;

(iv) A schedule containing the following information:

(A) The ordinary earnings and net capital gain for the current year included in the shareholder's income under section 1293;

(B) The amount of cash and other property distributed by the QEF during its taxable year with respect to stock held directly or indirectly by the shareholder during that year, identifying the amount of such distributions that is paid out of current earnings and profits and the amount paid out of each prior year's earnings and profits; and

(C) The undistributed PFIC earnings tax liability (as defined in paragraph (f) of this section) for the taxable year, payment of which is being deferred by reason of the election under section 1294;

(v) The number of shares of stock held in the QEF during the QEF's taxable year which gave rise to the section 1293 inclusion and the number of such shares transferred, deemed transferred or otherwise disposed of by the electing shareholder before the end of the QEF's taxable year, and the data of transfer; and

(vi) The representations of the electing shareholder that—

(A) No part of the QEF's earnings for the taxable year is includible in the electing shareholder's gross income under either section 551 or 951 of the Code;

(B) The election is made only with respect to the shareholder's pro rata share of the undistributed earnings of the QEF; and

(C) The electing shareholder, upon termination of the election to extend the date for payment, shall pay the undistributed PFIC earnings tax liability attributable to those earnings to which the termination applies as well as interest on such tax liability pursuant to section 6601. Payment of this tax and interest must be made by the due date (determined without extensions) of the tax return for the taxable year in which the termination occurs.

(e) *Termination of the extension.* The election to extend the date for payment of tax will be terminated in whole or in part upon the occurrence of any of the following events:

(1) The QEF's distribution of earnings to which the section 1294 extension to pay tax is attributable; the extension will terminate only with respect to the tax attributable to the earnings that were distributed.

(2) The electing shareholder's transfer of stock in the QEF (or use thereof as security for a loan) with respect to which an election under this §1.1294–1T was made. The election will be terminated with respect to the undistributed earnings attributable to the shares of the stock transferred. In the case of a pledge of the stock, the election will be terminated with respect to undistributed earnings equal to the amount of the loan for which the stock is pledged.

(3) Revocation of the QEF's election as a QEF or cessation of the QEF's status as a PFIC. A revocation of the QEF election or cessation of PFIC status will result in the complete termination of the extension.

(4) A loan of property by the QEF directly or indirectly to the electing shareholder or related person, or a pledge or guarantee by the QEF with respect to a loan made by another party to the electing shareholder or related person. The election will be terminated with respect to undistributed earnings in an amount equal to the amount of the loan, pledge, or guarantee.

(5) A determination by the District Director pursuant to section 1294(c)(3) that collection of the tax is in jeopardy. The amount of undistributed earnings with respect to which the extension is terminated under this paragraph (d)(5) will be left to the discretion of the District Director.

(f) *Undistributed PFIC earnings tax liability.* The electing shareholder's tax liability attributable to the ordinary earnings and net capital gain included in gross income under section 1293 shall be the excess of the tax imposed under chapter 1 of the Code for the taxable year over the tax that would be imposed for the taxable year without regard to the inclusion in income under section 1293 of the undistributed earnings as defined in paragraph (b)(3) of this section.

Example: The facts are the same as in §1.1294–1T (b)(3), *Example 1,* with the following exceptions. *S,* a domestic corporation, did not dispose of any *FC* stock in 1987. Therefore, because *S* held 50 percent of the *FC* stock throughout 1987, *S*'s pro rata share of *FC*'s ordinary earnings was $50,000*x*. In addition to $50,000*x* of ordinary earnings from *FC, S* had $12,500*x* of domestic source income and $6,000*x* of expenses (other than interest expense) not definitely related to any gross income. These expenses are apportioned, pursuant to §1.861–8(c)(2), on a pro rata basis between the domestic and foreign source income—$1,200*x* of expenses, or one-fifth, to domestic source income, and $4,800*x* of expenses, or four-fifths, to the section 1293 inclusion. *FC* paid foreign taxes of $25,000*x* in 1987. Accordingly, *S* is entitled to claim as an indirect foreign tax credit pursuant to section 1293(f) a proportionate amount of the foreign taxes paid by *FC,* which is $12,500*x* ($25,000*x* × $50,000*x*/$100,000*x*). *S* is taxed in the U.S. at the rate of 34 percent. The amount of tax liability for which *S* may extend the time for payment is determined as follows:

1987 TAX LIABILITY (WITH SECTION 1293 INCLUSION)

Source	U.S.	Foreign
Income	12,500*x*	0
Section 1293	0	50,000*x*

1987 TAX LIABILITY (WITH SECTION 1293 INCLUSION)—Continued

Source	U.S.	Foreign
Expenses	−1,200*x*	−4,800x
Taxable income	11,300*x*	45,200*x*
Total taxable income	56,500*x*	
U.S. income tax rate	x34%	
Pre-credit U.S. tax	19,210*x*	
Foreign tax credit	−12,500x	
1987 Tax Liability	6,710*x*	

1987 TAX LIABILITY (WITHOUT SECTION 1293 INCLUSION)

Source	U.S.	Foreign
Income	12,500*x*	0
Expenses	−6,000x	
Taxable income	6,500*x*	
U.S. tax rate	x34%	
U.S. Tax	2,210*x*	
Foreign tax credit	0	
Hypothetical 1987 Tax Liability	2,210*x*	

The amount of tax, payment of which *S* may defer pursuant to section 1294, is $4,500*x* ($6,710*x* less $2,210*x*).

(g) *Authority to require a bond.* Pursuant to the authority granted in section 6165 and in the manner provided therein, and subject to notification, the District Director may require the electing shareholder to furnish a bond to secure payment of the tax, the time for payment of which is extended under this section. If the electing shareholder does not furnish the bond within 60 days after receiving a request from the District Director, the election will be revoked.

(h) *Annual reporting requirement.* The electing shareholder must attach Form 8621 or a statement to its income tax return for each year during which an election under this section is outstanding. The statement must contain the following information:

(1) The total amount of undistributed earnings as of the end of the taxable year to which the outstanding elections apply;

(2) The total amount of the undistributed PFIC earnings tax liability and accrued interest charge as of the end of the year;

(3) The total amount of distributions received during the taxable year; and

(4) A description of the occurrence of any other termination event described in paragraph (e) of this section that occurred during the taxable year.

The electing shareholder also shall file by the due date, as extended, for its return a copy of Form 8621 or the statement with the Philadelphia Service Center, P.O. Box 21086, Philadelphia, Pennsylvania 19114.

[T.D. 8178, 53 FR 6773, Mar. 2, 1988; 53 FR 11731, Apr. 8, 1988]

§ 1.1295–0 Table of contents.

This section contains a listing of the headings for §§ 1.1295–1T and 1.1295–3T.

§ 1.1295–1T Qualified electing funds (temporary).

(a) In general. [Reserved]

(b) Application of section 1295 election. [Reserved]

(1) Election personal to shareholder. [Reserved]

(2) Election applicable to specific corporation only.

(i) In general. [Reserved]

(ii) Stock of QEF received in a nonrecognition transfer. [Reserved]

(iii) Exception for options.

(3) Application of general rules to stock held by a pass through entity.

(i) Stock subject to a section 1295 election transferred to a pass through entity.

(ii) Limitation on application of pass through entity's section 1295 election.

(iii) Effect of partnership termination on section 1295 election.

(iv) Characterization of stock held through a pass through entity.

(4) Application of general rules to a taxpayer filing a joint return under section 6013.

(c) Effect of section 1295 election.

(1) In general.

(2) Years to which section 1295 election applies.

(i) In general.

(ii) Effect of PFIC status on election.

(iii) Effect on election of complete termination of a shareholder's interest in the PFIC.

(iv) Effect on section 1295 election of transfer of stock to a domestic pass through entity.

(v) Examples.

(d) Who may make a section 1295 election.

(1) General rule.

(2) Application of general rule to pass through entities.

(i) Partnerships.

(A) Domestic partnership.

(B) Foreign partnership.

(ii) S corporation.

(iii) Trust or estate.

(A) Domestic trust or estate.

(*1*) Nongrantor trust or estate.

(*2*) Grantor trust.

(B) Foreign trust or estate.

(*1*) Nongrantor trust or estate.

(*2*) Grantor trust.

(iv) Indirect ownership of the pass through entity or the PFIC.

(3) Member of consolidated return group as shareholder.

(4) Option holder.

(5) Exempt organization.

(e) Time for making a section 1295 election.

(f) Manner of making a section 1295 election and the annual election requirements of the shareholder.

(1) Manner of making the election.

(2) Annual election requirements.

(i) In general.

(ii) Retention of documents.

(g) Annual election requirements of the PFIC or intermediary.

(1) PFIC Annual Information Statement.

(2) Alternative documentation.

(3) Annual Intermediary Statement.

(4) Combined statements.

(i) PFIC Annual Information Statement.

(ii) Annual Intermediary Statement.

(h) Transition rules.

(i) Invalidation, termination or revocation of section 1295 election.

(1) Invalidation or termination of election at the discretion of the Commissioner.

(i) In general.

(ii) Deferral of section 1293 inclusion.

(iii) When effective.

(2) Shareholder revocation.

(i) In general.

(ii) Time for and manner of requesting consent to revoke.

(A) Time.

(B) Manner of making request.

(iii) When effective.

(3) Effect of invalidation, termination, or revocation.

(4) Election after invalidation, termination, or revocation.

(j) Definitions.

(k) Effective date.

§1.1295–3T Retroactive elections (temporary).

(a) In general.

(b) General rule.

(c) Protective Statement.

(1) In general.

(2) Reasonable belief statement.

(3) Who executes and files the Protective Statement.

(4) Waiver of the periods of limitations.

(i) Time for and manner of extending periods of limitations.

(A) In general.

(B) Application of general rule to domestic partnerships.

(*1*) In general

(*2*) Special rules.

(*i*) Addition of partner to non-TEFRA partnership.

(*ii*) Change in status from non-TEFRA partnership to TEFRA partnership.

(C) Application of general rule to domestic nongrantor trusts and domestic estates.

(D) Application of general rule to S corporations.

(E) Effect on waiver of complete termination of a pass through entity or pass through entity's business.

(F) Application of general rule to foreign partnerships, foreign trusts, domestic or foreign grantor trusts, and foreign estates.

(ii) Terms of waiver.

(A) Scope of waiver.

(B) Period of waiver.

(5) Time for and manner of filing a Protective Statement.

(i) In general.

(ii) Special rule for taxable years ended before January 2, 1998

(6) Applicability of the Protective Statement.

(i) In general.

(ii) Invalidity of the Protective Statement.

(7) Retention of Protective Statement and information demonstrating reasonable belief.

(d) Reasonable belief.

(1) In general.

(2) Knowledge of law required.

(e) Special rules for qualified shareholders.

(1) In general.

(2) Qualified shareholder.

(3) Exceptions.

(f) Special consent.

(1) In general.

(2) Reasonable reliance on a qualified tax professional.

(i) In general.

(ii) Shareholder deemed to have not reasonably relied on a qualified tax professional.

(3) Prejudice to the interests of the United States government.

(i) General rule.

(ii) Elimination of prejudice to the interests of the United States government.

(4) Procedural requirements.

(i) Filing instructions.

(ii) Affidavit from shareholder.

(iii) Affidavits from other persons.

(iv) Other information.

(v) Notification of Internal Revenue Service.

(vi) Who requests special consent under this paragraph (f) and who enters into a closing agreement.

(g) Time for and manner of making a retroactive election.

(1) Time for making a retroactive election.

(i) In general.

(ii) Transition rule.

(iii) Ownership not required at time retroactive election is made.

(2) Manner of making a retroactive election.
(3) Who makes the retroactive election.
(4) Other elections.
(i) Section 1291(d)(2) election.
(ii) Section 1294 election.
(h) Effective date.

[T.D. 8750, 63 FR 14, Jan. 2, 1998]

§ 1.1295–1T Qualified electing funds (temporary).

(a) *In general.* [Reserved]

(b) *Application of section 1295 election.* [Reserved]

(1) *Election personal to shareholder.* [Reserved]

(2) *Election applicable to specific corporation only—*

(i) *In general.* [Reserved]

(ii) *Stock of QEF received in a nonrecognition transfer.* [Reserved]

(iii) *Exception for options.* A shareholder's section 1295 election does not apply to any option to buy stock of the PFIC.

(3) *Application of general rules to stock held by a pass through entity*—(i) *Stock subject to a section 1295 election transferred to a pass through entity.* A shareholder's section 1295 election will not apply to a domestic pass through entity to which the shareholder transfers stock subject to section 1295 election, or to any other U.S. person that is an interest holder or beneficiary of the domestic pass through entity. However, as provided in paragraph (c)(2)(iv) of this section (relating to a transfer to a domestic pass through entity of stock subject to a section 1295 election), a shareholder that transfers stock subject to a section 1295 election to a pass through entity will continue to be subject to the section 1295 election with respect to the stock indirectly owned through the pass through entity and any other stock of that PFIC owned by the shareholder.

(ii) *Limitation on application of pass through entity's section 1295 election.* Except as provided in paragraph (c)(2)(iv) of this section, a section 1295 election made by a domestic pass through entity does not apply to other stock of the PFIC held directly or indirectly by the interest holder or beneficiary.

(iii) *Effect of partnership termination on section 1295 election.* Termination of a section 1295 election made by a domestic partnership by reason of the termination of the partnership under section 708(b) will not terminate the section 1295 election with respect to partners of the terminated partnership that are partners of the new partnership. Except as otherwise provided, the stock of the PFIC of which the new partners are indirect shareholders will be treated as stock of a QEF only if the new domestic partnership makes a section 1295 election with respect to that stock.

(iv) *Characterization of stock held through a pass through entity.* Stock of a PFIC held through a pass through entity will be treated as stock of a pedigreed QEF with respect to an interest holder or beneficiary only if—

(A) In the case of PFIC stock acquired (other than in a transaction in which gain is not recognized pursuant to regulations under section 1291(f) with respect to that stock), and held by a domestic pass through entity, the pass through entity makes the section 1295 election and the PFIC has been a QEF with respect to the pass through entity for all taxable years that are included wholly or partly in the pass through entity's holding period of the PFIC stock and during which the foreign corporation was a PFIC within the meaning of § 1.1291–9(j)(1); or

(B) In the case of PFIC stock transferred by an interest holder or beneficiary to a pass through entity in a transaction in which gain is not recognized pursuant to regulations under section 1291(f) with respect to that stock and held by the pass through entity, the PFIC stock transferred to the pass through entity was treated as stock of a pedigreed QEF with respect to the interest holder or beneficiary at the time of the transfer and the pass through entity makes a section 1295 election.

(4) *Application of general rules to a taxpayer filing a joint return under section 6013.* A section 1295 election made by a taxpayer in a joint return, within the meaning of section 6013, will be treated as also made by the spouse that joins in the filing of that return.

(c) *Effect of section 1295 election*—(1) *In general.* Except as otherwise provided in this paragraph (c), the effect of a shareholder's section 1295 election is to treat the foreign corporation as a QEF with respect to the shareholder for each taxable year of the foreign corporation ending with or within a taxable year of the shareholder for which the election is effective. A section 1295 election is effective for the shareholder's election year and all subsequent taxable years of the shareholder unless invalidated, terminated or revoked as provided in paragraph (i) of this section. The terms shareholder and shareholder's election year are defined in paragraph (j) of this section.

(2) *Years to which section 1295 election applies*—(i) *In general.* Except as otherwise provided in this paragraph (c), a foreign corporation with respect to which a section 1295 election is made will be treated as a QEF for its taxable year ending with or within the shareholder's election year and all subsequent taxable years of the foreign corporation that are included wholly or partly in the shareholder's holding period (or periods) of stock of the foreign corporation.

(ii) *Effect of PFIC status on election.* A foreign corporation will not be treated as a QEF for any taxable year of the foreign corporation that the foreign corporation is not a PFIC under section 1296(a) and is not treated as a PFIC under section 1297(b)(1). However, cessation of a foreign corporation's status as a PFIC will not terminate a section 1295 election.

(iii) *Effect on election of complete termination of a shareholder's interest in the PFIC.* Complete termination of a shareholder's direct and indirect interest in stock of a foreign corporation will not terminate a shareholder's section 1295 election with respect to the foreign corporation.

(iv) *Effect on section 1295 election of transfer of stock to a domestic pass through entity.* The transfer of a shareholder's direct or indirect interest in stock of a foreign corporation to a domestic pass through entity (as defined in paragraph (j) of this section) will not terminate the shareholder's section 1295 election with respect to the foreign corporation, whether or not the pass through entity makes a section 1295 election. For the rules concerning the application of section 1293 to stock transferred to a domestic pass through entity, see § 1.1293–1T(c).

(v) *Examples.* The following examples illustrate the rules of this paragraph (c)(2).

Example 1. In 1998, C, a U.S. person, purchased stock of FC, a foreign corporation that is a PFIC. Both FC and C are calendar year taxpayers. C made a timely section 1295 election to treat FC as a QEF in C's 1998 return, and FC was therefore a pedigreed QEF. C included its shares of FC's 1998 ordinary earnings and net capital gain in C's 1998 Income and did not make a section 1294 election to defer the time for payment of tax on that income. In 1999, 2000, and 2001, FC did not satisfy either the income or asset test of section 1296(a), and therefore was neither a PFIC nor a QEF. C therefore did not have to include its pro rata shares of the ordinary earnings and net capital gain of FC pursuant to section 1293, or satisfy the section 1295 annual reporting requirements for any of those years. FC qualified as a PFIC again in 2002. Because C had made a section 1295 election in 1998, and the election had not been invalidated, terminated, or revoked, within the meaning of paragraph (i) of this section, C's section 1295 election remains in effect for 2002. C therefore is subject in 2002 to the income inclusion and reporting rules required of shareholders of QEFs.

Example 2. The facts are the same as in Example (1) except that FC did not lose PFIC status in any year and C sold all the FC stock in 1999 and repurchased stock of FC in 2002. Because C had made a section 1295 election in 1998 with respect to stock of FC, and the election had not been invalidated, terminated, or revoked, within the meaning of paragraph (i) of this section, C's section 1295 election remained in effect and therefore applies to the stock of FC purchased by C in 2002. C therefore is subject in 2002 to the income inclusion and reporting rules required of shareholders of QEFs.

Example 3. The facts are the same as in Example (2) except that C is a partner in domestic partnership P and C transferred its FC stock to P in 1999. Because C had made a section 1295 election in 1998 with respect to stock of FC, and the election had not been invalidated, terminated, or revoked, within the meaning of paragraph (i) of this section, C's section 1295 election remains in effect with respect to its indirect interest in the stock of FC. If P does not make the section 1295 election with respect to the FC stock, C will continue to be subject, in C's capacity as an indirect shareholder of FC, to the income inclusion and reporting rules required of shareholders of QEFs in 1999 and subsequent years. If P makes the section 1295 election, C will take into account its pro rata shares of the ordinary earnings and net capital gain of the FC under the rules applicable to inclusions of income from P.

(d) *Who may make a section 1295 election*—(1) *General rule.* Except as otherwise provided in this paragraph (d), any U.S. person that is a shareholder (as defined in paragraph (j) of this section) of a PFIC, including a shareholder that holds stock of a PFIC in bearer form, may make a section 1295 election with respect to that PFIC. The shareholder need not own directly or indirectly any stock of the PFIC at the time the shareholder makes the section 1295 election provided the shareholder is a shareholder of the PFIC during the taxable year of the PFIC that ends with or within the taxable year of the shareholder for which the section 1295 election is made. Except in the case of a shareholder that is an exempt organization that may not make a section 1295 election, as provided in paragraph (d)(5) of this section, in a chain of ownership only the first U.S. person that is a shareholder of the PFIC may make the section 1295 election.

(2) *Application of general rule to pass through entities*—(i) *Partnerships*—(A) *Domestic partnership.* A domestic partnership that holds an interest in stock of a PFIC makes the section 1295 election with request to that PFIC. The partnership election applies only to the stock of the PFIC held directly or indirectly by the partnership and not to any other stock held directly or indirectly by any partner. As provided in § 1.1293–1T(c)(1), shareholders owning stock of a QEF by reason of an interest in the partnership take into account the section 1293 inclusions with respect to the QEF shares owned by the partnership under the rules applicable to inclusions of income from the partnership.

(B) *Foreign partnership.* A U.S. person that holds an interest in a foreign partnership that, in turn, holds an interest in stock of a PFIC makes the section 1295 election with respect to that PFIC. A partner's election applies to the stock of the PFIC owned directly or indirectly by the foreign partnership and to any other stock of the PFIC owned by that partner. A section 1295 election by a partner applies only to that partner.

(ii) *S corporation.* An S corporation that holds an interest in stock of a PFIC makes the section 1295 election with respect to that PFIC. The S corporation election applies only to the stock of the PFIC held directly or indirectly by the S corporation and not to any other stock held directly or indirectly by any S corporation shareholder. As provided in § 1.1293–1T(c)(1), shareholders owning stock of a QEF by reason of an interest in the S corporation take into account the section 1293 inclusions with respect to the QEF shares under the rules applicable to inclusions of income from the S corporation.

(iii) *Trust or estate*—(A) *Domestic trust or estate*—(*1*) *Nongrantor trust or estate.* A domestic nongrantor trust or a domestic estate that holds an interest in stock of a PFIC makes the section 1295 election with respect to that PFIC. The trust or estate's election applies only to the stock of the PFIC held directly or indirectly by the trust or estate and not to any other stock held directly or indirectly by any beneficiary. As provided in § 1.1293–1T(c)(1), shareholders owning stock of a QEF by reason of an interest in a domestic trust or estate take into account the section 1293 inclusions with respect to the QEF shares under the rules applicable to inclusions of income from the trust or estate.

(*2*) *Grantor trust.* A U.S. person that is treated under sections 671 through 678 as the owner of the portion of a domestic trust that owns an interest in stock of a PFIC makes the section 1295 election with respect to that PFIC. If that person ceases to be treated as the owner of the portion of the trust that owns an interest in the PFIC stock and is a beneficiary of the trust, that person's section 1295 election will continue to apply to the PFIC stock indirectly owned by that person under the rules of paragraph (c)(2)(iv) of this section as if the person had transferred its interest in the PFIC stock to the trust. However, the stock will be treated as stock of a PFIC that is not a QEF with respect to other beneficiaries of the trust, unless the trust makes the section 1295 election as provided in paragraph (d)(2)(iii)(A)(*1*) of this section.

(B) *Foreign trust or estate*—(*1*) *Nongrantor trust or estate.* A U.S. person that is a beneficiary of a foreign nongrantor trust or estate that holds an interest in stock of a PFIC makes the section 1295 election with respect to that PFIC. A beneficiary's section 1295 election applies to all the PFIC stock owned directly and indirectly by the trust or estate and to the other PFIC stock owned directly or indirectly by the beneficiary. A section 1295 election by a beneficiary applies only to that beneficiary.

(*2*) *Grantor trust.* A U.S. person that is treated under sections 671 through 679 as the owner of the portion of a foreign trust that owns an interest in stock of a PFIC stock makes the section 1295 election with respect to that PFIC. If that person ceases to be treated as the owner of the portion of the trust that owns an interest in the PFIC stock and is a beneficiary of the trust, that person's section 1295 election will continue to apply to the PFIC stock indirectly owned by that person under the rules of paragraph (c)(2)(iv) of this section. However, as provided in paragraph (d)(2)(iii)(B)(*1*) of this section, any other shareholder that is a beneficiary of the trust and that wishes to treat the PFIC as a QEF must make the section 1295 election.

(iv) *Indirect ownership of the pass through entity or the PFIC.* The rules of this paragraph (d)(2) apply whether or not the shareholder holds its interest in the pass through entity directly or indirectly and whether or not the pass through entity holds its interest in the PFIC directly or indirectly.

(3) *Member of consolidated return group as shareholder.* Pursuant to §1.1502–77(a), the common parent of an affiliated group of corporations that join in filing a consolidated income tax return makes a section 1295 election for all members of the affiliated group. An election by a common parent will be effective for all members of the affiliated group with respect to interests in PFIC stock held at the time the election is made or at any time thereafter. A separate election must be made by the common parent for each PFIC of which a member of the affiliated group is a shareholder.

(4) *Option holder.* A holder of an option to acquire stock of a PFIC may not make a section 1295 election that will apply to the option or to the stock subject to the option.

(5) *Exempt organization.* A tax-exempt organization that is not taxable under section 1291, pursuant to §1.1291–1T(e), with respect to a PFIC may not make a section 1295 election with respect to that PFIC. In addition, such an exempt organization will not be subject to any section 1295 election made by a domestic pass through entity.

(e) *Time for making a section 1295 election.* Except as provided in §1.1295–3T, a shareholder making the section 1295 election must make the election on or before the due date, as extended under section 6081 (election due date), for filing the shareholder's income tax return for the first taxable year to which the election will apply. The section 1295 election must be made in the original return for that year, or in an amended return, provided the amended return is filed on or before the election due date.

(f) *Manner of making a section 1295 election and the annual election requirements of the shareholder*—(1) *Manner of making the election.* A shareholder must make a section 1295 election by—

(i) Completing Form 8621 in the manner required by that form and this section for making the section 1295 election;

(ii) Attaching Form 8621 to its Federal income tax return filed by the election due date for the shareholder's election year;

(iii) Receiving and reflecting in Form 8621 the information provided in the PFIC Annual Information Statement described in paragraph (g)(1) of this section, the Annual Intermediary Statement described in paragraph (g)(3) of this section, or the applicable combined statement described in paragraph (g)(4) of this section, for the taxable year of the PFIC ending with or within the taxable year for which Form 8621 is being filed. If the PFIC Annual Information Statement contains a statement described in paragraph (g)(1)(ii)(C) of this section, the shareholder must attach a statement to Form 8621 that indicates that the shareholder rather than the QEF calculated the QEF's ordinary earnings and net capital gain; and

(iv) Filing a copy of Form 8621 with the Philadelphia Service Center, P.O.

Box 21086, Philadelphia, PA 19114 by the election due date.

(2) *Annual election requirements*—(i) *In general.* A shareholder that makes a section 1295 election with respect to a PFIC held directly or indirectly, for each taxable year to which the section 1295 election applies, must—

(A) Complete Form 8621 in the manner required by that form and this section;

(B) Attach Form 8621 to its Federal income tax return filed by the due date of the return, as extended;

(C) Receive and reflect in Form 8621 the PFIC Annual Information Statement described in paragraph (g)(1) of this section, the Annual Intermediary Statement described in paragraph (g)(3) of this section, or the applicable combined statement described in paragraph (g)(4) of this section, for the MTtaxable year of the PFIC ending with or within the taxable year for which Form 8621 is being filed. If the PFIC Annual Information Statement contains a statement described in paragraph (g)(1)(ii)(C) of this section, the shareholder must attach a statement to its Form 8621 that the shareholder rather than the PFIC provided the calculations of the PFIC's ordinary earnings and net capital gain; and

(D) File a copy of Form 8621 with the Philadelphia Service Center, P.O. Box 21086, Philadelphia, PA 19114 by the election due date.

(ii) *Retention of documents.* For all taxable years subject to the section 1295 election, the shareholder must retain copies of all Forms 8621, with their attachments, and PFIC Annual Information Statements or Annual Intermediary Statements. Failure to produce those documents at the request of the Commissioner in connection with an examination may result in invalidation or termination of the shareholder's section 1295 election.

(g) *Annual election requirements of the PFIC or intermediary*—(1) *PFIC Annual Information Statement.* For each year of the PFIC ending in a taxable year of a shareholder to which the shareholder's section 1295 election applies, the PFIC must provide the shareholder with a PFIC Annual Information Statement. The PFIC Annual Information Statement is a statement of the PFIC, signed by the PFIC or an authorized representative of the PFIC, that contains the following information and representation—

(i) The first and last days of the taxable year of the PFIC to which the PFIC Annual Information Statement applies;

(ii) Either—

(A) The shareholder's pro rata shares of the ordinary earnings and net capital gain (as defined in § 1.1295–1T(a)(2)) of the PFIC for the taxable year indicated in paragraph (g)(1)(i) of this section; or

(B) Sufficient information to enable the shareholder to calculate its pro rata shares of the PFIC's ordinary earnings and net capital gain, for that taxable year; or

(C) A statement that the foreign corporation has permitted the shareholder to examine the books of account, records, and other documents of the foreign corporation for the shareholder to calculate the amounts of the PFIC's ordinary earnings and the net capital gain according to Federal income tax accounting principles and to calculate the shareholder's pro rata shares of the PFIC's ordinary earnings and net capital gain;

(iii) The amount of cash and the fair market value of other property distributed or deemed distributed to the shareholder during the taxable year of the PFIC to which the PFIC Annual Information Statement pertains; and

(iv) Either—

(A) A statement that the PFIC will permit the shareholder to inspect and copy the PFIC's permanent books of account, records, and such other documents as may be maintained by the PFIC to establish that the PFIC's ordinary earnings and net capital gain are computed in accordance with U.S. income tax principles, and to verify these amounts and the shareholder's pro rata shares thereof; or

(B) In lieu of the statement required in paragraph (g)(1)(iv)(A) of this section, a description of the alternative documentation requirements approved by the Commissioner, with a copy of the private letter ruling and the closing agreement entered into by the Commissioner and the PFIC pursuant to paragraph (g)(2) of this section.

(2) *Alternative documentation.* In rare and unusual circumstances, the Commissioner will consider alternative documentation requirements necessary to verify the ordinary earnings and net capital gain of a PFIC other than the documentation requirements described in paragraph (g)(1)(iv)(A) of this section. Alternative documentation requirements will be allowed only pursuant to a private letter ruling and a closing agreement entered into by the Commissioner and the PFIC describing an alternative method of verifying the PFIC's ordinary earnings and net capital gain. If the PFIC has not obtained a private letter ruling from the Commissioner approving an alternative method of verifying the PFIC's ordinary earnings and net capital gain by the time a shareholder is required to make a section 1295 election, the shareholder may not use an alternative method for that taxable year.

(3) *Annual Intermediary Statement.* In the case of a U.S. person that is a shareholder of a PFIC through an intermediary, as defined in paragraph (j) of this section, an Annual Intermediary Statement issued by an intermediary containing the information described in paragraph (g)(1) of this section and reporting the indirect owner's pro rata shares of the ordinary earnings and net capital gain of the QEF as described in paragraph (g)(1)(i)(A) of this section, may be provided to the indirect owner in lieu of the PFIC Annual Information Statement if the following conditions are satisfied—

(i) The intermediary receives a copy of the PFIC Annual Information Statement or the intermediary receives an annual intermediary statement from another intermediary which contains a statement that the other intermediary has received a copy of the PFIC Annual Information Statement and represents that the conditions of paragraphs (g)(3)(ii) and (g)(3)(iii) of this section are met;

(ii) The representations and information contained in the Annual Intermediary Statement reflect the representations and information contained in the PFIC Annual Information Statement; and

(iii) The PFIC Annual Information Statement issued to the intermediary contains either the representation set forth in paragraph (g)(1)(iv)(A) of this section, or, if alternative documentation requirements were approved by the Commissioner pursuant to paragraph (g)(2) of this section, a copy of the private letter ruling and closing agreement between the Commissioner and the PFIC, agreeing to an alternative method of verifying PFIC ordinary earnings and net capital gain as described in paragraph (g)(2) of this section;

(4) *Combined statements*—(i) *PFIC Annual Information Statement.* A PFIC that owns directly or indirectly any stock of one or more PFICs with respect to which a shareholder may make the section 1295 election may prepare a PFIC Annual Information Statement that combines with its own information and representations the information and representations of all the PFICs. The PFIC may use any format for a combined PFIC Annual Information Statement provided the required information and representations are separately stated and identified with the respective corporations.

(ii) *Annual Intermediary Statement.* An intermediary described in paragraph (g)(3) of this section that owns directly or indirectly stock of one or more PFICs with respect to which an indirect shareholder may make the section 1295 election may prepare an Annual Intermediary Statement that combines with its own information and representations the information and representations with respect to all the PFICs. The intermediary may use any format for a combined Annual Intermediary Statement provided the required information and representations are separately stated and identified with the intermediary and the respective corporations.

(h) *Transition rules.* The rules of Notice 88–125, 1988–2 C.B. 535 (see §601.601(d)(2)(ii)(*b*) of this chapter), apply for making elections and maintaining elections for taxable years beginning after December 31, 1986, and before January 1, 1998. Elections made under Notice 88–125 must be maintained as provided in §1.1295–1T for taxable years beginning after December 31,

1997. A section 1295 election made prior to February 2, 1998 that was intended to be effective for the taxable year of the PFIC that began during the shareholder's election year will be effective for that taxable year of the foreign corporation provided that it is clear from all the facts and circumstances that the shareholder intended the election to be effective for that taxable year of the foreign corporation.

(i) *Invalidation, termination, or revocation of section 1295 election*—(1) *Invalidation or termination of election at the discretion of the Commissioner*—(i) *In general.* The Commissioner, in the Commissioner's discretion, may invalidate or terminate a section 1295 election applicable to a shareholder if the shareholder, the PFIC, or any intermediary fails to satisfy the requirements for making a section 1295 election or the annual election requirements of this section to which the shareholder, PFIC, or intermediary is subject, including the requirement to provide, on request, copies of the books and records of the PFIC or other documentation substantiating the ordinary earnings and net capital gain of the PFIC.

(ii) *Deferral of section 1293 inclusion.* The Commissioner may invalidate any pass through entity section 1295 election with respect to an interest holder or beneficiary if the section 1293 inclusion with respect to that interest holder or beneficiary is not included in the gross income of either the pass through entity, an intermediate pass through entity, or the interest holder or beneficiary within two years of the end of the PFIC's taxable year due to nonconforming taxable years of the interest holder and the pass through entity or any intermediate pass through entity.

(iii) *When effective.* Termination of a shareholder's section 1295 election will be effective for the taxable year of the PFIC determined by the Commissioner in the Commissioner's discretion. An invalidation of a shareholder's section 1295 election will be effective for the first taxable year to which the section 1295 election applied, and the shareholder whose election is invalidated will be treated as if the section 1295 election never was made.

(2) *Shareholder revocation*—(i) *In general.* In the Commissioner's discretion, upon a finding of a substantial change in circumstances, the Commissioner may consent to a shareholder's request to revoke a section 1295 election. Request for revocation must be made by the shareholder that made the election and at the time and in the manner provided in paragraph (i)(2)(ii) of this section.

(ii) *Time for and manner of requesting consent to revoke*—(A) *Time.* The shareholder must request consent to revoke the section 1295 election no later than 12 calendar months after the discovery of the substantial change of circumstances that forms the basis for the shareholder's request to revoke the section 1295 election.

(B) *Manner of making request.* A shareholder requests consent to revoke a section 1295 election by filing a ruling request with the Office of the Associate Chief Counsel (International). The ruling request must satisfy the requirements, including payment of the user fee, for filing ruling requests with that office.

(iii) *When effective.* Unless otherwise determined by the Commissioner, revocation of a section 1295 election will be effective for the first taxable year of the PFIC beginning after the date the Commissioner consents to the revocation.

(3) *Effect of invalidation, termination, or revocation.* An invalidation, termination, or revocation of a section 1295 election—

(i) Terminates all section 1294 elections, as provided in §1.1294–1T(e), and the undistributed PFIC earnings tax liability and interest thereon are due by the due date, without regard to extensions, for the return for the last taxable year of the shareholder to which the section 1295 election applies;

(ii) In the Commissioner's discretion, results in a deemed sale of the QEF stock on the last day of the PFIC's last taxable year as a QEF, in which gain, but not loss, will be recognized and with respect to which appropriate basis and holding period adjustments will be made; and

(iii) Subjects the shareholder to any other terms and conditions that the

Commissioner determines are necessary to ensure the shareholder's compliance with sections 1291 through 1297 or any other provisions of the Code.

(4) *Election after invalidation, termination or revocation.* Without the Commissioner's consent a shareholder whose section 1295 election was invalidated, terminated, or revoked under this paragraph (i) may not make the section 1295 election with respect to the PFIC before the sixth taxable year ending after the taxable year in which the invalidation, termination or revocation became effective.

(j) *Definitions.* For purposes of this section—

Intermediary is a nominee or shareholder of record that holds stock on behalf of the shareholder or on behalf of another person in a chain of ownership between the shareholder and the PFIC, and any direct or indirect beneficial owner of PFIC stock (including a beneficial owner that is a pass through entity) in the chain of ownership between the shareholder and the PFIC.

Pass through entity is a partnership, S corporation, trust, or estate.

Shareholder has the same meaning as the term shareholder in §1.1291–9(j)(3), except that for purposes of this section, a partnership and an S corporation also are treated as shareholders. Furthermore, unless otherwise provided, an interest holder of a pass through entity, which is treated as a shareholder of a PFIC, also will be treated as a shareholder of the PFIC.

Shareholder's election year is the taxable year of the shareholder for which it made the section 1295 election.

(k) *Effective date.* Section 1.1295–1T (b)(2)(iii), (b)(3), (b)(4), and (c) through (j) is applicable to taxable years of shareholders beginning after December 31, 1997.

[T.D. 8750, 63 FR 15, Jan. 2, 1998]

§1.1295–3T Retroactive elections (temporary).

(a) *In general.* This section prescribes the exclusive rules under which a shareholder, as defined in §1.1295–1T(j), may make a section 1295 election for a taxable year after the election due date, as defined in §1.1295–1T(e) (retroactive election). Therefore, a shareholder may not seek such relief under any other provision of the law, including §301.9100 of this chapter. Paragraph (b) of this section describes the general rules for a shareholder to preserve the ability to make a retroactive election. These rules require that the shareholder possess reasonable belief as of the election due date that the foreign corporation was not a PFIC for its taxable year that ended in the shareholder's taxable year to which the election due date pertains, and that the shareholder file a Protective Statement to preserve its ability to make a retroactive election. Paragraph (c) of this section establishes the terms, conditions and other requirements with respect to a Protective Statement required to be filed under the general rules. Paragraph (d) of this section sets forth factors that establishes a shareholder's reasonable belief that a foreign corporation was not a PFIC. Paragraph (e) of this section prescribes special rules for certain shareholders that are deemed to satisfy the reasonable belief requirement and therefore are not required to file a Protective Statement. Paragraph (f) of this section describes the limited circumstances under which the Commissioner may permit a shareholder that lacked the requisite reasonable belief or failed to satisfy the requirements of paragraph (b) or (e) of this section to make a retroactive election. Paragraph (g) of this section provides the time for and manner of making a retroactive election. Paragraph (h) of this section provides the effective date of this section.

(b) *General rule.* Except as provided in paragraphs (e) and (f) of this section, a shareholder may make a retroactive election for a taxable year of the shareholder (retroactive election year) only if the shareholder—

(1) Reasonably believed, within the meaning of paragraph (d) of this section, as of the election due date that the foreign corporation was not a PFIC for its taxable year that ended during the retroactive election year;

(2) Filed a Protective Statement with respect to the foreign corporation, applicable to the retroactive election

year, in which the shareholder described the basis for its reasonable belief and extended, in the manner provided in paragraph (c)(4) of this section, the periods of limitations on the assessment of taxes determined under sections 1291 and 1297 with respect to the foreign corporation (PFIC related taxes) for all taxable years of the shareholder to which the Protective Statement applies; and

(3) Complied with the other terms and conditions of the Protective Statement.

(c) *Protective Statement*—(1) *In general.* A Protective Statement is a statement executed under penalties of perjury by the shareholder, or a person authorized to sign a Federal income tax return on behalf of the shareholder, that preserves the shareholder's ability to make a retroactive election. To file a Protective Statement that applies to a taxable year of the shareholder, the shareholder must reasonably believe as of the election due date that the foreign corporation was not a PFIC for the foreign corporation's taxable year that ended during the retroactive election year. The Protective Statement must contain—

(i) The shareholder's reasonable belief statement, as described in paragraph (c)(2) of this section;

(ii) The shareholder's agreement extending the periods of limitations on the assessment of PFIC related taxes for all taxable years to which the Protective Statement applies, as provided in paragraph (c)(4) of this section; and

(iii) The following information and representations—

(A) The shareholder's name, address, taxpayer identification number, and the shareholder's first taxable year to which the Protective Statement applies;

(B) The foreign corporation's name, address, and taxpayer identification number, if any; and

(C) The highest percentage of shares of each class of stock of the foreign corporation held directly or indirectly by the shareholder during the shareholder's first taxable year to which the Protective Statement applies.

(2) *Reasonable belief statement.* The Protective Statement must contain a reasonable belief statement, as described in paragraph (c)(1) of this section. The reasonable belief statement is a description of the shareholder's basis for its reasonable belief that the foreign corporation was not a PFIC for its taxable year that ended with or within the shareholder's first taxable year to which the Protective Statement applies. If the Protective Statement applies to a taxable year or years described in paragraph (c)(5)(ii) of this section, the reasonable belief statement must describe the shareholder's basis for its reasonable belief that the foreign corporation was not a PFIC for the foreign corporation's taxable year or years that ended in such taxable year or years of the shareholder. The reasonable belief statement must discuss the application of the income and asset tests to the foreign corporation and the factors, including those stated in paragraph (d) of this section, that affect the results of those tests.

(3) *Who executes and files the Protective Statement.* The person that executes and files and Protective Statement is the person that makes the section 1295 election, as provided in § 1.1295–1T(d).

(4) *Waiver of the periods of limitations*—(i) *Time for and manner of extending periods of limitations.* (A) *In general.* A shareholder that files the Protective Statement with the Commissioner must extend the periods of limitations on the assessment of all PFIC related taxes for all of the shareholder's taxable years to which the Protective Statement applies, as provided in this paragraph (c)(4). The shareholder is required to execute the waiver on such form as the Commission may prescribe for purposes of this paragraph (c)(4). Until that form is published, the shareholder must execute a statement in which the shareholder agrees to extend the periods of limitations on the assessment of taxes for all the shareholder's taxable years to which the Protective Statement applies, as provided in this paragraph (c)(4), and agrees to the restrictions in paragraph (c)(4)(ii)(A) of this section. The shareholder or a person authorized to sign the shareholder's Federal income tax return must sign the form or statement. A properly executed form or statement authorized by this paragraph (c)(4) will be deemed consented

to and signed by a Service Center Director or the Assistant Commissioner (International) for purposes of § 301.6501(c)–1(d) of this chapter.

(B) *Application of general rule to domestic partnerships*— (*1*) *In general.* A domestic partnership that holds an interest in stock of a PFIC satisfies the waiver requirement of paragraph (c)(4) of this section pursuant to the rules of this paragraph (c)(4)(i)(B)(*1*). The partnership must file one or more waivers obtained or arranged under this paragraph (c)(4)(i)(B) as part of the Protective Statement, as provided in paragraph (c)(1) of this section. The partnership must either—

(*i*) Obtain from each partner the partner's waiver of the periods of limitations;

(*ii*) Obtain from each partner a duly executed power of attorney under § 601.501 of this chapter authorizing the partnership to extend that partner's periods of limitations, and execute a waiver on behalf of the partners; or

(*iii*) In the case of a domestic partnership governed by the unified audit and litigation procedures of sections 6221 through 6233 (TEFRA partnership), arrange for the tax matters partner (or any other person authorized to enter into an agreement to extend the periods of limitations), as provided in section 6229(b), to execute a waiver on behalf of all the partners.

(*2*) *Special rules*—(*i*) *Addition of partner to non-TEFRA partnership.* In the case of any individual who becomes a partner in a domestic partnership other than a TEFRA partnership (non-TEFRA partnership) in a taxable year subsequent to the year in which the partnership filed a Protective Statement, the partner and the partnership must comply with the rules applicable to non-TEFRA partnerships, as provided in paragraph (c)(4)(i)(B)(*1*) of this section, by the due date, as extended, for the Federal income tax return of the partnership for the taxable year during which the individual became a partner. Failure to so comply will render the Protective Statement invalid with respect to the partnership and partners.

(*ii*) *Change in status from non-TEFRA partnership to TEFRA partnership.* If a partnership is a non-TEFRA partnership in one taxable year but becomes a TEFRA partnership in a subsequent taxable year, the partnership must file one or more waivers obtained or arranged under this paragraph (c)(4)(i)(B)(*2*)(*ii*), as part of the Protective Statement, as provided in paragraph (c)(1) of this section. The partnership must either—obtain from any new partner the partner's waiver described in this paragraph (c)(4); obtain from the new partner a duly executed power of attorney under § 601.501 of this chapter authorizing the partnership to extend the partner's periods of limitations, and execute a waiver on behalf of the new partner; or arrange for the tax matters partner (or any other person authorized to enter into an agreement to extend the periods of limitations) to execute a waiver on behalf of all the partners. In each case, the partnership must attach any new waiver of a partner's periods of limitations, and a copy of the Protective Statement to its Federal income tax return for that taxable year.

(C) *Application of general rule to domestic nongrantor trusts and domestic estates.* A domestic nongrantor trust or a domestic estate that holds an interest in stock of a PFIC satisfies the waiver requirement of this paragraph (c)(4) at the entity level. For this purpose, such entity must comply with rules similar to those applicable to non-TEFRA partnerships, as provided in paragraph (c)(4)(i)(B)(*1*) of this section.

(D) *Application of general rule to S corporations.* An S corporation that holds an interest in stock of a PFIC satisfies the waiver requirement of this paragraph (c)(4) at the S corporation level. For this purpose, the S corporation must comply with rules similar to those applicable to non-TEFRA partnerships, as provided in paragraph (c)(4)(i)(B)(*1*) of this section. However, in the case of an S corporation that was governed by the unified audit corporate proceedings of sections 6241 through 6245 for any taxable year to which a Protective Statement applies (former TEFRA S corporation), the tax matters person (or any other person authorized to enter into such an agreement), as was provided in sections 6241 through 6245, may execute a waiver described in this paragraph (c)(4) that applies to such taxable year; for any other taxable year, the former TEFRA S corporation must comply with rules similar to those applicable to non-TEFRA partnerships.

(E) *Effect on waiver of complete termination of a pass through entity or pass through entity's business.* The complete termination of a pass through entity described in paragraphs (c)(4)(i) (B) through (D) of this section, or a pass through entity's trade or business, will not terminate a waiver that applies to a partner, shareholder, or beneficiary.

(F) *Application of general rule to foreign partnerships, foreign trusts, domestic or foreign grantor trusts, and foreign estates.* A U.S. person that is a partner or beneficiary of a foreign partnership, foreign trust, or foreign estate that holds an interest in stock of a PFIC satisfies the waiver requirement of this paragraph (c)(4) at the partner or beneficiary level. A U.S. person that is treated under sections 671 through 679 as the owner of the portion of a domestic or foreign trust that owns an interest in PFIC stock also satisfies the waiver requirement at the owner level. A waiver by a partner or beneficiary applies only to that partner or beneficiary, and is not affected by a complete termination of the entity or the entity's trade or business.

(ii) *Terms of waiver*—(A) *Scope of waiver.* The waiver of the periods of limitations is limited to the assessment of PFIC related taxes. If the period of limitations for a taxable year affected by a retroactive election has expired with respect to the assessment of other non-PFIC related taxes, no adjustments, other than consequential changes, may be made by the Internal Revenue Service or by the shareholder to any other item of income, deduction, or credit for that year. If the period of limitations for refunds or credits for a taxable year affected by a retroactive election is open only by virtue of the assessment period extension and section 6511(c), no refund or credit is allowable on grounds other than adjustments to PFIC related taxes and consequential changes.

(B) *Period of Waiver.* The extension of the periods of limitations on the assessment of PFIC related taxes will be effective for all of the shareholder's taxable years to which the Protective Statement applies. In addition, the waiver, to the extent it applies to the period of limitations for a particular year, will terminate with respect to that year no sooner than three years from the date on which the shareholder files an amended return, as provided in paragraph (g) of this section, for that year. For the suspension of the running of the period of limitations for the collection of taxes for which a shareholder has elected under section 1294 to extend the time for payment, as provided in paragraph (g)(3)(ii) of this section, see sections 6503(i) and 6229(h).

(5) *Time for and manner of filing a Protective Statement*—(i) *In general.* Except as provided in paragraph (c)(5)(ii) of this section, a Protective Statement must be attached to the shareholder's Federal income tax return for the shareholder's first taxable year to which the Protective Statement will apply. The shareholder also must file a copy of the Protective Statement with the Philadelphia Service Center, P.O. 21086, Philadelphia, PA 19114. The shareholder must file its return and the copy of the Protective Statement by the due date, as extended, for the return.

(ii) *Special rule for taxable years ended before January 2, 1998.* A shareholder may file a Protective Statement that applies to the shareholder's taxable year or years that ended before January 2, 1998, provided the period of limitations on the assessment of taxes for any such year has not expired (open year). The shareholder must file the Protective Statement applicable to such open year or years, as provided in paragraph (c)(5)(i) of this section, by the due date, as extended, for the shareholder's return for the first taxable year ending after January 2, 1998.

(6) *Applicability of the Protective Statement*—(i) *In general.* Except as otherwise provided in this paragraph (c)(6), a Protective Statement applies to the shareholder's first taxable year for which the Protective Statement was filed and to each subsequent taxable year. The Protective Statement will not apply to any taxable year of the

shareholder during which the shareholder does not own any stock of the foreign corporation or to any taxable year thereafter. Accordingly, if the shareholder has not made a retroactive election with respect to the previously owned stock by the time the shareholder reacquires stock of the foreign corporation, the shareholder must file another Protective Statement to preserve its right to make a retroactive election with respect to the later acquired stock. For the rule that provides that a section 1295 election made with respect to a foreign corporation applies to stock of that corporation acquired after a lapse in ownership, see §1.1295–1T(c)(2)(iii).

(ii) *Invalidity of the Protective Statement.* A shareholder will be treated as if it never filed a Protective Statement if—

(A) The shareholder failed to make a retroactive election by the date prescribed for making the retroactive election in paragraph (g)(1) of this section; or

(B) The waiver of the periods of limitations terminates (by reason of a court decision or other determination) with respect to any taxable year before the expiration of three years from the date of filing of an amended return for that year pursuant to paragraph (g) of this section.

(7) *Retention of Protective Statement and information demonstrating reasonable belief.* A shareholder that files a Protective Statement must retain a copy of the Protective Statement and its attachments and must, for each taxable year of the shareholder to which the Protective Statement applies, retain information sufficient to demonstrate the shareholder's reasonable belief that the foreign corporation was not a PFIC for the taxable year of the foreign corporation ending during each such taxable year of the shareholder.

(d) *Reasonable belief*—(1) *In general.* A foreign corporation is a PFIC for a taxable year if the foreign corporation satisfies either the income or asset test of section 1296(a). To determine whether a shareholder had reasonable belief that the foreign corporation is not a PFIC under section 1296(a), the shareholder must consider all relevant facts and circumstances. Reasonable belief may be based on a variety of factors, including reasonable asset valuations as well as reasonable interpretations of the applicable provisions of the Code, regulations, and administrative guidance regarding the direct and indirect ownership of the income or assets of the foreign corporation, the proper character of that income or those assets, and similar issues. Reasonable belief may be based on reasonable predictions regarding income to be earned and assets to be owned in subsequent years where qualifications of the foreign corporation as a PFIC for the current taxable year will depend on the qualification of the corporation as a PFIC in a subsequent year. Reasonable belief may be based on an analysis of generally available financial information of the foreign corporation. To determine whether a shareholder had reasonable belief that the foreign corporation was not a PFIC, the Commissioner may consider the size of the shareholder's interest in the foreign corporation.

(2) *Knowledge of law required.* Reasonable belief must be based on a good faith effort to apply the Code, regulations, and related administrative guidance. Any person's failure to know or apply these provisions will not form the basis of reasonable belief.

(e) *Special rules for qualified shareholders*—(1) *In general.* A shareholder that is a qualified shareholder, as defined in paragraph (e)(2) of this section, for a taxable year of the shareholder is not required to satisfy the reasonable belief requirement of paragraph (b)(1) of this section or file a Protective Statement to preserve its ability to make a retroactive election with respect to such taxable year. Accordingly, a qualified shareholder may make a retroactive election for any open taxable year in the shareholder's holding period. The retroactive election will be treated as made in the earliest taxable year of the shareholder during which the foreign corporation qualified as a PFIC (including a taxable year ending prior to January 2, 1998) and the shareholder will be treated as a shareholder of a pedigreed QEF, as defined in §1.1291–9(j)(2)(ii), provided the shareholder—

(i) Has been a qualified shareholder with respect to the foreign corporation for all taxable years of the shareholder included in the shareholder's holding period during which the foreign corporation was a PFIC, or in the case of taxable years ending before January 2, 1998, the shareholder satisfies the criteria of a qualified shareholder, for all such years; or

(ii) Has been a qualified shareholder, or in the case of taxable years ending before January 2, 1998 satisfies the criteria of a qualified shareholder, for all taxable years in its holding period before it filed a Protective Statement, which Protective Statement is applicable to all subsequent years, beginning with the first taxable year in which the shareholder is not a qualified shareholder.

(2) *Qualified shareholder.* A shareholder will be treated as a qualified shareholder for a taxable year if the shareholder did not file a Protective Statement applicable to an earlier taxable year included in the shareholder's holding period of the stock of the foreign corporation currently held and—

(i) At all times during the taxable year the shareholder owned, within the meaning of section 958, directly, indirectly, or constructively, less than two percent of the vote and value of each class of stock of the foreign corporation; and

(ii) With respect to the taxable year of the foreign corporation ending within the shareholder's taxable year, the foreign corporation or U.S. counsel for the foreign corporation indicated in a public filing, disclosure statement or other notice provided to U.S. persons that are shareholders of the foreign corporation (corporate filing) that the foreign corporation—

(A) Reasonably believes that it is not or should not constitute a PFIC for the corporation's taxable year; or

(B) Is unable to conclude that it is not or should not be a PFIC (due to certain asset valuation or interpretation issues, or because PFIC status will depend on the income or assets of the foreign corporation in the corporation's subsequent taxable years) but reasonably believes that, more likely than not, it ultimately will not be a PFIC.

(3) *Exceptions.* Notwithstanding paragraph (e)(2)(ii) of this section, a shareholder will not be treated as a qualified shareholder for a taxable year of the shareholder if the shareholder knew or had reason to know that a corporate filing regarding the foreign corporation's PFIC status was inaccurate, or knew that the foreign corporation was a PFIC for the taxable year of the foreign corporation ending with or within such taxable year of the shareholder. For purposes of this paragraph, a shareholder will be treated as knowing that a foreign corporation was a PFIC if the principal activity of the foreign corporation, directly or indirectly, is owning or trading a diversified portfolio of stock, securities, or other financial contracts.

(f) *Special consent*—(1) *In general.* A shareholder that has not satisfied the requirements of paragraph (b) or (e) of this section may request the consent of the Commissioner to make a retroactive election for a taxable year of the shareholder provided the shareholder satisfies the requirements set forth in this paragraph (f). The Commissioner will grant relief under this paragraph (f) only if—

(i) The shareholder reasonably relied on a qualified tax professional, within the meaning of paragraph (f)(2) of this section;

(ii) Granting consent will not prejudice the interests of the United States government, as provided in paragraph (f)(3) of this section;

(iii) The shareholder requests consent under paragraph (f) of this section before a representative of the Internal Revenue Service raises upon audit the PFIC status of the corporation for any taxable year of the shareholder; and

(iv) The shareholder satisfies the procedural requirements set forth in paragraph (f)(4) of this section.

(2) *Reasonable reliance on a qualified tax professional*—(i) *In general.* Except as provided in paragraph (f)(2)(ii) of this section, a shareholder is deemed to have reasonably relied on a qualified tax professional only if the shareholder reasonably relied on a qualified tax professional (including a tax professional employed by the shareholder) who failed to identify the foreign corporation as a PFIC or failed to advise the shareholder of the consequences of making, or failing to make, the section

1295 election. A shareholder will not be considered to have reasonably relied on a qualified tax professional if the shareholder knew, or reasonably should have known, that the foreign corporation was a PFIC and the availability of a section 1295 election, or knew or reasonably should have known that the qualified tax professional—

(A) Was not competent to render tax advice with respect to the ownership of shares of a foreign corporation; or

(B) Did not have access to all relevant facts and circumstances.

(ii) *Shareholder deemed to have not reasonably relied on a qualified tax professional.* For purposes of this paragraph (f)(2), a shareholder is deemed to have not reasonably relied on a qualified tax professional if the shareholder was informed by the qualified tax professional that the foreign corporation was a PFIC and of the availability of the section 1295 election and related tax consequences, but either chose not to make the section 1295 election or was unable to make a valid section 1295 election.

(3) *Prejudice to the interests of the United States government*—(1) *General rule.* Except as otherwise provided in paragraph (f)(3)(ii) of this section, the Commissioner will not grant consent under paragraph (f) of this section if doing so would prejudice the interests of the United States government. The interests of the United States government are prejudiced if granting relief would result in the shareholder having a lower tax liability, taking into account applicable interest charges, in the aggregate for all years affected by the retroactive election (other than by a de minimis amount) than the shareholder would have had if the shareholder had made the section 1295 election by the election due date. The time value of money is taken into account for purposes of this computation.

(ii) *Elimination of prejudice to the interests of the United States government.* Notwithstanding the general rule of paragraph (f)(3)(i) of this section, if granting relief would prejudice the interests of the United States government, the Commissioner may, in the Commissioner's sole discretion, grant consent to make the election provided the shareholder enters into a closing agreement with the Commissioner that requires the shareholder to pay an amount sufficient to eliminate any prejudice to the United States government as a consequence of the shareholder's inability to file amended returns for closed taxable years.

(4) *Procedural requirements*—(i) *Filing instructions.* A shareholder requests consent under paragraph (f) of this section to make a retroactive election by filing with the Office of the Associate Chief Counsel (International) a ruling request that includes the affidavits required by this paragraph (f)(4). The ruling request must satisfy the requirements, including payment of the user fee, for ruling requests filed with that office.

(ii) *Affidavit from shareholder.* The shareholder, or a person authorized to sign a Federal income tax return on behalf of the shareholder, must submit a detailed affidavit describing the events that led to the failure to make a section 1295 election by the election due date, and to the discovery thereof. The shareholder's affidavit must describe the engagement and responsibilities of the qualified tax professional as well as the extent to which the shareholder relied on the tax professional. The shareholder must sign the affidavit under penalties of perjury. An individual who signs for an entity must have personal knowledge of the facts and circumstances at issue.

(iii) *Affidavits from other persons.* The shareholder must submit detailed affidavits from individuals having knowledge or information about the events that led to the failure to make a section 1295 election by the election due date, and to the discovery thereof. These individuals must include the qualified tax professional upon whose advice the shareholder relied, as well as any individual (including an employee of the shareholder) who made a substantial contribution to the return's preparation, and any accountant or attorney, knowledgeable in tax matters, who advised the shareholder with regard to its ownership of the stock of the foreign corporation. Each affidavit must describe the individual's engagement and responsibilities as well as the advice concerning the tax treatment of the foreign corporation that that individual provided to the shareholder. Each affidavit also must include the individual's name, address, and taxpayer identification number, and must be signed by the individual under penalties of perjury.

(iv) *Other information.* In connection with a request for consent under this paragraph (f), a shareholder must provide any additional information requested by the Commissioner.

(v) *Notification of Internal Revenue Service.* The shareholder must notify the branch of the Associate Chief Counsel (International) considering the request for relief under this paragraph (f) if, while the shareholder's request for consent is pending, the Internal Revenue Service begins an examination of the shareholder's return for the retroactive election year or for any subsequent taxable year during which the shareholder holds stock of the foreign corporation.

(vi) *Who requests special consent under this paragraph (f) and who enters into a closing agreement.* The person that requests consent under this paragraph (f) is the person that makes the section 1295 election, as provided in § 1.1295–1T(d). If a shareholder is required to enter into a closing agreement with the Commissioner, as described in paragraph (f)(3)(ii) of this section, rules similar to those under paragraphs (c)(4)(i) (B) through (E) of this section apply for purposes of determining the person that enters into the closing agreement.

(g) *Time for and manner of making a retroactive election*—(1) *Time for making a retroactive election*—(i) *In general.* Except as otherwise provided in paragraph (g)(1)(ii) of this section, a shareholder must make a retroactive election, in the manner provided in paragraph (g)(2) of this section, on or before the due date, as extended, for the shareholder's return—

(A) In the case of a shareholder that makes a retroactive election pursuant to paragraph (b) or (e) of this section, for the taxable year in which the shareholder determines or reasonably should have determined that the foreign corporation was a PFIC; or

(B) In the case of a shareholder that obtains the consent of the Commissioner pursuant to paragraph (f) of this section for the taxable year in which such consent is granted.

(ii) *Transition rule.* A shareholder that files a Protective Statement for a taxable year described in paragraph (c)(5)(ii) of this section may make a retroactive election by the due date, as extended, for the return for the first taxable year ended after January 2, 1998 even if the shareholder determined or should have determined that the foreign corporation was a PFIC for a year described in paragraph (c)(5)(ii) of this section at any time on or before January 2, 1998.

(iii) *Ownership not required at time retroactive election is made.* The shareholder need not own shares of the foreign corporation at the time the shareholder makes a retroactive election with respect to the foreign corporation.

(2) *Manner of making a retroactive election.* A shareholder that has satisfied the requirements of paragraph (b) or (e) of this section, or a shareholder that has been granted consent under paragraph (f) of this section, must make a retroactive election in the manner provided in Form 8621 for making a section 1295 election, and must attach Form 8621 to an amended return for the later of the retroactive election year or the earliest open taxable year of the shareholder. The shareholder also must file an amended return for each of its subsequent taxable years affected by the retroactive election. In each amended return the shareholder must redetermine its income tax liability for that year to take into account the assessment of PFIC related taxes. If the period of limitations for the assessment of taxes for a taxable year affected by the retroactive election has expired except to the extent the waiver of limitations, described in paragraph (c)(4) of this section, has extended such period, no adjustments, other than consequential changes, may be made to any other items of income, deduction, or credit in that year. In addition, the shareholder must pay all taxes and interest owing by reason of the PFIC and QEF status of the foreign corporation in those years (except to the extent a section 1294 election extends the time

to pay the taxes and interest). A shareholder that filed a Protective Statement must attach to Form 8621 filed with each amended return a representation that the shareholder, until the taxable year in which it determined or reasonably should have determined that the foreign corporation was a PFIC, reasonably believed, within the meaning of paragraph (d) of this section, that the foreign corporation was not a PFIC in the taxable year for which the amended return is filed, and in all other taxable years to which the Protective Statement applies. A shareholder that entered into a closing agreement must comply with the terms of that agreement, as provided in paragraph (f)(3)(ii) of this section, to eliminate any prejudice to the United States government's interests, as described in paragraph (f)(3) of this section.

(3) *Who makes the retroactive election.* The person that makes the retroactive election is the person that makes the section 1295 election, as provided in §1.1295–1T(d). A partner, shareholder, or beneficiary for which a pass through entity, as described in paragraphs (c)(4)(i) (B) through (D) of this section, filed a Protective Statement may make a retroactive election, if the pass through entity completely terminates its business or otherwise ceases to exist.

(4) *Other elections*—(i) *Section 1291(d)(2) election.* If the foreign corporation for which the shareholder makes a retroactive election will be treated as an unpedigreed QEF, as defined in §1.1291–9(j)(2)(iii), with respect to the shareholder, the shareholder may make an election under section 1291(d)(2) to purge its holding period of the years or parts of years before the effective date of the retroactive election. If the qualification date, within the meaning of §1.1291–9(e) or 1.1291–10(e), falls in a taxable year for which the period of limitations has expired, the shareholder may treat the first day of the retroactive election year as the qualification date. The shareholder may make a section 1291(d)(2) election at the time that it makes the retroactive election, but no later than two years after the date that the amended return in which the retroactive election is made is filed. For the requirements for making a section 1291(d)(2) election, see §§1.1291–9 and 1.1291–10.

(ii) *Section 1294 election.* A shareholder may make an election under section 1294 to extend the time for payment of tax on the shareholder's pro rata shares of the ordinary earnings and net capital gain of the foreign corporation reported in the shareholder's amended return, and section 6621 interest attributable to such tax, but only to the extent the tax and interest are attributable to earnings that have not been distributed to the shareholder. The shareholder must make a section 1294 election for a taxable year at the time that it files its amended return for that year, as provided in paragraph (g)(1) of this section. For the requirements for making a section 1294 election, see §1.1294–1T.

(h) *Effective date.* The rules of this section are effective as of January 2, 1998.

[T.D. 8750, 63 FR 19, Jan. 2, 1998]

§1.1297–0 Table of contents.

This section contains a listing of the headings for §1.1297–3T.

§1.1297–3T Deemed sale election by a United States person that is a shareholder of a passive foreign investment company.

(a) In general.

(b) Time and manner for making the election.

(1) In general.

(2) Information to be included in the election.

(3) Adjustment to basis; treatment of holding period.

[T.D. 8750, 63 FR 13, Jan. 2, 1998]

§1.1297–3T Deemed sale election by a United States person that is a shareholder of a passive foreign investment company (temporary).

(a) *In general.* Except as indicated below, a shareholder of a foreign corporation that no longer qualifies as a passive foreign investment company (PFIC) shall be treated for tax purposes as holding stock in a PFIC and therefore continue to be subject to taxation under section 1291 unless the shareholder makes the election under section 1297(b)(1). This continuing PFIC taint shall not apply to stock in a PFIC for which an election under section 1295 to be a qualified electing fund (QEF) has been in effect throughout that portion of the shareholder's holding period during which the PFIC qualified as a PFIC. A U.S. person making the election under section 1297(b)(1) shall be treated as having sold its stock in the PFIC on the last day of the last taxable year of the foreign corporation during which it qualified as a PFIC (termination date). The shareholder thereafter shall not be treated as holding stock in a PFIC and shall not be subject to taxation under section 1291. The deemed sale is taxed as a disposition under section 1291. Pursuant to that section, the gain, if any, is considered earned pro rata over the shareholder's holding period in the-stock and is taxed as ordinary income. The tax on the gain is based on the value of the tax deferral and includes an interest charge. Any loss realized in the deemed sale may not be recognized. This section provides rules for making the election under section 1297(b)(1). The election is available to a U.S. person that is a shareholder of a foreign corporation if—

(1) The foreign corporation was a PFIC at any time during the period the U.S. person held the stock;

(2) At any one time during the U.S. person's holding period, the foreign corporation qualified as a PFIC but was not a QEF; and

(3) The foreign corporation is no longer a PFIC within the meaning of section 1296.

(b) *Time and manner of making the election*—(1) *In general.* The shareholder shall make the election under this section and section 1297(b)(1) by filing an amended income tax return for its taxable year that includes the termination date within three years of the due date, as extended, for the shareholder's tax return for such taxable year. The shareholder must attach to the amended tax return either Form 8621 or a statement, prepared in accordance with paragraph (c)(2) of this section, reporting the gain on the deemed sale of the stock as required by section 1291(a)(2) (as if such deemed sale occurred under section 1291(a)(2)), and by paying the tax on the gain as required by section 1291 (including the payment of the deferred tax amount required under sections 1291(a)(1)(C) and 1291(c)). The electing shareholder also shall pay interest, pursuant to section 6601, on the underpayment of tax for the taxable year of termination. An electing shareholder that realizes a loss shall report the loss on Form 8621, but shall not recognize the loss.

(2) *Information to be included in the election.* If a statement is used, the statement should be identified, in a heading, as an election under section 1297(b)(1). The statement must include the following information and representations:

(i) The name, address and taxpayer identification number of the electing shareholder;

(ii) The name, address and taxpayer identification number, if any, of the PFIC;

(iii) A statement that the shareholder is making the election under section 1297(b)(1);

(iv) The period in the electing shareholder's holding period in the stock during which the foreign corporation was a PFIC, the period during which it was a QEF (and whether the shareholder elected under section 1294 to defer payment of its tax liability attributable to any portion of such period), and the termination date;

(v) The manner in which the PFIC lost the characteristics of a PFIC;

(vi) A schedule listing the shares in the PFIC held by the electing shareholder on the termination date, listing the date(s) each share or block of shares was acquired, the number of shares acquired on each date listed, and the tax basis of each share;

(vii) The fair market value of the stock in the PFIC on the termination date; for this purpose, the fair market value of the stock shall be determined according to the rules of § 1.1295–1T(b)(9); and

(viii) A schedule showing the computation of the gain recognized on the deemed sale, and a calculation of the deferred tax amount, as defined in section 1291(c).

(3) *Adjustment to basis; treatment of holding period.* An electing shareholder that recognizes gain on the deemed sale of stock shall increase its adjusted basis in the stock by the amount of gain recognized. An electing shareholder shall not adjust the basis in

stock with respect to which the shareholder realized a loss on the deemed sale. An electing shareholder shall thereafter treat its holding period in the stock, for purposes of sections 1291 through 1297, as beginning on the day following the termination date without regard to whether it recognized gain on the deemed sale; for section 1223 purposes, the holding period in the stock in the PFIC shall include the period prior to the deemed sale.

(c) *Application of deemed dividend election rules*—(1) *In general.* A shareholder of a former PFIC, within the meaning of §1.1291–9(j)(2)(iv), that was a controlled foreign corporation, within the meaning of section 957(a) (CFC), during its last taxable year as a PFIC under section 1296(a), may apply the rules of section 1291(d)(2)(B) and §1.1291–9 to an election under section 1297(b)(1) and this section made by the time and in the manner provided in paragraph (b) of this section.

(2) *Transition rule.* If the time for making an election under this section, as provided in paragraph (b) of this section, expired before January 2, 1998, a shareholder that applied rules similar to the rules of section 1291(d)(2)(A) and §1.1291–10 to an election under this section made with respect to a corporation that was a CFC during its last taxable year as a PFIC under section 1296(a) may file an amended return for the taxable year that includes the termination date, as defined in paragraph (a) of this section, and apply the rules of section 1291(d)(2)(B) and §1.1291–9 at any time before the expiration of the period of limitations for the assessment of taxes for that taxable year.

(3) *Effective date.* The rules of this paragraph are effective as of January 2, 1998.

[T.D. 8178, 53 FR 6779, Mar. 2, 1988, as amended by T.D. 8750, 63 FR 24, Jan. 2, 1998]

READJUSTMENT OF TAX BETWEEN YEARS AND SPECIAL LIMITATIONS

MITIGATION OF EFFECT OF LIMITATIONS AND OTHER PROVISIONS

§1.1311(a)–1 Introduction.

(a) Part II (section 1311 and following), subchapter Q, chapter 1 of the Code, provides certain rules for the correction of the effect of an erroneous treatment of an item in a taxable year which is closed by the statute of limitations or otherwise, in cases where, in connection with the ascertainment of the tax for another taxable year, it has been determined that there was an erroneous treatment of such item in the closed year.

(b) In most situations falling within this part the correction of the effect of the error on a closed year can be made only if either the Commissioner or the taxpayer has taken a position in another taxable year which is inconsistent with the erroneous treatment of the item in the closed year. If a refund or credit would result from the correction of the error in the closed year, then the Commissioner must be the one maintaining the inconsistent position. For example, if the taxpayer erroneously included an item of income on his return for an earlier year which is now closed and the Commissioner successfully requires it to be included in a later year, then the correction of the effect of the erroneous inclusion of that item in the closed year may be made since the Commissioner has maintained a position inconsistent with the treatment of such item in such closed year. On the other hand, if an additional assessment would result from the correction of the error in the closed year, then the taxpayer must be the one maintaining the inconsistent position. For example, if the taxpayer deducted an item in an earlier year which is now closed and he successfully contends that the item should be deducted in a later year, then the correction of the effect of the erroneous deduction of that item in the closed year may be made since the taxpayer has taken a position inconsistent with the treatment of such item in such earlier year.

(c) There are two special circumstances which fall within this part but which do not require that an inconsistent position be maintained. One of these circumstances relates to the inclusion of an item of income in the correct year and the other relates to the allowance of a deduction in the correct year. In the first situation, if the Commissioner takes the position by a deficiency notice or before the Tax Court that an item of income should be included in the gross income of a taxpayer for a particular year and it is ultimately determined that such item was not so includible, then such item can be included in the income of the proper year if that year was not closed at the time the Commissioner took his position. In the second situation, if the taxpayer claims that a deduction should be allowed for a particular year and it is ultimately determined that the deduction was not allowable in that year, then the taxpayer may take the deduction in the proper year if that year was not closed at the time the taxpayer first claimed a deduction.

[T.D. 6500, 25 FR 12031, Nov. 26, 1960]

§ 1.1311(a)–2 Purpose and scope of section 1311.

(a) Section 1311 provides for the correction of the effect of certain errors under circumstances specified in section 1312 when one or more provisions of law, such as the statute of limitations, would otherwise prevent such correction. Section 1311 may be applied to correct the effect of certain errors if, on the date of a determination (as defined in section 1313(a) and the regulations thereunder), correction is prevented by the operation of any provision of law other than sections 1311 through 1315 and section 7122 (relating to compromises) and the corresponding provisions of prior revenue laws. Examples of provisions preventing such corrections are sections 6501, 6511, 6532, and 6901 (c), (d) and (e), relating to periods of limitations; section 6212(c) and 6512 relating to the effect of petition to the Tax Court of the United States on further deficiency letters and on credits or refunds; section 7121 relating to closing agreements; and sections 6401 and 6514 relating to payments, refunds, or credits after the period of limitations has expired. Section 1311 may also be applied to correct the effect of an error if, on the date of the determination, correction of the error is prevented by the operation of any rule of law, such as *res judicata* or *estoppel*.

(b) The determination (including a determination under section 1313 (a)(4)) may be with respect to any of the taxes imposed by subtitle A of the Internal Revenue Code of 1954, by chapter 1 and subchapters A, B, D, and E of chapter 2 of the Internal Revenue Code of 1939, or by the corresponding provisions of any prior revenue act, or by more than one of such provisions. Section 1311 may be applied to correct the effect of the error only as to the tax or taxes with respect to which the error was made which correspond to the tax or taxes with respect to which the determination relates. Thus, if the determination relates to a tax imposed by chapter 1 of the Internal Revenue Code of 1954, the adjustment may be only with respect to the tax imposed by such chapter or by the corresponding provisions of prior law.

(c) Section 1311 is not applicable if, on the date of the determination, correction of the effect of the error is permissible without recourse to said section.

(d) If the tax liability for the year with respect to which the error was made has been compromised under section 7122 or the corresponding provisions of prior revenue laws, no adjustment may be made under section 1311 with respect to said year.

(e) No adjustment may be made under section 1311 for any taxable year beginning prior to January 1, 1932. See section 1314(d).

(f) Section 1311 applies only to a determination (as defined in section 1313(a) and §§ 1.1313(a)–1 to 1.1313 (a)–4, inclusive) made after November 14, 1954. Section 3801 of the Internal Revenue Code of 1939 and the regulations thereunder apply to determinations, as defined therein, made on or before November 14, 1954. See section 1315.

[T.D. 6500, 25 FR 12031, Nov. 26, 1960]

§ 1.1311(b)–1 Maintenance of an inconsistent position.

(a) *In general.* Under the circumstances stated in § 1.1312–1, § 1.1312–2, paragraph (a) of § 1.1312–3, § 1.1312–5, § 1.1312–6, and § 1.1312–7, the maintenance of an inconsistent position is a condition necessary for adjustment. The requirement in such circumstances is that a position maintained with respect to the taxable year of the determination and which is adopted in the determination be inconsistent with the erroneous inclusion, exclusion, omission, allowance, disallowance, recognition, or nonrecognition, as the case may be, with respect to the taxable year of the error. That is, a position successfully maintained with respect to the taxable year of the determination must be inconsistent with the treatment accorded an item which was the subject of an error in the computation of the tax for the closed taxable year. Adjustments under the circumstances stated in paragraph (b) of § 1.1312–3 and in § 1.1312–4 are made without regard to the maintenance of an inconsistent position.

(b) *Adjustments resulting in refund or credit.* (1) An adjustment under any of the circumstances stated in § 1.1312–1, § 1.1312–5, § 1.1312–6, or § 1.1312–7 which would result in the allowance of a refund or credit is authorized only if (i) the Commissioner, in connection with a determination, has maintained a position which is inconsistent with the erroneous inclusion, omission, disallowance, recognition, or nonrecognition, as the case may be, in the year of the error, and (ii) such inconsistent position is adopted in the determination.

Example: A taxpayer who keeps his books on the cash method erroneously included as income on his return for 1954 an item of accrued interest. After the period of limitations on refunds for 1954 had expired, the district director, on behalf of the Commissioner, proposed an adjustment for the year 1955 on the ground that the item of interest was received in 1955 and, therefore, was properly includible in gross income for that year. The taxpayer and the district director entered into an agreement which meets all of the requirements of § 1.1313(a)–4 and which determines that the interest item was includible in gross income for 1955. The Commissioner has maintained a position inconsistent with the inclusion of the interest item for 1954. As the determination (the agreement pursuant to § 1.1313(a)–4) adopted such inconsistent position, an adjustment is authorized for the year 1954.

(2) An adjustment under circumstances stated in § 1.1312–1, § 1.1312–5, § 1.1312–6, or § 1.1312–7 which would result in the allowance of a refund or credit is not authorized if the taxpayer with respect to whom the determination is made, and not the Commissioner, has maintained such inconsistent position.

Example: In the example in subparagraph (1) of this paragraph, assume that the Commissioner asserted a deficiency for 1955 based upon other items for that year but, in computing the net income upon which such deficiency was based, did not include the item of interest. The taxpayer appealed to the Tax Court and in his petition asserted that the interest item should be included in gross income for 1955. The Tax Court in 1960 included the item of interest in its redetermination of tax for the year 1955. In such case no adjustment would be authorized for 1954 as the taxpayer, and not the Commissioner, maintained a position inconsistent with the erroneous inclusion of the item of interest in the gross income of the taxpayer for that year.

(c) *Adjustments resulting in additional assessments.* (1) An adjustment under any of the circumstances stated in § 1.1312–2, paragraph (a) of § 1.1312–3, § 1.1312–5, § 1.1312–6, or § 1.1312–7 which would result in an additional assessment is authorized only if (i) the taxpayer with respect to whom the determination is made has, in connection therewith, maintained a position which is inconsistent with the erroneous exclusion, omission, allowance, recognition, or nonrecognition, as the case may be, in the year of the error, and (ii) such inconsistent position is adopted in the determination.

Example: A taxpayer in his return for 1950 claimed and was allowed a deduction for a loss arising from a casualty. After the taxpayer had filed his return for 1951 and after the period of limitations upon the assessment of a deficiency for 1950 had expired, it was discovered that the loss actually occurred in 1951. The taxpayer, therefore, filed a claim for refund for the year 1951 based upon the allowance of a deduction for the loss in that year, and the claim was allowed by the Commissioner in 1955. The taxpayer thus has maintained a position inconsistent with the allowance of the deduction for 1950 by filing a claim for refund for 1951 based upon the same deduction. As the determination (the allowance of the claim for refund) adopts such inconsistent position, an adjustment is authorized for the year 1950.

(2) An adjustment under the circumstances stated in § 1.1312–2, paragraph (a) of § 1.1312–3, § 1.1312–5, § 1.1312–6, or § 1.1312–7 which would result in an additional assessment is not authorized if the Commissioner, and not the taxpayer, has maintained such inconsistent position.

Example: In the example in subparagraph (1) of this paragraph, assume that the taxpayer did not file a claim for refund for 1951 but the Commissioner issued a notice of deficiency for 1951 based upon other items. The taxpayer filed a petition with the Tax Court of the United States and the Commissioner in his answer voluntarily proposed the allowance for 1951 of a deduction for the loss previously allowed for 1950. The Tax Court took the deduction into account in its redetermination in 1955 of the tax for the year 1951. In such case no adjustment would be authorized for the year 1950 as the Commissioner, and not the taxpayer, has maintained a position inconsistent with the allowance of a deduction for the loss in that year.

[T.D. 6500, 25 FR 12032, Nov. 26, 1960, as amended by T.D. 6617, 27 FR 10823, Nov. 7, 1962]

§1.1311(b)–2 Correction not barred at time of erroneous action.

(a) An adjustment under the circumstances stated in paragraph (b) of §1.1312–3 (relating to the double exclusion of an item of gross income) which would result in an additional assessment, is authorized only if assessment of a deficiency against the taxpayer or related taxpayer for the taxable year in which the item is includible was not barred by any law or rule of law at the time the Commissioner first maintained, in a notice of deficiency sent pursuant to section 6212 (or section 272(a) of the Internal Revenue Code of 1939) or before the Tax Court of the United States, that the item described in paragraph (b) of §1.1312–3 should be included in the gross income of the taxpayer in the taxable year to which the determination relates.

(b) An adjustment under the circumstances stated in §1.1312–4 (relating to the double disallowance of a deduction or credit), which would result in the allowance of a credit or refund, is authorized only if a credit or refund to the taxpayer or related taxpayer, attributable to such adjustment, was not barred by any law or rule of law when the taxpayer first maintained in writing before the Commissioner or the Tax Court that he was entitled to such deduction or credit for the taxable year to which the determination relates. The taxpayer will be considered to have first maintained in writing before the Commissioner or the Tax Court that he was entitled to such deduction or credit when he first formally asserts his right to such deduction or credit as, for example, in a return, in a claim for refund, or in a petition (or an amended petition) before the Tax Court.

(c) Under the circumstances of adjustment with respect to which the conditions stated in this section are applicable, the conditions stated in §1.1311(b)–1 (maintenance of an inconsistent position) are not required. See paragraph (b) of §1.1312–3 and §1.1312–4 for examples of the application of this section.

[T.D. 6500, 25 FR 12032, Nov. 26, 1960]

§1.1311(b)–3 Existence of relationship in case of adjustment by way of deficiency assessment.

(a) Except for cases described in paragraph (b) of §1.1312–3, no adjustment by way of a deficiency assessment shall be made, with respect to a related taxpayer, unless the relationship existed both at some time during the taxable year with respect to which the error was made and at the time the taxpayer with respect to whom the determination is made first maintained the inconsistent position with respect to the taxable year to which the determination relates. In the case of an adjustment by way of a deficiency assessment under the circumstance described in paragraph (b) of §1.1312–3 (where the maintenance of an inconsistent position is not required), the relationship need exist only at some time during the taxable year in which the error was made.

(b) If the inconsistent position is maintained in a return, claim for refund, or petition (or amended petition) to the Tax Court of the United States for the taxable year in respect to which the determination is made, the requisite relationship must exist on the date of filing such document. If the inconsistent position is maintained in more than one of such documents, the requisite date is the date of filing of the document in which it was first maintained. If the inconsistent position was not thus maintained, then the relationship must exist on the date of the determination as, for example, where at the instance of the taxpayer a deduction is allowed, the right to which was not asserted in a return, claim for refund, or petition to the Tax Court, and a determination is effected by means of a closing agreement or an agreement under section 1313(a)(4).

[T.D. 6500, 25 FR 12033, Nov. 26, 1960]

§1.1312–1 Double inclusion of an item of gross income.

(a) Paragraph (1) of section 1312 applies if the determination requires the inclusion in a taxpayer's gross income of an item which was erroneously included in the gross income of the same taxpayer for another taxable year or of a related taxpayer for the same or another taxable year.

(b) The application of paragraph (a) of this section may be illustrated by the following examples:

Example 1. A taxpayer who keeps his books on the cash method erroneously included in income on his return for 1947 an item of accrued rent. In 1952, after the period of limitation on refunds for 1947 had expired, the Commissioner discovered that the taxpayer received this rent in 1948 and asserted a deficiency for the year 1948 which is sustained by the Tax Court of the United States in 1955. An adjustment in favor of the taxpayer is authorized with respect to the year 1947. If the taxpayer had returned the rent for both 1947 and 1948 and by a determination was denied a refund claim for 1948 on account of the rent item, a similar adjustment is authorized.

Example 2. A husband assigned to his wife salary to be earned by him in the year 1952. The wife included such salary in her separate return for that year and the husband omitted it. The Commissioner asserted a deficiency against the wife for 1952 with respect to a different item; she contested that deficiency, and the Tax Court entered an order in her case which became final in 1955. The wife would therefore be barred by section 6512(a) from claiming a refund for 1952. Thereafter, the Commissioner asserted a deficiency against the husband on account of the omission of such salary from his return for 1952. In 1955 the husband and the Commissioner enter into a closing agreement for the year 1952 in which the salary is taxed to the husband. An adjustment is authorized with respect to the wife's tax for 1952.

[T.D. 6500, 25 FR 12033, Nov. 26, 1960]

§1.1312–2 Double allowance of a deduction or credit.

(a) Paragraph (2) of section 1312 applies if the determination allows the taxpayer a deduction or credit which was erroneously allowed the same taxpayer for another taxable year or a related taxpayer for the same or another taxable year.

(b) The application of paragraph (a) of this section may be illustrated by the following examples:

Example 1. A taxpayer in his return for 1950 claimed and was allowed a deduction for destruction of timber by a forest fire. Subsequently, it was discovered that the forest fire occurred in 1951 rather than 1950. After the expiration of the period of limitations for the assessment of a deficiency for 1950, the taxpayer filed a claim for refund for 1951 based upon a deduction for the fire loss in that year. The Commissioner in 1955 allows the claim for refund. An adjustment is authorized with respect to the year 1950.

Example 2. The beneficiary of a testamentary trust in his return for 1949 claimed, and was allowed, a deduction for depreciation of the trust property. The Commissioner asserted a deficiency against the beneficiary for 1949 with respect to a different item and a final decision of the Tax Court of the United States was rendered in 1951, so that the Commissioner was thereafter barred by section 272(f) of the Internal Revenue Code of 1939 from asserting a further deficiency against the beneficiary for 1949. The trustee thereafter filed a timely refund claim contending that, under the terms of the will, the trust, and not the beneficiary, was entitled to the allowance for depreciation. The court in 1955 sustains the refund claim. An adjustment is authorized with respect to the beneficiary's tax for 1949.

[T.D. 6500, 25 FR 12033, Nov. 26, 1960]

§1.1312–3 Double exclusion of an item of gross income.

(a) *Items included in income or with respect to which a tax was paid.* (1) Paragraph (3)(A) of section 1312 applies if the determination requires the exclusion, from a taxpayer's gross income, of an item included in a return filed by the taxpayer, or with respect to which tax was paid, and which was erroneously excluded or omitted from the gross income of the same taxpayer for another taxable year or of a related taxpayer for the same or another taxable year.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example 1. (i) A taxpayer received payments in 1951 under a contract for the performance of services and included the payments in his return for that year. After the expiration of the period of limitations for the assessment of a deficiency for 1950, the

Commissioner issued a notice of deficiency to the taxpayer for the year 1951 based upon adjustments to other items, and the taxpayer filed a petition with the Tax Court of the United States and maintained in the proceedings before the Tax Court that he kept his books on the accrual basis and that the payments received in 1951 were on income that had accrued and was properly taxable in 1950. A final decision of the Tax Court was rendered in 1955 excluding the payments from 1951 income. An adjustment in favor of the Commissioner is authorized with respect to the year 1950, whether or not a tax had been paid on the income reported in the 1951 return.

(ii) Assume the same facts as in (i), except that the taxpayer had not included the payments in any return and had not paid a tax thereon. No adjustment would be authorized under section 1312(3)(A) with respect to the year 1950. If the taxpayer, however, had paid a deficiency asserted for 1951 based upon the inclusion of the payments in 1951 income and thereafter successfully sued for refund thereof, an adjustment would be authorized with respect to the year 1950. (See paragraph (b) of this section for circumstances under which correction is authorized with respect to items not included in income and on which a tax was not paid.)

Example 2. A father and son conducted a partnership business, each being entitled to one-half of the net profits. The father included the entire net income of the partnership in his return for 1948, and the son included no portion of this income in his return for that year. Shortly before the expiration of the period of limitations with respect to deficiency assessments and refund claims for both father and son for 1948, the father filed a claim for refund of that portion of his 1948 tax attributable to the half of the partnership income which should have been included in the son's return. The court sustains the claim for refund in 1955. An adjustment is authorized with respect to the son's tax for 1948.

(b) *Items not included in income and with respect to which the tax was not paid.* (1) Paragraph (3)(B) of section 1312 applies if the determination requires the exclusion from gross income of an item not included in a return filed by the taxpayer and with respect to which a tax was not paid, but which is includible in the gross income of the same taxpayer for another taxable year, or in the gross income of a related taxpayer for the same or another taxable year. This is one of the two circumstances in which the maintenance of an inconsistent position is not a requirement for an adjustment, but the requirements in paragraph (a) of § 1.1311(b)–2 must be fulfilled (correction not barred at time of erroneous action).

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example 1. The taxpayer, A, who computes his income by use of the accrual method of accounting, performed in 1949 services for which he received payments in 1949 and 1950. He did not include in his return for either 1949 or 1950 the payments which he received in 1950, and he paid no tax with respect to such payments. In 1952 the Commissioner sent a notice of deficiency to A with respect to the year 1949, contending that A should have included all of such payments in his return for that year. A contested the deficiency on the basis that in 1949 he had no accruable right to the payments which he received in 1950. In 1955 (after the expiration of the period of limitations for assessing deficiencies with respect to 1950), the Tax Court sustains A's position. The Commissioner may assess a deficiency for 1950, since a deficiency assessment for that year was not barred when he sent the notice of deficiency with respect to 1949.

Example 2. B and C were partners in 1950, each being entitled to one-half of the profits of the partnership business. During 1950, B received an item of income which he treated as partnership income so that his return for that year reflected only 50 percent of such item. C, however, included no part of such item in any return and paid no tax with respect thereto. In 1952, the Commissioner sent to C a notice of deficiency with respect to 1950, contending that his return for that year should have reflected 50 percent of such item. C contested the deficiency on the basis that such item was not partnership income. In 1955, after the expiration of the period of limitations for assessing deficiencies with respect to 1950, the Tax Court sustained C's position. The Commissioner may assess a deficiency against B with respect to 1950 requiring him to include the entire amount of such item in his income since assessment of the deficiency was not barred when the Commissioner sent the notice of deficiency with respect to such item to C.

[T.D. 6500, 25 FR 12034, Nov. 26, 1960]

§ 1.1312–4 Double disallowance of a deduction or credit.

(a) Paragraph (4) of section 1312 applies if the determination disallows a deduction or credit which should have been, but was not, allowed to the same taxpayer for another taxable year or to a related taxpayer for the same or another taxable year. This is one of the two circumstances in which the maintenance of an inconsistent position is not a requirement for an adjustment but the requirements in paragraph (b) of §1.1311(b)–2 must be fulfilled (correction not barred at time of erroneous action).

(b) The application of paragraph (a) of this section may be illustrated by the following examples:

Example 1. The taxpayer, A, who computes his income by use of the accrual method of accounting, deducted in his return for the taxable year 1951 an item of expense which he paid in such year. At the time A filed his return for 1951, the statute of limitations for 1950 had not expired. Subsequently, the Commissioner asserted a deficiency for 1951 based on the position that the liability for such expense should have been accrued for the taxable year 1950. In 1955, after the period of limitations on refunds for 1950 had expired, there was a determination by the Tax Court disallowing such deduction for the taxable year 1951. A is entitled to an adjustment for the taxable year 1950. However, if such liability should have been accrued for the taxable year 1946 instead of 1950, A would not be entitled to an adjustment, if a credit or refund with respect to 1946 was already barred when he deducted such expense for the taxable year 1951.

Example 2. The taxpayer, B, in his return for 1951 claimed a deduction for a charitable contribution. The Commissioner asserted a deficiency for such year contending that 50 percent of the deduction should be disallowed, since the contribution was made from community property 50 percent of which was attributable to B's spouse. The deficiency is sustained by the Tax Court in 1956, subsequent to the period of limitations within which B's spouse could claim a refund with respect to 1951. An adjustment is permitted to B's spouse, a related taxpayer, since a refund attributable to a deduction by her of such contribution was not barred when B claimed the deduction.

[T.D. 6500, 25 FR 12034, Nov. 26, 1960]

§1.1312–5 Correlative deductions and inclusions for trusts or estates and legatees, beneficiaries, or heirs.

(a) Paragraph (5) of section 1312 applies to distributions by a trust or an estate to the beneficiaries, heirs, or legatees. If the determination relates to the amount of the deduction allowed by sections 651 and 661 or the inclusion in taxable income of the beneficiary required by sections 652 and 662 (including amounts falling within subpart D, subchapter J, chapter 1 of the Code, relating to treatment of excess distributions by trusts), or if the determination relates to the additional deduction (or inclusion) specified in section 162 (b) and (c) of the Internal Revenue Code of 1939 (or the corresponding provisions of a prior revenue act), with respect to amounts paid, credited, or required to be distributed to the beneficiaries, heirs, and legatees, and such determination requires:

(1) The allowance to the estate or trust of the deduction when such amounts have been erroneously omitted or excluded from the income of the beneficiaries, heirs, or legatees; or

(2) The inclusion of such amounts in the income of the beneficiaries, heirs, or legatees when the deduction has been erroneously disallowed to or omitted by the estate or trust; or

(3) The disallowance to an estate or trust of the deduction when such amounts have been erroneously included in the income of the beneficiaries, heirs, or legatees; or

(4) The exclusion of such amounts from the income of the beneficiaries, heirs, or legatees when the deduction has been erroneously allowed to the estate or trust.

(b) The application of paragraph (a)(1) of this section may be illustrated by the following example:

Example: For the taxable year 1954, a trustee, directed by the trust instrument to accumulate the trust income, made no distribution to the beneficiary and returned the entire income as taxable to the trust. Accordingly the beneficiary did not include the trust income in his return for the year 1954. In 1957, a State court holds invalid the clause directing accumulation and determines that the income is required to be currently distributed. It also rules that certain extraordinary dividends which the trustee in good faith allocated to corpus in 1954 were properly allocable to income. In 1958, the trustee, relying upon the court decision, files a claim for refund of the tax paid on behalf of the trust for the year 1954 and thereafter files a suit in the District Court. The claim is sustained by the court (except as to the tax on the extraordinary dividends) in 1959 after the expiration of the period of limitations upon deficiency assessments against the beneficiary for the year 1954. An adjustment is authorized with respect to the beneficiary's tax for the year 1954. The treatment of the distribution to the beneficiary of the extraordinary dividends shall be determined under subpart D of subchapter J.

(c) The application of paragraph (a)(2) of this section may be illustrated by the following example:

Example: Assume the same facts as in the example in paragraph (b) of this section, except that, instead of the trustee's filing a refund claim, the Commissioner, relying upon the decision of the State court, asserts a deficiency against the beneficiary for 1954. The deficiency is sustained by final decision of the Tax Court of the United States in 1959, after the expiration of the period for filing claim for refund on behalf of the trust for 1954. An adjustment is authorized with respect to the trust for the year 1954.

(d) The application of paragraph (a)(3) of this section may be illustrated by the following example:

Example: A trustee claimed in the trust return for 1954 for amounts paid to the beneficiary a deduction to the extent of distributable net income. This amount was included by the beneficiary in gross income in his return for 1954. In computing distributable net income the trustee had included short and long-term capital gains. In 1958, the Commissioner asserts a deficiency against the trust on the ground that the capital gains were not includible in distributable net income, and that, therefore, the gains were taxable to the trust, not the beneficiary. The deficiency is sustained by a final decision of the Tax Court in 1960, after the expiration of the period for filing claims for refund by the beneficiary for 1954. An adjustment is authorized with respect to the beneficiary's tax for the year 1954, based on the exclusion from 1954 gross income of the capital gains previously considered distributed by the trust under section 662.

(e) The application of paragraph (a)(4) of this section may be illustrated by the following example:

Example: Assume the same facts as in the example in paragraph (d) of this section, except that, instead of the Commissioner's asserting a deficiency, the beneficiary filed a refund claim for 1954 on the same ground. The claim is sustained by the court in 1960 after the expiration of the period of limitations upon deficiency assessments against the trust for 1954. An adjustment is authorized with respect to the trust for the year 1954.

[T.D. 6500, 25 FR 12034, Nov. 26, 1960]

§ 1.1312–6 Correlative deductions and credits for certain related corporations.

(a) Paragraph (6) of section 1312 applies if the determination allows or disallows a deduction (including a credit) to a corporation, and if a correlative deduction or credit has been erroneously allowed, omitted, or disallowed in respect of a related taxpayer described in section 1313(c)(7).

(b) The application of paragraph (a) of this section may be illustrated by the following examples:

Example 1. X Corporation is a wholly-owned subsidiary of Y Corporation. In 1955, X Corporation paid $5,000 to Y Corporation and claimed an interest deduction for this amount in its return for 1955. Y Corporation included this amount in its gross income for 1955. In 1958, the Commissioner asserted a deficiency against X Corporation for 1955, contending that the deduction for interest paid should be disallowed on the ground that the payment was in reality the payment of a dividend to Y Corporation. X Corporation contested the deficiency, and ultimately in June 1959, a final decision of the Tax Court sustained the Commissioner. Since the amount of the payment is a dividend, Y Corporation should have been allowed for 1955 the corporate dividends-received deduction under section 243 with respect to such payment. However, the Tax Court's decision sustaining the deficiency against X Corporation occurred after the expiration of the period for filing claim for refund by Y Corporation for 1955. An adjustment is authorized with respect to Y Corporation for 1955.

Example 2. Assume the same facts as in example (1) except that, instead of the Commissioner asserting a deficiency against X Corporation for 1955, Y Corporation filed a claim for refund in 1958, alleging that the payment received in 1955 from X Corporation was in reality a dividend to which the corporate dividends-received deduction (section 243) applies. The Commissioner denied the claim, and ultimately in June 1959, the district court, in a final decision, sustained Y Corporation. Since the amount of the payment is a dividend, X Corporation should not have been allowed an interest deduction for the amount paid to Y Corporation. However, the district court's decision sustaining the claim for refund occurred after the expiration of the period of limitations for assessing a deficiency against X Corporation for the year 1955. An adjustment is authorized with respect to X Corporation's tax for 1955.

[T.D. 6617, 27 FR 10823, Nov. 7, 1962]

§1.1312–7 Basis of property after erroneous treatment of a prior transaction.

(a) Paragraph (7) of section 1312 applies if the determination establishes the basis of property, and there occurred one of the following types of errors in respect of a prior transaction upon which such basis depends, or in respect of a prior transaction which was erroneously treated as affecting such basis:

(1) An erroneous inclusion in, or omission from, gross income, or

(2) An erroneous recognition or nonrecognition of gain or loss, or

(3) An erroneous deduction of an item properly chargeable to capital account or an erroneous charge to capital account of an item properly deductible.

(b) For this section to apply, the taxpayer with respect to whom the erroneous treatment occurred must be:

(1) The taxpayer with respect to whom the determination is made, or

(2) A taxpayer who acquired title to the property in the erroneously treated transaction and from whom, mediately or immediately, the taxpayer with respect to whom the determination is made derived title in such a manner that he will have a basis ascertained by reference to the basis in the hands of the taxpayer who acquired title to the property in the erroneously treated transaction, or

(3) A taxpayer who had title to the property at the time of the erroneously treated transaction and from whom, mediately or immediately, the taxpayer with respect to whom the determination is made derived title, if the basis of the property in the hands of the taxpayer with respect to whom the determination is made is determined under section 1015(a) (relating to the basis of property acquired by gift).

No adjustment is authorized with respect to the transferor of the property in a transaction upon which the basis of the property depends, when the determination is with respect to the original transferee or a subsequent transferee of such original transferee.

(c) The application of this section may be illustrated by the following examples:

Example 1. In 1949 taxpayer A transferred property which had cost him $5,000 to the X Corporation in exchange for an original issue of shares of its stock having a fair market value of $10,000. In his return for 1949 taxpayer A treated the exchange as one in which the gain or loss was not recognizable:

(i) In 1955 the X Corporation maintains that the gain should have been recognized in the exchange in 1949 and therefore the property it received had a $10,000 basis for depreciation. Its position is adopted in a closing agreement. No adjustment is authorized with respect to the tax of the X Corporation for 1949, as none of the three types of errors specified in paragraph (a) of this section occurred with respect to the X Corporation in the treatment of the exchange in 1949. Moreover, no adjustment is authorized with respect to taxpayer A, as he is not within any of the three classes of taxpayers described in paragraph (b) of this section.

(ii) In 1953 taxpayer A sells the stock which he received in 1949 and maintains that, as gain should have been recognized in the exchange in 1949, the basis for computing the profit on the sale is $10,000. His position is confirmed in a closing agreement executed in 1955. An adjustment is authorized with respect to his tax for the year 1949 as the basis for computing the gain on the sale depends upon the transaction in 1949, and in respect of that transaction there was an erroneous nonrecognition of gain to taxpayer A, the taxpayer with respect to whom the determination is made.

Example 2. In 1950 taxpayer A was the owner of 10 shares of the common stock of the Z Corporation which had a basis of $1,500. In that year he received as a dividend thereon 10 shares of the preferred stock of the same corporation having a fair market value of $1,000. On his books, entries were made reducing the basis of the common stock by allocating $500 of the basis to the preferred stock, and on his return for 1950 he did not include the dividend in gross income.

(i) In 1951 taxpayer A made a gift of the preferred stock of the Z Corporation to taxpayer B, an unrelated individual. Taxpayer B sold the stock in 1953 and on his return for that year he reported the sale and claimed a basis of $1,000, contending that the dividend of preferred stock was taxable to A in 1950 at its fair market value of $1,000. The basis of $1,000 is confirmed by a closing agreement executed in 1955. An adjustment is authorized with respect to taxpayer A's tax for 1950, as the closing agreement determines basis of property, and in a prior transaction upon which such basis depends there was an erroneous omission from gross income of taxpayer A, a taxpayer who acquired title to the property in the erroneously treated transaction and from whom, immediately, the taxpayer with respect to whom the determination is made derived title.

(ii) Assuming the same facts as in (i) except that the common stock instead of the preferred stock was the subject of the gift, and the basis claimed by taxpayer B and confirmed in the closing agreement was $1,500. An adjustment is authorized with respect to taxpayer A's tax for 1950, as the closing agreement determines the basis of property, and in a prior transaction which was erroneously treated as affecting such basis there was an erroneous omission from gross income of taxpayer A, a taxpayer who had title to the property at the time of the erroneously treated transaction, and from whom, immediately, taxpayer B, with respect to whom the determination is made, derived title. The basis of the property in taxpayer B's hands with respect to whom the determination is made is determined under section 1015(a) (relating to the basis of property acquired by gift).

Example 3. In 1950 taxpayer A sold property acquired at a cost of $5,000 to taxpayer B for $10,000. In his return for 1950 taxpayer A failed to include the profit on such sale. In 1953 taxpayer B sold the property for $12,000, and in his return for 1953 reported a gain of $2,000 upon the sale, which is confirmed by a closing agreement executed in 1955. No adjustment is authorized with respect to the tax of taxpayer A for 1950, as he does not come within any of the three classes of taxpayers described in paragraph (b) of this section.

Example 4. In 1950 a taxpayer who owned 100 shares of stock in Corporation Y received $1,000 from the corporation which amount the taxpayer reported on his return for 1950 as a taxable dividend. In 1952 Corporation Y was completely liquidated and the taxpayer received in that year liquidating distributions totalling $8,000. In his return for 1952 the taxpayer reported the receipt of the $8,000 and computed his gain or loss upon the liquidation by using as a basis the amount which he paid for the stock. The Commissioner maintained that the distribution in 1950 was a distribution out of capital and that in computing the taxpayer's gain or loss upon the liquidation in 1952, the basis of the stock should be reduced by the $1,000. This position is adopted in a closing agreement executed in 1955 with respect to the year 1952. An adjustment is authorized with respect to the year 1950 as the basis for computing gain or loss in 1952 depends upon the transaction in 1950, and in respect of the 1950 transaction (upon which the basis of the property depends) there was an erroneous inclusion in gross income of the taxpayer with respect to whom the determination is made.

Example 5. In 1946 a taxpayer received 100 shares of stock of the X Corporation having a fair market value of $5,000, in exchange for shares of stock in the Y Corporation which he had acquired at a cost of $12,000. In his return for 1946 the taxpayer treated the exchange as one in which gain or loss was not recognizable. The taxpayer sold 50 shares of the X Corporation stock in 1947 and in his return for that year treated such shares as having a $6,000 basis. In 1952, the taxpayer sold the remaining 50 shares of stock of the X Corporation for $7,500 and reported $1,500 gain in his return for 1952. After the expiration of the period of limitations on deficiency assessments and on refund claims for 1946 and 1947, the Commissioner asserted a deficiency for 1952 on the ground that the loss realized on the exchange in 1946 was erroneously treated as nonrecognizable, and the basis for computing gain upon the sale in 1952 was $2,500, resulting in a gain of $5,000. The deficiency is sustained by the Tax Court in 1955. An adjustment is authorized with respect to the year 1946 as to the entire $7,000 loss realized on the exchange, as the Court's decision determines the basis of property, and in a prior transaction upon which such basis depends there was an erroneous nonrecognition of loss to the taxpayer with respect to whom the determination was made. No adjustment is authorized with respect to the year 1947 as the basis for computing gain upon the sale of the 50 shares in 1952 does not depend upon the transaction in 1947 but upon the transaction in 1946.

[T.D. 6500, 25 FR 12035, Nov. 26, 1960, as amended by T.D. 6617, 27 FR 10824, Nov. 7, 1962]

§ 1.1312–8 Law applicable in determination of error.

The question whether there was an erroneous inclusion, exclusion, omission, allowance, disallowance, recognition, or nonrecognition is determined under the provisions of the internal revenue laws applicable with respect to the year as to which the inclusion, exclusion, omission, allowance, disallowance, recognition, or nonrecognition, as the case may be, was made. The fact that the inclusion, exclusion, omission, allowance, disallowance, recognition, or nonrecognition, as the case may be, was in pursuance of an interpretation, either judicial or administrative, accorded such provisions of the internal revenue laws at the time of such action is not necessarily determinative of this question. For example, if a later judicial decision authoritatively alters such interpretation so that such action was contrary to such provisions of the internal revenue laws as later interpreted, the inclusion, exclusion, omission, allowance, disallowance, recognition, or nonrecognition, as the case may be, is erroneous within the meaning of section 1312.

[T.D. 6500, 25 FR 12036, Nov. 26, 1960. Redesignated by T.D. 6617, 27 FR 10824, Nov. 7, 1962]

§ 1.1313(a)–1 Decision by Tax Court or other court as a determination.

(a) A determination may take the form of a decision by the Tax Court of the United States or a judgment, decree, or other order by any court of competent jurisdiction, which has become final.

(b) The date upon which a decision by the Tax Court becomes final is prescribed in section 7481.

(c) The date upon which a judgment of any other court becomes final must be determined upon the basis of the facts in the particular case. Ordinarily, a judgment of a United States district court becomes final upon the expiration of the time allowed for taking an appeal, if no such appeal is duly taken within such time; and a judgment of the United States Court of Claims becomes final upon the expiration of the time allowed for filing a petition for certiorari if no such petition is duly filed within such time.

[T.D. 6500, 25 FR 12036, Nov. 26, 1960]

§ 1.1313(a)–2 Closing agreement as a determination.

A determination may take the form of a closing agreement authorized by section 7121. Such an agreement may relate to the total tax liability of the taxpayer for a particular taxable year or years or to one or more separate items affecting such liability. A closing agreement becomes final for the purpose of this section on the date of its approval by the Commissioner.

[T.D. 6500, 25 FR 12036, Nov. 26, 1960]

§ 1.1313(a)–3 Final disposition of claim for refund as a determination.

(a) *In general.* A determination may take the form of a final disposition of a claim for refund. Such disposition may result in a determination with respect to two classes of items, i.e., items included by the taxpayer in a claim for refund and items applied by the Commissioner to offset the alleged overpayment. The time at which a disposition in respect of a particular item becomes final may depend not only upon what action is taken with respect to that item but also upon whether the claim for refund is allowed or disallowed.

(b) *Items with respect to which the taxpayer's claim is allowed.* (1) The disposition with respect to an item as to which the taxpayer's contention in the claim for refund is sustained becomes final on the date of allowance of the refund or credit if:

(i) The taxpayer's claim for refund is unqualifiedly allowed; or

(ii) The taxpayer's contention with respect to an item is sustained and with respect to other items is denied, so that the net result is an allowance of refund or credit; or

(iii) The taxpayer's contention with respect to an item is sustained, but the Commissioner applies other items to offset the amount of the alleged overpayment and the items so applied do not completely offset such amount but merely reduce it so that the net result is an allowance of refund or credit.

(2) If the taxpayer's contention in the claim for refund with respect to an item is sustained but the Commissioner applies other items to offset the amount of the alleged overpayment so that the net result is a disallowance of the claim for refund, the date of mailing, by registered mail, of the notice of disallowance (see section 6532) is the date of the final disposition as to the item with respect to which the taxpayer's contention is sustained.

(c) *Items with respect to which the taxpayer's claim is disallowed.* The disposition with respect to an item as to which the taxpayer's contention in the claim for refund is denied becomes final upon the expiration of the time allowed by section 6532 for instituting suit on the claim for refund, unless the suit is instituted prior to the expiration of such period, if:

(1) The taxpayer's claim for refund is unqualifiedly disallowed; or

(2) The taxpayer's contention with respect to an item is denied and with respect to other items is sustained so that the net result is an allowance of refund or credit; or

(3) The taxpayer's contention with respect to an item is sustained in part

and denied in part. For example, assume that the taxpayer claimed a deductible loss of $10,000 and a consequent overpayment of $2,500 and the Commissioner concedes that a deductible loss was sustained, but only in the amount of $5,000. The disposition of the claim for refund with respect to the allowance of the $5,000 and the disallowance of the remaining $5,000 becomes final upon the expiration of the time for instituting suit on the claim for refund unless suit is instituted prior to the expiration of such period.

(d) *Items applied by the Commissioner in reduction of the refund or credit.* If the Commissioner applies an item in reduction of the overpayment alleged in the claim for refund, and the net result is an allowance of refund or credit, the disposition with respect to the item so applied by the Commissioner becomes final upon the expiration of the time allowed by section 6532 for instituting suit on the claim for refund, unless suit is instituted prior to the expiration of such period. If such application of the item results in the assertion of a deficiency, such action does not constitute a final disposition of a claim for refund within the meaning of § 1.1313(a)–3, but subsequent action taken with respect to such deficiency may result in a determination under §§ 1.1313(a)–1, 1.1313(a)–2, or 1.1313(a)–4.

(e) *Elimination of waiting period.* The necessity of waiting for the expiration of the 2-year period of limitations provided in section 6532 may be avoided in such cases as are described in paragraph (c) or (d) of this section by the use of a closing agreement (see § 1.1313(a)–2) or agreement under § 1.1313(a)–4 to effect a determination.

[T.D. 6500, 25 FR 12036, Nov. 26, 1960]

§ 1.1313(a)–4 Agreement pursuant to section 1313(a)(4) as a determination.

(a) *In general.* (1) A determination may take the form of an agreement made pursuant to this section. This section is intended to provide an expeditious method for obtaining an adjustment under section 1311 and for offsetting deficiencies and refunds whenever possible. The provisions of part II (section 1311 and following), subchapter Q, chapter 1 of the Code, must be strictly complied with in any such agreement.

(2) An agreement made pursuant to this section will not, in itself, establish the tax liability for the open taxable year to which it relates, but it will state the amount of the tax, as then determined, for such open year. The tax may be the amount of tax shown on the return as filed by the taxpayer, but if any changes in the amount have been made, or if any are being made by documents executed concurrently with the execution of said agreement, such changes must be taken into account. For example, an agreement pursuant to this section may be executed concurrently with the execution of a waiver of restrictions on assessment and collection of a deficiency or acceptance of an overassessment with respect to the open taxable year, or concurrently with the execution and filing of a stipulation in a proceeding before the Tax Court of the United States, where an item which is to be the subject of an adjustment under section 1311 is disposed of by the stipulation and is not left for determination by the court.

(b) *Contents of agreement.* An agreement made pursuant to this section shall be so designated in the heading of the agreement, and it shall contain the following:

(1) A statement of the amount of the tax determined for the open taxable year to which the agreement relates, and if said liability is established or altered by a document executed concurrently with the execution of the agreement, a reference to said document.

(2) A concise statement of the material facts with respect to the item that was the subject of the error in the closed taxable year or years, and a statement of the manner in which such item was treated in computing the tax liability set forth pursuant to subparagraph (1) of this paragraph.

(3) A statement as to the amount of the adjustment ascertained pursuant to § 1.1314(a)–1 for the taxable year with respect to which the error was made and, where applicable, a statement as to the amount of the adjustment or adjustments ascertained pursuant to § 1.1314(a)–2 with respect to any other taxable year or years; and

(4) A waiver of restrictions on assessment and collection of any deficiencies set forth pursuant to subparagraph 3 of this paragraph.

(c) *Execution and effect of agreement.* An agreement made pursuant to this section shall be signed by the taxpayer with respect to whom the determination is made, or on the taxpayer's behalf by an agent or attorney acting pursuant to a power of attorney on file with the Internal Revenue Service. If an adjustment is to be made in a case of a related taxpayer, the agreement shall be signed also by the related taxpayer, or on the related taxpayer's behalf by an agent or attorney acting pursuant to a power of attorney on file with the Internal Revenue Service. It may be signed on behalf of the Commissioner by the district director, or such other person as is authorized by the Commissioner. When duly executed, such agreement will constitute the authority for an allowance of any refund or credit agreed to therein, and for the immediate assessment of any deficiency agreed to therein for the taxable year with respect to which the error was made, or any closed taxable year or years affected, or treated as affected, by a net operating loss deduction or capital loss carryover determined with reference to the taxable year with respect to which the error was made.

(d) *Finality of determination.* A determination made by an agreement pursuant to this section becomes final when the tax liability for the open taxable year to which the determination relates becomes final. During the period, if any, that a deficiency may be assessed or a refund or credit allowed with respect to such year, either the taxpayer or the Commissioner may properly pursue any of the procedures provided by law to secure a further modification of the tax liability for such year. For example, if the taxpayer subsequently files a claim for refund, or if the Commissioner subsequently issues a notice of deficiency with respect to such year, either may adopt a position with respect to the item that was the subject of the adjustment that is at variance with the manner in which said item was treated in the agreement. Any assessment, refund, or credit that is subsequently made with respect to the tax liability for such open taxable year, to the extent that it is based upon a revision in the treatment of the item that was the subject of the adjustment, shall constitute an alteration or revocation of the determination for the purpose of a redetermination of the adjustment pursuant to paragraph (d) of §1.1314(b)–1.

[T.D. 6500, 25 FR 12037, Nov. 26, 1960]

§1.1313(c)–1 Related taxpayer.

An adjustment in the case of the taxpayer with respect to whom the error was made may be authorized under section 1311 although the determination is made with respect to a different taxpayer, provided that such taxpayers stand in one of the relationships specified in section 1313(c). The concept of *related taxpayer* has application to all of the circumstances of adjustment specified in §1.1312–1 through §1.1312–5 if the related taxpayer is one described in section 1313(c); it has application to the circumstances of adjustment specified in §1.1312–6 only if the related taxpayer is one described in section 1313(c)(7); it does not apply in the circumstances specified in §1.1312–7. If such relationship exists, it is not essential that the error involve a transaction made possible only by reason of the existence of the relationship. For example, if the error with respect to which an adjustment is sought under section 1311 grew out of an assignment of rents between taxpayer A and taxpayer B, who are partners, and the determination is with respect to taxpayer A, an adjustment with respect to taxpayer B may be permissible despite the fact that the assignment had nothing to do with the business of the partnership. The relationship need not exist throughout the entire taxable year with respect to which the error was made, but only at some time during that taxable year. For example, if a taxpayer on February 15 assigns to his fiancee the net rents of a building which the taxpayer owns, and the two are married before the end of the taxable year, an adjustment may be permissible if the determination relates to such rents despite the fact that they were not husband and wife at the time of the assignment. See §1.1311(b)–3 for the requirement in certain cases that the relationship exist at the time an inconsistent position is first maintained.

[T.D. 6617, 27 FR 10824, Nov. 7, 1962]

§ 1.1314(a)–1 Ascertainment of amount of adjustment in year of error.

(a) In computing the amount of the adjustment under sections 1311 to 1315, inclusive, there must first be ascertained the amount of the tax previously determined for the taxpayer as to whom the error was made for the taxable year with respect to which the error was made. The tax previously determined for any taxable year may be the amount of tax shown on the taxpayer's return, but if any changes in that amount have been made, they must be taken into account. In such cases, the tax previously determined will be the sum of the amount shown as the tax by the taxpayer upon his return and the amounts previously assessed (or collected without assessment) as deficiencies, reduced by the amount of any rebates made. The amount shown as the tax by the taxpayer upon his return and the amount of any rebates or deficiencies shall be determined in accordance with the provisions of section 6211 and the regulations thereunder.

(b)(1) The tax previously determined may consist of tax for any taxable year beginning after December 31, 1931, imposed by subtitle A of the Internal Revenue Code of 1954, by chapter 1 and subchapters A, B, D, and E of chapter 2 of the Internal Revenue Code of 1939, or by the corresponding provisions of prior internal revenue laws, or by any one or more of such provisions.

(2) After the tax previously determined has been ascertained, a recomputation must then be made under the laws applicable to said taxable year to ascertain the increase or decrease in tax, if any, resulting from the correction of the error. The difference between the tax previously determined and the tax as recomputed after correction of the error will be the amount of the adjustment.

(c) No change shall be made in the treatment given any item upon which the tax previously determined was based other than in the correction of the item or items with respect to which the error was made. However, due regard shall be given to the effect that such correction may have on the computation of gross income, taxable income, and other matters under chapter 1 of the Code. If the treatment of any item upon which the tax previously determined was based, or if the application of any provisions of the internal revenue laws with respect to such tax, depends upon the amount of income (e.g. charitable contributions, foreign tax credit, dividends received credit, medical expenses, and percentage depletion), readjustment in these particulars will be necessary as part of the recomputation in conformity with the change in the amount of the income which results from the correct treatment of the item or items in respect of which the error was made.

(d) Any interest or additions to the tax collected as a result of the error shall be taken into account in determining the amount of the adjustment.

(e) The application of this section may be illustrated by the following example:

Example: (1) For the taxable year 1949 a taxpayer with no dependents, who kept his books on the cash receipts and disbursements method, filed a joint return with his wife disclosing adjusted gross income of $42,000 deductions amounting to $12,000, and a net income of $30,000. Included among other items in the gross income were salary in the amount of $15,000 and rents accrued but not yet received in the amount of $5,000. During the taxable year he donated $10,000 to the American Red Cross and in his return claimed a deduction of $6,300 on account thereof, representing the maximum deduction allowable under the 15-percent limitation imposed by section 23(o) of the Internal Revenue Code of 1939 as applicable to the year 1949. In computing his net income he omitted interest income amounting to $6,000 and neglected to take a deduction for interest paid in the amount of $4,500. The return disclosed a tax liability of $7,788, which was assessed and paid. After the expiration of the period of limitations upon the assessment of a deficiency or the allowance of a refund for 1949, the Commissioner included the item of rental income amounting to $5,000 in the taxpayer's gross income for the year 1950 and asserted a deficiency for that year. As a result of a final decision of the Tax Court of the United States in 1955 sustaining the deficiency for 1950, an adjustment is authorized for the year 1949.

(2) The amount of the adjustment is computed as follows:

Tax previously determined for 1949	$7,788
Net income for 1949 upon which tax previously determined was based	30,000
Less: Rents erroneously included	5,000
Balance	25,000
Adjustment for contributions (add 15 percent of $5,000)	750
Net income as adjusted	25,750
Tax as recomputed	6,152
Tax previously determined	7,788
Difference	1,636
Amount of adjustment to be refunded or credited	1,636

(3) In accordance with the provisions of paragraph (c) of this section, the recomputation to determine the amount of the adjustment does not take into consideration the item of $6,000 representing interest received, which was omitted from gross income, or the item of $4,500 representing interest paid, for which no deduction was allowed.

[T.D. 6500, 25 FR 12038, Nov. 26, 1960]

§1.1314(a)–2 Adjustment to other barred taxable years.

(a) An adjustment is authorized under section 1311 with respect to a taxable year or years other than the year of the error, but only if all of the following requirements are met:

(1) The tax liability for such other year or years must be affected, or must have been treated as affected, by a net operating loss deduction (as defined in section 172) or by a capital loss carryback or carryover (as defined in section 1212).

(2) The net operating loss deduction or capital loss carryback or carryover must be determined with reference to the taxable year with respect to which the error was made.

(3) On the date of the determination the adjustment with respect to such other year or years must be prevented by some law or rule of law, other than sections 1311 through 1315 and section 7122 and the corresponding provisions of prior revenue laws.

(b) The amount of the adjustment for such other year or years shall be computed in a manner similar to that provided in §1.1314(a)–1. The tax previously determined for such other year or years shall be ascertained. A recomputation must then be made to ascertain the increase or decrease in tax, if any, resulting solely from the correction of the net operating loss deduction or capital loss carryback or carryover. The difference between the tax previously determined and the tax as recomputed is the amount of the adjustment. In the recomputation, no consideration shall be given to items other than the following:

(1) The items upon which the tax previously determined for such other year or years was based, and

(2) The net operating loss deduction or capital loss carryback or carryover as corrected.

In determining the correct net operating loss deduction or capital loss carryback or carryover, no changes shall be made in taxable income (net income in the case of taxable years subject to the provisions of the Internal Revenue Code of 1939 or prior revenue laws), net operating loss or capital loss, for any barred taxable year, except as provided in section 1314. Section 172 and the corresponding provisions of prior revenue laws, and the regulations promulgated thereunder, prescribe the methods of computing the net operating loss deduction. Section 1212 and the corresponding provisions of prior revenue laws, and the regulations promulgated thereunder, prescribe the methods for computing the capital loss carryback and carryover.

(c) A net operating loss deduction or a capital loss carryback or carryover determined with reference to the year of the error may affect, or may have been treated as affecting, a taxable year with respect to which an adjustment is not prevented by the operation of any law or rule of law. In such case, the appropriate adjustment shall be made with respect to such open taxable year. However, the redetermination of the tax for such open taxable year is not made pursuant to part II (section 1311 and following), subchapter Q, chapter 1 of the Code, and the adjustment for such open year and the method of computation are not limited by the provisions of said sections.

(d) The application of this section may be illustrated by the following example:

Example: The taxpayer is a corporation which makes its income tax returns on a calendar year basis. Its net income in 1949, computed without any net operating loss deduction was $10,000, but because of a net operating loss deduction in excess of that amount resulting from a carryback of a net operating loss claimed for 1950, it paid no income tax for 1949. On its return for 1950 it showed an excess of deductions over gross income of $14,000, and it paid no income tax for 1950. For the year 1951 its net income, computed without any net operating loss deduction, was $15,000, and a net operating loss deduction of $13,000 was allowed ($4,000 of which was attributable to the carryover from 1950 and $9,000 of which was attributable to the carryback of a net operating loss of $9,000 sustained in 1952). In 1957 the assessment of deficiencies or the allowance of refunds for all of said years are barred by the statute of limitations.

(i) A Tax Court decision entered in 1957 with respect to the taxable year 1953 constituted a determination under which an adjustment is authorized to the taxable year 1950, the year with respect to which the error was made. This adjustment increases income for said year by $15,000, so that instead of a net operating loss of $14,000, its corrected net income is $1,000 for 1950, and the tax computed on that income will be assessed as a deficiency for 1950. An adjustment is authorized under this section with respect to each of the years 1949 and 1951, as the tax liability for each year was treated as affected by a net operating loss deduction which was determined by a computation in which reference was made to the year 1950. In the recomputation of the tax for 1949, the net operating loss carryback from 1950 will be eliminated, and in the recomputation of the tax for 1951 the net operating loss carryover from 1950 will be eliminated; for each of the years 1949 and 1951 there will be an adjustment which will be treated as a deficiency for said year.

(ii) Assuming the same facts, except that the correction with respect to the year 1950 increases the net operating loss for said year from $14,000 to $20,000. As a result of this correction, there will be no change in the tax due for 1949 and 1950. However, the net operating loss deduction for 1951 is recomputed to be $19,000, the aggregate of the $10,000 carryover from 1950 and the $9,000 carryback from 1952 (the carryover from 1950 is the excess of the $20,000 net operating loss for 1950 over the $10,000 net income for 1949, such 1949 income being determined without any net operating loss deduction). As a result of the correction of the net operating loss deduction for 1951, the tax recomputation will show no tax due for said year, and the adjustment for 1951 will result in a refund or credit of the tax previously paid. Moreover, computations resulting from this adjustment will disclose a net operating loss carryover from 1952 to 1953 of $4,000, that is, the excess of the $9,000 net operating loss for 1952 over the $5,000 net income for 1951 (such net income for 1951 being computed as the $15,000 reduced by the carryover of $10,000 from 1950, the carryback from 1952 not being taken into account). A further adjustment is authorized under section 1311 with respect to any subsequent barred year in which the tax liability is affected by a carryover of the net operating loss from 1952, inasmuch as such carryover from 1952 has been determined by a computation in which reference was made to 1950, the taxable year of the error.

[T.D. 6500, 25 FR 12038, Nov. 26, 1960, as amended by T.D. 7301, 39 FR 972, Jan. 4, 1974]

§ 1.1314(b)–1 Method of adjustment.

(a) If the amount of the adjustment ascertained pursuant to § 1.1314(a)–1 or § 1.1314(a)–2 represents an increase in tax, it is to be treated as if it were a deficiency determined by the Commissioner with respect to the taxpayer as to whom the error was made and for the taxable year or years with respect to which such adjustment was made. The amount of such adjustment is thus to be assessed and collected under the law and regulations applicable to the assessment and collection of deficiencies, subject, however, to the limitations imposed by § 1.1314(c)–1. Notice of deficiency, unless waived, must be issued with respect to such amount or amounts, and the taxpayer may contest the deficiency before the Tax Court of the United States or, if he chooses, may pay the deficiency and later file claim for refund. If the amount of the adjustment ascertained pursuant to § 1.1314(a)–1 or § 1.1314(a)–2 represents a decrease in tax, it is to be treated as if it were an overpayment claimed by the taxpayer with respect to whom the error was made for the taxable year or years with respect to which such adjustment was made. Such amount may be recovered under the law and regulations applicable to overpayments of tax, subject, however, to the limitations imposed by § 1.1314(c)–1. The taxpayer must file a claim for refund thereof, unless the overpayment is refunded without such claim, and if the claim is denied or not acted upon by the Commissioner within the prescribed time, the taxpayer may then file suit for refund.

(b) For the purpose of the adjustments authorized by section 1311, the period of limitations upon the making of an assessment or upon refund or credit, as the case may be, for the taxable year of an adjustment shall be considered as if, on the date of the determination, one year remained before the expiration of such period. The Commissioner thus has one year from the date of the determination within which to mail a notice of deficiency in respect of the amount of the adjustment where such adjustment is treated as if it were a deficiency. The issuance of such notice of deficiency, in accordance with the law and regulations applicable to the assessment of deficiencies will suspend the running of the 1-year period of limitations provided in section 1314(b). In accordance with the applicable law and regulations governing the collection of deficiencies, the period of limitation for collection of the amount of the adjustment will commence to run from the date of assessment of such amount. (See section 6502 and corresponding provisions of prior revenue laws.) Similarly, the taxpayer has a period of one year from the date of the determination within which to file a claim for refund in respect of the amount of the adjustment where such adjustment is treated as if it were an overpayment. Where the amount of the adjustment is treated as if it were a deficiency and the taxpayer chooses to pay such deficiency and contest it by way of a claim for refund, the period of limitation upon filing a claim for refund will commence to run from the date of such payment. See section 6511 and corresponding provisions of prior revenue laws.

(c) The amount of an adjustment treated as if it were a deficiency or an overpayment, as the case may be, will bear interest and be subject to additions to the tax to the extent provided by the internal revenue laws applicable to deficiencies and overpayments for the taxable year with respect to which the adjustment is made. In the case of an adjustment resulting from an increase or decrease in a net operating loss or net capital loss which is carried back to the year of adjustment, interest shall not be collected or paid for any period prior to the close of the taxable year in which the net operating loss or net capital loss arises.

(d) If, as a result of a determination provided for in §1.1313(a)–4, an adjustment has been made by the assessment and collection of a deficiency or the refund or credit of an overpayment, and subsequently such determination is altered or revoked, the amount of the adjustment ascertained under §1.1314(a)–1 and §1.1314(a)–2 shall be redetermined on the basis of such alteration or revocation, and any overpayment or deficiency resulting from such redetermination shall be refunded or credited, or assessed and collected, as the case may be, as an adjustment under section 1311. For the circumstances under which such an agreement can be altered or revoked, see paragraph (d) of §1.1313(a)–4.

[T.D. 6500, 25 FR 12039, Nov. 26, 1960, as amended by T.D. 7301, 39 FR 972, Jan. 4, 1974]

§1.1314(c)–1 Adjustment unaffected by other items.

(a) The amount of any adjustment ascertained under §1.1314(a)–1 or §1.1314(a)–2 shall not be diminished by any credit or set-off based upon any item other than the one that was the subject of the adjustment.

(b) The application of this section may be illustrated by the following examples:

Example 1. In the example set forth in paragraph (e) of §1.1314(a)–1, if, after the amount of the adjustment had been ascertained, the taxpayer, filed a refund claim for the amount thereof, the Commissioner could not diminish the amount of that claim by offsetting against it the amount of tax which should have been paid with respect to the $6,000 interest item omitted from gross income for the year 1949; nor could the court, if suit were brought on such claim for refund, offset against the amount of the adjustment the amount of tax which should have been paid with respect to such interest. Similarly, the amount of the refund could not be increased by any amount attributable to the taxpayer’s failure to deduct the $4,500 interest paid in the year 1949.

Example 2. Assume that a taxpayer included in his gross income for the year 1953 an item which should have been included in his gross income for the year 1952. After the expiration of the period of limitations upon the assessment of a deficiency or the allowance of a refund for 1952, the taxpayer filed a claim for refund for the year 1953 on the ground that such item was not properly includible in gross income for that year. The claim for refund was allowed by the Commissioner and as a result of such determination an adjustment was authorized under section 1311 with respect to the tax for 1952. If, in such case, the Commissioner issued a notice of deficiency for the amount of the adjustment and the taxpayer contested the deficiency before the Tax Court of the United States, the taxpayer could not in such proceeding claim an offset based upon his failure to take an allowable deduction for the year 1952; nor could the Tax Court in its decision offset against the amount of the adjustment any overpayment for the year 1952 resulting from the failure to take such deduction.

(c) If the Commissioner has refunded the amount of an adjustment under section 1311, the amount so refunded may not subsequently be recovered by the Commissioner in any suit for erroneous refund based upon any item other than the one that was the subject of the adjustment,

Example: In the example set forth in paragraph (e) of § 1.1314(a)–1, if the Commissioner had refunded the amount of the adjustment, no part of the amount so refunded could subsequently be recovered by the Commissioner by a suit for erroneous refund based on the ground that there was no overpayment for 1949, as the taxpayer had failed to include in gross income the $6,000 item of interest received in that year.

(d) If the Commissioner has assessed and collected the amount of an adjustment under section 1311, no part thereof may be recovered by the taxpayer in any suit for refund based upon any item other than the one that was the subject of the adjustment.

Example: In example (2) of paragraph (b) of this section, if the taxpayer had paid the amount of the adjustment, he could not subsequently recover any part of such payment in a suit for refund based upon the failure to take an allowable deduction for the year 1952.

(e) If the amount of the adjustment is considered an overpayment, it may be credited, under applicable law and regulations, together with any interest allowed thereon, against any liability in respect of an internal revenue tax on the part of the person who made such overpayment. Likewise, if the amount of the adjustment is considered as a deficiency, any overpayment by the taxpayer of any internal revenue tax may be credited against the amount of such adjustment in accordance with the applicable law and regulations thereunder. (See section 6402 and the corresponding provisions of prior revenue laws.) Accordingly, it may be possible in one transaction between the Commissioner and the taxpayer to settle the taxpayer's tax liability for the year with respect to which the determination is made and to make the adjustment under section 1311 for the year with respect to which the error was made or for a year which is affected, or treated as affected, by a net operating loss deduction or a capital loss carryover from the year of the error.

[T.D. 6500, 25 FR 12040, Nov. 26, 1960]

INVOLUNTARY LIQUIDATION AND REPLACEMENT OF LIFO INVENTORIES

§ 1.1321–1 Involuntary liquidation of lifo inventories.

(a) Section 22(d)(6)(B) of the Internal Revenue Code of 1939 provides as follows:

Sec. 22. Gross income. * * *

(d) * * *

(6) *Involuntary liquidation and replacement of inventory.* * * *

(B) *Definition of involuntary liquidation.* The term *involuntary liquidation,* as used in this paragraph, means the sale or other disposition of goods inventoried under the method described in this subsection, either voluntary or involuntary, coupled with a failure on the part of the taxpayer to purchase, manufacture, or otherwise produce and have on hand at the close of the taxable year in which such sale or other disposition occurred such goods as would, if on hand at the close of such taxable year, be subject to the application of the provisions of this subsection, if such failure on the part of the taxpayer is due, directly and exclusively, (i) to enemy capture or control of sources of limited foreign supply; (ii) to shipping or other transportation shortages; (iii) to material shortages resulting from priorities or allocations; (iv) to labor shortages; or (v) to other prevailing war conditions beyond the control of the taxpayer.

(b)(1) If, during any taxable year ending after June 30, 1950, and before January 1, 1955, the disruption of normal trade relations between countries, or one or more of the conditions attributable to a state of national preparedness and beyond the control of the taxpayer, as prescribed by section

22(d)(6)(B) of the Internal Revenue Code of 1939, as modified by section 1321(b) of the Internal Revenue Code of 1954, should render it impossible during such period for a taxpayer using the last-in first-out inventory method to have on hand at the close of the taxable year a stock of merchandise in kind and description like that included in the opening inventory for the year, or in a quantity equal to that of the opening inventory, the resulting inventory decrease for the year will be regarded, at the election of the taxpayer, as reflecting an involuntary liquidation subject to replacement. If the taxpayer notifies the Commissioner within the period prescribed below that he intends to effect a replacement of the liquidated stock, in whole or in part, and that he desires to have applied in his case the involuntary liquidation and replacement provisions of section 1321, and if he establishes to the satisfaction of the Commissioner the involuntary character of the liquidation to which his stock has been subjected, effect shall be given, when replacement has been made, in whole or in part, but only to the extent made in taxable years ending before January 1, 1956, to an adjustment of taxable income for the year of liquidation in the amount of the difference between the replacement costs incurred and the original inventory cost of the liquidated base stock inventory that is replaced. The notification is to be given within 6 months after the filing by the taxpayer of his income tax return for the year of the liquidation. However, if the liquidation occurs in a taxable year ending after December 31, 1953, the notification may be given at any time within 3 months after the promulgation of regulations under section 1321, or prior to the expiration of the 6-month period following the filing of the return, whichever expiration date later occurs.

(2) If the replacement costs exceed such inventory costs, the taxable income of the taxpayer otherwise computed for the year of liquidation shall be reduced by an amount equal to such excess. If the replacement costs are less than the inventory costs, taxable income otherwise computed for the year of liquidation shall be increased to the extent of such difference. Any deficiency in the income or excess profits tax of the taxpayer, or any overpayment of such taxes, attributable to such adjustment shall be assessed and collected or credited or refunded to the taxpayer without interest.

(c)(1) A failure on the part of the taxpayer to have on hand in his closing inventory for the taxable year merchandise of the kind, description, and quantity of that reflected in his opening inventory will be considered as an involuntary liquidation only if it is established to the satisfaction of the Commissioner that such failure is due wholly to his inability to purchase, manufacture, or otherwise produce and procure delivery of such merchandise during the taxable year of liquidation by reason of the disruption of normal trade relations between countries or by reason of certain war conditions, described in section 22(d)(6)(B) of the Internal Revenue Code of 1939, as modified by section 1321(b). Such war conditions are (i) shortages in the source of foreign supply by reason of capture or control by an enemy; (ii) shipping or other transportation shortages; (iii) material shortages resulting from priorities or allocations; (iv) labor shortages; and (v) similar war conditions beyond the control of the taxpayer. For the purpose of the preceding sentence, the words *enemy* and *war* shall be interpreted to apply to circumstances, occurrences, and conditions lacking a state of war, which are similar, by reason of a state of national preparedness, to those which would exist under a state of war.

(2) The various directives, orders, regulations, and allotments issued by the Federal Government in connection with national preparedness are among such circumstances and conditions which might be recognized as effecting an involuntary liquidation under this section. Likewise, a voluntary compliance with a request of an authorized representative of the Federal Government made upon an industry or an important segment thereof, or a voluntary allocation of materials by an industry or important segment thereof sanctioned by the Federal Government, if made in connection with the national preparedness program, might be considered as such a circumstance or

condition. Similarly, so much of an inventory decrease as is directly and exclusively attributable to the Federal Government's stockpiling program for periods during which an item is not subject to allotment shall also be considered as subject to the provisions of section 1321. Thus, so much of an inventory decrease as is due wholly to the effect of directives, orders, regulations, or allotments issued pursuant to the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), or to any other circumstance or condition which is solely dependent upon other action taken by the Federal Government in furtherance of the national preparedness program, ordinarily shall be considered as an involuntary liquidation under section 1321 and this section; however, to the extent that such a decrease is due to the disposition of goods acquired in violation of such directives, orders, regulations, or allotments, such decrease shall not be considered as such an involuntary liquidation. An inventory decrease due directly and exclusively to a disruption of normal trade relations between countries shall be considered as an involuntary liquidation subject to the rules and requirements prescribed in this section, including the requirement that the taxpayer establish to the satisfaction of the Commissioner the cause of the involuntary liquidation. A disruption of normal trade relations between countries may be reflected by unusual export limitations imposed by a foreign government, by unusual exchange restrictions, or by other unusual circumstances or conditions beyond the control of the taxpayer.

(3) A voluntary shift by the taxpayer, in the exercise of business judgment, to merchandise of a different character, description, or use, or to merchandise processed out of a substantially different kind of raw materials while raw materials of the type originally used are still available will not be considered as an involuntary liquidation notwithstanding the fact that such a shift in merchandise stocked was prompted by a shifting market demand attributable to the above conditions. The term *involuntary liquidation* presupposes a physical inability to maintain a normal inventory as distinguished from a financial or business disinclination on the part of the taxpayer to do so.

(d) If the taxpayer would have the involuntary liquidation and replacement provisions applicable with respect to any inventory decrease, he must so elect within the time prescribed by this section. In making such election, the taxpayer shall attach to his return and make a part thereof, or he shall furnish separately to the Commissioner, a statement setting forth the following matters:

(1) The desire of the taxpayer to invoke the involuntary liquidation and replacement provisions;

(2) A detailed list or other identifying description of the items of merchandise claimed to have been subjected to involuntary liquidation and the extent to which replacement is intended;

(3) The circumstances relied upon as rendering the taxpayer unable to maintain throughout the taxable year a normal inventory of the items involved, including evidence of the applicable inventory control figures for the beginning and the close of the taxable year submitted to the appropriate Federal agency in control of defense production (or if none, a statement to that effect), allotments applied for, allotments received, and reason for failure to place allotments received;

(4) Detailed proof of such circumstances to the extent that they may not be the subject-matter of common knowledge;

(5) A full description of what efforts were made on the part of the taxpayer to effect replacement during the taxable year and the result of such efforts; and

(6) In the case of an election made pursuant to an extension of time granted by the Commissioner, the circumstances relied upon as justifying the election at such time, together with a disclosure of the extent, if any, to which replacements have already been made.

(e) The election of the taxpayer to treat an involuntary decrease of inventory as subject to the replacement adjustments is to be exercised separately for each taxable year reflecting such a decrease and the election, once exercised with respect to a given year, shall be irrevocable with respect to the particular decrease involved and its replacement, and shall be binding for the year of liquidation, the year of replacement, and all prior, intervening, and subsequent years to the extent that such prior, intervening, and subsequent years are affected by the adjustments authorized. The ultimate replacement and the resulting adjustment for the year of liquidation may have consequences, among others, in the earnings and profits of intervening years and the inventory accounts of subsequent years. They may have consequences in the prior years by reason of adjustments in net operating loss or unused excess profits credit carrybacks, and in intervening and subsequent taxable years by reason of adjustments in carryovers. Adjustments are to be made for the several years affected consistent with the adjustments made for the year of liquidation. Detailed records shall be maintained such as will enable the Commissioner, in his examination of the taxpayer's return for the year of replacement, readily to verify the extent of the inventory decrease claimed to be involuntary in character and the facts upon which such claim is based, all subsequent inventory increases and decreases, and all other facts material to the replacement adjustment authorized. For taxable years subject to the Internal Revenue Code of 1939, an election under 26 CFR (1939) 39.22(d)–7(e) (Regulations 118) or 26 CFR (1939) 29.22(d)–7 (Regulations 111) to have the involuntary liquidation and replacement provisions of section 22(d)(6) of the Internal Revenue Code of 1939 apply with respect to any inventory decrease for taxable years to which such section applies, shall be given the same effect as if such election had been made under this section. (See section 7807(b)(2).)

(f) Notwithstanding the ultimate purchase price or the cost of production ultimately incurred by the taxpayer in effecting replacement of a stock involuntarily liquidated, the merchandise reflecting the replacement shall be taken into purchases and included in the closing inventory for the year of replacement, and shall be included in the inventories of subsequent taxable years, at the inventory cost figure of the merchandise replaced.

(g) The goods reflected in any inventory increase in a year subsequent to a year of involuntary liquidation, to the extent that they constitute items of the kind and description liquidated in prior years, whether or not in a year of involuntary liquidation, shall be deemed, in the order of their acquisition, as having been acquired by the taxpayer in replacement of like goods most recently liquidated and not previously replaced. In a case involving involuntary liquidations of goods of the same class subject to the provisions of both section 22(d)(6)(A) of the Internal Revenue Code of 1939 and section 1321 of the Internal Revenue Code of 1954, the involuntary liquidations of such goods subject to the provisions of section 1321 shall, for the purpose of replacements made in taxable years ending before January 1, 1953, be considered as having occurred prior to the involuntary liquidations of such goods subject to the provisions of section 22(d)(6)(A) of the Internal Revenue Code of 1939. To the extent that the items of increase are allocated to items liquidated voluntarily, no adjustment will be required or permitted. Such replacement merchandise will be carried in the inventory at its actual cost of acquisition. To the extent that replacements are allocated to items involuntarily liquidated, however, the provisions of this section shall apply, both with respect to adjustments for the year of liquidation and other taxable years affected and with respect to inventory computations for the year of replacement and all subsequent taxable years.

(h) In some cases it may appear that, at the time of the filing of the income tax return for the year of replacement, or within three years thereafter, an adjustment with respect to the income or excess profits taxes for the year of the involuntary liquidation, or for some prior, intervening, or subsequent taxable year, is prevented by the running of the statute of limitations, by the execution of a closing agreement, by virtue of a court decision which has become final, or by reason of some other provision or rule of law other than section 7122 (relating to compromises) and other than the inventory replacement provisions. The adjustments provided for in connection with the involuntary liquidation and replacement of inventory shall nevertheless be made, but only if, within a period of three years after the date of the filing of the income tax return for the year of replacement, a notice of deficiency is mailed or a claim for refund is filed. No credit or refund will be allowed under such circumstances, whether within or without such three-year period, in the absence of a claim for refund duly filed; nor will a resulting deficiency be assessed or collected under section 6213(d) relating to waivers of restrictions. The issuance of the statutory notice of deficiency or the filing of a claim for refund are statutory conditions upon which depend the provisions of section 22(d)(6)(E) of the Internal Revenue Code of 1939, referred to in section 1321(c) of the Internal Revenue Code of 1954. The adjustment authorized by section 22(d)(6)(E) of the Internal Revenue Code of 1939 is limited further to the tax attributable solely to the replacement adjustments. The amount of the adjustment shall be computed by reference to the amount of the tax previously determined, and without regard to factors affecting the taxable year involved to which no effect was given in such prior determination. The tax previously determined shall be ascertained in accordance with the principles stated in section 452(d) of the Internal Revenue Code of 1939. Any deficiency paid or any overpayment credited or refunded under these circumstances shall not be subject to recovery on a claim for refund or a suit for the recovery of an erroneous refund in any case in which such claim or suit is based upon factors other than those giving rise to the adjustments made.

§ 1.1321–2 Liquidation and replacement of lifo inventories by acquiring corporations.

For additional rules in the case of certain corporate acquisitions referred to in section 381(a), see section 381(c)(5) and the regulations thereunder.

[T.D. 6500, 25 FR 12042, Nov. 26, 1960]

War Loss Recoveries

§ 1.1331–1 Recoveries in respect of war losses.

(a)(1) The amount of any recovery in respect of *war loss property* must be included in gross income to the extent provided in section 1332 unless, pursuant to the taxpayer's election under section 1335, the provisions of section 1333 are applicable to such recovery. For the treatment of war loss recoveries under section 1333 and the manner of making the election under section 1335, see §§ 1.1333–1 and 1.1335–1.

(2) As used in this part, the term *war loss property* means property considered under section 127(a) of the Internal Revenue Code of 1939 as *destroyed or seized,* including any interest described in section 127(a)(3) of the Internal Revenue Code of 1939.

(3) For regulations governing the treatment of war losses under the Internal Revenue Code of 1939, see 26 CFR (1939) 29.127(a)–1 to 29.127(a)–4, inclusive, 29.127(b)–1, and 29.127(e)–1 (Regulations 111) and 26 CFR (1939) 39.127(a)–1 (Regulations 118).

(b) The recoveries in respect of any war loss property include the recovery of the same war loss property and the recovery of any money or property in lieu of such property or on account of the destruction or seizure of such property. For example, there is a recovery upon the return to the taxpayer after the termination of the war of his property which was treated as war loss property because it was located in a country at war with the United States. An award by a government on account of the seizure of the taxpayer's property by an enemy country is a recovery under this section. The amount obtained upon the sale or other transfer by the taxpayer of his right to any war loss property is also a recovery for the purpose of this section. Similarly, if a taxpayer who sustained a war loss upon the liquidation of a corporation has received the rights to any property of the corporation which was treated as war loss property, any recovery by the taxpayer with respect to such rights is a recovery by him for the purposes of this section.

(c) For the purpose of this section, the recoveries considered are only those with respect to war losses sustained in prior taxable years. Similarly, the only deductions considered are those allowable for prior taxable years, and any allowable deductions for the year of the recovery are ignored for the purposes of applying such section to the recovery.

(d) If a deduction was claimed under section 127(a) of the Internal Revenue Code of 1939 by a taxpayer in computing his tax for any taxable year and if such deduction was disallowed in whole or in part, any recovery in respect of the portion disallowed shall not be subject to the provisions of part IV (section 1331 and following), subchapter Q, chapter 1 of the Code.

[T.D. 6500, 25 FR 12042, Nov. 26, 1960]

§ 1.1332–1 Inclusion in gross income of war loss recoveries.

(a) *Amount of recovery.* Except as provided in section 1333(1), the amount of the recovery in respect of a war loss in a previous taxable year is determined in the same manner for the purpose of either section 1332 or 1333. The amount of the recovery of any money or property in respect of any war loss is the aggregate of the amount of such money and of the fair market value of such property, both determined as of the date of the recovery. But see paragraph (a) of § 1.1333–1 for optional valuation where the taxpayer recovers the same war loss property.

(b) *Amount of gain includible.* (1) A taxpayer who has sustained a war loss described in section 127(a) of the Internal Revenue Code of 1939 and who has not elected to have the provisions of section 1333 apply to any taxable year in which he recovered any money or property in respect of a war loss in any previous taxable year must include in his gross income for each taxable year, to the extent provided in section 1332, the amount of his recoveries of money and property for such taxable year in respect of any war loss in a previous taxable year. Section 1332 provides that such recoveries for any taxable year are not includible in income until the taxpayer has recovered an amount equal to his allowable deductions in prior taxable years on account of such war losses which did not result in a reduction of any tax under chapter 1 or 2 of the Internal Revenue Code of 1939. War loss recoveries are considered as made first on account of war losses allowable but not actually allowed as a deduction, and second on account of war losses allowed as a deduction but which did not result in a reduction of tax under chapter 1 or 2 of the Internal Revenue Code of 1939. If there were deductions allowed on account of war losses for two or more taxable years which did not result in a reduction of any tax under chapter 1 or 2 of the Internal Revenue Code of 1939, a recovery on account of such losses is considered as made on account of such losses in the order of the taxable years for which they were allowed beginning with the latest. See § 1.1337–1 for the determination of the amount of such deductions. Recoveries in excess of such amount are treated as ordinary income until such excess equals the amount of the taxpayer's allowable deductions in prior taxable years on account of war losses which did result in a reduction of any such tax under chapter 1 or 2 of the Internal Revenue Code of 1939. Any further recoveries in excess of all the taxpayer's allowable deductions in prior taxable years for war losses are treated as gain on an involuntary conversion of property as a result of its destruction or seizure, and such gain is recognized or not recognized under the provisions of section 1033. See section 1033 and the regulations thereunder. Such gain, if recognized, is included in gross income as ordinary income unless section 1231(a) applies to cause such gain to be treated as gain from the sale or exchange of a capital asset held for more than six months. See section 1231(a) and the regulations thereunder.

(2) The determination as to whether and to what extent any recoveries are to be included in gross income is made upon the basis of the amount of all the recoveries for each day upon which there are any such recoveries, as follows:

(i) The amount of the recoveries for any day is not included in gross income, and is not considered gain on an involuntary conversion, to the extent, if any, that the aggregate of the allowable deductions in prior taxable years on account of war losses which did not result in a reduction of any tax of the taxpayer under chapter 1 or 2 of the Internal Revenue Code of 1939, as determined under § 1.1337–1, exceeds the amount of all previous recoveries in the same and prior taxable years.

(ii) The amount of the recoveries for any day which is not excluded from gross income under subdivision (i) of this subparagraph is included in gross income as ordinary income, and is not considered gain on an involuntary conversion, to the extent, if any, that the aggregate of all the allowable deductions in prior taxable years on account of war losses (both those which resulted in a reduction of a tax of the taxpayer and those which did not) exceeds the sum of the amount of all previous recoveries in the same and prior taxable years and of that portion, if any, of the amount of the recoveries for such day which is not included in gross income under subdivision (i) of this subparagraph.

(iii) The amount of the recoveries for any day which is not excluded from gross income under subdivision (i) of this subparagraph and is not included in gross income as ordinary income under subdivision (ii) of this subparagraph is considered gain on an involuntary conversion of property as a result of its destruction or seizure. The following provisions then apply to this gain:

(*a*) Such gain is recognized or not recognized under the provisions of section 1033, relating to gain on the involuntary conversion of property. For the purpose of applying section 1033, such gain for any day is deemed to be expended in the manner provided in section 1033 to the extent the recovery for such day is so expended.

(*b*) If such gain is recognized, it is included in gross income as ordinary income or, if the provisions of section 1231(a) apply and require such treatment, as gain on the sale or exchange of a capital asset held for more than six months. For the purpose of applying section 1231(a), such recognized gain for any day is deemed to be derived from property described in that section to the extent of the recovery for such day with respect to such property, except such portion of such recovery as is attributable to the nonrecognized gain for such day.

(*c*) Section 1336 provides that in determining the unadjusted basis of recovered property, the total gain and the recognized gain with respect to such property must be determined. For such purpose, the recognized gain deemed to be derived from properties described in section 1231(a) may be allocated among such properties in the proportion of the recoveries with respect to such properties, reduced for each property by the portion of the recovery attributable to the nonrecognized gain for such day, and the recoveries with respect to properties not described in section 1231(a) may be similarly allocated. The total gain derived from any recovered property is the sum of the nonrecognized gain attributable to the recovery of such property and of the recognized gain allocable to such property.

(3) The foregoing provisions may be illustrated by the following examples:

Example 1. The taxpayer sustained war losses of $3,000 on account of properties A, B, C, and D. Of this amount, $1,000 did not result in a reduction of any income tax of the taxpayer, as determined under the provisions of § 1.1337–1. In a subsequent taxable year, he received an award of $800 from the Government on account of property A. This is not included in income since it is less than the amount by which his allowable deductions for prior taxable years on account of war losses which did not result in any tax benefit ($1,000) exceed $0, the sum of all his previous recoveries. On a later date the taxpayer recovers property B, which is worth $1,500 on the date of recovery. This recovery is not included in gross income to the extent of $200, the amount by which the aggregate of the allowable deductions for prior taxable years on account of war losses which did not result in any tax benefit ($1,000) exceeds the sum of all previous recoveries ($800). The remaining $1,300 of the recovery is included in gross income as ordinary income, and is not considered gain on the involuntary conversion of property, since it is less than the amount by which the aggregate of all the allowable deductions in prior taxable years on account of war losses ($3,000) exceeds $1,000, the sum of the $800 of previous recoveries and of the $200 portion of the recovery with respect to B which is not included in gross income. On a still later date the taxpayer sells for $2,500 his rights to recover C. Since the allowable deductions for prior taxable years on account of war losses which did not result in any tax benefit ($1,000) do not exceed the previous recoveries by the taxpayer ($800 and

$1,500, or $2,300), none of the recovery on account of C is excluded from gross income. This recovery is included in gross income as ordinary income, and is not considered gain on the involuntary conversion of property, to the extent of $700, the amount by which the aggregate of all the allowable deductions for prior taxable years on account of war losses ($3,000) exceeds $2,300, the sum of the $2,300 of previous recoveries and of the $0 portion of the recovery on account of C which is not included in gross income. The remaining $1,800 of the recovery is considered gain on an involuntary conversion of property on account of its destruction or seizure, and is not recognized if forthwith expended in the manner provided in section 1033. Thus, it is not recognized if it is forthwith expended for the acquisition of property related in service or use to C. On a later date the taxpayer recovers D, which has a fair market value of $400 at the time of the recovery. Since the aggregate of all the allowable deductions for prior taxable years on account of war losses ($3,000) does not exceed the previous recoveries by the taxpayer ($800+$1,500+$2,500, or $4,800), all of the recovery with respect to D is considered gain on an involuntary conversion of property as a result of its destruction or seizure. Under the provisions of section 1033, this gain is not recognized if D is used for the same purposes for which it was used before it was deemed destroyed or seized under section 127(a) of the Internal Revenue Code of 1939.

Example 2. The taxpayer on one day recovers $3,000 for property A and $7,000 for property B, both of which were treated as war loss property for a prior taxable year, and $8,000 of such $10,000 recoveries is considered gain on the involuntary conversion of property as a result of its destruction or seizure. The taxpayer forthwith expends $5,000 in the acquisition of property similar in use to B. Therefore, $5,000 of the $8,000 gain is not recognized under section 1033, leaving $3,000 of recognized gain. Property B is within the provisions of section 1231(a), relating to gains and losses on the involuntary conversion of certain described property, but property A is not. Therefore, the provisions of section 1231(a) apply to $2,000 of the $3,000 gain, that is, the amount of the recovery with respect to B which is not attributable to the nonrecognized gain for such day ($7,000 minus $5,000). If the taxpayer forthwith expended $8,000 or more for the acquisition of property similar in use to B, none of the gain would be recognized. If the taxpayer forthwith expended the $5,000 to acquire property related in use to A, the $3,000 recognized gain would be considered derived from B to the extent of the recovery with respect to B ($7,000), not reduced by any nonrecognized gain since none of such recovery is attributable to such nonrecognized gain, and therefore all of the $3,000 recognized gain would be subject to the provisions of section 1231(a).

(4) An allowable deduction with respect to a war loss is any deduction to which the taxpayer is entitled on account of any war loss property, regardless of whether or not such deduction was claimed by the taxpayer or otherwise allowed in computing his tax. If a deduction was claimed by a taxpayer in computing his tax for any taxable year and if such deduction was disallowed, such deduction will not be considered an allowable deduction for such taxable year since the previous determination will not be reconsidered.

[T.D. 6500, 25 FR 12043, Nov. 26, 1960]

§1.1333–1 Tax adjustment measured by prior benefits.

(a) *Amount of recovery.* The amount of recovery for purposes of this section shall be determined in accordance with the provisions of section 1332(a). See paragraph (a) of §1.1332–1. If, pursuant to the taxpayer's election under section 1335, the provisions of section 1333 are applicable to any taxable year in which he recovers the same war loss property, the fair market value of such property shall, at the option of the taxpayer, be considered an amount equal to the adjusted basis (for determining loss) of such property in the hands of the taxpayer on the date such property was considered as destroyed or seized. This option is exercisable by the taxpayer with respect to each separate war loss property. Also, if the provisions of section 1333 are applicable pursuant to the taxpayer's election, the amount of the recovery of any money or property in respect of war loss property shall be reduced for the purpose of section 1333 (2) and (3) by the amount of the obligations or liabilities with respect to such property, if the taxpayer for any previous taxable year chose under section 127(b)(2) of the Internal Revenue Code of 1939 to treat such obligations or liabilities as discharged or satisfied out of such property, and such obligations or liabilities were not so discharged or satisfied before the date of the recovery. See 26 CFR (1939) 29.127(b)–1 (Regulations 111).

(b) *Elective method; tax adjustment measured by prior benefits.* (1) If the taxpayer elects pursuant to section 1335 and in accordance with the provisions of § 1.1335–1 to have the provisions of section 1333 apply to any taxable year in which he recovers any money or property in respect of war loss property, the amount of the recovery in respect of such property for any taxable year shall not be included in income until the taxpayer has recovered an amount equal to his allowable deductions in prior taxable years on account of the destruction or seizure of such property, whether or not such allowable deductions resulted in a reduction of any tax under chapter 1 or 2 of the Internal Revenue Code of 1939. However, for the purposes of section 6012(a)(1), relating to the requirement of individual returns, section 6012(a)(2), relating to the requirement of corporation returns, and section 1312, relating to the mitigation of the effect of the statute of limitations, the entire amount of the recovery shall be deemed to be an item includible in gross income for the taxable year in which the recovery is made. In lieu of including such amount in gross income, there shall be added to, and assessed and collected as a part of, the tax imposed under subtitle A of the Internal Revenue Code of 1954 for the taxable year of the recovery an adjustment on account of any tax benefits in all prior taxable years resulting directly or indirectly from the fact that the loss from the destruction or seizure of such property was an allowable deduction. The amount of such adjustment shall be the total increase in the tax under chapters 1 and 2 of the Internal Revenue Code of 1939 for all taxable years which would result by decreasing such allowable deductions with respect to the destruction or seizure of such property by an amount equal to that portion of the amount of the recovery which is not included in gross income for the taxable year of the recovery. The portion of the amount of the recovery which is in excess of such allowable deductions is included in gross income for the taxable year of the recovery as gain on the involuntary conversion of property as a result of its destruction or seizure and is recognized or not recognized as provided in section 1033. See section 1033 and the regulations thereunder. Such gain, if recognized, is included in gross income as ordinary income unless section 1231(a) applies to cause such gain to be treated as gain on the sale or exchange of capital assets held for more than six months. See section 1231(a) and the regulations thereunder.

(2) The determination as to whether and to what extent the amount of the recovery is to be excluded from gross income is to be made upon the basis of the total amount of the recoveries in each taxable year in respect of the same war loss property, as follows:

(i) The amount of the recovery in any taxable year is excluded from the gross income of such year and is not considered gain on an involuntary conversion to the extent that such amount does not exceed the aggregate of the allowable deductions in prior taxable years on account of the destruction or seizure of such property (whether or not such deductions resulted in a reduction of a tax of the taxpayer) reduced by the aggregate amount of any recoveries in intervening taxable years in respect of the same property.

(ii) The amount of the recovery in any taxable year which is not excluded from gross income under subdivision (i) of this subparagraph is included in gross income and is considered gain on an involuntary conversion of property as a result of its destruction or seizure. The following provisions apply to this gain:

(*a*) Such gain is recognized or not recognized under the provisions of section 1033, relating to gain on the involuntary conversion of property. For the purpose of applying section 1033, such gain for any taxable year is deemed to be expended in the manner provided in section 1033 to the extent the recovery in such taxable year is so expended.

(*b*) If such gain is recognized it is included in gross income as ordinary income or, if the provisions of section 1231(a) apply and require such treatment, as gain on the sale or exchange of a capital asset held for more than six months. In the case of the recovery of the same war loss property, any gain will not be deemed to be recognized under the provisions of section 1231(a) if such property is used for the same purpose for which it was used before it was deemed destroyed or seized under section 127(a) of the Internal Revenue Code of 1939.

(3) The determination of the total increase in the tax under chapters 1 and 2 of the Internal Revenue Code of 1939 for all taxable years which would result by decreasing the deductions allowable in any prior taxable year with respect to the destruction or seizure of the property in respect of which the taxpayer has made a recovery by an amount equal to the part of such recovery not included in gross income for the taxable year of such recovery shall be made as provided in this subparagraph. Such total increase shall include the increases described in subdivisions (i), (ii), (iii), and (iv) of this subparagraph, and shall be added to, and assessed and collected as a part of, the tax under subtitle A for the taxable year of the recovery. Proper adjustment of such increases shall be made on account of the application of the provisions of this subparagraph to intervening taxable years. Proper adjustment shall also be made in the determination of such increases in the case of a taxpayer who has made a valid election under section 1020, relating to the adjustment of basis of property for depreciation, obsolescence, amortization, and depletion. The term *tax previously determined* as used in this subparagraph shall have the same meaning as used in section 1314(a) and shall include any tax under chapter 1 or 2 of the Internal Revenue Code of 1939. In computing the amount of the increase in the tax previously determined under chapter 1 or 2 of the Internal Revenue Code of 1939 for any taxable year, the principles of section 1314(a) shall be applicable. See section 1314(a) and the regulations thereunder. However, the computation of the excess profits credit under chapter 2E of the Internal Revenue Code of 1939 for any taxable year shall not be affected by the adjustment provided in this subparagraph. All credits allowable against the tax for any year shall be taken into account in computing the increase in the tax previously determined. The increases referred to above include the following:

(i) The increase, if any, in the tax previously determined for each prior taxable year in which a deduction was allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year. After the tax previously determined has been ascertained, such tax shall be recomputed by disregarding such allowable deduction (to the extent that it does not exceed the sum of the amount of such recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and any other deductions allowable on account of other war losses or any other losses, expenditures or accruals in such prior taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127(c)(3) or section 22(b)(12) of the Internal Revenue Code of 1939, or section 1333 or section 111 of the Internal Revenue Code of 1954, or otherwise. The difference between the tax previously determined and the tax as recomputed will be the increase in the tax previously determined for the taxable year.

(ii) The increase, if any, in the tax previously determined for any taxable year (including the taxable year of the recovery) in which a net operating loss deduction was allowable, if all or a part of such deduction was attributable to the carryover or carryback to such taxable year of a net operating loss from another taxable year in which a deduction was allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year to which such increase is to be added. After the tax previously determined has been ascertained, such tax shall be recomputed by redetermining such net operating loss deduction. In the determination of such net operating loss deduction the net operating loss shall be recomputed by disregarding the deduction allowable on account of the war loss in respect of which there is a recovery in the taxable year to which such increase is to be added (to the extent that such deduction does not exceed the sum of the amount of such recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and by disregarding any other deductions allowable on account of other war losses or any other losses, expenditures, or accruals in the taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127(c)(3) or 22(b)(12) of the Internal Revenue Code of 1939, or section 1333 or 111 of the Internal Revenue Code of 1954, or otherwise. The difference between the tax previously determined and the tax as recomputed will be the increase in the tax previously determined for the taxable year.

(iii) The increase, if any, in the tax previously determined for any taxable year (including the taxable year of recovery) in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment for such taxable year, if all or a part of such adjustment was attributable to the carryover or carryback to such taxable year of an unused excess profits credit from another taxable year in which a deduction was allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year to which such increase is to be added. After the tax previously determined has been ascertained, such tax shall be recomputed by redetermining such unused excess profits credit carryover or carryback. In the recomputation such carryover or carryback shall be redetermined by disregarding such allowable war loss deduction (to the extent such deduction does not exceed the sum of the amount of the recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and by disregarding any other deductions allowable on account of other war losses or any other losses, expenditures, or accruals in the taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127(c)(3) or 22(b)(12) of the Internal Revenue Code of 1939, or section 1333 or 111 of the Internal Revenue Code of 1954, or otherwise. The difference between the tax previously determined and the tax as recomputed will be the increase in the tax previously determined for the taxable year. In case there is an increase in the excess profits tax under chapter 2E of the Internal Revenue Code of 1939 for the taxable year in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment, and a decrease in the income tax under chapter 1 of the Internal Revenue Code of 1939 for such taxable year, the increase in the tax previously determined shall be considered to be an amount equal to the excess of the increase in the excess profits tax over the decrease in the income tax.

(iv) The increase, if any, in the tax previously determined for any taxable year (including the taxable year of the recovery) in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment for such taxable year, if all or a part of such adjustment was attributable to the carryover or carryback to such taxable year of an unused excess profits credit from another taxable year in which there was allowable a net operating loss deduction attributable to the carryover or carryback to such other taxable year of a net operating loss, and such net operating loss resulted in whole or in part from the deduction allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year to which such increase is to be added. After the tax previously determined has been ascertained, such tax shall be recomputed by redetermining such net operating loss deduction and such unused excess profits credit carryover or carryback. In the redetermination of such net operating loss deduction the net operating loss carryover or carryback shall be recomputed by disregarding such allowable war loss deduction (to the extent that such deduction does not exceed the sum of the amount of such recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and by disregarding any other deductions allowable on account of other war losses or any other losses, expenditures, or accruals in the taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127(c)(3) or 22(b)(12) of the Internal Revenue Code of 1939, or section 1333 or 111 of the Internal Revenue Code of 1954, or otherwise. The unused excess profits credit carryover or carryback shall then be recomputed to conform to the redetermination of the net operating loss deduction for the taxable year from which the unused credit is carried over or carried back. The difference between the tax previously determined and the tax as recomputed shall be the amount of the increase which shall be added to the tax for the taxable year of the recovery. In case there is an increase in the excess profits tax under chapter 2E of the Internal Revenue Code of 1939 for the taxable year in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment, and a decrease in the income tax under chapter 1 of the Internal Revenue Code of 1939 for such taxable year, the increase which shall be added to the tax for the taxable year of the recovery shall be considered to be an amount equal to the excess of the increase in the excess profits tax over the decrease in the income tax.

[T.D. 6500, 25 FR 12045, Nov. 26, 1960]

§1.1334–1 Restoration of value of investments.

If any interest of the taxpayer in or with respect to property was determined to be worthless and was treated as a war loss under section 127(a)(3) of the Internal Revenue Code of 1939 (see 26 CFR (1939) 29.127(a)–4) (Regulations 111), or if the taxpayer retained an interest in a corporation with respect to which he sustained a war loss under section 127(e) of the Internal Revenue Code of 1939, and if the interest in the hands of the taxpayer is restored in value, in whole or in part, by reason of a recovery with respect to the underlying assets treated as war loss property, then such restoration in value is a recovery by the taxpayer for the purposes of section 1331. In the application of section 1333, such restoration shall be treated as a recovery of the same interest considered as destroyed or seized. War loss property is considered as not being in existence from the date of the loss to the date of its recovery.

[T.D. 6500, 25 FR 12046, Nov. 26, 1960]

§1.1335–1 Elective method; time and manner of making election and effect thereof.

(a) *In general.* If the taxpayer elects to have the provisions of section 1333 applicable to any taxable year in which any money or property is recovered in respect of war loss property, section 1333 will be applicable by virtue of that election to all taxable years of the taxpayer beginning after December 31, 1941. Thus, the taxpayer need not make an election with respect to each separate taxable year in which he had a recovery. An election for any taxable year in which the taxpayer had a recovery in respect of a prior war loss is sufficient to make the provisions of section 1333 applicable not only to war loss recoveries received by the taxpayer in any past taxable year beginning after December 31, 1941, but to any recoveries which may be received by the taxpayer in any future taxable year. Such election once made shall be irrevocable. The election to have the provisions of section 1333 applicable to any taxable year cannot be made unless the taxpayer recovers money or property (in respect of a prior war loss) during the taxable year for which such election is made.

(b) *Manner of election.* In all cases the election to have the provisions of section 1333 apply must be made by the taxpayer not later than six months from the last day prescribed by law for the filing of his income tax return for any taxable year in which a recovery of war loss property has occurred. The election shall be evidenced by a written statement, made within such 6-month period, that the taxpayer elects to have the provisions of section 1333 apply to any taxable year in which any money or property is recovered in respect of war loss property. The statement may be made in (or attached to):

(1) The return or amended return filed for such taxable year;

(2) A claim for refund or credit filed for such taxable year for an overpayment resulting from application of such provisions;

(3) A timely petition or amended petition to The Tax Court of the United States for a redetermination of any deficiency for any taxable year in which a recovery of war loss property occurred; or

(4) A letter addressed to the district director for the district in which the return for such taxable year was required to be filed.

If the written statement of election is made in a letter, it shall be signed by the taxpayer making the election if an individual or, if the taxpayer is not an individual, the letter must be executed in the same manner as required in the case of the income tax return of such taxpayer. The date of the making of the election shall be the date the return, amended return, claim for refund or credit, or letter is filed in the office of the district director, or the date the petition or amended petition is filed with The Tax Court of the United States. In case the election is made in a return filed before the last day prescribed by law for the filing thereof (including any extension of time for such filing), such election shall not be considered made until such last day. See section 7502 and the regulations thereunder with respect to the timeliness of filing an election where filing is done by mail and section 7503 and the regulations thereunder with respect to the timeliness of filing where the last day for filing falls on a Saturday, Sunday, or legal holiday.

(c) *Effect of election.* (1) If the provisions of section 1333 are applicable to any taxable year pursuant to an election made by the taxpayer in accordance with the provisions of paragraph (a) of this section, the period of limitations provided in chapter 66 of the Code on the making of assessments and the beginning of distraint or a proceeding in court for collection with respect to (i) the amount to be added to the tax for such taxable year under the provisions of section 1333 and (ii) any deficiency for such taxable year or for any other taxable year to the extent attributable to the basis of the recovered property being determined under the provisions of section 1336(b), shall not expire prior to the expiration of two years following the date of the making of such election. Such amount or such deficiency may be assessed at any time prior to the expiration of such period, notwithstanding any law or rule of law which would otherwise prevent such assessment and collection.

(2) If the provisions of section 1333 are applicable to any taxable year pursuant to an election made by the taxpayer in accordance with the provisions of paragraph (a) of this section, and refund or credit of any overpayment resulting from the application of such provisions to such taxable year is prevented on the date of the making of such election, or within one year from such date, by the operation of any law or rule of law (other than section 7122 relating to compromises), refund or credit of such overpayment may nevertheless be made or allowed, provided claim therefor is filed within one year from such date. Thus, the amount of such overpayment which may be refunded or credited is not subject to the limitations contained in section 6511 or 6512(b).

(3) In the case of any taxable year ending before the date of the making by the taxpayer of an election under section 1335, no interest shall be paid on any overpayment specified in subparagraph (2) of this paragraph for any period before the expiration of six months following the date of the making of such election by the taxpayer, and no interest shall be assessed or collected with respect to any amount or any deficiency specified in subparagraph (1) of this paragraph for any period before the expiration of six months following the date of the making of such election by the taxpayer.

[T.D. 6500, 25 FR 12047, Nov. 26, 1960]

§ 1.1336–1 Basis of recovered property.

(a) *General rule.* (1) Under section 1336(a), the unadjusted basis of any war loss property which is recovered and the unadjusted basis of any property which is recovered in lieu of or on account of any such war loss property is considered the fair market value of such recovered property upon the date of its recovery with the following adjustments:

(i) If the sum of the recoveries for the day such property is recovered and of all previous recoveries exceeds the aggregate of the allowable deductions for prior taxable years on account of war losses, so that a portion of the recoveries for such day is treated as gain on the involuntary conversion of property, such fair market value of the property is reduced by the total gain, if any, for such day derived from such recovered property as determined under paragraph (b) of §1.1332–1.

(ii) Such fair market value, as reduced under subdivision (i) of this subparagraph, is increased by the portion, if any, of the recognized gain resulting from the recoveries for such day which is allocable to such recovered property, as determined under paragraph (b) of §1.1332–1.

In effect, the unadjusted basis of such property is its fair market value upon the date of its recovery, reduced by the amount of nonrecognized gain attributable to such recovery under the provisions of paragraph (b) of §1.1332–1.

(2) If the respective bases of several properties of a taxpayer determined under section 1336(a) are greatly disproportionate to their adjusted bases immediately before their treatment as war loss properties, the taxpayer may apply to the Commissioner for the allocation of the aggregate of the bases of such properties among them in the proportion of their adjusted bases immediately before the destruction or seizure of such properties determined under section 127(a) of the Internal Revenue Code of 1939. The amount so allocated to any such property, in an application approved by the Commissioner, shall be the unadjusted basis of such property in lieu of the amount determined under subparagraph (1) of this paragraph.

(3) The application to the Commissioner shall set forth a list of all the properties of the taxpayer having an unadjusted basis determined under this section, a description of each such property together with a statement as to the amount of its adjusted basis immediately before the destruction or seizure of such property determined under section 127(a) of the Internal Revenue Code of 1939, and a statement as to whether there has been any substantial change in the use or nature of the property chosen for the allocation from its nature or use immediately before the time it was treated as destroyed or seized. Such application will be allowed unless there has been such a substantial change in the nature or use of such property that the allocation of the bases would produce an arbitrary result, or unless the taxpayer has obtained such tax benefits by reason of the basis determined under subparagraph (1) of this paragraph, that it would be inequitable to change his basis. Thus, the allocation will not be allowed if it would give the taxpayer an unadjusted basis with respect to any property which is less than the amount of the adjustments in reduction of the basis of such property which are allowable after its recovery. For example, when property A is recovered it has an unadjusted basis of $100. After $70 depreciation has been allowed on A, an allocation is sought which would give A an unadjusted basis of $60. Since this is less than the depreciation which is an adjustment against such basis, the allocation will not be permitted.

(4) The amount of any adjustments to the unadjusted basis determined under subparagraph (1) of this paragraph shall, upon the allocation of the bases, be taken as an adjustment to the allocated unadjusted basis. Thus, if $30 depreciation was allowed upon a $100 basis determined under subparagraph (1) of this paragraph and if the unadjusted basis upon allocation is $75, such $30 depreciation is allowed against such allocated unadjusted basis, so that the adjusted basis of the property is then $45.

(5) The taxpayer may choose any group of recovered properties for allocation, except that if any such recovered properties form one economic unit, such properties may not be separated but all or none must be included in the group. For example, a building may not be separated from the land on which it stands if both are recovered property, nor may one block of stock in a corporation be separated from other stock in such corporation or from bonds in such corporation which are also treated as a recovery. If the

taxpayer has once been permitted to allocate the bases of any group of properties, he may obtain another allocation with respect to such properties only if all the properties in the original group are included together with other recovered properties not included in the original group. For example, if the bases of properties A and B are allocated, a second allocation will be made for properties A, B, and C, but not for A and C or B and C.

(b) *Property recovered in taxable year to which section 1333 is applicable.* If, pursuant to an election made by the taxpayer under section 1335 and paragraph (a) of § 1.1335–1, the provisions of section 1333 are applicable to any taxable year in which the taxpayer recovered property in respect of a war loss under section 127(a) of the Internal Revenue Code of 1939, the unadjusted basis of such property shall be the fair market value of such property determined as of the date of the recovery, reduced by the amount of nonrecognized gain attributable to such recovery under the provisions of paragraph (b) of § 1.1333–1. However, if the property recovered is the same war loss property, and if the taxpayer under section 1333(1) includes such property in the amount of the recovery at its adjusted basis (for determining loss) in his hands on the date such property was considered under section 127(a) of the Internal Revenue Code of 1939 as destroyed or seized, the unadjusted basis of such property shall be such adjusted basis, reduced by the amount of nonrecognized gain attributable to such recovery under the provisions of paragraph (b) of § 1.1333–1. The fair market value of any property recovered, or the adjusted basis for determining loss) of such property if the same property treated as war loss property is recovered, shall not be reduced in determining the unadjusted basis of such property by the amount of the obligations or liabilities with respect to such property in respect of which the recovery was received, if the taxpayer for any previous taxable year chose under section 127(b)(2) of the Internal Revenue Code of 1939 to treat such obligations or liabilities as discharged or satisfied out of such property but such obligations or liabilities were not so discharged or satisfied prior to the date of the recovery.

[T.D. 6500, 25 FR 12048, Nov. 26, 1960]

§ 1.1337–1 Determination of tax benefits from allowable deductions.

(a) That part of the aggregate of the deductions allowed a taxpayer for any taxable year on account of war losses under section 127(a) of the Internal Revenue Code of 1939 which, if disallowed, would not result in an increase in the normal tax, surtax (including the tax imposed by section 102 of the Internal Revenue Code of 1939), or victory tax of taxpayer, or of any tax imposed in lieu of such taxes or of any tax imposed by chapter 2 of the Internal Revenue Code of 1939, for the taxable year in which such deductions are allowed or in any other taxable year, such as a taxable year in which the taxpayer's income tax is computed by reference to a carryover or carryback of net operating losses from the taxable year in which such deductions are allowed, is considered, for the purposes of section 127(a) of the Internal Revenue Code of 1939 an allowable deduction for the taxable year which did not result in a reduction of any tax of the taxpayer under chapter 1 or 2 of the Internal Revenue Code of 1939. In the case of recoveries of war losses and other items to which the recovery exclusion provisions of section 111 apply, such as bad debts, the determination of the tax benefit should be made in accordance with section 111(b) and the regulations thereunder. The deductions allowed a taxpayer for any taxable year on account of war losses are all the deductions on account of war losses which were claimed by the taxpayer in a return, in a claim for credit or refund of an overpayment, or in a petition to The Tax Court of the United States with respect to such taxable year and which were not disallowed, and all deductions on account of war losses which, although not so claimed by the taxpayer, were nevertheless allowed (for example, by the Commissioner, a court, or The Tax Court) in computing a tax of the taxpayer.

(b) Any deduction allowable for a taxable year on account of a war loss under section 127(a) of the Internal Revenue Code of 1939 which was not claimed by the taxpayer for such year in a return, a claim for credit or refund of an overpayment, or a petition to the Tax Court of the United States and was not allowed as a deduction (for example, by the Commissioner, a court, or the Tax Court) in computing his tax for such year or for any other year is considered a deduction which did not result in a reduction of any tax of the taxpayer under chapter 1 or 2 of the Internal Revenue Code of 1939, since it is an allowable deduction which was not allowed in computing any tax of the taxpayer. If the taxpayer claimed for any taxable year a deduction on account of a war loss, and if such deduction was disallowed, the taxpayer may not subsequently contend for the purposes of section 1331 that such deduction was an allowable deduction for such taxable year.

(c) If the taxpayer elected under section 127(b) of the Internal Revenue Code of 1939 to decrease the amount of a war loss by treating the obligations and liabilities described in that section as discharged or satisfied out of the property destroyed or seized, and if the taxpayer establishes that any of the obligations and liabilities were not so discharged or satisfied, then the amount by which such continuing obligations and liabilities decreased the war loss shall be considered an allowable deduction for the taxable year in which the war loss was sustained which did not result in a reduction of any tax of the taxpayer under chapter 1 or 2 of the Internal Revenue Code of 1939.

[T.D. 6500, 25 FR 12048, Nov. 26, 1960]

CLAIM OF RIGHT

§1.1341–1 Restoration of amounts received or accrued under claim of right.

(a) *In general.* (1) If, during the taxable year, the taxpayer is entitled under other provisions of chapter 1 of the Internal Revenue Code of 1954 to a deduction of more than $3,000 because of the restoration to another of an item which was included in the taxpayer's gross income for a prior taxable year (or years) under a claim of right, the tax imposed by chapter 1 of the Internal Revenue Code of 1954 for the taxable year shall be the tax provided in paragraph (b) of this section.

(2) For the purpose of this section *income included under a claim of right* means an item included in gross income because it appeared from all the facts available in the year of inclusion that the taxpayer had an unrestricted right to such item, and *restoration to another* means a restoration resulting because it was established after the close of such prior taxable year (or years) that the taxpayer did not have an unrestricted right to such item (or portion thereof).

(3) For purposes of determining whether the amount of a deduction described in section 1341(a)(2) exceeds $3,000 for the taxable year, there shall be taken into account the aggregate of all such deductions with respect to each item of income (described in section 1341(a)(1)) of the same class.

(b) *Determination of tax.* (1) Under the circumstances described in paragraph (a) of this section, the tax imposed by chapter 1 of the Internal Revenue Code of 1954 for the taxable year shall be the lesser of:

(i) The tax for the taxable year computed under section 1341(a)(4), that is, with the deduction taken into account, or

(ii) The tax for the taxable year computed under section 1341(a)(5), that is, without taking such deduction into account, minus the decrease in tax (net of any increase in tax imposed by section 56, relating to the minimum tax for tax preferences) (under chapter 1 of the Internal Revenue Code of 1954, under chapter 1 (other than subchapter E) and subchapter E of chapter 2 of the Internal Revenue Code of 1939, or under the corresponding provisions of prior revenue laws) for the prior taxable year (or years) which would result solely from the exclusion from gross income of all or that portion of the income included under a claim of right to which the deduction is attributable. For the purpose of this subdivision, the amount of the decrease in tax is not limited to the amount of the tax for the taxable year. See paragraph (i) of this section where the decrease in tax for the prior taxable year (or years) exceeds the tax for the taxable year.

(iii) For purposes of computing, under section 1341(a)(4) and subdivision (i) of this subparagraph, the tax for a taxable year beginning after December 31, 1961, if the deduction of the amount of the restoration results in a net operating loss for the taxable year of restoration, such net operating loss shall, pursuant to section 1341(b)(4)(A), be carried back to the same extent and in the same manner as is provided under section 172 (relating to the net operating loss deduction) and the regulations thereunder. If the aggregate decrease in tax for the taxable year (or years) to which such net operating loss is carried back is greater than the excess of:

(*a*) The amount of decrease in tax for a prior taxable year (or years) computed under section 1341(a)(5)(B), over

(*b*) The tax for the taxable year computed under section 1341(a)(5)(A),

The tax imposed for the taxable year under chapter 1 shall be the tax determined under section 1341(a)(4) and subdivision (i) of this subparagraph. If the tax imposed for the taxable year is determined under section 1341(a)(4) and subdivision (i) of this subparagraph, the decrease in tax for the taxable year (or years) to which the net operating loss is carried back shall be an overpayment of tax for the taxable year (or years) to which the net operating loss is carried back and shall be refunded or credited as an overpayment for such taxable year (or years). See section 6511(d)(2), relating to special period of limitation with respect to net operating loss carrybacks.

(2) Except as otherwise provided in section 1341(b)(4)(B) and paragraph (d)(1)(ii) and (4)(ii) of this section, if the taxpayer computes his tax for the taxable year under the provisions of section 1341(a)(5) and subparagraph (1)(ii) of this paragraph, the amount of the restoration shall not be taken into account in computing taxable income or loss for the taxable year, including the computation of any net operating loss carryback or carryover or any capital loss carryover. However, the amount of such restoration shall be taken into account in adjusting earnings and profits for the current taxable year.

(3) If the tax determined under subparagraph (1)(i) of this paragraph is the same as the tax determined under subparagraph (1)(ii) of this paragraph, the tax imposed for the taxable year under chapter 1 shall be the tax determined under subparagraph (1)(i) of this paragraph, and section 1341 and this section shall not otherwise apply.

(4) After it has been determined whether the tax imposed for a taxable year of restoration beginning after December 31, 1961, shall be computed under the provisions of section 1341(a)(4) or under the provisions of section 1341(a)(5), the net operating loss, if any, which remains after the application of section 1341(b)(4)(A) or the net operating loss or capital loss, if any, which remains after the application of section 1341(b)(4)(B) shall be taken into account in accordance with the following rules:

(i) If it is determined that section 1341(a)(4) and subparagraph (1)(i) of this paragraph apply, then that portion, if any, of the net operating loss for the taxable year which remains after the application of section 1341(b)(4)(A) and subparagraph (1)(iii) of this paragraph shall be taken into account under section 172 for taxable years subsequent to the taxable year of restoration to the same extent and in the same manner as a net operating loss sustained in such taxable year of restoration. Thus, if the net operating loss for the taxable year of restoration (computed with the deduction referred to in section 1341(a)(4)) exceeds the taxable income (computed with the modifications prescribed in section 172) for the taxable year (or years) to which it is carried back, such excess shall be available as a carryover to taxable years subsequent to the taxable year of restoration.

(ii) If it is determined that section 1341(a)(5) and subparagraph (1)(ii) of this paragraph apply, then that portion, if any, of a net operating loss or capital loss which remains after the application of section 1341(b)(4)(B) and paragraph (d)(4) of this section shall be taken into account under section 172 or 1212, as the case may be, for taxable years subsequent to the taxable year of restoration to the same extent and in the same manner as a net operating loss or capital loss sustained in the prior taxable year (or years). For example, if the net operating loss for the prior taxable year (computed with the exclusion referred to in section 1341(a)(5)(B)) exceeds the taxable income (computed with the modifications prescribed in section 172) for prior taxable years to which such net operating loss is carried back or carried over (including for this purpose the taxable year of restoration), such excess shall be available as a carryover to taxable years subsequent to the taxable year of restoration in accordance with the rules prescribed in section 172 which are applicable to such prior taxable year (or years).

(c) *Application to deductions which are capital in nature.* Section 1341 and this section shall also apply to a deduction which is capital in nature otherwise allowable in the taxable year. If the deduction otherwise allowable is capital in nature, the determination of whether the taxpayer is entitled to the benefits of section 1341 and this section shall be made without regard to the net capital loss limitation imposed by section 1211. For example, if a taxpayer restores $4,000 in the taxable year and such amount is a long-term capital loss, the taxpayer will, nevertheless, be considered to have met the $3,000 deduction requirement for purposes of applying this section, although the full amount of the loss might not be allowable as a deduction for the taxable year. However, if the tax for the taxable year is computed with the deduction taken into account, the deduction allowable will be subject to the limitation on capital losses provided in section 1211, and the capital loss carryover provided in section 1212.

(d) *Determination of decrease in tax for prior taxable years*—(1) *Prior taxable years.* (i) Except as otherwise provided in subdivision (ii) of this subparagraph, the prior taxable year (or years) referred to in paragraph (b) of this section is the year (or years) in which the item to which the deduction is attributable was included in gross income under a claim of right and, in addition, any other prior taxable year (or years) the tax for which will be affected by the exclusion from gross income in such prior taxable year (or years) of such income.

(ii) For purposes of applying section 1341(b)(4)(B) in computing the amount of the decrease referred to in paragraph (b)(1)(ii) of this section for any taxable year beginning after December 31, 1961, the term *prior taxable year (or years)* includes the taxable year of restoration. Under section 1341(b)(4)(B), for taxable years of restoration beginning after December 31, 1961, in any case where the exclusion referred to in section 1341(a)(5)(B) and paragraph (b)(1)(ii) of this section results in a net operating loss or capital loss for the prior taxable year (or years), such loss shall, for purposes of computing the decrease in tax for the prior taxable year (or years) under such section 1341(a)(5)(B) and such paragraph (b)(1)(ii) of this section, be carried back and carried over to the same extent and in the same manner as is provided under section 172 (relating to the net operating loss deduction) or section 1212 (relating to capital loss carryover), except that no carryover beyond the taxable year shall be taken into account. See subparagraph (4) of this paragraph for rules relating to the computation of the amount of decrease in tax.

(2) *Amount of exclusion from gross income in prior taxable years.* (i) The amount to be excluded from gross income for the prior taxable year (or years) in determining the decrease in tax under section 1341(a)(5)(B) and paragraph (b)(1)(ii) of this section shall be the amount restored in the taxable year, but shall not exceed the amount included in gross income in the prior taxable year (or years) under the claim of right to which the deduction for the restoration is attributable, and shall be adjusted as provided in subdivision (ii) of this subparagraph.

(ii) If the amount included in gross income for the prior taxable year (or years) under the claim of right in question was reduced in such year (or years) by a deduction allowed under section 1202 (or section 117 (b) of the Internal Revenue Code of 1939 or corresponding provisions of prior revenue laws), then the amount determined under subdivision (i) of this subparagraph to be excluded from gross income for such year (or years) shall be reduced in the same proportion that the amount included in gross income under a claim of right was reduced.

(iii) The determination of the amount of the exclusion from gross income of the prior taxable year shall be made without regard to the capital loss limitation contained in section 1211 applicable in computing taxable income for the current taxable year. The amount of the exclusion from gross income in a prior taxable year (or years) shall not exceed the amount which would, but for the application of section 1211, be allowable as a deduction in the taxable year of restoration.

(iv) The rule provided in subdivision (iii) of this subparagraph may be illustrated as follows:

Example: For the taxable year 1952, an individual taxpayer had long-term capital gains of $50,000 and long-term capital losses of $10,000, a net long-term gain of $40,000. He also had other income of $5,000. In 1956, taxpayer restored the $50,000 of long-term gain. He had no capital gains or losses in 1956 but had other income of $5,000. If his tax liability for 1956, the taxable year of restoration, is computed by taking the deduction into account, the taxpayer would be entitled to a deduction under section 1211 of only $1,000 on account of the capital loss. However, if the taxpayer computes his tax under section 1341(a)(5) and paragraph (b)(1)(ii) of this section, it is necessary to determine the decrease in tax for 1952. In such a determination, $50,000 is to be excluded from gross income for that year, resulting in a net capital loss for that year of $10,000, and a capital loss deduction of $1,000 under section 117(d) of the Internal Revenue Code of 1939 (corresponding to section 1211 of the Internal Revenue Code of 1954) with carryover privileges. The difference between the tax previously determined and the tax as recomputed after such exclusion for the years affected will be the amount of the decrease.

(3) *Determination of amount of deduction attributable to prior taxable years.* (i) If the deduction otherwise allowable for the taxable year relates to income included in gross income under a claim of right in more than one prior taxable year and the amount attributable to each such prior taxable year cannot be readily identified, then the portion attributable to each such prior taxable year shall be that proportion of the deduction otherwise allowable for the taxable year which the amount of the income included under the claim of right in question for the prior taxable year bears to the total of all such income included under the claim of right for all such prior taxable years.

(ii) The rule provided in subdivision (i) of this subparagraph may be illustrated as follows:

Example: Under a claim of right, A included in his gross income over a period of three taxable years an aggregate of $9,000 for services to a certain employer, in amounts as follows: $2,000 for taxable year 1952, $4,000 for taxable year 1953, and $3,000 for taxable year 1954. In 1955 it is established that A must restore $6,750 of these amounts to his employer, and that A is entitled to a deduction of this amount in the taxable year 1955. The amount of the deduction attributable to each of the prior taxable years cannot be identified. Accordingly, the amount of the deduction attributable to each prior taxable year is:

1952—$6,750×$2,000÷$9,000=$1,500
1953—$6,750×$4,000÷$9,000=$3,000
1954—$6,750×$3,000÷$9,000=$2,250

(4) *Computation of amount of decrease in tax.* (i) In computing the amount of decrease in tax for a prior taxable year (or years) resulting from the exclusion from gross income of the income included under a claim of right, there must first be ascertained the amount of tax previously determined for the taxpayer for such prior taxable year (or years). The tax previously determined shall be the sum of the amounts shown by the taxpayer on his return or returns, plus any amounts which have been previously assessed (or collected without assessment) as deficiencies or which appropriately should be assessed or collected, reduced by the amount of any refunds or credits which have previously been made or which appropriately should be made. For taxable years beginning after December 31, 1961, if the provisions of section 1341(b)(4)(B) are applicable, the tax previously determined shall include the tax for the taxable year of restoration computed without taking the deduction for the amount of the restoration into account. After the tax previously determined has been ascertained, a recomputation must then be made to determine the decrease in tax, if any, resulting from the exclusion from gross income of all or that portion of the income included under a claim of right to which the deduction otherwise allowable in the taxable year is attributable.

(ii) No item other than the exclusion of the income previously included under a claim of right shall be considered in computing the amount of decrease in tax if reconsideration of such other item is prevented by the operation of any provision of the internal revenue laws or any other rule of law. However, if the amounts of other items in the return are dependent upon the amount of adjusted gross income, taxable income, or net income (such as charitable contributions, foreign tax credit, deductions for depletion, and net operating loss), appropriate adjustment shall be made as part of the computation of the decrease in tax. For the purpose of determining the decrease in tax for the prior taxable year (or years) which would result from the exclusion from gross income of the item included under a claim of right, the exclusion of such item shall be given effect not only in the prior taxable year in which it was included in gross income but in all other prior taxable years (including the taxable year of restoration if such year begins after December 31, 1961, and section 1341(b)(4)(B) applies, see subparagraph (1)(ii) of this paragraph) affected by the inclusion of the item (for example, prior taxable years affected by a net operating loss carryback or carryover or capital loss carryover).

(iii) The rules provided in this subparagraph may be illustrated as follows:

Example 1. For the taxable year 1954, a corporation had taxable income of $35,000, on which it paid a tax of $12,700. Included in gross income for the year was $20,000 received under a claim of right as royalties. In 1957, the corporation is required to return $10,000 of the royalties. It otherwise has taxable income in 1957 of $5,000, so that without the application of section 1341 it has a net operating loss of $5,000 in that year. Facts also come to light in 1957 which entitle the corporation to an additional deduction of $5,000 for 1954. When a computation is made under paragraph (b)(1)(i) of this section, the corporation has no tax for the taxable year 1957. When a computation is made under paragraph (b)(1)(ii) of this section, the tax for 1957, without taking the restoration into account, is $1,500, based on a taxable income of $5,000. The decrease in tax for 1954 is computed as follows:

Tax shown on return for 1954		$12,700
Taxable income for 1954 upon which tax shown on return was based		35,000
Less: Additional deduction (on account of which credit or refund could be made)		5,000
Total		30,000
Tax on $30,000 (adjusted taxable income for 1954)		10,100
Tax on $30,000 (adjusted taxable income for 1954)		10,100
Taxable income for 1954, as adjusted	$30,000	
Less exclusion of amount restored	10,000	
Taxable income for 1954 by applying paragraph (b)(1)(ii) of this section	20,000	
Tax on $20,000		6,000
Decrease in tax for 1954 by applying paragraph (b)(1)(ii) of this section		$4,100
Tax for 1957 without taking the restoration into account		1,500
Amount by which decrease exceeds the tax for 1957 computed without taking restoration into account		$2,600

(The $2,600 is treated as having been paid on the last day prescribed by law for the payment of the tax for 1957 and is available as a refund. In addition the taxpayer has made an overpayment of $2,600 ($12,700 less $10,000) for 1954 because of the additional deduction of $5,000.)

Example 2. Assume the same facts as in example (1) except that, instead of the corporation being entitled to an additional deduction of $5,000 for 1954, it is determined that the corporation failed to include an item of $5,000 in gross income for that year. The decrease in tax for 1954 is computed as follows:

Tax shown on return for 1954		$12,700
Taxable income for 1954 upon which tax shown on return was based		35,000
Plus: Additional income (on account of which deficiency assessment could be made)		$5,000
Total		40,000
Tax on $40,000 (adjusted taxable income for 1954)		15,300
Tax on $40,000 (adjusted taxable income for 1954)		15,300
Taxable income for 1954 as adjusted	$40,000	
Less exclusion of amount restored	10,000	
Taxable income for 1954 by applying paragraph (b)(1)(ii) of this section	30,000	
Tax on $30,000		10,100
Decrease in tax for 1954 by applying paragraph (b)(1)(ii) of this section		5,200
Tax for 1957 without taking the restoration into account		1,500
Amount by which decrease exceeds the tax for 1957 computed without taking the restoration into account		$3,700

(The $3,700 is treated as having been paid on the last day prescribed by law for the payment of the tax for 1957 and is available as a refund. In addition the taxpayer has a deficiency of $2,600 ($15,300 less $12,700) for 1954 because of the additional income of $5,000.)

Example 3. For the taxable year 1954, a corporation had taxable income of $25,000, on which it paid a tax of $7,500. Included in gross income for the year was $10,000 received under a claim of right as commissions. In 1956, the corporation is required to return $5,000 of the commissions. The corporation has a net operating loss of $10,000 for 1956, excluding the deduction for the $5,000 restored. When a computation is made under either paragraph (b)(1)(i) or paragraph (b)(1)(ii) of this section, the corporation has no tax for the taxable year 1956. The decrease in tax for 1954 is computed as follows:

Tax shown on return for 1954		$7,500
Taxable income for 1954 upon which tax shown on return was based		25,000
Less: Additional deduction (on account of net operating loss carryback from 1956)		10,000
Net income as adjusted		15,000
Tax on $15,000 (adjusted taxable income for 1954)		4,500
Tax on $15,000 (adjusted taxable income for 1954)		4,500
Taxable income for 1954, as adjusted	$15,000	
Less: exclusion of amount restored	$5,000	
Taxable income for 1954 by applying paragraph (b)(1)(ii) of this section	10,000	
Tax on $10,000		$3,000
Decrease in tax for 1954 by applying paragraph (b)(1)(ii) of this section		1,500
Tax for 1956 without taking the restoration into account		None
Amount by which decrease exceeds the tax for 1956 computed without taking the restoration into account		$1,500

(The $1,500 is treated as having been paid on the last day prescribed by law for the payment of the tax for 1956 and is available as a refund. In addition, the taxpayer has an overpayment of $3,000 ($7,500 less $4,500) for 1954 because of the net operating loss deduction of $10,000.)

Example 4. For the taxable year 1946 a married man with no dependents, who kept his books on the cash receipts and disbursements basis, filed a return (claiming two exemptions) disclosing adjusted gross income of $42,000, deductions amounting to $12,000, and a net income of $30,000. Gross income included among other items, salary in the amount of $15,000 and rental income in the amount of $5,000. During the taxable year he donated $10,000 to the American Red Cross and in his return claimed a deduction of $6,300 on account thereof, representing the maximum deduction allowable under the 15-percent limitation imposed by section 23(o) of the Internal Revenue Code of 1939 for the year 1946. In computing his net income he omitted interest income amounting to $6,000 and neglected to take a deduction for interest paid in the amount of $4,500. The return disclosed a tax liability of $11,970, which was assessed and paid. In 1955, after the expiration of the period of limitations upon the assessment of a deficiency or the allowance of a refund for 1946, the taxpayer had to restore the $5,000 included in his gross income in 1946 as rental income. The amount of the decrease in tax for 1946 is $2,467.62, computed as follows:

Tax previously determined for 1946	$11,970.00
Net income for 1946 upon which tax previously determined was based	30,000.00
Less: Rents included under claim of right	5,000.00
Balance	25,000.00
Adjustment for contributions (add 15 percent of $5,000)	750.00
Net income as adjusted	25,750.00
Tax on $25,750	9,502.38
Amount of decrease in tax for 1946:	
Tax previously determined	$11,970.00
Tax as recomputed	9,502.38
Decrease in tax	$2,467.62

The recomputation to determine the amount of the decrease in tax for 1946 does not take into consideration the barred item of $6,000 representing interest received, which was omitted from gross income, or the barred item of $4,500 representing interest paid for which no deduction was allowed. See subdivision (ii) of this subparagraph.

Example 5. (a) *Facts.* For the taxable year 1959, a corporation reporting income on the calendar year basis had taxable income of $20,000 on which it paid a tax of $6,000. Included in gross income for such year was $100,000 received under a claim of right as royalties. For each of its taxable years 1956, 1957, 1958, 1960, 1961, and 1962, the corporation had taxable income of $10,000 on which it paid tax of $3,000 for each year. In 1963, the corporation returns the entire amount of $100,000 of the royalties. In such taxable year the corporation has taxable income of $25,000 (without taking the deduction of $100,000 into account), and has a net operating loss of $75,000 (taking the deduction of $100,000 into account). In determining whether section 1341(a)(4) or section 1341(a)(5) applies, the corporation will compute the lesser amount of tax referred to in section 1341(a) by applying the rules provided in section 1341(b)(4).

(*b*) *Tax under section 1341 (a)(4) and (b)(4)(A).* The net operating loss of $75,000 for 1963 (taking into account the deduction of $100,000) is carried back to the three taxable years (1960, 1961, and 1962) in the manner provided under section 172. For purposes of this example it is assumed that no modifications under section 172 are necessary. Since the aggregate taxable income for such three taxable years is only $30,000 the entire taxable income for such years is eliminated by the carryback, and the corporation would be entitled to a refund of the tax for such years in the aggregate amount of $9,000. (In addition, the remaining $45,000 of the net operating loss for 1963 would be available as a carryover to taxable years after the taxable year (1963) to the extent and in the manner provided by section 172.)

(*c*) *Tax under section 1341 (a)(5) and (b)(4)(B).* The tax for the taxable year (1963) on $25,000 of taxable income (computed without the deduction of $100,000) is $7,500. The exclusion of $100,000 from gross income for the taxable year 1959 (the year in which the item was included) results in a net operating loss of $80,000 for such year ($20,000 taxable income minus the $100,000 exclusion, no adjustments under section 172 being necessary), thus decreasing the tax for such year by the entire amount of $6,000 paid. The resulting net operating loss of $80,000 for 1959 is available as a carryback to 1956, 1957, and 1958, and as a carryover to 1960, 1961, 1962, and 1963. For purposes of this example it is assumed that no modifications under section 172 are necessary. Since the aggregate taxable income for such taxable years is $85,000, all except $5,000 of the 1963 taxable income is eliminated by such carryback and carryover. The tax on such remaining $5,000 of taxable income for 1963 is $1,500, thus decreasing the tax determined for such year by $6,000 ($7,500 minus $1,500). Under section 1341 (a)(5) and (b)(4)(B), the decrease in tax for the prior taxable years exceeds the tax for the taxable year of restoration computed without the deduction of the amount of the restoration by $22,500, computed as follows:

Tax for taxable year 1963 (on taxable income of $25,000 without the deduction)			$7,500
Decrease in tax for prior taxable years:			
Due to exclusion (1959)		$6,000	
Due to net operating loss carryback:			
1956	$3,000		
1957	3,000		
1958	3,000		
		9,000	
Due to net operating loss carryover:			
1960	$3,000		
1961	3,000		
1962	3,000		
1963	6,000		
		15,000	
			30,000
Excess of the decrease in tax for the prior taxable years over the tax for taxable year 1963 ($30,000 less $7,500 tax for the taxable year)			22,500

(*d*) *Application of section 1341(a)(4) or section 1341(a)(5).* Since the computation under section 1341 (a)(4) and (b)(4)(A) results in an available refund of only $9,000 tax for the taxable years to which the net operating loss for 1963 is carried back, and since the computation under section 1341 (a)(5) and (b)(4)(B) results in an overpayment of $22,500, it is determined that section 1341(a)(5) applies. Accordingly, the $22,500 is treated as having been paid on the last day prescribed by law for the payment of tax for 1963 and is available as a refund.

(e) *Method of accounting.* The provisions of section 1341 and this section shall be applicable in the case of a taxpayer on the cash receipts and disbursements method of accounting only to the taxable year in which the item of income included in a prior year (or years) under a claim of right is actually repaid. However, in the case of a taxpayer on the cash receipts and disbursements method of accounting who constructively received an item of income under a claim of right and included such item of income in gross income in a prior year (or years), the provisions of section 1341 and this section shall be applicable to the taxable year in which the taxpayer is required to relinquish his right to receive such item of income. Such provisions shall be applicable in the case of other taxpayers only to the taxable year which is the proper taxable year (under the method of accounting used by the taxpayer in computing taxable income) for taking into account the deduction resulting from the restoration of the item of income included in a prior year (or years) under a claim of right. For example, if the taxpayer is on an accrual method of accounting, the provisions of this section shall apply to the year in which the obligation properly accrues for the repayment of the item included under a claim of right.

(f) *Inventory items, stock in trade, and property held primarily for sale in the ordinary course of trade or business.* (1) Except for amounts specified in subparagraphs (2) and (3) of this paragraph, the provisions of section 1341 and this section do not apply to deductions attributable to items which were included in gross income by reason of the sale or other disposition of stock in trade of the taxpayer (or other property of a kind which would properly have been included in the inventory of the taxpayer if on hand at the close of the prior taxable year) or property held by the taxpayer primarily for sale to customers in the ordinary course of the taxpayer's trade or business. This section is, therefore, not applicable to sales returns and allowances and similar items.

(2)(i) In the case of taxable years beginning after December 31, 1957, the provisions of section 1341 and this section apply to deductions which arise out of refunds or repayments with respect to rates made by a regulated public utility, as defined in section 7701(a)(33) without regard to the limitation contained in the last two sentences thereof (for taxable years beginning before January 1, 1964, as defined in section 1503(c) (1) or (3) and paragraph (g) of § 1.1502–2A (as contained in the 26 CFR edition revised as of April 1, 1996)), if such refunds or repayments are required to be made by the Government, political subdivision, agency, or instrumentality referred to in such section, or are required to be made by an order of a court, or are made in settlement of litigation or under threat or imminence of litigation. Thus, deductions attributable to refunds of charges for the sale of natural gas under rates approved temporarily by a proper governmental authority are, in the case of taxable years beginning after December 31, 1957, eligible for the benefits of section 1341 and this section, if such refunds are required by the governmental authority, or by an order of a court, or are made in settlement of litigation or under threat or imminence of litigation.

(ii) In the case of taxable years beginning before January 1, 1958, the provisions of section 1341 and this section apply to deductions which arise out of refunds or repayments (whether or not with respect to rates) made by a regulated public utility, as defined in section 7701(a)(33) without regard to the limitation contained in the last two sentences thereof (for taxable years beginning before January 1, 1964, as defined in section 1503(c) (1) or (3) and paragraph (g) of § 1.1502–2A), if such refunds or repayments are required to be made by the Government, political subdivision, agency, or instrumentality referred to in such section. Thus, in the case of taxable years beginning before January 1, 1958, deductions attributable to refunds or repayments may be eligible for the benefits of section 1341 and this section, even though such refunds or repayments are not with respect to rates. On the other hand, in the case of such taxable years, section 1341 and this section do not apply to any deduction which arises out of a refund or repayment (whether or not with respect to rates) which is required to be made by an order of a court, or which is made in settlement of litigation or under threat or imminence of litigation.

(3) The provisions of section 1341 and this section apply to a deduction which arises out of a payment or repayment made pursuant to a price redetermination provision in a subcontract:

(i) If such subcontract was entered into before January 1, 1958, between persons other than those bearing a relationship set forth in section 267(b);

(ii) If such subcontract is subject to statutory renegotiation; and

(iii) If section 1481 (relating to mitigation of effect of renegotiation of Government contracts) does not apply to such payment or repayment solely because such payment or repayment is not paid or repaid to the United States or any agency thereof.

Thus, a taxpayer who enters into a subcontract to furnish items to a prime contractor with the United States may, pursuant to a price redetermination provision in the subcontract, be required to refund an amount to the prime contractor or to another subcontractor. Since the refund would be made directly to the prime contractor or to another subcontractor, and not directly to the United States, the taxpayer would be unable to avail himself of the benefits of section 1481. However, the provisions of section 1341 and this section will apply in such a case, if the conditions set forth in subdivisions (i), (ii), and (iii) of this subparagraph are met. For provisions relating to the mitigation of the effect of a redetermination of price with respect to subcontracts entered into after December 31, 1957, when repayment is made to a party other than the United States or any agency thereof, see section 1482.

(g) *Bad debts.* The provisions of sections 1341 and this section do not apply to deductions attributable to bad debts.

(h) *Legal fees and other expenses.* Section 1341 and this section do not apply to legal fees or other expenses incurred by a taxpayer in contesting the restoration of an item previously included in income. This rule may be illustrated by the following example:

Example: A sold his personal residence to B in a prior taxable year and realized a capital gain on the sale. C claimed that under an agreement with A he was entitled to a 5-percent share of the purchase price since he brought the parties together and was instrumental in closing the sale. A rejected C's demand and included the entire amount of the capital gain in gross income for the year of sale. C instituted action and in the taxable year judgment is rendered against A who pays C the amount involved. In addition, A pays legal fees in the taxable year which were incurred in the defense of the action. Section 1341 applies to the payment of the 5-percent share of the purchase price to C. However, the payment of the legal fees, whether or not otherwise deductible, does not constitute an item restored for purposes of section 1341(a) and paragraph (a) of this section.

(i) *Refunds.* If the decrease in tax for the prior taxable year (or years) determined under section 1341(a)(5)(B) and paragraph (b)(1)(ii) of this section exceeds the tax imposed by chapter 1 of the Code for the taxable year computed without the deduction, and for taxable years beginning after December 31, 1961, if such excess is greater than the decrease in tax for the taxable year (or years) to which the net operating loss described in section 1341(b)(4)(A) and paragraph (b)(1)(iii) of this section is carried back, such excess shall be considered to be a payment of tax for the taxable year of restoration. Such payment is deemed to have been made on the last day prescribed by law for the payment of tax for the taxable year and shall be refunded or credited in the same manner as if it were an overpayment of tax for such taxable year. However, no interest shall be allowed or paid if such an excess results from the application of section 1341(a)(5)(B) in the case of a deduction described in paragraph (f)(3) of this section (relating to payments or repayments pursuant to price redetermination). If the tax for the taxable year of restoration is computed under section 1341(a)(4) and results in a decrease in tax for the taxable year (or years) to which a net operating loss described in section 1341(b)(4)(A) is carried back, see paragraph (b)(1)(iii) of this section.

[T.D. 6500, 25 FR 12049, Nov. 26, 1960, as amended by T.D. 6617, 27 FR 10824, Nov. 7, 1962; T.D. 6747, 29 FR 9790, July 21, 1964; T.D. 7244, 37 FR 28897, Dec. 30, 1972; T.D. 7564, 43 FR 40496, Sept. 12, 1978; T.D. 8677, 61 FR 33323, June 27, 1996]

§ 1.1342–1 Computation of tax where taxpayer recovers substantial amount held by another under claim of right; effective date.

Section 1342 shall apply with respect to taxable years beginning after December 31, 1954.

[T.D. 6500, 25 FR 12052, Nov. 26, 1960]

OTHER LIMITATIONS

§ 1.1346–1 Recovery of unconstitutional taxes.

(a) *In general.* (1) A taxpayer who recovers unconstitutional Federal taxes which were paid or accrued and for which a deduction was allowed in a prior taxable year may elect, as provided in paragraph (b) of this section, to exclude the income (exclusive of interest) attributable to such recovery from his gross income in the taxable year of recovery. Any such exclusion of income is subject to the requirements of section 1346 and this section.

(2) If a taxpayer elects to receive the benefits of section 1346, the income (exclusive of interest) attributable to the recovery of the unconstitutional Federal tax will be treated as an offset to the deduction allowed therefor in a prior taxable year (or years). The taxpayer's return for the prior taxable year (or years) with respect to which the statutory period for the assessment of a deficiency has expired will be opened only for the purpose of reducing the deduction allowed for the unconstitutional Federal tax and assessing the resulting deficiency or deficiencies, if any. (An election under section 1346 may be made only if the taxpayer consents in writing to such assessment. See paragraph (b) of this section.) No other adjustment will be allowed.

(3) If the disallowance of the deduction allowed in respect of a prior taxable year results in a deficiency for that year, the deficiency will be assessed against the taxpayer within the period agreed upon between the taxpayer and the district director with respect to the taxable year of the prior deduction, even though the statutory period for the assessment may have expired prior to the filing of the consent.

(4) If a taxpayer does not elect under the provisions of section 1346 and this section to exclude the tax recovered from gross income in the taxable year of recovery, the tax recovered shall, from the standpoint of its inclusion in or exclusion from gross income, be governed by the provisions of section 111.

(b) *Manner of making election.* (1) The election provided for in paragraph (a) of this section shall be made by the taxpayer filing a statement in writing that he elects to treat the deduction allowed in a prior taxable year for the unconstitutional tax as not having been allowable for such taxable year. Such a statement must be filed with the taxpayer's return for the taxable year in which the recovery of the unconstitutional tax or taxes occurs. No other method of making the election is permitted. The statement of election must contain a description of the tax recovered, the date of recovery, the taxable year in which paid or accrued, and the taxable year for which the deduction was allowed. The statement of election must also contain a statement signifying the taxpayer's consent (i) to treat the deduction or portion thereof allowed in a prior year with respect to the unconstitutional tax as not allowable for that year and (ii) to the assessment, in respect of the taxable year for which the deduction was allowed, of any deficiency, together with interest thereon as provided by law, resulting from disallowance of the deduction or portion thereof, even though the statutory period for the assessment of any such deficiency may have expired before the filing of such consent.

(2) The term *recovery,* as used in this section, includes not only refund or credit of taxes previously paid, but also the cancellation of a purported tax liability which was accrued and deducted for a prior taxable year but never actually paid.

[T.D. 6500, 25 FR 12052, Nov. 26, 1960]

§ 1.1347–1 Tax on certain amounts received from the United States.

(a) In the case of an amount (other than interest) received from the United States by an individual under a claim involving acquisition of property and remaining unpaid for more than 15 years, the tax (or, in the case of taxable years beginning before January 1, 1971, the surtax) imposed by section 1 attributable to such amount shall not exceed 33 percent of the amount (other than interest) so received (30 percent for taxable years beginning before January 1, 1971). For the purpose of section 1347 and this section, such amount shall not include any amount received from the United States which constitutes interest, whether such interest was included in the claim or in any judgment thereon or has accrued on such judgment. Section 1347 and this section shall only apply with respect to amounts received under a claim filed with the United States before January 1, 1958.

(b) To determine the application of section 1347 and this section to a particular amount, the taxpayer shall first compute the tax (or, in the case of taxable years beginning before January 1, 1971, the surtax) imposed by section 1 upon his entire taxable income, including the amount specified in paragraph (a) of this section, without regard to the limitation on tax provided in section 1347. The proportion of the tax (or surtax), so computed, indicated by the ratio which the taxpayer's taxable income attributable to the amount specified in paragraph (a) of this section, computed as prescribed in paragraph (c) of this section, bears to his total taxable income, is the portion of the tax (or surtax) attributable to such amount. If this portion of the tax (or surtax) exceeds 33 percent (30 percent for taxable years beginning before January 1, 1971) of the amount specified in paragraph (a) of this section, that portion of the tax (or surtax) shall be reduced to 33 percent (or 30 percent) of such amount.

(c) In determining the portion of the taxable income attributable to any amount specified in paragraph (a) of this section, the taxpayer shall allocate to such amount received and to the gross income derived from all other sources, the expenses, losses, and other deductions properly attributable thereto, and shall apply any general expenses, losses, and other deductions (which cannot be properly apportioned otherwise) ratably to the gross income from all sources. The amount specified in paragraph (a) of this section, less the deductions properly attributable thereto and less its proportion of any general deductions, shall be the taxable income attributable to such amount. The taxpayer shall submit with his return a statement fully explaining the manner in which such expenses, losses, and deductions are allocated or apportioned.

[T.D. 6500, 25 FR 12052, Nov. 26, 1960, as amended by T.D. 7117, 36 FR 9422, May 25, 1971; 36 FR 11434, June 12, 1971]

§1.1348–1 Fifty-percent maximum tax on earned income.

Section 1348 provides generally that for taxable years beginning after December 31, 1971, the maximum tax rate applicable to the earned taxable income of an individual, estate, or trust is not to exceed 50 percent. In the case of an estate or trust, earned income includes only amounts which constitute income in respect of a decedent within §1.1348–3(a)(4). For taxable years beginning after December 31, 1970, and before January 1, 1972, the maximum rate is 60 percent. Section 1348 does not apply if the taxpayer chooses the benefits of income averaging under sections 1301 through 1305. Section 1348 does not apply to a married individual who does not file a joint return with his spouse for the taxable year. For purposes of section 1348, an individual's marital status shall be determined under section 153 and the regulations thereunder.

[T.D. 7446, 41 FR 55337, Dec. 20, 1976]

§1.1348–2 Computation of the fifty-percent maximum tax on earned income.

(a) *Computation of tax for taxable years beginning after 1971.* If, for a taxable year beginning after December 31, 1971, an individual has earned taxable income (as defined in paragraph (d) of this section) which exceeds the applicable amount in column (1) of table A, the tax imposed by section 1 for such year shall be the sum of:

(1) The applicable amount in column (2) of table A.

(2) 50 percent of the amount by which earned taxable income exceeds the applicable amount in column (1) of table A, and

(3) The amount by which the tax imposed by chapter 1 on the entire taxable income exceeds a tax so computed on earned taxable income, such computations to be made without regard to section 1348 or 1301.

TABLE A

Status	(1)	(2)
Married individuals filing joint returns and surviving spouses	$52,000	$18,060
Heads of households	38,000	12,240
Unmarried individuals other than surviving spouses and heads of households	38,000	13,290
Trusts and estates	26,000	9,030

(b) *Computation of tax for taxable years beginning in 1971.* If, for a taxable year beginning after December 31, 1970, and before January 1, 1972, an individual has earned taxable income (as defined in paragraph (d) of this section) which exceeds the applicable amount in column (1) of table B, the tax imposed by section 1 for such year shall be the sum of:

(1) The applicable amount in column (2) of table B,

(2) 60 percent of the amount by which earned taxable income exceeds the applicable amount in column (1) of table B, and

(3) The amount by which the tax imposed by chapter 1 on the entire taxable income exceeds a tax so computed on earned taxable income, such computations to be made without regard to section 1348 or 1301.

TABLE B

Status	(1)	(2)
Married individuals filing joint returns and surviving spouses	$100,000	$45,180
Heads of households	70,000	30,260
Unmarried individuals other than surviving spouses and heads of households	50,000	20,190

TABLE B—Continued

Status	(1)	(2)
Trusts and estates	50,000	22,590

(c) *Short taxable periods.* If a taxpayer is required under section 443(a)(1) to make a return for a period of less than 12 months, the tax under section 1348 and this section shall be determined by placing his taxable income, earned net income, adjusted gross income, and items of tax preference on an annual basis in accordance with section 443 and the regulations thereunder. If a taxable year referred to in paragraph (d)(3)(i)(*a*) of this section is a period of less than 12 months for which a return is required under section 443(a)(1), the average described in such paragraph shall also be determined by placing the items of tax preference for such period on an annual basis in accordance with section 443 and the regulations thereunder. If a return for a period of less than 12 months is required under section 443(a)(3) for any taxable year referred to in paragraph (d)(3)(i)(*a*) of this section, section 1348 and this section shall not apply unless such period is reopened by the taxpayer as provided by section 6851(b).

(d) *Earned taxable income*—(1) *In general.* For purposes of section 1348 and this section, the term *earned taxable income* means the excess of (i) the portion of taxable income which, under subparagraph (2) of this paragraph, is attributable to earned net income over (ii) the tax preference offset (as defined in subparagraph (3) of this paragraph). For purposes of computing the alternative tax under section 1201, earned taxable income shall not exceed the excess of taxable income over 50 percent of the net capital gain (net section 1201 gain for taxable years beginning before January 1, 1977).

(2) *Taxable income attributable to earned net income.* The portion of taxable income which is attributable to earned net income shall be determined by multiplying taxable income by a fraction (not exceeding one), the numerator of which is earned net income, and the denominator of which is adjusted gross income. For purposes of this subparagraph the term *earned net income* means the excess of the total of earned income (as defined in § 1.1343–(a)) over the total of any deductions which are required to be taken into account under section 62 in determining adjusted gross income and are properly allocable to or chargeable against earned income. Deductions are properly allocable to or chargeable against earned income if, and to the extent that, they are allowable in respect of expenses paid or incurred in connection with the production of earned income and have not been taken into account in determining the net profits of a trade or business in which both personal services and capital are material income producing factors (as defined in § 1.1348–3(a)(3)). Except as otherwise provided, deductions properly allocable to or chargeable against earned income include:

(i) Deductions attributable to a trade or business from which earned income is derived, except that if less than all the gross income from a trade or business constitutes earned income, only a ratable portion of the deductions attributable to such trade or business is allowable in respect of expenses paid or incurred in connection with the production of earned income,

(ii) Deductions consisting of expenses paid or incurred in connection with the performance of services as an employee,

(iii) The deductions described in section 62(7) and allowable by sections 404 and 405(c),

(iv) The deduction allowable by section 217,

(v) The deduction allowable by section 1379(b)(3), and

(vi) A net operating loss deduction to the extent that the net operating losses carried to the taxable year are properly allocable to or chargeable against earned income.

A net operating loss carried to the taxable year is properly allocable to or chargeable against earned income in such year to the extent of the excess (if any) of the deductions for the loss year which are properly allocable to or chargeable against earned income and which are allowable under section 172(d) in determining a net operating loss, over the earned income for the loss year. If the excess described in the preceding sentence is less than the entire net operating loss, such excess and the balance of such loss shall be deemed to reduce taxable income ratably for any taxable year to which such loss may be carried. See examples (3) and (4) in subparagraph (4) of this paragraph.

(3) *Tax preference offset.* (i) For purposes of subparagraph (1) of this paragraph, the *tax preference offset* is the amount by which the greater of:

(A) The average of the taxpayer's items of tax preference for the taxable year and the four preceding taxable years, or

(B) The taxpayer's items of tax preference for the taxable year,

exceeds $30,000.

(ii) The items of tax preference to be taken into account under subdivision (i) of this subparagraph for any taxable year shall be those items of tax preference referred to in section 57(a) and the regulations thereunder for the taxable year, but excluding any amount not taken into account in computing the tax under section 56(a) and the regulations thereunder for such taxable year. The items of tax preference to be taken into account by an individual for any taxable year in which such individual is or was a nonresident alien shall not include items of tax preference which are not effectively connected with the conduct of a trade or business within the United States.

(iii) Taxable years ending before January 1, 1970 shall not be included in computing the average described in subdivision (i)(A) of this subparagraph. Thus, for example, the tax preference offset for a taxable year ending on December 31, 1973, is the amount by which the average of the taxpayer's items of tax preference for 1970, 1971, 1972, and 1973, or the taxpayer's items of tax preference for 1973, whichever is greater, exceeds $30,000. Taxable years during which the taxpayer was not in existence shall not be included in computing the average described in subdivision (i)(A) of this subparagraph. A fractional part of a year which is treated as a taxable year under sections 441(b) and 7701(a)(23) shall be treated as a taxable year for purposes of this section for special rules if a taxable year referred to in subdivision (i)(A) of this subparagraph is a period of less than 12 months for which a return is required under section 443(a)(1).

(iv) If for the current taxable year the taxpayer and his spouse (or the estate of such spouse) file a joint return together, the items of tax preference for a preceding taxable year taken into account under subdivision (i)(A) of this subparagraph shall be the sum of the items of tax preference of the taxpayer and his spouse for such preceding year even though a joint return was not, or could not have been, filed by the taxpayer and such spouse for such preceding taxable year. If for the current taxable year the taxpayer (A) is no longer married to a spouse to whom he was married for a preceding taxable year taken into account under subdivision (i)(A) of this subparagraph and files a return as a single person, head of household, or surviving spouse for such current taxable year, or (B) is married to a spouse other than the spouse to whom he was married for a preceding taxable year taken into account under subdivision (i)(A) of this subparagraph, his items of tax preference shall be computed as if he were not married during such preceding taxable year.

(v) The sum of the items of tax preference of an estate or trust shall, for purposes of this paragraph, be apportioned between the estate or trust and the beneficiary in the manner and to the extent provided by section 58(c)(1) and the regulations thereunder.

(vi) If an item of gross income in respect of a decedent is includible in the gross income of a taxpayer and is treated as earned income in the hands of the taxpayer by reason of §1.1348–3(a)(4), the items of tax preference for a taxable year taken into account under subdivision (i) of this subparagraph shall be the sum of the taxpayer's items of tax preference for such taxable year and the decedent's items of tax preference for any taxable year of the decedent (including a short taxable year described in section 441(b)(3)) which ends with or within such taxable year of the taxpayer. For purposes of this subdivision, if a taxpayer (such as the estate of the decedent or a testamentary trust created by the decedent) has not been in existence for the number of preceding taxable years specified in subdivision (i)(A) or (iii) of this subparagraph, the items of tax preference for preceding taxable years taken into account shall be the taxpayer's items of tax preference for each of its preceding taxable years plus the decedent's items of tax preference for that number of the most recent taxable years of the decedent ending prior to the taxpayer's earliest taxable year which, when added to the taxpayer's preceding taxable years, equals such number of preceding taxable years specified in subdivision (i)(A), or (iii). The increase, if any, in the taxpayer's tax preference offset computed under this subdivision shall not exceed the amount by which the taxpayer's taxable income attributable to earned net income, computed as provided in § 1.1348–2(d)(2) and including the item of gross income in respect of a decedent, exceeds the taxpayer's taxable income attributable to earned net income computed without regard to such item of gross income.

(4) *Illustrations.* The provisions of this section may be illustrated by the following examples:

Example 1. (i) H and W, married calendar-year taxpayers filing a joint return, have the following items of income, deductions, and tax preference for 1976:

(a) Salary	$155,000	
(b) Dividends and interest	60,000	
Total	215,000	
(c) Deductible travel expenses of employee allocable to earned income	5,000	
(d) Adjusted gross income		$210,000
(e) Exemptions and itemized deductions		38,000
(f) Taxable income		172,000

In addition, the taxpayers have tax preference items for 1976 of $80,000 attributable to the exercise of a qualified stock option and total tax preference items of $300,000 for the years 1972 through 1975. Since the items of tax preference for 1976 exceed the average of the items of tax preference for the years 1972 through 1976, the tax preference offset for 1976 is $50,000 ($80,000 − $30,000).

(ii) H and W have earned taxable income of $72,857 determined in the following manner:

(a) Earned income		$155,000
(b) Earned net income ($155,000 − $5,000)		150,000
(c) Taxable income		172,000
(d) Adjusted gross income		210,000
(e) Taxable income attributable to earned net income: $172,000(c) × ($150,000(b) / $210,000(d)	$122,857	
(f) Tax preference offset	50,000	
(g) Earned taxable income		72,857

(iii) The tax imposed by section 1 is $90,938, determined pursuant to section 1348 in the following manner:

(a) Applicable amount from col. (2) of table A, § 1.1348–2(a)		$18,060
(b) 50 pct of amount by which $72,857 (earned taxable income) exceeds $52,000 (applicable amount from col. (1) of table A, § 1.1348–2(a))		10,429
(c) Tax computed under section 1 on $172,000 (taxable income)	$91,740	
(d) Tax computed under section 1 on $72,857 (earned taxable income)	29,291	
(e) Item (c) minus item (d)		962,449
(f) Tax (total of items (a), (b), and (e))		90,938

Example 2. (i) H and W, married calendar-year taxpayers filing a joint return, have the following items of income, deductions, and tax preference for 1976:

(a) Salary	$210,000	
(b) Dividends and interest	20,000	
(c) Net long-term capital gains	100,000	
Total	330,000	
(d) Sec. 1202 deduction (½ of net long-term capital gains)	50,000	
(e) Adjusted gross income		$280,000
(f) Exemptions and itemized deductions		40,000
(g) Taxable income		240,000

The taxpayers' tax preference item for 1976 is one-half of the net long-term capital gains of $100,000, or $50,000. The taxpayers have no items of tax preference for the years 1972 through 1975. Accordingly, their tax preference offset for 1976 is $20,000 ($50,000 − $30,000).

(ii) H and W have earned taxable income of $160,000, determined in the following manner:

(a) Earned net income		$210,000
(b) Taxable income		240,000
(c) Adjusted gross income		280,000
(d) Taxable income attributable to earned net income: $240,000(b) × ($210,000(a) / $280,000(c))	180,000	
(e) Tax preference offset	$20,000	
(f) Earned taxable income		$160,000

(iii) The tax imposed by section 1 is $122,560, determined pursuant to section 1348 in the following manner:

(a) Applicable amount from col. (2) of table A, § 1.1348–2(a)		$18,060
(b) 50 pct of amount by which $160,000 (earned taxable income) exceeds $52,000 (applicable amount from col. (1) of table A, § 1.1348–2(a))		54,000

(c) Tax computed under section 1201(b) on $240,000 (taxable income):		
(1) Tax under section 1201(b)(1) (tax under section 1 on $190,000 (taxable income excluding capital gains))	$104,080	
(2) Tax under section 1201(b)(2) (25 pct of subsection (d) gain of $50,000)	12,500	
(3) Tax under section 1201(b)(3) (tax under section 1 on $240,000 (taxable income) less tax under section 1 on $215,000 (amount subject to tax under section 1201(b)(1) plus 50 pct of subsection (d) gain)) ($138,980 − $121,480)	17,500	
Total	134,080	
(d) Tax computed under section 1 on $160,000 (earned taxable income)	83,580	
(e) Item (c) through item (d)		50,500
(f) Tax (total of items (a), (b), and (e))		$122,560

Example 3. (i) A, an unmarried calendar year taxpayer engaged in the practice of law, has the following items of income and deductions for 1973 and 1976:

	1973	1976
Gross income from law practice	$240,000	$100,000
Dividends	60,000	20,000
Expense paid in law practice	50,000	160,000
Investment interest	30,000	10,000
Casualty loss on personal residence (amount in excess of $100)		50,000

(ii) For 1976, A's deductions exceed his gross income, and his taxable income is therefore zero. In addition, A has a net operating loss of $100,000 (i.e., the excess of his deductions of $220,000 over his gross income of $120,000), which may be carried back to 1973. In computing his taxable income and earned taxable income for 1973, $60,000 (i.e., the excess of the expenses paid in A's law practice of $160,000, over his gross income from his law practice of $100,000) of the net operating loss deduction is properly allocable to or chargeable against earned income.

(iii) A's recomputed taxable income and earned taxable income for 1973 are $119,250 and $103,350 respectively, determined in the following manner:

Gross income ($240,000 + $60,000)	$300,000
Adjusted gross income ($300,000 − $50,000 − $100,000)	150,000
Taxable income ($150,000 − $30,000 − $750)	119,250
Earned net income ($240,000 − $50,000 − $60,000)	130,000
Earned taxable income ($130,000 / $150,000 × $119,250)	$103,350

Example 4. The facts are the same as in example (3) except that A's gross income from his law practice for 1973 is $40,000. Thus, for 1973, A's deductions (including the net operating loss deduction) exceed his gross income, and his recomputed taxable income is therefore zero. The taxable income subtracted from the net operating loss to determine the carryback to 1974 is $20,000 (i.e., $40,000 + $60,000 − $50,000 − $30,000), and thus the net operating loss carryback to 1974 is $20,000 (i.e., $40,000 + $60,000 − $50,000 − $30,000), and thus the net operating loss carryback from 1976 to 1974 is $80,000 (i.e., $100,000 − $20,000). Of this amount, $48,000 ($80,000 × [$60,000 (the excess of the expenses paid in 1976 in A's law practice over his gross income from his law practice) ÷ $100,000 (A's net operating loss for 1976)]) is properly allocable to or chargeable against earned income, and must be taken into account in recomputing A's taxable income and earned taxable income for 1974.

Example 5. A, an unmarried calendar year taxpayer, receives a salary of $80,000 from Corporation X in 1975 and also owns and operates a laundry in which both his capital and services are material income producing factors. A incurs no section 62 expenses with respect to the salary income. In 1975 the laundry, a sole proprietorship, has gross income of $100,000 and business expenses deductible under section 62 of $80,000. A reasonable allowance as compensation for A's personal services rendered by him in his laundry business would be $12,000. The net profits of the laundry business were $20,000.

A's earned income from the laundry business is limited to $6,000 (30 percent of $20,000). A's total earned income is $36,000 ($80,000+$60,000). Since the section 62 deductions of the laundry business have already been taken into account in computing net profits, they are not again taken into account in computing earned net income. Accordingly, A's earned net income for 1975 is $86,000.

Example 6. The facts are the same as example (5) except that the gross income of the laundry is $130,000 and the net profits from the laundry are $50,000. A's earned income from the laundry is $12,000. Even though the 30-percent-of-net profits limitation has not resulted in a reduction of A's earned income from the laundry, the expenses deducted in computing net profits do not reduce earned income. Accordingly, both the earned income and the earned net income of A for 1975 are $92,000.

Example 7. The facts are the same as example (5) except that the gross income of the laundry is $60,000 and the laundry has a net loss of $20,000. A's earned income from the laundry is $12,000. Since the laundry does not have net profits, the expenses of the laundry have not been taken into account in computing the net profits limitation. Accordingly, a ratable portion of deductible expenses of the laundry must be allocated to the earned income from the laundry in accordance with §1.1348–2(d)(2); $16,000 of the expenses are allocated to the earned income

($12,000/$60,000×$80,000). A's total earned income for 1975 is $92,000, and his earned net income is $76,000 ($92,000 minus $16,000).

[T.D. 7446, 41 FR 55337, Dec. 20, 1976, as amended by T.D. 7728, 45 FR 72650, Nov. 3, 1980]

§ 1.1348–3 Definitions.

(a) *Earned income*—(1) *In general.* (i) For purposes of section 1348 and the regulations thereunder, the term *earned income* means any item of gross income which is earned income within the meaning of section 401(c)(2)(C) or 911(b) unless the item constitutes deferred compensation as defined in paragraph (b) of this section or is otherwise excluded by application of this paragraph. Thus, subject to such exceptions, the term includes:

(A) Wages, salaries, professional fees, bonuses, amounts includible in gross income under section 83, commissions on sales or on insurance premiums, tips, and other amounts received, actually or constructively, as compensation for personal services actually rendered regardless of the medium or basis of payment.

(B) Compensatory payments for personal services made prior to the time such services are actually rendered, provided such advance payments are not made for a purpose of minimizing Federal income taxes by reason of the application of section 1348, and are either customary in the particular profession, trade, or business, or are made for a bona fide business purpose.

(C) Prizes and awards in recognition of personal services includible in gross income under section 74, amounts includible in gross income under section 79 (relating to group-term life insurance purchased for employees), and amounts includible in gross income under section 1379(b) (relating to contributions to qualified pension plans in the case of certain shareholder-employees); and

(D) Gains (other than gain which is treated as capital gain under any provision of chapter 1) and net earnings derived from the sale or other disposition of, the transfer of any interest in, or the licensing of the use of property (other than good will) by an individual whose personal efforts created such property.

The term does not include such income as dividends (including an amount treated as a dividend by reason of section 1373(b) and § 1.1373–1), other distributions of corporate earnings and profits, gambling gains, or gains which are treated as capital gains under any provision of chapter 1. The term also does not include amounts received for refraining from rendering personal services or engaging in competitive activity or amounts received as consideration for the cancellation of an employment contract.

(ii) In the case of a nonresident alien individual, earned income includes only earned income from sources within the United States which is effectively connected with the conduct of a trade or business within the United States.

(2) *Earned income and employed assistants.* The entire amount received as professional fees shall be treated as earned income if the taxpayer is engaged in a professional occupation, such as a doctor, dentist, lawyer, architect, or accountant, even though he employs assistants to perform part or all of the services, provided the patients or clients are those of the taxpayer and look to the taxpayer as the person responsible for the services performed.

(3) *Earned income from business in which capital is material.* (i) If an individual is engaged in a trade or business (other than in corporate form) in which both personal services and capital are material income-producing factors, a reasonable allowance as compensation for the personal services actually rendered by the individual shall be considered earned income, but the total amount which shall be treated as the earned income of the individual from such a trade or business shall in no case exceed 30 percent of his share of the net profits of such trade or business (which share shall include any guaranteed payment (as defined by § 1.707–1(c)) received from a partnership). For purpose of the preceding sentence, the term *net profits of the trade or business* means the excess of gross income from such trade or business (including income from all sources,

whether or not subject to Federal income tax, and without taking into account any deductions which may be allowable under section 1202) over the deductions attributable to such trade or business.

(ii) Whether capital is a material income-producing factor must be determined by reference to all the facts of each case. Capital is a material income-producing factor if a substantial portion of the gross income of the business is attributable to the employment of capital in the business, as reflected, for example, by a substantial investment in inventories, plant, machinery, or other equipment. In general, capital is not a material income-producing factor where gross income of the business consists principally of fees, commissions, or other compensation for personal services performed by an individual. Thus, the practice of his profession by a doctor, dentist, lawyer, architect, or accountant will not, as such, be treated as a trade or business in which capital is a material income-producing factor even though the practitioner may have a substantial capital investment in professional equipment or in the physical plant constituting the office from which he conducts his practice since his capital investment is regarded as only incidental to his professional practice.

(iii) This subparagraph does not apply to gains and net earnings derived from the sale or other disposition of, the transfer of any interest in, or the licensing of the use of property by an individual whose personal efforts created such property which are, by reason of subparagraph (1)(i) of this paragraph, treated as earned income. Thus, for example, a research chemist's substantial capital investment in laboratory facilities which he uses to produce patentable chemical processes from which he derives gains within the meaning of this subdivision would not be considered a material income-producing factor.

(4) *Income in respect of a decedent.* An item of gross income in respect of a decedent includible in the gross income of a person described in section described in section 691(a)(1) shall be treated as earned income in the hands of such person for purposes of subparagraph (1) of this paragraph if such item of gross income would have constituted earned income of the decedent had he lived and received such amount. See §1.1348–2(d)(3)(vi) for rules relating to attribution of tax preferences by reason of an item of income in respect of a decedent.

(5) *Exceptions to definition of earned income.* For purposes of section 1348 and the regulations thereunder, the term *earned income* does not include:

(i) Any distribution to which section 72(m)(5), relating to certain amounts received by owner-employees from a trust described in section 401(a) or under a plan described in section 403(a), applies,

(ii) Any distribution to which section 402(e), relating to the treatment of certain total distributions from a trust described in section 401(a) or under a plan described in section 403(a), applies,

(iii) Any distribution to which section 402(a)(2), relating to capital gains treatment of certain total distributions from a trust described in section 401(a), applies,

(iv) Any distribution to which section 403(a)(2)(A), relating to capital gains treatment for certain distributions under a plan described in section 404(a)(2), applies, or

(v) Any deferred compensation within the meaning of paragraph (b) of this section.

(6) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example 1. A owns and operates an unincorporated laundering and dry cleaning business. A, assisted by his employees, devotes his entire time and attention to this business. Substantial capital is invested in the plant and equipment utilized in the laundering and dry cleaning of clothing for A's customers. Although personal services performed by A and his employees are a material income-producing factor in A's business, the capital investment in plant and equipment is not merely incidental to the performance of such services but is, as such, material to the production of business income. Therefore, A's laundering and dry cleaning business is one in which both personal services and capital are material income-producing factors within the meaning of paragraph (a)(3) of this section. A may treat as earned income for a taxable year a reasonable allowance as compensation for the personal services rendered by him in his business, but the amount so treated shall not exceed 30% of the net profits of his business for such year.

Example 2. In his unincorporated business as a real estate broker, which he conducts on a full-time basis, A performs substantial personal services, including solicitation of home buyers and sellers, escorting prospective buyers on house visits, arranging appraisal, financing, and legal services, and other related tasks. In the course of conducting such business, A often finances sales of real estate with his own capital, makes all the necessary arrangements incident to such financing, and a substantial portion of the gross income of the business consists of interest income from such financing. Under these facts and circumstances, both personal services and capital are material income-producing factors in A's real estate business within the meaning of paragraph (a)(3) of this section since the financing of real estate sales is an integral part of the entire business. Accordingly, A's earned income from his real estate business is limited to a reasonable allowance as compensation for the personal services A actually renders, but not in excess of 30% of the net profits from the business, including the interest income derived from financing sales of real estate.

Example 3. For his taxable year ending on December 31, 1973, A, a radiologist, reports fees of $100x for professional services rendered to his own patients during 1973. Since 1970, A has maintained his own office in a small building that he purchased for $60x. In addition, A owns X-ray equipment with an original cost of $300x which he uses in his professional practice. The entire $100x of professional fees earned by A during 1973 is treated as earned income, notwithstanding that A has a substantial capital investment in professional equipment and the office from which he conducts his medical practice, because such capital investment is only incidental to the rendition of personal services in A's professional practice.

(b) *Deferred compensation*—(1) *In general.* For purposes of section 1348 and the regulations thereunder, the term *deferred compensation* means, except as otherwise provided in subparagraph (2) of this paragraph, any compensation which is deferred within the meaning of that concept in section 404, including any deferred compensation to which the provisions of section 404 and the regulations thereunder apply and any other compensation taxation of which is deferred in a manner similar to the treatment applicable to deferred compensation to which such provisions apply. Thus, the term includes any amounts includable in gross income as compensation for personal services pursuant to a plan, or method having the effect of a plan, deferring the taxation of such payment to a taxable year later than that in which such services were rendered. For purposes of section 1348, the term *deferred compensation* is not limited to payments to common-law employees but also includes payments to self-employed individuals: nor is it material that no deduction is allowable in respect of all or part of such payments or that a deduction in respect thereof is allowable under some provision of the Code other than section 404. For example, amounts received by a retired partner pursuant to a written plan of the partnership of the kind described in section 1402(a)(10) constitute deferred compensation except as otherwise provided in subparagraph (2) of this paragraph. The term *deferred compensation,* as defined in this paragraph, shall have no application to a determination of the deductibility of any amount under section 162, 404, or any other provision of the Code.

(2) *Amounts not treated as deferred compensation.* Notwithstanding the provisions of subparagraph (1) of this paragraph, any amount includible in gross income as compensation before the end of the taxable year following the first taxable year of the taxpayer in which his right to receive such amount is not subject to any requirement or condition which would be treated as resulting in a substantial risk of forfeiture within the meaning of section 83 and the regulations thereunder does not constitute deferred compensation for purposes of section 1348 and the regulations thereunder. For purposes of this subparagraph, a fractional part of a year which is a taxable year under sections 441(b) and 7701(a)(23) shall be treated as a taxable year.

(3) *Application to certain compensation*—(i) *In general.* This subparagraph provides rules for the application of the principles of subparagraphs (1) and (2) of this paragraph to certain types of compensation.

(ii) *Pension, etc., plans.* (A) In accordance with subparagraph (1) of this paragraph, the taxable portion of distributions under a pension, annuity, profit-sharing, or stock bonus plan, whether or not such plan meets the requirements of section 401(a), or pursuant to a method having the effect of such a plan, generally constitutes deferred compensation. However, under subparagraph (2) of this paragraph, such portion constitutes earned income if includible in gross income before the end of the taxable year following the first taxable year of the taxpayer in which his right to receive such amount is not subject to a substantial risk of forfeiture. In the case of a distribution under a contributory plan, the preceding sentence applies only to that part of the taxable portion of the distribution which is attributable to employer contributions to the plan. For purposes of the preceding sentence, that part of the taxable portion of a distribution which is attributable to employer contributions is the amount of such part, multiplied by a fraction, the numerator of which is the employer contributions to the plan on behalf of the employee (determined in accordance with the principles of §1.402(a)–2), and the denominator of which is the sum of such employer contributions and the net employee contributions to the plan (as defined in paragraph (a)(2) of §1.402(a)–2). Thus, if the employer does not contribute to the plan, no part of any distribution thereunder constitutes earned income. Amounts included in gross income under section 402(b), 403(c), or 1379(b)(1) in respect of employer contributions to a plan described in this subdivision do not constitute deferred compensation.

(B) If a recipient's rights to receive amounts pursuant to a plan cease to be subject to a substantial risk of forfeiture in more than one of his taxable years, each payment pursuant to such plan shall be considered to consist of a ratable portion of all of the amounts which are not subject to a substantial risk of forfeiture at the time of such payment. Thus, for example, if an employment contract provides in part that an employee or his estate is to receive in each of the fifteen years after the year in which he attains or would have attained age 65 an amount equal to $2,000 times his years of service with the employer and if he had eighteen years of service with the employer, each $36,000 payment would be considered to consist of 18 payments of $2,000, his right to receive one of which ceased to be subject to a substantial risk of forfeiture upon completing his first year of service with the employer, his right to receive another of which ceased to be subject to a substantial risk of forfeiture upon completing his second year of service with the employer, etc. Therefore, if the employee's last year of service with the employer was completed in the year in which he attained age 65, $2,000 of the first payment in the next year would not be deferred compensation under subparagraph (2) of this paragraph, and the remaining $34,000 of that payment and all of the other fourteen payments of $36,000 would be deferred compensation. If the employee's last year of service was completed in an earlier year, all fifteen payments would constitute deferred compensation in full.

iii) *Income attributable to options.* (A) Ordinary income realized by a taxpayer upon a disqualifying disposition of stock acquired pursuant to the exercise of a statutory option (as defined in §1.421–7(b)) is not deferred compensation for purposes of subparagraph (1) of this paragraph and, therefore, constitutes earned income.

(B) Ordinary income realized by a taxpayer upon the transfer of property pursuant to the exercise, or sale or other disposition, of an option which is not a statutory option (as defined in §1.421–7(b)) and which was granted on or before December 15, 1971, is not deferred compensation for purposes of subparagraph (1) of this paragraph and, therefore, constitutes earned income. Ordinary income realized by a taxpayer upon the transfer of property pursuant to the exercise, or sale or other disposition, of an option which is not a statutory option (as defined in §1.421–(b)) and which is granted after December 15, 1971 constitutes earned income rather than deferred compensation if such option cannot, by its terms, be exercised more than three months after termination (for any reason other than death) of the grantee's employment by the grantor of the option. If the terms of such an option granted after December 15, 1971 permit the exercise of the option more than three months after termination (for any reason other than death) of the grantee's employment by the grantor, ordinary income realized by a taxpayer upon the transfer of property pursuant to exercise, or sale or other disposition, of the option constitutes earned income rather than deferred compensation only if such income is realized in a taxable year no later than that following the taxable year in which the option was granted. In the case of the grantee's death within a period during which ordinary income realized upon the transfer of property pursuant to his exercise, or sale or other disposition, of an option described in this subdivision would have constituted earned income as provided in this subdivision had the grantee lived, ordinary income realized subsequently upon the transfer of property pursuant to exercise, or sale or other disposition, of an option described in this subdivision, by the grantee's legal represedntatives or beneficiary constitutes earned income only if such exercise or sale or other disposition, occurs on a date no later than the date twelve months following that of the grantee's death. For purposes of this subdivision, the term *employment by the grantor* includes employment by a related corporation as defined in § 1.421–7(i), and by a corporation which is considered a related corporation under § 1.421–7(h)(3). Therefore, the transfer of an employee from the grantor corporation to such a related corporation or from one related corporation to another related corporation or to the grantor corporation will not be treated as a termination of employment by the grantor.

(C) For purposes of (B) of this subdivision, if an option described therein and granted after December 15, 1971 is exercisable only following completion of a specified period of employment, the taxable year in which such period of employment is completed shall be treated as the taxable year in which the option was granted. Further, if the terms of an option described in (B) of this subdivision and granted after December 15, 1971 are modified, such modification shall not be considered as the granting of a new option for purposes of (B) in determining the taxable year in which such option was granted.

(D) For purposes of (B) of this subdivision, an option will not be considered exercisable by its terms more than three months following termination (for any reason other than death) of the grantee's employment by the grantor solely because the terms of such option permit, in the event of such grantee's death within three months following termination of such employment, exercise of the option by the grantee's legal representative or beneficiary during or following such three-month period.

(4) *Examples.* The application of this paragraph may be illustrated by the following examples, in each of which it is assumed that any amounts paid as described therein constitute salaries or other compensation for personal services actually rendered rather than a distribution of earnings and profits:

Example 1. (i) On January 1, 1965, Corporation X and E, an individual, execute an employment contract under which E is to be employed by X for a period of 10 years. Under the contract, E is entitled to a stated annual salary and to additional compensation of $10x for each year. This additional compensation is to be credited as of December 31 of each year to a bookkeeping reserve account and will be deferred, accumulated, and paid only upon termination of the employment contract, E's becoming a part-time employee of X, or E's becoming partially or totally incapacitated. Under the terms of the contract, X is merely under a contractual obligation to make the payments when due, and neither X nor E intends that the amounts in the reserve be held by X in trust for E. The contract provides that if E shall fall or refuse to perform his duties, X will be relieved of any obligation to make further credits to the reserve but not of the obligation to distribute amounts previously credited to the reserve. In the event E should die prior to his receipt in full of the balance in the account, the remaining balance is distributed to his personal representative.

(ii) Having completed the terms of his employment contract, E retires from the employment of X on December 31, 1974, and on January 15, 1975, receives a total distribution of $100x from his reserve account. Of this distribution of $100x to E, only $10x, representing the credit made to E's reserve account in 1974, constitutes earned income. No other credits to E's reserve account are taken into account for this purpose because they were made to the reserve account and became nonforfeitable in a year earlier than the year preceding that in which the $100x distribution was made to E.

Example 2. (i) Corporation X follows a policy of permitting employees to elect before the beginning of any calendar year to defer the receipt of either 5 percent or 10 percent of their stated annual salary to be earned in that year. E, an employee, elects for each of 10 years of employment to defer receipt of $5x of his stated annual salary. The total so deferred, or $50x, is paid to E on January 15, 1974.

(ii) Since the salary which E elects to defer is includible in his gross income only in the taxable year in which actually received by him, then to the extent E receives any such deferred salary payment after the end of the taxable year following the taxable year from which such payment was deferred, such payment does not constitute earned income since such payment is deferred compensation under this paragraph (b). Accordingly, of the $50x distribution to E, only $5x, representing the salary deferral from 1973, constitutes earned income.

Example 3. (i) E is an officer of Corporation X, which has a plan for making future payments of additional compensation for current services to certain employees. The plan provides that a fixed percentage of the annual net earnings in excess of $400x is to be designated for division among the participants. This amount is not currently paid to the participants; but X has set up on its books a separate account for each participant, including E, and each year it credits thereto the dollar amount of his participation for the year. Distributions are to be made from the account when the employee reaches the age of 60, is no longer employed by X, including cessation of employment due to death, or becomes totally unable to perform his duties, whichever occurs first. X's liability to make these distributions is contingent upon the employee's refraining from engaging in any business competitive to that of X, making himself available to X for consultation and advice after retirement or termination of his services, unless disabled, and retaining unencumbered any interest or benefit under the plan. In the event of his death, either before or after the beginning of payments, amounts in an employee's account are distributable to his designated beneficiaries of heirs-at-law. Under the facts and circumstances, E's rights to distributions from his account pursuant to the terms of the plan are not subject to a substantial risk of forfeiture within the meaning of section 83(c)(1). Under the terms of the compensation plan, X is under a merely contractual obligation to make the payments when due, and the parties did not intend that the amounts in each account be held by X in trust for the participants.

(ii) Cash or property includable in gross income by E which is attributable to a credit to his account in a taxable year earlier than the year immediately preceding the year on onclusion does not constitute earned income since it is deferred compensation within the meaning of this paragraph (b). See subparagraph (3) of this paragraph (b) for rules for determining that portion of distributions from E's acount which are attributable to credits to his account in a taxable year immediately preceding the year in which such distributions are made.

Example 4. (i) Corporation X has an annual incentive bonus plan for its employees. Under this plan, X has the sole discretion to defer all or any part of any employee's incentive bonus award. In addition, no employee has any right to receive any incentive bonus for any year (whether to be paid currently or to be deferred) until such time, if any, as X makes an award to him. No employee has any election as to the amount or time of payment of his award for any year. Furthermore, the last of any payments under an award must be paid no later than 10 years from the normal retirement date of the employee. In addition, the obligations of X under the plan are merely contractual and are not funded or secured. The awards are nonassignable. However, in the case of death the awards are payable to the employee's designated beneficiary. Once made, a bonus award under the plan is not subject to any substantial risk of forfeiture.

(ii) In each of the years 1967, 1968, 1969, and 1970, X awards E a deferred bonus of $100x. E retires on June 30, 1971. Beginning in 1971, X pays to E the total of $400x of deferred bonus awards in 5 annual installments of $80x each. With respect to the $80x payment made to E in 1971, $20x, representing the ratable portion of the payment ($100x/$400x×$80x) allocable to the 1970 bonus award, is earned income because it was received in a year no later than the year following that (1970) in which E's right to receive such amount was no longer subject to a substantial risk of forfeiture. The balance of the $80x payment made in 1971 and all payments made subsequently constitute deferred compensation.

Example 5. (i) Under the terms of a nonqualified bonus planfor its executive employees, Corporation M contributes each year to a bonus reserve a given percentage of its net earnings for the year. M makes bonus awards each year from the reserve in cash or stock of M, or a combination of both, to such executive employees, and in such amounts, as M may determine. The bonus award so determined to be made to a beneficiary is paid to him in installments: 20 percent of the award at the time that the award is made and the remaining installments in January of each succeeding year (until the full amount of the award is paid). Such amounts are payable in succeeding years but only if earned out by the employee by continuing service to M, at the rate of 1⁄12th of the amount of the first installment for each complete month of service beginning with the year of determination. If the beneficiary voluntarily terminates his employment, is discharged for cause, or conducts himself in a manner inimical to the best interests of M, he forfeits the rights to receive any portion of his bonus award previously earned out but undelivered to him and to continue earning out his bonus award. Upon retirement a beneficiary retains the right to earn out an unearned bonus award but forfeits the right to continue earning out the award if he conducts himself in a manner inimical to M's best interests or engages in an activity which is in competition with an activity of M. If a beneficiary dies while earning out a bonus award, any unpaid and undelivered portion of his award is paid and delivered to his estate or heirs at such time and in such manner as if the beneficiary were living.

(ii) On January 1, 1971, M makes a cash bonus award to A of $100x. On January 15, 1971, $20x, representing representing the first installment of the award, is paid to A. On January 15, 1972, $20x, representing the portion of the award earned out by A during the calendar year 1971 is paid to him. On January 1, 1972, A retires from employment with M and, having satisfied the conditions to continue earning out his bonus award, receives $20x on January 15, 1975.

(iii) Under the facts and circumstances, the conditions that A not conduct himself in a manner inimical to the best interests of M and refrain from activity competitive to that of M are not considered to result in a substantial risk of forfeiture of the bonus award. The total installments of $40x paid to A in 1971 and 1972 constitute earned income. The installment of $20x earned out by A in 1972 and paid to him in 1973 also constitutes earned income for the taxable year 1973 because it was includible in gross income by A before the end of the taxable year of A following the first taxable year (the year of his retirement, i.e., 1972) in which his right to receive the installment was not subject to a substantial risk of forfeiture. The installments paid to A in 1974 and 1975, however, do not constitute earned income because they were paid in a year later than the year following the year of A's retirement. Had the conditions that A not conduct himself in a manner inimical to the best interests of M and refrain from activity competitive to that of M constituted a substantial risk of forfeiture, the installments paid to A in 1974 and 1975 would have constituted earned income.

Example 6. On January 15, 1968, Corporation M, under the terms of a nonqualified bonus plan for its employees, grants to A, an employee, 5,000 *dividend units,* which entitle A to receive, for the period during which the award remains in effect, a cash payment equal to the dividends declared andpaid by M on the equivalent of 5,000 shares of its capital stock. The award remains in effect for A's lifetime but is subject to forfeiture if A is dismissed or leaves the service of M for any reason other than his death or retirement, or if A, following his retirement, engages in any activity which is harmful to the interests of M. Under the particular facts and circumstances, the condition that A not engage in any harmful activity is not considered to amount to a substantial risk of forfeiture within the meaning of section 83(c)(1). A retires on January 1, 1971. In each of the calendar years 1971, 1972, 1973, and 1974. A receives cash payments of $5x under his bonus award. The payments totaling $10x to A in the years 1971 and 1972 constitute earned income because A received them before the end of the taxable year following the first taxable year (i.e., 1971, the year in which A retired) in which his right to receive such payments was not subject to a substantial risk of forfeiture. Payments totaling $10x to A in 1973 and 1974, however, constitute deferred compensation under paragraph (b) of this section.

Example 7. Corporation M maintains an employees' profit sharing trust which is not exempt from tax under section 501(a). Under the terms of the trust agreement, the interest of the trust beneficiaries in each contribution made to the trust by M is subject to asubstantial risk of forfeiture for a period of 2 years from the date on which the particular contribution is made, except that upon a beneficiary's retirement, his entire interest in the trust vests immediately. Contributions are made on December 30 of each year. As of August 1, 1969, the total interest, forfeitable and nonforfeitable, of A, an employee of M, in the trust is $320x. On December 30 in each of the years 1969, 1970, and 1971, M makes a further contribution to the trust allocable to A's account equal to $60x. A retires on December 31, 1971, and becomes entitled to a total distribution from the trust of $500x, of which $320x represents M's contributions made prior to August 1, 1969, and $180x represents contributions made subsequent to such date. Beginning in 1972, the trust distributes to A $500x in 5 equal annual installments. Because M's contributions to A's account for the years subsequent to August 1, 1969, totaling $180x vested as of his retirement date, such contributions of $180x constitute earned income of A for the year 1971 by reason of § 1.402(b)–1(b). No portion of any annual installment of $100x which is includible in A's gross income constitutes earned income since it is attributable to the $320x, in all of which A's rights became nonforfeitable no later than December 30, 1970.

Example 8. Corporation M maintains a qualified noncontributory pension plan for the benefit of its employees. Under the terms of the plan, no employee has a vested right to receive any distribution under the plan prior to his retirement from the employment of M upon reaching the age of 65. A, an employee of M, reaches age 65 on June 15, 1972, and retires on June 30, 1972. Under the terms of the pension plan, A becomes entitled to receive a monthly pension of $5x, beginning on July 1, 1972. A receives pension payments totalling $30x in 1972, $60x in 1973, $60x in 1974, $60x in 1975, and $60x in 1976. The pension payments received by A in 1972 and 1973 constitute earned income within paragraph (b)(3)(ii) of this section. The pension payments received by A in 1974, 1975, and 1976 constitute deferred compensation.

Example 9. (i) A is a participant in X Corporation's noncontributory qualified pension plan. The plan provides an annual benefit upon attaining age 65 of 2 percent of average compensation for each calendar year of participation in the plan. Average compensation is defined as the average of an employee's annual compensation over the last 5 calendar years of service. The plan provides that an employee's rights in his accrued benefit are nonforfeitable after 15 years of participation in the plan. A attains age 65 on June 20, 1975 and begins to receive a pension on July 1, 1975. A's pension is based upon 30 years of participation in the plan. A's annual compensation for the period 1969 through 1974, is as follows:

Year	Annual Compensation
1969	$75,000
1970	80,000
1971	80,000
1972	85,000
1973	85,000
1974	90,000

(ii) Under the terms of the plan, A's accrued benefit as of December 31, 1974, and his pension are $50,400 (0.02 × 30 × 1/5 ($80,000 + $80,000 + $85,000 + $90,000)). A's accrued benefit as of December 31, 1973, is $46,980 (0.02 × 29 × 1/5 $85,000)). Since A's rights in $46,980 of his accrued benefit had ceased to be subject to a substantial risk of forfeiture before 1974, only $285 (1/12 × ($50,400 − $46,980)) of each payment received during 1975 does not constitute deferred compensation. The balance of the amounts received during 1975 and all amounts received in 1976 constitute deferred compensation since they are paid after the end of the taxable year following A's first taxable year in which his right to receive any such amount was not subject to a substantial risk of forfeiture.

Example 10. On January 15, 1971, Corporation M grants to A, an employee, an option to purchase 100 shares of stock of M at a price of $10x per share. Such option constitutes a qualified stock option constitutes a qualified stock option as defined in section 422(b). On August 1, 1971, A exercises his option, at which time the fair market value of the 100 shares of M Stock is $15x per share. On April 24, 1972, A sells the 100 shares of M stock acquired pursuant to exercise of his option at a price of $25x per share. Because the sale constitutes a disqualifying disposition within the meaning of section 421(b), A realizes ordinary income of $500x and a capital gain of $1,000x in the taxable year 1972. The $500x of ordinary income so realized by A constitutes earned income.

Example 11. On November 30, 1072, Corporation M grants to A, an employee, a nonqualified stock option to which section 421 does not apply and which has no readily ascertainable fair market value on that date. The option may, by its terms, be exercised by A at any time during, or following termination of, his employment. On March 30, 1974, A, while still employed by M, exercises his option and realizes compensation income at that time. Such compensation does not constitute earned income because the option is exercisable within a period that may extend beyond three months after A's termination of employment (other than by reason of death). See paragraph (b)(3)(iii)(B) of this section. Had A exercised his option at any time prior to January 1, 1974, the compensation realized by him by reason of such exercise would have constituted earned income.

Example 12. On November 30, 1972, Corporation N grants to B, an employee, a nonqualified stock option to which section 421 does not apply and which has no readily ascertainable fair market value on that date. The option may by its terms, be exercised only within the period during which B is employed by N or within three months thereafter. On March 30, 1974, B exercises his option and realizes compensation at that time. Such compensation so realized by B constitutes earned income. See paragraph (b)(3)(iii)(B) of this section.

Example 13. On May 9, 1973, and in connection with the performance of services by E, an employee, Corporation X transfers to E 100 shares of X stock. Under the terms of the transfer, E is subject to a binding commitment to return the stock to X if E leaves X's employment for any reason prior to the expiration of a 3-year period beginning on the date of transfer. Since E must perform substantial services for X before he may keep the X stock, E's rights in the stock are subject to a substantial risk of forfeiture under section 83(c)(1). Consequently, if such restriction lapses on May 9, 1976, the compensation realized at such time constitutes earned income. Had E elected to include an amount in his gross income in 1973 pursuant to section 83(b) and the regulations thereunder, the amount so included would also have constituted earned income.

Example 14. On October 1, 1971, A, an author, and Corporation M, a publisher, executed an agreement under which A granted to M the exclusive right to print, publish and sell a book he had written. The agreement provides that M will pay to A specified royalties based on the actual cash received from the sale of the published work, render semiannual statements of the sales, and at the time of rendering each statement make settlement for the amount due. On the same day, another agreement was signed by A and M, mutually agreeing that, in consideration of, and notwithstanding, any contrary provisions contained in the first contract, M shall not pay A more than $100x in any one calendar year. Under this supplemental contract, sums in excess of $100x accruing in any one calendar year are to be carried over by M into succeeding years. For the calendar year 1971, royalties payable to A under the basic agreement amount to $100x and this sum is paid to A. For the calendar year 1972, royalties of $120x are payable to A under the basic agreement, but by reason of the supplemental agreement, only $100x of this sum is actually paid to A. For each of the calendar years 1973 and 1974, royalties of $100x are payable to A under the basic agreement, and this sum is paid to A. For the calendar year 1975, royalties of $80x are payable to A under the basic agreement, and this sum, plus $20x carried over from 1972, or $100x, is paid to A. The $100x paid to A in each of the years 1971, 1972, 1973, and 1974, and $80x of the $100x paid to A in 1975 constitute earned income. The additional $20x carried over from 1972 and paid to A in 1975 constitutes deferred compensation under this paragraph (b) because it was paid to A later than the end of the year following the year (i.e., 1972) in which A's right to receive the amount was not subject to a substantial risk of forfeiture.

Example 15. Corporation M is the producer and owner of a feature length motion picture which is distributed to exhibitors by Corporation N pursuant to a distribution agreement between M and N providing for current payments to M of a given percentage of the current net profits derived by N from the exhibition and exploitation of the picture. A was employed by M as the leading actor in the picture for fixed compensation payable at the rate of $10x per week during the production period plus additional compensation equal to a given percentage of the net profits derived from the exhibition and exploitation of the picture. A's additional compensation is payable at the time that M receives payments from N under the terms of the distribution agreement. The additional compensation paid to A does not constitute deferred compensation since it is attributable to and measured by current net profits derived from the use of property created in part by A's efforts.

Example 16. A, a boxer entered into an agreement with M boxing club to fight a particular opponent on June 19, 1971. The agreement provided in part, that for his performance A was to receive 16 percent of the gross receipts derived from the match. Simultaneously, A and M executed a separate agreement providing for payment of A's share of the receipts from the match as follows: 25 percent thereof not later than August 15, 1971, and 25 percent thereof during each of the years 1972, 1973, and 1974 in equal semiannual installments. A's share of the gross receipts derived from the match was $100x, of which 25 percent was paid to him in 1971 and a total of $25x in each of the years 1972, 1973, and 1974. Under the particular facts and circumstances, A and M are not acting as partners or joint venturers. Thus, A is taxable upon his share of such gross receipts only in the years in which such share is actually paid to him under the terms of the separate agreement. The payments of $25x in each of the years 1971 and 1972 constitute earned income. The payments of $25x in each of the years 1973 and 1974 would not constitute earned income because they constitute deferred compensation received later than the end of the first taxable year (i.e., 1972) following the year in which A's right to receive such amounts was not subject to a substantial risk of forfeiture.

§1.1361–1 S corporation defined.

(a) *In general.* For purposes of this title, with respect to any taxable year—

(1) The term *S corporation* means a small business corporation (as defined in paragraph (b) of this section) for which an election under section 1362(a) is in effect for that taxable year.

(2) The term *C corporation* means a corporation that is not an S corporation for that taxable year.

(b) *Small business corporation defined*—(1) *In general.* For purposes of subchapter S, chapter 1 of the Code and the regulations thereunder, the term *small business corporation* means a domestic corporation that is not an ineligible corporation (as defined in section 1361(b)(2)) and that does not have—

(i) More than 35 shareholders;

(ii) As a shareholder, a person (other than an estate and other than certain trusts described in section 1361(c)(2)) who is not an individual;

(iii) A nonresident alien as a shareholder; or

(iv) More than one class of stock.

(2) *Estate in bankruptcy.* The term *estate*, for purposes of this paragraph, includes the estate of an individual in a case under title 11 of the United States Code.

(3) *Treatment of restricted stock.* For purposes of subchapter S, stock that is issued in connection with the performance of services (within the meaning of § 1.83–3(f)) and that is substantially nonvested (within the meaning of § 1.83–3(b)) is not treated as outstanding stock of the corporation, and the holder of that stock is not treated as a shareholder solely by reason of holding the stock, unless the holder makes an election with respect to the stock under section 83(b). In the event of such an election, the stock is treated as outstanding stock of the corporation, and the holder of the stock is treated as a shareholder for purposes of subchapter S. See paragraphs (l) (1) and (3) of this section for rules for determining whether substantially nonvested stock with respect to which an election under section 83(b) has been made is treated as a second class of stock.

(4) *Treatment of deferred compensation plans.* For purposes of subchapter S, an instrument, obligation, or arrangement is not outstanding stock if it—

(i) Does not convey the right to vote;

(ii) Is an unfunded and unsecured promise to pay money or property in the future;

(iii) Is issued to an individual who is an employee in connection with the performance of services for the corporation or to an individual who is an independent contractor in connection with the performance of services for the corporation (and is not excessive by reference to the services performed); and

(iv) Is issued pursuant to a plan with respect to which the employee or independent contractor is not taxed currently on income.

A deferred compensation plan that has a current payment feature (e.g., payment of dividend equivalent amounts that are taxed currently as compensation) is not for that reason excluded from this paragraph (b)(4).

(5) *Treatment of straight debt.* For purposes of subchapter S, an instrument or obligation that satisfies the definition of straight debt in paragraph (l)(5) of this section is not treated as outstanding stock.

(6) *Effective date provision.* Section 1.1361–1(b) generally applies to taxable years of a corporation beginning on or after May 28, 1992. However, a corporation and its shareholders may apply this §1.1361–1(b) to prior taxable years. In addition, substantially nonvested stock issued on or before May 28, 1992, that has been treated as outstanding by the corporation is treated as outstanding for purposes of subchapter S, and the fact that it is substantially nonvested and no section 83(b) election has been made with respect to it will not cause the stock to be treated as a second class of stock.

(c) *Domestic corporation.* For purposes of paragraph (b) of this section, the term *domestic corporation* means a domestic corporation as defined in §301.7701–5 of this chapter, and the term *corporation* includes an entity that is classified as an association taxable as a corporation under §301.7701–2 of this chapter.

(d) *Ineligible corporation*—(1) *General rule.* Except as otherwise provided in this paragraph (d), the term *ineligible corporation* means a corporation that is—

(i) A member of an affiliated group (determined under section 1504 without regard to any exception contained in section 1504(b)), whether or not that affiliated group has ever filed a consolidated return;

(ii) A financial institution to which section 585 applies (or would apply but for section 585(c)) or to which section 593 applies;

(iii) An insurance company subject to tax under subchapter L;

(iv) A corporation to which an election under section 936 applies; or

(v) A DISC or former DISC.

(2) *Exceptions.* See the special rules and exceptions provided in sections 6(c) (2), (3) and (4) of Public Law 97–354 that are applicable for certain casualty insurance companies and qualified oil corporations.

(3) *Inactive corporation exception.* (i) For purposes of paragraph (d)(1)(i) of this section, a corporation (parent corporation) will not be treated as a member of an affiliated group during any period within a taxable year by reason of the ownership of stock in another corporation (subsidiary corporation) if the subsidiary corporation—

(A) Has not begun business at any time on or before the close of that period; and

(B) Does not have gross income for that period.

(ii) The determination under paragraph (d)(3)(i) of this section of the date on which a subsidiary corporation begins business is made by taking into account all the facts and circumstances of the particular case. A corporation has not begun business, however, merely because it is in existence. Ordinarily, a corporation begins business when it starts the business operations for which it was organized. Mere organizational activities, such as the obtaining of the corporate charter, are not alone sufficient to constitute the beginning of business. An example of a corporation that has not begun business is a corporation incorporated for the sole purpose of reserving a corporate name in a state or states in which the parent corporation is not doing business. If the activities of a corporation have advanced to the extent necessary to establish the nature of its business operations, however, the corporation is deemed to have begun business. For example, a corporation that acquires operating assets necessary for the type of business contemplated may be deemed to have begun business.

(iii) If a subsidiary corporation ceases to be an inactive corporation as defined in paragraph (d)(3)(i) of this section, then the parent corporation's election under section 1362(a) will terminate on the earlier of the first day that the subsidiary corporation begins business, or the first day, determined under the subsidiary corporation's method of accounting, that the subsidiary corporation realizes gross income.

(iv) The application of paragraph (d)(3) of this section is illustrated by the following examples:

Example 1. In 1996, Corporation P, a C corporation, owns all of the stock of Corporation Q. P and Q both use the calendar year as their taxable year. For purposes of paragraph (d)(1)(i) of this section, P would not be considered at any time during 1996 to be a member of an affiliated group solely by reason of its ownership of Q's stock if Q has not begun business at any time on or before January 1, 1997, and has no gross income for calendar year 1996 or any prior calendar year. Thus, P could qualify as a small business corporation during 1996 if it meets the other requirements provided in section 1361(b). Assuming that P's ownership of Q stock remains unchanged, P would cease to be a small business corporation on the day that Q either begins business or realizes gross income (determined under Q's method of accounting), whichever day occurs earlier.

Example 2. Assume the same facts as in *Example 1,* except that Corporation Q had begun business prior to 1995, but became inactive in 1995. For purposes of paragraph (d)(1)(i) of this section, P is considered to be a member of an affiliated group because Q had begun business prior to becoming inactive in 1995. Therefore, even though Q was inactive in 1996, P is not eligible to make the S election until P liquidates Q.

(e) *Number of shareholders*—(1) *General rule.* A corporation does not qualify as a small business corporation if it has more than 35 shareholders. Ordinarily, the person who would have to include in gross income dividends distributed with respect to the stock of the corporation (if the corporation were a C corporation) is considered to be the shareholder of the corporation. For example, if stock (owned other than by a husband and wife) is owned by tenants in common or joint tenants, each tenant in common or joint tenant is generally considered to be a shareholder of the corporation. (For special rules relating to stock owned by husband and wife, see paragraph (e)(2) of this section; for special rules relating to restricted stock, see paragraphs (b) (3) and (6) of this section.) The person for whom stock of a corporation is held by a nominee, guardian, custodian, or an agent is considered to be the shareholder of the corporation for purposes of this paragraph (e) and paragraphs (f) and (g) of this section. For example, a partnership may be a nominee of S corporation stock for a person who qualifies as a shareholder of an S corporation. However, if the partnership is the beneficial owner of the stock, then the partnership is the shareholder, and the corporation does not qualify as a small business corporation. In addition, in the case of stock held for a minor under a uniform gifts to minors or similar statute, the minor and not the custodian is the shareholder. For purposes of this paragraph (e) and paragraphs (f) and (g) of this section, if stock is held by a decedent's estate, the estate (and not the beneficiaries of the estate) is considered to be the shareholder; however, if stock is held by a subpart E trust (which includes voting trusts), the deemed owner is considered to be the shareholder.

(2) *Special rules relating to stock owned by husband and wife.* For purposes of paragraph (e)(1) of this section, stock owned by a husband and wife (or by either or both of their estates) is treated as if owned by one shareholder, regardless of the form in which they own the stock. For example, if husband and wife are owners of a subpart E trust, they will be treated as one individual. Both husband and wife must be U.S. citizens or residents, and a decedent spouse's estate must not be a foreign estate as defined in section 7701(a)(31). The treatment described in this paragraph (e)(2) will cease upon dissolution of the marriage for any reason other than death.

(f) *Shareholder must be an individual or estate.* Except as otherwise provided in paragraph (e)(1) (relating to nominees and paragraph (h) (relating to certain trusts) of this section, a corporation in which any shareholder is a corporation, partnership, or trust does not qualify as a small business corporation.

(g) *Nonresident alien shareholder*—(1) *General rule.* (i) A corporation having a shareholder who is a nonresident alien as defined in section 7701(b)(1)(B) does not qualify as a small business corporation. If a U.S. shareholder's spouse is a nonresident alien who has a current ownership interest (as opposed, for example, to a survivorship interest) in the stock of the corporation by reason of any applicable law, such as a state community property law or a foreign country's law, the corporation does not qualify as a small business corporation from the time the nonresident alien spouse acquires the interest in the stock. If a corporation's S election is inadvertently terminated as a result of a nonresident alien spouse being considered a shareholder, the corporation may request relief under section 1362(f).

(ii) The following examples illustrate this paragraph (g)(1)(i):

Example 1. In 1990, W, a U.S. citizen, married H, a citizen of a foreign country. At all times H is a nonresident alien under section 7701(b)(1)(B). Under the foreign country's law, all property acquired by a husband and wife during the existence of the marriage is community property and owned jointly by the husband and wife. In 1996 while residing in the foreign country, W formed X, a U.S. corporation, and X simultaneously filed an election to be an S corporation. X issued all of its outstanding stock in W's name. Under the foreign country's law, X's stock became the community property of and jointly owned by H and W. Thus, X does not meet the definition of a small business corporation and therefore could not file a valid S election because H, a nonresident alien, has a current interest in the stock.

Example 2. Assume the same facts as *Example 1,* except that in 1991, W and H filed a section 6013(g) election allowing them to file a joint U.S. tax return and causing H to be treated as a U.S. resident for purposes of chapters 1, 5, and 24 of the Internal Revenue Code. The section 6013(g) election applies to the taxable year for which made and to all subsequent taxable years until terminated. Because H is treated as a U.S. resident under section 6013(g), X does meet the definition of a small business corporation. Thus, the election filed by X to be an S corporation is valid.

(2) *Special rule for dual residents.* [Reserved]

(h) *Special rules relating to trusts*—(1) *General rule.* In general, a trust is not a permitted small business corporation shareholder. However, except as provided in paragraph (h)(2) of this section, the following trusts are permitted shareholders:

(i) *Qualified subpart E trust.* A trust all of which is treated (under subpart E, part I, subchapter J, chapter 1) as owned by an individual (whether or not the grantor) who is a citizen or resident of the United States (a qualified subpart E trust). This requirement applies only during the period that the trust holds S corporation stock.

(ii) *Subpart E trust ceasing to be a qualified subpart E trust after the death of deemed owner.* A trust which was a qualified subpart E trust immediately before the death of the deemed owner and which continues in existence after the death of the deemed owner, but only for the 60-day period beginning on the day of the deemed owner's death. However, if a trust is described in the preceding sentence and the entire corpus of the trust is includible in the gross estate of the deemed owner, the trust is a permitted shareholder for the 2-year period beginning on the day of the deemed owner's death. A trust is considered to continue in existence if the trust continues to hold the stock of the S corporation during the period of administration of the decedent's estate or if, after the period of administration, the trust continues to hold the stock pursuant to the terms of the will or the trust agreement. See §1.641(b)–3 for rules concerning the termination of estates and trusts for Federal income tax purposes. If the trust consists of community property, and the decedent's community property interest in the trust is includible in the decedent's gross estate under chapter 11 (section 2001 and following, relating to estate tax), then the entire corpus of the trust will be deemed includible in the decedent's gross estate. Further, for the purpose of determining whether the entire corpus of the trust is includible in the gross estate of the deemed owner, if the decedent's spouse was treated as an owner of a portion of the trust under subpart E immediately before the decedent's death, the surviving spouse's portion is disregarded.

(iii) *Electing qualified subchapter S trusts.* A qualified subchapter S trust (QSST) that has a section 1361(d)(2) election in effect (an electing QSST). See paragraph (j) of this section for rules concerning QSSTs including the manner for making the section 1361(d)(2) election.

(iv) *Testamentary trusts.* A trust (other than a qualified subpart E trust or an electing QSST) to which S corporation stock is transferred pursuant to the terms of a will, but only for the 60-day period beginning on the day the stock is transferred to the trust.

(v) *Qualified voting trusts.* A trust created primarily to exercise the voting power of S corporation stock transferred to it. To qualify as a voting trust for purposes of this section (a qualified voting trust), the beneficial owners must be treated as the owners of their respective portions of the trust under subpart E and the trust must have been created pursuant to a written trust agreement entered into by the shareholders, that—

(A) Delegates to one or more trustees the right to vote;

(B) Requires all distributions with respect to the stock of the corporation held by the trust to be paid to, or on behalf of, the beneficial owners of that stock;

(C) Requires title and possession of that stock to be delivered to those beneficial owners upon termination of the trust; and

(D) Terminates, under its terms or by state law, on or before a specific date or event.

(2) *Foreign trust.* For purposes of paragraph (h)(1) of this section, in any case where stock is held by a foreign trust as defined in section 7701(a)(31), the trust is considered to be the shareholder and is an ineligible shareholder. Thus, even if a foreign trust qualifies as a subpart E trust (e.g., a qualified voting trust), any corporation in which the trust holds stock does not qualify as a small business corporation.

(3) *Determination of shareholders*—(i) *General rule.* For purposes of paragraph (b) of this section (qualification as a small business corporation), and, except as provided in paragraph (h)(3)(ii) of this section, for purposes of sections 1366 (relating to the pass-through of items of income, loss, deduction, or credit), 1367 (relating to adjustments to basis of shareholder's stock), and 1368 (relating to distributions), the shareholder of S corporation stock held by a trust that is a permitted shareholder under paragraph (h)(1) of this section is determined as follows:

(A) If stock is held by a qualified subpart E trust, the deemed owner of the trust is treated as the shareholder.

(B) If stock is held by a trust defined in paragraph (h)(1)(ii) of this section, the estate of the deemed owner is generally treated as the shareholder as of the day of the deemed owner's death. However, if stock is held by such a trust in a community property state, the decedent's estate is the shareholder only of the portion of the trust included in the decedent's gross estate (and the surviving spouse continues to be the shareholder of the portion of the trust owned by that spouse under the applicable state's community property law). The estate ordinarily will cease to be treated as the shareholder upon the earlier of the transfer of the stock by the trust or the expiration of the 60-day period (or, if applicable, the 2-year period) beginning on the day of the deemed owner's death. If the trust qualifies and becomes an electing QSST, the beneficiary and not the estate is treated as the shareholder as of the effective date of the QSST election, and the rules provided in paragraph (j)(7) of this section apply.

(C) If stock is held by an electing QSST, see paragraph (j)(7) of this section for the rules on who is treated as the shareholder.

(D) If stock is transferred to a testamentary trust (other than a qualified subpart E trust or an electing QSST), the estate of the testator is treated as the shareholder until the earlier of the transfer of that stock by the trust or the expiration of the 60-day period beginning on the day that the stock is transferred to the trust.

(E) If stock is held by a qualified voting trust, each beneficial owner of the stock, as determined under subpart E, is treated as a shareholder with respect to the owner's proportionate share of the stock held by the trust.

(ii) *Exceptions.* Solely for purposes of section 1366, 1367, and 1368 the shareholder of S corporation stock held by a trust is determined as follows—

(A) If stock is held by a trust (as defined in paragraph (h)(1)(ii) of this section) that does not qualify as a QSST, the trust is treated as the shareholder. If the trust continues to own the stock after the expiration of the 60-day period (or, if applicable, the 2-year period), the corporation's S election will terminate unless the trust is otherwise a permitted shareholder. If the trust is a QSST described in section 1361(d) and the income beneficiary of the trust makes a timely QSST election, the beneficiary and not the trust is treated as the shareholder from the effective date of the QSST election; and

(B) If stock is transferred to a testamentary trust described in paragraph (h)(1)(iii) of this section (other than a qualified subpart E trust or a trust that has a QSST election in effect), the trust is treated as the shareholder. If the trust continues to own the stock after the expiration of the 60-day period, the corporation's S election will terminate unless the trust otherwise qualifies as a permitted shareholder.

(i) [Reserved]

(j) *Qualified subchapter S trust*—(1) *Definition*. A qualified subchapter S trust (QSST) is a trust (whether intervivos or testamentary), other than a foreign trust described in section 7701(a)(31), that satisfies the following requirements:

(i) All of the income (within the meaning of §1.643(b)–1) of the trust is distributed (or is required to be distributed) currently to one individual who is a citizen or resident of the United States. For purposes of the preceding sentence, unless otherwise provided under local law (including pertinent provisions of the governing instrument that are effective under local law), income of the trust includes distributions to the trust from the S corporation for the taxable year in question, but does not include the trust's pro rata share of the S corporation's items of income, loss, deduction, or credit determined under section 1366. See §§1.651(a)–2(a) and 1.663(b)–1(a) for rules relating to the determination of whether all of the income of a trust is distributed (or is required to be distributed) currently. If under the terms of the trust income is not required to be distributed currently, the trustee may elect under section 663(b) to consider a distribution made in the first 65 days of a taxable year as made on the last day of the preceding taxable year. See section 663(b) and §1.663(b)–2 for rules on the time and manner for making the election. The income distribution requirement must be satisfied for the taxable year of the trust or for that part of the trust's taxable year during which it holds S corporation stock.

(ii) The terms of the trust must require that—

(A) During the life of the current income beneficiary, there will be only one income beneficiary of the trust;

(B) Any corpus distributed during the life of the current income beneficiary may be distributed only to that income beneficiary;

(C) The current income beneficiary's income interest in the trust will terminate on the earlier of that income beneficiary's death or the termination of the trust; and

(D) Upon termination of the trust during the life of the current income beneficiary, the trust will distribute all of its assets to that income beneficiary.

(iii) The terms of the trust must satisfy the requirements of paragraph (j)(1)(ii) of this section from the date the QSST election is made or from the effective date of the QSST election, whichever is earlier, throughout the entire period that the current income beneficiary and any successor income beneficiary is the income beneficiary of the trust. If the terms of the trust do not preclude the possibility that any of the requirements stated in paragraph (j)(1)(ii) of this section will not be met, the trust will not qualify as a QSST. For example, if the terms of the trust are silent with respect to corpus distributions, and distributions of corpus to a person other than the current income beneficiary are permitted under local law during the life of the current income beneficiary, then the terms of the trust do not preclude the possibility that corpus may be distributed to a person other than the current income beneficiary and, therefore, the trust is not a QSST.

(2) *Special rules*—(i) If a husband and wife are income beneficiaries of the same trust, the husband and wife file a joint return, and each is a U.S. citizen or resident, the husband and wife are treated as one beneficiary for purposes of paragraph (j) of this section. If a husband and wife are treated by the preceding sentence as one beneficiary, any action required by this section to be taken by an income beneficiary requires joinder of both of them. For example, each spouse must sign the QSST election, continue to be a U.S. citizen or resident, and continue to file joint returns for the entire period that the QSST election is in effect.

(ii)(A) *Terms of the trust and applicable local law*. The determination of whether the terms of a trust meet all of the requirements under paragraph (j)(1)(ii) of this section depends upon the terms of the trust instrument and the applicable local law. For example, a trust whose governing instrument provides that A is the sole income beneficiary of the trust is, nevertheless, considered to have two income beneficiaries if, under the applicable local law, A and B are considered to be the income beneficiaries of the trust.

(B) *Legal obligation to support.* If under local law a distribution to the income beneficiary is in satisfaction of the grantor's legal obligation of support to that income beneficiary, the trust will not qualify as a QSST as of the date of distribution because, under section 677(b), if income is distributed, the grantor will be treated as the owner of the ordinary income portion of the trust or, if trust corpus is distributed, the grantor will be treated as a beneficiary under section 662. See §1.677(b)–1 for rules on the treatment of trusts for support and §1.662(a)–4 for rules concerning amounts used in discharge of a legal obligation.

(C) *Example.* The following example illustrates the rules of paragraph (j)(2)(ii)(B) of this section:

Example: F creates a trust for the benefit of F's minor child, G. Under the terms of the trust, all income is payable to G until the trust terminates on the earlier of G's attaining age 35 or G's death. Upon the termination of the trust, all corpus must be distributed to G or G's estate. The trust includes all of the provisions prescribed by section 1361(d)(3)(A) and paragraph (j)(1)(ii) of this section, but does not preclude the trustee from making income distributions to G that will be in satisfaction of F's legal obligation to support G. Under the applicable local law, distributions of trust income to G will satisfy F's legal obligation to support G. If the trustee distributes income to G in satisfaction of F's legal obligation to support G, the trust will not qualify as a QSST because F will be treated as the owner of the ordinary income portion of the trust. Further, the trust will not be a qualified subpart E trust because the trust will be subject to tax on the income allocable to corpus.

(iii) If, under the terms of the trust, a person (including the income beneficiary) has a special power to appoint, during the life of the income beneficiary, trust income or corpus to any person other than the current income beneficiary, the trust will not qualify as a QSST. However, if the power of appointment results in the grantor being treated as the owner of the entire trust under the rules of subpart E, the trust may be a permitted shareholder under section 1361 (c)(2)(A)(i) and paragraph (h)(1)(i) of this section.

(iv) If the terms of a trust or local law do not preclude the current income beneficiary from transferring the beneficiary's interest in the trust or do not preclude a person other than the current income beneficiary named in the trust instrument from being treated as a beneficiary of the trust under §1.643(c)–1, the trust will still qualify as a QSST. However, if the income beneficiary transfers or assigns the income interest or a portion of the income interest to another, the trust may no longer qualify as a QSST, depending on the facts and circumstances, because any transferee of the current income beneficiary's income interest and any person treated as a beneficiary under §1.643(c)–1 will be treated as a current income beneficiary for purposes of paragraph (j)(1)(ii) of this section and the trust may no longer meet the QSST requirements.

(v) If the terms of the trust do not preclude a person other than the current income beneficiary named in the trust instrument from being awarded an interest in the trust by the order of a court, the trust will qualify as a QSST assuming the trust meets the requirements of paragraphs (j)(1) (i) and (ii) of this section. However, if as a result of such court order, the trust no longer meets the QSST requirements, the trust no longer qualifies as a QSST and the corporation's S election will terminate.

(vi) A trust may qualify as a QSST even though a person other than the current income beneficiary is treated under subpart E as the owner of a part or all of that portion of a trust which does not consist of the S corporation stock, provided the entire trust meets the QSST requirements stated in paragraphs (j)(1) (i) and (ii) of this section.

(3) *Separate and independent shares of a trust.* For purposes of sections 1361 (c) and (d), a substantially separate and independent share of a trust, within the meaning of section 663(c) and the regulations thereunder, is treated as a separate trust. For a separate share which holds S corporation stock to qualify as a QSST, the terms of the trust applicable to that separate share must meet the QSST requirements

stated in paragraphs (j)(1) (i) and (ii) of this section.

(4) *Qualified terminable interest property trust.* If property, including S corporation stock, or stock of a corporation that intends to make an S election, is transferred to a trust and an election is made to treat all or a portion of the transferred property as qualified terminable interest property (QTIP) under section 2056(b)(7), the income beneficiary may make the QSST election if the trust meets the requirements set out in paragraphs (j)(1) (i) and (ii) of this section. However, if property is transferred to a QTIP trust under section 2523(f), the income beneficiary may not make a QSST election even if the trust meets the requirements set forth in paragraph (j)(1)(ii) of this section because the grantor would be treated as the owner of the income portion of the trust under section 677. In addition, if property is transferred to a QTIP trust under section 2523(f), the trust does not qualify as a permitted shareholder under section 1361(c)(2)(A)(i) and paragraph (h)(1)(i) of this section (a qualified subpart E trust), unless under the terms of the QTIP trust, the grantor is treated as the owner of the entire trust under sections 671 to 677. If the grantor ceases to be the income beneficiary's spouse, the trust may qualify as a QSST if it otherwise satisfies the requirements under paragraphs (j)(1) (i) and (ii) of this section.

(5) *Ceasing to meet the QSST requirements.* If a QSST for which an election under section 1361(d)(2) has been made (as described in paragraph (j)(6) of this section) ceases to meet any of the requirements specified in paragraph (j)(1)(ii) of this section, the provisions of this paragraph (j) will cease to apply as of the first day on which that requirement ceases to be met. If such a trust ceases to meet the income distribution requirement specified in paragraph (j)(1)(i) of this section, but continues to meet all of the requirements in paragraph (j)(1)(ii) of this section, the provisions of this paragraph (j) will cease to apply as of the first day of the first taxable year beginning after the first taxable year for which the trust ceased to meet the income distribution requirement of paragraph (j)(1)(i) of this section. If a corporation's S election is inadvertently terminated as a result of a trust ceasing to meet the QSST requirements, the corporation may request relief under section 1362(f).

(6) *Qualified subchapter S trust election*—(i) *In general.* This paragraph (j)(6) applies to the election provided in section 1361(d)(2) (the QSST election) to treat a QSST (as defined in paragraph (j)(1) of this section) as a trust described in section 1361(c)(2)(A)(i), and thus a permitted shareholder. This election must be made separately with respect to each corporation whose stock is held by the trust. The QSST election does not itself constitute an election as to the status of the corporation; the corporation must make the election provided by section 1362(a) to be an S corporation. Until the effective date of a corporation's S election, the beneficiary is not treated as the owner of the stock of the corporation for purposes of section 678. Any action required by this paragraph (j) to be taken by a person who is under a legal disability by reason of age may be taken by that person's guardian or other legal representative, or if there be none, by that person's natural or adoptive parent.

(ii) *Filing the QSST election.* The current income beneficiary of the trust must make the election by signing and filing with the service center with which the corporation files its income tax return the applicable form or a statement that—

(A) Contains the name, address, and taxpayer identification number of the current income beneficiary, the trust, and the corporation;

(B) Identifies the election as an election made under section 1361(d)(2);

(C) Specifies the date on which the election is to become effective (not earlier than 15 days and two months before the date on which the election is filed);

(D) Specifies the date (or dates) on which the stock of the corporation was transferred to the trust; and

(E) Provides all information and representations necessary to show that:

(*1*) Under the terms of the trust and applicable local law—

(*i*) During the life of the current income beneficiary, there will be only one income beneficiary of the trust (if husband and wife are beneficiaries, that they will file joint returns and that both are U.S. residents or citizens);

(*ii*) Any corpus distributed during the life of the current income beneficiary may be distributed only to that beneficiary;

(*iii*) The current beneficiary's income interest in the trust will terminate on the earlier of the beneficiary's death or upon termination of the trust; and

(*iv*) Upon the termination of the trust during the life of such income beneficiary, the trust will distribute all its assets to such beneficiary.

(*2*) The trust is required to distribute all of its income currently, or that the trustee will distribute all of its income currently if not so required by the terms of the trust.

(*3*) No distribution of income or corpus by the trust will be in satisfaction of the grantor's legal obligation to support or maintain the income beneficiary.

(iii) *When to file the QSST election.* (A) If S corporation stock is transferred to a trust, the QSST election must be made within the 16-day-and-2-month period beginning on the day that the stock is transferred to the trust. If a C corporation has made an election under section 1362(a) to be an S corporation (S election) and, before that corporation's S election is in effect, stock of that corporation is transferred to a trust, the QSST election must be made within the 16-day-and-2-month period beginning on the day that the stock is transferred to the trust.

(B) If a trust holds C corporation stock and that C corporation makes an S election effective for the first day of the taxable year in which the S election is made, the QSST election must be made within the 16-day-and-2-month period beginning on the day that the S election is effective. If a trust holds C corporation stock and that C corporation makes an S election effective for the first day of the taxable year following the taxable year in which the S election is made, the QSST election must be made within the 16-day-and-2-month period beginning on the day that the S election is made. If a trust holds C corporation stock and that corporation makes an S election intending the S election to be effective for the first day of the taxable year in which the S election is made but, under §1.1362–6(a)(2), such S election is subsequently treated as effective for the first day of the taxable year following the taxable year in which the S election is made, the fact that the QSST election states that the effective date of the QSST election is the first day of the taxable year in which the S election is made will not cause the QSST election to be ineffective for the first year in which the corporation's S election is effective.

(C) If a trust ceases to be a qualified subpart E trust but also satisfies the requirements of a QSST, the QSST election must be filed within the 16-day-and-2-month period beginning on the date on which the trust ceases to be a qualified subpart E trust. If the estate of the deemed owner of the trust is treated as the shareholder under paragraph (h)(3)(ii) of this section, the QSST election may be filed at any time but no later than the end of the 16-day-and-2-month period beginning on the date on which the estate of the deemed owner ceases to be treated as a shareholder.

(D) If a corporation's S election terminates because of a late QSST election, the corporation may request inadvertent termination relief under section 1362(f). See §1.1362–4 for rules concerning inadvertent terminations.

(iv) *Protective QSST election when a person is an owner under subpart E.* If the grantor of a trust is treated as the owner under subpart E of all of the trust, or of a portion of the trust which consists of S corporation stock, and the current income beneficiary is not the grantor, the current income beneficiary may not make the QSST election, even if the trust meets the QSST requirements stated in paragraph (j)(1)(ii) of this section. See paragraph (j)(6)(iii)(C) of this section as to when the QSST election may be made. See also paragraph (j)(2)(vi) of this section. However, if the current income beneficiary (or beneficiaries who are husband and wife, if both spouses are U.S.

citizens or residents and file a joint return) of a trust is treated under subpart E as owning all or a portion of the trust consisting of S corporation stock, the current income beneficiary (or beneficiaries who are husband and wife, if both spouses are U.S. citizens or residents and file a joint return) may make the QSST election. See *Example 8* of paragraph (k)(1) of this section.

(7) *Treatment as shareholder.* (i) The income beneficiary who makes the QSST election and is treated (for purposes of section 678(a)) as the owner of that portion of the trust that consists of S corporation stock is treated as the shareholder for purposes of sections 1361(b)(1), 1366, 1367, and 1368.

(ii) If, upon the death of an income beneficiary, the trust continues in existence, continues to hold S corporation stock but no longer satisfies the QSST requirements, and is not a qualified subpart E trust, then, solely for purposes of section 1361(b)(1), as of the date of the income beneficiary's death, the estate of that income beneficiary is treated as the shareholder of the S corporation with respect to which the income beneficiary made the QSST election. The estate ordinarily will cease to be treated as the shareholder for purposes of section 1361(b)(1) upon the earlier of the transfer of that stock by the trust or the expiration of the 60-day period beginning on the day of the income beneficiary's death. However, if the entire corpus of the trust is includible in the gross estate of that income beneficiary, the estate will cease to be treated as the shareholder for purposes of section 1361(b)(1) upon the earlier of the transfer of that stock by the trust or the expiration of the 2-year period beginning on the day of the income beneficiary's death. For the purpose of determining whether the entire trust corpus is includible in the gross estate of the income beneficiary, any community property interest in the trust held by the income beneficiary's spouse which arises by reason of applicable U.S. state law is disregarded. During the period that the estate is treated as the shareholder for purposes of section 1361(b)(1), the trust is treated as the shareholder for purposes of sections 1366, 1367, and 1368. If, after the 60-day period, or the 2-year period, if applicable, the trust continues to hold S corporation stock, the corporation's S election terminates. If the termination is inadvertent, the corporation may request relief under section 1362(f).

(8) *Coordination with grantor trust rules.* If a valid QSST election is made, the income beneficiary is treated as the owner, for purposes of section 678(a), of that portion of the trust that consists of the stock of the S corporation for which the QSST election was made. However, solely for purposes of applying the preceding sentence to a QSST, an income beneficiary who is a deemed section 678 owner only by reason of section 1361(d)(1) will not be treated as the owner of the S corporation stock in determining and attributing the Federal income tax consequences of a disposition of the stock by the QSST. For example, if the disposition is a sale, the QSST election terminates as to the stock sold and any gain or loss recognized on the sale will be that of the trust, not the income beneficiary. Similarly, if a QSST distributes its S corporation stock to the income beneficiary, the QSST election terminates as to the distributed stock and the consequences of the distribution are determined by reference to the status of the trust apart from the income beneficiary's terminating ownership status under sections 678 and 1361(d)(1). The portions of the trust other than the portion consisting of S corporation stock are subject to subparts A through D of subchapter J of chapter 1, except as otherwise required by subpart E of the Internal Revenue Code.

(9) *Successive income beneficiary.* (i) If the income beneficiary of a QSST who made a QSST election dies, each successive income beneficiary of that trust is treated as consenting to the election unless a successive income beneficiary affirmatively refuses to consent to the election. For this purpose, the term *successive income beneficiary* includes a beneficiary of a trust whose interest is a separate share within the meaning of section 663(c), but does not include any beneficiary of a trust that is created upon the death of the income beneficiary of the QSST and which is a new trust under local law.

(ii) The application of this paragraph (j)(9) is illustrated by the following examples:

Example 1. Shares of stock in Corporation X, an S corporation, are held by Trust A, a QSST for which a QSST election was made. B is the sole income beneficiary of Trust A. On B's death, under the terms of Trust A, J and K become the current income beneficiaries of Trust A. J and K each hold a separate and independent share of Trust A within the meaning of section 663(c). J and K are successive income beneficiaries of Trust A, and they are treated as consenting to B's QSST election.

Example 2. Assume the same facts as in *Example 1,* except that on B's death, under the terms of Trust A and local law, Trust A terminates and the principal is to be divided equally and held in newly created Trust B and Trust C. The sole income beneficiaries of Trust B and Trust C are J and K, respectively. Because Trust A terminated, J and K are not successive income beneficiaries of Trust A. J and K must make QSST elections for their respective trusts to qualify as QSSTs, if they qualify. The result is the same whether or not the trustee of Trusts B and C is the same as the trustee of trust A.

(10) *Affirmative refusal to consent*—(i) *Required statement.* A successive income beneficiary of a QSST must make an affirmative refusal to consent by signing and filing with the service center where the corporation files its income tax return a statement that—

(A) Contains the name, address, and taxpayer identification number of the successive income beneficiary, the trust, and the corporation for which the election was made;

(B) Identifies the refusal as an affirmative refusal to consent under section 1361(d)(2); and

(C) Sets forth the date on which the successive income beneficiary became the income beneficiary.

(ii) *Filing date and effectiveness.* The affirmative refusal to consent must be filed within 15 days and 2 months after the date on which the successive income beneficiary becomes the income beneficiary. The affirmative refusal to consent will be effective as of the date on which the successive income beneficiary becomes the current income beneficiary.

(11) *Revocation of QSST election.* A QSST election may be revoked only with the consent of the Commissioner. The Commissioner will not grant a revocation when one of its purposes is the avoidance of Federal income taxes or when the taxable year is closed. The application for consent to revoke the election must be submitted to the Internal Revenue Service in the form of a letter ruling request under the appropriate revenue procedure. The application must be signed by the current income beneficiary and must—

(i) Contain the name, address, and taxpayer identification number of the current income beneficiary, the trust, and the corporation with respect to which the QSST election was made;

(ii) Identify the election being revoked as an election made under section 1361(d)(2); and

(iii) Explain why the current income beneficiary seeks to revoke the QSST election and indicate that the beneficiary understands the consequences of the revocation.

(k)(1) *Examples.* The provisions of paragraphs (h) and (j) of this section are illustrated by the following examples in which it is assumed that all noncorporate persons are citizens or residents of the United States:

Example 1. (i) *Terms of the trust.* In 1996, A and A's spouse, B, created an intervivos trust and each funded the trust with separately owned stock of an S corporation. Under the terms of the trust, A and B designated themselves as the income beneficiaries and each, individually, retained the power to amend or revoke the trust with respect to the trust assets attributable to their respective trust contributions. Upon A's death, the trust is to be divided into two separate parts; one part attributable to the assets A contributed to the trust and one part attributable to B's contributions. Before the trust is divided, and during the administration of A's estate, all trust income is payable to B. The part of the trust attributable to B's contributions is to continue in trust under the terms of which B is designated as the sole income beneficiary and retains the power to amend or revoke the trust. The part attributable to A's contributions is to be divided into two separate trusts both of which have B as the sole income beneficiary for life. One trust, the *Credit Shelter Trust,* is to be funded with an amount that can pass free of estate tax by reason of A's available estate tax unified credit. The terms of the Credit Shelter Trust meet the requirements of section 1361(d)(3) as a QSST. The balance of the property passes to a Marital Trust, the terms of which satisfy the requirements of section 1361(d)(3) as a QSST and section 2056(b)(7) as QTIP. The appropriate fiduciary under §20.2056(b)–7(b)(3) is directed to make an election under section 2056(b)(7).

(ii) *Results after deemed owner's death.* On February 3, 1997, A dies and the portion of the trust assets attributable to A's contributions including the S stock contributed by A, is includible in A's gross estate under sections 2036 and 2038. During the administration of A's estate, the trust holds the S corporation stock. Under section 1361(c)(2)(B)(ii), A's estate is treated as the shareholder of the S corporation stock that was included in A's gross estate for purposes of section 1361(b)(1); however, for purposes of sections 1366, 1367, and 1368, the trust is treated as the shareholder. B's part of the trust continues to be a qualified subpart E trust of which B is the owner under sections 676 and 677. B, therefore, continues to be treated as the shareholder of the S corporation stock in that portion of the trust. On May 13, 1997, during the continuing administration of A's estate, the trust is divided into separate trusts in accordance with the terms of the trust instrument. The S corporation stock that was included in A's gross estate is distributed to the Marital Trust and to the Credit Shelter Trust. A's estate will cease to be treated as the shareholder of the S corporation under section 1361(c)(2)(B)(ii) on May 13, 1997 (the date on which the S corporation stock was transferred to the trusts). B, as the income beneficiary of the Marital Trust and the Credit Shelter Trust, must make the QSST election for each trust by July 28, 1997 (the end of the 16-day-and-2-month period beginning on the date the estate ceases to be treated as a shareholder) to have the trusts become permitted shareholders of the S corporation.

Example 2. (i) *Qualified subpart E trust as shareholder.* In 1997, A, an individual established a trust and transferred to the trust A's shares of stock of Corporation M, an S corporation. A has the power to revoke the entire trust. The terms of the trust require that all income be paid to B and otherwise meet the requirements of a QSST under section 1361(d)(3). The trust will continue in existence after A's death. The trust is a qualified subpart E trust described in section 1361(c)(2)(A)(i) during A's life, and A (not the trust) is treated as the shareholder for purposes of sections 1361(b)(1), 1366, 1367, and 1368.

(ii) *Trust ceasing to be a qualified subpart E trust on deemed owner's death.* Assume the same facts as paragraph (i) of this *Example 2*, except that A dies without having exercised A's power to revoke. Upon A's death, the trust ceases to be a qualified subpart E trust described in section 1361(c)(2)(A)(i). A's estate (and not the trust) is treated as the shareholder for purposes of section 1361(b)(1). Because the entire corpus of the trust is includible in A's gross estate under section 2038, A's estate will cease to be treated as the shareholder for purposes of section 1361(b)(1) upon the earlier of the transfer of the Corporation M stock by the trust (other than to A's estate), the expiration of the 2-year period beginning on the day of A's death, or the effective date of a QSST election if the trust qualifies as a QSST. However, until that time, because the trust continues in existence after A's death and will receive any distributions with respect to the stock it holds, the trust is treated as the shareholder for purposes of sections 1366, 1367, and 1368. After the 2-year period, if no QSST election is made, the corporation ceases to be an S corporation, but the trust continues as the shareholder of a C corporation.

(iii) *Trust continuing to be a qualified subpart E trust on deemed owner's death.* Assume the same facts as paragraph (ii) of this *Example 2*, except that the terms of the trust also provide that if A does not exercise the power to revoke before A's death, B will have the sole power to withdraw all trust property at any time after A's death. The trust continues to qualify as a qualified subpart E trust after A's death because, upon A's death, B is deemed to be the owner of the entire trust under section 678. Because the trust does not cease to be a qualified subpart E trust upon A's death, B (and not A's estate) is treated as the shareholder for purposes of sections 1361(b)(1), 1366, 1367, and 1368. Since the trust qualifies as a QSST, B may make a protective QSST election under paragraph (j)(6)(iv) of this section.

Example 3. 60-day rule under section 1361(c)(2)(A) (ii) and (iii). F owns stock of Corporation P, an S corporation. In addition, F is the deemed owner of a qualified subpart E trust that holds stock in Corporation O, an S corporation. F dies on July 1, 1996. The trust continues in existence after F's death but is no longer a qualified subpart E trust. The entire corpus of the trust is not includible in F's gross estate. On August 1, 1996, F's shares of stock in Corporation P are transferred to the trust pursuant to the terms of F's will. Because the stock of Corporation P was not held by the trust when F died, section 1361(c)(2)(A)(ii) does not apply with respect to that stock. Under section 1361(c)(2)(A)(iii), the last day on which F's estate could be treated as a permitted shareholder of Corporation P is September 29, 1996 (that is, the last day of the 60-day period that begins on the date of the transfer from the estate to the trust). With respect to the shares of stock in Corporation O held by the trust at the time of F's death, section 1361(c)(2)(A)(ii) applies and the last day on which F's estate could be treated as a permitted shareholder of Corporation O is August 29, 1996 (that is, the last day of the 60-day period that begins on the date of F's death).

Example 4. (i) *QSST when terms do not require current distribution of income.* Corporation Q, a calendar year corporation, makes an election to be an S corporation effective for calendar year 1996. On July 1, 1996, G, a shareholder of Corporation Q, transfers G's shares of Corporation Q stock to a trust with H as its current income beneficiary. The terms of the trust otherwise satisfy the QSST requirements, but authorize the trustee in its discretion to accumulate or distribute the trust income. However, the trust, which uses the calendar year as its taxable year, initially satisfies the income distribution requirement because the trustee is currently distributing all of the income. On August 1, 1996, H makes a QSST election with respect to Corporation Q that is effective as of July 1, 1996. Accordingly, as of July 1, 1996, the trust is a QSST and H is treated as the shareholder for purposes of sections 1361(b)(1), 1366, 1367, and 1368.

(ii) *QSST when trust income is not distributed currently.* Assume the same facts as in paragraph (i) of this *Example 4,* except that, for the taxable year ending on December 31, 1997, the trustee accumulates some trust income. The trust ceases to be a QSST on January 1, 1998, because the trust failed to distribute all of its income for the taxable year ending December 31, 1997. Thus, Corporation Q ceases to be an S corporation as of January 1, 1998, because the trust is not a permitted shareholder.

(iii) *QSST when a person other than the current income beneficiary may receive trust corpus.* Assume the same facts as in paragraph (i) of this *Example 4,* except that H dies on November 1, 1996. Under the terms of the trust, after H's death, L is the income beneficiary of the trust and the trustee is authorized to distribute trust corpus to L as well as to J. The trust ceases to be a QSST as of November 1, 1996, because corpus distributions may be made to someone other than L, the current (successive) income beneficiary. Under section 1361(c)(2)(A)(ii), H's estate (and not the trust) is considered to be the shareholder for purposes of section 1361(b)(1) for the 60-day period beginning on November 1, 1996. However, because the trust continues in existence after H's death and will receive any distributions from the corporation, the trust (and not H's estate) is treated as the shareholder for purposes of sections 1366, 1367, and 1368, during that 60-day period. After the 60-day period, the S election terminates and the trust continues as a shareholder of a C corporation. If the termination is inadvertent, Corporation Q may request relief under section 1362(f). However, the S election would not terminate if the trustee distributed all Corporation Q shares to L, J, or both before December 30, 1996, (the last day of the 60-day period) assuming that neither L nor J becomes the 36th shareholder of Corporation Q as a result of the distribution.

Example 5. QSST when current income beneficiary assigns the income interest to a person not named in the trust. On January 1, 1996, stock of Corporation R, a calendar year S corporation, is transferred to a trust that satisfies all of the requirements to be a QSST. Neither the terms of the trust nor local law preclude the current income beneficiary, K, from assigning K's income interest in the trust. K files a timely QSST election that is effective January 1, 1996. On July 1, 1996, K assigns the income interest in the trust to N. Under applicable state law, the trustee is bound as a result of the assignment to distribute the trust income to N. Thus, the QSST will cease to qualify as a QSST under section 1361(d)(3)(A)(iii) because N's interest will terminate on K's death (rather than on N's death). Accordingly, as of the date of the assignment, the trust ceases to be a QSST and Corporation R ceases to be an S corporation.

Example 6. QSST when terms fail to provide for distribution of trust assets upon termination during life of current income beneficiary. A contributes S corporation stock to a trust the terms of which provide for one income beneficiary, annual distributions of income, discretionary invasion of corpus only for the benefit of the income beneficiary, and termination of the trust only upon the death of the current income beneficiary. Since the trust can terminate only upon the death of the income beneficiary, the governing instrument fails to provide for any distribution of trust assets during the income beneficiary's life. The governing instrument's silence on this point does not disqualify the trust under section 1361(d)(3)(A) (ii) or (iv).

Example 7. QSST when settlor of trust retains a reversion in the trust. On January 10, 1996, M transfers to a trust shares of stock in corporation X, an S corporation. D, who is 13 years old and not a lineal descendant of M, is the sole income beneficiary of the trust. On termination of the trust, the principal (including the X shares) is to revert to M. The trust instrument provides that the trust will terminate upon the earlier of D's death or D's 21st birthday. The terms of the trust satisfy all of the requirements to be a QSST except those of section 1361(d)(3)(A)(ii) (that corpus may be distributed during the current income beneficiary's life only to that beneficiary) and (iv) (that, upon termination of the trust during the life of the current income beneficiary, the corpus, must be distributed to that beneficiary). On February 10, 1996, M makes a gift of M's reversionary interest to D. Until M assigns M's reversion in the trust to D, M is deemed to own the entire trust under section 673(a) and the trust is a qualified subpart E trust. For purposes of section 1361(b)(1), 1366, 1367, and 1368, M is the shareholder of X. The trust ceases to be a qualified subpart E trust on February 10,

1996. Assuming that, by virtue of the assignment to D of M's reversionary interest, D (upon his 21st birthday) or D's estate (in the case of D's death before reaching age 21) is entitled under local law to receive the trust principal, the trust will be deemed as of February 10, 1996, to have satisfied the conditions of section 1361(d)(3)(A) (ii) and (iv) even though the terms of the trust do not explicitly so provide. D must make a QSST election by no later than April 25, 1996 (the end of the 16-day-and-2-month period that begins on February 10, 1996, the date on which the X stock is deemed transferred to the trust by M). See example (5) of §1.1001–2(c) of the regulations.

Example 8. QSST when the income beneficiary has the power to withdraw corpus. On January 1, 1996, F transfers stock of an S corporation to an irrevocable trust whose income beneficiary is F's son, C. Under the terms of the trust, C is given the noncumulative power to withdraw from the corpus of the trust the greater of $5,000 or 5 percent of the value of the corpus on a yearly basis. The terms of the trust meet the QSST requirements. Assuming the trust distributions are not in satisfaction of F's legal obligation to support C, the trust qualifies as a QSST. C (or if C is a minor, C's legal representative) must make the QSST election no later than March 16, 1996 (the end of the 16-day-and-2-month period that begins on the date the stock is transferred to the trust).

Example 9. (i) *Filing the QSST election.* On January 1, 1996, stock of Corporation T, a calendar year C corporation, is transferred to a trust that satisfies all of the requirements to be a QSST. On January 31, 1996, Corporation T files an election to be an S corporation that is to be effective for its taxable year beginning on January 1, 1996. In order for the S election to be effective for the 1996 taxable year, the QSST election must be effective January 1, 1996, and must be filed within the period beginning on January 1, 1996, and ending March 16, 1996 (the 16-day-and-2-month period beginning on the first day of the first taxable year for which the election to be an S corporation is intended to be effective).

(ii) *QSST election when the S election is filed late.* Assume the same facts as in paragraph (i) of this *Example 9,* except that Corporation T's election to be an S corporation is filed on April 1, 1996 (after the 15th day of the 3rd month of the first taxable year for which it is to be effective but before the end of that taxable year). Because the election to be an S corporation is not timely filed for the 1996 taxable year, under section 1362(b)(3), the S election is treated as made for the taxable year beginning on January 1, 1997. The QSST election must be filed within the 16-day-and-2-month period beginning on April 1, 1996, the date the S election was made, and ending on June 16, 1996.

Example 10. (i) *Transfers to QTIP trust.* On June 1, 1996, A transferred S corporation stock to a trust for the benefit of A's spouse B, the terms of which satisfy the requirements of section 2523(f)(2) as qualified terminable interest property. Under the terms of the trust, B is the sole income beneficiary for life. In addition, corpus may be distributed to B, at the trustee's discretion, during B's lifetime. However, under section 677(a), A is treated as the owner of the trust. Accordingly, the trust is a permitted shareholder of the S corporation under section 1361(c)(2)(A)(i), and A is treated as the shareholder for purposes of sections 1361(b)(1), 1366, 1367, and 1368.

(ii) *Transfers to QTIP trust where husband and wife divorce.* Assume the same facts as in paragraph (i) of this *Example 10,* except that A and B divorce on May 2, 1997. Under section 682, A ceases to be treated as the owner of the trust under section 677(a) because A and B are no longer husband and wife. Under section 682, after the divorce, B is the income beneficiary of the trust and corpus of the trust may only be distributed to B. Accordingly, assuming the trust otherwise meets the requirements of section 1361(d)(3), B must make the QSST election within 2 months and 15 days after the date of the divorce.

(iii) *Transfers to QTIP trust where no corpus distribution is permitted.* Assume the same facts as in paragraph (i) of this *Example 10,* except that the terms of the trust do not permit corpus to be distributed to B and require its retention by the trust for distribution to A and B's surviving children after the death of B. Under section 677, A is treated as the owner of the ordinary income portion of the trust, but the trust will be subject to tax on gross income allocable to corpus. Accordingly, the trust does not qualify as an eligible shareholder of the S corporation because it is neither a qualified subpart E trust nor a QSST.

(2) *Effective date*—(i) *In general.* Paragraph (a), and paragraphs (c) through (k) of this section apply to taxable years of a corporation beginning after July 21, 1995. For taxable years beginning on or before July 21, 1995, to which paragraph (a), and paragraphs (c) through (k) do not apply, see §18.1361–1 of this chapter (as contained in the 26 CFR edition revised April 1, 1995).

(ii) *Exception.* If a QSST has sold or otherwise disposed of all or a portion of its S corporation stock in a tax year that is open for the QSST and the income beneficiary but on or before July 21, 1995, the QSST and the income beneficiary may both treat the transaction as if the beneficiary was the owner of the stock sold or disposed of, and thus recognize any gain or loss, or as if the QSST was the owner of the stock sold or disposed of as described in paragraph (j)(8) of this section. This exception applies only if the QSST and the income beneficiary take consistent reporting positions. The QSST and the income beneficiary must disclose by a statement on their respective returns (or amended returns), that they are taking consistent reporting positions.

(l) *Classes of stock*—(1) *General rule.* A corporation that has more than one class of stock does not qualify as a small business corporation. Except as provided in paragraph (l)(4) of this section (relating to instruments, obligations, or arrangements treated as a second class of stock), a corporation is treated as having only one class of stock if all outstanding shares of stock of the corporation confer identical rights to distribution and liquidation proceeds. Differences in voting rights among shares of stock of a corporation are disregarded in determining whether a corporation has more than one class of stock. Thus, if all shares of stock of an S corporation have identical rights to distribution and liquidation proceeds, the corporation may have voting and nonvoting common stock, a class of stock that may vote only on certain issues, irrevocable proxy agreements, or groups of shares that differ with respect to rights to elect members of the board of directors.

(2) *Determination of whether stock confers identical rights to distribution and liquidation proceeds*—(i) *In general.* The determination of whether all outstanding shares of stock confer identical rights to distribution and liquidation proceeds is made based on the corporate charter, articles of incorporation, bylaws, applicable state law, and binding agreements relating to distribution and liquidation proceeds (collectively, the governing provisions). A commercial contractual agreement, such as a lease, employment agreement, or loan agreement, is not a binding agreement relating to distribution and liquidation proceeds and thus is not a governing provision unless a principal purpose of the agreement is to circumvent the one class of stock requirement of section 1361(b)(1)(D) and this paragraph (l). Although a corporation is not treated as having more than one class of stock so long as the governing provisions provide for identical distribution and liquidation rights, any distributions (including actual, constructive, or deemed distributions) that differ in timing or amount are to be given appropriate tax effect in accordance with the facts and circumstances.

(ii) *State law requirements for payment and withholding of income tax.* State laws may require a corporation to pay or withhold state income taxes on behalf of some or all of the corporation’s shareholders. Such laws are disregarded in determining whether all outstanding shares of stock of the corporation confer identical rights to distribution and liquidation proceeds, within the meaning of paragraph (l)(1) of this section, provided that, when the constructive distributions resulting from the payment or withholding of taxes by the corporation are taken into account, the outstanding shares confer identical rights to distribution and liquidation proceeds. A difference in timing between the constructive distributions and the actual distributions to the other shareholders does not cause the corporation to be treated as having more than one class of stock.

(iii) *Buy-sell and redemption agreements*—(A) *In general.* Buy-sell agreements among shareholders, agreements restricting the transferability of stock, and redemption agreements are disregarded in determining whether a corporation’s outstanding shares of stock confer identical distribution and liquidation rights unless—

(*1*) A principal purpose of the agreement is to circumvent the one class of stock requirement of section 1361(b)(1)(D) and this paragraph (l), and

(*2*) The agreement establishes a purchase price that, at the time the agreement is entered into, is significantly in excess of or below the fair market value of the stock.

Agreements that provide for the purchase or redemption of stock at book value or at a price between fair market value and book value are not considered to establish a price that is significantly in excess of or below the fair market value of the stock and, thus, are disregarded in determining whether the outstanding shares of stock confer identical rights. For purposes of this paragraph (l)(2)(iii)(A), a good faith determination of fair market value will be respected unless it can be shown that the value was substantially in error and the determination of the value was not performed with reasonable diligence. Although an agreement may be disregarded in determining whether shares of stock confer identical distribution and liquidation rights, payments pursuant to the agreement may have income or transfer tax consequences.

(B) *Exception for certain agreements.* Bona fide agreements to redeem or purchase stock at the time of death, divorce, disability, or termination of employment are disregarded in determining whether a corporation's shares of stock confer identical rights. In addition, if stock that is substantially nonvested (within the meaning of §1.83–3(b)) is treated as outstanding under these regulations, the forfeiture provisions that cause the stock to be substantially nonvested are disregarded. Furthermore, the Commissioner may provide by Revenue Ruling or other published guidance that other types of bona fide agreements to redeem or purchase stock are disregarded.

(C) *Safe harbors for determinations of book value.* A determination of book value will be respected if—

(*1*) The book value is determined in accordance with Generally Accepted Accounting Principles (including permitted optional adjustments); or

(*2*) The book value is used for any substantial nontax purpose.

(iv) *Distributions that take into account varying interests in stock during a taxable year.* A governing provision does not, within the meaning of paragraph (l)(2)(i) of this section, alter the rights to liquidation and distribution proceeds conferred by an S corporation's stock merely because the governing provision provides that, as a result of a change in stock ownership, distributions in a taxable year are to be made on the basis of the shareholders' varying interests in the S corporation's income in the current or immediately preceding taxable year. If distributions pursuant to the provision are not made within a reasonable time after the close of the taxable year in which the varying interests occur, the distributions may be recharacterized depending on the facts and circumstances, but will not result in a second class of stock.

(v) *Examples.* The application of paragraph (l)(2) of this section may be illustrated by the following examples. In each of the examples, the S corporation requirements of section 1361 are satisfied except as otherwise stated, the corporation has in effect an S election under section 1362, and the corporation has only the shareholders described.

Example 1. Determination of whether stock confers identical rights to distribution and liquidation proceeds. (i) The law of State A requires that permission be obtained from the State Commissioner of Corporations before stock may be issued by a corporation. The Commissioner grants permission to S, a corporation, to issue its stock subject to the restriction that any person who is issued stock in exchange for property, and not cash, must waive all rights to receive distributions until the shareholders who contributed cash for stock have received distributions in the amount of their cash contributions.

(ii) The condition imposed by the Commissioner pursuant to state law alters the rights to distribution and liquidation proceeds conferred by the outstanding stock of S so that those rights are not identical. Accordingly, under paragraph (l)(2)(i) of this section, S is treated as having more than one class of stock and does not qualify as a small business corporation.

Example 2. Distributions that differ in timing. (i) S, a corporation, has two equal shareholders, A and B. Under S's bylaws, A and B are entitled to equal distributions. S distributes $50,000 to A in the current year, but does not distribute $50,000 to B until one year later. The circumstances indicate that the difference in timing did not occur by reason of a binding agreement relating to distribution or liquidation proceeds.

(ii) Under paragraph (l)(2)(i) of this section, the difference in timing of the distributions to A and B does not cause S to be treated as having more than one class of stock. However, section 7872 or other recharacterization principles may apply to determine the appropriate tax consequences.

Example 3. Treatment of excessive compensation. (i) S, a corporation, has two equal shareholders, C and D, who are each employed by S and have binding employment agreements with S. The compensation paid by S to C under C's employment agreement is reasonable. The compensation paid by S to

D under D's employment agreement, however, is found to be excessive. The facts and circumstances do not reflect that a principal purpose to D's employment agreement is to circumvent the one class of stock requirement of section 1361(b)(1)(D) and this paragraph (l).

(ii) Under paragraph (l)(2)(i) of this section, the employment agreements are not governing provisions. Accordingly, S is not treated as having more than one class of stock by reason of the employment agreements, even though S is not allowed a deduction for the excessive compensation paid to D.

Example 4. Agreement to pay fringe benefits. (i) S, a corporation, is required under binding agreements to pay accident and health insurance premiums on behalf of certain of its employees who are also shareholders. Different premium amounts are paid by S for each employee-shareholder. The facts and circumstances do not reflect that a principal purpose of the agreements is to circumvent the one class of stock requirement of section 1361(b)(1)(D) and this paragraph (l).

(ii) Under paragraph (l)(2)(i) of this section, the agreements are not governing provisions. Accordingly, S is not treated as having more than one class of stock by reason of the agreements. In addition, S is not treated as having more than one class of stock by reason of the payment of fringe benefits.

Example 5. Below-market corporation-shareholder loan. (i) E is a shareholder of S, a corporation. S makes a below-market loan to E that is a corporation-shareholder loan to which section 7872 applies. Under section 7872, E is deemed to receive a distribution with respect to S stock by reason of the loan. The facts and circumstances do not reflect that a principal purpose of the loan is to circumvent the one class of stock requirement of section 1361(b)(1)(D) and this paragraph (l).

(ii) Under paragraph (l)(2)(i) of this section, the loan agreement is not a governing provision. Accordingly, S is not treated as having more than one class of stock by reason of the below-market loan to E.

Example 6. Agreement to adjust distributions for state tax burdens. (i) S, a corporation, executes a binding agreement with its shareholders to modify its normal distribution policy by making upward adjustments of its distributions to those shareholders who bear heavier state tax burdens. The adjustments are based on a formula that will give the shareholders equal after-tax distributions.

(ii) The binding agreement relates to distribution or liquidation proceeds. The agreement is thus a governing provision that alters the rights conferred by the outstanding stock of S to distribution proceeds so that those rights are not identical. Therefore, under paragraph (l)(2)(i) of this section, S is treated as having more than one class of stock.

Example 7. State law requirements for payment and withholding of income tax. (i) The law of State X requires corporations to pay state income taxes on behalf of nonresident shareholders. The law of State X does not require corporations to pay state income taxes on behalf of resident shareholders. S is incorporated in State X. S's resident shareholders have the right (for example, under the law of State X or pursuant to S's bylaws or a binding agreement) to distributions that take into account the payments S makes on behalf of its nonresident shareholders.

(ii) The payment by S of state income taxes on behalf of its nonresident shareholders are generally treated as constructive distributions to those shareholders. Because S's resident shareholders have the right to equal distributions, taking into account the constructive distributions to the nonresident shareholders, S's shares confer identical rights to distribution proceeds. Accordingly, under paragraph (l)(2)(ii) of this section, the state law requiring S to pay state income taxes on behalf of its nonresident shareholders is disregarded in determining whether S has more than one class of stock.

(iii) The same result would follow if the payments of state income taxes on behalf of nonresident shareholders are instead treated as advances to those shareholders and the governing provisions require the advances to be repaid or offset by reductions in distributions to those shareholders.

Example 8. Redemption agreements. (i) F, G, and H are shareholders of S, a corporation. F is also an employee of S. By agreement, S is to redeem F's shares on the termination of F's employment.

(ii) On these facts, under paragraph (l)(2)(iii)(B) of this section, the agreement is disregarded in determining whether all outstanding shares of S's stock confer identical rights to distribution and liquidation proceeds.

Example 9. Analysis of redemption agreements. (i) J, K, and L are shareholders of S, a corporation. L is also an employee of S. L's shares were not issued to L in connection with the performance of services. By agreement, S is to redeem L's shares for an amount significantly below their fair market value on the termination of L's employment or if S's sales fall below certain levels.

(ii) Under paragraph (l)(2)(iii)(B) of this section, the portion of the agreement providing for redemption of L's stock on termination of employment is disregarded. Under paragraph (l)(2)(iii)(A), the portion of the agreement providing for redemption of L's stock if S's sales fall below certain levels is disregarded unless a principal purpose of that portion of the agreement is to circumvent the one class of stock requirement of section 1361(b)(1)(D) and this paragraph (l).

(3) *Stock taken into account.* Except as provided in paragraphs (b) (3), (4), and (5) of this section (relating to restricted stock, deferred compensation plans, and straight debt), in determining whether all outstanding shares of stock confer identical rights to distribution and liquidation proceeds, all outstanding shares of stock of a corporation are taken into account. For example, substantially nonvested stock with respect to which an election under section 83(b) has been made is taken into account in determining whether a corporation has a second class of stock, and such stock is not treated as a second class of stock if the stock confers rights to distribution and liquidation proceeds that are identical, within the meaning of paragraph (l)(1) of this section, to the rights conferred by the other outstanding shares of stock.

(4) *Other instruments, obligations, or arrangements treated as a second class of stock*—(i) *In general.* Instruments, obligations, or arrangements are not treated as a second class of stock for purposes of this paragraph (l) unless they are described in paragraph (l)(5) (ii) or (iii) of this section. However, in no event are instruments, obligations, or arrangements described in paragraph (b)(4) of this section (relating to deferred compensation plans), paragraphs (l)(4)(iii) (B) and (C) of this section (relating to the exceptions and safe harbor for options), paragraph (l)(4)(ii)(B) of this section (relating to the safe harbors for certain short-term unwritten advances and proportionally-held debt), or paragraph (l)(5) of this section (relating to the safe harbor for straight debt), treated as a second class of stock for purposes of this paragraph (l).

(ii) *Instruments, obligations, or arrangements treated as equity under general principles*—(A) *In general.* Except as provided in paragraph (l)(4)(i) of this section, any instrument, obligation, or arrangement issued by a corporation (other than outstanding shares of stock described in paragraph (l)(3) of this section), regardless of whether designated as debt, is treated as a second class of stock of the corporation—

(*1*) If the instrument, obligation, or arrangement constituters equity or otherwise results in the holder being treated as the owner of stock under general principles of Federal tax law; and

(*2*) A principal purpose of issuing or entering into the instrument, obligation, or arrangement is to circumvent the rights to distribution or liquidation proceeds conferred by the outstanding shares of stock or to circumvent the limitation on eligible shareholders contained in paragraph (b)(1) of this section.

(B) *Safe harbor for certain short-term unwritten advances and proportionately held obligations*—(*1*) *Short-term unwritten advances.* Unwritten advances from a shareholder that do not exceed $10,000 in the aggregate at any time during the taxable year of the corporation, are treated as debt by the parties, and are expected to be repaid within a reasonable time are not treated as a second class of stock for that taxable year, even if the advances are considered equity under general principles of Federal tax law. The failure of an unwritten advance to meet this safe harbor will not result in a second class of stock unless the advance is considered equity under paragraph (l)(4)(ii)(A)(*1*) of this section and a principal purpose of the advance is to circumvent the rights of the outstanding shares of stock or the limitation on eligible shareholders under paragraph (l)(4)(ii)(A)(*2*) of this section.

(*2*) *Proportionately-held obligations.* Obligations of the same class that are considered equity under general principles of Federal tax law, but are owned solely by the owners of, and in the same proportion as, the outstanding stock of the corporation, are not treated as a second class of stock. Furthermore, an obligation or obligations owned by the sole shareholder of a corporation are always held proportionately to the corporation's outstanding stock. The obligations that are considered equity that do not meet this safe harbor will not result in a second class of stock unless a principal purpose of the obligations is to circumvent the rights of the outstanding shares of stock or the limitation on eligible shareholders under paragraph (l)(4)(ii)(A)(*2*) of this section.

(iii) *Certain call options, warrants or similar instruments*—(A) *In general.* Except as otherwise provided in this paragraph (l)(4)(iii), a call option, warrant, or similar instrument (collectively, call option) issued by a corporation is treated as a second class of stock of the corporation if, taking into account all the facts and circumstances, the call option is substantially certain to be exercised (by the holder or a potential transferee) and has a strike price substantially below the fair market value of the underlying stock on the date that the call option is issued, transferred by a person who is an eligible shareholder under paragraph (b)(1) of this section to a person who is not an eligible shareholder under paragraph (b)(1) of this section, or materially modified. For purposes of this paragraph (l)(4)(iii), if an option is issued in connection with a loan and the time period in which the option can be exercised is extended in connection with (and consistent with) a modification of the terms of the loan, the extension of the time period in which the option may be exercised is not considered a material modification. In addition, a call option does not have a strike price substantially below fair market value if the price at the time of exercise cannot, pursuant to the terms of the instrument, be substantially below the fair market value of the underlying stock at the time of exercise.

(B) *Certain exceptions.* (*1*) A call option is not treated as a second class of stock for purposes of this paragraph (l) if it is issued to a person that is actively and regularly engaged in the business of lending and issued in connection with a commercially reasonable loan to the corporation. This paragraph (l)(4)(iii)(B)(*1*) continues to apply if the call option is transferred with the loan (or if a portion of the call option is transferred with a corresponding portion of the loan). However, if the call option is transferred without a corresponding portion of the loan, this paragraph (l)(4)(iii)(B)(*1*) ceases to apply. Upon that transfer, the call option is tested under paragraph (l)(4)(iii)(A) (notwithstanding anything in that paragraph to the contrary) if, but for this paragraph, the call option would have been treated as a second class of stock on the date it was issued.

(*2*) A call option that is issued to an individual who is either an employee or an independent contractor in connection with the performance of services for the corporation or a related corporation (and that is not excessive by reference to the services performed) is not treated as a second class of stock for purposes of this paragraph (l) if—

(*i*) The call option is nontransferable within the meaning of §1.83–3(d); and

(*ii*) The call option does not have a readily ascertainable fair market value as defined in §1.83–7(b) at the time the option is issued.

If the call option becomes transferable, this paragraph (l)(4)(iii)(B)(*2*) ceases to apply. Solely for purposes of this paragraph (l)(4)(iii)(B)(*2*), a corporation is related to the issuing corporation if more than 50 percent of the total voting power and total value of its stock is owned by the issuing corporation.

(*3*) The Commissioner may provide other exceptions by Revenue Ruling or other published guidance.

(C) *Safe harbor for certain options.* A call option is not treated as a second class of stock if, on the date the call option is issued, transferred by a person who is an eligible shareholder under paragraph (b)(1) of this section to a person who is not an eligible shareholder under paragraph (b)(1) of this section, or materially modified, the strike price of the call option is at least 90 percent of the fair market value of the underlying stock on that date. For purposes of this paragraph (l)(4)(iii)(C), a good faith determination of fair market value by the corporation will be respected unless it can be shown that the value was substantially in error and the determination of the value was not performed with reasonable diligence to obtain a fair value. Failure of an option to meet this safe harbor will not necessarily result in the option being treated as a second class of stock.

(iv) *Convertible debt.* A convertible debt instrument is considered a second class of stock if—

(A) It would be treated as a second class of stock under paragraph (l)(4)(ii) of this section (relating to instruments, obligations, or arrangements treated as equity under general principles); or

(B) It embodies rights equivalent to those of a call option that would be treated as a second class of stock under paragraph (l)(4)(iii) of this section (relating to certain call options, warrants, and similar instruments).

(v) *Examples.* The application of this paragraph (l)(4) may be illustrated by the following examples. In each of the examples, the S corporation requirements of section 1361 are satisfied except as otherwise stated, the corporation has in effect an S election under section 1362, and the corporation has only the shareholders described.

Example 1. Transfer of call option by eligible shareholder to ineligible shareholder. (i) S, a corporation, has 10 shareholders. S issues call options to A, B, and C, individuals who are U.S. residents. A, B, and C are not shareholders, employees, or independent contractors of S. The options have a strike price of $40 and are issued on a date when the fair market value of S stock is also $40. A year later, P, a partnership, purchases A's option. On the date of transfer, the fair market value of S stock is $80.

(ii) On the date the call option is issued, its strike price is not substantially below the fair market value of the S stock. Under paragraph (l)(4)(iii)(A) of this section, whether a call option is a second class of stock must be redetermined if the call option is transferred by a person who is an eligible shareholder under paragraph (b)(1) of this section to a person who is not an eligible shareholder under paragraph (b)(1) of this section. In this case, A is an eligible shareholder of S under paragraph (b)(1) of this section, but P is not. Accordingly, the option is retested on the date it is transferred to D.

(iii) Because on the date the call option is transferred to P its strike price is 50% of the fair market value, the strike price is substantially below the fair market value of the S stock. Accordingly, the call option is treated as a second class of stock as of the date it is transferred to P if, at that time, it is determined that the option is substantially certain to be exercised. The determination of whether the option is substantially certain to be exercised is made on the basis of all the facts and circumstances.

Example 2. Call option issued in connection with the performance of services. (i) E is a bona fide employee of S, a corporation. S issues to E a call option in connection with E's performance of services. At the time the call option is issued, it is not transferable and does not have a readily ascertainable fair market value. However, the call option becomes transferable before it is exercised by E.

(ii) While the option is not transferable, under paragraph (l)(4)(iii)(B)(*2*) of this section, it is not treated as a second class of stock, regardless of its strike price. When the option becomes transferable, that paragraph ceases to apply, and the general rule of paragraph (l)(4)(iii)(A) of this section applies. Accordingly, if the option is materially modified or is transferred to a person who is not an eligible shareholder under paragraph (b)(1) of this section, and on the date of such modification or transfer, the option is substantially certain to be exercised and has a strike price substantially below the fair market value of the underlying stock, the option is treated as a second class of stock.

(iii) If E left S's employment before the option became transferable, the exception provided by paragraph (l)(4)(iii)(B)(*2*) would continue to apply until the option became transferable.

(5) *Straight debt safe harbor*—(i) *In general.* Notwithstanding paragraph (l)(4) of this section, straight debt is not treated as a second class of stock. For purposes of section 1361(c)(5) and this section, the term straight debt means a written unconditional obligation, regardless of whether embodied in a formal note, to pay a sum certain on demand, or on a specified due date, which—

(A) Does not provide for an interest rate or payment dates that are contingent on profits, the borrower's discretion, the payment of dividends with respect to common stock, or similar factors;

(B) Is not convertible (directly or indirectly) into stock or any other equity interest of the S corporation; and

(C) Is held by an individual (other than a nonresident alien), an estate, or a trust described in section 1361(c)(2).

(ii) *Subordination.* The fact that an obligation is subordinated to other debt of the corporation does not prevent the obligation from qualifying as straight debt.

(iii) *Modification or transfer.* An obligation that originally qualifies as straight debt ceases to so qualify if the obligation—

(A) Is materially modified so that it no longer satisfies the definition of straight debt; or

(B) Is transferred to a third party who is not an eligible shareholder under paragraph (b)(1) of this section.

(iv) *Treatment of straight debt for other purposes.* An obligation of an S corporation that satisfies the definition of straight debt in paragraph (l)(5)(i) of this section is not treated as a second class of stock even if it is considered equity under general principles of Federal tax law. Such an obligation is generally treated as debt and when so treated is subject to the applicable rules governing indebtedness for other purposes of the Code. Accordingly, interest paid or accrued with respect to a straight debt obligation is generally treated as interest by the corporation and the recipient and does not constitute a distribution to which section 1368 applies. However, if a straight debt obligation bears a rate of interest that is unreasonably high, an appropriate portion of the interest may be recharacterized and treated as a payment that is not interest. Such a recharacterization does not result in a second class of stock.

(v) *Treatment of C corporation debt upon conversion to S status.* If a C corporation has outstanding an obligation that satisfies the definition of straight debt in paragraph (l)(5)(i) of this section, but that is considered equity under general principles of Federal tax law, the obligation is not treated as a second class of stock for purposes of this section if the C corporation converts to S status. In addition, the conversion from C corporation status to S corporation status is not treated as an exchange of debt for stock with respect to such an instrument.

(6) *Inadvertent terminations.* See section 1362(f) and the regulations thereunder for rules relating to inadvertent terminations in cases where the one class of stock requirement has been inadvertently breached.

(7) *Effective date.* Section 1.1361–1(l) generally applies to taxable years of a corporation beginning on or after May 28, 1992. However, §1.1361–1(l) does not apply to: an instrument, obligation, or arrangement issued or entered into before May 28, 1992, and not materially modified after that date; a buy-sell agreement, redemption agreement, or agreement restricting transferability entered into before May 28, 1992, and not materially modified after that date; or a call option or similar instrument issued before May 28, 1992, and not materially modified after that date. In addition, a corporation and its shareholders may apply this §1.1361–1(l) to prior taxable years.

[T.D. 8419, 57 FR 22649, May 29, 1992; 57 FR 28613, June 26, 1992, as amended by T.D. 8600, 60 FR 37581, July 21, 1995; 60 FR 49976, Sept. 27, 1995; 60 FR 58234, Nov. 27, 1995; 61 FR 2869, Jan. 29, 1996]

§1.1362–1 Election to be an S corporation.

(a) In general.

(b) Years for which election is effective.

§1.1362–2 Termination of election.

(a) Termination by revocation.

(1) In general.

(2) When effective.

(i) In general.

(ii) Revocations specifying a prospective revocation date.

(3) Effect on taxable year of corporation.

(4) Rescission of a revocation.

(b) Termination by reason of corporation ceasing to be a small business corporation.

(1) In general.

(2) When effective.

(3) Effect on taxable year of corporation.

(c) Termination by reason of excess passive investment income.

(1) In general.

(2) When effective.

(3) Subchapter C earnings and profits.

(4) Gross receipts.

(i) In general.

(ii) Special rules for sales of capital assets, stock and securities.

(A) Sales of capital assets.

(B) Sales of stock or securities.

(*1*) In general.

(*2*) Treatment of certain liquidations.

(*3*) Definition of stock or securities.

(*4*) General partner interests.

(*i*) In general.

(*ii*) Exception.

(iii) Other exclusions from gross receipts.

(5) Passive investment income.

(i) In general.

(ii) Definitions.

(A) Royalties.

(*1*) In general.

(*2*) Royalties derived in the ordinary course of a trade or business.

(*3*) Copyright, mineral, oil and gas, and active business computer software royalties.

(B) Rents.

(*1*) In general.

(*2*) Rents derived in the active trade or business of renting property.

(*3*) Produced film rents.

(*4*) Income from leasing self-produced tangible property.
(C) Dividends.
(D) Interest.
(*1*) In general.
(*2*) Interest on obligations acquired in the ordinary course of a trade or business.
(E) Annuities.
(F) Gross receipts from the sale of stock or securities.
(G) Identified income.
(iii) Special rules.
(A) Options or commodities dealers.
(B) Treatment of certain lending, financing and other businesses.
(*1*) In general.
(*2*) Directly derived.
(C) Payment to a patron of a cooperative.
(6) Examples.
§ 1.1362–3 Treatment of S termination year.
(a) In general.
(b) Allocations other than pro rata.
(1) Elections under section 1362(e)(3).
(2) Purchase of stock treated as an asset purchase.
(3) 50 percent change in ownership during S termination year.
(c) Special rules.
(1) S corporation that is a partner in a partnership.
(2) Tax for the C short year.
(3) Each short year treated as taxable year.
(4) Year for carryover purposes.
(5) Due date for S short year return.
(6) Year in which income from S short year is includible.
(d) Examples.
§ 1.1362–4 Inadvertent terminations.
(a) In general.
(b) Inadvertent termination.
(c) Corporation's request for determination of an inadvertent termination.
(d) Adjustments.
(e) Corporation and shareholder consents.
(f) Status of corporation.
§ 1.1362–5 Election after termination.
(a) In general.
(b) Successor corporation.
(c) Automatic consent after certain terminations.
§ 1.1362–6 Elections and consents.
(a) Time and manner of making elections.
(1) In general.
(2) Election to be an S corporation.
(i) Manner of making election.
(ii) Time of making election.
(A) In general.
(B) Elections made during the first 2½ months treated as made for the following taxable year.
(C) Definition of month and beginning of the taxable year.
(iii) Examples.
(3) Revocation of S election.
(i) Manner of revoking election.
(ii) Time of revoking election.
(iii) Examples.
(4) Rescission of a revocation.
(i) Manner of rescinding a revocation.
(ii) Time of rescinding a revocation.
(5) Election not to apply pro rata allocation.
(b) Shareholders' consents.
(1) Manner of consents in general.
(2) Persons required to consent.
(i) Community interest in stock.
(ii) Minor.
(iii) Estate.
(iv) Trust.
(3) Special rules for consent of shareholder to election to be an S corporation.
(i) In general.
(ii) Examples.
(iii) Extension of time for filing consents to an election.
(A) In general.
(B) Required consents.
§ 1.1362–7 Effective date.
(a) In general.
(b) Special effective date for passive investment income provisions.

[T.D. 8449, 57 FR 55448, Nov. 25, 1992; 58 FR 3330, Jan. 8, 1993]

§ 1.1362–1 Election to be an S corporation.

(a) *In general.* Except as provided in § 1.1362–5, a small business corporation as defined in section 1361 may elect to be an S corporation under section 1362(a). An election may be made only with the consent of all of the shareholders of the corporation at the time of the election. See § 1.1362–6(a) for rules concerning the time and manner of making this election.

(b) *Years for which election is effective.* An election under section 1362(a) is effective for the entire taxable year of the corporation for which it is made and for all succeeding taxable years of the corporation, until the election is terminated.

[T.D. 8449, 57 FR 55449, Nov. 25, 1992]

§ 1.1362–2 Termination of election.

(a) *Termination by revocation*—(1) *In general.* An election made under section 1362(a) is terminated if the corporation revokes the election for any taxable year of the corporation for which the election is effective, including the first taxable year. A revocation may be made only with the consent of shareholders who, at the time the revocation is made, hold more than one-half of the number of issued and outstanding shares of stock (including non-voting stock) of the corporation. See §1.1362–6(a) for rules concerning the time and manner of revoking an election made under section 1362(a).

(2) *When effective*—(i) *In general.* Except as provided in paragraph (a)(2)(ii) of this section, a revocation made during the taxable year and before the 16th day of the third month of the taxable year is effective on the first day of the taxable year and a revocation made after the 15th day of the third month of the taxable year is effective for the following taxable year. If a corporation makes an election to be an S corporation that is to be effective beginning with the next taxable year and revokes its election on or before the first day of the next taxable year, the corporation is deemed to have revoked its election on the first day of the next taxable year.

(ii) *Revocations specifying a prospective revocation date.* If a corporation specifies a date for revocation and the date is expressed in terms of a stated day, month, and year that is on or after the date the revocation is filed, the revocation is effective on and after the date so specified.

(3) *Effect on taxable year of corporation.* In the case of a corporation that revokes its election to be an S corporation effective on the first day of the first taxable year for which its election is to be effective, any statement made with the election regarding a change in the corporation's taxable year has no effect.

(4) *Rescission of a revocation.* A corporation may rescind a revocation made under paragraph (a)(2) of this section at any time before the revocation becomes effective. A rescission may be made only with the consent of each person who consented to the revocation and by each person who became a shareholder of the corporation within the period beginning on the first day after the date the revocation was made and ending on the date on which the rescission is made. See §1.1362–6(a) for rules concerning the time and manner of rescinding a revocation.

(b) *Termination by reason of corporation ceasing to be a small business corporation*—(1) *In general.* If a corporation ceases to be a small business corporation, as defined in section 1361(b), at any time on or after the first day of the first taxable year for which its election under section 1362(a) is effective, the election terminates. In the event of a termination under this paragraph (b)(1), the corporation should attach to its return for the taxable year in which the termination occurs a notification that a termination has occurred and the date of the termination.

(2) *When effective.* If an election terminates because of a specific event that causes the corporation to fail to meet the definition of a small business corporation, the termination is effective as of the date on which the event occurs. If a corporation makes an election to be an S corporation that is effective beginning with the following taxable year and is not a small business corporation on the first day of that following taxable year, the election is treated as having terminated on that first day. If a corporation is a small business corporation on the first day of the taxable year for which its election is effective, its election does not terminate even if the corporation was not a small business corporation during all or part of the period beginning after the date the election was made and ending before the first day of the taxable year for which the election is effective.

(3) *Effect on taxable year of corporation.* In the case of a corporation that fails to meet the definition of a small business corporation on the first day of the first taxable year for which its election to be an S corporation is to be effective, any statement made with the election regarding a change in the corporation's taxable year has no effect.

(c) *Termination by reason of excess passive investment income*—(1) *In general.* A corporation's election under section 1362(a) terminates if the corporation has subchapter C earnings and profits at the close of each of three consecutive taxable years and, for each of those taxable years, has passive investment income in excess of 25 percent of gross receipts. See section 1375 for the tax imposed on excess passive investment income.

(2) *When effective.* A termination under this paragraph (c) is effective on the first day of the first taxable year beginning after the third consecutive

year in which the S corporation had excess passive investment income.

(3) *Subchapter C earnings and profits.* For purposes of this paragraph (c), *subchapter C earnings and profits* of a corporation are the earnings and profits of any corporation, including the S corporation or an acquired or predecessor corporation, for any period with respect to which an election under section 1362(a) (or under section 1372 of prior law) was not in effect. The subchapter C earnings and profits of an S corporation are modified as required by section 1371(c).

(4) *Gross receipts*—(i) *In general.* For purposes of this paragraph (c), *gross receipts* generally means the total amount received or accrued under the method of accounting used by the corporation in computing its taxable income and is not reduced by returns and allowances, cost of goods sold, or deductions.

(ii) *Special rules for sales of capital assets, stock and securities*—(A) *Sales of capital assets.* For purposes of this paragraph (c), gross receipts from the sales or exchanges of capital assets (as defined in section 1221), other than stock and securities, are taken into account only to the extent of capital gain net income (as defined in section 1222).

(B) *Sales of stock or securities*—(*1*) *In general.* For purposes of this paragraph (c), gross receipts from the sales or exchanges of stock or securities are taken into account only to the extent of gains therefrom. In addition, for purposes of computing gross receipts from sales or exchanges of stock or securities, losses do not offset gains.

(*2*) *Treatment of certain liquidations.* Gross receipts from the sales or exchanges of stock or securities do not include amounts described in section 1362(d)(3)(D)(iv), relating to the treatment of certain liquidations. For purposes of section 1362(d)(3)(D)(iv), stock of the liquidating corporation owned by an S corporation shareholder is not treated as owned by the S corporation.

(*3*) *Definition of stock or securities.* For purposes of this paragraph (c), *stock or securities* includes shares or certificates of stock, stock rights or warrants, or an interest in any corporation (including any joint stock company, insurance company, association, or other organization classified as a corporation under section 7701); an interest as a limited partner in a partnership; certificates of interest or participation in any profit-sharing agreement, or in any oil, gas, or other mineral property, or lease; collateral trust certificates; voting trust certificates; bonds; debentures; certificates of indebtedness; notes; car trust certificates; bills of exchange; or obligations issued by or on behalf of a State, Territory, or political subdivision thereof.

(*4*) *General partner interests*—(*i*) *In general.* Except as provided in paragraph (c)(4)(ii)(B)(*4*)(*ii*) of this section, if an S corporation disposes of a general partner interest, the gain on the disposition is treated as gain from the sale of stock or securities to the extent of the amount the S corporation would have received as a distributive share of gain from the sale of stock or securities held by the partnership if all of the stock and securities held by the partnership had been sold by the partnership at fair market value at the time the S corporation disposes of the general partner interest. In applying this rule, the S corporation's distributive share of gain from the sale of stock or securities held by the partnership is not reduced to reflect any loss that would be recognized from the sale of stock or securities held by the partnership. In the case of tiered partnerships, the rules of this section apply by looking through each tier.

(*ii*) *Exception.* An S corporation that disposes of a general partner interest may treat the disposition, for purposes of this paragraph (c), in the same manner as the disposition of an interest as a limited partner.

(iii) *Other exclusions from gross receipts.* For purposes of this paragraph (c), gross receipts do not include—

(A) Amounts received in nontaxable sales or exchanges except to the extent that gain is recognized by the corporation on the sale or exchange; or

(B) Amounts received as a loan, as a repayment of a loan, as a contribution to capital, or on the issuance by the corporation of its own stock.

(5) *Passive investment income*—(i) *In general.* In general, *passive investment income* means gross receipts (as defined

in paragraph (c)(4) of this section) derived from royalties, rents, dividends, interest, annuities, and gains from the sales or exchanges of stock or securities.

(ii) *Definitions.* For purposes of this paragraph (c)(5), the following definitions apply:

(A) *Royalties*—(*1*) *In general. Royalties* means all royalties, including mineral, oil, and gas royalties, and amounts received for the privilege of using patents, copyrights, secret processes and formulas, good will, trademarks, tradebrands, franchises, and other like property. The gross amount of royalties is not reduced by any part of the cost of the rights under which the royalties are received or by any amount allowable as a deduction in computing taxable income.

(*2*) *Royalties derived in the ordinary course of a trade or business. Royalties* does not include royalties derived in the ordinary course of a trade or business of franchising or licensing property. Royalties received by a corporation are derived in the ordinary course of a trade or business of franchising or licensing property only if, based on all the facts and circumstances, the corporation—

(*i*) Created the property; or

(*ii*) Performed significant services or incurred substantial costs with respect to the development or marketing of the property.

(*3*) *Copyright, mineral, oil and gas, and active business computer software royalties. Royalties* does not include copyright royalties, nor mineral, oil and gas royalties if the income from those royalties would not be treated as personal holding company income under sections 543 (a)(3) and (a)(4) if the corporation were a C corporation; amounts received upon disposal of timber, coal, or domestic iron ore with respect to which the special rules of sections 631 (b) and (c) apply; and active business computer software royalties as defined under section 543(d) (without regard to paragraph (d)(5) of section 543).

(B) *Rents*—(*1*) *In general. Rents* means amounts received for the use of, or right to use, property (whether real or personal) of the corporation.

(*2*) *Rents derived in the active trade or business of renting property. Rents* does not include rents derived in the active trade or business of renting property. Rents received by a corporation are derived in an active trade or business of renting property only if, based on all the facts and circumstances, the corporation provides significant services or incurs substantial costs in the rental business. Generally, significant services are not rendered and substantial costs are not incurred in connection with net leases. Whether significant services are performed or substantial costs are incurred in the rental business is determined based upon all the facts and circumstances including, but not limited to, the number of persons employed to provide the services and the types and amounts of costs and expenses incurred (other than depreciation).

(*3*) *Produced film rents. Rents* does not include produced film rents as defined under section 543(a)(5).

(*4*) *Income from leasing self-produced tangible property. Rents* does not include compensation, however designated, for the use of, or right to use, any real or tangible personal property developed, manufactured, or produced by the taxpayer, if during the taxable year the taxpayer is engaged in substantial development, manufacturing, or production of real or tangible personal property of the same type.

(C) *Dividends. Dividends* includes dividends as defined in section 316, amounts to be included in gross income under section 551 (relating to foreign personal holding company income taxed to U.S. shareholders), and consent dividends as provided in section 565. See paragraphs (c)(5)(iii) (B) and (C) of this section for special rules for the treatment of certain dividends and certain payments to a patron of a cooperative.

(D) *Interest*—(*1*) *In general. Interest* means any amount received for the use of money (including tax-exempt interest and amounts treated as interest under section 483, 1272, 1274, or 7872). See paragraph (c)(5)(iii)(B) of this section for a special rule for the treatment of interest derived in certain businesses.

(*2*) *Interest on obligations acquired in the ordinary course of a trade or business. Interest* does not include interest on any obligation acquired from the sale of property described in section 1221(1) or the performance of services in the ordinary course of a trade or business of selling the property or performing the services.

(E) *Annuities. Annuities* means the entire amount received as an annuity under an annuity, endowment, or life insurance contract, if any part of the amount would be includible in gross income under section 72.

(F) *Gross receipts from the sale of stock or securities.* Gross receipts from the sales or exchanges of stock or securities, as described in paragraph (c)(4)(ii)(B) of this section, are passive investment income to the extent of gains therefrom. See paragraph (c)(5)(iii)(B) of this section for a special rule for the treatment of gains derived in certain businesses.

(G) *Identified income. Passive investment income* does not include income identified by the Commissioner by regulations, revenue ruling, or revenue procedure as income derived in the ordinary course of a trade or business for purposes of this section.

(iii) *Special rules.* For purposes of this paragraph (c)(5), the following special rules apply:

(A) *Options or commodities dealers.* In the case of an options dealer or commodities dealer, *passive investment income* does not include any gain or loss (in the normal course of the taxpayer's activity of dealing in or trading section 1256 contracts) from any section 1256 contract or property related to the contract. *Options dealer, commodities dealer,* and *section 1256 contract* have the same meaning as in section 1362(d)(3)(E)(ii).

(B) *Treatment of certain lending, financing and other business*—(*1*) *In general. Passive investment income* does not include gross receipts that are directly derived in the ordinary course of a trade or business of—

(*i*) Lending or financing;

(*ii*) Dealing in property;

(*iii*) Purchasing or discounting accounts receivable, notes, or installment obligations; or

(*iv*) Servicing mortgages.

(*2*) *Directly derived.* For purposes of this paragraph (c)(5)(iii)(B), gross receipts directly derived in the ordinary course of business includes gain (as well as interest income) with respect to loans originated in a lending business, or interest income (as well as gain) from debt obligations of a dealer in such obligations. However, interest earned from the investment of idle funds in short-term securities does not constitute gross receipts directly derived in the ordinary course of business. Similarly, a dealer's income or gain from an item of property is not directly derived in the ordinary course of its trade or business if the dealer held the property for investment at any time before the income or gain is recognized.

(C) *Payment to a patron of a cooperative. Passive investment income* does not include amounts included in the gross income of a patron of a cooperative (within the meaning of section 1381(a), without regard to paragraph (2) (A) or (C) of section 1381(a)) by reason of any payment or allocation to the patron based on patronage occurring in the case of a trade or business of the patron.

(6) *Examples.* The principles of paragraphs (c)(4) and (c)(5) of this section are illustrated by the following examples. Unless otherwise provided in an example, *S* is an S corporation with subchapter C earnings and profits, and *S*'s gross receipts from operations are gross receipts not derived from royalties, rents, dividends, interest, annuities, or gains from the sales or exchanges of stock or securities. *S* is a calendar year taxpayer and its first taxable year as an S corporation is 1993.

Example 1. Sales of capital assets, stock and securities. (i) *S* uses an accrual method of accounting and sells:

(1) A depreciable asset, held for more than 6 months, which is used in the corporation's business;

(2) A capital asset (other than stock or securities) for a gain;

(3) A capital asset (other than stock or securities) for a loss; and

(4) Securities.

S receives payment for each asset partly in money and partly in the form of a note payable at a future time, and elects not to report the sales on the installment method.

(ii) The amount of money and the face amount (or issue price if different) of the note received for the business asset are considered gross receipts in the taxable year of sale and are not reduced by the adjusted basis of the property, costs of sale, or any other amount. With respect to the sales of the capital assets, gross receipts include the cash down payment and face amount (or issue price if different) of any notes, but only to the extent of *S*'s capital gain net income. In the case of the sale of the securities, gross receipts include the cash down payment and face amount (or issue price if different) of the notes, but only to the extent of gain on the sale. In determining gross receipts from sales of securities, losses are not netted against gains.

Example 2. Long-term contract reported on percentage-of-completion method. S has a long-term contract as defined in §1.451–3(b) with respect to which it reports income according to the percentage-of-completion method as described in §1.451–3(c)(1). The portion of the gross contract price which corresponds to the percentage of the entire contract which has been completed during the taxable year is included in *S*'s gross receipts for the year.

Example 3. Income reported on installment sale method. For its 1993 taxable year, S sells personal property on the installment plan and elects to report its taxable income from the sale of the property (other than property qualifying as a capital asset or stock or securities) on the installment method in accordance with section 453. The installment payment actually received in a given taxable year of S is included in gross receipts for the year.

Example 4. Partnership interests. In 1993, S and two of its shareholders contribute cash to form a general partnership, PRS. S receives a 50 percent interest in the capital and profits of PRS. S formed PRS to indirectly invest in marketable stocks and securities. The only assets of PRS are the stock and securities, and certain real and tangible personal property. In 1994, S needs cash in its business and sells its partnership interest at a gain rather than having PRS sell the marketable stock or securities that have appreciated. Under paragraph (c)(4)(ii)(B)(*4*) of this section, the gain on S's disposition of its interest is PRS is treated as gain from the sale or exchange of stock or securities to the extent of the amount the distributive share of gain S would have received from the sale of stock or securities held by PRS if PRS had sold all of its stock or securities at fair market value at the time S disposed of its interest in PRS.

Example 5. Royalties derived in ordinary course of trade or business. (i) In 1993, S has gross receipts of $75,000. Of this amount, $5,000 is from royalty payments with respect to Trademark A, $8,000 is from royalty payments with respect to Trademark B, and $62,000 is gross receipts from operations. S created Trademark A, but S did not create Trademark B or perform significant services or incur substantial costs with respect to the development or marketing of Trademark B.

(ii) Because S created Trademark A, the royalty payments with respect to Trademark A are derived in the ordinary course of S's business and are not included within the definition of *royalties* for purposes of determining S's passive investment income. However, the royalty payments with respect to Trademark B are included within the definition of *royalties* for purposes of determining S's passive investment income. See paragraph (c)(5)(ii)(A) of this section. S's passive investment income for the year is $8,000, and S's passive investment income percentage for the taxable year is 10.67% ($8,000/$75,000). This does not exceed 25 percent of S's gross receipts and consequently the three-year period described in section 1362(d)(3) does not begin to run.

Example 6. Dividends; gain on sale of stock derived in the ordinary course of trade or business. (i) In 1993, S receives dividends of $10,000 on stock of corporations P and O, recognizes a gain of $25,000 on sale of the P stock, and recognizes a loss of $12,000 on sale of the O stock. S held the P and O stock for investment, rather than for sale in the ordinary course of a trade or business. S has gross receipts from operations and from gain on the sale of stock in the ordinary course of its trade or business of $110,000.

(ii) S's gross receipts are calculated as follows:

$110,000	Gross receipts from operations and from gain on the sale of stock in the ordinary course of a trade or business
10,000	Gross dividend receipts
25,000	Gain on sale of P stock (Loss on O stock not taken into account
145,000	Total gross receipts

(iii) S's passsive investment income is determined as follows:

$10,000	Gross dividend receipts
25,000	Gain on sale of P stock (Loss on O stock not taken into account
35,000	Total passive investment income

(iv) S's passive investment income percentage for its first year as an S corporation is 24.1% ($35,000/$145,000). This does not exceed 25 percent of S's gross receipts and consequently the three-year period described in section 1362(d)(3) does not begin to run.

Example 7. Interest on accounts receivable; netting of gain on sale of real property investments. (i) In 1993, S receives $6,000 of interest on accounts receivable arising from S's sales of inventory property. S also received dividends with respect to stock held for investment of $1,500. In addition, *S* sells two parcels of real property (Property J and Property K) that S had purchased and held for investment. S sells Property J, in which S has a basis of $5,000, for $10,000 (a gain of $5,000). S sells Property K, in which S has a basis of $12,000, for $9,000 (a loss of $3,000). S has gross receipts from operations of $90,000.

(ii) S's gross receipts are calculated as follows:

$90,000	Gross receipts from operations
6,000	Gross interest receipts
1,500	Gross dividend receipts
2,000	Net gain on sale of real property investments
$99,500	Total gross receipts

(iii) Under paragraph (c)(5)(ii)(D) of this section, S's gross interest receipts are not passive investment income. In addition, gain on the sale of real property ($2,000) is not passive investment income. S's passive investment income includes only the $1,500 of gross dividend receipts. Accordingly, S's passive investment income percentage for its first year as an S corporation is 1.51% ($1,500/ $99,500). This does not exceed 25 percent of S's gross receipts and consequently the three-year period described in section 1362(d)(3) does not begin to run.

Example 8. Interest received in the ordinary course of a lending business. (i) In 1993, S has gross receipts of $100,000 from loans and investments made in the ordinary course of S's mortgage banking business. This includes, for example, mortgage servicing fees, interest earned on mortgages prior to sale of the mortgages, and gain on sale of mortgages. In addition, S receives, from the investment of idle funds in short-term securities, $15,000 of gross interest income and $5,000 of gain.

(ii) S's gross receipts are calculated as follows:

$100,000	Gross receipts from operations
15,000	Gross interest receipts
5,000	Gain on sale of securities
120,000	Total gross receipts

(iii) *S*'s passive investment income is determined as follows:

$15,000	Gross interest receipts
5,000	Gain on sale of securities,
20,000	Total passive investment income

(iv) S's passive investment income percentage for its first year as an S corporation is 16.67% ($20,000/$120,000). This does not exceed 25 percent of S's gross receipts and consequently the three-year period described in section 1362(d)(3) does not begin to run.

[T.D. 8449, 57 FR 55449, Nov. 25, 1992; 58 FR 15274, Mar. 22, 1993]

§ 1.1362–3 Treatment of S termination year.

(a) *In general.* If an S election terminates under section 1362(d) on a date other than the first day of a taxable year of the corporation, the corporation's taxable year in which the termination occurs is an S termination year. The portion of the S termination year ending at the close of the day prior to the termination is treated as a short taxable year for which the corporation is an S corporation (the *S short year*). The portion of the S termination year beginning on the day the termination is effective is treated as a short taxable year for which the corporation is a C corporation (the *C short year*). Except as provided in paragraphs (b) and (c)(1) of this section, the corporation allocates income or loss for the entire year on a pro rata basis as described in section 1362(e)(2). To the extent that income or loss is not allocated on a pro rata basis under this section, items of income, gain, loss, deduction, and credit are assigned to each short taxable year on the basis of the corporation's normal method of accounting as determined under section 446.

(b) *Allocations other than pro rata*—(1) *Elections under section 1362(e)(3).* The pro rata allocation rules of section 1362(e)(2) do not apply if the corporation elects to allocate its S termination year income on the basis of its normal tax accounting method. This election may be made only with the consent of each person who is a shareholder in the corporation at any time during the S short year and of each person who is a shareholder in the corporation on the first day of the C short year. See § 1.1362–6(a) for rules concerning the time and manner of making this election.

(2) *Purchase of stock treated as an asset purchase.* The pro rata allocation rules of section 1362(e)(2) do not apply with respect to any item resulting from the application of section 338.

(3) *50 percent change in ownership during S termination year.* The pro rata allocation rules of section 1362(e)(2) do not apply if at any time during the S termination year, as a result of sales or exchanges of stock in the corporation during that year, there is a change in ownership of 50 percent or more of the

issued and outstanding shares of stock of the corporation. If stock has already been sold or exchanged during the S termination year, subsequent sales or exchanges of that stock are not taken into account for purposes of this paragraph (b)(3).

(c) *Special rules*—(1) *S corporation that is a partner in a partnership.* For purposes of section 706(c) only, the termination of the election of an S corporation that is a partner in a partnership during any portion of the S short year under §1.1362–2 (a) or (b), is treated as a sale or exchange of the corporation's entire interest in the partnership on the last day of the S short year, if—

(i) The pro rata allocation rules do not apply to the corporation; and

(ii) Any taxable year of the partnership ends with or within the C short year.

(2) *Tax for the C short year.* The taxable income for the C short year is determined on an annualized basis as described in section 1362(e)(5).

(3) *Each short year treated as taxable year.* Except as otherwise provided in paragraph (c)(4) of this section, the S and C short years are treated as two separate years for purposes of all provisions of the Internal Revenue Code.

(4) *Year for carryover purposes.* The S and C short years are treated as one year for purposes of determining the number of taxable years to which any item may be carried back or forward by the corporation.

(5) *Due date for S short year return.* The date by which the return for the S short year must be filed is the same as the date by which the return for the C short year must be filed (including extensions).

(6) *Year in which income from S short year is includible.* A shareholder must include in taxable income the shareholder's pro rata share of the items described in section 1366(a) for the S short year for the taxable year with or within which the S termination year ends.

(d) *Examples.* The provisions of this section are illustrated by the following examples:

Example 1. S termination year not created. (i) On January 1, 1993, the first day of its taxable year, a subchapter C corporation had three eligible shareholders. During 1993, the corporation properly elected to be treated as an S corporation effective January 1, 1994, the first day of the succeeding taxable year. Subsequently, a transfer of some of the stock in the corporation was made to an ineligible shareholder. The ineligible shareholder still holds the stock on January 1, 1994.

(ii) The corporation fails to meet the definition of a small business corporation on January 1, 1994, and its election is treated as having terminated on that date. See §1.1362–2(b)(2) for the termination rules. Because the corporation ceases to be a small business corporation on the first day of a taxable year, an S termination year is not created. In addition, if the corporation in the future meets the definition of a small business corporation and desires to elect to be treated as an S corporation, the corporation is automatically granted consent to reelect before the expiration of the 5-year waiting period. See §1.1362–5 for special rules concerning automatic consent to reelect.

Example 2. More than 50 percent change in ownership during S short year. A, an individual, owns all 100 outstanding shares of stock of S, a calendar year S corporation. On January 31, 1993, A sells 60 shares of S stock to B, an individual. On June 1, 1993, A sells 5 shares of S stock to PRS, a partnership. S ceases to be a small business corporation on June 1, 1993, and pursuant to section 1362(d)(2), its election terminates on that date. Because there was a more than 50 percent change in ownership of the issued and outstanding shares of S stock, S must assign the items of income, loss, deduction, or credit for the S termination year to the two short taxable years on the basis of S's normal method of accounting under the rules of paragraph (b)(3) of this section.

Example 3. More than 50 percent change in ownership during C short year. A, an individual, owns all 100 outstanding shares of stock of S, a calendar year S corporation. On June 1, 1993, A sells 5 shares of S stock to PRS, a partnership. S ceases to be a small business corporation on that date and pursuant to section 1362(d)(3), its election terminates on that date. On July 1, 1993, A sells 60 shares of S stock to B, an individual. Since there was a more than 50 percent change in ownership of the issued and outstanding shares of S stock during the S termination year, S must assign the items of income, loss, deduction, or credit for the S termination year to the two short taxable years on the basis of S's normal method of accounting under the rules of paragraph (b)(3) of this section.

Example 4. Stock acquired other than by sale or exchange. C and D are shareholders in S, a calendar year S corporation. Each owns 50 percent of the issued and outstanding shares of the corporation on December 31, 1993. On March 1, 1994, C makes a gift of his entire shareholder interest to T, a trust not permitted as a shareholder under section 1361(c)(2). S ceases to be a small business corporation on March 1, 1994, and pursuant to section 1362(d)(2), its S corporation election terminates effective on that date. As a result of the gift, T owns 50 percent of S's issued and outstanding stock. However, because T acquired the stock by gift from C rather than by sale or exchange, there has not been a more than 50 percent change in ownership by sale or exchange of S that would cause the rules of paragraph (b)(3) of this section to apply.

[T.D. 8449, 57 FR 55452, Nov. 25, 1992]

§1.1362–4 Inadvertent terminations.

(a) *In general.* A corporation is treated as continuing to be an S corporation during the period specified by the Commissioner if—

(1) The corporation made a valid election under section 1362(a) and the election terminated;

(2) The Commissioner determines that the termination was inadvertent;

(3) Steps were taken by the corporation to return to small business corporation status within a reasonable period after discovery of the terminating event; and

(4) The corporation and shareholders agree to adjustments that the Commissioner may require for the period.

(b) *Inadvertent termination.* For purposes of paragraph (a) of this section, the determination of whether a termination was inadvertent is made by the Commissioner. The corporation has the burden of establishing that under the relevant facts and circumstances the Commissioner should determine that the termination was inadvertent. The fact that the terminating event was not reasonably within the control of the corporation and was not part of a plan to terminate the election, or the fact that the event took place without the knowledge of the corporation, notwithstanding its due diligence to safeguard itself against such an event, tends to establish that the termination was inadvertent.

(c) *Corporation's request for determination of an inadvertent termination.* A corporation that believes its election was terminated inadvertently may request a determination of inadvertent termination from the Commissioner. The request is made in the form of a ruling request and should set forth all relevant facts pertaining to the event including, but not limited to, the facts described in paragraph (b) of this section, the date of the corporation's election under section 1362(a), a detailed explanation of the event causing termination, when and how the event was discovered, and the steps taken to return the corporation to small business corporation status.

(d) *Adjustments.* The Commissioner may require any adjustments that are appropriate. In general, the adjustments required should be consistent with the treatment of the corporation as an S corporation during the period specified by the Commissioner. In the case of a transfer of stock to an ineligible shareholder that causes an inadvertent termination under section 1362(f), the Commissioner may require the ineligible shareholder to be treated as a shareholder of an S corporation during the period the ineligible shareholder actually held stock in the corporation. Moreover, the Commissioner may require protective adjustments that prevent any loss of revenue due to a transfer of stock to an ineligible shareholder (e.g., a transfer to a nonresident alien).

(e) *Corporation and shareholder consents.* The corporation and all persons who were shareholders of the corporation at any time during the period specified by the Commissioner must consent to any adjustments that the Commissioner may require. Each consent should be in the form of a statement agreeing to make the adjustments. The statement must be signed by the shareholder (in the case of shareholder consent) or a person authorized to sign the return required by section 6037 (in the case of corporate consent). See §1.1362–6(b)(2) for persons required to sign consents. A shareholder's consent statement should include the name, address, and taxpayer identification numbers of the corporation and shareholder, the number of shares of stock owned by the shareholder, and the dates on which the shareholder owned any stock. The corporate consent statement should include the name, address, and taxpayer identification numbers of the corporation and each shareholder.

(f) *Status of corporation.* The status of the corporation after the terminating event and before the determination of inadvertence is determined by the Commissioner. Inadvertent termination relief may be granted retroactive for all years for which the terminating event was effective, in which case the corporation is treated as if its election had not terminated. Alternatively, relief may be granted only for the period in which the corporation again became eligible for subchapter S treatment, in which case the corporation is treated as a C corporation during the period for which the corporation was not eligible to be an S corporation.

[T.D. 8449, 57 FR 55453, Nov. 25, 1992]

§1.1362–5 Election after termination.

(a) *In general.* Absent the Commissioner's consent, an S corporation whose election has terminated (or a successor corporation) may not make a new election under section 1362(a) for five taxable years as described in section 1362(g). However, the Commissioner may permit the corporation to make a new election before the 5-year period expires. The corporation has the burden of establishing that under the relevant facts and circumstances, the Commissioner should consent to a new election. The fact that more than 50 percent of the stock in the corporation is owned by persons who did not own any stock in the corporation on the date of the termination tends to establish that consent should be granted. In the absence of this fact, consent ordinarily is denied unless the corporation shows that the event causing termination was not reasonably within the control of the corporation or shareholders having a substantial interest in the corporation and was not part of a plan on the part of the corporation or of such shareholders to terminate the election.

(b) *Successor corporation.* A corporation is a *successor corporation* to a corporation whose election under section 1362 has been terminated if—

(1) 50 percent or more of the stock of the corporation (the new corporation) is owned, directly or indirectly, by the same persons who, on the date of the termination, owned 50 percent or more of the stock of the corporation whose election terminated (the old corporation); and

(2) Either the new corporation acquires a substantial portion of the assets of the old corporation, or a substantial portion of the assets of the new corporation were assets of the old corporation.

(c) *Automatic consent after certain terminations.* A corporation may, without requesting the Commissioner's consent, make a new election under section 1362(a) before the 5-year period described in section 1362(g) expires if the termination occurred because the corporation—

(1) Revoked its election effective on the first day of the first taxable year for which its election was to be effective (see §1.1362–2(a)(2)); or

(2) Failed to meet the definition of a small business corporation on the first day of the first taxable year for which its election was to be effective (see §1.1362–2(b)(2)).

[T.D. 8449, 57 FR 55454, Nov. 25, 1992]

§1.1362–6 Elections and consents.

(a) *Time and manner of making elections*—(1) *In general.* An election statement made under this section must identify the election being made, set forth the name, address, and taxpayer identification number of the corporation, and be signed by a person authorized to sign the return required to be filed under section 6037.

(2) *Election to be an S corporation*—(i) *Manner of making election.* A small business corporation makes an election under section 1362(a) to be an S corporation by filing a completed Form 2553. The election form must be filed with the service center designated in the instructions applicable to Form 2553. The election is not valid unless all shareholders of the corporation at the time of the election consent to the election in the manner provided in paragraph (b) of this section. However, once a valid election is made, new shareholders need not consent to that election.

(ii) *Time of making election*—(A) *In general.* The election described in paragraph (a)(2)(i) of this section may be made by a small business corporation at any time during the taxable year that immediately precedes the taxable year for which the election is to be effective, or during the taxable year for which the election is to be effective provided that the election is made before the 16th day of the third month of the year. If a corporation makes an election for a taxable year, and the election meets all the requirements of this section but is made during the period beginning after the 15th day of the third month of the taxable year, the election is treated as being made for the following taxable year provided that the corporation meets all the requirements of section 1361(b) at the time the election is made. For taxable years of 2½ months or less, an election made before the 16th day of the third month after the first day of the taxable year is treated as made during that year.

(B) *Elections made during the first 2½ months treated as made for the following taxable year.* A timely election made by a small business corporation during the taxable year for which it is intended to be effective is nonetheless treated as made for the following taxable year if—

(*1*) The corporation is not a small business corporation during the entire portion of the taxable year which occurs before the date the election is made; or

(*2*) Any person who held stock in the corporation at any time during the portion of the taxable year which occurs before the time the election is made, and who does not hold stock at the time the election is made, does not consent to the election.

(C) *Definition of month and beginning of the taxable year. Month* means a period commencing on the same numerical day of any calendar month as the day of the calendar month on which the taxable year began and ending with the close of the day preceding the numerically corresponding day of the succeeding calendar month or, if there is no corresponding day, with the close of the last day of the succeeding calendar month. In addition, the taxable year of a new corporation begins on the date that the corporation has shareholders, acquires assets, or begins doing business, whichever is the first to occur. The existence of incorporators does not necessarily begin the taxable year of a new corporation.

(iii) *Examples.* The provisions of this section are illustrated by the following examples:

Example 1. Effective election; no prior taxable year. A calendar year small business corporation begins its first taxable year on January 7, 1993. To be an S corporation beginning with its first taxable year, the corporation must make the election set forth in this section during the period that begins January 7, 1993, and ends before March 22, 1993. Because the corporation had no taxable year immediately preceding the taxable year for which the election is to be effective, an election made earlier than January 7, 1993, will not be valid.

Example 2. Effective election; taxable year less than 2 ½ months. A calendar year small business corporation begins its first taxable year on November 8, 1993. To be an S corporation beginning with its first taxable year, the corporation must make the election set forth in this section during the period that begins November 8, 1993, and ends before January 23, 1994.

Example 3. Election effective for the following taxable year; ineligible shareholder. On January 1, 1993, two individuals and a partnership own all of the stock of a calendar year subchapter C corporation. On January 31, 1993, the partnership dissolved and distributed its shares in the corporation to its five partners, all individuals. On February 28, 1993, the seven shareholders of the corporation consented to the corporation's election of subchapter S status. The corporation files a properly completed Form 2533 on March 2, 1993. The corporation is not eligible to be a subchapter S corporation for the 1993 taxable year because during the period of the taxable year prior to the election it had an ineligible shareholder. However, under paragraph (a)(2)(ii)(B) of this section, the election is treated as made for the corporation's 1994 taxable year.

(3) *Revocation of S election*—(i) *Manner of revoking election.* To revoke an election, the corporation files a statement that the corporation revokes the election made under section 1362(a). The statement must be filed with the service center where the election was properly filed. The revocation statement must include the number of shares of stock (including non-voting stock) issued and outstanding at the time the revocation is made. A revocation may be made only with the consent of shareholders who, at the time the revocation is made, hold more than one-

half of the number of issued and outstanding shares of stock (including non-voting stock) of the corporation. Each shareholder who consents to the revocation must consent in the manner required under paragraph (b) of this section. In addition, each consent should indicate the number of issued and outstanding shares of stock (including non-voting stock) held by each shareholder at the time of the revocation.

(ii) *Time of revoking election.* For rules concerning when a revocation is effective, see §1.1362–2(a)(2).

(iii) *Examples.* The principles of this paragraph (a)(3) are illustrated by the following examples:

Example 1. Revocation; consent of shareholders owning more than one-half of issued and outstanding shares. A calendar year S corporation has issued an outstanding 40,000 shares of class A voting common stock and 20,000 shares of class B non-voting common stock. The corporation wishes to revoke its election of subchapter S status. Shareholders owning 11,000 shares of class A stock sign revocation consents. Shareholders owning 20,000 shares of class B stock sign revocation consents. The corporation has obtained the required shareholder consent to revoke its subchapter S election because shareholders owning more than one-half of the total number of issued and outstanding shares of stock of the corporation consented to the revocation.

Example 2. Effective prospective revocation. In June 1993, a calendar year S corporation determines that it will revoke its subchapter S election effective August 1, 1993. To do so it must file its revocation statement with consents attached on or before August 1, 1993, and the statement must indicate that the revocation is intended to be effective August 1, 1993.

(4) *Rescission of revocation*—(i) *Manner of rescinding a revocation.* To rescind a revocation, the corporation files a statement that the corporation rescinds the revocation made under section 1362(d)(1). The statement must be filed with the service center where the revocation was properly filed. A rescission may be made only with the consent (in the manner required under paragraph (b)(1) of this section) of each person who consented to the revocation and of each person who became a shareholder of the corporation within the period beginning on the first day after the date the revocation was made and ending on the date on which the rescission is made.

(ii) *Time of rescinding a revocation.* If the rescission statement is filed before the revocation becomes effective and is filed with proper service center, the rescission is effective on the date it is so filed.

(5) *Election not to apply pro rata allocation.* To elect not to apply the pro rata allocation rules to an S termination year, a corporation files a statement that it elects under section 1362(e)(3) not to apply the rules provided in section 1362(e)(2). In addition to meeting the requirements of paragraph (a)(1) of this section, the statement must set forth the cause of the termination and the date thereof. The statement must be filed with the corporation's return for the C short year. This election may be made only with the consent of all persons who are shareholders of the corporation at any time during the S short year and all persons who are shareholders of the corporation on the first day of the C short year (in the manner required under paragraph (b)(1) of this section).

(b) *Shareholders' consents*—(1) *Manner of consents in general.* A shareholder's consent required under paragraph (a) of this section must be in the form of a written statement that sets forth the name, address, and taxpayer identification number of the shareholder, the number of shares of stock owned by the shareholder, the date (or dates) on which the stock was acquired, the date on which the shareholder's taxable year ends, the name of the S corporation, the corporation's taxpayer identification number, and the election to which the shareholder consents. The statement must be signed by the shareholder under penalties of perjury. Except as provided in paragraph (b)(3)(iii) of this section, the election of the corporation is not valid if any required consent is not filed in accordance with the rules contained in this paragraph (b). The consent statement should be attached to the corporation's election statement.

(2) *Persons required to consent.* The following rules apply in determining persons required to consent:

(i) *Community interest in stock.* When stock of the corporation is owned by husband and wife as community property (or the income from the stock is community property), or is owned by tenants in common, joint tenants, or tenants by the entirety, each person having a community interest in the stock or income therefrom and each tenant in common, joint tenant and tenant by the entirety must consent to the election.

(ii) *Minor.* The consent of a minor must be made by the minor or by the legal representative of the minor (or by a natural or an adoptive parent of the minor if no legal representative has been appointed).

(iii) *Estate.* The consent of an estate must be made by an executor or administrator thereof, or by any other fiduciary appointed by testamentary instrument or appointed by the court having jurisdiction over the administration of the estate.

(iv) *Trust.* In the case of a trust described in section 1361(c)(2)(A) (including a trust treated under section 1361(d)(1)(A) as a trust described in section 1361(c)(2)(A)(i)), only the person treated as the shareholder for purposes of section 1361(b)(1) must consent to the election. When stock of the corporation is held by a trust, both husband and wife must consent to any election if the husband and wife have a community interest in the trust property. See paragraph (b)(2)(i) of this section for rules concerning community interests in S corporation stock.

(3) *Special rules for consent of shareholder to election to be an S corporation*—(i) *In general.* The consent of a shareholder to an election by a small business corporation under section 1362(a) may be made on Form 2553 or on a separate statement in the manner described in paragraph (b)(1) of this section. In addition, the separate statement must set forth the name, address, and taxpayer identification number of the corporation. A shareholder's consent is binding and may not be withdrawn after a valid election is made by the corporation. Each person who is a shareholder (including any person who is treated as a shareholder under section 1361(c)(2)(B)) at the time the election is made) must consent to the election. If the election is made before the 16th day of the third month of the taxable year and is intended to be effective for that year, each person who was a shareholder (including any person who was treated as a shareholder under section 1361(c)(2)(B)) at any time during the portion of that year which occurs before the time the election is made, and who is not a shareholder at the time the election is made, must also consent to the election. If the election is to be effective for the following taxable year, no consent need be filed by any shareholder who is not a shareholder on the date of the election. Any person who is considered to be a shareholder under applicable State law solely by virtue of his or her status as an incorporator is not treated as a shareholder for purposes of this paragraph (b)(3)(i).

(ii) *Examples.* The principles of this section are illustrated by the following examples:

Example 1. Effective election; shareholder consents. On January 1, 1993, the first day of its taxable year, a subchapter C corporation had 15 shareholders. On January 30, 1993, two of the C corporation's shareholders, A and B, both individuals, sold their shares in the corporation to P, Q, and R, all individuals. On March 1, 1993, the corporation filed its election to be an S corporation for the 1993 taxable year. The election will be effective (assuming the other requirements of section 1361(b) are met) provided that all of the shareholders as of March 1, 1993, as well as former shareholders A and B, consent to the election.

Example 2. Consent of new shareholder unnecessary. On January 1, 1993, three individuals own all of the stock of a calendar year subchapter C corporation. On April 15, 1993, the corporation, in accordance with paragraph (a)(2) of this section, files a properly completed Form 2553. The corporation anticipates that the election will be effective beginning January 1, 1994, the first day of the succeeding taxable year. On October 1, 1993, the three shareholders collectively sell 75% of their shares in the corporation to another individual. On January 1, 1994, the corporation's shareholders are the three original individuals and the new shareholder. Because the election was valid and binding when made, it is not necessary for the new shareholder to consent to the election. The corporation's subchapter S election is effective on January 1, 1994 (assuming the other requirements of section 1361(b) are met).

(iii) *Extension of time for filing consents to an election*—(A) *In general.* An election that is timely filed for any taxable year and that would be valid except for the failure of any shareholder to file a timely consent is not invalid if consents are filed as required under paragraph (b)(3)(iii)(B) of this section and it is shown to the satisfaction of the district director or director of the service center with which the corporation files its income tax return that—

(*1*) There was reasonable cause for the failure to file the consent;

(*2*) The request for the extension of time to file a consent is made within a reasonable time under the circumstances; and

(*3*) The interests of the Government will not be jeopardized by treating the election as valid.

(B) *Required consents.* Consents must be filed within the extended period of time as may be granted by the Internal Revenue Service, by all persons who—

(*1*) Were shareholders of the corporation at any time during the period beginning as of the date of the invalid election and ending on the date on which an extension of time is granted in accordance with this paragraph (b)(3)(iii); and

(*2*) Have not previously consented to the election.

[T.D. 8449, 57 FR 55454, Nov. 25, 1992]

§1.1362–7 Effective date.

(a) *In general.* The provisions of §§1.1362–1 through 1.1362–6 apply to taxable years of corporations beginning after December 31, 1992. For taxable years to which these regulations do not apply, corporations and shareholders subject to the provisions of section 1362 must take reasonable return positions taking into consideration the statute; its legislative history; the provisions of §§18.1362–1 through 18.1362–5 (see 26 CFR part 18 as contained in the CFR edition revised as of April 1, 1992). In addition, following these regulations is a reasonable return position. See Notice 92–56, 1992–49 I.R.B. (see §601.601(d)(2)(ii)(*b*) of this chapter), for additional guidance regarding reasonable return positions for years to which §§1.362–1 through 1.1362–6 do not apply.

(b) *Special effective date for passive investment income provisions.* For taxable years of an S corporation and all affected shareholders that are not closed, the S corporation and all affected shareholders may elect to apply the provisions of §1.1362–2(c)(5). To make the election, the corporation and all affected shareholders must file a return or an amended return that is consistent with these rules for the taxable year for which the election is made and each subsequent taxable year. For purposes of this section, *affected shareholders* means all shareholders who received distributive shares of S corporation items in the taxable year for which the election is made and all shareholders of the S corporation for all subsequent taxable years. However, the Commissioner may, in appropriate circumstances, permit taxpayers to make this election even if all affected shareholders cannot file consistent returns.

[T.D. 8449, 57 FR 55456, Nov. 25, 1992]

§1.1363–1 Effect of election on corporation.

(a) *Exemption of corporation from income tax*—(1) *In general.* Except as provided in this paragraph (a), a small business corporation that makes a valid election under section 1362(a) is exempt from the taxes imposed by chapter 1 of the Internal Revenue Code with respect to taxable years of the corporation for which the election is in effect.

(2) *Corporate level taxes.* An S corporation is not exempt from the tax imposed by section 1374 (relating to the tax imposed on certain built-in gains), or section 1375 (relating to the tax on excess passive investment income). See also section 1363(d) (relating to the recapture of LIFO benefits) for the rules regarding the payment by an S corporation of LIFO recapture amounts.

(b) *Computation of corporate taxable income.* The taxable income of an S corporation is computed as described in section 1363(b).

(c) *Elections of the S corporation*—(1) *In general.* Any elections (other than those described in paragraph (c)(2) of this section) affecting the computation of items derived from an S corporation are made by the corporation. For example, elections of methods of accounting, of computing depreciation, of treating soil and water conservation expenditures, and the option to deduct as expenses intangible drilling and development costs, are made by the corporation and not by the shareholders separately. All corporate elections are applicable to all shareholders.

(2) *Exceptions.* (i) Each shareholder's pro rata share of expenses described in section 617 paid or accrued by the S corporation is treated according to the shareholder's method of treating those expenses, notwithstanding the treatment of the expenses by the corporation.

(ii) Each shareholder may elect to amortize that shareholder's pro rata share of any qualified expenditure described in section 59(e) paid or accrued by the S corporation.

(iii) Each shareholder's pro rata share of taxes described in section 901 paid or accrued by the S corporation to foreign countries or possessions of the United States (according to its method of treating those taxes) is treated according to the shareholder's method of treating those taxes, and each shareholder may elect to use the total amount either as a credit against tax or as a deduction from income.

(d) *Effective date.* This section applies to taxable years of corporations beginning after December 31, 1992. For taxable years to which this section does not apply, corporations and shareholders subject to the provisions of section 1363 must take reasonable return positions taking into consideration the statute, its legislative history and these regulations. See Notice 92–56, 1992–49 I.R.B. (see § 601.601(d)(2)(ii)(*b*) of this chapter), for additional guidance regarding reasonable return positions for taxable years to which this section does not apply.

[T.D. 8449, 57 FR 55456, Nov. 25, 1992]

§ 1.1363–2 Recapture of LIFO benefits.

(a) *In general.* A C corporation must include the LIFO recapture amount (as defined in section 1363(d)(3)) in its gross income—

(1) In its last taxable year as a C corporation if the corporation inventoried assets under the LIFO method for its last taxable year before its S corporation election becomes effective; or

(2) In the year of transfer by the C corporation to an S corporation of the LIFO inventory assets if paragraph (a)(1) of this section does not apply and the C corporation—

(i) Inventoried assets under the LIFO method during the taxable year of the transfer of those LIFO inventory assets; and

(ii) Transferred the LIFO inventory assets to the S corporation in a nonrecognition transaction (within the meaning of section 7701(a)(45)) in which the transferred assets constitute transferred basis property (within the meaning of section 7701(a)(43)).

(b) *Payment of tax.* Any increase in tax caused by including the LIFO recapture amount in the gross income of the C corporation is payable in four equal installments. The C corporation must pay the first installment of this payment by the due date of its return, determined without regard to extensions, for the last taxable year it operated as a C corporation if paragraph (a)(1) of this section applies, or for the taxable year of the transfer if paragraph (a)(2) of this section applies. The three succeeding installments must be paid—

(1) For a transaction described in paragraph (a)(1) of this section, by the corporation (that made the election under section 1362(a) to be an S corporation) on or before the due date for the corporation's returns (determined without regard to extensions) for the succeeding three taxable years; and

(2) For a transaction described in paragraph (a)(2) of this section, by the transferee S corporation on or before the due date for the transferee corporation's returns (determined without regard to extensions) for the succeeding three taxable years.

(c) *Basis adjustments.* Appropriate adjustments to the basis of inventory are to be made to reflect any amount included in income under this section.

(d) *Effective dates.* (1) The provisions of paragraph (a)(1) of this section apply to S elections made after December 17, 1987. For an exception, see section 10227(b)(2) of the Revenue Act of 1987.

(2) The provisions of paragraph (a)(2) of this section apply to transfers made after August 18, 1993.

[T.D. 8567, 59 FR 51106, Oct. 7, 1994]

§1.1366–1 [Reserved]

§1.1366–2 Special rules on requirement to separately state meal, travel, and entertainment expenses.

Each shareholder shall take into account separately his or her pro rata share of meal, travel, and entertainment expenses paid or incurred after December 31, 1986, by S corporations that have taxable years beginning before January 1, 1987, and ending with or within shareholders' taxable years beginning on or after January 1, 1987. In addition, with respect to skybox rentals under section 274 (l) (2), each shareholder shall take into account separately his or her pro rata share of rents paid or incurred after December 31, 1986, by S corporations that have taxable years beginning before January 1, 1989, and ending with or within shareholders' taxable years beginning on or after January 1, 1987.

[T.D. 8247, 54 FR 13680, Apr. 5, 1989]

§1.1367–0 Table of contents.

The following table of contents is provided to facilitate the use of §§1.1367–1 through 1.1367–3.

§1.1367–1 Adjustments to basis of shareholder's stock in an S corporation.

(a) In general.

(1) Adjustments under section 1367.

(2) Applicability of other Internal Revenue Code provisions.

(b) Increase in basis of stock.

(1) In general.

(2) Amount of increase in basis of individual shares.

(c) Decrease in basis of stock.

(1) In general.

(2) Noncapital, nondeductible expenses.

(3) Amount of decrease in basis of individual shares.

(d) Time at which adjustments to basis of stock are effective.

(1) In general.

(2) Adjustment for nontaxable item.

(3) Effect of election under section 1377(a)(2) or §1.1368–1(g)(2).

(e) Ordering rules.

(f) Elective ordering rule.

(g) Examples.

§1.1367–2 Adjustments to basis of indebtedness to shareholder.

(a) In general.

(b) Reduction in basis of indebtedness.

(1) General rule.

(2) Termination of shareholder's interest in corporation during taxable year.

(3) Multiple indebtedness.

(c) Restoration of basis.

(1) General rule.

(2) Multiple indebtedness.

(d) Time at which adjustments to basis of indebtedness are effective.

(1) In general.

(2) Effect of election under section 1377(a)(2) or §1.1368–1(g)(2).

(e) Examples.

§1.1367–3 Effective date and transition rule.

[T.D. 8508, 59 FR 15, Jan. 3, 1994]

§1.1367–1 Adjustments to basis of shareholder's stock in an S corporation.

(a) *In general*—(1) *Adjustments under section 1367.* This section provides rules relating to adjustments required by section 1367 to the basis of a shareholder's stock in an S corporation. Paragraph (b) of this section provides rules concerning increases in the basis of a shareholder's stock, and paragraph (c) of this section provides rules concerning decreases in the basis of a shareholder's stock.

(2) *Applicability of other Internal Revenue Code provisions.* In addition to the adjustments required by section 1367 and this section, the basis of stock is determined or adjusted under other applicable provisions of the Internal Revenue Code.

(b) *Increase in basis of stock*—(1) *In general.* Except as provided in §1.1367–2(c) (relating to restoration of basis of indebtedness to the shareholder), the basis of a shareholder's stock in an S corporation is increased by the sum of the items described in section 1367(a)(1). The increase in basis described in section 1367(a)(1)(C) for the excess of the deduction for depletion over the basis of the property subject to depletion does not include the depletion deduction attributable to oil or gas property. See section 613(A)(c)(11).

(2) *Amount of increase in basis of individual shares.* The basis of a shareholder's share of stock is increased by an amount equal to the shareholder's pro rata portion of the items described in section 1367(a)(1) that is attributable to that share, determined on a per share, per day basis in accordance with section 1377(a).

(c) *Decrease in basis of stock*—(1) *In general.* The basis of a shareholder's stock in an S corporation is decreased (but not below zero) by the sum of the items described in section 1367(a)(2).

(2) *Noncapital, nondeductible expenses.* For purposes of section 1367(a)(2)(D), expenses of the corporation not deductible in computing its taxable income and not properly chargeable to a capital account (*noncapital, nondeductible expenses*) are only those items for which no loss or deduction is allowable and do not include items the deduction for which is deferred to a later taxable year. Examples of noncapital, nondeductible expenses include (but are not limited to) the following: Illegal bribes, kickbacks, and other payments not deductible under section 162(c); fines and penalties not deductible under section 162(f); expenses and interest relating to tax-exempt income under section 265; losses for which the deduction is disallowed under section 267(a)(1); the portion of meals and entertainment expenses disallowed under section 274; and the two-thirds portion of treble damages paid for violating antitrust laws not deductible under section 162.

(3) *Amount of decrease in basis of individual shares.* The basis of a shareholder's share of stock is decreased by an amount equal to the shareholder's pro rata portion of the passthrough items and distributions described in section 1367(a)(2) attributable to that share, determined on a per share, per day basis in accordance with section 1377(a). If the amount attributable to a share exceeds its basis, the excess is applied to reduce (but not below zero) the remaining bases of all other shares of stock in the corporation owned by the shareholder in proportion to the remaining basis of each of those shares.

(d) *Time at which adjustments to basis of stock are effective*—(1) *In general.* The adjustments described in section 1367(a) to the basis of a shareholder's stock are determined as of the close of the corporation's taxable year, and the adjustments generally are effective as of that date. However, if a shareholder disposes of stock during the corporation's taxable year, the adjustments with respect to that stock are effective immediately prior to the disposition.

(2) *Adjustment for nontaxable item.* An adjustment for a nontaxable item is determined for the taxable year in which the item would have been includible or deductible under the corporation's method of accounting for Federal income tax purposes if the item had been subject to Federal income taxation.

(3) *Effect of election under section 1377(a)(2) or § 1.1368–1(g)(2).* If an election under section 1377(a)(2) (to terminate the year in the case of the termination of a shareholder's interest) or under § 1.1368–1(g)(2) (to terminate the year in the case of a qualifying disposition) is made with respect to the taxable year of a corporation, this paragraph (d) applies as if the taxable year consisted of separate taxable years, the first of which ends at the close of the day on which either the shareholder's interest is terminated or a qualifying disposition occurs, whichever the case may be.

(e) *Ordering rules.* For any taxable year, except as provided in paragraph (f) of this section, the adjustments required by section 1367(a) are made in the following order:

(1) Any increase in basis attributable to the income items described in section 1367(a)(1) (A) and (B) and the excess of the deductions for depletion described in section 1367(a)(1)(C);

(2) Any decrease in basis attributable to noncapital, nondeductible expenses described in section 1367(a)(2)(D) and the oil and gas depletion deduction described in section 1367(a)(2)(E);

(3) Any decrease in basis attributable to items of loss or deduction described in section 1367(a)(2) (B) and (C); and

(4) Any decrease in basis attributable to a distribution by the corporation described in section 1367(a)(2)(A).

(f) *Elective ordering rule.* A shareholder may elect to decrease basis under paragraph (e)(3) of this section prior to decreasing basis under paragraph (e)(2) of this section. If a shareholder makes this election, any amount described in paragraph (e)(2) of this section that is in excess of the shareholder's basis in stock and indebtedness is treated, solely for purposes of this section, as an amount described in paragraph (e)(2) of this section in the succeeding taxable year. A shareholder makes the election under this paragraph by attaching a statement to the shareholder's timely filed original or amended return that states that the shareholder agrees to the carryover rule of the preceding sentence. Once a shareholder makes an election under this paragraph with respect to an S corporation, the shareholder must continue to use the rules of this paragraph for that S corporation in future taxable years unless the shareholder receives the permission of the Commissioner.

(g) *Examples.* The following examples illustrate the principles of § 1.1367–1. In each example, the corporation is a calendar year S corporation:

Example 1. Adjustments to basis of stock in general. (i) On December 31, 1994, A owns a block of 50 shares of stock with an adjusted basis per share of $6 in Corporation S. On December 31, 1994, A purchases for $400 an additional block of 50 shares of stock with an adjusted basis of $8 per share. Thus, A holds 100 shares of stock for each day of the 1995 taxable year. For S's 1995 taxable year, A's pro rata share of the amount of the items described in section 1367(a)(1)(A) (relating to increases in basis of stock) is $300, and A's pro rata share of the amount of the items described in section 1367(a)(2) (B) and (D) (relating to decreases in basis of stock) is $500. S makes a distribution to A in the amount of $100 during 1995.

(ii) Pursuant to the ordering rules of paragraph (e) of this section, A increases the basis of each share of stock by $3 ($300/100 shares) and decreases the basis of each share of stock by $5 ($500/100 shares). Then A reduces the basis of each share by $1 ($100/100 shares) for the distribution. Thus, on January 1, 1996, A has a basis of $3 per share in his original block of 50 shares ($6+$3−$5−$1) and a basis of $5 per share in the second block of 50 shares ($8+$3−$5−$1).

Example 2. Adjustments attributable to basis of individual shares of stock. (i) On December 31, 1993, B owns one share of S corporation's 10 outstanding shares of stock. The basis of B's share is $30. On July 2, 1994, B purchases from another shareholder two shares for $25 each. During 1994, S corporation has no income or deductions but incurs a loss of $365. Under section 1377(a)(1)(A) and paragraph (c)(3) of this section, the amount of the loss assigned to each day of S's taxable year is $1.00 ($365/365 days). For each day, $.10 is allocated to each outstanding share ($1.00 amount of loss assigned to each day/10 shares).

(ii) B owned one share for 365 days and, therefore, reduces the basis of that share by the amount of loss attributable to it, i.e., $36.50 ($.10 × 365 days). B owned two shares for 182 days and, therefore, reduces the basis of each of those shares by the amount of the loss attributable to each, i.e., $18.20 ($.10 × 182 days).

(iii) The bases of the shares are decreased as follows:

Share	Original basis	Decrease	Adjusted basis	Excess basis reduction
No. 1	$30.00	$36.50	$0	$6.50
No. 2	25.00	18.20	6.80	0
No. 3	25.00	18.20	6.80	0
Total remaining basis			13.60	

(iv) Because the decrease in basis attributable to share No. 1 exceeds the basis of share No. 1 by $6.50 ($36.50 − $30.00), the excess is applied to reduce the bases of shares No. 2 and No. 3 in proportion to their remaining bases. Therefore, the bases of share No. 2 and share No. 3 are each decreased by an additional $3.25 ($6.50 × $6.80/$13.60). After this decrease, Share No. 1 has a basis of zero, Share No. 2 has a basis of $3.55, and Share No. 3 has a basis of $3.55.

Example 3. Effects of section 1377(a)(2) election and distribution on basis of stock. (i) On January 1, 1994, individuals B and C each own 50 of the 100 shares of issued and outstanding stock of Corporation S. B's adjusted basis in each share of stock is $120, and C's is $80. On June 30, 1994, S distributes $6,000 to B and $6,000 to C. On June 30, 1994, B sells all of her S stock for $10,000 to D. S elects under section 1377(a)(2) to treat its 1994 taxable year as consisting of two taxable years, the first of which ends at the close of June 30, the date on which B terminates her interest in S.

(ii) For the period January 1, 1994, through June 30, 1994, S has nonseparately computed income of $6,000 and a separately stated deduction item of $4,000. Therefore, on June 30, 1994, B and C, pursuant to the ordering rules of paragraph (e) of this section, increase the basis of each share by $60 ($6,000/100 shares) and decrease the basis of each share by $40 ($4,000/100 shares). Then B and C reduce the basis of each share by $120 ($12,000/100 shares) for the distribution.

(iii) The basis of B's stock is reduced from $120 to $20 per share ($120+$60−$40−$120). The basis of C's stock is reduced from $80 to $0 per share ($80+$60−$40−$120). See section 1368 and § 1.1368–1 (c) and (d) for rules relating to the tax treatment of the distributions.

(iv) Pursuant to paragraph (d)(3) of this section, the net reduction in the basis of B's shares of the S stock required by section 1367 and this section is effective immediately prior to B's sale of her stock. Thus, B's basis for determining gain or loss on the sale of the S stock is $20 per share, and B has a gain on the sale of $180 ($200 − $20) per share.

[T.D. 8508, 59 FR 15, Jan. 3, 1994]

§ 1.1367–2 Adjustments to basis of indebtedness to shareholder.

(a) *In general.* This section provides rules relating to adjustments required by subchapter S to the basis of indebtedness of an S corporation to a shareholder. For purposes of this section, shareholder advances not evidenced by separate written instruments and repayments on the advances (*open account debt*) are treated as a single indebtedness. The basis of indebtedness of the S corporation to a shareholder is reduced as provided in paragraph (b) of this section and restored as provided in paragraph (c) of this section.

(b) *Reduction in basis of indebtedness*—(1) *General rule.* If, after making the adjustments required by section 1367(a)(1) for any taxable year of the S corporation, the amounts specified in section 1367(a)(2) (B), (C), (D), and (E) (relating to losses, deductions, noncapital, nondeductible expenses, and certain oil and gas depletion deductions) exceed the basis of a shareholder's stock in the corporation, the excess is applied to reduce (but not below zero) the basis of any indebtedness of the S corporation to the shareholder held by the shareholder at the close of the corporation's taxable year. Any such indebtedness that has been satisfied by the corporation, or disposed of or forgiven by the shareholder, during the taxable year, is not held by the shareholder at the close of that year and is not subject to basis reduction.

(2) *Termination of shareholder's interest in corporation during taxable year.* If a shareholder terminates his or her interest in the corporation during the taxable year, the rules of this paragraph (b) are applied with respect to any indebtedness of the S corporation held by the shareholder immediately prior to the termination of the shareholder's interest in the corporation.

(3) *Multiple indebtedness.* If a shareholder holds more than one indebtedness at the close of the corporation's taxable year or, if applicable, immediately prior to the termination of the shareholder's interest in the corporation, the reduction in basis is applied to each indebtedness in the same proportion that the basis of each indebtedness bears to the aggregate bases of the indebtedness to the shareholder.

(c) *Restoration of basis*—(1) *General rule.* If, for any taxable year of an S corporation beginning after December 31, 1982, there has been a reduction in the basis of an indebtedness of the S corporation to a shareholder under section 1367(b)(2)(A), any *net increase* in any subsequent taxable year of the corporation is applied to restore that reduction. For purposes of this section, *net increase* with respect to a shareholder means the amount by which the shareholder's pro rata share of the items described in section 1367(a)(1) (relating to income items and excess deduction for depletion) exceed the items described in section 1367(a)(2) (relating to losses, deductions, noncapital, nondeductible expenses, certain oil and gas depletion deductions, and certain distributions) for the taxable year. These restoration rules apply only to indebtedness held by a shareholder as of the beginning of the taxable year in which the net increase arises. The reduction in basis of indebtedness must be restored before any net increase is applied to restore the basis of a shareholder's stock in an S corporation. In no event may the shareholder's basis of indebtedness be restored above the adjusted basis of the indebtedness under section 1016(a), excluding any adjustments under section 1016(a)(17) for prior taxable years, determined as of the beginning of the taxable year in which the net increase arises.

(2) *Multiple indebtedness.* If a shareholder holds more than one indebtedness as of the beginning of a corporation's taxable year, any net increase is applied first to restore the reduction of basis in any indebtedness repaid (in whole or in part) in that taxable year to the extent necessary to offset any gain that would otherwise be realized on the repayment. Any remaining net increase is applied to restore each outstanding indebtedness in proportion to the amount that the basis of each outstanding indebtedness has been reduced

under section 1367(b)(2)(A) and paragraph (b) of this section and not restored under section 1367(b)(2)(B) and this paragraph (c).

(d) *Time at which adjustments to basis of indebtedness are effective*—(1) *In general.* The amounts of the adjustments to basis of indebtedness provided in section 1367(b)(2) and this section are determined as of the close of the corporation's taxable year, and the adjustments are generally effective as of the close of the corporation's taxable year. However, if the shareholder is not a shareholder in the corporation at that time, these adjustments are effective immediately before the shareholder terminates his or her interest in the corporation. If a debt is disposed of or repaid in whole or in part before the close of the taxable year, the basis of that indebtedness is restored under paragraph (c) of this section, effective immediately before the disposition or the first repayment on the debt during the taxable year.

(2) *Effect of election under section 1377(a)(2) or § 1.1368–1(g)(2).* If an election is made under section 1377(a)(2) (to terminate the year in the case of the termination of a shareholder's interest) or under § 1.1368–1(g)(2) (to terminate the year in the case of a qualifying disposition), this paragraph (d) applies as if the taxable year consisted of separate taxable years, the first of which ends at the close of the day on which the shareholder either terminates his or her interest in the corporation or disposes of a substantial amount of stock, whichever the case may be.

(e) *Examples.* The following examples illustrate the principles of § 1.1367–2. In each example, the corporation is a calendar year S corporation. The lending transactions described in the examples do not result in foregone interest (within the meaning of section 7872(e)(2)), original issue discount (within the meaning of section 1273), or total unstated interest (within the meaning of section 483(b)).

Example 1. Reduction in basis of indebtedness. (i) A has been the sole shareholder in Corporation S since 1992. In 1993, A loans S $1,000 (Debt No. 1), which is evidenced by a ten-year promissory note in the face amount of $1,000. In 1996, A loans S $5,000 (Debt No. 2), which is evidenced by a demand promissory note. On December 31, 1996, the basis of A's stock is zero; the basis of Debt No. 1 has been reduced under paragraph (b) of this section to $0; and the basis of Debt No. 2 has been reduced to $1,000. On January 1, 1997, A loans S $4,000 (Debt No. 3), which is evidenced by a demand promissory note. For S's 1997 taxable year, the sum of the amounts specified in section 1367(a)(1) (in this case, nonseparately computed income and the excess deduction for depletion) is $6,000, and the sum of the amounts specified in section 1367(a)(2) (B), (D), and (E) (in this case, items of separately stated deductions and losses, noncapital, nondeductible expenses, and certain oil and gas depletion deductions—there is no nonseparately computed loss) is $10,000. Corporation S makes no payments to A on any of the loans during 1997.

(ii) The $4,000 excess of loss and deduction items is applied to reduce the basis of each indebtedness in proportion to the basis of that indebtedness over the aggregate bases of the indebtedness to the shareholder (determined immediately before any adjustment under section 1367(b)(2)(A) and paragraph (b) of this section is effective for the taxable year). Thus, the basis of Debt No. 2 is reduced in an amount equal to $800 ($4,000 (excess)×$1,000 (basis of Debt No. 2)/$5,000 (total basis of all debt)). Similarly, the basis in Debt No. 3 is reduced in an amount equal to $3,200 ($4,000×$4,000/$5,000). Accordingly, on December 31, 1997, A's basis in his stock is zero and his bases in the three debts are as follows:

Debt	1/1/96 basis	12/31/96 reduction	1/1/97 basis	12/31/97 reduction	1/1/98 basis
No. 1	$1,000	$1,000	$0	$0	$0
No. 2	5,000	4,000	1,000	800	200
No. 3	....	....	4,000	3,200	800

Example 2. Restoration of basis of indebtedness. (i) The facts are the same as in *Example 1.* On July 1, 1998, S completely repays Debt No. 3, and, for S's 1998 taxable year, the net increase (within the meaning of paragraph (c) of this section) with respect to A equals $4,500.

(ii) The net increase is applied first to restore the bases in the debts held on January 1, 1998, before any of the net increase is applied to increase A's basis in his shares of S stock. The net increase is applied to restore first the reduction of basis in indebtedness repaid in 1998. Any remaining net increase is applied to restore the bases of the outstanding debts in proportion to the amount that each of these outstanding debts have been reduced previously under paragraph (b) of this section and have not been restored. As of December 31, 1998, the total reduction in A's debts held on January 1, 1998 equals $9,000. Thus, the basis of Debt No. 3 is restored by $3,200 (the amount of the previous reduction) to $4,000. A's basis in Debt No. 3 is treated as restored immediately before that debt is repaid. Accordingly, A does not realize any gain on the repayment. The remaining net increase of $1,300 ($4,500−$3,200) is applied to restore the bases of Debt No. 1 and Debt No. 2. As of December 31, 1998, the total reduction in these outstanding debts is $5,800 ($9,000−$3,200). The basis of Debt No. 1 is restored in an amount equal to $224 ($1,300×$1,000/$5,800). Similarly, the basis in Debt No. 2 is restored in an amount equal to $1,076 ($1,300×$4,800/$5,800). On December 31, 1998, A's basis in his S stock is zero and his bases in the two remaining debts are as follows:

Original basis	Amount reduced	1/1/98 basis	Amount restored	12/31/98 basis
$1,000	$1,000	$0	$224	$224
5,000	4,800	200	1,076	1,276

Example 3. Full restoration of basis in indebtedness when debt is repaid in part during the taxable year. (i) C has been a shareholder in Corporation S since 1992. In 1997, C loans S $1,000. S issues its note to C in the amount of $1,000, of which $950 is payable on March 1, 1998, and $50 is payable on March 1, 1999. On December 31, 1997, C's basis in all her shares of S stock is zero and her basis in the note has been reduced under paragraph (b) of this section to $900. For 1998, the net increase (within the meaning of paragraph (c) of this section) with respect to C is $300.

(ii) Because C's basis of indebtedness was reduced in a prior taxable year under § 1.1367–2(b), the net increase for 1998 is applied to restore this reduction. The restored basis cannot exceed the adjusted basis of the debt as of the beginning of the first day of 1998, excluding prior adjustments under section 1367, or $1,000. Therefore, $100 of the $300 net increase is applied to restore the basis of the debt from $900 to $1,000 effective immediately before the repayment on March 1, 1998. The remaining net increase of $200 increases C's basis in her stock.

Example 4. Determination of net increase—distribution in excess of increase in basis. (i) D has been the sole shareholder in Corporation S since 1990. On January 1, 1996, D loans S $10,000 in return for a note from S in the amount of $10,000 of which $5,000 is payable on each of January 1, 2000, and January 1, 2001. On December 31, 1997, the basis of D's shares of S stock is zero, and his basis in the note has been reduced under paragraph (b) of this section to $8,000. During 1998, the sum of the items under section 1367(a)(1) (relating to increases in basis of stock) with respect to D equals $10,000 (in this case, nonseparately computed income), and the sum of the items under section 1367(a)(2)(B), (C), (D), and (E) (relating to decreases in basis of stock) with respect to D equals $0. During 1998, S also makes distributions to D totaling $11,000. This distribution is an item that reduces basis of stock under section 1367(a)(2)(A) and must be taken into account for purposes of determining whether there is a net increase for the taxable year. Thus, for 1998, there is no net increase with respect to D because the amount of the items provided in section 1367(a)(1) do not exceed the amount of the items provided in section 1367(a)(2).

(ii) Because there is no net increase with respect to D for 1998, none of the 1997 reduction in D's basis in the indebtedness is restored. The $10,000 increase in basis under section 1367(a)(1) is applied to increase D's basis in his S stock. Under section 1367(a)(2)(A), the $11,000 distribution with respect to D's stock reduces D's basis in his shares of S stock to $0. See section 1368 and § 1.1368–1 (c) and (d) for the tax treatment of the $1,000 distribution in excess of D's basis.

Example 5. Distributions less than increase in basis. (i) The facts are the same as in *Example 4*, except that in 1998 S makes distributions to D totaling $8,000. On these facts, for 1998, there is a net increase with respect to D of $2,000 (the amount by which the items provided in section 1367(a)(1) exceed the amount of the items provided in section 1367(a)(2)).

(ii) Because there is a net increase of $2,000 with respect to D for 1998, $2,000 of the $10,000 increase in basis under section 1367(a)(1) is first applied to restore D's basis in the indebtedness to $10,000 ($8,000 + $2,000). Accordingly, on December 31, 1998, D has a basis in his shares of S stock of $0 ($0 + $8,000 (increase in basis remaining after restoring basis in indebtedness)—$8,000 (distribution)) and a basis in the note of $10,000.

[T.D. 8508, 59 FR 16, Jan. 3, 1994]

§ 1.1367–3 Effective date and transition rule.

Sections 1.1367–1 and 1.1367–2 apply to taxable years of a corporation beginning on or after January 1, 1994. For taxable years beginning before January 1, 1994, the adjustments to the basis of a shareholder's stock and the basis of indebtedness of an S corporation to a shareholder must be determined in a reasonable manner, taking into account the statute and the legislative history. Return positions consistent with §§1.1367–1 and 1.1367–2 are reasonable.

[T.D. 8508, 59 FR 18, Jan. 3, 1994]

§1.1368–0 Table of contents.

The following table of contents is provided to facilitate the use of §§1.1368–1 through 1.1368–4.

§1.1368–1 Distributions by S corporations.
(a) In general.
(b) Date distribution made.
(c) S corporation with no earnings and profits.
(d) S corporation with earnings and profits.
(1) General treatment of distribution.
(2) Previously taxed income.
(e) Certain adjustments taken into account.
(f) Elections relating to source of distributions.
(1) In general.
(2) Election to distribute earnings and profits first.
(i) In general.
(ii) Previously taxed income.
(iii) Corporation with subchapter C and subchapter S earnings and profits.
(3) Election to make a deemed dividend.
(4) Election to forego previously taxed income.
(5) Time and manner of making elections.
(i) For earnings and profits.
(ii) For previously taxed income and deemed dividends.
(iii) Corporate statement regarding elections.
(iv) Irrevocable elections.
(g) Special rule.
(1) Election to terminate year under §1.1368–1(g)(2).
(2) Election in case of a qualifying disposition.
(i) In general.
(ii) Effect of the election.
(iii) Time and manner of making election.
(iv) Coordination with election under section 1377(a)(2).
§1.1368–2 Accumulated adjustments account (AAA).
(a) Accumulated adjustments account.
(1) In general.
(2) Increases to the AAA.
(3) Decreases to the AAA.
(i) In general.
(ii) Extent of allowable reduction.
(iii) Decrease to the AAA for distributions.
(4) Ordering rules for the AAA.
(b) Distributions in excess of the AAA.
(1) In general.
(2) Amount of the AAA allocated to each distribution.
(c) Distribution of money and loss property.
(1) In general.
(2) Allocating the AAA to loss property.
(d) Adjustment in the case of redemptions, reorganizations, and divisions.
(1) Redemptions.
(i) General rule.
(ii) Special rule for years in which a corporation makes both ordinary and redemption distributions.
(iii) Adjustments to earnings and profits.
(2) Reorganizations.
(3) Corporate separations to which section 368(a)(1)(D) applies.
(e) Election to terminate year under section 1377(a)(2) or §1.1368–1(g)(2).
§1.1368–3 Examples.
§1.1368–4 Effective date and transition rule.

[T.D. 8508, 59 FR 18, Jan. 3, 1994, as amended by T.D. 8696, 61 FR 67455, Dec. 23, 1996]

§1.1368–1 Distributions by S corporations.

(a) *In general.* This section provides rules for distributions made by an S corporation with respect to its stock which, but for section 1368(a) and this section, would be subject to section 301(c) and other rules of the Internal Revenue Code that characterize a distribution as a dividend.

(b) *Date distribution made.* For purposes of section 1368, a distribution is taken into account on the date the corporation makes the distribution, regardless of when the distribution is treated as received by the shareholder.

(c) *S corporation with no earnings and profits.* A distribution made by an S corporation that has no accumulated earnings and profits as of the end of the taxable year of the S corporation in which the distribution is made is treated in the manner provided in section 1368(b).

(d) *S corporation with earnings and profits*—(1) *General treatment of distribution.* Except as provided in paragraph (d)(2) of this section, a distribution made with respect to its stock by an S corporation that has accumulated earnings and profits as of the end of the taxable year of the S corporation in which the distribution is made is treated in the manner provided in section 1368(c)(1), (2), and (3). See section 316 and §1.316–2 for provisions relating to the allocation of earnings and profits among distributions.

(2) *Previously taxed income.* This paragraph (d)(2) applies to distributions by

a corporation that has both accumulated earnings and profits and previously taxed income (within the meaning of section 1375(d)(2), as in effect prior to its amendment by the Subchapter S Revision Act of 1982, and the regulations thereunder) with respect to one or more shareholders. In the case of such a distribution, that portion remaining after the application of section 1368(c)(1) (relating to distributions from the accumulated adjustments account (AAA) as defined in § 1.1368–2(a)) is treated in the manner provided in section 1368(b) (relating to S corporations without earnings and profits) to the extent that portion is a distribution of money and does not exceed the shareholder's net share immediately before the distribution of the corporation's previously taxed income. The AAA and the earnings and profits of the corporation are not decreased by that portion of the distribution. Any distribution remaining after the application of this paragraph (d)(2) is treated in the manner provided in section 1368(c) (2) and (3).

(e) *Certain adjustments taken into account.* Paragraphs (c) and (d) of this section are applied only after taking into account—

(1) The adjustments to the basis of the shares of a shareholder's stock described in section 1367 (without regard to section 1367(a)(2)(A)) (relating to decreases attributable to distributions not includible in income) for the S corporation's taxable year; and

(2) The adjustments to the AAA required by section 1368(e)(1)(A) (but without regard to the adjustments for distributions under § 1.1368–2(a)(3)(iii)) for the S corporation's taxable year.

(f) *Elections relating to source of distributions*—(1) *In general.* An S corporation may modify the application of paragraphs (c) and (d) of this section by electing (pursuant to paragraph (f)(5) of this section)—

(i) To distribute earnings and profits first as described in paragraph (f)(2) of this section;

(ii) To make a deemed dividend as described in paragraph (f)(3) of this section; or

(iii) To forego previously taxed income as described in paragraph (f)(4) of this section.

(2) *Election to distribute earnings and profits first*—(i) *In general.* An S corporation with accumulated earnings and profits may elect under this paragraph (f)(2) for any taxable year to distribute earnings and profits first as provided in section 1368(e)(3). Except as provided in paragraph (f)(2)(ii) of this section, distributions made by an S corporation making this election are treated as made first from earnings and profits under section 1368(c)(2) and second from the AAA under section 1368(c)(1). Any remaining portion of the distribution is treated in the manner provided in section 1368(b). This election is effective for all distributions made during the year for which the election is made.

(ii) *Previously taxed income.* If a corporation to which paragraph (d)(2) of this section (relating to corporations with previously taxed income) applies makes the election provided in this paragraph (f)(2) for the taxable year, and does not make the election to forego previously taxed income under paragraph (f)(4) of this section, distributions by the S corporation during the taxable year are treated as made first, from previously taxed income under paragraph (d)(2) of this section; second, from earnings and profits under section 1368(c)(2); and third, from the AAA under section 1368(c)(1). Any portion of a distribution remaining after the previously taxed income, earnings and profits, and the AAA are exhausted is treated in the manner provided in section 1368(b).

(iii) *Corporation with subchapter C and subchapter S earnings and profits.* If an S corporation that makes the election provided in this paragraph (f)(2) has both subchapter C earnings and profits (as defined in section 1362(d)(3)(B)) and subchapter S earnings and profits in a taxable year of the corporation in which the distribution is made, the distribution is treated as made first from subchapter C earnings and profits, and second from subchapter S earnings and profits. *Subchapter S earnings and profits* are earnings and profits accumulated in a taxable year beginning before January 1, 1983 (or in the case of a qualified casualty insurance electing small business corporation or a qualified oil corporation, earnings and profits accumulated in any taxable year), for which an election under subchapter S of chapter 1 of the Internal Revenue Code was in effect.

(3) *Election to make a deemed dividend.* An S corporation may elect under this paragraph (f)(3) to distribute all or part of its subchapter C earnings and profits through a deemed dividend. If an S corporation makes the election provided in this paragraph (f)(3), the S corporation will be considered to have made the election provided in paragraph (f)(2) of this section (relating to the election to distribute earnings and profits first). The amount of the deemed dividend may not exceed the subchapter C earnings and profits of the corporation on the last day of the taxable year, reduced by any actual distributions of subchapter C earnings and profits made during the taxable year. The amount of the deemed dividend is considered, for all purposes of the Internal Revenue Code, as if it were distributed in money to the shareholders in proportion to their stock ownership, received by the shareholders, and immediately contributed by the shareholders to the corporation, all on the last day of the corporation's taxable year.

(4) *Election to forego previously taxed income.* An S corporation may elect to forego distributions of previously taxed income. If such an election is made, paragraph (d)(2) of this section (relating to corporations with previously taxed income) does not apply to any distribution made during the taxable year. Thus, distributions by a corporation that makes the election to forego previously taxed income for a taxable year under this paragraph (f)(4) and does not make the election to distribute earnings and profits first under paragraph (f)(2) of this section are treated in the manner provided in section 1368(c) (relating to distributions by corporations with earnings and profits). Distributions by a corporation that makes both the election to distribute earnings and profits first under paragraph (f)(2) of this section and the election to forego previously taxed income under this paragraph (f)(4), are treated in the manner provided in paragraph (f)(2)(i) of this section.

(5) *Time and manner of making elections*—(i) *For earnings and profits.* If an election is made under paragraph (f)(2) of this section to distribute earnings and profits first, see section 1368(e)(3) regarding the consent required by shareholders.

(ii) *For previously taxed income and deemed dividends.* If an election is made to forego previously taxed income under paragraph (f)(4) of this section or to make a deemed dividend under paragraph (f)(3) of this section, consent by each ‘‘affected shareholder,’’ as defined in section 1368(e)(3)(B), is required.

(iii) *Corporate statement regarding elections.* A corporation makes an election for a taxable year under this paragraph (f) by attaching a statement to a timely filed original or amended return required to be filed under section 6037 for that taxable year. In the statement, the corporation must identify the election it is making under §1.1368–1(f) and must state that each shareholder consents to the election. An officer of the corporation must sign under penalties of perjury the statement on behalf of the corporation. A statement of election to make a deemed dividend under this paragraph must include the amount of the deemed dividend that is distributed to each shareholder.

(iv) *Irrevocable elections.* The elections under this paragraph (f) are irrevocable and are effective only for the taxable year for which they are made. In applying the preceding sentence to elections under this paragraph (f), an election to terminate the taxable year under section 1377(a)(2) or §1.1368–1(g)(2) is disregarded.

(g) *Special rule*—(1) *Election to terminate year under §1.1368–1(g)(2).* If an election is made under paragraph (g)(2) of this section to terminate the year when there is a qualifying disposition, this section applies as if the taxable year consisted of separate taxable years, the first of which ends at the close of the day on which there is a qualifying disposition of stock.

(2) *Election in case of a qualifying disposition*—(i) *In general.* In the case of a qualifying disposition, a corporation may elect under this paragraph (g)(2)(i) to treat the year as if it consisted of

separate taxable years, the first of which ends at the close of the day on which the qualifying disposition occurs. A *qualifying disposition* is—

(A) A disposition by a shareholder of 20 percent or more of the outstanding stock of the corporation in one or more transactions during any thirty-day period during the corporation's taxable year;

(B) A redemption treated as an exchange under section 302(a) or section 303(a) of 20 percent or more of the outstanding stock of the corporation from a shareholder in one or more transactions during any thirty-day period during the corporation's taxable year; or

(C) An issuance of an amount of stock equal to or greater than 25 percent of the previously outstanding stock to one or more new shareholders during any thirty-day period during the corporation's taxable year.

(ii) *Effect of the election.* A corporation making an election under paragraph (g)(2)(i) of this section must treat the taxable year as separate taxable years for purposes of allocating items of income and loss; making adjustments to the AAA, earnings and profits, and basis; and determining the tax effect of distributions under section 1368 (b) and (c). An election made under paragraph (g)(2)(i) of this section may be made upon the occurrence of any qualifying disposition. Dispositions of stock that are taken into account as part of a qualifying disposition are not taken into account in determining whether a subsequent qualifying disposition has been made.

(iii) *Time and manner of making election.* A corporation makes an election under paragraph (g)(2)(i) of this section for a taxable year by attaching a statement to a timely filed original or amended return required to be filed under section 6037 for a taxable year (without regard to the election under paragraph (g)(2)(i) of this section). In the statement, the corporation must state that it is electing for the taxable year under § 1.1368–1(g)(2)(i) to treat the taxable year as if it consisted of separate taxable years. The corporation also must set forth facts in the statement relating to the qualifying disposition (e.g., sale, gift, stock issuance, or redemption), and state that each shareholder who held stock in the corporation during the taxable year (without regard to the election under paragraph (g)(2)(i) of this section) consents to this election. An officer of the corporation must sign under penalties of perjury the statement on behalf of the corporation. For purposes of this election, a shareholder of the corporation for the taxable year is a shareholder as described in section 1362(a)(2). A single election statement may be filed for all elections made under paragraph (g)(2)(i) of this section for the taxable year. An election made under paragraph (g)(2)(i) of this section is irrevocable.

(iv) *Coordination with election under section 1377(a)(2).* If the event resulting in a qualifying disposition also results in a termination of a shareholder's entire interest as described in § 1.1377–1(b)(4), the election under this paragraph (g)(2) cannot be made. Rather, the election under section 1377(a)(2) and § 1.1377–1(b) may be made. See § 1.1377–1(b) (concerning the election under section 1377(a)(2)).

[T.D. 8508, 59 FR 19, Jan. 3, 1994, as amended by T.D. 8696, 61 FR 67455, Dec. 23, 1996]

§ 1.1368–2 Accumulated adjustments account (AAA).

(a) *Accumulated adjustments account*—(1) *In general.* The accumulated adjustments account is an account of the S corporation and is not apportioned among shareholders. The AAA is relevant for all taxable years beginning on or after January 1, 1983, for which the corporation is an S corporation. On the first day of the first year for which the corporation is an S corporation, the balance of the AAA is zero. The AAA is increased in the manner provided in paragraph (a)(2) of this section and is decreased in the manner provided in paragraph (a)(3) of this section. For the adjustments to the AAA in the case of redemptions, reorganizations, and corporate separations, see paragraph (d) of this section.

(2) *Increases to the AAA.* The AAA is increased for the taxable year of the corporation by the sum of the following items with respect to the corporation for the taxable year:

(i) The items of income described in section 1366(a)(1)(A) other than income that is exempt from tax;

(ii) Any nonseparately computed income determined under section 1366(a)(1)(B); and

(iii) The excess of the deductions for depletion over the basis of property subject to depletion unless the property is an oil or gas property the basis of which has been allocated to shareholders under section 613A(c)(11).

(3) *Decreases to the AAA*—(i) *In general.* The AAA is decreased for the taxable year of the corporation by the sum of the following items with respect to the corporation for the taxable year—

(A) The items of loss or deduction described in section 1366(a)(1)(A);

(B) Any nonseparately computed loss determined under section 1366(a)(1)(B);

(C) Any expense of the corporation not deductible in computing its taxable income and not properly chargeable to a capital account, other than—

(*1*) Federal taxes attributable to any taxable year in which the corporation was a C corporation; and

(*2*) Expenses related to income that is exempt from tax; and

(D) The sum of the shareholders' deductions for depletion for any oil or gas property held by the corporation described in section 1367(a)(2)(E).

(ii) *Extent of allowable reduction.* The AAA may be decreased under paragraph (a)(3)(i) of this section below zero. The AAA is decreased by noncapital, nondeductible expenses under paragraph (a)(3)(i)(C) of this section even though a portion of the noncapital, nondeductible expenses is not taken into account by a shareholder under §1.1367–1(f) (relating to the elective ordering rule). The AAA is also decreased by the entire amount of any loss or deduction even though a portion of the loss or deduction is not taken into account by a shareholder under section 1366(d)(1) or is otherwise not currently deductible under the Internal Revenue Code. However, in any subsequent taxable year in which the loss or deduction or noncapital, nondeductible expense is treated as incurred by the corporation with respect to the shareholder under section 1366(d)(2) or §1.1367–1(f) (or in which the loss or deduction is otherwise allowed to the shareholder), no further adjustment is made to the AAA.

(iii) *Decrease to the AAA for distributions.* The AAA is decreased (but not below zero) by any portion of a distribution to which section 1368 (b) or (c)(1) applies.

(4) *Ordering rules for the AAA.* For any taxable year, the adjustments to the AAA are made in the following order:

(i) The AAA is increased under paragraph (a)(2) of this section before it is decreased under paragraph (a)(3) of this section for the taxable year;

(ii) The AAA is decreased under paragraph (a)(3)(i) of this section before it is decreased under paragraph (a)(3) (iii) of this section;

(iii) The AAA is decreased (but not below zero) by any portion of an ordinary distribution to which section 1368 (b) or (c)(1) applies; and

(iv) The AAA is adjusted (whether negative or positive) for redemption distributions under paragraph (d)(1) of this section.

(b) *Distributions in excess of the AAA*—(1) *In general.* A portion of the AAA (determined under paragraph (b)(2) of this section) is allocated to each of the distributions made for the taxable year if—

(i) An S corporation makes more than one distribution of property with respect to its stock during the taxable year of the corporation (including an S short year as defined under section 1362(e)(1)(A));

(ii) The AAA has a positive balance at the close of the year; and

(iii) The sum of the distributions made during the corporation's taxable year exceeds the balance of the AAA at the close of the year.

(2) Amount of the AAA allocated to each distribution. The amount of the AAA allocated to each distribution is determined by multiplying the balance of the AAA at the close of the current taxable year by a fraction, the numerator of which is the amount of the distribution and the denominator of which is the amount of all distributions made during the taxable year. For purposes of this paragraph (b)(2), the term *all distributions made during the taxable year* does not include any distribution treated as from earnings and profits or previously taxed income

pursuant to an election made under section 1368(e)(3) and § 1.1368–1(f)(2). See paragraph (d)(1) of this section for rules relating to the adjustments to the AAA for redemptions and distributions in the year of a redemption.

(c) *Distribution of money and loss property*—(1) *In general.* The amount of the AAA allocated to a distribution under this section must be further allocated (under paragraph (c)(2) of this section) if the distribution—

(i) Consists of property the adjusted basis of which exceeds its fair market value on the date of the distribution and money;

(ii) Is a distribution to which § 1.1368–1(d)(1) applies; and

(iii) Exceeds the amount of the corporation's AAA properly allocable to that distribution.

(2) *Allocating the AAA to loss property.* The amount of the AAA allocated to the property other than money is equal to the amount of the AAA allocated to the distribution multiplied by a fraction, the numerator of which is the fair market value of the property other than money on the date of distribution and the denominator of which is the amount of the distribution. The amount of the AAA allocated to the money is equal to the amount of the AAA allocated to the distribution reduced by the amount of the AAA allocated to the property other than money.

(d) *Adjustment in the case of redemptions, reorganizations, and divisions*—(1) *Redemptions*—(i) *General rule.* In the case of a redemption distribution by an S corporation that is treated as an exchange under section 302(a) or section 303(a) (a *redemption distribution*), the AAA of the corporation is adjusted in an amount equal to the ratable share of the corporation's AAA (whether negative or positive) attributable to the redeemed stock as of the date of the redemption.

(ii) *Special rule for years in which a corporation makes both ordinary and redemption distributions.* In any year in which a corporation makes one or more distributions to which section 1368(a) applies (*ordinary distributions*) and makes one or more redemption distributions, the AAA of the corporation is adjusted first for any ordinary distributions and then for any redemption distributions.

(iii) *Adjustments to earnings and profits.* Earnings and profits are adjusted under section 312 independently of any adjustments made to the AAA.

(2) *Reorganizations.* An S corporation acquiring the assets of another S corporation in a transaction to which section 381(a)(2) applies will succeed to and merge its AAA (whether positive or negative) with the AAA (whether positive or negative) of the distributor or transferor S corporation as of the close of the date of distribution or transfer. Thus, the AAA of the acquiring corporation after the transaction is the sum of the AAAs of the corporations prior to the transaction.

(3) *Corporate separations to which section 368(a)(l)(D) applies.* If an S corporation with accumulated earnings and profits transfers a part of its assets constituting an active trade or business to another corporation in a transaction to which section 368(a)(l)(D) applies, and immediately thereafter the stock and securities of the controlled corporation are distributed in a distribution or exchange to which section 355 (or so much of section 356 as relates to section 355) applies, the AAA of the distributing corporation immediately before the transaction is allocated between the distributing corporation and the controlled corporation in a manner similar to the manner in which the earnings and profits of the distributing corporation are allocated under section 312 (h). See § 1.312–10(a).

(e) *Election to terminate year under section 1377(a)(2) or § 1.1368–1(g)(2).* If an election is made under section 1377(a)(2) (to terminate the year in the case of termination of a shareholder's interest) or § 1.1368–1(g)(2) (to terminate the year in the case of a qualifying disposition), this section applies as if the taxable year consisted of separate taxable years, the first of which ends at the close of the day on which the shareholder terminated his or her interest in the corporation or makes a substantial disposition of stock, whichever the case may be.

[T.D. 8508, 59 FR 20, Jan. 3, 1994]

§1.1368–3 Examples.

The principles of §§1.1368–1 and 1.1368–2 are illustrated by the examples below. In each example Corporation S is a calendar year corporation:

Example 1. Distributions by S corporations without C corporation earnings and profits. (i) Corporation S, an S corporation, has no earnings and profits as of January 1, 1996, the first day of its 1996 taxable year. S's sole shareholder, A, holds 10 shares of S stock with a basis of $1 per share as of that date. On March 1, 1996, S makes a distribution of $38 to A. For S's 1996 taxable year, A's pro rata share of the amount of the items described in section 1367(a)(1) (relating to increases in basis of stock) is $50 and A's pro rata share of the amount of the items described in section 1367(a)(2) (B) through (D) (relating to decreases in basis of stock for items other than distributions) is $26.

(ii) Under section 1368(d)(1) and §1.1368–1(e)(1), the adjustments to the bases of A's stock in S described in section 1367 are made before the distribution rules of section 1368 are applied. Thus, A's basis per share in the stock is $3.40 ($1 + [($50–$26) / 10 shares]) before taking into account the distribution. Under section 1367(a)(2)(A), the basis of A's stock is decreased by distributions to A that are not includible in A's income. Under §1.1367–1(c)(3), the amount of the distribution that is attributable to each share of A's stock is $3.80 ($38 distribution / 10 shares). However, A only has a basis of $3.40 in each share, and basis may not be reduced below zero. Therefore, the basis of each share of his stock is reduced by $3.40 to zero, and the remaining $4.00 of the distribution ([$3.80–$3.40] × 10 shares) is treated as gain from the sale or exchange of property. As of January 1, 1997, A has a basis of $0 in his shares of S stock.

Example 2. Distributions by S corporations with C corporation earnings and profits. (i) Corporation S properly elects to be an S corporation beginning January 1, 1997, and as of that date has accumulated earnings and profits of $30. B, an individual and sole shareholder of Corporation S, has 10 shares of S stock with a basis of $12 per share. In addition, B lends $30 to S evidenced by a demand note.

(ii) During 1997, S has a nonseparately computed loss of $150. S makes no distributions to B during 1997. Under section 1366(d)(1), B is allowed a loss equal to $150, the amount equal to the sum of B's bases in his shares of stock and his basis in the debt. Under section 1367, the loss reduces B's adjusted basis in his stock and debt to $0. Under §1.1368–2(a)(3), S's AAA as of December 31, 1997, has a deficit of $150 as a result of S's loss for the year.

(iii) For 1998, S has $220 of separately stated income and distributes $110 to B. The balance in the AAA (negative $150 from 1997) is increased by $220 for S's income for the year and decreased to $0 for the portion of the distribution that is treated as being from the AAA ($70). Under §1.1367–2(c), B's net increase is $150, determined by reducing the $220 of income by the $70 of the distribution not includible in income by B. Thus, B's basis in the debt is fully restored to $30, and B's basis in S stock (before accounting for the distribution) is increased from zero to $19 per share ([$220–$30 applied to the debt] / 10). Thirty dollars of the distribution is considered a dividend to the extent of S's $30 of earnings and profits, and the remaining $10 of the distribution reduces B's basis in the S stock. Thus, B's basis in the S stock as of December 31, 1998, is $11 per share ($19–[$70 AAA distribution / 10]–[10 distribution treated as a reduction in basis / 10]). The balance in the AAA is $0, S's earnings and profits are $0, and B's basis in the loan is $30.

Example 3. Election in case of disposition of substantial amount of stock. (i) Corporation S, an S corporation, has earnings and profits of $3,000 and a balance in the AAA of $1,000 on January 1, 1997. C, an individual and the sole shareholder of Corporation S, has 100 shares of S stock with a basis of $10 per share. On July 3, 1997, C sells 50 shares of his S stock to D, an individual, for $250. For 1997, S has taxable income of $1,000, of which $500 was earned on or before July 3, 1997, and $500 earned after July 3, 1997. During its 1997 taxable year, S distributes $1,000 to C on February 1 and $1,000 to each of C and D on August 1. S does not make the election under section 1368(e)(3) and §1.1368–1(f)(2) to distribute its earnings and profits before its AAA. S makes the election under §1.1368–1(g)(2) to treat its taxable year as if it consisted of separate taxable years, the first of which ends at the close of July 3, 1997, the date of the qualifying disposition.

(ii) Under section §1.1368–1(g)(2), for the period ending on July 3, 1997, S's AAA is $500 ($1,000 (AAA as of January 1, 1997) + $500 (income earned from January 1, 1997 through July 3, 1997)–$1,000 (distribution made on February 1, 1997)). C's bases in his shares of stock is decreased to $5 per share ($10 (original basis) + $5 (increase per share for income)–$10 (decrease per share for distribution)).

(iii) The AAA is adjusted at the end of the taxable year for the period July 4 through December 31, 1997. It is increased from $500 (AAA as of the close of July 3, 1997) to $1,000 for the income earned during this period and is decreased by $1,000, the portion of the distribution ($2,000 in total) made to C and D on August 1 that does not exceed the AAA. The $1,000 portion of the distribution that remains after the AAA is reduced to zero is attributable to earnings and profits. Therefore

C and D each have a dividend of $500, which does not affect their basis or S's AAA. The earnings and profits account is reduced from $3,000 to $2,000.

(iv) As of December 31, 1997, C and D have bases in their shares of stock of zero ($5 (basis as of July 4)+$5 ($500 income/100 shares)–$10 ($1,000 distribution/100 shares)). C and D each will report $500 as dividend income, which does not affect their basis or S's AAA.

Example 4. Election to distribute earnings and profits first. (i) Corporation S has been a calendar year C corporation since 1975. For 1982, S elects for the first time to be taxed under subchapter S, and during 1982 has $60 of earnings and profits. As of December 31, 1995, S has an AAA of $10 and earnings and profits of $160, consisting of $100 of subchapter C earnings and profits and $60 of subchapter S earnings and profits. For 1996, S has $200 of taxable income and the AAA is increased to $210 (before taking distributions into account). During 1996, S distributes $240 to its shareholders. With its 1996 tax return, S properly elects under section 1368(e)(3) and § 1.1368–1(f)(2) to distribute its earnings and profits before its AAA.

(ii) Because S elected to distribute its earnings and profits before its AAA, the first $100 of the distribution is characterized as a distribution from subchapter C earnings and profits; the next $60 of the distribution is characterized as a distribution from subchapter S earnings and profits. Because $160 of the distribution is from earnings and profits, the shareholders of S have a $160 dividend. The remaining $80 of the distribution is a distribution from S's AAA and is treated by the shareholders as a return of capital or gain from the sale or exchange of property, as appropriate, under § 1.1368–1(d)(1). S's AAA, as of December 31, 1996, equals $130 ($210–$80).

Example 5. Distributions in excess of the AAA. (i) On January 1, 1995, Corporation S has $40 of earnings and profits and a balance in the AAA of $100. S has two shareholders, E and F, each of whom own 50 shares of S's stock. For 1995, S has taxable income of $50, which increases the AAA to $150 as of December 31, 1995 (before taking into account distributions made during 1995). On February 1, 1995, S distributes $60 to each shareholder. On September 1, 1995, S distributes $30 to each shareholder. S does not make the election under section 1368(e)(3) and § 1.1368–1(f)(2) to distribute its earnings and profits before its AAA.

(ii) The sum of the distributions exceed S's AAA. Therefore, under § 1.1368–2(b), a portion of S's $150 balance in the AAA as of December 31, 1995, is allocated to each of the February 1 and September 1 distributions based on the respective sizes of the distributions. Accordingly, S must allocate $100 ($150 (AAA)×($120 (February 1 distribution)/$180 (the sum of the distributions))) of the AAA to the February 1 distribution, and $50 ($150×($60/$180)) to the September 1 distribution. The portions of the distributions to which the AAA is allocated are treated by the shareholder as a return of capital or gain from the sale or exchange of property, as appropriate. The remainder of the two distributions is treated as a dividend to the extent that it does not exceed S's earnings and profits. E and F must each report $10 of dividend income for the February 1 distribution. For the September 1 distribution, E and F must each report $5 of dividend income.

Example 6. Ordinary and redemption distributions in the same taxable year. (i) On January 1, 1995, Corporation S, an S corporation, has $20 of earnings and profits and a balance in the AAA of $10. S has two shareholders, G and H, each of whom owns 50 shares of S's stock. For 1995, S has taxable income of $16, which increases the AAA to $26 as of December 31, 1995 (before taking into account distributions made during 1995). On February 1, 1995, S distributes $10 to each shareholder. On December 31, 1995, S redeems for $13 all of shareholder G's stock in a redemption that is treated as a sale or exchange under section 302(a).

(ii) The sum of the ordinary distributions does not exceed S's AAA. Therefore, S must reduce the $26 balance in the AAA by $20 for the February 1 ordinary distribution. The portions of the distribution by which the AAA is reduced are treated by the shareholders as a return of capital or gain from the sale or exchange of property. S must adjust the remaining AAA, $6, in an amount equal to the ratable share of the remaining AAA attributable to the redeemed stock, or $3 (50%×$6).

(iii) S also must adjust the earnings and profits of $20 in an amount equal to the ratable share of the earnings and profits attributable to the redeemed stock. Therefore, S adjusts the earnings and profits by $10 (50%×$20), the ratable share of the earnings and profits attributable to the redeemed stock.

[T.D. 8508, 59 FR 22, Jan. 3, 1994; 59 FR 10675, Mar. 7, 1994]

§ 1.1368–4 Effective date and transition rule.

Sections 1.1368–1, 1.1368–2, and 1.1368–3 apply to taxable years of a corporation beginning on or after January 1, 1994. For taxable years beginning before January 1, 1994, the treatment of distributions by an S corporation to its shareholders must be determined in a reasonable manner, taking into account the statute and the legislative history. Except with regard to the deemed dividend rule under §1.1368–1(f)(3), return positions consistent with §§1.1368–1, 1.1368–2, and 1.1368–3 are reasonable.

[T.D. 8579, 59 FR 66463, Dec. 27, 1994]

§1.1374–1 General rules and definitions.

(a) *Computation of tax.* The tax imposed on the income of an S corporation by section 1374(a) for any taxable year during the recognition period is computed as follows—

(1) Step One: Determine the net recognized built-in gain of the corporation for the taxable year under section 1374(d)(2) and §1.1374–2;

(2) Step Two: Reduce the net recognized built-in gain (but not below zero) by any net operating loss and capital loss carryforward allowed under section 1374(b)(2) and §1.1374–5;

(3) Step Three: Compute a tentative tax by applying the rate of tax determined under section 1374(b)(1) for the taxable year to the amount determined under paragraph (a)(2) of this section;

(4) Step Four: Compute the final tax by reducing the tentative tax (but not below zero) by any credit allowed under section 1374(b)(3) and §1.1374–6.

(b) *Anti-trafficking rules.* If section 382, 383, or 384 would have applied to limit the use of a corporation's recognized built-in loss or section 1374 attributes at the beginning of the first day of the recognition period if the corporation had remained a C corporation, these sections apply to limit their use in determining the S corporation's pre-limitation amount, taxable income limitation, net unrealized built-in gain limitation, deductions against net recognized built-in gain, and credits against the section 1374 tax.

(c) *Section 1374 attributes.* Section 1374 attributes are the loss carryforwards allowed under section 1374(b)(2) as a deduction against net recognized built-in gain and the credit and credit carryforwards allowed under section 1374(b)(3) as a credit against the section 1374 tax.

(d) *Recognition period.* The recognition period is the 10-year (120-month) period beginning on the first day the corporation is an S corporation or the day an S corporation acquires assets in a section 1374(d)(8) transaction. For example, if the first day of the recognition period is July 14, 1996, the last day of the recognition period is July 13, 2006. If the recognition period for certain assets ends during an S corporation's taxable year (for example, because the corporation was on a fiscal year as a C corporation and changed to a calendar year as an S corporation or because an S corporation acquired assets in a section 1374(d)(8) transaction during a taxable year), the S corporation must determine its pre-limitation amount (as defined in § 1.1374–2(a)(1)) for the year as if the corporation's books were closed at the end of the recognition period.

(e) *Predecessor corporation.* For purposes of section 1374(c)(1), if the basis of an asset of the S corporation is determined (in whole or in part) by reference to the basis of the asset (or any other property) in the hands of another corporation, the other corporation is a predecessor corporation of the S corporation.

[T.D. 8579, 59 FR 66463, Dec. 27, 1994]

§ 1.1374–2 Net recognized built-in gain.

(a) *In general.* An S corporation's net recognized built-in gain for any taxable year is the least of—

(1) Its taxable income determined by using all rules applying to C corporations and considering only its recognized built-in gain, recognized built-in loss, and recognized built-in gain carryover (pre-limitation amount);

(2) Its taxable income determined by using all rules applying to C corporations as modified by section 1375(b)(1)(B) (taxable income limitation); and

(3) The amount by which its net unrealized built-in gain exceeds its net recognized built-in gain for all prior taxable years (net unrealized built-in gain limitation).

(b) *Allocation rule.* If an S corporation's pre-limitation amount for any taxable year exceeds its net recognized built-in gain for that year, the S corporation's net recognized built-in gain consists of a ratable portion of each item of income, gain, loss, and deduction included in the pre-limitation amount.

(c) *Recognized built-in gain carryover.* If an S corporation's net recognized built-in gain for any taxable year is equal to its taxable income limitation, the amount by which its pre-limitation amount exceeds its taxable income limitation is a recognized built-in gain carryover included in its pre-limitation amount for the succeeding taxable year. The recognized built-in gain carryover consists of that portion of each item of income, gain, loss, and deduction not included in the S corporation's net recognized built-in gain for the year the carryover arose, as determined under paragraph (b) of this section.

(d) *Accounting methods.* In determining its taxable income for pre-limitation amount and taxable income limitation purposes, a corporation must use the accounting method(s) it uses for tax purposes as an S corporation.

(e) *Example.* The rules of this section are illustrated by the following example.

Example: Net recognized built-in gain. X is a calendar year C corporation that elects to become an S corporation on January 1, 1996. X has a net unrealized built-in gain of $50,000 and no net operating loss or capital loss carryforwards. In 1996, X has a pre-limitation amount of $20,000, consisting of ordinary income of $15,000 and capital gain of $5,000, a taxable income limitation of $9,600, and a net unrealized built-in gain limitation of $50,000. Therefore, X's net recognized built-in gain for 1996 is $9,600, because that is the least of the three amounts described in paragraph (a) of this section. Under paragraph (b) of this section, X's net recognized built-in gain consists of recognized built-in ordinary income of $7,200 [$15,000×($9,600/$20,000)=$7,200] and recognized built-in capital gain of $2,400 [$5,000×($9,600/$20,000)=$2,400]. Under paragraph (c) of this section, X has a recognized built-in gain carryover to 1997 of $10,400 ($20,000−$9,600=$10,400), consisting of $7,800 ($15,000−$7,200=$7,800) of recognized built-in ordinary income and $2,600 ($5,000−$2,400=$2,600) of recognized built-in capital gain.

[T.D. 8579, 59 FR 66463, Dec. 27, 1994]

§ 1.1374–3 Net unrealized built-in gain.

(a) *In general.* An S corporation's net unrealized built-in gain is the total of the following—

(1) The amount that would be the amount realized if, at the beginning of the first day of the recognition period, the corporation had remained a C corporation and had sold all its assets at fair market value to an unrelated party that assumed all its liabilities; decreased by

(2) Any liability of the corporation that would be included in the amount realized on the sale referred to in paragraph (a)(1) of this section, but only if the corporation would be allowed a deduction on payment of the liability; decreased by

(3) The aggregate adjusted bases of the corporation's assets at the time of the sale referred to in paragraph (a)(1) of this section; increased or decreased by

(4) The corporation's section 481 adjustments that would be taken into account on the sale referred to in paragraph (a)(1) of this section; and increased by

(5) Any recognized built-in loss that would not be allowed as a deduction under section 382, 383, or 384 on the sale referred to in paragraph (a)(1) of this section.

(b) *Example.* The rules of this section are illustrated by the following example.

Example: Net unrealized built-in gain. (i) (a) X, a calendar year C corporation using the cash method, elects to become an S corporation on January 1, 1996. On December 31, 1995, X has assets and liabilities as follows:

Assets	FMV	Basis
Factory	$500,000	$900,000
Accounts Receivable	300,000	0
Goodwill	250,000	0
Total	1,050,000	900,000
Liabilities	Amount	
Mortgage	$200,000	
Accounts Payable	100,000	
Total	300,000	

(b) Further, X must include a total of $60,000 in taxable income in 1996, 1997, and 1998 under section 481(a).

(ii) If, on December 31, 1995, X sold all its assets to a third party that assumed all its liabilities, X's amount realized would be $1,050,000 ($750,000 cash received+$300,000 liabilities assumed=$1,050,000). Thus, X's net unrealized built-in gain is determined as follows:

Amount realized –	$1,050,000
Deduction allowed–	(100,000)
Basis of X's assets—	(900,000)
Section 481 adjustments	60,000
Net unrealized built-in gain–	110,000

[T.D. 8579, 59 FR 66464, Dec. 27, 1994]

§ 1.1374–4 Recognized built-in gain or loss.

(a) *Sales and exchanges*—(1) *In general.* Section 1374(d)(3) or 1374(d)(4) applies to any gain or loss recognized during the recognition period in a transaction treated as a sale or exchange for Federal income tax purposes.

(2) *Oil and gas property.* For purposes of paragraph (a)(1) of this section, an S corporation's adjusted basis in oil and gas property equals the sum of the shareholders' adjusted bases in the property as determined in section 613A(c)(11)(B).

(3) *Examples.* The rules of this paragraph (a) are illustrated by the following examples.

Example 1. Production and sale of oil. X is a C corporation that purchased a working interest in an oil and gas property for $100,000 on July 1, 1993. X elects to become an S corporation effective January 1, 1996. On that date, the working interest has a fair market value of $250,000 and an adjusted basis of $50,000, but no oil has as yet been extracted. In 1996, X begins production of the working interest, sells oil that it has produced to a refinery for $75,000, and includes that amount in gross income. Under paragraph (a)(1) of this section, the $75,000 is not recognized built-in gain because as of the beginning of the recognition period X held only a working interest in the oil and gas property (since the oil had not yet been extracted from the ground), and not the oil itself.

Example 2. Sale of oil and gas property. Y is a C corporation that elects to become an S corporation effective January 1, 1996. Y has two shareholders, A and B. A and B each own 50 percent of Y's stock. In addition, Y owns a royalty interest in an oil and gas property with a fair market value of $300,000 and an adjusted basis of $200,000. Under section 613A(c)(11)(B), Y's $200,000 adjusted basis in the royalty interest is allocated $100,000 to A and $100,000 to B. During 1996, A and B take depletion deductions with respect to the royalty interest of $10,000 and $15,000, respectively. As of January 1, 1997, A and B have a basis in the royalty interest of $90,000 and $85,000, respectively. On January 1, 1997, Y sells the royalty interest for $250,000. Under paragraph (a)(1) of this section, Y has gain recognized and recognized built-in gain of $75,000 ($250,000 − ($90,000+$85,000)=$75,000) on the sale.

(b) *Accrual method rule*—(1) *Income items.* Except as otherwise provided in this section, any item of income properly taken into account during the recognition period is recognized built-in gain if the item would have been properly included in gross income before the beginning of the recognition period by an accrual method taxpayer (disregarding any method of accounting for which an election by the taxpayer must be made unless the taxpayer actually used the method when it was a C corporation).

(2) *Deduction items.* Except as otherwise provided in this section, any item of deduction properly taken into account during the recognition period is recognized built-in loss if the item would have been properly allowed as a deduction against gross income before the beginning of the recognition period to an accrual method taxpayer (disregarding any method of accounting for which an election by the taxpayer must be made unless the taxpayer actually used the method when it was a C corporation). In determining whether an item would have been properly allowed as a deduction against gross income by an accrual method taxpayer for purposes of this paragraph, section 461(h)(2)(C) and § 1.461–4(g) (relating to liabilities for tort, worker's compensation, breach of contract, violation of law, rebates, refunds, awards, prizes, jackpots, insurance contracts, warranty contracts, service contracts, taxes, and other liabilities) do not apply.

(3) *Examples.* The rules of this paragraph (b) are illustrated by the following examples.

Example 1. Accounts receivable. X is a C corporation using the cash method that elects to become an S corporation effective January 1, 1996. On January 1, 1996, X has $50,000 of accounts receivable for services rendered before that date. On that date, the accounts receivable have a fair market value of $40,000 and an adjusted basis of $0. In 1996, X collects $50,000 on the accounts receivable and includes that amount in gross income. Under paragraph (b)(1) of this section, the $50,000 included in gross income in 1996 is recognized built-in gain because it would have been included in gross income before the beginning of the recognition period if X had been an accrual method taxpayer. However, if X instead disposes of the accounts receivable for $45,000 on July 1, 1996, in a transaction treated as a sale or exchange for Federal income tax purposes, X would have recognized built-in gain of $40,000 on the disposition.

Example 2. Contingent liability. Y is a C corporation using the cash method that elects to become an S corporation effective January 1, 1996. In 1995, a lawsuit was filed against Y claiming $1,000,000 in damages. In 1996, Y loses the lawsuit, pays a $500,000 judgment, and properly claims a deduction for that amount. Under paragraph (b)(2) of this section, the $500,000 deduction allowed in 1996 is not recognized built-in loss because it would not have been allowed as a deduction against gross income before the beginning of the recognition period if Y had been an accrual method taxpayer (even disregarding section 461(h)(2)(C) and § 1.461–4(g)).

Example 3. Deferred payment liabilities. X is a C corporation using the cash method that elects to become an S corporation on January 1, 1996. In 1995, X lost a lawsuit and became obligated to pay $150,000 in damages. Under section 461(h)(2)(C), this amount is not allowed as a deduction until X makes payment. In 1996, X makes payment and properly claims a deduction for the amount of the payment. Under paragraph (b)(2) of this section, the $150,000 deduction allowed in 1996 is recognized built-in loss because it would have been allowed as a deduction against gross income before the beginning of the recognition period if X had been an accrual method taxpayer (disregarding section 461(h)(2)(C) and § 1.461–4(g)).

Example 4. Deferred prepayment income. Y is a C corporation using an accrual method that elects to become an S corporation effective January 1, 1996. In 1995, Y received $2,500 for services to be rendered in 1996, and properly elected to include the $2,500 in gross income in 1996 under Rev. Proc. 71–21, 1971–2

C.B. 549 (see §601.601(d)(2)(ii)(*b*) of this chapter). Under paragraph (b)(1) of this section, the $2,500 included in gross income in 1996 is not recognized built-in gain because it would not have been included in gross income before the beginning of the recognition period by an accrual method taxpayer using the method that Y actually used before the beginning of the recognition period.

Example 5. Change in method. X is a C corporation using an accrual method that elects to become an S corporation effective January 1, 1996. In 1995, X received $5,000 for services to be rendered in 1996, and properly included the $5,000 in gross income. In 1996, X properly elects to include the $5,000 in gross income in 1996 under Rev. Proc. 71–21, 1971–2 C.B. 549 (see §601.601(d)(2)(ii)(*b*) of this chapter). As a result of the change in method of accounting, X has a $5,000 negative section 481(a) adjustment. Under paragraph (b)(1) of this section, the $5,000 included in gross income in 1996 is recognized built-in gain because it would have been included in gross income before the beginning of the recognition period by an accrual method taxpayer using the method that X actually used before the beginning of the recognition period. In addition, the $5,000 negative section 481(a) adjustment is recognized built-in loss because it relates to an item (the $5,000 X received for services in 1995) attributable to periods before the beginning of the recognition period under the principles for determining recognized built-in gain or loss in this section. See paragraph (d) of this section for rules regarding section 481(a) adjustments.

(c) *Section 267(a)(2) and 404(a)(5) deductions*—(1) *Section 267(a)(2).* Notwithstanding paragraph (b)(2) of this section, any amount properly deducted in the recognition period under section 267(a)(2), relating to payments to related parties, is recognized built-in loss to the extent—

(i) All events have occurred that establish the fact of the liability to pay the amount, and the exact amount of the liability can be determined, as of the beginning of the recognition period; and

(ii) The amount is paid—

(A) In the first two and one-half months of the recognition period; or

(B) To a related party owning, under the attribution rules of section 267, less than 5 percent, by voting power and value, of the corporation's stock, both as of the beginning of the recognition period and when the amount is paid.

(2) *Section 404(a)(5).* Notwithstanding paragraph (b)(2) of this section, any amount properly deducted in the recognition period under section 404(a)(5), relating to payments for deferred compensation, is recognized built-in loss to the extent—

(i) All events have occurred that establish the fact of the liability to pay the amount, and the exact amount of the liability can be determined, as of the beginning of the recognition period; and

(ii) The amount is not paid to a related party to which section 267(a)(2) applies.

(3) *Examples.* The rules of this paragraph (c) are illustrated by the following examples.

Example 1. Fixed annuity. X is a C corporation that elects to become an S corporation effective January 1, 1996. On December 31, 1995, A is age 60, has provided services to X as an employee for 20 years, and is a vested participant in X's unfunded nonqualified retirement plan. Under the plan, A receives $1,000 per month upon retirement until death. The plan provides no additional benefits. A retires on December 31, 1997, after working for X for 22 years. A at no time is a shareholder of X. X's deductions under section 404(a)(5) in the recognition period on paying A the $1,000 per month are recognized built-in loss because all events have occurred that establish the fact of the liability to pay the amount, and the exact amount of the liability can be determined, as of the beginning of the recognition period.

Example 2. Increase in annuity for working beyond 20 years. The facts are the same as *Example 1,* except that under the plan A receives $1,000 per month, plus $100 per month for each year A works for X beyond 20 years, upon retirement until death. X's deductions on paying A the $1,000 per month are recognized built-in loss. However, X's deductions on paying A the $200 per month for the two years A worked for X beyond 20 years are not recognized built-in loss because all events have not occurred that establish the fact of the liability to pay the amount, and the exact amount of the liability cannot be determined, as of the beginning of the recognition period.

Example 3. Cost of living adjustment. The facts are the same as *Example 1,* except that under the plan A receives $1,000 per month, plus annual cost of living adjustments, upon retirement until death. X's deductions under section 404(a)(5) on paying A the $1,000 per month are recognized built-in loss. However, X's deductions under section 404(a)(5) on paying A the annual cost of living adjustment are not recognized built-in loss because all events have not occurred that establish the fact of the liability to pay the amount, and the exact amount of the liability cannot be determined, as of the beginning of the recognition period.

(d) *Section 481(a) adjustments*—(1) *In general.* Any section 481(a) adjustment taken into account in the recognition period is recognized built-in gain or loss to the extent the adjustment relates to items attributable to periods before the beginning of the recognition period under the principles for determining recognized built-in gain or loss in this section. The principles for determining recognized built-in gain or loss in this section include, for example, the accrual method rule under paragraph (b) of this section.

(2) *Examples.* The rules of this paragraph (d) are illustrated by the following examples.

Example 1. Omitted item attributable to prerecognition period. X is a C corporation that elects to become an S corporation effective January 1, 1996. X improperly capitalizes repair costs and recovers the costs through depreciation of the related assets. In 1999, X properly changes to deducting repair costs as they are incurred. Under section 481(a), the basis of the related assets are reduced by an amount equal to the excess of the repair costs incurred before the year of change over the repair costs recovered through depreciation before the year of change. In addition, X has a negative section 481(a) adjustment equal to the basis reduction. Under paragraph (d)(1) of this section, the portion of X's negative section 481(a) adjustment relating to the repair costs incurred before the recognition period is recognized built-in loss because those repair costs are items attributable to periods before the beginning of the recognition period under the principles for determining recognized built-in gain or loss in this section.

Example 2. Duplicated item attributable to prerecognition period. Y is a C corporation that elects to become an S corporation effective January 1, 1996. Y improperly uses an accrual method without regard to the economic performance rules of section 461(h) to account for worker's compensation claims. As a result, Y takes deductions when claims are filed. In 1999, Y properly changes to an accrual method with regard to the economic performance rules under section 461(h)(2)(C) for worker's compensation claims. As a result, Y takes deductions when claims are paid. The positive section 481(a) adjustment resulting from the change is equal to the amount of claims filed, but unpaid, before the year of change. Under paragraph (b)(2) of this section, the deduction allowed in the recognition period for claims filed, but unpaid, before the recognition period is recognized built-in loss because a deduction was allowed for those claims before the recognition period under an accrual method without regard to section 461(h)(2)(C). Under paragraph (d)(1) of this section, the portion of Y's positive section 481(a) adjustment relating to claims filed, but unpaid, before the recognition period is recognized built-in gain because those claims are items attributable to periods before the beginning of the recognition period under the principles for determining recognized built-in gain or loss in this section.

(e) *Section 995(b)(2) deemed distributions.* Any item of income properly taken into account during the recognition period under section 995(b)(2) is recognized built-in gain if the item results from a DISC termination or disqualification occurring before the beginning of the recognition period.

(f) *Discharge of indebtedness and bad debts.* Any item of income or deduction properly taken into account during the first year of the recognition period as discharge of indebtedness income under section 61(a)(12) or as a bad debt deduction under section 166 is recognized built-in gain or loss if the item arises from a debt owed by or to an S corporation at the beginning of the recognition period.

(g) *Completion of contract.* Any item of income properly taken into account during the recognition period under the completed contract method (as described in § 1.451–3(d)) where the corporation began performance of the contract before the beginning of the recognition period is recognized built-in gain if the item would have been included in gross income before the beginning of the recognition period under the percentage of completion method (as described in § 1.451–3(c)). Any similar item of deduction is recognized built-in loss if the item would have been allowed as a deduction against gross income before the beginning of the recognition period under the percentage of completion method.

(h) *Installment method*—(1) *In general.* If a corporation sells an asset before or during the recognition period and reports the income from the sale using the installment method under section 453 during or after the recognition period, that income is subject to tax under section 1374.

(2) *Limitation on amount subject to tax.* For purposes of paragraph (h)(1) of this section, the taxable income limitation under §1.1374–2(a)(2) is equal to the amount by which the S corporation's net recognized built-in gain would have been increased from the year of the sale to the earlier of the year the income is reported under the installment method or the last year of the recognition period, assuming all income from the sale had been reported in the year of the sale and all provisions of section 1374 applied. For purposes of the preceding sentence, if the corporation sells the asset before the recognition period, the income from the sale that is not reported before the recognition period is treated as having been reported in the first year of the recognition period.

(3) *Rollover rule.* If the limitation in paragraph (h)(2) of this section applies, the excess of the amount reported under the installment method over the amount subject to tax under the limitation is treated as if it were reported in the succeeding taxable year(s), but only for succeeding taxable year(s) in the recognition period. The amount reported in the succeeding taxable year(s) under the preceding sentence is reduced to the extent that the amount not subject to tax under the limitation in paragraph (h)(2) of this section was not subject to tax because the S corporation had an excess of recognized built-in loss over recognized built-in gain in the taxable year of the sale and succeeding taxable year(s) in the recognition period.

(4) *Use of losses and section 1374 attributes.* If income is reported under the installment method by an S corporation for a taxable year after the recognition period and the income is subject to tax under paragraph (h)(1) of this section, the S corporation's section 1374 attributes may be used to the extent their use is allowed under all applicable provisions of the Code in determining the section 1374 tax. However, the S corporation's loss recognized for a taxable year after the recognition period that would have been recognized built-in loss if it had been recognized in the recognition period may not be used in determining the section 1374 tax.

(5) *Examples.* The rules of this paragraph (h) are illustrated by the following examples.

Example 1. Rollover rule. X is a C corporation that elects to become an S corporation effective January 1, 1996. On that date, X sells Blackacre with a basis of $0 and a value of $100,000 in exchange for a $100,000 note bearing a market rate of interest payable on January 1, 2001. X does not make the election under section 453(d) and, therefore, reports the $100,000 gain using the installment method under section 453. In the year 2001, X has income of $100,000 on collecting the note, unexpired C year attributes of $0, recognized built-in loss of $0, current losses of $100,000, and taxable income of $0. If X had reported the $100,000 gain in 1996, X's net recognized built-in gain from 1996 through 2001 would have been $75,000 greater than otherwise. Under paragraph (h) of this section, X has $75,000 net recognized built-in gain subject to tax under section 1374. X also must treat the $25,000 excess of the amount reported, $100,000, over the amount subject to tax, $75,000, as income reported under the installment method in the succeeding taxable year(s) in the recognition period, except to the extent X establishes that the $25,000 was not subject to tax under section 1374 in the year 2001 because X had an excess of recognized built-in loss over recognized built-in gain in the taxable year of the sale and succeeding taxable year(s) in the recognition period.

Example 2. Use of losses. Y is a C corporation that elects to become an S corporation effective January 1, 1996. On that date, Y sells Whiteacre with a basis of $0 and a value of $250,000 in exchange for a $250,000 note bearing a market rate of interest payable on January 1, 2006. Y does not make the election under section 453(d) and, therefore, reports the $250,000 gain using the installment method under section 453. In the year 2006, Y has income of $250,000 on collecting the note, unexpired C year attributes of $0, loss of $100,000 that would have been recognized built-in loss if it had been recognized in the recognition period, current losses of $150,000, and taxable income of $0. If Y had reported the $250,000 gain in 1996, X's net recognized built-in gain from 1996 through 2005 (that is, during the recognition period) would have been $225,000 greater than otherwise. Under paragraph (h) of this section, X has $225,000 net recognized built-in gain subject to tax under section 1374.

Example 3. Use of section 1374 attribute. Z is a C corporation that elects to become an S corporation effective January 1, 1996. On that date, Z sells Greenacre with a basis of $0 and a value of $500,000 in exchange for a $500,000 note bearing a market rate of interest payable on January 1, 2011. Z does not make the election under section 453(d) and, therefore, reports the $500,000 gain using the installment method under section 453. In the year 2011, Z has income of $500,000 on collecting the note, loss of $0 that would have been recognized built-in loss if it had been recognized in the recognition period, current losses of $0, taxable income of $500,000, and a minimum tax credit of $60,000 arising in 1995. None of Z's minimum tax credit is limited under sections 53(c) or 383. If Z had reported the $500,000 gain in 1996, Z's net recognized built-in gain from 1996 through 2005 (that is, during the recognition period) would have been $350,000 greater than otherwise. Under paragraph (h) of this section, Z has $350,000 net recognized built-in gain subject to tax under section 1374, a tentative section 1374 tax of $122,500 ($350,000 × .35 = $122,500), and a section 1374 tax after using its minimum tax credit arising in 1995 of $62,250 ($122,500 − $60,000 = $62,250).

(i) *Partnership interests*—(1) *In general.* If an S corporation owns a partnership interest at the beginning of the recognition period or transfers property to a partnership in a transaction to which section 1374(d)(6) applies during the recognition period, the S corporation determines the effect on net recognized built-in gain from its distributive share of partnership items as follows—

(i) Step One: Apply the rules of section 1374(d) to the S corporation's distributive share of partnership items of income, gain, loss, or deduction included in income or allowed as a deduction under the rules of subchapter K to determine the extent to which it would have been treated as recognized built-in gain or loss if the partnership items had originated in and been taken into account directly by the S corporation (partnership 1374 items);

(ii) Step Two: Determine the S corporation's net recognized built-in gain without partnership 1374 items;

(iii) Step Three: Determine the S corporation's net recognized built-in gain with partnership 1374 items; and

(iv) Step Four: If the amount computed under Step Three (paragraph (i)(1)(iii) of this section) exceeds the amount computed under Step Two (paragraph (i)(1)(ii) of this section), the excess (as limited by paragraph (i)(2)(i) of this section) is the S corporation's partnership RBIG, and the S corporation's net recognized built-in gain is the sum of the amount computed under Step Two (paragraph (i)(1)(ii) of this section) plus the partnership RBIG. If the amount computed under Step Two (paragraph (i)(1)(ii) of this section) exceeds the amount computed under Step Three (paragraph (i)(1)(iii) of this section), the excess (as limited by paragraph (i)(2)(ii) of this section) is the S corporation's partnership RBIL, and the S corporation's net recognized built-in gain is the remainder of the amount computed under Step Two (paragraph (i)(1)(ii) of this section) after subtracting the partnership RBIL.

(2) *Limitations*—(i) *Partnership RBIG.* An S corporation's partnership RBIG for any taxable year may not exceed the excess (if any) of the S corporation's RBIG limitation over its partnership RBIG for prior taxable years. The preceding sentence does not apply if a corporation forms or avails of a partnership with a principal purpose of avoiding the tax imposed under section 1374.

(ii) *Partnership RBIL.* An S corporation's partnership RBIL for any taxable year may not exceed the excess (if any) of the S corporation's RBIL limitation over its partnership RBIL for prior taxable years.

(3) *Disposition of partnership interest.* If an S corporation disposes of its partnership interest, the amount that may be treated as recognized built-in gain may not exceed the excess (if any) of the S corporation's RBIG limitation over its partnership RBIG during the recognition period. Similarly, the amount that may be treated as recognized built-in loss may not exceed the excess (if any) of the S corporation's RBIL limitation over its partnership RBIL during the recognition period.

(4) *RBIG and RBIL limitations*—(i) *Sale of partnership interest.* An S corporation's RBIG or RBIL limitation is the total of the following—

(A) The amount that would be the amount realized if, at the beginning of the first day of the recognition period, the corporation had remained a C corporation and had sold its partnership interest (and any assets the corporation contributed to the partnership during the recognition period) at fair market value to an unrelated party; decreased by

(B) The corporation's adjusted basis in the partnership interest (and any assets the corporation contributed to the partnership during the recognition period) at the time of the sale referred to in paragraph (i)(4)(i)(A) of this section; and increased or decreased by

(C) The corporation's allocable share of the partnership's section 481(a) adjustments at the time of the sale referred to in paragraph (i)(4)(i)(A) of this section.

(ii) *Amounts of limitations.* If the result in paragraph (i)(4)(i) of this section is a positive amount, the S corporation has a RBIG limitation equal to that amount and a RBIL limitation of $0, but if the result in paragraph (i)(4)(i) of this section is a negative amount, the S corporation has a RBIL limitation equal to that amount and a RBIG limitation of $0.

(5) *Small interest exception*—(i) *In general.* Paragraph (i)(1) of this section does not apply to a taxable year in the recognition period if the S corporation's partnership interest represents less than 10 percent of the partnership's capital and profits at all times during the taxable year and prior taxable years in the recognition period, and the fair market value of the S corporation's partnership interest as of the beginning of the recognition period is less than $100,000.

(ii) *Contributed assets.* For purposes of paragraph (i)(5)(i) of this section, if the S corporation contributes any assets to the partnership during the recognition period and the S corporation held the assets as of the beginning of the recognition period, the fair market value of the S corporation's partnership interest as of the beginning of the recognition period is determined as if the assets were contributed to the partnership before the beginning of the recognition period (using the fair market value of each contributed asset as of the beginning of the recognition period). The contribution does not affect whether paragraph (i)(5)(i) of this section applies for taxable years in the recognition period before the taxable year in which the contribution was made.

(iii) *Anti-abuse rule.* Paragraph (i)(5)(i) of this section does not apply if a corporation forms or avails of a partnership with a principal purpose of avoiding the tax imposed under section 1374.

(6) *Section 704(c) gain or loss.* Solely for purposes of section 1374, an S corporation's section 704(c) gain or loss amount with respect to any asset is not reduced during the recognition period, except for amounts treated as recognized built-in gain or loss with respect to that asset under this paragraph.

(7) *Disposition of distributed partnership asset.* If on the first day of the recognition period an S corporation holds an interest in a partnership that holds an asset and during the recognition period the partnership distributes the asset to the S corporation that thereafter disposes of the asset, the asset is treated as having been held by the S corporation on the first day of the recognition period and as having the fair market value and adjusted basis in the hands of the S corporation that it had in the hands of the partnership on that day.

(8) *Examples.* The rules of this paragraph (i) are illustrated by the following examples.

Example 1. Pre-conversion partnership interest. X is a C corporation that elects to become an S corporation on January 1, 1996. On that date, X owns a 50 percent interest in partnership P and P owns (among other assets) Blackacre with a basis of $25,000 and a value of $45,000. In 1996, P buys Whiteacre for $50,000. In 1999, P sells Blackacre for $55,000 and recognizes a gain of $30,000 of which $15,000 is included in X's distributive share. P also sells Whiteacre in 1999 for $42,000 and recognizes a loss of $8,000 of which $4,000 is included in X's distributive share. Under this paragraph and section 1374(d)(3), X's $15,000 gain is presumed to be recognized built-in gain and thus treated as a partnership 1374 item, but this presumption is rebutted if X establishes that P's gain would have been only $20,000 ($45,000 − $25,000=$20,000) if Blackacre had been sold on the first day of the recognition period. In such a case, only X's distributive share of the $20,000 built-in gain, $10,000, would be treated as a partnership 1374 item. Under this paragraph and section 1374(d)(4), X's $4,000 loss is not treated as a partnership 1374 item because P did not hold Whiteacre on the first day of the recognition period.

Example 2. Post-conversion contribution. Y is a C corporation that elects to become an S corporation on January 1, 1996. On that date, Y owns (among other assets) Blackacre with a basis of $100,000 and a value of $200,000. On

January 1, 1998, when Blackacre has a basis of $100,000 and a value of $200,000, Y contributes Blackacre to partnership P for a 50 percent interest in P. On January 1, 2000, P sells Blackacre for $300,000 and recognizes a gain of $200,000 on the sale ($300,000−$100,000=$200,000). P is allocated $100,000 of the gain under section 704(c), and another $50,000 of the gain for its fifty percent share of the remainder, for a total of $150,000. Under this paragraph and section 1374(d)(3), if Y establishes that P's gain would have been only $100,000 ($200,000−$100,000=$100,000) if Blackacre had been sold on the first day of the recognition period, Y would treat only $100,000 as a partnership 1374 item.

Example 3. RBIG limitation of $100,000 or $50,000. X is a C corporation that elects to become an S corporation on January 1, 1996. On that date, X owns a 50 percent interest in partnership P with a RBIG limitation of $100,000 and a RBIL limitation of $0. P owns (among other assets) Blackacre with a basis of $50,000 and a value of $200,000. In 1996, P sells Blackacre for $200,000 and recognizes a gain of $150,000 of which $75,000 is included in X's distributive share and treated as a partnership 1374 item. X's net recognized built-in gain for 1996 computed without partnership 1374 items is $35,000 and with partnership 1374 items is $110,000. Thus, X has a partnership RBIG of $75,000 except as limited under paragraph (i)(2)(i) of this section. Because X's RBIG limitation is $100,000, X's partnership RBIG of $75,000 is not limited and X's net recognized built-in gain for the year is $110,000 ($35,000+$75,000=$110,000). However, if X had a RBIG limitation of $50,000 instead of $100,000, X's partnership RBIG would be limited to $50,000 under paragraph (i)(2)(i) of this section and X's net recognized built-in gain would be $85,000 ($35,000+$50,000=$85,000).

Example 4. RBIL limitation of $60,000 or $40,000. Y is a C corporation that elects to become an S corporation on January 1, 1996. On that date, Y owns a 50 percent interest in partnership P with a RBIG limitation of $0 and a RBIL limitation of $60,000. P owns (among other assets) Blackacre with a basis of $225,000 and a value of $125,000. In 1996, P sells Blackacre for $125,000 and recognizes a loss of $100,000 of which $50,000 is included in Y's distributive share and treated as a partnership 1374 item. Y's net recognized built-in gain for 1996 computed without partnership 1374 items is $75,000 and with partnership 1374 items is $25,000. Thus, Y has a partnership RBIL of $50,000 for the year except as limited under paragraph (i)(2)(ii) of this section. Because Y's RBIL limitation is $60,000, Y's partnership RBIL for the year is not limited and Y's net recognized built-in gain for the year is $25,000 ($75,000−$50,000=$25,000). However, if Y had a RBIL limitation of $40,000 instead of $60,000, Y's partnership RBIL would be limited to $40,000 under paragraph (i)(2)(ii) of this section and Y's net recognized built-in gain for the year would be $35,000 ($75,000−$40,000=$35,000).

Example 5. RBIG limitation of $0. (i) X is a C corporation that elects to become an S corporation on January 1, 1996. X owns a 50 percent interest in partnership P with a RBIG limitation of $0 and a RBIL limitation of $25,000.

(a) In 1996, P's partnership 1374 items are—

(1) Ordinary income of $25,000; and

(2) Capital gain of $75,000.

(b) X itself has—

(1) Recognized built-in ordinary income of $40,000; and

(2) Recognized built-in capital loss of $90,000.

(ii) X's net recognized built-in gain for 1996 computed without partnership 1374 items is $40,000 and with partnership 1374 items is $65,000 ($40,000+$25,000=$65,000). Thus, X's partnership RBIG is $25,000 for the year except as limited under paragraph (i)(2)(i) of this section. Because X's RBIG limitation is $0, X's partnership RBIG of $25,000 is limited to $0 and X's net recognized built-in gain for the year is $40,000.

Example 6. RBIL limitation of $0. (i) Y is a C corporation that elects to become an S corporation on January 1, 1996. Y owns a 50 percent interest in partnership P with a RBIG limitation of $60,000 and a RBIL limitation of $0.

(a) In 1996, P's partnership 1374 items are—

(1) Ordinary income of $25,000; and

(2) Capital loss of $90,000.

(b) Y itself has—

(1) recognized built-in ordinary income of $40,000; and

(2) recognized built-in capital gain of $75,000.

(ii) Y's net recognized built-in gain for 1996 computed without partnership 1374 items is $115,000 ($40,000+$75,000=$115,000) and with partnership 1374 items is $65,000 ($40,000+$25,000=$65,000). Thus, Y's partnership RBIL is $50,000 for the year except as limited under paragraph (i)(2)(ii) of this section. Because Y's RBIL limitation is $0, Y's partnership RBIL of $50,000 is limited to $0 and Y's net recognized built-in gain is $115,000.

Example 7. Disposition of partnership interest. X is a C corporation that elects to become an S corporation on January 1, 1996. On that date, X owns a 50 percent interest in partnership P with a RBIG limitation of $200,000 and a RBIL limitation of $0. P owns (among other assets) Blackacre with a basis of $20,000 and a value of $140,000. In 1996, P sells Blackacre for $140,000 and recognizes a gain of $120,000 of which $60,000 is included in X's distributive share and treated as a partnership 1374 item. X's net recognized built-in gain for 1996 computed without partnership 1374 items is $95,000 and with partnership 1374 items is $155,000. Thus, X has a partnership

RBIG of $60,000. In 1999, X sells its entire interest in P for $350,000 and recognizes a gain of $250,000. Under paragraph (i)(3) of this section, X's recognized built-in gain on the sale is limited by its RBIG limitation to $140,000 ($200,000 − $60,000=$140,000).

Example 8. Section 704(c) case. Y is a C corporation that elects to become an S corporation on January 1, 1996. On that date, Y contributes Asset 1, 5-year property with a value of $40,000 and a basis of $0, and an unrelated party contributes $40,000 in cash, each for a 50 percent interest in partnership P. The partnership adopts the traditional method under §1.704–3(b). If P sold Asset 1 for $40,000 immediately after it was contributed by Y, P's $40,000 gain would be allocated to Y under section 704(c). Instead, Asset 1 is sold by P in 1999 for $36,000 and P recognizes gain of $36,000 ($36,000 − $0=$36,000) on the sale. However, because book depreciation of $8,000 per year has been taken on Asset 1 in 1996, 1997, and 1998, Y is allocated only $16,000 of P's $36,000 gain ($40,000 − (3×$8,000)=($16,000 − $0)=$16,000) under section 704(c). The remaining $20,000 of P's $36,000 gain ($36,000 − $16,000=$20,000) is allocated 50 percent to each partner under section 704(b). Thus, a total of $26,000 ($16,000+$10,000=$26,000) of P's $36,000 gain is allocated to Y. However, under paragraph (i)(6) of this section, Y treats $36,000 as a partnership 1374 item on P's sale of Asset 1.

Example 9. Disposition of distributed partnership asset. X is a C corporation that elects to become an S corporation on January 1, 1996. On that date, X owns a fifty percent interest in partnership P and P owns (among other assets) Blackacre with a basis of $20,000 and a value of $40,000. On January 1, 1998, P distributes Blackacre to X, when Blackacre has a basis of $20,000 and a value of $50,000. Under section 732(a)(1), X has a transferred basis of $20,000 in Blackacre. On January 1, 1999, X sells Blackacre for $60,000 and recognizes a gain of $40,000. Under paragraph (i)(7) of this section and section 1374(d)(3), X has recognized built-in gain from the sale of $20,000, the amount of built-in gain in Blackacre on the first day of the recognition period.

[T.D. 8579, 59 FR 66464, Dec. 27, 1994]

§1.1374–5 Loss carryforwards.

(a) *In general.* The loss carryforwards allowed as deductions against net recognized built-in gain under section 1374(b)(2) are allowed only to the extent their use is allowed under the rules applying to C corporations. Any other loss carryforwards, such as charitable contribution carryforwards under section 170(d)(2), are not allowed as deductions against net recognized built-in gain.

(b) *Example.* The rules of this section are illustrated by the following example.

Example: Section 382 limitation. X is a C corporation that has an ownership change under section 382(g)(1) on January 1, 1994. On that date, X has a fair market value of $500,000, NOL carryforwards of $400,000, and a net unrealized built-in gain under section 382(h)(3)(A) of $0. Assume X's section 382 limitation under section 382(b)(1) is $40,000. X elects to become an S corporation on January 1, 1998. On that date, X has NOL carryforwards of $240,000 (having used $160,000 of its pre-change net operating losses in its 4 preceding taxable years) and a section 1374 net unrealized built-in gain of $250,000. In 1998, X has net recognized built-in gain of $100,000. X may use $40,000 of its NOL carryforwards as a deduction against its $100,000 net recognized built-in gain, because X's section 382 limitation is $40,000.

[T.D. 8579, 59 FR 66469, Dec. 27, 1994]

§1.1374–6 Credits and credit carryforwards.

(a) *In general.* The credits and credit carryforwards allowed as credits against the section 1374 tax under section 1374(b)(3) are allowed only to the extent their use is allowed under the rules applying to C corporations. Any other credits or credit carryforwards, such as foreign tax credits under section 901, are not allowed as credits against the section 1374 tax.

(b) *Limitations.* The amount of business credit carryforwards and minimum tax credit allowed against the section 1374 tax are subject to the limitations described in section 38(c) and section 53(c), respectively, as modified by this paragraph. The tentative tax determined under paragraph (a)(3) of §1.1374–1 is treated as the regular tax liability described in sections 38(c)(1) and 53(c)(1), and as the net income tax and net regular tax liability described in section 38(c)(1). The tentative minimum tax described in section 55(b) is determined using the rate of tax applicable to corporations and without regard to any alternative minimum tax foreign tax credit described in that section and by treating the net recognized built-in gain determined under §1.1374–2, modified to take into account the adjustments of sections 56 and 58 applicable to corporations and the preferences of section 57, as the alternative minimum taxable income described in section 55(b)(2).

(c) *Examples.* The rules of this section are illustrated by the following examples.

Example 1. Business credit carryforward. X is a C corporation that elects to become an S corporation effective January 1, 1996. On that date, X has a $500,000 business credit carryforward from a C year and Asset #1 with a fair market value of $400,000, a basis for regular tax purposes of $95,000, and a basis for alternative minimum tax purposes of $150,000. In 1996, X has net recognized built-in gain of $305,000 from selling Asset #1 for $400,000. Thus, X's tentative tax under paragraph (a)(3) of § 1.1374–1 and regular tax liability under paragraph (b) of this section is $106,750 ($400,000 − $95,000=$305,000 × .35= $106,750, assuming a 35 percent tax rate). Also, X's tentative minimum tax determined under paragraph (b) of this section is $47,000 [$400,000 − $150,000=$250,000 − $15,000 ($40,000 corporate exemption amount −$25,000 phase-out=$15,000)=$235,000 × .20=$47,000, assuming a 20 percent tax rate]. Thus, the business credit limitation under section 38(c) is $59,750 [$106,750 − $47,000 (the greater of $47,000 or $20,438 (.25 × $81,750 ($106,750 − $25,000=$81,750))) = $59,750]. As a result, X's section 1374 tax is $47,000 ($106,750 − $59,750= $47,000) for 1996 and X has $440,250 ($500,000 − $59,750 = $440,250) of business credit carryforwards for succeeding taxable years.

Example 2. Minimum tax credit. Y is a C corporation that elects to become an S corporation effective January 1, 1996. On that date, Asset#1 has a fair market value of $5,000,000, a basis for regular tax purposes of $4,000,000, and a basis for alternative minimum tax purposes of $4,750,000. Y also has a minimum tax credit of $310,000 from 1995. Y has no other assets, no net operating or capital loss carryforwards, and no business credit carryforwards. In 1996, Y's only transaction is the sale of Asset #1 for $5,000,000. Therefore, Y has net recognized built-in gain in 1996 of $1,000,000 ($5,000,000 − $4,000,000=$1,000,000) and a tentative tax under paragraph (a)(3) of § 1.1374–1 of $350,000 ($1,000,000×.35=$350,000, assuming a 35 percent tax rate). Also, Y's tentative minimum tax determined under paragraph (b) of this section is $47,000 [$5,000,000 − $4,750,000=$250,000 − $15,000 ($40,000 corporate exemption amount −$25,000 phase-out = $15,000) = $235,000×.20 = $47,000, assuming a 20 percent tax rate]. Thus, Y may use its minimum tax credit in the amount of $303,000 ($350,000 − $47,000=$303,000) to offset its section 1374 tentative tax. As a result, Y's section 1374 tax is $47,000 ($350,000 − $303,000=$47,000) in 1996 and Y has a minimum tax credit attributable to years for which Y was a C corporation of $7,000 ($310,000 − $303,000=$7,000).

[T.D. 8579, 59 FR 66469, Dec. 27, 1994]

§ 1.1374–7 Inventory.

(a) *Valuation.* The fair market value of the inventory of an S corporation on the first day of the recognition period equals the amount that a willing buyer would pay a willing seller for the inventory in a purchase of all the S corporation's assets by a buyer that expects to continue to operate the S corporation's business. For purposes of the preceding sentence, the buyer and seller are presumed not to be under any compulsion to buy or sell and to have reasonable knowledge of all relevant facts.

(b) *Identity of dispositions.* The inventory method used by an S corporation for tax purposes must be used to identify whether the inventory it disposes of during the recognition period is inventory it held on the first day of that period. Thus, a corporation using the LIFO method does not dispose of inventory it held on the first day of the recognition period unless the carrying value of its inventory for a taxable year during that period is less than the carrying value of its inventory on the first day of the recognition period (determined using the LIFO method as described in section 472). However, if a corporation changes its method of accounting for inventory (for example, from the FIFO method to the LIFO method or from the LIFO method to the FIFO method) with a principal purpose of avoiding the tax imposed under section 1374, it must use its former method to identify its dispositions of inventory.

[T.D. 8579, 59 FR 66469, Dec. 27, 1994]

§ 1.1374–8 Section 1374(d)(8) transactions.

(a) *In general.* If any S corporation acquires any asset in a transaction in which the S corporation's basis in the asset is determined (in whole or in part) by reference to a C corporation's basis in the assets (or any other property) (a section 1374(d)(8) transaction), section 1374 applies to the net recognized built-in gain attributable to the assets acquired in any section 1374(d)(8) transaction.

(b) *Separate determination of tax.* For purposes of the tax imposed under section 1374(d)(8), a separate determination of tax is made with respect to the assets the S corporation acquires in one section 1374(d)(8) transaction from the assets the S corporation acquires in another section 1374(d)(8) transaction and from the assets the corporation held when it became an S corporation. Thus, an S corporation's section 1374 attributes when it became an S corporation may only be used to reduce the section 1374 tax imposed on dispositions of assets the S corporation held at that time. Similarly, an S corporation's section 1374 attributes acquired in a section 1374(d)(8) transaction may only be used to reduce a section 1374 tax imposed on dispositions of assets the S corporation acquired in the same transaction.

(c) *Taxable income limitation.* For purposes of paragraph (a) of this section, an S corporation's taxable income limitation under §1.1374–2(a)(2) for any taxable year is allocated between or among each of the S corporation's separate determinations of net recognized built-in gain for that year (determined without regard to the taxable income limitation) based on the ratio of each of those determinations to the sum of all of those determinations.

(d) *Examples.* The rules of this section are illustrated by the following examples.

Example 1. Separate determination of tax. (i) X is a C corporation that elected to become an S corporation effective January 1, 1986 (before section 1374 was amended in the Tax Reform Act of 1986). X has a net operating loss carryforward of $20,000 arising in 1985 when X was a C corporation. On January 1, 1996, Y (an unrelated C corporation) merges into X in a transaction to which section 368(a)(1)(A) applies. Y has no loss carryforwards, credits, or credit carryforwards. The assets X acquired from Y are subject to tax under section 1374 and have a net unrealized built-in gain of $150,000.

(ii) In 1996, X has a pre-limitation amount of $50,000 on dispositions of assets acquired from Y and a taxable income limitation of $100,000 (because only one group of assets is subject to section 1374, there is no allocation of the taxable income limitation). As a result, X has a net recognized built-in gain on those assets of $50,000. X's $20,000 net operating loss carryforward may not be used as a deduction against its $50,000 net recognized built-in gain on the assets X acquired from Y. Therefore, X has a section 1374 tax of $17,500 ($50,000 × .35 = $17,500, assuming a 35 percent tax rate) for its 1996 taxable year.

Example 2. Allocation of taxable income limitation. (i) Y is a C corporation that elects to become an S corporation effective January 1, 1996. The assets Y holds when it becomes an S corporation have a net unrealized built-in gain of $5,000. Y has no loss carryforwards, credits, or credit carryforwards. On January 1, 1997, Z (an unrelated C corporation) merges into Y in a transaction to which section 368(a)(1)(A) applies. Z has no loss carryforwards, credits, or credit carryforwards. The assets Y acquired from Z are subject to tax under section 1374 and have a net unrealized built-in gain of $80,000.

(ii) In 1997, Y has a pre-limitation amount on the assets it held when it became an S corporation of $15,000, a pre-limitation amount on the assets Y acquired from Z of $15,000, and a taxable income limitation of $10,000. However, because the assets Y held on becoming an S corporation have a net unrealized built-in gain of $5,000, its net recognized built-in gain on those assets is limited to $5,000 before taking into account the taxable income limitation. Y's taxable income limitation of $10,000 is allocated between the assets Y held on becoming an S corporation and the assets Y acquired from Z for purposes of determining the net recognized built-in gain from each pool of assets. Thus, Y's net recognized built-in gain on the assets Y held on becoming an S corporation is $2,500 [$10,000 × ($5,000/$20,000) = $2,500]. Y's net recognized built-in gain on the assets Y acquired from Z is $7,500 [$10,000 × ($15,000/$20,000) = $7,500]. Therefore, Y has a section 1374 tax of $3,500 [($2,500 + $7,500) × .35 = $3,500, assuming a 35 percent tax rate] for its 1997 taxable year.

[T.D. 8579, 59 FR 66469, Dec. 27, 1994]

§1.1374–9 Anti-stuffing rule.

If a corporation acquires an asset before or during the recognition period with a principal purpose of avoiding the tax imposed under section 1374, the asset and any loss, deduction, loss carryforward, credit, or credit carryforward attributable to the asset is disregarded in determining the S corporation's pre-limitation amount, taxable income limitation, net unrealized built-in gain limitation, deductions against net recognized built-in gain, and credits against the section 1374 tax.

[T.D. 8579, 59 FR 66470, Dec. 27, 1994]

§ 1.1374–10 Effective date and additional rules.

(a) *In general.* Sections 1.1374–1 through 1.1374–9 apply for taxable years ending on or after December 27, 1994, but only in cases where the S corporation's return for the taxable year is filed pursuant to an S election or a section 1374(d)(8) transaction occurring on or after December 27, 1994.

(b) *Additional rules.* This paragraph (b) provides rules applicable to certain S corporations, assets, or transactions to which §§ 1.1374–1 through 1.1374–9 do not apply.

(1) *Certain transfers to partnerships.* If a corporation transfers an asset to a partnership in a transaction to which section 721(a) applies and the transfer is made in contemplation of an S election or during the recognition period, section 1374 applies on a disposition of the asset by the partnership as if the S corporation had disposed of the asset itself. This paragraph (b)(1) applies as of the effective date of section 1374, unless the recognition period with respect to the contributed asset is pursuant to an S election or a section 1374(d)(8) transaction occurring on or after December 27, 1994.

(2) *Certain inventory dispositions.* For purposes of section 1374(d)(2)(A), the inventory method used by the taxpayer for tax purposes (FIFO, LIFO, etc.) must be used to identify whether goods disposed of following conversion to S corporation status were held by the corporation at the time of conversion. Thus, for example, a corporation using the LIFO inventory method will not be subject to the built-in gain tax with respect to sales of inventory except to the extent that a LIFO layer existing prior to the beginning of the first taxable year as an S corporation is invaded after the beginning of that year. This paragraph (b)(2) applies as of the effective date of section 1374, unless the recognition period with respect to the inventory is pursuant to an S election or a section 1374(d)(8) transaction occurring on or after December 27, 1994.

(3) *Certain contributions of built-in loss assets.* If a built-in loss asset (that is, an asset with an adjusted tax basis in excess of its fair market value) is contributed to a corporation within 2 years before the earlier of the beginning of its first taxable year as an S corporation, or the filing of its S election, the loss inherent in the asset will not reduce net unrealized built-in gain, as defined in section 1374(d)(1), unless the taxpayer demonstrates a clear and substantial relationship between the contributed property and the conduct of the corporation's current or future business enterprises. This paragraph (b)(3) applies as of the effective date of section 1374, unless the recognition period with respect to the contributed asset is pursuant to an S election or a section 1374(d)(8) transaction occurring on or after December 27, 1994.

(4) *Certain installment sales*—(i) *In general.* If a taxpayer sells an asset either prior to or during the recognition period and recognizes income either during or after the recognition period from the sale under the installment method, the income will, when recognized, be taxed under section 1374 to the extent it would have been so taxed in prior taxable years if the selling corporation had made the election under section 453(d) not to report the income under the installment method. For purposes of determining the extent to which the income would have been subject to tax if the section 453(d) election had not been made, the taxable income limitation of section 1374(d)(2)(A)(ii) and the built-in gain carryover rule of section 1374(d)(2)(B) will be taken into account. This paragraph (b)(4) applies for installment sales occurring on or after March 26, 1990, and before December 27, 1994.

(ii) *Examples.* The rules of this paragraph (b)(4) are illustrated by the following examples.

Example 1. In year 1 of the recognition period under section 1374, a corporation realizes a gain of $100,000 on the sale of an asset with built-in gain. The corporation is to receive full payment for the asset in year 11. Because the corporation does not make an election under section 453(d), all $100,000 of the gain from the sale is reported under the installment method in year 11. If the corporation had made an election under section 453(d) with respect to the sale, the gain would have been recognized in year 1 and, taking into account the corporation's income and gains from other sources, application of the taxable income limitation of section 1374(d)(2)(A)(ii) and the built-in gain carryover rule of section 1374(d)(2)(B) would have resulted in $40,000 of the gain being subject to tax during the recognition period under section 1374. Therefore, $40,000 of the gain recognized in year 11 is subject to tax under section 1374.

Example 2. In year 1 of the recognition period under section 1374, a corporation realizes a gain of $100,000 on the sale of an asset with built-in gain. The corporation is to receive full payment for the asset in year 6. Because the corporation does not make an election under section 453(d), all $100,000 of the gain from the sale is reported under the installment method in year 6. If the corporation had made an election under section 453(d) with respect to the sale, the gain would have been recognized in year 1 and, taking into account the corporation's income and gains from other sources, application of the taxable income limitation of section 1374(d)(2)(A)(ii) and the built-in gain carryover rule of section 1374(d)(2)(B) would have resulted in all of the gain being subjected to tax under section 1374 in years 1 through 5. Therefore, notwithstanding that the taxable income limitation of section 1374(d)(2)(A)(ii) might otherwise limit the taxation of the gain recognized in year 6, the entire $100,000 of gain will be subject to tax under section 1374 when it is recognized in year 6.

[T.D. 8579, 59 FR 66470, Dec. 27, 1994]

§1.1375–1 Tax imposed when passive investment income of corporation having subchapter C earnings and profits exceed 25 percent of gross receipts.

(a) *General rule.* For taxable years beginning after 1981, section 1375(a) imposes a tax on the income of certain S corporations that have passive investment income. In the case of a taxable year beginning during 1982, an electing small business corporation may elect to have the rules under this section not apply. See the regulations under section 1362 for rules on the election. For purposes of this section, the term *S corporation* shall include an electing small business corporation under prior law. This tax shall apply to an S corporation for a taxable year if the S corporation has—

(1) Subchapter C earnings and profits at the close of such taxable year, and

(2) Gross receipts more than 25 percent of which are passive investment income.

If the S corporation has no subchapter C earnings and profits at the close of the taxable year (because, for example, such earnings and profits were distributed in accordance with section 1368), the tax shall not be imposed even though the S corporation has passive investment income for the taxable year. If the tax is imposed, the tax shall be computed by multiplying the excess net passive income (as defined in paragraph (b) of this section) by the highest rate of tax specified in section 11(b).

(b) *Definitions*—(1) *Excess net passive income*—(i) *In general.* The term *excess net passive income* is defined in section 1375(b)(1), and can be expressed by the following formula:

$$\mathrm{ENPI} = \mathrm{NPI} \times \frac{\mathrm{PII} - (.25 \times \mathrm{GR})}{\mathrm{PII}}$$

Where:

ENPI=excess net passive income
NPI=net passive income
PII=passive investment income
GR=total gross receipts

(ii) *Limitation.* The amount of the excess net passive income for any taxable year shall not exceed the corporation's taxable income for the taxable year (determined in accordance with section 1374(d) and §1.1374–1(d)).

(2) *Net passive income.* The term *net passive income* means—

(i) Passive investment income, reduced by

(ii) The deductions allowable under chapter 1 of the Internal Revenue Code of 1954 which are directly connected (within the meaning of paragraph (b)(3) of this section) with the production of such income (other than deductions allowable under section 172 and part VIII of subchapter B).

(3) *Directly connected*—(i) *In general.* For purposes of paragraph (b)(2)(ii) of this section to be directly connected with the production of income, an item of deduction must have proximate and primary relationship to the income. Expenses, depreciation, and similar items attributable solely to such income qualify for deduction.

(ii) *Allocation of deduction.* If an item of deduction is attributable (within the meaning of paragraph (b)(3)(i) of this section) inpart to passive investment income and in part to income other than passive investment income, the deduction shall be allocated between the two types of items on a reasonable basis. The portion of any deduction so allocated to passive investment income shall be treated as proximately and primarily related to such income.

(4) *Other definitions.* The terms *subchapter C earnings and profits, passive investment income,* and *gross receipts* shall have the same meaning given these terms in section 1362(d)(3) and the regulations thereunder.

(c) *Special rules*—(1) *Disallowance of credits.* No credit is allowed under part IV of subchapter A of chapter 1 of the Code (other than section 34) against the tax imposed by section 1375(a) and this section.

(2) *Coordination with section 1374.* If any gain—

(i) Is taken into account in determining passive income for purposes of this section, and

(ii) Is taken into account under section 1374,

the amount of such gain taken into account under section 1374(b) and § 1.1374–1(b) (1) and (2) in determining the amount of tax shall be reduced by the portion of the excess net passive income for the taxable year which is attributable (on a pro rata basis) to such gain. For purposes of the preceding sentence, the portion of excess net passive income for the taxable year which is attributable to such capital gain is equal to the amount determined by multiplying the excess net passive income by the following fraction:

$$\frac{NCG - E}{NPI}$$

Where:

NCG=net capital gain
NPI=net passive income.
E=Expense attributable to net capital gain.

(d) *Waiver of tax in certain cases*—(1) *In general.* If an S corporation establishes to the satisfaction of the Commissioner that—

(i) It determined in good faith that it had no subchapter C earnings and profits at the close of the taxable year, and

(ii) During a reasonable period of time after it was determined that it did have subchapter C earnings and profits at the close of such taxable year such earnings and profits were distributed,

the Commissioner may waive the tax imposed by section 1375 for such taxable year. The S corporation has the burden of establishing that under the relevant facts and circumsances the Commissioner should waive the tax.

For example, if an S corporation establishes that in good faith and using due diligence it determined that it had no subchapter C earnings and profits at the close of a taxable year, but it was later determined on audit that it did have subchapter C earnings and profits at the close of such taxable year, and if the corporation establishes that it distributed such earnings and profits within a reasonable time after the audit, it may be appropriate for the Commissioner to waive the tax on passive income for such taxable year.

(2) *Corporation's request for a waiver.* A request for waiver of the tax imposed by section 1375 shall be made in writing to the district director and shall contain all relevant facts to establish that the requirements of paragraph (d)(1) of this section are met. Such request shall contain a description of how and on what date the S corporation in good faith and using due diligence determined that it had no subchapter C earnings and profits at the close of the taxable year, a description of how and on what date it was determined that the S corporation had subchapter C earnings and profits at the close of the year and a description (including dates) of any steps taken to distribute such earnings and profits. If the earnings and profits have not yet been distributed, the request shall contain a timetable for distribution and an explanation of why such timetable is reasonable. On the date the waiver is to become effective, all subchapter C earnings and profits must have been distributed.

(e) *Reduction in pass-thru for tax imposed on excess net passive income.* See section 1366(f)(3) for a special rule reducing each item of the corporation's passive investment income for purposes of section 1366(a) if a tax is imposed on the corporation under section 1375.

(f) *Examples.* The following examples illustrate the principles of this section:

Example 1. Assume Corporation M, an S corporation, has for its taxable year total gross receipts of $200,000, passive investment income of $100,000, $60,000 of which is interest income, and expenses directly connected with the production of such interest income in the amount of $10,000. Assume also that at the end of the taxable year Corporation M has subchapter C earnings and profits. Since more than 25 percent of the Corporation M's total gross receipts are passive investment income, and since Corporation M has subchapter C earnings and profits at the end of the taxable year, Corporation M will be subject to the tax imposed by section 1375. The amount of excess net passive investment income is $45,000 ($90,000 × (50,000 / 100,000)). Assume that the other $40,000 of passive investment income is attributable to net capital gain and that there are no expenses directly connected with such gain. Under these facts, $20,000 of the excess net passive income is attributable to the net capital gain ($45,000 × ($40,000 / $90,000)). Accordingly, the amount of gain taken into account under section 1374(b)(1) and the taxable income of Corporation M under section 1374(b)(2) shall be reduced by $20,000.

Example 2. Assume an S corporation with subchapter C earnings and profits has tax-exempt income of $400, its only passive income, gross receipts of $1,000 and taxable income of $250 and there are no expenses associated with the tax-exempt income. The corporation's excess net income for the taxable year would total $150 (400 × ((400 − 250 / 400)). This amount is subject to the tax imposed by section 1375, notwithstanding that such amount is otherwise tax-exempt income.

[T.D. 8104, 51 FR 34203, Sept. 26, 1986; 52 FR 9162, Mar. 23, 1987. Redesignated and amended by T.D. 8419, 57 FR 22653, May 29, 1992]

§1.1377–0 Table of contents.

The following table of contents is provided to facilitate the use of §§1.1377–1 through 1.1377–3:

§1.1377–1 Pro rata share.

(a) Computation of pro rata shares.

(1) In general.

(2) Special rules.

(i) Days on which stock has not been issued.

(ii) Determining shareholder for day of stock disposition.

(b) Election to terminate year.

(1) In general.

(2) Affected shareholders.

(3) Effect of the terminating election.

(i) In general.

(ii) Due date of S corporation return.

(iii) Taxable year of inclusion by shareholder.

(iv) S corporation that is a partner in a partnership.

(4) Determination of whether an S shareholder's entire interest has terminated.

(5) Time and manner of making a terminating election.

(i) In general.

(ii) Affected shareholders required to consent.

(iii) More than one terminating election.

(c) Examples.

§1.1377–2 Post-termination transition period.

(a) In general.

(b) Special rules for post-termination transition period.

(c) Determination defined.

(d) Date a determination becomes effective.

(1) Determination under section 1313(a).

(2) Written agreement.

(3) Implied agreement.

§1.1377–3 Effective date.

[T.D. 8696, 61 FR 67455, Dec. 23, 1996]

§1.1377–1 Pro rata share.

(a) *Computation of pro rata shares*—(1) *In general.* For purposes of subchapter S of chapter 1 of the Internal Revenue Code and this section, each shareholder's pro rata share of any S corporation item described in section 1366(a) for any taxable year is the sum of the amounts determined with respect to the shareholder by assigning an equal portion of the item to each day of the S corporation's taxable year, and then dividing that portion pro rata among the shares outstanding on that day. See paragraph (b) of this section for rules pertaining to the computation of each shareholder's pro rata share when an election is made under section 1377(a)(2) to treat the taxable year of an S corporation as if it consisted of two taxable years in the case of a termination of a shareholder's entire interest in the corporation.

(2) *Special rules*—(i) *Days on which stock has not been issued.* Solely for purposes of determining a shareholder's pro rata share of an item for a taxable year under section 1377(a) and this section, the beneficial owners of the corporation are treated as the shareholders of the corporation for any day on which the corporation has not issued any stock.

(ii) *Determining shareholder for day of stock disposition.* A shareholder who disposes of stock in an S corporation is treated as the shareholder for the day of the disposition. A shareholder who dies is treated as the shareholder for the day of the shareholder's death.

(b) *Election to terminate year*—(1) *In general.* If a shareholder's entire interest in an S corporation is terminated during the S corporation's taxable year and the corporation and all affected shareholders agree, the S corporation may elect under section 1377(a)(2) and this paragraph (b) (terminating election) to apply paragraph (a) of this section to the affected shareholders as if the corporation's taxable year consisted of two separate taxable years, the first of which ends at the close of the day on which the shareholder's entire interest in the S corporation is terminated. If the event resulting in the termination of the shareholder's entire interest also constitutes a qualifying disposition as described in § 1.1368–1(g)(2)(i), the election under § 1.1368–1(g)(2) cannot be made. An S corporation may not make a terminating election if the cessation of a shareholder's interest occurs in a transaction that results in a termination under section 1362(d)(2) of the corporation's election to be an S corporation. (See section 1362(e)(3) for an election to have items assigned to each short taxable year under normal tax accounting rules in the case of a termination of a corporation's election to be an S corporation.) A terminating election is irrevocable and is effective only for the terminating event for which it is made.

(2) *Affected shareholders.* For purposes of the terminating election under section 1377(a)(2) and paragraph (b) of this section, the term *affected shareholders* means the shareholder whose interest is terminated and all shareholders to whom such shareholder has transferred shares during the taxable year. If such shareholder has transferred shares to the corporation, the term *affected shareholders* includes all persons who are shareholders during the taxable year.

(3) *Effect of the terminating election*—(i) *In general.* An S corporation that makes a terminating election for a taxable year must treat the taxable year as separate taxable years for all affected shareholders for purposes of allocating items of income (including tax-exempt income), loss, deduction, and credit; making adjustments to the accumulated adjustments account, earnings and profits, and basis; and determining the tax effect of a distribution. An S corporation that makes a terminating election must assign items of income (including tax-exempt income), loss, deduction, and credit to each deemed separate taxable year using its normal method of accounting as determined under section 446(a).

(ii) *Due date of S corporation return.* A terminating election does not affect the due date of the S corporation's return required to be filed under section 6037(a) for a taxable year (determined without regard to a terminating election).

(iii) *Taxable year of inclusion by shareholder.* A terminating election does not affect the taxable year in which an affected shareholder must take into account the affected shareholder's pro rata share of the S corporation's items of income, loss, deduction, and credit.

(iv) *S corporation that is a partner in a partnership.* A terminating election by an S corporation that is a partner in a partnership is treated as a sale or exchange of the corporation's entire interest in the partnership for purposes of section 706(c) (relating to closing the partnership taxable year), if the taxable year of the partnership ends after the shareholder's interest is terminated and within the taxable year of the S corporation (determined without regard to any terminating election) for which the terminating election is made.

(4) *Determination of whether an S shareholder's entire interest has terminated.* For purposes of the terminating election under section 1377(a)(2) and paragraph (b) of this section, a shareholder's entire interest in an S corporation is terminated on the occurrence of any event through which a shareholder's entire stock ownership in the S corporation ceases, including a sale, exchange, or other disposition of all of the stock held by the shareholder; a gift under section 102(a) of all the shareholder's stock; a spousal transfer under section 1041(a) of all the shareholder's stock; a redemption, as defined in section 317(b), of all the shareholder's stock, regardless of the tax treatment of the redemption under section 302; and the death of the shareholder. A shareholder's entire interest in an S corporation is not terminated if the shareholder retains ownership of

any stock (including an interest treated as stock under §1.1361–1(l)) that would result in the shareholder continuing to be considered a shareholder of the corporation for purposes of section 1362(a)(2). Thus, in determining whether a shareholder's entire interest in an S corporation has been terminated, any interest held by the shareholder as a creditor, employee, director, or in any other non-shareholder capacity is disregarded.

(5) *Time and manner of making a terminating election*—(i) *In general.* An S corporation makes a terminating election by attaching a statement to its timely filed original or amended return required to be filed under section 6037(a) (that is, a Form 1120S) for the taxable year during which a shareholder's entire interest is terminated. A single election statement may be filed by the S corporation for all terminating elections for the taxable year. The election statement must include—

(A) A declaration by the S corporation that it is electing under section 1377(a)(2) and this paragraph (b) to treat the taxable year as if it consisted of two separate taxable years;

(B) Information setting forth when and how the shareholder's entire interest was terminated (for example, a sale or gift);

(C) The signature on behalf of the S corporation of an authorized officer of the corporation under penalties of perjury; and

(D) A statement by the corporation that the corporation and each affected shareholder consent to the S corporation making the terminating election.

(ii) *Affected shareholders required to consent.* For purposes of paragraph (b)(5)(i)(D) of this section, a shareholder of the S corporation for the taxable year is a shareholder as described in section 1362(a)(2). For example, the person who under §1.1362–6(b)(2) must consent to a corporation's S election in certain special cases is the person who must consent to the terminating election. In addition, an executor or administrator of the estate of a deceased affected shareholder may consent to the terminating election on behalf of the deceased affected shareholder.

(iii) *More than one terminating election.* A shareholder whose entire interest in an S corporation is terminated in an event for which a terminating election was made is not required to consent to a terminating election made with respect to a subsequent termination within the same taxable year unless the shareholder is an affected shareholder with respect to the subsequent termination.

(c) *Examples.* The following examples illustrate the provisions of this section:

Example 1. Shareholder's pro rata share in the case of a partial disposition of stock. (i) On January 6, 1997, X incorporates as a calendar year corporation, issues 100 shares of common stock to each of A and B, and files an election to be an S corporation for its 1997 taxable year. On July 24, 1997, B sells 50 shares of X stock to C. Thus, in 1997, A owned 50 percent of the outstanding shares of X on each day of X's 1997 taxable year, B owned 50 percent on each day from January 6, 1997, to July 24, 1997 (200 days), and 25 percent from July 25, 1997, to December 31, 1997 (160 days), and C owned 25 percent from July 25, 1997, to December 31, 1997 (160 days).

(ii) Because B's entire interest in X is not terminated when B sells 50 shares to C on July 24, 1997, X cannot make a terminating election under section 1377(a)(2) and paragraph (b) of this section for B's sale of 50 shares to C. Although B's sale of 50 shares to C is a qualifying disposition under §1.1368–1(g)(2)(i), X does not make an election to terminate its taxable year under §1.1368–1(g)(2). During its 1997 taxable year, X has nonseparately computed income of $720,000.

(iii) For each day in X's 1997 taxable year, A's daily pro rata share of X's nonseparately computed income is $1,000 ($720,000/360 days×50%). Thus, A's pro rata share of X's nonseparately computed income for 1997 is $360,000 ($1,000×360 days). B's daily pro rata share of X's nonseparately computed income is $1,000 ($720,000/360×50%) for the first 200 days of X's 1997 taxable year, and $500 ($720,000/360×25%) for the following 160 days in 1997. Thus, B's pro rata share of X's nonseparately computed income for 1997 is $280,000 (($1,000×200 days) + ($500×160 days)). C's daily pro rata share of X's nonseparately computed income is $500 ($720,000/360×25%) for 160 days in 1997. Thus, C's pro rata share of X's nonseparately computed income for 1997 is $80,000 ($500×160 days).

Example 2. Shareholder's pro rata share when an S corporation makes a terminating election under section 1377(a)(2). (i) On January 6, 1997, X incorporates as a calendar year corporation, issues 100 shares of common stock to each of A and B, and files an election to be an S corporation for its 1997 taxable year. On July 24, 1997, B sells B's entire 100 shares of X stock to C. With the consent of B and C, X makes an election under section 1377(a)(2) and paragraph (b) of this section for the termination of B's entire interest arising from B's sale of 100 shares to C. As a result of the election, the pro rata shares of B and C are determined as if X's taxable year consisted of two separate taxable years, the first of which ends on July 24, 1997, the date B's entire interest in X terminates. Because A is not an affected shareholder as defined by section 1377(a)(2)(B) and paragraph (b)(2) of this section, the treatment as separate taxable years does not apply to A.

(ii) During its 1997 taxable year, X has nonseparately computed income of $720,000. Under X's normal method of accounting, $200,000 of the $720,000 of nonseparately computed income is allocable to the period of January 6, 1997, through July 24, 1997 (the first deemed taxable year), and the remaining $520,000 is allocable to the period of July 25, 1997, through December 31, 1997 (the second deemed taxable year).

(iii) B's pro rata share of the $200,000 of nonseparately computed income for the first deemed taxable year is determined by assigning the $200,000 of nonseparately computed income to each day of the first deemed taxable year ($200,000/200 days = $1,000 per day). Because B held 50% of X's authorized and issued shares on each day of the first deemed taxable year, B's daily pro rata share for each day of the first deemed taxable year is $500 ($1,000 per day × 50%). Thus, B's pro rata share of the $200,000 of nonseparately computed income for the first deemed taxable year is $100,000 ($500 per day × 200 days). B must report this amount for B's taxable year with or within which X's full taxable year ends (December 31, 1997).

(iv) C's pro rata share of the $520,000 of nonseparately computed income for the second deemed taxable year is determined by assigning the $520,000 of nonseparately computed income to each day of the second deemed taxable year ($520,000/160 days = $3,250 per day). Because C held 50% of X's authorized and issued shares on each day of the second deemed taxable year, C's daily pro rata shares for each day of the second deemed taxable year is $1,625 ($3,250 per day × 50%). Therefore, C's pro rata share of the $520,000 of nonseparately computed income is $260,000 ($1,625 per day × 160 days). C must report this amount for C's taxable year with or within which X's full taxable year ends (December 31, 1997).

[T.D. 8696, 61 FR 67456, Dec. 23, 1996]

§ 1.1377–2 Post-termination transition period.

(a) *In general.* For purposes of subchapter S of chapter 1 of the Internal Revenue Code (Code) and this section, the term *post-termination transition period* means—

(1) The period beginning on the day after the last day of the corporation's last taxable year as an S corporation and ending on the later of—

(i) The day which is 1 year after such last day; or

(ii) The due date for filing the return for the last taxable year as an S corporation (including extensions);

(2) The 120-day period beginning on the date of any determination pursuant to an audit of the taxpayer which follows the termination of the corporation's election and which adjusts a subchapter S item of income, loss, or deduction of the corporation arising during the S period (as defined in section 1368(e)(2)); and

(3) The 120-day period beginning on the date of a determination that the corporation's election under section 1362(a) had terminated for a previous taxable year.

(b) *Special rules for post-termination transition period.* Pursuant to section 1377(b)(1) and paragraph (a)(1) of this section, a post-termination transition period arises the day after the last day that an S corporation was in existence if a C corporation acquires the assets of the S corporation in a transaction to which section 381(a)(2) applies. However, if an S corporation acquires the assets of another S corporation in a transaction to which section 381(a)(2) applies, a post-termination transition period does not arise. (See § 1.1368–2(d)(2) for the treatment of the acquisition of the assets of an S corporation by another S corporation in a transaction to which section 381(a)(2) applies.) The special treatment under section 1371(e)(1) of distributions of money by a corporation with respect to its stock during the post-termination transition period is available only to those shareholders who were shareholders in the S corporation at the time of the termination.

(c) *Determination defined.* For purposes of section 1377(b)(1) and paragraph (a) of this section, the term *determination* means—

(1) A determination as defined in section 1313(a);

(2) A written agreement between the corporation and the Commissioner (including a statement acknowledging that the corporation's election to be an S corporation terminated under section 1362(d)) that the corporation failed to qualify as an S corporation;

(3) For a corporation subject to the audit and assessment provisions of subchapter C of chapter 63 of subtitle A of the Code, the expiration of the period specified in section 6226 for filing a petition for readjustment of a final S corporation administrative adjustment finding that the corporation failed to qualify as an S corporation, provided that no petition was timely filed before the expiration of the period; and

(4) For a corporation not subject to the audit and assessment provisions of subchapter C of chapter 63 of subtitle A of the Code, the expiration of the period for filing a petition under section 6213 for the shareholder's taxable year for which the Commissioner has made a finding that the corporation failed to qualify as an S corporation, provided that no petition was timely filed before the expiration of the period.

(d) *Date a determination becomes effective*—(1) *Determination under section 1313(a).* A determination under paragraph (c)(1) of this section becomes effective on the date prescribed in section 1313 and the regulations thereunder.

(2) *Written agreement.* A determination under paragraph (c)(2) of this section becomes effective when it is signed by the district director having jurisdiction over the corporation (or by another Service official to whom authority to sign the agreement is delegated) and by an officer of the corporation authorized to sign on its behalf. Neither the request for a written agreement nor the terms of the written agreement suspend the running of any statute of limitations.

(3) *Implied agreement.* A determination under paragraph (c) (3) or (4) of this section becomes effective on the day after the date of expiration of the period specified under section 6226 or 6213, respectively.

[T.D. 8696, 61 FR 67457, Dec. 23, 1996]

§1.1377–3 Effective date.

Sections 1.1377–1 and 1.1377–2 apply to taxable years of an S corporation beginning after December 31, 1996.

[T.D. 8696, 61 FR 67458, Dec. 23, 1996]

SECTION 1374 BEFORE THE TAX REFORM ACT OF 1986

§1.1374–1A Tax imposed on certain capital gains.

(a) *General rule.* Except as otherwise provided in paragraph (c) of this section, if for a taxable year beginning after 1982 of an S corporation—

(1) The net capital gain of such corporation exceeds $25,000, and

(2) The net capital gain of such corporation exceeds 50 percent of its taxable income (as defined in paragraph (d) of this section) for such year, and

(3) The taxable income of such corporation (as defined in paragraph (d) of this section) for such year exceeds $25,000,

section 1374 imposes a tax (computed under paragraph (b) of this section) on the income of such corporation. The tax is imposed on the S corporation and not on the shareholders.

(b) *Amount of tax.* The amount of tax shall be the lower of—

(1) An amount equal to the tax, determined as provided in section 1201(a)(2), on the amount by which the net capital gain of the corporation for the taxable year exceeds $25,000, or

(2) An amount equal to the tax which would be imposed by section 11 on the taxable income of the corporation (as defined in paragraph (d) of this section) for the taxable year were it not an S corporation.

No credit shall be allowable under part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1954 (other than under section 34) against the tax imposed by section 1374(a) and this section. See section 1375(c)(2) and §1.1375–1(c)(2) for a special rule that reduces the amount of the net capital gain of the corporation for purposes of this paragraph (b) in cases where a net capital gain is taxed as excess net passive income under section 1375. See section 1374(c)(3) and paragraph (c)(1)(ii) of this section for a special rule that limits the amount of tax on property with a substituted basis in certain cases.

(c) *Exceptions to taxation*—(1) *New corporations and corporations with election in effect for 3 immediately preceding years*—(i) *In general.* If an S corporation would be subject to the tax imposed by section 1374 for a taxable year pursuant to paragraph (a) of this section, the corporation shall, nevertheless, not be subject to such tax for such year, if:

(A) The election under section 1362(a) which is in effect with respect to such corporation for such year has been in effect for the corporation's three immediately preceding taxable years, or

(B) An election under section 1362(a) has been in effect with respect to such corporation for each of its taxable years for which it has been in existence, unless there is a net capital gain for the taxable year which is attributable to property with a substituted basis within the meaning of paragraph (c)(1)(iii) of this section.

(ii) *Amount of tax on net capital gain attributable to property with a substituted basis.* If for a taxable year of an S corporation either paragraph (c)(1)(i) (A) or (B) of this section is satisfied, but the S corporation has a net capital gain for such taxable year which is attributable to property with a substituted basis (within the meaning of paragraph (c)(1)(iii) of this section), then paragraph (a) of this section shall apply for the taxable year, but the amount of tax determined under paragraph (b) of this section shall not exceed a tax, determined as provided in section 1201 (a), on the net capital gain attributable to property with a substituted basis.

(iii) *Property with substituted basis.* For purposes of this section, the term *property with a substituted basis* means:

(A) Property acquired by a corporation (*the acquiring corporation*) during the period beginning 36 months before the first day of the acquiring corporation's taxable year and ending on the last day of such year;

(B) The basis of such property in the hands of the acquiring corporation is determined in whole or in part by reference to the basis of any property in the hands of another corporation; and

(C) Such other corporation was not an S corporation throughout the period beginning the later of:

(*1*) 36 months before the first day of the acquiring corporation's taxable year, or

(*2*) The time such other corporation came into existence,

and ending on the date such other corporation transferred the property, the basis of which is used to determine, in whole or in part, the basis of the property in the hands of the acquiring corporation. An S corporation and any predecessor corporation shall not be treated as one corporation for purposes of this paragraph (c) (1).

(iv) *Existence of a corporation.* For purposes of this section, a corporation shall not be considered to be in existence for any month which precedes the first month in which such corporation has shareholders or acquires assets or begins business, whichever is first to occur.

(v) *References to prior law included.* For purposes of this paragraph (c), the term *S corporation* shall include an electing small business corporation under prior subchapter S law, and the term *election under section 1362 (a)* shall include an election under section 1372 of prior subchapter S law.

(iv) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example 1. M Corporation was organized and began business in 1977. M subsequently made an election under section 1362 (a) which was effective for its 1984 taxable year. If such election does not terminate under section 1362 for its taxable years 1984, 1985, and 1986, M is not subject to the tax imposed by section 1374 for its taxable year 1987, or for any subsequent year for which such election remains in effect, unless it has, for any such year, an excess of net long-term capital gain over net short-term capital loss attributable to property with a substituted basis. If there is such an excess for any such year, and the requirements of paragraph (a) of this section are met, M will be subject to the tax for such year. If there is no such excess for any year after 1986, M will not be subject to the tax for any such year even though the requirements of paragraph (a) of this section are met.

Example 2. N corporation was organized in 1983, and was an S corporation for its first taxable year, N is not subject to the tax imposed by section 1374 for 1983, or for any subsequent year for which its orginal election under section 1362 (a) has not terminated under section 1362(d), unless, for any such year, it has an excess of net long-term capital gain over net short-term capital loss attributable to property with a substituted basis and the requirements of paragraph (a) of this section are met.

(2) *Treatment of certain gains of options and commodities dealers*—(i) *Exclusion of certain capital gains.* For purposes of this section, the net capital gain of any options dealer or commodities dealer shall be determined by not taking into account any gain or loss (in the normal course of the taxpayer's activity of dealing in or trading section 1256 contracts) from any section 1256 contract or property related to such a contract.

(ii) *Definitions.* For purposes of this paragraph (c)(2)—

(A) *Options dealer.* The term *options dealer* has the meaning given to such term by section 1256(g)(8).

(B) *Commodities dealer.* The term *commodities dealer* means a person who is actively engaged in trading section 1256 contracts and is registered with a domestic board of trade which is designated as a contract market by the Commodities Futures Trading Commission.

(C) *Section 1256 contracts.* The term *section 1256 contracts* has the meaning given to such term by section 1256(b).

(iii) *Effective dates*—(A) *In general.* Except as otherwise provided in this paragraph (c)(2)(iii), this paragraph (c)(2) shall apply to positions established after July 18, 1984, in taxable years ending after such date.

(B) *Special rule for options on regulated futures contracts.* In the case of any option with respect to a regulated futures contract (within the meaning of section 1256), this paragraph (c)(2) shall apply to positions established after October 31, 1983, in taxable years ending after such date.

(C) *Elections with respect to property held on or before July 18, 1984.* See §§1.1256 (h)–1T and 1.1256(h)–2T for rules concerning an election to have this paragraph (c)(2) apply to certain property held on or before July 18, 1984.

(d) *Determination of taxable income*—(1) *General rule.* For purposes of this section, taxable income of the corporation shall be determined under section 63(a) as if the corporation were a C corporation rather than an S corporation, except that the following deductions shall not apply in the computation—

(i) The deduction allowed by section 172 (relating to net operating loss deduction), and

(ii) The deductions allowed by part VIII of subchapter B (other than the deduction allowed by section 248, relating to organization expenditures).

For any taxable year in which a tax under this section is imposed on an S corporation, the S corporation shall attach a Form 1120 completed in accordance with this paragraph (d) and the instructions to Form 1120S to its tax return filed for such taxable year.

(2) *Special rule for net capital gains taxed as excess net passive income under section 1375.* See section 1375 (c) (2) and §1.1375–1(c)(2) for a special rule that reduces the taxable income of the corporation for purposes of section 1374(b)(2) and §1.1374–1(b)(2) in cases where a net capital gain is taxed as excess net passive income under section 1375.

(e) *Reduction in pass-thru for tax imposed on capital gain.* See section 1366(f)(2) for a special rule reducing the S corporation's long-term capital gains and the corporation's gain from sales or exchanges of property described in section 1231 for purposes of section 1366(a) by an amount of tax imposed under section 1374 and this section.

(f) *Examples.* The following examples illustrate the principles of this section and assume that a tax will not be imposed under section 1375:

Example 1. Corporation M is an S corporation for its taxable year beginning January 1, 1983. For 1983, M has an excess of net long-term capital gain over net short-term capital loss in the amount of $30,000. However, its taxable income for the year is only $20,000 as a result of other deductions in excess of other income. Thus, although the excess of the net long-term capital gain over the net short-term capital loss exceeds $25,000 and also exceeds 50 percent of taxable income, M is not subject to the tax imposed by section 1374 for 1983 because its taxable income does not exceed $25,000.

Example 2. Corporation N is an S Corporation for its 1983 taxable year. For 1983, N has an excess of net long-term capital gain over net short-term capital loss in the amount of $30,000, and taxable income of $65,000. Thus, although N's net capital gain ($30,000) exceeds $25,000, it does not exceed 50 percent of the corporation's taxable income for the year (50 percent of $65,000, or $32,500), and therefore N is not subject to the tax imposed by section 1374 for such year.

Example 3. Assume that Corporation O, an S corporation, is subject to the tax imposed by section 1374 for its taxable year 1983. For 1983, O has an excess of net long-term capital gain over net short-term capital loss in the amount of $73,000, and taxable income within the meaning of section 1374, which includes capital gains and losses, of $100,000. The amount of tax computed under paragraph (b)(1) of this section is 28 percent of $48.00 ($73,000—$25,000), or $13,440. Since this is lower than the amount computed under paragraph (b)(2) of this section, which is $25,750 ($3,750+$4,500+$7,500+$10,000), $13,440 is the amount of tax imposed by section 1374.

Example 4. Assume that in example (3) the taxable income of O for 1983 is $35,000. This results from an excess of deductions over income with respect to items which were not included in determining the excess of the net long-term capital gain over the net short-term capital loss. In such case, the amount of tax, computed under paragraph (b)(2) of this section, is $5,550. Since this is lower than the amount computed under paragraph (b)(1) of this section, $5,550 is the amount of tax imposed by section 1374.

Example 5. Corporation P, an S corporation, for its taxable year 1983 has an excess of net long-term capital gain over net short-term capital loss in the amount of $65,000 and has taxable income of $80,000. P's election under section 1362 has been in effect for its three immediately preceding taxable years, but P, nevertheless, is subject to the tax imposed by section 1374 for 1983 since it has an excess of net long-term capital gain over net short-term capital loss (in the amount of $20,000) attributable to property with a substituted basis. The tax computed under paragraph (b)(1) of this section, $11,200 (28 percent of $40,000 ($65,000−$25,000)), is less than the tax computed under paragraph (b)(2) of this section, $17,750. However, under the limitation provided in paragraph (c) of this section which is applicable in this factual situation, the tax imposed by section 1374 for 1983 may not exceed $5,600 (28 percent of $20,000, the excess of net long-term capital gain over net short-term capital loss attributable to property with a substituted basis).

[T.D. 8104, 51 FR 34201, Sept. 26, 1986; 52 FR 9162, Mar. 23, 1987. Redesignated and amended by T.D. 8419, 57 FR 22653, May 29, 1992. Further redesignated by T.D. 8579, 59 FR 66462, Dec. 27, 1994]

COOPERATIVES AND THEIR PATRONS

Tax Treatment of Cooperatives

§ 1.1381–1 Organizations to which part applies.

(a) *In general.* Except as provided in paragraph (b) of this section, part I, subchapter T, chapter 1 of the Code, applies to any corporation operating on a cooperative basis and allocating amounts to patrons on the basis of the business done with or for such patrons.

(b) *Exceptions.* Part I of such subchapter T does not apply to:

(1) Any organization which is exempt from income taxes under chapter 1 of the Code (other than an exempt farmers' cooperative described in section 521);

(2) Any organization which is subject to the provisions of part II (section 591 and following), subchapter H, chapter 1 of the Code (relating to mutual savings banks, etc.);

(3) Any organization which is subject to the provisions of subchapter L (section 801 and following), chapter 1 of the Code (relating to insurance companies); or

(4) Any organization which is engaged in generating, transmitting, or otherwise furnishing electric energy, or which provides telephone service, to persons in rural areas. The terms *rural areas* and *telephone service* shall have the meaning assigned to them in section 5 of the Rural Electrification Act of 1936, as amended (7 U.S.C. 924).

[T.D. 6643, 28 FR 3153, Apr. 2, 1963]

§ 1.1381–2 Tax on certain farmers' cooperatives.

(a) *In general.* (1) For taxable years beginning after December 31, 1962, farmers', fruit growers', or like associations, organized and operated in compliance with the requirements of section 521 and § 1.521–1, shall be subject to the taxes imposed by section 11 or section 1201. Although such associations are subject to both normal tax and surtax, as in the case of corporations generally, certain special deductions are provided for them in section 1382(c) and § 1.1382–3. For the purpose of any law which refers to organizations exempt from income taxes such an association shall, however, be considered as an organization exempt under section 501. Thus, the provisions of section 243, providing a credit for dividends received from a domestic corporation subject to taxation, are not applicable to dividends received from a cooperative association organized and operated in compliance with the requirements of section 521 and §1.521–1. The provisions of section 1501, relating to consolidated returns, are likewise not applicable.

(2) Rules governing the manner in which amounts paid as patronage dividends are allowable as deductions in computing the taxable income of such an association are set forth in section 1382(b) and §1.1382–2. For the tax treatment, as to patrons, of amounts received during the taxable year as patronage dividends, see section 1385 and the regulations thereunder.

(b) *Cross references.* For tax treatment of exempt cooperative associations for taxable years beginning before January 1, 1963, or for taxable years beginning after December 31, 1962, with respect to payments attributable to patronage occurring during taxable years beginning before January 1, 1963, see section 522 and the regulations thereunder. For requirements of annual returns by such associations, see sections 6012 and 6072(d) and paragraph (f) of §1.6012–2.

[T.D. 6643, 28 FR 3153, Apr. 2, 1963]

§1.1382–1 Taxable income of cooperatives; gross income.

(a) *Introduction.* Section 1382(b) provides that the amount of certain patronage dividends (and amounts paid in redemption of nonqualified written notices of allocation) shall not be taken into account by a cooperative organization in determining its taxable income. Such section also provides that, for purposes of the Internal Revenue Code, an amount not taken into account is to be treated in the same manner as an item of gross income and as a deduction therefrom. Therefore, such an amount is treated as a deduction for purposes of applying the Internal Revenue Code and the regulations thereunder and, for simplicity, is referred to as a deduction in the regulations under such Code. However, this should not be regarded as a determination of the character of the amount for other purposes.

(b) *Computation of gross income.* Any cooperative organization to which part I, subchapter T, chapter 1 of the Code, applies shall not, for any purpose under the Code, exclude from its gross income (as a reduction in gross receipts, an increase in cost of goods sold, or otherwise) the amount of any allocation or distribution to a patron out of the net earnings of such organization with respect to patronage occurring during a taxable year beginning after December 31, 1962. See, however, section 1382(b) and §1.1382–2 for deductions for certain amounts paid to patrons out of net earnings.

[T.D. 6643, 28 FR 3154, Apr. 2, 1963]

§1.1382–2 Taxable income of cooperatives; treatment of patronage dividends.

(a) *In general.* (1) In determining the taxable income of any cooperative organization to which part I, subchapter T, chapter 1 of the Code, applies, there shall be allowed as deductions from gross income, in addition to the other deductions allowable under chapter 1 of the Code, the deductions with respect to patronage dividends provided in section 1382(b) and paragraphs (b) and (c) of this section.

(2) For the definition of terms used in this section see section 1388 and §1.1388–1; to determine the payment period for a taxable year, see section 1382(d) and §1.1382–4.

(b) *Deduction for patronage dividends*—(1) *In general.* In the case of a taxable year beginning after December 31, 1962, there is allowed as a deduction from the gross income of any cooperative organization to which part I of subchapter T applies, amounts paid to patrons during the payment period for the taxable year as patronage dividends with respect to patronage occurring during such taxable year, but only to the extent that such amounts are paid in money, qualified written notices of allocation, or other property (other than non qualified written notices of allocation). See section 1382 (e) and (f) and §§1.1382–5 and 1.1382–6 for special rules relating to the time when patronage is deemed to occur where products are marketed under a pooling arrangement or where earnings are includible in the gross income of the cooperative organization for a taxable year after the year in which the patronage occurred. For purposes of this paragraph, a written notice of allocation is considered paid when it is issued to the patron. A patronage dividend shall be treated as paid in money during the payment period for the taxable year to the extent it is paid by a qualified check which is issued during the payment period for such taxable year and endorsed and cashed on or before the ninetieth day after the close of such payment period. In determining the amount paid which is allowable as a deduction under this paragraph, property (other than written notices of allocation) shall be taken into account at its fair market value when paid, and a qualified written notice of allocation shall be taken into account at its stated dollar amount.

(2) *Special rule for certain taxable years.* No deduction is allowed under this section for amounts paid during taxable years beginning before January 1, 1963, or for amounts paid during taxable years beginning after December 31, 1962, with respect to patronage occurring during taxable years beginning before January 1, 1963. With respect to such amounts, the Internal Revenue Code of 1954 (including section 522 and the regulations thereunder) shall be applicable without regard to subchapter T.

(c) *Deduction for amounts paid in redemption of certain nonqualified written notices of allocation.* In the case of a taxable year beginning after December 31, 1962, there is allowed as a deduction from the gross income of a cooperative organization to which part I of subchapter T applies, amounts paid by such organization during the payment period for such taxable year in redemption of a nonqualified written notice of allocation which was previously paid as a patronage dividend during the payment period for the taxable year during which the patronage occurred, but only to the extent such amounts (1) are paid in money or other property (other than written notices of allocation) and (2) do not exceed the stated dollar amount of such written notice of allocation. No deduction shall be allowed under this paragraph, however, for amounts paid in redemption of nonqualified written notices of allocation which were paid with respect to patronage occurring during a taxable year beginning before January 1, 1963. For purposes of this paragraph, if an amount is paid within the payment period for two or more taxable years, it will be allowable as a deduction only for the earliest of such taxable years. Thus, if a cooperative which reports its income on a calendar year basis pays an amount in redemption of a nonqualified written notice of allocation on January 15, 1966, it will be allowed a deduction for such amount only for its 1965 taxable year. In determining the amount paid which is allowable as a deduction under this paragraph, property (other than written notices of allocation) shall be taken into account at its fair market value when paid. Amounts paid in redemption of a nonqualified written notice of allocation in excess of its stated dollar amount shall be treated under the applicable provisions of the Code. For example, if such excess is in the nature of interest, its deductibility will be governed by section 163 and the regulations thereunder.

[T.D. 6643, 28 FR 3154, Apr. 2, 1963]

§ 1.1382–3 Taxable income of cooperatives; special deductions for exempt farmers' cooperatives.

(a) *In general.* (1) Section 1382(c) provides that in determining the taxable income of a farmers', fruit growers', or like association, described in section 1381(a)(1) and organized and operated in compliance with the requirements of section 521 and § 1.521–1, there shall be allowed as deductions from the gross income of such organization, in addition to the other deductions allowable under chapter 1 of the Code (including the deductions allowed by section 1382(b)) the special deductions provided in section 1382(c) and paragraphs (b), (c), and (d) of this section.

(2) For the definition of terms used in this section, see section 1388 and § 1.1388–1; to determine the payment period for a taxable year, see section 1382(d) and § 1.1382–4.

(b) *Deduction for dividends paid on capital stock.* In the case of a taxable year beginning after December 31, 1962, there is allowed as a deduction from the gross income of a cooperative association operated in compliance with the requirements of section 521 and §1.521–1, amounts paid as dividends during the taxable year on the capital stock of such cooperative association. For the purpose of the preceding sentence, the term *capital stock* includes common stock (whether voting or nonvoting), preferred stock, or any other form of capital represented by capital retain certificates, revolving fund certificates, letters of advice, or other evidence of a proprietary interest in a cooperative association. Such deduction is applicable only to the taxable year in which the dividends are actually or constructively paid to the holder of capital stock or other proprietary interest in the cooperative association. If a dividend is paid by check and the check bearing a date within the taxable year is deposited in the mail, in a cover properly stamped and addressed to the shareholder at his last known address, at such time that in the ordinary handling of the mails the check would be received by such holder within the taxable year, a presumption arises that the dividend was paid to such holder in such year. The determination of whether a dividend has been paid to such holder by the corporation during its taxable year is in no way dependent upon the method of accounting regularly employed by the corporation in keeping its books. For further rules as to the determination of the right to a deduction for dividends paid, under certain specific circumstances, see section 561 and the regulations thereunder.

(c) *Deduction for amounts allocated from income not derived from patronage*—(1) *In general.* In the case of a taxable year beginning after December 31, 1962, there is allowed as a deduction from the gross income of a cooperative association operated in compliance with the requirements of section 521 and §1.521–1, amounts paid to patrons, during the payment period for the taxable year, on a patronage basis with respect to its income derived during such taxable year either from business done with or for the United States or any of its agencies or from sources other than patronage, but only to the extent such amounts are paid in money, qualified written notices of allocation, or other property (other than nonqualified written notices of allocation). For purposes of this subparagraph a written notice of allocation is considered paid when it is issued to the patron. An amount shall be treated as paid in money during the payment period for the taxable year to the extent it is paid by a qualified check which is issued during the payment period for such taxable year and endorsed and cashed on or before the ninetieth day after the close of such payment period. In determining the amount paid which is allowable as a deduction under this paragraph, property (other than written notices of allocation) shall be taken into account at its fair market value when paid, and a qualified written notice of allocation shall be taken into account at its stated dollar amount.

(2) *Definition.* As used in this paragraph, the term *income derived from sources other than patronage* means incidental income derived from sources not directly related to the marketing, purchasing, or service activities of the cooperative association. For example, income derived from the lease of premises, from investment in securities, or from the sale or exchange of capital assets, constitutes income derived from sources other than patronage.

(3) *Basis of distribution.* In order that the deduction for amounts paid with respect to income derived from business done with or for the United States or any of its agencies or from sources other than patronage may be applicable, it is necessary that the amount sought to be deducted be paid on a patronage basis in proportion, insofar as is practicable, to the amount of business done by or for patrons during the period to which such income is attributable. For example, if capital gains are realized from the sale or exchange of capital assets acquired and disposed of during the taxable year, income realized from such gains must be paid to patrons of such year in proportion to the amount of business done by such patrons during the taxable year. Similarly, if capital gains are realized by

the association from the sale or exchange of capital assets held for a period extending into more than one taxable year income realized from such gains must be paid, insofar as is practicable, to the persons who were patrons during the taxable years in which the asset was owned by the association in proportion to the amount of business done by such patrons during such taxable years.

(4) *Special rules for certain taxable years.* No deduction is allowable under this paragraph for amounts paid during taxable years beginning before January 1, 1963, or for amounts paid during taxable years beginning after December 31, 1962, with respect to income derived during taxable years beginning before January 1, 1963. With respect to such amounts, the Internal Revenue Code of 1954 (including section 522 and the regulations thereunder) shall be applicable without regard to subchapter T.

(d) *Deduction for amounts paid in redemption of certain nonqualified written notices of allocation.* In the case of a taxable year beginning after December 31, 1962, there is allowed as a deduction from the gross income of a cooperative association operated in compliance with the requirements of section 521 and § 1.521–1, amounts paid by such association during the payment period for such taxable year in redemption of certain nonqualified written notices of allocation, but only to the extent such amounts (1) are paid in money or other property (other than written notices of allocation) and (2) do not exceed the stated dollar amount of such nonqualified written notices of allocation. The nonqualified written notices of allocation referred to in the preceding sentence are those which were previously paid to patrons on a patronage basis with respect to earnings derived either from business done with or for the United States or any of its agencies or from sources other than patronage, provided that such nonqualified written notices of allocation were paid during the payment period for the taxable year during which such earnings were derived. No deduction shall be allowed under this paragraph, however, for amounts paid in redemption of nonqualified written notices of allocation which were paid with respect to earnings derived during a taxable year beginning before January 1, 1963. For purposes of this paragraph, if an amount is paid within the payment period for two or more taxable years, it will be allowable as a deduction only for the earliest of such taxable years. In determining the amount paid which is allowable as a deduction under this paragraph, property (other than written notices of allocation) shall be taken into account at its fair market value when paid. Amounts paid in redemption of a nonqualified written notice of allocation in excess of its stated dollar amount shall be treated under the applicable provisions of the Code.

[T.D. 6643, 28 FR 3155, Apr. 2, 1963]

§ 1.1382–4 Taxable income of cooperatives; payment period for each taxable year.

The payment period for a taxable year is the period beginning with the first day of such taxable year and ending with the fifteenth day of the ninth month following the close of such year.

[T.D. 6643, 28 FR 3156, Nov. 26, 1963]

§ 1.1382–5 Taxable income of cooperatives; products marketed under pooling arrangements.

For purposes of section 1382(b) and § 1.1382–2, in the case of a pooling arrangement for the marketing of products the patronage under such pool shall be treated as occurring during the taxable year in which the pool closes. The determination of when a pool is closed will be made on the basis of the facts and circumstances in each case, but generally the practices and operations of the cooperative organization shall control. This section may be illustrated by the following example:

Example: Farmer A delivers to the X Cooperative 100 bushels of wheat on August 15, 1963, at which time he receives a *per bushel* advance. (Both farmer A and the X Cooperative file returns on a calendar year basis.) On October 15, 1963 farmer A receives an additional *per bushel* payment. The pool sells some of its wheat in 1963 and the remainder in January of 1964. The pool is closed on February 15, 1964. For purposes of section 1382(b), A's patronage is considered as occurring in 1964.

[T.D. 6643, 28 FR 3156, Apr. 2, 1963]

§1.1382–6 Taxable income of cooperatives; treatment of earnings received after patronage occurred.

If earnings derived from business done with or for patrons are includible in the gross income of the cooperative organization for a taxable year after the taxable year during which the patronage occurred, then, for purposes of determining whether the cooperative is allowed a deduction under section 1382(b) and §1.1382–2, the patronage to which these earnings relate shall be considered to have occurred during the taxable year for which such earnings are includible in the cooperative's gross income. Thus, if the cooperative organization pays these earnings out as patronage dividends during the payment period for the taxable year for which the earnings are includible in its gross income, it will be allowed a deduction for such payments under section 1382(b)(1) and paragraph (b) of §1.1382–2, to the extent they are paid in money, qualified written notices of allocation, or other property (other than written notices of allocation).

[T.D. 6643, 28 FR 3156, Apr. 2, 1963]

§1.1382–7 Special rules applicable to cooperative associations exempt from tax before January 1, 1952.

(a) *Basis of property.* The adjustments to the cost or other basis provided in sections 1011 and 1016 and the regulations thereunder, are applicable for the entire period since the acquisition of the property. Thus, proper adjustment to basis must be made under section 1016 for depreciation, obsolescence, amortization, and depletion for all taxable years beginning prior to January 1, 1952, although the cooperative association was exempt from tax under section 521 or corresponding provisions of prior law for such years. However, no adjustment for percentage or discovery depletion is to be made for any year during which the association was exempt from tax. If a cooperative association has made a proper election in accordance with section 1020 and the regulations prescribed thereunder with respect to a taxable year beginning before 1952 in which the association was not exempt from tax, the adjustment to basis for depreciation for such years shall be limited in accordance with the provisions of section 1016(a)(2).

(b) *Amortization of bond premium.* In the case of tax exempt and partially taxable bonds purchased at a premium and subject to amortization under section 171, proper adjustment to basis must be made to reflect amortization with respect to such premium from the date of acquisition of the bond. (For principles governing the method of computation, see the example in paragraph (b) of §1.1016–9, relating to mutual savings banks, building and loan associations, and cooperative banks.) The basis of a fully taxable bond purchased at a premium shall be adjusted from the date of the election to amortize such premium in accordance with the provisions of section 171 except that no adjustment shall be allowable for such portion of the premium attributable to the period prior to the election.

(c) *Amortization of mortgage premium.* In the case of a mortgage acquired at a premium where the principal of such mortgage is payable in installments, adjustments to the basis for the premium must be made for all taxable years (whether or not the association was exempt from tax under section 521 during such years) in which installment payments are received. Such adjustments may be made on an individual mortgage basis or on a composite basis by reference to the average period of payments of the mortgage loans of such association. For the purpose of this adjustment, the term *premium* includes the excess of the acquisition value of the mortgage over its maturity value. The acquisition value of the mortgage is the cost including buying commissions, attorneys' fees, or brokerage fees, but such value does not include amounts paid for accrued interest.

[T.D. 6643, 28 FR 3156, Apr. 2, 1963]

§1.1383–1 Computation of tax where cooperative redeems nonqualified written notices of allocation.

(a) *General rule.* (1) If, during the taxable year, a cooperative organization is entitled to a deduction under section 1382 (b)(2) or (c)(2)(B) for amounts paid in redemption of nonqualified written notices of allocation, the tax imposed for the taxable year by chapter 1 of the Code shall be the lesser of:

(i) The tax for the taxable year computed under section 1383(a)(1), that is, with such deduction taken into account, or

(ii) The tax for the taxable year computed under section 1383(a)(2), that is, without taking such deduction into account, minus the decrease in tax (under chapter 1 of the Code) for any prior taxable year (or years) which would result solely from treating all such nonqualified written notices of allocation redeemed during the taxable year as qualified written notices of allocation when paid. For the purpose of this subdivision, the amount of the decrease in tax is not limited to the amount of the tax for the taxable year. See paragraph (c) of this section for rules relating to a refund of tax where the decrease in tax for the prior taxable year (or years) exceeds the tax for the taxable year.

(2) If the cooperative organization computes its tax for the taxable year under the provisions of section 1383(a)(2) and subparagraph (1)(ii) of this paragraph, then no deduction under section 1382 (b)(2) or (c)(2)(B) shall be taken into account in computing taxable income or loss for the taxable year, including the computation of any net operating loss carryback or carryover. However, the amount of the deduction shall be taken into account in adjusting earnings and profits for the taxable year.

(3) If the tax determined under subparagraph (1)(i) of this paragraph is the same as the tax determined under subparagraph (1)(ii) of this paragraph, the tax imposed for the taxable year under chapter 1 of the Code shall be the tax determined under subparagraph (1)(l) of this paragraph, and section 1383 and this section shall not otherwise apply. The tax imposed for the taxable year shall be the tax determined under subparagraph (1)(ii) of this paragraph in any case when a credit or refund would be allowable for the taxable year under section 1383(b)(1).

(b) *Determination of decrease in tax for prior taxable years*—(1) *Prior taxable years.* The prior taxable year (or years) referred to in paragraph (a) of this section is the year (or years) within the payment period for which the nonqualified written notices of allocation were paid and, in addition, any other prior taxable year (or years) which is affected by the adjustment to income by reason of treating such nonqualified written notices of allocation as qualified written notices of allocation when paid.

(2) *Adjustment to income in prior taxable years.* The deduction for the prior taxable year (or years) in determining the decrease in tax under section 1383(a)(2)(B) and paragraph (a)(1)(ii) of this section shall be the amount paid in redemption of the nonqualified written notices of allocation which, without regard to section 1383, is allowable as a deduction under section 1382 (b)(2) or (c)(2)(B) for the current taxable year.

(3) *Computation of decrease in tax for prior taxable years.* In computing the amount of decrease in tax for a prior taxable year (or years) resulting under this section, there must first be ascertained the amount of tax previously determined for the taxpayer for such prior taxable year (or years). The tax previously determined shall be the sum of the amounts shown as such tax by the taxpayer on his return or returns, plus any amounts which have been previously assessed (or collected without assessment) as deficiencies, reduced by the amount of any rebates which have previously been made. The amount shown as the tax by the taxpayer on his return and the amount of any rebates or deficiencies shall be determined in accordance with the provisions of section 6211 and the regulations thereunder. After the tax previously determined has been ascertained, a recomputation must then be made to determine the decrease in tax, if any, resulting under this section. In determining the decrease in tax for the prior taxable year (or years), appropriate adjustment shall be made to any item which is dependent upon the amount of gross income or taxable income (such as charitable contributions, net operating losses, the foreign tax credit, and the dividends received credit).

(c) *Refunds.* If the decrease in tax for the prior taxable year (or years) determined under section 1383(a)(2)(B) and paragraph (a)(1)(ii) of this section exceeds the tax imposed by chapter 1 of the Code for the taxable year computed without the deduction under section 1382 (b) or (c)(2)(B), the excess shall be considered to be a payment of tax for the taxable year of the deduction. Such payment is deemed to have been made on the last day prescribed by law for the payment of tax for the taxable year and shall be refunded or credited in the same manner as if it were an overpayment of tax for such taxable year. See section 6151 and the regulations thereunder, for rules relating to time and place for paying tax shown on returns.

(d) *Example.* The application of section 1383 may be illustrated by the following example:

Example: The X Cooperative (which reports its income on a calendar year basis) pays patronage dividends of $100,000 in nonqualified written notices of allocation on February 1, 1964, with respect to patronage occurring in 1963. Since the patronage dividends of $100,000 were paid in nonqualified written notices of allocation the X Cooperative is not allowed a deduction for that amount for 1963. On December 1, 1966, the X Cooperative redeems these nonqualified written notices of allocation for $50,000. Under section 1382(b)(2), a deduction of $50,000 is allowable in computing its taxable income for 1966. However, the X Cooperative has a loss for 1966 determined without regard to this deduction. The X Cooperative, therefore, makes the computation under the alternative method provided in section 1383(a)(2). Under this alternative method, it will claim a credit or refund (as an overpayment of tax for 1966) of the decrease in tax for 1963 and for such other years prior to 1966 as are affected which results from recomputing its tax for 1963 and such other years affected) as if patronage dividends of $50,000 had been paid on February 1, 1964, in qualified written notices of allocation. In addition, under this alternative method the X Cooperative cannot use the $50,000 as a deduction for 1966 so as to increase its net operating loss for such year for purposes of computing a net operating loss carryback or carryover. If the X Cooperative also redeems on December 1, 1966, nonqualified written notices of allocation which were paid as patronage dividends on February 1, 1965, with respect to patronage occurring in 1964, it will claim a credit or refund (as an overpayment of tax for 1966) of the decrease in tax for 1964 and for such other years prior to 1966 as are affected. It shall not, however, apply one method for computing the tax with respect to the redemptions in 1966 of the nonqualified written notices of allocation paid in 1964 and the other method with respect to the redemption in 1966 of the nonqualified written notices of allocation paid in 1965.

[T.D. 6643, 28 FR 3156, Apr. 2, 1963]

Tax Treatment by Patrons of Patronage Dividends

§1.1385–1 Amounts includible in patron's gross income.

(a) *General rules.* Section 1385(a) requires every person to include in gross income the following amounts received by him during the taxable year, to the extent paid by the organization in money, a qualified written notice of allocation, or other property (other than a nonqualified written notice of allocation):

(1) The amount of any patronage dividend received from an organization subject to the provisions of part I, subchapter T, chapter 1 of the Code, unless such amount is excludable from gross income under the provisions of section 1385(b) and paragraph (c) of this section, and

(2) The amount of any distribution received from a farmers', fruit growers', or like association, organized and operated in compliance with the requirements of section 521 and §1.521–1, which is paid on a patronage basis with respect to earnings derived by such association either from business done with or for the United States or any of its agencies or from sources other than patronage.

The amounts described in subparagraphs (1) and (2) of this paragraph are includible in gross income for the taxable year in which they are received even though the cooperative organization was allowed a deduction for such amounts for its preceding taxable year because they were paid during the payment period for such preceding taxable year. Similarly, such amounts are includible in gross income even though the cooperative organization is not permitted any deduction for such amounts under the provisions of section 1382 because such amounts were not paid within the time prescribed by such section.

(b) *Treatment of certain nonqualified written notices of allocation.* (1) Except as provided in paragraph (c) of this section, any gain on the redemption, sale, or other disposition of a nonqualified written notice of allocation described in subparagraph (2) of this paragraph shall, to the extent that the stated dollar amount of such written notice of allocation exceeds its basis, be considered as gain from the sale or exchange of property which is not a capital asset, whether such gain is realized by the patron who received the nonqualified written notice of allocation initially or by any subsequent holder. Any amount realized on the redemption, sale, or other disposition of such a nonqualified written notice of allocation in excess of its stated dollar amount will be treated under the applicable provisions of the Code. For example, amounts received in redemption of a nonqualified written notice of allocation which are in excess of the stated dollar amount of such written notice of allocation and which, in effect, constitute interest shall be treated by the recipient as interest.

(2) The nonqualified written notices of allocation to which subparagraph (1) of this paragraph applies are the following:

(i) A nonqualified written notice of allocation which was paid as a patronage dividend (within the meaning of section 1388(a) and paragraph (a) of § 1.1388–1), by a cooperative organization subject to the provisions of part I of subchapter T, and

(ii) A nonqualified written notice of allocation which was paid by a farmers', fruit growers', or like association, organized and operated in compliance with the requirements of section 521 and § 1.521–1, to patrons on a patronage basis with respect to earnings derived either from business done with or for the United States or any of its agencies or from sources other than patronage.

(3) The basis of any nonqualified written notice of allocation described in subparagraph (2) of this paragraph, in the hands of the patron to whom such written notice of allocation was initially paid shall be zero, and the basis of such a written notice of allocation which was acquired from a decedent shall be its basis in the hands of the decedent.

(4) The application of this paragraph may be illustrated by the following example:

Example: A, a farmer, receives a patronage dividend from the X Cooperative, in the form of a nonqualified written notice of allocation, which is attributable to the sale of his crop to that cooperative organization. The stated dollar amount of the nonqualified written notice of allocation is $100. The basis of the written notice of allocation in the hands of A is zero and he must report any amount up to $100 received by him on its redemption, sale, or other disposition, as ordinary income. If A gives the written notice of allocation to his son B, B takes A's (the donor's) basis which is zero, and any gain up to $100 which B later realizes on its redemption, sale, or other disposition is ordinary income. Similarly, if A dies before realizing any gain on the nonqualified written notice of allocation, B, his legatee, has a zero basis for such written notice of allocation and any gain up to $100 which he then realizes on its redemption, sale, or other disposition is also ordinary income. Such gain is income in respect of a decedent within the meaning of section 691(a) and § 1.691(a)–1.

(c) *Treatment of patronage dividends received with respect to certain property*—(1) *Exclusions from gross income.* Except as provided in subparagraph (2) of this paragraph, gross income shall not include:

(i) Any amount of a patronage dividend described in paragraph (a)(1) of this section which is received with respect to the purchase of supplies, equipment, or services, which were not used in the trade or business and the cost of which was not deductible under section 212, or which is received with respect to the marketing or purchasing of a capital asset (as defined in section 1221) or property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 167; and

(ii) Any amount (to the extent treated as ordinary income under paragraph (b) of this section) received on the redemption, sale, or other disposition of a nonqualified written notice of allocation which was received as a patronage dividend with respect to the purchase of supplies, equipment, or services, which were not used in the trade or business and the cost of which was not deductible under section 212, or which was received as a patronage dividend with respect to the marketing or purchasing of a capital asset (as defined in section 1221) or property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 167.

(2) *Special rules.* (i) If an amount described in subparagraph (1) of this paragraph relates to the purchase of a capital asset (as defined in section 1221), or property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 167, and the person receiving such amount owned such asset or property at any time during the taxable year in which such amount is received, then such amount shall be taken into account as an adjustment to the basis of such property or asset as of the first day of the taxable year in which such amount is received. To the extent that such amount exceeds the adjusted basis of such property it shall be taken into account as ordinary income.

(ii) If an amount described in subparagraph (1) of this paragraph relates to the marketing or purchasing of a capital asset (as defined in section 1221), or property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 167, and the person receiving such amount did not own the asset or property at any time during the taxable year in which such amount is received, then such amount shall be included in gross income as ordinary income except that:

(*a*) If such amount relates to a capital asset (as defined in section 1221) which was held by the recipient for more than 1 year (6 months for taxable years beginning before 1977; 9 months for taxable years beginning in 1977) and with respect to which a loss was or would have been deductible under section 165, such amount shall be taken into account as gain from the sale or exchange of a capital asset held for more than 1 year (6 months for taxable years beginning before 1977; 9 months for taxable years beginning in 1977);

(*b*) If such amount relates to a capital asset (as defined in section 1221) with respect to which a loss was not or would not have been deductible under section 165, such amount shall not be taken into account.

(iii) If an amount described in subparagraph (1) of this paragraph relates to the marketing of a capital asset (as defined in section 1221) or property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 167, and such amount is received by the patron in the same taxable year during which he marketed the asset to which it relates, such amount shall be treated as an additional amount received on the sale or other disposition of such asset.

(iv) If a person receiving a patronage dividend or an amount on the redemption, sale, or other disposition of a nonqualified written notice of allocation which was received as a patronage dividend is unable to determine the item to which it relates, he shall include such patronage dividend or such amount in gross income as ordinary income in the manner and to the extent provided in paragraph (a) or (b) of this section, whichever is applicable.

(3) The application of this paragraph may be illustrated by the following examples:

Example 1. On July 1, 1964, P, a patron of a cooperative association, purchases an implement for use in his farming business from such association for $2,900. The implement has an estimated useful life of three years and has an estimated salvage value of $200 which P chooses to take into account in the computation of depreciation. P files his income tax returns on a calendar year basis. For 1964 P claims depreciation of $450 with respect to the implement pursuant to his use of the straight-line method at the rate of $900 per year. On July 1, 1965, the cooperative association pays a patronage dividend to P of $300 in cash with respect to his purchase of the farm implement. P will adjust the basis of the implement and will compute his depreciation deduction for 1965 (and subsequent taxable years) as follows:

Cost of farm implement, July 1, 1964	$2,900
Less:	
Salvage value	200
Depreciation for 1964 (6 months)	450
Adjustment as of January 1, 1965 for cash patronage dividend	300
Total	950
Basis for depreciation for the remaining 2½ years of estimated life	1,950
Depreciation deduction for 1965 ($1,950 divided by the 2½ years of remaining life)	700

Example 2. Assume the same facts as in example (1), except that on July 1, 1965, the cooperative association paid a patronage dividend to P with respect to his purchase of the implement in the form of a nonqualified

written notice of allocation having a stated dollar amount of $300. Since such written notice of allocation was not qualified, no amount of the patronage dividend was taken into account by P as an adjustment to the basis of the implement, or in computing his depreciation deduction, for the year 1965. In 1968, P receives $300 cash from the association in full redemption of the written notice of allocation. Prior to 1968, he had recovered through depreciation $2,700 of the cost of the implement, leaving an adjusted basis of $200 (the salvage value). For the year 1968, the redemption proceeds of $300 are applied against the adjusted basis of $200, reducing the basis of the implement to zero, and the balance of the redemption proceeds, $100, is includable as ordinary income in P's gross income for the calendar year 1968. If the patronage dividend paid to P on July 1, 1965, had been in the form of $60 cash (20 percent of $300) and a qualified written notice of allocation with a stated dollar amount of $240, then the tax treatment of such patronage dividend would be that illustrated in example (1).

Example 3. Assume the same facts as in example (2), except that the nonqualified written notice of allocation is redeemed in cash on July 1, 1966. The full $300 received on redemption will reduce the adjusted basis of the implement as of January 1, 1966, and the depreciation allowances for 1966 and 1967 are computed as follows:

Cost of farm implement, July 1, 1964	$2,900
Less:	
Salvage value	200
Depreciation for 1964 (6 months)	450
Depreciation for 1965	900
Adjustment as of January 1, 1966 for proceeds of the redemption	300
Total	1,850
Basis for depreciation on Jan. 1, 1966	1,050
If P uses the implement in his business until fully depreciated, he would be entitled to the following depreciation allowances with respect to such implement:	
For 1966	700
For 1967	350
Total	1,050
Balance to be depreciated	0

Example 4. Assume the same facts as in example (3), except that P sells the implement in 1965. The entire $300 received in 1966 in redemption of the nonqualified written notice of allocation is includible as ordinary income in P's gross income for the year 1966.

(d) *Determination of amount received.* In determining the amount received for purposes of this section:

(1) Property (other than written notices of allocation) shall be taken into account at its fair market value when received;

(2) A qualified written notice of allocation shall be taken into account at its stated dollar amount; and

(3) The amount of a qualified check shall be considered an amount received in money during the taxable year in which such check is received if the check is endorsed and cashed on or before the ninetieth day after the close of the payment period for the taxable year of the cooperative organization in which the patronage to which such amount relates occurred.

(e) *Effective date.* This section shall not apply to any distribution or allocation received from a cooperative organization, or to any gain or loss on the redemption, sale, or other disposition of any allocation received from such an organization, if such distribution or allocation was received with respect to patronage occurring in a taxable year of the organization beginning before January 1, 1963. See § 1.61–5 for the tax treatment by patrons of such distributions or allocations.

[T.D. 6643, 28 FR 3157, Apr. 2, 1963, as amended by T.D. 7728, 45 FR 72650, Nov. 3, 1980]

DEFINITIONS; SPECIAL RULES

§ 1.1388–1 Definitions and special rules.

(a) *Patronage dividend*—(1) *In general.* The term *patronage dividend* means an amount paid to a patron by a cooperative organization subject to the provisions of part I, subchapter T, chapter 1 of the Code, which is paid:

(i) On the basis of quantity or value of business done with or for such patron,

(ii) Under a valid enforceable written obligation of such organization to the patron to pay such amount, which obligation existed before the cooperative organization received the amount so paid, and

(iii) Which is determined by reference to the net earnings of the cooperative organization from business done with or for its patrons.

For the purpose of subdivision (ii) of this subparagraph, amounts paid by a cooperative organization are paid under a valid enforceable written obligation if such payments are required by State law or are paid pursuant to provisions of the bylaws, articles of incorporation, or other written contract, whereby the organization is obligated to make such payment. The term *net earnings,* for purposes of subdivision (iii) of this subparagraph, includes the excess of amounts retained (or assessed) by the organization to cover expenses or other items over the amount of such expenses or other items. For purposes of such subdivision (iii), net earnings shall not be reduced by any taxes imposed by subtitle A of the Code, but shall be reduced by dividends paid on capital stock or other proprietary capital interests.

(2) *Exceptions.* The term *patronage dividend* does not include the following:

(i) An amount paid to a patron by a cooperative organization to the extent that such amount is paid out of earnings not derived from business done with or for patrons.

(ii) An amount paid to a patron by a cooperative organization to the extent that such amount is paid out of earnings from business done with or for other patrons to whom no amounts are paid, or to whom smaller amounts are paid, with respect to substantially identical transactions. Thus, if a cooperative organization does not pay any patronage dividends to nonmembers, any portion of the amounts paid to members which is out of net earnings from patronage with nonmembers, and which would have been paid to the nonmembers if all patrons were treated alike, is not a patronage dividend.

(iii) An amount paid to a patron by a cooperative organization to the extent that such amount is paid in redemption of capital stock, or in redemption or satisfaction of certificates of indebtedness, revolving fund certificates, retain certificates, letters of advice, or other similar documents, even if such documents were originally paid as patronage dividends.

(iv) An amount paid to a patron by a cooperative organization to the extent that such amount is fixed without reference to the net earnings of the cooperative organization from business done with or for its patrons.

(3) *Examples.* The application of subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example 1. (i) Cooperative A, a marketing association operating on a pooling basis, receives the products of patron W on January 5, 1964. On the same day cooperative A advances to W 45 cents per unit for the products so delivered and allocates to him a *retain certificate* having a face value calculated at the rate of 5 cents per unit. During the operation of the pool, and before substantially all the products in the pool are disposed of, cooperative A advances to W an additional 40 cents per unit, the amount being determined by reference to the market price of the products sold and the anticipated price of the unsold products. At the close of the pool on November 10, 1964, cooperative A determines the excess of its receipts over the sum of its expenses and its previous advances to patrons, and allocates to W an additional 3 cents per unit and shares of the capital stock of A having an aggregate stated dollar amount calculated at the rate of 2 cents per unit. Under the provisions of section 1382(e), W's patronage is deemed to occur in 1964, the year in which the pool is closed.

(ii) The patronage dividend paid to W during 1964 amounts to 5 cents per unit, consisting of the aggregate of the following per-unit allocations: The amount of the cash distribution (3 cents), and the stated dollar amount of the capital stock of A (2 cents), which are fixed with reference to the net earnings of A. The amount of the two distributions in cash (85 cents) and the face amount of the *retain certificate* (5 cents), which are fixed without reference to the net earnings of A, do not constitute patronage dividends.

Example 2. Cooperative B, a marketing association operating on a pooling basis, receives the products of patron X on March 5, 1964. On the same day cooperative B pays to X $1.00 per unit for such products, this amount being determined by reference to the market price of the product when received, and issues to him a participation certificate having no face value but which entitles X on the close of the pool to the proceeds derived from the sale of his products less the previous payment of $1.00 and the expenses and other charges attributable to such products. On March 5, 1967, cooperative B, having sold the products in the pool, having deducted the previous payments for such products, and having determined the expenses and other charges of the pool pays to X, in cash, 10 cents per unit pursuant to the participation certificate. Under the provisions of section 1382(e), X's patronage is deemed to occur in 1967, the year in which the pool is closed. The payment made to X during 1967, amounting to 10 cents per unit, is a patronage dividend. Neither the payment to X in 1964 of $1.00 nor the issuance to him of the participation certificate in that year constitutes a patronage dividend.

Example 3. Cooperative C, a purchasing association, obtains supplies for patron Y on May 1, 1964, and receives in return therefor $100. On February 1, 1965, cooperative C, having determined the excess of its receipts over its costs and expenses, pays to Y a cash distribution of $1.00 and a revolving fund certificate with a stated dollar amount of $1.00. The amount of patronage dividend paid to Y in 1965 is $2.00, the aggregate of the cash distribution ($1.00) and the stated dollar amount of the revolving fund certificate ($1.00).

Example 4. Cooperative D, a service association, sells the products of members on a fee basis. It receives the products of patron Z under an agreement not to pool his products with those of other members, to sell his products, and to deliver to him the proceeds of the sale. Patron Z makes payments to cooperative D during 1964 aggregating $75 for service rendered him by cooperative D during that year. On May 15, 1965, cooperative D, having determined the excess of its receipts over its costs and expenses, pays to Z a cash distribution of $2.00. Such amount is a patronage dividend paid by cooperative D during 1965.

(b) *Written notice of allocation.* The term *written notice of allocation* means any capital stock, revolving fund certificate, retain certificate, certificate of indebtedness, letter of advice, or other written notice, which discloses to the patron the stated dollar amount allocated to him on the books of the cooperative organization, and the portion thereof, if any, which constitutes a patronage dividend. Thus, a mere credit to the account of a patron on the books of the organization without disclosure to the patron, is not a written notice of allocation. A written notice of allocation may disclose to the patron the amount of the allocation which constitutes a patronage dividend either as a dollar amount or as a percentage of the stated dollar amount of the written notice of allocation.

(c) *Qualified written notice of allocation*—(1) *In general.* The term *qualified written notice of allocation* means a written notice of allocation:

(i) Which meets the requirements of subparagraphs (2) or (3) of this paragraph, and

(ii) Which is paid as part of a patronage dividend, or as part of a payment by a cooperative association organized and operated in compliance with the provisions of section 521 and § 1.521–1 to patrons on a patronage basis with respect to earnings derived from business done with or for the United States or any of its agencies or from sources other than patronage, that also includes a payment in money or by qualified check equal to at least 20 percent of such patronage dividend or such payment.

In determining, for purposes of subdivision (ii) of this subparagraph, whether 20 percent of a patronage dividend or a payment with respect to nonpatronage earnings is paid in money or by qualified check, any portion of such dividend or payment which is paid in nonqualified written notices of allocation may be disregarded. Thus, if a cooperative pays a patronage dividend of $100 in the form of a nonqualified written notice of allocation with a stated dollar amount of $50, a written notice of allocation with a stated dollar amount of $40, and money in the amount of $10, the written notice of allocation with a stated dollar amount of $40 will constitute a qualified written notice of allocation if it meets the requirements of subparagraph (2) or (3) of this paragraph. A *payment in money,* as that term is used in subdivision (ii) of this subparagraph, includes a payment by a check drawn on a bank but does not include a credit against amounts owed by the patron to the cooperative organization, a credit against the purchase price of a share of stock or of a membership in such organization, nor does it include a payment by means of a document redeemable by such organization for money.

(2) *Written notice of allocation redeemable in cash.* The term *qualified written notice of allocation* includes a written notice of allocation which meets the requirement of subparagraph (1)(ii) of this paragraph and which may be redeemed in cash at its stated dollar amount at any time within a period beginning on the date such written notice of allocation is paid and ending not earlier than 90 days from such date, but only if the distributee receives written notice of the right of redemption at the time he receives such written notice of allocation. The written notice of the right of redemption referred to in the preceding sentence shall be given separately to each patron. Thus, a written notice of the

right of redemption which is published in a newspaper or posted at the cooperative's place of business would not be sufficient to qualify a written notice of allocation which is otherwise described in this subparagraph.

(3) *Consent of patron.* The term *qualified written notice of allocation* also includes written notice of allocation which meets the requirement of subparagraph (1)(ii) of this paragraph and which the distributee has consented, in a manner provided in this subparagraph, to take into account at its stated dollar amount as provided in section 1385 and §1.1385–1.

(i) *Consent in writing.* A distributee may consent to take the stated dollar amount of written notices of allocation into account under section 1385 by signing and furnishing a written consent to the cooperative organization. No special form is required for the written consent so long as the document on which it is made clearly discloses the terms of the consent. Thus, the written consent may be made on a signed invoice, sales slip, delivery ticket, marketing agreement, or other document, on which appears the appropriate consent. Unless the written consent specifically provides to the contrary, it shall be effective with respect to all patronage occurring during the taxable year of the cooperative organization in which such consent is received by such organization and, unless revoked under section 1388(c)(3)(B), for all subsequent taxable years. Section 1388(c)(3)(B)(i) provides that a written consent may be revoked by the patron at any time. Thus, any written consent which is, by its terms, irrevocable is not a consent that would qualify a written notice of allocation. A revocation, to be effective, must be in writing, signed by the patron, and furnished to the cooperative organization. Such a revocation shall be effective only with respect to patronage occurring after the close of the taxable year of the cooperative organization during which the revocation is filed with it. In the case of a pooling arrangement described in section 1382(e) and §1.1382–5, a written consent which is made at any time before the close of the taxable year of the cooperative organization during which the pool closes shall be effective with respect to all patronage under that pool. In addition, any subsequent revocation of such consent by the patron will not be effective for that pool or any other pool with respect to which he has been a patron before such revocation.

(ii) *Consent by membership. (a)* A distributee may consent to take the stated dollar amount of written notices of allocation into account under section 1385 by obtaining or retaining membership in the cooperative organization after such organization has adopted a valid bylaw providing that membership in such cooperative organization constitutes such consent, but such consent shall take effect only after the distributee has received a written notification of the adoption of the bylaw provision and a copy of such bylaw. The bylaw must have been adopted by the cooperative organization after October 16, 1962, and must contain a clear statement that membership in the cooperative organization constitutes the prescribed consent. The written notification from the cooperative organization must inform the patron that this bylaw has been adopted and of its significance. The notification and copy of the bylaw shall be given separately to each member (or prospective member); thus, a written notice and copy of the bylaw which are published in a newspaper or posted at the cooperative's place of business are not sufficient to qualify a written notice of allocation under this subdivision. A member (or prospective member) is presumed to have received the notification and copy of the bylaw if they were sent to his last known address by ordinary mail. A prospective member must receive the notification and copy of the bylaw before he becomes a member of the organization in order to have his membership in the organization constitute consent. A consent made in the manner described in this subdivision shall be effective only with respect to patronage occurring after the patron has received a copy of the bylaw and the prerequisite notice and while he is a member of the organization. Thus, any such consent shall not be effective with respect to any patronage occurring after the patron ceases to be a member of the cooperative organization or after the bylaw provision is repealed by such organization. In the case of a pooling arrangement described in section 1382(e) and § 1.1382–5, a consent made under this subdivision will be effective only with respect to the patron's actual patronage occurring after he receives the notification and copy of the bylaw and while he is a member of the cooperative organization. Thus such a consent shall not be effective with respect to any patronage under a pool after the patron ceases to be a member of the cooperative organization or after the bylaw provisions is repealed by the organization.

(*b*) The following is an example of a bylaw provision which would meet the requirements prescribed in (*a*) of this subdivision.

Example: Each person who hereafter applies for and is accepted to membership in this cooperative and each member of this cooperative on the effective date of this bylaw who continues as a member after such date shall, by such act alone, consent that the amount of any distributions with respect to his patronage occurring after ————, which are made in written notices of allocation (as defined in 26 U.S.C. 1388) and which are received by him from the cooperative, will be taken into account by him at their stated dollar amounts in the manner provided in 26 U.S.C. 1385(a) in the taxable year in which such written notices of allocation are received by him.

(*c*) For purposes of this subdivision the term *member* means a person who is entitled to participate in the management of the cooperative organization.

(iii) *Consent by qualified check. (a)* A distributee may consent to take the stated dollar amount of a written notice of allocation into account under section 1385 by endorsing and cashing a qualified check which is paid as a part of the same patronage dividend or payment described in subparagraph (1)(ii) of this paragraph of which the written notice of allocation is also a part. In order to constitute an effective consent under this subdivision, however, the qualified check must be endorsed and cashed by the payee on or before the ninetieth day after the close of the payment period for the taxable year of the cooperative organization with respect to which the patronage dividend or payment is paid (or on or before such earlier day as may be prescribed by the cooperative organization). The endorsing and cashing of a qualified check shall be considered a consent only with respect to written notices of allocation which are part of the same patronage dividend or payment as the qualified check and for which a consent under subdivision (i) or (ii) of this subparagraph is not in effect. A qualified check is presumed to be endorsed and cashed within the 90-day period if the earliest bank endorsement which appears thereon bears a date no later than 3 days after the end of such 90-day period (excluding Saturdays, Sundays, and legal holidays).

(*b*) The term *qualified check* means a check, or other instrument redeemable in money, which is paid as a part of a patronage dividend or payment described in subparagraph (1)(ii) of this paragraph, on which there is clearly imprinted a statement that the endorsement and cashing of the check or other instrument constitutes the consent of the payee to take into account, as provided in the Federal income tax laws, the stated dollar amount of any written notices of allocation which are paid as a part of the patronage dividend or payment of which such check or other instrument is also a part. A qualified check need not be in the form of an ordinary check which is payable through the banking system. It may, for example, be in the form of an instrument which is redeemable in money by the cooperative organization. The term *qualified check* does not include a check or other instrument paid as part of a patronage dividend or payment with respect to which a consent under subdivision (i) or (ii) of this subparagraph is in effect. In addition, the term *qualified check* does not include a check or other instrument which is paid as part of a patronage dividend or payment, if such patronage dividend or payment does not also include a written notice of allocation (other than a written notice of allocation that may be redeemed in cash at its stated dollar amount which meets the requirements of section 1388(c)(1)(A) and subparagraph (2) of this paragraph). Thus, a check which is paid as part of a patronage dividend is not a qualified check (even though it has the required statement imprinted on it) if the remaining portion of such patronage dividend is paid in cash or if the only written notices of allocation included in the payment are qualified under section 1388(c)(1)(A) and subparagraph (2) of this paragraph (relating to certain written notices of allocation which are redeemable by the patron within a period of at least 90 days).

(*c*) The provisions of this subdivision may be illustrated by the following example.

Example: (1) The A Cooperative is a cooperative organization filing its income tax returns on a calendar year basis. None of its patrons have consented in the manner prescribed in section 1388(c)(2) (A) or (B). On August 1, 1964, the A Cooperative pays patronage dividends to its patrons with respect to their 1963 patronage, and the payment to each such patron is partly by a qualified check and partly in the form of a written notice of allocation which is not redeemable for cash. Each patron who endorses and cashes his qualified check on or before December 14, 1964 (the ninetieth day following the close of the 1963 payment period) shall be considered to have consented with respect to the accompanying written notice of allocation and the amount of such check is treated as a patronage dividend paid in money on August 1, 1964.

(*2*) As to any patron who has not endorsed and cashed his qualified check by December 14, 1964, there is no consent and both the written notice of allocation and the qualified check constitute nonqualified written notices of allocation within the meaning of section 1388(d) and paragraph (d) of this section. If such a patron then cashes his check on January 2, 1965, he shall treat the amount received as an amount received on January 2, 1965, in redemption of a nonqualified written notice of allocation. Likewise, the cooperative shall treat the amount of the check as an amount paid on January 2, 1965, in redemption of a nonqualified written notice of allocation.

(*d*) *Nonqualified written notice of allocation.* The term *nonqualified written notice of allocation* means a written notice of allocation which is not a qualified written notice of allocation described in section 1388(c) and paragraph (c) of this section, or a qualified check which is not cashed on or before the ninetieth day after the close of the payment period for the taxable year of the cooperative organization for which the payment of which it is a part is paid.

(*e*) *Patron.* The term *patron* includes any person with whom or for whom the cooperative association does business on a cooperative basis, whether a member or a nonmember of the cooperative association, and whether an individual, a trust, estate, partnership, company, corporation, or cooperative association.

§1.1394–0 Table of contents.

This section lists the major paragraph headings contained in §1.1394–1.

§1.1394–1 Enterprise zone facility bonds.

(a) Scope.
(b) Period of compliance.
(1) In general.
(2) Compliance after an issue is retired.
(3) Deemed compliance.
(c) Special rules for requirements of sections 1397B and 1397C.
(1) Start of compliance period.
(2) Compliance period for certain prohibited activities.
(3) Minimum compliance period.
(4) Initial testing date.
(d) Testing on an average basis.
(e) Resident employee requirements.
(1) Determination of employee status.
(2) Employee treated as zone resident.
(3) Resident employee percentage.
(f) Application to pooled financing bond and loan recycling programs.
(g) Limitation on amount of bonds.
(1) Determination of outstanding amount.
(2) Pooled financing bond programs.
(h) Original use requirement for purposes of qualified zone property.
(i) Land.
(j) Principal user.
(1) In general.
(2) Rental of real property.
(3) Pooled financing bond program.
(k) Treatment as separately incorporated business.
(l) Substantially all.
(m) Application of sections 142 and 146 through 150.
(1) In general.
(2) Maturity limitation.
(3) Volume cap.
(4) Remedial actions.
(n) Continuing compliance and change of use penalties.
(1) In general.
(2) Coordination with deemed compliance provisions.
(3) Application to pooled financing bond and loan recycling programs.
(4) Section 150(b)(4) inapplicable.
(o) Refunding bonds.
(1) In general.
(2) Maturity limitation.

(p) Examples.

(q) Effective dates.

(1) In general.

(2) Elective retroactive application in whole.

[T.D. 8673, 61 FR 27259, May 31, 1996]

§ 1.1394–1 Enterprise zone facility bonds.

(a) *Scope.* This section contains rules relating to tax-exempt bonds under section 1394 (enterprise zone facility bonds) to provide enterprise zone facilities in both empowerment zones and enterprise communities (zones). See sections 1394, 1397B, and 1397C for other rules and definitions.

(b) *Period of compliance*—(1) *In general.* Except as provided in paragraphs (b)(2) and (c) of this section, the requirements under sections 1394 (a) and (b) applicable to enterprise zone facility bonds must be complied with throughout the greater of the following—

(i) The remainder of the period during which the zone designation is in effect under section 1391 (zone designation period); and

(ii) The period that ends on the weighted average maturity date of the enterprise zone facility bonds.

(2) *Compliance after an issue is retired.* Except as provided in paragraph (c)(3) of this section, the requirements applicable to enterprise zone facility bonds do not apply to an issue after the date on which no enterprise zone facility bonds of the issue are outstanding.

(3) *Deemed compliance*—(i) *General rule.* An issue is deemed to comply with the requirements of sections 1394 (a) and (b) if—

(A) The issuer and the principal user in good faith attempt to meet the requirements of sections 1394 (a) and (b) throughout the period of compliance required under this section; and

(B) Any failure to meet these requirements is corrected within a one-year period after the failure is first discovered.

(ii) *Exception.* The provisions of paragraph (b)(3)(i) of this section do not apply to the requirements of section 1397B(d)(5)(A) (relating to certain prohibited business activities).

(iii) *Good faith.* In order to satisfy the good faith requirement of paragraph (b)(3)(i)(A) of this section, the principal user must at least annually demonstrate to the issuer the principal user's monitoring of compliance with the requirements of sections 1394 (a) and (b).

(c) *Special rules for requirements of sections 1397B and 1397C*—(1) *Start of compliance period.* Except as provided in paragraph (c)(2) of this section, the requirements of sections 1397B (relating to qualification as an enterprise zone business) and 1397C (relating to satisfaction of the rules for qualified zone property) do not apply prior to the *initial testing date* (as defined in paragraph (c)(4) of this section) if—

(i) The issuer and the principal user reasonably expect on the issue date of the enterprise zone facility bonds that those requirements will be met by the principal user on or before the initial testing date; and

(ii) The issuer and the principal user exercise due diligence to meet those requirements prior to the initial testing date.

(2) *Compliance period for certain prohibited activities.* The requirements of section 1397B(d)(5)(A) (relating to certain prohibited business activities) must be complied with throughout the term of the enterprise zone facility bonds.

(3) *Minimum compliance period.* The requirements of sections 1397B (b) or (c) and 1397C must be satisfied for a continuous period of at least three years after the initial testing date, notwithstanding that—

(i) The period of compliance required under paragraph (b)(1) of this section expires before the end of the three-year period; or

(ii) The enterprise zone facility bonds are retired before the end of the three-year period.

(4) *Initial testing date*—(i) *In general.* Except as otherwise provided in paragraph (c)(4)(ii) of this section, the initial testing date is the date that is 18 months after the later of the issue date of the enterprise zone facility bonds or the date on which the financed property is placed in service; provided, however, it is not later than—

(A) Three years after the issue date; or

(B) Five years after the issue date, if the issue finances a construction project for which both the issuer and a licensed architect or engineer certify on or before the issue date of the enterprise zone facility bonds that more than three years after the issue date is necessary to complete construction of the project.

(ii) *Alternative initial testing date.* If the issuer identifies as the initial testing date a date after the issue date of the enterprise zone facility bonds and prior to the initial testing date that would have been determined under paragraph (c)(4)(i) of this section, that earlier date is treated as the initial testing date.

(d) *Testing on an average basis.* Compliance with each of the requirements of section 1397B (b) or (c) is tested each taxable year. Compliance with any of the requirements may be tested on an average basis, taking into account up to four immediately preceding taxable years plus the current taxable year. The earliest taxable year that may be taken into account for purposes of the preceding sentence is the taxable year that includes the initial testing date. A taxable year is disregarded if the part of the taxable year that falls in a required compliance period does not exceed 90 days.

(e) *Resident employee requirements*—(1) *Determination of employee status.* For purposes of the requirement of section 1397B (b)(6) or (c)(5) that at least 35 percent of the employees are residents of the zone, the issuer and the principal user may rely on a certification, signed under penalties of perjury by the employee, provided—

(i) The certification provides to the principal user the address of the employee's principal residence;

(ii) The employee is required by the certification to notify the principal user of a change of the employee's principal residence; and

(iii) Neither the issuer nor the principal user has actual knowledge that the principal residence set forth in the certification is not the employee's principal residence.

(2) *Employee treated as zone resident.* If an issue fails to comply with the requirement of section 1397B (b)(6) or (c)(5) because an employee who initially resided in the zone moves out of the zone, that employee is treated as still residing in the zone if—

(i) That employee was a bona fide resident of the zone at the time of the certification described in paragraph (e)(1) of this section;

(ii) That employee continues to perform services for the principal user in an enterprise zone business and substantially all of those services are performed in the zone; and

(iii) A resident of the zone meeting the requirements of section 1397B (b)(5) or (c)(4) is hired by the principal user for the next available comparable (or lesser) position.

(3) *Resident employee percentage.* For purposes of meeting the requirement of section 1397B (b)(6) or (c)(5) that at least 35 percent of the employees of an enterprise zone business are residents of a zone, paragraphs (e)(3) (i) and (ii) of this section apply.

(i) The term *employee* includes a self-employed individual within the meaning of section 401(c)(1).

(ii) The resident employee percentage is determined on any reasonable basis consistently applied throughout the period of compliance required under this section. The per-employee fraction (as defined in paragraph (e)(3)(ii)(A) of this section) or the employee actual work hour fraction (as defined in paragraph (e)(3)(ii)(B) of this section) are both reasonable methods.

(A) The term *per-employee fraction* means the fraction, the numerator of which is, during the taxable year, the number of employees who work at least 15 hours a week for the principal user, who reside in the zone, and who are employed for at least 90 days, and the denominator of which is, during the same taxable year, the aggregate number of all employees who work at least 15 hours a week for the principal user and who are employed for at least 90 days.

(B) The term *employee actual work hour fraction* means the fraction, the numerator of which is the aggregate total actual hours of work for the principal user of employees who reside in the zone during a taxable year, and the denominator of which is the aggregate total actual hours of work for the principal user of all employees during the same taxable year.

(f) *Application to pooled financing bond and loan recycling programs.* In the case of a pooled financing bond program described in paragraph (g)(2) of this section or a loan recycling program described in paragraph (m)(2)(ii) of this section, the requirements of paragraphs (b) through (e) of this section apply on a loan-by-loan basis. See also paragraphs (g)(2) (relating to limitation on amount of bonds), (m)(2) (relating to maturity limitations), (m)(3) (relating to volume cap), and (m)(4) (relating to remedial actions) of this section.

(g) *Limitation on amount of bonds*—(1) *Determination of outstanding amount.* Whether an issue satisfies the requirements of section 1394(c) (relating to the $3 million and $20 million aggregate limitations on the amount of outstanding enterprise zone facility bonds) is determined as of the issue date of that issue, based on the issue price of that issue and the adjusted issue price of outstanding enterprise zone facility bonds. Amounts of outstanding enterprise zone facility bonds allocable to any entity are determined under rules contained in section 144(a)(10)(C) and the underlying regulations. Thus, the definition of *principal user* for purposes of section 1394(c) is different from the definition of principal user for purposes of paragraph (j) of this section.

(2) *Pooled financing bond programs*—(i) *In general.* The limitations of section 1394(c) for an issue for a pooled financing bond program are determined with regard to the amount of the actual loans to enterprise zone businesses rather than the amount lent to *intermediary lenders* as defined in paragraph (g)(2)(ii) of this section. This paragraph (g)(2) applies only to the extent the proceeds of those enterprise zone facility bonds are loaned to one or more enterprise zone businesses within 42 months of the issue date of the enterprise zone facility bonds or are used to redeem enterprise zone facility bonds of the issue within that 42-month period.

(ii) *Pooled financing bond program defined.* For purposes of this section, *a pooled financing bond program* is a program in which the issuer of enterprise zone facility bonds, in order to provide loans to enterprise zone businesses, lends the proceeds of the enterprise zone facility bonds to a bank or similar intermediary (intermediary lender) which must then relend the proceeds to two or more enterprise zone businesses.

(h) *Original use requirement for purposes of qualified zone property.* In general, for purposes of section 1397C(a)(1)(B), the term *original use* means the first use to which the property is put within the zone. For purposes of section 1394, if property is vacant for at least a one-year period including the date of zone designation, use prior to that period is disregarded for purposes of determining original use. For this purpose, de minimis incidental uses of property, such as renting the side of a building for a billboard, are disregarded.

(i) *Land.* The determination of whether land is functionally related and subordinate to qualified zone property is made in a manner consistent with the rules for exempt facilities under section 142.

(j) *Principal user*—(1) *In general.* Except as provided in paragraph (j)(2) of this section, the term *principal user* means the owner of financed property.

(2) *Rental of real property*—(i) *A lessee as the principal user.* If an owner of real property financed with enterprise zone facility bonds is not an enterprise zone business within the meaning of section 1397B, but the rental of the property is a qualified business within the meaning of section 1397B(d)(2), the term *principal user* for purposes of sections 1394 (b) and (e) means the lessee or lessees.

(ii) *Allocation of enterprise zone facility bonds.* If a lessee is the principal user of real property under paragraph (j)(2)(i) of this section, then proceeds of enterprise zone facility bonds may be allocated to expenditures for real property only to the extent of the property allocable to the lessee’s leased space, including expenditures for common areas.

(3) *Pooled financing bond program.* An intermediary lender in a pooled financing bond program described in paragraph (g)(2) of this section is not treated as the principal user.

(k) *Treatment as separately incorporated business.* For purposes of section 1394(b)(3)(B), a trade or business may be treated as separately incorporated if allocations of income and activities attributable to the business conducted within the zone are made using a reasonable allocation method and if that trade or business has evidence of those allocations sufficient to establish compliance with the requirements of paragraphs (b) through (f) of this section. Whether an allocation method is reasonable will depend upon the facts and circumstances. An allocation method will not be considered to be reasonable unless the allocation method is applied consistently by the trade or business and is consistent with the purposes of section 1394.

(l) *Substantially all.* For purposes of sections 1397B and 1397C(a), the term *substantially all* means 85 percent.

(m) *Application of sections 142 and 146 through 150*—(1) *In general.* Except as provided in this paragraph (m), enterprise zone facility bonds are treated as exempt facility bonds that are described in section 142(a), and all regulations generally applicable to exempt facility bonds apply to enterprise zone facility bonds. For this purpose, enterprise zone businesses are treated as meeting the public use requirement. Sections 147(c)(1)(A) (relating to limitations on financing the acquisition of land), 147(d) (relating to financing the acquisition of existing property), and 142(b)(2) (relating to limitations on financing office space) do not apply to enterprise zone facility bonds. See also paragraph (n)(4) of this section.

(2) *Maturity limitation*—(i) *Requirements.* An issue of enterprise zone facility bonds, the proceeds of which are to be used as part of a loan recycling program, satisfies the requirements of section 147(b) if—

(A) Each loan satisfies the requirements of section 147(b) (determined by treating each separate loan as a separate issue); and

(B) The term of the issue does not exceed 30 years.

(ii) *Loan recycling program defined.* A *loan recycling program* is a program in which—

(A) The issuer reasonably expects as of the issue date of the enterprise zone facility bonds that loan repayments from principal users will be used to make additional loans during the zone designation period;

(B) Repayments of principal on loans (including prepayments) received during the zone designation period are used within six months of the date of receipt either to make new loans to enterprise zone businesses or to redeem enterprise zone facility bonds that are part of the issue; and

(C) Repayments of principal on loans (including prepayments) received after the zone designation period are used to redeem enterprise zone facility bonds that are part of the issue within six months of the date of receipt.

(3) *Volume cap.* For purposes of applying section 146(f)(5)(A) (relating to elective carryforward of unused volume limitation), issuing enterprise zone facility bonds is a carryforward purpose.

(4) *Remedial actions.* In the case of a pooled financing bond program described in paragraph (g)(2) of this section or a loan recycling program described in paragraph (m)(2)(ii) of this section, if a loan fails to meet the requirements of paragraphs (b) through (f) of this section, within six months of noncompliance (after taking into account the deemed compliance provisions of paragraph (b)(3) of this section, if applicable), an amount equal to the outstanding loan principal must be prepaid and the issuer must—

(i) Reloan the amount of the prepayment; or

(ii) Use the prepayment to redeem an amount of outstanding enterprise zone facility bonds equal to the outstanding principal amount of the loan that no longer meets those requirements.

(n) *Continuing compliance and change of use penalties*—(1) *In general.* The penalty provisions of section 1394(e) apply throughout the period of compliance required under paragraph (b)(1) of this section.

(2) *Coordination with deemed compliance provisions.* Section 1394(e)(2) does not apply during any period during which the issue is deemed to comply with the requirements of section 1394 under the deemed compliance provisions of paragraph (b)(3) of this section.

(3) *Application to pooled financing bond and loan recycling programs.* In the case

of a pooled financing bond program described in paragraph (g)(2) of this section or a loan recycling program described in paragraph (m)(2)(ii) of this section, section 1394(e) applies on a loan-by-loan basis.

(4) *Section 150(b)(4) inapplicable.* Section 150(b)(4) does not apply to enterprise zone facility bonds.

(o) *Refunding bonds*—(1) *In general.* An issue of bonds issued after the zone designation period to refund enterprise zone facility bonds (other than in an advance refunding) are treated as enterprise zone facility bonds if the refunding issue and the prior issue, if treated as a single combined issue, would meet all of the requirements for enterprise zone facility bonds, except the requirements in section 1394(c). For example, the compliance period described in paragraph (b)(1) of this section is calculated taking into account any extension of the weighted average maturity of the refunding issue compared to the remaining weighted average maturity of the prior issue. The proceeds of the refunding issue are allocated to the same expenditures and purpose investments as the prior issue.

(2) *Maturity limitation.* The maturity limitation of section 147(b) is applied to a refunding issue by taking into account the issuer's reasonable expectations about the economic life of the financed property as of the issue date of the prior issue and the actual weighted average maturity of the combined refunding issue and prior issue.

(p) *Examples.* The following examples illustrate paragraphs (a) through (o) of this section:

Example 1. Averaging of enterprise zone business requirements. City C issues enterprise zone facility bonds, the proceeds of which are loaned by C to Corporation B to finance the acquisition of equipment for its existing business located in a zone. On the issue date of the enterprise zone facility bonds, B meets all of the requirements of section 1397B(b), except that only 25% of B's employees reside in the zone. C and B reasonably expect on the issue date to meet all requirements of section 1397B(b) by the date that is 18 months after the equipment is placed in service (the initial testing date). In each of the first, second, and third taxable years after the initial testing date, 35%, 40% and 45%, respectively, of B's employees are zone residents. In the fourth year after the testing date, only 25% of B's employees are zone residents. B continues to meet the 35% resident employee requirement, because the average of zone resident employees for those four taxable years is approximately 36%. The percentage of zone residents employed by B before the initial testing date is not included in determining whether B continues to comply with the 35% resident employee requirement.

Example 2. Measurement of resident employee percentage. Authority D issues enterprise zone facility bonds, the proceeds of which are loaned to Sole Proprietor F to establish an accounting business in a zone. In the first year after the initial testing date, the staff working for F includes F, who works 40 hours per week and does not live in the zone, one employee who resides in the zone and works 40 hours per week, one employee who does not reside in the zone and works 20 hours per week, and one employee who does not reside in the zone and works 10 hours per week. F meets the 35% resident employee test by calculating the percentage on the basis of employee actual work hours as described in paragraph (e)(3)(ii)(B) of this section. If F uses the per-employee basis as described in paragraph (e)(3)(ii)(A) of this section to determine if the resident employee test is met, the percentage of employees who are zone residents on a per-employee basis is only 33% because F must exclude from the numerator and the denominator the employee who works only 10 hours per week. If F calculates the resident employee test as a percentage of employee actual work hours as described in paragraph (e)(3)(ii)(B) of this section in the first year, F must calculate the resident employee test as a percentage of employee actual work hours each year.

Example 3. Active conduct of business within the zone. State G issues enterprise zone facility bonds and loans the proceeds to Corporation H to finance the acquisition of equipment for H's mail order clothing business, which is located in a zone. H purchases the supplies for its clothing business from suppliers located both within and outside of the zone and expects that orders will be received both from customers who will reside or work within the zone and from others outside the zone. All orders are received and filled at, and are shipped from, H's clothing business located in the zone. H meets the requirement that at least 80% of its gross income is derived from the active conduct of business within the zone.

Example 4. Enterprise zone business definition. City J issues enterprise zone facility bonds, the proceeds of which are loaned to Partnership K to finance the acquisition of equipment for its printing operation located in the zone. All orders are taken and completed, and all billing and accounting activities are performed, at the print shop located in the zone. K, on occasion, uses its equipment (including its trucks) and employees to deliver large print jobs to customers who reside outside of the zone. So long as K is able to establish that its trucks are used in the zone at least 85% of the time and its employees perform at least 85% of services for K in the zone, K meets the requirements of sections 1397B(b) (3) and (5).

Example 5. Treatment as a separately incorporated business. The facts are the same as in *Example 4* except that six years after the issue date of the enterprise zone facility bonds, K determines to expand its operations to a second location outside of the boundaries of the zone. Although the expansion would result in the failure of K to meet the tests of 1397B(b), K, using a reasonable allocation method, allocates income and activities to its operations within the zone and has evidence of these allocations sufficient to establish compliance with the requirements of paragraphs (b) through (f) of this section. The bonds will not fail to be enterprise zone facility bonds merely because of the expansion.

Example 6. Treatment of pooled financing bond programs. Authority L issues bonds in the aggregate principal amount of $5,000,000 and loans the proceeds to Bank M pursuant to a loans-to-lenders program. M does not meet the definition of enterprise zone business contained in section 1397B. Prior to the issue date of the bonds, L held a public hearing regarding issuance of the bonds for the loans-to-lenders program, describing the projects of identified borrowers to be financed initially with $4,000,000 of the proceeds of the bonds. The applicable elected representative of L approved issuance of the bonds subsequent to the public hearing. The loan agreement between L and M provides that the other proceeds of the bonds will be held by M and loaned to borrowers that qualify as enterprise zone businesses, following a public hearing and approval by the applicable elected representative of L of each loan by M to an enterprise zone business. None of the loans will be in principal amounts in excess of $3,000,000. The loans by M will otherwise meet the requirements of section 1394. The bonds will be enterprise zone facility bonds.

Example 7. Original use requirement for purposes of qualified zone property. City N issues enterprise zone facility bonds, the proceeds of which are loaned to Corporation P to finance the acquisition of equipment. P uses the proceeds after the zone designation date to purchase used equipment located outside of the zone and places the equipment in service at its location in the zone. Substantially all of the use of the equipment is in the zone and is in the active conduct of a qualified business by P. The equipment is treated as qualified enterprise zone property under section 1397C because P makes the first use of the property within the zone after the zone designation date.

Example 8. Principal user. State R issues enterprise zone facility bonds and loans the proceeds to Partnership S to finance the construction of a small shopping center to be located in a zone. S is in the business of commercial real estate. S is not an enterprise zone business, but has secured one anchor lessee, Corporation T, for the shopping center. T would qualify as an enterprise zone business. S will derive 60% of its gross rental income of the shopping center from T. S does not anticipate that the remaining rental income will come from enterprise zone businesses. T will occupy 60% of the total rentable space in the shopping center. S can use enterprise zone facility bond proceeds to finance the portion of the costs of the shopping center allocable to T (60%) because T is treated as the principal user of the enterprise zone facility bond proceeds.

Example 9. Remedial actions. State W issues pooled financing enterprise zone facility bonds, the proceeds of which will be loaned to several enterprise zone businesses in the two enterprise communities and one empowerment zone in W. Proceeds of the pooled financing bonds are loaned to Corporation X, an enterprise zone business, for a term of 10 years. Six years after the date of the loan, X expands its operations beyond the empowerment zone and is no longer able to meet the requirements of section 1394. X does not reasonably expect to be able to cure the noncompliance. The loan documents provide that X must prepay its loan in the event of noncompliance. W does not expect to be able to reloan the prepayment by X within six months of noncompliance. X's noncompliance will not affect the qualification of the pooled financing bonds as enterprise zone facility bonds if W uses the proceeds from the loan prepayment to redeem outstanding enterprise zone facility bonds within six months of noncompliance in an amount comparable to the outstanding amount of the loan immediately prior to prepayment. X will be denied an interest expense deduction for the interest accruing from the first day of the taxable year in which the noncompliance began.

(q) *Effective dates*—(1) *In general.* Except as otherwise provided in this section, the provisions of this section apply to all issues issued after July 30, 1996, and subject to section 1394.

(2) *Elective retroactive application in whole.* An issuer may apply the provisions of this section in whole, but not in part, to any issue that is outstanding on July 30, 1996, and is subject to section 1394.

[T.D. 8673, 61 FR 27259, May 31, 1996]

EMPOWERMENT ZONE EMPLOYMENT CREDIT

§ 1.1396–1 Qualified zone employees.

(a) *In general.* A qualified zone employee of an employer is an employee who satisfies the location-of-services requirement and the abode requirement with respect to the same empowerment zone and is not otherwise excluded by section 1396(d).

(1) *Location-of-services requirement.* The location-of-services requirement is satisfied if substantially all of the services performed by the employee for the employer are performed in the empowerment zone in a trade or business of the employer.

(2) *Abode requirement.* The abode requirement is satisfied if the employee's principal place of abode while performing those services is in the empowerment zone.

(b) *Period for applying location-of-services requirement.* In applying the location-of-services requirement, an employer may use either the pay period method described in paragraph (b)(1) of this section or the calendar year method described in paragraph (b)(2) of this section. For each taxable year of an employer, the employer must either use the pay period method with respect to all of its employees or use the calendar year method with respect to all of its employees. The employer may change the method applied to all of its employees from one taxable year to the next.

(1) *Pay period method*—(i) *Relevant period.* Under the pay period method, the relevant period for applying the location-of-services requirement is each pay period in which an employee provides services to the employer during the calendar year with respect to which the credit is being claimed (*i.e.*, the calendar year that ends with or within the relevant taxable year). If an employer has one pay period for certain employees and a different pay period for other employees (e.g., a weekly pay period for hourly wage employees and a bi-weekly pay period for salaried employees), the pay period actually applicable to a particular employee is the relevant pay period for that employee under this method.

(ii) *Application of method.* Under this method, an employee does not satisfy the location-of-services requirement during a pay period unless substantially all of the services performed by the employee for the employer during that pay period are performed within the empowerment zone in a trade or business of the employer.

(2) *Calendar year method*—(i) *Relevant period.* Under the calendar year method, the relevant period for an employee is the entire calendar year with respect to which the credit is being claimed. However, for any employee who is employed by the employer for less than the entire calendar year, the relevant period is the portion of that calendar year during which the employee is employed by the employer.

(ii) *Application of method.* Under this method, an employee does not satisfy the location-of-services requirement during any part of a calendar year unless substantially all of the services performed by the employee for the employer during that calendar year (or, if the employee is employed by the employer for less than the entire calendar year, the portion of that calendar year during which the employee is employed by the employer) are performed within the empowerment zone in a trade or business of the employer.

(3) *Examples.* This paragraph (b) may be illustrated by the following examples. In each example, the following assumptions apply. The employees satisfy the abode requirement at all relevant times and all services performed by the employees for their employer are performed in a trade or business of the employer. The employees are not precluded from being qualified zone employees by section 1396(d)(2) (certain employees ineligible). No portion of the employees' wages is precluded from being qualified zone wages by section 1396(c)(2) (only first $15,000 of wages taken into account) or section 1396(c)(3) (coordination with targeted jobs credit and work opportunity credit). The examples are as follows:

Example 1. (i) Employer X has a weekly pay period for all its employees. Employee A works for X throughout 1997. During each of the first 20 weekly pay periods in 1997, substantially all of A's work for X is performed within the empowerment zone in which A resides. A also works in the zone at various times during the rest of the year, but there is no other pay period in which substantially all of A's work for X is performed within the empowerment zone. Employer X uses the pay period method.

(ii) For each of the first 20 pay periods of 1997, A is a qualified zone employee, all of A's wages from X are qualified zone wages, and X may claim the empowerment zone employment credit with respect to those wages. X cannot claim the credit with respect to any of A's wages for the rest of 1997.

Example 2. (i) Employer Y has a weekly pay period for its factory workers and a bi-weekly pay period for its office workers. Employee B works for Y in various factories and Employee C works for Y in various offices. Employer Y uses the pay period method.

(ii) Y must use B's weekly pay periods to determine the periods (if any) in which B is a qualified zone employee. Y may claim the empowerment zone employment credit with respect to B's wages only for the weekly pay periods for which B is a qualified zone employee, because those are B's only wages that are qualified zone wages. Y must use C's bi-weekly pay periods to determine the periods (if any) in which C is a qualified zone employee. Y may claim the credit with respect to C's wages only for the bi-weekly pay periods for which C is a qualified zone employee, because those are C's only wages that are qualified zone wages.

Example 3. (i) Employees D and E work for Employer Z throughout 1997. Although some of D's work for Z in 1997 is performed outside the empowerment zone in which D resides, substantially all of it is performed within that empowerment zone. E's work for Z is performed within the empowerment zone in which E resides for several weeks of 1997 but outside the zone for the rest of the year so that, viewed on an annual basis, E's work is not substantially all performed within the empowerment zone. Employer Z uses the calendar year method.

(ii) D is a qualified zone employee for the entire year, all of D's 1997 wages from Z are qualified zone wages, and Z may claim the empowerment zone employment credit with respect to all of those wages, including the portion attributable to work outside the zone. Under the calendar year method, E is not a qualified zone employee for any part of 1997, none of E's 1997 wages are qualified zone wages, and Z cannot claim any empowerment zone employment credit with respect to E's wages for 1997. Z cannot use the calendar year method for D and the pay period method for E because Z must use the same method for all employees. For 1998, however, Z can switch to the pay period method for E if Z also switches to the pay period method for D and all of Z's other employees.

(c) *Effective date.* This section applies with respect to wages paid or incurred on or after December 21, 1994.

[T.D. 8747, 62 FR 67727, Dec. 30, 1997]

§1.1397E–1T Qualified zone academy bonds (temporary).

(a) *Overview.* In general, a qualified zone academy bond is a taxable bond issued by a state or local government the proceeds of which are used to improve certain eligible public schools. An eligible taxpayer that holds a qualified zone academy bond generally is allowed annual Federal income tax credits in lieu of periodic interest payments. These credits compensate the eligible taxpayer for lending money to the issuer and function as payments of interest on the bond. Accordingly, this section generally treats the allowance of a credit as if it were a payment of interest on the bond. In addition, this section provides rules to determine the credit rate, the present value of qualified contributions from private entities, and the maximum term of a qualified zone academy bond.

(b) *Credit rate.* The credit rate for a qualified zone academy bond is equal to 110 percent of the long-term applicable Federal rate (AFR), compounded annually, for the month in which the bond is issued. The Internal Revenue Service publishes this figure each month in a revenue ruling that is published in the Internal Revenue Bulletin. See §601.601(d)(2)(ii)(b) of this chapter.

(c) *Private business contribution requirement.* To determine the present value (as of the issue date) of qualified contributions from private entities under section 1397E(d)(2), the issuer must use a reasonable discount rate. The credit rate determined under paragraph (b) of this section is a reasonable discount rate.

(d) *Maximum term.* The maximum term for a qualified zone academy bond is determined under section 1397E(d)(3) by using a discount rate equal to 110 percent of the long-term adjusted AFR, compounded semi-annually, for the month in which the bond is issued. The Internal Revenue Service publishes this figure each month in a revenue ruling that is published in the Internal

Revenue Bulletin. See § 601.601(d)(2)(ii)(b) of this chapter.

(e) *Tax credit*—(1) *Eligible taxpayer.* An eligible taxpayer (within the meaning of section 1397E(d)(6)) that holds a qualified zone academy bond on a credit allowance date is allowed a tax credit against the Federal income tax imposed on the taxpayer for the taxable year that includes the credit allowance date. The amount of the credit is equal to the product of the credit rate and the outstanding principal amount of the bond on the credit allowance date. The credit is subject to a limitation based on the eligible taxpayer's income tax liability. See section 1397E(c).

(2) *Ineligible taxpayer.* A taxpayer that is not an eligible taxpayer is not allowed a credit.

(f) *Treatment of the allowance of the credit as a payment of interest*—(1) *General rule.* The holder of a qualified zone academy bond must treat the bond as if it pays qualified stated interest (within the meaning of § 1.1273–1(c)) on each credit allowance date. The amount of the deemed payment of interest on each credit allowance date is equal to the product of the credit rate and the outstanding principal amount of the bond on that date. Thus, for example, if the holder uses an accrual method of accounting, the holder must accrue as interest income the amount of the credit over the one-year accrual period that ends on the credit allowance date.

(2) *Adjustment if the holder cannot use the credit to offset a tax liability.* If a holder holds a qualified zone academy bond on the credit allowance date but cannot use all or a portion of the credit to reduce its income tax liability (for example, because the holder is not an eligible taxpayer or because the limitation in section 1397E(c) applies), the holder is allowed a deduction for the taxable year that includes the credit allowance date. The amount of the deduction is equal to the amount of the unused credit deemed paid on the credit allowance date.

(g) *Not a tax-exempt obligation.* A qualified zone academy bond is not an obligation the interest on which is excluded from gross income under section 103(a).

(h) *Cross-references.* See section 171 and the regulations thereunder for rules relating to amortizable bond premium. See § 1.61–7(c) for the seller s treatment of a bond sold between interest payment dates (credit allowance dates) and § 1.61–7(d) for the buyer s treatment of a bond purchased between interest payment dates (credit allowance dates).

(i) [Reserved]

(j) *Effective date.* This section applies to a qualified zone academy bond issued on or after January 1, 1998.

[T.D. 8755, 63 FR 673, Jan. 7, 1998; 63 FR 8528, Feb. 19, 1998]

RULES RELATING TO INDIVIDUALS' TITLE 11 CASES

SOURCE: Sections 1.1398–1 and 1.1398–2 appear at T.D. 8537, 59 FR 24937, May 13, 1994, unless otherwise noted.

§ 1.1398–1 Treatment of passive activity losses and passive activity credits in individuals' title 11 cases.

(a) *Scope.* This section applies to cases under chapter 7 or chapter 11 of title 11 of the United States Code, but only if the debtor is an individual.

(b) *Definitions and rules of general application.* For purposes of this section—

(1) *Passive activity* and *former passive activity* have the meanings given in section 469 (c) and (f)(3);

(2) The unused passive activity loss (determined as of the first day of a taxable year) is the passive activity loss (as defined in section 469(d)(1)) that is disallowed under section 469 for the previous taxable year; and

(3) The unused passive activity credit (determined as of the first day of a taxable year) is the passive activity credit (as defined in section 469(d)(2)) that is disallowed under section 469 for the previous taxable year.

(c) *Estate succeeds to losses and credits upon commencement of case.* The bankruptcy estate (estate) succeeds to and takes into account, beginning with its first taxable year, the debtor's unused passive activity loss and unused passive activity credit (determined as of the first day of the debtor's taxable year in which the case commences).

(d) *Transfers from estate to debtor*—(1) *Transfer not treated as taxable event.* If, before the termination of the estate, the estate transfers an interest in a passive activity or former passive activity to the debtor (other than by sale or exchange), the transfer is not treated as a disposition for purposes of any provision of the Internal Revenue Code assigning tax consequences to a disposition. The transfers to which this rule applies include transfers from the estate to the debtor of property that is exempt under section 522 of title 11 of the United States Code and abandonments of estate property to the debtor under section 554(a) of such title.

(2) *Treatment of passive activity loss and credit.* If, before the termination of the estate, the estate transfers an interest in a passive activity or former passive activity to the debtor (other than by sale or exchange)—

(i) The estate must allocate to the transferred interest, in accordance with §1.469–1(f)(4), part or all of the estate's unused passive activity loss and unused passive activity credit (determined as of the first day of the estate's taxable year in which the transfer occurs); and

(ii) The debtor succeeds to and takes into account, beginning with the debtor's taxable year in which the transfer occurs, the unused passive activity loss and unused passive activity credit (or part thereof) allocated to the transferred interest.

(e) *Debtor succeeds to loss and credit of the estate upon its termination.* Upon termination of the estate, the debtor succeeds to and takes into account, beginning with the debtor's taxable year in which the termination occurs, the passive activity loss and passive activity credit disallowed under section 469 for the estate's last taxable year.

(f) *Effective date*—(1) *Cases commencing on or after November 9, 1992.* This section applies to cases commencing on or after November 9, 1992.

(2) *Cases commencing before November 9, 1992*—(i) *Election required.* This section applies to a case commencing before November 9, 1992, and terminating on or after that date if the debtor and the estate jointly elect its application in the manner prescribed in paragraph (f)(2)(v) of this section (the election). The caption ''ELECTION PURSUANT TO §1.1398–1'' must be placed prominently on the first page of each of the debtor's returns that is affected by the election (other than returns for taxable years that begin after the termination of the estate) and on the first page of each of the estate's returns that is affected by the election. In the case of returns that are amended under paragraph (f)(2)(iii) of this section, this requirement is satisfied by placing the caption on the amended return.

(ii) *Scope of election.* This election applies to the passive and former passive activities and unused passive activity losses and passive activity credits of the taxpayers making the election.

(iii) *Amendment of previously filed returns.* The debtor and the estate making the election must amend all returns (except to the extent they are for a year that is a closed year within the meaning of paragraph (f)(2)(iv)(D) of this section) they filed before the date of the election to the extent necessary to provide that no claim of a deduction or credit is inconsistent with the succession under this section to unused losses and credits. The Commissioner may revoke or limit the effect of the election if either the debtor or the estate fails to satisfy the requirement of this paragraph (f)(2)(iii).

(iv) *Rules relating to closed years*—(A) Estate succeeds to debtor's passive activity loss and credit as of the commencement date. If, by reason of an election under this paragraph (f), this section applies to a case that was commenced in a closed year, the estate, nevertheless, succeeds to and takes into account the unused passive activity loss and unused passive activity credit of the debtor (determined as of the first day of the debtor's taxable year in which the case commenced).

(B) *No reduction of unused passive activity loss and credit for passive activity loss and credit not claimed for a closed year.* In determining a taxpayer's carryover of a passive activity loss or credit to its taxable year following a closed year, a deduction or credit that the taxpayer failed to claim in the closed year, if attributable to an unused passive activity loss or credit to which the taxpayer succeeded under this section, is treated as a deduction or credit that was disallowed under section 469.

(C) *Passive activity loss and credit to which taxpayer succeeds reflects deductions of prior holder in a closed year.* A loss or credit to which a taxpayer would otherwise succeed under this section is reduced to the extent the loss or credit was allowed to its prior holder for a closed year.

(D) *Closed year.* For purposes of this paragraph (f)(2)(iv), a taxable year is closed to the extent the assessment of a deficiency or refund of an overpayment is prevented, on the date of the election and at all times thereafter, by any law or rule of law.

(v) *Manner of making election*—(A) *Chapter 7 cases.* In a case under chapter 7 of title 11 of the United States Code, the election is made by obtaining the written consent of the bankruptcy trustee and filing a copy of the written consent with the returns (or amended returns) of the debtor and the estate for their first taxable years ending after November 9, 1992.

(B) *Chapter 11 cases.* In a case under chapter 11 of title 11 of the United States Code, the election is made by incorporating the election into a bankruptcy plan that is confirmed by the bankruptcy court or into an order of such court and filing the pertinent portion of the plan or order with the returns (or amended returns) of the debtor and the estate for their first taxable years ending after November 9, 1992.

(vi) *Election is binding and irrevocable.* Except as provided in paragraph (f)(2)(iii) of this section, the election, once made, is binding on both the debtor and the estate and is irrevocable.

§ 1.1398–2 Treatment of section 465 losses in individuals' title 11 cases.

(a) *Scope.* This section applies to cases under chapter 7 or chapter 11 of title 11 of the United States Code, but only if the debtor is an individual.

(b) *Definition and rules of general application.* For purposes of this section—

(1) *Section 465 activity* means an activity to which section 465 applies; and

(2) For each section 465 activity, the unused section 465 loss from the activity (determined as of the first day of a taxable year) is the loss (as defined in section 465(d)) that is not allowed under section 465(a)(1) for the previous taxable year.

(c) *Estate succeeds to losses upon commencement of case.* The bankruptcy estate (the estate) succeeds to and takes into account, beginning with its first taxable year, the debtor's unused section 465 losses (determined as of the first day of the debtor's taxable year in which the case commences).

(d) *Transfers from estate to debtor*—(1) *Transfer not treated as taxable event.* If, before the termination of the estate, the estate transfers an interest in a section 465 activity to the debtor (other than by sale or exchange), the transfer is not treated as a disposition for purposes of any provision of the Internal Revenue Code assigning tax consequences to a disposition. The transfers to which this rule applies include transfers from the estate to the debtor of property that is exempt under section 522 of title 11 of the United States Code and abandonments of estate property to the debtor under section 554(a) of such title.

(2) *Treatment of section 465 losses.* If, before the termination of the estate, the estate transfers an interest in a section 465 activity to the debtor (other than by sale or exchange) the debtor succeeds to and takes into account, beginning with the debtor's taxable year in which the transfer occurs, the transferred interest's share of the estate's unused section 465 loss from the activity (determined as of the first day of the estate's taxable year in which the transfer occurs). For this purpose, the transferred interest's share of such loss is the amount, if any, by which such loss would be reduced if the transfer had occurred as of the close of the preceding taxable year of the estate and been treated as a disposition on which gain or loss is recognized.

(e) *Debtor succeeds to losses of the estate upon its termination.* Upon termination of the estate, the debtor succeeds to and takes into account, beginning with the debtor's taxable year in which the termination occurs, the losses not allowed under section 465 for the estate's last taxable year.

(f) *Effective date*—(1) *Cases commencing on or after November 9, 1992.* This section applies to cases commencing on or after November 9, 1992.

(2) *Cases commencing before November 9, 1992*—(i) *Election required.* This section applies to a case commencing before November 9, 1992, and terminating on or after that date if the debtor and the estate jointly elect its application in the manner prescribed in paragraph (f)(2)(v) of this section (the election). The caption ''ELECTION PURSUANT TO § 1.1398–2'' must be placed prominently on the first page of each of the debtor's returns that is affected by the election (other than returns for taxable years that begin after the termination of the estate) and on the first page of each of the estate's returns that is affected by the election. In the case of returns that are amended under paragraph (f)(2)(iii) of this section, this requirement is satisfied by placing the caption on the amended return.

(ii) *Scope of election.* This election applies to the section 465 activities and unused losses from section 465 activities of the taxpayers making the election.

(iii) *Amendment of previously filed returns.* The debtor and the estate making the election must amend all returns (except to the extent they are for a year that is a closed year within the meaning of paragraph (f)(2)(iv)(D) of this section) they filed before the date of the election to the extent necessary to provide that no claim of a deduction is inconsistent with the succession under this section to unused losses from section 465 activities. The Commissioner may revoke or limit the effect of the election if either the debtor or the estate fails to satisfy the requirement of this paragraph (f)(2)(iii).

(iv) *Rules relating to closed years*—(A) *Estate succeeds to debtor's section 465 loss as of the commencement date.* If, by reason of an election under this paragraph (f), this section applies to a case that was commenced in a closed year, the estate, nevertheless, succeeds to and takes into account the section 465 losses of the debtor (determined as of the first day of the debtor's taxable year in which the case commenced).

(B) *No reduction of unused section 465 loss for loss not claimed for a closed year.* In determining a taxpayer's carryover of an unused section 465 loss to its taxable year following a closed year, a deduction that the taxpayer failed to claim in the closed year, if attributable to an unused section 465 loss to which the taxpayer succeeds under this section, is treated as a deduction that was not allowed under section 465.

(C) *Loss to which taxpayer succeeds reflects deductions of prior holder in a closed year.* A loss to which a taxpayer would otherwise succeed under this section is reduced to the extent the loss was allowed to its prior holder for a closed year.

(D) *Closed year.* For purposes of this paragraph (f)(2)(iv), a taxable year is closed to the extent the assessment of a deficiency or refund of an overpayment is prevented, on the date of the election and at all times thereafter, by any law or rule of law.

(v) *Manner of making election*—(A) *Chapter 7 cases.* In a case under chapter 7 of title 11 of the United States Code, the election is made by obtaining the written consent of the bankruptcy trustee and filing a copy of the written consent with the returns (or amended returns) of the debtor and the estate for their first taxable years ending after November 9, 1992.

(B) *Chapter 11 cases.* In a case under chapter 11 of title 11 of the United States Code, the election is made by incorporating the election into a bankruptcy plan that is confirmed by the bankruptcy court or into an order of such court and filing the pertinent portion of the plan or order with the returns (or amended returns) of the debtor and the estate for their first taxable years ending after November 9, 1992.

(vi) *Election is binding and irrevocable.* Except as provided in paragraph (f)(2)(iii) of this section, the election, once made, is binding on both the debtor and the estate and is irrevocable.

SUBCHAPTER A—INCOME TAX (Continued)

PART 1—INCOME TAXES (Continued)

NORMAL TAXES AND SURTAXES (CONTINUED)

TAX ON SELF-EMPLOYMENT INCOME

Sec.

1.1401–1 Tax on self-employment income.
1.1402(a)–1 Definition of net earnings from self-employment.
1.1402(a)–2 Computation of net earnings from self-employment.
1.1402(a)–3 Special rules for computing net earnings from self-employment.
1.1402(a)–4 Rentals from real estate.
1.1402(a)–5 Dividends and interest.
1.1402(a)–6 Gain or loss from disposition of property.
1.1402(a)–7 Net operating loss deduction.
1.1402(a)–8 Community income.
1.1402(a)–9 Puerto Rico.
1.1402(a)–10 Personal exemption deduction.
1.1402(a)–11 Ministers and members of religious orders.
1.1402(a)–12 Possession of the United States.
1.1402(a)–13 Income from agricultural activity.
1.1402(a)–14 Options available to farmers in computing net earnings from self-employment for taxable years ending after 1954 and before December 31, 1956.
1.1402(a)–15 Options available to farmers in computing net earnings from self-employment for taxable years ending on or after December 31, 1956.
1.1402(a)–16 Exercise of option.
1.1402(a)–17 Retirement payments to retired partners.
1.1402(b)–1 Self-employment income.
1.1402(c)–1 Trade or business.
1.1402(c)–2 Public office.
1.1402(c)–3 Employees.
1.1402(c)–4 Individuals under Railroad Retirement System.
1.1402(c)–5 Ministers and members of religious orders.
1.1402(c)–6 Members of certain professions.
1.1402(c)–7 Members of religious groups opposed to insurance.
1.1402(d)–1 Employee and wages.
1.1402(e)–1A Application of regulations under section 1402(e).
1.1402(e)–2A Ministers, members of religious orders and Christian Science practitioners; application for exemption from self-employment tax.
1.1402(e)–3A Time limitation for filing application for exemption.
1.1402(e)–4A Period for which exemption is effective.
1.1402(e)–5A Applications for exemption from self-employment taxes filed after December 31, 1986, by ministers, certain members of religious orders, and Christian Science practitioners.
1.1402(e)(1)–1 Election by ministers, members of religious orders, and Christian Science practitioners for self-employment coverage.

1.7519–1T Required payments for entities electing not to have required year (temporary).
1.7519–2T Required payments—procedures and administration (temporary).
1.7519–3T Effective date (temporary).

GENERAL ACTUARIAL VALUATIONS

1.7520–1 Valuation of annuities, unitrust interests, interests for life or terms of years, and remainder or reversionary interests.
1.7520–2 Valuation of charitable interests.
1.7520–3 Limitation on the application of section 7520.
1.7520–4 Transitional rules.
1.7701(l)–1 Conduit financing arrangements.
1.7702B–1 Consumer protection provisions.
1.7702B–2 Special rules for pre-1997 long-term care insurance contracts.
1.7703–1 Determination of marital status.
1.7704–1 Publicly traded partnerships.
1.7704–2 Transition provisions.
1.7704–3 Qualifying income.
1.7872–1—1.7872–4 [Reserved]
1.7872–5T Exempted loans (temporary).

PUBLIC LAW 74, 84TH CONGRESS

1.9000–1 Statutory provisions.
1.9000–2 Effect of repeal in general.
1.9000–3 Requirement of statement showing increase in tax liability.
1.9000–4 Form and content of statement.
1.9000–5 Effect of filing statement.
1.9000–6 Provisions for the waiver of interest.
1.9000–7 Provisions for estimated tax.
1.9000–8 Extension of time for making certain payments.

RETIREMENT-STRAIGHT LINE ADJUSTMENT ACT OF 1958

1.9001 Statutory provisions; Retirement-Straight Line Adjustment Act of 1958.
1.9001–1 Change from retirement to straight-line method of computing depreciation.
1.9001–2 Basis adjustments for taxable years beginning on or after 1956 adjustment date.
1.9001–3 Basis adjustments for taxable years between changeover date and 1956 adjustment date.
1.9001–4 Adjustments required in computing excess-profits credit.

DEALER RESERVE INCOME ADJUSTMENT ACT OF 1960

1.9002 Statutory provisions; Dealer Reserve Income Adjustment Act of 1960 (74 Stat. 124).
1.9002–1 Purpose, applicability, and definitions.
1.9002–2 Election to have the provisions of section 481 of the Internal Revenue Code of 1954 apply.
1.9002–3 Election to have the provisions of section 481 of the Internal Revenue Code of 1954 not apply.
1.9002–4 Election to pay net increase in tax in installments.
1.9002–5 Special rules relating to interest.
1.9002–6 Acquiring corporation.
1.9002–7 Statute of limitations.
1.9002–8 Manner of exercising elections.

PUBLIC DEBT AND TAX RATE EXTENSION ACT OF 1960

1.9003 Statutory provisions; section 4 of the Act of September 14, 1960 (Pub. L. 86–781, 74 Stat. 1017).
1.9003–1 Election to have the provisions of section 613(c)(2) and (4) of the 1954 Code, as amended, apply for past years.
1.9003–2 Effect of election.
1.9003–3 Statutes of limitation.

1.9003–4 Manner of exercising election.
1.9003–5 Terms; applicability of other laws.

CERTAIN BRICK AND TILE CLAY, FIRE CLAY, AND SHALE; REGULATIONS UNDER THE ACT OF SEPTEMBER 26, 1961

1.9004 Statutory provisions; the Act of September 26, 1961 (Pub. L. 87–312, 75 Stat. 674).
1.9004–1 Election relating to the determination of gross income from the property for taxable years beginning prior to 1961 in the case of certain clays and shale.
1.9004–2 Effect of election.
1.9004–3 Statutes of limitation.
1.9004–4 Manner of exercising election.
1.9004–5 Terms; applicability of other laws.

QUARTZITE AND CLAY USED IN PRODUCTION OF REFRACTORY PRODUCTS; ELECTION FOR PRIOR TAXABLE YEARS

1.9005 Statutory provisions; section 2 of the Act of September 26, 1961 (Pub. L. 87–321, 75 Stat. 683).
1.9005–1 Election relating to the determination of gross income from the property for taxable years beginning prior to 1961 in the case of clay and quartzite used in making refractory products.
1.9005–2 Effect of election.
1.9005–3 Statutes of limitation.
1.9005–4 Manner of exercising election.
1.9005–5 Terms; applicability of other laws.

TAX REFORM ACT OF 1969

1.9006 Statutory provisions; Tax Reform Act of 1969.
1.9006–1 Interest and penalties in case of certain taxable years.

MISCELLANEOUS PROVISIONS

1.9101–1 Permission to submit information required by certain returns and statements on magnetic tape.
1.9200–1 Deduction for motor carrier operating authority.
1.9200–2 Manner of taking deduction.

TAX ON SELF-EMPLOYMENT INCOME

SOURCE: Sections 1.1401–1 to 1.1403–1 contained in T.D. 6691, 28 FR 12796, Dec. 3, 1963, unless otherwise noted.

§1.1401–1 Tax on self-employment income.

(a) There is imposed, in addition to other taxes, a tax upon the self-employment income of every individual at the rates prescribed in section 1401(a) (old-age, survivors, and disability insurance) and (b) (hospital insurance). (See subparagraphs (1) and (2) of paragraph (b) of this section.) This tax shall be levied, assessed, and collected as part of the income tax imposed by subtitle A of the Code and, except as otherwise expressly provided, will be included with the tax imposed by section 1 or 3 in computing any deficiency or overpayment and in computing the interest and additions to any deficiency, overpayment, or tax. Since the tax on self-employment income is part of the income tax, it is subject to the jurisdiction of the Tax Court of the United States to the same extent and in the same manner as the other taxes under subtitle A of the Code. Furthermore, with respect to taxable years beginning after December 31, 1966, this tax must be taken into account in computing any estimate of the taxes required to be declared under section 6015.

(b) The rates of tax on self-employment income are as follows:

(1) For old-age, survivors, and disability insurance:

Taxable year	Percent
Beginning before January 1, 1957	3
Beginning after December 31, 1956 and before January 1, 1959	3.375
Beginning after December 31, 1958 and before January 1, 1960	3.75
Beginning after December 31, 1959 and before January 1, 1962	4.5
Beginning after December 31, 1961 and before January 1, 1963	4.7
Beginning after December 31, 1962 and before January 1, 1966	5.4
Beginning after December 31, 1965 and before January 1, 1967	5.8
Beginning after December 31, 1966 and before January 1, 1968	5.9
Beginning after December 31, 1967 and before January 1, 1969	5.8
Beginning after December 31, 1968 and before January 1, 1971	6.3
Beginning after December 31, 1970 and before January 1, 1973	6.9
Beginning after December 31, 1972	7.0

(2) For hospital insurance:

Taxable year	Percent
Beginning after December 31, 1965 and before January 1, 1967	0.35
Beginning after December 31, 1966 and before January 1, 1968	.50
Beginning after December 31, 1967 and before January 1, 1973	.60
Beginning after December 31, 1972 and before January 1, 1974	1.0
Beginning after December 31, 1973 and before January 1, 1978	.90
Beginning after December 31, 1977 and before January 1, 1981	1.10
Beginning after December 31, 1980 and before January 1, 1986	1.35
Beginning after December 31, 1985	1.50

(c) In general, self-employment income consists of the net earnings derived by an individual (other than a nonresident alien) from a trade or business carried on by him as sole proprietor or by a partnership of which he is a member, including the net earnings of certain employees as set forth in §1.1402(c)–3, and of crew leaders, as defined in section 3121(o) (see such section and the regulations thereunder in part 31 of this chapter (Employment Tax Regulations)). See, however, the exclusions, exceptions, and limitations set forth in §§1.1402(a)–1 through 1.1402(h)–1.

[T.D. 6993, 34 FR 828, Jan. 18, 1969, as amended by T.D. 7333, 39 FR 44445, Dec. 24, 1974]

§1.1402(a)–1 Definition of net earnings from self-employment.

(a) Subject to the special rules set forth in §§1.1402(a)–3 to 1.1402(a)–17, inclusive, and to the exclusions set forth in §§1.1402(c)–2 to 1.1402(c)–7, inclusive, the term ‘‘net earnings from self-employment’’ means:

(1) The gross income derived by an individual from any trade or business carried on by such individual, less the deductions allowed by chapter 1 of the Code which are attributable to such trade or business, plus

(2) His distributive share (whether or not distributed), as determined under section 704, of the income (or minus the loss), described in section 702(a)(9) and as computed under section 703, from any trade or business carried on by any partnership of which he is a member.

(b) Gross income derived by an individual from a trade or business includes payments received by him from a partnership of which he is a member for services rendered to the partnership or for the use of capital by the partnership, to the extent the payments are determined without regard to the income of the partnership. However, such payments received from a partnership not engaged in a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1 do not constitute gross income derived by an individual from a trade or business. See section 707(c) and the regulations thereunder, relating to guaranteed payments to a member of a partnership for services or the use of capital. See also section 706(a) and the regulations thereunder, relating to the taxable year of the partner in which such guaranteed payments are to be included in computing taxable income.

(c) Gross income derived by an individual from a trade or business includes gross income received (in the case of an individual reporting income on the cash receipts and disbursements method) or accrued (in the case of an individual reporting income on the accrual method) in the taxable year from a trade or business even though such income may be attributable in whole or in part to services rendered or other acts performed in a prior taxable year as to which the individual was not subject to the tax on self-employment income.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 7333, 39 FR 44445, Dec. 24, 1974]

§ 1.1402(a)–2 Computation of net earnings from self-employment.

(a) *General rule.* In general, the gross income and deductions of an individual attributable to a trade or business (including a trade or business conducted by an employee referred to in paragraphs (b), (c), (d), or (e) of § 1.1402(c)–3), for the purpose of ascertaining his net earnings from self-employment, are to be determined by reference to the provisions of law and regulations applicable with respect to the taxes imposed by sections 1 and 3. Thus, if an individual uses the accrual method of accounting in computing taxable income from a trade or business for the purpose of the tax imposed by section 1 or 3, he must use the same method in determining net earnings from self-employment. Likewise, if a taxpayer engaged in a trade or business of selling property on the installment plan elects, under the provisions of section 453, to use the installment method in computing income for purposes of the tax under section 1 or 3, he must use the same method in determining net earnings from self-employment. Income which is excludable from gross income under any provision of subtitle A of the Internal Revenue Code is not taken into account in determining net earnings from self-employment except as otherwise provided in § 1.1402(a)–9, relating to certain residents of Puerto Rico, in § 1.1402(a)–11, relating to ministers or members of religious orders, and in § 1.1402(a)–12, relating to the term ‘‘possession of the United States’’ as used for purposes of the tax on self-employment income. Thus, in the case of a citizen of the United States conducting, in a foreign country, a trade or business in which both personal services and capital are material income-producing factors, any part of the income therefrom which is excluded from gross income as earned income under the provisions of section 911 and the regulations thereunder is not taken into account in determining net earnings from self-employment.

(b) *Trade or business carried on.* The trade or business must be carried on by the individual, either personally or through agents or employees. Accordingly, income derived from a trade or business carried on by an estate or trust is not included in determining the net earnings from self-employment of the individual beneficiaries of such estate or trust.

(c) *Aggregate net earnings.* Where an individual is engaged in more than one trade or business within the meaning of section 1402(c) and §1.1402(c)–1, his net earnings from self-employment consist of the aggregate of the net income and losses (computed subject to the special rules provided in §§1.1402(a)–1 to 1.1402(a)–17 inclusive) of all such trades or businesses carried on by him. Thus, a loss sustained in one trade or business carried on by an individual will operate to offset the income derived by him from another trade or business.

(d) *Partnerships.* The net earnings from self-employment of an individual include, in addition to the earnings from a trade or business carried on by him, his distributive share of the income or loss, described in section 702(a)(9), from any trade or business carried on by each partnership of which he is a member. An individual's distributive share of such income or loss of a partnership shall be determined as provided in section 704, subject to the special rules set forth in section 1402(a) and in §§1.1402(a)–1 to 1.1402(a)–17, inclusive, and to the exclusions provided in section 1402(c) and §§1.1402(c)–2 to 1.1402(c)–7, inclusive. For provisions relating to the computation of the taxable income of a partnership, see section 703.

(e) *Different taxable years.* If the taxable year of a partner differs from that of the partnership, the partner shall include, in computing net earnings from self-employment, his distributive share of the income or loss, described in section 702(a)(9), of the partnership for its taxable year ending with or within the taxable year of the partner. For the special rule in case of the termination of a partner's taxable year as result of death, see §§1.1402(f) and 1.1402(f)–1.

(f) *Meaning of partnerships.* For the purpose of determining net earnings from self-employment, a partnership is one which is recognized as such for income tax purposes. For income tax purposes, the term ''partnership'' includes not only a partnership as known at common law, but, also a syndicate, group, pool, joint venture, or other unincorporated organization which carries on any trade or business, financial operation, or venture, and which is not, within the meaning of the Code, a trust, estate, or a corporation. An organization described in the preceding sentence shall be treated as a partnership for purposes of the tax on self-employment income even though such organization has elected, pursuant to section 1361 and the regulations thereunder, to be taxed as a domestic corporation.

(g) *Nature of partnership interest.* The net earnings from self-employment of a partner include his distributive share of the income or loss, described in section 702(a)(9), of the partnership of which he is a member, irrespective of the nature of his membership. Thus, in determining his net earnings from self-employment, a limited or inactive partner includes his distributive share of such partnership income or loss. In the case of a partner who is a member of a partnership with respect to which an election has been made pursuant to section 1361 and the regulations thereunder to be taxed as a domestic corporation, net earnings from self-employment include his distributive share of the income or loss, described in section 702(a)(9), from the trade or business carried on by the partnership computed without regard to the fact that the partnership has elected to be taxed as a domestic corporation.

(h) *Proprietorship taxed as domestic corporation.* A proprietor of an unincorporated business enterprise with respect to which an election has been made pursuant to section 1361 and the regulations thereunder to be taxed as a domestic corporation shall compute his net earnings from self-employment without regard to the fact that such election has been made.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 7333, 39 FR 44445, Dec. 24, 1974]

§1.1402(a)–3 Special rules for computing net earnings from self-employment.

For the purpose of computing net earnings from self-employment, the gross income derived by an individual from a trade or business carried on by him, the allowable deductions attributable to such trade or business, and the individual's distributive share of the income or loss, described in section 702(a)(9), from any trade or business carrier on by a partnership of which he is a member shall be computed in accordance with the special rules set forth in §§ 1.1402(a)–4 to 1.1402(a)–17, inclusive.

[T.D. 7333, 39 FR 44445, Dec. 24, 1974]

§ 1.1402(a)–4 Rentals from real estate.

(a) *In general.* Rentals from real estate and from personal property leased with the real estate (including such rentals paid in crop shares) and the deductions attributable thereto, unless such rentals are received by an individual in the course of a trade or business as a real-estate dealer, are excluded. Whether or not an individual is engaged in the trade or business of a real-estate dealer is determined by the application of the principles followed in respect of the taxes imposed by sections 1 and 3. In general, an individual who is engaged in the business of selling real estate to customers with a view to the gains and profits that may be derived from such sales is a real-estate dealer. On the other hand, an individual who merely holds real estate for investment or speculation and receives rentals therefrom is not considered a real-estate dealer. Where a real-estate dealer holds real estate for investment or speculation in addition to real estate held for sale to customers in the ordinary course of his trade or business as a real-estate dealer, only the rentals from the real estate held for sale to customers in the ordinary course of his trade or business as a real-estate dealer, and the deductions attributable thereto, are included in determining net earnings from self-employment; the rentals from the real estate held for investment or speculation, and the deductions attributable thereto, are excluded. Rentals paid in crop shares include income derived by an owner or lessee of land under an agreement entered into with another person pursuant to which such other person undertakes to produce a crop or livestock on such land and pursuant to which (1) the crop or livestock, or the proceeds thereof, are to be divided between such owner or lessee and such other person, and (2) the share of the owner or lessee depends on the amount of the crop or livestock produced. See, however, paragraph (b) of this section.

(b) *Special rule for ''includible farm rental income''*—(1) *In general.* Notwithstanding the rules set forth in paragraph (a) of this section, there shall be included in determining net earnings from self-employment for taxable years ending after 1955 any income derived by an owner or tenant of land, if the following requirements are met with respect to such income:

(i) The income is derived under an arrangement between the owner or tenant of land and another person which provides that such other person shall produce agricultural or horticultural commodities on such land, and that there shall be material participation by the owner or tenant in the production or the management of the production of such agricultural or horticultural commodities; and

(ii) There is material participation by the owner or tenant with respect to any such agricultural or horticultural commodity.

Income so derived shall be referred to in this section as ''includible farm rental income''.

(2) *Requirement that income be derived under an arrangement.* In order for rental income received by an owner or tenant of land to be treated as includible farm rental income, such income must be derived pursuant to a share-farming or other rental arrangement which contemplates material participation by the owner or tenant in the production or management of production of agricultural or horticultural commodities.

(3) *Nature of arrangement.* (i) The arrangement between the owner or tenant and the person referred to in subparagraph (1) of this paragraph may be either oral or written. The arrangement must impose upon such other person the obligation to produce one or more agricultural or horticultural commodities (including livestock, bees, poultry, and fur-bearing animals and wildlife) on the land of the owner or tenant. In addition, it must be within the contemplation of the parties that the owner or tenant will participate in the production or the management of the production of the agricultural or horticultural commodities required to be produced by the other person under such arrangement to an extent which is material with respect either to the

production or to the management of production of such commodities or is material with respect to the production and management of production when the total required participation in connection with both is considered.

(ii) The term ‘‘production’’, wherever used in this paragraph, refers to the physical work performed and the expenses incurred in producing a commodity. It includes such activities as the actual work of planting, cultivating, and harvesting crops, and the furnishing of machinery, implements, seed, and livestock. An arrangement will be treated as contemplating that the owner or tenant will materially participate in the ‘‘production’’ of the commodities required to be produced by the other person under the arrangement if under the arrangement it is understood that the owner or tenant is to engage to a material degree in the physical work related to the production of such commodities. The mere undertaking to furnish machinery, implements, and livestock and to incur expenses is not, in and of itself, sufficient. Such factors may be significant, however, in cases where the degree of physical work intended of the owner or tenant is not material. For example, if under the arrangement it is understood that the owner or tenant is to engage periodically in physical work to a degree which is not material in and of itself and, in addition, to furnish a substantial portion of the machinery, implements, and livestock to be used in the production of the commodities or to furnish or advance funds or assume financial responsibility for a substantial part of the expense involved in the production of the commodities, the arrangement will be treated as contemplating material participation of the owner or tenant in the production of such commodities.

(iii) The term ‘‘management of the production’’, wherever used in this paragraph, refers to services performed in making managerial decisions relating to the production, such as when to plant, cultivate, dust, spray, or harvest the crop, and includes advising and consulting, making inspections, and making decisions as to matters such as rotation of crops, the type of crops to be grown, the type of livestock to be raised, and the type of machinery and implements to be furnished. An arrangement will be treated as contemplating that the owner or tenant is to participate materially in the ‘‘management of the production’’ of the commodities required to be produced by the other person under the arrangement if the owner or tenant is to engage to a material degree in the management decisions related to the production of such commodities. The services which are considered of particular importance in making such management decisions are those services performed in making inspections of the production activities and in advising and consulting with such person as to the production of the commodities. Thus, if under the arrangement it is understood that the owner or tenant is to advise or consult periodically with the other person as to the production of the commodities required to be produced by such person under the arrangement and to inspect periodically the production activities on the land, a strong inference will be drawn that the arrangement contemplates participation by the owner or tenant in the management of the production of such commodities. The mere undertaking to select the crops or livestock to be produced or the type of machinery and implements to be furnished or to make decisions as to the rotation of crops generally is not, in and of itself, sufficient. Such factors may be significant, however, in making the overall determination of whether the arrangement contemplates that the owner or tenant is to participate materially in the management of the production of the commodities. Thus, if in addition to the understanding that the owner or tenant is to advise or consult periodically with the other person as to the production of the commodities and to inspect periodically the production activities on the land, it is also understood that the owner is to select the type of crops and livestock to be produced and the type of machinery and implements to be furnished and to make decisions as to the rotation of crops, the arrangement will be treated as contemplating material participation of the owner or tenant in the management of production of such commodities.

(4) *Actual participation.* In order for the rental income received by the owner or tenant of land to be treated as includible farm rental income, not only must it be derived pursuant to the arrangement described in subparagraph (1) of this paragraph, but also the owner or tenant must actually participate to a material degree in the production or in the management of the production of any of the commodities required to be produced under the arrangement, or he must actually participate in both the production and the management of the production to an extent that his participation in the one when combined with his participation in the other will be considered participation to a material degree. If the owner or tenant shows that he periodically advises or consults with the other person, who under the arrangement produces the agricultural or horticultural commodities, as to the production of any of these commodities and also shows that he periodically inspects the production activities on the land, he will have presented strong evidence of the existence of the degree of participation contemplated by section 1402(a)(1). If, in addition to the foregoing, the owner or tenant shows that he furnishes a substantial portion of the machinery, implements, and livestock used in the production of the commodities or that he furnishes or advances funds, or assumes financial responsibility, for a substantial part of the expense involved in the production of the commodities, he will have established the existence of the degree of participation contemplated by section 1402(a)(1) and this paragraph.

(5) *Employees or agents.* An agreement entered into by an employee or agent of an owner or tenant and another person is considered to be an arrangement entered into by the owner or tenant for purposes of satisfying the requirement set forth in paragraph (b)(2) that the income must be derived under an arrangement between the owner or tenant and another person. For purposes of determining whether the arrangement satisfies the requirement set forth in paragraph (b)(3) that the parties contemplate that the owner or tenant will materially participate in the production or management of production of a commodity, services which will be performed by an employee or agent of the owner or tenant are not considered to be services which the arrangement contemplates will be performed by the owner or tenant. Services actually performed by such employee or agent are not considered services performed by the owner or tenant in determining the extent to which the owner or tenant has participated in the production or management of production of a commodity. For taxable years beginning before January 1, 1974, contemplated or actual services of an agent or an employee of the owner or tenant are deemed to be contemplated or actual services of the owner or tenant under paragraphs (b)(3) and (b)(4) of this section.

(6) *Examples.* Application of the rules prescribed in this paragraph may be illustrated by the following examples:

Example (1). After the death of her husband, Mrs. A rents her farm, together with its machinery and equipment, to B for one-half of the proceeds from the commodities produced on such farm by B. It is agreed that B will live in the tenant house on the farm and be responsible for the over-all operation of the farm, such as planting, cultivating, and harvesting the field crops, caring for the orchard and harvesting the fruit and caring for the livestock and poultry. It also is agreed that Mrs. A will continue to live in the farm residence and help B operate the farm. Under the agreement it is contemplated that Mrs. A will regularly operate and clean the cream separator and feed the poultry flock and collect the eggs. When possible she will assist B in such work as spraying the fruit trees, penning livestock, culling the poultry, and controlling weeds. She will also assist in preparing the meals when B engages seasonal workers. The agreement between Mrs. A and B clearly provides that she will materially participate in the over-all production operations to be conducted on her farm by B. In actual practice, Mrs. A performs such regular and intermittent services. The regularly performed services are material to the production of an agricultural commodity, and the intermittent services performed are material to the production operations to which they relate. The furnishing of a substantial portion of the farm machinery and equipment also adds support to a conclusion that Mrs. A has materially participated. Accordingly, the rental income

Mrs. A receives from her farm should be included in net earnings from self-employment.

Example (2). D agrees to produce a crop on C's cotton farm under an arrangement providing that C and D will each receive one-half of the proceeds from such production. C agrees to furnish all the necessary equipment, and it is understood that he is to advise D when to plant the cotton and when it needs to be chopped, plowed, sprayed, and picked. It is also understood that during the growing season C is to inspect the crop every few days to determine whether D is properly taking care of the crop. Under the arrangement, D is required to furnish all labor needed to grow and harvest the crop. C, in fact, renders such advice, makes such inspections, and furnishes such equipment. C's contemplated participation in management decisions is considered material with respect to the management of the cotton production operation. C's actual participation pursuant to the arrangement is also considered to be material with respect to the management of the production of cotton. Accordingly, the income C receives from his cotton farm is to be included in computing his net earnings from self-employment.

Example (3). E owns a grain farm and turns its operation over to his son, F. By the oral rental arrangement between E and F, the latter agrees to produce crops of grain on the farm, and E agrees that he will be available for consultation and advice and will inspect and help to harvest the crops. E furnishes most of the equipment, including a tractor, a combine, plows, wagons, drills, and harrows; he continues to live on the farm and does some of the work such as repairing barns and farm machinery, going to town for supplies, cutting weeds, etc.; he regularly inspects the crops during the growing season; and he helps F to harvest the crops. Although the final decisions are made by F, he frequently consults with his father regarding the production of the crops. An evaluation of all of E's actual activities indicates that they are sufficiently substantial and regular to support a conclusion that he is materially participating in the crop production operations and the management thereof. If it can be shown that the degree of E's actual participation was contemplated by the arrangement, E's income from the grain farm will be included in computing net earnings from self-employment.

Example (4). G owns a fully-equipped farm which he rents to H under an arrangement which contemplates that G shall materially participate in the management of the production of crops raised on the farm pursuant to the arrangement. G lives in town about 5 miles from the farm. About twice a month he visits the farm and looks over the buildings and equipment. G may occasionally, in an emergency, discuss with H some phase of a crop production activity. In effect, H has complete charge of the management of farming operations regardless of the understanding between him and G. Although G pays one-half of the cost of the seed and fertilizer and is charged for the cost of materials purchased by H to make all necessary repairs, G's activities do not constitute material participation in the crop production activities. Accordingly, G's income from the crops is not included in computing net earnings from self-employment.

Example (5). I owned a farm several miles from the town in which he lived. He rented the farm to J under an arrangement which contemplated I's material participation in the management of production of wheat. I furnished one-half of the seed and fertilizer and all the farm equipment and livestock. He employed K to perform all the services in advising, consulting, and inspecting contemplated by the arrangement. I is not materially participating in the management of production of wheat by J. The work done by I's employee, K, is not attributable to I in determining the extent of I's participation. I's rental income from the arrangement is, therefore, not to be included in computing his net earnings from self-employment. For taxable years beginning before January 1, 1974, however, I's rental income would be includible in those earnings.

Example (6). L, a calendar-year taxpayer, appointed M as his agent to rent his fully equipped farm for 1974. M entered into a rental arrangement with N under which M was to direct the planting of crops, inspect them weekly during the growing season, and consult with N on any problems that might arise in connection with irrigation, etc., while N furnished all the labor needed to grow and harvest the crops. M did in fact fulfill its responsibilities under the arrangement. Although the arrangement entered into by M and N is considered to have been made by L, M's services are not attributable to L, and L's furnishing of a fully equipped farm is insufficient by itself to constitute material participation in the production of the crops. Accordingly, L's rental income from the arrangement is not included in his net earnings from self-employment for that year. For taxable years beginning before January 1, 1974, however, L's rental income would be includible in those earnings.

(c) *Rentals from living quarters*—(1) *No services rendered for occupants.* Payments for the use or occupancy of entire private residences or living quarters in duplex or multiple-housing units are generally rentals from real estate. Except in the case of real-estate dealers, such payments are excluded in determining net earnings from self-employment even though such payments are in part attributable to personal property furnished under the lease.

(2) *Services rendered for occupants.* Payments for the use or occupancy of rooms or other space where services are also rendered to the occupant, such as for the use or occupancy of rooms or other quarters in hotels, boarding houses, or apartment houses furnishing hotel services, or in tourist camps or tourist homes, or payments for the use or occupancy of space in parking lots, warehouses, or storage garages, do not constitute rentals from real estate; consequently, such payments are included in determining net earnings from self-employment. Generally, services are considered rendered to the occupant if they are primarily for his convenience and are other than those usually or customarily rendered in connection with the rental of rooms or other space for occupancy only. The supplying of maid service, for example, constitutes such service; whereas the furnishing of heat and light, the cleaning of public entrances, exits, stairways and lobbies, the collection of trash, and so forth, are not considered as services rendered to the occupant.

(3) *Example.* The application of this paragraph may be illustrated by the following example:

Example. A, an individual, owns a building containing four apartments. During the taxable year, he receives $1,400 from apartments numbered 1 and 2, which are rented without services rendered to the occupants, and $3,600 from apartments numbered 3 and 4, which are rented with services rendered to the occupants. His fixed expenses for the four apartments aggregate $1,200 during the taxable year. In addition, he has $500 of expenses attributable to the services rendered to the occupants of apartments 3 and 4. In determining his net earnings from self-employment, A includes the $3,600 received from apartments 3 and 4, and the expenses of $1,100 ($500 plus one-half of $1,200) attributable thereto. The rentals and expenses attributable to apartments 1 and 2 are excluded. Therefore, A has $2,500 of net earnings from self-employment for the taxable year from the building.

(d) *Treatment of business income which includes rentals from real estate.* Except in the case of a real-estate dealer, where an individual or a partnership is engaged in a trade or business the income of which is classifiable in part as rentals from real estate, only that portion of such income which is not classifiable as rentals from real estate, and the expenses attributable to such portion, are included in determining net earnings from self-employment.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 7710, 45 FR 50739, July 31, 1980]

§ 1.1402(a)–5 Dividends and interest.

(a) All dividends on shares of stock are excluded unless they are received by an individual in the course of his trade or business as a dealer in stocks or securities.

(b) Interest on any bond, debenture, note, or certificate, or other evidence of indebtedness, issued with interest coupons or in registered form by any corporation (including one issued by a government or political subdivision thereof) is excluded unless such interest is received in the course of a trade or business as a dealer in stocks or securities. However, interest with respect to which a credit against tax is allowable as provided in section 35, that is, interest on certain obligations of the United States and its instrumentalities, is not included in net earnings from self-employment even though received in the course of a trade or business as a dealer in stocks or securities. Only interest on bonds, debentures, notes, or certificates, or other evidence of indebtedness, issued with interest coupons or in registered form by a corporation, is excluded in the case of all persons other than dealers in stocks or securities; other interest received in the course of any trade or business (such as interest received by a pawnbroker on his loans or interest received by a merchant on his accounts or notes receivable) is not excluded.

(c) Dividends and interest of the character excludable under paragraphs (a) and (b) of this section received by an individual on stocks or securities held for speculation or investment are excluded whether or not the individual is a dealer in stocks or securities.

(d) A dealer in stocks or securities is a merchant of stocks or securities with an established place of business, regularly engaged in the business of purchasing stocks or securities and reselling them to customers; that is, he is one who as a merchant buys stocks or securities and sells them to customers with a view to the gains and profits that may be derived therefrom. Persons who buy and sell or hold stocks or securities for investment or speculation, irrespective of whether such buying or selling constitutes the carrying on of a trade or business, are not dealers in stocks or securities.

§1.1402(a)–6 Gain or loss from disposition of property.

(a) There is excluded any gain or loss: (1) Which is considered as gain or loss from the sale or exchange of a capital asset; (2) from the cutting of timber or the disposal of timber, coal, or iron ore, even though held primarily for sale to customers, if section 631 is applicable to such gain or loss; and (3) from the sale, exchange, involuntary conversion, or other disposition of property if such property is neither (i) stock in trade or other property of a kind which would properly be includible in inventory if on hand at the close of the taxable year, nor (ii) property held primarily for sale to customers in the ordinary course of a trade or business. For the purpose of the special rule in subparagraph (3) of this paragraph, it is immaterial whether a gain or loss is treated as a capital gain or loss or as an ordinary gain or loss for purposes other than determining net earnings from self-employment. For instance, where the character of a loss is governed by the provisions of section 1231, such loss is excluded in determining net earnings from self-employment even though such loss is treated under section 1231 as an ordinary loss. For the purposes of this special rule, the term ‘‘involuntary conversion’’ means a compulsory or involuntary conversion of property into other property or money as a result of its destruction in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation or the threat or imminence thereof; and the term ‘‘other dispostion’’ includes the destruction or loss, in whole or in part, of property by fire, storm, shipwreck, or other casualty, or by theft, even though there is no conversion of such property into other property or money.

(b) The application of this section may be illustrated by the following example:

Example. During the taxable year 1954, A, who owns a grocery store, realized a net profit of $1,500 from the sale of groceries and a gain of $350 from the sale of a refrigerator case. During the same year, he sustained a loss of $2,000 as a result of damage by fire to the store building. In computing taxable income, all of these items are taken into account. In determining net earnings from self-employment, however, only the $1,500 of profit derived from the sale of groceries is included. The $350 gain and the $2,000 loss are excluded.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6841, 30 FR 9309, July 27, 1965]

§1.1402(a)–7 Net operating loss deduction.

The deduction provided by section 172, relating to net operating losses sustained in years other than the taxable year, is excluded.

§1.1402(a)–8 Community income.

(a) *In case of an individual.* If any of the income derived by an individual from a trade or business (other than a trade or business carried on by a partnership) is community income under community property laws applicable to such income, all of the gross income, and the deductions attributable to such income, shall be treated as the gross income and deductions of the husband unless the wife exercises substantially all of the management and control of such trade or business, in which case all of such gross income and deductions shall be treated as the gross income and deductions of the wife. For the purpose of this special rule, the term ‘‘management and control’’ means management and control in fact, not the management and control imputed to the husband under the community property laws. For example, a wife who operates a beauty parlor without any appreciable collaboration on the part of her husband will be considered as having substantially all of the management and control of such business despite the provision of any community property law vesting in the husband the right of management and control of community property; and the income and deductions attributable to the operation of such beauty parlor will be considered the income and deductions of the wife.

(b) *In case of a partnership.* Even though a portion of a partner's distributive share of the income or loss, described in section 702(a)(9), from a trade or business carried on by a partnership is community income or loss under the community property laws applicable to such share, all of such distributive share shall be included in computing the net earnings from self-employment of such partner; no part of such share shall be taken into account in computing the net earnings from self-employment of the spouse of such partner. In any case in which both spouses are members of the same partnership, the distributive share of the income or loss of each spouse is included in computing the net earnings from self-employment of that spouse.

§ 1.1402(a)–9 Puerto Rico.

(a) *Residents.* A resident of Puerto Rico, whether or not a bona fide resident thereof during the entire taxable year, and whether or not an alien, a citizen of the United States, or a citizen of Puerto Rico, shall compute his net earnings from self-employment in the same manner as would a citizen of the United States residing in the United States. See paragraph (d) of § 1.1402(b)–1 for regulations relating to nonresident aliens. For the purpose of the tax on self-employment income, the gross income of such a resident of Puerto Rico also includes income from Puerto Rican sources. Thus, under this special rule, income from Puerto Rican sources will be included in determining net earnings from self-employment of a resident of Puerto Rico engaged in the active conduct of a trade or business in Puerto Rico despite the fact that, under section 933, such income may not be taken into account for purposes of the tax under section 1 or 3.

(b) *Nonresidents.* A citizen of Puerto Rico who is also a citizen of the United States and who is not a resident of Puerto Rico will compute his net earnings from self-employment in the same manner and subject to the same provisions of law and regulations as other citizens of the United States.

§ 1.1402(a)–10 Personal exemption deduction.

The deduction provided by section 151, relating to personal exemptions, is excluded.

§ 1.1402(a)–11 Ministers and members of religious orders.

(a) *In general.* For each taxable year ending after 1954 in which a minister or member of a religious order is engaged in a trade or business, within the meaning of section 1402(c) and § 1.1402(c)–5, with respect to service performed in the exercise of his ministry or in the exercise of duties required by such order, net earnings from self-employment from such trade or business include the gross income derived during the taxable year from any such service, less the deductions attributable to such gross income. For each taxable year ending on or after December 31, 1957, such minister or member of a religious order shall compute his net earnings from self-employment derived from the performance of such service without regard to the exclusions from gross income provided by section 107 (relating to rental value of parsonages) and section 119 (relating to meals and lodging furnished for the convenience of the employer). Thus, a minister who is subject to self-employment tax with respect to his services as a minister will include in the computation of his net earnings from self-employment for a taxable year ending on or after December 31, 1957, the rental value of a home furnished to him as remuneration for services performed in the exercise of his ministry or the rental allowance paid to him as remuneration for such services irrespective of whether such rental value or rental allowance is excluded from gross income by section 107. Similarly, the value of any meals or lodging furnished to a minister or to a member of a religious order in connection with service performed in the exercise of his ministry or as a member of such order will be included in the computation of his net earnings from self-employment for a taxable year ending on or after December 31, 1957, notwithstanding the exclusion of such value from gross income by section 119.

(b) *In employ of American employer.* If a minister or member of a religious order engaged in a trade or business described in section 1402(c) and §1.1402(c)–5 is a citizen of the United States and performs service, in his capacity as a minister or member of a religious order, as an employee of an American employer, as defined in section 3121(h) and the regulations thereunder in Part 31 of this chapter (Employment Tax Regulations), his net earnings from self-employment derived from such service shall be computed as provided in paragraph (a) of this section but without regard to the exclusions from gross income provided in section 911, relating to earned income from sources without the United States, and section 931, relating to income from sources within possessions of the United States. Thus, even though all the income of the minister or member for service of the character to which this paragraph is applicable was derived from sources without the United States, or from sources within possessions of the United States, and therefore may be excluded from gross income, such income is included in computing net earnings from self-employment.

(c) *Minister in a foreign country whose congregation is composed predominantly of citizens of the United States*—(1) *Taxable years ending after 1956.* For any taxable year ending after 1956, a minister of a church, who is engaged in a trade or business within the meaning of section 1402(c) and §1.1402(c)–5, is a citizen of the United States, is performing service in the exercise of his ministry in a foreign country, and has a congregation composed predominantly of United States citizens, shall compute his net earnings from self-employment derived from his services as a minister for such taxable year without regard to the exclusion from gross income provided in section 911, relating to earned income from sources without the United States. For taxable years ending on or after December 31, 1957, such minister shall also disregard sections 107 and 119 in the computation of his net earnings from self-employment. (See paragraph (a) of this section.) For purposes of section 1402(a)(8) and this paragraph a ‘‘congregation composed predominantly of citizens of the United States’’ means a congregation the majority of which throughout the greater portion of its minister’s taxable year were United States citizens.

(2) *Election for taxable years ending after 1954 and before 1957.* (i) A minister described in subparagraph (1) of this paragraph who, for a taxable year ending after 1954 and before 1957, had income from service described in such subparagraph which would have been included in computing net earnings from self-employment if such income had been derived in a taxable year ending after 1956 by an individual who had filed a waiver certificate under section 1402(e), may elect to have section 1402(a)(8) and subparagraph (1) of this paragraph apply to his income from such service for his taxable years ending after 1954 and before 1957. If such minister filed a waiver certificate prior to August 1, 1956, in accordance with §1.1402(e)(1)–1, or he files such a waiver certificate on or before the due date of his return (including any extensions thereof) for his last taxable year ending before 1957, he must make such election on or before the due date of his return (including any extensions thereof) for such taxable year or before April 16, 1957, whichever is the later. If the waiver certificate is not so filed, the minister must make his election on or before the due date of the return (including any extensions thereof) for his first taxable year ending after 1956. Notwithstanding the expiration of the period prescribed by section 1402(e)(2) for filing such waiver, the minister may file a waiver certificate at the time he makes the election. In no event shall an election be valid unless the minister files prior to or at the time of the election a waiver certificate in accordance with §1.1402(e)(1)–1.

(ii) The election shall be made by filing with the district director of internal revenue with whom the waiver certificate, Form 2031, is filed a written statement indicating that, by reason of the Social Security Amendments of 1956, the minister desires to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to his services performed in a foreign country as a minister of a congregation composed predominantly of United States citizens beginning with the first taxable year ending after 1954 and prior to 1957 for which he had income from such services. The statement shall be dated and signed by the minister and shall clearly state that it is an election for retroactive self-employment tax coverage under the Self-Employment Contributions Act of 1954. In addition, the statement shall include the following information:

(a) The name and address of the minister.

(b) His social security account number, if he has one.

(c) That he is a duly ordained, commissioned, or licensed minister of a church.

(d) That he is a citizen of the United States.

(e) That he is performing services in the exercise of his ministry in a foreign country.

(f) That his congregation is composed predominantly of citizens of the United States.

(g)(1) That he has filed a waiver certificate and, if so, where and under what circumstances the certificate was filed and the taxable year for which it is effective; or *(2)* that he is filing a waiver certificate with his election for retroactive coverage and, if so, the taxable year for which it is effective.

(h) That he has or has not filed income tax returns for his taxable years ending after 1954 and before 1957. If he has filed such returns, he shall state the years for which they were filed and indicate the district director of internal revenue with whom they were filed.

(iii) Notwithstanding section 1402(e)(3), a waiver certificate filed pursuant to § 1.1402(e)(1)–1 by a minister making an election under this paragraph shall be effective (regardless of when such certificate is filed) for such minister's first taxable year ending after 1954 in which he had income from service described in subparagraph (1) of this paragraph or for the taxable year of the minister prescribed by section 1402(e)(3), if such taxable year is earlier, and for all succeeding taxable years.

(iv) No interest or penalty shall be assessed or collected for failure to file a return within the time prescribed by law if such failure arises solely by reason of an election made by a minister pursuant to this paragraph or for any underpayment of self-employment income tax arising solely by reason of such election, for the period ending with the date such minister makes an election pursuant to this paragraph.

(d) *Treatment of certain remuneration paid in 1955 and 1956 as wages.* For treatment of remuneration paid to an individual for service described in section 3121(b)(8)(A) which was erroneously treated by the organization employing him as employment with-in the meaning of chapter 21 of the Internal Revenue Code, see § 1.1402(e)(4)–1.

§ 1.1402(a)–12 Possession of the United States.

For purposes of the tax on self-employment income, the term ''possession of the United States,'' as used in section 931 (relating to income from sources within possessions of the United States) and section 932 (relating to citizens of possessions of the United States) shall be deemed not to include the Virgin Islands, Guam, or American Samoa. The provisions of section 1402(a)(9) and of this section insofar as they involve nonapplication of sections 931 and 932 to Guam or American Samoa, shall apply only in the case of taxable years beginning after 1960. For definition of the term ''United States'' and for other geographical definitions relating to the Continental Shelf see section 638 and § 1.638–1.

[T.D. 7277, 38 FR 12742, May 15, 1973]

§ 1.1402(a)–13 Income from agricultural activity.

(a) *Agricultural trade or business.* (1) An agricultural trade or business is one in which, if the trade or business were carried on exclusively by employees, the major portion of the services would constitute agricultural labor as defined in section 3121(g) and the regulations thereunder in part 31 of this chapter (Employment Tax Regulations). In case the services are in part agricultural and in part nonagricultural, the time devoted to the performance of each type of service is the test to be used to determine whether the major portion of the services would constitute agricultural labor. If more than half of the time spent in performing all the services is spent in performing services which would constitute agricultural labor under section 3121(g), the trade or business is agricultural. If only half, or less, of the time spent in performing all the services is spent in performing services which would constitute agricultural labor under section 3121(g), the trade or business is not agricultural. In every case the time spent in performing the services will be computed by adding the time spent in the trade or business during the taxable year by every individual (including the individual carrying on such trade or business and the members of his family) in performing such services. The operation of this special rule is not affected by section 3121(c), relating to the included-excluded rule for determining employment.

(2) The rules prescribed in subparagraph (1) of this paragraph have no application where the nonagricultural services are performed in connection with an enterprise which constitutes a trade or business separate and distinct from the trade or business conducted as an agricultural enterprise. Thus, the operation of a roadside automobile service station on farm premises constitutes a trade or business separate and distinct from the agricultural enterprise, and the gross income derived from such service station, less the deductions attributable thereto, is to be taken into account in determining net earnings from self-employment.

(b) *Farm operator's income for taxable years ending before 1955.* Income derived in a taxable year ending before 1955 from any agricultural trade or business (see paragraph (a) of this section), and all deductions attributable to such income, are excluded in computing net earnings from self-employment.

(c) *Farm operator's income for taxable years ending after 1954.* Income derived in a taxable year ending after 1954 from an agricultural trade or business (see paragraph (a) of this section) is includible in computing net earnings from self-employment. Income derived from an agricultural trade or business includes income derived by an individual under an agreement entered into by such individual with another person pursuant to which such individual undertakes to produce agricultural or horticultural commodities (including livestock, bees, poultry, and fur-bearing animals and wildlife) on land owned or leased by such other person and pursuant to which the agricultural or horticultural commodities produced by such individual, or the proceeds therefrom, are to be divided between such individual and such other person, and the amount of such individual's share depends on the amount of the agricultural or horticultural commodities produced. However, except as provided in paragraph (d) of this section, relating to arrangements involving material participation, the income derived under such an agreement by the owner or lessee of the land is not includible in computing net earnings from self-employment. See §1.1402(a)–4. For options relating to the computation of net earnings from self-employment, see §§1.1402(a)–14 and 1.1402(a)–15.

(d) *Includible farm rental income for taxable years ending after 1955.* For taxable years ending after 1955, income derived from an agricultural trade or business (see paragraph (a) of this section) includes also income derived by the owner or tenant of land under an arrangement between such owner or tenant and another person, if such arrangement provides that such other person shall produce agricultural or horticultural commodities (including livestock, bees, poultry, and fur-bearing animals and wildlife) on such land, and that there shall be material participation by the owner or tenant in the production or the management of the production of such agricultural or horticultural commodities, and if there is material participation by the owner or tenant with respect to any such agricultural or horticultural commodity. See paragraph (b) of §1.1402(a)–4. For options relating to the computation of net earnings from self-employment, see §§1.1402(a)–14 and 1.1402(a)–15.

(e) *Income from service performed after 1956 as a crew leader.* Income derived by a crew leader (see section 3121(o) and the regulations thereunder in Part 31 of this chapter (Employment Tax Regulations)) from service performed after

1956 in furnishing individuals to perform agricultural labor for another person and from service performed after 1956 in agricultural labor as a member of the crew is considered to be income derived from a trade or business for purposes of § 1.1402(c)–1. Whether such trade or business is an agricultural trade or business shall be determined by applying the rules set forth in this section.

§ 1.1402(a)–14 Options available to farmers in computing net earnings from self-employment for taxable years ending after 1954 and before December 31, 1956.

(a) *Computation of net earnings.* In the case of any trade or business which is carried on by an individual who reports his income on the cash receipts and disbursements method, and in which, if it were carried on exclusively by employees, the major portion of the services would constitute agricultural labor as defined in section 3121(g) (see paragraph (a) of § 1.1402(a)–13), net earnings from self-employment may, for a taxable year ending after 1954, at the option of the taxpayer, be computed as follows:

(1) *Gross income $1,800 or less.* If the gross income, computed as provided in paragraph (b) of this section, from such trade or business is $1,800 or less, the taxpayer may, at his option, treat as net earnings from self-employment from such trade or business an amount equal to 50 percent of such gross income. If the taxpayer so elects, the amount equal to 50 percent of such gross income shall be used in computing his self-employment income in lieu of his actual net earnings from such trade or business, if any.

(2) *Gross income in excess of $1,800.* If the gross income, computed as provided in paragraph (b) of this section, from such trade or business is more than $1,800, and the actual net earnings from self-employment from such trade or business are less than $900, the taxpayer may, at his option, treat $900 as net earnings from self-employment. If the taxpayer so elects, $900 shall be used in computing his self-employment income in lieu of his actual net earnings from such trade or business, if any. However, if the taxpayer's actual net earnings from such trade or business, as computed in accordance with §§ 1.1402(a)–1 through 1.1402(a)–3 are $900 or more, such actual net earnings shall be used in computing his self-employment income.

(b) *Computation of gross income.* For purposes of paragraph (a) of this section, gross income shall consist of the gross receipts from such trade or business reduced by the cost or other basis of property which was purchased and sold in carrying on such trade or business, adjusted (after such reduction) in accordance with the provisions of § 1.1402(a)–3, relating to income and deductions not included in computing net earnings from self-employment.

(c) *Two or more agricultural activities.* If an individual is engaged in more than one agricultural trade or business within the meaning of paragraph (a) of § 1.1402(a)–13 (for example, the business of ordinary farming and the business of cotton ginning), the gross income derived from each agricultural trade or business shall be aggregated for purposes of the optional method provided in paragraph (a) of this section for computing net earnings from self-employment.

(d) *Examples.* Application of the regulations prescribed in paragraphs (a) and (b) of this section may be illustrated by the following examples:

Example (1). F, a farmer, uses the cash receipts and disbursements method of accounting in making his income tax returns. F's books and records show that during the calendar year 1955 he received $1,200 from the sale of produce raised on the farm, $200 from the sale of livestock raised on the farm and not held for breeding or dairy purposes, and $600 from the sale of a tractor. The income from the sale of the tractor is of a type which is excluded from net earnings from self-employment by section 1402(a). F's actual net earnings from self-employment, computed in accordance with the provisions of §§ 1.1402(a)–1 through 1.1402(a)–3, are $450. F may report $450 as his net earnings from self-employment or he may elect to report $700 (one-half of $1,400).

Example (2). C, a cattleman, uses the cash receipts and disbursements method of accounting in making his income tax returns. C had actual net earnings from self-employment, computed in accordance with the provisions of §§ 1.1402(a)–1 through 1.1402(a)–3, of $725. His gross receipts were $1,000 from the sale of produce raised on the farm and $1,200 from the sale of feeder cattle, which C bought for $500. The income from the sale of the feeder cattle is of a type which is included in computing net earnings from self-employment. Therefore, C may report $725 as his net earnings from self-employment or he may elect to report $850, one-half of $1,700 ($2,200 minus $500).

Example (3). R, a rancher, has gross income of $3,000 from the operation of his ranch, computed as provided in paragraph (b) of this section. His actual net earnings from self-employment from farming activities are less than $900. R, nevertheless, may elect to report $900 as net earnings from self-employment from such trade or business. If R had actual net earnings from self-employment from his farming activities in the amount of $900 or more, he would be required to report such amount in computing his self-employment income.

(e) *Members of farm partnerships.* The optional method provided by paragraph (a) of this section for computing net earnings from self-employment is not available to a member of a partnership with respect to his distributive share of the income or loss from any trade or business carried on by any partnership of which he is a member.

§ 1.1402(a)–15 Options available to farmers in computing net earnings from self-employment for taxable years ending on or after December 31, 1956.

(a) *Computation of net earnings.* In the case of any trade or business which is carried on by an individual or by a partnership and in which, if such trade or business were carried on exclusively by employees, the major portion of the services would constitute agricultural labor as defined in section 3121(g) (see paragraph (a) of § 1.1402(a)–13), net earnings from self-employment may, for a taxable year ending on or after December 31, 1956, at the option of the taxpayer, be computed as follows:

(1) *In case of an individual*—(i) *Gross income of less than specified amount.* If the gross income, computed as provided in paragraph (b) of this section, from such trade or business is $2,400 or less ($1,800 or less for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966), the taxpayer may, at his option, treat as net earnings from self-employment from such trade or business an amount equal to 66⅔ percent of such gross income. If the taxpayer so elects, the amount equal to 66⅔ percent of such gross income shall be used in computing his self-employment income in lieu of his actual net earnings from such trade or business, if any.

(ii) *Gross income in excess of specified amount.* If the gross income, computed as provided in paragraph (b) of this section, from such trade or business is more than $2,400 ($1,800 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966), and the net earnings from self-employment from such trade or business (computed without regard to this section) are less than $1,600 ($1,200 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966), the taxpayer may, at his option, treat $1,600 ($1,200 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966) as net earnings from self-employment. If the taxpayer so elects, $1,600 ($1,200 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966) shall be used in computing his self-employment income in lieu of his actual net earnings from such trade or business, if any. However, if the taxpayer's actual net earnings from such trade or business, as computed in accordance with the applicable provisions of §§ 1.1402(a)–1 to 1.1402(a)–13, inclusive, are $1,600 or more ($1,200 or more for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966) such actual net earnings shall be used in computing his self-employment income.

(2) *In case of a member of a partnership*—(i) *Distributive share of gross income of less than specified amount.* If a taxpayer's distributive share of the gross income of a partnership (as such gross income is computed under the provisions of paragraph (b) of this section) derived from such trade or business (after such gross income has been reduced by the sum of all payments to which section 707(c) applies) is $2,400 or less ($1,800 or less for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966), the taxpayer may, at his option, treat as his distributive share of income described in section 702(a)(9) derived from such trade or business an amount equal to 66⅔ percent of his distributive share

of such gross income (after such gross income has been reduced by the sum of all payments to which section 707(c) applies). If the taxpayer so elects, the amount equal to 66⅔ percent of his distributive share of such gross income shall be used by him in the computation of his net earnings from self-employment in lieu of the actual amount of his distributive share of income described in section 702(a)(9) from such trade or business, if any.

(ii) *Distributive share of gross income in excess of specified amount.* If a taxpayer's distributive share of the gross income of the partnership (as such gross income is computed under the provisions of paragraph (b) of this section) derived from such trade or business (after such gross income has been reduced by the sum of all payments to which section 707(c) applies) is more than $2,400 ($1,800 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966) and the actual amount of his distributive share (whether or not distributed) of income described in section 702(a)(9) derived from such trade or business (computed without regard to this section) is less than $1,600 ($1,200 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966), the taxpayer may, at his option, treat $1,600 ($1,200 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966) as his distributive share of income described in section 702(a)(9) derived from such trade or business. If the taxpayer so elects, $1,600 ($1,200 for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966) shall be used by him in the computation of his net earnings from self-employment in lieu of the actual amount of his distributive share of income described in section 702(a)(9) from such trade or business, if any. However, if the actual amount of the taxpayer's distributive share of income described in section 702(a)(9) from such trade or business, as computed in accordance with the applicable provisions of §§ 1.1402(a)–1 to 1.1402(a)–13, inclusive, is $1,600 or more ($1,200 or more for a taxable year ending on or after December 31, 1956, and beginning before January 1, 1966), such actual amount of the taxpayer's distributive share shall be used in computing his net earnings from self-employment.

(iii) *Cross reference.* For a special rule in the case of certain deceased partners, see paragraph (c) of § 1.1402(f)–1.

(b) *Computation of gross income.* For purposes of this section gross income has the following meanings:

(1) In the case of any such trade or business in which the income is computed under a cash receipts and disbursements method, the gross receipts from such trade or business reduced by the cost or other basis of property which was purchased and sold in carrying on such trade or business (see paragraphs (a) and (c), other than paragraph (a)(5), of § 1.61–4), adjusted (after such reduction) in accordance with the applicable provisions of §§ 1.1402(a)–3 to 1.1402(a)–13, inclusive.

(2) In the case of any such trade or business in which the income is computed under an accrual method (see paragraphs (b) and (c), other than paragraph (b)(5), of § 1.61–4), the gross income from such trade or business, adjusted in accordance with the applicable provisions of §§ 1.1402(a)–3 to 1.1402(a)–13, inclusive.

(c) *Two or more agricultural activities.* If an individual (including a member of a partnership) derives gross income (as defined in paragraph (b) of this section) from more than one agricultural trade or business, such gross income (including his distributive share of the gross income of any partnership derived from any such trade or business) shall be deemed to have been derived from one trade or business. Thus, such an individual shall aggregate his gross income derived from each agricultural trade or business carried on by him (which includes, under paragraph (b) of § 1.1402(a)–1, any guaranteed payment, within the meaning of section 707(c), received by him from a farm partnership of which he is a member) and his distributive share of partnership gross income (after such gross income has been reduced by any guaranteed payment within the meaning of section 707(c)) derived from each farm partnership of which he is a member. Such gross income is the amount to be considered for purposes of the optional method provided in this section for computing net earnings from self-employment. If the aggregate gross income of an individual includes income derived from an agricultural trade or business carried on by him and a distributive share of partnership income derived from an agricultural trade or business carried on by a partnership of which he is a member, such aggregate gross income shall be treated as income derived from a single trade or business carried on by him, and such individual shall apply the optional method applicable to individuals set forth in paragraph (a)(1) of this section for purposes of computing his net earnings from self-employment.

(d) *Examples.* The application of this section may be illustrated by the following examples:

Example (1). F is engaged in the business of farming and computes his income under the cash receipts and disbursements method. He files his income tax returns on the basis of the calendar year. During the year 1966, F's gross income from the business of farming (computed in accordance with paragraph (b)(1) of this section) is $2,325. His actual net earnings from self-employment derived from such business are $1,250. As his net earnings from self-employment, F may report $1,250 or, by the optional computation method, he may report $1,550 (66⅔ percent of $2,325).

Example (2). G is engaged in the business of farming and computes his income under the accrual method. His income tax returns are filed on the calendar year basis. For the year 1966, G's gross income from the operation of his farm (computed in accordance with paragraph (b)(2) of this section) is $2,800. He has actual net earnings from self-employment derived from such farm in the amount of $1,250. As his net earnings from self-employment derived from his farm, G may report his actual net earnings of $1,250, or by the optional method he may report $1,600. If G's actual net earnings from self-employment from his farming activities for 1966 were in an amount of $1,600 or more, he would be required to report such amount in computing his self-employment income.

Example (3). M, who files his income tax returns on a calendar year basis, is one of the three partners of the XYZ Company, a partnership, engaged in the business of farming. The taxable year of the partnership is the calendar year, and its income is computed under the cash receipts and disbursements method. For M's services in connection with the planting, cultivating, and harvesting of the crops during the year 1966 the partnership agrees to pay him $500, the full amount of which is determined without regard to the income of the partnership and constitutes a guaranteed payment within the meaning of section 707(c). This guaranteed payment to M is the only such payment made during such year. The gross income derived from the business for the year 1966 computed in accordance with paragraph (b)(1) of this section and after being reduced by the guaranteed payment of $500 made to M, is $3,000. One-third of the $3,000 ($1,000), is M's distributive share of such gross income. Under paragraph (c) of this section, the guaranteed payment ($500) received by M and his distributive share of the partnership gross income ($1,000) are deemed to have been derived from one trade or business, and such amounts must be aggregated for purposes of the optional method of computing net earnings from self-employment. Since M's combined gross income from his two agricultural businesses ($1,000 and $500) is not more than $2,400 and since such income is deemed to be derived from one trade or business, M's net earnings from self-employment derived from such farming business may, at his option, be deemed to be $1,000 (66⅔ percent of $1,500).

Example (4). A is one of the two partners of the AB partnership which is engaged in the business of farming. The taxable year of the partnership is the calendar year and its income is computed under the accrual method. A files his income tax returns on the calendar year basis. The partnership agreement provides for an equal sharing in the profits and losses of the partnership by the two partners. A is an experienced farmer and for his services as manager of the partnership's farm activities during the year 1966 he receives $6,000 which amount constitutes a guaranteed payment within the meaning of section 707(c). The gross income of the partnership derived from such business for the year 1966, computed in accordance with paragraph (b)(2) of this section and after being reduced by the guaranteed payment made to A, is $9,600. A's distributive share of such gross income is $4,800 and his distributive share of income described in section 702(a)(9) derived from the partnership's business is $1,900. Under paragraph (c) of this section, the guaranteed payment received by A and his distributive share of the partnership gross income are deemed to have been derived from one trade or business, and such amounts must be aggregated for purposes of the optional method of computing his net earnings from self-employment. Since the aggregate of A's guaranteed payment ($6,000) and his distributive share of partnership gross income ($4,800) is more than $2,400 and since the aggregate of A's guaranteed payment ($6,000) and his distributive share ($1,900) of partnership income described in section 702(a)(9) is not less than $1,600, the optional method of computing net earnings from self-employment is not available to A.

Example (5). F is a member of the EFG partnership which is engaged in the business of farming. F files his income tax returns on the calendar year basis. The taxable year of the partnership is the calendar year, and its income is computed under a cash receipts and disbursements method. Under the partnership agreement the partners are to share equally the profits or losses of the business. The gross income derived from the partnership business for the year 1966, computed in accordance with paragraph (b)(1) of this section is $7,500. F's share of such gross income is $2,500. Due to drought and an epidemic among the livestock, the partnership sustains a net loss of $7,800 for the year 1966 of which loss F's share is $2,600. Since F's distributive share of gross income derived from such business is in excess of $2,400 and since F does not receive income described in section 702(a)(9) of $1,600 or more from such business, he may, at his option, be deemed to have received $1,600 as his distributive share of income described in section 702(a)(9) from such business.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6993, 34 FR 828, Jan. 18, 1969]

§ 1.1402(a)–16 Exercise of option.

A taxpayer shall, for each taxable year with respect to which he is eligible to use the optional method described in § 1.1402(a)–14 or § 1.1402(a)–15, make a determination as to whether his net earnings from self-employment are to be computed in accordance with such method. If the taxpayer elects the optional method for a taxable year, he shall signify such election by computing net earnings from self-employment under the optional method as set forth in Schedule F (Form 1040) of the income tax return filed by the taxpayer for such taxable year. If the optional method is not elected at the time of the filing of the return for a taxable year with respect to which the taxpayer is eligible to elect such optional method, such method may be elected on an amended return (or on such other form as may be prescribed for such use) filed within the period prescribed by section 6501 and the regulations thereunder for the assessment of the tax for such taxable year. If the optional method is elected on a return for a taxable year, the taxpayer may revoke such election by filing an amended return (or such other form as may be prescribed for such use) for the taxable year within the period prescribed by section 6501 and the regulations thereunder for the assessment of the tax for such taxable year. If the taxpayer is deceased or unable to make an election, the person designated in section 6012(b) and the regulations thereunder may, within the period prescribed in this section elect the optional method for any taxable year with respect to which the taxpayer is eligible to use the optional method and revoke an election previously made by or for the taxpayer.

§ 1.1402(a)–17 Retirement payments to retired partners.

(a) *In general.* There shall be excluded, in computing net earnings from self-employment for taxable years ending on or after December 31, 1967, certain payments made on a periodic basis by a partnership, pursuant to a written plan of the partnership, to a retired partner on account of his retirement. The exclusion applies only if the payments are made pursuant to a plan which meets the requirements prescribed in paragraph (b) of this section, and, in addition, the conditions set forth in paragraph (c) of this section are met.

(b) *Retirement plan of partnership.* (1) To meet the requirements of section 1402(a)(10), the written plan of the partnership must set forth the terms and conditions of the program or system established by the partnership for the purpose of making payments to retired partners on account of their retirement. To qualify as payments on account of retirement, the payments must constitute bona fide retirement income. Thus, payments of benefits not customarily included in a pension or retirement plan such as layoff benefits are not payments on account of retirement. Eligibility for retirement generally is established on the basis of age, physical condition, or a combination of age or physical condition and years of service. Generally, retirement benefits are measured by, and based on, such factors as years of service and compensation received. In determining whether the plan of the partnership provides for payments on account of retirement, factors, formulas, etc., reflected in public, and in broad based private, pension or retirement plans in prescribing eligibility requirements and in computing benefits may be taken into account.

(2) The plan of the partnership must provide for payments on account of retirement:

(i) To partners generally or to a class or classes of partners,

(ii) On a periodic basis, and

(iii) Which continue at least until the partner's death.

For purposes of subdivision (i) of this subparagraph, a class of partners may, in an appropriate case, contain only one member. Payments are made on a periodic basis if made at regularly recurring intervals (usually monthly) not exceeding one year.

(c) *Conditions relating to exclusion*—(1) *In general.* A payment made pursuant to a written plan of a partnership which meets the requirements of paragraph (b) of this section shall be excluded, in computing net earnings from self-employment, only if:

(i) The retired partner to whom the payment is made rendered no service with respect to any trade or business carried on by the partnership (or its successors) during the taxable year of the partnership (or its successors), which ends within or with the taxable year of the retired partner and in which the payment was received by him;

(ii) No obligation (whether certain in amount or contingent on a subsequent event) exists (as of the close of the partnership's taxable year referred to in subdivision (i) of this subparagraph) from the other partners to the retired partner except with respect to retirement payments under the plan or rights such as benefits payable on account of sickness, accident, hospitalization, medical expenses, or death; and

(iii) The retired partner's share (if any) of the capital of the partnership has been paid to him in full before the close of the partnership's taxable year referred to in subdivision (i) of this subparagraph.

By application of the conditions set forth in this subparagraph, either all payments on account of retirement received by a retired partner during the taxable year of the partnership ending within or with his taxable year are excluded or none of the payments are excluded. Subdivision (ii) of this subparagraph has application only to obligations from other partners in their capacity as partners as distinguished from an obligation which arose and exists from a transaction unrelated to the partnership or to a trade or business carried on by the partnership. The effect of the conditions set forth in subdivisions (ii) and (iii) of this subparagraph is that the exclusion may apply with respect to payments received by a retired partner during the taxable year of the partnership ending within or with his taxable year only if at the close of the partnership's taxable year the retired partner had no financial interest in the partnership except for the right to retirement payments.

(2) *Examples.* The application of subparagraph (1) of this paragraph may be illustrated by the following examples. Each example assumes that the partnership plan pursuant to which the payments are made meets the requirements of paragraph (b) of this section.

Example (1). A, who files his income tax returns on a calendar year basis, is a partner in the ABC partnership. The taxable year of the partnership is the period July 1 to June 30, inclusive. A retired from the partnership on January 1, 1973, and receives monthly payments on account of his retirement. As of June 30, 1973, no obligation existed from the other partners to A (except with respect to retirement payments under the plan) and A's share of the capital of the partnership had been paid to him in full. The monthly retirement payments received by A from the partnership in his taxable year ending on December 31, 1973, are not excluded from net earnings from self-employment since A rendered service to the partnership during a portion of the partnership's taxable year (July 1, 1972, through June 30, 1973) which ends within A's taxable year ending on December 31, 1973.

Example (2). D, a partner in the DEF partnership, retired from the partnership as of the close of December 31, 1972. The taxable year of both D and the partnership is the calendar year. During the partnership's taxable year ending December 31, 1973, D rendered no service with respect to any trade or business carried on by the partnership. On or before December 31, 1973, all obligations (other than with respect to retirement payments under the plan) from the other partners to D have been liquidated, and D's share of the capital of the partnership has been paid to him. Retirement payments received by D pursuant to the partnership's plan in his taxable year ending December 31, 1973, are excluded in determining his net earnings from self-employment (if any) for that taxable year.

Example (3). Assume the same facts as in example (2) except that as of the close of December 31, 1973, D has a right to a fixed percentage of any amounts collected by the partnership after that date which are attributable to services rendered by him prior to his retirement for clients of the partnership. The monthly payments received by D in his taxable year ending December 31, 1973, are not excluded from net earnings from self-employment since as of the close of the partnership's taxable year which ends with D's taxable year, an obligation (other than an obligation with respect to retirement payments) exists from the other partners to D.

[T.D. 7333, 39 FR 44446, Dec. 24, 1974]

§ 1.1402(b)–1 Self-employment income.

(a) *In general.* Except for the exclusions in paragraphs (b) and (c) of this section and the exception in paragraph (d) of this section, the term ''self-employment income'' means the net earnings from self-employment derived by an individual during a taxable year.

(b) *Maximum self-employment income*—(1) *General rule.* Subject to the special rules described in subparagraph (2) of this paragraph, the maximum self-employment income of an individual for a taxable year (whether a period of 12 months or less) is:

(i) For any taxable year beginning in a calendar year after 1974, an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for such calendar year; and

(ii) For any taxable year:

Ending before 1955	$3,600
Ending after 1954 and before 1959	4,200
Ending after 1958 and before 1966	4,800
Ending after 1965 and before 1968	6,600
Ending after 1967 and beginning before 1972	7,800
Beginning after 1971 and before 1973	9,000
Beginning after 1972 and before 1974	10,800
Beginning after 1973 and before 1975	13,200

(2) *Special rules.* (i) If an individual is paid wages as defined in subparagraph (3) of this paragraph in a taxable year, the maximum self-employment income for such taxable year is computed as provided in subdivision (ii) or (iii) of this subparagraph.

(ii) If an individual is paid wages as defined in subparagraph (3) (i) or (ii) of this paragraph in a taxable year, the maximum self-employment income of such individual for such taxable year is the excess of the amounts indicated in subparagraph (1) of this paragraph over the amount of the wages, as defined in subparagraph (3) (i) and (ii) of this paragraph, paid to him during the taxable year. For example, if for his taxable year beginning in 1974, an individual has $15,000 of net earnings from self-employment and during such taxable year is paid $1,000 of wages as defined in section 3121(a) (see subparagraph (3)(i) of this paragraph), he has $12,200 ($13,200 −$1,000) of self-employment income for the taxable year.

(iii) For taxable years ending on or after December 31, 1968, wages, as defined in subparagraph (3)(iii) of this paragraph, are taken into account in determining the maximum self-employment income of an individual for purposes of the tax imposed under section 1401(b) (hospital insurance), but not for purposes of the tax imposed under section 1401(a) (old-age survivors, and disability insurance). If an individual is paid wages as defined in subparagraph (3)(iii) of this paragraph in a taxable year, his maximum self-employment income for such taxable year for purposes of the tax imposed under section 1401(a) is computed under subparagraph (1) of this paragraph or subdivision (ii) of this subparagraph (whichever is applicable), and his maximum self-employment income for such taxable year for purposes of the tax imposed under section 1401(b) is the excess of his section 1401(a) maximum self-employment income over the amount of wages, as defined in subparagraph (3)(iii) of this paragraph, paid to him during the taxable year. For purposes of this subdivision, wages as defined in subparagraph (3)(iii) of this paragraph are deemed paid to an individual in the period with respect to which the payment is made, that is, the period in which the compensation was earned or deemed earned within the meaning of section 3231(e). For an explanation of the term ''compensation'' and for provisions relating to when compensation is earned, see the regulations under section 3231(e) in part 31 of this chapter (Employment Tax Regulations). The application of the rules set forth in this subdivision may be illustrated by the following example:

Example. M, a calendar-year taxpayer, has $15,000 of net earnings from self-employment for 1974 and during the taxable year is paid $1,000 of wages as defined in section 3121(a) (see subparagraph (3)(i) of this paragraph) and $1,600 of compensation subject to tax under section 3201 (see subparagraph (3)(iii) of this paragraph). Of the $1,600 of taxable compensation, $1,200 represents compensation for services rendered in 1974 and the balance ($400) represents compensation which pursuant to the provisions of section 3231(e) is earned or deemed earned in 1973. M's maximum self-employment income for 1974 for purposes of the tax imposed under section 1401(a), computed as provided in subdivision (ii) of this subparagraph, is $12,200 ($13,200−$1,000), and for purposes of the tax imposed under section 1401(b) is $11,000 ($12,200−$1,200). However, M may recompute his maximum self-employment income for 1973 for purposes of the tax imposed under section 1401(b) by taking into account the $400 of compensation which is deemed paid in 1973.

(3) *Meaning of term ''wages''.* For the purpose of the computation described in subparagraph (2) of this paragraph, the term ''wages'' includes:

(i) Wages as defined in section 3121(a);

(ii) Such remuneration paid to an employee for services covered by:

(a) An agreement entered into pursuant to section 218 of the Social Security Act (42 U.S.C. 418), which section provides for extension of the Federal old-age, survivors and disability insurance system to State and local government employees under voluntary agreements between the States and the Secretary of Health, Education, and Welfare (Federal Security Administrator before April 11, 1953), or

(b) An agreement entered into pursuant to the provisions of section 3121(1), relating to coverage of citizens of the United States who are employees of foreign subsidiaries of domestic corporations,

as would be wages under section 3121(a) if such services constituted employment under section 3121(b). For an explanation of the term ''wages'', see the regulations under section 3121(a) in part 31 of this chapter (Employment Tax Regulations); and

(iii) Compensation, as defined in section 3231(e), which is subject to the employee tax imposed by section 3201 or the employee representative tax imposed by section 3211.

(c) *Minimum net earnings from self-employment.* Self-employment income does not include the net earnings from self-employment of an individual when the amount of such earnings for the taxable year is less than $400. Thus, an individual having only $300 of net earnings from self-employment for the taxable year would not have any self-employment income. However, an individual having net earnings from self-employment of $400 or more for the taxable year may, by application of paragraph (b)(2) of this section, have less than $400 of self-employment income for purposes of the tax imposed under section 1401(a) and the tax imposed under section 1401(b) or may have self-employment income of $400 or more for purposes of the tax imposed under section 1401(a) and of less than $400 for purposes of the tax imposed under section 1401(b). This could occur in a case in which the amount of the individual's net earnings from self-employment is $400 or more for a taxable year and the amount of such net earnings from self-employment plus the amount of wages, as defined in paragraph (b)(3) of this section, paid to him during the taxable year exceed the maximum self-employment income, as set forth in paragraph (b)(1) of this section, for the taxable year. However, the result occurs only if such maximum self-employment income exceeds the amount of such wages. The application of this paragraph may be illustrated by the following example:

Example. For 1974 M, a calendar-year taxpayer, has net earnings from self-employment of $2,000 and wages (as defined in paragraph (b)(3) (i) and (ii) of this section) of $12,500. Since M's net earnings from self-employment plus his wages exceed the maximum self-employment income for 1974 ($13,200), his self-employment income for 1974 is $700 ($13,200−$12,500). If M also had wages, as defined in paragraph (b)(3)(iii) of this section, of $200, his self-employment income would be $700 for purposes of the tax imposed under section 1401(a) and $500 ($13,200−$12,700 ($12,500+$200)) for purposes of the tax imposed under section 1401(b).

For provisions relating to when wages as defined in paragraph (b)(3)(iii) of this section are treated as paid, see paragraph (b)(2)(iii) of this section.

(d) *Nonresident aliens.* A nonresident alien individual never has self-employment income. While a nonresident alien individual who derives income from a trade or business carried on within the United States, Puerto Rico, the Virgin Islands, Guam, or American Samoa (whether by agents or employees, or by a partnership of which he is a member) may be subject to the applicable income tax provisions on such income, such nonresident alien individual will not be subject to the tax on self-employment income, since any net earnings which he may have from self-employment do not constitute self-employment income. For the purpose of the tax on self-employment income, an individual who is not a citizen of the United States but who is a resident of the Commonwealth of Puerto Rico, the Virgin Islands, or, for taxable years beginning after 1960, of Guam or American Samoa is not considered to be a nonresident alien individual.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 7333, 39 FR 44447, Dec. 24, 1974]

§ 1.1402(c)–1 Trade or business.

In order for an individual to have net earnings from self-employment, he must carry on a trade or business, either as an individual or as a member of a partnership. Except for the exclusions discussed in §§ 1.1402(c)–2 to 1.1402(c)–7, inclusive, the term ''trade or business'', for the purpose of the tax on self-employment income, shall have the same meaning as when used in section 162. An individual engaged in one of the excluded activities specified in such sections of the regulations may also be engaged in carrying on activities which constitute a trade or business for purposes of the tax on self-employment income. Whether or not he is also engaged in carrying on a trade or business will be dependent upon all of the facts and circumstances in the particular case. An individual who is a crew leader, as defined in section 3121(o) (see such section and the regulations thereunder in part 31 of this chapter (Employment Tax Regulations)), is considered to be engaged in carrying on a trade or business with respect to services performed by him after 1956 in furnishing individuals to perform agricultural labor for another person or services performed by him after 1956 as a member of the crew.

[T.D. 6978, 33 FR 15937, Oct. 30, 1968]

§ 1.1402(c)–2 Public office.

(a) *In general*—(1) *General rule.* Except as otherwise provided in subparagraph (2) of this paragraph, the performance of the functions of a public office does not constitute a trade or business.

(2) *Fee basis public officials*—(i) *In general.* If an individual receives fees after 1967 for the performance of the functions of a public office of a State or a political subdivision thereof for which he is compensated solely on a fee basis, and if the service performed in such office is eligible for (but is not made the subject of) an agreement between the State and the Secretary of Health, Education, and Welfare pursuant to section 218 of the Social Security Act to extend social security coverage thereto, the service for which such fees are received constitutes a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1. If an individual performs service for a State or a political subdivision thereof in any period in more than one position, each position is treated separately for purposes of the preceding sentence. See also paragraph (f) of § 1.1402(c)–3 relating to the performance of service by an individual as an employee of a State or a political subdivision thereof in a position compensated solely on a fee basis.

(ii) *Election with respect to fees received in 1968.* (A) Any individual who in 1968 receives fees for service performed by him with respect to the functions of a public office of a State or a political subdivision thereof in any period in which the functions are performed in a position compensated solely on a fee basis may elect, if the performance of the service for which such fees are received constitutes a trade or business pursuant to the provisions of subdivision (i) of this subparagraph, to have such performance of service treated as excluded from the term ''trade or business'' for the purpose of the tax on self-employment income, pursuant to the provisions of section 122(c)(2) of the Social Security Amendments of 1967 (as quoted in § 1.1402(c)). Such election shall not be limited to service to which the fees received in 1968 are attributable but must also be applicable to service (if any) in subsequent years which, except for the election, would constitute a trade or business pursuant to the provisions of subdivision (i) of this subparagraph. An election made pursuant to the provisions of this subparagraph is irrevocable.

(B) The election referred to in subdivision (ii)(A) of this subparagraph shall be made by filing a certificate of election of exemption (Form 4415) on or before the due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for the taxable year of the individual making the election which begins in 1968. The certificate of election of exemption shall be filed with an internal revenue office in accordance with the instructions on the certificate.

(b) *Meaning of public office.* The term ‘‘public office’’ includes any elective or appointive office of the United States or any possession thereof, of the District of Columbia, of a State or its political subdivisions, or a wholly-owned instrumentality of any one or more of the foregoing. For example, the President, the Vice President, a governor, a mayor, the Secretary of State, a member of Congress, a State representative, a county commissioner, a judge, a justice of the peace, a county or city attorney, a marshal, a sheriff, a constable, a registrar of deeds, or a notary public performs the functions of a public office. (However, the service of a notary public could not be made the subject of a section 218 agreement under the Social Security Act because notaries are not ‘‘employees’’ within the meaning of that section. Accordingly, such service does not constitute a trade or business.)

[T.D. 7333, 39 FR 44448, Dec. 24, 1974, as amended by T.D. 7372, 40 FR 30945, July 24, 1975]

§1.1402(c)–3 Employees.

(a) *General rule.* Generally, the performance of service by an individual as an employee, as defined in the Federal Insurance Contributions Act (Chapter 21 of the Internal Revenue Code) does not constitute a trade or business within the meaning of section 1402(c) and §1.1402(c)–1. However, in six cases set forth in paragraphs (b) to (g), inclusive, of this section, the performance of service by an individual is considered to constitute a trade or business within the meaning of section 1402(c) and §1.1402(c)–1. (As to when an individual is an employee, see section 3121 (d) and (o) and section 3506 and the regulations under those sections in part 31 of this chapter (Employment Tax Regulations).)

(b) *Newspaper vendors.* Service performed by an individual who has attained the age of 18 constitutes a trade or business for purposes of the tax on self-employment income within the meaning of section 1402(c) and §1.1402(c)–1 if performed in, and at the time of, the sale of newspapers or magazines to ultimate consumers, under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price, his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back.

(c) *Sharecroppers.* Service performed by an individual under an arrangement with the owner or tenant of land pursuant to which:

(1) Such individual undertakes to produce agricultural or horticultural commodities (including livestock, bees, poultry, and fur-bearing animals and wildlife) on such land,

(2) The agricultural or horticultural commodities produced by such individual, or the proceeds therefrom, are to be divided between such individual and such owner or tenant, and

(3) The amount of such individual’s share depends on the amount of the agricultural or horticultural commodities produced, constitutes a trade or business within the meaning of section 1402(c) and §1.1402(c)–1.

(d) *Employees of foreign government, instrumentality wholly owned by foreign government, or international organization.* Service performed in the United States, as defined in section 3121(e)(2) (see such section and the regulations thereunder in part 31 of this chapter

(Employment Tax Regulations)), by an individual who is a citizen of the United States constitutes a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1 if such service is excepted from employment, for purposes of the Federal Insurance Contributions Act (chapter 21 of the Code), by:

(1) Section 3121(b)(11), relating to service in the employ of a foreign government (for regulations under section 3121(b)(11), see § 31.3121(b)(11)–1 of this chapter);

(2) Section 3121(b)(12), relating to service in the employ of an instrumentality wholly owned by a foreign government (for regulations under section 3121(b)(12), see § 31.3121(b)(12)–1 of this chapter); or

(3) Section 3121(b)(15), relating to service in the employ of an international organization (for regulations under section 3121(b)(15), see § 31.3121(b)(15)–1 of this chapter).

This paragraph is applicable to service performed in any taxable year ending on or after December 31, 1960, except that it does not apply to service performed before 1961 in Guam or American Samoa.

(e) *Ministers and members of religious orders*—(1) *Taxable years ending before 1968.* Service described in section 1402(c)(4) performed by an individual during taxable years ending before 1968 for which a certificate filed pursuant to section 1402(e) is in effect constitutes a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1. See also § 1.1402(c)–5.

(2) *Taxable years ending after 1967.* Service described in section 1402(c)(4) performed by an individual during taxable years ending after 1967 constitutes a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1 unless an exemption under section 1402(e) (see §§ 1.1402(e)–1A through 1.1402(e)–4A) is effective with respect to such individual for the taxable year during which the service is performed. See also § 1.1402(c)–5.

(f) *State and local government employees compensated on fee basis*—(1) *In general.* (i) Section 1402(c)(2)(E) and this paragraph are applicable only with respect to fees received by an individual after 1967 for service performed by him as an employee of a State or a political subdivision thereof in a position compensated solely on a fee basis. If an individual performs service for a State or a political subdivision thereof in more than one position, each position is treated separately for purposes of determining whether the service performed in such position is performed by an employee and whether compensation for service performed in the position is solely on a fee basis.

(ii) If an individual receives fees after 1967 for service performed by him as an employee of a State or a political subdivision thereof in a position compensated solely on a fee basis, the service for which such fees are received constitutes a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1 except that if service performed in such position is covered under an agreement entered into by the State and the Secretary of Health, Education, and Welfare pursuant to section 218 of the Social Security Act at the time a fee is received, the service to which such fee relates does not constitute a trade or business. See also paragraph (a) of § 1.1402(c)–2, relating, in part, to the performance of the functions of a public office of a State or a political subdivision thereof by an individual.

(2) *Election with respect to fees received in 1968.* (i) Any individual who in 1968 receives fees for service as an employee of a State or a political subdivision thereof in a position compensated solely on a fee basis may elect, if the performance of the service for which such fees are received constitutes a trade or business pursuant to the provisions of subparagraph (1) of this paragraph, to have such performance of service treated as excluded from the term ‘‘trade or business’’ for the purpose of the tax on self-employment income, pursuant to the provisions of section 122(c)(2) of the Social Security Amendments of 1967 (as quoted in § 1.1402(c)). Such election shall not be limited to service to which the fees received in 1968 are attributable but must also be applicable to service (if any) in subsequent years which, except for the election, would constitute a trade or business pursuant to the provisions of subparagraph (1) of

this paragraph. An election made pursuant to the provisions of this subparagraph is irrevocable.

(ii) The election referred to in subdivision (i) of this subparagraph shall be made by filing a certificate of election of exemption (Form 4415) on or before the due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for the taxable year of the individual making the election which begins in 1968. The certificate of election of exemption shall be filed with an internal revenue office in accordance with the instructions on the certificate.

(g) *Individuals engaged in fishing.* For taxable years ending after December 31, 1954, service performed by an individual on a boat engaged in catching fish or other forms of aquatic animal life (hereinafter ''fish'') constitutes a trade or business within the meaning of section 1402(c) and §1.1402(c)–1 if the service is excepted from the definition of employment by section 3121(b)(20) and §31.3121(b)(20)–1(a). However, the preceding sentence does not apply to services performed after December 31, 1954, and before October 4, 1976, on a boat engaged in catching fish if the owner or operator of the boat treated the individual as an employee in the manner described in §31.3121(b)(20)–1(b).

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6978, 33 FR 15937, Oct. 30, 1968; T.D. 7333, 39 FR 44448, Dec. 24, 1974; T.D. 7691, 45 FR 24129, Apr. 9, 1980; T.D. 7716, 45 FR 57123, Aug. 27, 1980]

§1.1402(c)–4 Individuals under Railroad Retirement System.

The performance of service by an individual as an employee or employee representative as defined in section 3231(b) and (c), respectively (see §§31.3231(b)–1 and 31.3231(c)–1 of Part 31 of this chapter (Employment Tax Regulations)), that is, an individual covered under the railroad retirement system, does not constitute a trade or business.

§1.1402(c)–5 Ministers and members of religious orders.

(a) *In general*—(1) *Taxable years ending before 1968.* For taxable years ending before 1955, a duly ordained, commissioned, or licensed minister of a church or a member of a religious order is not engaged in carrying on a trade or business with respect to service performed by him in the exercise of his ministry or in the exercise of duties required by such order. However, for taxable years ending after 1954 and before 1968, any individual who is a duly ordained, commissioned, or licensed minister of a church or a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) may elect, as provided in §1.1402(e)(1)–1, to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to service performed by him in his capacity as such a minister or member. If such a minister or a member of a religious order makes an election pursuant to §1.1402(e)(1)–1 he is, with respect to service performed by him in such capacity, engaged in carrying on a trade or business for each taxable year to which the election is effective. An election by a minister or member of a religious order has no application to service performed by such minister or member which is not in the exercise of his ministry or in the exercise of duties required by such order.

(2) *Taxable years ending after 1967.* For any taxable year ending after 1967, a duly ordained, commissioned, or licensed minister of a church or a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) is engaged in carrying on a trade or business with respect to service performed by him in the exercise of his ministry or in the exercise of duties required by such order unless an exemption under section 1402(e) (see §§1.1402(e)–1A through 1.1402(e)–4A) is effective with respect to such individual for the taxable year during which the service is performed. An exemption which is effective with respect to a minister or a member of a religious order has no application to service performed by such minister or member which is not in the exercise of his ministry or in the exercise of duties required by such order.

(b) *Service by a minister in the exercise of his ministry.* (1)(i) A certificate of election filed by a duly ordained, commissioned, or licensed minister of a church under the provisions of § 1.1402(e)(1)–1 has application only to service performed by him in the exercise of his ministry.

(ii) An exemption under section 1402(e) (see §§ 1.1402(e)–1A through 1.1402(e)–4A) which is effective with respect to a duly ordained, commissioned, or licensed minister of a church has application only to service performed by him in the exercise of his ministry.

(2) Except as provided in paragraph (c)(3) of this section, service performed by a minister in the exercise of his ministry includes the ministration of sacerdotal functions and the conduct of religious worship, and the control, conduct, and maintenance of religious organizations (including the religious boards, societies, and other integral agencies of such organizations), under the authority of a religious body constituting a church or church denomination. The following rules are applicable in determining whether services performed by a minister are performed in the exercise of his ministry:

(i) Whether service performed by a minister constitutes the conduct of religious worship or the ministration of sacerdotal functions depends on the tenets and practices of the particular religious body constituting his church or church denomination.

(ii) Service performed by a minister in the control, conduct, and maintenance of a religious organization relates to directing, managing, or promoting the activities of such organization. Any religious organization is deemed to be under the authority of a religious body constituting a church or church denomination if it is organized and dedicated to carrying out the tenets and principles of a faith in accordance with either the requirements or sanctions governing the creation of institutions of the faith. The term ‘‘religious organization’’ has the same meaning and application as is given to the term for income tax purposes.

(iii) If a minister is performing service in the conduct of religious worship or the ministration of sacerdotal functions, such service is in the exercise of his ministry whether or not it is performed for a religious organization. The application of this rule may be illustrated by the following example:

Example. M, a duly ordained minister, is engaged to perform service as chaplain at N University. M devotes his entire time to performing his duties as chaplain which include the conduct of religious worship, offering spiritual counsel to the university students, and teaching a class in religion. M is performing service in the exercise of his ministry.

(iv) If a minister is performing service for an organization which is operated as an integral agency of a religious organization under the authority of a religious body constituting a church or church denomination, all service performed by the minister in the conduct of religious worship, in the ministration of sacerdotal functions, or in the control, conduct, and maintenance of such organization (see subparagraph (2)(ii) of this paragraph) is in the exercise of his ministry. The application of this rule may be illustrated by the following example:

Example. M, a duly ordained minister, is engaged by the N Religious Board to serve as director of one of its departments. He performs no other service. The N Religious Board is an integral agency of O, a religious organization operating under the authority of a religious body constituting a church denomination. M is performing service in the exercise of his ministry.

(v) If a minister, pursuant to an assignment or designation by a religious body constituting his church, performs service for an organization which is neither a religious organization nor operated as an integral agency of a religious organization, all service performed by him, even though such service may not involve the conduct of religious worship or the ministration of sacerdotal functions, is in the exercise of his ministry. The application of this rule may be illustrated by the following example:

Example. M, a duly ordained minister, is assigned by X, the religious body constituting his church, to perform advisory service to Y Company in connection with the publication of a book dealing with the history of M's church denomination. Y is neither a religious organization nor operated as an integral agency of a religious organization. M performs no other service for X or Y. M is performing service in the exercise of his ministry.

(c) *Service by a minister not in the exercise of his ministry.* (1)(i) A certificate filed by a duly ordained, commissioned, or licensed minister of a church under the provisions of §1.1402(e)(1)–1 has no application to service performed by him which is not in the exercise of his ministry.

(ii) An exemption under section 1402(e) (see §§1.1402(e)–1A through 1.1402(e)–4A) which is effective with respect to a duly ordained, commissioned, or licensed minister of a church has no application to service performed by him which is not in the exercise of his ministry.

(2) If a minister is performing service for an organization which is neither a religious organization nor operated as an integral agency of a religious organization and the service is not performed pursuant to an assignment or designation by his ecclesiastical superiors, then only the service performed by him in the conduct of religious worship or the ministration of sacerdotal functions is in the exercise of his ministry. See, however, subparagraph (3) of this paragraph. The application of the rule in this subparagraph may be illustrated by the following example:

Example. M, a duly ordained minister, is engaged by N University to teach history and mathematics. He performs no other service for N although from time to time he performs marriages and conducts funerals for relatives and friends. N University is neither a religious organization nor operated as an integral agency of a religious organization. M is not performing the service for N pursuant to an assignment or designation by his ecclesiastical superiors. The service performed by M for N University is not in the exercise of his ministry. However, service performed by M in performing marriages and conducting funerals is in the exercise of his ministry.

(3) Service performed by a duly ordained, commissioned, or licensed minister of a church as an employee of the United States, or a State, Territory, or possession of the United States, or the District of Columbia, or a foreign government, or a political subdivision of any of the foregoing, is not considered to be in the exercise of his ministry for purposes of the tax on self-employment income, even though such service may involve the ministration of sacerdotal functions or the conduct of religious worship. Thus, for example, service performed by an individual as a chaplain in the Armed Forces of the United States is considered to be performed by a commissioned officer in his capacity as such, and not by a minister in the exercise of his ministry. Similarly, service performed by an employee of a State as a chaplain in a State prison is considered to be performed by a civil servant of the State and not by a minister in the exercise of his ministry.

(d) *Service in the exercise of duties required by a religious order*—(1) *Certificate of election.* A certificate of election filed by a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) under the provisions of §1.1402(e)(1)–1 has application to all duties required of him by such order.

(2) *Exemption.* An exemption under section 1402(e) (see §§1.1402(e)–1A through 1.1402(e)–4A) which is effective with respect to a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) has application only to the duties required of him by such order.

(3) *Service.* For purposes of subparagraphs (1) and (2) of this paragraph, the nature or extent of the duties required of the member by the order is immaterial so long as it is a service which he is directed or required to perform by his ecclesiastical superiors.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6978, 33 FR 15937, Oct. 30, 1968]

§1.1402(c)–6 Members of certain professions.

(a) *Periods of exclusion*—(1) *Taxable years ending before 1955.* For taxable years ending before 1955, an individual is not engaged in carrying on a trade or business with respect to the performance of service in the exercise of his profession as a physician, lawyer, dentist, osteopath, veterinarian, chiropractor, naturopath, optometrist, Christian Science practitioner, architect, certified public accountant, accountant registered or licensed as an accountant under State or municipal law, full-time practicing public accountant, funeral director, or professional engineer.

(2) *Taxable years ending in 1955.* Except as provided in paragraph (b) of this section, for a taxable year ending in 1955 an individual is not engaged in carrying on a trade or business with respect to the performance of service in the exercise of his profession as a physician, lawyer, dentist, osteopath, veterinarian, chiropractor, naturopath, optometrist, or Christian Science practitioner.

(3) *Taxable years ending after 1955*—(i) *Doctors of medicine.* For taxable years ending after 1955 and before December 31, 1965, and individual is not engaged in carrying on a trade or business with respect to the performance of service in the exercise of his profession as a doctor of medicine. For taxable years ending after December 30, 1965, an individual is engaged in carrying on a trade or business with respect to the performance of service in the exercise of his profession as a doctor of medicine.

(ii) *Christian Science practitioners.* Except as provided in paragraph (b)(1) of this section, for taxable years ending after 1955 and before 1968, an individual is not engaged in carrying on a trade or business with respect to the performance of service in the exercise of his profession as a Christian Science practitioner. For provisions relating to the performance of service in taxable years ending after 1967 by an individual in the exercise of his profession as a Christian Science practitioner, see paragraph (b)(2) of this section.

(b) *Christian Science practitioner*—(1) *Certain taxable years ending before 1968; election.* For taxable years ending after 1954 and before 1968, a Christian Science practitioner may elect, as provided in § 1.1402(e)(1)–1, to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to service performed by him in the exercise of his profession as a Christian Science practitioner. If an election is made pursuant to § 1.1402(e)(1)–1, the Christian Science practitioner is, with respect to the performance of service in the exercise of such profession, engaged in carrying on a trade or business for each taxable year for which the election is effective. An election by a Christian Science practitioner has no application to service performed by him which is not in the exercise of his profession as a Christian Science practitioner.

(2) *Taxable years ending after 1967; exemption.* For a taxable year ending after 1967, a Christian Science practitioner is, with respect to the performance of service in the exercise of his profession as a Christian Science practitioner, engaged in carrying on a trade or business unless an exemption under section 1402(e) (see §§ 1.1402(e)–1A through 1.1402(e)–4A) is effective with respect to him for the taxable year during which the service is performed. An exemption which is effective with respect to a Christian Science practitioner has no application to service performed by him which is not in the exercise of his profession as a Christian Science practitioner.

(c) *Meaning of terms.* The designations in this section are to be given their commonly accepted meanings. For taxable years ending after 1955, an individual who is a doctor of osteopathy, and who is not a doctor of medicine within the commonly accepted meaning of that term, is deemed, for purposes of this section, not to be engaged in carrying on a trade or business in the exercise of the profession of doctor of medicine.

(d) *Legal requirements.* The exclusions specified in paragraph (a) of this section apply only if the individuals meet the legal requirements, if any, for practicing their professions in the place where they perform the service.

(e) *Partnerships.* In the case of a partnership engaged in the practice of any of the designated excluded professions, the partnership shall not be considered as carrying on a trade or business for the purpose of the tax on self-employment income, and none of the distributive shares of the income or loss, described in section 702(a)(9), of such partnership shall be included in computing net earnings from self-employment of any member of the partnership. On the other hand, where a partnership is engaged in a trade or business not within any of the designated excluded professions, each partner must include his distributive share of the income or loss, described in section 702(a)(9), of such partnership in computing his net earnings from self-employment, irrespective of whether such partner is engaged in the practice of one or more of such professions and contributes his professional services to the partnership.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6978, 33 FR 15938, Oct. 30, 1968]

§1.1402(c)–7 Members of religious groups opposed to insurance.

The performance of service by an individual:

(a) Who is a member of a recognized religious sect or division thereof, and

(b) Who is an adherent of established tenets or teachings of such sect or division by reason of which he is conscientiously opposed to acceptance of the benefits of any private or public insurance which makes payments in the event of death, disability, old age, or retirement or makes payments toward the cost of, or provides services for, medical care (including the benefits of any insurance system established by the Social Security Act),

during any taxable year for which he is granted a tax exemption, pursuant to section 1402(h), does not constitute a trade or business within the meaning of section 1402(c) and §1.1402(c)–1. See also §§1.1402(h) and 1.1402(h)–1.

[T.D. 6993, 34 FR 830, Jan. 18, 1969]

§1.1402(d)–1 Employee and wages.

For the purpose of the tax on self-employment income, the term ‘‘employee’’ and the term ‘‘wages’’ shall have the same meaning as when used in the Federal Insurance Contributions Act. For an explanation of these terms, see Subpart B of Part 31 of this chapter (Employment Tax Regulations).

§1.1402(e)–1A Application of regulations under section 1402(e).

The regulations in §§1.1402(e)–2A through 1.1402(e)–4A relate to section 1402(e) as amended by section 115(b)(2) of the Social Security Amendments of 1967 (81 Stat. 839) and apply to taxable years ending after 1967. Section 1.1402(e)–5A reflects changes made by section 1704(a) of the Tax Reform Act of 1986 (100 Stat. 2085, 2779) and applies to applications for exemption under section 1402(e) filed after December 31, 1986. For regulations under section 1402(e) (as in effect prior to amendment by the Social Security Amendments of 1967) applicable to taxable years ending before 1968, see §§1.1402(e)(1)–1 through 1.1402(e)(6)–1.

[T.D. 8221, 53 FR 33461, Aug. 31, 1988]

§1.1402(e)–2A Ministers, members of religious orders and Christian Science practitioners; application for exemption from self-employment tax.

(a) *In general.* (1) Subject to the limitations set forth in subparagraphs (2) and (3) of this paragraph, any individual who is (i) a duly ordained, commissioned, or licensed minister of a church or a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) or (ii) a Christian Science practitioner may request an exemption from the tax on self-employment income (see section 1401 and §1.1401–1) with respect to services performed by him in his capacity as a minister or member, or as a Christian Science practitioner, as the case may be. Such a request shall be made by filing an application for exemption on Form 4361 in the manner provided in paragraph (b) of this section and within the time specified in §1.1402(e)–3A. For provisions relating to the taxable year or years for which an exemption from the tax on self-employment income with respect to service performed by a minister or member or a Christian Science practitioner in his capacity as such is effective, see §1.1402(e)–4A. For additional provisions applicable to services performed by individuals referred to in this subparagraph, see paragraph (e) of §1.1402(c)–3 and §1.1402(c)–5 relating to ministers and members of religious orders, and paragraphs (a)(3)(ii) and (b) of §1.1402(c)–6 relating to Christian Science practitioners.

(2) The application for exemption shall contain, or there shall be filed with such application, a statement to the effect that the individual making

application for exemption is conscientiously opposed to, or because of religious principles is opposed to, the acceptance (with respect to services performed by him in his capacity as a minister, member, or Christian Science practitioner) of any public insurance which makes payments in the event of death, disability, old age, or retirement or makes payments toward the cost of, or provides services for, medical care (including the benefits of any insurance system established by the Social Security Act). Thus, ministers, members of religious orders, and Christian Science practitioners requesting exemption from social security coverage must meet either of two alternative tests: (1) A religious principles test which refers to the institutional principles and discipline of the particular religious denomination to which he belongs, or (2) a conscientious opposition test which refers to the opposition because of religious considerations of individual ministers, members of religious orders, and Christian Science practitioners (rather than opposition based upon the general conscience of any such individual or individuals). The term ''public insurance'', as used in section 1402(e) and this paragraph, refers to governmental, as distinguished from private, insurance and does not include insurance carried with a commercial insurance carrier. To be eligible to file an application for exemption on Form 4361, a minister, member, or Christian Science practitioners need not be opposed to the acceptance of all public insurance making payments of this specified type; he must, however, be opposed on religious grounds to the acceptance of any such payment which, in whole or in part, is based on, or measured by earnings from, services performed by in his capacity as a minister or member (see §1.1402(c)–5) or in his capacity as a Christian Science practitioner (see paragraph (b)(2) of §1.1402(c)–6). For example, a minister performing service in the exercise of his ministry may be eligible to file an application for exemption on Form 4361 even though he is not opposed to the acceptance of benefits under the Social Security Act with respect to service performed by him which is not in the exercise of his ministry.

(3) An exemption from the tax imposed on self-employment income with respect to service performed by a minister, member, or Christian Science practitioner in his capacity as such may not be granted to a minister, member, or practitioner who (in accordance with the provisions of section 1402(e) as in effect prior to amendment by section 115(b)(2) of the Social Security Amendments of 1967 (81 Stat. 839)) filed a valid waiver certificate on Form 2031 electing to have the Federal old-age, survivors, and disability insurance system establish by title II of the Social Security Act extended to service performed by him in the exercise of his ministry or in the exercise of duties required by the order of which he is a member, or in the exercise of his profession as a Christian Science practitioner. For provisions relating to waiver certificates on Form 2031, see §§1.1402(e)(1)–1 through 1.1402(e)(6)–1.

(b) *Application for exemption.* An application for exemption on Form 4361 shall be filed in triplicate with the internal revenue officer or the internal revenue office, as the case may be, designated in the instructions relating to the application for exemption. The application for exemption must be filed within the time prescribed in §1.1402(e)–3A. If the last original Federal income tax return of an individual to whom paragraph (a) of this section applies which was filed before the expiration of such time limitation for filing an application for exemption shows no liability for tax on self-employment income, such return will be treated as an application for exemption, provided that before February 28, 1975 such individual also files a properly executed Form 4361.

(c) *Approval of application for exemption.* The filing of an application for exemption on Form 4361 by a minister, a member of a religious order, or a Christian Science practitioner does not constitute an exemption from the tax on self-employment income with respect to services performed by him in his capacity as a minister, member, or practitioner. The exemption is granted only if the application is approved by an appropriate internal revenue officer. See

§1.1402(e)–4A relating to the period for which an exemption is effective.

[T.D. 7333, 39 FR 44448, Dec. 24, 1974; 39 FR 45216, Dec. 31, 1974]

§1.1402(e)–3A Time limitation for filing application for exemption.

(a) *General rule.* (1) Any individual referred to in paragraph (a) of §1.1402(e)–2A who desires an exemption from the tax on self-employment income with respect to service performed by him in his capacity as a minister or member of a religious order or as a Christian Science practitioner must file the application for exemption (Form 4361) prescribed by §1.1402(e)–2A on or before whichever of the following dates is later:

(i) The due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for his second taxable year ending after 1967, or

(ii) The due date of the income tax return, including any extension thereof, for his second taxable year beginning after 1953 for which he has net earnings from self-employment of $400 or more, any part of which:

(a) In the case of a duly ordained, commissioned, or licensed minister of a church, consists of remuneration for service performed in the exercise of his ministry,

(b) In the case of a member of a religious order who has not taken a vow of poverty as a member of such order, consists of remuneration for service performed in the exercise of duties required by such order, or

(c) In the case of a Christian Science practitioner, consists of remuneration for service performed in the exercise of his profession as a Christian Science practitioner.

See paragraph (c) of this section for provisions relating to the computation of net earnings from self-employment.

(2) If a minister, a member of a religious order, or a Christian Science practitioner derives gross income in a taxable year both from service performed in such capacity and from the conduct of another trade or business, and the deductions allowed by Chapter 1 of the Internal Revenue Code which are attributable to the gross income derived from service performed in such capacity equal or exceed the gross income derived from service performed in such capacity, no part of the net earnings from self-employment (computed as prescribed in paragraph (c) of this section) for the taxable year shall be considered as derived from service performed in such capacity.

(3) The application of the rules set forth in subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example (1). M, who makes his income tax returns on a calendar year basis, was ordained as a minister in January 1960. During each of two or more taxable years ending before 1968 M has net earnings from self-employment in excess of $400 some part of which is from service performed in the exercise of his ministry. M has not filed an effective waiver certificate on Form 2031 (see paragraph (a)(3) of §1.1402(e)–2A). If M desires an exemption from the tax on self-employment income with respect to service performed in the exercise of his ministry, he must file an application for exemption on or before the due date of his income tax return for 1969 (his second taxable year ending after 1967), or any extension thereof.

Example (2). M, who makes his income tax returns on a calendar year basis, was ordained as a minister in January 1966. M has net earnings of $350 for the taxable year 1966 and has net earnings in excess of $400 for each of his taxable years 1967 and 1968 (some part or all of which is derived from service performed in the exercise of his ministry). M has not filed an effective waiver certificate on Form 2031 (see paragraph (a)(3) of §1.1402(e)–2A). If M desires an exemption from the tax on self-employment income with respect to service performed in the exercise of his ministry, he must file an application for exemption on or before the due date of his income tax return for 1969 (his second taxable year ending after 1967), or any extension thereof.

Example (3). Assume the same facts as in example (2) except that M has net earnings in excess of $400 for each of his taxable years 1967 and 1969 (but less than $400 in 1968). The application for exemption must be filed on or before the due date of his income tax return for 1969, or any extension thereof.

Example (4). M was ordained as a minister in May 1973. During each of the taxable years 1973 and 1975, M, who makes his income tax returns on a calendar year basis, derives net earnings in excess of $400 from his activities as a minister. M has net earnings of $350 for the taxable year 1974, $200 of which is derived from service performed by him in the exercise of his ministry. If M desires an exemption from the tax on self-employment income with respect to service performed in the exercise of his ministry, he must file an application for exemption on or before the due date of his income tax return for 1975, or any extension thereof.

Example (5). M, who was ordained a minister in January 1973, is employed as a toolmaker by the XYZ Corporation for the taxable years 1973 and 1974 and also engages in activities as a minister on weekends. M makes his income tax returns on the basis of a calendar year. During each of the taxable years 1973 and 1974 M receives wages of $14,000 from the XYZ Corporation and derives net earnings of $400 from his activities as a minister. If M desires an exemption from the tax on self-employment income with respect to service performed in the exercise of his ministry, he must file an application for exemption on or before the due date of his income tax return for 1974, or any extension thereof. It should be noted that although by reason of section 1402(b)(1) (G) and (H) no part of the $400 represents ''self-employment income'', nevertheless the entire $400 constitutes ''net earnings from self-employment'' for purposes of fulfilling the requirements of section 1402(e)(2).

Example (6). M, who files his income tax returns on a calendar year basis, was ordained as a minister in March 1973. During 1973 he receives $410 for service performed in the exercise of his ministry. In addition to his ministerial services, M is engaged during the year 1973 in a mercantile venture from which he derives net earnings from self-employment in the amount of $4,000. The expenses incurred by him in connection with his ministerial services during 1973 and which are allowable deductions under Chapter 1 of the Internal Revenue Code amount to $410. During 1974 and 1975, M has net earnings from self-employment in amounts of $4,600 and $4,800, respectively, and some part of each of these amounts is from the exercise of his ministry. The deductions allowed in each of the years 1974 and 1975 by Chapter 1 which are attributable to the gross income derived by M from the exercise of his ministry in each of such years, respectively, do not equal or exceed such gross income in such year. If M desires an exemption from the tax on self-employment income with respect to service performed in the exercise of his ministry, he must file an application for exemption on or before the due date of his income tax return for 1975, or an extension thereof.

(b) *Effect of death.* The right of an individual to file an application for exemption shall cease upon his death. Thus, the surviving spouse, administrator, or executor of a decedent shall not be permitted to file an application for exemption for such decedent.

(c) *Computation of net earnings*—(1) *Taxable years ending before 1968.* For purposes of this section net earnings from self-employment for taxable years ending before 1968 shall be determined without regard to the fact that, without an election under section 1402(e) (as in effect prior to amendment by section 115(b)(2) of the Social Security Amendments of 1967, see § 1.1402(e)–1A), the performance of services by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order in the exercise of duties required by such order, or the performance of service by an individual in the exercise of his profession as a Christian Science practitioner, does not constitute a trade or business for purposes of the tax on self-employment income.

(2) *Taxable years ending after 1967.* For purposes of this section and § 1.1402(e)–4A net earnings from self-employment for taxable years ending after 1967 shall be determined without regard to section 1402(c) (4) and (5). See § 1.1402(c)–3(e)(2) and § 1.1402(c)–5 relating to ministers and members of religious orders, and paragraphs (a)(3)(ii) and (b) of § 1.1402(c)–6 relating to Christian Science practitioners.

[T.D. 7333, 39 FR 44449, Dec. 24, 1974]

§ 1.1402(e)–4A Period for which exemption is effective.

(a) *In general.* If an application for exemption on Form 4361:

(1) Is filed by a minister, a member of a religious order, or a Christian Science practitioner eligible to file such an application (see particularly paragraph (a) (2) and (3) of § 1.1402(e)–2A), and

(2) Is approved (see paragraph (c) of § 1.1402(e)–2A),

the exemption from the tax on self-employment income shall be effective for the first taxable year ending after 1967 for which such minister, member, or practitioner has net earnings from self-employment of $400 or more any part of which was derived from the performance of service in his capacity as a minister, member, or practitioner, and for all succeeding taxable years. See, however, paragraphs (b)(1)(ii) and (d)(2) of § 1.1402(c)–5 relating to ministers and members of religious orders and paragraph (b)(2) of § 1.1402(c)–6 relating to Christian Science practitioners.

(b) *Exemption irrevocable.* An exemption granted to a minister, a member of a religious order, or a Christian Science practitioner pursuant to the provisions of section 1402(e) is irrevocable.

[T.D. 7333, 39 FR 44450, Dec. 24, 1974]

§1.1402(e)–5A Applications for exemption from self-employment taxes filed after December 31, 1986, by ministers, certain members of religious orders, and Christian Science practitioners.

(a) *In general.* (1) Except as provided in paragraph (a)(2) of this section, this section applies to any individual who is a duly ordained, commissioned, or licensed minister of a church, member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order), or a Christian Science practitioner who files an application after December 31, 1986, for exemption from the tax on self-employment income (see section 1401 and 1.1401–1) with respect to services performed by him or her in his or her capacity as a minister, member, or practitioner pursuant to §§1.1402(e)–2A through 1.1402(e)–4A. This section does not apply to applications for exemption under section 1402(e) that are filed before January 1, 1987.

(2) *Application of this section to Christian Science practitioners.* Paragraph (b) of this section does not apply to Christian Science practitioners. Thus, Christian Science practitioners filing applications for exemption from self-employment taxes under section 1402(e) should follow the procedures set forth in §§1.1402(e)–2A through 1.1402(e)–4A, and are not required to include the statement described in paragraph (b)(1)(ii) of this section. However, see paragraph (c) of this section for verification procedures with respect to applications for exemption from self-employment taxes filed after December 31, 1986, by Christian Science practitioners.

(b) *Church or order must be informed*—(1) *In general.* Any individual, other than a Christian Science practitioner, who files an application for exemption from the tax on self-employment income under section 1402(e) after December 31, 1986:

(i) Shall file such application in accordance with the procedures set forth in §§1.1402(e)–2A through 1.1402(e)–4A, and

(ii) Shall include with such application a statement to the effect that the individual making application for exemption has informed the ordaining, commissioning, or licensing body of the church or order that he or she is opposed to the acceptance (for services performed as a minister or member of a religious order not under a vow of poverty) of any public insurance that makes payments in the event of death, disability, old age, or retirement, or that makes payments toward the cost of, or provides services for, medical care (including the benefits of any insurance system established by the Social Security Act).

(2) *Statement to be filed with form.* If the form provided by the Service for applying for exemption under 1402(e) does not contain the statement set forth in paragraph (b)(1)(ii) of this section, any individual required to include this statement with his or her application under this paragraph (b) shall file such statement with the individual's application at the time and place prescribed for filing such application under §§1.1402(e)–2A and 1.1402(e)–3A. The statement shall contain the information set forth in paragraph (b)(1)(ii) of this section and shall be signed by such individual under penalties of perjury.

(c) *Verification of application*—(1) *In general.* The Service will approve an application for an exemption filed by an individual to whom this section applies only after verifying that the individual applying for the exemption is aware of the grounds on which the individual may receive an exemption under section 1402(e) (See §1.1402(e)–2A) and that the individual seeks exemption on such grounds in accordance with the procedures set forth in paragraph (c)(2) of this section.

(2) *Verification procedure.* Upon receipt of an application for exemption from self-employment taxes under section 1402(e) and this section, the Service will mail to the applicant a statement that describes the grounds on

which an individual may receive an exemption under section 1402(e). The individual filing the application shall certify that he or she has read the statement and that he or she seeks exemption from self-employment taxes on the grounds listed in the statement. The certification shall be made by signing a copy of the statement under penalties of perjury and mailing the signed copy to the Service Center from which the statement was issued not later than 90 days after the date on which the statement was mailed to the individual. If the signed copy of the statement is not mailed to the Service Center within 90 days of the date on which the statement was mailed to the individual, that individual's exemption will not be effective until the date that the signed copy of the statement is received at the Service Center.

[T.D. 8136, 52 FR 12162, Apr. 15, 1987, redesignated and amended at T.D. 8221, 53 FR 33461, Aug. 31, 1988]

§ 1.1402(e)(1)–1 Election by ministers, members of religious orders, and Christian Science practitioners for self-employment coverage.

(a) *In general.* Any individual who is (1) a duly ordained, commissioned, or licensed minister of a church or a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) or (2) a Christian Science practitioner may elect to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to service performed by him in the exercise of his ministry or in the exercise of duties required by such order, or in the exercise of his profession as a Christian Science practitioner, as the case may be. Such an election shall be made by filing a certificate on Form 2031 in the manner provided in paragraph (b) of this section and within the time specified in § 1.1402(e)(2)–1. If a minister or member to whom this section has application, or a Christian Science practitioner, makes an election by filing Form 2031 such individual shall, for each taxable year for which the election is effective (see § 1.1402(e)(3)–1), be considered as carrying on a trade or business with respect to the performance of service in his capacity as a minister or member, or as a Christian Science practitioner, as the case may be.

(b) *Waiver certificate.* The certificate on Form 2031 shall be filed in triplicate with the district director of internal revenue for the internal revenue district in which is located the legal residence or principal place of business of the individual who executes the certificate. If such individual has no legal residence or principal place of business in any internal revenue district, the certificate shall be filed with the Director of International Operations, Internal Revenue Service, Washington, DC 20225, or at such other address as is designated in the instructions relating to the certificate. The certificate must be filed within the time prescribed in § 1.1402(e)(2)–1. If an individual to whom paragraph (a) of this section has application submits to a district director of internal revenue a dated and signed statement indicating that he desires to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to his services, such statement will be treated as a waiver certificate, if filed within the time specified in § 1.1402(e)(2)–1, provided that without unnecessary delay such statement is supplemented by a properly executed Form 2031. An application for a social security account number filed on Form SS–5 or the filing of an income tax return showing an amount representing self-employment income or self-employment tax shall not be construed to constitute an election referred to in § 1.1402(e)(1)–1.

§ 1.1402(e)(2)–1 Time limitation for filing waiver certificate.

(a) *General rule.* (1) Any individual referred to in § 1.1402(e)(1)–1 who desires to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to his services must file the waiver certificate (Form 2031) prescribed by § 1.1402(e)(1)–1 on or before whichever of the following dates is later:

(i) The due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for his second taxable year ending after 1963; or

(ii) The due date of the income tax return, including any extension thereof, for his second taxable year ending after 1954 for which he has net earnings from self-employment (computed as prescribed in paragraph (c) of this section) of $400 or more, any part of which:

(a) In the case of a duly ordained, commissioned, or licensed minister of a church, consists of remuneration for service performed in the exercise of his ministry,

(b) In the case of a member of a religious order who has not taken a vow of poverty as a member of such order, consists of remuneration for service performed in the exercise of duties required by such order, or

(c) In the case of a Christian Science practitioner, consists of remuneration for service performed in the exercise of his profession as a Chrsitian Science practitioner.

(2) If a minister, a member of a religious order, or a Christian Science practitioner derives gross income in a taxable year both from service performed in such capacity and from the conduct of another trade or business, and the deductions allowed by chapter 1 of the Internal Revenue Code which are attributable to the gross income derived from service performed in such capacity equal or exceed the gross income derived from service performed in such capacity, no part of the net earnings from self-employment (computed as prescribed in paragraph (c) of this section) for the taxable year shall be considered as derived from service performed in such capacity.

(3) The application of the rules set forth in subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example (1). M was ordained as a minister in May 1963. During each of the taxable years 1963 and 1966, M, who makes his income tax returns on a calendar year basis, derives net earnings in excess of $400 from his activities as a minister. M has net earnings of $350 for each of the taxable years 1964 and 1965, $200 of which is derived from service performed by him as a minister. If M wishes to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to his service as a minister, he must file the waiver certificate on or before the due date of his income tax return for 1966, or any extension thereof.

Example (2). M, who was ordained a minister in January 1965, is employed as a toolmaker by the XYZ Corporation for the taxable years 1965 and 1966 and also engages in activities as a minister on weekends. M makes his income tax return on the basis of a calendar year. During each of the taxable years 1965 and 1966, M receives wages of $4,800 from the XYZ Corporation and derives $400 (all of which constitutes net earnings from self-employment computed as prescribed in paragraph (c) of this section) from his activities as a minister. In such case if M wishes to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to his services as a minister, he must file the waiver certificate on or before the due date of his income tax return for 1966, or any extension thereof. A waiver certificate filed after such date will be invalid. It should be noted that although by reason of section 1402(b)(1)(C) no part of the $400 for the taxable year 1965 represents ‘‘self-employment income’’, nevertheless the entire $400 constitutes ‘‘net earnings from self-employment’’ for purposes of fulfilling the requirements of section 1402(e)(2).

Example (3). M, who files his income tax returns on a calendar year basis, was ordained as a minister in June 1964. During 1964 he receives $410 for services performed in the exercise of his ministry. In addition to his ministerial services, M is engaged during the year 1964 in a mercantile venture from which he derives net earnings from self-employment in the amount of $1,000. The expenses incurred by him in connection with his ministerial services during 1964 and which are allowable deductions under Chapter 1 of the Internal Revenue Code amount to $410. During 1965 and 1966, M has net earnings from self-employment in amounts of $1,200 and $1,500, respectively, and some part of each of these amounts is from the exercise of his ministry. The deductions allowed in each of the years 1965 and 1966 by Chapter 1 which are attributable to the gross income derived by M from the exercise of his ministry in each of such years, respectively, do not equal or exceed such gross income in such year. If M wishes to have the Federal old-age, survivors, and disability insurance system established by Title II of the Social Security Act extended to his service as a minister, he must file a waiver certificate on or before the due date of his income tax return (including any extension thereof) for 1966.

Example (4). M, a licensed minister who makes his income tax returns on the basis of a calendar year, derived net earnings of $400 or more from the exercise of his ministry for two or more of the taxable years 1955 to 1965, inclusive. In such case, if M wishes to have the Federal old-age, survivors, and disability insurance system established by Title II of the Social Security Act extended to his services as a minister, he must file the waiver certificate on or before the due date (April 15, 1966) prescribed for filing his income tax return for 1965, or any extension thereof. A waiver certificate filed after such date will be invalid.

(b) *Effect of death.* Except as provided in §§ 1.1402(e)(5)–1, 1.1402(e) (5)–2, and 1.1402(e)(6)–1, the right of an individual to file a waiver certificate shall cease from his death. Thus, except as provided in such sections, the surviving spouse, administrator, or executor of a decedent shall not be permitted to file a waiver certificate for such decedent.

(c) *Computation of net earnings without regard to election.* For the purpose of this section net earnings from self-employment shall be determined without regard to the fact that, without an election under section 1402(e), the performance of services by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order in the exercise of duties required by such order, or the performance of service by an individual in the exercise of his profession as a Christian Science practitioner, does not constitute a trade or business for purposes of the tax on self-employment income.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6978, 33 FR 15938, Oct. 30, 1968]

§ 1.1402(e)(3)–1 Effective date of waiver certificate.

(a) *Filed before August 31, 1957*—(1) *In general.* A certificate on Form 2031 filed by an individual before August 31, 1957, in accordance with the provisions of section 1402(e) in effect at the time the certificate is filed, shall be effective for the first taxable year with respect to which it is filed, and all subsequent taxable years. In order for a certificate filed by an individual before August 31, 1957, to be effective under section 1402(e), the certificate must be made effective for either the first or second taxable year ending after 1954 in which the individual has net earnings from self-employment of $400 or more (determined as provided in paragraph (c) of § 1.1402(e)(2)–1) some part of which is derived from service of the character with respect to which an election may be made. However, a certificate on Form 2031, filed before August 31, 1957, even though filed within the time specified in paragraph (a)(1)(ii) of § 1.1402(e)(2)–1, may not be effective, except as provided in subparagraph (2) of this paragraph, for any taxable year with respect to which the due date for filing the individual's income tax return (including any extension thereof) has expired at the time such certificate is filed. Further, a certificate on Form 2031 may not be effective for any taxable year ending before 1955. In order for a certificate filed before August 31, 1957, except for the filing of a supplemental certificate, to be effective for the first or second taxable year ending after 1954 in which the individual has net earnings from self-employment (determined as provided in paragraph (c) of § 1.1402(e)(2)–1) some part of which is derived from service of the character with respect to which an election may be made, the certificate on Form 2031 must be filed on or before the due date for filing the income tax return of the individual for such first or second taxable year, respectively, or any extension thereof.

(2) *Supplemental certificates*—(i) *Filed before due date of 1958 return.* If under subparagraph (1) of this paragraph the certificate is effective only for the individual's third or fourth taxable year ending after 1954 and all succeeding taxable years, the individual may make such a certificate effective for his first taxable year ending after 1955 and all succeeding taxable years by filing a supplemental certificate on Form 2031. To be valid the supplemental certificate must be filed after August 30, 1957, and on or before the due date of the return (including any extension thereof) for his second taxable year ending after 1956 and must be otherwise in accordance with § 1.1402(e)(1)–1.

Example. M, who files his income tax returns on a calendar year basis, was ordained as a minister in 1956, and his net earnings from service performed in the exercise of his ministry during such year were $400 or more. M had no net earnings from the exercise of his ministry during 1957. On July 15, 1957, M filed a waiver certificate and indicated thereon that it was to become effective for the taxable year 1958. At the time of filing, the certificate was effective for 1958 and all succeeding taxable years. Since the certificate was not filed on or before April 15, 1957 (the due date of M's income tax return for the taxable year 1956), and since there was no extension of time for filing his 1956 income tax return, the certificate was not, at the time of filing, effective for the taxable year 1956. M files a supplemental certificate on April 15, 1958. By the filing of the supplemental certificate, the certificate filed by M on July 15, 1957, was made effective for the year 1956 and all succeeding taxable years.

(ii) *Filed after September 13, 1960, and on or before April 16, 1962.* If under subparagraph (1) of this paragraph the certificate is effective only for the individual's first taxable year ending after 1956 and all succeeding taxable years, the individual may make such certificate effective for his first taxable year ending after 1955 and all succeeding taxable years by:

(a) Filing a supplemental certificate on Form 2031 after September 13, 1960, and before April 17, 1962;

(b) Paying on or before April 16, 1962, the tax under section 1401 in respect of all the individual's self-employment income (except for underpayments of tax attributable to errors made in good faith) for his first taxable year ending after 1955; and

(c) By repaying on or before April 16, 1962, the amount of any refund (including any interest paid under section 6611) that has been made of any such tax which (but for section 1402(e)(3)(B)) is an overpayment.

Any payment or repayment described in section 1402(e)(3)(B) and in this subparagraph shall not constitute an overpayment within the meaning of section 6401 which relates to amounts treated as overpayments. See section 6401 and the regulations thereunder in part 301 of this chapter (Regulations on Procedure and Administration).

Example. M, who files his income tax returns on a calendar year basis, was ordained as a minister in 1956, and his net earnings from service performed in the exercise of his ministry during each of the years 1956 and 1957 were $400 or more. On July 15, 1957, M filed a waiver certificate which became effective, at the time of filing, for 1957 and all succeeding taxable years. Since the certificate was not filed on or before April 15, 1957 (the due date of M's income tax return for the taxable year 1956), and since there was no extension of time for filing his 1956 income tax return, the certificate was not, at the time of filing, effective for the taxable year 1956. M files a supplemental certificate on April 17, 1961. If, in addition to the filing of the supplemental certificate, M pays on or before April 16, 1962, the self-employment tax in respect of all his self-employment income (except for underpayments of tax attributable to errors made in good faith) for his taxable year 1956, and repays, on or before April 16, 1962, the amount of any refund (including any interest paid under section 6611) that has been made of any such tax which (but for section 1402(e)(3)(B)) is an overpayment, the certificate filed by M on July 15, 1957, becomes effective for the year 1956 and all succeeding taxable years.

(b) *Filed after August 30, 1957, and before the due date of the 1958 return.* A certificate on Form 2031 filed by an individual after August 30, 1957, but on or before the due date of the return (including any extension thereof) for his second taxable year ending after 1956, in accordance with the provisions of section 1402(e) in effect at the time the certificate is filed, shall be effective for his first taxable year ending after 1955, and all subsequent taxable years.

(c) *Filed after due date of 1958 return*—(1) *In general.* Except as otherwise provided in §1.1402(e)(5)–1 (applicable to certificates filed within the period September 14, 1960, to April 16, 1962, inclusive) and in subparagraphs (2) and (3) of this paragraph, a certificate on Form 2031 filed by an individual in accordance with the provisions of §§1.1402(e)(1)–1 and 1.1402(e)(2)–1, inclusive, after the due date of the return (including any extension thereof) for his second taxable year ending after 1956 shall be effective for the taxable year immediately preceding the earliest taxable year for which, at the time the certificate is filed, the period for filing a return (including any extension thereof) has not expired, and for all succeeding taxable years.

Example. M, a duly ordained minister of a church, makes his income tax returns on the basis of a calendar year. M has not been granted an extension of time for filing any return. On April 15, 1963, the due date of his income tax return for 1962, M files a waiver certificate pursuant to §1.1402(e)(1)–1 and within the time limitation set forth in §1.1402(e)(2)–1. On April 15, 1963, the year 1962 is the earliest taxable year for which the period for filing a return has not expired. Consequently, M's certificate is effective for 1961 and all succeeding taxable years. M must report and pay any self-employment tax due for 1961 and 1962. (The tax, if any, for 1962 is due on April 15, 1963.) Inasmuch as the due date of the tax for 1961 is April 16, 1962, M must pay interest on any tax due for 1961. For provisions relating to such interest, see § 301.6601–1 of Part 301 of this chapter (Regulations on Procedure and Administration).

(2) *Filed after October 13, 1964, and on or before the due date of return for second taxable year ending after 1962.* A certificate on Form 2031 filed by an individual in accordance with the provisions of §§ 1.1402(e)(1)–1 and 1.1402(e)(2)–1, inclusive, after October 13, 1964, and on or before the due date of the return (including any extension thereof) for his second taxable year ending after 1962 (April 15, 1965, in the case of a calendar year taxpayer who has not been granted an extension of time for filing his income tax return for 1964) shall be effective for his first taxable year ending after 1961 and all succeeding taxable years.

Example. M, a duly ordained minister of a church, makes his income tax returns on the basis of a calendar year. M has not been granted an extension of time for filing any return. On April 15, 1965, the due date of his income tax return for 1964, M files a waiver certificate pursuant to § 1.1402(e)(1)–1 and within the time limitation set forth in § 1.1402(e)(2)–1. M's certificate is effective for 1962 and all succeeding taxable years, and he must report and pay any self-employment tax due for 1962, 1963, and 1964. (The tax, if any, for 1964 is due on April 15, 1965.) Inasmuch as the due dates of the tax for 1962 and 1963 are April 15, 1963, and April 15, 1964, respectively, M must pay interest on any tax due for 1962 or 1963. For provisions relating to such interest, see § 301.6601–1 of Part 301 of this chapter (Regulations on Procedure and Administration).

(3) *Filed after July 30, 1965, and on or before the due date of return for second taxable year ending after 1963.* A certificate on Form 2031 filed by an individual in accordance with the provisions of §§ 1.1402(e)(1)–1 and 1.1402(e)(2)–1, inclusive, after July 30, 1965, and on or before the due date of the return (including any extension thereof) for his second taxable year ending after 1963 (Apr. 15, 1966, in the case of a calendar year taxpayer who has not been granted an extension of time for filing his income tax return for 1965) shall be effective for his first taxable year ending after 1962 and all succeeding taxable years.

Example. M, a duly ordained minister of a church, makes his income tax returns on the basis of a calendar year. M has not been granted an extension of time for filing any return. On April 15, 1966, the due date of his income tax return for 1965, M files a waiver certificate pursuant to § 1.1402(e)(1)–1 and within the time limitation set forth in § 1.1402(e)(2)–1. M's certificate is effective for 1963 and all succeeding taxable years, and he must report and pay any self-employment tax due for 1963, 1964, and 1965. (The tax, if any, for 1965 is due on April 15, 1966.) Inasmuch as the due dates of the tax for 1963 and 1964 are April 15, 1964, and April 15, 1965, respectively, M must pay interest on any tax due for 1963 or 1964. For provisions relating to such interest, see § 301.6601–1 of Part 301 of this chapter (Regulations on Procedure and Administration).

(d) *Election irrevocable.* An election which has become effective pursuant to this section is irrevocable. A certificate may not be withdrawn after June 30, 1961.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6978, 33 FR 15939, Oct. 30, 1968]

§ 1.1402(e)(4)–1 Treatment of certain remuneration paid in 1955 and 1956 as wages.

If in 1955 or 1956 an individual was paid remuneration for service described in section 3121(b)(8)(A) which was erroneously treated by the organization employing him (under a certificate filed by such organization pursuant to section 3121(k) or the corresponding section of prior law) as employment, within the meaning of the Federal Insurance Contributions Act (Chapter 21 of the Internal Revenue Code), and if on or before August 30, 1957, the taxes imposed by sections 3101 and 3111 were paid (in good faith and upon the assumption that the insurance system established by title II of the Social Security Act had been extended to such service) with respect to any part of the remuneration paid to such individual for such service, then the remuneration with respect to which such taxes were paid, and with respect to which no credit or refund of such taxes (other than a credit or refund which would be allowable if such service had constituted employment) has been obtained either by the employer or the employee on or before August 30, 1957, shall be deemed, for purposes of the Self-Employment Contributions Act of

1954 and the Federal Insurance Contributions Act, to constitute remuneration paid for employment and not net earnings from self-employment. For regulations relating to section 3121(b)(8)(A) and (k), see §§31.3121(b)(8)–1 and 31.3121(k)–1 of subpart B of part 31 of this chapter (Employment Tax Regulations).

§1.1402(e)(5)–1 Optional provision for certain certificates filed before April 15, 1962.

(a) *Certificates.* (1) The optional provision contained in section 1402(e)(5)(A) may be applied to a certificate on Form 2031 filed within the period September 14, 1960, to April 16, 1962, inclusive, in the case of a duly ordained, commissioned, or licensed minister of a church, a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order), or a Christian Science practitioner, who has derived net earnings, in any taxable year ending after 1954 and before 1960, from the performance of service in the exercise of his ministry, in the exercise of duties required by his religious order, or in the exercise of his profession as a Christian Science practitioner, respectively, and who has reported such earnings as self-employment income on a return filed before September 14, 1960, and on or before the date prescribed for filing such return (including any extension thereof). The certificate may be filed by such minister, member of a religious order, or Christian Science practitioner or by a fiduciary acting for such individual or his estate, or by his survivor within the meaning of section 205(c)(1)(C) of the Social Security Act, and it must be filed after September 13, 1960, and on or before April 16, 1962. Subject to the conditions stated in subparagraph (2) of this paragraph, such certificate may be effective at the election of the person filing it, for the first taxable year ending after 1954 and before 1960 for which a return, as described in the first sentence of this subparagraph, was filed, and for all succeeding taxable years, rather than for the period prescribed in §1.1402(e)(3)–1. The election for retroactive application of the certificate may be made by indicating on the certificate the first taxable year for which it is to be effective and that such year is the first taxable year ending after 1954 and before 1960 for which the minister, member of a religious order, or Christian Science practitioner filed an income tax return on which he reported net earnings for such year from the exercise of his ministry, the exercise of duties required by his religious order, or the exercise of his profession as a Christian Science practitioner, as the case may be, and by fulfilling the conditions prescribed in subparagraph (2) of this paragraph.

(2) A certificate to which subparagraph (1) of this paragraph relates may be effective for a taxable year prior to the taxable year immediately preceding the earliest taxable year for which, at the time the certificate is filed, the period for filing a return (including any extension thereof) has not expired, only if the following conditions are met:

(i) The tax under section 1401 is paid on or before April 16, 1962, in respect of all self-employment income (whether or not derived from the performance of service by the individual in the exercise of his ministry, in the exercise of duties required by his religious order, or in the exercise of his profession as a Christian Science practitioner, as the case may be) for the first taxable year ending after 1954 and before 1960 for which such individual has filed a return, as described in subparagraph (1) of this paragraph, and for each succeeding taxable year ending before 1960; and

(ii) In any case where refund has been made of any such tax which (but for section 1402(e)(5)) is an overpayment, the amount refunded (including any interest paid under section 6611) is repaid on or before April 16, 1962. For regulations under section 6611 (relating to interest on overpayments), see §301.6611–1 of part 301 of this chapter (Regulations on Procedure and Administration).

(b) *Supplemental certificates.* (1) Subject to the conditions stated in subparagraph (2) of this paragraph, a certificate on Form 2031 filed on or before September 13, 1960, by a minister, member of a religious order, or a Christian Science practitioner described in paragraph (a)(1) of this section and which (but for section 1402(e)(5)(B)) is ineffective for the first taxable year ending after 1954 and before 1959 for which such a return as described in paragraph (a)(1) of this section was filed by such individual, shall be effective for such first taxable year and for all succeeding taxable years, provided a supplemental certificate is filed by such individual or by a fiduciary acting for him or his estate, or by his survivor (within the meaning of section 205(c)(1)(C) of the Social Security Act), after September 13, 1960 and on or before April 16, 1962.

(2) The filing of a supplemental certificate pursuant to subparagraph (1) of this paragraph will give retroactive effect to a certificate to which such subparagraph applies only if the following conditions are met:

(i) The tax under section 1401 is paid on or before April 16, 1962, in respect of all self-employment income (whether or not attributable to earnings as a minister, member of a religious order, or Christian Science practitioner) for the first taxable year for which the certificate is retroactively effective and for each subsequent year ending before 1959; and

(ii) In any case where refund has been made of any such tax which (but for section 1402(d)(5)) is an overpayment, the amount refunded (including any interest paid under section 6611) is repaid on or before April 16, 1962.

(c) *Underpayment of tax.* For purposes of this section, any underpayment of the tax which is attributable to an error made in good faith will not invalidate an election which is otherwise valid.

(d) *Nonapplicability of section 6401.* Any payment or repayment described in paragraph (a)(2) or paragraph (b)(2) of this section shall not constitute an overpayment within the meaning of section 6401 which relates to amounts treated as overpayments. For the provisions of section 6401 and the regulations thereunder, see section 6401 and §301.6401–1 of part 301 of this chapter (Regulations on Procedure and Administration).

§1.1402(e)(5)–2 Optional provisions for certain certificates filed on or before April 17, 1967.

(a) *In general*—(1) *General rule.* Section 1402(e)(5), as amended by the Social Security Amendments of 1965, applies only in the case of a duly ordained, commissioned, or licensed minister of a church, a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order), or a Christian Science practitioner, who has derived net earnings in any taxable year ending after 1954 from the performance of service in the exercise of his ministry, in the exercise of duties required by his religious order, or in the exercise of his profession as a Christian Science practitioner, respectively, and who has reported such earnings as self-employment income on a return filed on or before the date prescribed for filing such return (including any extension thereof).

(2) *Supplemental certificate.* Subject to the conditions stated in subparagraph (4) of this paragraph, a certificate on Form 2031 filed on or before April 15, 1966, by a minister, member of a religious order, or a Christian Science practitioner described in subparagraph (1) of this paragraph and which (but for section 1402(e)(5)(A)) is ineffective for the first taxable year ending after 1954 for which a return described in subparagraph (1) of this paragraph was filed by such individual, shall be effective for such first taxable year and for all succeeding taxable years, provided a supplemental certificate is filed by such individual or by a fiduciary acting for him or his estate, or by his survivor (within the meaning of section 205(c)(1)(C) of the Social Security Act), after July 30, 1965 (the date of enactment of the Social Security Amendments of 1965), and on or before April 17, 1967.

(3) *Certificate filed by survivor.* A survivor (within the meaning of section 205(c)(1)(C) of the Social Security Act) of an individual who:

(i) Died on or before April 15, 1966,

(ii) Was a minister, member of a religious order, or a Christian Science practitioner described in subparagraph (1) of this paragraph,

(iii) Has filed a return as described in subparagraph (1) of this paragraph for a taxable year ending after 1954, and

(iv) Had not filed a valid waiver certificate on Form 2031,

may file a certificate on Form 2031 on behalf of such individual. The certificate must be filed after July 30, 1965 (the date of enactment of the Social Security Amendments of 1965), and on or before April 17, 1967. Subject to the conditions stated in subparagraph (4) of this paragraph, such certificate shall be effective for the first taxable year ending after 1954 for which a return, as described in subparagraph (1) of this paragraph, was filed by such individual and for all succeeding taxable years.

(4) *Applicable conditions.* A supplemental certificate referred to in subparagraph (2) of this paragraph and a certificate referred to in subparagraph (3) of this paragraph shall be effective only if the following conditions are met:

(i) The tax under section 1401 is paid on or before April 17, 1967, in respect of all self-employment income (whether or not attributable to earnings as a minister, member of a religious order, or Christian Science practitioner) for the first taxable year ending after 1954 for which the individual (by or in respect of whom the supplemental certificate or certificate is filed) has filed a return, as described in paragraph (1) of this paragraph, and for each succeeding taxable year ending before January 1, 1966; and

(ii) In any case where refund has been made of any such tax which (but for section 1402(e)(5)) is an overpayment, the amount refunded (including any interest paid under section 6611) is repaid on or before April 17, 1967. For regulations under section 6611 (relating to interest on overpayments), see § 301.6611–1 of part 301 of this chapter (Regulations on Procedure and Administration).

(b) *Underpayment of tax.* For purposes of this section, any underpayment of the tax which is attributable to an error made in good faith will not invalidate an election which is otherwise valid.

(c) *Nonapplicability of section 6401.* Any payment or repayment described in paragraph (a)(4) of this section shall not constitute an overpayment within the meaning of section 6401 which relates to amounts treated as overpayments. For the provisions of section 6401 and the regulations thereunder, see section 6401 and § 301.6401–1 of part 301 of this chapter (Regulations on Procedure and Administration).

(d) *Applicability of §§ 1.1402(e) (5)–1 and 1.1402(e)(6)–1.* The provisions of section 1402(e) (5) and (6) (in effect prior to July 30, 1965, the date of enactment of the Social Security Amendments of 1965) and §§ 1.1402(e) (5)–1 and 1.1402(e)(6)–1 shall apply with respect to any certificate filed pursuant to such sections if a supplemental certificate is not filed with respect to such certificate as provided in this section.

[T.D. 6978, 33 FR 15939, Oct. 30, 1968]

§ 1.1402(e)(6)–1 Certificates filed by fiduciaries or survivors on or before April 15, 1962.

In any case in which an individual whose death has occurred after September 12, 1960, and before April 16, 1962, derived earnings from the performance of services as a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, as a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) in the exercise of duties required by such order, or in the exercise of his profession as a Christian Science practitioner, a waiver certificate on Form 2031 may be filed after June 30, 1961 (the date of enactment of the Social Security Amendments of 1961), and on or before April 16, 1962, by a fiduciary acting for such individual's estate or by such individual's survivor within the meaning of section 205(c)(1)(C) of the Social Security Act. Such certificates shall be effective for the period prescribed in section 1402(e)(3)(A) (see § 1.1402(e)(3)–1(c)) as if filed by the individual on the date of his death.

§ 1.1402(f)–1 Computation of partner's net earnings from self-employment for taxable year which ends as result of his death.

(a) *Taxable years ending after August 28, 1958*—(1) *In general.* The rules for the computation of a partner's net earnings from self-employment are set forth in paragraphs (d) to (g), inclusive, of § 1.1402(a)–2. In addition to the net earnings from self-employment computed under such rules for the last taxable year of a deceased partner, if a partner's taxable year ends after August 28, 1958, solely because of death, and on a day other than the last day of the partnership's taxable year, the deceased partner's net earnings from self-employment for such year shall also include so much of the deceased partner's distributive share of partnership ordinary income or loss (see subparagraph (3) of this paragraph) for the taxable year of the partnership in which his death occurs as is attributable to an interest in the partnership prior to the month following the month of his death.

(2) *Computation.* (i) The deceased partner's distributive share of partnership ordinary income or loss for the partnership taxable year in which he died shall be determined by applying the rules contained in paragraphs (d) to (g), inclusive, of § 1.1402(a)–2, except that paragraph (e) shall not apply.

(ii) The portion of such distributive share to be included under this section in the deceased partner's net earnings from self-employment for his last taxable year shall be determined by treating the ordinary income or loss constituting such distributive share as having been realized or sustained ratably over the period of the partnership taxable year during which the deceased partner had an interest in the partnership and during which his estate, or any other person succeeding by reason of his death to rights with respect to his partnership interest, held such interest in the partnership or held a right with respect to such interest. The amount to be included under this section in the deceased partner's net earnings from self-employment for his last taxable year will, therefore, be determined by multiplying the deceased partner's distributive share of partnership ordinary income or loss for the partnership taxable year in which he died, as determined under subdivision (i) of this subparagraph, by a fraction, the denominator of which is the number of calendar months in the partnership taxable year over which the ordinary income or loss constituting the deceased partner's distributive share of partnership income or loss for such year is treated as having been realized or sustained under the preceding sentence and the numerator of which is the number of calendar months in such partnership taxable year that precede the month following the month of his death.

(3) *Definition of ''deceased partner's distributive share''.* For the purpose of this section, the term ''deceased partner's distributive share'' includes the distributive share of his estate or of any other person succeeding, by reason of his death, to rights with respect to his partnership interest. It does not include any share attributable to a partnership interest which was not held by the deceased partner at the time of his death. Thus, if a deceased partner's estate should acquire an interest in a partnership additional to the interest to which it succeeded upon the death of the deceased partner, the amount of the distributive share attributable to such additional interest acquired by the estate would not be included in computing the ''deceased partner's distributive share'' of the partnership's ordinary income or loss for the partnership taxable year.

(4) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). B, an individual who files his income tax returns on the calendar year basis, is a member of the ABC partnership, the taxable year of which ends on June 30. B dies on October 17, 1958, and his estate succeeds to his partnership interest and continues as a partner in its own right under local law until June 30, 1959. B's distributive share of the partnership's ordinary income, as determined under paragraphs (d) to (g), inclusive, of § 1.1402(a)–2, for the taxable year of the partnership ended June 30, 1958 is $2,400. His distributive share, including the share of his estate, of such partnership's ordinary income, as determined under paragraphs (d) to (g), inclusive, of § 1.1402(a)–2 (with the exception of paragraph (e)), for the taxable year of the partnership ended June 30, 1959 is $4,500. The portion of such $4,500 attributable to an interest in the partnership prior to the month following the month in which he died is $4,500×4/12 (4 being the number of months in the partnership taxable year in which B died which precede the month following the month of his death and 12 being the number of months in such partnership taxable year in which B and his estate had an interest in the partnership) or $1,500. The amount to be included in the deceased partner's net earnings from self-employment for his last taxable year is $3,900 ($2,400 plus $1,500).

Example (2). If in the preceding example B's estate is entitled to only $1,000, the amount of B's distributive share of partnership ordinary income for the period July 1, 1958 through October 17, 1958, such $1,000 is considered to have been realized ratably over the period preceding B's death and will be included in B's net earnings from self-employment for his last taxable year.

Example (3). X, who reports his income on a calendar year basis, is a member of a partnership which also reports its income on a calendar year basis. X dies on June 30, 1959, and his estate succeeds to his partnership interest and continues as a partner in its own right under local law. On September 15, 1959, X's estate sells the partnership interest to which it succeeded on the death of X. X's distributive share of partnership income for 1959 is $5,500. $600 of such amount is X's share of the gain from the sale of a capital asset which occurs on May 1, 1959, and $400 of such amount is the estate's share of the gain from the sale of a capital asset which occurs on July 15, 1959. The remainder of such amount is income from services rendered. X's distributive share of partnership ordinary income for 1959, as determined under paragraphs (d) to (g), inclusive, of §1.1402(a)–2 (with the exception of paragraph (e)), is $4,500 ($5,500 minus $1,000). The portion of such share attributable to an interest in the partnership prior to the month following the month of his death is $4,500×6/8.5 (6 being the number of months in the partnership taxable year in which X died as precede the month following the month of his death and 8.5 being the number of months in such partnership taxable year in which X and his estate had an interest in the partnership) or $3,176.47.

(b) *Options available to farmers*—(1) *Special rule.* In determining whether the optional method available to a member of a farm partnership in computing his net earnings from self-employment may be applied, and in applying such method, it is necessary to determine the partner's distributive share of partnership gross income and the partner's distributive share of income described in section 702(a)(9). See section 1402(a) and §1.1402(a)–15. If section 1402(f) and this section apply, or may be made applicable under section 403(b)(2) of the Social Security Amendments of 1958 and paragraph (c) of this section, for the last taxable year of a deceased partner, such partner's distributive share of income described in section 702(a)(9) for his last taxable year shall be determined by including therein any amount which is included under section 1402(f) and this section in his net earnings from self-employment for such taxable year. Such a partner's distributive share of partnership gross income for his last taxable year shall be determined by including therein so much of the deceased partner's distributive share (see paragraph (a)(3) of this section) of partnership gross income, as defined in section 1402(a) and paragraph (b) of §1.1402(a)–15, for the partnership taxable year in which he died as is attributable to an interest in the partnership prior to the month following the month of his death. Such allocation shall be made in the same manner as is prescribed in paragraph (a)(2) of this section for determining the portion of a deceased partner's distributive share of partnership ordinary income or loss to be included under section 1402(f) and this section in his net earnings from self-employment for his last taxable year.

(2) *Examples.* The principles set forth in this paragraph may be illustrated by the following examples:

Example (1). X, an individual who files his income tax returns on a calendar year basis, is a member of the XYZ farm partnership, the taxable year of which ends on March 31. X dies on May 31, 1967, and his estate succeeds to his partnership interest and continues as a partner in its own right under local law until March 31, 1968. X's distributive share of the partnership's ordinary income, determined under paragraphs (d) to (g), inclusive, of §1.1402(a)–2, for the taxable year of the partnership ended March 31, 1967, is $1,600. His distributive share, including the share of his estate, of such partnership's ordinary loss as determined under paragraphs (d) to (g), inclusive, of §1.1402(a)–2 (with the exception of paragraph (e)), for the taxable year of the partnership ended March 31, 1968, is $1,200. The portion of such $1,200 attributable to an interest in the partnership prior to the month following the month in which he died is $1,200×2/12 (2 being the number of months in the partnership taxable year in which X died which precede the month following the month of his death and 12 being the number of months in such partnership taxable year in which X and his estate had an interest in the partnership) or $200. X is also a member of the ABX farm partnership, the taxable year of which ends on May 31. His distributive share of the partnership loss described in section 702(a)(9) for the partnership taxable year ending May 31, 1967, is $300. Section 1402(f) and this section do not apply with respect to such $300 since X's last taxable year ends, as a result of his death, with the taxable year of the ABX partnership. Under this paragraph the $200 loss must be included in determining X's distributive share of XYZ partnership income described in section 702(a)(9) for the purpose of applying the optional method available to farmers for computing net earnings from self-employment. Further, the resulting $1,400 of income must be aggregated, pursuant to paragraph (c) of § 1.1402(a)–15, with the $300 loss, X's distributive share of ABX partnership loss described in section 702(a)(9), for purposes of applying such option. The representative of X's estate may exercise the option described in paragraph (a)(2)(ii) of § 1.1402(a)–15, provided the portion of X's distributive share of XYZ partnership gross income for the taxable year ended March 31, 1968, attributable to an interest in the partnership prior to the month following the month in which he died (the allocation being made in the manner prescribed for allocating his $1,200 distributive share of XYZ partnership loss for such year), when aggregated with his distributive share of XYZ partnership gross income for the partnership taxable year ended March 31, 1967, and with his distributive share of ABX partnership gross income for the partnership taxable year ended May 31, 1967, results in X having more than $2,400 of gross income from the trade or business of farming. If such aggregate amount of gross income is not more than $2,400, the option described in paragraph (a)(2)(i) of § 1.1402(a)–15, is available.

Example (2). A, a sole proprietor engaged in the business of farming, files his income tax returns on a calendar year basis. A is also a member of a partnership engaged in an agricultural activity. The partnership files its returns on the basis of a fiscal year ending March 31. A dies June 29, 1967. A's gross income from farming as a sole proprietor for the 6-month period comprising his taxable year which ends because of death is $1,600 and his actual net earnings from self-employment based thereon are $400. As of March 31, 1967, A's distributive share of the gross income of the farm partnership is $2,200 and his distributive share of income described in section 702(a)(9) based thereon is $1,000. The amount of A's distributive share of the partnership's ordinary income for its taxable year ended March 31, 1968, which may be included in his net earnings from self-employment under section 1402(f) and paragraph (a) of this section is $300. The amount of the deceased partner's distributive share of partnership gross income attributable to an interest in the partnership prior to the month following the month of his death as is determined, pursuant to subparagraph (1) of this paragraph, under paragraph (a) of this section is $2,000. An aggregation of the above figures produces a gross income from farming of $5,800 and actual net earnings from self-employment of $1,700. Under these circumstances none of the options provided by section 1402(a) may be used. If the actual net earnings from self-employment had been less than $1,600, the option described in paragraph (a)(2)(ii) of § 1.1402(a)–15 would have been available.

(c) *Taxable years ending after 1955 and on or before August 28, 1958*—(1) *Requirement of election.* If a partner's taxable year ended, as a result of his death, after 1955 and on or before August 28, 1958, the rules set forth in paragraph (a) of this section may be made applicable in computing the deceased partner's net earnings from self-employment for his last taxable year provided that:

(i) Before January 1, 1960, there is filed, by the person designated in section 6012(b)(1) and paragraph (b)(1) of § 1.6012–3, a return (or amended return) of the tax imposed by chapter 2 for the taxable year ending as a result of death, and

(ii) Such return, if filed solely for the purpose of reporting net earnings from self-employment resulting from the enactment of section 1402(f), is accompanied by the amount of tax attributable to such net earnings.

(2) *Administrative rule of special application.* Notwithstanding the provisions of sections 6601, 6651, and 6653 (see such sections and the regulations thereunder) no interest or penalty shall be assessed or collected on the amount of any self-employment tax due solely by reason of the operation of section 1402(f) in the case of an individual who died after 1955 and before August 29, 1958.

[T.D. 6691, 28 FR 12796, Dec. 3, 1963, as amended by T.D. 6993, 34 FR 830, Jan. 18, 1969]

§ 1.1402(g)–1 Treatment of certain remuneration erroneously reported as net earnings from self-employment.

(a) *General rule.* If an amount is erroneously paid as self-employment tax, for any taxable year ending after 1954 and before 1962, with respect to remuneration for service (other than service described in section 3121(b)(8)(A)) performed in the employ of an organization described in section 501(c)(3) and exempt from income tax under section 501(a), and if such remuneration is reported as self-employment income on a return filed on or before the due date prescribed for filing such return (including any extension thereof), the individual who paid such amount (or a fiduciary acting for such individual or his estate, or his survivor (within the meaning of section 205(c)(1)(C) of the Social Security Act)), may request that such remuneration be deemed to constitute net earnings from self-employment. If such request is filed during the period September 14, 1960, to April 16, 1962, inclusive, and on or after the date on which the organization which paid such remuneration to such individual for services performed in its employ has filed, pursuant to section 3121(k), a certificate waiving exemption from taxes under the Federal Insurance Contributions Act, and if no credit or refund of any portion of the amount erroneously paid for such taxable year as self-employment tax (other than a credit or refund which would be allowable if such tax were applicable with respect to such remuneration) has been obtained before the date on which such request is filed or, if obtained, the amount credited or refunded (including any interest under section 6611) is repaid on or before such date, then, for purposes of the Self-Employment Contributions Act of 1954 and the Federal Insurance Contributions Act, any amount of such remuneration which is paid to such individual before the calendar quarter in which such request is filed (or before the succeeding quarter if such certificate first becomes effective with respect to services performed by such individual in such succeeding quarter) and with respect to which no tax (other than an amount erroneously paid as tax) has been paid under the Federal Insurance Contributions Act, shall be deemed to constitute net earnings from self-employment and not remuneration for employment. If the certificate filed by such organization pursuant to section 3121(k) is not effective with respect to services performed by such individual on or before the first day of the calendar quarter in which the request is filed, then, for purposes of section 3121(b)(8)(B) (ii) and (iii), such individual shall be deemed to have become an employee of such organization (or to have become a member of a group, described in section 3121(k)(1)(E), of employees of such organization) on the first day of the succeeding quarter.

(b) *Request for validation.* (1) No particular form is prescribed for making a request under paragraph (a) of this section. The request should be in writing, should be signed and dated by the person making the request, and should indicate clearly that it is a request that, pursuant to section 1402(g) of the Code, remuneration for service described in section 3121(b)(8) (other than service described in section 3121(b)(8)(A)) erroneously reported as self-employment income for one or more specified years be deemed to constitute net earnings from self-employment and not remuneration for employment. In addition, the following information shall be shown in connection with the request:

(i) The name, address, and social security account number of the individual with respect to whose remuneration the request is made.

(ii) The taxable year or years (ending after 1954 and before 1962) to which the request relates.

(iii) A statement that the remuneration was erroneously reported as self-employment income on the individual’s return for each year specified and that the return was filed on or before its due date (including any extension thereof).

(iv) Location of the office of the district director with whom each return was filed.

(v) A statement that no portion of the amount erroneously paid by the individual as self-employment tax with respect to the remuneration has been credited or refunded (other than a credit or refund which would have been allowable if the tax had been applicable with respect to the remuneration); or, if a credit or refund of any portion of such amount has been obtained, a statement identifying the credit or refund and showing how and when the amount credited or refunded, together with any interest received in connection therewith, was repaid.

(vi) The name and address of the organization which paid the remuneration to the individual.

(vii) The date on which the organization filed a waiver certificate on Form SS–15, and the location of the office of the district director with whom it was filed.

(viii) The date on which the certificate became effective with respect to services performed by the individual.

(ix) If the request is made by a person other than the individual to whom the remuneration was paid, the name and address of that person and evidence which shows the authority of such person to make the request.

(2) The request should be filed with the district director of internal revenue with whom the latest of the returns specified in the request pursuant to subparagraph (1)(iii) of this paragraph was filed.

(c) *Cross references.* For regulations relating to section 3121 (b)(8) and (k), see §§ 31.3121(b)(8)–2 and 31.3121(k)–1 of subpart B of part 31 of this chapter (Employment Tax Regulations). For regulations relating to exemption from income tax of an organization described in section 501(c)(3), see § 1.501(c)(3)–1.

§ 1.1402(h)–1 Members of certain religious groups opposed to insurance.

(a) *In general.* An individual—(1) Who is a member of a recognized religious sect or division thereof and,

(2) Who is an adherent of established tenets or teachings of such sect or division and by reason thereof is conscientiously opposed to acceptance of the benefits of any private or public insurance which makes payments in the event of death, disability, old age, or retirement or makes payments toward the cost of, or provides services for, medical care (including the benefits of any insurance system established by the Social Security Act),

may file an application for exemption from the tax under section 1401. The form of insurance to which section 1402(h) and this section refer does not include liability insurance of a kind that provides only for the protection of other persons, or property of other persons, who may be injured or damaged by or on property belonging to, or by an action of, an individual who otherwise meets the requirements of this section. An application for exemption under section 1402(h) and this section shall be made in the manner provided in paragraph (b) of this section and within the time specified in paragraph (c) of this section. For provisions relating to the filing of an application for exemption by a fiduciary or survivor, see paragraph (d) of this section.

(b) *Application for exemption.* The application for exemption shall be filed on Form 4029 in duplicate with the internal revenue official or office designated on the form. The filing of a return by a member of a religious group opposed to insurance showing no self-employment income or self-employment tax shall not be construed as an application for exemption referred to in paragraph (a) of this section.

(c) *Time limitation for filing application for exemption*—(1) *Taxable years ending before December 31, 1967.* A member of a religious group opposed to insurance within the meaning of paragraph (a) of this section:

(i) Who has self-employment income (determined without regard to subsections (c)(6) and (h) of section 1402 and this section) for one or more taxable years ending before December 31, 1967, and

(ii) Who desires to be exempt from the payment of the self-employment tax under section 1401,

must file the application for exemption on or before December 31, 1968.

(2) *Taxable year ending on or after December 31, 1967*—(i) *General rule.* Except as provided in subdivision (ii) of this subparagraph, a member of a religious group opposed to insurance within the meaning of paragraph (a) of this section:

(a) Who has no self-employment income (determined without regard to subsections (c)(6) and (h) of section 1402 and this section) for any taxable year ending before December 31, 1967, and

(b) Who desires to be exempt from the payment of the self-employment tax under section 1401 for any taxable year ending on or after December 31, 1967,

must file the application for exemption on or before the due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for the first taxable year ending on or after December 31, 1967, for which he has self-employment income (determined without regard to subsections (c)(6) and (h) of section 1402 and this section.

(ii) *Exception to general rule.* If an individual to whom subdivision (i) of this subparagraph applies:

(a) Is notified in writing by a district director of internal revenue or the Director of International Operations that he has not filed the application for exemption on or before the date specified in such subdivision (i), and

(b) Files the application for exemption on or before the last day of the third calendar month following the calendar month in which he is so notified,

such application shall be considered a timely filed application for exemption.

(d) *Application by fiduciary or survivor.* If an individual who was a member of a religious group opposed to insurance dies before the expiration of the time prescribed in section 1402(h)(2) and paragraph (c) of this section during which an application could have been filed by him, an application for exemption with respect to such deceased individual may be filed by a fiduciary acting for such individual's estate or by such individual's survivor within the meaning of section 205(c)(1)(C) of the Social Security Act. An application for exemption with respect to a deceased individual executed by a fiduciary or survivor may be approved only if it could have been approved if the individual were not deceased and had filed the application on the date the application was filed by the fiduciary or executor.

(e) *Approval of application for exemption*—(1) *In general.* The filing of an application for exemption on Form 4029 by a member of a religious group opposed to insurance does not constitute an exemption from the payment of the tax on self-employment income. An individual who files such an application is exempt from the payment of the tax only if the application is approved by the official with whom the application is required to be filed (see paragraph (b) of this section).

(2) *Conditions relating to approval or disapproval of application.* An application for exemption on Form 4029 will not be approved unless the Secretary of Health, Education, and Welfare finds with respect to the religious sect or division thereof of which the individual filing the application is a member:

(i) That the sect or division thereof has the established tenets or teachings by reason of which the individual applicant is conscientiously opposed to the benefits of insurance of the type referred to in section 1402(h) (see paragraph (a) of this section),

(ii) That it is the practice, and has been for a period of time which the Secretary of Health, Education, and Welfare deems to be substantial, for members of such sect or division thereof to make provisions for their dependent members which, in the judgment of such Secretary, is reasonable in view of the general level of living of the members of the sect or division thereof; and

(iii) That the sect or division thereof has been in existence continuously since December 31, 1950.

In addition, an application for exemption on Form 4029 will not be approved if any benefit or other payment under title II of title XVIII of the Social Security Act became payable (or, but for section 203, relating to reduction of insurance benefits, or 222(b), relating to reduction of insurance benefits on account of refusal to accept rehabilitation services, of the Social Security Act would have been payable) at or before the time of the filing of the application for exemption. Any determination required to be made pursuant to the preceding sentence will be made by the Secretary of Health, Education, and Welfare.

(f) *Period for which exemption is effective*—(1) *General rule.* An application for exemption shall be in effect (if approved as provided in paragraph (e) of this section) for all taxable years beginning after December 31, 1950, except as otherwise provided in subparagraph (2) of this paragraph.

(2) *Exceptions.* An application for exemption referred to in subparagraph (1) of this paragraph shall not be effective for any taxable year which:

(i) Begins *(a)* before the taxable year in which the individual filing the application first met the requirements of subparagraphs (1) and (2) of paragraph (a) of this section, or *(b)* before the time as of which the Secretary of Health, Education, and Welfare finds that the sect or division thereof of which the individual is a member met the requirements of subparagraphs (C) and (D) of section 1402(h)(1) (see subdivisions (i) and (ii) of paragraph (e)(2) of this section), or

(ii) Ends *(a)* after the time at which the individual filing the application ceases to meet the requirements of subparagraphs (1) and (2) of paragraph (a) of this section, or *(b)* after the time as of which the Secretary of Health, Education, and Welfare finds that the sect or division thereof of which the individual is a member ceases to meet the requirements of subparagraphs (C) and (D) of section 1402(h)(1) (see subdivisions (i) and (ii) of paragraph (e)(2) of this section).

(g) *Refund or credit.* An application for exemption on Form 4029 filed on or before December 31, 1968 (if approved as provided in paragraph (e) of this section), shall constitute a claim for refund or credit of any tax on self-employment income under section 1401 (or under section 480 of the Internal Revenue Code of 1939) paid or incurred in respect of any taxable year beginning after December 31, 1950, and ending before December 31, 1967, for which an exemption is granted. Refund or credit of any tax referred to in the preceding sentence may be made, pursuant to the provisions of section 501(c) of the Social Security Amendments of 1967 (81 Stat. 933), notwithstanding that the refund or credit would otherwise be prevented by operation of any law or rule of law. No interest shall be allowed or paid in respect of any refund or credit made or allowed in connection with a claim for refund or credit made on Form 4029.

Withholding of Tax on Nonresident Aliens and Foreign Corporations and Tax-Free Covenant Bonds

NONRESIDENT ALIENS AND FOREIGN CORPORATIONS

§1.1441–0 Outline of regulation provisions for section 1441.

This section lists captions contained in §§1.1441–1 through 1.1441–9.

§1.1441–1 Requirement for the deduction and withholding of tax on payments to foreign persons.

(a) Purpose and scope.
(b) General rules of withholding.
(1) Requirement to withhold on payments to foreign persons.
(2) Determination of payee and payee's status.
(i) In general.
(ii) Payments to a U.S. agent of a foreign person.
(iii) Payments to wholly-owned entities.
(A) Foreign-owned domestic entity.
(B) Foreign entity.
(iv) Payments to a U.S. branch of certain foreign banks or foreign insurance companies.
(A) U.S. branch treated as a U.S. person in certain cases.
(B) Consequences to the withholding agent.
(C) Consequences to the U.S. branch.
(D) Definition of payment to a U.S. branch.
(E) Payments to other U.S. branches.
(v) Payments to a foreign intermediary.
(A) Payments treated as made to persons for whom the intermediary collects the payment.
(B) Payments treated as made to foreign intermediary.
(vi) Other payees.
(vii) Rules for reliably associating a payment with documentation.
(3) Presumptions regarding payee's status in the absence of documentation.
(i) General rules.
(ii) Presumptions of status as individual, corporation, partnership, etc.

(iii) Presumption of U.S. or foreign status.
(A) Payments to exempt recipients.
(B) Scholarships and grants.
(C) Pensions, annuities, etc.
(D) Certain payments to offshore accounts.
(iv) Grace period in the case of indicia of a foreign payee.
(v) Special rules applicable to payments to foreign intermediaries.
(A) Reliance on claim of status as foreign intermediary.
(B) Beneficial owner documentation is lacking or unreliable.
(C) Information regarding allocation of payment is lacking or unreliable.
(D) Certification that the foreign intermediary has furnished documentation for all of the persons to whom the intermediary certificate relates is lacking or unreliable.
(vi) U.S. branches and foreign flow-through entities.
(vii) Joint payees.
(viii) Rebuttal of presumptions.
(ix) Effect of reliance on presumptions and of actual knowledge or reason to know otherwise.
(A) General rule.
(B) Actual knowledge or reason to know that amount of withholding is greater than is required under the presumptions or that reporting of the payment is required.
(x) Examples.
(4) List of exemptions from, or reduced rates of, withholding under chapter 3 of the Code.
(5) Establishing foreign status under applicable provisions of chapter 61 of the Code.
(6) Rules of withholding for payments by a foreign intermediary or certain U.S. branches.
(7) Liability for failure to obtain documentation timely or to act in accordance with applicable presumptions.
(i) General rule.
(ii) Proof that tax liability has been satisfied.
(iii) Liability for interest and penalties.
(iv) Special effective date.
(v) Examples.
(8) Adjustments, refunds, or credits of overwithheld amounts.
(9) Payments to joint owners.
(c) Definitions.
(1) Withholding.
(2) Foreign and U.S. person.
(3) Individual.
(i) Alien individual.
(ii) Nonresident alien individual.
(4) Certain foreign corporations.
(5) Financial institution and foreign financial institution.
(6) Beneficial owner.
(i) General rule.
(ii) Special rules for flow-through entities and arrangements.
(A) General rule.
(B) Trusts and estates.
(C) Definition of a flow-through entity or arrangement.
(7) Withholding agent.
(8) Person.
(9) Source of income.
(10) Chapter 3 of the Code.
(11) Reduced rate.
(d) Beneficial owner's or payee's claim of U.S. status.
(1) In general.
(2) Payments for which a Form W–9 is otherwise required.
(3) Payments for which a Form W–9 is not otherwise required.
(4) Other payments.
(e) Beneficial owner's claim of foreign status.
(1) Withholding agent's reliance.
(i) In general.
(ii) Payments that a withholding agent may treat as made to a foreign person that is a beneficial owner.
(A) General rule.
(B) Additional requirements.
(2) Beneficial owner withholding certificate.
(i) In general.
(ii) Requirements for validity of certificate.
(3) Intermediary, flow-through, or U.S. branch withholding certificate.
(i) In general.
(ii) Intermediary withholding certificate from a qualified intermediary.
(iii) Intermediary withholding certificate from an intermediary that is not a qualified intermediary.
(iv) Information to the withholding agent regarding assets owned by beneficial owners, etc.
(A) General rule.
(B) Updating the information.
(C) Examples.
(v) Withholding certificate from certain U.S. branches.
(vi) Reportable amounts.
(4) Applicable rules.
(i) Who may sign the certificate.
(ii) Period of validity.
(A) Three-year period.
(B) Indefinite validity period.
(C) Withholding certificate for effectively connected income.
(D) Change in circumstances.
(iii) Retention of withholding certificate.
(iv) Electronic transmission of information.
(v) Electronic confirmation of taxpayer identifying number on withholding certificate.
(vi) Acceptable substitute form.
(vii) Requirement of taxpayer identifying number.
(viii) Reliance rules.
(A) Classification.
(B) Status of payee as an intermediary or as a person acting for its own account.
(ix) Certificates to be furnished for each account unless exception applies.

(A) Coordinated account information system in effect.
(B) Family of mutual funds.
(C) Special rule for brokers.
(5) Qualified intermediaries.
(i) General rule.
(ii) Definition of qualified intermediary.
(iii) Withholding agreement.
(A) In general.
(B) Terms of the withholding agreement.
(iv) Assignment of primary withholding responsibility.
(v) Information to withholding agent regarding applicable withholding rates.
(A) General rule.
(B) Categories of assets.
(C) Updating the information.
(f) Effective date.
(1) In general.
(2) Transition rules.
(i) Special rules for existing documentation.
(ii) Lack of documentation for past years.

§ 1.1441–2 Amounts subject to withholding.

(a) In general.
(b) Fixed or determinable annual or periodical income.
(1) In general.
(i) Definition.
(ii) Manner of payment.
(iii) Determinability of amount.
(2) Exceptions.
(3) Original issue discount.
(i) General rule.
(ii) Amounts actually known to the withholding agent.
(iii) Amounts for which certain documentation is not furnished.
(iv) Exceptions to withholding.
(4) Securities lending transactions and equivalent transactions.
(c) Other income subject to withholding.
(d) Exceptions to withholding where no money or property is paid or lack of knowledge.
(1) General rule.
(2) Cancellation of debt.
(3) Satisfaction of liability following underwithholding by withholding agent.
(e) Payment.
(1) General rule.
(2) Income allocated under section 482.
(3) Blocked income.
(4) Special rules for dividends.
(5) Certain interest accrued by a foreign corporation.
(6) Payments other than in U.S. dollars.
(f) Effective date.

§ 1.1441–3 Determination of amounts to be withheld.

(a) Withholding on gross amount.
(b) Withholding on payments on certain obligations.
(1) Withholding at time of payment of interest.
(2) No withholding between interest payment dates.
(i) In general.
(ii) Anti-abuse rule.
(c) Corporate distributions.
(1) General rule.
(2) Exception to withholding on distributions.
(i) In general.
(ii) Reasonable estimate of accumulated and current earnings and profits on the date of payment.
(A) General rule.
(B) Procedures in case of underwithholding.
(C) Reliance by intermediary on reasonable estimate.
(D) Example.
(3) Special rules in the case of distributions from a regulated investment company.
(i) General rule
(ii) Reliance by intermediary on reasonable estimate.
(4) Coordination with withholding under section 1445.
(i) In general.
(A) Withholding under section 1441.
(B) Withholding under both sections 1441 and 1445.
(C) Coordination with REIT withholding.
(ii) Intermediary reliance rule.
(d) Withholding on payments that include an undetermined amount of income.
(1) In general.
(2) Withholding on certain gains.
(e) Payments other than in U.S. dollars.
(1) In general.
(2) Payments in foreign currency.
(f) Tax liability of beneficial owner satisfied by withholding agent.
(1) General rule.
(2) Example.
(g) Conduit financing arrangements
(h) Effective date.

§ 1.1441–4 Exemptions from withholding for certain effectively connected income and other amounts.

(a) Certain income connected with a U.S. trade or business.
(1) In general.
(2) Withholding agent's reliance on a claim of effectively connected income.
(i) In general.
(ii) Special rules for U.S. branches of foreign persons.
(A) U.S. branches of certain foreign banks or foreign insurance companies.
(B) Other U.S. branches.
(3) Income on notional principal contracts.
(i) General rule.
(ii) Exception for certain payments.
(b) Compensation for personal services of an individual.
(1) Exemption from withholding.
(2) Manner of obtaining withholding exemption under tax treaty.
(i) In general.

(ii) Withholding certificate claiming withholding exemption.
(iii) Review by withholding agent.
(iv) Acceptance by withholding agent.
(v) Copies of Form 8233.
(3) Withholding agreements.
(4) Final payments exemption.
(i) General rule.
(ii) Final payment of compensation for personal services.
(iii) Manner of applying for final payment exemption.
(iv) Letter to withholding agent.
(5) Requirement of return.
(6) Personal exemption.
(i) In general.
(ii) Multiple exemptions.
(iii) Special rule where both certain scholarship and compensation income are received.
(c) Special rules for scholarship and fellowship income.
(1) In general.
(2) Alternate withholding election.
(d) Annuities received under qualified plans.
(e) Per diem of certain alien trainees.
(f) Failure to receive withholding certificates timely or to act in accordance with applicable presumptions.
(g) Effective date.
(1) General rule.
(2) Transition rules.

§1.1441–5 Withholding on payments to partnerships, trusts, and estates.

(a) Rules of withholding applicable to payments to partnerships.
(b) Domestic partnerships.
(1) Exemption from withholding on payment to domestic partnerships.
(2) Withholding by a domestic partnership.
(i) In general.
(ii) Determination by the domestic partnership of partners' status.
(iii) Reliance on a partner's claim for reduced withholding.
(iv) Rules for reliably associating a payment with documentation.
(v) Coordination with chapter 61 of the Internal Revenue Code and section 3406.
(c) Foreign partnerships.
(1) Determination of payee.
(i) Payments treated as made to partners.
(ii) Payments treated as made to the partnership.
(iii) Rules for reliably associating a payment with documentation.
(iv) Example.
(2) Withholding foreign partnerships.
(i) Reliance on claim of withholding foreign partnership status.
(ii) Withholding agreement.
(A) In general.
(B) Terms of withholding agreement.
(iii) Withholding responsibility.
(iv) Withholding certificate from a withholding foreign partnership.
(3) Other foreign partnerships.
(i) Reliance on claim of foreign partnership status.
(ii) Reliance on claim of reduced withholding by a partnership for its partners.
(iii) Withholding certificate from a foreign partnership that is not a withholding foreign partnership.
(iv) Information to withholding agent regarding each partner's distributive share.
(v) Withholding by a foreign partnership.
(d) Presumptions regarding payee's status in the absence of documentation.
(1) In general.
(2) Determination of partnership's status as domestic or foreign in the absence of documentation.
(3) Determination of partners' status in the absence of certain documentation.
(i) Documentation regarding the status of a partner is lacking or unreliable.
(ii) Information regarding the allocation of payment is lacking or unreliable.
(iii) Certification that the foreign partnership has furnished documentation for all of the persons to whom the intermediary certificate relates is lacking or unreliable.
(iv) Determination by a withholding foreign partnership of the status of its partners.
(4) Examples.
(e) Trusts and estates. [Reserved]
(f) Failure to receive withholding certificate timely or to act in accordance with applicable presumptions.
(g) Effective date.
(1) General rule.
(2) Transition rules.

§1.1441–6 Claim of reduced withholding under an income tax treaty.

(a) In general.
(b) Reliance on claim of reduced withholding under an income tax treaty.
(1) In general.
(2) Exemption from requirement to furnish a taxpayer identifying number and special documentary evidence rules for certain income.
(i) General rule.
(ii) Income to which special rules apply.
(3) Competent authority agreements.
(4) Eligibility for reduced withholding under an income tax treaty in the case of a payment to a person other than an individual.
(i) General rule.
(ii) Withholding certificates.
(A) In general.
(B) Certification by qualified intermediary.
(iii) Multiple claims of treaty benefits.
(iv) Examples.
(5) Claim of benefits under an income tax treaty by a U.S. person.
(c) Proof of tax residence in a treaty country and certification of entitlement to treaty benefits. (1) In general.

(2) Certification of taxpayer identifying number.
(i) In general.
(ii) IRS-certified TIN.
(iii) Special rules for qualified intermediaries.
(3) Certificate of residence.
(4) Documentary evidence establishing residence in the treaty country.
(i) Individuals.
(ii) Persons other than individuals.
(5) Certifications regarding entitlement to treaty benefits.
(i) Certification regarding conditions under a Limitation on Benefits Article.
(ii) Certification regarding whether the taxpayer is deriving the income.
(d) Joint owners.
(e) Related party dividends under U.S.-Denmark income tax treaty.
(f) Failure to receive withholding certificate timely.
(g) Effective date.
(1) General rule.
(2) Transition rules.

§ 1.1441–7 General provisions relating to withholding agents.

(a) Withholding agent defined.
(b) Standards of knowledge.
(1) In general.
(2) Reason to know.
(i) In general.
(ii) Limits on reason to know in certain cases.
(3) Coordinated account information systems.
(c) Authorized agent.
(1) In general.
(2) Authorized foreign agent.
(3) Notification.
(4) Liability of U.S. withholding agent.
(5) Filing of returns.
(d) United States obligations.
(e) Assumed obligations.
(f) Conduit financing arrangements.
(g) Effective date.

§ 1.1441–8 Exemption from withholding for payments to foreign governments, international organizations, foreign central banks of issue, and the Bank for International Settlements.

(a) Foreign governments.
(b) Reliance on claim of exemption by foreign government.
(c) Income of a foreign central bank of issue or the Bank for International
Settlements.
(1) Certain interest income.
(2) Bankers' acceptances.
(d) Exemption for payments to international organizations.
(e) Failure to receive withholding certificate timely and other applicable procedures.
(f) Effective date.
(1) In general.
(2) Transition rules.

§ 1.1441–9 Exemption from withholding on exempt income of a foreign tax-exempt organization, including foreign private foundations.

(a) Exemption from withholding for exempt income.
(b) Reliance on foreign organization's claim of exemption from withholding.
(1) General rule.
(2) Withholding certificate.
(3) Presumptions in the absence of documentation.
(4) Reason to know.
(c) Failure to receive withholding certificate timely and other applicable procedures.
(d) Effective date.
(1) In general.
(2) Transition rules.

[T.D. 8734, 62 FR 53421, Oct. 14, 1997]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53421, Oct. 14, 1997, § 1.1441–0 was added, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1441–0 was delayed until Jan. 1, 2000.

§ 1.1441–1 Requirement for the deduction and withholding of tax on payments to foreign persons.

(a) *Purpose and scope.* This section, §§ 1.1441–2 through 1.1441–9, and 1.1443–1 provide rules for withholding under sections 1441, 1442, and 1443 when a payment is made to a foreign person. This section provides definitions of terms used in chapter 3 of the Internal Revenue Code (Code) and regulations thereunder. It prescribes procedures to determine whether an amount must be withheld under chapter 3 of the Code and documentation that a withholding agent may rely upon to determine the status of a payee or a beneficial owner as a U.S. person or as a foreign person and other relevant characteristics of the payee that may affect a withholding agent's obligation to withhold under chapter 3 of the Code and the regulations thereunder. Special procedures regarding payments to foreign persons that act as intermediaries are also provided. Section 1.1441–2 defines the income subject to withholding under section 1441, 1442, and 1443 and the regulations under these sections. Section 1.1441–3 provides rules regarding the amount subject to withholding. Section 1.1441–4 provides exemptions from withholding for, among other things, certain income effectively connected with the conduct of a trade or business in the United States, including certain compensation for the personal services of an individual. Section 1.1441–5 provides rules for withholding on payments made to flow-through entities and other similar arrangements. Section 1.1441–6 provides rules for claiming a reduced rate of withholding under an income tax treaty. Section 1.1441–7 defines the term *withholding agent* and provides due diligence rules governing a withholding agent's obligation to withhold. Section 1.1441–8 provides rules for relying on claims of exemption from withholding for payments to a foreign government, an international organization, a foreign central bank of issue, or the Bank for International Settlements. Sections 1.1441–9 and 1.1443–1 provide rules for relying on claims of exemption from withholding for payments to foreign tax exempt organizations and foreign private foundations.

(b) *General rules of withholding*—(1) *Requirement to withhold on payments to foreign persons.* A withholding agent must withhold 30-percent of any payment of an amount subject to withholding made to a payee that is a foreign person unless it can reliably associate the payment with documentation upon which it can rely to treat the payment as made to a beneficial owner that is a U.S. person or as made to a beneficial owner that is a foreign person entitled to a reduced rate of withholding. However, a withholding agent making a payment to a foreign person need not withhold where the foreign person assumes responsibility for withholding on the payment under chapter 3 of the Code and the regulations thereunder as a qualified intermediary (see paragraph (e)(5) of this section), as a U.S. branch of a foreign person (see paragraph (b)(2)(iv) of this section), as a withholding foreign partnership (see §1.1441–5(c)(2)(i)), or as an authorized foreign agent (see §1.1441–7(c)(1)). This section (dealing with general rules of withholding and claims of foreign or U.S. status by a payee or a beneficial owner), and §§1.1441–4, 1.1441–5, 1.1441–6, 1.1441–8, 1.1441–9, and 1.1443–1 provide rules for determining whether documentation is required as a condition for reducing the rate of withholding on a payment to a foreign beneficial owner or to a U.S. payee and if so, the nature of the documentation upon which a withholding agent may rely in order to reduce such rate. Paragraph (b)(2) of this section prescribes the rules for determining who the payee is, the extent to which a payment is treated as made to a foreign payee, and reliable association of a payment with documentation. Paragraph (b)(3) of this section describes the applicable presumptions for determining the payee's status as U.S. or foreign and the payee's other characteristics (i.e., as an owner or intermediary, as an individual, partnership, corporation, etc.). Paragraph (b)(4) of this section lists the types of payments for which the 30-percent withholding rate may be reduced. Because the treatment of a payee as a U.S. or a foreign person also has consequences for purposes of making an information return under the provisions of chapter 61 of the Code and for withholding under other provisions of the Code, such as sections 3402, 3405 or 3406, paragraph (b)(5) of this section lists applicable provisions outside chapter 3 of the Code that require certain payees to establish their foreign status (e.g., in order to be exempt from information reporting). Paragraph (b)(6) of this section describes the withholding obligations of a foreign person making a payment that it has received in its capacity as an intermediary. Paragraph (b)(7) of this section describes the liability of a withholding agent that fails to withhold at the required 30-percent rate in the absence of documentation. Paragraph (b)(8) of this section deals with adjustments and refunds in the case of overwithholding. Paragraph (b)(9) of this section deals with determining the status of the payee when the payment is jointly owned. See paragraph (c)(6) of this section for a definition of beneficial owner. See §1.1441–7(a) for a definition of withholding agent. See §1.1441–2(a) for the determination of an amount subject to withholding. See §1.1441–2(e) for the definition of a payment and when it is considered made. Except as otherwise provided, the provisions of this section apply only for purposes of determining a withholding agent's obligation to withhold under chapter 3 of the Code and the regulations thereunder.

(2) *Determination of payee and payee's status*—(i) *In general.* Except as otherwise provided in this paragraph (b)(2), a payee is the person to whom a payment is made, regardless of whether such person is the beneficial owner of the amount (as defined in paragraph (c)(6) of this section). A foreign payee is a payee who is a foreign person. A U.S. payee is a payee who is a U.S. person. Generally, the determination by a withholding agent of the U.S. or foreign status of a payee and of its other relevant characteristics (e.g., as a beneficial owner or intermediary, or as an individual, corporation, or flow-through entity) is made on the basis of a withholding certificate that is a Form W–8 or a Form 8233 (indicating foreign status of the payee or beneficial owner) or a Form W–9 (indicating U.S. status of the payee). The provisions of this paragraph (b)(2), paragraph (b)(3) of this section, and § 1.1441–5 (c), (d), and (e) dealing with determinations of payee and applicable presumptions in the absence of documentation, apply only to payments of amounts subject to withholding under chapter 3 of the Code (within the meaning of § 1.1441–2(a)). Similar payee and presumption provisions are set forth under § 1.6049–5(d) for payments of amounts that are not subject to withholding under chapter 3 of the Code (or the regulations thereunder) but that may be reportable under provisions of chapter 61 of the Code (and the regulations thereunder). See paragraph (d) of this section for documentation upon which the withholding agent may rely in order to treat the payee or beneficial owner as a U.S. person. See paragraph (e) of this section for documentation upon which the withholding agent may rely in order to treat the payee or beneficial owner as a foreign person. For applicable presumptions of status in the absence of documentation, see paragraph (b)(3) of this section and § 1.1441–5(d). For definitions of a foreign person and U.S. person, see paragraph (c)(2) of this section.

(ii) *Payments to a U.S. agent of a foreign person.* A withholding agent making a payment to a U.S. person (other than to a U.S. branch that is treated as a U.S. person pursuant to paragraph (b)(2)(iv) of this section) and who has actual knowledge that the U.S. person receives the payment as an agent of a foreign person must treat the payment as made to the foreign person. However, the withholding agent may treat the payment as made to the U.S. person if the U.S. person is a financial institution and the withholding agent has no reason to believe that the financial institution will not comply with its obligation to withhold. See paragraph (c)(5) of this section for the definition of a financial institution.

(iii) *Payments to wholly-owned entities*—(A) *Foreign-owned domestic entity.* A payment to a wholly-owned domestic entity that is disregarded for federal tax purposes under § 301.7701–2(c)(2) of this chapter as an entity separate from its owner and whose single owner is a foreign person shall be treated as a payment to the owner of the entity, subject to the provisions of paragraph (b)(2)(iv) of this section. For purposes of this paragraph (b)(2)(iii)(A), a domestic entity means a person that would be treated as a U.S. person if it had an election in effect under § 301.7701–3(c)(1)(i) of this chapter to be treated as a corporation. For example, a limited liability company, A, organized under the laws of the State of Delaware, opens an account at a U.S. bank. Upon opening of the account, the bank requests A to furnish a Form W–9 as required under section 6049(a) and the regulations under that section. A does not have an election in effect under § 301.7701–3(c)(1)(i) of this chapter and, therefore, is not treated as an organization taxable as a corporation, including for purposes of the exempt recipient provisions in § 1.6049–4(c)(1). If A has a single owner and the owner is a foreign person (as defined in paragraph (c)(2) of this section), then A may not furnish a Form W–9 because it may not represent that it is a U.S. person for purposes of the provisions of chapters 3 and 61 of the Code, and section 3406. Therefore, A must furnish a Form W–8 with the name, address, and taxpayer identifying number (TIN) (if required) of the foreign person who is the single owner in the same manner as if the account were opened directly by the foreign single owner. See §§ 1.894–1T(d) and

1.1441–6(b)(4) for special rules where the entity's owner is claiming a reduced rate of withholding under an income tax treaty.

(B) *Foreign entity.* A payment to a wholly-owned foreign entity that is disregarded under §301.7701–2(c)(2) of this chapter as an entity separate from its owner shall be treated as a payment to the single owner of the entity, subject to the provisions of paragraph (b)(2)(iv) of this section if the foreign entity has a U.S. branch in the United States. For purposes of this paragraph (b)(2)(iii)(B), a foreign entity means a person that would be treated as a foreign person if it had an election in effect under §301.7701–3(c)(1)(i) of this chapter to be treated as a corporation. See §§1.894–1T(d) and 1.1441–6(b)(4) for special rules where the foreign entity or its owner is claiming a reduced rate of withholding under an income tax treaty. Thus, for example, if the foreign entity's single owner is a U.S. person, the payment shall be treated as a payment to a U.S. person. Therefore, based on the saving clause in U.S. income tax treaties, such an entity may not claim benefits under an income tax treaty even if the entity is organized in a country with which the United States has an income tax treaty in effect and treats the entity as a non-fiscally transparent entity. See §1.894–1T(d)(6), *Example 10.* Unless it has actual knowledge or reason to know that the foreign entity to whom the payment is made is disregarded under §301.7701–2(c)(2) of this chapter, a withholding agent may treat a foreign entity as an entity separate from its owner unless it can reliably associate the payment with a withholding certificate from the entity's owner.

(iv) *Payments to a U.S. branch of certain foreign banks or foreign insurance companies*—(A) *U.S. branch treated as a U.S. person in certain cases.* A payment to the U.S. branch of a foreign person is a payment to the foreign person. However, a U.S. branch described in this paragraph (b)(2)(iv)(A) and a withholding agent (including another U.S. branch described in this paragraph (b)(2)(iv)(A)) may agree to treat the branch as a U.S. person for purposes of withholding on specified payments to the U.S. branch. Such agreement must be evidenced by a U.S. branch withholding certificate described in paragraph (e)(3)(v) of this section furnished by the U.S. branch to the withholding agent. A U.S. branch described in this paragraph (b)(2)(iv)(A) is any U.S. branch of a foreign bank subject to regulatory supervision by the Federal Reserve Board or a U.S. branch of a foreign insurance company required to file an annual statement on a form approved by the National Association of Insurance Commissioner with the Insurance Department of a State, a Territory, or the District of Columbia. The Internal Revenue Service (IRS) may approve a list of U.S. branches that may qualify for treatment as a U.S. person under this paragraph (b)(2)(iv)(A) (see §601.601(d)(2) of this chapter).

(B) *Consequences to the withholding agent.* Any person that is otherwise a withholding agent regarding a payment to a U.S. branch described in paragraph (b)(2)(iv)(A) of this section shall treat the payment in one of the following ways—

(*1*) As a payment to a U.S. person, in which case the withholding agent is not responsible for withholding on such payment to the extent it can reliably associate the payment with a withholding certificate described in paragraph (e)(3)(v) of this section that has been furnished by the U.S. branch under its agreement with the withholding agent to be treated as a U.S. person;

(*2*) As a payment directly to the persons whose names are on withholding certificates or other appropriate documentation forwarded by the U.S. branch to the withholding agent when no agreement is in effect to treat the U.S. branch as a U.S. person for such payment, to the extent the withholding agent can reliably associate the payment with such certificates or documentation; or

(*3*) As a payment to a foreign person of income that is effectively connected with the conduct by that foreign person of a trade or business in the United States if the withholding agent cannot reliably associate the payment with a certificate from the U.S. branch or any other certificate or other appropriate documentation from another person.

(C) *Consequences to the U.S. branch.* A U.S. branch that is treated as a U.S. person under paragraph (b)(2)(iv)(A) of this section shall be treated as a person for purposes of section 1441(a) and all other provisions of chapter 3 of the Code and the regulations thereunder for any payment that it receives as such. Thus, the U.S. branch shall be responsible for withholding on the payment in accordance with the provisions under chapter 3 of the Code and the regulations thereunder and other applicable withholding provisions of the Code. For this purpose, it shall obtain and retain documentation from payees or beneficial owners of the payments that it receives as a U.S. person in the same manner as if it were a separate entity. For example, if a U.S. branch receives a payment on behalf of its home office and the home office is a qualified intermediary, the U.S. branch must obtain a withholding certificate described in paragraph (e)(3)(ii) of this section from its home office. In addition, a U.S. branch that has not provided documentation to the withholding agent for a payment that is, in fact, not effectively connected income is a withholding agent with respect to that payment. See paragraph (b)(6) of this section.

(D) *Definition of payment to a U.S. branch.* A payment is treated as a payment to a U.S. branch of a foreign bank or foreign insurance company if the payment is credited to an account maintained in the United States in the name of a U.S. branch of the foreign person, or the payment is made to an address in the United States where the U.S. branch is located and the name of the U.S. branch appears on documents (in written or electronic form) associated with the payment (e.g., the check mailed or a letter addressed to the branch).

(E) *Payments to other U.S. branches.* Similar withholding procedures may apply to payments to U.S. branches that are not described in paragraph (b)(2)(iv)(A) of this section to the extent permitted by the district director or the Assistant Commissioner (International). Any such branch must establish that its situation is analogous to that of a U.S. branch described in paragraph (b)(2)(iv)(A) of this section regarding its registration with, and regulation by, a U.S. governmental institution, the type and amounts of assets it is required to, or actually maintains in the United States, and the personnel who carry out the activities of the branch in the United States. In the alternative, the branch must establish that the withholding and reporting requirements under chapter 3 of the Code and the regulations thereunder impose an undue administrative burden and that the collection of the tax imposed by section 871(a) or 881(a) on the foreign person (or its members in the case of a foreign partnership) will not be jeopardized by the exemption from withholding. Generally, an undue administrative burden will be found to exist in a case where the person entitled to the income, such as a foreign insurance company, receives from the withholding agent income on securities issued by a single corporation, some of which is, and some of which is not, effectively connected with conduct of a trade or business within the United States and the criteria for determining the effective connection are unduly difficult to apply because of the circumstances under which such securities are held. No exemption from withholding shall be granted under this paragraph (b)(2)(iv)(E) unless the person entitled to the income complies with such other requirements as may be imposed by the district director or the Assistant Commissioner (International) and unless the district director or the Assistant Commissioner (International) is satisfied that the collection of the tax on the income involved will not be jeopardized by the exemption from withholding. The IRS may prescribe such procedures as are necessary to make these determinations (see § 601.601(d)(2) of this chapter).

(v) *Payments to a foreign intermediary*—(A) *Payments treated as made to persons for whom the intermediary collects the payment.* Except as otherwise provided in paragraph (b)(2)(v)(B) of this section, a payment to a person that the withholding agent may treat as a foreign intermediary in accordance with the provisions of paragraph (b)(3)(v)(A) of this section is treated as a payment made directly to the person or persons for whom the intermediary collects the payment. Thus, for example, a payment that the withholding agent can reliably associate with a withholding certificate from a qualified intermediary (defined in paragraph (e)(5)(ii) of this section) and that is allocable to the category of assets described in paragraph (e)(5)(v)(B)(*3*) of this section (i.e., assets allocable to persons for whom the foreign qualified intermediary does not hold documentation as specified under its agreement with the IRS) is treated as a payment to the persons holding assets in that category. See paragraph (b)(3)(v)(B) of this section for applicable presumptions in such a case. For similar rules for payments to flow-through entities, see §1.1441–5 (c)(1)(i) and (e).

(B) *Payments treated as made to foreign intermediary.* A payment to a person that the withholding agent can reliably associate with a withholding certificate described in paragraph (e)(3)(ii) of this section from a qualified intermediary that has elected to assume primary withholding responsibility in accordance with paragraph (e)(5)(iv) of this section is treated as a payment to the qualified intermediary, except to the extent of the portion of the payment that the withholding agent can reliably associate with Forms W–9. See paragraphs (b)(1) and (e)(5)(iv) of this section for consequences to the withholding agent.

(vi) *Other payees.* A payment to a person described in §1.6049–4(c)(1)(ii) that the withholding agent would treat as a payment to a foreign person without obtaining documentation for purposes of information reporting under section 6049 (if the payment were interest) is treated as a payment to a foreign payee for purposes of chapter 3 of the Code and the regulations thereunder (or to a foreign beneficial owner to the extent provided in paragraph (e)(1)(ii)(A) (*6*) or (*7*) of this section). Further, payments that the withholding agent can reliably associate with documentary evidence described in §1.6049–5(c)(4) relating to the payee is treated as a payment to a foreign payee. A payment that the withholding agent may treat as a payment to an authorized foreign agent (as defined in §1.1441–7(c)(2)) is treated as a payment to the agent and not to the persons for whom the agent collects the payment. See §1.1441–5 (b)(1) and (c)(1) for payee determinations for payments to partnerships. See §1.1441–5(e) for payee determinations for payments to foreign trusts or foreign estates.

(vii) *Rules for reliably associating a payment with documentation.* Generally, a withholding agent can reliably associate a payment with documentation if, for that payment, it holds valid documentation to which the payment relates, it can reliably determine how much of the payment relates to the valid documentation (e.g., based on information furnished in accordance with paragraph (e)(3)(iv) or (5)(v) of this section in the case of a payment to a foreign intermediary or in accordance with §1.1441–5(c)(3)(iv) in the case of a payment to a foreign partnership), and it has no actual knowledge or reason to know that any of the information or certifications stated in the documentation are incorrect. The documentation referred to in this paragraph (b)(2)(vii) is documentation described in paragraph (d) or (e) of this section upon which a withholding agent may rely in order to treat the payment as a payment made to a payee or beneficial owner that is a U.S. or a foreign person, and to ascertain the characteristics of the payee or beneficial owner, as may be relevant to withholding or reporting under chapter 3 of the Code and the regulations thereunder (e.g., beneficial owner or intermediary, corporation or partnership). For purposes of this paragraph (b)(2)(vii), documentation also includes a withholding certificate described in paragraph (e)(3)(ii) of this section from a person representing to be a qualified intermediary that has assumed primary withholding responsibility, a withholding certificate described in paragraph (e)(3)(v) of this section from a person representing to be a U.S. branch described in paragraph (b)(2)(iv)(A) of this section, a withholding certificate described in §1.1441–5(c)(2)(iv) from a person representing to be a withholding foreign partnership, and the agreement that the withholding agent has in effect with an authorized foreign agent in accordance with §1.1441–7(c)(2)(i). A withholding agent that is not required to obtain documentation with respect to a payment is considered to lack documentation for purposes of this paragraph (b)(2)(vii). For example, a withholding agent paying U.S. source interest to a person that is an exempt recipient, as defined in § 1.6049–4(c)(1)(ii), is not required to obtain documentation from that person in order to determine whether an amount paid to that person is reportable under an applicable information reporting provision under chapter 61 of the Code. Therefore, the withholding agent may rely on the provisions of paragraph (b)(3)(iii)(A) of this section to determine whether the person is presumed to be a U.S. person (in which case, no withholding is required under this section), or whether the person is presumed to be a foreign person (in which case 30-percent withholding is required under this section). See paragraph (b)(3)(v)(A) of this section for special reliance rules in the case of a payment to a foreign intermediary and § 1.1441–5(d)(3) for special reliance rules in the case of a payment to a foreign partnership.

(3) *Presumptions regarding payee's status in the absence of documentation*—(i) *General rules.* A withholding agent that cannot reliably associate a payment with documentation may rely on the presumptions of this paragraph (b)(3) in order to determine the status of the payee as a U.S. or a foreign person and the payee's other relevant characteristics (e.g., as an owner or intermediary, as an individual, trust, partnership, or corporation). The determination of withholding and reporting requirements applicable to payments to a person presumed to be a foreign person is governed only by the provisions of chapter 3 of the Code and the regulations thereunder. For the determination of withholding and reporting requirements applicable to payments to a person presumed to be a U.S. person, see chapter 61 of the Code, section 3402, 3405, or 3406, and the regulations under these provisions. A presumption that a payee is a foreign payee is not a presumption that the payee is a foreign beneficial owner. Therefore, the provisions of this paragraph (b)(3) have no effect for purposes of reducing the withholding rate if associating the payment with documentation of foreign beneficial ownership is required as a condition for such rate reduction. See paragraph (b)(3)(ix) of this section for consequences to a withholding agent that fails to withhold in accordance with the presumptions set forth in this paragraph (b)(3) or if the withholding agent has actual knowledge or reason to know of facts that are contrary to the presumptions set forth in this paragraph (b)(3). See paragraph (b)(2)(vii) of this section for rules regarding the extent which a withholding agent can reliably associate a payment with documentation.

(ii) *Presumptions of status as individual, corporation, partnership, etc.* A withholding agent that cannot reliably associate a payment with documentation must presume that the payee is an individual, a trust, or an estate, if the payee appears to be such person (i.e., based on the payee's name or other indications). In the absence of reliable indications that the payee is an individual, estate, or trust, the withholding agent must presume that the payee is a corporation or one of the persons enumerated under § 1.6049–4(c)(1)(ii) (B) through (Q) if it can be so treated under § 1.6049–4(c)(1)(ii)(A)(*1*) or any one of the paragraphs under § 1.6049–4(c)(1)(ii) (B) through (Q) without the need to furnish documentation. If the withholding agent cannot treat a payee as a person described in § 1.6049–4(c)(1)(ii) (A)(*1*) through (Q), then the payee shall be presumed to be a partnership. The fact that a payee is presumed to have a certain status under the provisions of this paragraph (b)(3)(ii) does not mean that it is excused from furnishing documentation, if documentation is otherwise required in order to obtain a reduced rate of withholding under this section. For example, if, for purposes of this paragraph (b)(3)(ii), a payee is presumed to be a tax-exempt organization based on § 1.6049–4(c)(1)(ii)(B), the withholding agent cannot rely on this presumption to reduce the rate of withholding on payments to such person (if such person is also presumed to be a foreign person under paragraph (b)(3)(iii)(A) of this section) because a reduction in the rate of withholding for payments to a foreign tax-exempt organization generally requires that a valid Form W–8 described in §1.1441–9(b)(2) be furnished to the withholding agent.

(iii) *Presumption of U.S. or foreign status.* A payment that the withholding agent cannot reliably associate with documentation is presumed to be made to a U.S. person, except as otherwise provided in this paragraph (b)(3)(iii), in paragraphs (b)(3) (iv) and (v) of this section, or in §1.1441–5 (d) or (e).

(A) *Payments to exempt recipients.* If a withholding agent cannot reliably associate a payment with documentation from the payee and the payee is an exempt recipient (as determined under the provisions of §1.6049–4(c)(1)(ii) in the case of interest, or under similar provisions under chapter 61 of the Code applicable to the type of payment involved, but not including a payee that the withholding agent may treat as a foreign intermediary in accordance with paragraph (b)(3)(v) of this section), the payee is presumed to be a foreign person and not a U.S. person—

(*1*) If the withholding agent has actual knowledge of the payee's employer identification number and that number begins with the two digits ''98'';

(*2*) If the withholding agent's communications with the payee are mailed to an address in a foreign country;

(*3*) If the name of the payee indicates that the entity is the type of entity that is on the per se list of foreign corporations contained in §301.7701–2(b)(8)(i) of this chapter; or

(*4*) If the payment is made outside the United States (as defined in §1.6049–5(e)).

(B) *Scholarships and grants.* A payment representing taxable scholarship or fellowship grant income that does not represent compensation for services (but is not excluded from tax under section 117) and that a withholding agent cannot reliably associate with documentation is presumed to be made to a foreign person if the withholding agent has a record that the payee has a U.S. visa that is not an immigrant visa. See section 871(c) and §1.1441–4(c) for applicable tax rate and withholding rules.

(C) *Pensions, annuities, etc.* A payment from a trust described in section 401(a), an annuity plan described in section 401(a), an annuity plan described in section 403(a), or a payment with respect to any annuity, custodial account, or retirement income account described in section 403(b) that a withholding agent cannot reliably associate with documentation is presumed to be made to a U.S. person only if the withholding agent has a record of a Social Security number for the payee and relies on a mailing address described in the following sentence. A mailing address is an address used for purposes of information reporting or otherwise communicating with the payee that is an address in the United States or in a foreign country with which the United States has an income tax treaty in effect that provides that the payee, if an individual resident in that country, would be entitled to an exemption from U.S. tax on amounts described in this paragraph (b)(3)(iii)(C). Any payment described in this paragraph (b)(3)(iii)(C) that is not presumed made to a U.S. person is presumed to be made to a foreign person. A withholding agent making a payment to a person presumed to be a foreign person may not reduce the 30-percent amount of withholding required on such payment unless it receives a withholding certificate described in paragraph (e)(2)(i) of this section furnished by the beneficial owner. For basis of reduction in the 30-percent rate, see §1.1441–4(d) or §1.1441–6(b).

(D) *Certain payments to offshore accounts.* A payment that would be subject to withholding under section 1441, 1442, or 1443 if made to a foreign person and is exempt from backup withholding under section 3406 by reason of §31.3406(g)–1(e) of this chapter (relating to exemption from backup withholding under section 3406 for certain payments to offshore accounts) is presumed to be made to a foreign payee.

(iv) *Grace period in the case of indicia of a foreign payee.* A withholding agent may choose, in its discretion, to apply the provisions of §1.6049–5(d)(2)(ii) regarding a 90-day grace period for purposes of this paragraph (b)(3) (by substituting the term *withholding agent* for the term *payor*) to amounts described in §1.1441–6(b)(2)(ii) and to amounts covered by a Form 8233 described in §1.1441–4(b)(2)(ii). Thus, for these amounts, a withholding agent may, in its discretion, choose to treat an account holder as a foreign person and withhold under chapter 3 of the Code (and the regulations thereunder) while awaiting documentation. For purposes of determining the rate of withholding under this section, the withholding agent must withhold at the unreduced 30-percent rate at the time that the amounts are credited to the account. However, a withholding agent who can reliably associate the payment with a withholding certificate that is otherwise valid within the meaning of the applicable provisions except for the fact that it is transmitted by facsimile may rely on that facsimile form for purposes of withholding at the claimed reduced rate. For reporting of amounts credited both before and after the grace period, see § 1.1461–1(c)(7). The following adjustments shall be made at the expiration of the grace period:

(A) If, at the end of the grace period, the documentation is not furnished in the manner required under this section and the account holder is presumed to be a U.S. person who is not an exempt recipient, then backup withholding applies to amounts credited to the account after the expiration of the grace period only. Amounts credited to the account during the grace period shall be treated as owned by a foreign payee and adjustments must be made to correct any underwithholding on such amounts in the manner described in § 1.1461–2.

(B) If, at the end of the grace period, the documentation is not furnished in the manner required under this section and the account holder is presumed to be a foreign person, or if documentation is furnished that does not support the claimed rate reduction, then adjustments must be made to correct the underwithholding on amounts credited to the account during the grace period, based on adjustment procedures described in § 1.1461–2.

(v) *Special rules applicable to payments to foreign intermediaries*—(A) *Reliance on claim of status as foreign intermediary.* A withholding agent that can reliably associate a payment with a withholding certificate described in paragraph (e)(3) (ii) or (iii) of this section may treat the payment as made to a foreign intermediary, as represented in the certificate. For this purpose, a U.S. person's foreign branch that is a qualified intermediary defined in paragraph (e)(5)(ii) of this section shall be treated as a foreign intermediary. For purposes of this section, a payment that the withholding agent can reliably associate with a withholding certificate described in paragraph (e)(3) (ii) or (iii) of this section that would be valid except for the fact that some or all of the withholding certificates or other appropriate documentation required to be attached are lacking or are unreliable or that information for allocating the payment among the various persons for whom the intermediary is acting is lacking or is unreliable shall nevertheless be treated as a payment to a foreign intermediary and the rules of this paragraph (b)(3)(v) shall apply accordingly. A payee that the withholding agent may not reliably treat as a foreign intermediary under this paragraph (b)(3)(v)(A) is presumed to be an owner whose status as an individual, trust, estate, etc., must be determined in accordance with paragraph (b)(3)(ii) of this section, to the extent relevant. In addition, such payee is presumed to be a U.S. or a foreign payee based upon the presumptions described in paragraph (b)(3)(iii) of this section. The provisions of paragraphs (b)(3)(v) (B), (C), and (D) of this section are not relevant to a withholding agent that can reliably associate a payment with a withholding certificate from a person representing to be a qualified intermediary that has assumed primary withholding responsibility in accordance with paragraph (e)(5)(iv) of this section.

(B) *Beneficial owner documentation is lacking or unreliable.* Any portion of a payment that the withholding agent may treat as made to a foreign intermediary in accordance with paragraph (b)(3)(v)(A) of this section but cannot reliably associate with a beneficial owner due to the lack of a withholding certificate or other appropriate documentation for that beneficial owner is presumed to be made to a foreign payee for whom the foreign intermediary collects the payment (see paragraph (b)(2)(v) of this section). For purposes of this paragraph (b)(2)(v)(B), any payment that a foreign qualified intermediary represents to be allocable to the category of assets described in paragraph (e)(5)(v)(B)(*3*) of this section (i.e., assets allocable to persons for whom the qualified intermediary does not hold documentation as specified under its agreement with the IRS) is treated as a payment that the withholding agent cannot reliably associate with beneficial owners. As a result, any payment allocable to such category of assets is presumed to be made to an unidentified foreign payee. Under paragraph (b)(1) of this section, a payment to a foreign payee is subject to withholding at a 30-percent rate.

(C) *Information regarding allocation of payment is lacking or unreliable.* If a withholding agent can reliably associate a payment with a group of beneficial owners or payees but lacks reliable information to determine how much of the payment is allocable to one or more of the beneficial owners or payees in the group (because, for example, the statement described in paragraph (e)(3)(iv) of this section has not been furnished), the payment, to the extent it cannot reliably be allocated, is presumed to be allocable entirely to the beneficial owner or payee in the group with the highest applicable withholding rate or, if the rates are equal, to the beneficial owner or payee in the group with the highest U.S. tax liability, as the withholding agent shall estimate, based on its knowledge and available information. If a withholding certificate attached to an intermediary certificate is another intermediary certificate or a certificate from a foreign partnership described in §1.1441–5(c)(3)(iii), the rules of this paragraph (b)(3)(v)(C) apply by treating the share of the payment allocable to the other intermediary or to the foreign partnership as if the payment were made directly to the other intermediary or to the foreign partnership.

(D) *Certification that the foreign intermediary has furnished documentation for all of the persons to whom the intermediary certificate relates is lacking or unreliable.* If the certification required under paragraph (e)(3)(iii)(D) of this section (that the attached withholding certificates and other appropriate documentation represent all of the persons to whom the intermediary withholding certificate relates) is lacking or is unreliable and, as a result, the withholding agent cannot reliably determine how much of the payment is allocable to each of the persons or group of persons for which the withholding agent holds a withholding certificate or other appropriate documentation, then none of the payment can reliably be associated with any one person and the entire payment is presumed to be made to an unidentified foreign payee for whom the intermediary collects the payment and from which a 30-percent amount must be withheld in accordance with paragraph (b)(1) of this section.

(vi) *U.S. branches and foreign flow-through entities.* The rules of paragraphs (b)(3)(v) (B), (C), and (D) of this section shall apply to payments to a U.S. branch described in paragraph (b)(2)(iv)(A) of this section that has agreed to assume withholding responsibility in the same manner that they apply to payments to a foreign intermediary. See §1.1441–5(d) for similar rules in the case of payments to foreign partnerships. See §1.1441–5(e) for similar rules in the case of payments to foreign trusts or foreign estates.

(vii) *Joint payees.* A payment made to joint payees for whom the withholding agent cannot reliably associate documentation for all joint payees or can reliably associate the payment with a Form W–9 furnished in accordance with the procedures described in §§31.3406(d)–1 through 31.3406(d)–5 of this chapter from one of the joint payees is presumed to be made to U.S. persons. For purposes of applying this paragraph (b)(3), the grace period rules in paragraph (b)(3)(iv) of this section shall apply only if each payee qualifies for the conditions described in paragraph (b)(3)(iv) of this section. However, as provided in paragraph (b)(3)(iii)(D) of this section, a payment of an amount that would be subject to withholding under section 1441, 1442, or 1443 if paid to a foreign person and is exempt from the application of the provisions of section 3406 by reason of §31.3406(g)–1(e) of this chapter (relating to exemption from backup withholding under section 3406 of the Code for certain payments made with respect to offshore accounts), is presumed to be made to foreign persons.

(viii) *Rebuttal of presumptions.* A payee or beneficial owner may rebut the presumptions described in this paragraph (b)(3) by providing reliable documentation to the withholding agent or, if applicable, to the IRS.

(ix) *Effect of reliance on presumptions and of actual knowledge or reason to know otherwise*—(A) *General rule.* Except as otherwise provided in paragraph (b)(3)(ix)(B) of this section, a withholding agent that withholds on a payment under section 3402, 3405 or 3406 in accordance with the presumptions set forth in this paragraph (b)(3) shall not be liable for withholding under this section even it is later established that the beneficial owner of the payment is, in fact, a foreign person. Similarly, a withholding agent that withholds on a payment under this section in accordance with the presumptions set forth in this paragraph (b)(3) shall not be liable for withholding under section 3402 or 3405 or for backup withholding under section 3406 even if it is later established that the payee or beneficial owner is, in fact, a U.S. person. A withholding agent that, instead of relying on the presumptions described in this paragraph (b)(3), relies on its own actual knowledge to withhold a lesser amount, not withhold, or not report a payment, even though reporting of the payment or withholding a greater amount would be required if the withholding agent relied on the presumptions described in this paragraph (b)(3) shall be liable for tax, interest, and penalties to the extent provided under section 1461 and the regulations under that section. See paragraph (b)(7) of this section for provisions regarding such liability if the withholding agent fails to withhold in accordance with the presumptions described in this paragraph (b)(3).

(B) *Actual knowledge or reason to know that amount of withholding is greater than is required under the presumptions or that reporting of the payment is required.* Notwithstanding the provisions of paragraph (b)(3)(ix)(A) of this section, a withholding agent may not rely on the presumptions described in this paragraph (b)(3) to the extent it has actual knowledge or reason to know that the status or characteristics of the payee or of the beneficial owner are other than what is presumed under this paragraph (b)(3) and, if based on such knowledge or reason to know, it should withhold (under this section or another withholding provision of the Code) an amount greater than would be the case if it relied on the presumptions described in this paragraph (b)(3) or it should report (under this section or under another provision of the Code) an amount that would not otherwise be reportable if it relied on the presumptions described in this paragraph (b)(3). In such a case, the withholding agent must rely on its actual knowledge or reason to know rather than on the presumptions set forth in this paragraph (b)(3). Failure to do so and, as a result, failure to withhold the higher amount or to report the payment, shall result in liability for tax, interest, and penalties to the extent provided under sections 1461 and 1463 and the regulations under those sections.

(x) *Examples.* The provisions of this paragraph (b)(3) are illustrated by the following examples:

Example 1. A withholding agent, W, makes a payment of U.S. source dividends to person X, Inc. at an address outside the United States. W cannot reliably associate the payment to X with documentation. Under §§ 1.6042–3(b)(1)(vii) and 1.6049–4(c)(1)(ii)(A)(*1*), W may treat X as a corporation. Thus, under the presumptions described in paragraph (b)(3)(iii) of this section, W must presume that X is a foreign person (because the payment is made outside the United States). However, W knows that X is a U.S. person who is an exempt recipient. W may not rely on its actual knowledge to not withhold under this section. If W's knowledge is, in fact, incorrect, W would be liable for tax, interest, and, if applicable, penalties, under section 1461. W would be permitted to reduce or eliminate its liability for the tax by establishing, in accordance with paragraph (b)(7) of this section, that the tax is not due or has been satisfied. If W's actual knowledge is, in fact, correct, W may nevertheless be liable for tax, interest, or penalties under section 1461 for the amount that W should have withheld based upon the presumptions. W would be permitted to reduce or eliminate its liability for the tax by establishing, in accordance with paragraph (b)(7) of this section, that its actual knowledge was, in fact, correct and that no tax or a lesser amount of tax was due.

Example 2. A withholding agent, W, makes a payment of U.S. source dividends to Y who does not qualify as an exempt recipient under §§1.6042–3(b)(1)(vii) and 1.6049–4(c)(1)(ii). W cannot reliably associate the payment to Y with documentation. Under the presumptions described in paragraph (b)(3)(iii) of this section, W must presume that Y is a U.S. person who is not an exempt recipient for purposes of section 6042. However, W knows that Y is a foreign person. W may not rely on its actual knowledge to withhold under this section rather than backup withhold under section 3406. If W's knowledge is, in fact, incorrect, W would be liable for tax, interest, and, if applicable, penalties, under section 3403. If W's actual knowledge is, in fact, correct, W may nevertheless be liable for tax, interest, or penalties under section 3403 for the amount that W should have withheld based upon the presumptions. Paragraph (b)(7) of this section does not apply to provide relief from liability under section 3403.

Example 3. A withholding agent, W, makes a payment of U.S. source dividends to X, Inc. W cannot reliably associate the payment to X, Inc. with documentation. X, Inc. presents none of the indicia of foreign status described in paragraph (b)(3)(iii)(A) of this section, but W has actual knowledge that X, Inc. is a foreign corporation. W may treat X, Inc. as an exempt recipient under §1.6042–3(b)(1)(vii). Because there are no indicia of foreign status, W would, absent actual knowledge or reason to know otherwise, be permitted to treat X, Inc. as a domestic corporation in accordance with the presumptions of paragraph (b)(3)(iii) of this section. However, under paragraph (b)(3)(ix)(B) of this section, W may not rely on the presumption of U.S. status since reliance on its actual knowledge requires that it withhold an amount greater than would be the case under the presumptions.

Example 4. A withholding agent, W, is a plan administrator who makes pension payments to person X with a mailing address in a foreign country with which the United States has an income tax treaty in effect. Under that treaty, the type of pension income paid to X is taxable solely in the country of residence. The plan administrator has a record of X's U.S. social security number. W has no actual knowledge or reason to know that X is a foreign person. W may rely on the presumption of paragraph (b)(3)(iii)(C) of this section in order to treat X as a U.S. person. Therefore, any withholding and reporting requirements for the payment are governed by the provisions of section 3405 and the regulations under that section.

(4) *List of exemptions from, or reduced rates of, withholding under chapter 3 of the Code.* A withholding agent that has determined that the payee is a foreign person for purposes of paragraph (b)(1) of this section must determine whether the payee is entitled to a reduced rate of withholding under section 1441, 1442, or 1443. This paragraph (b)(4) identifies items for which a reduction in the rate of withholding may apply and whether the rate reduction is conditioned upon documentation being furnished to the withholding agent. Documentation required under this paragraph (b)(4) is documentation that a withholding agent must be able to associate with a payment upon which it can rely to treat the payment as made to a foreign person that is the beneficial owner of the payment in accordance with paragraph (e)(1)(ii) of this section. This paragraph (b)(4) also cross-references other sections of the Code and applicable regulations in which some of these exceptions, exemptions, or reductions are further explained. See, for example, paragraph (b)(4)(viii) of this section, dealing with effectively connected income, that cross-references §1.1441–4(a); see paragraph (b)(4)(xv) of this section, dealing with exemptions from, or reductions of, withholding under an income tax treaty, that cross-references §1.1441–6. This paragraph (b)(4) is not an exclusive list of items to which a reduction of the rate of withholding may apply and, thus, does not preclude an exemption from, or reduction in, the rate of withholding that may otherwise be allowed under the regulations under the provisions of chapter 3 of the Code for a particular item of income identified in this paragraph (b)(4).

(i) Portfolio interest described in section 871(h) or 881(c) and substitute interest payments described in §1.871–7(b)(2) or 1.881–2(b)(2) are exempt from withholding under section 1441(a). See §1.871–14 for regulations regarding portfolio interest and section 1441(c)(9) for exemption from withholding. Documentation establishing foreign status is required for interest on an obligation in registered form to qualify as portfolio interest. See section 871(h)(2)(B)(ii) and §1.871–14(c)(1)(ii)(C). For special documentation rules regarding foreign-targeted registered obligations described in §1.871–14(e)(2), see § 1.871–14(e) (3) and (4) and, in particular, § 1.871–14(e)(4)(i)(A) and (ii)(A) regarding the time when the withholding agent must receive the documentation. The documentation furnished for purposes of qualifying interest as portfolio interest serves as the basis for the withholding exemption for purposes of this section and for purposes of establishing foreign status for purposes of section 6049. See § 1.6049–5(b)(8). Documentation establishing foreign status is not required for qualifying interest on an obligation in bearer form described in § 1.871–14(b)(1) as portfolio interest. However, in certain cases, documentation for portfolio interest on a bearer obligation may have to be furnished in order to establish foreign status for purposes of the information reporting provisions of section 6049 and backup withholding under section 3406. See § 1.6049–5(b)(7).

(ii) Bank deposit interest and similar types of deposit interest (including original issue discount) described in section 871(i)(2)(A) or 881(d) that are from sources within the United States are exempt from withholding under section 1441(a). See section 1441(c)(10). Documentation establishing foreign status is not required for purposes of this withholding exemption but may have to be furnished for purposes of the information reporting provisions of section 6049 and backup withholding under section 3406. See § 1.6049–5(d)(3)(iii) for exceptions to the foreign payee and exempt recipient rules regarding this type of income. See also § 1.6049–5(b)(11) for applicable documentation exemptions for certain bank deposit interest paid on obligations in bearer form.

(iii) Bank deposit interest (including original issue discount) described in section 861(a)(1)(B) is exempt from withholding under sections 1441(a) as income that is not from U.S. sources. Documentation establishing foreign status is not required for purposes of this withholding exemption but may have to be furnished for purposes of the information reporting provisions of section 6049 and backup withholding under section 3406. Reporting requirements for payments of such interest are governed by section 6049 and the regulations under that section. See § 1.6049–5(b)(12) and alternative documentation rules under § 1.6049–5(c)(4).

(iv) Interest or original issue discount from sources within the United States on certain short-term obligations described in section 871(g)(1)(B) or 881(a)(3) is exempt from withholding under sections 1441(a). Documentation establishing foreign status is not required for purposes of this withholding exemption but may have to be furnished for purposes of the information reporting provisions of section 6049 and backup withholding under section 3406. See § 1.6049–5(b)(12) for applicable documentation for establishing foreign status and § 1.6049–5(d)(3)(iii) for exceptions to the foreign payee and exempt recipient rules regarding this type of income. See also § 1.6049–5(b)(10) for applicable documentation exemptions for certain obligations in bearer form.

(v) Income from sources without the United States is exempt from withholding under sections 1441(a). Documentation establishing foreign status is not required for purposes of this withholding exemption but may have to be furnished for purposes of the information reporting provisions of section 6049 or other applicable provisions of chapter 61 of the Code and backup withholding under section 3406. See, for example, § 1.6049–5(b) (6) and (12) and alternative documentation rules under § 1.6049–5(c)(4). See also paragraph (b)(5) of this section for cross references to other applicable provisions of the regulations under chapter 61 of the Code.

(vi) Distributions from certain domestic corporations described in section 871(i)(2)(B) or 881(d) are exempt from withholding under section 1441(a). See section 1441(c)(10). Documentation establishing foreign status is not required for purposes of this withholding exemption but may have to be furnished for purposes of the information reporting provisions of section 6042 and backup withholding under section 3406. See § 1.6042–3(b)(1) (iii) through (vi).

(vii) Dividends paid by certain foreign corporations that are treated as income from sources within the United States by reason of section 861(a)(2)(B) are exempt from withholding under section 884(e)(3) to the extent that the distributions are paid out of earnings and profits in any taxable year that the corporation was subject to branch profits tax for that year. Documentation establishing foreign status is not required for purposes of this withholding exemption but may have to be furnished for purposes of the information reporting provisions of section 6042 and backup withholding under section 3406. See §1.6042–3(b)(1) (iii) through (vii).

(viii) Certain income that is effectively connected with the conduct of a U.S. trade or business is exempt from withholding under section 1441(a). See section 1441(c)(1). Documentation establishing foreign status and status of the income as effectively connected must be furnished for purposes of this withholding exemption to the extent required under the provisions of §1.1441–4(a). Documentation furnished for this purpose also serves as documentation establishing foreign status for purposes of applicable information reporting provisions under chapter 61 of the Code and for backup withholding under section 3406. See, for example, §1.6041–4(a)(1).

(ix) Certain income with respect to compensation for personal services of an individual that are performed in the United States is exempt from withholding under section 1441(a). See section 1441(c)(4) and §1.1441–4(b). However, such income may be subject to withholding as wages under section 3402. Documentation establishing foreign status must be furnished for purposes of any withholding exemption or reduction to the extent required under §1.1441–4(b) or 31.3401(a)(6)–1 (e) and (f) of this chapter. Documentation furnished for this purpose also serves as documentation establishing foreign status for purposes of information reporting under section 6041. See §1.6041–4(a)(1).

(x) Amounts described in section 871(f) that are received as annuities from certain qualified plans are exempt from withholding under section 1441(a). See section 1441(c)(7). Documentation establishing foreign status must be furnished for purposes of the withholding exemption as required under §1.1441–4(d). Documentation furnished for this purpose also serves as documentation establishing foreign status for purposes of information reporting under section 6041. See §1.6041–4(a)(1).

(xi) Payments to a foreign government (including a foreign central bank of issue) that are excludable from gross income under section 892(a) are exempt from withholding under section 1442. See §1.1441–8(b). Documentation establishing status as a foreign government is required for purposes of this withholding exemption. Payments to a foreign government are exempt from information reporting under chapter 61 of the Code (see §1.6049–4(c)(1)(ii)(F)).

(xii) Payments of certain interest income to a foreign central bank of issue or the Bank for International Settlements that are exempt from tax under section 895 are exempt from withholding under section 1442. Documentation establishing eligibility for such exemption is required to the extent provided in §1.1441–8(c)(1). Payments to a foreign central bank of issue or to the Bank for International Settlements are exempt from information reporting under chapter 61 of the Code (see §1.6049–4(c)(1)(ii) (H) and (M)).

(xiii) Amounts derived by a foreign central bank of issue from bankers' acceptances described in section 871(i)(2)(C) or 881(d) are exempt from tax and, therefore, from withholding. See section 1441(c)(10). Documentation establishing foreign status is not required for purposes of this withholding exemption if the name of the payee and other facts surrounding the payment reasonably indicate that the beneficial owner of the payment is a foreign central bank of issue as defined in §1.861–2(b)(4). See §1.1441–8(c)(2) for withholding procedures. See also §§1.6049–4(c)(1)(ii)(H) and 1.6041–3(q)(8) for a similar exemption from information reporting.

(xiv) Payments to an international organization from investments in the United States of stocks, bonds, or other domestic securities or from interest on deposits in banks in the United States of funds belonging to such international organization are exempt from tax under section 892(b) and, thus, from withholding. Documentation establishing status as an international organization is not required if the name of the payee and other facts surrounding the payment reasonably indicate that the beneficial owner of the payment is an international organization within the meaning of section 7701(a)(18). See § 1.1441–8(d). Payments to an international organization are exempt from information reporting under chapter 61 of the Code (see § 1.6049–4(c)(1)(ii)(G)).

(xv) Amounts may be exempt from, or subject to a reduced rate of, withholding under an income tax treaty. Documentation establishing eligibility for benefits under an income tax treaty is required for this purpose as provided under §§ 1.1441–6. Documentation furnished for this purpose also serves as documentation establishing foreign status for purposes of applicable information reporting provisions under chapter 61 of the Code and for backup withholding under section 3406. See, for example, § 1.6041–4(a)(1).

(xvi) Amounts of scholarships and grants paid to certain exchange or training program participants that do not represent compensation for services but are not excluded from tax under section 117 are subject to a reduced rate of withholding of 14-percent under section 1441(b). Documentation establishing foreign status is required for purposes of this reduction in rate as provided under § 1.1441–4(c). This income is not subject to information reporting under chapter 61 of the Code nor to backup withholding under section 3406. The compensatory portion of a scholarship or grant is reportable as wage income. See § 1.6041–3(o).

(xvii) Amounts paid to a foreign organization described in section 501(c) are exempt from withholding under section 1441 to the extent that the amounts are not income includible under section 512 in computing the organization's unrelated business taxable income and are not subject to the tax imposed by section 4948(a). Documentation establishing status as a tax-exempt organization is required for purposes of this exemption to the extent provided in § 1.1441–9. Amounts includible under section 512 in computing the organization's unrelated business taxable income are subject to withholding to the extent provided in section 1443(a) and § 1.1443–1(a). Gross investment income (as defined in section 4940(c)(2)) of a private foundation is subject to withholding at a 4-percent rate to the extent provided in section 1443(b) and § 1.1443–1(b). Payments to a tax-exempt organization are exempt from information reporting under chapter 61 of the Code and the regulations thereunder (see § 1.6049–4(c)(1)(ii)(B)(1)).

(xviii) Per diem amounts for subsistence paid by the U.S. government to a nonresident alien individual who is engaged in any program of training in the United States under the Mutual Security Act of 1954 are exempt from withholding under section 1441(a). See section 1441(c)(6). Documentation of foreign status is required under § 1.1441–4(e) for purposes of establishing eligibility for this exemption. See § 1.6041–3(p).

(xix) Interest with respect to tax-free covenant bonds issued prior to 1934 is subject to special withholding procedures set forth in § 1.1461–1 in effect prior to January 1, 2000 (see § 1.1461–1 as contained in 26 CFR part 1, revised April 1, 1998).

(xx) Income from certain gambling winnings of a nonresident alien individual is exempt from tax under section 871(j) and from withholding under section 1441(a). See section 1441(c)(11). Documentation establishing foreign status is not required for purposes of this exemption but may have to be furnished for purposes of the information reporting provisions of section 6041 and backup withholding under section 3406. See §§ 1.6041–1 and 1.6041–4(a)(1).

(xxi) Any payments not otherwise mentioned in this paragraph (b)(4) shall be subject to withholding at the rate of 30-percent if it is an amount subject to withholding (as defined in § 1.1441–2(a)) unless and to the extent the IRS may otherwise prescribe in published guidance (see § 601.601(d)(2) of this chapter) or unless otherwise provided in regulations under chapter 3 of the Code.

(5) *Establishing foreign status under applicable provisions of chapter 61 of the Code.* This paragraph (b)(5) identifies relevant provisions of the regulations under chapter 61 of the Code that exempt payments from information reporting, and therefore, from backup withholding under section 3406, based on the payee's status as a foreign person. Many of these exemptions require

that the payee's foreign status be established in order for the exemption to apply. The regulations under applicable provisions of chapter 61 of the Code generally provide that the documentation described in this section may be relied upon for purposes of determining foreign status.

(i) Payments to a foreign person that are governed by section 6041 (dealing with certain trade or business income) are exempt from information reporting under §1.6041–4(a).

(ii) Payments to a foreign person that are governed by section 6041A (dealing with remuneration for services and certain sales) are exempt from information reporting under §1.6041A–1(d)(3).

(iii) Payments to a foreign person that are governed by section 6042 (dealing with dividends) are exempt from information reporting under §1.6042–3(b)(1) (iii) through (vi).

(iv) Payments to a foreign person that are governed by section 6044 (dealing with patronage dividends) are exempt from information reporting under §1.6044–3(c)(1).

(v) Payments to a foreign person that are governed by section 6045 (dealing with broker proceeds) are exempt from information reporting under §1.6045–1(g).

(vi) Payments to a foreign person that are governed by section 6049 (dealing with interest) to a foreign person are exempt from information reporting under §1.6049–5(b) (6) through (15).

(vii) Payments to a foreign person that are governed by section 6050N (dealing with royalties) are exempt from information reporting under §1.6050N–1(c).

(viii) Payments to a foreign person that are governed by section 6050P (dealing with income from cancellation of debt) are exempt from information reporting under section 6050P or the regulations under that section except to the extent provided in Notice 96–61 (1996–2 C.B. 227); see also §601.601(b)(2) of this chapter.

(6) *Rules of withholding for payments by a foreign intermediary or certain U.S. branches.* A foreign intermediary described in paragraph (e)(3)(i) of this section or a U.S. branch described in paragraph (b)(2)(iv) of this section that receives an amount subject to withholding (as defined in §1.1441–2(a)) shall be deemed to have satisfied any obligation it has under chapter 3 of the Code and the regulations thereunder to withhold and report the amount when it, in turn, pays such amount to another person (whether or not the beneficial owner) to the extent that the payment is associated with a valid withholding certificate described in paragraph (e)(3) (ii), (iii), or (v) of this section that it has furnished to another withholding agent and the intermediary does not know and has no reason to know that the correct amount has not been withheld under chapter 3 of the Code and the regulations thereunder. See §1.1441–5(c)(3)(v) for a similar rule for payments by certain foreign partnerships.

(7) *Liability for failure to obtain documentation timely or to act in accordance with applicable presumptions*—(i) *General rule.* A withholding agent that cannot reliably associate a payment with documentation on the date of payment and that does not withhold under this section, or withholds at less than the 30-percent rate prescribed under section 1441(a) and paragraph (b)(1) of this section, is liable under section 1461 for the tax required to be withheld under chapter 3 of the Code and the regulations thereunder, without the benefit of a reduced rate unless—

(A) The withholding agent has appropriately relied on the presumptions described in paragraph (b)(3) of this section (including the grace period described in paragraph (b)(3)(iv) of this section) in order to treat the payee as a U.S. person or, if applicable, on the presumptions described in §1.1441–4(a)(2)(i) or (3) to treat the payment as effectively connected income; or

(B) The withholding agent can demonstrate to the satisfaction of the district director or the Assistant Commissioner (International) that the proper amount of tax, if any, was in fact paid to the IRS; or

(C) No documentation is required under section 1441 or this section in order for a reduced rate of withholding to apply.

(ii) *Proof that tax liability has been satisfied.* Proof of payment of tax may be established for purposes of paragraph (b)(7)(i)(B) of this section on the basis of a Form 4669 (or such other form as the IRS may prescribe in published guidance (see § 601.601(d)(2) of this chapter)), establishing the amount of tax, if any, actually paid by or for the beneficial owner on the income. Proof that a reduced rate of withholding was, in fact, appropriate under the provisions of chapter 3 of the Code and the regulations thereunder may also be established after the date of payment by the withholding agent on the basis of a valid withholding certificate or other appropriate documentation furnished after that date. However, in the case of a withholding certificate or other appropriate documentation received after the date of payment (or after the grace period specified in paragraph (b)(3)(iv) of this section), the district director or the Assistant Commissioner (International) may require additional proof if it is determined that the delays in obtaining the withholding certificate affect its reliability.

(iii) *Liability for interest and penalties.* A withholding agent that has failed to withhold other than based on appropriate reliance on the presumptions described in paragraph (b)(3) of this section or in § 1.1441–4(a) (2)(i) or (3) is not relieved from liability for interest under section 6601. Such liability exists even if there is no underlying tax liability due. The interest on the amount that should have been withheld shall be imposed as prescribed under section 6601 beginning on the last date for paying the tax due under section 1461 (which, under section 6601, is the due date for filing the withholding agent's return of tax). The interest shall stop accruing on the earlier of the date that the required withholding certificate or other documentation is provided to the withholding agent and to the extent of the amount of tax that is determined not to be due based on documentation provided, or the date, and to the extent, that the unpaid tax liability under section 871, 881 or under section 1461 is satisfied. Further, in the event that a tax liability is assessed against the beneficial owner under section 871, 881, or 882 and interest under section 6601(a) is assessed against, and collected from, the beneficial owner, the interest charge imposed on the withholding agent shall be abated to that extent so as to avoid the imposition of a double interest charge. However, the withholding agent is not relieved of any applicable penalties. See section 1464.

(iv) *Special effective date.* See paragraph (f)(2)(ii) of this section for the special effective date applicable to this paragraph (b)(7).

(v) *Examples.* The provisions of paragraph (b)(7) of this section are illustrated by the following examples:

Example 1. On June 15, 2000, a withholding agent pays U.S. source interest on an obligation in registered form (issued after July 18, 1984) to a foreign corporation that it cannot reliably associate with a Form W–8 or other appropriate documentation upon which to rely to treat the beneficial owner as a foreign person. The withholding agent does not withhold from the payment. On September 30, 2002, the withholding agent receives from the foreign corporation a valid Form W–8 described in paragraph (e)(2)(ii) of this section. Thus, the interest qualifies as portfolio interest retroactively to June 15, 2000 (the date of payment). See § 1.871–14(c)(3). The foreign corporation does not file a U.S. federal income tax return and does not pay the tax owed. The withholding agent is not liable under section 1461 for the 30-percent tax on the interest income because the receipt of the Form W–8 exempts the interest from tax for purposes of sections 881(a) and 1461. The withholding agent, however, is liable for interest on the amount of withholding that should have been deducted from the payment on June 15, 2000 and deposited. Under paragraph (b)(7)(iii) of this section, the period during which interest may be assessed against the withholding agent runs from March 15, 2001 (the due date for the Form 1042 relating to the payment) until September 30, 2002 (i.e., the date that appropriate documentation is furnished to the withholding agent).

Example 2. On June 15, 2000, a withholding agent pays U.S. source dividends to a foreign corporation that it cannot reliably associate with a Form W–8 or other appropriate documentation upon which to rely to treat the beneficial owner as a foreign person. The withholding agent does not withhold from the payment. On September 30, 2002, the withholding agent receives from the foreign corporation a valid Form W–8 described in paragraph (e)(2)(ii) of this section claiming a reduced 15-percent rate of withholding under a U.S. income tax treaty. The dividend qualifies for the reduced treaty rate retroactively to June 15, 2000 (the date of payment). The foreign corporation does not file a U.S. federal income tax return and does not pay the tax owed. Under section 1461, the withholding agent is liable only for a 15-percent tax on the dividend income because the receipt of the Form W–8 allows the tax rate to be reduced for purposes of sections 881(a) and 1461 from 30 percent to 15 percent. The withholding agent, however, is liable for interest on the full 30-percent amount that should have been deducted and withheld from the payment on June 15, 2000, and deposited, over a period running from March 15, 2001 (the due date for the Form 1042 relating to the payment) until September 30, 2002 (the date that the appropriate documentation is furnished to the withholding agent supporting a reduction in rate under a tax treaty). Additional interest may be assessed relating to the outstanding 15-percent tax liability (i.e., the portion of the 30-percent total tax liability that is not reduced under the treaty). Such additional interest runs from March 15, 2001, until such date as that 15-percent tax liability is satisfied by the withholding agent or the taxpayer (subject to abatement in order to avoid a double interest charge).

(8) *Adjustments, refunds, or credits of overwithheld amounts.* If the amount withheld under section 1441, 1442, or 1443 is greater than the tax due by the withholding agent or the taxpayer, adjustments may be made in accordance with the procedures described in §1.1461–2(a). Alternatively, refunds or credits may be claimed in accordance with the procedures described in §1.1464–1, relating to refunds or credits claimed by the beneficial owner, or §1.6414–1, relating to refunds or credits claimed by the withholding agent. If an amount was withheld under section 3406 or is subsequently determined to have been paid to a foreign person, see paragraph (b)(3)(vii) of this section and §31.6413(a)–3(a)(1) of this chapter.

(9) *Payments to joint owners.* A payment to joint owners that requires documentation in order to reduce the rate of withholding under chapter 3 of the Code and the regulations thereunder does not qualify for such reduced rate unless the withholding agent can reliably associate the payment with documentation from each owner. Notwithstanding the preceding sentence, a payment to joint owners qualifies as a payment exempt from withholding under this section if any one of the owners provides a certificate of U.S. status on a Form W–9 in accordance with paragraph (d) (2) or (3) of this section or the withholding agent can associate the payment with a withholding certificate upon which it can rely to treat the payment as made to a U.S. beneficial owner under paragraph (d)(4) of this section. See §31.3406(h)–2(a)(3)(i)(B) of this chapter.

(c) *Definitions*—(1) *Withholding.* The term *withholding* means the deduction and withholding of tax at the applicable rate from the payment.

(2) *Foreign and U.S. person.* The term *foreign person* means a nonresident alien individual, a foreign corporation, a foreign partnership, a foreign trust, a foreign estate, and any other person that is not a U.S. person described in the next sentence. For purposes of the regulations under chapter 3 of the Code, the term *foreign person* also means, with respect to a payment by a withholding agent, a foreign branch of a U.S. person that furnishes an intermediary withholding certificate described in paragraph (e)(3)(ii) of this section. A U.S. person is a person described in section 7701(a)(30), the U.S. government (including an agency or instrumentality thereof), a State (including an agency or instrumentality thereof), or the District of Columbia (including an agency or instrumentality thereof).

(3) *Individual*—(i) *Alien individual.* The term *alien individual* means an individual who is not a citizen or a national of the United States. See §1.1–1(c).

(ii) *Nonresident alien individual.* The term *nonresident alien individual* means a person described in section 7701(b)(1)(B), an alien individual who is a resident of a foreign country under the residence article of an income tax treaty and §301.7701(b)–7(a)(1) of this chapter, or an alien individual who is a resident of Puerto Rico, Guam, the Commonwealth of Northern Mariana Islands, the U.S. Virgin Islands, or American Samoa as determined under §301.7701(b)–1(d) of this chapter. An alien individual who has made an election under section 6013 (g) or (h) to be treated as a resident of the United States is nevertheless treated as a nonresident alien individual for purposes of withholding under chapter 3 of the Code and the regulations thereunder.

(4) *Certain foreign corporations.* For purposes of this section, a corporation created or organized in Guam, the

Commonwealth of Northern Mariana Islands, the U.S. Virgin Islands, and American Samoa, is not treated as a foreign corporation if the requirements of sections 881(b)(1) (A), (B), and (C) are met for such corporation. Further, a payment made to a foreign government or an international organization shall be treated as a payment made to a foreign corporation for purposes of withholding under chapter 3 of the Code and the regulations thereunder.

(5) *Financial institution and foreign financial institution.* For purposes of the regulations under chapter 3 of the Code, the term *financial institution* means a person described in § 1.165–12(c)(1)(iv) (not including a person providing pension or other similar benefits or a regulated investment company or other mutual fund, unless otherwise indicated) and the term *foreign financial institution* means a financial institution that is a foreign person, as defined in paragraph (c)(2) of this section.

(6) *Beneficial owner*—(i) *General rule.* In the case of a payment of income, the term *beneficial owner* means the person who is the owner of the income for tax purposes and who beneficially owns that income. A person shall be treated as the owner of the income to the extent that it is required under U.S. tax principles to include the amount paid in gross income under section 61 (determined without regard to an exclusion or exemption from gross income under the Code). Beneficial ownership of income is determined under the provisions of section 7701(l) and the regulations under that section and any other applicable general U.S. tax principles, including principles governing the determination of whether a transaction is a conduit transaction. Thus, a person receiving income in a capacity as a nominee, agent, custodian for another person is not the beneficial owner of the income. In the case of a scholarship, the student receiving the scholarship is the beneficial owner of that scholarship. In the case of a payment of an amount that is not income, the beneficial owner determination shall be made under this paragraph (c)(6) as if the amount was income.

(ii) *Special rules for flow-through entities and arrangements*—(A) *General rule.* The beneficial owners of income paid to a partnership or other flow-through arrangements described in paragraph (c)(6)(ii)(C) of this section are those persons who, under U.S. tax principles, are the owners of the income for tax purposes in their separate or individual capacities and who beneficially own that income. For example, a partnership (first tier) that is a partner in another partnership (second tier) is not the beneficial owner of income paid to the second tier partnership since the first tier partnership is not the owner of the income under U.S. tax principles. Rather, the partners of the first tier partnership are the beneficial owners (to the extent they are not themselves partnerships and are not conduits within the meaning of section 7701(l) and the regulations under that section). See § 1.1441–5(b) for applicable withholding procedures for payments to a domestic partnership. See also § 1.1441–5(c)(3)(ii) for applicable withholding procedures for payments to a foreign partnership where one of the partners (at any level in the chain of tiers) is a domestic partnership. See § 1.1441–6(b)(4) for rules governing the eligibility of a payment to an entity or other arrangement for a reduced rate of withholding under an income tax treaty.

(B) *Trusts and estates.* The provisions of paragraphs (c)(6)(i) and (ii)(A) of this section shall not apply to a trust or an estate, whether domestic or foreign. The beneficial owner of income paid to a trust or to an estate shall be determined under the provisions of § 1.1441–3(f) and (g) in effect prior to January 1, 2000 (see § 1.1441–3(f) and (g) as contained in 26 CFR part 1, revised April 1, 1998).

(C) *Definition of a flow-through entity or arrangement.* For purposes of this paragraph (c)(6)(ii), a flow-through entity means a partnership, estate, or trust. A flow-though arrangement is a contractual arrangement that does not involve an entity and is treated as a partnership for U.S. tax purposes or is a wholly-owned entity that is disregarded for federal tax purposes under § 301.7701–2(c)(2) of this chapter as an entity separate from its owner. The term *partnership* means any entity or arrangement (as defined in § 301.7701–

2(c)(1) of this chapter) whose tax regime is governed by subchapter K of chapter 1 of the Code.

(7) *Withholding agent.* For a definition of the term *withholding agent* and applicable rules, see §1.1441–7.

(8) *Person.* For purposes of the regulations under chapter 3 of the Code, the term *person* shall mean a person described in section 7701(a)(1) and the regulations under that section and a U.S. branch to the extent treated as a U.S. person under paragraph (b)(2)(iv) of this section. For purposes of the regulations under chapter 3 of the Code, the term *person* does not include a wholly-owned entity that is disregarded for federal tax purposes under §301.7701–2(c)(2) of this chapter as an entity separate from its owner. See paragraph (b)(2)(iii) of this section for procedures applicable to payments to such entities.

(9) *Source of income.* The source of income is determined under the provisions of part I (section 861 and following) , subchapter N, chapter 1 of the Code and the regulations under those provisions.

(10) *Chapter 3 of the Code.* For purposes of the regulations under sections 1441, 1442, and 1443, any reference to chapter 3 of the Code shall not include references to sections 1445 and 1446, unless the context indicates otherwise.

(11) *Reduced rate.* For purposes of regulations under chapter 3 of the Code, and other withholding provisions of the Code, the term *reduced rate,* when used in regulations under chapter 3 of the Code, shall include an exemption from tax.

(d) *Beneficial owner's or payee's claim of U.S. status*—(1) *In general.* Under paragraph (b)(1) of this section, a withholding agent is not required to withhold under chapter 3 of the Code on payments to a U.S. payee, to a person presumed to be a U.S. payee in accordance with the provisions of paragraph (b)(3) of this section, or to a person that the withholding agent may treat as a U.S. beneficial owner of the payment. Absent actual knowledge or reason to know otherwise, a withholding agent may rely on the provisions of this paragraph (d) in order to determine whether to treat a payee or beneficial owner as a U.S. person.

(2) *Payments for which a Form W–9 is otherwise required.* A withholding agent may treat as a U.S. person a payee who is required to furnish a Form W–9 and who furnishes it in accordance with the procedures described in §§31.3406(d)–1 through 31.3406(d)–5 of this chapter (including the requirement that the payee furnish its taxpayer identifying number (TIN)) if the withholding agent meets all the requirements described in §31.3406(h)–3(e) of this chapter regarding reliance by a payor on a Form W–9.

(3) *Payments for which a Form W–9 is not otherwise required.* In the case of a payee who is not required to furnish a Form W–9 under section 3406, the withholding agent may rely on a certificate of U.S. status described in this paragraph (d)(3). A certificate of U.S. status is a certificate described in §31.3406(h)–3(c)(2) of this chapter (relating to forms for exempt recipients) or a Form W–9 (or a substitute form or such other form as the IRS may prescribe) that is signed under penalties of perjury by the payee and contains the name, permanent residence address, and TIN of the payee. The procedures described in §31.3406(h)–2(a) of this chapter shall apply to payments to joint payees. A withholding agent that receives a Form W–9 in order to satisfy this paragraph (d)(3) must retain the form in accordance with the provisions of §31.3406(h)–3(g) of this chapter, if applicable, or of paragraph (e)(4)(iii) of this section (relating to the retention of withholding certificates) if §31.3406(h)–3(g) of this chapter does not apply. The rules of this paragraph (d)(3) are only intended to provide a method by which a withholding agent may determine that a payee is not a foreign person and do not otherwise impose a requirement that documentation be furnished by a person who is otherwise treated as an exempt recipient for purposes of the applicable information reporting provisions under chapter 61 of the Code (e.g., §1.6049–4(c)(1)(ii) for payments of interest).

(4) *Other payments.* This paragraph (d)(4) describes the documentation upon which a withholding agent may rely in order to treat a payment as made to a U.S. person that is a beneficial owner for purposes of paragraph

(b)(1) of this section. The withholding agent may treat the payment as made to a U.S. beneficial owner only if it can reliably associate the payment with documentation prior to the payment, if it complies with the electronic confirmation procedures described in paragraph (e)(4)(v) of this section, if required, and if it has not been notified by the IRS that any of the information on the withholding certificate or other documentation is incorrect or unreliable. In the case of a Form W–9 that is required to be furnished for a reportable payment that may be subject to backup withholding, the payor may be notified in accordance with section 3406(a)(1)(B) and the regulations under that section. See applicable procedures under that section and the regulations under that section for payors who have been notified with regard to such a Form W–9. Payors who have been notified in relation to other Forms W–9, including under section 6724(b) pursuant to section 6721, may rely on the withholding certificate or other documentation only to the extent provided under procedures as prescribed by the IRS (see § 601.601(d)(2) of this chapter). A withholding agent may treat a payment as made to a U.S. beneficial owner—

(i) To the extent the withholding agent can reliably associate the payment with a Form W–9 described in paragraph (d) (2) or (3) of this section attached to a valid intermediary, flow-through, or U.S. branch withholding certificate described in paragraph (e)(3)(i) of this section;

(ii) To the extent the withholding agent can reliably associate a payment to a qualified intermediary with the category of assets described in paragraph (e)(5)(v)(B)(*2*) of this section that the qualified intermediary has represented, in accordance with paragraphs (e) (3)(ii)(E) and (5)(v) of this section as being allocable to U.S. persons based on the Forms W–9 that they have furnished; or

(iii) To the extent the withholding agent can reliably associate the payment with a Form W–8 from a U.S. branch described in paragraph (e)(3)(v) of this section that evidences an agreement between the U.S. branch and the withholding agent to treat the U.S. branch as U.S. person.

(e) *Beneficial owner's claim of foreign status*—(1) *Withholding agent's reliance*—(i) *In general.* Absent actual knowledge or reason to know otherwise, a withholding agent may treat a payment as made to a foreign beneficial owner in accordance with the provisions of paragraph (e)(1)(ii) of this section. See paragraph (e)(4)(viii) of this section for applicable reliance rules. See paragraph (b)(4) of this section for a description of payments for which a claim of foreign status is relevant for purposes of claiming a reduced rate of withholding for purposes of section 1441, 1442, or 1443. See paragraph (b)(5) of this section for a list of payments for which a claim of foreign status is relevant for other purposes, such as claiming an exemption from information reporting under chapter 61 of the Code.

(ii) *Payments that a withholding agent may treat as made to a foreign person that is a beneficial owner*—(A) *General rule.* The withholding agent may treat a payment as made to a foreign person that is a beneficial owner if it complies with the requirements described in paragraph (e)(1)(ii)(B) of this section and, then, only to the extent—

(*1*) That the withholding agent can reliably associate the payment with a beneficial owner withholding certificate described in paragraph (e)(2) of this section furnished by the person whose name is on the certificate or attached to a valid foreign intermediary, flow-through entity, or U.S. branch withholding certificate described in paragraph (e)(3)(v) of this section;

(*2*) That the payment is made outside the United States (within the meaning of § 1.6049–5(e)) with respect to an offshore account (within the meaning of § 1.6049–5(c)(1)) and the withholding agent can reliably associate the payment with documentary evidence described in §§ 1.1441–6(c)(3) or (4), or 1.6049–5(c)(1) relating to the beneficial owner;

(*3*) That the withholding agent can reliably associate the payment with the category of assets described in paragraph (e)(5)(v)(B)(*1*) of this section that the qualified intermediary has represented, in accordance with paragraphs (e) (3)(ii)(E) and (5)(v) of this section as being allocable to foreign persons for whom the qualified intermediary is holding valid documentation;

(*4*) That the withholding agent can reliably associate the payment with a withholding certificate described in §1.1441–5(c)(3)(iii) from a foreign partnership claiming that the payment is effectively connected income;

(*5*) That the withholding agent identifies the payee as a U.S. branch described in paragraph (b)(2)(iv) of this section, the payment to which it treats as effectively connected income in accordance with §1.1441–4(a) (2)(ii) or (3);

(*6*) That the withholding agent identifies the payee as an international organization (or any wholly-owned agency or instrumentality thereof) as defined in section 7701(a)(18) that has been designated as such by executive order (pursuant to 22 U.S.C. 288 through 288(f)); or

(*7*) That the withholding agent pays interest from bankers' acceptances and identifies the payee as a foreign central bank of issue (as defined in §1.861–2(b)(4)).

(B) *Additional requirements.* In order for a payment described in paragraph (e)(1)(ii)(A) of this section to be treated as made to a foreign beneficial owner, the withholding agent must hold the documentation (if required) prior to the payment, comply with the electronic confirmation procedures described in paragraph (e)(4)(v) of this section (if required), and must not have been notified by the IRS that any of the information on the withholding certificate or other documentation is incorrect or unreliable. If the withholding agent has been so notified, it may rely on the withholding certificate or other documentation only to the extent provided under procedures prescribed by the IRS (see §601.601(d)(2) of this chapter). See paragraph (b)(2)(vii) of this section for rules regarding reliable association of a payment with a withholding certificate or other appropriate documentation.

(2) *Beneficial owner withholding certificate*—(i) *In general.* A beneficial owner withholding certificate is a statement by which the beneficial owner of the payment represents that it is a foreign person and, if applicable, claims a reduced rate of withholding under section 1441. A separate withholding certificate must be submitted to each withholding agent. If the beneficial owner receives more than one type of payment from a single withholding agent, the beneficial owner may have to submit more than one withholding certificate to the single withholding agent for the different types of payments as may be required by the applicable forms and instructions, or as the withholding agent may require (such as to facilitate the withholding agent's compliance with its obligations to determine withholding under this section or the reporting of the amounts under §1.1461–1 (b) and (c)). For example, if a beneficial owner claims that some but not all of the income it receives is effectively connected with the conduct of a trade or business in the United States, it may be required to submit two separate withholding certificates, one for income that is not effectively connected and one for income that is so connected. See §1.1441–6(b)(4)(ii) for special rules for determining who must furnish a beneficial owner withholding certificate when a benefit is claimed under an income tax treaty. See paragraph (e)(4)(ix) of this section for reliance rules in the case of certificates held by another person or at a different branch location of the same person.

(ii) *Requirements for validity of certificate.* A beneficial owner withholding certificate is valid only if it is provided on a Form W–8, or a Form 8233 in the case of personal services income described in §1.1441–4(b) or certain scholarship or grant amounts described in §1.1441–4(c) (or a substitute form described in paragraph (e)(4)(vi) of this section, or such other form as the IRS may prescribe). A Form W–8 is valid only if its validity period has not expired, it is signed under penalties of perjury by the beneficial owner, and it contains all of the information required on the form. The required information is the beneficial owner's name, permanent residence address, and TIN (if required), the country under the laws of which the beneficial owner is created, incorporated, or governed (if a person other than an individual), the classification of the entity, and such other information as may be required by the regulations under section 1441 or by the form or accompanying instructions in addition to, or in lieu of, the information described in this paragraph (e)(2)(ii). A person's permanent residence address is an address in the country where the person claims to be a resident for purposes of that country's income tax. In the case of a certificate furnished in order to claim a reduced rate of withholding under an income tax treaty, the residence must be determined in the manner prescribed under the applicable treaty. See §1.1441–6(b)(4)(i). The address of a financial institution with which the beneficial owner maintains an account, a post office box, or an address used solely for mailing purposes is not a residence address for this purpose. If the beneficial owner is an individual who does not have a tax residence in any country, the permanent residence address is the place at which the beneficial owner normally resides. If the beneficial owner is not an individual and does not have a tax residence in any country, then the permanent residence address is the place at which the person maintains its principal office. See paragraph (e)(4)(vii) of this section for circumstances in which a TIN is required on a beneficial owner withholding certificate. See paragraph (f)(2)(i) of this section for continued validity of certificates during a transition period.

(3) *Intermediary, flow-through, or U.S. branch withholding certificate*—(i) *In general.* An intermediary withholding certificate is a Form W–8 by which a payee represents that it is a foreign person and that it is an intermediary with respect to a payment and not the beneficial owner. A flow-through withholding certificate is a Form W–8 furnished by a flow-through entity under §1.1441–5(c)(2) or (3) for a partnership or under §1.1441–5(e) for a foreign estate or trust. See paragraph (c)(6)(ii)(C) of this section for a definition of a flow-through entity. A U.S. branch certificate is a Form W–8 by which the payee represents that it is a U.S. branch described in paragraph (b)(2)(iv) (A) or (E) of this section and that the payment is not effectively connected with the conduct of its trade or business in the United States. An intermediary withholding certificate is used by an intermediary either to make representations regarding the status of beneficial owners of the amount paid or to transmit appropriate documentation to the withholding agent. A flow-through certificate is used by a flow-through entity to establish its status as a foreign person or the status of its partners or beneficiaries, if required, and, if applicable, to claim a reduced rate of withholding. An intermediary means, with respect to a payment that it receives, a person that, for that payment, acts as a custodian, broker, nominee, or otherwise as an agent for another person, regardless of whether such other person is the beneficial owner of the amount paid, a flow-through entity, or another intermediary. See paragraph (e)(4)(viii) of this section for applicable reliance rules.

(ii) *Intermediary withholding certificate from a qualified intermediary.* An intermediary withholding certificate from a person representing to be a qualified intermediary (described in paragraph (e)(5)(ii) of this section) is valid only if it is furnished on a Form W–8 (or an acceptable substitute form or such other form as the IRS may prescribe), it is signed under penalties of perjury by an officer of the qualified intermediary with authority to sign for the intermediary, its validity has not expired, and it contains the following information, statement, and certifications:

(A) The name, permanent residence address (as described in paragraph (e)(2)(ii) of this section), and the employer identification number of the intermediary, and the country under the laws of which the intermediary is created, incorporated, or governed.

(B) A certification that the person whose name is on the Form W–8 is not acting for its own account and is acting as a qualified intermediary within the meaning of paragraph (e)(5)(ii) of this section.

(C) A certification that the intermediary has obtained the appropriate certificates (such as Forms W–8 or W–9) or other appropriate documentation in the manner required in its withholding agreement with the IRS for those account holders that are covered by the certificate and whose assets are identified as being allocable to the categories described in paragraph (e)(5)(v)(B) (*1*) or (*2*) (in accordance with paragraph (e)(5)(v) of this section or otherwise).

(D) A certification whether the qualified intermediary is assuming primary withholding responsibility for the amounts to which the certificate relates.

(E) A statement attached to the certificate that provides such information as may be required by the form and accompanying instructions, including sufficient information for the withholding agent to determine the amount required to be withheld from amounts paid to the intermediary and reported to the IRS. See paragraph (e)(5)(v) of this section for requirement of a statement and rules applicable thereto.

(F) Any other information or certification as may be required by the form or accompanying instructions in addition to, or in lieu of, the information and certifications described in this paragraph (e)(3)(ii).

(iii) *Intermediary withholding certificate from an intermediary that is not a qualified intermediary.* An intermediary withholding certificate from a person that does not represent to be a qualified intermediary within the meaning of paragraph (e)(5)(ii) of this section is valid only if it is furnished on a Form W–8 (or an acceptable substitute form, or such other form as the IRS may prescribe), it is signed under penalties of perjury by a person authorized to sign for the intermediary, it contains the information, statement, and certifications described in this paragraph (e)(3)(iii), its validity has not expired, and the withholding certificates and other appropriate documentation for all the persons to whom the certificate relates are attached to the certificate. Appropriate documentation consists of beneficial owner withholding certificates described in paragraph (e)(2)(i) of this section, intermediary withholding certificates described in paragraph (e)(3)(i) of this section, flow-through certificates described in §1.1441–5(c)(2)(iv), (3)(iii), and (e), documentary evidence described in §1.1441–6(b)(2)(i) or in §1.6049–5(c)(1) related to the beneficial owner (or documentary evidence described in §1.6049–5(c)(4) for purposes of information reporting under chapter 61 of the Code), and other documentation or certificate applicable under other provisions of the Code or regulations that certify or establish the status of the payee or beneficial owner as a U.S. or a foreign person. If the intermediary is acting on behalf of another intermediary that is not a qualified intermediary or on behalf of a partnership that is not a withholding foreign partnership described in §1.1441–5(c)(2)(i), then the intermediary must attach to its own withholding certificate the intermediary withholding certificate or the partnership withholding certificate to which all the withholding certificates and other appropriate documentation required to be attached under this paragraph (e)(3)(iii) or in §1.1441–5(c)(3)(iii) or (e) are also attached. Nothing in this paragraph (e)(3)(iii) shall require an intermediary to furnish original documentation. Copies of certificates or documentary evidence may be passed up to the U.S. withholding agent, in which case the intermediary must retain the original documentation for the same time period that the copy is required to be retained by the withholding agent under paragraph (e)(4)(iii) of this section and must provide it to the withholding agent upon request. For purposes of this paragraph (e)(3)(iii), a valid intermediary withholding certificate also includes a statement described in §1.871–14(c)(2)(v) furnished in order for interest to qualify as portfolio interest for purposes of sections 871(h) and 881(c) or in order for amounts described in §1.1441–6(b)(2)(ii) to qualify as amounts paid to a foreign person. The information and certification required on a Form W–8 described in this paragraph (e)(3)(iii) (or on an acceptable substitute form or such other form as the IRS may prescribe) are as follows:

(A) The name and permanent resident address (as described in paragraph (e)(2)(ii) of this section) of the intermediary, and the country under the laws of which the intermediary is created, incorporated, or governed.

(B) A certification that the person whose name is on the Form W–8 is not acting for its own account and is using the certificate as a form to transmit withholding certificates and other appropriate documentation for the payment to which the form relates.

(C) If furnishing an intermediary certificate to transmit withholding certificates or other appropriate documentation for more than one person, a statement attached to the Form W–8 that provides such information as may be required by the form and accompanying instructions, including sufficient information for the withholding agent to determine the amount required to be withheld from amounts paid to the intermediary. See paragraph (e)(3)(iv) of this section for rules applicable to such a statement.

(D) A certification either that the attached withholding certificates and other appropriate documentation represent all of the persons to whom the intermediary withholding certificate relates or that the amounts allocable to persons covered by the intermediary withholding certificate and for whom withholding certificates or other appropriate documentation are lacking or unreliable are separately identified.

(E) Any other information or certification as may be required by the form or accompanying instructions in addition to, or in lieu of, the information and certification described in this paragraph (e)(3)(iii).

(iv) *Information to the withholding agent regarding assets owned by beneficial owners, etc.*—(A) *General rule.* An intermediary that has not represented that it is acting as a qualified intermediary within the meaning of paragraph (e)(5)(ii) of this section must provide information sufficient for the withholding agent to determine the proportion of each payment of reportable amounts (as described in paragraph (e)(3)(vi) of this section) that is allocable to each person to whom the intermediary withholding certificate relates, including persons for whom the intermediary has not attached a withholding certificate or other appropriate documentation. The withholding agent may rely on such information in order to determine the amount of withholding on the payment and how to report this payment under chapter 3 or 61 of the Code and the regulations thereunder. The sum of all the proportions indicated by the intermediary, expressed as a percentage, must equal, but not exceed, one hundred percent of the payment. The information for persons for whom a withholding certificate or other appropriate documentation is lacking or unreliable may be provided in the aggregate and need not be provided separately for each such person. The foreign intermediary is not required to disclose the names of the persons for whom it collects the payment, unless it has actual knowledge that any such person is a U.S. person that is not an exempt recipient. In such a case, the intermediary must state separately the information for such U.S. person even though such person has not provided a Form W–9 to the intermediary in the manner described in paragraph (d)(2) of this section. The information may be furnished in any manner that the parties choose. For example, if the withholding agent maintains separate accounts for different types of income or withholding rates, the intermediary must provide sufficient information so that the withholding agent may allocate assets appropriately among the relevant accounts. If the withholding agent does not maintain separate accounts, it may require the intermediary to attach a statement to the intermediary withholding certificate under paragraphs (e)(3)(iii)(C) and (D) of this section providing the information described in this paragraph (e)(3)(iv).

(B) *Updating the information.* The intermediary must update the information furnished to the withholding agent in accordance with paragraph (e)(3)(iv)(A) of this section as often as is necessary in order to enable the withholding agent to withhold at the appropriate rate on each payment and to report such income for purposes of chapter 3 or 61 of the Code and sections 3402, 3405 and 3406 (and the regulations under those provisions). Any update of the information as required under this paragraph (e)(3)(iv)(B) shall be treated as an integral part of the intermediary withholding certificate with which it is associated. See paragraph (e)(4)(ii)(D) of this section regarding how changes in the information described in this paragraph (e)(3)(iv) may affect the validity of withholding certificates. See paragraph (b)(3)(v)(C) of this section for consequences if the information is not updated as required.

(C) *Examples.* The rules of paragraph (e)(3)(iii) of this section and of this paragraph (e)(3)(iv) are illustrated by the following examples:

Example 1. A U.S. withholding agent, W, pays U.S. source dividends to foreign intermediary X who, in turn, pays to foreign intermediary Y, who collects on behalf of foreign beneficial owners, A and B. A and B have each furnished a beneficial owner Form W–8 to Y. Y must furnish to X an intermediary Form W–8 described in paragraph (e)(3)(iii) of this section, to which it must attach the original or copies of A's and B's Forms W–8. X, in turn, must furnish to W its own intermediary Form W–8 described in paragraph (e)(3)(iii) of this section, to which it must attach the original or copies of the intermediary Form W–8 received from Y and A's and B's Forms W–8.

Example 2. A foreign bank, X, acts as an intermediary for five different persons, A, B, C, D, and E, who each own securities from which they receive U.S. source dividends. The distributions are paid by a U.S. financial institution, W, as custodian of the securities for X. A's, B's, C's, D's, and E's respective claimed ownership interest in the securities is 20-percent each. X has furnished to W an intermediary Form W–8 described in paragraph (e)(3)(iii) of this section, to which it has attached a statement described in this paragraph (e)(3)(iv) stating each of A', B's, and C's interest in the securities with respect to which distributions are made periodically. The respective ownership interests of D and E are not stated separately because X has not received a valid withholding certificate or other appropriate documentation from D or E. Therefore, on the statement, D's and E's interest in the securities is stated in the aggregate (i.e., 40-percent attributable to undocumented owners). X has attached a Form W–8 for A and documentary evidence for B (who each claim a reduced rate of withholding under an income tax treaty), and a Form W–9 for C. In determining the amount to be withheld from the amount paid to X, W may rely on X's intermediary Form W–8, the allocation statement attached to the Form W–8, and the attached Form W–8, documentary evidence, and Form W–9 for each of A, B, and C. Based on paragraphs (b)(1), (b)(2)(v), (b)(2)(vii), (d)(4)(i), and (e)(1)(ii)(A)(*1*) of this section, W may withhold as follows on the payment to X: no withholding on 20-percent of the payment on the basis of C's Form W–9, withholding at the reduced treaty rate on 40-percent of the payment on the basis of A's Form W–8 and B's documentary evidence, and 30-percent on 40-percent of the payment to the undocumented owners group formed by D and E in accordance with the presumptions described in paragraph (b)(3)(v)(B) of this section (i.e., due to the lack of documentation for D and E). Under paragraph (e)(3)(iii) of this section, X is not required to identify D or E to W. For purposes of making a return under §1.1461–1(c), W would prepare a single Form 1042–S for the group of undocumented owners, D and E (if the names are undisclosed, the Form 1042–S should be made in the name of X and state that the return is made for unknown owners (see §1.1461–1(c)(4)(iv)). Because X has not furnished required documentation for D and E, X does not qualify under paragraph (b)(6) of this section for relief from an obligation to make a report on a Form 1042–S (to the extent D and E are presumed to be foreign persons under paragraph (b)(3)(iii) of this section) when X makes the payment to D and E (however, because a full 30-percent amount was withheld under this section, X does not have to withhold an additional amount under the facts of this example). In contrast, under paragraph (b)(6) of this section, X is not required to make a report on Form 1042–S for its payments to A or B. Under §1.6042–3(b)(1)(vi), X is not required to report C's share of the payment on Form 1099 (unless X has actual knowledge that W has not reported the portion of payment allocable to C in accordance with §1.6042–2).

Example 3. The facts are the same as in *Example 2*, except that D's name is D Insurance Company whom X knows is a U.S. person. Because of D's name, X may treat D as an exempt recipient on an eyeball test basis under §§1.6042–3(b)(1)(vii) and 1.6049–4(c)(1)(ii)(A)(*1*). However, even if those facts are disclosed to W, W must withhold 30-percent of the portion of the payment allocable to D because W is making a payment to a foreign person (X). Under paragraph (b)(1) of this section, W may reduce the rate of withholding only if it can associate the payment with documentation upon which it can rely to treat the beneficial owner as a U.S. person or as a foreign person entitled to a reduced rate of withholding. Because X has not furnished documentation for D, W does not have the proper documentation with which it can associate the payment allocable to D. Thus, insofar as W is concerned, the portion of the payment allocable to D is treated as a payment to an undocumented owner that W must presume to be a foreign person under paragraph (b)(3)(v)(B) of this section. Accordingly, under this paragraph (e)(3)(iv), W need not identify the information for D separately and can aggregate the portion of the payment allocable to D and E. W's reporting requirements for the portion of the payment allocable to D and E are the same as under *Example 2*. When X makes the payment to D, X does not benefit from the relief from reporting under §1.6042–3(b)(1)(vi). However, X is not required to report the payment to D on Form 1099 under section 6042 because, under § 1.6042–3(b)(1)(vii), X can treat D as an exempt recipient.

(v) *Withholding certificate from certain U.S. branches.* A U.S. branch certificate is a representation by the U.S. branch whose name is on the certificate that the payment it receives is not effectively connected with the conduct of a trade or business in the United States and that it is using the certificate either to transmit the appropriate documentation for the persons for whom the branch receives the payment (i.e., as an intermediary) or as evidence of its agreement with the withholding agent to be treated as a U.S. person with respect to any payment associated with the certificate. A U.S. branch withholding certificate is valid only if it is furnished on a Form W–8 (or an acceptable substitute form, or such other form as the IRS may prescribe), it is signed under penalties of perjury by a person authorized to sign for the branch, its validity has not expired, and it contains the information, statement, and certifications described in this paragraph (e)(3)(v). If the certificate is furnished to transmit withholding certificates and other documentation, it must contain the information and certifications described in paragraphs (e)(3)(v) (A) through (C) of this section and in paragraphs (e)(3)(iii) (C) and (D) of this section. If the certificate is furnished pursuant to an agreement to treat the U.S. branch as a U.S. person, the information and certification required on the Form W–8 (or an acceptable substitute form or such other form as the IRS may prescribe) are limited to the following—

(A) The name of the person of which the branch is a part and the address of the branch in the United States;

(B) A certification that the payments associated with the certificate are not effectively connected with the conduct of its trade or business in the United States; and

(C) Any other information or certification as may be required by the form or accompanying instructions in addition to, or in lieu of, the information and certification described in this paragraph (e)(3)(v).

(vi) *Reportable amounts.* For purposes of this section, the term reportable amount means an amount subject to withholding within the meaning of § 1.1441–2(a), bank deposit interest (including original issue discount) and similar types of deposit interest described in section 871(i)(2)(A) or 881(d) that are from sources within the United States, and any amount of interest or original issue discount from sources within the United States on certain short-term obligations described in section 871(g)(1)(B) or 881(a)(3). For purposes of this paragraph (e)(3)(vi), however, reportable amounts do not include payments with respect to deposits with banks and other financial institutions that remain on deposit for a period of two weeks or less, to amounts of original issue discount arising from a sale and repurchase transaction that is completed within a period of two weeks or less, or to amounts described in § 1.6049–5(b) (7), (10) or (11) (relating to certain obligations issued in bearer form). While short-term OID and bank deposit interest are not subject to withholding under chapter 3 of the Code, such amounts may be subject to information reporting under section 6049 if paid to a U.S. person who is not an exempt recipient described in § 1.6049–4(c)(1)(ii) and to backup withholding under section 3406 in the absence of documentation. See § 1.6049–5(d)(3)(iii) for applicable procedures when such amounts are paid to a foreign intermediary.

(4) *Applicable rules.* The provisions in this paragraph (e)(4) describe procedures applicable to withholding certificates on Form W–8 or Form 8233 (or a substitute form) or documentary evidence furnished to establish foreign status. These provisions do not apply to Forms W–9 (or their substitutes). For corresponding provisions regrading Form W–9 (or a substitute form), see section 3406 and the regulations under that section.

(i) *Who may sign the certificate.* A withholding certificate (or other acceptable substitute) may be signed by any person authorized to sign a declaration under penalties of perjury on behalf of the person whose name is on the certificate as provided in section

6061 and the regulations under that section (relating to who may sign generally for an individual, estate, or trust, which includes certain agents who may sign returns and other documents), section 6062 and the regulations under that section (relating to who may sign corporate returns), and section 6063 and the regulations under that section (relating to who may sign partnership returns).

(ii) *Period of validity*—(A) *Three-year period.* A withholding certificate described in paragraph (e)(2)(i) of this section, a certificate described in §1.871–14(c)(2)(v) (furnished to qualify interest as portfolio interest for purposes of sections 871(h) and 881(c) or to qualify amounts paid on certain securities described in §1.1441–6(b)(2)(ii) as paid to a foreign person), or documentary evidence described in §1.1441–6(b)(2)(i) or in §1.6049–5(c)(1) shall remain valid until the earlier of the last day of the third calendar year following the year in which the certificate is signed or the documentary evidence is created or the day that a change of circumstances occurs that makes any information on the certificate or documentary evidence incorrect. For example, a certificate signed on September 30, 2000, remains valid through December 31, 2003, unless circumstances change that make the information on the form no longer correct.

(B) *Indefinite validity period.* Notwithstanding paragraph (e)(4)(ii)(A) of this section, the following certificates or parts of certificates shall remain valid until the status of the person whose name is on the certificate is changed in a way relevant to the certificate or circumstances change that make the information on the certificate no longer correct:

(*1*) A beneficial owner withholding certificate described in paragraph (e)(2)(ii) of this section that is furnished with a TIN if the income for which such certificate is furnished is required to be reported under §1.1461–1(c)(2)(i) or the TIN furnished on the certificate is reported to the IRS under the procedures described in §1.1461–1(d).

(*2*) A certificate described in paragraph (e)(3)(ii) of this section (dealing with a certificate from a person representing to be a qualified intermediary).

(*3*) A certificate described in paragraph (e)(3)(iii) of this section (dealing with a certificate from a person representing to be a non-qualified intermediary), but not including the withholding certificates or documentary evidence required to be attached to the certificate.

(*4*) A certificate described in paragraph (e)(3)(v) of this section (dealing with a certificate from a person representing to be a U.S. branch), but not the withholding certificates or documentary evidence required to be attached to the certificate.

(*5*) A certificate described in §1.1441–5(c)(2)(iv) (dealing with a certificate from a person representing to be a withholding foreign partnership).

(*6*) A certificate described in §1.1441–5(c)(3)(iii) (dealing with a certificate from a person representing to be a foreign partnership that is not a withholding foreign partnership), but not including the withholding certificates or documentary evidence required to be attached to the certificate.

(*7*) A certificate furnished by a person representing to be an integral part of a foreign government (within the meaning of §1.892–2T(a)(2)) in accordance with §1.1441–8(b), or by a person representing to be a foreign central bank of issue (within the meaning of §1.861–2(b)(4)) or the Bank for International Settlements in accordance with §1.1441–8(c)(1).

(C) *Withholding certificate for effectively connected income.* Notwithstanding paragraph (e)(4)(ii)(B)(*1*) of this section, the period of validity of a withholding certificate furnished to a withholding agent to claim a reduced rate of withholding for income that is effectively connected with the conduct of a trade or business within the United States shall be limited to the three-year period described in paragraph (e)(4)(ii)(A) of this section.

(D) *Change in circumstances.* If a change in circumstances makes any information on a certificate or other documentation incorrect, then the person whose name is on the certificate or other documentation must inform the withholding agent within 30 days of the change and furnish a new certificate or new documentation. A certificate or documentation becomes invalid from the date that the withholding agent holding the certificate or documentation knows or has reason to know that circumstances affecting the correctness of the certificate or documentation have changed. However, a withholding agent may choose to apply the provisions of paragraph (b)(3)(iv) of this section regarding the 90-day grace period as of that date while awaiting a new certificate or documentation or while seeking information regarding changes, or suspected changes, in the person's circumstances. If an intermediary (including a U.S. branch described in paragraph (b)(2)(iv)(A) of this section that passes through certificates to a withholding agent) or a flow-through entity becomes aware that a certificate or other appropriate documentation it has furnished to the person from whom it collects the payment is no longer valid because of a change in the circumstances of the person who issued the certificate or furnished the other appropriate documentation, then the intermediary or flow-through entity must notify the person from whom it collects the payment of the change of circumstances. It must also obtain a new withholding certificate or new appropriate documentation to replace the existing certificate or documentation whose validity has expired due to the change in circumstances. If a beneficial owner withholding certificate is used to claim foreign status only (and not, also, residence in a particular foreign country for purposes of an income tax treaty), a change of address is a change in circumstances for purposes of this paragraph (e)(4)(ii)(D) only if it changes to an address in the United States. Further, a change of address within the same foreign country is not a change in circumstances for purposes of this paragraph (e)(4)(ii)(D). A change in the circumstances affecting the withholding information provided to the withholding agent in accordance with the provisions in paragraph (e) (3)(iv) or (5)(v) of this section or in § 1.1441–5(c)(3)(iv) shall terminate the validity of the withholding certificate with respect to the information that is no longer reliable unless the information is updated. A withholding agent may rely on a certificate without having to inquire into possible changes of circumstances that may affect the validity of the statement, unless it knows or has reason to know that circumstances have changed. A withholding agent may require a new certificate at any time prior to a payment, even though the withholding agent has no actual knowledge or reason to know that any information stated on the certificate has changed.

(iii) *Retention of withholding certificate.* A withholding agent must retain each withholding certificate and other documentation for as long as it may be relevant to the determination of the withholding agent's tax liability under section 1461 and § 1.1461–1.

(iv) *Electronic transmission of information.* Under procedures issued by the IRS (see § 601.601(d)(2) of this chapter), a withholding agent may be permitted to receive in electronic form the information required to be included on a withholding certificate.

(v) *Electronic confirmation of taxpayer identifying number on withholding certificate.* The Commissioner may prescribe procedures in a revenue procedure (see § 601.601(d)(2) of this chapter) or other appropriate guidance to require a withholding agent to confirm electronically with the IRS information concerning any TIN stated on a withholding certificate.

(vi) *Acceptable substitute form.* A withholding agent may substitute its own form instead of an official Form W–8 or 8233 (or such other official form as the IRS may prescribe). Such a substitute for an official form will be acceptable if it contains provisions that are substantially similar to those of the official form, it contains the same certifications relevant to the transactions as are contained on the official form and these certifications are clearly set forth, and the substitute form includes a signature-under-penalties-of-perjury statement identical to the one stated on the official form. The substitute form is acceptable even if it does not contain all of the provisions contained on the official form, so long as it contains those provisions that are relevant to the transaction for which it is furnished. For example, a withholding agent that pays no income for which treaty benefits are claimed may develop a substitute form that is identical to the official form, except that it does not include information regarding claim of benefits under an income tax treaty. A withholding agent who uses a substitute form must furnish instructions relevant to the substitute form only to the extent and in the manner specified in the instructions to the official form. A withholding agent may refuse to accept a certificate from a payee or beneficial owner (including the official Form W–8 or 8233) if the certificate is not provided on the acceptable substitute form provided by the withholding agent. However, a withholding agent may refuse to accept a certificate provided by a payee or beneficial owner only if the withholding agent furnishes the payee or beneficial owner with an acceptable substitute form immediately upon receipt of an unacceptable form or within 5 business days of receipt of an unacceptable form from the payee or beneficial owner. In that case, the substitute form is acceptable only if it contains a notice that the withholding agent has refused to accept the form submitted by the payee or beneficial owner and that the payee or beneficial owner must submit the acceptable form provided by the withholding agent in order for the payee or beneficial owner to be treated as having furnished the required withholding certificate.

(vii) *Requirement of taxpayer identifying number.* A TIN must be stated on a withholding certificate when required by this paragraph (e)(4)(vii). A TIN is required to be stated on a beneficial owner certificate if the beneficial owner is claiming the benefit of a reduced rate under an income tax treaty (other than for amounts described in §1.1441–6(b)(2)(ii)), an exemption from withholding because income is effectively connected with a U.S. trade or business, an exemption under section 871(f) for certain annuities received under qualified plans, or an exemption solely based on a foreign organization's claim of tax exempt status under section 501(c) or private foundation status. Thus, a TIN is not required from a foreign private foundation that is subject to the 4-percent tax under section 4948(a) on income if that income is otherwise exempt under the Code. In addition, a TIN is required to be stated on the withholding certificate from a person representing to be a qualified intermediary described in paragraph (e)(5)(ii) of this section, on the withholding certificate from a person representing to be a withholding foreign partnership described in §1.1441–5(c)(2)(i)), on the withholding certificate from a person representing to be a foreign trust or foreign estate, or from a fiduciary thereof, and on the withholding certificate from a person representing to be a U.S. branch described in paragraph (e)(3)(v) of this section. A TIN is an IRS individual taxpayer identification number, an employer identification number, or a social security number as described in section 6109 and §301.6109–1 of this chapter, or any other identifier that the Commissioner may designate.

(viii) *Reliance rules.* A withholding agent may rely on the information and certifications stated on withholding certificates or other documentation without having to inquire into the truthfulness of this information or certification, unless it has actual knowledge or reason to know that the same is untrue. In the case of amounts described in §1.1441–6(b)(2)(ii), a withholding agent described in §1.1441–7(b)(2)(ii) has reason to know that the information or certifications on a certificate are untrue only to the extent provided in §1.1441–7(b)(2)(ii). See §1.1441–6(b)(4)(ii) for reliance on representations regarding eligibility for a reduced rate under an income tax treaty. Paragraphs (e)(4)(viii) (A) and (B) of this section provide examples of such reliance.

(A) *Classification.* A withholding agent may rely on the claim of entity classification indicated on the withholding certificate that it receives from or for the beneficial owner, unless it has actual knowledge or reason to know that the classification claimed is incorrect. A withholding agent may not rely on a person's claim of classification other than as a corporation if the name of the corporation indicates that the person is a per se corporation described in §301.7701–2(b)(8)(i) of this chapter unless the certificate contains a statement that the person is a grandfathered per se corporation described in §301.7701–2(b)(8) of this chapter and that its grandfathered status has not been terminated. In the absence of reliable representation or information regarding the classification of the payee or beneficial owner, see §1.1441–1(b)(3)(ii) for applicable presumptions.

(B) *Status of payee as an intermediary or as a person acting for its own account.* A withholding agent may rely on the type of certificate furnished as indicative of the payee's status as an intermediary or as an owner, unless the withholding agent has actual knowledge or reason to know otherwise. For example, a withholding agent that receives a beneficial owner withholding certificate from a foreign financial institution may treat the institution as the beneficial owner, unless it has information in its records that would indicate otherwise or the certificate contains information that is not consistent with beneficial owner status (e.g., sub-account numbers or names). If the financial institution also acts as an intermediary, the withholding agent may request that the institution furnish two certificates, i.e., a beneficial owner certificate described in paragraph (e)(2)(i) of this section for the amounts that it receives as a beneficial owner, and an intermediary withholding certificate described in paragraph (e)(3)(i) of this section for the amounts that it receives as an intermediary. In the absence of reliable representation or information regarding the status of the payee as an owner or as an intermediary, see paragraph (b)(3)(v)(A) for applicable presumptions.

(ix) *Certificates to be furnished for each account unless exception applies.* Unless otherwise provided in this paragraph (e)(4)(ix), a withholding agent that is a financial institution with which a customer may open an account shall obtain withholding certificates or other appropriate documentation on an account-by-account basis.

(A) *Coordinated account information system in effect.* A withholding agent may rely on the withholding certificate or other appropriate documentation furnished by a customer for a pre-existing account under any one or more of the circumstances described in this paragraph (e)(4)(ix)(A).

(*1*) A withholding agent may rely on documentation furnished by a customer for another account if all such accounts are held at the same branch location.

(*2*) A withholding agent may rely on documentation furnished by a customer for an account held at another branch location of the same withholding agent or at a branch location of a person related to the withholding agent if the withholding agent and the related person are part of a universal account system that uses a customer identifier that can be used to retrieve systematically all other accounts of the customer. See §31.3406(c)(3)(ii) and (iii)(C) of this chapter for an identical procedure for purposes of backup withholding. For purposes of this paragraph (e)(4)(ix)(A), a withholding agent is related to another person if it is related within the meaning of section 267(b) or 707(b).

(*3*) A withholding agent may rely on documentation furnished by a customer for an account held at another branch location of the same withholding agent or at a branch location of a person related to the withholding agent if the withholding agent and the related person are part of an information system other than a universal account system and the information system is described in this paragraph (e)(4)(ix)(A)(*3*). The system must allow the withholding agent to easily access data regarding the nature of the documentation, the information contained in the documentation, and its validity status, and must allow the withholding agent to easily transmit data into the system regarding any facts of which it becomes aware that may affect the reliability of the documentation. The withholding agent must be able to establish how and when it has accessed the data regarding the documentation and, if applicable, how and when it has transmitted data regarding any facts of which it became aware that may affect the reliability of the documentation. In addition, the withholding agent or the related party must be able to establish that any data it has transmitted to the information system has been processed and appropriate due diligence has been exercised regarding the validity of the documentation.

(B) *Family of mutual funds.* An interest in a mutual fund that has a common investment advisor or common principal underwriter with other mutual funds (within the same family of funds) may, in the discretion of the mutual fund, be represented by one single withholding certificate where shares are acquired or owned in any of the funds. See §31.3406(h)–3(a)(2) of this chapter for an identical procedures for purposes of backup withholding.

(C) *Special rule for brokers.* A withholding agent may rely on the certification of a broker acting as the agent of a beneficial owner that the broker holds a valid beneficial owner withholding certificate described in paragraph (e)(2)(i) of this section or other documentation for that beneficial owner. The certification must contain the date of expiration of the certificate or documentation and be in writing or in electronic form. For purposes of this paragraph (e)(4)(ix)(C), the term *broker* shall have the same meaning as in §31.3406(h)–3(d) of this chapter.

(5) *Qualified intermediaries*—(i) *General rule.* A qualified intermediary, as defined in paragraph (e)(5)(ii) of this section, may furnish an intermediary withholding certificate to a withholding agent. Such a certificate certifies on behalf of other persons (such as beneficial owners, intermediaries, flow-through entities described in §1.1441–5, or U.S. payees) for the purpose of claiming and verifying reduced rates of withholding under section 1441 or 1442 and for the purpose of reporting and withholding under other provisions of the Code, such as the provisions under chapter 61 of the Code and section 3406 (and the regulations under those provisions). Furnishing such a certificate is in lieu of transmitting to a withholding agent withholding certificates or other appropriate documentation for the persons for whom the qualified intermediary receives the payment or for its shareholders (in the case of claims of benefits under an income tax treaty by a reverse hybrid entity). Although the qualified intermediary is required to obtain withholding certificates or other appropriate documentation from beneficial owners, payees, or shareholders pursuant to its agreement with the IRS, it is not required to attach such documentation to the intermediary withholding certificate. However, the qualified intermediary must disclose the names of those U.S. persons for whom the qualified intermediary receives reportable amounts (within the meaning of paragraph (e)(3)(vi) of this section) and who are not exempt recipients (as defined in §1.6049–4(c)(1)(ii) or an applicable provision under section 6041, 6042, 6045, or 6050N), irrespective of local secrecy laws. A person may claim qualified intermediary status before an agreement is executed with the IRS if it has applied for such status and the IRS authorizes such status on an interim basis under such procedures as the IRS may prescribe.

(ii) *Definition of qualified intermediary.* With respect to a payment to a foreign person, the term *qualified intermediary* means a person that is a party to a withholding agreement with the IRS and such person is—

(A) A foreign financial institution or a foreign clearing organization (as defined in §1.163–5(c)(2)(i)(D)(*8*), without regard to the requirement that the organization hold obligations for members), other than a U.S. branch or U.S. office of such institution or organization;

(B) A foreign branch or office of a U.S. financial institution or a foreign branch or office of a U.S. clearing organization (as defined in §1.163–5(c)(2)(i)(D)(*8*), without regard to the requirement that the organization hold obligations for members);

(C) A foreign corporation for purposes of presenting claims of benefits under an income tax treaty on behalf of its shareholders; or

(D) Any other person acceptable to the IRS.

(iii) *Withholding agreement*—(A) *In general.* The IRS may, upon request, enter into a withholding agreement with a foreign person described in paragraph (e)(5)(ii) of this section pursuant to such procedures as the IRS may prescribe in published guidance (see §1A601.601(d)(2) of this chapter). Under such withholding agreement, a qualified intermediary shall be generally subject to the applicable withholding and reporting provisions applicable to withholding agents and payors under chapters 3 and 61 of the Code, and section 3406, and the regulations under those provisions, and other withholding provisions of the Code, except to the extent provided under the agreement. A withholding agreement may apply to the entity as a whole or to certain specified branches of the institution. The determination of the scope of the agreement shall be made on a branch-by-branch basis.

(B) *Terms of the withholding agreement.* Generally, the agreement shall specify the type of certification and documentation upon which the qualified intermediary may rely to ascertain the nationality and residence of beneficial owners and U.S. payees who receive payments collected by the qualified intermediary and, if necessary, entitlement to the benefits of a reduced rate under an income tax treaty. It shall specify if the qualified intermediary may assume primary withholding responsibility in accordance with paragraph (e)(5)(iv) of this section. It shall specify the extent to which applicable return filing and information reporting requirements are modified so that, in appropriate cases, the qualified intermediary may report payments to the IRS on an aggregated basis, without having to disclose the identity of individual customers. However, the qualified intermediary may be required to provide to the IRS the name and address of those foreign customers who benefit from a reduced rate under an income tax treaty pursuant to the qualified intermediary arrangement for purposes of verifying entitlement to such benefits, particularly under an applicable Limitation on Benefits provision. Under the agreement, a qualified intermediary may agree to act as an acceptance agent to perform the duties described in § 301.6109–1(d)(3)(iv)(A) of this chapter. The agreement may specify the manner in which applicable procedures for adjustments for underwithholding and overwithholding, including refund procedures apply in the context of a qualified intermediary arrangement and the extent to which applicable procedures may be modified. In particular, a withholding agreement may allow a qualified intermediary to claim refunds of overwithheld amounts on behalf of its customers. If relevant, the agreement shall specify the manner in which the qualified intermediary may deal with payments to other intermediaries. In addition, the agreement must specify the manner in which the IRS will verify compliance with the agreement. In appropriate cases, the IRS may agree to rely on audits performed by an intermediary's approved auditor. In such a case, the IRS' audit may be limited to the audit of the auditor's records (including work papers of the auditor and reports prepared by the auditor indicating the methodology employed to verify the entity's compliance with the agreement). For this purpose, the agreement shall specify which auditor or class of auditors is approved. Generally, an auditor will be approved if it is subject to regulatory supervision under the laws of the country in which a significant part of the intermediary activities under the agreement are expected to occur, its internal procedures require it to verify that the intermediary complies with the terms of the withholding agreement and to report non-compliance findings under the agreement in the same manner as it is required to report other findings of non-compliance with applicable local laws and regulatory requirements, and its relevant records (i.e., work papers and reports) are available to the IRS. The agreement must include provisions for the assessment and collection of tax in the event that failure to comply with the terms of the agreement results in the failure by the withholding agent or the qualified intermediary to withhold and deposit the required amount of tax. Further, the agreement shall specify the procedures by which deposits of amounts withheld are to be deposited, if different from normally applicable deposit procedures under the Code and applicable regulations. The agreement shall also specify the assets that the qualified intermediary has in the United States or alternative means of collection, if necessary. To determine the terms of any particular withholding agreement, the IRS will consider appropriate factors including whether or not the foreign person agrees to assume primary responsibility as a withholding agent, the type of local know-your-customer laws and practices to which it is subject, the extent and nature of supervisory and regulatory control exercised under the laws of the foreign country over the foreign person, the volume of investments in U.S. securities (determined in dollar amounts and number of account holders), and financial condition of the foreign person.

(iv) *Assignment of primary withholding responsibility.* A withholding agent making a payment to a qualified intermediary must presume that the withholding agent has full withholding responsibility for that payment, except as otherwise specified in this paragraph (e)(5)(iv). For this purpose, withholding responsibility means the obligation to withhold as required under the provisions of section 1441, 1442, or 1443, and the regulations under those sections, and the related reporting obligations under §1.1461–1(b)(2)(ii) and (c)(4)(ii) for payments identified or treated as made to foreign persons. Withholding responsibility also means obligations imposed on payors under chapter 61 of the Code (and the regulations under those provisions) and, if applicable, under section 3405 or 3406 (and the regulations under those sections). A qualified intermediary that assumes primary withholding responsibility vis-a-vis a withholding agent must assume such responsibility for all payments made to any one account. Any qualified intermediary may agree with the withholding agent to assume primary withholding responsibility, but only if expressly permitted to do so under its agreement with the IRS. Generally, reporting or withholding liability arising from a payment to a U.S. person (or treated as or presumed to be made to a U.S. person) under any provision of the Code or applicable regulations thereunder may not be assigned to a qualified intermediary except where the qualified intermediary is a foreign branch of a U.S. financial institution or except to the extent that the qualified intermediary has a branch in the United States and establishes to the satisfaction of the IRS that its U.S. branch can adequately fulfill the qualified intermediary's obligations on behalf of the qualified intermediary regarding information reporting under chapter 61 of the Code and the regulations under the applicable provisions of that chapter and, if necessary, backup withholding under section 3406 and the regulations under that section (even though the U.S. branch is not a qualified intermediary).

(v) *Information to withholding agent regarding applicable withholding rates*—(A) *General rule.* The qualified intermediary must separate the assets that generate payments of reportable amounts (as described in paragraph (e)(3)(vi) of this section) that are associated with its withholding certificate furnished to the withholding agent into the categories described in paragraph (e)(5)(v)(B) of this section, and provide that information to the withholding agent so that the withholding agent may determine the applicable withholding rate applicable to each category. The information may be furnished in any manner that the parties choose. For example, if the withholding agent maintains separate accounts for each category of assets described in paragraph (e)(5)(v)(B) of this section, the qualified intermediary must provide information sufficient for the withholding agent to allocate assets appropriately among the various accounts. If the withholding agent does not maintain separate accounts, it may require the qualified intermediary to attach a statement to the intermediary withholding certificate under paragraph (e)(3)(ii)(E) of this section providing the information described in this paragraph (e)(5)(v).

(B) *Categories of assets.* A payment of a reportable amount (as defined in paragraph (e)(3)(vi) of this section) must be associated with one of the three categories of assets set forth in paragraphs (e)(5)(v)(B) (*1*) through (*3*) of this section and may be associated with only one of these three categories. Additional or different categories of assets may be specified, however, under procedures prescribed by the IRS (see §602.602–1(d) of this chapter) or in the qualified intermediary agreement. No information is required regarding assets that do not generate a reportable amount described in paragraph (e)(3)(vi) of this section. The information provided to the withholding agent, and any update thereof, shall be considered an integral part of the intermediary withholding certificate. The three categories of assets required to be identified to the withholding agent are as follows:

(*1*) The first category of assets consists of assets that are associated with non-U.S. payees to which the intermediary certificate relates, and the applicable withholding rate. If different withholding rates apply, the qualified intermediary must indicate the applicable rate for each class of non-U.S. payees to which different withholding rates apply and the assets associated with each class. In the case of a qualified intermediary that has assumed primary withholding responsibility, the intermediary must simply certify the amount of assets for which it assumes primary withholding responsibility because they are assets for which it holds the appropriate documentation and are not described in the other two categories.

(*2*) The second category of assets consists of assets that are associated with all U.S. payees to which the certificate relates. The qualified intermediary must furnish a Form W–9 (or an acceptable substitute form) for each U.S. payee described in paragraph (d)(2) of this section or, in the absence of a Form W–9, the name and address of the U.S. payee or such information it has available regarding the payee. The identity of U.S. payees described in paragraph (d)(3) of this section need not be disclosed to the withholding agent.

(*3*) The third category of assets consists of assets that are associated with payees for whom the qualified intermediary holds no documentation, or holds documentation that it knows or has reason to know is unreliable and for which it has no actual knowledge that the payees are U.S. persons. A qualified intermediary that has assumed primary withholding responsibility need not furnish information regarding this category of assets.

(C) *Updating the information.* The qualified intermediary must update the information furnished to the withholding agent in accordance with this paragraph (e)(5)(v) as often as is necessary in order to enable the withholding agent to withhold at the appropriate rate on each payment and to report such income for purposes of chapter 3 or 61 of the Code and sections 3402, 3405 and 3406 (and the regulations under those provisions). See paragraph (e)(4)(ii)(D) of this section regarding how changes in the information affect the validity of a withholding certificate. See § 1.1441–1(b)(3)(v)(C) for consequences if the information is not updated as required.

(f) *Effective date*—(1) *In general.* This section applies to payments made after December 31, 1999.

(2) *Transition rules*—(i) *Special rules for existing documentation.* For purposes of paragraphs (d)(3) and (e)(2)(i) of this section, the validity of a withholding certificate (namely, Form W–8, 8233, 1001, 4224, or 1078 , or a statement described in § 1.1441–5 in effect prior to January 1, 2000 (see § 1.1441–5 as contained in 26 CFR part 1, revised April 1, 1998)) that was valid on January 1, 1998 under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and expired, or will expire, at any time during 1998, is extended until December 31, 1998. The validity of a withholding certificate that is valid on or after January 1, 1999, remains valid until its validity expires under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) or, if earlier, until December 31, 2000. The rule in this paragraph (f)(2)(i), however, does not apply to extend the validity period of a withholding certificate that expires solely by reason of changes in the circumstances of the person whose name is on the certificate. Notwithstanding the first three sentences of this paragraph (f)(2)(i), a withholding agent may choose to not take advantage of the transition rule in this paragraph (f)(2)(i) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and, therefore, to require withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of

this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998). Further, a new withholding certificate remains valid for the period specified in paragraph (e)(4)(ii) of this section, regardless of when the certificate is obtained.

(ii) *Lack of documentation for past years.* A taxpayer may elect to apply the provisions of paragraphs (b)(7)(i)(B), (ii), and (iii) of this section, dealing with liability for failure to obtain documentation timely, to all of its open tax years, including tax years that are currently under examination by the IRS. The election is made by simply taking action under those provisions in the same manner as the taxpayer would take action for payments made after December 31, 1999.

[T.D. 8734, 62 FR 53424, Oct. 14, 1997, as amended by T.D. 8804, 63 FR 72184, 72187, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53424, Oct. 14, 1997, §1.1441–1 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1441–1 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§1.1441–1 Requirement for withholding of tax on nonresident aliens, foreign partnerships, and foreign corporations.

Except as otherwise provided in §§1.1441–3, 1.1441–4, and 1.1441–6, to the extent that the items specified in §1.1441–2 constitute gross income from sources within the United States, withholding of a tax of 30 percent is required in the case of items of income specified in paragraphs (a) and (b) of §1.1441–2 when such income is paid to a nonresident alien individual, a foreign partnership, or a foreign corporation, except that with respect to payments made after March 4, 1964, withholding of a tax of 14 percent is required in the case of items of income specified in paragraph (c) of §1.1441–2. The rate of 30 percent or 14 percent shall be reduced as may be provided by a treaty with any country. See §§1.894–1 and 1.1441–6 relating to income affected by treaty. For purposes of this section, the term ‘‘nonresident alien individual’’ includes an alien resident of Puerto Rico. In the case of payments occurring after October 31, 1972, the term ‘‘foreign corporation’’ does not include a corporation created or organized in Guam or under the law of Guam. The rules of chapter 3 of the Code and §§1.1441–1 through 1.1441–6 and §§1.1461–1 through 1.1464–1 apply to a nonresident alien individual even though the individual has an election in effect under section 6013 (g) or (h) of the Code.

[T.D. 7385, 40 FR 50263, Oct. 29, 1975, as amended by T.D. 7670, 45 FR 6932, Jan. 31, 1980]

§1.1441–2 Amounts subject to withholding.

(a) *In general.* For purposes of the regulations under chapter 3 of the Internal Revenue Code (Code), the term *amounts subject to withholding* means amounts from sources within the United States that constitute either fixed or determinable annual or periodical income described in paragraph (b) of this section or other amounts subject to withholding described in paragraph (c) of this section. For purposes of this paragraph (a), an amount shall not be treated as not being from sources within the United States merely because the source of the amount cannot be determined at the time of payment. See §1.1441–3(d)(1) for determining the amount to be withheld from a payment in the absence of information at the time of payment regarding the source of the amount. Amounts subject to withholding include amounts that are not fixed or determinable annual or periodical income and upon which withholding is specifically required under a provision of this section or another section of the regulations under chapter 3 of the Code (such as corporate distributions that do not constitute dividend income upon which withholding is required under §1.1441–3(c)(1)). Amounts subject to withholding do not include amounts described in §1.1441–1(b)(4)(i) to the extent they involve interest on obligations in bearer form or on foreign-targeted registered obligations (but, in the case of a foreign-targeted registered obligation, only to the extent of those amounts paid to a registered owner that is a financial institution within the meaning of section 871(h)(5)(B) or a member of a clearing organization which member is the beneficial owner of the obligation), amounts described in §1.1441–1(b)(4)(ii) (dealing with bank deposit interest and similar types of interest (including original issue discount) described in section 871(i)(2)(A) or 881(d)), amounts described in § 1.1441–1(b)(4)(iv) (dealing with interest or original issue discount on certain short-term obligations described in section 871(g)(1)(B) or 881(a)(3)), and amounts described in § 1.1441–1(b)(4)(xx) (dealing with income from certain gambling winnings exempt from tax under section 871(j)).

(b) *Fixed or determinable annual or periodical income*—(1) *In general*—(i) *Definition.* For purposes of chapter 3 of the Code and the regulations thereunder, fixed or determinable annual or periodical income is all income included in gross income under section 61 (including original issue discount), except for the items specified in paragraph (b)(2) of this section. Therefore, items of U.S. source income that are excluded from gross income under any provision of law without regard to the identity of the holder, such as interest excluded from gross income under section 103(a), are not fixed or determinable annual or periodical income. See § 1.306–3(h) for treating income from the disposition of section 306 stock as fixed or determinable annual or periodical income.

(ii) *Manner of payment.* The term *fixed or determinable annual or periodical* is merely descriptive of the character of a class of income. If an item of income falls within the class of income contemplated in the statute and described in paragraph (a) of this section, it is immaterial whether payment of that item is made in a series of payments or in a single lump sum. Further, the income need not be paid annually if it is paid periodically; that is to say, from time to time, whether or not at regular intervals. The fact that a payment is not made annually or periodically does not, however, prevent it from being fixed or determinable annual or periodical income (e.g., a lump sum payment). In addition, the fact that the length of time during which the payments are to be made may be increased or diminished in accordance with someone's will or with the happening of an event does not disqualify the payment as determinable or periodical. For this purpose, the share of the fixed or determinable annual or periodical income of an estate or trust from sources within the United States which is required to be distributed currently, or which has been paid or credited during the taxable year, to a nonresident alien beneficiary of such estate or trust constitutes fixed or determinable annual or periodical income.

(iii) *Determinability of amount.* An item of income is fixed when it is to be paid in amounts definitely pre-determined. An item of income is determinable if the amount to be paid is not known but there is a basis of calculation by which the amount may be ascertained at a later time. For example, interest is determinable even if it is contingent in that its amount cannot be determined at the time of payment of an amount with respect to a loan because the calculation of the interest portion of the payment is contingent upon factors that are not fixed at the time of the payment. For purposes of this section, an amount of income does not have to be determined at the time that the payment is made in order to be determinable. An amount of income described in paragraph (a) of this section which the withholding agent knows is part of a payment it makes but which it cannot calculate exactly at the time of payment, is nevertheless determinable if the determination of the exact amount depends upon events expected to occur at a future date. In contrast, a payment which may be income in the future based upon events that are not anticipated at the time the payment is made is not determinable. For example, loan proceeds may become income to the borrower when and to the extent the loan is canceled without repayment. While the cancellation of the debt is income to the borrower when it occurs, it is not determinable at the time the loan proceeds are disbursed to the borrower if the lack of repayment leading to the cancellation of part or all of the debt was not anticipated at the time of disbursement. The fact that the source of an item of income cannot be determined at the time that the payment is made does not render a payment not determinable. See § 1.1441–3(d)(1) for determining the amount to be withheld from a payment in the absence of information at the time of payment regarding the source of the amount.

(2) *Exceptions.* For purposes of chapter 3 of the Code and the regulations

thereunder, the items of income described in this paragraph (b)(2) are not fixed or determinable annual or periodical income—

(i) Gains derived from the sale of property (including market discount and option premiums), except for gains described in paragraph (b)(3) or (c) of this section;

(ii) Insurance premiums within the meaning of section 4372 paid to a foreign insurer or reinsurer; and

(iii) Any other income that the Internal Revenue Service (IRS) may determine, in published guidance (see §601.601(d)(2) of this chapter), is not fixed or determinable annual or periodical income.

(3) *Original issue discount*—(i) *General rule.* An amount representing original issue discount is fixed or determinable annual or periodical income that is subject to withholding to the extent provided in this paragraph (b)(3) if not otherwise excluded under paragraph (a) of this section. Under sections 871(a)(1)(C) and 881(a)(3), an amount of original issue discount is subject to tax to a foreign beneficial owner of an obligation carrying original issue discount upon a taxable sale or exchange of the obligation or when a payment is made on such obligation. The amount taxable is the amount of original issue discount that accrued while the foreign person held the obligation up to the time that the obligation is sold or exchanged or that a payment is made on the obligation, reduced by any amount of original issue discount that was taken into account prior to that time (due to a payment made on the obligation). In the case of a taxable event due to a payment made on the obligation, the tax due on the amount of taxable original issue discount may not exceed the payment less the tax imposed thereon. A person who is a withholding agent with respect to a payment that, under section 871(a)(1)(C) or 881(a)(3), is taxable to a foreign person holding or disposing of an original issue discount obligation must withhold to the extent provided in this paragraph (b)(3).

(ii) *Amounts actually known to the withholding agent.* A withholding agent must withhold on the taxable amount of original issue discount to the extent that it has actual knowledge of the proportion of the payment that is taxable to the beneficial owner under section 871(a)(1)(C) or 881(a)(3)(A). A withholding agent has actual knowledge if it knows how long the beneficial owner has held the obligation, the terms of the obligation, and the extent to which the beneficial owner purchased the obligation at a premium. A withholding agent is treated as having knowledge if the information is reasonably available. The information is not considered reasonably available if the withholding agent does not have a direct customer relationship with the foreign beneficial owner or such other person who has actual knowledge of the facts relevant to the determination of the amount taxable to the foreign beneficial owner, and has no access to such information in the ordinary course of its business due to the manner in which the obligation is held (e.g., in street name or through intermediaries). In the case of a withholding agent maintaining a direct account relationship with the beneficial owner, knowledge regarding the beneficial owner's holding period and acquisition premium is considered to be reasonably available to the withholding agent. A withholding agent may rely on the most recently published List of Original Issue Discount Instruments (IRS Publication 1212 (available from the IRS Forms Distribution Centers) or similar list) published by the IRS in order to determine the amount of taxable OID in any particular transaction.

(iii) *Amounts for which certain documentation is not furnished.* Notwithstanding lack of knowledge (within the meaning of paragraph (b)(3)(ii) of this section), withholding is required on the entire amount of stated interest, if any, and original issue discount on the obligation as determined as of the date of original issue if the withholding agent, pursuant to the provisions in §1.1441–1(b)(3), treats the payment as made to a foreign payee because it cannot reliably associate the payment with documentation and the amount would qualify as portfolio interest if the withholding agent held documentation described in §1.871–14(c)(2). A withholding agent may rely on the most recently published List of Original Issue Discount Instruments (IRS Publication

1212 (available from the IRS Forms Distribution Centers) or similar list) published by the IRS in order to determine the amount of taxable OID in any particular transaction. See § 1.1441–1(b)(8) for adjustments to any amount that has been overwithheld.

(iv) *Exceptions to withholding.* The obligation to withhold under this paragraph (b)(3) shall apply only to obligations issued after December 31, 1999, and payable more than 183 days from the date of original issue. Any exemption from withholding pursuant to this paragraph (b)(3) applies without a requirement that documentation be furnished to the withholding agent. However, documentation may have to be furnished for purposes of the information reporting provisions under section 6049 and backup withholding under section 3406. See § 1.6049–5(b) (7) through (15).

(4) *Securities lending transactions and equivalent transactions.* See §§ 1.871–7(b)(2) and 1.881–2(b)(2) regarding the character of substitute payments as fixed and determinable annual or periodical income. Such amounts constitute income subject to withholding to the extent they are from sources within the United States, as determined under section §§ 1.861–2(a)(7) and 1.861–3(a)(6). See §§ 1.6042–3(a)(2) and 1.6049–5(a)(5) for reporting requirements applicable to substitute dividend and interest payments, respectively.

(c) *Other income subject to withholding.* Withholding is also required on the following items of income—

(1) Gains described in sections 631 (b) or (c), relating to treatment of gain on disposal of timber, coal, or domestic iron ore with a retained economic interest; and

(2) Gains subject to the 30-percent tax under section 871(a)(1)(D) or 881(a)(4), relating to contingent payments received from the sale or exchange of patents, copyrights, and similar intangible property.

(d) *Exceptions to withholding where no money or property is paid or lack of knowledge*—(1) *General rule.* A withholding agent who is not related to the recipient or beneficial owner has an obligation to withhold under section 1441 only to the extent that, at any time between the date that the obligation to withhold would arise (but for the provisions of this paragraph (d)) and the due date for the filing of return on Form 1042 (including extensions) for the year in which the payment occurs, it has control over, or custody of money or property owned by the recipient or beneficial owner from which to withhold an amount and has knowledge of the facts that give rise to the payment. The exemption from the obligation to withhold under this paragraph (d) shall not apply, however, to distributions with respect to stock or if the lack of control or custody of money or property from which to withhold is part of a pre-arranged plan known to the withholding agent to avoid withholding under section 1441, 1442, or 1443. For purposes of this paragraph (d), a withholding agent is related to the recipient or beneficial owner if it is related within the meaning of section 482. Any exemption from withholding pursuant to this paragraph (d) applies without a requirement that documentation be furnished to the withholding agent. However, documentation may have to be furnished for purposes of the information reporting provisions under chapter 61 of the Code and backup withholding under section 3406. The exemption from withholding under this paragraph (d) is not a determination that the amounts are not fixed or determinable annual or periodical income, nor does it constitute an exemption from reporting the amount under § 1.1461–1 (b) and (c).

(2) *Cancellation of debt.* A lender of funds who forgives any portion of the loan is deemed to have made a payment of income to the borrower under § 1.61–12 at the time the event of forgiveness occurs. However, based on the rules of paragraph (d)(1) of this section, the lender shall have no obligation to withhold on such amount to the extent that it does not have custody or control over money or property of the borrower at any time between the time that the loan is forgiven and the due date (including extensions) of the Form 1042 for the year in which the payment is deemed to occur. A payment received by the lender from the borrower

in partial settlement of the debt obligation does not, for this purpose, constitute an amount of money or property belonging to the borrower from which the withholding tax liability can be satisfied.

(3) *Satisfaction of liability following underwithholding by withholding agent.* A withholding agent who, after failing to withhold the proper amount from a payment, satisfies the underwithheld amount out of its own funds may cause the beneficial owner to realize income to the extent of such satisfaction or may be considered to have advanced funds to the beneficial owner. Such determination depends upon the contractual arrangements governing the satisfaction of such tax liability (e.g., arrangements in which the withholding agent agrees to pay the amount due under section 1441 for the beneficial owner) or applicable laws governing the transaction. If the satisfaction of the tax liability is considered to constitute an advance of funds by the withholding agent to the beneficial owner and the withholding agent fails to collect the amount from the beneficial owner, a cancellation of indebtedness may result, giving rise to income to the beneficial owner under §1.61–12. While such income is annual or periodical fixed or determinable, the withholding agent shall have no liability to withhold on such income to the extent the conditions set forth in paragraphs (d) (1) and (2) of this section are satisfied with respect to this income. Contrast the rules of this paragraph (d)(3) with the rules in §1.1441–3(f)(1) dealing with a situation in which the satisfaction of the beneficial owner's tax liability itself constitutes additional income to the beneficial owner. See, also, §1.1441–3(c)(2)(ii)(B) for a special rule regarding underwithholding on corporate distributions due to underestimating an amount of earnings and profits.

(e) *Payment*—(1) *General rule.* A payment is considered made to a person if that person realizes income whether or not such income results from an actual transfer of cash or other property. For example, realization of income from cancellation of debt results in a deemed payment. A payment is considered made when the amount would be includible in the income of the beneficial owner under the U.S. tax principles governing the cash basis method of accounting. A payment is considered made whether it is made directly to the beneficial owner or to another person for the benefit of the beneficial owner (e.g., to the agent of the beneficial owner). Thus, a payment of income is considered made to a beneficial owner if it is paid in complete or partial satisfaction of the beneficial owner's debt to a creditor. In the event of a conflict between the rules of this paragraph (e)(1) governing whether a payment has occurred and its timing and the rules of §31.3406(a)–4 of this chapter, the rules in §31.3406(a)–4 of this chapter shall apply to the extent that the application of section 3406 is relevant to the transaction at issue.

(2) *Income allocated under section 482.* A payment is considered made to the extent income subject to withholding is allocated under section 482. Further, income arising as a result of a secondary adjustment made in conjunction with a reallocation of income under section 482 from a foreign person to a related U.S. person is considered paid to a foreign person unless the taxpayer to whom the income is reallocated has entered into a repatriation agreement with the IRS and the agreement eliminates the liability for withholding under this section. For purposes of determining the liability for withholding, the payment of income is deemed to have occurred on the last day of the taxable year in which the transactions that give rise to the allocation of income and the secondary adjustments, if any, took place.

(3) *Blocked income.* Income is not considered paid if it is blocked under executive authority, such as the President's exercise of emergency power under the Trading with the Enemy Act (50 U.S.C. App. 5), or the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq). However, on the date that the blocking restrictions are removed, the income that was blocked is considered constructively received by the beneficial owner (and therefore paid for purposes of this section) and subject to withholding under §1.1441–1. Any exemption from withholding pursuant to this paragraph (e)(3) applies

without a requirement that documentation be furnished to the withholding agent. However, documentation may have to be furnished for purposes of the information reporting provisions under chapter 61 of the Code and backup withholding under section 3406. The exemption from withholding granted by this paragraph (e)(3) is not a determination that the amounts are not fixed or determinable annual or periodical income.

(4) *Special rules for dividends.* For purposes of sections 1441 and 6042, in the case of stock for which the record date is earlier than the payment date, dividends are considered paid on the payment date. In the case of a corporate reorganization, if a beneficial owner is required to exchange stock held in a former corporation for stock in a new corporation before dividends that are to be paid with respect to the stock in the new corporation will be paid on such stock, the dividend is considered paid on the date that the payee or beneficial owner actually exchanges the stock and receives the dividend. See § 31.3406(a)–4(a)(2) of this chapter.

(5) *Certain interest accrued by a foreign corporation.* For purposes of sections 1441 and 6049, a foreign corporation shall be treated as having made a payment of interest as of the last day of the taxable year if it has made an election under § 1.884–4(c)(1) to treat accrued interest as if it were paid in that taxable year.

(6) *Payments other than in U.S. dollars.* For purposes of section 1441, a payment includes amounts paid in a medium other than U.S. dollars. See § 1.1441–3(e) for rules regarding the amount subject to withholding in the case of such payments.

(f) *Effective date.* This section applies to payments made after December 31, 1999.

[T.D. 8734, 62 FR 53444, Oct. 14, 1997, as amended by T.D. 8804, 63 FR 72187, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53444, Oct. 14, 1997, § 1.1441–2 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1441–2 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§ 1.1441–2 Income subject to withholding.

(a) *Fixed or determinable annual or periodical income.* (1) The gross amount of fixed or determinable annual or periodical income is subject to withholding. Section 1441(b) specifically includes in such income interest, dividends, rent, salaries, wages, premiums, annuities, compensations, remunerations, and emoluments; but other kinds of income are included, as, for instance, royalties. For purposes of the preceding sentence, the term ‘‘interest’’ includes interest on certain deferred payments, as provided in section 483 and the regulations thereunder. The term ‘‘fixed or determinable annual or periodical’’ income is merely descriptive of the character of a class of income. If an item of income falls within the class of income contemplated by the statute, it is immaterial whether payment of that item is made in a series of repeated payments or in a single lump sum. Thus, $5,000 in royalty income would come within the meaning of the term, whether paid in 10 payments of $500 each or in one payment of $5,000.

(2) Income is fixed when it is to be paid in amounts definitely predetermined. Income is determinable whenever there is a basis of calculation by which the amount to be paid may be ascertained. The income need not be paid annually if it is paid periodically; that is to say, from time to time, whether or not at regular intervals. The fact that a payment is not made annually or periodically does not, however, necessarily prevent its being fixed or determinable annual or periodical income. That the length of time during which the payments are to be made may be increased or diminished in accordance with someone’s will or with the happening of an event does not make the payments any the less determinable or periodical. A salesman working by the month for a commission on sales which is paid or credited monthly receives determinable periodical income. The share of the fixed or determinable annual or periodical income of an estate or trust from sources within the United States which is required to be distributed currently, or which has been paid or credited during the taxable year, to a nonresident alien beneficiary of such estate or trust constitutes fixed or determinable annual or periodical income. Such items as taxes, interest on mortgages, or premiums on insurance paid to or for the account of a nonresident alien landlord by a tenant, pursuant to the terms of the lease, constitute fixed or determinable annual or periodical income.

(3) Income derived from the sale in the United States of property, whether real or personal, is not fixed or determinable annual or periodical income.

(b) *Other income subject to withholding*—(1) *Payments in taxable years of recipients beginning before January 1, 1967.* For payments made in taxable years of recipients beginning before January 1, 1967, withholding at 30 percent is also required on the gross amount of the items described in section 402(a)(2), relating to treatment of total distributions from certain employees' trusts; in sections 631 (b) and (c), relating to treatment of gain on disposal of timber, coal, or domestic iron ore with a retained economic interest; in section 1235, relating to treatment of gain on sale or exchange of patents; and, after September 2, 1958, in section 403(a)(2), relating to treatment of payments under certain employee annuities, each of which items is considered to be gain from the sale or exchange of a capital asset.

(2) *Payments in taxable years of recipients beginning after December 31, 1966.* For payments made in taxable years of recipients beginning after December 31, 1966, withholding at 30 percent is also required on the gross amount of the following items:

(i) Gains described in section 402(a)(2), relating to the treatment of total distributions from certain employees' trusts; section 403(a)(2), relating to treatment of payments under certain employee annuities; and section 631 (b) or (c), relating to treatment of gain on disposal of timber, coal, or domestic iron ore with a retained economic interest;

(ii) [Reserved]

(iii) Gains subject to the 30-percent tax under section 871(a)(1)(D) or section 881(a)(4), relating to contingent payments received from the sale or exchange after October 4, 1966, of patents, copyrights, and similar intangible property; and

(iv) Gains on transfers described in section 1235, relating to treatment of gain on sale or exchange of patents, if the transfers are made on or before October 4, 1966.

(c) *Amounts received by participants in certain exchange or training programs*—(1) *Scholarship or fellowship grants.* Withholding of tax shall be at the rate of 14 percent (rather than 30 percent) on that portion of a scholarship or fellowship grant paid after March 4, 1964, to a nonresident alien individual who is temporarily present in the United States as a nonimmigrant under subparagraph (F) or (J) of section 101(a)(15) of the Immigration and Nationality Act, as amended (8 U.S.C. 1101(a)(15)(F) or (J)), which is not excludible from such nonresident alien's gross income under section 117(a)(1) and paragraph (a) of §1.117–1 because it exceeds the limitations set forth in section 117(b)(2)(B) and paragraph (b)(2) of §1.117–2. Thus, if a nonresident alien scientist who was admitted to the United States under subparagraph (J) of section 101(a)(15) of the Immigration and Nationality Act, as amended, to engage in postdoctoral scientific studies received a fellowship grant from a grantor specified in section 117(b)(2)(A) which exceeded the $300-per-month-for-36- months limitation determined under paragraph (b) (2) and (3) of §1.117–2, a tax at the rate of 14 percent rather than 30 percent must be withheld from the amount of the grant includible in the scientist's gross income.

(2) *Expenses for travel, research, etc.* Withholding shall also be at the rate of 14 percent on amounts paid after March 4, 1964, to nonresident alien individuals described in subparagraph (1) of this paragraph to cover expenses for travel, research, clerical help, or equipment which are incident to a scholarship or fellowship grant to which section 117(a)(1) applies, but only to the extent that such amounts are not excludible from gross income under paragraph (b)(1) of §1.117–1 because they pertain to a portion of a scholarship or fellowship grant which is not excludible, or because the amount received is not specifically designated to cover such expenses under paragraph (b)(2)(i) of §1.117–1.

(3) *Exchange visitors.* A nonresident alien individual who is temporarily present in the United States as a nonimmigrant under subparagraph (J) of section 101(a)(15) of the Immigration and Nationality Act, as amended, includes a nonresident alien individual admitted to the United States as an ''exchange visitor'' under section 201 of the U.S. Information and Educational Exchange Act of 1948, as amended (22 U.S.C. 1446), which section was repealed by section 111 of the Mutual Educational and Cultural Exchange Act of 1961 (Pub. L. 87–256, 75 Stat. 538).

(Approved by the Office of Management and Budget under control number 1545–0795)

(Sec. 1441(c)(4) (80 Stat. 1553; 26 U.S.C. 1441(c)(4)), 3401(a)(6) (80 Stat. 1554; 26 U.S.C. 3401(a)(6)), and 7805 (68A Stat. 917; 26 U.S.C. 7805) of the Internal Revenue Code of 1954)

[T.D. 6500, 25 FR 12073, Nov. 26, 1960, as amended by T.D. 6908, 31 FR 16770, Dec. 31, 1966; T.D. 7977, 49 FR 36831, Sept. 20, 1984]

§1.1441–3 Determination of amounts to be withheld.

(a) *Withholding on gross amount.* Except as otherwise provided in regulations under section 1441, the amount subject to withholding under §1.1441–1 is the gross amount of income subject to withholding that is paid to a foreign person. The gross amount of income subject to withholding may not be reduced by any deductions, except to the extent that one or more personal exemptions are allowed as provided under §1.1441–4(b)(6).

(b) *Withholding on payments on certain obligations*—(1) *Withholding at time of payment of interest.* When making a payment on an interest-bearing obligation, a withholding agent must withhold under § 1.1441–1 upon the gross amount of stated interest payable on the interest payment date, regardless of whether the payment constitutes a return of capital or the payment of income within the meaning of section 61. To the extent an amount was withheld on an amount of capital rather than interest, see the rules for adjustments, refunds, or credits under § 1.1441–1(b)(8).

(2) *No withholding between interest payment dates*—(i) *In general.* A withholding agent is not required to withhold under § 1.1441–1 upon interest accrued on the date of a sale of debt obligations when that sale occurs between two interest payment dates (even though the amount is treated as interest under § 1.61–7 (c) or (d) and is subject to tax under section 871 or 881). See § 1.6045–1(c) for reporting requirements by brokers with respect to sale proceeds. See § 1.61–7(c) regarding the character of payments received by the acquirer of an obligation subsequent to such acquisition (that is, as a return of capital or interest accrued after the acquisition). Any exemption from withholding pursuant to this paragraph (b)(2)(i) applies without a requirement that documentation be furnished to the withholding agent. However, documentation may have to be furnished for purposes of the information reporting provisions under section 6045 or 6049 and backup withholding under section 3406. The exemption from withholding granted by this paragraph (b)(2) is not a determination that the accrued interest is not fixed or determinable annual or periodical income under section 871(a) or 881(a) nor does it constitute an exemption from reporting under § 1.1461–1 (b) and (c) the amount of accrued interest paid.

(ii) *Anti-abuse rule.* The exemption in paragraph (b)(2)(i) of this section does not apply if the sale of securities is part of a plan the principal purpose of which is to avoid tax by selling and repurchasing securities and the withholding agent has actual knowledge or reason to know of such plan.

(c) *Corporate distributions*—(1) *General rule.* A corporation making a distribution with respect to its stock or any intermediary (described in § 1.1441–1(e)(3)(i)) making a payment of such a distribution is required to withhold under section 1441, 1442, or 1443 on the entire amount of the distribution, unless it elects to reduce the amount of withholding under the provisions of paragraph (c)(2) of this section. The exemption from withholding provided by this paragraph (c) applies without any requirement to furnish documentation to the withholding agent. However, documentation may have to be furnished for purposes of the information reporting provisions under section 6042 or 6045 and backup withholding under section 3406. The exemption from withholding granted by this paragraph (c) does not constitute a determination that the exempted amounts are not fixed or determinable annual or periodical income under sections 871(a) or 881(a) nor does it constitute an exemption from reporting under § 1.1461–1 (b) and (c) the amount of the distribution.

(2) *Exception to withholding on distributions*—(i) *In general.* An election described in paragraph (c)(1) of this section is made by actually reducing the amount of withholding at the time that the payment is made. An intermediary that makes a payment of a distribution is not required to reduce the withholding based on the distributing corporation's estimate of earnings and profits, even if the distributing corporation itself elects to reduce the withholding on payments of distributions that it itself makes to foreign persons. Conversely, an intermediary may elect to reduce the amount of withholding with respect to the payment of a distribution even if the distributing corporation does not so elect for the payments of distributions that it itself makes of distributions to foreign persons. The amounts with respect to which a distributing corporation or intermediary may elect to reduce the withholding are as follows:

(A) A distributing corporation or intermediary may elect to not withhold on a distribution to the extent it represents a nontaxable distribution payable in stock or stock rights.

(B) A distributing corporation or intermediary may elect to not withhold on a distribution to the extent it represents a distribution in part or full payment in exchange for stock.

(C) A distributing corporation or intermediary may elect to not withhold on a distribution (actual or deemed) to the extent it is not paid out of accumulated earnings and profits or current earnings and profits, based on a reasonable estimate determined under paragraph (c)(2)(ii) of this section.

(D) A regulated investment company or intermediary may elect to not withhold on a distribution representing a capital gain dividend (as defined in section 852(b)(3)(C)) or an exempt interest dividend (as defined in section 852(b)(5)(A)) based on the applicable procedures described under paragraph (c)(3) of this section.

(E) A U.S. Real Property Holding Corporation (defined in section 897(c)(2)) or a real estate investment trust (defined in section 856) or intermediary may elect to not withhold on a distribution to the extent it is subject to withholding under section 1445 and the regulations under that section. See paragraph (c)(4) of this section for applicable procedures.

(ii) *Reasonable estimate of accumulated and current earnings and profits on the date of payment*—(A) *General rule.* A reasonable estimate for purposes of paragraph (c)(2)(i)(C) of this section is a determination made by the distributing corporation at a time reasonably close to the date of payment of the extent to which the distribution will constitute a dividend, as defined in section 316. The determination is based upon the anticipated amount of accumulated earnings and profits and current earnings and profits for the taxable year in which the distribution is made, the distributions made prior to the distribution for which the estimate is made and all other relevant facts and circumstances. A reasonable estimate may be made based on the procedures described in §31.3406(b)(2)–4(c)(2) of this chapter.

(B) *Procedures in case of underwithholding.* A distributing corporation or intermediary that is a withholding agent with respect to a distribution and that determines at the end of the taxable year in which the distribution is made that it underwithheld under section 1441 on the distribution shall be liable for the amount underwithheld as a withholding agent under section 1461. However, for purposes of this section and §1.1461–1, any amount underwithheld paid by a distributing corporation, its paying agent, or an intermediary shall not be treated as income subject to additional withholding even if that amount is treated as additional income to the shareholders unless the additional amount is income to the shareholder as a result of a contractual arrangement between the parties regarding the satisfaction of the shareholder's tax liabilities. In addition, no penalties shall be imposed for failure to withhold and deposit the tax if—

(*1*) The distributing corporation made a reasonable estimate as provided in paragraph (c)(2)(ii)(A) of this section; and

(*2*) Either—

(*i*) The corporation or intermediary pays over the underwithheld amount on or before the due date for filing a Form 1042 for the calendar year in which the distribution is made, pursuant to §1.1461–2(b); or

(*ii*) The corporation or intermediary is not a calendar year taxpayer and it files an amended return on Form 1042X (or such other form as the Commissioner may prescribe) for the calendar year in which the distribution is made and pays the underwithheld amount and interest within 60 days after the close of the taxable year in which the distribution is made.

(C) *Reliance by intermediary on reasonable estimate.* For purposes of determining whether the payment of a corporate distribution is a dividend, a withholding agent that is not the distributing corporation may, absent actual knowledge or reason to know otherwise, rely on representations made by the distributing corporation regarding the reasonable estimate of the anticipated accumulated and current earnings and profits made in accordance with paragraph (c)(2)(ii)(A) of this section. Failure by the withholding agent to withhold the required amount due to a failure by the distributing corporation to reasonably estimate the portion of the distribution treated as a dividend or to properly communicate the information to the withholding agent shall be imputed to the distributing corporation. In such a case, the Internal Revenue Service (IRS) may collect from the distributing corporation any underwithheld amount and subject the distributing corporation to applicable interest and penalties as a withholding agent.

(D) *Example.* The rules of this paragraph (c)(2) are illustrated by the following example:

Example. (i) *Facts.* Corporation X, a publicly traded corporation with both U.S. and foreign shareholders and a calendar year taxpayer, has an accumulated deficit in earnings and profits at the close of 2000. In 2001, Corporation X generates $1 million of current earnings and profits each month and makes an $18 million distribution, resulting in a $12 million dividend. Corporation X plans to make an additional $18 million distribution on October 1, 2002. Approximately one month before that date, Corporation X's management receives an internal report from its legal and accounting department concerning Corporation X's estimated current earnings and profits. The report states that Corporation X should generate only $5.1 million of current earnings and profits by the close of the third quarter due to costs relating to substantial organizational and product changes, but these changes will enable Corporation X to generate $1.3 million of earnings and profits monthly for the last quarter of the 2002 fiscal year. Thus, the total amount of current and earnings and profits for 2002 is estimated to be $9 million.

(ii) *Analysis.* Based on the facts in paragraph (i) of this *Example,* including the fact that earnings and profits estimate was made within a reasonable time before the distribution, Corporation X can rely on the estimate under paragraph (c)(2)(ii)(A) of this section. Therefore, Corporation X may treat $9 million of the $18 million of the October 1, 2002, distribution to foreign shareholders as a nondividend distribution.

(3) *Special rules in the case of distributions from a regulated investment company*—(i) *General rule.* If the amount of any distributions designated as being subject to section 852(b)(3)(C) or (5)(A) exceeds the amount that may be designated under those sections for the taxable year, then no penalties will be asserted for any resulting underwithholding if the designations were based on a reasonable estimate (made pursuant to the same procedures as are described in paragraph (c)(2)(ii)(A) of this section) and the adjustments to the amount withheld are made within the time period described in paragraph (c)(2)(ii)(B) of this section. Any adjustment to the amount of tax due and paid to the IRS by the withholding agent as a result of underwithholding shall not be treated as a distribution for purposes of section 562(c) and the regulations thereunder. Any amount of U.S. tax that a foreign shareholder is treated as having paid on the undistributed capital gain of a regulated investment company under section 852(b)(3)(D) may be claimed by the foreign shareholder as a credit or refund under § 1.1464–1.

(ii) *Reliance by intermediary on reasonable estimate.* For purposes of determining whether a payment is a distribution designated as subject to section 852(b) (3)(C) or (5)(A), a withholding agent that is not the distributing regulated investment company may, absent actual knowledge or reason to know otherwise, rely on the designations that the distributing company represents have been made in accordance with paragraph (c)(3)(i) of this section. Failure by the withholding agent to withhold the required amount due to a failure by the regulated investment company to reasonably estimate the required amounts or to properly communicate the relevant information to the withholding agent shall be imputed to the distributing company. In such a case, the IRS may collect from the distributing company any underwithheld amount and subject the company to applicable interest and penalties as a withholding agent.

(4) *Coordination with withholding under section 1445*—(i) *In general.* A distribution from a U.S. Real Property Holding Corporation (USRPHC) (or from a corporation that was a USRPHC at any time during the five-year period ending on the date of distribution) with respect to stock that is a U.S. real property interest under section 897(c) or from a Real Estate Investment Trust (REIT) with respect to its stock is subject to the withholding provisions under section 1441 (or section 1442 or 1443) and section 1445. A USRPHC making a distribution shall be treated as satisfying its withholding obligations under both sections if it withholds in accordance with one of the procedures described in either paragraph (c)(4)(i)

(A) or (B) of this section. A USRPHC must apply the same withholding procedure to all the distributions made during the taxable year. However, the USRPHC may change the applicable withholding procedure from year to year. For rules regarding distributions by REITs, see paragraph (c)(4)(i)(C) of this section.

(A) *Withholding under section 1441.* The USRPHC may choose to withhold on a distribution only under section 1441 (or 1442 or 1443) and not under section 1445. In such a case, the USRPHC must withhold under section 1441 (or 1442 or 1443) on the full amount of the distribution, whether or not any portion of the distribution represents a return of basis or capital gain. If a reduced tax rate under an income tax treaty applies to the distribution by the USRPHC, then the applicable rate of withholding on the distribution shall be no less than 10-percent, unless the applicable treaty specifies an applicable lower rate for distributions from a USRPHC, in which case the lower rate may apply.

(B) *Withholding under both sections 1441 and 1445.* As an alternative to the procedure described in paragraph (c)(4)(i)(A) of this section, a USRPHC may choose to withhold under both sections 1441 (or 1442 or 1443) and 1445 under the procedures set forth in this paragraph (c)(4)(i)(B). The USRPHC must make a reasonable estimate of the portion of the distribution that is a dividend under paragraph (c)(2)(ii)(A) of this section, and must—

(*1*) Withhold under section 1441 (or 1442 or 1443) on the portion of the distribution that is estimated to be a dividend under paragraph (c)(2)(ii)(A) of this section; and

(*2*) Withhold under section 1445(e)(3) and §1.1445–5(e) on the remainder of the distribution or on such smaller portion based on a withholding certificate obtained in accordance with §1.1445–5(e)(2)(iv).

(C) *Coordination with REIT withholding.* Withholding is required under section 1441 (or 1442 or 1443) on the portion of a distribution from a REIT that is not designated as a capital gain dividend or return of basis. Withholding is required under section 1445 on the portion of the distribution designated by a REIT as a capital gain dividend. See §1.1445–8.

(ii) *Intermediary reliance rule.* A withholding agent that is not the distributing USRPHC must withhold under paragraph (c)(4)(i) of this section, but may, absent actual knowledge or reason to know otherwise, rely on representations made by the USRPHC regarding the determinations required under paragraph (c)(4)(i) of this section. Failure by the withholding agent to withhold the required amount due to a failure by the distributing USRPHC to make these determinations in a reasonable manner or to properly communicate the determinations to the withholding agent shall be imputed to the distributing USRPHC. In such a case, the IRS may collect from the distributing USRPHC any underwithheld amount and subject the distributing USRPHC to applicable interest and penalties as a withholding agent.

(d) *Withholding on payments that include an undetermined amount of income*—(1) *In general.* Where the withholding agent makes a payment and does not know at the time of payment the amount that is subject to withholding because the determination of the source of the income or the calculation of the amount of income subject to tax depends upon facts that are not known at the time of payment, then the withholding agent must withhold an amount under §1.1441–1 based on the entire amount paid that is necessary to assure that the tax withheld is not less than 30 percent (or other applicable percentage) of the amount that will subsequently be determined to be from sources within the United States or to be income subject to tax. The amount so withheld shall not exceed 30 percent of the amount paid. In the alternative, the withholding agent may make a reasonable estimate of the amount from U.S. sources or of the taxable amount and set aside a corresponding portion of the amount due under the transaction and hold such portion in escrow until the amount from U.S. sources or the taxable amount can be determined, at which point withholding becomes due under §1.1441–1. See §1.1441–1(b)(8) regarding adjustments in the case of overwithholding. The provisions of this paragraph (d)(1) shall not apply to the extent that other provisions of the regulations under chapter 3 of the Internal Revenue Code (Code) specify the amount to be withheld, if any, when the withholding agent lacks knowledge at the time of payment (e.g., lack of reliable knowledge regarding the status of the payee or beneficial owner, addressed in § 1.1441–1(b)(3), or lack of knowledge regarding the amount of original issue discount under § 1.1441–2(b)(3)).

(2) *Withholding on certain gains.* Absent actual knowledge or reason to know otherwise, a withholding agent may rely on a claim regarding the amount of gain described in § 1.1441–2(c) if the beneficial owner withholding certificate, or other appropriate withholding certificate, states the beneficial owner's basis in the property giving rise to the gain. In the absence of a reliable representation on a withholding certificate, the withholding agent must withhold an amount under § 1.1441–1 that is necessary to assure that the tax withheld is not less than 30 percent (or other applicable percentage) of the recognized gain. For this purpose, the recognized gain is determined without regard to any deduction allowed by the Code from the gains. The amount so withheld shall not exceed 30 percent of the amount payable by reason of the transaction giving rise to the recognized gain. See § 1.1441–1(b)(8) regarding adjustments in the case of overwithholding.

(e) *Payments other than in U.S. dollars*—(1) *In general.* The amount of a payment made in a medium other than U.S. dollars is measured by the fair market value of the property or services provided in lieu of U.S. dollars. The withholding agent may liquidate the property prior to payment in order to withhold the required amount of tax under section 1441 or obtain payment of the tax from an alternative source. However, the obligation to withhold under section 1441 is not deferred even if no alternative source can be located. Thus, for purposes of withholding under chapter 3 of the Code, the provisions of § 31.3406(h)–2(b)(2)(ii) of this chapter (relating to backup withholding from another source) shall not apply. If the withholding agent satisfies the tax liability related to such payments, the rules of paragraph (f) of this section apply.

(2) *Payments in foreign currency.* If the amount subject to withholding tax is paid in a currency other than the U.S. dollar, the amount of withholding under section 1441 shall be determined by applying the applicable rate of withholding to the foreign currency amount and converting the amount withheld into U.S. dollars on the date of payment at the spot rate (as defined in § 1.988–1(d)(1)) in effect on that date. A withholding agent making regular or frequent payments in foreign currency may use a month-end spot rate or a monthly average spot rate. A spot rate convention must be used consistently for all non-dollar amounts withheld and from year to year. Such convention cannot be changed without the consent of the Commissioner. The U.S. dollar amount so determined shall be treated by the beneficial owner as the amount of tax paid on the income for purposes of determining the final U.S. tax liability and, if applicable, claiming a refund or credit of tax.

(f) *Tax liability of beneficial owner satisfied by withholding agent*—(1) *General rule.* In the event that the satisfaction of a tax liability of a beneficial owner by a withholding agent constitutes income to the beneficial owner and such income is of a type that is subject to withholding, the amount of the payment deemed made by the withholding agent for purposes of this paragraph (f) shall be determined under the gross-up formula provided in this paragraph (f)(1). Whether the payment of the tax by the withholding agent constitutes a satisfaction of the beneficial owner's tax liability and whether, as such, it constitutes additional income to the beneficial owner, must be determined under all the facts and circumstances surrounding the transaction, including any agreements between the parties and applicable law. The formula described in this paragraph (f)(1) is as follows:

$$\text{Payment} = \frac{\text{Gross payment without withholding}}{1-(\text{tax rate})}$$

(2) *Example.* The following example illustrates the provisions of this paragraph (f):

Example. College X awards a qualified scholarship within the meaning of section 117(b) to foreign student, FS, who is in the United States on an F visa. FS is a resident of a country that does not have an income tax treaty with the United States. The scholarship is $20,000 to be applied to tuition, mandatory fees and books, plus benefits in kind consisting of room and board and roundtrip air transportation. College X agrees to pay any U.S. income tax owed by FS with respect to the scholarship. The fair market value of the room and board measured by the amount College X charges nonscholarship students is $6,000. The cost of the roundtrip air transportation is $2,600. Therefore, the total fair market value of the scholarship received by FS is $28,600. However, the amount taxable is limited to the fair market value of the benefits in kind ($8,600) because the portion of the scholarship amount for tuition, fees, and books is not included in gross income under section 117. The applicable rate of withholding is 14 percent under section 1441(b). Therefore, under the gross-up formula, College X is deemed to make a payment of $10,000 ($8,600 divided by (1–.14). The U.S. tax that must be deducted and withheld from the payment under section 1441(b) is $1,400 (.14×$10,000). College X reports scholarship income of $30,000 and $1,400 of U.S. tax withheld on Forms 1042 and 1042–S.

(g) *Conduit financing arrangements*—(1) *Duty to withhold.* A financed entity or other person required to withhold tax under section 1441 with respect to a financing arrangement that is a conduit financing arrangement within the meaning of §1.881–3(a)(2)(iv) shall be required to withhold under section 1441 as if the district director had determined, pursuant to §1.881–3(a)(3), that all conduit entities that are parties to the conduit financing arrangement should be disregarded. The amount of tax required to be withheld shall be determined under §1.881–3(d). The withholding agent may withhold tax at a reduced rate if the financing entity establishes that it is entitled to the benefit of a treaty that provides a reduced rate of tax on a payment of the type deemed to have been paid to the financing entity. Section 1.881–3(a)(3)(ii)(E) shall not apply for purposes of determining whether any person is required to deduct and withhold tax pursuant to this paragraph (g), or whether any party to a financing arrangement is liable for failure to withhold or entitled to a refund of tax under sections 1441 or 1461 to 1464 (except to the extent the amount withheld exceeds the tax liability determined under §1.881–3(d)). See §1.1441–7(f) relating to withholding tax liability of the withholding agent in conduit financing arrangements subject to §1.881–3.

(2) *Effective date.* This paragraph (g) is effective for payments made by financed entities on or after September 11, 1995. This paragraph shall not apply to interest payments covered by section 127(g)(3) of the Tax Reform Act of 1984, and to interest payments with respect to other debt obligations issued prior to October 15, 1984 (whether or not such debt was issued by a Netherlands Antilles corporation).

(h) *Effective date.* Except as otherwise provided in paragraph (g) of this section, this section applies to payments made after December 31, 1999.

[T.D. 6500, 25 FR 12074, Nov. 26, 1960, as amended by T.D. 6908, 31 FR 16771, Dec. 31, 1966; T.D. 7378, 40 FR 45436, Oct. 2, 1975; T.D. 7977, 49 FR 36831, Sept. 20, 1984; T.D. 8611, 60 FR 41014, Aug. 11, 1995; T.D. 8734, 62 FR 53446, Oct. 14, 1997; T.D. 8804, 63 FR 72187, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53446, Oct. 14, 1997, §1.1441–3 was amended by revising the section heading, and paragraphs (a) through (f) and (h); by removing paragraphs (g) and (i); by redesignating paragraph (j) as paragraph (g); by removing ''(j)'' and inserting ''(g)'' in its place in the fourth sentence of newly designated paragraph (g)(1) and in the first sentence of newly designated paragraph (g)(2); by removing ''§1.1441–7(d)'' in the last sentence of newly designated paragraph (g)(1) and inserting ''1.1441–7(f)'' in its place; and by removing the authority citation at the end of the section, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1441–3 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§1.1441–3 Exceptions and rules of special application.

(a) *Income from sources without the United States.* To the extent that items of income constitute gross income from sources without the United States, they are not subject to withholding under §1.1441–1. For rules governing the determination of the sources of income, see part I (section 861 and following), subchapter N, chapter 1 of the Code, and the regulations thereunder.

(b) *Corporate distributions*—(1) *Nontaxable portion.* The tax shall be withheld at the source under § 1.1441–1 on the gross amount of any distribution made by a corporation other than:

(i) A nontaxable distribution payable in stock or stock rights, and

(ii) A distribution which is treated as a distribution in part or full payment in exchange for stock.

This rule shall apply without regard to any claim that all or a portion of the distribution is not taxable under section 871 or 881. The tax shall be withheld on the gross amount of the distribution even though the payee may be entitled to the benefits of section 116, relating to partial exclusion of dividends received by individuals. Appropriate adjustment, if any, will be made upon the payee's filing of a claim for refund, together with appropriate supporting evidence, in accordance with paragraph (h) of this section.

(2) *Dividends paid by a foreign corporation*—(i) *Payments in taxable years of recipients beginning before January 1, 1967.* In the case of dividends paid in taxable years of recipients beginning before January 1, 1967, no withholding under § 1.1441–1 is required in the case of dividends paid by a foreign corporation unless *(a)* the corporation is engaged in trade or business within the United States and *(b)* more than 85 percent of the gross income of the corporation for the 3-year period ending with the close of its taxable year preceding the declaration of the dividends (or for such part of such period as the corporation has been in existence) was derived from sources within the United States as determined under the provisions of Part I (section 861 and following), Subchapter N, Chapter 1 of the Code, and the regulations thereunder.

(ii) *Payments in taxable years of recipients beginning after December 31, 1966.* In the case of dividends paid in taxable years of recipients beginning after December 31, 1966, all dividends paid by a foreign corporation which are treated as income from sources within the United States are subject to withholding under § 1.1441–1.

(3) *Dividends paid to shareholder whose status is not definite.* When a payer corporation or any other person, including a nominee, having the control, receipt, custody, disposal, or payment of dividends has no definite knowledge of the status of a shareholder, the tax shall be withheld under § 1.1441–1 if the shareholder's address is outside the United States. If the shareholder's address is within the United States, it may be assumed for the purpose of withholding on dividends that, in the case of an individual, the shareholder is a citizen or resident of the United States; and, in the case of a partnership or corporation, the shareholder is a domestic partnership or a domestic corporation, as the case may be. Unless the facts and circumstances indicate clearly that the shareholder is a nonresident alien individual, foreign partnership, or foreign corporation, an address in care of another person in the United States does not of itself warrant treating the shareholder as a person who is subject to withholding upon dividends under § 1.1441–1. If a shareholder changes his address from a place outside the United States to a place within the United States, the tax shall be withheld on dividends unless (i) proof is furnished showing that, in the case of an individual, he is a citizen or resident of the United States or, in the case of a partnership or corporation, it is a domestic partnership or corporation, or (ii) the withholding agent is otherwise satisfied that the shareholder is not a person who is subject to withholding under § 1.1441–1. For general provisions for claiming to be a person not subject to withholding under § 1.1441–1, see § 1.1441–5.

(c) *Interest*—(1) *Government obligations.* Withholding is required under § 1.1441–1 in the case of interest paid on obligations issued on or after March 1, 1941, by the United States or any agency or instrumentality thereof. See section 103 and the regulations thereunder, relating to the taxation of such interest, and § 1.1461–1, relating to ownership certificates.

(2) *Assumed obligations.* If, in connection with the sale of a corporation's property, payment of the bonds or other obligations of the corporation is assumed by the assignee, the assignee, whether an individual, partnership, or corporation, shall deduct and withhold such taxes under § 1.1441–1 as would be required to be withheld by the assignor had no such sale or transfer been made.

(3) *Defaulted interest coupons.* The tax shall be withheld at the source under § 1.1441–1 on the gross amount of interest without regard to whether or not the payment constitutes a return of capital or the payment of income within the meaning of section 61. Thus, for example, the tax shall be withheld in accordance with § 1.1441–1 from defaulted interest payments upon bonds which were purchased flat at quotations representing the price of both the bonds and the defaulted matured interest coupons. Appropriate adjustments, if any, will be made upon the payee's filing of a claim for refund, together with appropriate supporting evidence, in accordance with paragraph (h) of this section.

(4) *Unknown owner.* Withholding is required under § 1.1441–1 in the case of interest upon all bonds or securities the owners of which are not known to the withholding agent unless such bonds or securities were issued by a corporation before January 1, 1934, contain a tax-free covenant, and do not have a maturity date which was extended on or after that date. For withholding under section 1451 in the case of unknown owners, see paragraph (a)(2) of § 1.1451–1.

(5) *Tax-free covenant bonds*—(i) *Issued on or after January 1, 1934.* Withholding is required under §1.1441–1 in the case of interest upon bonds or other corporate obligations issued on or after January 1, 1934, and containing a tax-free covenant.

(ii) *Issued before January 1, 1934.* Withholding is not required under §1.1441–1 in the case of interest upon bonds or other corporate obligations issued before January 1, 1934, containing a tax-free covenant, and not having a maturity date which was extended on or after that date. A domestic or resident fiduciary is required, however, to withhold tax under §1.1441–1 in the case of so much of such interest as is properly allocable under section 652 or 662 to a nonresident alien beneficiary. See paragraph (f) of this section and of §1.1451–1. For general rules respecting the withholding of tax under section 1451 in the case of such interest, see §1.1451–1.

(iii) *Extended maturity date.* Withholding is required under §1.1441–1 in the case of interest upon bonds or other corporate obligations issued before January 1, 1934, and containing a tax-free covenant, if the maturity date of the bonds or obligations has been extended on or after that date. See paragraph (c) of §1.1451–1.

(iv) *Special rate of 27½ percent.* The rate of tax to be withheld at the source under §1.1441–1 shall not exceed 27½ percent in the case of interest on bonds, mortgages, or deeds of trust, or other similar obligations of a corporation if:

(a) The liability assumed by the debtor exceeds 27½ percent of the interest, and

(b) The interest would be subject to withholding under the provisions of subsections (a), (b), and (c) of section 1451 except for the fact that the maturity date of the obligations has been extended on or after January 1, 1934. See paragraph (c) of §1.1451–1.

(d) *Special rules applicable to certain income*—(1) *Determination of amount to be withheld.* If in the case of amounts described in paragraph (b) of §1.1441–2, other than amounts described in subparagraph (2)(ii) of such paragraph, the withholding agent does not know the amount of recognized gain, he is required to deduct and withhold such amount under §1.1441–1 as may be necessary to assure that the tax withheld will not be less than 30 percent of the recognized gain. For this purpose, the recognized gain shall be determined without regard to the deduction allowed by section 1202 with respect to capital gains. The amount so withheld shall not exceed 30 percent of the amount payable by reason of the transaction giving rise to the recognized gain, except that the amount payable may be determined by excluding the net unrealized appreciation described in section 402(a)(2). Appropriate adjustment, if any, will be made by the payee's filing of a claim for refund, together with appropriate supporting evidence, in accordance with paragraph (h) of this section.

(2) *Statement showing recognized gain.* The withholding agent may, unless he has reason to believe to the contrary, rely on the statement of the person entitled to the gain described in subparagraph (1) of this paragraph as to the amount of gain which is recognized on the transaction involved and subject to withholding under §1.1441–1. This statement shall be filed with the withholding agent in duplicate. It shall show the computation of the amount of gain subject to withholding, shall be dated, shall be signed by the person entitled to the income, shall contain the taxpayer's identifying number, if any, and shall contain, or be verified by, a written declaration that it is made under the penalties of perjury. No particular form is prescribed for this statement. The duplicate copy of each statement filed during any calendar year pursuant to this subparagraph shall be forwarded by the withholding agent with, and attached to, the Form 1042S required by paragraph (c) of §1.1461–2 with respect to such gain for such calendar year.

(e) *Personal exemption*—(1) The taxation of nonresident alien individuals is provided for in part II (section 871 and following), subchapter N, chapter 1 of the Code. Section 874(a) makes the filing of a return a prerequisite to the allowance of deductions, including deductions of personal exemptions. Except in the circumstances described in subparagraph (2) of this paragraph, personal exemptions do not serve to reduce the amount of tax to be withheld under §1.1441–1.

(2) In the determination of the tax to be withheld at the source under §1.1441–1 from remuneration paid for labor or personal services performed within the United States by a nonresident alien individual, the benefit of the deduction for personal exemptions provided in section 151, to the extent allowable under section 873(b)(3) and the regulations thereunder, shall be allowed, prorated upon a daily basis for the period during which labor or personal services are performed within the United States by the alien individual. The benefit of the deduction for such personal exemptions shall also be allowed in the determination of the tax of 14 percent to be withheld at the source under §1.1441–1 and paragraph (c) of §1.1441–2 from amounts paid after March 4, 1964, to nonresident alien individuals who are temporarily present in the United States as nonimmigrants under subparagraph (F) or (J) of the Immigration and Nationality Act, as amended, and such personal exemptions shall be prorated upon a daily basis for the period during which the described nonresident alien student or scholar receives the payments. The proration is on a basis of $1.70 per day for each exemption to which the nonresident alien individual is entitled. Thus, if A, a married nonresident

alien individual without dependents is paid remuneration subject to withholding under § 1.1441–1 for performing personal services during a stay of 100 days in the United States, the amount of $170 will be allocated as the portion of the deduction to be allowed against the remuneration for personal services performed within the United States during that period; and withholding at 30 percent shall be applied against the balance, if any, of the remuneration. If, for example, the total remuneration paid to A for that period is $2,000, a total tax in the amount of $549 [($2,000 − $170)×0.30] is required to be withheld under § 1.1441–1. However, if A is a resident of Canada or Mexico, and his spouse has no gross income from sources within the United States, which is subject to income tax under chapter 1 of the Code, and is not the dependent of another taxpayer subject to such tax, an amount of $340 will be allocated as the portion of the deduction to be allowed against the remuneration for personal services performed within the United States. Thus, in such case, a total tax in the amount of $498 [($2,000 − $340)×0.30] is required to be withheld under § 1.1441–1. As to what constitutes remuneration for labor or personal services performed within the United States see section 861(a)(3) and the regulations thereunder.

(f) *Partnerships and fiduciaries.* Domestic partnerships are required to withhold the tax at source under § 1.1441.1 on items of income described in paragraphs (a) and (b) of § 1.1441–2 that are included in the distributive share (including amounts that are not actually distributed) of a member of such partnership who is a nonresident alien individual, nonresident alien or foreign fiduciary of a trust or estate, foreign partnership, or foreign corporation. Resident or domestic fiduciaries of trusts and estates are required to withhold the tax at source under § 1.1441–1 on all items of income described in paragraphs (a) and (b) of § 1.1441–2 that constitute gross income from sources within the United States (including amounts that are not actually distributed) of beneficiaries who are nonresident alien individuals, foreign partnerships, or foreign corporations. Because the gross income allocable to a partner and the income includable in the gross income of the beneficiary cannot be determined until the end of a taxable year of the partnership, trust, or estate, the partnership and the fiduciary of a trust or estate shall withhold under this section on all distributions to such partners and beneficiaries during the taxable years to the extent such distributions include items of income described in paragraphs (a) and (b) of § 1.1441–2. If the tax on actual distributions exceeds the tax on amounts includable in the gross income of the partner or beneficiary, the partner or beneficiary may file a claim for refund together with appropriate supporting evidence in accordance with paragraph (h) of this section. If a partnership or a fiduciary withholds under this section on a distributive partnership share or distributable net income of a trust or estate before the income is actually distributed to a partner or beneficiary, then withholding is not required when such income is subsequently distributed. Income described in paragraphs (a) and (b) of § 1.1441–2 that is paid to a foreign partnership or to a nonresident alien or foreign fiduciary is subject to withholding under § 1.1441–1 even though the members of the partnership or the beneficiaries of the trust or estate are individuals who are citizens or residents of the United States or are domestic corporations.

(g) *Trust income taxable to grantor.* The income of a trust created by a nonresident alien individual and taxable to the grantor under the provisions of subpart E, part I, subchapter J, chapter 1 of the Code, is subject to withholding under § 1.1441–1, even though the fiduciary or beneficiaries of the trust are citizens or residents of the United States and regardless of whether the beneficiaries are exempt from income tax.

(h) *Claims for refund.* A claim for refund referred to in paragraph (b) (1), (c) (3), (d) (1), or (f) of this section shall be made in accordance with the provisions of §§ 301.6402–2 and 301.6402–3 of this chapter (Regulations on Procedure and Administration).

(i) *Rents paid to foreign tax-exempt organizations.* For the rule for withholding on rents paid to foreign tax- exempt organizations, see § 1.1443–1.

* * * * *

(Secs. 1441(c)(4) (80 Stat. 1553; 26 U.S.C. 1441(c)(4)), 3401(a)(6) (80 Stat. 1554; 26 U.S.C. 3401(a)(6)), and 7805 (68A Stat. 917; 26 U.S.C. 7805) of the Internal Revenue Code of 1954)

§ 1.1441–4 Exemptions from withholding for certain effectively connected income and other amounts.

(a) *Certain income connected with a U.S. trade or business*—(1) *In general.* No withholding is required under section 1441 on income otherwise subject to withholding if the income is (or is deemed to be) effectively connected with the conduct of a trade or business within the United States and is includible in the beneficial owner's gross income for the taxable year. For purposes of this paragraph (a), an amount is not deemed to be includible in gross income if the amount is (or is deemed to be) effectively connected with the conduct of a trade or business within the United States and the beneficial owner claims an exemption from tax under an income tax treaty because the income is not attributable to a permanent establishment in the United States. To claim a reduced rate of withholding because the income is not attributable to a permanent establishment, see §1.1441–6(b)(1). This paragraph (a) does not apply to income of a foreign corporation to which section 543(a)(7) applies for the taxable year or to compensation for personal services performed by an individual. See paragraph (b) of this section for compensation for personal services performed by an individual.

(2) *Withholding agent's reliance on a claim of effectively connected income*—(i) *In general.* Absent actual knowledge or reason to know otherwise, a withholding agent may rely on a claim of exemption based upon paragraph (a)(1) of this section if, prior to the payment to the foreign person, the withholding agent can reliably associate the payment with a Form W–8 upon which it can rely to treat the payment as made to a foreign beneficial owner in accordance with §1.1441–1(e)(1)(ii). For purposes of this paragraph (a), a withholding certificate is valid only if, in addition to other applicable requirements, it includes the taxpayer identifying number of the person whose name is on the Form W–8 and represents, under penalties of perjury, that the amounts for which the certificate is furnished are effectively connected with the conduct of a trade or business in the United States and is includable in the beneficial owner's gross income for the taxable year. In the absence of a reliable claim that the income is effectively connected with the conduct of a trade or business in the United States, the income is presumed not to be effectively connected, except as otherwise provided in paragraph (a) (2)(ii) or (3) of this section. See §1.1441–1(e)(4)(ii)(C) for the period of validity applicable to a certificate provided under this section and §1.1441–1(e)(4)(ii)(D) for changes in circumstances arising during the taxable year indicating that the income to which the certificate relates is not, or is no longer expected to be, effectively connected with the conduct of a trade or business within the United States. A withholding certificate shall be effective only for the item or items of income specified therein. The provisions of §1.1441–1(b)(3)(iv) dealing with a 90-day grace period shall apply for purposes of this section.

(ii) *Special rules for U.S. branches of foreign persons*—(A) *U.S. branches of certain foreign banks or foreign insurance companies.* A payment to a U.S. branch described in §1.1441–1(b)(2)(iv)(A) is presumed to be effectively connected with the conduct of a trade or business in the United States without the need to furnish a certificate, unless the U.S. branch provides a U.S. branch withholding certificate described in §1.1441–1(e)(3)(v) that represents otherwise. If no certificate is furnished but the income is not, in fact, effectively connected income, then the branch must withhold whether the payment is collected on behalf of other persons or on behalf of another branch of the same entity. See §1.1441–1(b) (2)(iv) and (6) for general rules applicable to payments to U.S. branches of foreign persons.

(B) *Other U.S. branches.* See §1.1441–1(b)(2)(iv)(E) for similar procedures for other U.S. branches to the extent provided in a determination letter from the district director or the Assistant Commissioner (International).

(3) *Income on notional principal contracts*—(i) *General rule.* A withholding agent that pays amounts attributable to a notional principal contract described in §1.863–7(a) or 1.988–2(e) shall have no obligation to withhold on the amounts paid under the terms of the notional principal contract regardless of whether a withholding certificate is provided. However, a withholding agent must file returns under §1.1461–1(b) and (c) reporting the income that it must treat as paid to a foreign person and as effectively connected with the conduct of a trade or business in the United States under the provisions of this paragraph (a)(3). Except as otherwise provided in paragraph (a)(3)(ii) of this section, a withholding agent must so treat the income unless it can reliably associate the payment with a withholding certificate upon which it can rely to treat the payment as an amount that is not effectively connected. Income on a notional principal

contract does not include the amount characterized as interest under the provisions of §1.446–3(g)(4).

(ii) *Exception for certain payments.* A payment to a foreign financial institution (within the meaning of §1.165–12(c)(1)(iv)) shall not be treated as effectively connected with the conduct of a trade or business within the United States for purposes of paragraph (a)(3)(i) of this section even if no withholding certificate is furnished if the payee provides a representation in a master agreement that governs the transactions in notional principal contracts between the parties (for example an International Swaps and Derivatives Association (ISDA) Agreement, including the Schedule thereto) or in the confirmation on the particular notional principal contract transaction that the counterparty is a U.S. person or a non-U.S. branch of a foreign person.

(b) *Compensation for personal services of an individual*—(1) *Exemption from withholding.* Withholding is not required under §1.1441–1 from salaries, wages, remuneration, or any other compensation for personal services of a nonresident alien individual if such compensation is effectively connected with the conduct of a trade or business within the United States and—

(i) Such compensation is subject to withholding under section 3402 (relating to withholding on wages) and the regulations under that section;

(ii) Such compensation would be subject to withholding under section 3402 but for the provisions of section 3401(a) (not including paragraph (a)(6) of that section) and the regulations under that section. This paragraph (b)(1)(ii) does not apply to payments to a nonresident alien individual from any trust described in section 401(a), any annuity plan described in section 403(a), or any annuity, custodial account, or retirement income account described in section 403(b). Instead, these payments are subject to withholding under this section to the extent they are exempted from the definition of wages under section 3401(a)(12) or to the extent they are from an annuity, custodial account, or retirement income account described in section 403(b). Thus, for example, payments to a nonresident alien individual from a trust described in section 401(a) are subject to withholding under section 1441 and not under section 3405 or 3406;

(iii) Such compensation is for services performed by a nonresident alien individual who is a resident of Canada or Mexico and who enters and leaves the United States at frequent intervals;

(iv) Such compensation is, or will be, exempt from the income tax imposed by chapter 1 of the Code by reason of a provision of the Internal Revenue Code or a tax treaty to which the United States is a party;

(v) Such compensation is paid after January 3, 1979 as a commission or rebate paid by a ship supplier to a nonresident alien individual, who is employed by a nonresident alien individual, foreign partnership, or foreign corporation in the operation of a ship or ships of foreign registry, for placing orders for supplies to be used in the operation of such ship or ships with the supplier. See section 162(c) and the regulations thereunder for denial of deductions for illegal bribes, kickbacks, and other payments; or

(vi) Compensation that is exempt from withholding under section 3402 by reason of section 3402(e), provided that the employee and his employer enter into an agreement under section 3402(p) to provide for the withholding of income tax upon payments of amounts described in §31.3401(a)–3(b)(1) of this chapter. An employee who desires to enter into such an agreement should furnish his employer with Form W–4 (withholding exemption certificate) (or such other form as the Internal Revenue Service (IRS) may prescribe). See section 3402(f) and the regulations thereunder and §31.3402(p)-1 of this chapter.

(2) *Manner of obtaining withholding exemption under tax treaty*—(i) *In general.* In order to obtain the exemption from withholding by reason of a tax treaty, provided by paragraph (b)(1)(iv) of this section, a nonresident alien individual must submit a withholding certificate (described in paragraph (b)(2)(ii) of this section) to each withholding agent from whom amounts are to be received. A separate withholding certificate must be filed for each taxable year of

the alien individual. If the withholding agent is satisfied that an exemption from withholding is warranted (see paragraph (b)(2)(iii) of this section), the withholding certificate shall be accepted in the manner set forth in paragraph (b)(2)(iv) of this section. The exemption from withholding becomes effective for payments made at least ten days after a copy of the accepted withholding certificate is forwarded to the Assistant Commissioner (International). The withholding agent may rely on an accepted withholding certificate only if the IRS has not objected to the certificate. For purposes of this paragraph (b)(2)(i), the IRS will be considered to have not objected to the certificate if it has not notified the withholding agent within a 10-day period beginning from the date that the withholding certificate is forwarded to the IRS pursuant to paragraph (b)(2)(v) of this section. After expiration of the 10-day period, the withholding agent may rely on the withholding certificate retroactive to the date of the first payment covered by the certificate. The fact that the IRS does not object to the withholding certificate within the 10-day period provided in this paragraph (b)(2)(i) shall not preclude the IRS from examining the withholding agent at a later date in light of facts that the withholding agent knew or had reason to know regarding the payment and eligibility for a reduced rate and that were not disclosed to the IRS as part of the 10-day review process.

(ii) *Withholding certificate claiming withholding exemption.* The statement claiming an exemption from withholding shall be made on Form 8233 (or an acceptable substitute or such other form as the IRS may prescribe). Form 8233 shall be dated, signed by the beneficial owner under penalties of perjury, and contain the following information—

(A) The individual's name, permanent residence address, taxpayer identifying number (or a copy of a completed Form W–7 or SS–5 showing that a number has been applied for), and the U.S. visa number, if any;

(B) The individual's current immigration status and visa type;

(C) The individual's original date of entry into the United States;

(D) The country that issued the individual's passport and the number of such passport, or the individual's permanent address if a citizen of Canada or Mexico;

(E) The taxable year for which the statement is to apply, the compensation to which it relates, and the amount (or estimated amount if exact amount not known) of such compensation;

(F) A statement that the individual is not a citizen or resident of the United States;

(G) The number of personal exemptions claimed by the individual;

(H) A statement as to whether the compensation to be paid to him or her during the taxable year is or will be exempt from income tax and the reason why the compensation is exempt;

(I) If the compensation is exempt from withholding by reason of an income tax treaty to which the United States is a party, the tax treaty and provision under which the exemption from withholding is claimed and the country of which the individual is a resident;

(J) Sufficient facts to justify the claim in exemption from withholding; and

(K) Any other information as may be required by the form or accompanying instructions in addition to, or in lieu of, the information described in this paragraph (b)(2)(ii).

(iii) *Review by withholding agent.* The exemption from withholding provided by paragraph (b)(1)(iv) of this section shall not apply unless the withholding agent accepts (in the manner provided in paragraph (b)(2)(iv) of this section) the statement on Form 8233 supplied by the nonresident alien individual. Before accepting the statement the withholding agent must examine the statement. If the withholding agent knows or has reason to know that any of the facts or assertions on Form 8233 may be false or that the eligibility of the individual's compensation for the exemption cannot be readily determined, the withholding agent may not accept the statement on Form 8233 and is required to withhold under this section. If the withholding agent accepts the statement and subsequently finds that any of the facts or assertions contained on

Form 8233 may be false or that the eligibility of the individual's compensation for the exemption can no longer be readily determined, then the withholding agent shall promptly so notify the Assistant Commissioner (International) by letter, and the withholding agent is not relieved of liability to withhold on any amounts still to be paid. If the withholding agent is notified by the Assistant Commissioner (International) that the eligibility of the individual's compensation for the exemption is in doubt or that such compensation is not eligible for the exemption, the withholding agent is required to withhold under this section. The rules of this paragraph are illustrated by the following examples.

Example 1. C, a nonresident alien individual, submits Form 8233 to W, a withholding agent. The statement on Form 8233 does not include all the information required by paragraph (b)(2)(ii) of this section. Therefore, W has reason to know that he or she cannot readily determine whether C's compensation for personal services is eligible for an exemption from withholding and, therefore, W must withhold.

Example 2. D, a nonresident alien, is performing services for W, a withholding agent. W has accepted a statement on Form 8233 submitted by D, according to the provisions of this section. W receives notice from the Internal Revenue Service that the eligibility of D's compensation for a withholding exemption is in doubt. Therefore, W has reason to know that the eligibility of the compensation for a withholding exemption cannot be readily determined, as of the date W receives the notification, and W must withhold tax under section 1441 on amounts paid after receipt of the notification.

Example 3. E, a nonresident alien individual, submits Form 8233 to W, a withholding agent for whom E is to perform personal services. The statement contains all the information requested on Form 8233. E claims an exemption from withholding based on a personal exemption amount computed on the number of days E will perform personal services for W in the United States. If W does not know or have reason to know that any statement on the Form 8233 is false or that the eligibility of E's compensation for the withholding exemption cannot be readily determined, W can accept the statement on Form 8233 and exempt from withholding the appropriate amount of E's income.

(iv) *Acceptance by withholding agent.* If after the review described in paragraph (b)(2)(iii) of this section the withholding agent is satisfied that an exemption from withholding is warranted, the withholding agent may accept the statement by making a certification, verified by a declaration that it is made under the penalties of perjury, on Form 8233. The certification shall be—

(A) That the withholding agent has examined the statement,

(B) That the withholding agent is satisfied that an exemption from withholding is warranted, and

(C) That the withholding agent does not know or have reason to know that the individual's compensation is not entitled to the exemption or that the eligibility of the individual's compensation for the exemption cannot be readily determined.

(v) *Copies of Form 8233.* The withholding agent shall forward one copy of each Form 8233 that is accepted under paragraph (b)(2)(iv) of this section to the Assistant Commissioner (International), within five days of such acceptance. The withholding agent shall retain a copy of Form 8233.

(3) *Withholding agreements.* Compensation for personal services of a nonresident alien individual who is engaged during the taxable year in the conduct of a trade or business within the United States may be wholly or partially exempted from the withholding required by § 1.1441–1 if an agreement is reached between the Assistant Commissioner (International) and the alien individual with respect to the amount of withholding required. Such agreement shall be available in the circumstances and in the manner set forth by the Internal Revenue Service, and shall be effective for payments covered by the agreement that are made after the agreement is executed by all parties. The alien individual must agree to timely file an income tax return for the current taxable year.

(4) *Final payment exemption*—(i) *General rule.* Compensation for independent personal services of a nonresident alien individual who is engaged during the taxable year in the conduct of a trade or business within the United States may be wholly or partially exempted from the withholding required by § 1.1441–1 from the final payment of compensation for independent personal

services. This exemption does not apply to wages. This exemption from withholding is available only once during an alien individual's taxable year and is obtained by the alien individual presenting to the withholding agent a letter in duplicate from a district director stating the amount of compensation subject to the exemption and the amount that would otherwise be withheld from such final payment under section 1441 that shall be paid to the alien individual due to the exemption. The alien individual shall attach a copy of the letter to his or her income tax return for the taxable year for which the exemption is effective.

(ii) *Final payment of compensation for personal services.* For purposes of this paragraph, final payment of compensation for personal services means the last payment of compensation, other than wages, for personal services rendered within the United States that the individual expects to receive from any withholding agent during the taxable year.

(iii) *Manner of applying for final payment exemption.* In order to obtain the final payment exemption provided by paragraph (b)(4)(i) of this section, the nonresident alien individual (or his or her agent) must file the forms and provide the information required by the district director. Ordinary and necessary business expenses may be taken into account if substantiated to the satisfaction of the district director. The alien individual must submit a statement, signed by him or her and verified by a declaration that it is made under the penalties of perjury, that all the information provided is true and that to his or her knowledge no relevant information has been omitted. The information required to be submitted includes, but is not limited to—

(A) A statement by each withholding agent from whom amounts of gross income effectively connected with the conduct of a trade or business within the United States have been received by the alien individual during the taxable year, of the amount of such income paid and the amount of tax withheld, signed and verified by a declaration that it is made under penalties of perjury;

(B) A statement by the withholding agent from whom the final payment of compensation for personal services will be received, of the amount of such final payment and the amount which would be withheld under § 1.1441–1 if a final payment exemption under paragraph (b)(4)(i) of this section is not granted, signed and verified by a declaration that it is made under penalties of perjury;

(C) A statement by the individual that he or she does not intend to receive any other amounts of gross income effectively connected with the conduct of a trade or business within the United States during the current taxable year;

(D) The amount of tax which has been withheld (or paid) under any other provision of the Code or regulations with respect to any income effectively connected with the conduct of a trade or business within the United States during the current taxable year;

(E) The amount of any outstanding tax liabilities (and interest and penalties relating thereto) from the current taxable year or prior taxable periods; and

(F) The provision of any income tax treaty under which a partial or complete exemption from withholding may be claimed, the country of the individual's residence, and a statement of sufficient facts to justify an exemption pursuant to such treaty.

(iv) *Letter to withholding agent.* If the district director is satisfied that the information provided under paragraph (b)(4)(iii) of this section is sufficient, the district director will, after coordination with the Director of the Foreign Operations District, ascertain the amount of the alien individual's tentative income tax for the taxable year with respect to gross income that is effectively connected with the conduct of a trade or business within the United States. After the tentative tax has been ascertained, the district director will provide the alien individual with a letter to the withholding agent stating the amount of the final payment of compensation for personal services that is exempt from withholding, and the amount that would otherwise be withheld under section 1441 that shall be paid to the alien individual due to the exemption. The amount of compensation for personal services exempt from withholding under this paragraph (b)(4) shall not exceed $5,000.

Example 1. On July 15, 1983, B, a nonresident alien individual, appears before a district director with the information required by paragraph (b)(4)(iii) of this section. B has received personal service income in 1983 from which $3,000 has been withheld under section 1441. On August 1, 1983, B will receive $5,000 in personal service income from W. B does not intend to receive any other income subject to U.S. tax during 1983. Taking into account B's substantiated deductible business expenses, the district director computes the tentative tax liability on B's income effectively connected with the conduct of a trade or business in the United States during 1983 (including the $5,000 payment to be made on August 1, 1983) to be $3,300. B does not owe U.S. tax for any other taxable periods. The amount of B's final payment exemption is determined as follows:

(*1*) The amount of total withholding is $4,500 ($3,000 previously withheld plus $1,500, 30% of the $5,000 final payment);

(*2*) The amount of tentative excess withholding is $1,200 (total withholding of $4,500 minus B's tentative tax liability of $3,300); and

(*3*) To allow B to receive $1,200 of the amount which would otherwise have been withheld from the final payment, the district director allows a withholding exemption for $4,000 of B's final payment. W must withhold $300 from the final payment.

Example 2. The facts are the same as in Example 1 except B will receive a final payment of compensation on August 1, 1983, in the amount of $10,000 and B's tentative tax liability is $3,900. The amount of B's final payment exemption is determined as follows:

(*1*) The amount of total withholding is $6,000 ($3,000 previously withheld plus $3,000, 30% of the $10,000 final payment);

(*2*) The amount of tentative excess withholding is $2,100 (total withholding of $6,000 minus B's tentative tax liability of $3,900); and

(*3*) To allow B to receive $2,100 of the amount which would otherwise be withheld from the final payment, $7,000 of the final payment would have to be exempt from withholding; however, as no more than $5,000 of the final payment can be exempt from withholding under this paragraph (b)(4), the district director allows a withholding exemption for $5,000 of B's final payment. B must file a claim for refund at the end of the taxable year to obtain a refund of $600. W must withhold $1,500 from the final payment.

(5) *Requirement of return.* The tentative tax determined by the district director under paragraph (b)(4)(iv) of this section or by the Director of the Foreign Operations District under the withholding agreement procedure of paragraph (b)(3) of this section shall not constitute a final determination of the income tax liability of the nonresident alien individual, nor shall such determination constitute a tax return of the nonresident alien individual for any taxable period. An alien individual who applies for or obtains an exemption from withholding under the procedures of paragraphs (b) (2), (3), or (4) of this section is not relieved of the obligation to file a return of income under section 6012.

(6) *Personal exemption*—(i) *In general.* To determine the tax to be withheld at source under § 1.1441–1 from remuneration paid for personal services performed within the United States by a nonresident alien individual and from scholarship and fellowship income described in paragraph (c) of this section, a withholding agent may take into account one personal exemption pursuant to sections 873(b)(3) and 151 regardless of whether the income is effectively connected. For purposes of withholding under section 1441 on remuneration for personal services, the exemption must be prorated upon a daily basis for the period during which the personal services are performed within the United States by the nonresident alien individual by dividing by 365 the number of days in the period during which the individual is present in the United States for the purpose of performing the services and multiplying the result by the amount of the personal exemption in effect for the taxable year. See § 31.3402(f)(6)–1 of this chapter.

(ii) *Multiple exemptions.* More than one personal exemption may be claimed in the case of a resident of a contiguous country or a national of the United States under section 873(b)(3). In addition, residents of a country with which the United States has an income tax treaty in effect may be eligible to claim more than one personal exemption if the treaty so provides. Claims for more than one personal exemption shall be made on the withholding certificate furnished to the withholding agent. The exemption must be prorated on a daily basis in the same manner as described in paragraph (b)(6)(i) of this section.

(iii) *Special rule where both certain scholarship and compensation income are received.* The fact that both non-compensatory scholarship income and compensation income (including compensatory scholarship income) are received during the taxable year does not entitle the taxpayer to claim more than one personal exemption amount (or more than the additional amounts permitted under paragraph (b)(6)(ii) of this section). Thus, if a nonresident alien student receives non-compensatory taxable scholarship income from one withholding agent and compensation income from another withholding agent, no more than the total personal exemption amount permitted under the Internal Revenue Code or under an income tax treaty may be taken into account by both withholding agents. For this purpose, the withholding agent may rely on a representation from the beneficial owner that the exemption amount claimed does not exceed the amount permissible under this section.

(c) *Special rules for scholarship and fellowship income*—(1) *In general.* Under section 871(c), certain amounts paid as a scholarship or fellowship for study, training, or research in the United States to a nonresident alien individual temporarily present in the United States as a nonimmigrant under section 101(a)(15) (F), (J), (M), or (Q) of the Immigration and Nationality Act are treated as income effectively connected with the conduct of a trade or business within the United States. The amounts described in the preceding sentence are those amounts that do not represent compensation for services. Such amounts (as described in the second sentence of section 1441(b)) are subject to withholding under section 1441, but at the lower rate of 14 percent. That rate may be reduced under the provisions of an income tax treaty. Claims of a reduced rate under an income tax treaty shall be made under the procedures described in §1.1441–6(b)(1). Therefore, claims for reduction in withholding under an income tax treaty on amounts described in this paragraph (c)(1) may not be made on a Form 8233. However, if the payee is receiving both compensation for personal services (including compensatory scholarship income) and non-compensatory scholarship income described in this paragraph (c)(1) from the same withholding agent, claims for reduction of withholding on both types of income may be made on Form 8233.

(2) *Alternate withholding election.* A withholding agent may elect to withhold on the amounts described in paragraph (c)(1) of this section at the rates applicable under section 3402, as if the income were wages. Such election shall be made by obtaining a Form W–4 (or an acceptable substitute or such other form as the IRS may prescribe) from the beneficial owner. The fact that the withholding agent asks the beneficial owner to furnish a Form W–4 for such fellowship or scholarship income or to take such income into account in preparing such Form W–4 shall serve as notice to the beneficial owner that the income is being treated as wages for purposes of withholding tax under section 1441.

(d) *Annuities received under qualified plans.* Withholding is not required under section §1.1441–1 in the case of any amount received as an annuity if the amount is exempt from tax under section 871(f) and the regulations under that section. The withholding agent may exempt the payment from withholding if, prior to payment, it can reliably associate the payment with documentation upon which it can rely to treat the payment as made to a beneficial owner in accordance with §1.1441–1(e)(1)(ii). A beneficial owner withholding certificate furnished for purposes of claiming the benefits of the exemption under this paragraph (d) is valid only if, in addition to other applicable requirements, it contains a taxpayer identifying number.

(e) *Per diem of certain alien trainees.* Withholding is not required under section 1441(a) and §1.1441–1 on per diem amounts paid for subsistence by the United States Government (directly or by contract) to any nonresident alien individual who is engaged in any program of training in the United States under the Mutual Security Act of 1954, as amended (22 U.S.C. chapter 24). This rule shall apply even though such amounts are subject to tax under section 871. Any exemption from withholding pursuant to this paragraph (e) applies without a requirement that documentation be furnished to the withholding agent. However, documentation may have to be furnished for purposes of the information reporting provisions under section 6041 and backup withholding under section 3406. The exemption from withholding granted by this paragraph (e) is not a determination that the amounts are not fixed or determinable annual or periodical income.

(f) *Failure to receive withholding certificates timely or to act in accordance with applicable presumptions.* See applicable procedures described in § 1.1441–1(b)(7) in the event the withholding agent does not hold an appropriate withholding certificate or other appropriate documentation at the time of payment or does not act in accordance with applicable presumptions described in paragraph (a) (2)(i), (2)(ii), or (3) of this section.

(g) *Effective date*—(1) *General rule.* This section applies to payments made after December 31, 1999.

(2) *Transition rules.* The validity of a Form 4224 or 8233 that was valid on January 1, 1998, under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) and expired, or will expire, at any time during 1998, is extended until December 31, 1998. The validity of a Form 4224 or 8233 that is valid on or after January 1, 1999, remains valid until its validity expires under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) or, if earlier, until December 31, 2000. The rule in this paragraph (g)(2), however, does not apply to extend the validity period of a Form 4224 or 8223 that expires solely by reason of changes in the circumstances of the person whose name is on the certificate. Notwithstanding the first three sentences of this paragraph (g)(2), a withholding agent may choose to not take advantage of the transition rule in this paragraph (g)(2) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) and, therefore, to require withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998). Further, a new withholding certificate remains valid for the period specified in § 1.1441–1(e)(4)(ii), regardless of when the certificate is obtained.

[T.D. 6500, 25 FR 12075, Nov. 26, 1960]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 1.1441–4, see the List of Sections Affected in the Finding Aids section of this volume.

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53450, Oct. 14, 1997, § 1.1441–4 was amended by revising the section heading and paragraph (a); by revising paragraphs (b)(1) (i) and (ii); by removing the period at the end of paragraph (b)(1)(iii) and adding a semicolon in its place; by removing the language ‘‘or’’ at the end of paragraph (b)(1)(iv) and adding a semicolon in its place; by removing the period at the end of paragraph (b)(1)(v) and adding ‘‘ or’’ in its place; by adding paragraph (b)(1)(vi); by adding four sentences at the end of pargraph (b)(2)(i); by revising paragraph (b)(2)(ii) heading and introductory text, and paragraph (b)(2)(ii)(A); by redesignating paragraph (b)(2)(ii)(H) as paragraph (b)(2)(ii)(J) and amending newly designated paragraph (b)(2)(ii)(J) by removing the period at the end of the paragraph and adding ‘‘; and’’ in its place; by redesignating pargraphs (b)(2)(ii) (B), (C), (D), (E), (F), and (G) as paragraphs (b)(2)(ii) (D), (E), (F), (G), (H), and (I), respectively; by adding new paragraphs (b)(2)(ii) (B), (C), and (K); by removing the period at the end of newly designated paragraph (b)(2)(ii)(D) and the comma at the end of newly designated paragaphs (b)(2)(ii) (E), (F), (G), and (H) and adding a semicolon in each place; by removing ‘‘, and’’ and adding a semicolon in its place in newly designated paragraph (b)(2)(ii)(I); by removing the concluding text immediately following paragraph (b)(2)(iv)(C); by revising paragraph (b)(2)(v); by removing the word ‘‘statement’’ and inserting the words ‘‘withholding certificate’’ in each place in paragraph (b)(2)(i); by removing the words ‘‘Director of the Foreign Operations District’’ and inserting in their place the words ‘‘Assistant Commissioner (International)’’ in the fourth sentence of paragraph (b)(2)(i), in the fourth and fifth sentences of paragraph (b)(2)(iii), and in the first sentence of paragraph (b)(3); by adding paragraph (b)(6); by revising paragraphs (c), (d), (e), (f), and (g); by removing paragraphs

(h) and (i); and by removing the OMB parenthetical and the authority citation at the end of the section, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1441–4 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§1.1441–4 Exemptions from withholding.

(a) *Income connected with a U.S. business*—(1) *In general.* No withholding is required under §1.1441–1 in the case of any item of income if such income is effectively connected with the conduct of a trade or business within the United States by the person entitled to such income and is includible in the person's gross income under section 871(b)(2), section 842, or section 882(a)(2) for the taxable year and if the person has filed the statement prescribed by paragraph (a)(2) of this section. This paragraph (a)(1) shall apply to income for services performed by a foreign partnership or a foreign corporation (other than a foreign corporation which has income to which section 543(a)(7) applies for the taxable year) but shall not apply to compensation for personal services performed by an individual. In determining whether services are performed by a foreign corporation or by an individual, see Revenue Ruling 74–330, 1974–2 C.B. 278, and Revenue Ruling 74–331, 1974–2 C.B. 282. For rules with respect to compensation for personal services performed by an individual, see paragraph (b) of this section. In determining whether an item of income from sources within the United States is, or is deemed to be, effectively connected with the conduct of a trade or business within the United States by the person entitled to the income, see section 864(c)(2), section 871(d), and sections 882 (d) and (e), and the regulations thereunder.

(2) *Statement claiming exemption.* In order for the exemption provided by paragraph (a)(1) of this section to apply for any taxable year, the person entitled to the income must file with the withholding agent a statement in duplicate that the income described in the statement is, or is expected to be, effectively connected with the conduct of a trade or business within the United States and that such income is includible in his gross income for the taxable year. This statement shall show (i) the name and address of the withholding agent and of the person entitled to the income, (ii) the taxpayer's identifying number, (iii) the nature of the item or items of income with respect to which the statement is filed, (iv) the trade or business with which such income is, or is expected to be, effectively connected, and (v) the taxable year in respect of which the statement is made. This statement shall be filed with the withholding agent for each taxable year of the person entitled to the income, and before payment of the income in respect of which it applies. Any statement so filed shall be effective only with respect to the item or items of income specified therein and shall constitute authorization to the withholding agent to pay such income during the taxable year without deduction of the tax at source under §1.1441–1. The statement shall be amended by the person entitled to the income if subsequent circumstances arising during the taxable year indicate that the income is not, or is not expected to be, effectively connected with the conduct of a trade or business within the United States. Any statement required by this subparagraph may be made on a properly executed Form 4224, which shall be filed in duplicate with the withholding agent. The duplicate copy of each statement or form filed during any calendar year pursuant to this subparagraph shall be forwarded by the withholding agent with, and attached to, any Form 1042S required by paragraph (c) of §1.1461–2 with respect to such income for such calendar year.

* * * * *

(b) * * * (1) * * *

(i) Such compensation is subject to withholding under section 3402, relating to withholding of tax at source on wages, and the regulations thereunder.

(ii) [Reserved] For guidance, see §1.1441–4T(b)(1)(ii).

* * * * *

(2) * * * (i) * * * (ii) *Statement claiming withholding exemption.* The statement claiming an exemption from withholding shall be made on Form 8233. Form 8233 may be used for claiming exemption from withholding under tax treaties to which the United States is a party or with respect to the personal exemption amount described in §1.1441–3(e)(2). Form 8233 shall be dated, signed by the person claiming the exemption from withholding, and verified by a declaration that the statements are made under the penalties of perjury. Form 8233 shall contain—

(A) The individual's name, address, United States taxpayer identification number, and United States visa number, if any,

* * * * *

(iv) * * * (C) * * *

The exemption from withholding becomes effective for payments made at least ten days after a copy of the accepted statement is mailed in a proper manner by the withholding agent to the Director of the Foreign Operations District, pursuant to paragraph (b)(2)(v) of this section.

(v) *Copies of Form 8233.* The withholding agent shall forward one copy of each Form 8233 that is accepted by him or her to the Director of the Foreign Operations District, Internal Revenue Service, Washington, DC

20225, within five days of his or her acceptance. The Director of the Foreign Operations District may review the forms so submitted. The withholding agent shall retain a copy of Form 8233.

*   *   *   *   *

(c) *Dividends paid by China Trade Act corporations.* Withholding is not required under §1.1441–1 upon dividends distributed by a corporation organized under the China Trade Act of 1922 (15 U.S.C., chapter 4) to or for the benefit of a resident of Formosa or Hong Kong and which are exempt from taxation by section 943.

(d) *Inhabitants of the Virgin Islands*—(1) *Allowance of exemption.* This paragraph shall not apply after June 22, 1981. No withholding is required under §1.1441–1 upon any item of income paid to any person who at the time of payment reasonably expects to satisfy his income tax obligations with respect to that item under section 28(a) of the Revised Organic Act of the Virgin Islands. That section provides that all persons whose permanent residence is in the Virgin Islands ‘‘shall satisfy their income tax obligations under applicable taxing statutes of the United States by paying their tax on income derived from all sources both within and outside the Virgin Islands into the Treasury of the Virgin Islands.’’ For the purpose of this paragraph, the term ‘‘person’’ shall include an individual, partnership, and corporation.

(2) *Claiming exemption.* To avoid withholding of tax at source under §1.1441–1, the payee of the income shall notify the withholding agent by letter in duplicate that he expects to satisfy his income tax obligations under section 28(a) of the Revised Organic Act of the Virgin Islands with respect to all income to be paid to him by the withholding agent during the current calendar year. This letter of notification shall constitute authorization to the payer of the income to pay income to the payee during that year without deduction of the tax at source under §1.1441–1.

(3) *Disposition of letter.* The duplicate copy of each letter of notification filed pursuant to subparagraph (2) of this paragraph shall be forwarded with a letter of transmittal to the Director of International Operations, Internal Revenue Service, Washington, DC 20225.

(e) *Per diem of certain alien trainees.* Effective with respect to payments made on and after July 18, 1956, withholding is not required under section 1441(a) or §1.1441–1 in the case of amounts of per diem for subsistence paid by the United States Government (directly or by contract) to any nonresident alien individual who is engaged in any program of training in the United States under the Mutual Security Act of 1954, as amended (22 U.S.C. chapter 24). This rule shall apply even though such amounts are subject to tax under section 871.

(f) *Exemption of certain foreign partnerships and foreign corporations*—(1) *In general.* No withholding is required under §1.1441–1 upon any item of income paid to a foreign partnership, or foreign corporation, engaged in trade or business in the United States at any time during the taxable year, if it is established to the satisfaction of the district director in whose district the related books and records are kept that the requirements of section 1441(a), or 1442(a), and §1.1441–1 impose an undue administrative burden for such taxable year and that the collection of the tax imposed by section 871(a) or section 881 on the members of such partnership, or by section 881 on such corporation, as the case may be, will not be jeopardized by the exemption from withholding. As a general rule, the requirements of section 1441(a), or 1442(a), and §1.1441–1 will be considered to impose an undue administrative burden only in a case where (i) the person entitled to the income, such as a foreign insurance company, receives from the withholding agent income on securities issued by a single corporation, some of which is, and some of which is not, effectively connected with the conduct of a trade or business within the United States and (ii) the criteria for determining the effective connection are unduly difficult to apply because of the circumstances under which such securities are held. Thus, for example, if a foreign corporation carrying on a life insurance business in the United States finds that, because of the requirements of State law which cause its U.S. reserves to fluctuate frequently, it is unduly difficult with respect to any class of income to identify the income which is, and the income which is not, effectively connected with its conduct of business in the United States during the taxable year, the corporation will be considered to have satisfied the requirements of subdivision (ii) of this subparagraph. No exemption from withholding shall be granted under this paragraph unless the person entitled to the income complies with such other requirements as may be imposed by the district director and unless the district director is satisfied that the collection of the tax on the income involved will not be jeopardized by the exemption from withholding.

(2) *Claiming exemption*—(i) *Statement required.* In order for the exemption provided by paragraph (f)(1) of this section to apply for any taxable year the foreign partnership or the foreign corporation must file with the district director in whose district the related books and records are kept a statement indicating the reasons why specific classes of income should be exempted from the withholding requirements of §1.1441–1 for such year. This statement shall show the name and address of the withholding agent and of

the person entitled to the income, the taxpayer's identifying number, the class or classes of income to be exempted from withholding, the trade or business with which such income is in part effectively connected, the taxable year during which such exemption is to apply, and, in such form and to such extent as shall satisfy the district director, the identity of the securities or other underlying property involved.

(ii) *Notification of determination.* The district director shall notify the partnership or corporation by letter in duplicate of his or her determination in respect of the application for exemption. If the exemption from withholding is granted, the duplicate copy of the notice from the district director shall be filed with the withholding agent and shall constitute authorization to pay the specified class or classes of income during the specified taxable year without deduction of the tax at source under §1.1441–1.

(iii) *Bond requirement.* The district director may, as a condition precedent to the allowance of the exemption from withholding for the taxable year, require a bond in such sum as the Commissioner may prescribe, conditioned upon the payment of the tax on the income involved and such further conditions as the district director may require. This bond shall be executed by the foreign partnership or foreign corporation and shall conform to the requirements of §301.7101–1 as to form of bond and surety required. No bond shall be required pursuant to this subparagraph from a foreign corporation which is required to file a declaration of estimated income tax under section 6016 for the taxable year in respect of which the exemption from withholding applies.

(g) *Annuities received under qualified plans.* Withholding is not required under §1.1441–1 in the case of any amount received as an annuity if such amount is exempt under section 871(f) and the regulations thereunder from the tax imposed by section 871(a). In order for the exemption provided by this paragraph to apply for any taxable year in those cases where the withholding agent is not the employer by whom the annuity plan or qualified trust under or from which such annuity is paid was established, the person entitled to the annuity must file with the withholding agent a statement in duplicate setting forth his or her name, address, and taxpayer identifying number, if any, and certifying that he or she is not a citizen or resident of the United States and that the annuity in respect of which the statement is filed is excluded from gross income by reason of section 871(f). This statement shall be dated, shall identify the taxable year to which it relates, shall be signed by the person entitled to the annuity, and shall contain, or be verified by, a written declaration that it is made under the penalties of perjury. No particular form is prescribed for the statement. The duplicate copy of each statement filed during any calendar year pursuant to this paragraph shall be forwarded by the withholding agent with, and attached to, the Form 1042S required by paragraph (c) of §1.1461–2 with respect to such annuity for such calendar year.

(h) *Interest on bonds sold between interest dates.* Except as provided by paragraph (b)(2)(ii) of §1.1441–2, the tax is not required to be withheld under §1.1441–1 on accrued interest paid by the buyer in connection with the sale of bonds between interest dates, even though the interest is subject to tax under section 871 or section 881. The exemption from withholding granted by this paragraph is not a determination that the accrued interest is not fixed or determinable annual or periodical income.

(i) *Income of foreign central bank of issue or Bank for International Settlements.* (1) Section 895 provides for the exclusion from gross income of certain income derived by a foreign central bank of issue, or by the Bank for International Settlements, from obligations of the United States or of any agency or instrumentality thereof or from bank deposits. In the absence of knowledge that a foreign central bank of issue, or the Bank for International Settlements, is operating without the scope of the exclusion granted by section 895, the withholding agent is not required to withhold under §1.1441–1 upon income derived by such bank from obligations of the United States or of any agency or instrumentality thereof, or upon interest derived from deposits with persons carrying on the banking business, if the withholding agent receives from the bank a statement certifying that the bank—

(i) Is a foreign central bank of issue, or the Bank for International Settlements, as the case may be,

(ii) Is the owner of the obligations of the United States or of any agency or instrumentality thereof, or the owner of such bank deposits, as the case may be, and

(iii) Does not, and will not, hold such obligations or such bank deposits for, or use them in connection with, the conduct of a commercial banking function or other commercial activity.

(2) A copy of the statement filed pursuant to paragraph (i)(1) of this section shall be forwarded by the withholding agent with, and attached to, the Form 1042S required by paragraph (c) of §1.1461–2 with respect to payments of income made on such obligations or bank deposits during the calendar year.

§ 1.1441–4T Exemption from withholding (temporary).

(a) [Reserved]

(b) *Compensation for personal services of an individual*—(1) *Exemption from withholding.*

(i) [Reserved]

(ii) Withholding is not required under § 1.1441–1 from salaries, wages, remuneration, or any other compensation for personal services of a nonresident alien individual if such compensation is effectively connected with the conduct of a trade or business within the United States and such compensation would be subject to withholding under section 3402 but for the provisions of section 3401(a) (other than paragraph (a)(6) thereof) and the regulations under that section, provided that an election of no withholding under section 3405 (a)(2) or (b)(3) is not in effect.

(b) (1)(iii)–(5) [Reserved]

(c)–(i) [Reserved]

[T.D. 8288, 55 FR 3716, Feb. 5, 1990]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53452, Oct. 14, 1997, § 1.1441–4T was removed, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of the removal of § 1.1441–4T was delayed until Jan. 1, 2000.

§ 1.1441–5 Withholding on payments to partnerships, trusts, and estates.

(a) *Rules of withholding applicable to payments to partnerships.* This paragraph (a) describes the determinations that a withholding agent must make when making a payment to a person that may be a partnership (as defined in § 1.1441–1(c)(6)(ii)(C)). Such determinations are made in order to determine a withholding agent's obligations under chapters 3 and 61 of the Internal Revenue Code (Code) and sections 3402, 3405, and 3406 (and applicable regulations under those provisions) to withhold and report payments of amounts subject to withholding under chapter 3 of the Code and the regulations thereunder. The reliance provisions stated in this paragraph (a) are subject to the presumptions described in § 1.1441–1(b)(3) and paragraph (d) of this section, including § 1.1441–1(b)(3)(ix) regarding the withholding agent's actual knowledge or reason to know that the presumptions are not correct. For similar presumptions for reporting and withholding on amounts not subject to withholding under chapter 3 of the Code (e.g., foreign source income, broker proceeds) that may be paid to a foreign partnership, see § 1.6049–5(d) (2) through (5).

(1) The withholding agent must determine whether the payee is a U.S. or a foreign person. For this purpose, the withholding agent may treat the payee as U.S. or foreign if it can reliably associate the payment with a Form W–9 described in § 1.1441–1(d) or a Form W–8 described in § 1.1441–1(e)(2)(i) or (3)(i). In the absence of documentation, see § 1.1441–1(b)(3) and paragraph (d) of this section for applicable presumptions of foreign or U.S. status and other relevant characteristics.

(2) If the payee is determined to be a foreign person, the withholding agent must determine whether the foreign payee is acting for its own account or for the account of others (i.e., as an intermediary, as defined in § 1.1441–1(e)(3)(i)). The withholding agent may treat the payee as a foreign intermediary if it can reliably associate the payment with a Form W–8 described in § 1.1441–1(e)(3) (ii), (iii), or (v), within the meaning of § 1.1441-1(b)(3)(v)(A).

(3) If the foreign payee is determined to act as an intermediary described in § 1.1441–1(e)(3)(i), the withholding agent must determine whether or not the payee is a qualified intermediary. The withholding agent may treat the payee as a qualified intermediary only if it can reliably associate the payment with a Form W–8 described in § 1.1441–1(e)(3)(ii). A foreign payee that is treated as an intermediary with respect to a payment is subject to the provisions applicable to intermediaries in § 1.1441–1(e) (3) or (5). In such a case, the provisions of paragraph (c) of this section do not apply to the payment.

(4) If the foreign payee is determined to act for its own account (or is so presumed), the withholding agent must determine the status of the payee as a partnership. The withholding agent

may treat the payee as a domestic or as a foreign partnership if it can reliably associate the payment with a Form W–9 furnished in accordance with §1.1441–1(d) (2) or (4) (for a domestic partnership) or a Form W–8 described in paragraph (c) (2)(iv) or (3)(iii) of this section (for a foreign partnership). See §1.1441–1(e)(4)(viii) for reliance on the payee's representations on a Form W–8. In the absence of documentation, see §1.1441–1(b)(3)(ii) and paragraph (d)(2) of this section for applicable presumptions of status.

(5) If the foreign payee is determined to be a foreign partnership and the withholding agent has determined (or presumes) that the partnership is acting for the account of its partners, then the withholding agent must determine whether the payment represents income effectively connected with the partnership's conduct of a U.S. trade or business. The withholding agent may treat the payment as effectively connected if it can reliably associate the payment with a Form W–8 described in paragraph (c)(3)(iii) of this section representing that the income is effectively connected or if it so presumes in accordance with the provisions in §1.1441–4(a) (2)(ii) or (3). In the absence of documentation, the payment is generally presumed to be non-effectively connected. See §1.1441–4(a)(2)(i). See §§1.1461–1(c)(2)(ii)(A), 1.6031–1 and 1.6031(b)–1T for reporting requirements applicable to the withholding agent and to the partnership.

(6) If the withholding agent cannot reliably treat the payment as effectively connected income nor presume that it is so connected, then the withholding agent must determine whether the partnership is a withholding foreign partnership described in paragraph (c)(2)(i) of this section. The withholding agent may treat the foreign partnership as a withholding foreign partnership if it can reliably associate the payment with a Form W–8 described in paragraph (c)(2)(iv) of this section. In the absence of a reliable Form W–8, the foreign partnership is presumed to be a non-withholding foreign partnership described in paragraph (c)(3)(i) of this section. In such a case, under paragraph (c)(1)(i) of this section, the withholding agent must treat the partners, rather than the partnership, as payees. See paragraph (d) of this section for determining the status of the partners as U.S. or foreign persons in the absence of documentation. See §1.1461–1(c)(2)(ii)(A), 1.6031–1 and 1.6031(b)–1T for reporting requirements applicable to the withholding agent and to the partnership.

(7) If the withholding agent determines that the payee is a U.S. partnership, or so presumes in accordance with paragraph (d)(2) of this section in the absence of documentation, the withholding agent is not required to withhold under paragraph (b)(1) of this section because the partnership is treated as a U.S. payee. See paragraph (b)(2) of this section for withholding requirements applicable to a domestic partnership with foreign partners. See §§1.1461–1(c)(2)(ii)(A), 1.6031–1 and 1.6031(b)–1T for reporting requirements applicable to the withholding agent and to the partnership.

(8) In order to determine whether to rely on a claim for a reduced rate under a tax treaty by a person that the withholding agent treats as a partnership or as a partner in a partnership, the withholding agent must apply the provisions of §1.894–1T(d). For applicable procedures regarding reliance by a withholding agent on a claim for benefits under a tax treaty in such a situation, see §1.1441–6(b)(4).

(b) *Domestic partnerships*—(1) *Exemption from withholding on payment to domestic partnerships.* A payment to a person that the withholding agent may treat as a domestic partnership is treated as a payment to a U.S. payee. Therefore, a payment to a domestic partnership is not subject to withholding under section 1441 even though it may have partners that are foreign persons. A withholding agent may treat the person to whom the payment is made as a domestic partnership if it can reliably associate the payment with a Form W–9 furnished by the partnership in accordance with the procedures under §1.1441–1(d) (2) or (4) or based upon the presumptions described in paragraph (d)(2) of this section.

(2) *Withholding by a domestic partnership*—(i) *In general.* A domestic partnership is required to withhold under §1.1441–1 as a withholding agent on the

gross amount of items of income subject to withholding that are includible in the distributive share of income of a partner that is a foreign person. Pursuant to the authority provided under section 702(a), each partner shall take into account separately its distributive share of amounts subject to withholding, and thus the partnership, pursuant to section 703(a)(1), shall separately state these amounts when computing its taxable income. A partnership shall withhold when any distributions that include amounts subject to withholding are made or when guaranteed payments are made. To the extent a foreign partner's distributive share of an amount subject to withholding has not been actually distributed, the partnership is required to withhold on the partner's distributive share of that amount on the earlier of the date that the statement required under section 6031(b) and § 1.6031(b)–1T to be provided to that partner is mailed or otherwise furnished to the partner or the due date for furnishing that statement as provided under § 1.6031(b)–1T. If a partnership withholds on a distributive share before the amount is actually distributed to the partner, then withholding is not required when the amount is subsequently distributed. Withholding on items of income that are effectively connected income in the hands of the partners who are foreign persons is governed by section 1446 and not by this section. In such a case, partners in a domestic partnership are not required to furnish a withholding certificate in order to claim an exemption from withholding under section 1441(c)(1) and § 1.1441–4.

(ii) *Determination by the domestic partnership of the partners' status.* For purposes of determining whether the partners or some other persons are the payees of the partners' distributive shares of any payment made to the partnership and the status of the partners, the partnership shall apply the rules of § 1.1441–1(b) (2) and (3), and of paragraphs (c)(1) and (d) of this section (in the case of a partner that is a foreign partnership) and of paragraph (e) of this section (in the case of a partner that is a foreign estate or a foreign trust) in the same manner as if the partnership were making a payment directly to the partners other than in their capacity as partners.

(iii) *Reliance on a partner's claim for reduced withholding.* Absent actual knowledge or reason to know otherwise, a domestic partnership may rely on a claim for reduced withholding under chapter 3 of the Code by a partner, if prior to the time the partnership is required to withhold, the partnership can reliably associate the partner's distributive share of the partnership items with documentation upon which it may rely to treat the partner or another person as a U.S. person under § 1.1441–1(d) (2) or (3), as a U.S. beneficial owner under § 1.1441–1(d)(4), or as a foreign beneficial owner under § 1.1441–1(e)(1)(ii).

(iv) *Rules for reliably associating a payment with documentation.* For rules regarding the reliable association of a payment with documentation, see § 1.1441–1(b)(2)(vii).

(v) *Coordination with chapter 61 of the Internal Revenue Code and section 3406.* A domestic partnership is not a payor for purposes of chapter 61 of the Code or section 3406 with respect to payments to its partners in their capacity as partners. Thus, it is not required to make an information return on Form 1099 nor to backup withhold with respect to its partners' distributive share of partnership items. However, it must file returns under section 6031. Such returns are in lieu of making returns under § 1.1461–1 (b) and (c). See § 1.1461–1(c)(2)(ii)(A).

(c) *Foreign partnerships*—(1) *Determination of payee*—(i) *Payments treated as made to partners.* Except as otherwise provided in paragraph (c)(1)(ii) of this section, a payment to a person that the withholding agent may treat as a foreign partnership in accordance with paragraph (c)(2)(i), (3)(i), or (d)(2) of this section is treated as a payment to the partners (looking through partners that are foreign flow-through entities) as follows—

(A) If the withholding agent can reliably associate the partner's distributive share of the payment with a Form W–9, a Form W–8, or other appropriate documentation upon which it can rely to treat the payment as made to a U.S. or foreign beneficial owner under § 1.1441–1 (d)(4) or (e)(1)(ii), then the beneficial owner so identified is treated as the payee;

(B) If the withholding agent can reliably associate the partner's distributive share with an intermediary certificate described in §1.1441–1(e)(3) (ii), (iii), or (v), then the rules of §1.1441–1(b)(2)(v) shall apply to determine who the payee is in the same manner as if the partner's distributive share of the payment had been paid directly to such intermediary;

(C) If the withholding agent can reliably associate the partner's distributive share with a partnership certificate described in paragraph (c)(2)(iv) or (3)(iii) of this section, then the rules of paragraph (c)(1) (i) or (ii) of this section shall apply to determine whether the payment is treated as made to the partners of the higher-tier partnership under this paragraph (c)(1)(i) or to the higher tier partnership (under the rules of paragraph (c)(1)(ii) of this section), in the same manner as if the partner's distributive share of the payment had been paid directly to such foreign partnership;

(D) If the withholding agent can reliably associate the partner's distributive share with a withholding certificate described in §1.1441–1(e)(3)(i) regarding a foreign trust or estate, then the rules of paragraph (e) of this section shall apply to determine who the payees are; and

(E) If the withholding agent cannot reliably associate the partner's distributive share with a withholding certificate or other appropriate documentation, the partners are considered to be the payees and the presumptions described in paragraph (d)(3) of this section shall apply to determine the status of the partners.

(ii) *Payments treated as made to the partnership.* A payment to a person that the withholding agent may treat as a foreign partnership in accordance with paragraph (c) (2)(i), (3)(i), or (d)(2) of this section is treated as a payment to the foreign partnership and not to its partners only if—

(A) The withholding agent can reliably associate the payment with a withholding certificate described in paragraph (c)(2)(iv) of this section (dealing with a certificate from a person representing to be a withholding foreign partnership); or

(B) The withholding agent can reliably associate the payment with a withholding certificate described in paragraph (c)(3)(iii) of this section certifying that the payment is income that is effectively connected with the conduct of a trade or business in the United States.

(iii) *Rules for reliably associating a payment with documentation.* For rules regarding the reliable association of a payment with documentation, see §1.1441–1(b)(2)(vii). In the absence of documentation, see §1.1441–1(b)(3) and paragraph (d) of this section for applicable presumptions.

(iv) *Example.* The rules of paragraphs (c)(1) (i) and (ii) of this section are illustrated by the following example:

Example. (i) *Facts.* A foreign partnership, P, has two partners, a corporation, C, and a partnership, P1, both organized in country X. P1 has three partners, a foreign pension fund, a domestic partnership, P2, and a foreign partnership, P3, organized in country Y. P2's partners are foreign pension funds. P holds U.S. Treasury obligations in registered form, on which it receives interest from U.S. custodian, Z. P1 is not a withholding foreign partnership and it does not certify that the interest is effectively connected with the conduct of a U.S. trade or business. P3 is a withholding foreign partnership. P has furnished a valid withholding certificate described in paragraph (c)(3)(iii) of this section to which it has attached valid withholding certificates for C (beneficial owner Form W–8 described in §1.1441–1(e)(2)(i)), P1, and P1's three partners (a Form W–9 for P2, a withholding certificate described in paragraph (c)(2)(iv) of this section for P3 and a beneficial owner Form W–8 described in §1.1441–1(e)(2)(i) for the foreign pension fund). P has furnished appropriate information in accordance with paragraph (c)(3)(iv) of this section upon which the withholding agent can rely to determine which portion of the payment is associated with each withholding certificate.

(ii) *Analysis.* The payment to P is treated as a payment to its partners because none of the conditions described in paragraph (c)(1)(ii) exist under the facts to treat P as the payee (i.e., it is not a withholding foreign partnership and, although it has furnished a withholding certificate described under paragraph (c)(3)(iii) of this section, it is not claiming that the interest is effectively connected with the conduct of a U.S. trade or business). Under paragraph (c)(1)(i)(A) of this section, C, as a partner of

P, is treated as a payee because it is not a flow-through entity or an intermediary (based on the documentation furnished for C). Under paragraph (c)(1)(i)(C) of this section, P1 is not treated as a payee because it is a foreign partnership and none of the conditions described under paragraph (c)(1)(ii) of this section exist under the facts to treat P as the payee. Instead, P2 (under paragraph (c)(1)(i)(A) of this section), P3 (under paragraph (c)(1)(ii)(A) of this section), and the foreign pension fund that is a partner of P1 (under paragraph (c)(1)(i)(A) of this section), are treated as the payees of P1's distributive share of the payment to P. P2 is a payee because, although a flow-through entity, it is a domestic partnership (see paragraph (b)(1) of this section). P3 is treated as a payee under paragraph (c)(1)(ii)(A) of this section, irrespective of who its partners are, because it has furnished a valid withholding certificate as a withholding foreign partnership. The foreign pension fund is treated as a payee under paragraph (c)(1)(i)(A) of this section because it has furnished a beneficial owner Form W–8 described in § 1.1441–1(e)(2)(i).

(2) *Withholding foreign partnerships*—(i) *Reliance on claim of withholding foreign partnership status.* A withholding foreign partnership is a foreign partnership that has entered into an agreement with the Internal Revenue Service (IRS), as described in paragraph (c)(2)(ii) of this section. A withholding agent that can reliably associate a payment with a certificate described in paragraph (c)(2)(iv) of this section may treat the person to whom it makes the payment as a withholding foreign partnership for purposes of withholding under chapter 3 of the Code, information reporting under chapter 61 of the Code, backup withholding under section 3406, and withholding under other provisions of the Internal Revenue Code. Furnishing such a certificate is in lieu of transmitting to a withholding agent withholding certificates or other appropriate documentation for its partners. Although the withholding foreign partnership generally will be required to obtain withholding certificates or other appropriate documentation from its partners pursuant to its agreement with the IRS, it is not required to attach such documentation to the partnership withholding certificate.

(ii) *Withholding agreement*—(A) *In general.* A foreign partnership may claim withholding foreign partnership status before an agreement is executed with the IRS if it has applied for such status and the IRS authorizes such status on an interim basis under such procedures as the IRS may issue. A withholding foreign partnership must file a partnership return under section 6031(a) to the extent required under the regulations under that section and furnish statements on Form K–1 to its partners under section 6031(b) to the extent required under the regulations under that section. See §§ 1.6031–1 and 1.6031(b)–1T. See § 1.1461–1(c)(2)(ii)(A) for an exemption from filing Forms 1042 and 1042–S. A foreign withholding partnership that wishes to also be a qualified intermediary under § 1.1441–1(e)(5) for payments it receives for persons other than its partners may combine both agreements into one single agreement.

(B) *Terms of withholding agreement.* The IRS may, upon request, enter into a withholding agreement with a foreign partnership pursuant to such procedures as the IRS may prescribe in published guidance (see § 601.601(d)(2) of this chapter). Under such withholding agreement, a foreign partnership shall generally be subject to the applicable withholding and reporting provisions applicable to withholding agents and payors under chapters 3 and 61 of the Code, and section 3406, and the regulations under those provisions, and other withholding provisions of the Code, except to the extent provided under the agreement. In particular, the agreement must include provisions for reporting of information on Form 1065 and furnishing K–1 statements to the partners in the manner required under section 6031 and the regulations under that section. Under the agreement, a foreign partnership may agree to act as an acceptance agent to perform the duties described in § 301.6109–1(d)(3)(iv)(A) of this chapter. The agreement may specify the manner in which applicable procedures for adjustments for underwithholding and overwithholding, including refund procedures apply to the foreign partnership and its partners and the extent to which applicable procedures may be modified. In particular, a withholding agreement may allow a withholding foreign partnership to claim refunds of overwithheld amounts on behalf of its partners. In addition, the agreement must specify the manner in which the IRS will audit the foreign partnership's books and records in order to verify the accuracy of the Forms 1065 filed by the partnership and K–1 statements furnished to the partners as required under section 6031 and the regulations under that section. The agreement shall also specify the assets that the foreign partnership has in the United States or alternative means of collection, if necessary.

(iii) *Withholding responsibility.* A withholding foreign partnership must assume primary withholding responsibility for all payments that are made to it and, therefore, is not required to provide information to the withholding agent regarding each partner's distributive share of the payment (see paragraph (c)(3)(iv) of this section for the requirement to provide distributive share information to the withholding agent in the case of other foreign partnerships). The partnership shall be a withholding agent with respect to each of its partner's distributive share of income subject to withholding that is paid to the partnership. Therefore, the withholding agent is not required to withhold any amount under chapter 3 of the Code on a payment to a foreign partnership that has furnished a withholding certificate representing that it is a withholding foreign partnership, unless it has actual knowledge or reason to know that the certificate is incorrect. The foreign partnership shall withhold the payments under the same procedures and at the same time as is prescribed for withholding by a domestic partnership under paragraph (b)(2) of this section, except that, for purposes of determining the partner's status, the provisions of paragraph (d)(4)(iv) of this section shall apply and paragraph (b)(2)(ii) of this section shall not apply.

(iv) *Withholding certificate from a withholding foreign partnership.* The rules of §1.1441–1(e)(4) shall apply to withholding certificates described in this paragraph (c)(2)(iv). A withholding certificate furnished by a withholding foreign partnership is valid with regard to any partner on whose behalf the certificate is furnished only if it is furnished on a Form W–8 (or an acceptable substitute form or such other form as the IRS may prescribe), it is signed under penalties of perjury by a partner with authority to sign for the partnership, its validity has not expired, and it contains the information, statement, and certifications described in this paragraph (c)(2)(iv) as follows—

(A) The name, permanent residence address (as described in §1.1441–1(e)(2)(ii)), and the employer identification number of the partnership, and the country under the laws of which the partnership is created or governed;

(B) A certification that the partnership is a withholding foreign partnership within the meaning of paragraph (c)(2)(i) of this section; and

(C) Any other information or certification as may be required by the form or accompanying instructions in addition to, or in lieu of, the information and certifications described in this paragraph (c)(2)(iv).

(3) *Other foreign partnerships*—(i) *Reliance on claim of foreign partnership status.* A withholding agent that can reliably associate a payment with a certificate described in paragraph (c)(3)(iii) of this section may treat the person to whom it makes the payment as a foreign partnership that is not a withholding foreign partnership. Such reliance is permitted for purposes of withholding under chapter 3 of the Code, information reporting under chapter 61 of the Code, backup withholding under section 3406, and withholding under other provisions of the Internal Revenue Code. For purposes of this paragraph (c)(3)(i), a payment that the withholding agent can reliably associate with a withholding certificate described in paragraph (c)(3)(iii) of this section that would be valid except for the fact that some or all of the withholding certificates or other appropriate documentation required to be attached are lacking or are unreliable, or that information for allocating the payment among the partners is lacking or is unreliable, shall nevertheless be treated as a payment to a foreign partnership.

(ii) *Reliance on claim of reduced withholding by a partnership for its partners.* This paragraph (c)(3)(ii) describes the manner in which a withholding agent may rely on a claim of reduced withholding when making a payment to a foreign partnership that is not a withholding foreign partnership. To the extent that a withholding agent treats a payment to a foreign partnership as a payment to its partners in accordance with paragraph (c)(1) of this section, it may rely on a claim for reduced withholding by a partner if, prior to the payment, the withholding agent can reliably associate the payment with a withholding certificate described in paragraph (c)(3)(iii) of this section pertaining to the partner unless the withholding agent has actual knowledge or reason to know that the withholding certificate is unreliable. The certificate will be considered to pertain to the partner if the appropriate withholding certificate for the partner is attached to the partnership's withholding certificate. An appropriate withholding certificate for a partner includes a beneficial owner withholding certificate described in § 1.1441–1(e)(2)(i) or, if applicable, documentary evidence described in § 1.1441–6(b)(2)(i) or in § 1.6049–5(c)(1) (for a partner claiming to be a foreign person and a beneficial owner, determined under the provisions of § 1.1441–1(c)(6)), the applicable certificates described in § 1.1441–1(d)(2) or (3) (for a partner claiming to be a U.S. payee), an intermediary withholding certificate described in § 1.1441–1(e)(3)(ii) or (iii), a U.S. branch withholding certificate described in § 1.1441–1(e)(3)(v), or a partnership withholding certificate described in paragraph (c)(2)(iv) or (3)(iii) of this section. Except where the partnership certificate is provided for income claimed to be effectively connected with the conduct of a trade or business in the United States, a claim must be presented for each portion of the payment that represents an item of income includible in the distributive share of the partner as required under paragraph (c)(3)(iii)(C) of this section. When making a claim for several partners, the partnership may present a single partnership withholding certificate to which the partners' certificates are attached. Where the partnership certificate is provided for income claimed to be effectively connected with the conduct of a trade or business in the United States, the claim may be presented without having to identify the partner's distributive share of the payment if the certificate contains the certification described in paragraph (c)(3)(iii)(E) of this section.

(iii) *Withholding certificate from a foreign partnership that is not a withholding foreign partnership.* A withholding certificate furnished by a foreign partnership that is not a withholding foreign partnership is valid only if it is furnished on a Form W–8 (or an acceptable substitute form or such other form as the IRS may prescribe), it is signed under penalties of perjury by a partner with authority to sign for the partnership, its validity has not expired, it contains the information, statement, and certifications described in this paragraph (c)(3)(iii), and the withholding certificates or other appropriate documentation for all of the partners are attached (except that certificates for partners are not required to be attached for a certificate furnished solely for income claimed to be effectively connected with the conduct of a trade or business in the United States, regardless of any partner's status as a U.S. person). The rules of § 1.1441–1(e)(4) shall apply to withholding certificates described in this paragraph (c)(3)(iii). The information, statement, and certifications required on the withholding certificate are as follows:

(A) The name, permanent residence address (as described in § 1.1441–1(e)(2)(ii)), and the employer identification number of the partnership, and the country under the laws of which the partnership is created or governed.

(B) A representation that the person whose name is on the certificate is a foreign partnership.

(C) A statement attached to the certificate that provides such information as may be required by the form and accompanying instructions, including sufficient information to the withholding agent to determine the amount required to be withheld from amounts paid to the partnership, such as each partner's distributive share of amounts to which the certificate relates, prepared in the manner described in paragraph (c)(3)(iv) of this section. No statement is required for a certificate furnished for income claimed to be effectively connected with the conduct of a trade or business in the United States.

(D) If the withholding certificates are required to be attached to the partnership's withholding certificate, a statement either that the attached withholding certificates represent all of the partners or that the amounts allocatable to the partners for whom withholding certificates are lacking are separately identified in the statement required under paragraph (c)(3)(iv) of this section.

(E) A certification that the income is effectively connected with the conduct of a trade or business in the United States, if applicable.

(F) Any other information or certification as may be required by the form or accompanying instructions in addition to, or in lieu of, the information and certifications described in this paragraph (c)(3)(iii).

(iv) *Information to the withholding agent regarding each partner's distributive share.* The partnership must furnish information sufficient for the withholding agent to determine each partner's distributive share of reportable amounts (described in §1.1441–1(e)(3)(vi)). The sum of all partners' distributive shares, expressed as a percentage, must equal, but not exceed one hundred percent. For purposes of this paragraph (c)(3)(iv), the rules of §1.1441–1(e)(3)(iv) regarding the information to furnish to the withholding agent shall apply.

(v) *Withholding by a foreign partnership.* A foreign partnership described in this paragraph (c)(3) that receives an amount subject to withholding under chapter 3 of the Code shall be deemed to have satisfied any obligation under such chapter to withhold on the amount with respect to any partner to the extent that the partner's distributive share of the payment can be reliably associated with a withholding certificate described in paragraph (c)(3)(iii) of this section pertaining to the partner that the partnership has furnished to a withholding agent and the partnership does not know and has no reason to know that the correct amount has not been withheld under chapter 3 of the Code and the regulations under such chapter.

(d) *Presumptions regarding payee's status in the absence of documentation*—(1) *In general.* This paragraph (d) contains the applicable presumptions for determining the status of the partnership and its partners in the absence of documentation. The provisions of §1.1441–1(b)(3)(iv) (regarding the 90-day grace period) and §1.1441–1(b)(3) (vii) through (ix) shall apply for purposes of this paragraph (d).

(2) *Determination of partnership status as domestic or foreign in the absence of documentation.* In the absence of a valid representation of domestic partnership status in accordance with paragraph (b)(1) of this section and of foreign partnership status in accordance with paragraph (c)(2)(i) or (3)(i) of this section, the withholding agent shall determine the status of the payee as a corporation, a partnership or otherwise, based upon the presumptions set forth in §1.1441–1(b)(3)(ii). If, based upon these presumptions, the withholding agent treats the payee as a partnership, the partnership shall be presumed to be a foreign partnership if the withholding agent has actual knowledge of the payee's employer identification number and that number begins with the two digits "98," if the withholding agent's communications with the payee are mailed to an address in a foreign country, or if the payment is made outside the United States (as defined in §1.6049–5(e)). For rules regarding reliable association with a withholding certificate from a domestic or a foreign partnership, see §1.1441–1(b)(2)(vii).

(3) *Determination of partners' status in the absence of certain documentation.* If the withholding agent treats the payee as a foreign partnership in accordance with paragraph (c)(2)(i), (3)(i), or (d)(2) of this section, the presumptions described in this paragraph (d)(3) shall apply when the withholding agent cannot reliably associate a payment with partner documentation. The provisions of paragraphs (d) (3)(i), (ii), and (iii) of this section are not relevant to a payment that a withholding agent can reliably associate with a withholding certificate described in paragraph (c)(2)(iv) of this section.

(i) *Documentation regarding the status of a partner is lacking or unreliable.* Any portion of a payment that the withholding agent cannot reliably associate with a partner because a withholding certificate or other appropriate documentation for that partner is lacking or unreliable is presumed to be made to foreign payee. Therefore, under § 1.1441–1(b)(1), the withholding agent must withhold 30 percent from payments to the partnership of amounts subject to withholding that are allocable to such partner or group of partners.

(ii) *Information regarding the allocation of payment is lacking or unreliable.* If a withholding agent can reliably associate a payment with a group of partners but lacks reliable information to determine how much of the payment is allocable to each partner in the group, the payment, to the extent it cannot reliably be allocated, is presumed to be allocable entirely to the partner in the group with the highest applicable withholding rate or, if the rates are equal, to the partner in the group with the highest U.S. tax liability, as the withholding agent shall estimate, based on its knowledge and available information. If a withholding certificate attached to the partnership certificate is another partnership certificate or an intermediary certificate described in § 1.1441–1(e)(3)(iii), the rules of this paragraph (d)(3)(ii) apply by treating the share of the payment allocable to the other partnership or the intermediary certificate as if the payment were made directly to the foreign partnership or intermediary.

(iii) *Certification that the foreign partnership has furnished documentation for all of the persons to whom the intermediary certificate relates is lacking or unreliable.* If the certification required under paragraph (c)(3)(iii)(D) of this section (that the attached withholding certificates and other appropriate documentation represent all of the partners in the partnership) is lacking or is unreliable and, as a result, the withholding agent cannot reliably determine how much of the payment is allocable to each of the partners or group of partners for which the withholding agent holds a withholding certificate or other appropriate documentation, then none of the payment can reliably be associated with any one partner and the entire payment is presumed to be made to a foreign payee.

(iv) *Determination by a withholding foreign partnership of the status of its partners.* For purposes of determining whether the partners or some other persons are the payees of the partners' distributive shares of any payment made to a withholding foreign partnership, the partnership shall apply the rules of § 1.1441–1(b)(2), and of paragraph (c)(1) of this section (in the case of a partner that is a foreign partnership) and of paragraph (e) (in the case of a partner that is a foreign estate or a foreign trust), in the same manner as if the partnership were making a payment directly to the partners other than in their capacity as partners. Further, the provisions of paragraphs (d)(3)(i), (ii), and (iii) of this section shall apply to determine the status of partners and the applicable withholding rates to the extent that, at the time the foreign partnership is required to withhold on the amount, it cannot reliably associate the amount with documentation for any one or more of its partners. See §§ 1.6031–1 and 1.6031–1T for reporting and filing requirements applicable to a withholding foreign partnership.

(4) Examples. The rules of this paragraph (d) may be illustrated by the following examples:

Example 1. (i) *Facts.* FP is a foreign partnership receiving U.S. source interest that would qualify as portfolio interest described in section 871(h)(2)(B) if the statement described in section 871(h)(5) were furnished. FP has three partners, A, B, and C. FP furnishes to the withholding agent a partnership withholding certificate described in paragraph (c)(3)(iii) of this section to which it attaches a Form W–9 for A and a beneficial owner Form W–8 for B. Nothing on A's Form W–9 indicates that A is an exempt recipient within the meaning of § 1.6049–4(c)(1)(i). No documentation is attached for C. The partnership has one single account with the withholding agent. It furnishes a statement to the withholding agent under paragraph (c)(3)(iv) of this section indicating that A's, B's, and C's respective distributive shares of the payments are 40%, 40%, and 20% and represents, in accordance with paragraph (c)(3)(iii)(D) of this section, that there are only three partners.

(ii) *Analysis.* Absent actual knowledge or reason to know otherwise, the withholding agent may rely on FP's withholding certificate and A's Form W–9 to treat A as a U.S.

beneficial owner under § 1.1441–1(d)(4)(i) and as a U.S. payee under paragraph (c)(1)(i)(A) of this section to the extent of 40 percent of the payment. Under § 1.1441–1(b)(1), the withholding agent is not required to withhold on A's share of the payment. Under § 1.6049–4(a), the withholding agent must comply with information reporting obligations (i.e., file a Form 1099) with respect to A who is treated as a U.S. payee under paragraph (c)(1)(i)(A) of this section and § 1.6049–5(d)(1) for purposes of the information reporting provisions of chapter 61 of the Code and the regulations thereunder. Absent actual knowledge or reason to know otherwise, the withholding agent may also rely on FP's withholding certificate and B's Form W–8 to treat B as a foreign beneficial owner under § 1.1441–1(e)(1)(ii)(A)(1) and paragraph (c)(1)(i)(A) of this section. Thus, under § 1.1441–1(b)(1), the withholding agent may rely on B's claim for portfolio interest treatment for B's share of the payment. Under § 1.1461–1(b)(1) and (c)(1), the withholding agent must report the payment to B on Forms 1042 and 1042–S unless, under section 6031 and the regulations under that section, the partnership is required to file a return. Because the withholding agent cannot associate the documentation (as defined in § 1.1441–1(b)(3)(vii)) for C's share of the interest income, the withholding agent must, under paragraph (d)(3)(i) of this section, treat that amount as a payment made to an unidentified foreign partner and withhold 30 percent under section 1441 in accordance with § 1.1441–1(b)(1).

Example 2. The facts are the same as in *Example 1,* but the partnership has furnished no information under paragraph (c)(3)(iv) of this section regarding how much of the payment to the foreign partnership is attributable to A and C. Under paragraph (d)(3)(ii) of this section, the payment allocable to group A–C is presumed made entirely to A or to C, depending on who of A or C is subject to the highest withholding rate. A is not subject to withholding because it has furnished a valid Form W–9. C is subject to a 30-percent withholding rate under § 1.1441–1(b)(1) because it is presumed to be an unidentified foreign partner under paragraph (d)(3)(i) of this section. Therefore, under paragraph (d)(3)(ii) of this section, the portion of the payment that the withholding agent can associate with A and C is subject to withholding at a 30-percent rate. The withholding agent may ignore the fact that A has furnished a valid Form W–9 supporting his claim of exemption from withholding as a U.S. person because it has no reliable information on how much of the payment is allocable to A. Because the withholding agent has a Form W–9 for the U.S. individual partner, it must also report A's distributive share on a Form 1099. To the extent that A's exact share is not known, the entire amount should be reported on the Form 1099.

(e) *Trusts and estates.* [Reserved]

(f) *Failure to receive withholding certificate timely or to act in accordance with applicable presumptions.* See applicable procedures described in § 1.1441–1(b)(7) in the event the withholding agent does not hold an appropriate withholding certificate or other appropriate documentation at the time of payment or fails to rely on the presumptions set forth in § 1.1441–1(b)(3) or in paragraph (d) or (e) of this section.

(g) *Effective date*—(1) *General rule.* This section applies to payments made after December 31, 1999.

(2) *Transition rules.* The validity of a withholding certificate that was valid on January 1, 1998, under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and expired, or will expire, at any time during 1998, is extended until December 31, 1998. The validity of a withholding certificate that is valid on or after January 1, 1999, remains valid until its validity expires under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) or, if earlier, until December 31, 2000. The rule in this paragraph (g)(2), however, does not apply to extend the validity period of a withholding certificate that expires solely by reason of changes in the circumstances of the person whose name is on the certificate. Notwithstanding the first three sentences of this paragraph (g)(2), a withholding agent may choose to not take advantage of the transition rule in this paragraph (g)(2) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and, therefore, to require withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998). Further, a new withholding certificate remains valid for the period

specified in § 1.1441–1(e)(4)(ii), regardless of when the certificate is obtained.

[T.D. 8734, 62 FR 53452, Oct. 14, 1997, as amended by T.D. 8804, 63 FR 72185, 72188, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53452, Oct. 14, 1997, § 1.1441–5 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1441–5 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§ 1.1441–5 Claiming to be a person not subject to withholding.

(a) *Individuals.* For purposes of chapter 3 of the Code, an individual's written statement that he or she is a citizen or resident of the United States may be relied upon by the payer of the income as proof that such individual is a citizen or resident of the United States. This statement shall be furnished to the withholding agent in duplicate. An alien may claim residence in the United States by filing Form 1078 with the withholding agent in duplicate in lieu of the above statement.

(b) *Partnerships and corporations.* For purposes of chapter 3 of the Code a written statement from a partnership or corporation claiming that it is not a foreign partnership or foreign corporation may be relied upon by the withholding agent as proof that such partnership or corporation is domestic. This statement shall be furnished to the withholding agent in duplicate. It shall contain the address of the taxpayer's office or place of business in the United States and shall be signed by a member of the partnership or by an officer of the corporation. The official title of the corporate officer shall also be given.

(c) *Disposition of statement and form.* The duplicate copy of each statement and form filed pursuant to this section shall be forwarded with a letter of transmittal to Internal Revenue Service Center, Philadelphia, PA 19255. The original statement shall be retained by the withholding agent.

(d) *Definitions.* For determining whether an alien individual is a resident of the United States see §§ 301.7701(b)–1 through 301.7701(b)–9 of this chapter. An individual with respect to whom an election to be treated as a resident under section 6013(g) is in effect is not, in accordance with § 1.1441–1, a resident for purposes of this section. For definition of the terms ''foreign partnership'' and ''foreign corporation'' see section 7701(a) (4) and (5) and § 301.7701–5 of this chapter. For definition of the term ''United States'' and for other geographical definitions relating to the Continental Shelf see section 638 and § 1.638–1.

[T.D. 6500, 25 FR 12076, Nov. 26, 1960, as amended by T.D. 6908, 31 FR 16773, Dec. 31, 1966; T.D. 7277, 38 FR 12742, May 15, 1973; T.D. 7842, 47 FR 49842, Nov. 3, 1982; T.D. 7977, 49 FR 36834, Sept. 20, 1984; T.D. 8160, 52 FR 33933, Sept. 9, 1987; T.D. 8411, 57 FR 15241, Apr. 27, 1992]

§ 1.1441–6 Claim of reduced withholding under an income tax treaty.

(a) *In general.* The rate of withholding on a payment of income subject to withholding may be reduced to the extent provided under an income tax treaty in effect between the United States and a foreign country. Most benefits under income tax treaties are to foreign persons who reside in the treaty country. In some cases, benefits are available under an income tax treaty to U.S. citizens or U.S. residents or to residents of a third country.

See paragraph (b)(5) of this section for claims of benefits by U.S. persons. If the requirements of this section are met, the amount withheld from the payment may be reduced at source to account for the treaty benefit. See also § 1.1441–4(b)(2) for rules regarding claims of reduced rate of withholding under an income tax treaty in the case of compensation from personal services.

(b) *Reliance on claim of reduced withholding under an income tax treaty*—(1) *In general.* Absent actual knowledge or reason to know otherwise, a withholding agent may rely on a claim that a beneficial owner is entitled to a reduced rate of withholding based upon an income tax treaty if, prior to the payment, the withholding agent can reliably associate the payment with documentation upon which it can rely to treat the payment as made to a foreign beneficial owner in accordance with § 1.1441–1(e)(1)(ii) (not including 1.1441–1(e)(1)(ii)(A)(*2*) relating to documentary evidence). Except as otherwise provided in paragraph (b)(2) or (3) of this section, for purposes of this paragraph (b)(1), a beneficial owner withholding certificate described in § 1.1441–1(e)(2)(i) is valid only if it includes the beneficial owner's taxpayer identifying number and certifies that the taxpayer has complied with the advance ruling requirements described in paragraph (e) of this section (if applicable), and, if the beneficial owner is a person related to the withholding agent within the meaning of section 482, that the beneficial owner will file the statement required under §301.6114–1(d) of this chapter (if applicable). The requirement to file an information statement under section 6114 for income subject to withholding applies only to amounts received during the calendar year that, in the aggregate, exceed $500,000. See §301.6114–1(d) of this chapter. The Internal Revenue Service (IRS) may apply the provisions of §1.1441–1(e)(1)(ii)(B) to notify the withholding agent that the certificate cannot be relied upon to grant benefits under an income tax treaty. A beneficial owner's taxpayer identifying number on a withholding certificate is valid for purposes of establishing proof of residence in a treaty country only if the taxpayer identifying number is certified by the IRS in accordance with the procedures set forth in paragraph (c) of this section. However, absent actual knowledge or reason to know otherwise, a withholding agent may rely on a taxpayer identifying number without having to inquire as to whether the taxpayer identifying number is certified, if the number appears correct on its face and the permanent residence address on the certificate is in the country whose tax treaty with the United States is invoked. See 1.1441–1(e)(4)(viii) regarding reliance on a withholding certificate by a withholding agent. The provisions of §1.1441–1(b)(3)(iv) dealing with a 90-day grace period shall apply for purposes of this section.

(2) *Exemption from requirement to furnish a taxpayer identifying number and special documentary evidence rules for certain income*—(i) *General rule.* In the case of income described in paragraph (b)(2)(ii) of this section, a withholding agent may rely on a beneficial owner withholding certificate described in paragraph (b)(1) of this section even if the person whose name is on the certificate has not provided a taxpayer identifying number. In the case of payments made outside the United States (as defined in §1.6049–5(e)) with respect to an offshore account (as defined in §1.6049–5(c)(1)), a withholding agent may, as an alternative to a withholding certificate described in paragraph (b)(1) of this section, rely on a certificate of residence described in paragraph (c)(3) of this section or documentary evidence described in paragraph (c)(4) of this section, relating to the beneficial owner, that the withholding agent has reviewed and maintains in its records in accordance with §1.1441–1(e)(4)(iii). In the case of a payment to a person other than an individual, the certificate of residence or documentary evidence must be accompanied by the certifications described in paragraphs (c)(5) (i) and (ii) of this section regarding limitation on benefits and whether the amount paid is derived by such person or by one of its interest holders. The withholding agent maintains the reviewed documents by retaining either the documents viewed or a photocopy thereof and noting in its records the date on which, and by whom, the documents were received and reviewed. This paragraph (b)(2)(i) shall not apply to amounts that are exempt from withholding based on a claim that the income is effectively connected with the conduct of a trade or business in the United States.

(ii) *Income to which special rules apply.* The income to which paragraph (b)(2)(i) of this section applies is dividends and interest from stocks and debt obligations that are actively traded, dividends from any redeemable security issued by an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a–1), dividends, interest, or royalties from units of beneficial interest in a unit investment trust that are (or were, upon issuance) publicly offered and are registered with the Securities and Exchange Commission under the Securities Act of 1933 (15 U.S.C. 77a) and amounts paid with respect to loans of securities described in this paragraph (b)(2)(ii). For purposes of this paragraph (b)(2)(ii), a stock or debt obligation is actively traded if it is actively traded within the meaning of section 1092(d) and §1.1092(d)–1 when documentation is provided.

(3) *Competent authority agreements.* The procedures described in this section may be modified to the extent the

U.S. competent authority may agree with the competent authority of a country with which the United States has an income tax treaty in effect.

(4) *Eligibility for reduced withholding under an income tax treaty in the case of a payment to a person other than an individual*—(i) *General rule.* The withholding imposed under section 1441, 1442, or 1443 on any payment to a foreign person is eligible for reduction under the terms of an income tax treaty only to the extent that such payment is treated as derived by a resident of an applicable treaty jurisdiction, such resident is a beneficial owner of the payment, and all other applicable requirements for benefits under the treaty are satisfied. A payment received by an entity is treated as derived by a resident of an applicable treaty jurisdiction to the extent that the payment is subject to tax in the hands of a resident of that jurisdiction. For this purpose, a payment received directly by an entity that is treated as fiscally transparent by the applicable treaty jurisdiction shall be considered a payment subject to tax in the hands of a resident of the jurisdiction to the extent that the interest holders in the entity are residents of the jurisdiction. For purposes of the preceding sentence, interest holders do not include any direct or indirect interest holders that are themselves treated as fiscally transparent entities by the applicable treaty jurisdiction. A payment received by an entity that is not treated as fiscally transparent by the applicable treaty jurisdiction shall be considered a payment subject to tax in the hands of a resident of such jurisdiction only if the entity is itself a resident of that jurisdiction. If the entity is a wholly-owned entity that is disregarded for federal tax purposes under § 301.7701–2(c)(2) of this chapter as an entity separate from its owner and whose single member is a foreign person, amounts paid to such entity may nevertheless be treated as derived by a resident of a treaty country if the entity is treated by the applicable treaty country as deriving the income as a resident of that country. The provisions of § 1.894–1T(d) (1) through (4) shall apply for purposes of determinations made under this paragraph (b)(4).

(ii) *Withholding certificates*—(A) *In general.* The type of withholding certificate or other appropriate documentation that must be furnished by a person claiming a reduced rate of withholding under an income tax treaty depends upon the status of the entity under the laws of the applicable treaty jurisdiction. For example, if the person receiving the payment is a foreign entity but the persons eligible for benefits under the applicable income tax treaty are the entity's interest holders in the foreign entity receiving the payment, rather than the entity itself, then the entity shall be treated as a foreign partnership for purposes of determining which withholding certificate is appropriate irrespective of the fact that the entity may be treated as a corporation for U.S. tax purposes. If, conversely, the person eligible for benefits under an income tax treaty is the entity rather than the interest holders, then the entity shall be treated as a corporation for purposes of determining which withholding certificate is appropriate irrespective of the fact that the entity may be treated as a partnership for U.S. tax purposes. In the event of a claim for dual treatment described in paragraph (b)(4)(iii) of this section, multiple withholding certificates may have to be furnished. Multiple withholding certificates may also have to be furnished if the entity receives income for which a reduction of withholding is claimed under a provision of the Internal Revenue Code (e.g., portfolio interest) and income for which a reduction of withholding is claimed under an income tax treaty. Absent actual knowledge or reason to know otherwise, a withholding agent may rely on the representations on the certificate that the beneficial owner derives the income and is a resident of the applicable treaty country, within the meaning of § 1.894–1T(d) and the applicable income tax treaty, without having to inquire into the truthfulness of these representations or to research foreign law.

(B) *Certification by qualified intermediary.* A foreign corporation that is a qualified intermediary described in § 1.1441–1(e)(5)(ii)(C) for purposes of claiming reduced rates of withholding under an income tax treaty for its shareholders (who are treated as deriving the income paid to the corporation as resident of an applicable treaty jurisdiction) may furnish a single Form W–8 for its shareholders for amounts for which it claims the benefit of a reduced rate of withholding under an applicable income tax treaty. The Form W–8 shall be one described under §1.1441–1(e)(3)(ii).

(iii) *Multiple claims of treaty benefits.* A withholding agent may make a payment to a foreign entity that is simultaneously claiming a reduced rate of tax on its own behalf for a portion of the payment and a reduced rate on behalf of persons in their capacity as interest holders in that entity for the same or for another portion of the payment. In the case of concurrent and inconsistent claims of treaty benefits for the same amount, the withholding agent may choose to reject the claim and request that a consistent claim be submitted or it may choose which reduction to apply. In the case of concurrent and consistent claims (e.g., the entity that is paid the amount claims a reduced rate for a portion of the payment and an interest holder claims a different reduced rate for the balance of the payment), the withholding agent may, at its option, accept such dual claim based, as appropriate, on withholding certificates furnished by such persons with respect to their respective shares of such payment, even though the withholding agent holds different withholding certificates that requires it to treat the entity inconsistently with respect to different payments or with respect to different portions of the same payment. See paragraph (b)(4)(iv) *Example 2* of this section. If the withholding agent does not accept claims of reduced rate presented by any one or more of the interest holders, or by the entity, any interest holder or the entity may subsequently claim a refund or credit of any amount so withheld to the extent the holder's or entity's share of such withholding exceeds the amount of tax due under section 894 (in the case of a foreign person) or under section 1 or 11 (in the case of a U.S. person).

(iv) *Examples.* This paragraph (b)(4) is illustrated by the following examples:

Example 1. (i) *Facts.* Entity A is a business organization formed under the laws of country Y that has an income tax treaty with the United States. A receives U.S. source royalties from withholding agent R and claims a reduced rate of withholding under the U.S.-Y tax treaty on its own behalf (rather than on behalf of its interest holders). A furnishes a beneficial owner withholding certificate described in paragraph (b)(1) of this section that represents that A is a resident of country Y (within the meaning of the U.S.-Y tax treaty) and the beneficial owner of the royalties (within the meaning of the U.S.-Y tax treaty).

(ii) *Analysis.* Absent actual knowledge or reason to know otherwise, R may rely on the representation that A is a resident of country Y and a beneficial owner of the royalty income within the meaning of the U.S.-Y tax treaty.

Example 2. (i) *Facts.* The facts are the same as under *Example 1,* except that one of A's interest holders, T, is an entity organized in country Z. The U.S.-Z tax treaty reduces the rate on royalties to zero whereas the rate on royalties under the U.S.-Y tax treaty is only reduced to 5 percent. T furnishes a beneficial owner withholding certificate to A that represents that T is deriving its distributive share of the royalty income paid to A as a resident of country Z (within the meaning of §1.894–1T(d)(1) and the U.S.-Z tax treaty) and is the beneficial owner of the royalty income (within the meaning of the U.S.-Z tax treaty). A furnishes to R an intermediary withholding certificate described in §1.1441–1(e)(3)(iii) to which it attaches T's beneficial owner withholding certificate for the portion of the payment that T claims as its distributive share of the royalty income. A also furnishes to R a beneficial owner withholding certificate for itself for the portion of the payment that T does not claim as its distributive share.

(ii) *Analysis.* Absent actual knowledge or reason to know otherwise, R may rely on the documentation furnished by A in order to treat the royalty payment to a single foreign entity (A) as derived by different residents of tax treaty countries as a result of concurrent and consistent claims presented under different treaties. R may, at its option, grant dual treatment, that is, a reduced rate of zero percent under the U.S.-Z treaty on the portion of the royalty payment that T claims to derive as a resident of country Z and a reduced rate of 5 percent under the U.S.-Y treaty for the balance. However, under paragraph (b)(4)(iii) of this section, R may, at its option, treat A as the only relevant person deriving the royalty and grant benefits under the U.S.-Y treaty only.

Example 3. (i) *Facts.* Entity A is a business organization formed under the laws of the United States and is classified as a partnership for U.S. tax purposes. A's partners are S and T. S is an entity organized in country Z. T is an entity organized in country X. Under the laws of country Z, A is treated as an entity taxable at the entity level. Therefore, S is treated as a shareholder for purposes of the laws of country Z and is not required to take A's income into account for purposes of determining its tax liability under those laws. Distributions from A are treated as distributions from a corporate entity for purposes of the tax laws of Country Z. Under the laws of country X, A is treated as a fiscally transparent entity and T is required to take into account its distributive share of A's income for purposes of determining its tax liability under those laws. A receives U.S. source royalties that are not connected with a trade or business. The United States has a tax treaty with countries Z and X under which the rate on royalties is reduced to zero. Both S and T furnish a beneficial owner certificate to A representing that they are resident of their respective countries and a beneficial owner of their respective distributive share of royalty income. A has actual knowledge of the tax treatment of S and T in their respective countries.

(ii) *Analysis.* Because A is a partnership for U.S. tax purposes, S and T are each taxable on their respective distributive share of the royalty income under section 881(a). However, under § 1.1441–5(b)(1), the payment of royalty to A is not a payment subject to withholding. Instead, under § 1.1441–5(b)(2), A must withhold on each partner's distributive share of U.S. source royalty income and may apply the rules of this section to determine the extent to which the 30-percent withholding rate under section 1442 should be reduced under the income tax treaties with countries Z and X. Because A has actual knowledge of the tax treatment of S in country Z as a shareholder of A and not as a partner (or owner of a fiscally transparent entity), A may not rely on the certificate furnished by S in order to reduce the rate of withholding under the U.S.-Z tax treaty. Therefore, it withholds 30 percent of S's distributive share of royalty income. A may rely on T's certificate to treat T as deriving its distributive share of A's royalty income as a resident of country X and as a beneficial owner. Therefore, A withholds on T's distributive share of royalty income at the reduced rate under the U.S.-X tax treaty.

Example 4. (i) *Facts.* Entity A is a business organization formed under the laws of country Y. A receives from withholding agent R U.S. source royalties and U.S. source interest income that is potentially eligible for the portfolio interest exemption under section 871(h) and 881(c). A's interest holders are S, an individual who resides in country Y, T, an individual who resides in country Z, and U, an individual resident in the United States. The United States has a tax treaty with both country Y and country Z. The U.S.-Y tax treaty reduces the rate on royalties to 5 percent, and the U.S.-Z tax treaty reduces the rate to zero. A is classified as a partnership under U.S. tax principles. Under the tax laws of country Y, A is treated as a fiscally transparent entity and S is required to include in income his distributive share of A's income. A furnishes to R an intermediary withholding certificate described in § 1.1441–5(c)(3)(iii) to which it attaches—

(A) A Form W–9 for U; and

(B) Beneficial owner withholding certificates for S and T that represent that S and T are foreign persons. For purposes of claiming the reduced rate under each applicable tax treaty, each of S's and T's certificates represents that S and T are deriving their distributive share of the royalty income as a resident of their respective countries (within the meaning of § 1.894–1T(d)(1) and of the applicable tax treaty) and as a beneficial owner (within the meaning of the applicable tax treaty).

(ii) *Analysis.* Absent actual knowledge or reason to know otherwise, R may rely on the representations that S and T derive a distributive share of the royalty income as resident of their respective countries and are the beneficial owners of the income. Therefore, R may withhold on S's distributive share of the royalty income paid to A at the 5-percent rate under the U.S.–Y tax treaty. R may withhold on T's distributive share of the royalty income paid to A at the zero rate under the U.S.-Z tax treaty, even though A is not organized in, or a resident of, country Z. R may rely on U's Form W–9 to treat U as a U.S. person. Therefore, R does not withhold on U's share of the royalty payment. R also does not withhold on any portion of the interest paid to A because S and T have furnished beneficial owner certificates and U has furnished a Form W–9.

Example 5. (i) *Facts.* The facts are the same as in *Example 4,* except that A represents that it derives the royalty income it receives from R as a resident of country Y (within the meaning of § 1.894–1T(d)(1) and the U.S.-Y tax treaty) and as a beneficial owner of the income (within the meaning of the U.S.-Y tax treaty). Neither T nor S represent to derive the royalty income as resident of their respective country. A furnishes an intermediary withholding certificate described in § 1.1441–1(e)(3)(iii) to which it attaches a Form W–9 for U and beneficial owner withholding certificates for S and T. No claims of reduced rate under a tax treaty are made on S's or T's certificates. A also furnishes to R its own beneficial withholding certificate in order to claim the reduced rate under the U.S.-Y tax treaty for the royalty income.

(ii) *Analysis.* Absent actual knowledge or reason to know otherwise, R may rely on A's intermediary certificate and the certificates attached thereto in order to treat S and T as foreign beneficial owners for purposes of treating the interest as portfolio interest and to treat U as a U.S. payee. Therefore, R does not withhold on the payment of interest to A. In addition, absent actual knowledge or reason to know otherwise, R may rely on A's beneficial owner certificate in order to reduce the rate of withholding on the royalty income under the U.S.-Y tax treaty.

(5) *Claim of benefits under an income tax treaty by a U.S. person.* In certain cases, a U.S. person may claim the benefit of an income tax treaty. For example, under certain treaties, a U.S. citizen residing in the treaty country may claim a reduced rate of U.S. tax on certain amounts representing a pension or an annuity from U.S. sources. Claims of treaty benefits by a U.S. person may be made by furnishing a Form W–9 to the withholding agent or such other form as the IRS may prescribe in published guidance (see §601.601(d)(2) of this chapter).

(c) *Proof of tax residence in a treaty country and certification of entitlement to treaty benefits*—(1) *In general.* A beneficial owner establishes proof of its tax residence in a treaty country for purposes of its claim to the withholding agent that a reduced rate of tax applies under an income tax treaty by complying with the procedures described in this paragraph (c) or with such other procedures as the IRS may prescribe in published guidance (see §601.601(d)(2) of this chapter). For purposes of this section, the residence of a beneficial owner must be determined in accordance with the provisions of the applicable U.S. income tax treaty as may be clarified by any applicable regulations thereunder, or technical explanations thereof, or other published guidance.

(2) *Certification of taxpayer identifying number*—(i) *In general.* A taxpayer may certify its taxpayer identifying number as required under paragraph (b)(1) of this section by having the number certified by the IRS either directly as provided under paragraph (c)(2)(ii) of this section or through a qualified intermediary as provided in paragraph (c)(2)(iii) of this section.

(ii) *IRS-certified TIN.* The IRS shall certify a taxpayer identifying number (TIN) upon receipt of a certificate of residence described in paragraph (c)(3) of this section to which it shall attach the certifications described in paragraphs (c)(5) (i) and (ii) of this section, if applicable. The taxpayer may provide documentary evidence described in paragraph (c)(4) of this section instead of a certificate of residence. However, a taxpayer (other than a person organized as a corporate body in the applicable treaty jurisdiction) may furnish documentary evidence instead of a certificate of residence only if a certificate of residence is not available to the taxpayer. A certificate of residence is not available for purposes of this paragraph (c)(2)(ii) if the tax administration of the country where the taxpayer claims to be a resident does not have a procedure in effect by which such certificates are routinely issued or the taxpayer establishes that obtaining such certificate would require an unreasonable amount of time or costs relative to the taxpayer's circumstances (e.g., amount of investments in the United States). A person organized as a corporate body in the applicable treaty jurisdiction may, instead of a certificate of residence, furnish a certificate of incorporation, articles of incorporation, or other official document reflecting the taxpayer's status as a corporate body in that jurisdiction, regardless of whether a certificate of residence described in paragraph (c)(3) of this section is otherwise available. The certificate or documentary evidence must be furnished to the IRS by, or on behalf of, the beneficial owner upon application for the taxpayer identifying number or at any other time, as permitted under such procedures as the IRS may prescribe in published guidance (see §601.601(d)(2) of this chapter). If the tax residence of the beneficial owner changes, the beneficial owner shall notify the IRS of that change within 30 days thereof. This requirement is in addition to the notification requirements described in §1.1441–1(e)(4)(ii)(D) regarding notification to a withholding agent in the event of changes in the beneficial owner s circumstances. The IRS may, under the exchange of information provisions of an applicable income tax treaty, exchange information with the relevant foreign competent authority for the purpose of confirming with appropriate tax officials of the other country that the beneficial owner continues to be a tax resident of that country. The IRS may from time to time, in its discretion, request that the beneficial owner reconfirm its residence in the treaty country.

(iii) *Special rules for qualified intermediaries.* The IRS may certify a taxpayer identifying number based upon the certification of a qualified intermediary described in § 1.1441–1(e)(5)(ii) regarding the tax residence of any of its account holders, under procedures agreed upon with the IRS. If a new account holder has a TIN at the time it opens an account, the qualified intermediary may rely on a statement by the account or interest holder that appropriate proof of tax residence in the treaty jurisdiction was previously provided to the IRS. In such case, the qualified intermediary must notify the IRS each time that the account or interest holder's address changes to another country or when the account or interest holder terminates its relationship with the qualified intermediary within 30 days of that change.

(3) *Certificate of residence.* A certificate of residence referred to in paragraph (b)(2)(i) or (c)(2)(ii) of this section is a certification issued by the competent authority (or another appropriate tax official) of the treaty country of which the taxpayer claims to be a resident that the taxpayer has filed its most recent income tax return as a resident of that country (within the meaning of the applicable tax treaty). A certificate of residence is valid for a period of three years or such longer period as the IRS may prescribe in published guidance (see § 601.601(d)(2) of this chapter). The competent authorities may agree to a different procedure for certifying residence, in which case such procedure shall govern for payments made to a person claiming to be a resident of the country with which such an agreement is in effect.

(4) *Documentary evidence establishing residence in the treaty country*—(i) *Individuals.* For purposes of this paragraph (c)(4), documentary evidence establishes the residence of an individual in a treaty country if it includes the name, address, and photograph of the person seeking to prove residence, is an official document issued by an authorized governmental body (i.e., a government or agency thereof, or a municipality), and has been issued no more than three years prior to presentation to the IRS or the withholding agent. A document older than three years may be relied upon as proof of residence only if it is accompanied by additional evidence of the person's residence in the treaty country (e.g., a bank statement, utility bills, or medical bills). Documentary evidence must be in the form of original documents or certified copies thereof. Documentary evidence must be accompanied by an affidavit of the taxpayer signed under penalties of perjury that the documentary evidence submitted is true and complete.

(ii) *Persons other than individuals.* For purposes of this paragraph (c)(4), documentary evidence establishes the residence in a treaty country of a person other than an individual if it includes the name of the entity and the address of its principal office in the treaty country, and is an official document issued by an authorized governmental body (e.g., a government or agency thereof, or a municipality).

(5) *Certifications regarding entitlement to treaty benefits*—(i) *Certification regarding conditions under a Limitation on Benefits Article.* A taxpayer that is not an individual must certify to the IRS by way of an affidavit attached to its request for certification of its employer identification number that it meets one or more of the conditions set forth in the Limitation on Benefits Article (if any, or in a similar provision) contained in the applicable tax treaty. The affidavit must describe sufficient facts for the IRS to determine which condition the taxpayer claims to satisfy. The affidavit must be signed by the taxpayer under penalties of perjury.

(ii) *Certification regarding whether the taxpayer derives the income.* A taxpayer that is not an individual shall certify to the IRS by way of an affidavit attached to its request for certification of its employer identification number that any income for which it intends to claim benefits under an applicable income tax treaty is income that will properly be treated as derived by itself as a resident of the applicable treaty jurisdiction within the meaning of § 1.894–1T(d)(1). The affidavit must be signed under penalties of perjury. This requirement does not apply if the taxpayer furnishes a certificate of residence that certifies that fact.

(d) *Joint owners.* In the case of a payment to joint owners, each owner must furnish a withholding certificate or, if applicable, documentary evidence or a certificate of residence. The applicable rate of withholding on a payment of income to joint owners shall be the highest applicable rate.

(e) *Related party dividends under U.S.-Denmark income tax treaty.* Article VI(3) of the income tax treaty between the United States and Denmark (see 1950–1 C.B. 77; see also §601.601(d)(2) of this chapter) reduces the rate of tax on dividends between related corporations to 5 percent subject to the condition that the relationship between the domestic and foreign corporations was not arranged or maintained for the purpose of securing the reduced rate. A domestic corporation that makes a distribution derived by a resident of Denmark may treat this condition as satisfied if, prior to the payment, a request has been made to the IRS for a private letter ruling determining that the relationship between the corporation and the Danish resident was not arranged or maintained for such purpose and the IRS has either issued a favorable ruling (and the ruling has not been revoked) or is considering the ruling request.

(f) *Failure to receive withholding certificate timely.* See applicable procedures described in §1.1441–1(b)(7) in the event the withholding agent does not hold an appropriate withholding certificate or other appropriate documentation at the time of payment.

(g) *Effective date*—(1) *General rule.* This section applies to payments made after December 31, 1999.

(2) *Transition rules.* For purposes of this section, the validity of a Form 1001 or 8233 that was valid on January 1, 1998, under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and expired, or will expire, at any time during 1998, is extended until December 31, 1998. The validity of a Form 1001 or 8233 is valid on or after January 1, 1999, remains valid until its validity expires under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) or, if earlier, until December 31, 2000. The rule in this paragraph (g)(2), however, does not apply to extend the validity period of a Form 1001 or 8233 that expires solely by reason of changes in the circumstances of the person whose name is on the certificate or in interpretation of the law under the regulations under §1.894–1T(d). Notwithstanding the first three sentences of this paragraph (g)(2), a withholding agent may choose to not take advantage of the transition rule in this paragraph (g)(2) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and, therefore, to require withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998). Further, a new withholding certificate remains valid for the period specified in §1.1441–1(e)(4)(ii), regardless of when the certificate is obtained.

[T.D. 8734, 62 FR 53458, Oct. 14, 1997, as amended by T.D. 8804, 63 FR 72185, 72188, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53458, Oct. 14, 1997, §1.1441–6 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1441–6 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§1.1441–6 Withholding pursuant to the application of a tax treaty which confers a reduced rate of, or an exemption from, United States income tax.

(a) *In general.* The rate of 30 percent or 14 percent shall be reduced as may be provided by a treaty with any country. In case of payments of any of the items specified in §1.1441–2 (other than dividends) made on or before December 31, 1971, and in the case of payments of dividends made at any time, the withholding agent shall determine the applicable rate pursuant to the appropriate tax treaty and the regulations issued thereunder. In case of payments on or after January 1, 1972, of any of the items specified in §1.1441–2 (other than dividends), the requirements of paragraphs (b) and (c) of this section shall apply in lieu of the ownership certificate or the exemption (or reduced rate) certificate (or corresponding letter) required by the regulations under the various income tax conventions in effect to which the United States is a party.

(b) *Coupon bond interest.* To secure the reduced rate of, or exemption from, U.S. income tax at source in the case of coupon bond interest, the recipient shall, if entitled to such treatment pursuant to a tax convention, for each issue of bonds file Form 1001 (Ownership, Exemption, or Reduced Rate Certificate) with the withholding agent when presenting the interest coupons for payment. This form shall be completed and signed by either the owner of the interest, his trustee, or his agent, and shall include such information as is required by the form and accompanying instructions. The form shall contain a statement that the owner of the income is entitled to a reduced rate of, or an exemption from, tax pursuant to a tax convention. The Form 1001 shall be retained by the withholding agent for at least 4 years after the close of the calendar year in which the interest is paid.

(c) *Income other than coupon bond interest or dividends.* (1) To secure the reduced rate of, or exemption from, U.S. income tax at source in case of items of income specified in §1.1441–2 other than coupon bond interest and dividends, the recipient shall, if entitled to such treatment pursuant to a tax convention, file Form 1001 (Ownership, Exemption, or Reduced Rate Certificate) with the withholding agent. This form shall be completed and signed by either the owner of the income, his trustee, or his agent, and shall include such information as is required by the form and accompanying instructions. A separate Form 1001 shall be used for each type of income. For this purpose, all income from a trust, estate, or investment account shall be considered as a single type of income. Each form shall also contain a statement that the owner of the income is entitled to a reduced rate of, or exemption from, tax pursuant to a tax convention. If, after filing such form, the owner ceases to be eligible for the benefits of the tax convention for such income, he shall promptly notify the withholding agent by letter. Form 1001 shall not be used to secure a reduced rate of, or exemption from, withholding on independent personal services income. See §1.1441–4(b)(2).

(2) Form 1001 shall be effective for the successive 3-calendar-year period during which the income to which the form applies is paid. Each such form filed with any withholding agent shall be filed as soon as practicable. Once a form has been filed for a type of income (other than coupon bond interest) with respect to such a 3-year period, no additional Form 1001 for such income need be filed with respect to such period unless the Commissioner of Internal Revenue notifies the withholding agent that the taxpayer shall file another form. If any change occurs in the ownership of income subject to a Form 1001 recorded on the books of the withholding agent, the Form 1001 shall no longer be effective. The Form 1001 shall be retained by the withholding agent for at least 4 years after the end of the last calendar year in which income subject to the form is paid.

(3) Form 1001 need not be filed with respect to payments (other than payments of coupon bond interest) made prior to December 31, 1974, if an exemption (or reduced rate) certificate (or corresponding letter) required by the regulations under the applicable income tax convention has been filed with respect to such payments prior to December 31, 1971.

(d) *Section 6013(g) election.* A nonresident alien individual with respect to whom a section 6013(g) election to be treated as a resident is in effect may not, in accordance with §1.6013–6(a)(2)(v), claim a reduced rate of, or exemption from, United States income tax under an income tax treaty.

(Approved by the Office of Management and Budget under control number 1545–0795)

(Secs. 1441(c)(4) (80 Stat. 1553; 26 U.S.C. 1441(c)(4)), 3401(a)(6) (80 Stat. 1554; 26 U.S.C. 3401(a)(6)), and 7805 (68A Stat. 917; 26 U.S.C. 7805) of the Internal Revenue Code of 1954)

[T.D. 7157, 36 FR 25227, Dec. 30, 1971, as amended by T.D. 7842, 47 FR 49842, Nov. 3, 1982; T.D. 7977, 49 FR 36834, Sept. 20, 1984]

§1.1441–7 General provisions relating to withholding agents.

(a) *Withholding agent defined.* For purposes of chapter 3 of the Internal Revenue Code (Code) and the regulations under such chapter, the term *withholding agent* means any person, U.S. or foreign, that has the control, receipt, custody, disposal, or payment of an item of income of a foreign person subject to withholding, including (but not limited to) a foreign intermediary described in §1.1441–1(e)(3)(i), a foreign partnership, or a U.S. branch described in §1.1441–1(b)(2)(iv) (A) or (E). See §1.1441–1(b) (1) and (2) for determining whether a payment is considered made to a foreign person. Any person who meets the definition of a withholding agent is required to deposit any tax withheld under §1.1461–1(a) and to make the returns prescribed by §1.1461–1 (b) and (c), as modified by the terms of an agreement with a qualified intermediary (in the case of a qualified intermediary) or, in the case of a foreign partnership, to make the returns prescribed under section 6031 and the regulations thereunder. When several persons qualify as withholding agents with respect to a single payment, only one tax is required to be withheld and, generally, only one return (on Form 1042, as required under §1.1461–1(b)), is required to be made. See §1.1461–1(b)(2) and (c)(4) for filing procedures when multiple withholding agents are involved. In the case of a withholding agent paying to partners of a withholding foreign partnership described in §1.1441–5(c)(2)(i), the withholding agent may arrange with the partnership to withhold if it is provided the information by the partnership, in which case the partnership does not have to withhold. However, the partnership must still file a partnership return under section 6031(a) and the regulations under that section. The withholding agent does not have to file Forms 1042–S (but does have to file a Form 1042) since the withholding foreign partnership furnishes Forms K–1 to its partners pursuant to section 6031(b) and §1.6031(b)–1T. For purposes of this section and any requirement to withhold under chapter 3 of the Code and the regulations thereunder, a person who, as a nominee described in §1.6031(c)–1T, has furnished to a partnership all of the information required to be furnished under §1.6031(c)–1T(a) shall not be treated as a withholding agent if it has notified the partnership that it is treating the provision of information to the partnership as a discharge of its obligations as a withholding agent.

(b) *Standards of knowledge*—(1) *In general.* A withholding agent must withhold at the full 30-percent rate under section 1441, 1442, or 1443(a) or at the full 4-percent rate under section 1443(b) if it has actual knowledge or reason to know that a claim of U.S. status or of a reduced rate of withholding under section 1441, 1442, or 1443 is incorrect. A withholding agent shall be liable for tax, interest, and penalties to the extent provided under sections 1461 and 1463 and the regulations under those sections if it fails to withhold the correct amount despite its actual knowledge or reason to know the amount required to be withheld. For purposes of the regulations under sections 1441, 1442, and 1443, a withholding agent may rely on information or certifications contained in, or attached to, a withholding certificate or other documentation furnished by or for a beneficial owner or payee unless the withholding agent has actual knowledge or reason to know that the information or certifications are not correct and, if based on such knowledge or reason to know, it should withhold (under chapter 3 of the Code or another withholding provision of the Code) an amount greater than would be the case if it relied on the information or certifications, or it should report (under chapter 3 of the Code or under another provision of the Code) an amount that would not otherwise be reportable if it relied on the information or certifications. See §1.1441–1(e)(4)(viii) for applicable reliance rules. A withholding agent that has received notification by the Internal Revenue Service (IRS) that a claim of U.S. status or of a reduced rate is incorrect has actual knowledge beginning on the date that is 30 calendar days after the date the notice is received. A withholding agent that fails to act in accordance with the presumptions set forth in §§1.1441–1(b)(3), 1.1441–4(a), 1.1441–5 (d) and (e), or 1.1441–9(b)(3) may also be liable for tax, interest, and penalties. See §1.1441–1(b)(3)(ix) and (7).

(2) *Reason to know*—(i) *In general.* A withholding agent shall be considered to have reason to know if its knowledge of relevant facts or statements contained in the withholding certificates or other documentation is such that a reasonably prudent person in the position of the withholding agent would question the claims made.

(ii) *Limits on reason to know in certain cases.* Except as otherwise provided in paragraph (b)(3) of this section, a withholding agent that is a financial institution (including a regulated investment company) with which a customer may open an account has a reason to know with respect to payments of amounts described in §1.1441–6(b)(2)(ii) that a beneficial owner withholding certificate or documentary evidence for a beneficial owner is not reliable only if any one or more of the circumstances described in this paragraph (b)(2)(ii) exist for a withholding certificate. In such a case, the withholding agent may require a new withholding certificate. In the absence of a new certificate, a withholding agent may rely on the withholding certificate only after documentation is provided in support of the claim of foreign status, classification, or reduced rate of tax under a tax treaty.

(A) The permanent residence address on the withholding certificate is an address in the United States. In the case of an individual, trust, or estate, the withholding agent may rely on information in its files that is less than three years old and that supports the beneficial owner's claim of foreign status, despite a U.S. address (for example, a bank has evidence of the diplomatic status of a customer). In the absence of evidence in the withholding agent's files, the agent meets its due diligence obligation for purposes of this paragraph (b)(2)(ii)(A) if it contacts the beneficial owner or its agent in the United States and obtains an explanation in writing supporting the foreign status of the beneficial owner (for example, the beneficial owner is a nonresident alien individual temporarily present in the United States as a teacher; see § 301.7701(b)–3(b)(3) of this chapter) and documentation supporting the claim of foreign status is attached to the beneficial owner's statement (for example, in the case of a nonresident alien individual teacher, a copy of the relevant pages of the beneficial owner's passport showing the individual's U.S. visa status or a copy of relevant INS documents). In the case of a beneficial owner other than an individual, trust, or estate, the withholding agent must inquire as to whether the person whose name is on the certificate is actually organized or created under the laws of a foreign country.

(B) The payment is directed to a P.O. Box, an in-care-of address, or a U.S. address. In the case of an individual, the withholding agent may rely, for example, on documentary evidence of a type described in § 1.1441–6(c) (3) or (4) supporting the beneficial owner's claim of residence in a foreign country to ascertain that the individual is a nonresident alien individual. In the case of a person other than an individual, the withholding agent may rely on other evidence to ascertain that the person whose name is on the certificate is not a U.S. person.

(C) In the case of income for which benefits are claimed under an income tax treaty, the permanent residence address or mailing address is not in the corresponding treaty country. In such a case, the withholding agent may rely, for example, on documentary evidence of a type described in § 1.1441–6(c) (3) or (4) supporting the beneficial owner's claim of residence in the country whose benefits under an income tax treaty with the United States are invoked.

(D) The mailing address on the withholding certificate is in the United States or the beneficial owner notifies the withholding agent of a new address for mailing or residential purposes that is in the United States, a P.O. box, or an in-care-address, or, in the case of income for which benefits are claimed under an income tax treaty, the mailing address on the certificate or the new mailing or residential address notified to the withholding agent is not in the treaty country. The withholding agent may, however, rely on documentary evidence of a type described in § 1.1441–6(c) (3) or (4) supporting the beneficial owner's claim of residence in a foreign country.

(E) The name of the person on the withholding certificate or documentary evidence indicates that the person's status is a corporation, partnership, trust, estate, or an individual, and the person's claim of status is not consistent with such indication. For example, a person whose name indicates that it is a per se corporation described in § 301.7701–2(b)(8)(i) of this chapter represents on a Form W–8 that it is a partnership.

(F) Such other circumstances as the IRS may prescribe in published guidance (see § 601.601(d)(2) of this chapter).

(3) *Coordinated account information systems.* See § 1.1441–1(e)(4)(ix) for application of these rules other than on an account-by-account basis so that a withholding agent that relies on a coordinated account information system for documentation is considered to know or have reason to know the facts recorded in the system.

(c) *Authorized agent*—(1) *In general.* The acts of an agent of a withholding agent (including the receipt of withholding certificates, the payment of amounts of income subject to withholding, and the deposit of tax withheld) are imputed to the withholding agent on whose behalf it is acting. However, if the agent is a foreign person, a withholding agent that is a U.S. person may treat the acts of the foreign agent as its own for purposes of determining whether it has complied with the provisions of this section, but only if the agent is an authorized foreign agent, as defined in paragraph (c)(2) of this section. An authorized foreign agent cannot apply the provisions of this paragraph (c) to appoint another person its authorized foreign agent with respect to the payments it receives from the withholding agent.

(2) *Authorized foreign agent.* An agent is an authorized foreign agent only if—

(i) There is a written agreement between the withholding agent and the foreign person acting as agent;

(ii) The notification procedures described in paragraph (c)(3) of this section have been complied with;

(iii) Books and records and relevant personnel of the foreign agent are available (on a continuous basis, including after termination of the relationship) for examination by the IRS in order to evaluate the withholding agent's compliance with the provisions of chapters 3 and 61 of the Code, section 3406, and the regulations under those provisions; and

(iv) The U.S. withholding agent remains fully liable for the acts of its agent and does not assert any of the defenses that may otherwise be available, including under common law principles of agency in order to avoid tax liability under the Internal Revenue Code.

(3) *Notification.* A withholding agent that appoints an authorized agent to act on its behalf for purposes of §1.871–14(c)(2), the withholding provisions of chapter 3 of the Code, section 3406 or other withholding provisions of the Internal Revenue Code, or the reporting provisions of chapter 61 of the Code, is required to file notice of such appointment with the Office of the Assistant Commissioner (International). Such notice shall be filed before the first payment for which the authorized agent acts as such. Such notice shall acknowledge the withholding agent liability as provided in paragraph (c)(2)(iv) of this section.

(4) *Liability of U.S. withholding agent.* An authorized foreign agent is subject to the same withholding and reporting obligations that apply to any withholding agent under the provisions of chapter 3 of the Code and the regulations thereunder. In particular, an authorized foreign agent does not benefit from the special procedures or exceptions that may apply to a qualified intermediary. A withholding agent acting through an authorized foreign agent is liable for any failure of the agent, such as failure to withhold an amount or make payment of tax, in the same manner and to the same extent as if the agent's failure had been the failure of the U.S. withholding agent. For this purpose, the foreign agent's actual knowledge or reason to know shall be imputed to the U.S. withholding agent. The U.S. withholding agent's liability shall exist irrespective of the fact that the authorized foreign agent is also a withholding agent and is itself separately liable for failure to comply with the provisions of the regulations under section 1441, 1442, or 1443. However, the same tax, interest, or penalties shall not be collected more than once.

(5) *Filing of returns.* See §1.1461–1(b)(2)(iii) and (c)(4)(iii) regarding returns required to be made where a U.S. withholding agent acts through an authorized foreign agent.

(d) *United States obligations.* If the United States is a withholding agent for an item of interest, including original issue discount, on obligations of the United States or of any agency or instrumentality thereof, the withholding obligation of the United States is assumed and discharged by—

(1) The Commissioner of the Public Debt, for interest paid by checks issued through the Bureau of the Public Debt;

(2) The Treasurer of the United States, for interest paid by him or her, whether by check or otherwise;

(3) Each Federal Reserve Bank, for interest paid by it, whether by check or otherwise; or

(4) Such other person as may be designated by the IRS.

(e) *Assumed obligations.* If, in connection with the sale of a corporation's property, payment on the bonds or other obligations of the corporation is assumed by a person, then that person shall be a withholding agent to the extent amounts subject to withholding are paid to a foreign person. Thus, the person shall withhold such amounts under § 1.1441–1 as would be required to be withheld by the seller or corporation had no such sale or assumption been made.

(f) *Conduit financing arrangements*—(1) *Liability of withholding agent.* Subject to paragraph (f)(2) of this section, any person that is required to deduct and withhold tax under § 1.1441–3(g) is made liable for that tax by section 1461. A person that is required to deduct and withhold tax but fails to do so is liable for the payment of the tax and any applicable penalties and interest.

(2) *Exception for withholding agents that do not know of conduit financing arrangement*—(i) *In general.* A withholding agent will not be liable under paragraph (f)(1) of this section for failing to deduct and withhold with respect to a conduit financing arrangement unless the person knows or has reason to know that the financing arrangement is a conduit financing arrangement. This standard shall be satisfied if the withholding agent knows or has reason to know of facts sufficient to establish that the financing arrangement is a conduit financing arrangement, including facts sufficient to establish that the participation of the intermediate entity in the financing arrangement is pursuant to a tax avoidance plan. A withholding agent that knows only of the financing transactions that comprise the financing arrangement will not be considered to know or have reason to know of facts sufficient to establish that the financing arrangement is a conduit financing arrangement.

(ii) *Examples.* The following examples illustrate the operation of paragraph (d)(2) of this section.

Example 1. (i) DS is a U.S. subsidiary of FP, a corporation organized in Country N, a country that does not have an income tax treaty with the United States. FS is a special purpose subsidiary of FP that is incorporated in Country T, a country that has an income tax treaty with the United States that prohibits the imposition of withholding tax on payments of interest. FS is capitalized with $10,000,000 in debt from BK, a Country N bank, and $1,000,000 in capital from FS.

(ii) On May 1, 1995, C, a U.S. person, purchases an automobile from DS in return for an installment note. On July 1, 1995, DS sells a number of installment notes, including C's, to FS in exchange for $10,000,000. DS continues to service the installment notes for FS and C is not notified of the sale of its obligation and continues to make payments to DS. But for the withholding tax on payments of interest by DS to BK, DS would have borrowed directly from BK, pledging the installment notes as collateral.

(iii) The C installment note is a financing transaction, whether held by DS or by FS, and the FS note held by BK also is a financing transaction. After FS purchases the installment note, and during the time the installment note is held by FS, the transactions constitute a financing arrangement, within the meaning of § 1.881–3(a)(2)(i). BK is the financing entity, FS is the intermediate entity, and C is the financed entity. Because the participation of FS in the financing arrangement reduces the tax imposed by section 881 and because there was a tax avoidance plan, FS is a conduit entity.

(iv) Because C does not know or have reason to know of the tax avoidance plan (and by extension that the financing arrangement is a conduit financing arrangement), C is not required to withhold tax under section 1441. However, DS, who knows that FS's participation in the financing arrangement is pursuant to a tax avoidance plan and is a withholding agent for purposes of section 1441, is not relieved of its withholding responsibilities.

Example 2. Assume the same facts as in *Example, 1* except that C receives a new payment booklet on which DS is described as ''agent''. Although C may deduce that its installment note has been sold, without more C has no reason to know of the existence of a financing arrangement. Accordingly, C is not liable for failure to withhold, although DS still is not relieved of its withholding responsibilities.

Example 3. (i) DC is a U.S. corporation that is in the process of negotiating a loan of $10,000,000 from BK1, a bank located in Country N, a country that does not have an income tax treaty with the United States. Before the loan agreement is signed, DC's tax lawyers point out that interest on the loan would not be subject to withholding tax if the loan were made by BK2, a subsidiary of BK1 that is incorporated in Country T, a country that has an income tax treaty with the United States that prohibits the imposition of withholding tax on payments of interest. BK1 makes a loan to BK2 to enable BK2 to make the loan to DC. Without the loan from BK1 to BK2, BK2 would not have been able to make the loan to DC.

(ii) The loan from BK1 to BK2 and the loan from BK2 to DC are both financing transactions and together constitute a financing arrangement within the meaning of §1.881–3(a)(2)(i). BK1 is the financing entity, BK2 is the intermediate entity, and DC is the financed entity. Because the participation of BK2 in the financing arrangement reduces the tax imposed by section 881 and because there is a tax avoidance plan, BK2 is a conduit entity.

(iii) Because DC is a party to the tax avoidance plan (and accordingly knows of its existence), DC must withhold tax under section 1441. If DC does not withhold tax on its payment of interest, BK2, a party to the plan and a withholding agent for purposes of section 1441, must withhold tax as required by section 1441.

Example 4. (i) DC is a U.S. corporation that has a long-standing banking relationship with BK2, a U.S. subsidiary of BK1, a bank incorporated in Country N, a country that does not have an income tax treaty with the United States. DC has borrowed amounts of as much as $75,000,000 from BK2 in the past. On January 1, 1995, DC asks to borrow $50,000,000 from BK2. BK2 does not have the funds available to make a loan of that size. BK2 considers asking BK1 to enter into a loan with DC but rejects this possibility because of the additional withholding tax that would be incurred. Accordingly, BK2 borrows the necessary amount from BK1 with the intention of on-lending to DC. BK1 does not make the loan directly to DC because of the withholding tax that would apply to payments of interest from DC to BK1. DC does not negotiate with BK1 and has no reason to know that BK1 was the source of the loan.

(ii) The loan from BK2 to DC and the loan from BK1 to BK2 are both financing transactions and together constitute a financing arrangement within the meaning of §1.881–3(a)(2)(i). BK1 is the financing entity, BK2 is the intermediate entity, and DC is the financed entity. The participation of BK2 in the financing arrangement reduces the tax imposed by section 881. Because the participation of BK2 in the financing arrangement reduces the tax imposed by section 881 and because there was a tax avoidance plan, BK2 is a conduit entity.

(iii) Because DC does not know or have reason to know of the tax avoidance plan (and by extension that the financing arrangement is a conduit financing arrangement), DC is not required to withhold tax under section 1441. However, BK2, who is also a withholding agent under section 1441 and who knows that the financing arrangement is a conduit financing arrangement, is not relieved of its withholding responsibilities.

(3) *Effective date.* This paragraph (f) is effective for payments made by financed entities on or after September 11, 1995. This paragraph shall not apply to interest payments covered by section 127(g)(3) of the Tax Reform Act of 1984, and to interest payments with respect to other debt obligations issued prior to October 15, 1984 (whether or not such debt was issued by a Netherlands Antilles corporation).

(g) *Effective date.* Except as otherwise provided in paragraph (f)(3) of this section, this section applies to payments made after December 31, 1999.

[T.D. 7977, 49 FR 36834, Sept. 20, 1984, as amended by T.D. 8611, 60 FR 41014, Aug. 11, 1995; 60 FR 55312, Oct. 31, 1995; T.D. 8734, 62 FR 53462, Oct. 14, 1997; T.D. 8804, 63 FR 72188, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53462, Oct. 14, 1997, §1.1441–7 was amended by revising paragraphs (a) through (c); by redesignating paragraph (d) as paragraph (f); by adding new paragraphs (d), (e), and (g); by removing the language ‘‘(j)’’ and inserting ‘‘(g)’’ in the first sentence of newly designated paragraph (f)(1); by removing the language ‘‘(d)’’ and inserting ’’(f)’’ in the first sentence of newly designated paragraph (f)(1), in the first sentence of newly designated paragraph (f)(2)(i), and in the first sentence of newly designated paragraph (f)(3); and by removing the authority citation at the end of the section, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1441–7 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§1.1441–7 General provisions relating to withholding agents.

(a) *Withholding agent defined*—(1) *In general.* For purposes of Chapter 3 of the Code, the term ‘‘withholding agent’’ means any person who pays or causes to be paid an item of income specified in §1.1441–2 to (or to the agent of) a nonresident alien individual, a foreign partnership, a nonresident alien or foreign fiduciary of a trust or estate, or a foreign corporation, and who is required to withhold tax under sections 1441, 1442, 1443, or 1451 from such item of income. Any person who meets the definition of a withholding agent is required to file the returns prescribed by §1.1461–1. For example, an employer (as defined in §31.3401(d)–1 of this chapter), to the extent the employer pays remuneration for services performed by a nonresident alien individual in the United States and such remuneration is excepted from the term ‘‘wages’’ under § 31.3401(a)(6)–(1) (c) or (e) of this chapter, must file a return as required by § 1.1461–2(c)(1).

(2) *United States obligations.* If the United States is a withholding agent for an item of interest, including original issue discount, on obligations of the United States or of any agency or instrumentality thereof, the withholding obligation of the United States shall be assumed and discharged by:

(i) The Commissioner of the Public Debt, for interest paid by checks issued through the Bureau of the Public Debt.

(ii) The Treasurer of the United States, for interest paid by him or her, whether by check or otherwise,

(iii) Each Federal Reserve Bank, for interest paid by it, whether by check or otherwise, or

(iv) Such other person as may be designated by the Commissioner.

(b) *Person designated to act for withholding agent*—(1) *Notice of duly authorized agent.* A withholding agent (including a state or possession of the United States or any agency or instrumentality thereof) that appoints a duly authorized agent to act on its behalf under the withholding provisions of chapter 3 of the Code is required to file a notice of such appointment with the Director of the Foreign Operations District, Internal Revenue Service, Washington, DC 20225. Such notice must be filed before the first payment with respect to which the authorized agent acts as such.

(2) *In general—liability of withholding agent.* If a duly authorized agent has become insolvent or for any other reason fails to make payment of money deposited with it by the withholding agent to pay tax required to be withheld under Chapter 3 of the Code, or of money withheld under such chapter, the withholding agent is not discharged of its liability under such chapter since the authorized agent is merely the agent of the withholding agent.

(3) *Tax-free covenant bonds—liability of withholding agent.* If the duly authorized agent designated by a withholding agent to act for it has not withheld any tax from the income nor received any funds from the withholding agent to pay the tax which the withholding agent assumed in connection with its tax-free covenant bonds, then that authorized agent cannot be held liable for the tax assumed by the withholding agent merely by reason of the appointment as duly authorized agent. The withholding agent remains liable under chapter 3 of the Code since the duly authorized agent is merely the agent of the withholding agent.

(c) *Payments other than money.* In any case where income is payable in any medium other than money the withholding agent shall not release the property so received until the property has been converted into funds sufficient to enable the withholding agent to pay over in money the tax required to be withheld under chapter 3 of the Code with respect to such income.

* * * * *

(Secs. 1441(c)(4) (80 Stat. 1553; 26 U.S.C. 1441(c)(4)), 3401(a)(6) (80 Stat. 1554; 26 U.S.C. 3401(a)(6)), and 7805 (68A Stat. 917; 26 U.S.C. 7805) of the Internal Revenue Code of 1954)

§ 1.1441–8 Exemption from withholding for payments to foreign governments, international organizations, foreign central banks of issue, and the Bank for International Settlements.

(a) *Foreign governments.* Under section 892, certain specific types of income received by foreign governments are excluded from gross income and are exempt from taxation, unless derived from the conduct of a commercial activity or received from or by a controlled commercial entity. Accordingly, withholding is not required under § 1.1441.1 with regard to any item of income which is exempt from taxation under section 892.

(b) *Reliance on claim of exemption by foreign government.* Absent actual knowledge or reason to know otherwise, the withholding agent may rely upon a claim of exemption made by the foreign government if, prior to the payment, the withholding agent can reliably associate the payment with documentation upon which it can rely to treat the payment as made to a beneficial owner in accordance with § 1.1441–1(e)(1)(ii). A Form W–8 furnished by a foreign government for purposes of claiming an exemption under this paragraph (b) is valid only if, in addition to other applicable requirements, it certifies that the income is, or will be, exempt from taxation under section 892 and the regulations under that section and whether the person whose name is on the certificate is an integral part of a foreign government (as defined in § 1.892–2T(a)(2)) or a controlled entity (as defined in § 1.892–2T(a)(3)).

(c) *Income of a foreign central bank of issue or the Bank for International Settlements*—(1) *Certain interest income.* Section 895 provides for the exclusion from gross income of certain income derived by a foreign central bank of issue, or by the Bank for International

Settlements, from obligations of the United States or of any agency or instrumentality thereof or from interest on deposits with persons carrying on the banking business if the bank is the owner of the obligations or deposits and does not hold the obligations or deposits for, or use them in connection with, the conduct of a commercial banking function or other commercial activity by such bank. See §1.895–1. Absent actual knowledge or reason to know that a foreign central bank of issue, or the Bank for International Settlements, is operating outside the scope of the exclusion granted by section 895 and the regulations under that section, the withholding agent may rely on a claim of exemption if, prior to the payment, the withholding agent can reliably associate the payment with documentation upon which it can rely to treat the foreign central bank of issue or the Bank for International Settlements as the beneficial owner of the payment in accordance with §1.1441–1(e)(1)(ii). A Form W–8 furnished by a foreign central bank of issue or the Bank for International Settlements for purposes of claiming an exemption under this paragraph (c)(1) is valid only if, in addition to other applicable requirements, it certifies that the person whose name is on the certificate is a foreign central bank of issue, or the Bank for International Settlements, and that the bank does not, and will not, hold the obligations or the bank deposits covered by the Form W–8 for, or use them in connection with, the conduct of a commercial banking function or other commercial activity.

(2) *Bankers acceptances.* Interest derived by a foreign central bank of issue from bankers acceptances is exempt from tax under sections 871(i)(2)(C) and 881(d) and §1.861–2(b)(4). With respect to bankers' acceptances, a withholding agent may treat a payee as a foreign central bank of issue without requiring a withholding certificate if the name of the payee and other facts surrounding the payment reasonably indicate that the payee or beneficial owner is a foreign central bank of issue, as defined in §1.861–2(b)(4).

(d) *Exemption for payments to international organizations.* A payment to an international organization (within the meaning of section 7701(a)(18)) is exempt from withholding on any payment. A withholding agent may treat a payee as an international organization without requiring a withholding certificate if the name of the payee is one that is designated as an international organization by executive order (pursuant to 22 U.S.C. 288 through 288(f)) and other facts surrounding the transaction reasonably indicate that the international organization is the beneficial owner of the payment.

(e) *Failure to receive withholding certificate timely and other applicable procedures.* See applicable procedures described in §1.1441–1(b)(7) in the event the withholding agent does not hold a valid withholding certificate described in paragraph (b) or (c)(1) of this section or other appropriate documentation at the time of payment. Further, the provisions of §1.1441–1(e)(4) shall apply to withholding certificates and other documents related thereto furnished under the provisions of this section.

(f) *Effective date*—(1) *In general.* This section applies to payments made after December 31, 1999.

(2) *Transition rules.* For purposes of this section, the validity of a Form 8709 that was valid on January 1, 1998, under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) and expired, or will expire, at any time during 1998, is extended until December 31, 1998. The validity of a Form 8709 that is valid on or after January 1, 1999, remains valid until its validity expires under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) or, if earlier, until December 31, 2000. The rule in this paragraph (f)(2), however, does not apply to extend the validity period of a Form 8709 that expires solely by reason of changes in the circumstances of the person whose name is on the certificate. Notwithstanding the first three sentences of this paragraph (f)(2), a withholding agent may choose to not take advantage of the transition rule in this paragraph (f)(2) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) and, therefore, to require

withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998). Further, a new withholding certificate remains valid for the period specified in § 1.1441–1(e)(4)(ii), regardless of when the certificate is obtained.

[T.D. 8211, 53 FR 24066, June 27, 1988, as amended at T.D. 8211, 53 FR 27595, July 21, 1988; Redesignated and amended by T.D. 8734, 62 FR 53464, Oct. 14, 1997; T.D. 8804, 63 FR 72185, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53464, Oct. 14, 1997, § 1.1441–8T was redesignated as § 1.1441–8; the section heading and paragraph (b) were revised; and paragraphs (c), (d), (e), and (f), were added, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1441–8T was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§ 1.1441–8T Foreign government exemption from withholding (temporary).

* * * * *

(b) *Statement claiming exemption.* To avoid withholding of tax at source under § 1.1441–1, a foreign government which is entitled to the income must file with each withholding agent from whom amounts of income are to be received, a statement under penalties of perjury (in duplicate) indicating the extent to which such income described in the statement is exempt from taxation under section 892. This statement should contain (i) the name and address of the foreign government entitled to the income, (ii) the items of income and their amount with respect to which the statement is filed, (iii) an explanation indicating why the specific items of income are exempt from taxation under section 892, and (iv) the taxable year during which such exemption is to apply. This statement shall be filed with the withholding agent for each taxable year the foreign government is entitled to the income, and before payment of the income in respect of which it applies. Any statement so filed shall be effective only with respect to the item or items of income specified therein and only with respect to the types of income specified in § 1.892–3T(a)(1) (i), (ii) or (iii). The statement shall constitute authorization to the withholding agent to pay such income during the taxable year without deduction of the tax at source under § 1.1441–1. Any statement required by this subparagraph may be made on a form prescribed by the Internal Revenue Service.

* * * * *

§ 1.1441–9 Exemption from withholding on exempt income of a foreign tax-exempt organization, including foreign private foundations.

(a) *Exemption from withholding for exempt income.* No withholding is required under section 1441(a) or 1442, and the regulations under those sections, on amounts paid to a foreign organization that is described in section 501(c) to the extent that the amounts are not income includable under section 512 in computing the organization's unrelated business taxable income. See, however, § 1.1443–1 for withholding on payments of unrelated business income to foreign tax-exempt organizations and on payments subject to tax under section 4948. For a foreign organization to claim an exemption from withholding under section 1441(a) or 1442 based on its status as an organization described in section 501(c), it must furnish the withholding agent with a withholding certificate described in paragraph (b)(2) of this section. A foreign organization described in section 501(c) may choose to claim a reduced rate of withholding under the procedures described in other sections of the regulations under section 1441 and not under this section. In particular, if an organization chooses to claim benefits under an income tax treaty, the withholding procedures applicable to claims of such a reduced rate are governed solely by the provisions of § 1.1441–6 and not of this section.

(b) *Reliance on foreign organization's claim of exemption from withholding*—(1) *General rule.* A withholding agent may rely on a claim of exemption under this section only if, prior to the payment, the withholding agent can reliably associate the payment with a valid withholding certificate described in paragraph (b)(2) of this section.

(2) *Withholding certificate.* A withholding certificate under this paragraph (b)(2) is valid only if it is a Form W–8 and if, in addition to other applicable requirements, the Form W–8 includes the taxpayer identifying number

of the organization whose name is on the certificate, and it certifies that the Internal Revenue Service (IRS) has issued a favorable determination letter (and the date thereof) that is currently in effect, what portion, if any, of the amounts paid constitute income includable under section 512 in computing the organization's unrelated business taxable income, and, if the organization is described in section 501(c)(3), whether it is a private foundation described in section 509. Notwithstanding the preceding sentence, if the organization cannot certify that it has been issued a favorable determination letter that is still in effect, its withholding certificate is nevertheless valid under this paragraph (b)(2) if the organization attaches to the withholding certificate an opinion that is acceptable to the withholding agent from a U.S. counsel concluding that the organization is described in section 501(c). If the determination letter or opinion of counsel to which the withholding certificate refers concludes that the organization is described in section 501(c)(3), and the certificate further certifies that the organization is not a private foundation described in section 509, an affidavit of the organization setting forth sufficient facts concerning the operations and support of the organization for the Internal Revenue Service (IRS) to determine that such organization would be likely to qualify as an organization described in section 509(a) (1), (2), (3), or (4) must be attached to the withholding certificate. An organization that provides an opinion of U.S. counsel or an affidavit may provide the same opinion or affidavit to more than one withholding agent provided that the opinion is acceptable to each withholding agent who receives it in conjunction with a withholding certificate. Any such opinion of counsel or affidavit must be renewed whenever the certificate to which it is attached is required to be renewed.

(3) *Presumptions in the absence of documentation.* Notwithstanding paragraph (b)(1) of this section, if the organization's certification with respect to whether amounts paid constitute income includable under section 512 in computing the organization's unrelated business taxable income is not reliable or is lacking but all other certifications are reliable, the withholding agent may rely on the certificate but the amounts paid are presumed to be income includable under section 512 in computing the organization's unrelated business taxable income. If the certification regarding private foundation status is not reliable, the withholding agent may rely on the certificate but the amounts paid are presumed to be paid to a foreign beneficial owner that is a private foundation.

(4) *Reason to know.* Reliance by a withholding agent on the information and certifications stated on a withholding certificate is subject to the agent's actual knowledge or reason to know that such information or certification is incorrect as provided in §1.1441–7(b). For example, a withholding agent must cease to treat a foreign organization's claim for exemption from withholding based on the organization's tax-exempt status as valid beginning on the earlier of the date on which such agent knows that the IRS has given notice to such foreign organization that it is not an organization described in section 501(c) or the date on which the IRS gives notice to the public that such foreign organization is not an organization described in section 501(c). Similarly, a withholding agent may no longer rely on a certification that an amount is not subject to tax under section 4948 beginning on the earlier of the date on which such agent knows that the IRS has given notice to such foreign organization that it is subject to tax under section 4948 or the date on which the IRS gives notice that such foreign organization is a private foundation within the meaning of section 509(a).

(c) *Failure to receive withholding certificate timely and other applicable procedures.* See applicable procedures described in §1.1441–1(b)(7) in the event the withholding agent does not hold a valid withholding certificate or other appropriate documentation at the time of payment. Further, the provisions of §1.1441–1(e)(4) shall apply to withholding certificates and other documents related thereto furnished under the provisions of this section.

(d) *Effective date*—(1) *In general.* This section applies to payments made after December 31, 1999.

(2) *Transition rules.* For purposes of this section, the validity of a Form W–8, 1001, or 4224 or a statement that was valid on January 1, 1998, under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and expired, or will expire, at any time during 1998, is extended until December 31, 1998. The validity of a Form W–8, 1001, or 4224 or a statement that is valid on or after January 1, 1999 remains valid until its validity expires under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) or, if earlier, until December 31, 2000. The rule in this paragraph (d)(2), however, does not apply to extend the validity period of a Form W–8, 1001, or 4224 or a statement that expires solely by reason of changes in the circumstances of the person whose name is on the certificate. Notwithstanding the first three sentences of this paragraph (d)(2), a withholding agent may choose to not take advantage of the transition rule in this paragraph (d)(2) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998) and, therefore, to require withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR parts 1 and 35a, revised April 1, 1998). Further, a new withholding certificate remains valid for the period specified in § 1.1441–1(e)(4)(ii), regardless of when the certificate is obtained.

[T.D. 8734, 62 FR 53465, Oct. 14, 1997, as amended by T.D. 8804, 63 FR 72185, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53465, Oct. 14, 1997, § 1.1441–9 was added, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1441–9 was delayed until Jan. 1, 2000.

§ 1.1442–1 Withholding of tax on foreign corporations.

For regulations concerning the withholding of tax at source under section 1442 in the case of foreign corporations, foreign governments, international organizations, foreign tax-exempt corporations, or foreign private foundations, see §§ 1.1441–1 through 1.1441–9.

[T.D. 8734, 62 FR 53466, Oct. 14, 1997]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53466, Oct. 14, 1997, § 1.1442–1 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1442–1 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§ 1.1442–1 Withholding of tax on foreign corporations.

For regulations respecting the withholding of tax at source under section 1442 in the case of foreign corporations, see §§ 1.1441–1 and 1.1451–1.

[T.D. 6908, 31 FR 16773, Dec. 31, 1966]

§ 1.1442–2 Exemption under a tax treaty.

For regulations providing for a claim of reduced withholding tax under section 1442 by certain foreign corporations pursuant to the provisions of an income tax treaty, see § 1.1441–6.

[T.D. 8734, 62 FR 53466, Oct. 14, 1997]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53466, Oct. 14, 1997, § 1.1442–2 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1442–2 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§ 1.1442–2 Exemption from withholding of tax on foreign corporations.

For regulations exempting certain foreign corporations from the withholding requirements of section 1442 in a case where an undue administrative burden is imposed, see paragraph (f) of § 1.1441–4.

[T.D. 6908, 31 FR 16773, Dec. 31, 1966]

§ 1.1442–3 Tax exempt income of a foreign tax-exempt corporations.

For regulations providing for a claim of exemption for income exempt from tax under section 501(a) of a foreign tax-exempt corporation, see § 1.1441–9. See § 1.1443–1 for withholding rules applicable to foreign private foundations and to the unrelated business income of foreign tax-exempt organizations.

[T.D. 8734, 62 FR 53466, Oct. 14, 1997]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53466, Oct. 14, 1997, §1.1442–3 was added, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1442–3 was delayed until Jan. 1, 2000.

§1.1443–1 Foreign tax-exempt organizations.

(a) *Income includible under section 512 in computing unrelated business taxable income.* In the case of a foreign organization that is described in section 501(c), amounts paid to the organization includible under section 512 in computing the organization's unrelated business taxable income are subject to withholding under §§1.1441–1, 1.1441–4, and 1.1441–6 in the same manner as payments of the same amounts to any foreign person that is not a tax-exempt organization. Therefore, a foreign organization receiving amounts includible under section 512 in computing the organization's unrelated business taxable income may claim an exemption from withholding or a reduced rate of withholding with respect to that income in the same manner as a foreign person that is not a tax-exempt organization. See §1.1441–9(b)(3) for presumption that amounts are includible under section 512 in computing the organization's unrelated business taxable income in the absence of a reliable certification.

(b) *Income subject to tax under section 4948*—(1) *In general.* The gross investment income (as defined in section 4940(c)(2)) of a foreign private foundation is subject to withholding under section 1443(b) at the rate of 4 percent to the extent that the income is from sources within the United States and is subject to the tax imposed by section 4948(a) and the regulations under that section. Withholding under this paragraph (b) is required irrespective of the fact that the income may be effectively connected with the conduct of a trade or business in the United States by the foreign organization. See §1.1441–9(b)(3) for applicable presumptions that amounts are subject to tax under section 4948. The withholding imposed under this paragraph (b)(1) does not obviate a private foundation's obligation to file any return required by law with respect to such organization, such as the form that the foundation is required to file under section 6033 for the taxable year.

(2) *Reliance on a foreign organization's claim of foreign private foundation status.* For reliance by a withholding agent on a foreign organization's claim of foreign private foundation status, see §1.1441–9 (b) and (c).

(3) *Applicable procedures.* A withholding agent withholding the 4-percent amount pursuant to paragraph (b)(1) of this section shall treat such withholding as withholding under section 1441(a) or 1442(a) for all purposes, including reporting of the payment on a Form 1042 and a Form 1042–S pursuant to §1.1461–1 (b) and (c). Similarly, the foreign private foundation shall treat the 4-percent withholding as withholding under section 1441(a) or 1442(a), including for purposes of claims for refunds and credits.

(4) *Claim of benefits under an income tax treaty.* The withholding procedures applicable to claims of a reduced rate under an income tax treaty are governed solely by the provisions of §1.1441–6 and not by this section.

(c) *Effective date*—(1) *In general.* This section applies to payments made after December 31, 1999.

(2) *Transition rules.* For purposes of this section, the validity of an affidavit or opinion of counsel described in §1.1443–1(b)(4)(i) in effect prior to January 1, 2000 (see §1.1443–1(b)(4)(i) as contained in 26 CFR part 1, revised April 1, 1998) that is valid on December 31, 1998 is extended until December 31, 2000. However, a withholding agent may choose to not take advantage of the transition rule in this paragraph (c)(2) with respect to one or more withholding certificates valid under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998) and, therefore, to require withholding certificates conforming to the requirements described in this section (new withholding certificates). For purposes of this section, a new withholding certificate is deemed to satisfy the documentation requirement under the regulations in effect prior to January 1, 2000 (see 26 CFR part 1, revised April 1, 1998). Further, a new withholding certificate remains valid for

the period specified in § 1.1441–1(e)(4)(ii), regardless of when the certificate is obtained.

[T.D. 8734, 62 FR 53466, Oct. 14, 1997, as amended by T.D. 8804, 63 FR 72186, Dec. 31, 1998]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53466, Oct. 14, 1997, § 1.1443–1 was revised, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of § 1.1443–1 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§ 1.1443–1 Foreign tax-exempt organizations.

(a) *Income subject to section 511*—(1) *Taxable years beginning after December 31, 1966, and before January 1, 1970.* In the case of a foreign tax-exempt organization which is subject to the tax imposed by section 511, any rents paid to such organization in a taxable year beginning after December 31, 1966, and before January 1, 1970, which are includible under section 512 in determining its unrelated business taxable income, shall not be subject to withholding under § 1.1441–1. See paragraph (a)(2) of § 1.1441–4 for rules for claiming the exemption from withholding in the case of such rents.

(2) *Taxable years beginning after December 31, 1969.* In the case of a foreign tax-exempt organization which is subject to the tax imposed by section 511, any income received by such organization in a taxable year beginning after December 31, 1969, which is includible under section 512 in determining its unrelated business taxable income, shall be subject to withholding under § 1.1441–1 unless such income is, or may be expected to be, effectively connected with the conduct of a trade or business within the United States. See paragraph (a)(2) of § 1.1441–4 for rules for claiming the exemption from withholding in the case of such income.

(b) *Income subject to section 4948*— (1) *In general*—(i) *Application of withholding provisions.* Except as provided in subdivision (ii) of this subparagraph, in the case of a foreign private foundation which is subject to the tax imposed by section 4948(a) and the regulations thereunder, the withholding provisions of chapter 3 of the Code and the regulations thereunder shall apply with respect to the gross investment income (as defined in section 4940(c)(2)) of such foundation from sources within the United States (within the meaning of section 861 and the regulations thereunder) as if the excise tax imposed by section 4948(a) were a tax imposed by chapter 3 of the Code, except that the deduction and withholding shall be at the rate of 4 percent. The withholding requirements imposed by this paragraph are in addition to the requirements otherwise applicable to a withholding agent, such as the depositary requirements of section 6302 and the regulations thereunder. Similarly, the requirements of this paragraph do not obviate a private foundation's obligation to file any return required by law with respect to such an organization, such as the form the foundation is required to file under section 6033 for the taxable year.

(ii) *Special rule with respect to certain tax treaties.* Whenever there exists a tax treaty between the United States and a foreign country, and a foreign private foundation which is subject to the tax imposed by section 4948(a) and the regulations thereunder is a resident of such country or is otherwise entitled to the benefits of such treaty (whether or not such benefits are available to all residents), if the treaty provides that any item or items (or all items with respect to an organization exempt from income taxation) of gross investment income (within the meaning of section 4940(c)(2)) shall be exempt from income tax, the withholding provisions of chapter 3 of the Code and the regulations thereunder shall not apply to such item or items.

(2) *Return on Form 1042.* Every withholding agent required to deduct and withhold any amount by virtue of the provisions of this paragraph shall make a return of the amount required to be deducted and withheld by completing and filing a Form 1042 with the Internal Revenue Service in accordance with the instructions accompanying that form and submitting the balance due (if any). In addition, in any case in which any amount is so withheld, the withholding agent shall prepare and submit to the foreign private foundation one of the copies of the Form 1042S showing the tax withheld under this paragraph in addition to any tax otherwise shown on such form.

(3) *Claims for refund and credits.* Claims for refund of or credit for amounts overpaid shall be made on a Form 843 or 1042 or other appropriate form, which shall be filed with the Mid-Atlantic Service Center on or after January 1, 1973. Claims filed prior to January 1, 1973, shall be filed with the Director of International Operations. In determining whether a claim for refund is appropriate and, if appropriate, who should make the claim, the provisions of section 1464 and the regulations thereunder shall apply.

(4) *Identification of foreign private foundations; general rule.* (i) Except as provided in subparagraph (6) of this paragraph, where a foreign organization does not have a ruling or determination letter that it is an organization described in section 509(a) (1), (2), (3), or (4), any person required under section 1443(b) and this paragraph to deduct and withhold any tax imposed by section 4948(a) on such foreign organization (if it were a private foundation) shall not be liable for such tax if prior to the day on which the person deposits or pays to the Internal Revenue

Service any amount required to be withheld, such person has made a good faith determination that the foreign organization is an organization described in section 509(a) (1), (2), (3), or (4). For purposes of this subdivision, such a ‘‘good faith determination’’ ordinarily will be considered as made where the determination is based on an affidavit of the foreign organization or an opinion of counsel (of the withholding agent or the foreign organization) that the foreign organization is an organization described in section 509(a) (1), (2), (3), or (4). Such an affidavit or opinion must set forth sufficient facts concerning the operations and support of the foreign organization for the Internal Revenue Service to determine that such organization would be likely to qualify as an organization described in section 509(a) (1), (2), (3), or (4).

(ii) For special transitional rules relating to the identification of foreign private foundations, see subparagraph (5) of this paragraph.

(iii) Nothing in this paragraph relieves any foreign private foundation of the liability for the tax (including interest and penalties) imposed by section 4948(a).

(5) *Special transitional rules relating to identification of foreign private foundations.* (i) Any person required under section 1443(b) and this paragraph to deduct and withhold any tax imposed by section 4948(a) on any foreign organization for any period after December 31, 1969, and before the 90th day after publication of final regulations under section 508 in the FEDERAL REGISTER shall not be liable for such tax if such person receives a certified statement from the foreign organization prior to the day on which the person deposits or pays to the Internal Revenue Service any amount required to be withheld stating that either:

(a) Such foreign organization has properly filed the notice described in section 508(b) and the regulations thereunder and has not been notified by the Commissioner or his delegate by the 30th day after the day on which the notice is filed that such notice has failed to establish that such foreign organization is not a private foundation, or

(b) The presumption contained in section 508(b) does not apply to such foreign organization by reason of section 508(c) and the regulations thereunder.

(ii) If a certified statement described in subdivision (i) of this subparagraph is not received prior to the day on which a deposit or payment of any amount withheld in accordance with the provisions of this paragraph must be made by any person required to deduct and withhold any tax imposed by section 4948(a) with respect to any foreign organization, except as provided in subparagraph (4) of this paragraph such person shall be liable for all such tax imposed (including interest and penalties) for the period being returned by such person on Form 1042, to the extent that such person incurs liability to the foreign organization for gross investment income, as defined in section 4940(c)(2).

(iii) Any foreign organization to which section 508 by reason of section 4948(b) does not apply because such organization has received substantially all of its support (other than gross investment income, as defined in section 4940(c)(2)) from sources outside the United States may nevertheless receive the benefits of subdivision (i) of this subparagraph by following the procedure set forth in such subdivision.

(6) *Effect of notice by Internal Revenue Service concerning organization's statement.* Subparagraphs (4) and (5) of this paragraph shall have no effect with respect to a withholding agent as to a particular foreign organization on or after the earlier (i) the date on which such agent acquires knowledge that the Internal Revenue Service has given notice to such foreign organization that its notice or statement has failed to establish that it is not a private foundation, (ii) the date on which the Internal Revenue Service makes notice to the public that such foreign organization has failed to establish that it is not a private foundation, or (iii) the date on which the Internal Revenue Service makes notice to the public that such foreign organization is a private foundation.

[T.D. 7229, 37 FR 28157, Dec. 21, 1972, as amended by T.D. 7247, 38 FR 767, Jan. 4, 1973]

§1.1445–1 Withholding on dispositions of U.S. real property interests by foreign persons: In general.

(a) *Purpose and scope of regulations.* These regulations set forth rules relating to the withholding requirements of section 1445. In general, section 1445(a) provides that any person who acquires a U.S. real property interest from a foreign person must withhold a tax of 10 percent from the amount realized by the transferor foreign person (or a lesser amount established by agreement with the Internal Revenue Service). Section 1445(e) provides special rules requiring withholding on distributions and certain other transactions by corporations, partnerships, trusts, and estates. This §1.1445–1 provides general rules concerning the withholding requirement of sections 1445(a), as well as definitions applicable under both section 1445(a) and 1445(e). Section 1.1445–2 provides for various situations in which withholding is not required under section 1445(a). Section 1.1445–3 provides for adjustments to the amount required to be withheld by transferees under section 1445(a). Section 1.1445–4 prescribes the duties of agents in transactions subject to withholding under either section 1445(a) or 1445(e). Section 1.1445–5 provides rules concerning the withholding required under section 1445(e), while § 1.1445–6 provides for adjustments to the amount required to be withheld under section 1445(e). Finally, § 1.1445–7 provides rules concerning the treatment of a foreign corporation that has made an election under section 897(i) to be treated as a domestic corporation.

(b) *Duty to withhold*—(1) *In general.* Transferees of U.S. real property interests are required to deduct and withhold a tax equal to 10 percent of the amount realized by the transferor, if the transferor is a foreign person and the disposition takes place on or after January 1, 1985. Neither the transferee's duty to withhold nor the amount required to be withheld is affected by the amount of cash to be paid by the transferee. Amounts withheld must be reported and paid over in accordance with the requirements of paragraph (c) of this section. Failures to withhold and pay over are subject to the liabilities set forth in paragraph (e) of this section. If two or more persons are joint transferees of a U.S. real property interest, each such person is subject to the obligation to withhold. That obligation is fulfilled with respect to each such person if any one of them withholds and pays over the required amount in accordance with the rules of this section. If the amount realized (as defined in paragraph (g)(5) of this section) by the transferor is zero, then no withholding is required. For example, if a real property interest is transferred as a gift (i.e, the recipient does not assume any liabilities or furnish any other consideration to the transferor) then no withholding is required. Withholding is not required with respect to dispositions that takes place before January 1, 1985, even if the first payment of consideration is made after December 31, 1984.

(2) *U.S. real property interest owned jointly by foreign and non-foreign transferors.* The amount subject to withholding under paragraph (b)(1) of this section with respect to the transfer of a U.S. real property interest owned by one or more foreign persons (as defined in § 1.897–1(k)) and one or more non-foreign persons shall be determined by allocating the amount realized from the transfer between (or among) such transferors based upon the capital contribution of each transferor with respect to the property and by aggregating the amounts allocated to any foreign person (or persons). For this purpose, a husband and wife will each be deemed to have contributed 50 percent of the aggregate capital contributed by such husband and wife. See § 1.1445–1(f)(3)(iv) with respect to the crediting of the amount withheld between or among joint foreign transferors.

(3) *Options to acquire a U.S. real property interest*—(i) *No withholding on grant of option.* No withholding is required under section 1445 with respect to any amount realized by the grantor on the grant of an option to acquire a U.S. real property interest.

(ii) *No withholding upon lapse of option.* No withholding is required under section 1445 with respect to any amount realized by the grantor upon the lapse of an option to acquire a U.S. real property interest.

(iii) *Withholding required upon the sale or exchange of option.* A transferee of an option to acquire a U.S. real property interest must deduct and withhold a tax equal to 10 percent of the amount realized by the transferor upon the disposition. This § 1.1445–1(b)(3)(iii) does not apply to require withholding upon the initial grant of an option.

(iv) *Withholding required on exercise of option.* If the holder exercises an option to purchase a U.S. real property interest, the amount paid for the option shall be considered an amount realized by the grantor/transferor upon the transfer of the property with respect to which the option was granted, and shall thus be subject to withholding on the day that such underlying property is transferred. The preceding sentence applies regardless of whether or not the terms of the option specifically provide that the option price is applied to the purchase price.

(4) Exceptions and modifications. The duty to withhold under section 1445(a) is subject to the exceptions and modifications contained in §§ 1.1445–2 and

1.1445–3. Generally, §1.1445–2 provides rules for determining that withholding is not required because either the transferor is not a foreign person or the interest transferred is not a U.S. real property interest. In addition, §1.1445–2 provides exceptions to the withholding requirement, including a rule that exempts from withholding any person who acquires a U.S. real property interest for use as a residence for a contract price of $300,000 or less. If withholding is required under section 1445(a), §1.1445–3 allows the amount withheld to be modified pursuant to a withholding certificate issued by the Internal Revenue Service. If a transferee cannot withhold the full amount required because the first payment of consideration for the transfer does not involve sufficient cash (or other liquid assets convertible into cash, such as foreign currency), then a withholding certificate must be obtained pursuant to §1.1445–3.

(c) *Reporting and paying over of withheld amounts*—(1) *In general.* A transferee must report and pay over any tax withheld by the 20th day after the date of the transfer. Forms 8288 and 8288–A are used for this purpose, and must be filed with the Internal Revenue Service Center, Philadelphia, PA, 19255. Pursuant to section 7502 and regulations thereunder, the timely mailing of Forms 8288 and 8228–A will be treated as their timely filing. Form 8288–A will be stamped by the IRS to show receipt, and a stamped copy will be mailed by the IRS to the transferor (at the address reported on the form) for the transferor's use. See §§1.1445–1(f) and 1.1445–3(f).

(2) *Pending application for withholding certificate*—(i) *In general. (A) Delayed reporting and payment with respect to application submitted by transferee.* If an application for a withholding certificate with respect to a transfer of a U.S. real property interest is submitted to the Internal Revenue Service by the transferee on the day of or at any time prior to the transfer, the transferee must withhold 10 percent of the amount realized as required by paragraph (b) of this section. However, the amount withheld, or a lesser amount as determined by the Service, need not be reported and paid over to the Service until the 20th day following the Service's final determination with respect to the application for a withholding certificate. For this purpose, the Service's final determination occurs on the day when the withholding certificate is mailed to the transferee by the Service or when a notification denying the request for a withholding certificate is mailed to the transferee by the Service. An application is submitted to the Service on the day it is actually received by the Service at the address provided in §1.1445–1(g)(10) or, under the rules of section 7502, on the day it is mailed to the Service at the address provided in §1.1445–1(g)(10).

(B) *Delayed reporting and payment with respect to application submitted by transferor.* If an application for a withholding certificate with respect to a transfer of a U.S. real property interest is submitted to the Internal Revenue Service by the Transferor on the day of or any time prior to the transfer, such transferor must provide notice to the transferee prior to the transfer. No particular form is required but the notice must set forth the name, address, and taxpayer identification number, if any, of the transferor, a brief description of the property which is the subject of the application, and the date the application was submitted to the Service. The transferee must withhold 10 percent of the amount realized as required in paragraph (b) of this section but need not report or pay over to the Service such amount (or a lesser amount as determined by the Service) until the 20th day following the Service's final determination with respect to the application. The Service will send a copy of the withholding certificate or copy of the notification denying the request for a withholding certificate to the transferee. For this purpose, the Service's final determination will be deemed to occur on the day when the copy of the withholding certificate or the copy of the notification denying the request for a withholding certificate is mailed by the Service to the transferee (or transferees). An application is submitted to the Service on the day it is actually received by the Service at the address provided in §1.1445–1(g)(10) or, under the rules of §7502, on the day it is mailed to the Service at the address provided in § 1.1445–1(g)(10).

(ii) *Anti-abuse rule*—(A) *In general.* A transferee that in reliance upon the rules of this paragraph (c)(2) fails to report and pay over amounts withheld by the 20th day following the date of the transfer, shall be subject to the payment of interest and penalties if the relevant application for a withholding certificate (or an amendment to the application for a withholding certificate) was submitted for a principal purpose of delaying the transferee's payment to the IRS of the amount withheld. Interest and penalties shall be assessed on the amount that is ultimately paid over (or collected pursuant to the agreement) with respect to the period between the 20th day after the date of the transfer and the date on which payment is made (or collected).

(B) *Presumption.* A principal purpose of delaying payment of the amount withheld shall be presumed if—

(*1*) The transferee applies for a withholding certificate pursuant to § 1.1445–3(c) based on a determination of the transferor's maximum tax liability, and

(*2*) Such liability is ultimately determined to be equal to 90 percent or more of the amount that was otherwise required to be withheld and paid over. However, the presumption created by the previous sentence may be rebutted by evidence establishing that delaying payment of the amount withheld was not a principal purpose of the transaction.

(d) *Contents of Forms 8288 and 8288–A*—(1) *Transactions subject to section 1445(a).* Any person that is required to file Forms 8288 and 8288–A pursuant to section 1445(a) and the rules of this section must set forth thereon the following information:

(i) The name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of any entity) of the transferee(s) filing the return;

(ii) The name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of any entity) of the transferor(s);

(iii) A brief description of the U.S. real property interest transferred, including its location and the nature of any substantial improvements in the case of real property, and the class or type and amount of interests transferred in the case of interests in a corporation that constitute U.S. real property interests;

(iv) The date of the transfer;

(v) The amount realized by the transferor, as defined in paragraph (g)(5) of this section;

(vi) The amount withheld by the transferee and whether withholding is at the statutory or reduced rate; and

(vii) Such other information as the Commissioner may require.

For purposes of paragraph (d)(1) (i) and (ii), mailing addresses may be provided in addition to, but not in lieu of, home addresses or office addresses.

(2) *Transactions subject to section 1445(e).* Any person that is required to file Forms 8288 and 8288–A pursuant to the rules of § 1.1445–5 must set forth thereon the following information:

(i) The name, identifying number (if any), and office address of the entity or fiduciary filing the return;

(ii) The amount withheld by the entity or fiduciary;

(iii) The date of the transfer;

(iv) In the case of a transaction subject to withholding pursuant to section 1445(e)(1) and § 1.1445–5(c):

(A) A brief description of the U.S. real property interest transferred, as described in paragraph (d)(1)(iii) of this section;

(B) The name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of an entity) of each holder of an interest in the entity that is a foreign person; and

(C) Each such interest-holder's pro rata share of the amount withheld;

(v) In the case of a distribution subject to withholding pursuant to section 1445(e)(2) and § 1.1445–5(d):

(A) A brief description of the U.S. real property interest transferred, as described in paragraph (d)(1)(iii) of this section; and

(B) The amount of gain recognized upon the distribution by the corporation.

(vi) In the case of a distribution subject to withholding pursuant to section 1445(e)(3) and § 1.1445–5(e):

(A) A brief description of the property distributed by the corporation;

(B) The name, identifying number (if any), and home address (in case of an individual) or office address (in the case of an entity) of each holder of an interest in the entity that is a foreign person;

(C) The amount realized upon the distribution by each such foreign interest holder; and

(D) Each foreign interest-holder's pro rata share of the amount withheld; and

(vii) Such other information as the Commissioner may require.

(e) *Liability of transferee upon failure to withhold*—(1) *In general.* Every person required to deduct and withhold tax under section 1445 is made liable for that tax by section 1461. Therefore, a person that is required to deduct and withhold tax but fails to do so may be held liable for the payment of the tax and any applicable penalties and interest.

(2) *Transferor's liability not otherwise satisfied*—(i) *Tax and penalties.* Except as provided in paragraph (e)(3) of this section, if a transferee is required to deduct and withhold tax under section 1445 but fails to do so, then the tax shall be assessed against and collected from that transferee. Such person may also be subject to any of the civil and criminal penalties that apply. Corporate officers or other responsible persons may be subject to a civil penalty under section 6672 equal to the amount that should have been withheld and paid over.

(ii) *Interest.* If a transferee is required to deduct and withhold tax under section 1445 but fails to do so, then such transferee shall be liable for the payment of interest pursuant to section 6601 and the regulations thereunder. Interest shall be payable with respect to the period between—

(A) The last date on which the tax imposed under section 1445 was required to be paid over by the transferee, and

(B) The date on which such tax is actually paid. Interest shall be payable with respect to the entire amount that is required to be deducted and withheld. However, if the Service issues a withholding certificate providing for withholding of a reduced amount, then, for the period after the issuance of the certificate, interest shall be payable with respect to that reduced amount.

(3) *Transferor's liability otherwise satisfied*—(i) *Tax and penalties.* If a transferee is required to deduct and withhold tax under section 1445 but fails to do so, and the transferor's tax liability with respect to the transfer was satisfied (or was established to be zero) by—

(A) The transferor's filing of an income tax return (and payment of any tax due) with respect to the transfer, or

(B) The issuance of a withholding certificate by the Internal Revenue Service establishing that the transferor's maximum tax liability is zero,

then the tax required to be withheld under section 1445 shall not be collected from the transferee. Such transferee's liability for tax, and the requirement that such person file Forms 8288 and 8288–A, shall be deemed to have been satisfied as of the date on which the transferor's income tax return was filed or the withholding certificate was issued. No penalty shall be imposed on or collected from such person for failure to return or pay the tax, unless such failure was fraudulent and for the purpose of evading payment. A transferee that seeks to avoid liability for tax and penalties pursuant to the rule of paragraph (e)(3)(i) must provide sufficient information for the Service to determine whether the transferor's tax liability was satisfied (or was established to be zero).

(ii) *Interest.* If a transferee is required to deduct and withhold tax under section 1445 but fails to do so, then such person shall be liable for the payment of interest under section 6601 and regulations thereunder. Such transferee's liability for the payment of interest shall not be excused by reason of the deemed satisfaction, pursuant to subdivision (i) of this paragraph (e)(3), of the transferee's liability under section 1445, because the deemed satisfaction of that liability is the equivalent of the late payment of a liability, on which interest must be paid. Interest shall be payable with respect to the period between—

(A) The last date on which the tax imposed under section 1445 was required to be paid over, and

(B) The date (established from information supplied to the Service by the transferee) on which any tax due is paid with respect to the transferor's relevant income tax return, or the date the withholding certificate is issued establishing that the transferor's maximum tax liability is zero.

Interest shall be payable with respect to the entire amount that is required to be deducted and withheld. However, if the Service issues a withholding certificate providing for withholding of a reduced amount, then for the period after the issuance of the certificate interest shall be payable with respect to that reduced amount.

(4) *Coordination with entity with holding rules.* For purposes of section 1445(e) and §§ 1.1445–5, 1.1445–6, 1.1445–7, and 1.1445–8T, the rules of this paragraph (e) shall be applied by—

(i) Substituting the words ''person required to withhold'' for the word ''transferee'' each place it appears in this paragraph (e), and

(ii) Substituting the words ''person subject to withholding'' for the word ''transferor'' each place it appears in this paragraph (e).

(f) *Effect of withholding on transferor*—(1) *In general.* The withholding of tax under section 1445(a) does not excuse a foreign person that disposes of a U.S. real property interest from filing a U.S. tax return with respect to the income arising from the disposition. Form 1040NR, 1041, or 1120F, as appropriate, must be filed, and any tax due must be paid, by the filing deadline generally applicable to such person. (The return may be filed by such later date as is provided in an extension granted by the Internal Revenue Service.) Any tax withheld under section 1445(a) shall be credited against the amount of income tax as computed in such return.

(2) *Manner of obtaining credit or refund.* A stamped copy of Form 8288–A will be provided to the transferor by the Service (under paragraph (c) of this section), and must be attached to the transferor's return to establish the amount withheld that is available as a credit. If the amount withheld under section 1445(a) constitutes less than the full amount of the transferor's U.S. tax liability for that taxable year, then a payment of estimated tax may be required to be made pursuant to section 6154 or 6654 prior to the filing of the income tax return for that year. Alternatively, if the amount withheld under section 1445(a) exceeds the transferor's maximum tax liability with respect to the disposition (as determined by the IRS), then the transferor may seek an early refund of the excess pursuant to § 1.1445–3(g), or a normal refund upon the filing of a tax return.

(3) *Special rules*—(i) *Failure to receive Form 8288–A.* If a stamped copy of Form 8288–A has not been provided to the transferor by the Service, the transferor may establish the amount of tax withheld by the transferee by attaching to its return substantial evidence (*e.g.*, closing documents) of such amount. Such a transferor must attach to its return a statement which supplies all of the information required by § 1.1445–1(d) (except such information that was not obtained after a diligent effort).

(ii) *U.S. persons subjected to withholding.* If a transferee withholds tax under section 1445(a) with respect to a person who is not a foreign person, such person may credit the amount of any tax withheld against his income tax liability in accordance with the provisions of this § 1.1145–1(f) or apply for an early refund under §1.1445–3(g).

(iii) *Refund in case of installment sale.* A transferor that takes gain into account in accordance with the provisions of section 453 shall not be entitled to a refund of the amount withheld, unless a withholding certificate providing for such a refund is obtained from the Internal Revenue Service pursuant to the provisions of § 1.1445–3.

(iv) *Joint foreign transferors.* If two or more foreign persons jointly transfer a U.S. real property interest, each transferor shall be credited with such portion of the amount withheld as such transferors mutually agree. Such transferors must request that the transferee reflect the agreed-upon crediting of the amount withheld on the Forms 8288–A filed by the transferee. If the foreign transferors fail to request that the transferee reflect the agreed-upon crediting of the amount withheld by the 10th day after the date of transfer, the transferee must credit the amount withheld equally between (or among) the foreign transferors. In such case, the transferee is indemnified pursuant to section 1461 against any claim by a transferor objecting to the resulting division of credits. For rules regarding the amount realized allocated to joint foreign and non-foreign transferors, see §1.1445–1(b)(2).

(g) *Definitions*—(1) *In general.* Unless otherwise specified, the definitions of terms provided in §1.897–1 shall apply for purposes of this section and §§1.1445–2 through 1.1445–7. For purposes of section 1445 and the regulations thereunder, definitions of other relevant terms are provided in this paragraph (g). In addition, the term ''residence'' is defined in 1.1445–2(d)(1), the terms ''transferor's agent'' and ''transferee's agent'' are defined in 1.1445–4(f), and the term ''relevant taxpayer'' is defined in 1.1445–6(a)(2).

(2) *Transfer.* The term ''transfer'' means any transaction that would constitute a disposition for any purpose, of the Internal Revenue Code and regulations thereunder. For purposes of §§1.1445–5 and 1.1445–6, the term includes distribution to shareholders of a corporation, partners of a partnership and beneficiaries of a trust or estate.

(3) *Transferor.* The term ''transferor'' means any person, foreign or domestic, that disposes of a U.S. real property interest by sale, exchange, gift, or any other transfer. The term ''U.S. real property interest'' is defined in §1.897–1(c).

(4) *Transferee.* The term ''transferee'' means any person, foreign or domestic, that acquires a U.S. real property interest by purchase, exchange, gift, or any other transfer.

(5) *Amount realized.* The amount realized by the transferor for the transfer of a U.S. real property interest is the sum of.

(i) The cash paid, or to be paid.

(ii) The fair market value of other property transferred, or to be transferred, and

(iii) The outstanding amount of any liability assumed by the transferee or to which the U.S. real property interest is subject immediately before and after the transfer.

The term ''cash paid or to be paid'' does not include stated or unstated interest or original issue discount (as determined under the rules of sections 1271 through 1275).

(6) *Contract price.* The contract price of a U.S. real property interest is the sum that is agreed to by the transferee and transferor as the total amount of consideration to be paid for the property. That amount will generally be equal to the amount realized by the transferor, as defined in paragraph (b)(5) of this section.

(7) *Fair market value.* The fair market value of property means the price at which the property would change hands between an unrelated willing buyer and willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of all relevant facts.

(8) *Date of transfer.* The date of transfer of a U.S. real property interest is the first date on which consideration is paid (or a liability assumed) by the transferee. However, for purposes of section 1445(e) (2), (3), and (4) and §§1.1445–5(c)(1)(iii) and 1.1445–5(c)(3) only, the date of transfer is the date of the distribution that gives rise to the obligation to withhold. For purposes of this paragraph (g)(8), the payment of consideration does not include the payment, prior to the passage of legal or equitable title (other than pursuant to an initial contract for purchase), of earnest money, a good-faith deposit, or any similar sum that is primarily intended to bind the transferee or transferor to the entering or performance of a contract. Such a payment will not constitute a payment of consideration solely because it may ultimately be applied against the amount owed to the transferor by the transferee. Such a payment is presumed to be earnest money, a good faith deposit, or a similar sum if it is subject to forfeiture in the event of a failure to enter into a contract or a breach of contract. However, a payment that is not forefeitable may nevertheless be found to constitute earnest money, a good faith deposit, or a similar sum.

(9) *Identifying number.* Pursuant to §1.897–1(p), an individual's identifying number is the social security number (or the identification numbers assigned by the Internal Revenue Service). The identifying number of any other person

is its United States employer identification number.

(10) *Address of the Assistant Commissioner International.* Any written communication directed to the Assistant Commissioner (International) is to be addressed as follows: Director, Philadelphia Service Center; 11601 Roosevelt Blvd.; Philadelphia, PA 19255; ATTN: Drop Point 543X.

[T.D. 8113, 51 FR 46629, Dec. 24, 1986; 52 FR 3796, 3916, Feb. 6, 1987, as amended by T.D. 8647, 60 FR 66076, Dec. 21, 1995]

§ 1.1445–2 Situations in which withholding is not required under section 1445(a).

(a) *Purpose and scope of section.* This section provides rules concerning various situations in which withhold is not required under section 1445(a). In general, a transferee has a duty to withhold under section 1445(a) only if both of the following are true:

(1) The transferor is a foreign person; and

(2) The transferee is acquiring a U.S. real property interest.

Thus, paragraphs (b) and (c) of this section provide rules under which a transferee of property can ascertain that he has no duty to withhold because one or the other of the two key elements is missing. Under paragraph (b), a transferee may determine that no withholding is required because the transferor is not a foreign person. Under paragraph (c), a transferee may determine that no withholding is required because the property acquired is not a U.S. real property interest. Finally, paragraph (d) of this section provides rules concerning exceptions to the withholding requirement.

(b) *Transferor not a foreign person*—(1) *In general.* No withholding is required under section 1445 if the transferor of a U.S. real property interest is not a foreign person. Therefore, paragraph (b)(2) of this section provides rules pursuant to which the transferor can provide a certification of non-foreign status to inform the transferee that withholding is not required. A transferee that obtains such a certification must retain that document for five years, as provided in paragraph (b)(3) of this section. Except to the extent provided in paragraph (b)(4) of this section, the obtaining of this certification excuses the transferee from any liability otherwise imposed by section 1445 and § 1.1445–1(e). However, section 1445 and the rules of this section do not impose any obligation upon a transferee to obtain a certification from the transferor, thus, a transferee may instead rely upon other means to ascertain the non-foreign status of the transferor. If, however, the transferee relies upon other means and the transferor was, in fact, a foreign person, then the transferee is subject to the liability imposed by section 1445 and § 1.1445–1(e).

A transferee is in no event required to rely upon other means to ascertain the non-foreign status of the transferor and may demand a certification of non-foreign status. If the certification is not provided, the transferee may withhold tax under section 1445 and will be considered, for purposes of sections 1461 through 1463, to have been required to withhold such tax.

(2) *Transferor's certification of non-foreign status*—(i) *In general.* A transferee of a U.S. real property interest is not required to withhold under section 1445(a) if, prior to or at the time of the transfer, the transferor furnishes to the transferee a certification that—

(A) States that the transferor is not a foreign person.

(B) Sets forth the transferor's name, identifying number and home address (in the case of an individual) or office address (in the case of an entity), and

(C) Is signed under penalties of perjury.

In general, a foreign person is a nonresident alien individual, foreign corporation, foreign partnership, foreign trust, or foreign estate, but not a resident alien individual. In this regard, see § 1.897–1(k). However, a foreign corporation that has made a valid election under section 897(i) is generally not treated as a foreign person for purposes of section 1445. In this regard, see § 1.1445–7. Pursuant to § 1.897–1(p), an individual's identifying number is the individual's Social Security number and any other person's identifying number is its U.S. employer identification number. A certification pursuant to this paragraph (b) must be vertified as true and signed under penalties of perjury by a responsible officer in the case of a corporation, by a general partner in the case of a partnership, and by a trustee, executor, or equivalent fiduciary in the case of a trust or estate. No particular form is needed for a certification pursuant to this paragraph (b), nor is any particular language required, so long as the document meets the requirements of this paragraph (b)(2)(i). Samples of acceptable certifications are provided in paragraph(b)(2)(iii) of this section.

(ii) *Foreign corporation that ''has made election under section 897(i).* A foreign corporation that has made a valid election under section 897(i) to be treated as a domestic corporation for purposes of section 897 may provide a certification of non-foreign status pursuant to this paragraph (b)(2). However, an electing foreign corporation must attach to such certification a copy of the acknowledgment of the election provided to the corporation by the Internal Revenue Service pursuant to §1.897–3(d)(4).

An acknowledgment is valid for this purpose only if it states that the information required by §1.897–3 has been determined to be complete.

(iii) *Sample certifications*—(A) *Individual transferor.*

''Section 1445 of the Internal Revenue Code provides that a transferee (buyer) of a U.S. real property interest must withhold tax if the transferor (seller) is a foreign person. To inform the transferee (buyer) that withholding of tax is not required upon my disposition of a U.S. real property interest, I, [*name of transferor*], hereby certify the following:

1. I am not a nonresident alien for purposes of U.S. income taxation;

2. My U.S. taxpayer identifying number [Social Security number] is _______; and

3. My home address is:

____

____

I understand that this certification may be disclosed to the Internal Revenue Service by the transferee and that any false statement I have made here could be punished by fine, imprisonment, or both.

Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct, and complete. [Signature and Date]''

(B) *Entity transferor.*

''Section 1445 of the Internal Revenue Code provides that a transferee of a U.S. real property interest must withhold tax if the transferor is a foreign person. To inform the transferee that withholding of tax is not required upon the disposition of a U.S. real property interest by [*name of transferor*], the undersigned hereby certifies the following on behalf of [*name of transferor*]:

1. [*Name of transferor*] is not a foreign corporation, foreign partnership, foreign trust, or foreign estate (as those terms are defined in the Internal Revenue Code and Income Tax Regulations]:

2. [*Name of transferor*]'s U.S. employer identification number is _______, and

3. [*Name of transferor*]'s office address is

____

[*Name of transferor*] understands that this certification may be disclosed to the Internal Revenue Service by transferee and that any false statement contained herein could be punished by fine, imprisonment or both.

Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct and complete, and I further declare that I have authority to sign this document on behalf of [*name of transferor*].

[Signature and date]

[Title _______]

(3) *Transferee must retain certification.* If a transferee obtains a transferor's certification pursuant to the rules of this paragraph (b), then the transferee must retain that certification until the end of the fifth taxable year following the taxable year in which the transfer takes place. The transferee must retain the certification, and make it avaliable to the Internal Revenue Service when requested in accordance with the requirements of section 6001 and regulations thereunder.

(4) *Reliance upon certification not permitted*—(i) *In general.* A transferee may not rely upon a transferor's certification pursuant to this paragraph (b) under the circumstances set forth in either subdivision (ii) or (iii) of this paragraph (b)(4). In either of those circumstances, a transferee's withholding obligation shall apply as if a certification had never been obtained, and the transferee is fully liable pursuant to section 1445 and §1.1445–1(e) for any failure to withhold.

(ii) *Failure to attach IRS acknowledgment of election.* A transferee that knows that the transferor is a foreign corporation may not rely upon a certification of non-foreign status provided by the corporation on the basis of election under section 897(i), unless there is attached to the certification a copy of the acknowledgment by the Internal Revenue Service of the corporation's election, as required by paragraph (b)(2)(ii) of this section.

(iii) *Knowledge of falsity.* A transferee is not entitled to rely upon a transferor's certification if prior to or at the time of the transfer the transferee either—

(A) Has actual knowledge that the transferor's certification is false; or

(B) Receives a notice that the certification is false from a transferor's or transferee's agent, pursuant to §1.1445–4.

(iv) *Belated notice of false certification.* If after the date of the transfer a transferee receives a notice that a certification is false, then that transferee is entitled to rely upon the certification only with respect to consideration that was paid prior to receipt for the notice. Such a transferee is required to withhold a full 10 percent of the amount realized from the consideration that remains to be paid to the transferor if possible. Thus, if 10 percent or more of the amount reailzed remains to be paid to the transferor then the transferee is required to withhold and pay over the full 10 percent. The transferee must do so by withholding and paying over the entire amount of each successive payment of consideration to the transferor until the full 10 percent of the amount realized has been withheld and paid over. Amounts so withheld must be reported and paid over by the 20th day following the date on which each such payment of consideration is made. A transferee that is subject to the rules of this paragraph (b)(4)(iv) may not obtain a withholding certificate pursuant to §1.1445–3, but must instead withhold and pay over the amounts required by this paragraph.

(c) *Transferred property not a U.S. real property interest*—(1) *In general.* No withholding is required under section 1445 if the transferee acquires only property that is not a U.S. real property interest. As defined in section 897(c) and §1.897–1(c), a U.S. real property interest includes certain interests in U.S. corporations, as well as direct interests in real property and certain associated personal property. This paragraph (c) provides rules pursuant to which a person acquiring an interest in a U.S. corporation may determine that withholding is not required because that interest is not a U.S. real property interest. To determine whether an interest in tangible property constitutes a U.S. real property interest the acquisition of which would be subject to withholding, see §1.897–1 (b) and (c).

(2) *Interests in publicly traded entities.* No withholding is required under section 1445(a) upon the acquisition of an interest in a domestic corporation if any class of stock of the corporation is regularly traded on an established securities market.

This exemption shall apply if the disposition is incident to an initial public offering of stock pursuant to a registration statement filed with the Securities and Exchange Commission. Similarly, no withholding is required under section 1445(a) upon the acquisition of an interest in a publicly traded partnership or trust. However, the rule of this paragraph (c)(2) shall not apply to the acquisition, from a single transferor in a single (or related transferors (as defined in §1.897–1(i)) transaction (or related transactions), of an interest described in §1.897–1(c)(2)(iii)(B) (relating to substantial amounts of non-publicly traded interests in publicly traded corporations) or to similar interests in publicly traded partnerships or trusts. The person making an acquisition described in the preceding sentence must otherwise determine whether withholding is required, pursuant to section 1445 and the regulations thereunder. Transactions shall be deemed to be related if they are undertaken within 90 days of one another or if it can otherwise be shown that they were undertaken in pursuance of a prearranged plan.

(3) *Transferee receives statement that interest in corporation is not a U.S. real property interest*—(i) *In general.* No withholding is required under section 1445(a) upon the acquisition of an interest in a domestic corporation, if the tranferor provides the transferee with a copy of a statement, issued by the corporation pursuant to §1.897–2(h), certifying that the interest is not a U.S. real property interest. In general,

a corporation may issue such a statement only if the corporation was not a U.S. real property holding corporation at any time during the previous five years (or the period in which the interest was held by its present holder, if shorter) or if interests in the corporation ceased to be United States real property interests under section 897(c)(1)(B). (A corporation may not provide such a statement based on its determination that the interest in question is an interest solely as a creditor). See §1.897–2 (f) and (h). The corporation may provide such a statement directly to the transferee at the transferor's request. The transferor must request such a statement prior to the transfer, and shall, to the extent possible, specify the anticipated date of the transfer. A corporation's statement may be relied upon for purposes of this paragraph (c)(3) only if the statement is dated not more than 30 days prior to the date of the transfer. A transferee may also rely upon a corporation's statement that is voluntarily provided by the corporation in response to a request from the transferee, if that statement otherwise complies with the requirements of this paragraph (c)(3) and §1.897–2(h).

(ii) *Reliance on statement not permitted.* A transferee is not entitled to rely upon a statement that a corporation is not a U.S. real property holding corporation if, prior to or at the time of the transfer, the transferee either—

(A) Has actual knowledge that the statement is false, or

(B) Receives a notice that the statement is false from a transferor's or transferee's agent, pursuant to §1.1445–4.

Such a transferee's withholding obligations shall apply as if a statement had never been given, and such a transferee may be held fully liable pursuant to §1.1445–1(e) for any failure to withhold.

(iii) *Belated notice of false statement.* If after the date of the transfer, a transferee receives notice that a statement provided under §1.1445–2(c)(3)(i) (that an interest in a corporation is not a U.S. real property interest) is false, then such transferee may rely on the statement only with respect to consideration that was paid prior to the receipt of the notice. Such a transferee is required to withhold a full 10 percent of the amount realized from the consideration that remains to be paid to the transferor, if possible. Thus, if 10 percent or more of the amount realized remains to be paid to the transferor, then the transferee is required to withhold and pay over the full 10 percent. The transferee must do so by withholding and paying over the entire amount of each successive payment of consideration to the transferor, until the full 10 percent of the amount realized has been withheld and paid over. Amounts so withheld must be reported and paid over by the 20th day following the date on which each such payment of consideration is made. A transferee that is subject to the rules of this §1.1445–2(c)(3)(iii) may not obtain a withholding certificate pursuant to §1.1445–3, but must instead withhold and pay over the amounts required by this paragraph.

(d) *Exceptions to requirement of withholding*—(1) *Purchase of residence for $300,000 or less.* No withholding is required under section 1445(a) if one or more individual transferees acquire a U.S. real property interest for use as a residence and the amount realized on the transaction is $300,000 or less. For purposes of this section, a U.S. real property interest is acquired for use as a residence if on the date of the transfer the transferee (or transferees) has definite plans to reside at the property for at least 50 percent of the number of days that the property is used by any person during each of the first two 12-month periods following the date of the transfer. The number of days that the property will be vacant is not taken into account in determining the number of days such property is used by any person. A transferee shall be considered to reside at a property on any day on which a member of the transferee's family, as defined in section 267(c)(4), resides at the property. No form or other document need be filed with the Internal Revenue Service to establish a transferee's entitlement to rely upon the exception provided by this paragraph (d)(1). A transferee who fails to withhold in reliance upon this exception, but who does not in fact reside at the property for the minimum number of days set forth above, shall be liable for the failure to withhold (if the transferor was a foreign person and did not pay the full U.S. tax due on any gain recognized upon the transfer). However, if the transferee establishes that the failure to reside the minimum number of days was caused by a change in circumstances that could not reasonably have been anticipated at the time of the transfer, then the transferee shall not be liable for the failure to withhold.

The exception provided by paragraph (d)(1) does not apply in any case where the transferee is other than an individual even if the property is acquired for or on behalf of an individual who will use the property as a residence. However, this exception applies regardless of the organizational structure of the transferor (i.e., regardless of whether the transferor is an individual, partnership, trust, corporation, etc.).

(2) *Coordination with nonrecognition provisions*—(i) *In general.* A transferee shall not be required to withhold under section 1445(a) with respect to the transfer of a U.S. real property interest if—

(A) The transferor notifies the transferee, in the manner described in paragraph (d)(2)(iii) of this section, that by reason of the operation of a nonrecognition provision of the Internal Revenue Code or the provisions of any United States treaty the transferor is not required to recognize any gain or loss with respect to the transfer, and

(B) By the 20th day after the date of the transfer the transferee provides a copy of the transferor's notice to the Assistant Commissioner (International), at the address provided in § 1.1445–1(g)(10), together with a cover letter setting forth the name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of an entity) of the transferee providing the notice to the Service. The rule of this paragraph (d)(2)(i) is subject to the exceptions set forth in paragraph (d)(2)(ii). For purposes of this paragraph (d)(2) a nonrecognition provision is any provision of the Internal Revenue Code for not recognizing gain or loss.

(ii) *Exceptions.* A transferee may not rely upon the rule of paragraph (d)(2)(i) of this section, and must therefore withhold under section 1445(a) with respect to the transfer of a U.S. real property interest, if either:

(A) The transferor qualifies for nonrecognition treatment with respect to part, but not all, of the gain realized by the transferor upon the transfer, or

(B) The transferee knows or has reason to know that the transferor is not entitled to the nonrecognition treatment claimed by the transferor.

In either of the above circumstances the transferee or transferor may request a withholding certificate from the Internal Revenue Service pursuant to the rules of § 1.1445–3.

(3) *Special procedural rules applicable to foreclosures*—(i) *Amount to be withheld*—(A) *foreclosures.* A transferee that acquires a U.S. real property interest pursuant to a repossession or foreclosure on such property under a mortgage, security agreement, deed of trust or other instrument securing a debt must withhold tax under section 1445(a) equal to 10 percent of the amount realized on such sale. Such amount must be reported and paid over to the Service under the general rules of § 1.1445–1. However, if the transferee complies with the notice requirements of § 1.1445–2(d)(3) (ii) and (iii), such transferee may report and pay over to the Service on or before the 20th day following the final determination by a court or trustee with jurisdiction over the foreclosure action, the lesser of:

(*1*) The amount otherwise required to be withheld under section 1445(a), or

(*2*) The ''alternative amount'' as defined in the succeeding sentence. The alternative amount is the entire amount, if any, determined by a court or trustee with jurisdiction over the matter, that accrues to the debtor/transferor out of the amount realized from the foreclosure sale. The amount of any mortgage, lien, or other security agreement secured by the property, that is terminated, assumed by another person, or otherwise extinguished (as to the debtor/transferor) shall not be treated as an amount that accrues to the debtor/transferor for purposes of this § 1.1445–2(d)(3)(i)(A). If the alternative amount is zero, no withholding is required. Any difference between the amount withheld at the time of the foreclosure sale and the amount to be reported and paid over to the Service must be transferred to the court or trustee with jurisdiction over the foreclosure action. Amounts withheld, if any, are to be reported and paid to the Service by using Forms 8288 and 8288–A in conformity with §1.1445–1(d).

(B) *Deeds in lieu of foreclosures.* A transferee of a U.S. real property interest pursuant to a deed in lieu of foreclosure must withhold tax equal to 10 percent of the amount realized by the debtor/transferor on the transfer. However, no withholding is required if:

(*1*) The transferee is the only person with a security interest in the property,

(*2*) No cash or other property (other than incidental fees incurred with respect to the transfer) is paid, directly or indirectly, to any person with respect to the transfer, and

(*3*) The notice requirement of §1.1445–2(d)(3) are satisfied.

The amount withheld, if any, must be reported and paid over to the Service not later than the 20th day following the date of transfer. In a case where withholding would otherwise be required, a withholding certificate may be requested in accordance with §1.1445–3.

(ii) *Notice to the court or trustee in a foreclosure action*—(A) *Notice on day of purchase.* A transferee in a foreclosure sale that chooses to use the special rules applicable to foreclosures must provide notice to the court or trustee with jurisdiction over the foreclosure action on the day the property is transferred with respect to such transferee's withholding obligation. No particular form is necessary but the notice must set forth the transferee's name, home address in the case of an individual, office address in the case of an entity, a brief description of the property, the date of the transfer, the amount realized on the sale of the foreclosed property and the amount withheld under section 1445(a).

(B) *Notice whether amount withheld or alternative amount is reported and paid over to the Service.* A purchaser/transferee in a foreclosure that chooses to use the special rules applicable to foreclosures must provide notice to the court or trustee with jurisdiction over the foreclosure action regarding whether the amount withheld or the alternative amount will be (or has been) reported and paid over to the Service. The notice should set forth all the information required by the preceding paragraph (d)(3)(ii)(A), the amount withheld or alternative amount that will be (or has been) reported and paid over to the Service, and the amount that will be (or has been) paid over to the court or trustee.

(iii) *Notice to the Service*—(A) *General rule.* A transferee that in reliance upon the rules of this paragraph (d)(3) withholds an alternative amount (or does not withhold because the alternative amount is zero) must, on or before the 20th day following the final determination by a court or trustee in a foreclosure action or on or before the 20th day following the date of the transfer with respect to a transfer pursuant to a deed in lieu of foreclosure, provide notice thereof to the Assistant Commissioner (International) at the address provided in §1.1445–1(g)(10). (The filing of such a notice shall not relieve a creditor of any obligation it may have to file a notice pursuant to section 6050J and the regulations thereunder.) No particular form is required but the following information must be set forth in paragraphs labelled to correspond with the numbers set forth below.

(*1*) A statement that the notice constitutes a notice of foreclosure action or transfer pursuant to a deed in lieu of foreclosure under §1.1445–2(d)(3).

(*2*) The name, identifying number (if any) and home address (in the case of an individual) or office address (in the case of an entity) of the purchaser/transferee.

(*3*) The name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of an entity) of the debor/transferor.

(*4*) In a foreclosure action, the date of the final determination by a court or trustee regarding the distribution of the amount realized from the foreclosure sale. In a transfer pursuant to a deed in lieu of foreclosure, the date the property is transferred to the purchaser/transferee.

(*5*) A brief description of the property.

(*6*) The amount realized from the foreclosure sale or with respect to the transfer pursuant to a deed in lieu of foreclosure.

(*7*) The alternative amount.

(B) *Special rule for lenders required to file Form 1099–A where the alternative amount is zero.* A person required under section 6050J to file Form 1099–A does not have to comply with the notice requirement of § 1.1445–2(d)(3)(iii)(A) if the alternative amount is zero. In such case, the filing of the Form 1099–A will be deemed to satisfy the notice requirments of § 1.1445–2(d)(3)(iii)(A).

(iv) *Requirements not applicable.* A transferee is not required to withhold tax or provide notice pursuant to the rules of this paragraph (d)(3) if no substantive withholding liability applies to the transfer of the property by the debtor/transferor. For example, if the debtor/transferor provides the transferee with a certification of non-foreign status pursuant to paragraph (b) of this section, then no substantive withholding liability would exist with respect to the acquisition of the property from the debtor transferor. In such a case, no withholding of tax or notice to the Internal Revenue Service is required of the transferee with respect to the repossession or foreclosure.

(v) *Anti-abuse rule.* If a U.S. real property interest is transferred in foreclosure or pursuant to a deed in lieu of foreclosure for a principal purpose of avoiding the requirements of section 1445(a), then the provisions of this paragraph (d)(3) shall not apply to the transfer and the transferee shall be fully liable for any failure to withhold with respect to the transfer. A principal purpose to avoid section 1445(a) will be presumed (subject to rebuttal on the basis of all relevant facts and circumstances) if:

(A) The transferee acquires property in which it, or a related party, has a security interest;

(B) The security interest did not arise in connection with the debtor/transferor's or a related party's or predecessor in interest's acquisition, improvement, or maintenance of the property; and

(C) The total amount of all debts secured by the property exceeds 90 percent of the fair market value of the property.

(4) *Installment payments.* A transferee of a U.S. real property interest is not required to withhold under section 1445 when making installment payments on an obligation arising out of a dispositions that took place before January 1, 1985. With respect to disposition that take place after December 31, 1984, the transferee shall be required to satisfy its entire withholding obligation within the time specified in § 1.1445–1(c) regardless of the amount actually paid by the transferee. Thereafter, no withholding is required upon further installment payments on an obligation arising out of the transfer. A transferee that is unable to satisfy its entire withholding obligation within the time specified in § 1.1445–1(c) may request a withholding certificate pursuant to § 1.1445–3.

(5) *Acquisitions by governmental bodies.* No withholding of tax is required under section 1445 with respect to any acquisition of property by the United States, a state or possession of the United States, a political subdivision thereof, or the District of Columbia.

(6) [Reserved]

(7) *Withholding certificate obtained by transferee or transferor.* No withholding is required under section 1445(a) if the transferee is provided with a withholding cerfiticate that so specifies. Either the transferor or the transferee may seek a withholding certificate from the Internal Revenue Service, pursuant to the provisions of § 1.1445–3.

(8) *Amount realized by transferor is zero.* If the amount realized by transferor on a transfer of a U.S. real property interest is zero, no withholding is required.

[T.D. 8113, 51 FR 46633, Dec. 24, 1986; 52 FR 3917, Feb. 6, 1987; as amended at T.D. 8198, 53 FR 16230, May 5, 1988]

§ 1.1445–3 Adjustments to amount required to be withheld pursuant to withholding certificate.

(a) *In general.* Withholding under section 1445(a) may be reduced or eliminated pursuant to a withholding certificate issued by the Internal Revenue Service in accordance with the rules of this section. A withholding certificate may be issued by the Service in cases where reduced withholding is appropriate (see paragraph (c) of this section), where the transferor is exempt from U.S. tax (see paragraph (d) of this section), or where an agreement for the payment of tax is entered into with the Service (see paragraph (e) of this section). A withholding certificate that is obtained prior to a transfer notifies the transferee that no withholding is required. A withholding certificate that is obtained after a transfer has been made may authorize a normal refund or an early refund pursuant to paragraph (g) of this section. Either a transferee or transferor may apply for a withholding certificate. The Internal Revenue Service will act upon an application for a withholding certificate not later than the 90th day after it is received. Solely for this purpose (i.e., determining the day upon which the 90-day period commences), an application is received by the Service on the date that all information necessary for the Service to make a determination is provided by the applicant. (For rules regarding whether an application for a withholding certificate has been timely submitted, see §1.445–1(c)(2).) The Service may deny a request for a withholding certificate where, after due notice, an applicant fails to provide information necessary for the Service to make a determination. The Service will act upon an application for an early refund not later than the 90th day after it is received. An application for an early refund must either (1) include a copy of a withholding certificate issued by the Service with respect to the transaction or, (2) be combined with an application for a withholding certificate. Where an application for an early refund is combined with an application for a withholding certificate, the Service will act upon both applications not later than the 90th day after receipt. In the case of an application for a certificate based on non-conforming secuirty under paragraph (e)(3)(v) of this section, and in unusually complicated cases, the Service may be unable to provide a final withholding certificate by the 90th day. In such a case the Service will notify the applicant, by the 45th day after receipt of the application, that additional processing time will be necessary. The Service's notice may request additional information or explanation concerning particular aspects of the application, and will provide a target date for final action (contingent upon the application's timely submission of any requested information). A withholding certificate issued pursuant to the provisions of this section serves to fulfill the requirements of section 1445(b)(4) concerning qualifying statements, section 1445(c)(1) concerning the transferor's maximum tax liability, or section 1445(c)(2) concerning the Secretary's authority to prescribe reduced withholding.

(b) *Applications for withholding certificates*—(1) *In general.* An application for a withholding certificate must be submitted to the Assistant Commissioner (International), at the address provided in §1.1445–1(g)(10). An application for a withholding certificate must be signed by a responsible officer in the case of a corporation, by a general partner in the case of a partnership, by a trustee, executor, or equivalent fiduciary in the case of a trust or estate, and in the case of an individual by the individual himself. A duly authorized agent may sign the application but the application must contain a valid power of attorney authorizing the agent to sign the application on behalf of the applicant. The person signing the application must verify under penalties of perjury that all representations made in connection with the application are true, correct, and complete to his knowledge and belief. No particular form is required for an application, but the application must set forth the information described in paragraphs (b), (2), (3), and (4) of this section.

(2) *Parties to the transaction.* The application must set forth the name, address, and identifying number (if any) of the person submitting the application (specifying whether that person is the transferee or transferor), and the name, address, and identifying number (if any) of other parties to the transaction (specifying whether each such party is a transferee or transferor). The applicant must determine if an identifying number exists for each party concerned and if none exists for a particular party the application must so state. The address provided in the case

of an individual must be that individual's home address, and the address provided in the case of an entity must be that entity's office address. A mailing address may be provided in addition to, but not in lieu of, a home address or office address.

(3) *Real property interest to be transferred.* The application must set forth information concerning the U.S. real property interest with respect to which the withholding certificate is sought, including the type of interest, the contract price, and, in the case of an interest in real property, its location and general description, or in the case of an interest in a U.S. real property holding corporation, the class or type and amount of the interest.

(4) *Basis for certificate*—(i) *Reduced withholding.* If a withholding certificate is sought on the basis of a claim that reduced withholding in appropriate, the application must include:

(A) A calculation of the maximum tax that may be imposed on the disposition in accordance with paragraph (c)(2) of this section. Such calculation must be accompanied by a copy of the relevant contract and depreciation schedules or other evidence that confirms the contract price and adjusted basis of the property. If no depreciation schedules are provided, the application must state the nature of the use of the property and why depreciation was not allowable. Evidence that supports any claimed adjustment to the maximum tax on the disposition must also be provided;

(B) A calculation of the transferor's unsatisfied withholding liability, or evidence supporting the claim that no such liability exists, in accordance with paragraph (c)(3) of this section; and

(C) In the case of a request for a special reduction of withholding pursuant to paragraph (c)(4) of this section, a statement of law and facts in support of the request.

(ii) *Exemption.* If a withholding certificate is sought on the basis of the transferor's exemption from U.S. tax, the application must set forth a brief statement of the law and facts that support the claimed exemption. In this regard, see paragraph (d) of this section.

(iii) *Agreement.* If a withholding certificate is sought on the basis of an agreement for the payment of tax, the application must include a signed copy of the agreement proposed by the applicant and a copy of the security instrument (if any) proposed by the applicant. In this regard, see paragraph (e) of this section.

(c) *Adjustment of amount required to be withheld*—(1) *In general.* The Internal Revenue Service may issue a withholding certificate that excuses withholding or that permits the transferee to withhold an adjusted amount reflecting the transferor's maximum tax liability. The transferor's maximum tax liability is the sum of—

(i) The maximum amount which could be imposed as tax under section 871 or 882 upon the transferor's disposition of the subject real property interest, as determined under paragraph (c)(2) of this section, and

(ii) The transferor's unsatisfied withholding liability with respect to the subject real property interest, as determined under paragraph (c)(3) of this section.

In addition, the Internal Revenue Service may issue a withholding certificate that permits the transferee to withhold a reduced amount if the Service determines pursuant to paragraph (c)(4) of this section that reduced withholding will not jeopardize the collection of tax.

(2) *Maximum tax imposed on disposition.* The first element of the transferor's maximum tax liability is the maximum amount which the transferor could be required to pay as tax upon the disposition of the subject real property interest. In the case of an individual transferor that amount will generally be the contract price of the property minus its adjusted basis, multiplied by the maximum individual income tax rate applicable to long term capital gain. In the case of a corporate transferor, that amount will generally be the contract price of the property minus its adjusted basis, multiplied by the maximum corporate income tax rate applicable to long term capital gain. However, that amount must be adjusted to take into account the following:

(i) Any reduction of tax to which the transferor is entitled under the provisions of a U.S. income tax treaty;

(ii) The effect of any nonrecognition provision that is applicable to the transaction;

(iii) Any losses realized and recognized upon the previous disposition of U.S. real property interests during the taxable year;

(iv) Any amount that is required to be treated as ordinary income; and

(v) Any other factor that may increase or reduce the tax upon the disposition.

(3) *Transferor's unsatisfied withholding liability*—(i) *In general.* The second element of the transferor's maximum tax liability is the transferor's unsatisfied withholding liability. That liability is the amount of any tax that the transferor was required to but did not withhold and pay over under section 1445 upon the acquisition of the subject U.S. real property interest or a predecessor interest. The transferor's unsatisfied withholding liability is included in the calculation of maximum tax liability so that such prior withholding liability can be satisfied by the transferee's withholding upon the current transfer. Alternatively, the transferor's unsatisfied withholding liability may be disregarded for purposes of calculating the maximum tax liability, if either—

(A) Such prior withholding liability is fully satisfied by a payment that is made with the application submitted pursuant to this section; or

(B) An agreement is entered into for the payment of that liability pursuant to the rules of paragraph (e) of this section.

Because section 1445 only requires withholding after December 31, 1984, no transferor's unsatisfied withholding liability can exist unless the transferor acquired the subject or predecessor real property interest after that date. For purposes of this paragraph (c), a predecessor interest is one that was exchanged for the subject U.S. real property interest in a transaction in which the transferor was not required to recognize the full amount of the gain or loss realized upon the transfer.

(ii) *Evidence that no unsatisfied withholding liability exists.* For purposes of paragraph (b)(4)(i)(B) of this section (concerning information that must be submitted with an application for a withholding certificate), evidence that the transferor has no unsatisfied withholding liability includes any one of the following documents:

(A) Evidence that the transferor acquired the subject or predecessor real property interest prior to January 1, 1985;

(B) A copy of the Form 8288 that was filed by the transferor, and proof of payment of the amount shown due thereon, with respect to the transferor's acquisition of the subject or predecessor real property interest;

(C) A copy of a withholding certificate with respect to the transferor's acquisition of the subject or predecessor real property interest, plus a copy of Form 8288 and proof of payment with respect to any withholding required under that certificate;

(D) A copy of the non-foreign certification furnished by the person from whom the subject or predecessor U.S. real property interest was acquired, executed at the time of that acquisition;

(E) Evidence that the transferor purchased the subject or predecessor real property for $300,000 or less, and a statement signed by the transferor under penalties of perjury, that the transferor purchased the property for use as a residence within the meaning of § 1.1445–2(d)(1);

(F) Evidence that the person from whom the transferor acquired the subject or predecessor U.S. real property interest fully paid any tax imposed on that transaction pursuant to section 897.

(G) A copy of a notice of nonrecognition treatment provided to the transferor pursuant to § 1.1445–2(d)(2) by person from whom the transferor acquired the subject or predecessor U.S. real property interest; and

(H) A statement, signed by the transferor under penalties of perjury, setting forth the facts and circumstances that supported the transferor's conclusion that no withholding was required under section 1445(a) with respect to the transferor's acquisition of the subject or predecessor real property interest.

(4) *Special reduction of amount required to be withheld.* The Internal Revenue Service may, in its discretion, issue a withholding certificate that permits the transferee to withhold a reduced amount based upon a determination that reduced withholding will not jeopardize the collection of tax. A transferor that requests a withholding certificate pursuant to this paragraph (c)(4) is required pursuant to paragraph (b)(4)(i)(C) of this section to submit a statement of law and facts in support of the request. That statement must explain why the transferor is unable to enter into an agreement for the payment of tax pursuant to paragraph (e) of this section.

(d) *Transferor's exemption from U.S. tax*—(1) *In general.* The Internal Revenue Service will issue a withholding certificate that excuses all withholding by a transferee if it is established that:

(i) The transferor's gain from the disposition of the subject U.S. real property interest will be exempt from U.S. tax, and

(ii) The transferor has no unsatisfied withholding liability.

For the available exemptions, see paragraph (d)(2) of this section. The transferor's unsatisfied withholding liability shall be determined in accordance with the provisions of paragraph (c)(3) of this section. A transferor that is entitled to a reduction of (rather than an exemption from) U.S. tax may obtain a withholding certificate to that effect pursuant to the provisions of paragraph (c) of this section.

(2) *Available exemptions.* A transferor's gain from the disposition of a U.S. real property interest may be exempt from U.S. tax because either:

(i) The transferor is an integral part or controlled entity of a foreign government and the disposition of the subject property is not a commercial activity, as determined pursuant to section 892 and the regulations thereunder; or

(ii) The transferor is entitled to the benefits of an income tax treaty that provides for such an exemption (subject to the limitations imposed by section 1125(c) of Pub. L. 96–499, which, in general, overrides such benefits as of January 1, 1985).

(e) *Agreement for the payment of tax*—(1) *In general.* The Internal Revenue Service will issue a withholding certificate that excuses withholding or that permits a transferee to withhold a reduced amount, if either the transferee or the transferor enters into an agreement for the payment of tax pursuant to the provisions of this paragraph (e). An agreement for the payment of tax is a contract between the Service and any other person that consists of two necessary elements. Those elements are—

(i) A contract between the Service and the other person, setting forth in detail the rights and obligations of each; and

(ii) A security instrument or other form of security acceptable to the Director, Foreign Operations District.

(2) *Contents of agreement*—(i) *In general.* An agreement for the payment of tax must cover an amount described in subdivision (ii) or (iii) of this paragraph (e)(2). The agreement may either provide adequate security for the payment of the chosen amount in accordance with paragraph (e)(3) of this section, or provide for the payment of that amount through a combination of security and withholding of tax by the transferee.

(ii) *Tax that would otherwise be withheld.* An agreement for the payment of tax may cover the amount of tax that would otherwise be required to be withheld pursuant to section 1445(a). In addition to the amount computed pursuant to section 1445(a), the applicant must agree to pay interest upon that amount, at the rate established under section 6621, with respect to the period between the date on which the tax imposed by section 1445(a) would otherwise be due (*i.e.*, the 20th day after the date of transfer) and the date on which the transferor's payment of tax with respect to the disposition will be due under the agreement. The amount of interest agreed upon must be paid by the applicant regardless of whether or not the Service is required to draw upon any security provided pursuant to the agreement. The interest may be paid either with the return or by the Service drawing upon the security.

(iii) *Maximum tax liability.* An agreement for the payment of tax may cover the transferor's maximum tax liability, determined in accordance with paragraph (c) of this section. The agreement must also provide for the payment of an additional amount equal to 25 percent of the amount determined under paragraph (c) of this section. This additional amount secures the interest and penalties that would accrue between the date of a failure to file a return and pay tax with respect to the disposition, and the date on which the Service collects upon that liability pursuant to the agreement. Such additional amount will only be collected if the Service finds it necessary to draw upon any security provided due to the transferor's failure to file a return and pay tax with respect to the relevant disposition.

(3) *Major types of security*—(i) *In general.* The following are the major types of security acceptable to the Service. Further details with respect to the terms and conditions of each type may be specified by Revenue Procedure.

(ii) *Bond with surety or guarantor.* The Service may accept as security with respect to a transferor's tax liability a bond that is executed with a satisfactory surety or guarantor. Only the following persons may act as surety or guarantor for this purpose

(A) A surety company holding a certificate of authority from the Secretary as an acceptable surety on Federal bonds, as listed in Treasury Department Circular No. 570, published annually in the FEDERAL REGISTER on the first working day of July;

(B) A person that is engaged within or without the United States in the conduct of a banking, financing, or similar business under the principles of §1.864–4(c)(5), and that is subject to U.S. or foreign local or national regulation of such business, if that person is otherwise acceptable to the Service; and

(C) A person that is engaged within or without the United States in the conduct of an insurance business that is subject to U.S. or foreign local or national regulation, if that person is otherwise acceptable to the Service.

(iii) *Bond with collateral.* The Service may accept as security with respect to a transferor's tax liability a bond that is secured by acceptable collateral. All collateral must be deposited with a responsible financial institution acting as escrow agent, or, in the Service's discretion, with the Service. Only the following types of collateral are acceptable:

(A) Bonds, notes, or other public debt obligations of the United States, in accordance with the rules of 31 CFR part 225; and

(B) A certified cashier's, or treasurer's check, drawn on an entity acceptable to the Service that is engaged within or without the United States in the conduct of a banking, financing, or similar business under the principles of §1.864–4(c)(5) and that is subject to U.S. or foreign local or national regulation of such business.

(iv) *Letter of credit.* The Service may accept as security with respect to a transferor's tax liability an irrevocable letter of credit. The Service may accept a letter of credit issued by an entity acceptable to the Service that is engaged within or without the United States in the conduct of a banking, financing, or similar business under the principles of §1.864–4(c)(5) and that is subject to U.S. or foreign local or national regulation of such business. However, the Director will accept a letter of credit from an entity that is not engaged in trade or business in the United States only if such letter may be drawn on an advising bank within the United States.

(v) *Guarantees and other non-conforming security*—(A) *Guarantee.* The Service may in its discretion accept as security with respect to a transferor's tax liability the applicant's guarantee that it will pay such liability. The Service will in general accept such a guarantee only from a corporation, foreign or domestic, any class of stock of which is regularly traded on an established securities market on the date of the transfer.

(B) *Other forms of security.* The Service may in unusual circumstances and at its discretion accept any form of security that if finds to be adequate. An application for a withholding certificate that proposes a form of security that does not conform with any of the preferred types set forth in paragraph (e)(3) (ii) through (iv) of this section or any relevant Revenue Procedure must include:

(*1*) A detailed statement of the facts and circumstances supporting the use of the proposed form of security, and

(*2*) A memorandum of law concerning the validity and enforceability of the proposed form of security.

(4) *Terms of security instrument.* Any security instrument that is furnished pursuant to this section must provide that—

(i) The amount of each deposit of estimated tax that will be required with respect to the gain realized on the subject disposition may be collected by levy upon the security as of the date following the date on which each such deposit is due (unless such deposit is timely made);

(ii) The entire amount of the liability may be collected by levy upon the security at any time during the nine months following the date on which the payment of tax with respect to the subject disposition is due, subject to release of the security upon the full payment of the tax and any interest and penalties due. If the transferor requests an extension of time to file a return with respect to the disposition, then the Director may require that the term of the security instrument be extended until the date that is nine months after the filing deadline as extended.

(f) *Amendments to application for withholding certificate*—(1) *In general.* An applicant for a withholding certificate may amend an otherwise complete application by submitting an amending statement to the Assistant Commissioner (International), at the address provided in § 1.1445–1(g)(10). The amending statement shall provide the information required by § 1.1445–3(f)(3) and must be signed and accompanied by a penalties of perjury statement in accordance with § 1.1445–3(b)(1).

(2) *Extension of time for the Service to process reqests for withholding certificates*—(i) *In general.* If an amending statement is submitted, the time in which the Internal Revenue Service must act upon the amended application shall be extended by 30 days.

(ii) *Substantial amendments.* If an amending statement is submitted and the Service finds that the statement substantially amends the facts of the underlying application or substantially alters the terms of the withholding certificate as requested in the initial application, the time within which the Service must act upon the amended application shall be extended by 60 days. The applicant shall be so notified.

(iii) *Amending statement received after the requested withholding certificate has been signed by the Assistant Commissioner (International).* If an amending statement is received after the withholding certificate, drafted in response to the underlying application, has been signed by the Assistant Commissioner (International) or his delegate and prior to the day such certificate is mailed to the applicant, the time in which the Service must act upon the amended application shall be extended by 90 days. The applicant will be so notified.

(3) *Information required to be submitted.* No particular form is required for an amending statement but the statement must provide the following information:

(i) *Identification of applicant.* The amending statement must set forth the name, address and identifying number (if any) of the person submitting the amending statement (specifying whether that person is the transferee or transferor).

(ii) *Date of underlying application.* The amending statement must set forth the date of the underlying application for a withholding certificate.

(iii) *Real property interest to be (or that has been) transferred.* The amending statement must set forth a brief description of the real property interest with respect to which the underlying application for a withholding certificate was submitted.

(iv) *Amending information.* The amending statement must fully set forth the basis for the amendment including any modification of the facts supporting the application for a withholding certificate and any change sought in the terms of the withholding certificate.

(g) *Early refund of overwithheld amounts.* If a transferor receives a withholding certificate pursuant to this section, and an amount greater than that specified in the certificate was withheld by the transferee, then pursuant to the rules of this paragraph (g) the transferor may apply for a refund (without interest) of the excess amount prior to the date on which the transferor's tax return is due (without extensions). (Any interest payable on refunds issued after the filing of a tax return shall be determined in accordance with the provisions of section 6611 and regulations thereunder.) An application for an early refund must be addressed to the Assistant Commissioner (International), at the address provided in §1.1445–1(g)(10). No particular form is required for the application, but the following information must be set forth in separate paragraphs numbered to correspond with the number given below:

(1) Name, address, and identifying number (if any) of the transferor seeking the refund;

(2) Amount required to be withheld pursuant to the withholding certificate issued by Internal Revenue Service;

(3) Amount withheld by the transferee (attach a copy of Form 8288–A stamped by IRS pursuant to §1.1445–1(c));

(4) Amount to be refunded to the transferor. An application for an early refund cannot be processed unless the required copy of Form 8288–A (or substantial evidence of the amount withheld in the case of a failure to receive Form 8288–A as provided in §1.1445–1(f)(3)) is attached to the application. If an application for a withholding certificate based upon the transferor's maximum tax liability is submitted after the transfer takes place, then that application may be combined with an application for an early refund. The Service will act upon a claim for refund within the time limits set forth in paragraph (a) of this section.

[T.D. 8113, 51 FR 46637, Dec. 24, 1986; 52 FR 3796, Feb. 6, 1987]

§1.1445–4 Liability of agents.

(a) *Duty to provide notice of false certification or statement to transferee.* A transferee's or transferor's agent must provide notice to the transferee if either—

(1) The transferee is furnished with a non-U.S. real property interest statement pursuant to §1.1445-2(c)(3) and the agent knows that the statement is false; or

(2) The transferee is furnished with a non-foreign certification pursuant to §1.1445–2(b)(2) and either (i) the agent knows that the certification is false, or (ii) the agent represents a transferor that is a foreign corporation. An agent that represents a transferor that is a foreign corporation is not required to provide notice to the transferee if the foreign corporation provided a non-foreign certification to the transferee prior to such agent's employment and the agent does not know that the corporation did so.

(b) *Duty to provide notice of false certification or statement to entity or fiduciary.* A transferee's or transferor's agent must provide notice to an entity or fiduciary that plans to carry out a transaction described in section 1445(e) (1), (2), (3), or (4) if either—

(1) The entity or fiduciary is furnished with a non-U.S. real property interest statement pursuant to §1.1445–5(b)(4)(iii) and the agent knows that such statement is false; or

(2) The entity or fiduciary is furnished with a non-foreign certification pursuant to §1.1445–5(b)(3) (ii) and either (i) the agent knows that such certification is false, or (ii) the agent represents a foreign corporation that made such a certification.

(c) *Procedural requirements*—(1) *Notice to transferee, entity, or fiduciary.* An agent who is required by this section to provide notice must do so in writing as soon as possible after learning of the false certification or statement, but not later than the date of the transfer (prior to the transferee's payment of consideration). If an agent first learns of a false certification or statement after the date of the transfer, notice must be given by the third day following that discovery. The notice must state that the certification or statement is false and may not be relied upon. The notice must also explain the possible consequences to the recipient of a failure to withhold. The notice need not disclose the information on which the agent's statement is based. The following is an example of an acceptable notice.''This is to notify you that you may be required to withhold tax in connection with *(describe transaction).* You have been provided with a certification of non-foreign status (or a non-U.S. real property interest statement) in connection with that transaction. I have learned that that document is false. Therefore, you may not rely upon it as a basis for failing to withhold under section 1445 of the Internal Revenue Code. Section 1445 provides that any person who acquires a U.S. real property interest from a foreign person must withhold a tax equal to 10 percent of the total purchase price. (The term 'U.S. real property interest' includes real property, stock in U.S. corporations whose assets are primarily real property, and some personal property associated with realty.) Any person who is required to withhold but fails to do so can be held liable for the tax. Thus, if you do not withhold the 10 percent tax from the total that you pay on this transaction you could be required to pay the tax yourself, if what you are acquiring is a U.S. real property interest and the transferor is a foreign person. Tax that is withheld must be promptly paid over to the IRS using Form 8288. For further information see sections 897 and 1445 of the Internal Revenue Code and the related regulations.''

(2) *Notice to be filed with IRS.* An agent who is required by paragraph (a) or (b) of this section to provide notice to a transferee, entity, or fiduciary must furnish a copy of that notice to the Internal Revenue Service by the date on which the notice is required to be given to the transferee, entity, or fiduciary. The copy of the notice must be delivered to the Assistant Commissioner (International) at the address provided in §1.1445–1(g)(10) and must be accompanied by a cover letter stating that the copy is being filed pursuant to the requirements of this §1.1445–4(c)(2).

(d) *Effect on recipient.* A transferee, entity, or fiduciary that receives a notice pursuant to this section prior to the date of the transfer from any agent of the transferor or transferee may not rely upon the subject certification or statement for purposes of excusing withholding pursuant to §1.1445–2 or §1.1445–5. Therefore, the recipient of a notice may be held liable for any failure to deduct and withhold tax under section 1445 as if such certification or statement had never been given. For special rules concerning the effect of the receipt of a notice after the date of the transfer, see §§1.1445–2(b)(4)(iv) and 1.1445–5 (c), (d) and (e).

(e) *Failure to provide notice.* Any agent who is required to provide notice but who fails to do so in the manner required by paragraph (a) or (b) of this section shall be held liable for the tax that the recipient of the notice would have been required to withhold under section 1445 if such notice had been given. However, an agent's liability under this paragraph (e) is limited to the amount of compensation that that agent derives from the transaction. In addition, an agent who assists in the preparation of, or fails to disclose knowledge of, a false certification or statement may be liable for civil or criminal penalties.

(f) *Definition of transferor's or transferee's agent*—(1) *In general.* For purposes of this section, the terms ''transferor's agent'' and ''transferee's agent'' means any person who represents the transferor or transferee (respectively)—

(i) In any negotiation with another person (or another person's agent) relating to the transaction; or

(ii) In settling the transaction.

(2) *Transactions subject to section 1445(e).* In the case of transactions subject section 1445(e), the following definitions apply.

(i) The term ''transferor's agent'' means any person that represents or advises an entity or fiduciary with respect to the planning, arrangement, or consummation by the entity of a transaction described in section 1445(e) (1), (2), (3), or (4).

(ii) The term ''transferee's agent'' means any person that represents or advises the holder of an interest in an entity with respect to the planning, arrangement or consummation by the entity of a transaction described in section 1445(e) (1), (2), (3), or (4).

(3) *Exclusion of settlement officers and clerical personnel.* For purposes of this section, a person shall not be treated as a transferor's agent or transferee's agent with respect to any transaction solely because such person performs one or more of the following activities.

(i) The receipt and disbursement of any portion of the consideration for the transaction;

(ii) The recording of any document in connection with the transaction;

(iii) Typing, copying, and other clerical tasks;

(iv) The obtaining of title insurance reports and reports concerning the condition of the real property that is the subject of the transaction; or

(v) The transmission or delivery of documents between the parties.

(4) *Exclusion for governing body of a condominium association and the board of directors of a cooperative housing corporation.* The members of a board, committee or other governing body of a condominium association and the board of directors and officers of a cooperative housing corporation will not be deemed agents of the transferor or transferee if such individuals function exclusively in their capacity as representatives of such association or corporation with respect to the transaction. In addition, the managing agent of a cooperative housing corporation or condominium association will not be deemed to be an agent of the transferee or transferor if such person functions exclusively in its capacity as a managing agent. If a person's activities include advising the transferee or transferor with respect to the transfer, this exclusion shall not apply.

[T.D. 8113, 51 FR 46641, Dec. 24, 1986; 52 FR 3796, 3917, Feb. 6, 1987]

§1.1445–5 Special rules concerning distributions and other transactions by corporations, partnerships, trusts, and estates.

(a) *Purpose and scope.* This section provides special rules concerning the withholding that is required under section 1445(e) upon distributions and other transactions involving domestic or foreign corporations, partnerships, trusts, and estates. Paragraph (b) of this section provides rules that apply generally to the various withholding requirements set forth in this section. Under section 1445(e)(1) and paragraph (c) of this section, a domestic partnership or the fiduciary of a domestic trust or estate is required to withhold tax upon the entity's disposition of a U.S. real property interest if any foreign persons are partners or beneficiaries of the entity. Paragraph (d) provides rules concerning the requirement of section 1445(e)(2) that a foreign corporation withhold tax upon its distribution of a U.S. real property interest to its interest-holders. Finally, under section 1445(e)(3) and paragraph (e) of this section a domestic U.S. real property holding corporation is required to withhold tax upon certain distributions to interest-holders that are foreign persons. Paragraphs (f) and (g) of this section are reserved to provide rules concerning transactions involving interests in partnerships, trusts, and estates that will be subject to withholding pursuant to sections 1445(e) (4) and (5).

(b) *Rules of general application*—(1) *Double withholding not required.* If tax is required to be withheld with respect to a transfer of property in accordance with the rules of this section, then no additional tax is required to be withheld by the transferee of the property with respect to that transfer pursuant to the general rules of section 1445(a) and §1.1445–1. For rules coordinating the withholding under section 1441 (or section 1442 or 1443) and under section 1445 on distributions from a corporation, see §1.1441–3(b)(4). If a transfer of a U.S. real property interest described in section 1445(e) is exempt from withholding under the rules of this section, then no withholding is required under the general rules of section 1445(a) and §1.1445–1.

(2) *Coordination with nonrecognition provisions*—(i) *In general.* Withholding shall not be required under the rules of this section with respect to a transfer described in section 1445(e) of a U.S. real property interest if—

(A) By reason of the operation of a nonrecognition provision of the Internal Revenue Code or the provisions of any treaty of the United States no gain or loss is required to be recognized by the foreign person with respect to which withholding would otherwise be required; and

(B) The entity or fiduciary that is otherwise required to withhold complies with the notice requirements of paragraph (b)(2)(ii) of this section. The entity or fiduciary must determine whether gain or loss is required to be recognized pursuant to the rules of section 897 and the applicable nonrecognition provisions of the Internal Revenue

Code. An entity or fiduciary may obtain a withholding certificate from the Internal Revenue Service that confirms the applicability of a nonrecognition provision, but is not required to do so. For purposes of this paragraph (b)(2), a nonrecognition provision is any provision of the Internal Revenue Code for not recognizing gain or loss. If nonrecognition treatment is available only with respect to part of the gain realized on a transfer, the exemption from withholding provided by this paragraph (b)(2) shall not apply. In such cases a withholding certificate may be sought pursuant to the provisions of § 1.1445–6.

(ii) *Notice of nonrecognition transfer.* An entity or fiduciary that fails to withhold tax with respect to a transfer in reliance upon the rules of this paragraph (b)(2) must by the 20th day after the date of the transfer deliver a notice thereof to the Assistant Commissioner, (International), at the address provided in § 1.1445–1(g)(10). No particular form is required for a notice of transfer, but the following information must be set forth in paragraphs labelled to correspond with the letter set forth below:

(A) A statement that the document submitted constitutes a notice of a nonrecognition transfer pursuant to the requirements of § 1.1445–5(b)(2)(ii);

(B) The name, office address, and identifying number (if any) of the entity of fiduciary submitting the notice;

(C) The name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of an entity) of each foreign person with respect to which withholding would otherwise be required;

(D) A brief description of the transfer; and

(E) A brief statement of the law and facts supporting the claim that recognition of gain or loss is not required with respect to the transfer.

(3) *Interest-holder not a foreign person*—(i) *In general.* Pursuant to the provisions of paragraphs (c) and (e) of this section, an entity or fiduciary is required to withhold with respect to certain transfers of property if a holder of an interest in the entity is a foreign person. For purposes of determining whether a holder of an interest is a foreign person, and entity or fiduciary may rely upon a certification of non-foreign status provided by that person in accordance with paragraph (b)(3)(ii) of this section. Except to the extent provided in paragraph (b)(3)(iii) of this section, such a certification excuses the entity or fiduciary from any liability otherwise imposed pursuant to section 1445(e) and regulations thereunder. However, no obligation is imposed upon an entity or fiduciary to obtain certifications from interest-holders; an entity or fiduciary may instead rely upon other means to ascertain the nonforeign status of an interest-holder. If the entity or fiduciary does rely upon other means but the interest-holder proves, in fact, to be a foreign person, then the entity or fiduciary is subject to any liability imposed pursuant to section 1445 and regulations thereunder.

An entity or fiduciary is not required to rely upon other means to ascertain the non-foreign status of an interest-holder and may demand a certification of non-foreign status. If the certification is not provided, the entity or fiduciary may withhold tax under section 1445 and will be considered, for purposes of sections 1461 through 1463, to have been required to withhold such tax.

(ii) *Interest-holder's certification of non-foreign status*—(A) *In general.* For purposes of this section, an entity or fiduciary may treat any holder of an interest in the entity as a U.S. person if that interest-holder furnishes to the entity or fiduciary a certification stating that the interest-holder is not a foreign person, in accordance with the provisions of paragraph (b)(3)(ii)(B) of this section. In general, a foreign person is a nonresident alien individual, foreign corporation, foreign partnership, foreign trust, or foreign estate, but not a resident alien individual. In this regard, see § 1.897–1(k).

(B) *Procedural rules.* An interest-holder's certification of non-foreign status must—

(*1*) State that the interest-holder is not a foreign person;

(*2*) Set forth the interest-holder's name, identifying number, home address (in the case of an individual), or office address (in the case of an entity), and place of incorporation (in the case of a corporation); and

(*3*) Be signed under penalties of perjury.

Pursuant to §1.897–1(p), an individual's identifying number is the individual's Social Security number and any other person's identifying number is its U.S. employer identification number. The certification must be signed by a responsible officer in the case of a corporation, by a general partner in the case of a partnership, and by a trustee, executor, or equivalent fiduciary in the case of a trust or estate. No particular form is needed for a certification pursuant to this paragraph (b)(3)(ii)(B), nor is any particular language required, so long as the document meets the requirements of this paragraph. Samples of acceptable certifications are provided in paragraph (b)(3)(ii)(D) of this section. An entity may rely upon a certification pursuant to this paragraph (b)(3)(ii)(B) for a period of two calendar years following the close of the calendar year in which the certification was given.

If an interest holder becomes a foreign person within the period described in the preceding sentence, the interest-holder must notify the entity prior to any further dispositions or distributions and upon receipt of such notice (or any other notification of the foreign status of the interest-holder) the entity may no longer rely upon the prior certification. An entity that obtains and relies upon a certification must retain that certification with its books and records for a period of three calendar years following the close of the last calendar year in which the entity relied upon the certification.

(C) *Foreign corporation that has made an election under section 897(i).* A foreign corporation that has made a valid election under section 897(i) to be treated as a domestic corporation for purposes of section 897 may provide a certification of non-foreign status pursuant to this paragraph (b)(3)(ii). However, an electing foreign corporation must attach to such certification a copy of the acknowledgment of the election provided to the corporation by the Internal Revenue Service pursuant to §1.897–3(d)(4).

An acknowledgment is valid for this purpose only if it states that the information required by §1.897–3 has been determined to be complete.

(D) *Sample certifications*—(*1*) *Individual interest-holder.*

"Under section 1445(e) of the Internal Revenue Code, a corporation, partnership, trust or estate must withhold tax with respect to certain transfers of property if a holder of an interest in the entity is a foreign person. To inform (*name of entity*) that no withholding is required with respect to my interest in it, I, (*name of interest-holder*), hereby certify the following:

1. I am not a nonresident alien for purposes of U.S. income taxation;

2. My U.S. taxpayer identifying number (Social Security number) is _______; and

3. My home address is

____

____

I agree to inform [name of entity] promptly if I become a nonresident alien at any time during the three years immediately following the date of this notice.

I understand that this certification may be disclosed to the Internal Revenue Service by (*name of entity*) and that any false statement I have made here could be punished by fine, imprisonment, or both.

Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct, and complete.

[*Signature and date*]"

(*2*) *Entity interest-holder.* "Under section 1445(e) of the Internal Revenue Code, a corporation, partnership, trust, or estate must withhold tax with respect to certain transfers of property if a holder of an interest in the entity is a foreign person. To inform [*name of entity*] that no withholding is required with respect to [*name of interest-holder*]'s interest in it, the undersigned hereby certifies the following on behalf of [*name of interest-holder*]:

1. [*Name of interest-holder*] is not a foreign corporation, foreign partnership, foreign trust, or foreign estate (as those terms are defined in the Internal Revenue Code and Income Tax Regulations);

2. [*Name of interest-holder*]'s U.S. employer identification number is _______; and

3. [*Name of interest-holder*]'s office address is

____

and place of incorporation (if applicable) is

____

[*Name of interest holder*] agrees to inform [*name of entity*] if it becomes a foreign person at any time during the three year period immediately following the date of this notice.

[*Name of interest-holder*] understands that this certification may be disclosed to the Internal Revenue Service by [*name of entity*] and that any false statement contained herein could be punished by fine, imprisonment, or both.

Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct, and complete, and I further declare that I have authority to sign this document on behalf of [*name of interest-holder*].

[*Signature and date*]

[*Title*]''

(iii) *Reliance upon certification not permitted.* An entity or fiduciary may not rely upon an interest-holder's certification of non-foreign status if, prior to or at the time of the transfer with respect to which withholding would be required, the entity or fiduciary either—

(A) Has actual knowledge that the certification is false;

(B) Has received a notice that the certification is false from a transferor's or transferee's agent, pursuant to § 1.1445–4; or

(C) Has received from a corporation that it knows to be a foreign corporation a certification that does not have attached to it a copy of the IRS acknowledgment of the corporation's election under section 897(i), as required by paragraph (b)(3)(ii)(C) of this section. Such an entity's or fiduciary's withholding obligations shall apply as if a statement had never been given, and such an entity or fiduciary may be held fully liable pursuant to § 1.1445–1(e) for any failure to withhold. For special rules concerning an entity's belated receipt of a notice concerning a false certification, see paragraphs (c)(2)(ii) and (e)(2)(iii) of this section.

(4) *Property transferred not a U.S. real property interest*—(i) *In general.* Pursuant to the provisions of paragraphs (c) and (d) of this section, an entity or fiduciary is required to withhold with respect to certain transfers of property, if the property transferred is a U.S. real property interest. (In addition, taxable distributions of U.S. real property interests by domestic or foreign partnerships, trusts, and estates will be subject to withholding pursuant to section 1445(e)(4) and paragraph (f) of this section after publication of a Treasury decision under sections 897 (e)(2) and (g). As defined in section 897(c) and § 1.897–1(c), a U.S. real property interest includes certain interests in U.S. corporations, as well as direct interests in real property and certain associated personal property. This paragraph (b)(4) provides rules pursuant to which an entity (or fiduciary thereof) that transfers an interest in a U.S. corporation may determine that withholding is not required because the interest transferred is not a U.S. real property interest. To determine whether an interest in tangible property constitutes a U.S. real property interest the transfer of which would be subject to withholding, see § 1.897–1 (b) and (c).

(ii) *Interests in publicly traded entities.* Withholding is not required under paragraph (c) or (d) of this section upon an entity's transfer of an interest in a domestic corporation if any class of stock of the corporation is regularly traded on an established securities market. This exemption shall apply to a disposition incident to an initial public offering of stock pursuant to a registration statement filed with the Securities and Exchange Commission.

Similarly, no withholding is required under paragraph (c) or (d) of this section upon an entity's transfer of an interest in a publicly traded partnership or trust. However, the rule of this paragraph (b)(4)(ii) shall not apply to the transfer, to a single transferee (or related transferees as defined in § 1.897–1(i)) in a single transaction (or related transactions), of an interest described in § 1.897–1(c)(2)(iii)(B) (relating to substantial amounts of non-publicly traded interests in publicly traded corporations) or of similar interests in publicly traded partnerships or trusts. The entity making a transfer described in the preceding sentence must otherwise determine whether withholding is required, pursuant to section 1445(e) and the regulations thereunder. Transactions shall be deemed to be related if they are undertaken within 90 days of one another or if it can otherwise be shown that they were undertaken in pursuance of a prearranged plan.

(iii) *Corporation's statement that interest is not a U.S. real property interest.* (A) *In general.* No withholding is required under paragraph (c) or (d) of this section upon an entity's transfer of an interest in a domestic corporation if, prior to the transfer, the entity or fiduciary obtains a statement, issued by the corporation pursuant to §1.897–2(h), certifying that the interest is not a U.S. real property interest. In general, a corporation may issue such a statement only if the corporation was not a U.S. real property holding corporation at any time during the previous five years (or the period in which the interest was held by its present holder, if shorter) or if interests in the corporation ceased to be United States real property interests under section 897(c)(1)(B). (A corporation may not provide such a statement based on its determination that the interest in question is an interest solely as a creditor.) See §1.897–2 (f) and (h). A corporation's statement may be relied upon for purposes of this paragraph (b)(4)(iii) only if the statement is dated not more than 30 days prior to the date of the transfer.

(B) *Reliance on statement not permitted.* An entity or fiduciary is not entitled to rely upon a statement that an interest in a corporation is not a U.S. real property interest, if, prior to or at the time of the transfer, the entity or fiduciary either—

(*1*) Has actual knowledge that the statement is false, or

(*2*) Receives a notice that the statement is false from a transferor's or transferee's agent, pursuant to §1.1445–4.

Such an entity's or fiduciary's withholding obligations shall apply as if a statement had never been given, and such an entity or fiduciary may be held fully liable pursuant to §1.1445–1(e) for any failure to withhold. For special rules concerning an entity's belated receipt of a notice concerning a false statement, see paragraphs (c)(2)(iii) and (d)(2)(i) of this section.

(5) *Reporting and paying over of withheld amounts*—(i) *In General.* An entity or fiduciary must report and pay over to the Internal Revenue Service any tax withheld pursuant to section 1445(e) and this section by the 20th day after the date of the transfer (as defined in §1.1445–1(g)(8). Forms 8288 and 8288–A are used for this purpose and must be filed with the Internal Revenue Service Center, Philadephia, PA 19255. The contents of Forms 8288 and 8288–A are described in §1.1445–1(d). Pursuant to section 7502 and regulations thereunder, the timely mailing of Forms 8288 and 8288–A by U.S. mail will be treated as their timely filing. Form 8288–A will be stamped by the Internal Revenue Service to show receipt, and a stamped copy will be mailed by the Service to the interest-holder, at the address shown on the form, for the interest-holder's use. See paragraph (b)(7) of this section. If an application for a withholding certificate with respect to a transfer of a U.S. real property interest was submitted to the Internal Revenue Service on the day of or at any time prior to the transfer, the entity or fiduciary must withold the amount required under section 1445(e) and the rules of this section. However, the amount withheld, or a lesser amount as determined by the Service, need not be reported and paid over to the Service until the 20th day following the Service's final determination. For this purpose, the Service's final determination occurs on the day when the withholding certificate is mailed to the applicant by the Service or when a notification denying the request for a withholding certificate is mailed to the applicant by the Service. An application is submitted to the Service on the day it is actually received by the Service at the address provided in §1.1445–1(g)(10) or, under the rules of section 7502, on the day it is mailed to the Service at the address provided in §1.1445–1(g)(10). For rules concerning the issuance of withholding certificates, see §1.1445–6.

(ii) *Anti-abuse rule.* An entity or fiduciary that in reliance upon the rules of this paragraph (b)(5)(ii) fails to report and pay over amounts withheld by the 20th day following the date of the transfer, shall be subject to the payment of interest and penalties if the relevant application for a withholding certificate (or an amendment of the application for a withholding certificate) was submitted for a principle purpose of delaying the payment to the IRS of the amount withheld. Interest and penalties shall be assessed on the amount that is ultimately paid over, with respect to the period between the 20th day after the date of the transfer and the date on which payment is made.

(6) *Liability upon failure to withhold.* For rules regarding liability upon failure to withhold under section 1445(e) and this § 1.1445–5, see § 1.1445–1(e).

(7) *Effect of withholding by entity or fiduciary upon interest holder.* The withholding of tax under section 1445(e) does not excuse a foreign person that is subject to U.S. tax by reason of the operation of section 897 from filing a U.S. tax return. Thus, Form 1040NR. 1041. or 1120F, as appropriate must be filed and any tax due must be paid, by the filing date otherwise applicable to such person (or any extension thereof). The tax withheld with respect to the foreign person under section 1445(e) (as shown on Form 8288–A) shall be credited against the amount of income tax as computed in such return, but only if the stamped copy of Form 8288–A provided to the entity or fiduciary (under paragraph (b)(5) of this section) is attached to the return or substantial evidence of the amount of tax withheld is attached to the return in accordance with the succeeding sentence. If a stamped copy of Form 8288–A has not been provided to the interest-holder by the Service, the interest-holder may establish the amount of tax withheld by the entity or fiduciary by attaching to its return substantial evidence of such amount. Such an interestholder must attach to its return a statement which supplies all of the information required by § 1.1445–1(d) (2) (expect such information that was not obtained by a diligent effort.) If the amount withheld under section 1445(e) constitutes less than the full amount of the foreign person's U.S. tax liability for that taxable year, then a payment of estimated tax may be required to be made pursuant to section 6154 or 6654 prior to the filing of the income tax return for the year. Alternatively, if the amount withheld under section 1445(e) exceeds the foreign person's maximum tax liability with respect to the transaction (*as reflected* in a withholding certificate issued by the Internal Revenue Service pursuant to § 1.1445–6), then the foreign person may seek an early refund of the excess pursuant to § 1.1445–6(g). A foreign person that takes gain into account in accordance with the provisions of section 453 shall not be entitled to a refund to the amount withheld, unless a withholding certificate providing for such a refund is obtained pursuant to § 1.1445–6. If an entity or fiduciary withholds tax under section 1445(e) with respect to a beneficial owner of an interest who is not a foreign person, such beneficial owner may credit the amount of any tax withheld against his income tax liability in accordance with the provisions of this § 1.1445–5(b)(7) or apply for an early refund under § 1.1445–6(g).

(8) *Effective dates*—(i) *Partnership, trust, and estate dispositions of U.S. real property interests.* The provisions of section 1445(e)(1) and paragraph (c) of this section, requiring withholding upon certain dispositions of U.S. real property interests by domestic partnerships, trusts, and estates, shall apply to any disposition on or after January 1, 1985.

(ii) *Certain distributions by foreign corporations.* The provisions of section 1445(e)(2) and paragraph (d) of this section, requiring withholding upon distributions of U.S. real property interests by foreign corporations shall apply to distributions made on or after January 1, 1985.

(iii) *Distributions by certain domestic corporations to foreign shareholders.* The provisions of section 1445(e)(3) and paragraph (e) of this section, requiring withholding upon distributions by U.S. real property holding corporations to foreign shareholders, shall apply to distributions made on or after January 1. 1985.

(iv) *Taxable distributions by domestic or foreign partnerships, trusts, and estates.* The provisions of section 1445(e)(4), requiring withholding upon certain taxable distributions by domestic or foreign partnerships, trusts, and estates, shall apply to distributions made on or after the effective date of a Treasury decision under section 897 (e)(2)(B)(ii) and (g).

(v) [Reserved]

(vi) *Tiered Partnerships.* No withholding is required upon the disposition of a U.S. real property interest by a partnership which is directly owned, in whole or in part, by another domestic partnership (but only to the extent that the amount realized is attributable to the partnership interest of that other partnership) until the effective date of a Treasury Decision published under section 1445(e) providing rules governing this matter.

(c) *Dispositions of U.S. real property interests by domestic partnerships, trusts, and estates*—(1) *Withholding required*—(i) *In general.* If a domestic partnership, trust, or estate disposes of a U.S. real property interest and any partner, beneficiary, or owner of the entity is a foreign person, then the partnership or the trustee, executor, or equivalent fiduciary of the trust or estate must withhold tax with respect to each such foreign person in accordance with the provisions of subdivision (ii), (iii), or (iv), of this paragraph (c)(1) (as applicable). The withholding obligation imposed by this paragraph (c) applies to the fiduciary of a trust even if the grantor of the trust or another person is treated as the owner of the trust or any portion thereof for purposes of the Internal Revenue Code. Thus, the withholding obligation imposed by this paragraph (c) applies to the trustee of a land trust or similar arrangement, even if such a trustee is not ordinarily treated under the applicable provisions of local law as a true fiduciary.

(ii) *Disposition by partnership.* A partnership must withhold a tax equal to 35 percent (or the highest rate specified in section 1445(e)(1)) of each foreign partner's distributive share of the gain realized by the partnership upon the disposition of each U.S. real property interest. Such distributive share of the gain must be determined pursuant to the principles of section 704 and the regulations thereunder. For the rules applicable to partnerships, interests in which are regularly traded on an established securities market, see §1.1445–8.

(iii) *Disposition by trust or estate.*—(A) *In general.* A trustee, fiduciary, executor or equivalent fiduciary (hereafter collectively referred to as the fiduciary) of a trust or estate having one or more foreign beneficiaries must withhold tax in accordance with the rules of this §1.1445–5(c)(1)(iii). Such a fiduciary must establish a U.S. real property interest account and must enter in such account all gains and losses realized during the taxable year of the trust or estate from dispositions of U.S. real property interests. The fiduciary must withhold 35 percent (or the highest rate specified in section 1445(e)(1)) of any distribution to a foreign beneficiary that is attributable to the balance in the U.S. real property interest account on the day of the distribution. A distribution from a trust or estate to a beneficiary (domestic or foreign) shall, solely for purposes of section 1445(e)(1), be deemed to be attributable first to any balance in the U.S. real property interest account and then to other amounts. However, a distribution that occurs prior to the transfer of a U.S. real property interest in a taxable year or at any other time when the amount contained in the U.S. real property interest account is zero, is not subject to withholding under this §1.1445–5(c)(1)(iii). The U.S. real property interest account is reduced by the amount distributed to all beneficiaries (domestic and foreign) attributable to such account during the taxable year of the trust or estate. Any ending balance of the U.S. real property interest account not distributed by the close of the taxable year of the trust or estate is cancelled and is not carried over (or carried back) to any other year. Thus, the beginning balance of such account in any taxable year of the trust or estate is always zero. For rules applicable to grantor trusts see §1.1445–5(c)(1)(iv). For rules applicable to trusts, interests in which are regularly traded on an established securities market and real estate investment trusts, see §1.1445–8.

(B) *Example.*The following example illustrates the rules of paragraph (c)(1)(iii)(A) of this section.

On January 1, 1994, A establishes a domestic trust (which has as its taxable year, the calendar year) for the benefit of B, a nonresident alien, and C, a U.S. citizen. The trust is not a trust subject to sections 671 through 679. Under the terms of the trust, the trustee, T, is given discretion to distribute income and corpus of the trust to provide for the reasonable needs of B and C. During the trust's 1994 tax year, T disposes of three parcels of vacant land located in the United States. The following chart illustrates the computation of the amount subject to withholding under section 1445 with respect to distributions made by T to B and C during 1994.

Date	Parcel sold	Gains or (loss) realized	Distributions to C	Distributions to B (before withholding)	Section 1445 withholding 35% rate	U.S. real property interest account
1/01/94						-0-
3/01/94	Parcel 1	140,000				140,000
3/05/94			5,000	10,000	3,500	125,000
3/15/94			10,000	5,000	1,750	110,000
5/01/94	Parcel 2	300,000				410,000
5/15/94	Parcel 3	(50,000)				360,000
12/01/94			170,000	170,000	59,500	20,000
1/01/95						-0-

(iv) *Disposition by grantor trust.* The trustee or equivalent fiduciary of a trust that is subject to the provisions of subpart E of part 1 of subchapter J (sections 671 through 679) must withhold a tax equal to 35 percent (or the highest rate specified in section 1445(e)(1)) of the gain realized from each disposition of a U.S. real property interest to the extent such gain is allocable to a portion of the trust treated as owned by a foreign person under subpart E of part 1 of subchapter J.

(2) *Withholding not required under paragraph (c)*—(i) [Reserved]

(ii) *Interest-holder not a foreign person*—(A) *In general.* A domestic partnership, trust, or estate that disposes of a U.S. real property interest shall not be required to withhold with respect to any partner or beneficiary that it determines, pursuant to the rules of paragraph (b)(3) of this section, not to be a foreign person.

(B) *Belated notice of false certification.* If after the date of the transfer a partnership or fiduciary learns that a partner's or beneficiary's certification of non-foreign status is false, then that partnership or fiduciary shall be required to withhold, with respect to the foreign partner or beneficiary that gave the false certification, the lessor of—

(*1*) The amount otherwise required to be withheld under the rules of this paragraph (c), or

(*2*) An amount equal to that partner's or beneficiary's remaining interests in the income or assets of the partnership, trust, or estate. Amounts so withheld must be reported and paid over by the 60th day following the date on which the partnership or fiduciary learns that the certification is false. For rules concerning the notifications of false certifications that may be required to be given to partnerships and fiduciaries, see § 1.1445–4(b).

(iii) *Property disposed of not a U.S. real property interest*—(A) *In general.* No withholding is required under this paragraph (c) if a domestic partnership, trust, or estate that disposes of property determines pursuant to the rules of paragraph (b)(4) of this section that the property disposed of is not a U.S. real property interest.

(B) *Belated notice of false statement.* If after the date of the transfer a partnership or fiduciary learns that a corporation's statement (that an interest in the corporation is not a U.S. real property interest) is false, then that partnership or fiduciary shall be required to withhold, with respect to each foreign partner or beneficiary, the lesser of—

(*1*) The amount otherwise required to be withheld under the rules of this paragraph (c), or

(*2*) An amount equal to that partner's or beneficiary's remaining interests in the income or assets of the parnership, trust, or estate.

Amounts so withheld must be reported and paid over by the 60th day following the date on which the partnership or fiduciary learns that the statement is false. For rules concerning the notifications of false statements that may be required to be given to partnerships or fiduciaries, see § 1.1445–4(b).

(iv) *Withholding certificate.* No withholding is required under this paragraph (c) with respect to the transfer of a U.S. real property interest if the Internal Revenue Service issues a withholding certificate that so provides. For rules concerning the issuance of withholding certificates, see § 1.1445–6.

(v) *Nonrecognition transactions.* For special rules concerning transactions entitled to nonrecognition of gain or loss, see paragraph (b)(2) of this section.

(3) *Large partnerships or trusts*—(i) *In general.* If a partnership or trust has more than 100 partners or beneficiaries, then the partnership or fiduciary of the trust may elect to withhold in accordance with the provisions of this §1.1445–5(c)(3) in lieu of withholding in the manner required by §1.1445–5(c)(1). However, the rules of this §1.1445–5(c)(3) shall not apply to any partnership or trust interests in which are regularly traded on an established securities market except as described in §1.1445–8(c)(1). The rules of this §1.1445–5(c)(3) shall not apply to any real estate investment trust. See §1445–8.

(ii) *Amount to be withheld.* A partnership or trust electing to withhold under this §1.1445–5(c)(3) shall withhold from each distribution to a foreign person an amount equal to 35 percent (or the highest rate specified in section 1445(e)(1)) of the amount attributable to section 1445(e)(1) transfers.

(iii) *Amounts attributable to section 1445(e)(1) transfers.* A distribution is attributable to section 1445(e)(1) transfers to the extent of the partner's or beneficiary's proportionate share of the current balance of the entity's section 1445(e)(1) account. A distribution from a partnership or trust that has made an election under this §1.1445–5(c)(3) shall be deemed first to be attributable to a section 1445(e)(1) transfer to the extent of the balance in the section 1445(e)(1) account. An entity's section 1445(e)(1) account shall be equal to—

(A) The total amount of net gain realized by the entity upon all transfers of U.S. real property interests carried out by the entity after the date of its election under this §1.1445–5(c)(3); minus

(B) The total amount of all distributions by the entity to domestic and foreign distributees from such account.

(iv) *Special rules for entities that make recurring sales of growing crops and timber.* An entity that makes an election under §1.1445–5(c)(3) and that makes recurring sales of growing crops and timber may further elect to determine the amount subject to withholding under the rules of this §1.1445–5(c)(3)(iv). Such an entity must withhold from each distribution to a foreign partner or beneficiary an amount equal to 10 percent of such partner's or beneficiary's proportionate share of the current balance of the entity's gross section 1445(e)(1) account. An entity's gross section 1445(e)(1) account equals—

(A) The total amount realized by the entity upon all transfers of U.S. real property interests carried out by the entity after the date of its election under this §1.1445–5(c)(3)(iv); minus

(B) The total amount of all distributions to domestic and foreign distributees from such account.

An entity that elects to compute the amount subject to withholding under this §1.1445–5(c)(3)(iv), shall make such election in accordance with §1.1445–5(c)(3)(vi) and shall be subject to the provisions otherwise applicable under §1.1445–5(c)(3).

(v) *Procedural rules.* An election under paragraph (c)(3) may be made by filing a notice thereof with the Assistant Commissioner (International), at the address provided in §1.1445–1(g)(10). The notice must be submitted by a general partner (in the case of a partnership) or the trustee or equivalent fiduciary (in the case of a trust). The notice must set forth the name, office address, and identifying number of the partnership or fiduciary making the election, and, in the case of a partnership, must include the name, office address, and identifying number of the general partner submitting the election. An election under this paragraph (c)(3) may be revoked only with the consent of the Internal Revenue Service. Consent of the Service may be requested by filing an application to revoke the election with the Assistant Commissioner (International) at the address stated above. This application must include all information provided to the Service with the election notice and must provide an explanation of the reasons for revoking the election. The application to revoke an election must also specify the amount remaining to be distributed in the section 1445(e)(1) account or the gross section 1445(e)(1) account.

An entity that ceases to qualify under section 1.1445–5(c)(3) because such entity does not have more than 100 partners or beneficiaries may revoke its election only with the consent of the Internal Revenue Service.

(d) *Distributions of U.S. real property interests by foreign corporations*—(1) *In general.* A foreign corporation that distributes a U.S. real property interest must deduct and withhold a tax equal to 35 percent (or the rate specified in section 1445(e)(2)) of the amount of gain recognized by the corporation on the distribution. The amount of gain required to be recognized by the corporation must be determined pursuant to the rules of section 897 and any other applicable section. For special rules concerning the applicability of a nonrecognition provision to a distribution, see paragraph (b)(2) of this section. The withholding liability imposed by this paragraph (d) applies to the same taxpayer that owes the related substantive income tax liability pursuant to the operation of section 897. Only one such liability will be assessed and collected from a foreign corporation, but separate penalties for failures to comply with the two requirements will be asserted.

(2) *Withholding not required*—(i) *Property distributed not a U.S. real property interest*—(A) *In general.* No withholding is required under this paragraph (d) if a foreign corporation that distributes property determines pursuant to the rules of paragraph (b)(3) of this section that the property distributed is not a U.S. real property interest.

(B) *Belated notice of false statement.* If after the date of a distribution described in paragraph (d)(1) of this section a foreign corporation learns that another corporation's statement (that an interest in that other corporation is not a U.S. real property interest) is false, then the foreign corporation may not rely upon that statement for any purpose. Such a foreign corporation's withholding obligations under this paragraph (d) shall apply if a statement had never been given, and such a corporation may be held fully liable pursuant to § 1.1445–5(b)(5) for any failure to withhold. Amounts withheld pursuant to the rule of this paragraph (d)(2)(i)(B) must be reported and paid over by the 60th day following the date on which the foreign corporation learns that the statement is false. No penalties or interest will be assessed for failures to withhold prior to that date. For rules concerning the notifications of false statements that may be required to be given to foreign corporations, see § 1.1445–4(b).

(ii) *Withholding certificate.* No withholding is required under this paragraph (d) with respect to a foreign corporation's distribution of a U.S. real property interest if the distributing corporation obtains a withholding certificate from the Internal Revenue Service that so provides. For rules concerning the issuance of withholding certificates, see § 1.1445–6.

(e) *Distributions to foreign persons by U.S. real property holding corporations*—(1) *In general.* A domestic corporation that distributes any property to a foreign person that holds an interest in the corporation must deduct and withhold a tax equal to 10 percent of the fair market value of the property distributed to the foreign person, if—

(i) The foreign person's interest in the corporation constitutes a U.S. real property interest under the provisions of section 897 and regulations thereunder; and

(ii) The property is distributed either—

(A) In redemption of stock under section 302; or

(B) In liquidation of the corporation pursuant to the provisions of part II of subchapter C (sections 331 through 341). For the treatment of a domestic corporation's transfer of a U.S. real property interest to a foreign interest-holder in a distribution to which section 301 applies, see sections 897(f), 1441, and 1442.

(2) *Withholding not required*—(i) *Foreign person's interest not a U.S. real property interest.* Withholding is required under this paragraph (e) only with respect to distributions to foreign persons holding interests in the corporation that constitute U.S. real property interests. In general, a foreign person's interest in a domestic corporation constitutes a U.S. real property interest if the corporation was a U.S real property holding corporation at any time during the shorter of (A) the period in which the foreign person held the interest or (B) the previous five years (but not earlier than June 19, 1980). See section 897(c) and §§ 1.897–1(c) and 1.897–2 (b) and (h). However, an interest in such a corporation ceases to be a U.S.

real property interest after all of the U.S. real property interests held by the corporation itself are disposed of in transactions on which gain or loss is recognized. See section 897(c)(1)(B) and §1.897–2(f)(2). Thus, if a U.S. real property holding corporation in the process of liquidation does not elect section 337 nonrecognition treatment upon its sale of all U.S. real property interests held by the corporation, and recognizes gain or loss upon such sales, interests in that corporation cease to be U.S. real property interests. Therefore, no withholding would be required with respect to that corporation's subsequent liquidating distribution to a foreign shareholder of property other than a U.S. real property interest.

(ii) *Nonrecognition transactions.* For special rules concerning the applicability of a nonrecognition provision to a distribution described in paragraph (e)(1) of this section, see paragraph (b)(2) of this section.

(iii) *Interest-holder not a foreign person*—(A) *In general.* A domestic corporation shall not be required to withhold under this paragraph (e) with respect to a distribution of property to any distributee that it determines, pursuant to the rules of paragraph (b)(3) of this section, not to be a foreign person.

(B) *Belated notice of false certification.* If after the date of a distribution described in paragraph (e)(1) of this section a domestic corporation learns that an interest-holder's certification of non-foreign status is false, then the corporation may rely upon that certification only if the person providing the false certification holds (or held) less than 10 percent of the value of the outstanding stock of the corporation. With respect to less than 10 percent interest-holders, no withholding is required under this paragraph (e) upon receipt of a belated notice of false certification. With respect to 10 percent or greater interest-holders, the corporation's withholding obligations under this paragraph (e) shall apply as if a certification had never been given, and such a corporation may be held fully liable pursuant to §1.1445–5(b)(6) for any failure to withhold as of the date specified in this §1.1445–5(e)(2)(iii)(B). Amounts withheld pursuant to the rule of this paragraph (e)(2)(iii)(B) must be reported and paid over by the 60th day following the date on which the corporation learns that the certification is false. No penalties or interest for failures to withhold will be assessed prior to that date. For rules concerning the notifications of false certifications that may be required to be given to U.S. real property holding corporations, see §1.1445–4(b).

(iv) *Withholding certificate.* No withholding, or reduced withholding, is required under this paragraph (e) with respect to a domestic corporation's distribution of property if the distributing corporation obtains a withholding certificate from the Internal Revenue Service that so provides. For rules concerning the issuance of withholding certificates, see §1.1445–6.

(f) *Taxable distributions by domestic or foreign partnerships, trusts, or estates.* [Reserved]

(g) *Dispositions of interests in partnerships, trusts, and estates.* [Reserved]

[T.D. 8113, 51 FR 46642, Dec. 24, 1986; 52 FR 3796, 3917, Feb. 6, 1987, as amended at T.D. 8198, 53 FR 16230, May 5, 1988; T.D. 8321, 55 FR 50553, Dec. 7, 1990; T.D. 8647, 60 FR 66076, Dec. 21, 1995; 61 FR 7157, Feb. 26, 1996; T.D. 8734, 62 FR 53467, Oct. 14, 1997]

EFFECTIVE DATE NOTE: By T.D. 8734, 62 FR 53467, Oct. 14, 1997, §1.1445–5 was amended in paragraph (b)(1), by revising the second sentence, effective Jan. 1, 1999. By T.D. 8804, 63 FR 72183, Dec. 31, 1998, the effectiveness of §1.1445–5 was delayed until Jan. 1, 2000. For the convenience of the user, the superseded text is set forth as follows:

§1.1445–5 Special rules concerning distributions and other transactions by corporations, partnerships, trusts, and estates.

* * * * *

(b) * * * (1) * * * If tax is required to be withheld under section 1441 or 1442 with respect to a transfer of property, withholding shall not be required under section 1445 or §1.1445–5. * * *

* * * * *

§1.1445–6 Adjustments pursuant to withhold certificate of amount required to be withheld under section 1445(e).

(a) *Withholding certificate for purposes of section 1445(e)*—(1) *In general.* Pursuant to the provisions of §1.1445–5 (c)(2)(iv), (d)(2)(ii), and (e)(2)(iv), withholding under section 1445(e) may be reduced or eliminated pursuant to a withholding certificate issued by the Internal Revenue Service in accordance with the rules of this § 1.1445–6. A withholding certificate may be issued in cases where adjusted withholding is appropriate (e.g., because of the applicability of a nonrecognition provision—see paragraph (c) of this section), where the relevant taxpayers are exempt from U.S. tax (see paragraph (d) of this section), or where an agreement for the payment of tax is entered into with the Service (see paragraph (e) of this section). A withholding certificate that is obtained prior to a transfer allows the entity or fiduciary to withhold a reduced amount or excuses withholding entirely. A withholding certificate that is obtained after a transfer has been made may authorize a normal refund or an early refund pursuant to paragraph (g) of this section. The Internal Revenue Service will act upon an application for a withholding certificate not later than the 90th day after it is received. (The Service may deny a request for a withholding certificate where, after due notice, an applicant fails to provide the information necessary to make a determination.) Solely for this purpose (i.e., determining the day upon which the 90 day period commences), an application is received by the Service on the date when all information necessary for the Service to make a determination is provided by the applicant. (For rules regarding whether an application has been timely submitted, see § 1.1445–5(b)(5)). The Internal Revenue Service will act upon an application for an early refund not later than the 90th day after it is received. An application for an early refund must either (i) include a copy of a withholding certificate issued by the Service with respect to the transaction, or (ii) be combined with an application for a withholding certificate. Where an application for an early refund is combined with an application for a withholding certificate, the Service will act upon both applications not later than the 90th day after receipt. Either an entity, a fiduciary, or a relevant taxpayer (as defined in paragraph (a)(2) of this section) may apply for a withholding certificate. An entity or fiduciary may apply for a withholding certificate with respect to all or less than all relevant taxpayers. For special rules concerning the issuance of a withholding certificate to a foreign corporation that has made an election under section 897(i), see § 1.1445–7(d).

(2) *Relevant taxpayer.* For purposes of this section, the term ‘‘relevant taxpayer’’ means any foreign person that will bear substantive income tax liability by reason of the operation of section 897 with respect to a transaction upon which withholding is required under section 1445(e).

(b) *Applications for withholding certificates*—(1) *In general.* An application for a withholding certificate pursuant to this § 1.1445–6 must be submitted in the manner provided in § 1.1445—3 (b). However, in lieu of the information required to be submitted pursuant to § 1.1445–3(b)(4), the applicant must provide the information required by paragraph (b)(2) of this section. In addition, the information required by paragraph (b)(3) of this section must be submitted with the application.

(2) *Basis for certificate*—(i) *Adjusted withholding.* If a withholding certificate is sought on the basis of a claim that adjusted withholding is appropriate, the application must include a calculation, in accordance with paragraph (c) of this section, of the maximum tax that may be imposed on each relevant taxpayer with respect to which adjusted withholding is sought. The application must also include all evidence necessary to substantiate the claimed calculation, such as records of adjustments to basis or appraisals of fair market value.

(ii) *Exemption.* If a withholding certificate is sought on the basis of a relevant taxpayer’s exemption from U.S. tax, the application must set forth a brief statement of the law and facts that support the claimed exemption. See paragraph (d) of this section.

(iii) *Agreement.* If a withholding certificate is sought on the basis of an agreement for the payment of tax, the application must include a copy of the agreement proposed by the applicant and a copy of the security instrument (if any) proposed by the applicant. In this regard, see paragraph (e) of this section.

(3) *Relevant taxpayers.* An application for withholding certificate pursuant to this section must set forth the name, identifying number (if any) and home address (in the case of an individual) or office address (in the case of an entity) of each relevant taxpayer with respect to which adjusted withholding is sought.

(c) *Adjustment of amount required to be withheld.* The Internal Revenue Service may issue a withhold certificate that excuses withholding or that permits an entity or fiduciary to withhold an adjusted amount reflecting the relevant taxpayers' maximum tax liability. A relevant taxpayer's maximum tax liability is the maximum amount which that taxpayer could be required to pay as tax by reason of the transaction upon which withholding is required. In the case of an individual taxpayer that amount will generally be the gain realized by the individual, multiplied by the maximum individual income tax rate applicable to long term capital gain. In the case of a corporate taxpayer, that amount will generally be the gain realized by the corporation, multiplied by the maximum corporate income tax rate applicable to long term capital gain. However, that amount must be adjusted to take into account the following:

(1) Any reduction of tax to which the relevant taxpayer is entitled under the provisions of a U.S. income tax treaty;

(2) The effect of any nonrecognition provision that is applicable to the transaction;

(3) Any losses previously realized and recognized by the relevant taxpayer during the taxable year by reason of the operation of section 897;

(4) Any amount realized upon the subject transfer by the relevant taxpayer that is required to be treated as ordinary income under any provision of the Code; and

(5) Any other factor that may increase or reduce the tax upon the transaction.

(d) *Relevant taxpayer's exemption from U.S. tax*—(1) *In general.* The Internal Revenue Service will issue a withholding certificate that excuses withholding by an entity or fiduciary if it is established that a relevant taxpayer's income from the transaction will be exempt from U.S. tax. For the available exemptions, see paragraph (d)(2) of this section. If a relevant taxpayer is entitled to a reduction of (rather than an exemption from) U.S. tax, then the entity or fiduciary may obtain a withholding certificate to that effect pursuant to the provisions of paragraph (c) of this section.

(2) *Available exemptions.* A relevant taxpayer's income from a transaction with respect to which withholding is required under section 1445(e) may be exempt from U.S. tax because either:

(i) The relevant taxpayer is an integral part or controlled entity of a foreign government and the subject income is exempt from U.S. tax pursuant to section 892 and the regulations thereunder; or

(ii) The relevant taxpayer is entitled to the benefits of an income tax treaty that provides for such an exemption (subject to the limitations imposed by section 1125(c) of Pub. L. 96–499, which, in general overrides such benefits as of January 1, 1985).

(e) *Agreement for the payment of tax*—(1) *In general.* The Internal Revenue Service will issue a withholding certificate that excuses withholding or that permits an entity or fiduciary to withhold a reduced amount, if the entity, fiduciary, or a relevant taxpayer enters into an agreement for the payment of tax pursuant to the provisions of this paragraph (e). An agreement for the payment of tax is a contract between the Service and the entity, fiduciary, or relevant taxpayer that consists of two necessary elements. Those elements are—

(i) A contract between the Service and the other person, setting forth in detail the rights and obligations of each; and

(ii) A security instrument or other form of security acceptable to the Assistant Commissioner (International).

(2) *Contents of agreement*—(i) *In general.* An agreement for the payment of tax must cover an amount described in subdivision (ii) or (iii) of this paragraph (e)(2). The agreement may either

provide adequate security for the payment of the chosen amount with respect to the relevant taxpayer in accordance with paragraph (e)(3) of this section or provide for the payment of that amount through a combination of security and withholding of tax by the entity or fiduciary.

(ii) *Tax that would otherwise be withheld.* An agreement for the payment of tax may cover the amount of tax that would otherwise be required to be withheld with respect to the relevant taxpayer pursuant to section 1445(e). In addition to the amount computed pursuant to section 1445(e), the applicant must agree to pay interest upon that amount, at the rate established under section 6621, with respect to the period between the date on which withholding tax under section 1445(e) would otherwise be due and the date on which the relevant taxpayer's payment of tax with respect to the disposition will be due. The amount of interest agreed upon must be paid by the applicant regardless of whether or not the Service is required to draw upon any security provided pursuant to the agreement. The interest may be paid either with the return or by the Service drawing upon the security.

(iii) *Maximum tax liability.* An agreement for the payment of tax may cover the relevant taxpayer's maximum tax liability, determined in accordance with paragraph (c) of this section. The agreement must also provide for the payment of an additional amount equal to 25 percent of the amount determined under paragraph (c) of this section. This additional amount secures the interest and penalties that would accrue between the date of the relevant taxpayer's failure to file a return and pay tax with respect to the disposition, and the date of which the Service collects upon that liability pursuant to the agreement.

(iv) *Allocation of payment.* An agreement for the payment of tax pursuant to this section must set forth an allocation of the payment provided for by the agreement among the relevant taxpayers with respect to which the withholding certificate is sought. In the case of an agreement that covers an amount described in subdivision (ii) of this paragraph (e)(2), such allocation must be based upon the amount that would otherwise be required to be withheld with respect to each relevant taxpayer. In the case of an agreement that covers an amount described in subdivision (iii) of this paragraph (e)(2), such allocation must be based upon each relevant taxpayer's maximum tax liability.

(3) *Major types of security.* The major types of security that are acceptable to the Internal Revenue Service for purposes of this section are described in § 1.1445–3(e)(3).

(4) *Terms of security instrument.* Any security instrument that is furnished pursuant to this section must contain the terms described in § 1.1445–3(e)(4).

(f) *Amendments to application for withholding certificates*—(1) *In general.* An applicant for a withholding certificate may amend an otherwise complete application by submitting an amending statement to the Assistant Commissioner (International) at the address provided in § 1.1445–1(g)(10). The amending statement shall provide the information required by § 1.1445–6(f)(3) and must be signed and accompanied by a penalties of perjury statement in accordance with § 1.1445–6(b).

(2) *Extension of time for the Service to process requests for withholding certificates*—(i) *In general.* If an amending statement is submitted, the time in which the Internal Revenue Service must act upon the amended application shall be extended by 30 days.

(ii) *Substantial amendments.* If an amending statement is submitted and the Service finds that the statement substantially amends to the facts of the underlying application or substantially alters the terms of the withholding certificate as requested in the initial application, the time within which the Service must act upon the amended application shall be extended by 60 days. The applicant shall be so notified.

(iii) *Amending statement received after the requested withholding certificate has been signed by the Assistant Commissioner (International).* If an amending statement is received after the withholding certificate, drafted in response to the underlying application, has been signed by the Assistant Commissioner (International) or his delegate and prior to the day such certificate is mailed to the applicant, the time in which the Service must act upon the amended application shall be extended by 90 days.

(3) *Information required to be submitted.* No particular form is required for an amending statement but the statement must provide the following information:

(i) *Identification of applicant.* The amending statement must set forth the name, address, and identifying number (if any) of the person submitting the amending statement.

(ii) *Date of application.* The amending statement must set forth the date of the underlying application for a withholding certificate.

(iii) *Real property interest to be (or that has been) transferred.* The amending statement must set forth a brief description of the real property interest with respect to which the underlying application for a withholding certificate was submitted.

(iv) *Amending information.* The amending statement must fully set forth the basis for the amendment including any modification of the facts supporting the application for a withholding certificate and any change sought in the terms of the withholding certificate.

(g) *Early refund of overwithheld amounts.* If the Internal Revenue Service issues a withholding certificate pursuant to this section, and an amount greater than that specified in the certificate was withheld by the entity or fiduciary, then pursuant to the rules of this paragraph (g) a relevant taxpayer may apply for an early refund of a proportionate share of the excess amount (without interest) prior to the date on which the relevant taxpayer's return is due (without extensions). An application for an early refund must be addressed to the Assistant Commissioner (International), at the address provided in §1.1445–1(g)(10). No particular form is required for the application, but the following information must be set forth in separate paragraphs numbered to correspond with the numbers given below:

(1) Name, address, and identifying number (if any) of the relevant taxpayer seeking the refund;

(2) Amount required to be withheld pursuant to withholding certificate;

(3) Amount withheld by entity or fiduciary (attach a copy of Form 8288–A stamped by IRS pursuant to §1.1445–5(b)(4) or provide substantial evidence of the amount withheld in the case of a failure to receive Form 8288–A, as provided in §1.1445–5(b)(7)); and

(4) Amount to be refunded to the relevant taxpayer.

An application for an early refund cannot be processed unless the required copy of Form 8288–A or substantial evidence of the amount withheld in the case of a failure to receive Form 8288–A (as provided in §1.1445–5(b)(7)) is attached to the application. If an application for a withholding certificate is submitted after the transfer takes place, then that application may be combined with an application for an early refund. The Service will act upon a claim for refund within the time limits set forth in §1.1445–6(a)(1).

[T.D. 8113, 51 FR 46648, Dec. 24, 1986; 52 FR 3796, 3917, Feb. 6, 1987]

§1.1445–7 Treatment of foreign corporation that has made an election under section 897(i) to be treated as a domestic corporation.

(a) *In general.* Pursuant to section 897(i) a foreign corporation may elect to be treated as a domestic corporation for purposes of sections 897 and 6039C. A foreign corporation that has made such an election shall also be treated as a domestic corporation for purposes of the withholding required under section 1445, in accordance with the provisions of this section.

(b) *Withholding under section 1445(a)*—(1) *Dispositions by corporation.* A foreign corporation that has made an election under section 897(i) may provide a transferee with a certification of non-foreign status in connection with the corporation's disposition of a U.S. real property interest. However, in accordance with the provisions of §§1.1445–2(b)(2)(ii) and 1.1445–5(b)(3)(ii)(C), such an electing foreign corporation must attach to such certification a copy of the acknowledgment of the election provided to the corporation by the Internal Revenue Service pursuant to

§ 1.897–3(d)(4) which states that the information required by § 1.897–3 has been determined to be complete.

(2) *Dispositions of interests in corporation.* Dispositions of interests in electing foreign corporations shall be subject to the withholding requirements of section 1445(a) and the rules of §§ 1.1445–1 through 1.1445–4. Therefore, if a foreign person disposes of an interest in such a corporation, and that interest is a U.S. real property interest under the provisions of section 897 and regulations thereunder, then the transferee is required to withhold under section 1445(a).

(c) *Withholding under section 1445(e).* Because a foreign corporation that has made an election under section 897(i) is treated as a domestic corporation for purposes of determining withholding obligations under section 1445, such a corporation is not subject to the requirement of section 1445(e)(2) that a foreign corporation withhold at the corporate capital gain rate from the gain recognized upon the distribution of a U.S. real property interest. Such a corporation is subject to the provisions of section 1445(e)(3). Thus, if interests in an electing corporation constitute U.S. real property interests, then the corporation is required to withhold with respect to the non-dividend distribution of any property to an interest-holder that is a foreign person. See § 1.1445–5(e). Dividend distributions (distributions that are described in section 301) shall be treated as provided in sections 897(f), 1441 and 1442. In addition, if interests in an electing foreign corporation do not constitute U.S. real property interests, then distributions by such corporation shall be treated as provided in sections 897(f) (if applicable), 1441 and 1442.

(Approved by the Office of Management and Budget under control number 545–0902)

[T.D. 8113, 51 FR 46650, Dec. 24, 1986; 52 FR 3796, Feb. 6, 1987]

§ 1.1445–8 Special rules regarding publicly traded partnerships, publicly traded trusts and real estate investment trusts (REITs).

(a) *Entities to which this section applies.* The rules of this section apply to—

(1) Any partnership or trust, interests in which are regularly traded on an established securities market (regardless of the number of its partners or beneficiaries), and

(2) Any REIT (regardless of the form of its organization).

For purposes of paragraph (a)(1) of this section, the rules of section 1445 (e)(1) and this section shall not apply to a publicly traded partnership (as defined in section 7704) which is treated as a corporation under section 7704(a), or to those entities that are classified as ‘‘associations’’ and taxed as corporations. See § 301.7701–2.

(b) *Obligation to withhold*—(1) *In general.* An entity described in paragraph (a) of this section is not required to withhold under the provisions of § 1.1445–5(c), which states the withholding requirements of domestic partnerships, trusts and estates upon the disposition of U.S. real property interests. Except as otherwise provided in this paragraph (b), an entity described in paragraph (a) of this section shall be liable to withhold tax upon the distribution of any amount attributable to the disposition of a U.S. real property interest, with respect to each holder of an interest in the entity that is a foreign person. The amount to be withhold is described in paragraph (c) of this section.

(2) *Publicly traded partnerships.* Publicly traded partnerships which comply with the withholding procedures under section 1446 will be deemed to have satisfied their withholding obligations under this paragraph (b).

(3) *Special rule for certain distributions to nominees.* In the case of a person that—

(i) Is a nominee (as defined in paragraph (d) of this section),

(ii) Receives a distribution attributable to the disposition of a U.S. real property interest directly from an entity described in paragraph (a) of this section or indirectly from such entity through a nominee,

(iii) Receives the distribution for payment to any foreign person, or the account of any foreign person, and

(iv) Receives a qualified notice pursuant to paragraph (f) of this section, then the obligation to withhold in accordance with the general rules of section 1445(e)(1) and this paragraph (b) shall be imposed solely on that person to the extent of the amount specified by the qualified notice. A person obligated to withhold by reason of this paragraph (b)(3) is referred to as a withholding agent.

(4) *Person designated to act for withholding agent.* The rules stated in §1.1441–7(b) (1) and (2) regarding a person designated to act for a withholding agent shall apply for purposes of this section.

(5) *Effect of withholding exemption granted under §1.1441–4(f).* A letter issued by a district director under the provisions of §1.1441–4(f), which exempts a person from withholding under section 1441 or section 1442, shall also exempt that person from withholding under this paragraph (b), if—

(i) The letter identifies another person as the withholding agent for purposes of section 1441 or 1442, and

(ii) Such other person enters into a written agreement, with the district director who issued the letter, to be the withholding agent for purposes of this paragraph (b).

The exemption granted, and the corresponding withholding obligation imposed, by this paragraph (b)(5) shall apply with respect to the first distribution made after execution of the agreement described in the preceding sentence and shall continue to apply to all distributions made during the period in which the exemption granted under §1.1441–4(f) is in effect.

(6) *Payment other than in money.* The rule stated in §1.1441–7(c) regarding payment other than in money shall apply for purposes of this section.

(c) *Amount to be withheld*—(1) *Distribution from a publicly traded partnership or publicly traded trust.* The amount to be withheld under this section with respect to a distribution by a publicly traded partnership or publicly traded trust shall be computed in the manner described in §1.1445–5(c)(3) (ii) and (iii), subject to the rules of this section.

(2) *REITs*—(i) *In general.* The amount to be withheld with respect to a distribution by a REIT, under this section shall be equal to 35 percent (or the highest rate specified in section 1445(e)(1)) of the amount described in paragraph (c)(2)(ii) of this section.

(ii) *Amount subject to withholding*—(A) *In general.* Except as otherwise provided in paragraph (c)(2)(ii)(C) of this section, the amount subject to withholding is the amount of any distribution, determined with respect to each share or certificate of beneficial interest, designated by a REIT as a capital gain dividend, multiplied by the number of shares or certificates of beneficial interest owned by the foreign person. Solely for purposes of this paragraph, the largest amount of any distribution occurring after March 7, 1991 that could be designated as a capital gain dividend under section 857(b)(3)(C) shall be deemed to have been designated by a REIT as a capital gain dividend regardless of the amount actually designated.

(B) *Distribution attributable to net short-term capital gain from the disposition of a U.S. real property interest.* [Reserved]

(C) *Designation of prior distribution as capital gain dividend.* If a REIT makes an actual designation of a prior distribution, in whole or in part, as a capital gain dividend, such prior distribution shall not be subject to withholding under this section. Rather, a REIT must characterize and treat as a capital gain dividend distribution (solely for purposes of section 1445(e)(1)) each distribution, determined with respect to each share or certificate of beneficial interest, made on the day of, or any time subsequent to, such designation as a capital gain dividend until such characterized amounts equal the amount of the prior distribution designated as a capital gain dividend. The provisions of this paragraph shall not be applicable in any taxable year in which the REIT adopts a formal or informal resolution or plan of complete liquidation.

(iii) *Example.* The following example illustrates the rules of paragraph (c)(2)(ii)(C) of this section.

In the first quarter of 1988, XYZ REIT makes a dividend distribution of $2X. In the second quarter of 1988, XYZ sells real property, recognizing a long term capital gain of $15X, and makes a dividend distribution of $5X. In the third quarter of 1988, XYZ makes a distribution of $3X. In the fourth quarter of 1988, XYZ sells real property recognizing a long term capital loss of $2X. Within 30 days after the close of the taxable year, XYZ designates a capital gain dividend for the year of $13X. It subsequently makes a fourth quarter distribution of $7X. Since XYZ has made an actual designation of prior distributions during the taxable year as capital gain dividends, withholding on those prior distributions will not be required. However, the REIT must characterize, solely for purposes of section 1445(e)(1), a total amount of $13X of dividend distributions as capital gain dividends. Therefore, the fourth quarter dividend distribution of $7X must be characterized as a capital gain dividend subject to withholding under this section. In addition, XYZ will be required to characterize an additional $6X of subsequent dividend distributions as capital gain dividends.

(d) *Definition of nominee.* For purposes of this section, the term ''nominee'' means a domestic person that holds an interest in an entity described in paragraph (a) of this section on behalf of another domestic or foreign person.

(e) *Determination of non-foreign status by withholding agent.* A withholding agent may rely on a certificate of non-foreign status pursuant to § 1.1445–2(b) or on the statements and address provided to it on Form W–9 or a form that is substantailly similar to such form, to determine whether an interest holder is a domestic person. Reliance on these documents will excuse the withholding agent from liability imposed under section 1445(e)(1) in the absence of actual knowledge that the interest holder is a foreign person. A withholding agent may also employ other means to determine the status of an interest holder, but, if the agent relies on such other means and the interest holder proves, in fact, to be a foreign person, then the withholding agent is subject to any liability imposed pursuant to section 1445 and the regulations thereunder for failure to withhold.

(f) *Qualified notice.* A qualified notice for purposes of paragraph (b)(3)(iv) of this section is a notice given by a partnership, trust or REIT regarding a distribution that is attributable to the disposition of a U.S. real property interest in accordance with the notice requirements with respect to dividends described in 17 CFR 240.10b–17(b) (1) or (3) issued pursuant to the Securities Exchange Act of 1934, 15 U.S.C. 78a *et seq.* In the case of a REIT, a qualified notice is only a notice of a distribution, all or any portion of which the REIT actually designates, or characterizes in accordance with paragraph (c)(2)(ii)(C) of this section, as a capital gain dividend in accordance with 17 CFR 240.10b–17(b) (1) or (3), with respect to each share or certificate of beneficial interest. A deemed designation under paragraph (c)(2)(ii)(A) of this section may not be the subject of a qualified notice under this paragraph (f). A person described in paragraph (b)(3) of this section shall be treated as receiving a qualified notice at the time such notice is published in accordance wtih 17 CFR 240.10b–17(b) (1) or (3).

(g) *Reporting and paying over withheld amounts.* With respect to an amount withheld under this section, a withholding agent is not required to conform to the requirements of § 1.1445–5(b)(5) but is required to report and pay over to the Internal Revenue Service any amount required to be withheld pursuant to the rules and procedures of section 1461, the regulations thereunder and § 1.6302–2. Forms 1042 and 1042S are to be used for this purpose.

(h) *Early refund procedure not available.* The early refund procedure set forth in § 1.1445–6(g) shall not apply to amounts withheld under the rules of this section. For adjustment of overwithheld amounts, see § 1.1461.4.

(i) *Liability upon failure to withhold.* For rules regarding liability upon failure to withhold under § 1445(e) and this section, see § 1.1445–1(e).

[T.D. 8321, 55 FR 50553, Dec. 7, 1990; 56 FR 4542, Feb. 5, 1991, as amended by T.D. 8647, 60 FR 66077, Dec. 21, 1995]

§ 1.1445–9T Special rule for section 1034 nonrecognition (temporary).

(a) *Purpose and scope.* This section provides a temporary regulation that, if and when adopted as a final regulation, will add a new paragraph (d)(2)(iii) to § 1.1445–2. Paragraph (b) of this section would then appear as paragraph (d)(2)(iii) of § 1.1445–2.

(b) No particular form is required for a transferor's notice to a transferee that the transferor is not required to recognize gain or loss with respect to a transfer. The notice must be verified as true and signed under penalties of perjury by a responsible officer in the case of a corporation, by a general partner in the case of a partnership, and by a trustee or equivalent fiduciary in the case of a trust or estate. The following information must be set forth in paragraphs labeled to correspond with the designation set forth below:

(1) A statement that the document submitted constitutes a notice of a nonrecognition transfer pursuant to the requirements of §1.1445–2(d)(2);

(2) The name, identifying number (if any), and home address (in the case of an individual) or office address (in the case of an entity) of the transferor submitting the notice;

(3) A statement that the transferor is not required to recognize any gain or loss with respect to the transfer;

(4) A brief description of the transfer;

(5) A brief summary of the law and facts supporting the claim that recognition of gain or loss is not required with respect to the transfer; and

(6) If the transferor claims nonrecognition on the sale or exchange of a principal residence under section 1034(a) and another principal residence in the United States has not been purchased as of the date of sale of the principal residence, either (i) a copy of an executed binding contract for purchase by the transferor of a further principal residence in the United States with a purchase price exceeding the adjusted sales price of the old principal residence or (ii) an affidavit by the transferor signed under penalties of perjury stating that the transferor intends to complete purchase of another principal residence within the United States with a purchase price exceeding the adjusted sales price of the old principal residence by April 15 of the year following the taxable year of the sale of the principal residence, and that the transferor is expected to continue to be employed or stationed in the United States for a period of two years from the sale of the principal residence. If the transferor's adjusted sales price of the old principal residence exceeds the transferor's cost of purchasing another principal residence in the United States, withholding shall be required at the rate of ten percent on the portion of the gross amount realized on the sale or exchange of the principal residence equal to such excess.

(c) *Effective Date.* The rules of this section are effective with respect to sale of a principal residence after August 3, 1988.

[T.D. 8198, 53 FR 16230, May 5, 1988]

§1.1445–10T Special rule for Foreign governments (temporary).

(a) This section provides a temporary regulation that, if and when adopted as a final regulation will add a new paragraph (d)(6) to §1.1445–2. Paragraph (b) of this section would then appear as paragraph (d)(6) of §1.1445–2.

(b) *Foreign government*—(1) *As transferor.* A foreign government is subject to U.S. taxation under section 897 on the disposition of a U.S. real property interest except to the extent specifically otherwise provided in the regulations issued under section 892. A foreign government that disposes of a U.S. real property interest that is not subject to taxation as specifically provided by the regulations under section 892 may present a notice of nonrecognition treatment pursuant to paragraph (d)(2) of this section that specifically cites the provision of such regulation, and thereby avoids withholding by the transferee of the property. A foreign government that disposes of a U.S. real property interest or the transferee of the property may obtain a withholding certificate from the Internal Revenue Service that confirms the applicability of section 892, but neither is required to do so. Rules concerning the issuance of withholding certificates are provided in §1.1445–3.

(2) *As transferee.* A foreign government or international organization that acquires a U.S. real property interest is fully subject to section 1445 and the regulations thereunder. Therefore, such an entity is required to withhold tax upon the acquisition of a U.S. real property interest from a foreign person.

(c) *Effective date.* The rules of this section shall be effective for transfers, exchanges, distributions and other dispositions occuring on or after June 6, 1988.

[T.D. 8198, 53 FR 16230, May 5, 1988]

§ 1.1445–11T Special rules requiring withholding under § 1.1445–5 (temporary).

(a) *Purpose and scope.* This section provides temporary regulations that, if and when adopted as a final regulation will add certain new paragraphs within § 1.1445–5 (b) and (c). The paragraphs of this section would then appear as set forth below. Paragraph (b) of this section would then appear as paragraph (b)(8)(v) of § 1.1445–5. Paragraph (c) of this section would then appear as paragraph (c)(2)(i) of § 1.1445–5. Paragraph (d) of this section would then appear as paragraph (g) of § 1.1445–5.

(b) *Dispositions of interests in partnerships, trusts, and estates.* The provisions of section 1445(e)(5), requiring withholding upon certain dispositions of interests in partnerships, trusts, and estates, that own directly or indirectly a U.S. real property interest shall apply to dispositions on or after the effective date of a later Treasury decision under section 897(g) of the Code except in the case of dispositions of interests in partnerships in which fifty percent of the value of the gross assets consist of U.S. real property interests and ninety percent or more of the value of the gross assets consist of U.S. real property interests plus any cash or cash equivalents. The provisions of section 1445(e)(5), shall apply, however, to dispositions after June 6, 1988, of interests in partnerships in which fifty percent or more of the value of the gross assets consist of U.S. real property interests, and ninety percent or more of the value of the gross assets consist of U.S. real property interests plus any cash or cash equivalents. See paragraph (d) of this section.

(c) *Transactions covered elsewhere.* No withholding is required under this paragraph (c) with respect to the distribution of a U.S. real property interest by a partnership, trust, or estate. Such distributions shall be subject to withholding under section 1445(e)(4) and paragraph (f) of this § 1.1445–5 on the effective date of a later Treasury decision published under section 897(g) of the Code. No withholding is required at this time for distributions described in the preceding sentence. See paragraph (b)(8)(iv) of this § 1.1445–5. No withholding is required under this paragraph with respect to the disposition of an interest in a trust, estate, or partnership except in the case of a partnership in which fifty percent or more of the value of the gross assets consist of U.S. real property interests, and ninety percent or more of the value of the gross assets consist of U.S. real property interests plus any cash or cash equivalents. See paragraph (b)(8)(v) of § 1.1445–5. Withholding shall be required as provided in section 1445(e)(5) and paragraph (g) of this section with respect to the disposition after June 6, 1988, of an interest in a partnership in which fifty percent or more of the value of the gross assets consist of U.S. real property interests, and ninety percent or more of the value of the gross assets consist of U.S. real property interests plus any cash or cash equivalents.

(d) *Dispositions of interests in partnerships, trusts or estates*—(1) *Withholding required on disposition of certain partnership interests.* Withholding is required under section 1445(e)(5) and this paragraph with respect to the disposition by a foreign partner of an interest in a domestic or foreign partnership in which fifty percent or more of the value of the gross assets consist of U.S. real property interests, and ninety percent or more of the value of the gross assets consist of U.S. real property interests plus any cash or cash equivalents. For purposes of this paragraph cash equivalents mean any asset readily convertible into cash (whether or not denominated in U.S. dollars), including, but not limited to, bank accounts, certificates of deposit, money market accounts, commercial paper, U.S. and foreign treasury obligations and bonds, corporate obligations and bonds, precious metals or commodities, and publicly traded instruments. The taxpayer on filing an income tax return for the year of the disposition may demonstrate the extent to which the gain on the disposition of the interest is not attributable to U.S. real property interests. A taxpayer is also permitted by § 1.1445–3 to apply for a withholding certificate in instances where reduced withholding is approporiate.

(2) *Withholding not required*—(i) *Transferee receives statement that interest in*

partnership is not described in paragraph (d)(1). No withholding is required under paragraph (d)(1) of this section upon the disposition of a partnership interest otherwise described in that paragraph if the transferee is provided a statement, issued by the partnership and signed by a general partner under penalties of perjury no earlier than 30 days before the transfer, certifying that fifty percent or more of the value of the gross assets does not consist of U.S. real property interests, or that ninety percent or more of the value of the gross assets of the partnership does not consist of U.S. real property interests plus cash or cash equivalents.

(ii) *Reliance on statement not permitted.* A transferee is not entitled to rely upon a statement described in paragraph (d)(2)(i) of this section if, prior to or at the time of the transfer, the transferee either—

(A) Has actual knowledge that the statement is false, or

(B) Receives a notice, pursuant to §1.1445–4.

Such a transferee's withholding obligations shall apply as if the statement had never been given, and such a transferee may be held fully liable pursuant to §1.1445–1(e) for any failure to withhold.

(iii) *Belated notice of false statement.* If, after the date of the transfer, a transferee receives notice that a statement provided under paragraph (d)(2)(i) of this section is false, then such transferee may rely on the statement only with respect to consideration that was paid prior to the receipt of the notice. Such a transferee is required to withhold a full 10 percent of the amount realized from the consideration that remains to be paid to the transferor. Thus, if 10 percent or more of the amount realized remains to be paid to the transferor, then the transferee is required to withhold and pay over the full 10 percent. The transferee must do so by withholding and paying over the entire amount of each successive payment of consideration to the transferor, until the full 10 percent of the amount realized has been withheld and paid over. Amounts so withheld must be reported and paid over by the 20th day following the date on which each such payment of consideration is made. A transferee that is subject to the rules of this §1.1445–10T(d)(2)(iii) may not obtain a withholding certificate pursuant to §1.1445–3, but must instead withhold and pay over the amounts required by this paragraph.

(e) *Effective date.* The rules of this section are effective for transactions after June 6, 1988.

[T.D. 8198, 53 FR 16231, May 5, 1988]

TAX–FREE COVENANT BONDS

§1.1451–1 Tax-free covenant bonds issued before January 1, 1934.

(a) *Rates of withholding*—(1) *Rate of 2 percent.* Withholding of a tax equal to 2 percent is required in the case of interest upon bonds or other corporate obligations containing a tax-free covenant and issued before January 1, 1934, paid to an individual, a fiduciary, or a partnership, whether resident or nonresident, or to a nonresident foreign corporation, regardless of whether the liability assumed by the obligor is less than, equal to, or greater than 2 percent.

(2) *Rate of 30 percent.* Notwithstanding subparagraph (1) of this paragraph, if the liability assumed by the obligor does not exceed 2 percent of the interest, withholding is required at the rate of 30 percent in the case of payments to a nonresident alien individual, a nonresident partnership composed in whole or in part of nonresident aliens, a nonresident foreign corporation, or an owner who is unknown to the withholding agent.

(3) *Obligations of resident payers.* The rates of withholding specified in subparagraphs (1) and (2) of this paragraph are applicable to interest on such tax-free covenant bonds issued by a domestic corporation or by a resident foreign corporation.

(4) *Obligations of nonresident payers.* A nonresident foreign corporation having a fiscal or paying agent in the United States is required to withhold a tax of 2 percent in the case of interest upon its tax-free covenant bonds issued before January 1, 1934, which is paid to an individual or fiduciary who is a citizen or resident of the United States, to a partnership any member of which is a citizen or resident, or to an unknown owner.

(5) *Interest from sources without the United States.* Withholding is not required under section 1451 in the case of interest upon bonds or other corporate obligations issued before January 1, 1934, and containing a tax-free covenant if the interest is not to be treated as income from sources within the United States and the payments are made to a nonresident alien, a partnership composed wholly of nonresident aliens, or a nonresident foreign corporation.

(6) *Tax treaties.* The rates of tax to be withheld in accordance with this paragraph shall be reduced as may be provided by treaty with any country. See section 894 and § 1.1441–6 relating to income subject to a reduced rate of, or an exemption from, income tax pursuant to an income tax convention.

(b) *Date of issue.* The withholding provisions of section 1451 are applicable only to bonds, mortgages, or deeds of trust, or other similar obligations of a corporation which were issued before January 1, 1934, and which contain a tax-free covenant. For the purpose of section 1451, bonds, mortgages, or deeds of trust, or other similar obligations of a corporation, are issued when delivered. If a broker or other person acts as selling agent of the obligor, the obligation is issued when delivered by the agent to the purchaser. If a broker or other person purchases the obligation outright for the purpose of holding or reselling it, the obligation is issued when delivered to such broker or other person.

(c) *Extended maturity date.* In cases where on or after January 1, 1934, the maturity date of bonds or other obligations of a corporation is extended, the bonds or other obligations shall be considered to have been issued on or after January 1, 1934. The interest on such obligations is not subject to the withholding provisions of section 1451 but falls within the class of interest described in section 1441. See paragraph (c)(5)(iii) of § 1.1441–3.

(d) *Covenant in trust deed.* Bonds issued under a trust deed containing a tax-free covenant are treated as if they contain such a covenant. If neither the bonds nor the trust deeds given by the obligor to secure them contained a tax-free covenant, but the original trust deeds were modified before January 1, 1934, by supplemental agreements containing a tax-free covenant executed by the obligor corporation and the trustee, the bonds issued before January 1, 1934, are subject to the provisions of section 1451, provided appropriate authority existed for the modification of the trust deeds in this manner. The authority must have been contained in the original trust deeds or actually secured from the bondholders.

(e) *Notation showing date of issue.* In order that the date of issue of bonds, mortgages, deeds of trust, or other similar corporate obligations containing a tax-free covenant may be readily determined by the owner for the purpose of preparing the ownership certificates required by § 1.1461–1, the issuing or debtor corporation shall indicate the date of issue by an appropriate notation, or use the phrase ‘‘issued on or after January 1, 1934,’’ on each such obligation or in a statement accompanying the delivery of the obligation.

(f) *Effect of withholding on income taxes of bondholder and issuing corporation*—(1) *Federal tax.* In the case of corporate bonds or other corporate obligations issued before January 1, 1934, and containing a tax-free covenant, the corporation paying a Federal tax, or any part of it, for someone else pursuant to its agreement is not entitled to deduct such payment from its gross income on any ground; nor shall the tax so paid be included in the gross income of the bondholder. The amount of the tax so paid may, nevertheless, be claimed by the bondholder in accordance with paragraph (a) of § 1.1462–1 as a credit against the total amount of income tax due. See also section 32. The tax so paid by the corporation upon tax-free covenant bond interest payable to a domestic or resident fiduciary and allocable to any nonresident alien beneficiary under section 652 or 662 is allowable, pro rata, as a credit against:

(i) The tax required to be withheld by the fiduciary in accordance with paragraph (f) of § 1.1441–3 from the income of the beneficiary, and

(ii) The total income tax computed in the return of the beneficiary, as indicated in paragraph (a) of § 1.1462–1.

(2) *State taxes.* In the case of corporate bonds or other obligations containing an appropriate tax-free covenant, the corporation paying for someone else, pursuant to its agreement, a State tax or any tax other than a Federal tax may deduct such payment as interest paid on indebtedness.

(g) *Alien resident of Puerto Rico.* For purposes of this section the term ''nonresident alien individual'' includes an alien resident of Puerto Rico.

(h) *Other rules for withholding of tax under section 1451.* The rules for withholding stated in paragraphs (c) (2) and (3), (f), and (g) of §1.1441–3 shall also apply for purposes of withholding the tax under this section.

[T.D. 6500, 25 FR 12076, Nov. 26, 1960, as amended by T.D. 7157, 36 FR 25228, Dec. 30, 1971]

§1.1451–2 Exemptions from withholding under section 1451.

(a) *Claiming personal exemptions.* Withholding under §1.1451–1 from interest on bonds or other obligations of corporations issued before January 1, 1934, and containing a tax-free covenant shall not be required if there is filed with the withholding agent when presenting coupons for payment, or not later than February 1 of the following year, an ownership certificate on Form 1000 stating:

(1) In the case of a citizen or resident of the United States, that his taxable income does not exceed his deductions for personal exemptions allowed under section 151; or

(2) In the case of an estate or trust the fiduciary of which is a citizen or resident of the United States, that its taxable income does not exceed the deduction for the personal exemption allowed under section 642(b).

(b) *Claiming residence in United States.* To claim residence in the United States for purposes of section 1451, see §1.1441–5.

(c) *Other exemptions.* The exemptions allowed by paragraphs (d) and (h) of §1.1441–4 shall also apply for purposes of section 1451.

[T.D. 6500, 25 FR 12077, Nov. 26, 1960, as amended by T.D. 6908, 31 FR 16774, Dec. 31, 1966]

APPLICATION OF WITHHOLDING PROVISIONS

§1.1461–1 Payment and returns of tax withheld.

(a) *Payment of withheld tax*—(1) *Deposits of tax.* Every withholding agent who withholds tax pursuant to chapter 3 of the Internal Revenue Code (Code) and the regulations under such chapter shall deposit such amount of tax with a Federal reserve bank or authorized financial institution as provided in §1.6302–2(a). If for any reason the total amount of tax required to be returned for any calendar year pursuant to paragraph (b) of this section has not been deposited pursuant to §1.6302–2, the withholding agent shall pay the balance of tax due for such year at such place as the Internal Revenue Service (IRS) shall specify. The tax shall be paid when filing the return required under paragraph (b)(1) of this section for such year, unless the IRS specifies otherwise. See paragraph (b)(2) of this section when there are multiple withholding agents.

(2) *Penalties for failure to pay tax.* For penalties and additions to the tax for failure to timely pay the tax required to be withheld under chapter 3 of the Code, see sections 6656, 6672, and 7202 and the regulations under those sections.

(b) *Income tax return*—(1) *General rule.* A withholding agent shall make an income tax return on Form 1042 (or such other form as the IRS may prescribe) for income paid during the preceding calendar year that the withholding agent is required to report on an information return on Form 1042–S (or such other form as the IRS may prescribe) under paragraph (c)(1) of this section. See section 6011 and §1.6011–1(c). The withholding agent must file the return on or before March 15 of the calendar year following the year in which the income was paid. The return must show the aggregate amount of income paid and tax withheld required to be reported on all the Forms 1042–S for the preceding calendar year by the withholding agent, in addition to such information as is required by the form and accompanying instructions. Withholding certificates or other statements or information provided to a withholding agent are not required to be attached to the return. A return must be filed under this paragraph (b)(1) even though no tax was required to be withheld during the preceding calendar year. The withholding agent must retain a copy of Form 1042 for the applicable statute of limitations on assessments and collection with respect to the amounts required to be reported on the Form 1042. See section 6501 and the regulations thereunder for the applicable statute of limitations. Adjustments to the total amount of tax withheld, as described in § 1.1461–2, shall be stated on the return as prescribed by the form and accompanying instructions.

(2) *Multiple withholding agents*—(i) *General rule.* Except as otherwise provided in paragraph (b)(2) (ii), (iii), (iv), or (v) of this section, no Form 1042 is required to be filed under paragraph (b)(1) of this section if a return is filed by another withholding agent reporting the same income in compliance with the provisions of this paragraph (b) and any remaining tax due is paid by such other withholding agent with the return in accordance with the provisions of paragraph (a) of this section.

(ii) *Payment to a qualified intermediary.* A U.S. withholding agent making a payment to a qualified intermediary (as defined in § 1.1441–1(e)(5)(ii)) must file a return under paragraph (b)(1) of this section, regardless of whether the qualified intermediary assumes primary withholding responsibility for the payment, as described in § 1.1441–1(e)(5)(iv) and regardless of whether the qualified intermediary is also required to file a return under the terms of its agreement with the IRS. A qualified intermediary's agreement with the IRS shall specify the extent, if any, to which the intermediary is subject to filing requirements under this section.

(iii) *Payment to a non-qualified intermediary.* A withholding agent making a payment to a foreign intermediary that is not a qualified intermediary described in § 1.1441–1(e)(5)(ii) must file a return under paragraph (b)(1) of this section to report such payments. The foreign intermediary is not required to make a return to report the payments that it itself makes to the persons for whom it collects the payments to the extent that the withholding agent represents to the intermediary that it will file such a return or that it has done so.

(iv) *Payment to or through an authorized foreign agent.* Both the U.S. withholding agent making a payment to or through an authorized foreign agent (defined in § 1.1441–7(c)) and the authorized foreign agent are required to file a return under paragraph (b)(1) of this section.

(v) *Payments to foreign partnerships.* A withholding agent making a payment to a foreign partnership (whether or not a withholding foreign partnership) shall file a return under paragraph (b)(1) of this section in the same manner as is required for a withholding agent making a payment to a qualified intermediary.

(vi) *Payments to a U.S. branch of certain foreign banks, or insurance companies.* A withholding agent making a payment to a U.S. branch described in § 1.1441–1(b)(2)(iv) must file a return under paragraph (b)(1) of this section, irrespective of the fact that the branch is treated as a U.S. person or is presumed to receive income that is effectively connected with its conduct of a trade or business in the United States.

(3) *Payments to wholly-owned entities.* A withholding agent making a payment to a wholly-owned entity that is disregarded for Federal tax purposes under § 301.7701–2(c)(2) of this chapter as an entity separate from its owner and whose single owner is a foreign person shall file a return under paragraph (b)(1) of this section.

(4) *Amended returns.* An amended return may be filed on a Form 1042X or such other form as the IRS may prescribe. An amended return must include such information as the form or accompanying instructions shall require, including, with respect to any information that has changed from the time of the filing of the return, the information that was shown on the original return and the corrected information.

(c) *Information returns*—(1) *Filing requirement*—(i) *In general.* A withholding agent (other than an individual who is not acting in the course of a trade or business with respect to the payment) must make an information return on Form 1042–S (or such other form as the IRS may prescribe) to report the amounts specified in paragraph (c)(2) of this section that were paid during the preceding calendar year. One Form 1042–S shall be prepared for each beneficial owner (except as otherwise provided in paragraph (c)(4) of this section regarding multiple withholding agents). The Form 1042–S shall be prepared in such manner as the form and accompanying instructions prescribe. One copy of the Form 1042–S shall be filed with the IRS on or before March 15 of the calendar year following the year in which the item of income was paid. It shall be filed with a transmittal form as provided in the instructions to the Form 1042–S and to the transmittal form. Withholding certificates or other statements or documentation provided to a withholding agent are not required to be attached to the information return. Another copy of the Form 1042–S shall be furnished to the payee on or before March 15 of the calendar year following the year in which the item of income was paid.

The withholding agent shall retain a copy of each Form 1042–S for the statute of limitations on assessment and collection applicable to the Form 1042 to which the Form 1042–S relates.

(ii) *Joint owners.* In the case of joint owners, a single Form 1042–S may be prepared. However, upon request of any one of the owners, the withholding agent shall furnish to such owner its own Form 1042–S. Where more than one Form 1042–S is issued with respect to a single payment to joint owners, the aggregate amount of items paid and tax withheld reported on the Forms 1042–S cannot exceed the amounts paid to the joint owners and tax withheld thereon. If a single Form 1042–S is prepared, the form shall state the name of only one owner and that name shall be that of any person whose status the withholding agent relied upon to determine the applicable rate of withholding tax.

(2) *Amounts subject to reporting*—(i) *In general.* Subject to the exceptions described in paragraph (c)(2)(ii) of this section, the amounts required to be reported on a Form 1042–S are amounts paid to foreign persons (including persons who are presumed to be foreign) that consist of amounts subject to withholding (as defined in §1.1441–2(a)) under section 1441, 1442, or 1443. This includes (but is not limited to)—

(A) The entire amount of corporate distributions (whether deemed or actual) paid to a foreign person, irrespective of any estimate of the portion of the distribution that represents a taxable dividend;

(B) Amounts deemed paid to a foreign person as described in §1.1441–2(d) (dealing with exceptions to withholding where no money or property is paid), except where the amount is exempt from withholding due to lack of knowledge;

(C) Amounts that are (or are presumed to be) effectively connected with the conduct of a trade or business in the United States, irrespective of the fact that no withholding certificate is required to be furnished by the payee or beneficial owner. In the case of amounts paid on a notional principal contract described in §1.1441–4(a)(3) that are presumed to be effectively connected with the conduct of a trade or business in the United States, the amount required to be reported is limited to the net income from the notional principal contract as described in §1.446–3(d). Effectively connected non-periodic payments are reportable for the year in which an actual payment is made;

(D) Interest (including original issue discount) that is not exempt from reporting as provided under §1.6049–8, dealing with certain interest on deposits with banks paid to Canadian residents;

(E) Amounts representing interest paid on an obligation that is sold between interest payment dates;

(F) Amounts paid to foreign governments, international organizations, or the Bank for International Settlements, whether or not documentation must be provided;

(G) Interest (including original issue discount) paid with respect to foreign-targeted registered obligations described in §1.871–14(e)(2) to the extent the documentation requirements described in §1.871–14(e)(3) and (4) are satisfied (taking into account the provisions of §1.871–14(e)(4)(ii), if applicable).

(ii) *Exceptions to reporting.* The amounts listed in paragraphs (c)(2)(ii)(A) through (G) of this section are not required to be reported on a Form 1042–S—

(A) Any item paid by a partnership, trust or estate to the extent the item is required to be reported by the partnership under section 6031 or by the trust or estate under sections 6012(a) and 6034A, and the regulations under those sections;

(B) Any item required to be reported on a Form W–2, including an item required to be shown on Form W–2 solely by reason of § 1.6041–2 (relating to return of information as to payments to employees) or § 1.6052–1 (relating to information regarding payment of wages in the form of group-term life insurance);

(C) Any item required to be reported on Form 1099, and such other forms as are prescribed pursuant to the information reporting provisions of sections 6041 through 6050P and the regulations under these sections;

(D) Amounts paid on a notional principal contract described in § 1.1441–4(a)(3)(i) that are not effectively connected with the conduct of a trade or business in the United States (or treated as not effectively connected pursuant to § 1.1441–4(a)(3)(ii));

(E) Amounts required to be reported on Form 8288 (U.S. Withholding Tax Return for Dispositions by Foreign Persons of U.S. Real Property Interests) or Form 8804 (Annual Return for Partnership Withholding Tax (Section 1446)). A withholding agent that must report a distribution partly on a Form 8288 or 8804 and partly on a Form 1042–S may elect to report the entire amount on a Form 8288 or 8804;

(F) Original issue discount for which no withholding is required under § 1.1441–2(b)(3); and

(G) Amounts described in § 1.1441–1(b)(4)(xviii) (dealing with certain amounts paid by the U.S. government).

(3) *Required information.* The information required to be furnished under this paragraph (c)(3) shall be based upon the information provided by or on behalf of the beneficial owner (e.g., a beneficial owner withholding certificate or documentary evidence), as corrected and supplemented based on the withholding agent's actual knowledge. The Form 1042-S must include the following information, if applicable—

(i) The name, address, and taxpayer identifying number of the withholding agent;

(ii) A description of each category of income paid (e.g., interest, dividends, royalties, etc.) and the aggregate amount in each category expressed in U.S. dollars;

(iii) The rate of withholding applied;

(iv) The name and permanent residence address of the beneficial owner (or of the payee if the beneficial owner is unknown, or of the person receiving the amount if the payee is also unknown);

(v) The taxpayer identifying number of the beneficial owner if required under § 1.1441–1(e)(4)(vii) to be stated on a beneficial owner withholding certificate (or if actually known to the withholding agent making the return). In the case of a financial institution, actual knowledge exists with respect to accounts maintained for customers only if such taxpayer identifying number was stated on a Form W–8 furnished for another payment made through the same account or through another account, the information for which can be retrieved through a centralized account information system (as described in § 1.1441–1(e)(4)(ix)) containing both accounts; and

(vi) Such information as the form or the instructions may require in addition to, or in lieu of, information required under this paragraph (c)(3).

(4) *Multiple withholding agents*—(i) *In general.* Except as otherwise provided in this paragraph (c)(4), no information return is required to be made under paragraph (c)(1)(i) of this section if a return is filed by another withholding agent reporting the same amount pursuant to the provisions of this paragraph (c).

(ii) *Payments to a qualified intermediary or a withholding foreign partnership.* A withholding agent making a payment to a qualified intermediary (described in § 1.1441–1(e)(5)(ii)) or to a withholding foreign partnership (described in § 1.1441–5(c)(2)(i)) must report the payment on a single Form 1042–S or as otherwise directed by the form or the accompanying instructions to the form and must provide a copy of the Form 1042–S to the intermediary or partnership (but is not required to provide the Form 1042–S to the beneficial owners or partners). The Form 1042-S must report the different categories of payments based on different types of income and applicable withholding rates.

(iii) *Payments to an authorized foreign agent*—(A) *Filing obligation of foreign authorized agent.* An authorized foreign agent (as described in §1.1441–7(c)(2)) is subject to the filing requirements described in paragraph (c)(1)(i) of this section because it is a withholding agent. Therefore, to the extent the U.S. withholding agent for which it is acting is not reporting the information required under this paragraph (c), it must report the information required to be reported under paragraph (c)(3) or (4)(vi) of this section.

(B) *Filing obligations of the U.S. withholding agent.* A U.S. withholding agent making a payment to an authorized foreign agent is exempted from the requirement under paragraph (c)(4)(iv) of this section to make a return on Form 1042–S for each beneficial owner and may, instead, make a return on a single Form 1042–S to report the payment made to the authorized foreign agent. The exemption in this paragraph (c)(4)(iii)(B) shall apply only to the extent the authorized foreign agent complies with the filing requirements under paragraph (c)(4)(iii)(A) of this section.

(iv) *Payments to other intermediaries or foreign partnerships.* Payment of an amount to a foreign intermediary described in §1.1441–1(e)(3)(i) that is not a qualified intermediary or to a foreign partnership that is not a withholding foreign partnership described in §1.1441–5(c)(2)(i) may not be shown on a single Form 1042–S but must be reported on separate Forms 1042–S for each beneficial owner or payee whose name appears on a withholding certificate or documentary evidence attached to the intermediary's or partnership withholding certificate that is from a qualified intermediary or a withholding foreign partnership. Payments to an intermediary for the account of undocumented owners or to a foreign partnership for the account of undocumented partners should be reported on a single Form 1042–S made out to the intermediary and bearing the mention ‘‘unknown owners’’.

(v) *Payments to a U.S. branch of certain foreign entities.* Payment of an amount to the U.S. branch of a foreign entity described in §1.1441–1(b)(2)(iv) shall be reported—

(A) On a single Form 1042–S as effectively connected income if the withholding agent cannot reliably associate documentation with the payment to the U.S. branch;

(B) On a single Form 1042–S as an amount paid to an intermediary if the withholding agent can reliably associate the payment with a U.S. branch withholding certificate described in §1.1441–1(e)(3)(v) furnished as evidence of an agreement between the branch and the withholding agent to treat the branch as a U.S. person; or

(C) On separate Forms 1042–S for each beneficial owner or payee whose name appears on a withholding certificate or other appropriate documentation attached to the U.S. branch withholding certificate.

(vi) *Required information.* An information return on a Form 1042–S by a withholding agent reporting payments to an intermediary, to a foreign partnership, or to a U.S. branch must contain the information contained in this paragraph (c)(4)(vi). The information on the Form 1042–S must be based upon the withholding certificates furnished by the payee, as corrected and supplemented by the withholding agent based on its actual knowledge or reason to know other facts:

(A) The name, address, and taxpayer identifying number of the withholding agent.

(B) A description of each category of income paid (e.g., interest, dividends, royalties, etc.) and the aggregate amount in each category expressed in U.S. dollars.

(C) The rate of withholding applied.

(D) The basis for not withholding or withholding at a reduced rate.

(E) The name, address, and taxpayer identifying number of the payee.

(F) In the case of payments described in paragraph (c)(4)(iv) of this section, the information described in paragraphs (c)(3)(iv) and (v) of this section regarding the person for whom a Form 1042–S is required to be prepared under paragraph (c)(4)(iv).

(G) Such information as the form or instructions may require in addition to, or in lieu of, the information required under this paragraph (c)(4)(vi).
