except that each building service system (such as an elevator, an escalator, the electrical system, or the heating and cooling system) is an identifiable unit for the purpose of *(a), (b), (c),* and *(d)* of this subdivision. However, both in the case of machinery and equipment and in the case of a building, for the purpose of applying *(d)(1)* of this subdivision a unit of property may consist of a part in or a component or portion of a larger unit of property. In the case of property described in *(g)* of this subdivision (such as a pipeline), a unit of property generally consists of each segment which performs a discrete function either as to capacity, service, transmission or distribution between identifiable points. Thus, for example, under this subdivision in the case of a vintage account of five automobiles each automobile is an identifiable unit of property (which is not merely a part in or a component or portion of larger unit of property within the meaning of *(e)* of this subdivision). Accordingly, the replacement of one of the automobiles (which is retired) with another automobile is an excluded addition under *(d)(2)* of this subdivision. Also the purchase of a sixth automobile is an expenditure for an additional identifiable unit of property and is an excluded addition under *(d)(1)* of this subdivision. An automobile air conditioner is also an identifiable unit of property for the purposes of *(d)(1)* of this subdivision, but not for the purposes of *(d)(2)* of this subdivision. Accordingly, the addition of an air conditioner to an automobile is an excluded addition under *(d)(1)* of this subdivision, but the replacement of an existing air conditioner in an automobile is not an excluded addition under *(d)(2)* of this subdivision (since it is merely the replacement of a part in an existing identifiable unit of property). The replacement of the air conditioner may, however, be an excluded addition under *(e)* of this subdivision, if the air conditioner replaced was retired in a retirement upon which gain or loss was recognized. The principles of this subdivision may be further illustrated by the following examples in which it is assumed (unless otherwise stated) that *(e)* of this subdivision does not apply:

Example (1). For the taxable year, B pays or incurs only the following expenditures: *(1)* $5,000 for general maintenance of repair allowance property (as described in subdivision (iii) of this subparagraph) such as inspection, oiling, machine adjustments, cleaning, and painting; *(2)* $175 for replacement of bearings and gears in an existing lathe; *(3)* $125 for replacement of an electric starter (of the same capacity) and certain electrical wiring in an automatic drill press; *(4)* $300 for modification of a metal fabricating machine (including replacement of certain parts) which substantially increases its capacity; *(5)* $175 for repair of the same metal fabricating machine which does not substantially increase its capacity; *(6)* $800 for the replacement of an existing lathe with a new lathe; and *(7)* $65 for the repair of a drill press. Expenditures *(1)* through *(3)* are expenditures for the repair, maintenance, rehabilitation or improvement of property to which B can elect to apply the asset guideline class repair allowance described in subdivision (iii) of this subparagraph. Expenditure *(4)* is an excluded addition under *(b)* of this subdivision. Expenditure *(5)* is not an excluded addition. Expenditure *(6)* is an excluded addition under *(d)(2)* of this subdivision. Without regard to *(a), (b),* and *(c)* of this subdivision, expenditure (7) is not an excluded addition since the expenditure does not exceed $100.

Example (2). Corporation M operates a steel plant which produces rails, blooms, billets, special bar sections, reinforcing bars, and large diameter line pipe. During the taxable year, corporation M: *(1)* relines an openhearth furnace; *(2)* places in service 20 new ingot molds; *(3)* replaces one reversing roll in the blooming mill; *(4)* overhauls the rail and billet mill with no increase in capacity; *(5)* replaces a roll stand in the 20-inch bar mill; and *(6)* overhauls the 11-inch bar mill and reducing stands increasing billet speed from 1,800 feet per minute to 2,300 feet per minute. Assume that each expenditure exceeds $100. Expenditure *(1)* is not an excluded addition. Expenditure *(2)* is an excluded addition under *(d)(1)* of this subdivision. Expenditure *(3)* is not an excluded addition since the expenditure for the reversing roll merely replaces a part in an existing identifiable unit of property. Expenditure *(4)* is not an excluded addition. Expenditure *(5)* is an excluded addition under *(d)(2)* of this subdivision since the roll stand is not merely a part of an existing identifiable unit of property. Expenditure *(6)* is an excluded addition under *(a)* of this subdivision since it increases the billet speed by more than 25 percent.

Example (3). For the taxable year, corporation X pays or incurs the following expenditures: *(1)* $1,000 for two new temporary partition walls in the company's offices; *(2)* $1,400 for repainting the exterior of a terminal building; *(3)* $300 for repair of the roof of a warehouse; *(4)* $150 for replacement of two window frames and panes in the warehouse; and *(5)* $100 for plumbing repair. Expenditure *(1)* is an excluded addition under *(d)(1)* of this subdivision. None of the other expenditures are excluded additions.

Example (4). For the taxable year, corporation Y pays or incurs the following expenditures: *(1)* $10,000 for expansion of a loading dock from 600 square feet to 750 square feet; *(2)* $600 for replacement of two roof girders in a factory building; and *(3)* $9,500 for replacement of columns and girders supporting the floor of a second story loft storage area within the factory building in order to permit storage of supplies with a gross weight 50 percent greater than the previous capacity of the loft. Expenditure *(1)* is an excluded addition under *(f)* of this subdivision. Expenditure *(2)* is not an excluded addition. Expenditure *(3)* is an excluded addition under *(b)* of this subdivision.

Example (5). Corporation A has an office building with an unadjusted basis of $10 million. The building has 10 elevators, five of which are manually operated and five of which are automatic. During 1971, corporation A:

(1) Replaces the five manually operated elevators with highspeed automatic elevators at a cost of $400,000;

(2) Replaces the cable in one of the existing automatic elevators at a cost of $1,700. The replacements of the elevators are excluded additions under *(d)(2)* of this subdivision. The replacement of the cable is not an excluded addition.

Example (6). Taxpayer W, a cement manufacturer, engages in the following modification and maintenance activities during the taxable year: *(1)* Replaces eccentric-bearing, spindle, and wearing surface in a gyratory crusher; *(2)* places in service a new apron feeder and hammer mill; *(3)* replaces four buckets on a chain bucket elevator; *(4)* relines refractory surface in the burning zone of a rotary kiln; *(5)* installs additional new dust collectors; and *(6)* Replaces two 16-inch × 90-foot belts on his conveyer system. Assume that there is no increase in productivity or capacity and that each expenditure exceeds $100. Expenditure *(1)* is not an excluded addition. Expenditure *(2)* an excluded addition under *(d)(1)* of this subdivision. Expenditures *(3)* and *(4)* are not excluded additions. Expenditures *(5)* is an excluded addition under *(d)(1)* of this subdivision. Expenditure *(6)* is not an excluded addition.

Example (7). Corporation X, a gas pipeline company, has, in addition to others, the following units of property: *(1)* A gathering pipeline for a field consisting of 25 gas wells; *(2)* the main transmission line between compressor stations (that is, in the case of a 500-mile main transmission line with a compressor station every 100 miles, each one hundred miles section between compressor stations is a separate unit of property); *(3)* a lateral transmission line from the main transmission line to a city border station; *(4)* a medium pressure distribution line to the northern portion of the city; and *(5)* a low pressure distribution line serving a group of approximately 200 residential customers off the medium pressure distribution line. In 1971, corporation X pays or incurs the following expenditures in connection with the repair, maintenance, rehabilitation or improvement of repair allowance property: *(1)* replaces a meter on a gas well; *(2)* in connection with the repair and rehabilitation of a unit of property consisting of a 2-mile gathering pipeline, replaces a 3,000-foot section of the gathering line; *(3)* in connection with the repair of leaks in a unit of property consisting of a 100-mile gas transmission line (that is, the 100 miles between compressor stations), replaces a 2,000-foot section of pipeline at one point; and *(4)* at another point replaces a 7-mile section of the same 100-mile gas transmission line. Assumethat none of these expenditures substantially increases capacity and that each expenditure exceeds $100. Expenditure *(1)* is an excluded addition under *(d)* of this subdivision. Expenditure *(2)* is an excluded addition under *(g)* of this subdivision since the portion replaced is more than 5 percent of the unit of property. Expenditure *(3)* is not an excluded addition. Expenditure *(4)* is an excluded addition under *(g)* of this subdivision.

Example (8). Taxpayer Y, an electric utility company, has in addition to others, the following units of property: *(1)* A high voltage transmission circuit from the switching station (at the generating station) to the transmission station; *(2)* a series of 100 poles (fully dressed) supporting the circuit in *(1); (3)* a high voltage circuit from the transmission station to the distribution substation; *(4)* a high voltage distribution circuit (either radial or looped) from the distribution substation; *(5)* a transformer on a distribution pole; *(6)* a circuit breaker on a distribution pole; and *(7)* all 220 (and lower) volt circuit (including customer service connections) off the distribution circuit in *(4).* In 1971, taxpayer Y pays or incurs the following expenditures for the repair, maintenance, rehabilitation or improvement of repair allowance property: *(1)* Replaces 25 adjacent poles in a unit of property consisting ofthe 300 poles supporting a radial distribution circuit from a distribution substation; *(2)* replaces a transformer on one of the poles in *(1); (3)* replaces a cross-arm on one of the poles in *(1); (4)* replaces a 200-foot section of a 2-mile radial distribution circuit serving 100 residential customers; and *(5)* replaces a 2,000-foot section on a 10-mile high voltage circuit from a transmission station to a distribution substation which was destroyed by a casualty which taxpayer Y treated as an extraordinary retirement under paragraph (d)(3)(ii) of this section. Expenditure *(1)* is an excluded addition under *(g)* of this subdivision. Expenditure *(2)* is an excluded addition under *(d)(2)* of this subdivision. Expenditures *(3)* and *(4)* are not excluded additions. Expenditure *(5)* is an excluded addition under *(e)* of this subdivision.

Example (9). Corporation Z, a telephone company, has in addition to others, the following units of property: *(1)* A buried feeder cable 3 miles in length off a local switching station; *(2)* a buried subfeeder cable 1 mile in length off the feeder cable in *(1); (3)* all the distribution cable (and customer service drops) off the subfeeder cable in *(2); (4)* the 300 poles (fully dressed) supporting the distribution cable in *(3);* (5) a 10-mile local trunk cable which interconnects two local tandem switching stations; *(6)* a toll connecting trunk cable from a local tandem switching station to a long distance tandem switching station; *(7)* a toll trunk cable 50 miles in length from the access point at one city to the access point at another city. In 1971, corporation Z pays or incurs the following expenditures in connection with the repair, maintenance, rehabilitation or improvement of repair allowance property: *(1)* replaces 100 feet of distribution cable in a unit of property consisting of 8 miles of local distribution cable (plus customer service drops); *(2)* replaces an amplifier in the distribution system; and *(3)* replaces 10 miles of a unit of property consisting of a toll trunk cable 50 miles in length. Expenditure *(1)* is not an excluded addition. Expenditure *(2)* is an excluded addition under *(d)(2)* of this subdivision. Expenditure *(3)* is an excluded addition under *(g)* of this subdivision.

(vii) *Definition of property improvement.* The term ‘‘property improvement’’ means—

(a) If the taxpayer treats expenditures for the asset guideline class under subdivision (iv) (*a*) of this subparagraph, the amount of all expenditures paid or incurred during the taxable year for the repair, maintenance, rehabilitation or improvement of repair allowance property in the asset guideline class, which exceeds the asset guideline class repair allowance for the taxable year; and

(b) If the taxpayer treats expenditures for the asset guideline class under subdivision (iv) (*b*) of this subparagraph, the amount of each expenditure paid or incurred during the taxable year for the repair, maintenance, rehabilitation or improvement of property which is treated under sections 162, 212, and 263 as a capital expenditure.

The term ‘‘property improvement’’ does not include any expenditure for an excluded addition.

(viii) *Treatment of property improvements and excluded additions.* If for the taxable year there is a property improvement as described in subdivision (vii) of this subparagraph or an excluded addition as described in subdivision (vi) of this subparagraph, the following rules shall apply—

(a) The total amount of any property improvement for the asset guideline class determined under subdivision (vii)*(a)* of this subparagraph shall be capitalized in a single ‘‘special basis vintage account’’ of the taxable year in accordance with the taxpayer’s election to apply this section for the taxable year (applied without regard to paragraph (b)(5)(v)*(a)* of this section). See subparagraph (3)(vi) of this paragraph for definition and treatment of a ‘‘special basis vintage account’’.

(b) Each property improvement determined under subdivision (vii)*(b)* of this subparagraph, if it is eligible property, shall be capitalized in a vintage account of the taxable year in accordance with the taxpayer’s election to apply this section for the taxable year (applied without regard to paragraph (b)(5)(v)*(a)* of this section).

(c) Each excluded addition, if it is eligible property, shall be capitalized in a vintage account of the taxable year in accordance with the taxpayer’s election to apply this section for the taxable year.

For rule as to date on which a property improvement or an excluded addition is first placed in service, see paragraph (e)(1) (iii) and (iv) of this section.

(ix) *Examples.* The principles of this subparagraph may be illustrated by the following examples:

Example (1). For the taxable year 1972, B elects to apply this section. B has repair allowance property (as described in subdivision (iii) of this subparagraph) in asset guideline class 20.2 under Revenue Procedure 72–10 with an average unadjusted basis determined as provided in subdivision (iii) *(a)* of this subparagraph of $100,000 and repair allowance property in asset guideline class 24.4 with an average unadjusted basis of $300,000. The repair allowance percentage for asset guideline class 20.2 is 4.5 percent and for asset guideline class 24.4 is 6.5 percent. The two asset guideline class repair allowances for 1972 are

$4,500 and $19,500, respectively, determined as follows:

Asset Guideline Class 20.2	
$100,000 average unadjusted basis multiplied by 4.5 percent	$4,500
Asset Guideline Class 24.4	
$300,000 average unadjusted basis multiplied by 6.5 percent	$19,500

Example (2). The facts are the same as in example (1). During the taxable year 1972, B pays or incurs the following expenditures for the repair, maintenance, rehabilitation or improvement of repair allowance property in asset guideline class 20.2

General maintenance (including primarily labor costs)	$3,000
Replacement of parts in several machines (including labor costs of $1,650)	4,000
	7,000

In addition, in connection with the rehabilitation and improvement of two other machines B pays or incurs $6,000 (including labor costs of $2,000) which is treated as an excluded addition because the capacity of the machines was substantially increased. For 1972, B elects to apply this section and to apply the asset guideline class repair allowance to asset guideline class 20.2. Since the asset guideline class repair allowance is $4,500, B can deduct $4,500 in accordance with subdivision (iv) *(a)* of this subparagraph. B must capitalize $2,500 in a special basis vintage account in accordance with subdivisions (vii) *(a)* and (viii) *(a)* of this subparagraph. Since the excluded addition is a capital item and is eligible property, B must also capitalize $6,000 in a vintage account in accordance with subdivision (viii) *(c)* of this subparagraph. B selects from the asset depreciation range an asset depreciation period of 17 years for the special basis vintage account. B includes the excluded addition in a vintage account of 1972 for which he also selects an asset depreciation period of 17 years.

(3) *Treatment of retirements*—(i) *In general.* The rules of this subparagraph specify the treatment of all retirements from vintage accounts. The rules of § 1.167(a)–8 shall not apply to any retirement from a vintage account. An asset in a vintage account is retired when such asset is permanently withdrawn from use in a trade or business or in the production of income by the taxpayer. A retirement may occur as a result of a sale or exchange, by other act of the taxpayer amounting to a permanent disposition of an asset, or by physical abandonment of an asset. A retirement may also occur by transfer of an asset to supplies or scrap.

(ii) *Definitions of ordinary and extraordinary retirements.* The term ‘‘ordinary retirement’’ means any retirement of section 1245 property from a vintage account which is not treated as an ‘‘extraordinary retirement’’ under this subparagraph. The retirement of an asset from a vintage account in a taxable year is an ‘‘extraordinary retirement’’ if—

(a) The asset is section 1250 property;

(b) The asset is section 1245 property which is retired as the direct result of fire, storm, shipwreck, or other casualty and the taxpayer, at his option consistently applied (taking into account type, frequency, and the size of such casualties) treats such retirements as extraordinary; or

(c)(1) The asset is section 1245 property which is retired (other than by transfer to supplies or scrap) in a taxable year as the direct result of a cessation, termination, curtailment, or disposition of a business, manufacturing, or other income producing process, operation, facility or unit, and (2) the unadjusted basis (determined without regard to subdivision (vi) of this subparagraph) of all such assets so retired in such taxable year from such account as a direct result of the event described in *(c)(1)* of this subdivision exceeds 20 percent of the unadjusted basis of such account immediately prior to such event.

For the purposes of *(c)* of this subdivision, all accounts (other than a special basis vintage account as described in subdivision (vi) of this subparagraph) containing section 1245 property of the same vintage in the same asset guideline class, and from which a retirement as a direct result of such event occurs within the taxable year, shall be treated as a single vintage account. See subdivision (xi) of this subparagraph for special rule for item accounts. The principles of this subdivision may be illustrated by the following examples:

Example (1). Taxpayer A is a processor and distributor of dairy products. Part of taxpayer A’s operation is a bottle washing facility consisting of machines X, Y, and Z, each of which is in an item vintage account of 1971. Each item vintage account has an unadjusted basis of $1,000. Taxpayer A also has a 1971 multiple asset vintage account consisting of machines E, S, and C. Machines E and S, used in processing butter, each has an unadjusted basis of $10,000. Machine C used in capping bottles has an unadjusted basis of $1,000. In 1975, taxpayer A changes to the use of paper milk cartons and disposes of all bottle washing machines (X, Y, and Z) as well as machine C which was used in capping bottles. The sales of machine C, X, Y, and Z are the direct result of the termination of a manufacturing process. However, since the total unadjusted basis of the eligible section 1245 property retired as a direct result of such event is only $4,000 (which is less than 20 percent of the total unadjusted basis of machines E, S, C, X, Y, and Z, $24,000) the sales are ordinary retirements. All the assets are in the same asset guideline class and are of the same vintage. Accordingly, machines E, S, C, X, Y, and Z are for this purpose treated as being in a single vintage account.

Example (2). The facts are the same as in example (1) except that in 1976, taxpayer A sells six of his 12 milk delivery trucks as a direct result of eliminating home deliveries to customers in the suburbs. Deliveries within the city require only six trucks. Each of the trucks has an unadjusted basis of $3,000. Six of the taxpayer's delivery trucks are in a multiple asset vintage account of 1974 and six are in a multiple asset vintage account of 1972. Neither account contains any other property. Four trucks are retired from the 1972 vintage account and two trucks are retired from the 1974 vintage account. The sales result from the curtailment of taxpayer A's home delivery operation. The unadjusted basis of the four trucks retired from the 1972 vintage exceeds 20 percent of the total unadjusted basis of the affected account. The same is true for the two trucks retired from the 1974 vintage account. The sales of the trucks are extraordinary retirements.

(*d*) The asset is section 1245 property which is retired after December 30, 1980 by a charitable contribution for which a deduction is allowable under section 170.

(iii) *Treatment of ordinary retirements.* No loss shall be recognized upon an ordinary retirement. Gain shall be recognized only to the extent specified in this subparagraph. All proceeds from ordinary retirements shall be added to the depreciation reserve of the vintage account from which the retirement occurs. See subdivision (vi) of this subparagraph for optional allocation of basis in the case of a special basis vintage account. See subdivision (ix) of this subparagraph for recognition of gain when the depreciation reserve exceeds the unadjusted basis of the vintage account. The amount of salvage value for a vintage account shall be reduced (but not below zero) as of the beginning of the taxable year by the excess of *(a)* the depreciation reserve for the account, after adjustment for depreciation allowable for such taxable year and all other adjustments prescribed by this section (other than the adjustment prescribed by subdivision (ix) of this subparagraph), over *(b)* the unadjusted basis of the account less the amount of salvage value for the account before such reduction. Thus, in the case of a vintage account with an unadjusted basis of $1,000 and a salvage value of $100, to the extent that proceeds from ordinary retirements increase the depreciation reserve above $900, the salvage value is reduced. If the proceeds increase the depreciation reserve for the account to $1,000, the salvage value is reduced to zero. The unadjusted basis of the asset retired in an ordinary retirement is not removed from the account and the depreciation reserve for the account is not reduced by the depreciation allowable for the retired asset. The previously unrecovered basis of the retired asset will be recovered through the allowance for depreciationwith respect to the vintage account. See subdivision (v)*(a)* of this subparagraph for treatment of retirements on which gain or loss is not recognized in whole or in part. See subdivision (v)*(b)* of this subparagraph for treatment of retirements by disposition to a member of an affiliated group as defined in section 1504(a). See subdivision (v)(*c*) of this subparagraph for treatment of transfers between members of an affiliated group of corporations or other related parties as extraordinary retirements.

(iv) *Treatment of extraordinary retirements. (a)* Unless the transaction is governed by a special nonrecognition section of the Code such as 1031 or 337 or is one to which subdivision (v)*(b)* of this subparagraph applies, gain or loss shall be recognized upon an extraordinary retirement in the taxable year in which such retirement occurs subject to section 1231, section 165, and all other applicable provisions of law such as sections 1245 and 1250. If the asset which is retired in an extraordinary retirement is the only or last asset in the account, the account shall terminate and no longer be an account to which this section applies. In all other cases, the unadjusted basis of the retired asset shall be removed from the unadjusted basis of the vintage account, and the depreciation reserve established for the account shall be reduced by the depreciation allowable for the retired asset computed in the manner prescribed in paragraph (c) (1)(v)*(b)* of this section for determination of the adjusted basis of the asset. See subdivision (ix) of this subparagraph for recognition of gain in the case of an account containing section 1245 property when the depreciation reserve exceeds the unadjusted basis of the vintage account. See subdivision (iii) of this subparagraph for reduction of salvage value for such an account when the depreciation reserve exceeds the unadjusted basis of the account minus salvage value. See subdivision (v)*(b)* of this subparagraph for treatment of retirements by disposition to a member of an affiliated group as defined in section 1504(a).

(b) The principles of this subdivision may be illustrated by the following examples:

Example (1). Corporation X has a multiple asset vintage account of 1971 consisting of assets K, R, A, and P all of which are section 1245 property. The unadjusted basis of the account is $40,000. The unadjusted basis of asset A is $10,000. When the reserve for depreciation for the account is $20,000, asset A is sold in an extraordinary retirement for $8,000 in cash. The $10,000 unadjusted basis of asset A is removed from the account and the $5,000 depreciation allowable for asset A is removed from the reserve for depreciation. Gain in the amount of $3,000 (to which section 1245 applies) is recognized upon the sale of asset A.

Example (2). Corporation X has an item vintage account of 1972 consisting of residential apartment unit A. Unit A is section 1250 property. It is residential rental property and meets the requirements of section 167(j)(2). Corporation X adopts the declining balance method of depreciation using a rate twice the straight line rate. The asset depreciation period is 40 years. Unit A has an unadjusted basis of $200,000. On June 30, 1974, when the reserve for depreciation for the account is $19,500, unit A is sold for $220,000. Since unit A is section 1250 property, the sale is an extraordinary retirement in accordance with subdivision (ii)*(a)* of this subparagraph (without regard to subdivision (ii) *(b)* or *(c)* of this subparagraph). The adjusted basis of unit A is $180,500. Gain in the amount of $39,500 is recognized. The ‘‘additional depreciation’’ (as defined in section 1250(b)) for unit A is $9,500. Accordingly, $9,500 is in accordance with section 1250 treated as gain from the sale or exchange of an asset which is neither a capital asset nor property described in section 1231. The $30,000 balance of the gain from the sale of unit A may be gain to which section 1231 applies.

(v) *Special rule for certain retirements. (a)* In the case of an ordinary retirement on which gain or loss is in whole or in part not recognized because of a special nonrecognition section of the Code, such as 1031 or 337, no part of the proceeds from such retirement shall be added to the depreciation reserve of the vintage account in accordance with subdivision (iii) of this subparagraph. Instead, such retirement shall for all purposes of this section be treated as an extraordinary retirement.

(b) The provisions of § 1.1502–13 shall apply to a retirement. In the case of an ordinary retirement to which the provisions of § 1.1502–13 apply, no part of the proceeds from such retirement shall be added to the depreciation reserve of the vintage account in accordance with subdivision (iii) of this subparagraph. Instead, such retirement shall for all purposes of this section be treated as an extraordinary retirement.

(c) In a case in which property is transferred, in a transaction which would without regard to this subdivision be treated as an ordinary retirement, during the taxable year in which first placed in service to a person who bears a relationship described in section 179(d)(2) (A) or (B), such transfer shall for all purposes of this section be treated as an extraordinary retirement.

(d)(1) If, in the case of mass assets, it is impracticable for the taxpayer to maintain records from which he can establish the vintage of such assets as retirements occur, and if he adopts other reasonable recordkeeping practices, then the vintage of mass asset retirements may be determined by use of an appropriate mortality dispersion table. Such a mortality dispersion table may be based upon an acceptable sampling of the taxpayer’s actual experience or

other acceptable statistical or engineering techniques. Alternatively, the taxpayer may use a standard mortality dispersion table prescribed by the Commissioner for this purpose. If the taxpayer uses such standard mortality dispersion table for any taxable year of election, it must be used for all subsequent taxable years of election unless the taxpayer obtains the consent of the Commissioner to change to another dispersion table or to actual identification of retirements. For information requirements regarding mass assets, see paragraph (f)(5) of this section.

(2) For purposes of this section, the term ''mass assets'' has the same meaning as when used in paragraph (e)(4) of §1.47–1.

(e) The principles of this subdivision may be illustrated by the following examples:

Example (1). Corporation X has a vintage account of 1971 consisting of machines A, B, and C, each with an unadjusted basis of $1,000. The unadjusted basis of the account is $3,000 and at the end of 1977 the reserve for depreciation is $2,100. On January 1, 1978, machine A is transferred to corporation Y solely for stock in the amount of $1,400 in a transaction to which section 351 applies. Since the adjusted basis of machine A is $300, a gain of $1,100 is realized, but no gain is recognized under section 351. Even though machine A was transferred in an ordinary retirement in accordance with *(a)* of this subdivision the rules for an extraordinary retirement are applied. The proceeds are not added to the reserve for depreciation for the account. Machine A is removed from the account, the unadjusted basis of the account is reduced by $1,000, and the reserve for depreciation for the account is reduced by $700.

Example (2). The facts are the same as in example (1) except that the consideration received for machine A is stock of corporation Y in the amount of $1,200 and cash in the amount of $200. The result is the same as in example (1) except that gain is recognized in the amount of $200 all of which is gain to which section 1245 applies.

Example (3). The facts are the same as in example (1) except that machine A is sold for $1,400 cash in an ordinary retirement and corporation X and corporation Y are includible corporations in an affiliated group as defined in section 1504(a) which files a consolidated return for 1978. Accordingly, *(b)* of this subdivision applies. The retirement is treated as an extraordinary retirement. Machine A is removed from the account, the unadjusted basis of the account is reduced by $1,000, and the reserve for depreciation for the account is reduced by $700. The gain of $1,100 is deferred gain to which §1.1502–13 applies.

(vi) *Treatment of special basis vintage accounts.* A ''special basis vintage account'' is a vintage account for an amount of property improvement determined under subparagraph (2) (vii)*(a)* of this paragraph. In general, reference in this section to a ''vintage account'' shall include a special basis vintage account. The unadjusted basis of a special basis vintage account shall be recovered through the allowance for depreciation in accordance with this section over the asset depreciation period for the account. Except as provided in this subdivision, the unadjusted basis, adjusted basis and reserve for depreciation of such account shall not be allocated to any specific asset in the asset guideline class, and the provisions of this subparagraph shall not apply tosuch account. However, in the event of a sale, exchange or other disposition of ''repair allowance property'' (as described in subparagraph (2)(iii) of this paragraph) in an extraordinary retirement as described in subdivision (ii) of this subparagraph (or if the asset is not in a vintage account, in an abnormal retirement as described in §1.167(a)–8), the taxpayer may, if consistently applied to all such retirements in the taxable year and adequately identified in the taxpayer's books and records, elect to allocate the adjusted basis (as of the end of the taxable year) of all special basis vintage accounts for the asset guideline class to each such retired asset in the proportion that the adjusted basis of the retired asset (as of the beginning of the taxable year) bears to the adjusted basis of all repair allowance property in the asset guideline class at the beginning of the taxable year. The election to allocate basis in accordance with this subdivision shall be made on the tax return filed for the taxable year. The principles of this subdivision may be illustrated by the following example:

Example. In addition to other property, the taxpayer has machines A, B, and C all in the same asset guideline class and each with an adjusted basis on January 1, 1977, of $10,000. The adjusted basis on January 1, 1977, of all repair allowance property (as described in subparagraph (2)(iii) of this paragraph) in the asset guideline class is $90,000. The machines are sold in an extraordinary retirement in 1977. The taxpayer is entitled to and does elect to allocate basis in accordance with this subdivision. There is also a 1972 special basis vintage account for the asset guideline class, as follows:

	Unadjusted basis	Reserve for depreciation	Dec. 31, 1977, adjusted basis
1972 special basis vintage account, for which the taxpayer selected an asset depreciation period of 10 years, adopted the straight line method, and used the half-year convention	$2,000	$1,100	$900

By application of this subdivision, the adjusted basis of machines A, B, and C is increased to $10,100 each (that is, $10,000÷$90,000×$900=$100). The unadjusted basis, reserve for depreciation and adjusted basis of the special basis vintage account are reduced, respectively, by one-third (that is, $300÷$900=⅓) in order to reflect the allocation of basis from the special basis vintage account.

(vii) *Reduction in the salvage value of a vintage account. (a)* A taxpayer may apply this section without reducing the salvage value for a vintage account in accordance with this subdivision or in accordance with subdivision (viii) of this subparagraph (relating to transfers to supplies or scrap). See subdivision (iii) of this subparagraph for reduction of salvage value in certain circumstances in the amount of proceeds from ordinary retirements.

(b) However, the taxpayer may, at his option, follow the consistent practice of reducing, as retirements occur, the salvage value for a vintage account by the amount of salvage value attributable to the retired asset, or the taxpayer may consistently follow the practice of so reducing the salvage value for a vintage account as extraordinary retirements occur while not reducing the salvage value for the account as ordinary retirements occur. If the taxpayer does not reduce the salvage value for a vintage account as ordinary retirements occur, the taxpayer may be entitled to a deduction in the taxable year in which the last asset is retired from the account in accordance with subdivision (ix) (*b*) of this subparagraph.

(c) For purposes of this subdivision, the portion of the salvage value for a vintage account attributable to a retired asset may be determined by multiplying the salvage value for the account by a fraction, the numerator of which is the unadjusted basis of the retired asset and the denominator of which is the unadjusted basis of the account, or any other method consistently applied which reasonably reflects that portion of the salvage value for the account originally attributable to the retired asset.

(d) In the case of ordinary retirements the taxpayer may—

(1) In the case of retirements (other than by transfer to supplies or scrap) follow the consistent practice of reducing the salvage value for the account by the amount of salvage value attributable to the retired asset and not adding the same amount to the depreciation reserve for the account, and

(2) In the case of retirements by transfer to supplies or scrap, follow the consistent practice of reducing the salvage value for the account by the amount of salvage value attributable to the retired asset and not adding the same amount to the depreciation reserve for the account (in which case the basis in the supplies or scrap account of the retired asset will be zero) or follow the consistent practice of reducing the salvage value for the account by the amount of salvage value attributable to the retired asset and adding the same amount to the depreciation reserve for the account (up to an amount which does not increase the depreciation reserve to an amount in excess of the unadjusted basis of the account) in which case the basis in the supplies or scrap account of the retired asset will be the amount added to the depreciation reserve for the account.

Thus, for example, in the case of an ordinary retirement by transfer of an asset to supplies or scrap, the basis of the asset in the supplies or scrap account would either be zero or the amount added to the depreciation reserve of the vintage account from which the retirement occurred. When the depreciation reserve for the account equals the unadjusted basis of the account no further adjustment to salvage value for the account will be made. See subdivision (viii) of this subparagraph for special optional rule for reduction of salvage value in the case of an ordinary retirement by transfer of an asset to supplies or scrap.

(e) In the event of a removal of property from a vintage account in accordance with paragraph (b)(4)(iii)*(e),* (5)(v)*(b)* or (6)(iii) of this section the salvage value for the account may be reduced by the amount of salvage value attributable to the asset removed determined as provided in *(c)* of this subdivision.

(viii) *Special optional adjustments for transfers to supplies or scrap.* If the taxpayer does not follow the consistent practice of reducing, as ordinary retirements occur, the salvage value for a vintage account in accordance with subdivision (vii) of this subparagraph, the taxpayer may (in lieu of the method described in subdivision (vii) *(c)* and *(d)* of this subparagraph) follow the consistent practice of reducing salvage value as ordinary retirements occur by transfer of assets to supplies or scrap and of determining the basis (in the supplies or scrap account) as assets retired in an ordinary retirement by transfer to supplies or scrap, in the following manner—

(a) The taxpayer may determine the value of the asset (not to exceed its unadjusted basis) by any reasonable method consistently applied (such as average cost, conditioned cost, or fair market value) if such method is adequately identified in the taxpayer's books and records.

(b) The value attributable to the asset determined in accordance with *(a)* of this subdivision shall be subtracted from the salvage value for the account (to the extent thereof) and the greater of *(1)* the amount subtracted from the salvage value for the vintage account and *(2)* the value of the asset determined in accordance with *(a)* of this subdivision, shall be added to the reserve for depreciation of this vintage account.

(c) The amount added to the reserve for depreciation of the vintage account in accordance with *(b)* of this subdivision shall be treated as the basis of the retired asset in the supplies or scrap account.

If the taxpayer makes the adjustments in accordance with this subdivision, the reserve for depreciation of the vintage account may exceed the unadjusted basis of the account, and in that event gain will be recognized in accordance with subdivision (ix) of this subparagraph.

(ix) *Recognition of gain or loss in certain situations. (a)* In the case of a vintage account for section 1245 property, if at the end of any taxable year after adjustment for depreciation allowable for such taxable year and all other adjustments prescribed by this section, the depreciation reserve established for such account exceeds the unadjusted basis of the account, the entire amount of such excess shall be recognized as gain in such taxable year. Such gain—

(1) Shall constitute gain to which section 1245 applies to the extent that it does not exceed the total amount of depreciation allowances in the depreciation reserve at the end of such taxable year, reduced by gain recognized pursuant to this subdivision with respect to the account previously treated as gain to which section 1245 applies, and

(2) May constitute gain to which section 1231 applies to the extent that it exceeds such total amount as so reduced.

In such event, the depreciation reserve shall be reduced by the amount of gain recognized, so that after such reduction the amount of the depreciation reserve is equal to the unadjusted basis of the account.

(b) In the case of an account for section 1245 property, if at the time the last asset in the vintage account is retired the unadjusted basis of the account exceeds the depreciation reserve for the account (after all adjustments prescribed by this section), the entire amount of such excess shall be recognized in such taxable year as a loss under section 165 or as a deduction for depreciation under section 167. If the retirement of such asset occurs by sale or exchange on which gain or loss is recognized, the amount of such excess may constitute a loss subject to section 1231. Upon retirement of the last asset in a vintage account, the account

shall terminate and no longer be an account to which this section applies. See subdivision (xi) of this subparagraph for treatment of certain multiple asset and item accounts.

(c) The principles of this subdivision may be illustrated by the following example:

Example. The taxpayer has a vintage account for section 1245 property with an unadjusted basis of $1,000 and a depreciation reserve of $700 (of which $600 represents depreciation allowances and $100 represents the proceeds of ordinary retirements from the account). If $500 is realized during the taxable year from ordinary retirements of assets from the account, the reserve is increased to $1,200, gain is recognized to the extent of $200 (the amount by which the depreciation reserve before further adjustment exceeds $1,000) and the depreciation reserve is then decreased to $1,000. The $200 of gain constitutes gain to which section 1245 applies. If the amount realized from ordinary retirements during the year had been $1,100 instead of $500, the gain of $800 would have consisted of $600 of gain to which section 1245 applies and $200 of gain to which section 1231 may apply.

(x) *Dismantling cost.* The cost of dismantling, demolishing, or removing an asset in the process of a retirement from the vintage account shall be treated as an expense deductible in the year paid or incurred, and such cost shall not be subtracted from the depreciation reserve for the account.

(xi) *Special rule for treatment of multiple asset and item accounts.* For the purposes of subdivision (ix)*(b)* of this subparagraph, all accounts (other than a special basis vintage account as described in subdivision (vi) of this subparagraph) of the same vintage in the same asset guideline class for which the taxpayer has selected the same asset depreciation period and adopted the same method of depreciation, and which contain only section 1245 property permitted by paragraph (b)(3)(ii) of this section to be included in the same vintage account, shall be treated as a single multiple asset vintage account.

(4) *Examples.* The principles of this paragraph may be illustrated by the following examples:

Example (1). (a)Taxpayer A has a multiple asset vintage account for selection 1245 property with an unadjusted basis of $1,000. All the assets were first placed in service by A on January 15, 1971. This account contains all of A's assets in a single asset guideline class. A elects to apply this section for 1971 and adopts the modified half-year convention. A estimates a salvage value for the account of $100 and this estimate is determined to be reasonable. (See subparagraph (1)(v) of this paragraph for limitation on adjustment of reasonable salvage value.) A adopts the straight line method of depreciation with respect to the account and selects a 10-year asset depreciation period. A does not follow a practice of reducing the salvage value for the account in the amount of salvage value attributable to each retired asset in accordance with subparagraph (3)(vii) of this paragraph. The depreciation allowance for each of the first 4 years is $100, that is 1⁄10 multiplied by the unadjusted basis of $1,000, with reduction for salvage.

(b) In the fifth year of the asset depreciation period, three assets are sold in an ordinary retirement for $300. Under paragraph (c)(1)(ii) of this section and subparagraph (3)(iii) of this paragraph, the proceeds of the retirement are added to the depreciation reserve as of the beginning of the fifth year. Accordingly, the reserve as of the beginning of the fifth year is $700, that is, $400 of depreciation as of the beginning of the year plus $300 proceeds from ordinary retirements. The depreciation allowance for the fifth year is $100, that is 1⁄10 multiplied by the unadjusted basis of $1,000, without reduction for salvage. Accordingly, the depreciation reserve at the end of the fifth year is $800.

(c) In the sixth year, asset X is sold in an extraordinary retirement for $30 and gain or loss is recognized. Under the first-year convention used by the taxpayer, the unadjusted basis of X, $300, is removed from the unadjusted basis of the vintage account as of the beginning of the sixth year and the depreciation reserve as of the beginning of such year is reduced to $650 by removing the depreciation applicable to asset X, $150 (see subparagraph (3)(iv) of this paragraph). Since the depreciation reserve ($650) exceeds the unadjusted basis of the account ($700) minus salvage value ($100) by $50, under subparagraph (3)(iii) of this paragraph, salvage value is reduced by $50. No depreciation is allowable for the sixth year.

(d) In the seventh year, an asset is sold in an ordinary retirement for $110. This would increase the reserve as of the beginning of the seventh year to $760 and under subparagraph (3)(iii) of this paragraph the salvage value is reduced to zero. Under subparagraph (3)(ix)*(a)* of this paragraph the depreciation reserve is then decreased to $700 (the unadjusted basis of the account) and $60 is reported as gain, without regard to the adjusted basis of the asset. No depreciation is allowable for the seventh year since the depreciation reserve ($700) equals the unadjusted basis of the account ($700).

(e)(1) In the eighth year, A elects to apply this section and to treat expenditures during the year for repair, maintenance, rehabilitation or improvement under subparagraph (2)(iii) and (iv)(*a*) of this paragraph (the ‘‘guideline class repair allowance’’). This results in the treatment of $300 as a property improvement for the asset guideline class. (See subparagraph (2)(vii) of this paragraph for definition of a property improvement.) The property improvement is capitalized in a special basis vintage account of the eighth taxable year (see subparagraph (2)(viii)*(a)* of this paragraph). A selects an asset depreciation period of 10 years and adopts the straight line method for the special basis vintage account. A adopts the modified half-year convention for the eighth year.

(2) In the eighth year, A sells asset Y in an ordinary retirement for $175. Under paragraph (c)(1)(ii) of this section and subparagraph (3)(iii) of this paragraph, $175 is added to the depreciation reserve for the account as of the beginning of the taxable year. Since the depreciation reserve for the account ($875) exceeds the unadjusted basis of the account ($700) by $175, that amount of gain is recognized under subparagraph (3)(ix) of this paragraph. Upon recognition of gain in the amount of $175, the depreciation reserve for the account is reduced to $700.

(3) No depreciation is allowable in the eighth year for the vintage account since the depreciation reserve ($700) equals the unadjusted basis of the account ($700). The depreciation allowable in the eighth year for the special basis vintage account is $15, that is, unadjusted basis of $300, multiplied by 1⁄10, the asset depreciation period selected for the special basis vintage account, but limited to $15 under the modified half-year convention. (See paragraph (e)(1)(iv) of this section for treatment of $150 of the property improvement as first placed in service in the first half of the taxable year and $150 of the property improvement as first placed in service in the last half of the taxable year.)

Example (2). Taxpayer B has a 1971 multiple asset vintage account for section 1245 property with an unadjusted basis of $100,000. B selects from the asset depreciation range an asset depreciation period of 10 years and adopts the straight line method of depreciation and the modified half-year convention. B establishes a salvage value for the account of $10,000. All the assets in the account are first placed in service on January 15, 1971. B follows the practice of reducing salvage value for the account as ordinary retirements occur in accordance with subparagraph (3)(vii) of this paragraph, but does not follow the optional practice of determining the basis of assets transferred to supplies or scrap in accordance with subparagraph (3)(vii) of this paragraph. No retirements occur during the first five years. The depreciation reserve at the beginning of the sixth year is $50,000. In the sixth year an asset with an unadjusted basis of $20,000 is transferred to supplies in an ordinary retirement. By application of subparagraph (3)(vii) *(c)* and *(d)(2)* of this paragraph B determines the reduction in salvage value for the account attributable to such asset to be

$$\$2{,}000 \text{ (that is, } \$20{,}000 \div \$100{,}000 \times \$10{,}000 = \$2{,}000).$$

B reduces the salvage value for the account by $2,000 and adds 2,000 to the depreciation reserve for the account. The basis of the retired asset in the supplies account is $2,000. The depreciation allowable for the account for the sixth year is $10,000. The depreciation reserve for the account at the beginning of the seventh year is $62,000. At the mid-point of the seventh year all the remaining assets in the account are sold in an ordinary retirement for $20,000, which is added to the depreciation reserve as of the beginning of the seventh year, thus increasing the reserve to $82,000. The $5,000 depreciation allowable for the account for the seventh year (one-half of a full-year’s depreciation of $10,000) increases the depreciation reserve to $87,000. Under subparagraph (3)(ix)*(b)* of this paragraph, a loss of $13,000 subject to section 1231 is realized in the seventh year (that is, the excess of the unadjusted basis of $100,000 over the depreciation reserve of $87,000). No depreciation is allowable for the account after the mid-point of the seventh year since all the assets are retired and the account has terminated.

(e) *Accounting for eligible property*— (1) *Definition of first placed in service*—(i) *In general.* The term ‘‘first placed in service’’ refers to the time the property is first placed in service by the taxpayer, not to the first time the property is placed in service. Property is first placed in service when first placed in a condition or state of readiness and availability for a specifically assigned function, whether in a trade or business, in the production of income, in a tax-exempt activity, or in a personal activity. In general, the provisions of paragraph (d)(1)(ii) and (d)(2) of § 1.46–3 shall apply for the purpose of determining the date on which property is placed in service, but see subdivision (ii) of this subparagraph for special rule for certain replacement parts. In the case of a building which is intended to house machinery and equipment and which is constructed, reconstructed, or erected by or for the taxpayer and for the taxpayer’s use, the building will ordinarily be placed in service on the date such construction, reconstruction, or erection is substantially complete and the building is in a condition or state of readiness and availability. Thus, for example, in the case of a factory building, such readiness and availability shall be determined without regard to whether the machinery or equipment which the building houses, or is intended to house, has been placed in service. However, in an appropriate case, as for example where the building is essentially an item of machinery or equipment, or the use ofthe building is so closely related to the use of the machinery or equipment that it clearly can be expected to be replaced or retired when the property it initially houses is replaced or retired, the determination of readiness or availability of the building shall be made by taking into account the readiness and availability of such machinery or equipment. The date on which depreciation begins under a convention used by the taxpayer or under a particular method of depreciation, such as the unit of production method or the retirement method, shall not determine the date on which the property is first placed in service. See paragraph (c)(2) of this section for application of a first-year convention to determine the allowance for depreciation of property in a vintage account.

(ii) *Certain replacement parts.* Property (such as replacement parts) the cost or other basis of which is deducted as a repair expense in accordance with the asset guideline repair allowance described in paragraph (d)(2)(iii) of this section shall not be treated as placed in service.

(iii) *Property improvements and excluded additions. (a)* Except as provided in *(b)* of this subdivision, a property improvement determined under paragraph (d)(2)(vii)*(b)* of this section, and an excluded addition (other than an excluded addition referred to in the succeeding sentence) is first placed in service when its cost is paid or incurred. The general rule in subdivision (i) of this subparagraph applies to an excluded addition described in paragraph (d) (2)(vi) *(d), (e), (f),* or *(g)* of this section.

(b) If a property improvement or an excluded addition to which the first sentence of *(a)* of this subdivision applies is paid or incurred in part in one taxable year and in part in the succeeding taxable year (or in part in the first half of a taxable year and in part in the last half of the taxable year) the taxpayer may at his option consistently treat such property improvements and excluded additions under the general rule in subdivision (i) of this subparagraph.

(iv) *Certain property improvements.* In the case of an amount of property improvement determined under paragraph (d)(2)(vii)*(a)* of this section, one-half of such amount is first placed in service in the first half of the taxable year in which the cost is paid or incurred and one-half is first placed in service in the last half of such taxable year.

(v) *Special rules for clearing accounts.* In the case of public utilities which consistently account for certain property through ‘‘clearing accounts,’’ the date on which such property is first placed in service shall be determined in accordance with rules to be prescribed by the Commissioner.

(2) *Special rules for transferred property.* If eligible property is first placed in service by the taxpayer during a taxable year of election, and the property is disposed of before the end of the taxable year, the election for such taxable year shall include such property unless such property is excluded in accordance with paragraph (b)(5) (iii), (iv, (v), (vi), or (vii) of this section.

(3) *Special rules in the case of certain transfers*—(i) *Transaction to which section 381(a) applies. (a)* In general the acquiring corporation in a transaction to which section 381(a) applies is for the purposes of this section treated as if it were the distributor or transferor corporation.

(b) If the distributor or transferor corporation (including any distributor or transferor corporation of any distributor or transferor corporation) has made an election to apply this section to eligible property transferred in a transaction to which section 381(a) applies, the acquiring corporation must segregate such eligible property (to which the distributor or transferor corporation elected to apply this section) into vintage accounts as nearly coextensive as possible with the vintage accounts created by the distributor or

transferor corporation identified by reference to the year the property was first placed in service by the distributor or transferor corporation. The asset depreciation period for the vintage account in the hands of the distributor or transferor corporation must be used by the acquiring corporation. The method of depreciation adopted by the distributor or transferor corporation, shall be used by the acquiring corporation unless such corporation obtains the consent of the Commissioner to use another method of depreciation in accordance with paragraph (e) of §1.446–1 or changes the method of depreciation under paragraph (c)(1)(iii) of this section.

(c) The acquiring corporation may apply this section to the property so acquired only if the distributor or transferor corporation elected to apply this section to such property.

(d) See paragraph (b)(7) of this section for special rule for certain property where there is a mere change in the form of conducting a trade or business.

(ii) *Partnerships, trusts, estates, donees, and corporations.* Except as provided in subdivision (i) of this subparagraph with respect to transactions to which section 381(a) applies and subdivision (iv) of this subparagraph with respect to certain transfers between members of an affiliated group of corporations or other related parties, if eligible property is placed in service by an individual, trust, estate, partnership or corporation, the election to apply this section shall be made by the individual, trust, estate, partnership or corporation placing such property in service. For example, if a partnership places in service property contributed to the partnership by a partner, the partnership may elect to apply this section to such property. If the partnership does not make the election, this section will not apply to such property. See paragraph (b)(7) of this section for special rule for certain property where there is mere change in the form of conducting a trade or business.

(iii) *Leased property.* The asset depreciation range and the asset depreciation period for eligible property subject to a lease shall be determined without regard to the period for which such property is leased, including any extensions or renewals of such period. See paragraph (b)(5)(v) of this section for exclusion of property amortized under paragraph (b) of §1.162–11 from an election to apply this section. In the case of a lessor of property, unless there is an asset guideline class in effect for lessors of such property, the asset guideline class for such property shall be determined as if the property were owned by the lessee. However, in the case of an asset guideline class based upon the type of property (such as trucks or railroad cars) as distinguished from the activity in which used, the property shall be classified without regard to the activity of the lessee. Notwithstanding the preceding sentence, if a lease with respect to property, which would be includible in an asset guideline class based upon the type of property under the preceding sentence (such as trucks or railroad cars), is entered into after March 12, 1971, and before April 23, 1973, or a written contract to execute such a lease is entered into during such periodand such contract is binding on April 23, 1973, and at all times thereafter, and if the rent or rate of return is based on a classification of such property as if it were owned by the lessee, then such property shall be classified as if it were owned by the lessee. However, the preceding sentence shall not apply if pursuant to the terms or conditions of the lease or binding contract the rent or rate of return may be adjusted to take account of a change in the period for depreciation with respect to the property resulting from inclusion of the property in an asset guideline class based upon the type of property rather than in an asset guideline class based upon the activity of the lessee. Similarly, where the terms of such a lease or contract provide that the obligation of the taxpayer to enter into the lease is subject to a condition that the property be included in an asset guideline class based upon the activity of the lessee, the contract or lease will not be considered as binding upon the taxpayer, for purposes of this subdivision. See paragraph (b)(4)(iii)*(b)* of this section for general rule for classification of property according to primary use.

(iv) *Treatment of certain transfers between members of affiliated groups or other related persons.* If section 38 property in an asset guideline class (determined without regard to whether the taxpayer elects to apply this section) is transferred by the taxpayer to a person who bears a relationship described in section 179(d)(2) (A) or (B), such property is in the same asset guideline class in the hands of transferee, and the transfer is neither described in section 381(a) nor treated as a disposition or cessation within the meaning of section 47, then the asset guideline period for such property selected by the taxpayer under this section shall not be shorter than the period used for computing the qualified investment with respect to the property under section 46(c). In a case in which the asset depreciation range for the asset guideline class which includes such property does not include the period for depreciation used by the transferor in computing the qualified investment with respect to such property, the transferee will not be permitted to include such property in an election under this section. However, in such a case, the transferor of the property may recompute the qualified investment for the year the property was placed in service using a period for depreciation which falls within the asset depreciation range.

(f) *Election with respect to eligible property*—(1) *Time and manner of election*—(i) *In general.* An election to apply this section to eligible property shall be made with the income tax return filed for the taxable year in which the property is first placed in service (see paragraph (e)(1) of this section) by the taxpayer. In the case of an affiliated group of corporations (as defined in section 1504(a)) which makes a consolidated return with respect to income tax in accordance with section 1502 and the regulations thereunder, each corporation which joins in the making of such return may elect to apply this section for a taxable year. An election to compute the allowance for depreciation under this section is a method of accounting but the consent of the Commissioner will be deemed granted to make an annual election. For election by a partnership see section 703 (b) and paragraph (e)(3)(ii) of this section. If the taxpayer does not file a timely return (taking into account extensions of the time for filing) for the taxable year in which the property is first placed in service, the election shall be filed at the time the taxpayer files his first return for that year. The election may be made with an amended return filed within the time prescribed by law (including extensions) for filing the original return for the taxable year of election. If an election is not made within the time and in the manner prescribed in this paragraph, no election may be made for such taxable year (by the filing of an amended return or in any other manner) with respect to any eligible property placed in service in the taxable year.

(ii) *Other elections under this section.* All other elections under this section may be made only within the time and in the manner prescribed by subdivision (i) of this subparagraph with respect to an election to apply this section.

(iii) *Effective date.* See paragraph (f)(6) of this section for the effective date of this paragraph.

(2) *Information required.* A taxpayer who elects to apply this section must specify in the election:

(i) That the taxpayer makes such election and consents to and agrees to apply, all the provisions of this section;

(ii) The asset guideline class for each vintage account of the taxable year;

(iii) The first-year convention adopted by the taxpayer for the taxable year of election;

(iv) Whether the special 10 percent used property rule described in paragraph (b)(5)(iii) of this section has been applied to exclude used property from the election;

(v) Whether the taxpayer elects to apply the asset guideline class repair allowance described in paragraph (d)(2)(iii) of this section;

(vi) Whether the taxpayer elects for the taxable year to allocate the adjusted basis of a special basis vintage account in accordance with paragraph (d)(3)(vi) of this section;

(vii) Whether any eligible property for which the taxpayer was not required or permitted to make an election was excluded because of the special rules of paragraph (b)(5)(v) or (6), or paragraph (e)(3)(i) or (iv) of this section;

(viii) Whether any ‘‘section 38 property’’ was excluded under paragraph (b)(5)(iv) of this section from the election to apply this section;

(ix) If the taxpayer is an electric or gas utility, whether the taxpayer elects to apply this section on the basis of a composite asset guideline class in accordance with paragraph (b)(4)(iii)(*a*) of this section; and

(x) Such other information as may reasonably be required.

The information required under this subparagraph may be provided in accordance with rules prescribed by the Commissioner for reasonable grouping of assets or accounts. Form 4832 is provided for making an election and for submission of the information required. An election may be made and the information submitted only in accordance with Form 4832. An election to apply this section will not be rendered invalid under this subparagraph so long as there is substantial compliance, in good faith, with the requirements of this subparagraph.

(3) *Irrevocable election.* An election to apply this section to eligible property for any taxable year may not be revoked or changed after the time for filing the election prescribed under subparagraph (1) of this paragraph has expired. No other election under this section may be revoked or changed after such time unless expressly provided for under this section. (See paragraph (b)(5)(v)*(b)* of this section for special rule.)

(4) *Special conditions to election to apply this section*—(i) *Maintenance of books and records.* The taxpayer may not elect to apply this section for a taxable year unless the taxpayer maintains the books and records required under this section. In addition to any other information required under this section, the taxpayer's books and records must specify—

(*a*) The asset depreciation period selected by the taxpayer for each vintage account;

(*b*) If the taxpayer applies the modified half-year convention, the total cost or other basis of all eligible property first placed in service in the first half of the taxable year and the total cost or other basis of all eligible property first placed in service in the last half of the taxable year;

(*c*) The unadjusted basis and salvage value for each vintage account, and the amount, if any, by which gross salvage value was decreased under section 167 (f);

(*d*) Each asset guideline class for which the taxpayer elects to apply the asset guideline class repair allowance described in paragraph (d)(2)(iii) of this section;

(*e*) The amount of property improvement, determined under paragraph (d)(2)(vii)(*a*) of this section, for each asset guideline class for which the taxpayer elects to apply the asset guideline class repair allowance;

(*f*) A reasonable description of property excluded from an election to apply this section and the basis for the exclusion;

(*g*) The total unadjusted basis of all assets retired during the taxable year from each asset guideline class, and the proceeds realized during the taxable year from such retirements; and

(*h*) The vintage (that is, the taxable year in which established) of the assets retired during the year from each asset guideline class.

For purposes of paragraph (f)(4)(i) (*g*) and (*h*) of this section, all accounts of the same vintage and asset guideline class may be treated as a single account. The taxpayer must specify the information required under paragraph (f)(4)(i) (*g*) and (*h*) without regard to the retirement of an asset by transfer to a supplies account for reuse.

(ii) *Response to survey.* Taxpayers who elect to apply this section must respond to infrequent data surveys conducted by the Treasury Department. These periodic surveys, which will be conducted on the basis of scientifically sound sampling methods, are designed to obtain data (including industry asset acquisitions and retirements) used to keep the asset guideline classes and periods up to date.

(iii) *Effect of noncompliance.* An election to apply this section will not be rendered invalid under this subparagraph so long as there is substantial compliance, in good faith, with the requirements of this subparagraph.

(5) *Mass assets.* In the case of mass assets, if the taxpayer assigns retirements to vintage accounts in the manner provided in paragraph (d)(3)(v)*(c)* of this section, the following information must be supplied with form 4832:

(i) Whether the taxpayer used the standard mortality dispersion curve or a curve based upon his own experience, and

(ii) Such other reasonable information as may be required by the Commissioner.

(6) *Effective date.* The rules in this paragraph apply to elections for taxable years ending on or after December 31, 1978. In the case of an election for a taxable year ending before December 31, 1978, the rules in paragraph (f) of this section, in effect before the amendments made by T.D. 7593 approved January 11, 1979, shall apply. See 26 CFR § 1.167(a)–11(f) (1977) for paragraph (f) of this section as it appeared before the amendments made by T.D. 7593.

(g) *Relationship to other provisions*—(1) *Useful life*—(i) *In general.* Except as provided in subdivision (ii) of this subparagraph, an election to apply this section to eligible property constitutes an agreement under section 167(d) and this section to treat the asset depreciation period for each vintage account as the useful life of the property in such account for all purposes of the Code, including sections 46, 47, 48, 57, 163(d), 167(c), 167(f)(2), 179, 312(m), 514(a), and 4940(c). For example, since section 167(c) requires a useful life of at least 3 years and the asset depreciation period selected is treated as the useful life for purposes of section 167(c), the taxpayer may adopt a method of depreciation described in section 167(b) (2) or (3) for an account only if the asset depreciation period selected for the account is at least 3 years.

(ii) *Special rules. (a)* For the purposes of paragraph (d) of this section, the anticipated period of use (estimated at the close of the taxable year in which the asset is first placed in service) on the basis of which salvage value is estimated, shall be determined without regard to the asset depreciation period for the property.

(b) For the purposes of sections 162 and 263 and the regulations thereunder, whether an expenditure prolongs the life of an asset shall be determined on the basis of the anticipated period of use of the asset (estimated at the close of the taxable year in which the asset is first placed in service) without regard to the asset depreciation period for such asset.

(c) The determination whether a transaction with respect to qualified property constitutes a sale or a lease of such property shall be made without regard to the asset depreciation period for the property.

(d) The principles of this subdivision may be illustrated by the following example:

Example. Corporation X has assets in asset guideline class 32.3 which are used in the manufacture of stone and clay products. The asset depreciation range for assets in asset guideline class 32.3 is from 12 to 18 years. Assume that corporation X selects 14 years as the asset depreciation period for all assets in asset guideline class 32.3. Under paragraph (d)(1)(i) of this section, corporation X must estimate salvage value on the basis of the anticipated period of use of the property (determined as of the close of the taxable year in which the property is first placed in service). The anticipated period of use must also be used for purposes of sections 162 and 263 in determining whether an expenditure materially prolongs the useful life of an asset. The anticipated period of use of an asset is determined without regard to the asset depreciation period of 14 years. Corporation X has, among other assets in the asset guideline class, machines A, B, and C. Corporation X estimates the anticipated period of use of machines A, B, and C as 8 years, 14 years, and 22 years, respectively. These estimates are reasonable and will be used for estimating salvage value and for purposes of sections 162 and 263.

(2) *Section 167(d) agreements.* If the taxpayer has, prior to January 1, 1971, entered into a section 167(d) agreement which applies to any eligible property, the taxpayer will be permitted to withdraw the eligible property from the agreement provided that an election is made to apply this section to such property. The statement of intent to withdraw eligible property from such an agreement must be made in an election filed for the taxable year in which the property is first placed in service. The withdrawal, in accordance with this subparagraph, of any eligible property from a section 167(d) agreement

shall not affect any other property covered by such an agreement.

(3) *Relationship to the straight line method*—(i) *In general.* For purposes of determining the amount of depreciation which would be allowable under the straight line method of depreciation, such amount shall be computed with respect to any property in a vintage account using the straight line method in the manner described in paragraph (c)(1)(i) of this section and a rate based upon the period for the vintage account selected from the asset depreciation range. Thus, for example, section 57(a)(3) requires a taxpayer to compute an amount using the straight line method of depreciation if the taxpayer uses an accelerated method of depreciation. For purposes of section 57(a)(3), the amount for property in a vintage account shall be computed using the asset depreciation period for the vintage account selected from the asset depreciation range. In the case of property to which the taxpayer does not elect to apply this section, such amount computed by using the straight line method shall be determined under §1.167(b)–1 without regard to this section.

(ii) *Examples.* The principles of this subparagraph may be illustrated by the following example:

Example. (a) Corporation X places a new asset in service to which it elects to apply this section. The cost of the asset is $200,000 and the estimated salvage value is zero. The taxpayer selects 9 years from the applicable asset depreciation range of 8 to 12 years. Corporation X adopts the double declining balance method of depreciation and thus the rate of depreciation is 22.2 percent (twice the applicable straight line rate). The depreciation allowance in the first year would be $44,400, that is, 22.2 percent of $200,000.

(b) Assume that the provisions of section 57(a)(3) apply to the property. The amount of the tax preference would be $22,200, that is, the excess of the depreciation allowed under this section ($44,400) over the depreciation which would have been allowable if the taxpayer had used the period selected from the asset depreciation range and the straight line rate ($22,200).

(Secs. 167(m), 85 Stat. 508 (26 U.S.C. 167(m) and 7805, 68A Stat. 917, (26 U.S.C. 7805))

[T.D. 7272, 38 FR 9967, Apr. 23, 1973]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §1.167(a)–11, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§1.167(a)–12 Depreciation based on class lives for property first placed in service before January 1, 1971.

(a) *In general*—(1) *Summary.* This section provides an elective class life system for determining the reasonable allowance for depreciation of certain classes of assets for taxable years ending after December 31, 1970. The system applies only to assets placed in service before January 1, 1971. Depreciation for such assets during periods prior to January 1, 1971, may have been determined in accordance with Revenue Procedure 62–21. Accordingly, rules are provided which permit taxpayers to apply the system in taxable years ending after December 31, 1970, to such assets without the necessity of changing or regrouping their depreciation accounts other than as previously required by Revenue Procedure 62–21. The system is designed to minimize disputes between taxpayers and the Internal Revenue Service as to the useful life of assets, salvage value, and repairs. See §1.167(a)–11 for a similar system for property placed in service after December 31, 1970. See paragraph (d)(2) of §1.167(a)–11 for treatment of expenditures for the repair, maintenance, rehabilitation or improvement of certain property. The system provided by this section is optional with the taxpayer. An election under this section applies only to qualified property in an asset guideline class for which an election is made and only for the taxable year of election. The taxpayer's election is made with the income tax return for the taxable year. This section also revokes the reserve ratio test for taxable years ending after December 31, 1970, and provides transitional rules for taxpayers who after January 11, 1971, adopt Revenue Procedure 62–21 for a taxable year ending prior to January 1, 1971.

(2) *Revocation of reserve ratio test and other matters.* Except as otherwise expressly provided in this section and in paragraph (b)(5)(vi) of §1.167(a)–11, the provisions of Revenue Procedure 62–21 shall not apply to any property for any taxable year ending after December 31, 1970, whether or not the taxpayer elects to apply this section to any

property. See paragraph (f) of this section for rules for the adoption of Revenue Procedure 62–21 for taxable years ending prior to January 1, 1971.

(3) *Definition of qualified property.* The term ''qualified property'' means tangible property which is subject to the allowance for depreciation provided by section 167(a), but only if—

(i) An asset guideline class and asset guideline period are in effect for such property for the taxable year, and

(ii) The property is first placed in service by the taxpayer before January 1, 1971,

(iii) The property is placed in service before January 1, 1971, but first placed in service by the taxpayer after December 31, 1970, and is not includible in an election under §1.167(a)–11 by reason of §1.167(a)–11(b)(7) (property acquired as a result of a mere change in form) or §1.167(a)–11(e)(3)(i) (certain property acquired in a transaction to which section 381(a) applies), or

(iv) The property is acquired and first placed in service by the taxpayer after December 31, 1970, pursuant to a binding written contract entered into prior to January 1, 1971, and is excluded in accordance with paragraph (b)(5)(iv) of §1.167(a)–11 from an election to apply §1.167(a)–11.

The provisions of paragraph (e)(1) of §1.167(a)–11 apply in determining whether property is first placed in service before January 1, 1971. See subparagraph (4)(ii) of this paragraph for special rules for the exclusion of property from the definition of qualified property.

(4) *Requirements of election*—(i) *In general.* An election to apply this section to qualified property must be made within the time and in the manner specified in paragraph (e) of this section. The election must specify that the taxpayer consents to and agrees to apply all the provisions of this section. The election may be made separately for each asset guideline class. Thus, a taxpayer may for the taxable year elect to apply this section to one, more than one, or all asset guideline classes in which he has qualified property. An election to apply this section for a taxable year must include all qualified property in the asset guideline class for which the election is made.

(ii) *Special rules for exclusion of property from application of this section. (a)* If for the taxable year of election, the taxpayer computes depreciation under section 167(k) or computes amortization under sections 169, 185, 187, 188, or paragraph (b) of §1.162–11 with respect to property, such property is not qualified property for such taxable year. If for the taxable year of election, the taxpayer computes depreciation under any method of depreciation (other than a method described in the preceding sentence) not permitted by subparagraph (5)(v) of this paragraph for any property in an asset guideline class (other than subsidiary assets excluded from an election under *(b)* of this subdivision), no property in such asset guideline class is qualified property for such taxable year.

(b) The taxpayer may exclude from an election to apply this section all (but not less than all) subsidiary assets. Subsidiary assets so excluded are not qualified property for such taxable year. For purposes of this subdivision the term ''subsidiary assets'' includes jigs, dies, molds, returnable containers, glassware, silverware, textile mill cam assemblies, and other equipment includable in Group One, Class 5, of Revenue Procedure 62–21 which is usually and properly accounted for separately from other property and under a method of depreciation not expressed in terms of years.

(iii) *Special rule for certain public utility property. (a)* In the case of public utility property described in section 167(1)(3)(A)(iii) for which no guideline life was prescribed in Revenue Procedure 62–21 (or for which reference was made in Revenue Procedure 62–21 to lives or rates established by governmental regulatory agencies) of a taxpayer which—

(1) Is entitled to use a method of depreciation other than a ''subsection (1) method'' of depreciation (as defined in section 167(1)(3)(F)) only if it uses the ''normalization method of accounting'' (as defined in section 167(1)(3)(G)) with respect to such property, or

(2) Is entitled for the taxable year to use only a ''subsection (1) method'' of depreciation,

such property shall be qualified property (as defined in subparagraph (3) of this paragraph) only if the taxpayer normalizes the tax deferral resulting from the election to apply this section.

(b) The taxpayer will be considered to normalize the tax deferral resulting from the election to apply this section only if it computes its tax expense for purposes of establishing its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account using a period for depreciation no less than the period used for computing its depreciation expense for ratemaking purposes and for reflecting operating results in its regulated books of account for the taxable year, and the taxpayer makes adjustments to a reserve to reflect the deferralof taxes resulting from the use of a period for depreciation under section 167 in accordance with an election to apply this section different from the period used for computing its depreciation expense for ratemaking purposes and for reflecting operating results in its regulated books of account for the taxable year. A determination whether the taxpayer is considered to normalize under this subdivision the tax deferral resulting from the election to apply this section shall be made in a manner consistent with the principles for determining whether a taxpayer is using the ''normalization method of accounting'' (within the meaning of section 167(1)(3)(G)). See §1.167(l)–1(h).

(c) If a taxpayer, which has elected to apply this section to any qualified public utility property and is required under *(a)* of this subdivision to normalize the tax deferral resulting from the election to apply this section to such property, fails to normalize such tax deferral, the election to apply this section to such property shall terminate as of the beginning of the taxable year for which the taxpayer fails to normalize such tax deferral. Application of this section to such property for any period prior to the termination date will not be affected by this termination.

(5) *Determination of reasonable allowance for depreciation*—(i) *In general.* The allowance for depreciation of qualified property to which the taxpayer elects to apply this section shall be determined in accordance with this section. The annual allowance for depreciation is determined by using the method of depreciation adopted by the taxpayer and a rate based upon a life permitted by this section. In the case of the straight-line method of depreciation, the rate of depreciation shall be based upon the class life (or individual life if the taxpayer assigns individual depreciable lives in accordance with subdivision (iii) of this subparagraph) used by the taxpayer with respect to the assets in the asset guideline class. Such rate will be applied to the unadjusted basis of the asset guideline class (individual assets or depreciation accounts if the taxpayer assigns individual depreciable lives). In the case of the sum of the years-digits method of depreciation, the rate of depreciation will be determined based upon the remaining life of the class (or individual remaining lives if the taxpayer assigns such lives in accordance with subdivision (iii) of this subparagraph) and is applied to the adjusted basis of the class (or individual accounts or assets) as of the beginning of the taxable year of election. The remaining life of a depreciation account is determined by dividing the unrecovered cost or other basis of the account, as computed by straight-line depreciation, by the gross cost or unadjusted basis of the account, and multiplying the result by the class life used with respect to the account. In the case of the declining balance method of depreciation, the rate of depreciation for the asset guideline class shall be based upon the class life (or individual life if the taxpayer assigns such lives in accordance with subdivision (iii) of this subparagraph). Such rate is applied to the adjusted basis of the class (or individual accounts or assets) as of the beginning of the taxable year of election.

(ii) *Reasonable allowance by reference to class lives.* The amount of depreciation for all qualified property in an asset guideline class to which the taxpayer elects to apply this section will constitute the reasonable allowance provided by section 167(a) and the depreciation for the asset guideline class will not be adjusted if—

(a) The taxpayer's qualified property is accounted for in one or more depreciation accounts which conform to the

asset guideline class, and the depreciation for each such account is determined by using a rate based upon a life not less than the class life, or

(b) The taxpayer's qualified property is accounted for in one or more depreciation accounts (whether or not conforming to the asset guideline class) for which depreciation is determined at a rate based upon the taxpayer's estimate of the lives of the assets (instead of the class life) and the total amount of depreciation so determined for the asset guideline class for the taxable year of election is not more than would be permitted under *(a)* of this subdivision for such year using the method of depreciation adopted by the taxpayer for the property.

See subdivision (vii) of this subparagraph for determination of reasonable allowance if depreciation exceeds the amount permitted by this subdivision. See paragraph (b) of this section for rules regarding the determination of ''class life''. For rules for regrouping depreciation accounts to conform to the asset guideline class, see subdivision (iv) of this subparagraph.

(iii) *Consistency when individual lives are used.* If the taxpayer assigns individual depreciable lives to assets in accordance with subdivision (ii)*(b)* of this subparagraph, even though the total amount of depreciation for the asset guideline class will not be adjusted, the lives assigned to the various assets in the asset guideline class must be reasonably in proportion to their relative expected periods of use in the taxpayer's business. Thus, although the taxpayer who uses individual asset lives normally has latitude in thereby allocating the depreciation for the asset guideline class among the assets, if the lives are grossly disproportionate (as where a short life is assigned to one asset and a long life to another even though the expected periods of use are the same), the taxpayer's allocation of depreciation to particular assets or depreciation accounts may be adjusted. For example, the taxpayer's allocation may be adjusted for purposes of determining adjusted basis under section 1016(a) or in allocating depreciation to the 50-percent limitation on percentage depletion provided by section 613(a). See paragraph (d) of this section for rules regarding the use of individual asset lives for purposes of classifying retirements as normal or abnormal.

(iv) *Regrouping depreciation accounts.* Without the consent of the Commissioner, the taxpayer may for any taxable year for which he elects to apply this section to an asset guideline class, regroup his accounts for that and all succeeding taxable years to conform to the asset guideline class. Other changes in accounting, including a change from item accounts to multiple-asset accounting, may be made with the consent of the Commissioner. No depreciation accounts for which the straight line or sum of the years-digits method of depreciation is adopted may be combined under this section which would not be permitted to be combined under part III of Revenue Procedure 65–13, as in effect on January 1, 1971. Accordingly, whether or not the taxpayer adopted the guideline system of Revenue Procedure 62–21 for a taxable year to which part III of Revenue Procedure 65–13 is applicable, the depreciation allowance for any taxable year of election under this section may not exceed that amount which would have been allowed for such year if the taxpayer had used item accounts or year of acquisition accounts. Thus, for example, if a calendar year taxpayer acquired a $90 asset on the first day of each year from 1966 through 1970, placed such assets in a single multiple asset account, adopted the sum of the years-digits method of depreciation and used a 5-year depreciable life for such assets, and in 1971 uses the 5-year class life determined under paragraph (b) of this section, the depreciation allowance for such assets in 1971 under this section may not exceed $60, that is, the amount which would be allowed if the taxpayer had used year of acquisition accounts for the assets for the years 1966 through 1970.

For purposes of this subparagraph, a taxpayer's depreciation accounts conform to the asset guideline class if each depreciation account includes only assets of the same asset guideline class.

(v) *Method of depreciation.* The same method of depreciation must be applied to all property in a single depreciation account. The method of depreciation is subject to the limitations of section 167 (c), (j), and (l). Except as otherwise provided in this subdivision, the taxpayer must apply a method of depreciation described in section 167(b) (1), (2), or (3) for qualified property to which the taxpayer elects to apply this section. A method of depreciation permitted under section 167(b)(4) may be used under this section if the method was used by the taxpayer with respect to the property for his last taxable year ending before January 1, 1971, the method is expressed in terms of years, the taxpayer establishes to the satisfaction of the Commissioner that the method is both a reasonable and consistent method, and if the taxpayer applies paragraph (b)(2) of this section (relating to class lives in special situations) to determine a classlife, that the method of determining such class life is consistent with the principles of Revenue Procedure 62–21 as applied to such a method. If the taxpayer has applied a method of depreciation with respect to the property which is not described in section 167(b) (1), (2), (3), or (4) (as permitted under the preceding sentence), he must change under this section to a method of depreciation described in section 167(b) (1), (2), or (3) for the first taxable year for which an election is made under this section. Other changes in depreciation method may be made with the consent of the Commissioner (see sec. 446 and the regulations thereunder). (See also sec. 167(e).)

(vi) *Salvage value.* In applying the method of depreciation adopted by the taxpayer, the annual allowance for depreciation is determined without adjustment for the salvage value of the property, except that no depreciation account may be depreciated below a reasonable salvage value for the account. See paragraph (c) of this section for definition and treatment of salvage value.

(vii) *Reasonable allowance when depreciation exceeds amount based on class life.* In the event that the total amount of depreciation claimed by the taxpayer on his income tax return, in a claim for refund, or otherwise, for an asset guideline class with respect to which an election is made under this section for the taxable year, exceeds the maximum amount permitted under subdivision (ii)(*a*) of this subparagraph—

(a) If the excess is established to the satisfaction of the Commissioner to be the result of a good faith mistake by the taxpayer in determining the maximum amount permitted under subdivision (ii) (*a*) of this subparagraph, the taxpayer's election to apply this section will be treated as valid and only such excess will be disallowed, and

(b) In all other cases, the taxpayer's election to apply this section to the asset guideline class for the taxable year is invalid and the reasonable allowance for depreciation will be determined without regard to this section. (See §1.167(a)–1 (b) for rules regarding the estimated useful life of property.)

(b) *Determination of class lives*—(1) *Class lives in general.* The class life determined under this paragraph (without regard to any range or variance permitted with respect to class lives under §1.167(a)–11) will be applied for purposes of determining whether the allowance for depreciation for qualified property included in an election under this section is subject to adjustment. The taxpayer is not required to use the class life determined under this paragraph for purposes of determining the allowance for depreciation. Except as provided in subparagraph (2) of this paragraph, the class life of qualified property to which the taxpayer elects to apply this section is the shorter of—

(i) The asset guideline period for the asset guideline class as set forth in Revenue Procedure 72–10 as in effect on March 1, 1972 (applied without regard to any special provision therein with respect to property predominantly used outside the United States), or

(ii) The asset guideline period for the asset guideline class as set forth in any supplement or revision of Revenue Procedure 72–10, but only if and to the extent by express reference in such supplement or revision made applicable for the purpose of changing the asset guideline period or classification of qualified property to which this section applies.

See paragraph (e)(3)(iii) of this section for requirement that the election for the taxable year specify the class life for each asset guideline class. Generally, the applicable asset guideline class and asset guideline period for qualified property to which the taxpayer has elected to apply this section will not be changed for the taxable year of election to reflect any supplement or revision thereof after the taxable year. However, if expressly provided in such a supplement or revision, the taxpayer may, at his option in the manner specified therein, apply the revised or supplemented asset guideline classes or periods to such property for such taxable year and succeeding taxable years. The principles of this subparagraph may be illustrated by the following example:

Example. (i) Corporation X, a calendar year taxpayer, has assets in asset guideline class 20.4 of Revenue Procedure 72–10 which were placed in service by corporation X in 1967, 1968, and 1970. Corporation X also has assets in asset guideline class 22.1 of Revenue Procedure 72–10 which were placed in service at various times prior to 1971. Corporation X has no other qualified property. Corporation X elects to apply this section for 1971 to both classes. Assume that the class lives are determined under this subparagraph and not under subparagraph (2) of this paragraph.

(ii) The class lives for asset guideline classes 20.4 and 22.1 are their respective asset guideline periods of 12 years and 9 years in Revenue Procedure 72–10.

(iii) Accordingly, in the election for the taxable year, in accordance with paragraph (e)(3)(iii) of this section, corporation X specifies a class life of 12 years for asset guideline class 20.4 and a class life of 9 years for asset guideline class 22.1

(2) *Class lives in special situations.* Notwithstanding subparagraph (1) of this paragraph, for the purposes of this section the class life for the asset guideline class determined under this subparagraph shall be used if such class life is shorter than the class life determined under subparagraph (1) of this paragraph. If property described in paragraph (a)(2)(iii) of this section in an asset guideline class is acquired by the taxpayer in a transaction to which section 381(a) applies, for purposes of this subparagraph such property shall be segregated from other property in the class and treated as in a separate asset guideline class, and the class life for that asset guideline class under this subparagraph shall be the shortest class life the transferor was entitled to use under this section for such property on the date of such transfer. In all other cases, the class life for the asset guideline class for purposes of this subparagraph shall be the shortest class life (within the meaning of sec. 4, part II, of Revenue Procedure 62–21) which can be justified by application of secs. 3.02(a), 3.03(a), or 3.05, part II, of Revenue Procedure 62–21 (other than the portion of such sec. 3.05 dealing with justification of a class life by reference to facts and circumstances) for the taxpayer's last taxable year ending prior to January 1, 1971.

A class life justified by application of section 3.03(a), Part II, of Revenue Procedure 62–21 shall not be shorter than can be justified under the Adjustment Table for Class Lives in Part III of such Revenue Procedure. For purposes of this subparagraph and paragraph (f)(1)(iii) of this section, the reserve ratio test is met only if the taxpayer's reserve ratio does not exceed the upper limit of the appropriate reserve ratio range or in the alternative during the transitional period there provided does not exceed the appropriate ''transitional upper limit'' in section 3, Part II, of Revenue Procedure 65–13. References to Revenue Procedure 62–21 include all morifications, amendments, and supplements thereto as of January 1, 1971. The guideline form of the reserve ratio test, as described in Revenue Procedure 65–13, may be applied for purposes of this subparagraph in a manner consistent with the rules contained in section 7, Part II, of Revenue Procedure 65–13 and sections 3.02, 3.03, and 3.05, Part II, of Revenue Procedure 62–21. The principles of this subparagraph may be illustrated by the following examples:

Example (1). Corporation X, a calendar year taxpayer, has all its assets in asset guideline class 20.4 of Revenue Procedure 72–10 which were placed in service by corporation X prior to 1971. Corporation X elects to apply this section for 1971. For taxable years 1967 through 1969, corporation X had used a class life (within the meaning of section 4, Part II, of Revenue Procedure 62–21) for asset guideline class 20.4 of 12 years. The asset guideline period in Revenue Procedure 72–10 in effect for 1971 is also 12 years. Assume that for 1969 corporation X's reserve ratio was below the appropriate reserve ratio lower limit. However, corporation X could not justify a class life shorter than the asset guideline period of 12 years for 1970 since corporation X had not used the 12-year class life for a period at least equal to one-half of 12 years. (See section 3.03(a), Part II, of Revenue Procedure 62–21.) Accordingly, the class life for asset guideline class 20.4 in 1971 is the asset guideline period of 12 years in accordance with subparagraph (1) of this paragraph.

Example (2). The facts are the same as in example (1) except that corporation X had used a class life of 10 years for guideline class 20.4 since 1967. Corporation X had not used the class life of 10 years for a period at least equal to one-half of 10 years. However, in 1968 corporation X's 10-year class life was accepted on audit by the Internal Revenue Service and corporation X met the reserve ratio test in 1970 for guideline class 20.4 using a test life of 10 years. (See section 3.05, Part II, of Revenue Procedure 62–21.) Accordingly, the class life of 10 years is justified for 1970 and the class life for 1971 is 10 years in accordance with this subparagraph. If the taxpayer's class life had not been audited and accepted for 1968, and in the absence of other circumstances, the taxpayer could not justify a class life shorter than the asset guideline period of 12 years since it had not used the 10-year class life for a period at least equal to one-half of 10 years. (See section 3.02, Part II, of Revenue Procedure 62–21.)

Example (3). Corporation Y, a calendar year taxpayer, has all its assets in asset guideline class 13.3 of Revenue Procedure 72–10 which were placed in service from 1960 through 1970. Corporation Y elects to apply this section for 1971. The asset guideline period in Revenue Procedure 72–10 in effect for 1971 is 16 years. Since 1963 corporation Y had used a class life of 16 years for asset guideline 13.3. At the end of 1969 corporation Y's reserve ratio for guideline class 13.3 was 36 percent. With a growth rate of 8 percent and a test life of 16 years the appropriate reserve ratio lower limit was 37 percent. Corporation Y's reserve ratio of 36 percent was below the lower limit of the appropriate reserve ratio range. Corporation Y had used the 16-year class life for at least eight years. A class life of 13.5 years for 1970 was justified by application of section 3.03(a), Part II, of Revenue Procedure 62–21 and the Adjustment Table for Class Lives in Part III, of Revenue Procedure 62–21. The class life for 1971 is 13.5 years in accordance with this subparagraph.

(3) *Classification of property*—(i) *In general.* Property to which this section applies shall be included in the asset guideline class for the activity in which the property is primarily used in the taxable year of election. See paragraph (d)(5) of this section for rule regarding the classification of leased property.

(ii) *Insubstantial activity.* The provisions of Revenue Produce 62–21 with respect to classification of assets used in an activity which is insubstantial may be applied under this section.

(iii) *Special rule for certain public utilities.* An electric or gas utility which in accordance with Revenue Procedure 64–21 used a composite guideline class basis for applying Revenue Procedure 62–21 for its last taxable year prior to January 1, 1971, may apply Revenue Procedure 72–10 and this section on the basis of such composite asset guideline class determined as provided in Revenue Procedure 64–21. For the purposes of this section all property in the composite guideline class shall be treated as included in a single asset guideline class.

(c) *Salvage value*—(1) *In general*— (i) *Definition of gross salvage value.* ''Gross salvage'' value is the amount (determined at or as of the time of acquisition but without regard to the application of Revenue Procedure 62–21) which is estimated will be realized upon a sale or other disposition of qualified property when it is no longer useful in the taxpayer's trade or business or in the production of his income and is to be retired from service, without reduction for the cost of removal, dismantling, demolition, or similar operations. ''Net salvage'' is gross salvage reduced by the cost of removal, dismantling, demolition, or similar operations. If a taxpayer customarily sells or otherwise disposes of property at a time when such property is still in good operating condition, the gross salvage value of such property is the amount expected to be realized upon such sale or disposition, and under certain circumstances, as where such property is customarily sold at a time when it is still relatively new, the gross salvage value may constitute a relatively large proportion of the unadjusted basis of such property.

(ii) *Definition of salvage value.* ''Salvage value'' for purposes of this section means gross or net salvage value less the amount, if any, by which reduced by application of section 167(f). Generally, as provided in section 167(f), a taxpayer may reduce the gross or net salvage value for an account by an amount which does not exceed 10 percent of the unadjusted basis of the personal property (as defined in section 167(f)(2)) in the account.

(2) *Estimation of salvage value*—(i) *In general.* For the first taxable year for which he elects to apply this section, the taxpayer must (in accordance with paragraph (e)(3)(iv)*(c)* of this section) establish salvage value for all qualified property to which the election applies. The taxpayer may (in accordance with subparagraph (1) of this paragraph) determine either gross or net salvage, but an election under this section does not constitute permission to change the manner of estimating salvage. Permission to change the manner of estimating salvage must be obtained by filing form 3115 with the Commissioner of Internal Revenue, Washington, D.C. 20224, within the time otherwise permitted for thetaxable year or before September 6, 1973. Salvage value in succeeding taxable years of election will be determined by adjustments of such initial salvage value for the account, as retirements occur. This salvage value established by the taxpayer for the first taxable year of election will not be redetermined merely as a result of fluctuations in price levels or as a result of other circumstances occurring after the close of such taxable year. See paragraph (e)(3)(iv) of this section for requirements that the taxpayer specify in his election the aggregate amount of salvage value for an asset guideline class and that the taxpayer maintain records reasonably sufficient to identify the salvage value established for each depreciation account in the class.

(ii) *Salvage as limitation on depreciation.* In no case may an account be depreciated under this section below a reasonable salvage value, after taking into account any reduction in gross or net salvage value permitted by section 167(f). For example, if the salvage value of an account for 1971 is $75, the unadjusted basis of the account is $500, and the depreciation reserve is $425, no depreciation is allowable for 1971.

(iii) *Special rule for first taxable year.* If for a taxable year ending prior to January 1, 1971, the taxpayer had adopted Revenue Procedure 62–21 prior to January 12, 1971 (see paragraph (f)(2) of this section), no adjustment in the amount of depreciation allowable for any taxable year ending prior to January 1, 1971, shall be made solely by reason of establishing salvage value under this paragraph for any taxable year ending after December 31, 1970. The principles of this subdivision may be illustrated by the following example:

Example. Taxpayer A had adopted Revenue Procedure 62–21 prior to January 12, 1971, for taxable years prior to 1971. Taxpayer A had not taken into account any salvage value for account No. 1 which is one of four depreciation accounts A has in the class. The reserve ratio test has been met for all years prior to 1971 and in accordance with Revenue Procedure 62–21 no adjustments in depreciable lives or salvage values were made. At the end of A's taxable year 1970, the unadjusted basis of account No. 1 was $10,000 and the reserve for depreciation was $9,800. Pursuant to this paragraph, A establishes a salvage value of $400 for account No. 1 (determined at or as of the time of acquisition). This salvage value is determined to be correct. No depreciation is allowable for account No. 1 in 1971. No depreciation is disallowed for any taxable year prior to 1971, solely by reason of establishing salvage value under this paragraph.

(3) *Limitation on adjustment of reasonable salvage value.* The salvage value established by the taxpayer for a depreciation account will not be redetermined if it is reasonable. Since the determination of salvage value is a matter of estimation, minimal adjustments will not be made. The salvage value established by the taxpayer will be deemed to be reasonable unless there is sufficient basis for a determination of an amount of salvage value for the account which exceeds the salvage value established by the taxpayer for the account by an amount greater than 10 percent of the unadjusted basis of the account at the close of such taxable year. If the salvage value established by the taxpayer for the account is not within the 10-percent range or if the taxpayer follows the practice of understating his estimates of salvage to take advantage of this subdivision, and if there is a determination of an amount of salvage value for the account for the taxable year which exceeds the salvage value established by the taxpayer for the account for such taxable year, an adjustment will be made by increasing the salvage value

established by the taxpayer for the account by an amount equal to the difference between the salvage value as determined and the salvage value established by the taxpayer for the account. For the purposes of this subdivision, a determination of salvage value shall include all determinations at all levels of audit and appellate proceedings, and as well as all final determinations within the meaning of section 1313(a)(1). This subparagraph shall apply to each such determination.

(4) *Examples.* The principles of this paragraph may be illustrated by the following examples in which it is assumed that the taxpayer has established salvage value in accordance with this paragraph and has not followed a practice of understating his estimates of salvage value:

Example (1). Taxpayer B elects to apply this section for 1971. Assets Y and Z are the only assets in a multiple asset account of 1967, the year in which the assets were acquired. The unadjusted basis of asset Y is $50,000 and the unadjusted basis of asset Z is $30,000. B estimated a gross salvage value of $55,000 at the time of acquisition. The property qualified under section 167(f)(2) and B reduced the amount of salvage taken into account by $8,000 (that is, 10 percent of $80,000, under sec. 167(f)). Thus, in accordance with this paragraph and paragraph (e)(3)(iv)*(c)* of this section, B establishes a salvage value of $47,000 for the account for 1971. Assume that there is not sufficient basis for determining a salvage value for the account greater $52,000 (that is $60,000 minus the $8,000 reduction under sec. 167(f)). Since the salvage value of $47,000 established by B for the account is within the 10 percent range, it is reasonable. Salvage for the account will not be redetermined.

Example (2). The facts are the same as in example (1) except that B estimated a gross salvage value of $50,000 and establishes a salvage value of $42,000 for the account (that is, $50,000 minus the $8,000 reduction under section 167(f)). There is sufficient basis for determining an amount of salvage value greater than $50,000 (that is, $58,000 minus the $8,000 reduction under section 167(f)). The salvage value of $42,000 established by B for the account can be redetermined without regard to the limitation in subparagraph (3) of this paragraph, since it is not within the 10 percent range. Upon audit of B's tax return for 1971 (a year in which the redetermination would affect the amount of depreciation allowable for the account), salvage value is determined to be $52,000 after taking into account the reduction under section 167(f). Salvage value for the account will be adjusted to $52,000.

Example (3). The facts are the same as in example (1) except that upon audit of B's tax return for 1971 the examining officer determines the salvage value to be $58,000 (that is, $66,000 minus the $8,000 reduction under section 167(f)), and proposes to adjust salvage value for the account to $58,000 which will result in disallowing an amount of depreciation for the taxable year. B does not agree with the finding of the examining officer. After receipt of a ''30-day letter,'' B waives a district conference and initiates proceedings before the Appellate Division. In consideration of the case by the Appellate Division it is concluded that there is not sufficient basis for determining an amount of salvage value for the account in excess of $55,000 (that is, $63,000 minus the $8,000 reduction under section 167(f)). Since the salvage value of $47,000 established by B for the account is within the 10 percent range, it is reasonable. Salvage value for the account will not be redetermined.

Example (4). For 1971, taxpayer C elects to apply this section to factory building X which is in an item account of 1965, the year in which the building was acquired. The unadjusted basis of factory building X is $90,000. C estimated a gross salvage value for the account of $10,000. The property did not qualify under section 167(f)(2). Thus, C establishes a salvage value of $10,000 for the account for 1971. Assume that there is not sufficient basis for determining a salvage value for the account greater than $14,000. Since the salvage value of $10,000 established by C for the account is within the 10-percent range, it is reasonable. Salvage value for the account will not be redetermined.

(d) *Accounting for qualified property*—(1) *In general.* Qualified property for which the taxpayer elects to apply this section may be accounted for in any number of item or multiple asset accounts.

(2) *Retirements of qualified property*—(i) *In general.* The provisions of this subparagraph and §1.167(a)–8 apply to retirements of qualified property to which the taxpayer elects to apply this section for the taxable year. See subdivision (iii) of this subparagraph for special rule for normal retirements.

(ii) *Adjusted basis of assets retired.* In the case of a taxpayer who depreciates qualified property in a multiple-asset account conforming to the asset guideline class at a rate based on the class life in accordance with paragraph (a)(5)(ii)*(a)* of this section, §1.167(a)–8(c) (relating to basis of assets retired) shall be applied by assuming that the class life is the average expected useful life of the assets in the account. See §1.167(a)–8, generally, for the basis of assets retired.

(iii) *Definition of normal retirements.* Notwithstanding §1.167(a)– 8(b), the determination whether a retirement of qualified property is normal or abnormal shall be made in light of all the facts and circumstances, primarily with reference to the expected period of use of the asset in the taxpayer's business without regard to paragraph (a)(5)(ii) of this section. A retirement is not abnormal unless the taxpayer can show that the withdrawal of the asset was not due to a cause which would customarily be contemplated (in light of the taxpayer's practice and experience) in setting a depreciation rate for the assets without regard to paragraph (a)(5)(ii) of this section. Thus, for example, a retirement is normal if made within the range of years which would customarily be taken into account in setting such depreciation rate and if the asset has reached a condition at which, in the normal course of events, the taxpayer customarily retires similar assets from use in his business. A retirement may be abnormal if the asset is withdrawn at an earlier time or under other circumstances, as, for example, when the asset has been damaged by casualty or has lost its usefulness suddenly as the result of extraordinary obsolescence.

(3) *Special rules*—(i) *In general.* The provisions of this subparagraph shall apply to qualified property in a taxable year for which an election to apply this section is made.

(ii) *Repairs.* For the purpose of sections 162 and 263 and the regulations thereunder, whether an expenditure prolongs the life of an asset shall be determined by reference to the expected period of use of the asset in the taxpayer's business without regard to paragraph (a)(5)(ii) of this section.

(iii) *Sale and lease.* For the purpose of comparison with the term of a lease of such property, the remaining life of qualified property shall be determined by reference to the expected period of use of the asset in the taxpayer's business without regard to paragraph (a)(5)(ii) of this section.

(4) *Expected period of use.* For the purposes of subparagraphs (2) and (3) of this paragraph, the determination of the expected period of use of an asset shall be made in light of all the facts and circumstances. The expected period of use of a particular asset will not necessarily coincide with the class life used for depreciation (or with the individual asset life for depreciation under the alternative method in paragraph (a)(5)(ii) (*b*) of this section for applying the class life). Thus, for example, if the question is whether an asset has been leased for a period less than, equal to or greater than its remaining life, the determination shall be based on the remaining expected period of use of the individual asset without regard to the fact that the asset is depreciated at a rate based on the class life in accordance with paragraph (a)(5)(ii)*(a)* of this section.

(5) *Leased property.* In the case of a lessor of qualified property, unless there is an asset guideline class in effect for such lessors, the asset guideline class for such property shall be determined by reference to the activity in which such property is primarily used by the lessee. See paragraph (b)(3) of this section for general rule for classification of qualified property according to primary use. However, in the case of an asset guideline class based upon the type of property (such as trucks or railroad cars), as distinguished from the activity in which used, the property shall be classified without regard to the activity of the lessee.

(e) *Election under this section*—(1) *Consent to change in method of accounting.* An election to apply this section for a taxable year ending after December 31, 1970, is a method of accounting but the consent of the Commissioner will be deemed granted to make an annual election.

(2) *Election for taxable years ending after December 31, 1976.* For taxable years ending after December 31, 1976, the election to apply this section for a taxable year shall be made by attaching to the income tax return a statement that an election under this section is being made. If the taxpayer does not file a timely return (taking into account extensions of time for filing)

for the taxable year, the election shall be made at the time the taxpayer files his first return for the taxable year. The election may be made with an amended return only if such amended return is filed no later than the time prescribed by law (including extensions thereof) for filing the return for the taxable year. A taxpayer who makes an election under this subparagraph must maintain books and records reflecting the information described in paragraph (e)(3) (ii) and (iii) of this section.

(3) *Election for taxable years ending on or before December 31, 1976.* (i) For taxable years ending on or before December 31, 1976, the election to apply this section for a taxable year may be made by filing Form 5006 with the income tax return for the taxable year. If the taxpayer does not file a timely return (taking into account extensions of time for filing) for the taxable year, the election shall be filed at the time the taxpayer files his first return for the taxable year. The election may be made with an amended return only if such amended return is filed no later than the later of (*a*) the time prescribed by law (including extensions thereof) for filing the return for the taxable year, or (*b*) November 5, 1973.

(ii) The election to apply this section for a taxable year ending on or before December 31, 1976, will be deemed to be made if the tax return (filed within the periods referred to in paragraph (e)(3)(i) of this section) contains information sufficient to establish the following:

(*a*) Each asset guideline class for which the election is intended to apply;

(*b*) The class life for each such asset guideline class and whether the class life is determined under paragraph (b)(1) or (2) of this section;

(*c*) For each asset guideline class, as of the end of the taxable year of election, (*1*) the total unadjusted basis of all qualified property, (*2*) the aggregate of the reserves for depreciation of all accounts in the asset guideline class, and (*3*) the aggregate of the salvage value established for all accounts in the asset guideline class; and

(*d*) Whether the taxpayer is an electric or gas utility using a composite asset guideline class basis in accordance with paragraph (b)(3)(iii) of this section.

If an election is deemed to be made under this subdivision (ii), the taxpayer will be deemed to have consented to apply all the provisions of this section.

(iii) A taxpayer to whom the election applies shall maintain books and records for each asset guideline class reasonably sufficient to identify the unadjusted basis, reserve for depreciation and salvage value established for each depreciation account in such asset guidelines class.

(f) *Depreciation for taxable years ending before January 1, 1971*—(1) *Adoption of Revenue Procedure 62–21*—(i) *In general.* Except as provided in subdivision (ii) of this subparagraph, a taxpayer may elect to be examined under the provisions of Revenue Procedure 62–21 for a taxable year ending before January 1, 1971, only in accordance with the rules of this paragraph. The election must specify:

(a) That the taxpayer makes such election and consents to, and agrees to apply, all the provisions of this paragraph;

(b) Each guideline class and taxable year for which the taxpayer elects to be examined under Revenue Procedure 62–21;

(c) The class life claimed for each such guideline class;

(d) The class life and the total amount of the depreciation for the guideline class claimed on the last income tax return for such taxable year filed prior to January 12, 1971 (or in case no income tax return was filed prior to January 12, 1971, on the first income tax return filed for such taxable year);

(e) The class life claimed and the total amount of depreciation for the guideline class under the election to apply Revenue Procedure 62–21, in accordance with this paragraph, for the taxable year; and

(f) If the class life or total amount of depreciation for the guideline class is different in *(d)* and *(e)* of this subdivision, a reasonable description of the computation of the class life in *(e)* of this subdivision, the amount of difference in tax liability resulting therefrom, and the amount of any refund or

reduction in any deficiency in tax. The election shall be made in an amended tax return or claim for refund (or by a supplement to the tax return or claim) for the taxable year, and if the class life or total amount of depreciation for the guideline class is different in accordance with *(f)* of this subdivision, such difference shall be reflected in the amended tax return or claim for refund. Forms may be provided for making the election and submission of the information. In the case of an election made after issuance of such forms and more than 30 days after publication of notice thereof in the Internal Revenue Bulletin, the election may be made and the information submitted only in accordance with such forms. An election will not otherwise be invalid under this paragraph so long as there is substantial compliance, in good faith, with the requirements of this paragraph.

(ii) *Special rule.* The provisions of this subparagraph shall not apply to a guideline class in any taxable year for which the taxpayer has prior to January 12, 1971, adopted Revenue Procedure 62–21 for such class. See subparagraph (2) of this paragraph for determination of adoption of Revenue Procedure 62–21 prior to January 12, 1971.

(iii) *Justification of class life claimed and limitations on refunds.* If the taxpayer elects for a taxable year to be examined under the provisions of Revenue Procedure 62–21 in accordance with subdivision (i) of this subparagraph, any of the provisions of Revenue Procedure 62–21 may be applied to justify a class life claimed on the income tax return filed for such year or to offset an increase in tax liability for such year. Unless it meets the reserve ratio test, no class life will be accepted on audit which (after all other adjustments in tax liability for such year)results in a reduction (or further reduction) in the amount of tax liability shown on the income tax return (specified in subdivision (i)(*d*) of this subparagraph) for such taxable year, or results in an amount of loss carryback or carryover to any taxable year, but if it is justified under Revenue Procedure 62–21 and meets the reserve ratio test, a class life will be accepted on audit without regard to the foregoing limitations and, for example, may produce a refund or credit against tax. For example, if a class life of 9 years is otherwise justified under Revenue Procedure 62–21 for 1969, but the taxpayer does not meet the reserve ratio test for 1969 using a test life of 9 years, a class life of 9 years (or any class life justified under Revenue Procedure 62–21) will be accepted on audit under Revenue Procedure 62–21 pursuant to an election in accordance with this paragraph provided it does not result in the reduction or further reduction in tax liability or in an amount of loss carryback or carryover as described in the preceding sentence. On the other hand, for example, if a class life of 10 years is justified under Revenue Procedure 62–21 for 1969 and the taxpayer meets the reserve ratio test for 1969 using a test life of 10 years, a class life of 10 years will be accepted on audit under Revenue Procedure 62–21 pursuant to an election in accordance with this paragraph even though it results in a reduction or further reduction in tax liability or in an amount of loss carryback or carryover as described above and produces a refund of tax. For purposes of this section, the term ‘‘audit’’ includes examination of claims for refund or credit against tax.

(iv) *Definitions.* For purposes of this paragraph, the determination whether the reserve ratio test is met shall be made in accordance with that portion of paragraph (b)(2) of this section which is by express reference therein made applicable to this paragraph. In addition, the guideline form of the reserve ratio test, as described in Revenue Procedure 65–13, may be applied. For purposes of this paragraph, references to Revenue Procedure 62–21 include all modifications, amendments, and supplements thereto as of January 11, 1971. The terms ‘‘class life’’ and ‘‘guideline class’’ have the same meaning as in Revenue Procedure 62–21.

(2) *Determination whether Revenue Procedure 62–21 adopted prior to January 12, 1971*—(i) *In general.* For the purposes of this paragraph, a taxpayer will be treated as having adopted prior to January 12, 1971, Revenue Procedure 62–21 for a guideline class for a taxable year ending before January 1, 1971, only if—

(a) For the guideline class and taxable year, the taxpayer adopted Revenue Procedure 62–21 by expressly so indicating on the income tax return filed for such taxable year prior to January 12, 1971;

(b) For the guideline class and taxable year, the taxpayer adopted Revenue Procedure 62–21 prior to January 12, 1971, by expressly so indicating in a proceeding before the Internal Revenue Service (such as upon examination of the income tax return for such taxable year) and there is reasonable evidence to that effect; or

(c) There is other reasonable evidence that prior to January 12, 1971, the taxpayer adopted Revenue Procedure 62–21 for the guideline class and taxable year.

If not treated under *(b)* or *(c)* of this subdivision as having done so for the last taxable year ending before January 1, 1971, and if the taxpayer files his first income tax return for such taxable year after January 11, 1971, the taxpayer will be treated as having adopted Revenue Procedure 62–21 prior to January 12, 1971, for a guideline class for such taxable year if he expressly so indicated on that return, or is treated under this subparagraph as having adopted Revenue Procedure 62–21 prior to January 12, 1971, for that guideline class for the immediately preceding taxable year.

(ii) *Examples.* The principles of this subparagraph may be illustrated by the following examples:

Example (1). Taxpayer A, an individual who uses the calendar year as his taxable year, has property in Group Three, Class 16(a), of Revenue Procedure 62–21. On A's income tax return for 1968, filed prior to January 12, 1971, he adopted Revenue Procedure 62–21 for the guideline class by so indicating under ''Summary of Depreciation'' in the appropriate schedule of Form 1040 for 1968. Under subdivision (i) *(a)* of this subparagraph, A is treated as having adopted Revenue Procedure 62–21 for the guideline class for 1968 prior to January 12, 1971.

Example (2). Taxpayer B, an individual who uses the calendar year as his taxable year, has property in Group Two, Class 5, of Revenue Procedure 62–21. B filed timely income tax returns for 1966 through 1968 but did not adopt Revenue Procedures 62–21 on any of such returns. In 1969 upon audit of B's taxable years 1966 through 1968, B exercised his option to be examined under the provisions of Revenue Procedure 62–21. The Revenue Agent's report shows that B was examined under Revenue Procedure 62–21 for taxable years 1966 through 1968. B will be treated under subdivision (ii)(*b*) of this subparagraph as having adopted Revenue Procedure 62–21 for such years prior to January 12, 1971.

Example (3). The facts are the same as in example (2) except that B did not upon examination by the Revenue Agent in 1969 exercise his option to be examined under Revenue Procedure 62–21. B has six accounts in the guideline class, Nos. 1 through 6. The Revenue Agent proposed to lengthen the depreciable lives on accounts Nos. 2 and 3 from 8 years to 12 years. In proceedings before the Appellate Division in 1970, B exercised his option to be examined under the provisions of Revenue Procedure 62–21. This is shown by correspondence between B and the Appellate Conferee as well as by other documents in the case before the Appellate Division. The case was settled on that basis before the Appellate Division without adjustment of the depreciable lives for B's accounts Nos. 2 and 3. B will be treated under subdivision (ii) *(b)* of this subparagraph as having adopted Revenue Procedure 62–21 for taxable years 1966 through 1968 prior to January 12, 1971.

Example (4). Corporation X uses the calendar year as its taxable year and has assets in Group Two, Class 5, of Revenue Procedure 62–21. Beginning in 1964, corporation X used the guideline life of 10 years as the depreciable life for all assets in the guideline class. In 1967, corporation X's taxable years 1964 through 1966 were examined and corporation X exercised its option to be examined under the provisions of Revenue Procedure 62–21. Corporation X did not adopt Revenue Procedure 62–21 on any of its income tax returns, for the years 1964 through 1970. Corporation X has not been examined since 1967, but has continued to use the guideline life of 10 years for all property in the guideline class including additions since 1966. Corporation X will be treated under subdivision (ii) *(c)* and *(d)* of this subparagraph as having adopted Revenue Procedure 62–21 prior to January 12, 1971, for taxable years 1964 through 1970.

Example (5). Corporation Y uses the calendar year as its taxable year and has asset in Group Two, Class 5, of Revenue Procedure 62–21. Since 1964, corporation Y has used various depreciable lives, based on the facts and circumstances, for different accounts in the guideline class. Corporation Y was examined in 1968 for taxable years 1965 through 1967. Corporation Y was also examined in 1970 for taxable years 1968 and 1969. Corporation Y did not exercise its option to be examined under the provisions of Revenue Procedure 62–21. Corporation Y has not adopted Revenue Procedure 62–21 on any income tax return. For taxable years 1964 through 1970, corporation Y's class life (within the meaning of section 4, Part II, of Revenue Procedure 62–21) was between 12 and 14 years. In August of 1971, corporation Y filed amended income tax returns for 1968 and 1969, and an income tax return for 1970, using a depreciable life of 10 years (equal to the guideline life) for all assets in the guideline class. Corporation Y will not be treated as having adopted Revenue Procedure 62–21 prior to January 12, 1971.

Example (6). Corporation Z uses the calendar year as its taxable year and has assets in group 2, class 5, of Revenue Procedure 62–21. Corporation Z adopted Revenue Procedure 62–21 for this guideline class by expressly so indicating on its tax return for 1966, which was filed before January 12, 1971. Corporation Z computed its allowable depreciation for 1966 as if it adopted Revenue Procedure 62–21 for this guideline class for its taxable years 1962 through 1965, although it had earlier filed its tax returns for those years without regard to Revenue Procedure 62–21. The depreciation thus claimed in 1966 was less than what would have been allowable if corporation Z first adopted Revenue Procedure 62–21 in 1966. This was the result of certain accounts becoming fully depreciated through use of Revenue Procedure 62–21 in computing depreciation for 1962 through 1965. In addition, in deferred tax accounting procedures employed before January 12, 1971, for financial reporting purposes, corporation Z calculated its tax deferrals on the basis that it had adopted Revenue Procedure 62–21 for the years 1962 through 1965. Corporation Z will be treated under subdivision (i) (*c*) of this subparagraph as having adopted Revenue Procedure 62–21 for taxable years 1962 through 1965 prior to January 12, 1971.

(Sec. 167(m), 85 Stat. 508 (26 U.S.C. 167))

[T.D. 7278, 38 FR 14923, June 7, 1973, as amended by T.D. 7315, 39 FR 20195, June 7, 1974; T.D. 7517, 42 FR 58934, Nov. 14, 1977]

§ 1.167(a)–13T Certain elections for intangible property (temporary).

For rules applying the elections under section 13261(g) (2) and (3) of the Omnibus Budget Reconciliation Act of 1993 to intangible property described in section 167(f), see § 1.197–1T.

[59 FR 11922, Mar. 15, 1994]

§ 1.167(b)–0 Methods of computing depreciation.

(a) *In general.* Any reasonable and consistently applied method of computing depreciation may be used or continued in use under section 167. Regardless of the method used in computing depreciation, deductions for depreciation shall not exceed such amounts as may be necessary to recover the unrecovered cost or other basis less salvage during the remaining useful life of the property. The reasonableness of any claim for depreciation shall be determined upon the basis of conditions known to exist at the end of the period for which the return is made. It is the responsibility of the taxpayer to establish the reasonableness of the deduction for depreciation claimed. Generally, depreciation deductions so claimed will be changed only where there is a clear and convincing basis for a change.

(b) *Certain methods.* Methods previously found adequate to produce a reasonable allowance under the Internal Revenue Code of 1939 or prior revenue laws will, if used consistently by the taxpayer, continue to be acceptable under section 167(a). Examples of such methods which continue to be acceptable are the straight line method, the declining balance method with the rate limited to 150 percent of the applicable straight line rate, and under appropriate circumstances, the unit of production method. The methods described in section 167(b) and §§ 1.167(b)–1, 1.167(b)–2, 1.167(b)–3, and 1.167(b)–4 shall be deemed to produce a reasonable allowance for depreciation except as limited under section 167(c) and § 1.167(c)–1. See also § 1.167(e)–1 for rules relating to change in method of computing depreciation.

(c) *Application of methods.* In the case of item accounts, any method which results in a reasonable allowance for depreciation may be selected for each item of property, but such method must thereafter be applied consistently to that particular item. In the case of group, classified, or composite accounts, any method may be selected for each account. Such method must be applied to that particular account consistently thereafter but need not necessarily be applied to acquisitions of similar property in the same or subsequent years, provided such acquisitions are set up in separate accounts. See, however, § 1.167(e)–1 and section 446 and the regulations thereunder, for rules relating to changes in the method of computing depreciation, and § 1.167(c)–1 for restriction on the use of certain methods. See also §1.167(a)–7 for definition of account.

§1.167(b)–1 Straight line method.

(a) *In general.* Under the straight line method the cost or other basis of the property less its estimated salvage value is deductible in equal annual amounts over the period of the estimated useful life of the property. The allowance for depreciation for the taxable year is determined by dividing the adjusted basis of the property at the beginning of the taxable year, less salvage value, by the remaining useful life of the property at such time. For convenience, the allowance so determined may be reduced to a percentage or fraction. The straight line method may be used in determining a reasonable allowance for depreciation for any property which is subject to depreciation under section 167 and it shall be used in all cases where the taxpayer has not adopted a different acceptable method with respect to such property.

(b) *Illustrations.* The straight line method is illustrated by the following examples:

Example (1). Under the straight line method items may be depreciated separately:

Year and item	Cost or other basis less salaries	Useful life (years)	Depreciation allowable		
			1954	1955	1956
1954:					
Asset A	$1,600	4	[1] $200	$400	$400
Asset B	12,000	40	[1] 150	300	300

[1] In this example it is assumed that the assets were placed in service on July 1, 1954.

Example (2). In group, classified, or composite accounting, a number of assets with the same or different useful lives may be combined into one account, and a single rate of depreciation, i.e., the group, classified, or composite rate used for the entire account. In the case of group accounts, i.e., accounts containing assets which are similar in kind and which have approximately the same estimated useful lives, the group rate is determined from the average of the useful lives of the assets. In the case of classified or composite accounts, the classified or composite rate is generally computed by determining the amount of one year's depreciation for each item or each group of similar items, and by dividing the total depreciation thus obtained by the total cost or other basis of the assets. The average rate so obtained is to be used as long as subsequent additions, retirements, or replacements do not substantially alter the relative proportions of different types of assets in the account. An example of the computation of a classified or composite rate follows:

Cost or other basis	Estimated useful life (years)	Annual depreciation
$10,000	5	$2,000
10,000	15	667
20,000		2,667

Average rate is 13.33 percent ($2,667÷$20,000) unadjusted for salvage. Assuming the estimated salvage value is 10 percent of the cost or other basis, the rate adjusted for salvage will be 13.33 percent minus 10 percent of 13.33 percent (13.33% − 1.33%), or 12 percent.

Example (3). The use of the straight line method for group, classified, or composite accounts is illustrated by the following example: A taxpayer filing his returns on a calendar year basis maintains an asset account for which a group rate of 20 percent has been determined, before adjustment for salvage. Estimated salvage is determined to be 6⅔ percent, resulting in an adjusted rate of 18.67 percent. During the years illustrated, the initial investment, additions, retirements, and salvage recoveries, which were determined not to change the composition of the group sufficiently to require a change in rate, were assumed to have been made as follows:

1954—Initial investment of $12,000.

1957—Retirement $2,000, salvage realized $200.

1958—Retirement $2,000, salvage realized $200.

1959—Retirement $4,000, salvage realized $400.

1959—Additions $10,000.

1960—Retirement $2,000, no salvage realized.

1961—Retirement $2,000, no salvage realized.

DEPRECIABLE ASSET ACCOUNT AND DEPRECIATION COMPUTATION ON AVERAGE BALANCES

Year	Asset balance Jan. 1	Current additions	Current retirements	Asset balance Dec. 31	Average balance	Rate (percent)	Allowable depreciation
1954	....	$12,000	....	$12,000	$6,000	18.67	$1,120
1955	$12,000	....	....	12,000	12,000	18.67	2,240

DEPRECIABLE ASSET ACCOUNT AND DEPRECIATION COMPUTATION ON AVERAGE BALANCES—Continued

Year	Asset balance Jan. 1	Current additions	Current retirements	Asset balance Dec. 31	Average balance	Rate (percent)	Allowable depreciation
1956	12,000			12,000	12,000	18.67	2,240
1957	12,000		$2,000	10,000	11,000	18.67	2,054
1958	10,000		2,000	8,000	9,000	18.67	1,680

1960	14,000		2,000	12,000	13,000	18.67	2,427
1961	12,000		2,000	10,000	11,000	18.67	2,054

CORRESPONDING DEPRECIATION RESERVE ACCOUNT

Year	Depreciation reserve Jan. 1	Depreciation allowable	Current retirements	Salvage realized	Depreciation reserve Dec. 31
1954		$1,120			$1,120
1955	$1,120	2,240			3,360
1956	3,360	2,240			5,600
1957	5,600	2,054	$2,000	$200	5,854
1958	5,854	1,680	2,000	200	5,734
1959	5,734	2,054	4,000	400	4,188
1960	4,188	2,427	2,000		4,615
1961	4,615	2,054	2,000		4,669

§ 1.167(b)–2 Declining balance method.

(a) *Application of method.* Under the declining balance method a uniform rate is applied each year to the unrecovered cost or other basis of the property. The unrecovered cost or other basis is the basis provided by section 167(g), adjusted for depreciation previously allowed or allowable, and for all other adjustments provided by section 1016 and other applicable provisions of law. The declining balance rate may be determined without resort to formula. Such rate determined under section 167(b)(2) shall not exceed twice the appropriate straight line rate computed without adjustment for salvage. While salvage is not taken into account in determining the annual allowances under this method, in no event shall an asset (or an account) be depreciated below a reasonable salvage value. However, see section 167(f) and § 1.167(f)–1 for rules which permit a reduction in the amount of salvage value to be taken into account for certain personal property acquired after October 16, 1962. Also, see section 167(c) and § 1.167(c)–1 for restrictions on the use of the declining balance method.

(b) *Illustrations.* The declining balance method is illustrated by the following examples:

Example (1). A new asset having an estimated useful life of 20 years was purchased on January 1, 1954, for $1,000. The normal straight line rate (without adjustment for salvage) is 5 percent, and the declining balance rate at twice the normal straight line rate is 10 percent. The annual depreciation allowances for 1954, 1955, and 1956 are as follows:

Year	Basis	Declining balance rate (percent)	Depreciation allowance
1954	$1,000	10	$100
1955	900	10	90
1956	810	10	81

Example (2). A taxpayer filing his returns on a calendar year basis maintains a group account to which a 5 year life and a 40 percent declining balance rate are applicable. Original investment, additions, retirements, and salvage recoveries are the same as those set forth in example (3) of paragraph (b) of § 1.167(b)–1. Although salvage value is not taken into consideration in computing a declining balance rate, it must be recognized and accounted for when assets are retired.

DEPRECIABLE ASSET ACCOUNT AND DEPRECIATION COMPUTATION USING AVERAGE ASSET AND RESERVE BALANCES

Year	Asset balance Jan. 1	Current additions	Current retirements	Asset balance Dec. 31	Average	Average reserve before depreciation	Net depreciable balance	Rate (pct.)	Allowable depreciation
1954	....	$12,000	....	$12,000	$6,000	....	$6,000	40	$2,400
1955	$12,000	....	....	12,000	12,000	$2,400	9,600	40	3,840
1956	12,000	....	....	12,000	12,000	6,240	5,760	40	2,304
1957	12,000	....	$2,000	10,000	11,000	7,644	3,356	40	1,342
1958	10,000	....	2,000	8,000	9,000	7,186	1,814	40	726
1959	8,000	10,000	4,000	14,000	11,000	5,212	5,788	40	2,315
1960	14,000	....	2,000	12,000	13,000	4,727	8,273	40	3,309
1961	12,000	....	2,000	10,000	11,000	6,036	4,964	40	1,986

DEPRECIATION RESERVE

Year	Reserve Jan. 1	Current retirements	Salvage realized	Reserve Dec. 31, before depreciation	Average reserve before depreciation	Allowable depreciation	Reserve Dec. 31, after depreciation
1954	....	....	....	....	....	$2,400	$2,400
1955	$2,400	....	....	$2,400	$2,400	3,840	6,240
1956	6,240	....	....	6,240	6,240	2,304	8,544
1957	8,544	$2,000	$200	6,744	7,644	1,342	8,086
1958	8,086	2,000	200	6,286	7,186	726	7,012
1959	7,012	4,000	400	3,412	5,212	2,315	5,727
1960	5,727	2,000	....	3,727	4,727	3,309	7,036
1961	7,036	2,000	....	5,036	6,036	1,986	7,022

Where separate depreciation accounts are maintained by year of acquisition and there is an unrecovered balance at the time of the last retirement, such unrecovered balance may be deducted as part of the depreciation allowance for the year of such retirement. Thus, if the taxpayer had kept separate depreciation accounts by year of acquisition and all the retirements shown in the example above were from 1954 acquisitions, depreciation would be computed on the 1954 and 1959 acquisitions as follows:

1954 ACQUISITIONS

Year	Asset balance Jan. 1	Acquisitions	Current retirements	Asset balance Dec. 31	Average balance	Avg. reserve before depreciation	Net depreciable balance	Rate (percent)	Allowable depreciation
1954	....	$12,000	....	$12,000	$6,000	....	$6,000	40	$2,400
1955	$12,000	....	....	12,000	12,000	$2,400	9,600	40	3,840
1956	12,000	....	....	12,000	12,000	6,240	5,760	40	2,304
1957	12,000	....	$2,000	10,000	11,000	7,644	3,356	40	1,342
1958	10,000	....	2,000	8,000	9,000	7,186	1,814	40	726
1959	8,000	....	4,000	4,000	6,000	5,212	788	40	315
1960	4,000	....	2,000	2,000	3,000	2,727	273	40	109
1961	2,000	....	2,000	....	1,000	836	164	....	[1] 164

[1] Balance allowable as depreciation in the year of retirement of the last survivor of the 1954 acquisitions.

DEPRECIATION RESERVE FOR 1954 ACQUISITIONS

Year	Reserve Jan. 1	Current retirements	Salvage realized	Reserve Dec. 31, before depreciation	Average reserve before depreciation	Allowable depreciation	Reserve Dec. 31, after depreciation
1954	....	....	....	....	....	$2,400	$2,400
1955	$2,400	....	....	$2,400	$2,400	3,840	6,240
1956	6,240	....	....	6,240	6,240	2,304	8,544
1957	8,544	$2,000	$200	6,744	7,644	1,342	8,086
1958	8,086	2,000	200	6,286	7,186	726	7,012

DEPRECIATION RESERVE FOR 1954 ACQUISITIONS—Continued

Year	Reserve Jan. 1	Current retirements	Salvage realized	Reserve Dec. 31, before depreciation	Average reserve before depreciation	Allowable depreciation	Reserve Dec. 31, after depreciation
1959	7,012	4,000	400	3,412	5,212	315	3,727
1960	3,727	2,000	....	1,727	2,727	109	1,836
1961	1,836	2,000	....	(164)	836	164	....

1959 ACQUISITIONS

Year	Asset balance Jan. 1	Acquisition	Asset balance Dec. 31	Avg. balance	Reserve Dec. 31, before depreciation	Net depreciable balance	Rate percent	Allowable depreciation	Reserve Dec. 31, after depreciation
1959	....	$10,000	$10,000	$5,000	None	$5,000	40	$2,000	$2,000
1960	$10,000	....	10,000	10,000	$2,000	8,000	40	3,200	5,200
1961	10,000	....	10,000	10,000	5,200	4,800	40	1,920	7,120

In the above example, the allowable depreciation on the 1954 acquisitions totals $11,200. This amount when increased by salvage realized in the amount of $800, equals the entire cost or other basis of the 1954 acquisitions ($12,000).

(c) *Change in estimated useful life.* In the declining balance method when a change is justified in the useful life estimated for an account, subsequent computations shall be made as though the revised useful life had been originally estimated. For example, assume that an account has an estimated useful life of ten years and that a declining balance rate of 20 percent is applicable. If, at the end of the sixth year, it is determined that the remaining useful life of the account is six years, computations shall be made as though the estimated useful life was originally determined as twelve years. Accordingly, the applicable depreciation rate will be 16⅔ percent. This rate is thereafter applied to the unrecovered cost or other basis.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6712, 29 FR 3653, Mar. 24, 1964]

§ 1.167(b)–3 Sum of the years-digits method.

(a) *Applied to a single asset*—(1) *General rule.* Under the sum of the years-digits method annual allowances for depreciation are computed by applying changing fractions to the cost or other basis of the property reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the asset (including the year for which the allowance is being computed), and the denominator which remains constant is the sum of all the years digits corresponding to the estimated useful life of the asset. See section 167(c) and § 1.167(c)–1 for restrictions on the use of the sum of the years-digits method.

(i) *Illustrations.* Computation of depreciation allowances on a single asset under the sum of the years-digits method is illustrated by the following examples:

Example (1). A new asset having an estimated useful life of five years was acquired on January 1, 1954, for $1,750. The estimated salvage is $250. For a taxpayer filing his returns on a calendar year basis, the annual depreciation allowances are as follows:

Year	Cost or other basis less salvage	Fraction[1]	Allowable depreciation	Depreciation reserve
1954	$1,500	5/15	$500	$500
1955	1,500	4/15	400	900
1956	1,500	3/15	300	1,200
1957	1,500	2/15	200	1,400
1958	1,500	1/15	100	1,500
Unrecovered value (salvage)	....	....	....	$250

[1] The denominator of the fraction is the sum of the digits representing the years of useful life, i.e., 5, 4, 3, 2, and 1, or 15.

Example (2). Assume in connection with an asset acquired in 1954 that three-fourths of a year's depreciation is allowable in that year. The following illustrates a reasonable method of allocating depreciation:

	Depreciation for 12 months	Allowable depreciation		
		1954	1955	1956
1st year	$500	(¾) $375	(¼) $125	
2d year	400		(¾) 300	(¼) $100
3d year	300			(¾) 225
Total		375	425	325

(ii) *Change in useful life.* Where in the case of a single asset, a change is justified in the useful life, subsequent computations shall be made as though the remaining useful life at the beginning of the taxable year of change were the useful life of a new asset acquired at such time and with a basis equal to the unrecovered cost or other basis of the asset at that time. For example, assume that a new asset with an estimated useful life of ten years is purchased in 1954. At the time of making out his return for 1959, the taxpayer finds that the asset has a remaining useful life of seven years from January 1, 1959. Depreciation for 1959 should then be computed as though 1959 were the first year of the life of an asset estimated to have a useful life of seven years, and the allowance for 1959 would be 7⁄28 of the unrecovered cost or other basis of the asset after adjustment for salvage.

(2) *Remaining life*—(i) *Application.* Under the sum of the years-digits method, annual allowances for depreciation may also be computed by applying changing fractions to the unrecovered cost or other basis of the asset reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the asset (including the year for which the allowance is being computed), and the denominator changes each year to a number which represents the sum of the digits corresponding to the years of estimated remaining useful life of the asset. For decimal equivalents of such fractions, see Table I of subdivision (ii) of this subparagraph. For example, a new asset with an estimated useful life of 10 years is purchased January 1, 1954, for $6,000. Assuming a salvage value of $500, the depreciation allowance for 1954 is $1,000 ($5,500×0.1818, the applicable rate from Table I). For 1955, the unrecovered balance is $4,500, and the remaining life is 9 years. The depreciation allowance for 1955 would then be $900 ($4,500×0.2000, the applicable rate from Table I).

(ii) *Table I.* This table shows decimal equivalents of sum of the years-digits fractions corresponding to remaining lives from 1 to 100 years.

NOTE: For determination of decimal equivalents of remaining lives falling between those shown in the above table, the taxpayer may use the next longest life shown in the table, interpolate from the table, or use the following formula from which the table was derived.

$D=2R/(W+2F)(W+1)$

where:

D=Decimal equivalent.

R=Remaining life.

W=Whole number of years in remaining life.
F=Fractional part of a year in remaining life.

If the taxpayer desires to carry his calculations of decimal equivalents to a greater number of decimal places than is provided in the table, he may use the formula. The procedure adopted must be consistently followed thereafter.

(b) *Applied to group, classified, or composite accounts*—(1) *General rule.* The sum of the years-digits method may be applied to group, classified, or composite accounts in accordance with the plan described in subparagraph (2) of this paragraph or in accordance with other plans as explained in subparagraph (3) of this paragraph.

(2) *Remaining life plan.* The remaining life plan as applied to a single asset is described in paragraph (a)(2) of this section. This plan may also be applied to group, classified, or composite accounts. Under this plan the allowance for depreciation is computed by applying changing fractions to the unrecovered cost or other basis of the account reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the account (including the year for which the allowance is being computed), and the denominator changes each year to a number which represents the sum of the years digits corresponding to the years of estimated remaining useful life of the account. Decimal equivalents of such fractions can be obtained by use of Table I under paragraph (a)(2)(ii) of this section. The proper application of this methodrequires that the estimated remaining useful life of the account be determined each year. This determination, of course, may be made each year by analysis, i.e., by determining the remaining lives for each of the components in the account, and averaging them. The estimated remaining life of any account, however, may also be determined arithmetically. For example, it may be computed by dividing the unrecovered cost or other basis of the account, as computed by straight line depreciation, by the gross cost or other basis of the account, and multiplying the result by the average life of the assets in the account. Salvage value is not a factor for the purpose of determining remaining life. Thus, if a group account with an average life of ten years had at January 1, 1958, a gross asset balance of $12,600 and a depreciation reserve computed on the straight line method of $9,450, the remaining life of the account at January 1, 1958, would be computed as follows:

$12,600−$9,450÷$12,600×10 years equals 2.50 years.

Example. The use of the sum of the years-digits method with group, classified, or composite accounts under the remaining life plan is illustrated by the following example:

A calendar year taxpayer maintains a group account to which a five-year life is applicable. Original investment, additions, retirements, and salvage recoveries are the same as those set forth in example (3) of paragraph (b) of §1.167(b)–1.

[1] ½ year's amount.

[2] F=Rate based on average service life (0.3333 in this example).

(3) *Other plans for application of the sum of the years-digits method.* Taxpayers who wish to use the sum of the years-digits method in computing depreciation for group, classified, or composite accounts in accordance with a sum of the years digits plan other than the remaining life plan described herein may do so only with the consent of the Commissioner. Request for permission to use plans other than that described shall be addressed to the Commissioner of Internal Revenue, Washington, D.C. 20224.

§1.167(b)–4 Other methods.

(a) Under section 167(b)(4) a taxpayer may use any consistent method of computing depreciation, such as the sinking fund method, provided depreciation allowances computed in accordance with such method do not result in accumulated allowances at the end of any taxable year greater than the total of the accumulated allowances which could have resulted from the use of the declining balance method described in section 167(b)(2). This limitation applies only during the first two-thirds of the useful life of the property. For example, an asset costing $1,000 having a useful life of six years may be depreciated under the declining balance method in accordance with §1.167(b)–2, at a rate of 33⅓ percent. During the first four years or ⅔ of its useful life, maximum depreciation allowances under the declining balance method would be as follows:

	Current depreciation	Accumulated depreciation	Balance
Cost of asset			$1,000
First year	$333	$333	667
Second year	222	555	445
Third year	148	703	297
Fourth year	99	802	198

An annual allowance computed by any other method under section 167(b)(4) could not exceed $333 for the first year, and at the end of the second year the total allowances for the two years could not exceed $555. Likewise, the total allowances for the three years could not exceed $703 and for the four years could not exceed $802. This limitation would not apply in the fifth and sixth years. See section 167(c) and §1.167(c)–1 for restriction on the use of certain methods.

(b) It shall be the responsibility of the taxpayer to establish to the satisfaction of the Commissioner that a method of depreciation under section 167(b)(4) is both a reasonable and consistent method and that it does not produce depreciation allowances in excess of the amount permitted under the limitations provided in such section.

§1.167(c)–1 Limitations on methods of computing depreciation under section 167(b) (2), (3), and (4).

(a) *In general.* (1) Section 167(c) provides limitations on the use of the declining balance method described in section 167(b)(2), the sum of the years-digits method described in section 167(b)(3), and certain other methods authorized by section 167(b)(4). These methods are applicable only to tangible property having a useful life of three years or more. If construction, reconstruction, or erection by the taxpayer began before January 1, 1954, and was completed after December 31, 1953, these methods apply only to that portion of the basis of the property which is properly attributable to such construction, reconstruction, or erection after December 31, 1953. Property is considered as constructed, reconstructed, or erected by the taxpayer if the work is done for him in accordance with his specifications. The portion of the basis of such property attributable to construction, reconstruction, or erection after December 31, 1953, consists of all costs of the property allocable to the period after December 31, 1953, including the cost or other basis of materials entering into such work. It is not necessary that such materials be acquired after December 31, 1953, or that they be new in use. If construction or erection by the taxpayer began after December 31, 1953, the entire cost or other basis of such construction or erection qualifies for these methods of depreciation. In the case of reconstruction of property, these methods do not apply to any part of the adjusted basis of such property on December 31, 1953. For purposes of this section, construction, reconstruction, or erection by the taxpayer begins when physical work is started on such construction, reconstruction, or erection.

(2) If the property was not constructed, reconstructed, or erected by the taxpayer, these methods apply only if it was acquired after December 31, 1953, and if the original use of the property commences with the taxpayer and commences after December 31, 1953. For the purpose of the preceding sentence, property shall be deemed to be acquired when reduced to physical possession, or control. The term ''original use'' means the first use to whichthe property is put, whether or not such use corresponds to the use of such property by the taxpayer. For example, a reconditioned or rebuilt machine acquired after December 31, 1953, will not be treated as being put to original use by the taxpayer even though it is put to a different use, nor will a horse acquired for breeding purposes be treated as being put to original use by the taxpayer if prior to the purchase the horse was used for racing purposes. See §§ 1.167(b)–2, 1.167 (b)–3, and 1.167(b)–4 for application of the various methods.

(3) Assets having an estimated average useful life of less than three years shall not be included in a group, classified, or composite account to which the methods described in §§ 1.167 (b)–2, 1.167(b)–3, and 1.167(b)–4 are applicable. However, an incidental retirement of an asset from such an account prior to the expiration of a useful life of three years will not prevent the application of these methods to such an account.

(4) See section 381(c)(6) and the regulations thereunder for rules covering the use of depreciation methods by acquiring corporations in the case of certain corporate acquisitions.

(5) See §§ 1.1502–12(g) and 1.1502–13 for provisions dealing with depreciation of property received by a member of an affiliated group from another member of the group during a consolidated return period.

(6) Except in the cases described in subparagraphs (4) and (5) of this paragraph, the methods of depreciation described in §§ 1.167(b)–2, 1.167(b–(3), and 1.167(b)–4 are not applicable to property in the hands of a distributee, vendee, transferee, donee, or grantee unless the original use of the property begins with such person and the conditions required by section 167(c) and this section are otherwise met. For example, these methods of depreciation may not be used by a corporation with respect to property which it acquires from an individual or partnership in exchange for its stock. Similarly, if an individual or partnership receives property in a distribution upon dissolution of a corporation, these methods of depreciation may not be used with respect to property so acquired by such individual or partnership. As a further example, these methods of depreciation may not be used by a partnership with respect to contributed property, nor by a partner with respect to partnership property distributed to him. Moreover, where a partnership is entitled to use these depreciation methods, and the optional adjustment to basis of partnership property provided by section 743 is applicable, (i) in the case of an increase in the adjusted basis of the partnership property under such section, the transferee partner with respect to whom such adjustment is applicable shall not be entitled to use such methods with respect to such increase, and (ii) in the case of a decrease in the adjusted basis of the partnership property under such section, the transferee partner with respect to whom such adjustment is applicable shall include in his income an amount equal to the portion of the depreciation deducted by the partnership which is attributable to such decrease.

(b) *Illustrations.* (1) The application of these methods to property constructed, reconstructed, or erected by the taxpayer after December 31, 1953, may be illustrated by the following examples:

Example (1). If a building with a total cost of $100,000 is completed after December 31, 1953, and the portion attributable to construction after December 31, 1953, is determined by engineering estimates or by cost accounting records to be $30,000, the methods referred to in paragraph (a)(1) of this section are applicable only to the $30,000 portion of the total.

Example (2). In 1954, a taxpayer has an old machine with an unrecovered cost of $1,000. If he contracts to have it reconditioned, or reconditions it himself, at a cost of an additional $5,000, only the $5,000 may be depreciated under the methods referred to in paragraph (a)(1) of this section, whether or not the materials used for reconditioning are new in use.

Example (3). A taxpayer who acquired a building in 1940 makes major maintenance or repair expenditures in 1954 of a type which must be capitalized. For these expenditures the taxpayer may use a method of depreciation different from that used on the building (for example, the methods referred to in paragraph (a)(1) of this section) only if he accounts for such expenditures separately from the account which contained the original building. In such case, the unadjusted basis on any parts replaced shall be removed from the asset account and shall be charged to the appropriate depreciation reserve account. In the alternative he may capitalize such expenditures by charging them to the depreciation reserve account for the building.

(2) The application of these methods to property which was not constructed, reconstructed, or erected by the taxpayer but which was acquired after December 31, 1953, may be illustrated by the following examples:

Example (1). A taxpayer contracted in 1953 to purchase a new machine which he acquired in 1954 and put into first use in that year. He may use the methods referred to in paragraph (a)(1) of this section, in recovering the cost of the new machine.

Example (2). A taxpayer instead of reconditioning his old machine buys a ‘‘factory reconditioned’’ machine in 1954 to replace it. He cannot apply the methods referred to in paragraph (a)(1) of this section, to any part of the cost of the reconditioned machine since he is not the first user of the machine.

Example (3). In 1954, a taxpayer buys a house for $20,000 which had been used as a personal residence and thus had not been subject to depreciation allowances. He makes a capital addition of $5,000 and rents the property to another. The taxpayer may use the methods referred to in paragraph (a)(1) of this section, only with respect to the $5,000 cost of the addition.

(c) *Election to use methods.* Subject to the limitations set forth in paragraph (a) of this section, the methods of computing the allowance for depreciation specified in section 167(b) (2), (3), and (4) may be adopted without permission and no formal election is required. In order for a taxpayer to elect to use these methods for any property described in paragraph (a) of this section, he need only compute depreciation thereon under any of these methods for any taxable year ending after December 31, 1953, in which the property may first be depreciated by him. The election with respect to any property shall not be binding with respect to acquisitions of similar property in the same year or subsequent year which are set up in separate accounts. If a taxpayer has filed his return for a taxable year ending after December 31, 1953, for which the return is required to be filed on or before September 15, 1956, an election to compute the depreciation allowance under any of the methods specified in section 167 (b) or a change in such an election may be made in an amended return or claim for refund filed on or before September 15, 1956.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 31, 1960, as amended by T.D. 7244, 37 FR 28897, Dec. 30, 1972; T.D. 8560, 59 FR 41674, Aug. 15, 1994; T.D. 8597, 60 FR 36679, July 18, 1995]

§1.167(d)–1 Agreement as to useful life and rates of depreciation.

After August 16, 1954, a taxpayer may, for taxable years ending after December 31, 1953, enter into an agreement with respect to the estimated useful life, method and rate of depreciation and treatment of salvage of any property which is subject to the allowance for depreciation. An application for such agreement may be made to the district director for the internal revenue district in which the taxpayer's return is required to be filed. Such application shall be filed in quadruplicate and shall contain in such detail as may be practical the following information:

(a) The character and location of the property.

(b) The original cost or other basis and date of acquisition.

(c) Proper adjustments to the basis including depreciation accumulated to the first taxable year to be covered by the agreement.

(d) Estimated useful life and estimated salvage value.

(e) Method and rate of depreciation.

(f) Any other facts and circumstances pertinent to making a reasonable estimate of the useful life of the property and its salvage value.

The agreement must be in writing and must be signed by the taxpayer and by the district director. The agreement must be signed in quadruplicate, and two of the signed copies will be returned to the taxpayer. The agreement shall set forth its effective date, the estimated remaining useful life, the estimated salvage value, and rate and method of depreciation of the property and the facts and circumstances taken into consideration in adoption of the agreement, and shall relate only to depreciation allowances for such property on and after the effective date of the agreement. Such an agreement shall be binding on both parties until such time as facts and circumstances which were not taken into account in making the agreement are shown to exist. The party wishing to modify or change the agreement shall have the responsibility of establishing the existence of such facts and circumstances. Any change in the useful life or rate specified in such agreement shall be effective only prospectively, that is, it shall be effective beginning with the taxable year in which notice of the intention to change, including facts and circumstances warranting the adjustment of useful life and rate, is sent by the party proposing the change to the other party and is sent by registered mail, if such notice is mailed before September 3, 1958, or is sent by certified mail or registered mail, if such notice is mailed after September 2, 1958. A copy of the agreement (and any modification thereof) shall be filed with the taxpayer's return for the first taxable year which is affected by the agreement (or any modification thereof). A signed copy should be retained with the permanent records of the taxpayer. For rules relating to changes in method of depreciation, see § 1.167(e)–1 and section 446 and the regulations thereunder.

§ 1.167(e)–1 Change in method.

(a) *In general.* Any change in the method of computing the depreciation allowances with respect to a particular account (other than a change in method permitted or required by reason of the operation of section 167(j)(2) and § 1.167(j)–3(c)) is a change in method of accounting, and such a change will be permitted only with the consent of the Commissioner, except that certain changes to the straight line method of depreciation will be permitted without consent as provided in section 167(e) (1), (2), and (3). Except as provided in paragraphs (c) and (d) of this section, a change in method of computing depreciation will be permitted only with respect to all the assets contained in a particular account as defined in § 1.167(a)–7. Any change in the percentage of the current straight line rate under the declining balance method, as for example, from 200 percent of the straight line rate to any other percent of the straight line rate, or any change in the interest factor used in connection with a compound interest or sinking fund method, will constitute a change in method of depreciation. Any request for a change in method of depreciation shall bemade in accordance with section 446 and the regulations thereunder and shall state the character and location of the property, method of depreciation being used and the method proposed, the date of acquisition, the cost or other basis and adjustments thereto, amount recovered through depreciation and other allowances, the estimated salvage value, the estimated remaining life of the property, and such other information as may be required. For rules covering the use of depreciation methods by acquiring corporations in the case of certain corporate acquisitions, see section 381(c)(6) and the regulations thereunder.

(b) *Declining balance to straight line.* In the case of an account to which the method described in section 167(b)(2) is applicable, a taxpayer may change without the consent of the Commissioner from the declining balance method of depreciation to the straight line method at any time during the useful life of the property under the following conditions. Such a change may not be made if a provision prohibiting such a change is contained in an agreement under section 167(d). When the change is made, the unrecovered cost or other basis (less a reasonable estimate for salvage) shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at the time. With respect to any account, this change will be permitted only if applied to all the assets in the account as defined in § 1.167(a)–7. If the method of depreciation described in section 167(b)(2) (the decliningbalance method of depreciation using a rate not exceeding 200 percent of the straight line rate) is an acceptable method of depreciation with respect to a particular account, the taxpayer may elect under this paragraph to change to the straight line method of depreciation even if with respect to that particular account the declining balance method is permitted under a provision other than section 167(b)(2). Thus, for example, in the case of section 1250 property to which section 167(j)(1) is applicable, section 167(b) does not apply, but the declining balance method of depreciation using 150 percent of the straight line rate is an acceptable method of depreciation under section 167(j)(1)(B). Accordingly, the taxpayer may elect under this paragraph to change to the straight line method of depreciation with respect to such property. Similarly, if the taxpayer acquired used property before July 25, 1969, and adopted the 150 percent declining balance method of depreciation permitted with respect to such property under §1.167(b)–0(b), the taxpayer may elect under this paragraph to change to the straight line method of depreciation with respect to such property. The taxpayer shall furnish a statement with respect to the property which is the subject of the change showing the date of acquisition, cost or other basis, amounts recovered through depreciation and other allowances, the estimated salvage value, the character of the property, the remaining useful life of the property, and such other information as may be required. The statement shall be attached to the taxpayer's return for the taxable year in which the change is made. A change to the straight line method must be adhered to for the entire taxable year of the change and for all subsequent taxable years unless, with the consent of the Commissioner, a change to another method is permitted.

(c) *Change with respect to section 1245 property.* (1) In respect of his first taxable year beginning after December 31, 1962, a taxpayer may elect, without the consent of the Commissioner, to change the method of depreciation of section 1245 property (as defined in section 1245(a)(3)) from any declining balance method or sum of the years-digits method to the straight line method. With respect to any account (as defined in §1.167(a)–7), this change may be made notwithstanding any provision to the contrary in an agreement under section 167(d), but such change shall constitute (as of the first day of such taxable year) a termination of such agreement as to all property in such account. With respect to any account, this change will be permitted only if applied to all the section 1245 property in the account. The election shall be made by a statement on, or attached to, the return for such taxable year filed on or before the last day prescribed by law, including any extensions thereof, for filing such return.

(2) When an election under this paragraph is made in respect of section 1245 property in an account, the unrecovered cost or other basis (less a reasonable estimate for salvage) of all the section 1245 property in the account shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time. If there is other property in such account, the other property shall be placed in a separate account and depreciated by using the same method as was used before the change permitted by this paragraph, but the estimated useful life of such property shall be redetermined in accordance with §1.167(b)–2, or 1.167(b)–3, whichever is applicable. The taxpayer shall maintain records which permit specific identification of the section 1245 property in the account with respect to which the election is made, and any other property in such account. The records shall also show for all the property in the account the date of acquisition, cost or other basis, amounts recovered through depreciation and other allowances, the estimated salvage value, the character of the property, and the remaining useful life of the property. A change to the straight line method under this paragraph must be adhered to for the entire taxable year of the change and for all subsequent taxable years unless, with the consent of the Commissioner, a change to another method is permitted.

(d) *Change with respect to section 1250 property.* (1) In respect of his first taxable year beginning after July 24, 1969, a taxpayer may elect, without the consent of the Commissioner, to change the method of depreciation of section 1250 property (as defined in section 1250(c)) from any declining balance method or sum of the years-digits method to the straight line method. With respect to any account (as defined in § 1.167(a)–7) this change may be made notwithstanding any provision to the contrary in an agreement under section 167(d), but such change will constitute (as of the first day of such taxable year) a termination of such agreement as to all property in such account. With respect to any account, this change will be permitted only if applied to all the section 1250 property in the account. The election shall be made by a statement on, or attached to, the return for such taxable year filed on or before the last day prescribed by law, including extensions thereof, for filing such return.

(2) When an election under this paragraph is made in respect of section 1250 property in an account, the unrecovered cost or other basis (less a reasonable estimate for salvage) of all the section 1250 property in the account shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time. If there is other property in such account, the other property shall be placed in a separate account and depreciated by using the same method as was used before the change permitted by this paragraph, but the estimated useful life of such property shall be redetermined in accordance with § 1.167(b)–2 or § 1.167(b)–3, whichever is applicable. The taxpayer shall maintain records which permit specific identification of the section 1250 property in the account with respect to which the election is made and any other property in such account. The records shall also show for all the property in the account the date of the acquisition, cost or other basis, amounts recovered through depreciation and other allowances, the estimated salvage value, the character of the property, and the estimated remaining useful life of the property. A change to the straight line method under this paragraph must be adhered to for the entire taxable year of the change and for all subsequent taxable years unless, with the consent of the Commissioner, a change to another method is permitted.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6832, 30 FR 8573, July 7, 1965; T.D. 7166, 37 FR 5245, Mar. 11, 1972]

§ 1.167(f)–1 Reduction of salvage value taken into account for certain personal property.

(a) *In general.* For taxable years beginning after December 31, 1961, and ending after October 16, 1962, a taxpayer may reduce the amount taken into account as salvage value in computing the allowance for depreciation under section 167(a) with respect to ‘‘personal property’’ as defined in section 167(f)(2) and paragraph (b) of this section. The reduction may be made in an amount which does not exceed 10 percent of the basis of the property for determining depreciation, as of the time as of which salvage value is required to be determined (or when salvage value is redetermined), taking into account all adjustments under section 1016 other than (1) the adjustment under section 1016(a)(2) for depreciation allowed or allowable to the taxpayer, and (2) the adjustment under section1016(a)(19) for a credit earned by the taxpayer under section 38, to the extent such adjustment is reflected in the basis for depreciation. See paragraph (c) of § 1.167(a)–1 for the definition of salvage value, the time for making the determination, the redetermination of salvage value, and the general rules with respect to the treatment of salvage value. See also section 167(g) and § 1.167(g)–1 for basis for depreciation. A reduction of the amount taken into account as salvage value with respect to any property shall not be binding with respect to other property. In no event shall an asset (or an account) be depreciated below a reasonable salvage value after taking into account the reduction in salvage value permitted by section 167(f) and this section.

(b) *Definitions and special rules.* The following definitions and special rules apply for purposes of section 167(f) and this section.

(1) *Personal property.* The term ‘‘personal property’’ shall include only depreciable—

(i) Tangible personal property (as defined in section 48 and the regulations thereunder) and

(ii) Intangible personal property

which has an estimated useful life (determined at the time of acquisition) of 3 years or more and which is acquired after October 16, 1962. Such term shall not include livestock. The term ‘‘livestock’’ includes horses, cattle, hogs, sheep, goats, and mink and other furbearing animals, irrespective of the use to which they are put or the purpose for which they are held. The original use of the property need not commence with the taxpayer so long as he acquired it after October 16, 1962; thus, the property may be new or used. For purposes of determining the estimated useful life, the provisions of paragraph (b) of §1.167(a)–1 shall be applied. For rules determining when property is acquired, see subparagraph (2) of this paragraph. For purposes of determining the types of intangible personal property which are subject to the allowance for depreciation, see §1.167(a)–3.

(2) *Acquired.* In determining whether property is acquired after October 16, 1962, property shall be deemed to be acquired when reduced to physical possession, or control. Property which has not been used in the taxpayer’s trade or business or held for the production of income and which is thereafter converted by the taxpayer to such use shall be deemed to be acquired on the date of such conversion. In addition, property shall be deemed to be acquired if constructed, reconstructed, or erected by the taxpayer. If construction, reconstruction, or erection by the taxpayer began before October 17, 1962, and was completed after October 16, 1962, section 167(f) and this section apply only to that portion of the basis of the property which is properly attributable to such construction, reconstruction, or erection afterOctober 16, 1962. Property is considered as constructed, reconstructed, or erected by the taxpayer if the work is done for him in accordance with his specifications. The portion of the basis of such property attributable to construction, reconstruction, or erection after October 16, 1962, consists of all costs of the property allocable to the period after October 16, 1962, including the cost or other basis of materials entering into such work. It is not necessary that such materials be acquired after October 16, 1962, or that they be new in use. If construction or erection by the taxpayer began after October 16, 1962, the entire cost or other basis of such construction or erection qualifies for the reduction provided for by section 167(f) and this section. In the case of reconstruction of property, section 167(f) and this section do not apply to any part of the adjusted basis of such property on October 16, 1962. For purposes of this section, construction, reconstruction, or erection by the taxpayer begins when physical work is started on such construction, reconstruction, or erection.

(c) *Illustrations.* The provisions of paragraphs (a) and (b) of this section may be illustrated by the following examples:

Example (1). Taxpayer A purchases a new asset for use in his business on January 1, 1963, for $10,000. The asset qualifies for the investment credit under section 38 and for the additional first-year depreciation allowance under section 179. A is entitled to an investment credit of $700 (7%×$10,000) and elects to take an additional first-year depreciation allowance of $2,000 (20%×$10,000). The basis for depreciation (determined in accordance with the provisions of section 167(g) and §1.167(g)–1) is computed as follows:

Purchase price		$10,000
Less: Adjustment required for taxable years beginning before Jan. 1, 1964, under section 1016(a)(19), for the investment credit	$700	
Adjustment required under section 1016(a)(2) for the additional first-year depreciation allowance	2,000	
	2,700	
Basis for depreciation for the taxable year 1963		7,300

However, the basis of the property for determining depreciation as of the time as of which salvage value is required to be determined is $10,000, the purchase price of the property. A files his income tax returns on a calendar year basis and uses the straight line method of depreciation. A estimates that he will use the asset in his business for 10 years after which it will have a salvage value of $500, which is less than $1,000 (10%×$10,000, the basis of the property for determining depreciation as of the time as of which salvage value is required to be determined). For the taxable year 1963 A may deduct $730 as the depreciation allowance. As of January 1, 1964, the basis of the asset is increased by $700 in accordance with paragraph (d) of § 1.48–7. In computing his total depreciation allowance on the asset, A may reduce the amount taken into account as salvage value to zero and may claim depreciation deductions (including the additional first-year depreciation allowance) totaling $10,000. See paragraph (d) of § 1.48–7 for the computation of depreciation for taxable years beginning after December 31, 1963, where there is an increase in basis of property subject to the investment credit.

Example (2). Assume the same facts as in example (1) except that A in a subsequent taxable year redetermines the estimate of the useful life of the asset and at the same time also redetermines the estimate of salvage value. Assume also that at such time the only reductions reflected in the basis are for depreciation allowed or allowable. Accordingly, the reduction under section 167(f) and this section will be computed with regard to the purchase price and not the unrecovered basis for depreciation at the time of the redetermination.

Example (3). Assume the same facts as in example (1) except that A estimates that the asset will have a salvage value of $1,200 at the end of its useful life. In computing his depreciation for the asset, A may reduce the amount to be taken into account as salvage value to $200 ($1,200−$1,000). Accordingly, A may claim depreciation deductions (including the additional first-year depreciation allowance) totaling $9,800, i.e., the purchase price of the property ($10,000) less the amount taken into account as salvage value ($200).

Example (4). Assume the same facts as in example (1) except that the taxpayer had taken into account salvage value of only $200 but that the estimated salvage value had actually been $700. The amount of salvage value taken into account by the taxpayer is permissible since the reduction of salvage value by $500 ($700−$200) would be within the limit provided for in section 167 (f), i.e., $1,000 (10%×$10,000).

Example (5). On January 1, 1963, taxpayer B, a taxicab operator, traded his old taxicab plus cash for a new one, which had an estimated useful life of three years, in a transaction qualifying as a nontaxable exchange. The old taxicab had an adjusted basis of $2,500. B was allowed $3,000 for his old taxicab and paid $1,000 in cash. The basis of the new taxicab for determining depreciation (as determined under section 167(g) and § 1.167(g)–1) is the adjusted basis of the old taxicab at the time of trade-in ($2,500) plus the additional cash paid out ($1,000), or $3,500. In computing his depreciation allowance on the new taxicab, B may reduce the amount taken into account as salvage value by $350 (10% of $3,500).

Example (6). Taxpayer C purchases a new asset for use in his business on January 1, 1963, for $10,000. At the time of purchase, the asset has an estimated useful life of 10 years and an estimated salvage value of $1,500. C elects to compute his depreciation allowance for the asset by the declining balance method of depreciation, using a rate of 20% which is twice the normal straight line rate of 10% (without adjustment for salvage value). C files his income tax returns on a calendar year basis. In computing his depreciation allowance for the year 1966, C changes his method of determining the depreciation allowance for the asset from the declining balance method to the straight line method (in which salvage value is accounted for in determining the annual depreciation allowances) in accordance with the provisions of section 167(e) and paragraph (b) of § 1.167(e)–1. He also wishes to reduce the amount of salvage value taken into account in accordance with the provisions of section 167(f) and this section. At the close of the year 1966, the only reductions reflected in the basis of the asset are for depreciation allowances. Thus, C may reduce the amount of salvage value taken into account by $1,000 (10%×$10,000, the basis of the asset when it was acquired), and, therefore, will account for salvage value of only $500 in computing his depreciation allowance for the asset in 1966 and subsequent years.

Example (7). Taxpayer D purchases a station wagon for his personal use on January 1, 1962, for $4,500. On January 1, 1963, D converts the use of the station wagon to his business, and at that time it has an estimated useful life of 4 years, an estimated salvage value of $500, and a basis of $3,000 (as determined under section 167 (g) and § 1.167 (g)–1). Thus, for purposes of section 167 (f) and this section, D is deemed to have acquired the station wagon on January 1, 1963. D elects the straight line method of depreciation in computing the depreciation allowance for the station wagon and also wishes to reduce the amount of salvage value taken into account in accordance with the provisions of section 167(f) and this section. Accordingly, D may reduce the amount of salvage value taken into account by $300 (10% of $3,000). D files his income tax returns on a calendar year basis. His depreciation allowance for the year 1963 would be computed as follows:

Basis for depreciation		$3,000
Less:		
Salvage value	$500	

Reduction permitted by section 167(f)	300	
		200
Amount to be depreciated over the useful life		2,800

D’s depreciation allowance on the station wagon for the year 1963 would be $700 ($2,800 divided by 4, the remaining useful life).

[T.D. 6712, 29 FR 3654, Mar. 24, 1964, as amended by T.D. 6838, 30 FR 9064, July 20, 1965]

§1.167(g)–1 Basis for depreciation.

The basis upon which the allowance for depreciation is to be computed with respect to any property shall be the adjusted basis provided in section 1011 for the purpose of determining gain on the sale or other disposition of such property. In the case of property which has not been used in the trade or business or held for the production of income and which is thereafter converted to such use, the fair market value on the date of such conversion, if less than the adjusted basis of the property at that time, is the basis for computing depreciation.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960. Redesignated, T.D. 6712, 29 FR 3653, Mar. 24, 1964]

§1.167(h)–1 Life tenants and beneficiaries of trusts and estates.

(a) *Life tenants.* In the case of property held by one person for life with remainder to another person, the deduction for depreciation shall be computed as if the life tenant were the absolute owner of the property so that he will be entitled to the deduction during his life, and thereafter the deduction, if any, shall be allowed to the remainderman.

(b) *Trusts.* If property is held in trust, the allowable deduction is to be apportioned between the income beneficiaries and the trustee on the basis of the trust income allocable to each, unless the governing instrument (or local law) requires or permits the trustee to maintain a reserve for depreciation in any amount. In the latter case, the deduction is first allocated to the trustee to the extent that income is set aside for a depreciation reserve, and any part of the deduction in excess of the income set aside for the reserve shall be apportioned between the income beneficiaries and the trustee on the basis of the trust income (in excess of the income set aside for the reserve) allocable to each. For example:

(1) If under the trust instrument or local law the income of a trust computed without regard to depreciation is to be distributed to a named beneficiary, the beneficiary is entitled to the deduction to the exclusion of the trustee.

(2) If under the trust instrument or local law the income of a trust is to be distributed to a named beneficiary, but the trustee is directed to maintain a reserve for depreciation in any amount, the deduction is allowed to the trustee (except to the extent that income set aside for the reserve is less than the allowable deduction). The same result would follow if the trustee sets aside income for a depreciation reserve pursuant to discretionary authority to do so in the governing instrument.

No effect shall be given to any allocation of the depreciation deduction which gives any beneficiary or the trustee a share of such deduction greater than his pro rata share of the trust income, irrespective of any provisions in the trust instrument except as otherwise provided in this paragraph when the trust instrument or local law requires or permits the trustee to maintain a reserve for depreciation.

(c) *Estates.* In the case of an estate the allowable deduction shall be apportioned between the estate and the heirs legatees, and devisees on the basis of income of the estate which is allocable to each.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960. Redesignated, T.D. 6712, 29 FR 3653, Mar. 24, 1964]

§1.167(i)–1 Depreciation of improvements in the case of mines, etc.

Property used in the trade or business or held for the production of income which is subject to the allowance for depreciation provided in section 611 shall be treated for all purposes of the Code as if it were property subject to the allowance for depreciation under section 167. The preceding sentence shall not limit the allowance for depreciation otherwise allowable under section 611.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960. Redesignated, T.D. 6712, 29 FR 3653, Mar. 24, 1964]

§ 1.167(l)–1 Limitations on reasonable allowance in case of property of certain public utilities.

(a) *In general*—(1) *Scope.* Section 167(l) in general provides limitations on the use of certain methods of computing a reasonable allowance for depreciation under section 167(a) with respect to ‘‘public utility property’’ (see paragraph (b) of this section) for all taxable years for which a Federal income tax return was not filed before August 1, 1969. The limitations are set forth in paragraph (c) of this section for ‘‘pre-1970 public utility property’’ and in paragraph (d) of this section for ‘‘post-1969 public utility property.’’ Under section 167(l), a taxpayer may always use a straight line method (or other ‘‘subsection (l) method’’ as defined in paragraph (f) of this section). In general, the use of a method of depreciation other than a subsection (l) method is not prohibited by section 167(l) for any taxpayer if the taxpayer uses a ‘‘normalization method of regulated accounting’’ (described in paragraph (h) of this section). In certain cases, the use of a method of depreciation other than a subsection (l) method is not prohibited by section 167(l) if the taxpayer used a ‘‘flow-through method of regulated accounting’’ described in paragraph (i) of this section) for its ‘‘July 1969 regulated accounting period’’ (described in paragraph (g) of this section) whether or not the taxpayer uses either a normalization or a flow-through method of regulated accounting after its July 1969 regulated accounting period. However, in no event may a method of depreciation other than a subsection (l) method be used in the case of pre-1970 public utility property unless such method of depreciation is the ‘‘applicable 1968 method’’ (within the meaning of paragraph (e) of this section). The normalization requirements of section 167(l) with respect to public utilityproperty defined in section 167(l)(3)(A) pertain only to the deferral of Federal income tax liability resulting from the use of an accelerated method of depreciation for computing the allowance for depreciation under section 167 and the use of straight line depreciation for computing tax expense and depreciation expense for purposes of establishing cost of services and for reflecting operating results in regulated books of account. Regulations under section 167(l) do not pertain to other book-tax timing differences with respect to State income taxes, F.I.C.A. taxes, construction costs, or any other taxes and items. The rules provided in paragraph (h)(6) of this section are to insure that the same time period is used to determine the deferred tax reserve amount resulting from the use of an accelerated method of depreciation for cost of service purposes and the reserve amount that may be excluded from the rate base or included in no-cost capital in determining such cost of services. The formula provided in paragraph (h)(6)(ii) of this section is to be used in conjunction with the method of accounting for the reserve for deferred taxes (otherwise proper under paragraph (h)(2) of this section) in accordance with the accounting requirements prescribed or approved, if applicable, by the regulatory body having jurisdiction over the taxpayer’s regulated books of account. The formula provides a method to determine the period of time during which the taxpayer will be treated as having received amounts credited or charged to the reserve account so that the disallowance of earnings with respect to such amounts through rate base exclusion or treatment as no-cost capital will take into account the factor of time for which such amounts are held by the taxpayer. The formula serves to limit the amount of such disallowance.

(2) *Methods of depreciation.* For purposes of section 167(l), in the case of a declining balance method each different uniform rate applied to the unrecovered cost or other basis of the property is a different method of depreciation. For purposes of section 167(l), a change in a uniform rate of depreciation due to a change in the useful life of the property or a change in the taxpayer’s unrecovered cost or other basis for the property is not a change in the method of depreciation. The use of

‘‘guideline lives’’ or ‘‘class lives’’ for Federal income tax purposes and different lives on the taxpayer’s regulated books of account is not treated for purposes of section 167(l) as a different method of depreciation. Further, the use of an unrecovered cost or other basis or salvage value for Federal income tax purposes different from the basis or salvage value used on the taxpayer’s regulated books of account is not treated as a different method of depreciation.

(3) *Application of certain other provisions to public utility property.* For rules with respect to application of the investment credit to public utility property, see section 46(e). For rules with respect to the application of the class life asset depreciation range system, including the treatment of the use of ‘‘class lives’’ for Federal income tax purposes and different lives on the taxpayer’s regulated books of account, see §1.167(a)–11 and §1.167(a)–12.

(4) *Effect on agreements under section 167(d).* If the taxpayer has entered into an agreement under section 167(d) as to any public utility property and such agreement requires the use of a method of depreciation prohibited by section 167(l), such agreement shall terminate as to such property. The termination, in accordance with this subparagraph, shall not affect any other property (whether or not public utility property) covered by the agreement.

(5) *Effect of change in method of depreciation.* If, because the method of depreciation used by the taxpayer with respect to public utility property is prohibited by section 167(l), the taxpayer changes to a method of depreciation not prohibited by section 167(l), then when the change is made the unrecovered cost or other basis shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time.

(b) *Public utility property*—(1) *In general.* Under section 167(l)(3)(A), property is ‘‘public utility property’’ during any period in which it is used predominantly in a ‘‘section 167(l) public utility activity’’. The term ‘‘section 167(l) public utility activity’’ means the trade or business of the furnishing or sale of—

(i) Electrical energy, water, or sewage disposal services,

(ii) Gas or steam through a local distribution system,

(iii) Telephone services,

(iv) Other communication services (whether or not telephone services) if furnished or sold by the Communications Satellite Corporation for purposes authorized by the Communications Satellite Act of 1962 (47 U.S.C. 701), or

(v) Transportation of gas or steam by pipeline,

if the rates for such furnishing or sale, as the case may be, are regulated, i.e., have been established or approved by a regulatory body described in section 167(l)(3)(A). The term ‘‘regulatory body described in section 167(l)(3)(A)’’ means a State (including the District of Columbia) or political subdivision thereof, any agency or instrumentality of the United States, or a public service or public utility commission or other body of any State or political subdivision thereof similar to such a commission. The term ‘‘established or approved’’ includes the filing of a schedule of rates with a regulatory body which has the power to approve such rates, even though such body has taken no action on the filed schedule or generally leaves undisturbed rates filed by the taxpayer involved.

(2) *Classification of property.* If property is not used solely in a section 167(l) public utility activity, such property shall be public utility property if its predominant use is in a section 167(l) public utility activity. The predominant use of property for any period shall be determined by reference to the proper accounts to which expenditures for such property are chargeable under the system of regulated accounts required to be used for the period for which the determination is made and in accordance with the principles of §1.46–3(g)(4) (relating to credit for investment in certain depreciable property). Thus, for example, for purposes of determining whether property is used predominantly in the trade or business of the furnishing or sale of transportation of gas by pipeline, or furnishing or sale of gas through a local distribution system, or both, the rules prescribed in §1.46–3(g)(4) apply,

except that accounts 365 through 371, inclusive (Transmission Plant), shall be added to the accounts enumerated in subdivision (i) of such paragraph (g)(4).

(c) *Pre-1970 public utility property*—(1) *Definition.* (i) Under section 167(l)(3)(B), the term ''pre-1970 public utility property'' means property which was public utility property at any time before January 1, 1970. If a taxpayer acquires pre-1970 public utility property, such property shall be pre-1970 public utility property in the hands of the taxpayer even though such property may have been acquired by the taxpayer in an arm's-length cash sale at fair market value or in a tax-free exchange. Thus, for example, if corporation X which is a member of the same controlled group of corporations (within the meaning of section 1563(a)) as corporation Y sells pre-1970 public utility property to Y, such property is pre-1970 public utility property in the hands of Y. The result would be the same if X and Y were not members of the same controlled group of corporations.

(ii) If the basis of public utility property acquired by the taxpayer in a transaction is determined in whole or in part by reference to the basis of any of the taxpayer's pre-1970 public utility property by reason of the application of any provision of the code, and if immediately after the transaction the adjusted basis of the property acquired is less than 200 percent of the adjusted basis of such pre-1970 public utility property immediately before the transaction, the property acquired is pre-1970 public utility property.

(2) *Methods of depreciation not prohibited.* Under section 167(l)(1), in the case of pre-1970 public utility property, the term ''reasonable allowance'' as used in section 167(a) means, for a taxable year for which a Federal income tax return was not filed before August 1, 1969, and in which such property is public utility property, an allowance (allowable without regard to section 167(l)) computed under—

(i) A subsection (l) method, or

(ii) The applicable 1968 method (other than a subsection (l) method) used by the taxpayer for such property, but only if—

(a) The taxpayer uses in respect of such taxable year a normalization method of regulated accounting for such property,

(b) The taxpayer used a flow-through method of regulated accounting for such property for its July 1969 regulated accounting period, or

(c) The taxpayer's first regulated accounting period with respect to such property is after the taxpayer's July 1969 regulated accounting period and the taxpayer used a flow-through method of regulated accounting for its July 1969 regulated accounting period for public utility property of the same kind (or if there is no property of the same kind, property of the most similar kind) most recently placed in service. See paragraph (e)(5) of this section for determination of same (or similar) kind.

(3) *Flow-through method of regulated accounting in certain cases.* See paragraph (e)(6) of this section for treatment of certain taxpayers with pending applications for change in method of accounting as being deemed to have used a flow-through method of regulated accounting for the July 1969 regulated accounting period.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Corporation X, a calendar-year taxpayer subject to the jurisdiction of a regulatory body described in section 167(l)(3)(A), used the straight line method of depreciation (a subsection (l) method) for all of its public utility property for which depreciation was allowable on its Federal income tax return for 1967 (the latest taxable year for which X, prior to August 1, 1969, filed a return). Assume that under paragraph (e) of this section, X's applicable 1968 method is a subsection (l) method with respect to all of its public utility property. Thus, with respect to its pre-1970 public utility property, X may only use a straight line method (or any other subsection (l) method) of depreciation for all taxable years after 1967.

Example (2). Corporation Y, a calendar-year taxpayer subject to the jurisdiction of the Federal Power Commission, is engaged exclusively in the transportation of gas by pipeline. On its Federal income tax return for 1967 (the latest taxable year for which Y, prior to August 1, 1969, filed a return), Y used the declining balance method of depreciation using a rate of 150 percent of the straightline rate for all of its nonsection 1250 public utility property with respect to which depreciation was allowable. Assume that with respect to all of such property, Y's applicable 1968 method under paragraph (e) of this section is such 150 percent declining balance method. Assume that Y used a normalization method of regulated accounting for all relevant regulated accounting periods. If Y continues to use a normalization method of regulated accounting, Y may compute itsreasonable allowance for purposes of section 167(a) using such 150 percent declining balance method for its nonsection 1250 pre-1970 public utility property for all taxable years beginning with 1968, provided the use of such method is allowable without regard to section 167(l). Y may also use a subsection (l) method for any of such pre-1970 public utility property for all taxable years beginning after 1967. However, because each different uniform rate applied to the basis of the property is a different method of depreciation, Y may not use a declining balance method of depreciation using a rate of twice the straight line rate for any of such pre-1970 public utility property for any taxable year beginning after 1967.

Example (3). Assume the same facts as in example (2) except that with respect to all of its nonsection 1250 pre-1970 public utility property accounted for in its July 1969 regulated accounting period Y used a flow-through method of regulated accounting for such period. Assume further that such property is the property on the basis of which the applicable 1968 method is established for pre-1970 public utility property of the same kind, but having a first regulated accounting period after the taxpayer's July 1969 regulated accounting period. Beginning with 1968, with respect to such property Y may compute its reasonable allowance for purposes of section 167(a) using the declining balance method of depreciation and a rate of 150 percent of the straight line rate, whether it uses a normalization or flow-through method of regulated accounting after its July 1969 regulated accounting period, provided the use of such method is allowable without regard to section 167(l).

(d) *Post-1969 public utility property*—(1) *In general.* Under section 167(l)(3)(C), the term ''post-1969 public utility property'' means any public utility property which is not pre-1970 public utility property.

(2) *Methods of depreciation not prohibited.* Under section 167(l)(2), in the case of post-1969 public utility property, the term ''reasonable allowance'' as used in section 167(a) means, for a taxable year, an allowance (allowable without regard to section 167(l)) computed under—

(i) A subsection (l) method,

(ii) A method of depreciation otherwise allowable under section 167 if, with respect to the property, the taxpayer uses in respect of such taxable year a normalization method of regulated accounting, or

(iii) The taxpayer's applicable 1968 method (other than a subsection (l) method) with respect to the property in question, if the taxpayer used a flow-through method of regulated accounting for its July 1969 regulated accounting period for the property of the same (or similar) kind most recently placed in service, provided that the property in question is not property to which an election under section 167(l)(4)(A) applies. See §1.167(l)(2) for rules with respect to an election under section 167(l)(4)(A). See paragraph (e)(5) of this section for definition of same (or similar) kind.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Corporation X is engaged exclusively in the trade or business of the transportation of gas by pipeline and is subject to the jurisdiction of the Federal Power Commission. With respect to all its public utility property, X's applicable 1968 method (as determined under paragraph (e) of this section) is the straight line method of depreciation. X may determine its reasonable allowance for depreciation under section 167(a) with respect to its post-1969 public utility property under a straight line method (or other subsection (l) method) or, if X uses a normalization method of regulated accounting, any other method of depreciation, provided that the use of such other method is allowable under section 167 without regard to section 167(l).

Example (2). Assume the same facts as in example (1) except that with respect to all of X's post-1969 public utility property the applicable 1968 method (as determined under paragraph (e) of this section) is the declining balance method using a rate of 150 percent of the straight line rate. Assume further that all of X's pre-1970 public utility property was accounted for in its July 1969 regulated accounting period, and that X used a flow-through method of regulated accounting for such period. X may determine its reasonable allowance for depreciation under section 167 with respect to its post-1969 public utility property by using the straight line method of depreciation (or any other subsection (l) method), by using any method otherwise allowable under section 167 (such as a declining balance method) if X uses a normalization method of regulated accounting, or, by using the declining balance method using a rate of 150 percent of the straight line rate, whether or not X uses a normalization or a flow-through method of regulated accounting.

(e) *Applicable 1968 method*—(1) *In general.* Under section 167(l)(3)(D), except as provided in subparagraphs (3) and (4) of this paragraph, the term ''applicable 1968 method'' means with respect to any public utility property—

(i) The method of depreciation properly used by the taxpayer in its Federal income tax return with respect to such property for the latest taxable year for which a return was filed before August 1, 1969,

(ii) If subdivision (i) of this subparagraph does not apply, the method of depreciation properly used by the taxpayer in its Federal income tax return for the latest taxable year for which a return was filed before August 1, 1969, with respect to public utility property of the same kind (or if there is no property of the same kind, property of the most similar kind) most recently placed in service before the end of such latest taxable year, or

(iii) If neither subdivision (i) nor (ii) of this subparagraph applies, a subsection (l) method.

If, on or after August 1, 1969, the taxpayer files an amended return for the taxable year referred to in subdivisions (i) and (ii) of this subparagraph, such amended return shall not be taken into consideration in determining the applicable 1968 method. The term ''applicable 1968 method'' if such new method results to any public utility property, for the year of change and subsequent years, a method of depreciation otherwise allowable under section 167 to which the taxpayer changes from an applicable 1968 method if such new method results in a lesser allowance for depreciation for such property under section 167 in the year of change and the taxpayer secures the Commissioner's consent to the change in accordance with the procedures of section 446(e) and § 1.446–1.

(2) *Placed in service.* For purposes of this section, property is placed in service on the date on which the period for depreciation begins under section 167. See, for example, § 1.167(a)–10(b) and § 1.167(a)–11(c)(2). If under an averaging convention property which is placed in service (as defined in § 1.46–3(d)(ii)) by the taxpayer on different dates is treated as placed in service on the same date, then for purposes of section 167(l) the property shall be treated as having been placed in service on the date the period for depreciation with respect to such property would begin under section 167 absent such averaging convention. Thus, for example, if, except for the fact that the averaging convention used assumes that all additions and retirements made during the first half of the year were made on the first day of the year, the period of depreciation for two items of public utility property would begin on January 10 and March 15, respectively, then for purposes of determining the property of the same (or similar) kind most recently placed in service, such items of property shall be treated as placed in service on January 10 and March 15, respectively.

(3) *Certain section 1250 property.* If a taxpayer is required under section 167(j) to use a method of depreciation other than its applicable 1968 method with respect to any section 1250 property, the term ''applicable 1968 method'' means the method of depreciation allowable under section 167(j) which is the most nearly comparable method to the applicable 1968 method determined under subparagraph (1) of this paragraph. For example, if the applicable 1968 method on new section 1250 property is the declining balance method using 200 percent of the straight line rate, the most nearly comparable method allowable for new section 1250 property under section 167(j) would be the declining balance method using 150 percent of the straight line rate. If the applicable 1968 method determined under subparagraph (1) of this paragraph is the sum of the years-digits method, the term ''most nearly comparable method'' refers to any method of depreciation allowable under section 167(j).

(4) *Applicable 1968 method in certain cases.* (i)*(a)* Under section 167(l)(3)(E), if the taxpayer evidenced within the time

and manner specified in *(b)* of this subdivision (i) the intent to use a method of depreciation under section 167 (other than its applicable 1968 method as determined under subparagraph (1) or (3) of this paragraph or a subsection (l) method) with respect to any public utility property, such method of depreciation shall be deemed to be the taxpayer's applicable 1968 method with respect to such public utility property and public utility property of the same (or most similar) kind subsequently placed in service.

(b) Under this subdivision (i), the intent to use a method of depreciation under section 167 is evidenced—

(1) By a timely application for permission for a change in method of accounting filed by the taxpayer before August 1, 1969, or

(2) By the use of such method of depreciation in the computation by the taxpayer of its tax expense for purposes of reflecting operating results in its regulated books of account for its July 1969 regulated accounting period, as established in the manner prescribed in paragraph (g)(1) (i), (ii), or (iii) of this section.

(ii)*(a)* If public utility property is acquired in a transaction in which its basis in the hands of the transferee is determined in whole or in part by reference to its basis in the hands of the transferor by reason of the application of any provision of the Code, or in a transfer (including any purchase for cash or in exchange) from a related person, then in the hands of the transferee the applicable 1968 method with respect to such property shall be determined by reference to the treatment in respect of such property in the hands of the transferor.

(b) For purposes of this subdivision (ii), the term ''related person'' means a person who is related to another person if either immediately before or after the transfer—

(1) The relationship between such persons would result in a disallowance of losses under section 267 (relating to disallowance of losses, etc., between related taxpayers) or section 707(b) (relating to losses disallowed, etc., between partners and controlled partnerships) and the regulations thereunder, or

(2) Such persons are members of the same controlled group of corporations, as defined in section 1563(a) (relating to definition of controlled group of corporations), except that ''more than 50 percent'' shall be substituted for ''at least 80 percent'' each place it appears in section 1563(a) and the regulations thereunder.

(5) *Same or similar.* The classification of property as being of the same (or similar) kind shall be made by reference to the function of the public utility to which the primary use of the property relates. Property which performs the identical function in the identical manner shall be treated as property of the same kind. The determination that property is of a similar kind shall be made by reference to the proper account to which expenditures for the property are chargeable under the system of regulated accounts required to be used by the taxpayer for the period in which the property in question was acquired. Property, the expenditure for which is chargeable to the same account, is property of the most similar kind. Property, the expenditure for which is chargeable to an account for property which serves the same general function, is property of a similar kind. Thus, for example, if corporation X, a natural gas company, subject to the jurisdiction of the Federal Power Commission, had property properly chargeable to account 366 (relating to transmission plant structures and improvements) acquired an additional structure properly chargeable to account 366, under the uniform system of accounts prescribed for natural gas companies (class A and class B) by the Federal Power Commission, effective September 1, 1968, the addition would constitute property of the same kind if it performed the identical function in the identical manner. If, however, the addition did not perform the identical function in the identical manner, it would be property of the most similar kind.

(6) *Regulated method of accounting in certain cases.* Under section 167(l)(4)(B), if with respect to any pre-1970 public utility property the taxpayer filed a timely application for change in method of accounting referred to in subparagraph (4)(i)*(b)(1)* of this paragraph and

with respect to property of the same (or similar) kind most recently placed in service the taxpayer used a flow-through method of regulated accounting for its July 1969 regulated accounting period, then for purposes of section 167(l)(1)(B) and paragraph (c) of this section the taxpayer shall be deemed to have used a flow-through method of regulated accounting with respect to such pre-1970 public utility property.

(7) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Corporation X is a calendar-year taxpayer. On its Federal income tax return for 1967 (the latest taxable year for which X, prior to August 1, 1969, filed a return) X used a straight line method of depreciation with respect to certain public utility property placed in service before 1965 and used the declining balance method of depreciation using 200 percent of the straight line rate (double declining balance) with respect to the same kind of public utility property placed in service after 1964. In 1968 and 1970, X placed in service additional public utility property of the same kind. The applicable 1968 method with respect to the above described public utility property is shown in the following chart:

Property held in 1970	Placed in service	Method on 1967 return	Applicable 1968 method
Group 1	Before 1965	Straight line	Straight line.
Group 2	After 1964 and before 1968.	Double declining balance.	Double declining balance.
Group 3	After 1967 and before 1969.	....	Do.
Group 4	After 1968	....	Do.

Example (2). Corporation Y is a calendar-year taxpayer engaged exclusively in the trade or business of the furnishing of electrical energy. In 1954, Y placed in service hydroelectric generators and for all purposes Y has taken straight line depreciation with respect to such generators. In 1960, Y placed in service fossil fuel generators and for all purposes since 1960 has used the declining balance method of depreciation using a rate of 150 percent of the straight line rate (computed without reduction for salvage) with respect to such generators. After 1960 and before 1970 Y did not place in service any generators. In 1970, Y placed in service additional hydroelectric generators. The applicable 1968 method with respect to the hydroelectric generators placed in service in 1970 would be the straight line method because it was the method used by Y on its return for the latest taxable year for which Y filed a return before August 1, 1969, with respect to property of the same kind (i.e., hydroelectric generators) most recently placed in service.

Example (3). Assume the same facts as in example (2), except that the generators placed in service in 1970 were nuclear generators. The applicable 1968 method with respect to such generators is the declining balance method using a rate of 150 percent of the straight line rate because, with respect to property of the most similar kind (fossil fuel generators) most recently placed in service, Y used such declining balance method on its return for the latest taxable year for which it filed a return before August 1, 1969.

(f) *Subsection (l) method.* Under section 167(l)(3)(F), the term ‘‘subsection (l) method’’ means a reasonable and consistently applied ratable method of computing depreciation which is allowable under section 167(a), such as, for example, the straight line method or a unit of production method or machine-hour method. The term ‘‘subsection (l) method’’ does not include any declining balance method (regardless of the uniform rate applied), sum of the years-digits method, or method of depreciation which is allowable solely by reason of section 167(b)(4) or (j)(1)(C).

(g) *July 1969 regulated accounting period*—(1) *In general.* Under section 167(l)(3)(I), the term ‘‘July 1969 regulated accounting period’’ means the taxpayer’s latest accounting period ending before August 1, 1969, for which the taxpayer regularly computed, before January 1, 1970, its tax expense for purposes of reflecting operating results in its regulated books of account. The computation by the taxpayer of such tax expense may be established by reference to the following:

(i) The most recent periodic report of a period ending before August 1, 1969, required by a regulatory body described in section 167(l)(3)(A) having jurisdiction over the taxpayer’s regulated books of account which was filed with such body before January 1, 1970 (whether or not such body has jurisdiction over rates).

(ii) If subdivision (i) of this subparagraph does not apply, the taxpayer’s most recent report to its shareholders for a period ending before August 1, 1969, but only if such report was distributed to the shareholders before January 1, 1970, and if the taxpayer’s stocks or securities are traded in an established securities market during such period. For purposes of this subdivision, the term ''established securities market'' has the meaning assigned to such term in §1.453–3(d)(4).

(iii) If subdivisions (i) and (ii) of this subparagraph do not apply, entries made to the satisfaction of the district director before January 1, 1970, in its regulated books of account for its most recent accounting period ending before August 1, 1969.

(2) *July 1969 method of regulated accounting in certain acquisitions.* If public utility property is acquired in a transaction in which its basis in the hands of the transferee is determined in whole or in part by reference to its basis in the hands of the transferor by reason of the application of any provision of the Code, or in a transfer (including any purchase for cash or in exchange) from a related person, then in the hands of the transferee the method of regulated accounting for such property's July 1969 regulated accounting period shall be determined by reference to the treatment in respect of such property in the hands of the transferor. See paragraph (e)(4)(ii) of this section for definition of ''related person''.

(3) *Determination date.* For purposes of section 167(l), any reference to a method of depreciation under section 167(a), or a method of regulated accounting, taken into account by the taxpayer in computing its tax expense for its July 1969 regulated accounting period shall be a reference to such tax expense as shown on the periodic report or report to shareholders to which subparagraph (1) (i) or (ii) of this paragraph applies or the entries made on the taxpayer's regulated books of account to which subparagraph (1)(iii) of this paragraph applies. Thus, for example, assume that regulatory body A having jurisdiction over public utility property with respect to X's regulated books of account requires X to reflect its tax expense in such books using the same method of depreciation which regulatory body B uses for determining X's cost of service for ratemaking purposes. If in 1971, in the course of approving a rate change for X, B retroactively determines X's cost of service for ratemaking purposes for X's July 1969 regulated accounting period using a method of depreciation different from the method reflected in X's regulated books of account as of January 1, 1970, the method of depreciation used by X for its July 1969 regulated accounting period would be determined without reference to the method retroactively used by B in 1971.

(h) *Normalization method of accounting*—(1) *In general.* (i) Under section 167(l), a taxpayer uses a normalization method of regulated accounting with respect to public utility property—

(a) If the same method of depreciation (whether or not a subsection (l) method) is used to compute both its tax expense and its depreciation expense for purposes of establishing cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account, and

(b) If to compute its allowance for depreciation under section 167 it uses a method of depreciation other than the method it used for purposes described in *(a)* of this subdivision, the taxpayer makes adjustments consistent with subparagraph (2) of this paragraph to a reserve to reflect the total amount of the deferral of Federal income tax liability resulting from the use with respect to all of its public utility property of such different methods of depreciation.

(ii) In the case of a taxpayer described in section 167(l) (1) (B) or (2) (C), the reference in subdivision (i) of this subparagraph shall be a reference only to such taxpayer's ''qualified public utility property''. See §1.167(l)–2(b) for definition of ''qualified public utility property''.

(iii) Except as provided in this subparagraph, the amount of Federal income tax liability deferred as a result of the use of different method of depreciation under subdivision (i) of this subparagraph is the excess (computed without regard to credits) of the amount the tax liability would have been had a subsection (l) method been used over the amount of the actual tax liability. Such amount shall be taken into account for the taxable year in which such different methods of depreciation are used. If, however, in respect of any taxable year the use of a method of depreciation other than a subsection (l) method for purposes of determining the taxpayer's reasonable allowance under section 167(a) results in a net operating loss carryover (as determined under section 172) to a year succeeding such taxable year which would not have arisen (or an increase in such carryover which would not have arisen) had the taxpayer determined his reasonable allowance under section 167(a) using a subsection (l) method, then the amount and time of the deferral of tax liability shall be taken into account in such appropriate time and manner as is satisfactory to the district director.

(2) *Adjustments to reserve.* (i) The taxpayer must credit the amount of deferred Federal income tax determined under subparagraph (1)(i) of this paragraph for any taxable year to a reserve for deferred taxes, a depreciation reserve, or other reserve account. The taxpayer need not establish a separate reserve account for such amount but the amount of deferred tax determined under subparagraph (1) (i) of this paragraph must be accounted for in such a manner so as to be readily identifiable. With respect to any account, the aggregate amount allocable to deferred tax under section 167(l) shall not be reduced except to reflect the amount for any taxable year by which Federal income taxes are greater by reason of the prior use of different methods of depreciation under subparagraph (1)(i) of this paragraph. An additional exception is that the aggregate amount allocable to deferred tax under section 167(l) may be properly adjusted to reflect asset retirements or the expiration of the period for depreciation used in determining the allowance for depreciation under section 167(a).

(ii) The provisions of this subparagraph may be illustrated by the following examples:

Example (1). Corporation X is exclusively engaged in the transportation of gas by pipeline subject to the jurisdiction of the Federal Power Commission. With respect to its post-1969 public utility property, X is entitled under section 167(l)(2)(B) to use a method of depreciation other than a subsection (l) method if it uses a normalization method of regulated accounting. With respect to such property, X has not made any election under § 1.167(a)–11 (relating to depreciation based on class lives and asset depreciation ranges). In 1972, X places in service public utility property with an unadjusted basis of $2 million, and an estimated useful life of 20 years. X uses the declining balance method of depreciation with a rate twice the straight line rate. If X uses a normalization method of regulated accounting, the amount of depreciation allowable under section 167(a) with respect to such property for 1972 computed under the double declining balance method would be $200,000. X computes its tax expense and depreciation expense for purposes of determining its cost of service for rate-making purposes and for reflecting operating results in its regulated books of account using the straight line method of depreciation (asubsection (l) method). A depreciation allowance computed in this manner is $100,000. The excess of the depreciation allowance determined under the double declining balance method ($200,000) over the depreciation expense computed using the straight line method ($100,000) is $100,000. Thus, assuming a tax rate of 48 percent, X used a normalization method of regulated accounting for 1972 with respect to property placed in service that year if for 1972 it added to a reserve $48,000 as taxes deferred as a result of the use by X of a method of depreciation for Federal income tax purposes different from that used for establishing its cost of service for rate-making purposes and for reflecting operating results in its regulated books of account.

Example (2). Assume the same facts as in example (1), except that X elects to apply § 1.167(a)–11 with respect to all eligible property placed in service in 1972. Assume further that all property X placed in service in 1972 is eligible property. One hudnred percent of the asset guideline period for such property is 22 years and the asset depreciation range is from 17.5 years to 26.5 years. X uses the double declining balance method of depreciation, selects an asset depreciation period of 17.5 years, and applies the half-year convention (described in § 1.167(a)–11(c)(2)(iii)). In 1972, the depreciation allowable under section 167(a) with respect to property placed in service in 1972 is $114,285 (determined without regard to the normalization requirements in § 1.167(a)–11(b)(6) and in section 167(l)). X computes its tax expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account using the straight line method of depreciation (a subsection (l) method), an estimated useful life of 22 years (that is, 100 percent of the asset guideline period), and the half-year convention. A depreciation allowance computed in this manner is $45,454. Assuming a tax rate of 48 percent, the amount that X must add to a reserve for 1972 with respect to property placed in service that year in order to qualify as using a normalization method of regulated accounting under section 167(l) (3) (G) is $27,429 and the amount in order to satisfy the normalization requirements of § 1.167(a)–11(b)(6) is $5,610. X determined such amounts as follows:

(1) Depreciation allowance on tax return (determined without regard to section 167(l) and §1.167(a)–11(b) (6))	$114,285
(2) Line (1), recomputed using a straight line method	57,142
(3) Difference in depreciation allowance attributable to different methods (line (1) minus line (2))	$57,143
(4) Amount to add to reserve under this paragraph (48 percent of line (3))	27,429
(5) Amount in line (2)	$57,142
(6) Line (5), recomputed by using an estimated useful life of 22 years and the half-year convention	45,454
(7) Difference in depreciation allowance attributable to difference in depreciation periods	$11,688
(8) Amount to add to reserve under §1.167(a)–11(b) (6) (ii) (48 percent of line (7))	5,610

If, for its depreciation expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account, X had used a period in excess of the asset guideline period of 22 years, the total amount in lines (4) and (8) in this example would not be changed.

Example (3). Corporation Y, a calendar-year taxpayer which is engaged in furnishing electrical energy, made the election provided by section 167(l) (4) (a) with respect to its ‘‘qualified public utility property’’ (as defined in §1.167(l)–2(b)). In 1971, Y placed in service qualified public utility property which had an adjusted basis of $2 million, estimated useful life of 20 years, and no salvage value. With respect to property of the same kind most recently placed in service, Y used a flow-through method of regulated accounting for its July 1969 regulated accounting period and the applicable 1968 method is the declining balance method of depreciation using 200 percent of the straight line rate. The amount of depreciation allowable under the double declining balance method with respect to the qualified public utility property would be $200,000. Y computes its tax expense and depreciation expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account using the straight line method of depreciation. A depreciation allowance with respect to the qualified public utility property determined in this manner is $100,000. The excess of the depreciation allowance determined under the double declining balance method ($200,000) over the depreciation expense computed using the straight line method ($100,000) is $100,000. Thus, assuming a tax rate of 48 percent, Y used a normalization method of regulated accounting for 1971 if for 1971 it added to a reserve $48,000 as tax deferred as a result of the use by Y of a method of depreciation for Federal income tax purposes with respect to its qualified public utility property which method was different from that used for establishing its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account for such property.

Example (4). Corporation Z, exclusively engaged in a public utility activity did not use a flow-through method of regulated accounting for its July 1969 regulated accounting period. In 1971, a regulatory body having jurisdiction over all of Z's property issued an order applicable to all years beginning with 1968 which provided, in effect, that Z use an accelerated method of depreciation for purposes of section 167 and for determining its tax expenses for purposes of reflecting operating results in its regulated books of account. The order further provided that Z normalize 50 percent of the tax deferral resulting from the use of the accelerated method of depreciation and that Z flow-through 50 percent of the tax deferral resulting therefrom. Under section 167(l), the method of accounting provided in the order would not be a normalization method of regulated accounting because Z would not be permitted to normalize 100 percent of the tax deferral resulting from the use of an accelerated method of depreciation. Thus, with respect to its public utility property for purposes of section 167, Z may only use a subsection (l) method of depreciation.

Example (5). Assume the same facts as in example (4) except that the order of the regulatory body provided, in effect, that Z normalize 100 percent of the tax deferral with respect to 50 percent of its public utility property and flow-through the tax savings with respect to the other 50 percent of its property. Because the effect of such an order would allow Z to flow-through a portion of the tax savings resulting from the use of an accelerated method of depreciation, Z would not be using a normalization method of regulated accounting with respect to any of its properties. Thus, with respect to its public utility property for purposes of section 167, Z may only use a subsection (l) method of depreciation.

(3) *Establishing compliance with normalization requirements in respect of operating books of account.* The taxpayer may establish compliance with the requirement in subparagraph (l)(i) of this paragraph in respect of reflecting operating results, and adjustments to a reserve, in its operating books of account by reference to the following:

(i) The most recent periodic report for a period beginning before the end of the taxable year, required by a regulatory body described in section 167(l)(3)(A) having jurisdiction over the taxpayer's regulated operating books of account which was filed with such body before the due date (determined with regard to extensions) of the taxpayer's Federal income tax return for such taxable year (whether or not such body has jurisdiction over rates).

(ii) If subdivision (i) of this subparagraph does not apply, the taxpayer's most recent report to its shareholders for the taxable year but only if *(a)* such report was distributed to the shareholders before the due date (determined with regard to extensions) of the taxpayer's Federal income tax return for the taxable year and *(b)* the taxpayer's stocks or securities are traded in an established securities market during such taxable year. For purposes of this subdivision, the term ''established securities market'' has the meaning assigned to such term in § 1.453–3(d)(4).

(iii) If neither subdivision (i) nor (ii) of this subparagraph applies, entries made to the satisfaction of the district director before the due date (determined with regard to extensions) of the taxpayer's Federal income tax return for the taxable year in its regulated books of account for its most recent period beginning before the end of such taxable year.

(4) *Establishing compliance with normalization requirements in computing cost of service for ratemaking purposes.* (i) In the case of a taxpayer which used a flow-through method of regulated accounting for its July 1969 regulated accounting period or thereafter, with respect to all or a portion of its pre-1970 public utility property, if a regulatory body having jurisdiction to establish the rates of such taxpayer as to such property (or a court which has jurisdiction over such body) issues an order of general application (or an order of specific application to the taxpayer) which states that such regulatory body (or court) will permit a class of taxpayers of which such taxpayer is a member (or such taxpayer) to use the normalization method of regulated accounting to establish cost of service for ratemaking purposes with respect to all or a portion of its public utility property, the taxpayer will be presumed to be using the same method of depreciation to compute both its tax expense and its depreciation expense for purposes of establishing its cost of service for ratemaking purposes with respect to the public utility property to which such order applies. In the event that such order is in any way conditional, the preceding sentence shall not apply until all of the conditions contained in such order which are applicable to the taxpayer have been fulfilled. The taxpayer shall establish to the satisfaction of the Commissioner or his delegate that such conditions have been fulfilled.

(ii) In the case of a taxpayer which did not use the flow-through method of regulated accounting for its July 1969 regulated accounting period or thereafter (including a taxpayer which used a subsection (l) method of depreciation to compute its allowance for depreciation under section 167(a) and to compute its tax expense for purposes of reflecting operating results in its regulated books of account), with respect to any of its public utility property, it will be presumed that such taxpayer is using the same method of depreciation to compute both its tax expense and its depreciation expense for purposes of establishing its cost of service for ratemaking purposes with respect to its post-1969 public utility property. The presumption described in the preceding sentence shall not apply in any case where there is *(a)* an expression of intent (regardless of the manner in which such expression of intent is indicated) by the regulatory body (or bodies), having jurisdiction to establish the rates of such taxpayer, which indicates that the policy of such regulatory body is in any way inconsistent with the use of the normalization method of regulated accounting by such taxpayer or by a class of taxpayers of which such taxpayer is a member, or *(b)* a decision by a court having jurisdiction over such regulatory body which decision is in any way inconsistent with the use of the normalization method of regulated accounting by such taxpayer or a class of taxpayers of which such taxpayer is a member. The presumption shall be applicable on January 1, 1970, and shall, unless rebutted, be effective until an inconsistent expression of intent is indicated by such regulatory body or by such court. An example of such an inconsistent expression of intent is the case of a regulatory body which has, after the July 1969 regulated accounting period and before January 1, 1970, directed public utilities subject to its ratemaking jurisdiction to use a flow-through method of regulated accounting, or has issued an order of general application which states that such agency will direct a class of public utilities of which the taxpayer is a member to use a flow-through method of regulated accounting. The presumption described in this subdivision may be rebutted by evidence that the flow-through method of regulated accounting is being used by the taxpayer with respect to such property.

(iii) The provisions of this subparagraph may be illustrated by the following examples:

Example (1). Corporation X is a calendar-year taxpayer and its ‘‘applicable 1968 method’’ is a straight line method of depreciation. Effective January 1, 1970, X began collecting rates which were based on a sum of the years-digits method of depreciation and a normalization method of regulated accounting which rates had been approved by a regulatory body having jurisdiction over X. On October 1, 1971, a court of proper jurisdiction annulled the rate order prospectively, which annulment was not appealed, on the basis that the regulatory body had abused its discretion by determining the rates on the basis of a normalization method of regulated accounting. As there was no inconsistent expression of intent during 1970 or prior to the due date of X’s return for 1970, X’s use of the sum of the years-digits method of depreciation for purposes of section 167 on such return was proper. For 1971, the presumption is in effect through September 30. During 1971, X may use the sum of the years-digits method of depreciation for purposes of section 167 from January 1 through September 30, 1971. After September 30, 1971, and for taxable years after 1971, X must use a straight line method of depreciation until the inconsistent court decision is no longer in effect.

Example (2). Assume the same facts as in example (1), except that pursuant to the order of annulment, X was required to refund the portion of the rates attributable to the use of the normalization method of regulated accounting. As there was no inconsistent expression of intent during 1970 or prior to the due date of X’s return for 1970, X has the benefit of the presumption with respect to its use of the sum of the years-digits method of depreciation for purposes of section 167, but because of the retroactive nature of the rate order X must file an amended return for 1970 using a straight line method of depreciation. As the inconsistent decision by the court was handed down prior to the due date of X’s Federal income tax return for 1971, for 1971 and thereafter the presumption of subdivision (ii) of this subparagraph does not apply. X must file its Federal income tax returns for such years using a straight line method of depreciation.

Example (3). Assume the same facts as in example (2), except that the annulment order was stayed pending appeal of the decision to a court of proper appellate jurisdiction, X has the benefit of the presumption as described in example (2) for the year 1970, but for 1971 and thereafter the presumption of subdivision (ii) of this subparagraph does not apply. Further, X must file an amended return for 1970 using a straight line method of depreciation and for 1971 and thereafter X must file its returns using a straight line method of depreciation unless X and the district director have consented in writing to extend the time for assessment of tax for 1970 and thereafter with respect to the issue of normalization method of regulated accounting for as long as may be necessary to allow for resolution of the appeal with respect to the annulment of the rate order.

(5) *Change in method of regulated accounting.* The taxpayer shall notify the district director of a change in its method of regulated accounting, an order by a regulatory body or court that such method be changed, or an interim or final rate determination by a regulatory body which determination is inconsistent with the method of regulated accounting used by the taxpayer immediately prior to the effective date of such rate determination. Such notification shall be made within 90 days of the date that the change in method, the order, or the determination is effective. In the case of a change in the method of regulated accounting, the taxpayer shall recompute its tax liability for any affected taxable year and such recomputation shall be made in the form of an amended return where necessary unless the taxpayer and the district director have consented in writing to extend the time for assessment of tax with respect to the issue of normalization method of regulated accounting.

(6) *Exclusion of normalization reserve from rate base.* (i) Notwithstanding the provisions of subparagraph (1) of this paragraph, a taxpayer does not use a normalization method of regulated accounting if, for ratemaking purposes,

the amount of the reserve for deferred taxes under section 167(l) which is excluded from the base to which the taxpayer's rate of return is applied, or which is treated as no-cost capital in those rate cases in which the rate of return is based upon the cost of capital, exceeds the amount of such reserve for deferred taxes for the period used in determining the taxpayer's tax expense in computing cost of service in such ratemaking.

(ii) For the purpose of determining the maximum amount of the reserve to be excluded from the rate base (or to be included as no-cost capital) under subdivision (i) of this subparagraph, if solely an historical period is used to determine depreciation for Federal income tax expense for ratemaking purposes, then the amount of the reserve account for the period is the amount of the reserve (determined under subparagraph (2) of this paragraph) at the end of the historical period. If solely a future period is used for such determination, the amount of the reserve account for the period is the amount of the reserve at the beginning of the period and a pro rata portion of the amount of any projected increase to be credited or decrease to be charged to the account during such period. If such determination is made by reference both to an historical portion and to a future portion of a period, the amount of the reserve account for the period is the amount of the reserve at the end of the historical portion of the period and a pro rata portion of the amount of any projected increase to be credited or decrease to be charged to the account during the future portion of the period. The pro rata portion of any increase to be credited or decrease to be charged during a future period (or the future portion of a part-historical and part-future period) shall be determined by multiplying any such increase or decrease by a fraction, the numerator of which is the number of days remaining in the period at the time such increase or decrease is to be accrued, and the denominator of which is the total number of days in the period (or future portion).

(iii) The provisions of subdivision (i) of this subparagraph shall not apply in the case of a final determination of a rate case entered on or before May 31, 1973. For this purpose, a determination is final if all rights to request a review, a rehearing, or a redetermination by the regulatory body which makes such determination have been exhausted or have lapsed. The provisions of subdivision (ii) of this subparagraph shall not apply in the case of a rate case filed prior to June 7, 1974 for which a rate order is entered by a regulatory body having jurisdiction to establish the rates of the taxpayer prior to September 5, 1974, whether or not such order is final, appealable, or subject to further review or reconsideration.

(iv) The provisions of this subparagraph may be illustrated by the following examples:

Example (1). Corporation X is exclusively engaged in the transportation of gas by pipeline subject to the jurisdiction of the Z Power Commission. With respect to its post-1969 public utility property, X is entitled under section 167(l)(2)(B) to use a method of depreciation other than a subsection (l) method if it uses a normalization method of regulated accounting. With respect to X the Z Power Commission for purposes of establishing cost of service uses a recent consecutive 12-month period ending not more than 4 months prior to the date of filing a rate case adjusted for certain known changes occurring within a 9-month period subsequent to the base period. X's rate case is filed on January 1, 1975. The year 1974 is the recorded test period for X's rate case and is the period used in determining X's tax expense in computing cost of service. The rates are contemplated to be in effect for the years 1975, 1976, and 1977. The adjustments for known changes relate only to wages and salaries. X's rate base at the end of 1974 is$145,000,000. The amount of the reserve for deferred taxes under section 167(l) at the end of 1974 is $1,300,000, and the reserve is projected to be $4,400,000 at the end of 1975, $6,500,000 at the end of 1976, and $9,800,000 at the end of 1977. X does not use a normalization method of regulated accounting if the Z Power Commission excludes more than $1,300,000 from the rate base to which X's rate of return is applied. Similarly, X does not use a normalization method of regulated accounting if, instead of the above, the Z Power Commission, in determining X's rate of return which is applied to the rate base, assigns to no-cost capital an amount that represents the reserve account for deferred tax that is greater than $1,300,000.

Example (2). Assume the same facts as in example (1) except that the adjustments for known changes in cost of service made by the Z Power Commission include an additional depreciation expense that reflects the installation of new equipment put into service on January 1, 1975. Assume further that the reserve for deferred taxes under section 167(1) at the end of 1974 is $1,300,000 and that the monthly net increases for the first 9 months of 1975 are projected to be:

January 1–31	$310,000
February 1–28	300,000
March 1–31	300,000
April 1–30	280,000
May 1–31	270,000
June 1–30	260,000
July 1–31	260,000
August 1–31	250,000
September 1–30	240,000
	$2,470,000

For its regulated books of account X accrues such increases as of the last day of the month but as a matter of convenience credits increases or charges decreases to the reserve account on the 15th day of the month following the whole month for which such increase or decrease is accrued. The maximum amount that may be excluded from the rate base is $2,470,879 (the amount in the reserve at the end of the historical portion of the period ($1,300,000) and a pro rata portion of the amount of any projected increase for the future portion of the period to be credited to the reserve ($1,170,879)). Such pro rata portion is computed (without regard to the date such increase will actually be posted to the account) as follows:

$310,000×243/273=	$275,934
300,000×215/273=	236,264
300,000×184/273=	202,198
280,000×154/273=	157,949
270,000×123/273=	121,648
260,000×93/273=	88,571
260,000×62/273=	59,048
250,000×31/273=	28,388
240,000×1/273=	879
	$1,170,879

Example (3). Assume the same facts as in example (1) except that for purposes of establishing cost of service the Z Power Commission uses a future test year (1975). The rates are contemplated to be in effect for 1975, 1976, and 1977. Assume further that plant additions, depreciation expense, and taxes are projected to the end of 1975 and that the reserve for deferred taxes under section 167(l) is $1,300,000 for 1974 and is projected to be $4,400,000 at the end of 1975. Assume also that the Z Power Commission applies the rate of return to X's 1974 rate base of $145,000,000. X and the Z Power Commission through negotiation arrive at the level of approved rates. X uses a normalization method of regulated accounting only if the settlement agreement, the rate order, or record of the proceedings of the Z Power Commission indicates that the Z Power Commission did not exclude an amount representing the reserve for deferred taxes from X's rate base ($145,000,000) greater than $1,300,000 plus a pro rata portion of the projected increases and decreases that are to be credited or charged to the reserve account for 1975. Assume that for 1975 quarterly net increases are projected to be:

1st quarter	$910,000
2nd quarter	810,000
3rd quarter	750,000
4th quarter	630,000
Total	$3,100,000

For its regulated books of account X will accrue such increases as of the last day of the quarter but as a matter of convenience will credit increases or charge decreases to the reserve account on the 15th day of the month following the last month of the quarter for which such increase or decrease will be accrued. The maximum amount that may be excluded from the rate base is $2,591,480 (the amount of the reserve at the beginning of the period ($1,300,000) plus a pro rata portion ($1,291,480) of the $3,100,000 projected increase to be credited to the reserve during the period). Such portion is computed (without regard to the date such increase will actually be posted to the account) as follows:

$910,000×276/365=	$688,110
810,000×185/365=	410,548
750,000×93/365=	191,096
630,000×1/365=	1,726
	$1,291,480

(i) *Flow-through method of regulated accounting.* Under section 167(l)(3)(H), a taxpayer uses a flow-through method of regulated accounting with respect to public utility property if it uses the same method of depreciation (other than a subsection (l) method) to compute its allowance for depreciation under section 167 and to compute its tax expense for purposes of reflecting operating results in its regulated books of account unless such method is the same method used by the taxpayer to determine its depreciation expense for purposes of reflecting operating results in its regulated books of account. Except as provided in the preceding sentence, the method of depreciation used by a taxpayer with respect to public utility property for purposes of determining cost of service for ratemaking purposes or rate base for ratemaking purposes shall not be considered in determining whether the taxpayer used a flow-through method of regulated accounting. A taxpayer may establish use of a flow-through method of regulated accounting in the same manner that compliance with normalization requirements in respect of operating books of account may be established under paragraph (h)(4) of this section.

[T.D. 7315, 39 FR 20195, June 7, 1974]

§ 1.167(l)–2 Public utility property; election as to post-1969 property representing growth in capacity.

(a) *In general.* Section 167(l)(2) prescribes the methods of depreciation which may be used by a taxpayer with respect to its post-1969 public utility property. Under section 167(l)(2) (A) and (B) the taxpayer may use a subsection (l) method of depreciation (as defined in section 167(l)(3)(F)) or any other method of depreciation which is otherwise allowable under section 167 if, in conjunction with the use of such other method, such taxpayer uses the normalization method of accounting (as defined in section 167(l)(3)(G)). Paragraph (2)(C) of section 167(l) permits a taxpayer which used the flow-through method of accounting for its July 1969 accounting period (as these terms are defined in section 167(l)(3) (H) and (I), respectively) to use its applicable 1968 method of depreciation with respect to certain property. Section 167(l)(3)(D) describes the term ‘‘applicable 1968 method’’. Accordingly, a regulatory agency is not precluded by section 167(l) from requiring such a taxpayer subject to its jurisdiction to continue to use the flow-through method of accounting unless the taxpayer makes the election pursuant to section 167(l)(4)(A) and this section. Whether or not the election is made, if such a regulatory agency permits the taxpayer to change from the flow-through method of accounting, subsection (l)(2) (A) or (B) would apply and such taxpayer could, subject to the provisions of section 167(e) and the regulations thereunder (relating to change in method), use a subsection (l) method of depreciation or, if the taxpayer uses the normalization method of accounting, any other method of depreciation otherwise allowable under section 167.

(1) *Election.* Under subparagraph (A) of section 167(l)(4), if the taxpayer so elects, the provisions of paragraph (2)(C) of section 167(l) shall not apply to its qualified public utility property (as such term is described in paragraph (b) of this section). In such case the taxpayer making the election shall use a method of depreciation prescribed by section 167(l)(2) (A) or (B) with respect to such property.

(2) *Property to which election shall apply.* (i) Except as provided in subdivision (ii) of this subparagraph the election provided by section 167(l)(4)(A) shall apply to all of the qualified public utility property of the taxpayer.

(ii) In the event that the taxpayer wishes the election provided by section 167(l)(4)(A) to apply to only a portion of its qualified public utility property, it must clearly identify the property to be subject to the election in the statement of election described in paragraph (e) of this section. Where all property which performs a certain function is included within the election, the election shall apply to all future acquisitions of qualified public utility property which perform the same function. Where only certain property within a functional group of property is included within the election, the election shall apply only to property which is of the same kind as the included property.

(iii) The provisions of subdivision (ii) of this subparagraph may be illustrated by the following examples:

Example (1). Corporation *A,* an electric utility company, wishes to have the election provided by section 167(l)(4)(A) apply only with respect to its production plant. A statement that the election shall apply only with respect to production plant will be sufficient to include within the election all of the taxpayer’s qualified production plant of any kind. All public utility property of the taxpayer other than production plant will not be subject to the election.

Example (2). Corporation *B,* an electric utility company, wishes to have the election provided by section 167(l)(4)(A) apply only with respect to nuclear production plant. A statement which clearly indicates that only nuclear production plant will be included in the election will be sufficient to exclude from the election all public utility property other than nuclear production plant.

(b) *Qualified public utility property*—(1) *Definition.* For purposes of this section the term ‘‘qualified public utility property’’ means post-1969 public utility property to which section 167(l)(2)(C) applies, or would apply if the election described in section 167(l)(4)(A) had not been made, to the extent that such property constitutes property which increases the productive or operational capacity of the taxpayer with respect to the goods or services described in section 167(l)(3)(A) and does not represent the replacement of existing capacity. In the event that particular assets which are post-1969 public utility property both replace existing public utility property and increase the productive or operational capacity of the taxpayer, only that portion of each such asset which is properly allocable, pursuant to the provisions of subparagraph (3)(v) of this paragraph or paragraph (c)(2) of this section (as the case may be), to increasing the productive or operational capacity of the taxpayer shall be qualified public utility property.

(2) *Limitation on use of formula method.* A taxpayer which makes the election with respect to all of its post-1969 public utility property may determine the amount of its qualified public utility property by using the formula method described in paragraph (c) of this section or, where the taxpayer so chooses, it may use any other method based on engineering data which is satisfactory to the Commissioner. A taxpayer which chooses to include only a portion of its post-1969 public utility property in the election described in paragraph (a)(1) of this section shall, in a manner satisfactory to the Commissioner and consistent with the provisions of subparagraph (3) of this paragraph, use a method based on engineering data. If a taxpayer uses the formula method described in paragraph (c) of this section, it must continue to use such method with respect to additions made in subsequent taxable years. The taxpayer may change from an engineering method to the formula method described in paragraph (c) of this section by filing a statement described in paragraph (h) of this section if it could have used such formula method for the prior taxable year.

(3) *Measuring capacity under an engineering method in the case of a general election.* (i) The provisions of this subparagraph apply in the case of an election made with respect to all of the post-1969 public utility property of the taxpayer.

(ii) A taxpayer which uses a method based on engineering data to determine the portion of its additions for a taxable year which constitutes qualified public utility property shall make such determination with reference to its ‘‘adjusted capacity’’ as of the first day of the taxable year during which such additions are placed in service. For purposes of this subparagraph, the term ‘‘adjusted capacity’’ means the taxpayer's capacity as of January 1, 1970, adjusted upward in the manner described in subdivision (iii) of this subparagraph for each taxable year ending after December 31, 1969, and before the first day of the taxable year during which the additions described in the preceding sentence are placed in service.

(iii) The adjustment described in this subdivision for each taxable year shall be equal to the number of units of capacity by which additions for the taxable year of public utility property with respect to which the election had been made exceed the number of units of capacity of retirements for such taxable year of public utility property with respect to which the flow-through method of accounting was being used at the time of their retirement. If for any taxable year the computation in the preceding sentence results in a negative amount, such negative amount shall be taken into account as a reduction in the amount of the adjustment (computed without regard to this sentence) in succeeding taxable years.

(iv) The provisions of this subparagraph may be illustrated by the following table which assumes that the taxpayer's adjusted capacity as of January 1, 1970, was 5,000 units:

1	2	3	4	5	6	7
Year	Additions	Flow-through retirements	Net additions	Adjusted capacity[1]	Actual capacity	Units of qualified additions[1][2]
1970	1000	700	300	5000	5300	300
1971	300	500	(200)	5300	5100	....
1972	500	200	300	5300	5400	100

1	2	3	4	5	6	7
Year	Additions	Flow-through retirements	Net additions	Adjusted capacity [1]	Actual capacity	Units of qualified additions [1] [2]
1973	400	800	(400)	5400	5000	
1974	600	400	200	5400	5200	
1975	800	300	500	5400	5700	300

[1] Capacity as of Jan. 1, 1970, plus amounts in column 7 for years prior to the year for which determination is being made.
[2] Column 6 minus column 5.

(v) The qualified portion of the basis for depreciation (as defined in section 167(g)) of each asset or group of assets (if group or composite accounting is used by the taxpayer) subject to the election shall be determined using the following ratio:

Qualified portion of basis of asset ÷ Total basis of asset = Units of qualified additions computed in column 7 on chart ÷ Units of capacity of additions computed in column 2 on chart.

(c) *Formula method of determining amount of property subject to election*—(1) *In general.* The following formula method may be used to determine the amount of qualified public utility property:

Step 1. Find the total cost (within the meaning of section 1012) to the taxpayer of additions during the taxable year of all post-1969 public utility property with respect to which section 167(l)(2)(C) would apply if the election had not been made.

Step 2. Aggregate the cost (within the meaning of section 1012) to the taxpayer of all retirements during the taxable year of public utility property with respect to which the flow-through method of accounting was being used at the time of their retirement.

Step 3. Subtract the figure reached in step 2 from the figure reached in step 1.

In the event that the figure reached in step 2 exceeds the figure reached in step 1 such excess shall be carried forward to the next taxable year and shall be aggregated with the cost (within the meaning of section 1012) to the taxpayer of all retirements referred to in step 2 for such next taxable year.

(2) *Allocation of bases.* The amount of qualified public utility property as determined in accordance with the formula method described in subparagraph (1) of this paragraph shall be allocated to the basis for depreciation (as defined in section 167(g)) of each asset or group of assets (if group or composite accounting is used by the taxpayer) subject to the election using the following ratio:

Amount of qualified additions computed in step 3 ÷ Amount of total additions computed in step 1 = Qualified portion of basis of asset ÷ Total basis of asset.

(d) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). Corporation *A*, a telephone company subject to the jurisdiction of the Federal Communications Commission, elected, pursuant to the provisions of section 167(l)(4)(A) and this section, with respect to all of its qualified post-1969 public utility property to have the provisions of paragraph (2) (C) of section 167(l) not apply. In 1971 the Corporation added new underground cable with a cost (within the meaning of section 1012) to it of $4 million to its underground cable account. In the same year it retired public utility property with a cost (within the meaning of section 1012) to Corporation *A* of $1.5 million. The flow-through method of accounting was being used with respect to all of the retired property at the time of retirement. Using the formula method described in paragraph (c) of this section, the amount of qualified underground cable would be determined as follows:

	Million
Step 1. Aggregate cost of flow-through additions	$4.0
Step 2. Cost of all flow-through retirements	1.5
Step 3. Figure reached in step 1 less figure reached in step 2	2.5

The amount of qualified public utility property to which section 167(l)(2)(C) will not apply is $2.5 million. Pursuant to the provisions of paragraph (c)(2) of this section, the amount of qualified public utility property would be allocated to the basis for depreciation (as defined in section 167(g)) of an asset with a total basis for depreciation of $2 million as follows:

$2.5 million (figure in step 3)/$4 million (figure in step 1) = Qualified portion of basis of asset/$2 million Qualified portion of basis of asset = $1.25 million.

Example (2). In 1972 Corporation *A* (the corporation described in example (1)) added underground cable with a cost (within the meaning of section 1012) to it of $1 million. In the same year the cost (within the meaning of section 1012) to the corporation of retirements of public utility property with respect to which the flow-through method of accounting was being used was $3 million. There were no other additions or retirements. The amount of qualified public utility property would be determined as follows:

	Million
Step 1. Aggregate cost of flow-through additions	$1.0
Step 2. Cost of all flow-through retirements	3.0
Step 3. Figure reached in step 1 less figure reached in step 2	(2.0)

Since retirements of flow-through public utility property for the year 1972 exceeded additions made during such year, the excess retirements, $2.0 million, must be carried forward to be aggregated with retirements for 1973.

Example (3). Corporation *B,* a gas pipeline company subject to the jurisdiction of the Federal Power Commission, made the election provided by section 167(l)(4)(A) and this section with respect to all of its post-1969 public utility property. Corporation *B* chose to use an engineering data method of determining which property was subject to the election provided by this section. In 1970, the corporation replaced a portion of its pipeline with respect to which the flow-through method of accounting was being used at the time of its retirement which had a peak capacity on January 1, 1970, of 100,000 thousand cubic feet (M c.f.) per day at a pressure of 14.73 pounds per square inch absolute (p.s.i.a.) with pipe with a capacity of 125,000 M c.f. per day at 14.73 p.s.i.a. Assuming that there were no other additions or retirements, using an engineering data method one-fifth of the new pipeline would be property subject to the election of this section effective for its taxable year beginning on January 1, 1971.

Example (4). In 1970 Corporation *C* (with the same characteristics as the corporation described in example (3)) extended its pipeline 5 miles further than it extended on January 1, 1970. Assuming that there were no other additions or retirements, the entire extension would be property subject to the election provided by this section effective for its taxable year beginning on January 1, 1971.

Example (5). As a result of a change of service areas between two corporations, in 1970 Corporation *D* (with the same characteristics as the corporation described in example (3)) retired a pipeline running north and south and replaced it with a pipeline of equal length and capacity running east and west. No part of the pipeline running east and west is property subject to the election.

(e) *Manner of making election.* The election described in paragraph (a) of this section shall be made by filing, in duplicate, with the Commissioner of Internal Revenue, Washington, D.C. 20224, Attention, T:I:E, a statement of such election.

(f) *Content of statement.* The statement described in paragraph (e) of this section shall indicate that an election is being made under section 167(l) of the Internal Revenue Code of 1954, and it shall contain the following information:

(1) The name, address, and taxpayer identification number of the taxpayer,

(2) Whether the taxpayer will use the formula method of determining the amount of its qualified public utility property described in paragraph (c) of this section, or an engineering method, and

(3) Where the taxpayer wishes to include only a portion of its public utility property in the election pursuant to the provisions of paragraph (a)(2) of this section, a description sufficient to clearly identify the property to be included.

(g) *Time for making election.* The election permitted by this section shall be made by filing the statement described in paragraph (e) of this section not later than Monday, June 29, 1970.

(h) *Change of method of determining amount of qualified property.* Where a taxpayer which has elected pursuant to the provisions of section 167(l)(4)(A) wishes to change, pursuant to the provisions of paragraph (b)(2) of this section, from an engineering data method of determining which of its property is qualified public utility property to the formula method described in paragraph (c) of this section, it may do so by filing a statement to that effect at the time that it files its income tax return, with the district director or director of the regional service center, with whom the taxpayer's income tax return is required to be filed.

(i) *Revocability of election.* An election made under section 167(l) shall be irrevocable.

(j) *Effective date.* The election prescribed by section 167(l)(4)(A) and this section shall be effective for taxable years beginning after December 31, 1970.

[T.D. 7045, 35 FR 8933, June 10, 1970. Redesignated by T.D. 7315, 39 FR 20195, June 7, 1974]

§ 1.167(l)–3 Multiple regulation, asset acquisitions, reorganizations, etc.

(a) *Property not entirely subject to jurisdiction of one regulatory body*—(1) *In general.* If a taxpayer which uses a method of depreciation other than a subsection (l) method of depreciation is required by a regulatory body having jurisdiction over less than all of its property to use, or not to use, a method of regulated accounting (i.e., normalization or flow-through), such taxpayer shall be considered as using, or not using, such method of regulated accounting only with respect to property subject to the jurisdiction of such regulatory body. In the case of property which is contained in a multiple asset account, the provisions of § 1.167(a)–7(c) and § 1.167 (a)–11(c)(1)(iv) apply to prohibit depreciating a single account by two or more different methods.

(2) *Jurisdiction of regulatory body.* For purposes of this paragraph, a regulatory body is considered to have jurisdiction over property of a taxpayer if expenses with respect to the property are included in cost of service as determined by the regulatory body for ratemaking purposes or for reflecting operating results in its regulated books of account. For example, if regulatory body A, having jurisdiction over 60 percent of an item of X corporation's public utility property, required X to use the flow-through method of regulated accounting in circumstances which would bar X from using a method of depreciation under section 167(a) other than a subsection (l) method, and if regulatory body B, having jurisdiction over the remaining 40 percent of such item of property does not so require X to use the flow-through method of regulated accounting (or if the remaining 40 percent is not subjectto the jurisdiction of any regulatory body), then with respect to 60 percent of the adjusted basis of the property X is prohibited from using a method of depreciation for purposes of section 167(a) other than a subsection (1) method. If in such example, A, having jurisdiction over 60 percent of X's public utility property, had jurisdiction over 100 percent of a particular generator, then with respect to the generator X would be prohibited from using a method of depreciation other than a subsection (l) method.

(3) *Public utility property subject to more than one regulatory body.* If a regulatory body having jurisdiction over public utility property with respect to the taxpayer's regulated books of account requires the taxpayer to reflect its tax expense in such books in the manner used by the regulatory body having jurisdiction over the public utility property for purposes of determining the taxpayer's cost of service for ratemaking purposes, the rules of subparagraphs (1) and (2) of this paragraph shall apply.

(b) *Leasing transactions*—(1) *Leased property.* Public utility property as defined in paragraph (b) of § 1.167(l)–1 includes property which is leased by a taxpayer where the leasing of such property is part of the lessor's section 167(l) public utility activity. Thus, such leased property qualifies as public utility property even though the predominant use of such property by the lessee is in other than a section 167(l) public utility activity. Further, leased property qualifies as public utility property under section 167(l) even though the leasing is not part of the lessor's public utility activity if the predominant use of such property by the lessee or any sublessee is in a section 167(l) public utility activity. However, the limitations of section 167(l) apply to a taxpayer only if such taxpayer is subject to the jurisdiction of a regulatory body described in a section 167(l)(3)(A). For example, if a financial institution purchases property which it then leases to a lessee which uses such property predominantly in a section 167(l) public utility activity, the property qualifies as public utility property. However, because the financial institution's rates for leasing the property are not subject to the jurisdiction of a regulatory body described in section 167(l)(3)(A), the provisions of section 167(l) do not apply to the depreciation deductions taken with respect to the property by the financial institution. For possible application of section 167(l) to the lessee, see subparagraph (2) of this paragraph.

(2) *Certain rental payments.* Under section 167(l)(5), if a taxpayer leases property which is public utility property and the regulatory body having jurisdiction over such property for purposes of determining the taxpayer's operating results in its regulated books of account or for ratemaking purposes allows only an amount of such lessee's expenses with respect to the lease which is less than the amount which the taxpayer deducts for purposes of its Federal income tax liability, then a portion of the difference between such amounts shall not be allowed as a deduction by the taxpayer for purposes of its Federal income tax liability in such manner and time as the Commissioner or his delegate may determine consistent with the principles of §1.167(l)–1 and this section applicable as to when a method of depreciation other than a subsection (1) method may be used for purposes of section 167(a).

(c) *Certain partnership arrangements.* Under section 167(l)(5), if property held by a partnership is not public utility property in the hands of the partnership but would be public utility property if an election was made under section 761 to be excluded from partnership treatment, then section 167(l) shall be applied by treating the partners as directly owning the property in proportion to their partnership interests.

(d) *Cross reference.* See §1.167(l)–1(c)(1) for treatment of certain property as ''pre-1970 public utility property'' and §1.167(l)–1(e)(4)(ii) for applicable 1968 method in the case of property acquired in certain transactions.

[T.D. 7315, 39 FR 20202, June 7, 1974]

§1.167(l)–4 Public utility property; election to use asset depreciation range system.

(a) *Application of section 167(l) to certain property subject to asset depreciation range system.* If the taxpayer elects to compute depreciation under the asset depreciation range system described in §1.167(a)–11 with respect to certain public utility property placed in service after December 31, 1970, see §1.167(a)–11(b) (6).

(Sec. 167 of the Internal Revenue Code of 1954 (26 U.S.C. 167) and sec. 7805 of the Internal Revenue Code of 1954 (26 U.S.C. 7805))

[T.D. 7128, 36 FR 11939, June 23, 1971. Redesignated by T.D. 7315, 39 FR 20203, June 7, 1974]

§1.167(m)–1 Class lives.

(a) For rules regarding the election to use the class life system authorized by section 167(m), see the provisions of §1.167(a)–11.

(Sec. 167(m), 85 Stat. 508 (26 U.S.C. 167))

[T.D. 7272, 38 FR 9986, Apr. 23, 1973]

§1.168–5 Special rules.

(a) *Retirement-replacement-betterment (RRB) property*—(1) *RRB replacement property placed in service before January 1, 1985.* (i) Except as provided in paragraph (a)(1)(ii) of this section, the recovery deduction for the taxable year for retirement-replacement-betterment (RRB) replacement property (as defined in paragraph (a)(3) of this section) placed in service before January 1, 1985, shall be (in lieu of the amount determined under section 168(b)) an amount determined by applying to the unadjusted basis (as defined in section 168(d)(1) and the regulations thereunder) of such property the applicable percentage determined in accordance with the following table:

If the recovery year is:	And the year the property is placed in service is:			
	1981	1982	1983	1984
	The applicable percentage is:			
1	100	50	33	25
2	....	50	45	38
3	....	....	22	25
4	....	....	....	12

(ii) The provisions of paragraph (a)(1)(i) of this section do not apply to any taxpayer who did not use the RRB method of depreciation under section 167 as of December 31, 1980. In such case, RRB replacement property placed in service by the taxpayer after December 31, 1980, shall be treated as other 5-year recovery property under section 168.

(2) *RRB replacement property placed in service after December 31, 1984.* RRB replacement property placed in service after December 31, 1984, is treated as other 5-year recovery property under section 168.

(3) *RRB replacement property defined.* RRB replacement property, for purposes of section 168, means replacement track material (including rail, ties, other track material, and ballast) installed by a railroad (including a railroad switching or terminal company) if—

(i) The replacement is made pursuant to a scheduled program for replacement.

(ii) The replacement is made pursuant to observations by maintenance-of-way personnel of specific track material needing replacement.

(iii) The replacement is made pursuant to the detection by a rail-test car of specific track material needing replacement, or

(iv) The replacement is made as a result of a casualty.

Replacements made as a result of a casualty shall be RRB replacement property only to the extent that, in the case of each casualty, the replacement cost with respect to the replacement track material exceeds $50,000.

(4) *Recovery of adjusted basis of RRB property as of December 31, 1980.* The taxpayer shall recover the adjusted basis of RRB property (as defined in section 168(g)(6)) as of December 31, 1980, over a period of not less than 5 years and not more than 50 years, using a rate of recovery consistent with any method described in section 167(b), including the method described in section 167(b)(2), switching to the method described in section 167(b)(3) at a time to maximize the deduction. For purposes of determining the recovery allowance under this subparagraph, salvage value shall be disregarded and, in the case of a taxpayer that depreciated RRB property placed in service before January 1, 1981, using the RRB method consistently for all periods after February 28, 1913, the adjusted basis of RRB property is the adjusted basis for purposes of determining the deduction for retirements under the RRB method, with no adjustment for depreciation sustained prior to March 1, 1913.

(5) *RRB property (which is not RRB replacement property) placed in service after December 31, 1980.* Property placed in service by the taxpayer after December 31, 1980, which is not RRB replacement property and which, under the taxpayer's method of depreciation as of December 31, 1980, would have been depreciated by the taxpayer under the RRB method, is treated as other property under section 168.

(b)–(f) [Reserved]

[T.D. 8116, 51 FR 46619, Dec. 24, 1986]

§ 1.168(d)–0 Table of contents for the applicable convention rules.

This section lists the major paragraphs in § 1.168(d)–1.

§ 1.168(d)–1 Applicable conventions—Half-year and mid-quarter conventions.

(a) In general.
(b) Additional rules for determining whether the mid-quarter convention applies and for applying the applicable convention.
(1) Property described in section 168(f).
(2) Listed property.
(3) Property placed in service and disposed of in the same taxable year.
(4) Aggregate basis of property.
(5) Special rules for affiliated groups.
(6) Special rule for partnerships and S corporations.
(7) Certain nonrecognition transactions.
(c) Disposition of property subject to the half-year or mid-quarter convention.
(1) In general.
(2) Example.
(d) Effective date.

[T.D. 8444, 57 FR 48981, Oct. 29, 1992]

§ 1.168(d)–1 Applicable convention—Half-year and mid-quarter conventions.

(a) *In general.* Under section 168(d), the half-year convention applies to depreciable property (other than certain real property described in section 168(d)(2)) placed in service during a taxable year, unless the mid-quarter convention applies to the property. Under section 168(d)(3)(A), the mid-quarter convention applies to depreciable property (other than certain real property described in section 168(d)(2)) placed in service during a taxable year if the aggregate basis of property placed in service during the last three months of the taxable year exceeds 40 percent of the aggregate basis of property placed in service during the taxable year (''the

40-percent test''). Thus, if the depreciable property is placed in service during a taxable year that consists of three months or less, the mid-quarter convention applies to the property. Under section 168(d)(3)(b)(i), the depreciable basis of nonresidential real property, residential rental property, and any railroad grading or tunnel bore is disregarded in applying the 40-percent test. For rules regarding property that is placed in service and disposed of in the same taxable year, see paragraph (b)(3) of this section. For the definition of ''aggregate basis of property,'' see paragraph (b)(4) if this section.

(b) *Additional rules for determining whether the mid-quarter convention applies and for applying the applicable convention*—(1) *Property described in section 168(f).* In determining whether the 40-percent test is testified for a taxable year, the depreciable basis of property described in section 168(f) (property to which section 168 does not apply) is not taken into account.

(2) *Listed property.* The depreciable basis of listed property (as defined in section 280F(d)(4) and the regulations thereunder) placed in service during a taxable year is taken into account (unless otherwise excluded) in applying the 40-percent test.

(3) *Property placed in service and disposed of in the same taxable year*—(i) Under section 168(d)(3)(B)(ii), the depreciable basis of property placed in service and disposed of in the same taxable year is not taken into account in determining whether the 40-percent test is satisfied. However, the depreciable basis of property placed in service, disposed of, subsequently reacquired, and again placed in service in the same taxable year must be taken into account in applying the 40-percent test, but the basis of the property is only taken into account on the later of the dates that the property is placed in service during the taxable year.

(ii) The applicable convention, as determined under this section, applies to all depreciable property (except nonresidential real property, residential rental property, and any railroad grading or tunnel bore) placed in service during the taxable year, excluding property placed in service and disposed of in the same taxable year. No depreciation deduction is allowed for property placed in service and disposed of during the same taxable year.

(iii) The provisions of this paragraph (b)(3) are illustrated by the following examples.

Example 1. During 1990, A, a calendar-year taxpayer, purchases a light general purpose truck costing $8,000, an office desk costing $500, a safe costing $1,000, and a computer costing $3,000. The truck is placed in service in January, the desk and safe in August, and the computer in November. These are the only items placed in service during 1990. In September, A sells the truck and the desk. Thus, the truck and the desk were placed in service and disposed of in the same taxable year. Therefore, the depreciable basis of the truck and the desk are not taken into account in determining whether the mid-quarter convention applies to depreciable property placed in service during 1990. Because the computer was placed in service during the last three months of the taxable year and its basis ($3,000) exceeds 40 percent of the aggregate basis of depreciable property placed in service during the taxable year (safe and computer with an aggregate basis of $4,000), the mid-quarter convention applies to the safe and the computer. No depreciation is allowed with respect to the truck and desk because they were placed in service and disposed of in the same taxable year.

EXAMPLE 2. The facts are the same as in EXAMPLE 1, except that, in December, A reacquires the truck for $7,000. Thus, the truck is considered placed in service in December and its basis is included in determining whether the mid-quarter convention applies. The mid-quarter convention is applicable, because the computer ($3,000) and the truck ($7,000) are placed in service during the last three months of the taxable year and their aggregate basis ($10,000) exceeds 40 percent of the aggregate basis of property placed in service during the taxable year (safe, computer, and truck with an aggregate basis of $11,000).

(4) *Aggregate basis of property.* For purposes of the 40-percent test, the term ''aggregate basis of property'' means the sum of the depreciable bases of all items of depreciable property that are taken into account in applying the 40-percent test. ''Depreciable basis'' means the basis of depreciable property for purposes of determining gain under sections 1011 through 1024. The depreciable basis for the taxable year the property is placed in service reflects the reduction in basis for—

(i) Any portion of the basis the taxpayer properly elects to treat as an expense under section 179;

(ii) Any adjustment to basis under section 48(q); and

(iii) The percentage of the taxpayer's use of the property for the taxable year other than in the taxpayer's trade or business (or for the production of income), but is determined before any reduction for depreciation under section 167(a) for that taxable year.

(5) *Special rules for affiliated groups*—(i) In the case of a consolidated group (as defined in § 1.1502–1(h)), all members of the group that are included on the consolidated return are treated as one taxpayer for purposes of applying the 40-percent test. Thus, the depreciable bases of all property placed in service by members of a consolidated group during a consolidated return year are taken into account (unless otherwise excluded) in applying the 40-percent test to determine whether the mid-quarter convention applies to property placed in service by the members during the consolidated return year. The 40-percent test is applied separately to the depreciable bases of property placed in service by any member of an affiliated group that is not included in a consolidated return of the taxable year in which the property is placed in service.

(ii) In the case of a corporation formed by a member or members of a consolidated group and that is itself a member of the consolidated group (''newly-formed subsidiary''), the depreciable bases of property placed in service by the newly-formed subsidiary in the consolidated return year in which it is formed is included with the depreciable bases of property placed in service during the consolidated return year by the other members of the consolidated group in applying the 40-percent test. If depreciable property is placed in service by a newly-formed subsidiary during the consolidated return year in which it was formed, the newly-formed subsidiary is considered as being in existence for the entire consolidated return year for purposes of applying the applicable convention to determine when the recovery period begins.

(iii) The provisions of paragraph (b)(5)(ii) of this section are illustrated by the following example.

Example. Assume a member of a consolidated group that files its return on a calendar-year basis forms a subsidiary on August 1. The subsidiary places depreciable property in service on August 5. If the mid-quarter convention applies to property placed in service by the members of the consolidated group (including the newly-formed subsidiary), the property placed in service by the subsidiary on August 5 is deemed placed in service on the mid-point of the third quarter of the consolidated return year (*i.e.*, August 15). If the mid-quarter convention does not apply, the property is deemed placed in service on the mid-point of the consolidated return year (*i.e.*, July 1).

(iv) In the case of a corporation that joins or leaves a consolidated group, the depreciable bases of property placed in service by the corporation joining or leaving the group during the portion of the consolidated return year that the corporation is a member of the consolidated group is included with the depreciable bases of property placed in service during the consolidated return year by the other members in applying the 40-percent test. The depreciable bases of property placed in service by the joining or leaving member in the taxable year before it joins or after it leaves the consolidated group is not taken into account by the consolidated group in applying the 40-percent test for the consolidated return year. If a corporation leaves a consolidated group and joins another consolidated group, each consolidated group takes into account, in applying the 40-percent test, the depreciable bases of property placed in service by the corporation while a member of the group.

(v) The provisions of paragraph (b)(5)(iv) of this section are illustrated by the following example.

Example. Assume Corporations A and B file a consolidated return on a calendar-year basis. Corporation C, also a calendar-year taxpayer, enters the consolidated group on July 1 and is included on the consolidated return for that taxable year. The depreciable bases of property placed in service by C during the period of July 1 to December 31 is included with the depreciable bases of property placed in service by A and B during the entire consolidated return year in applying the 40-percent test. The depreciable bases of property placed in service by C from January 1 to June 30 is not taken into account by the consolidated group in applying the 40-percent test. If C was a member of another consolidated group during the period from January 1 to June 30, that consolidated group would include the depreciable bases of property placed in service by C during that period.

(vi) A corporation that joins or leaves a consolidated group during a consolidated year is considered as being a member of the consolidated group for the entire consolidated return year for purposes of applying the applicable convention to determine when the recovery period begins for depreciable property placed in service by the corporation during the portion of the consolidated return year that the corporation is a member of the group.

(vii) If depreciable property is placed in service by a corporation in the taxable year ending immediately before it joins a consolidated group or beginning immediately after it leaves a consolidated group, the applicable convention is applied to the property under either the full taxable year rules or the short taxable year rules, as applicable.

(viii) The provisions of paragraphs (d)(5)(vi) and (vii) of this section are illustrated by the following example.

Example. Assume that on July 1, C, a calendar-return corporation, joins a consolidated group that files a return on a calendar-year basis. The short taxable year rules apply to C for the period of January 1 to June 30. However, in applying the applicable convention to determine when the recovery period begins for depreciable property placed in service for the period of July 1 to December 31, C is considered as being a member of the consolidated group for the entire consolidated return year. Thus, if the half-year convention applies to depreciable property placed in service by the consolidated group (taking into account the depreciable bases of property placed in service by C after June 30), the property is deemed placed in service on the mid-point of the consolidated return year (*i.e.,* July 1, if the group did not have a short taxable year).

(ix) In the case of a transfer of depreciable property between members of a consolidated group, the following special rules apply for purposes of applying the 40-percent test. Property that is placed in service by one member of a consolidated group and transferred to another member of the same group is considered as placed in service on the date that it is placed in service by the transferor member, and the date it is placed in service by the transferee member is disregarded. In the case of multiple transfers of property between members of a consolidated group, the property is considered as placed in service on the date that the first member places the property in service, and the dates it is placed in service by other members are disregarded. The depreciable basis of the transferred property that is taken into account in applying the 40-percent test is the depreciable basis of the property in the hands of the transferor member (as determined under paragraph (b)(4) of this section), or, in the case of multiple transfers of property between members, the depreciable basis in the hands of the first member that placed the property in service.

(x) The provisions of paragraph (b)(5)(ix) of this section are illustrated by the following example.

Example. Assume the ABC consolidated group files its return on a calendar-year basis. A, a member of the consolidated group, purchases depreciable property costing $50,000 and places the property in service on January 5, 1991. On December 1, 1991, the property is transferred for $75,000 to B, another member of the consolidated group. In applying the 40-percent test to the members of the consolidated group for 1991, the property is considered as placed in service on January 5, the date that A placed the property in service, and the depreciable basis of the property that is taken into account is $50,000.

(6) *Special rule for partnerships and S corporations.* In the case of property placed in service by a partnership or an S corporation, the 40-percent test is generally applied at the partnership or corporate level. However, if a partnership or an S corporation is formed or availed of for the principal purpose of either avoiding the application of the mid-quarter convention or having the mid-quarter convention apply where it otherwise would not, the 40-percent test is applied at the partner, shareholder, or other appropriate level.

(7) *Certain nonrecognition transaction*—(i) Except as provided in paragraph (b)(6) of this section, if depreciable property is transferred in a transaction described in section

168(i)(7)(B)(i) (other than in a transaction between members of a consolidated group) in the same taxable year that the property is placed in service by the transferor, the 40-percent test is applied by treating the transferred property as placed in service by the transferee on the date of transfer. Thus, if the aggregate basis of property (including the transferred property) placed in service by the transferee during the last three months of its taxable year exceeds 40 percent of the aggregate basis of property (including the transferred property) placed in service by the transferee during the taxable year, the mid-quarter convention applies to the transferee's depreciable property, including the transferred property. The depreciable basis of the transferred property is not taken into account by the transferor in applying the 40-percent test for the taxable year that the transferor placed the property in service.

(ii) In applying the applicable convention to determine when the recovery period for the transferred property begins, the date on which the transferor placed the property in service must be used. Thus, for example, if the mid-quarter convention applies, the recovery period for the transferred property begins on the mid-point of the quarter of the taxable year that the transferor placed the property in service. If the transferor placed the transferred property in service in a short taxable year, then for purposes of applying the applicable convention and allocating the depreciation deduction between the transferor and the transferee, the transferor is treated as having a full 12-month taxable year commencing on the first day of the short taxable year. The depreciation deduction for the transferor's taxable year in which the property was placed in service is allocated between the transferor and the transferee based on the number of months in the transferor's taxable year that each partyheld the property in service. For purposes of allocating the depreciation deduction, the transferor takes into account the month in which the property was placed in service but does not take into account the month in which the property was transferred. The transferee is allocated the remaining portion of the depreciation deduction for the transferor's taxable year in which the property was transferred. For the remainder of the transferee's current taxable year (if the transferee has a different taxable year than the transferor) and for subsequent taxable years, the depreciation deduction for the transferee is calculated by allocating to the transferee's taxable year the depreciation attributable to each recovery year, or portion thereof, that falls within the transferee's taxable year.

(iii) If the applicable convention for the transferred property has not been determined by the time the transferor files its income tax return for the year of transfer because the transferee's taxable year has not ended, the transferor may use either the mid-quarter or the half-year convention in determining the depreciation deduction for the property. However, the transferor must specify on the depreciation form filed for the taxable year that the applicable convention has not been determined for the property. If the transferee determines that a different convention applies to the transferred property, the transferor should redetermine the depreciation deduction on the property, and, within the period of limitation, should file an amended income tax return for the taxable year and pay any additional tax due plus interest.

(iv) The provisions of the paragraph (b)(7) are illustrated by the following example.

Example. (i) During 1991, C, a calendar-year taxpayer, purchases satellite equipment costing $100,000, and computer equipment costing $15,000. The satellite equipment is placed in service in January, and the computer equipment in February. On October 1, C transfers the computer equipment to Z Partnership in a transaction described in section 721. During 1991, Z, a calendar-year partnership, purchases 30 office desks for a total of $15,000. The desks are placed in service in June. These are the only items of depreciable property placed in service by C and Z during 1991.

(ii) In applying the 40-percent test, because C transferred the computer equipment in a transaction described in section 168(i)(7)(B)(i) in the same taxable year that C placed it in service, the computer equipment is treated as placed in service by the transferee, Z, on the date of transfer, October 1. The 40-percent test is satisfied with respect to Z, because the computer equipment is placed in service during the last three months of Z's taxable year and its basis ($15,000) exceeds 40 percent of the aggregate basis of property placed in service by Z during the taxable year (desks and computer equipment with an aggregate basis of $30,000).

(iii) In applying the mid-quarter convention to determine when the computer equipment is deemed to be placed in service, the date on which C placed the property in service is used. Accordingly, because C placed the computer equipment in service during the first quarter of its taxable year, the computer equipment is deemed placed in service on February 15, 1991, the mid-point of the first quarter of C's taxable year. The depreciation deduction allowable for C's 1991 taxable year, $5,250 ($15,000×40 percent×10.5/12), is allocated between C and Z based on the number of months in C's taxable year that C and Z held the property in service. Thus, because the property was in service for 11 months during C's 1991 taxable year and C held it for 8 of those 11 months, C is allocated $3,818 (8/11×$5,250). Z is allocated $1,432, the remaining 3/11 of the $5,250 depreciation deduction for C's 1991 taxable year. For 1992, Z's depreciation deduction for the computer equipment is $3,900, the sum of the remaining 1.5 months of depreciation deduction for the first recovery year and 10.5 months of depreciation deduction for the second recovery year (($15,000×40 percent×1.5/12)+($9,000×40 [percent×10.5/12)).

(c) *Disposition of property subject to the half-year or mid-quarter convention*—(1) *In general.* If depreciable property is subject to the half-year (or mid-quarter) convention in the taxable year in which it is placed in service, it also is subject to the half-year (or mid-quarter) convention in the taxable year in which it is disposed of.

(2) *Example.* The provisions of paragraph (c)(1) of this section are illustrated by the following example.

Example. In October 1991, B, a calendar-year taxpayer, purchases and places in service a light general purpose truck costing $10,000. B does not elect to expense any part of the cost of the truck, and this is the only item of depreciable property placed in service by B during 1991. The 40-percent test is satisfied and the mid-quarter convention applies, because the truck is placed in service during the last three months of the taxable year and no other assets are placed in service in that year. In April 1993 (prior to the end of the truck's recovery period), B sells the truck. The mid-quarter convention applies in determining the depreciation deduction for the truck in 1993, the year of disposition.

(d) *Effective date.* This section applies to depreciable property placed in service in taxable years ending after January 30, 1991. For depreciable property placed in service after December 31, 1986, in taxable years ending on or before January 30, 1991, a taxpayer may use a method other than the method provided in this section in applying the 40-percent test and the applicable convention, provided the method is reasonable and is consistently applied to the taxpayer's property.

[T.D. 8444, 57 FR 48981, Oct. 29, 1992]

§ 1.168(f)(8)–1T Safe-harbor lease information returns concerning qualified mass commuting vehicles (temporary).

In general. Form 6793, Safe Harbor Lease Information Return, is obsolete for safe harbor lease agreements executed after June 30, 1985. The parties to a safe harbor lease agreement under section 168(f)(8) executed after June 30, 1985 must file with their timely filed (including extensions) Federal income tax returns for the taxable year during which the lease term begins a statement containing the following information:

(a) The name, address, and taxpayer identification number of the lessor and the lessee;

(b) A description of the property with respect to which safe-harbor lease treatment is claimed;

(c) The date on which the lessee places the property in service, the date on which the lease begins, and the term of the lease;

(d) The recovery property class of the leased property under section 168(c)(2) (for example, 5-year);

(e) The terms of the payments between the parties to the lease transaction;

(f) The unadjusted basis of the property as defined in section 168(d)(1) and its adjusted basis as determined under § 5c.168(f)(8)–6(b)(3); and

(g) If the lessor is a partnership or grantor trust, the name, address, and taxpayer identification number of the partners or beneficiaries and the service center at which the income tax return of each partner or beneficiary is filed.

The lessor's failure to file the above-described statement shall void such agreement as a safe-harbor lease under section 168(f)(8) as of the date of the execution of the lease agreement. For rules regarding extensions of time for filing elections, see § 1.9100–1.

[T.D. 8033, 50 FR 27224, July 2, 1985]

§ 1.168(h)–1 Like-kind exchanges involving tax-exempt use property.

(a) *Scope.* (1) This section applies with respect to a direct or indirect transfer of property among related persons, including transfers made through a qualified intermediary (as defined in § 1.1031(k)–1(g)(4)) or other unrelated person, (a transfer) if—

(i) Section 1031 applies to any party to the transfer or to any related transaction; and

(ii) A principal purpose of the transfer or any related transaction is to avoid or limit the application of the alternative depreciation system (within the meaning of section 168(g)).

(2) For purposes of this section, a person is related to another person if they bear a relationship specified in section 267(b) or section 707(b)(1).

(b) *Allowable depreciation deduction for property subject to this section*—(1) *In general.* Property (tainted property) transferred directly or indirectly to a taxpayer by a related person (related party) as part of, or in connection with, a transaction in which the related party receives tax-exempt use property (related tax-exempt use property) will, if the tainted property is subject to an allowance for depreciation, be treated in the same manner as the related tax-exempt use property for purposes of determining the allowable depreciation deduction under section 167(a). Under this paragraph (b), the tainted property is depreciated by the taxpayer over the remaining recovery period of, and using the same depreciation method and convention as that of, the related tax-exempt use property.

(2) *Limitations*—(i) *Taxpayer's basis in related tax-exempt use property.* The rules of this paragraph (b) apply only with respect to so much of the taxpayer's basis in the tainted property as does not exceed the taxpayer's adjusted basis in the related tax-exempt use property prior to the transfer. Any excess of the taxpayer's basis in the tainted property over its adjusted basis in the related tax-exempt use property prior to the transfer is treated as property to which this section does not apply. This paragraph (b)(2)(i) does not apply if the related tax-exempt use property is not acquired from the taxpayer (e.g., if the taxpayer acquires the tainted property for cash but section 1031 nevertheless applies to the related party because the transfer involves a qualified intermediary).

(ii) *Application of section 168(i)(7).* This section does not apply to so much of the taxpayer's basis in the tainted property as is subject to section 168(i)(7).

(c) *Related tax-exempt use property.* (1) For purposes of paragraph (b) of this section, related tax-exempt use property includes—

(i) Property that is tax-exempt use property (as defined in section 168(h)) at the time of the transfer; and

(ii) Property that does not become tax-exempt use property until after the transfer if, at the time of the transfer, it was intended that the property become tax-exempt use property.

(2) For purposes of determining the remaining recovery period of the related tax-exempt use property in the circumstances described in paragraph (c)(1)(ii) of this section, the related tax-exempt use property will be treated as having, prior to the transfer, a lease term equal to the term of any lease that causes such property to become tax-exempt use property.

(d) *Examples.* The following examples illustrate the application of this section. The examples do not address common law doctrines or other authorities that may apply to recharacterize or alter the effects of the transactions described therein. Unless otherwise indicated, parties to the transactions are not related to one another.

Example 1. (i) X owns all of the stock of two subsidiaries, B and Z. X, B and Z do not file a consolidated federal income tax return. On May 5, 1995, B purchases an aircraft (*FA*) for $1 million and leases it to a foreign airline whose income is not subject to United States taxation and which is a tax-exempt entity as defined in section 168(h)(2). On the same date, Z owns an aircraft (*DA*) with a fair market value of $1 million, which has been, and continues to be, leased to an airline that is a United States taxpayer. Z's adjusted basis in DA is $0. The next day, at a time when each aircraft is still worth $1 million, B transfers FA to Z (subject to the lease to the foreign airline) in exchange for DA (subject to the lease to the airline that is a United States taxpayer). Z realizes gain of $1 million on the exchange, but that gain is not recognized pursuant to section 1031(a) because the exchange is of like-kind properties. Assume that a principal purpose of the transfer of DA to B or of FA to Z is to avoid the application of the alternative depreciation system. Following the exchange, Z has a $0 basis in FA pursuant to section 1031(d). B has a $1 million basis in DA.

(ii) B has acquired property from Z, a related person; Z's gain is not recognized pursuant to section 1031(a); Z has received tax-exempt use property as part of the transaction; and a principal purpose of the transfer of DA to B or of FA to Z is to avoid the application of the alternative depreciation system. Accordingly, the transaction is within the scope of this section. Pursuant to paragraph (b) of this section, B must recover its $1 million basis in DA over the remaining recovery period of, and using the same depreciation method and convention as that of, FA, the related tax-exempt use property.

(iii) If FA did not become tax-exempt use property until after the exchange, it would still be related tax-exempt use property and paragraph (b) of this section would apply if, at the time of the exchange, it was intended that FA become tax-exempt use property.

Example 2. (i) X owns all of the stock of two subsidiaries, B and Z. X, B and Z do not file a consolidated federal income tax return. B and Z each own identical aircraft. B's aircraft (*FA*) is leased to a tax-exempt entity as defined in section 168(h)(2) and has a fair market value of $1 million and an adjusted basis of $500,000. Z's aircraft (*DA*) is leased to a United States taxpayer and has a fair market value of $1 million and an adjusted basis of $10,000. On May 1, 1995, B and Z exchange aircraft, subject to their respective leases. B realizes gain of $500,000 and Z realizes gain of $990,000, but neither person recognizes gain because of the operation of section 1031(a). Moreover, assume that a principal purpose of the transfer of DA to B or of FA to Z is to avoid the application of the alternative depreciation system.

(ii) As in *Example 1,* B has acquired property from Z, a related person; Z's gain is not recognized pursuant to section 1031(a); Z has received tax-exempt use property as part of the transaction; and a principal purpose of the transfer of DA to B or of FA to Z is to avoid the application of the alternative depreciation system. Thus, the transaction is within the scope of this section even though B has held tax-exempt use property for a period of time and, during that time, has used the alternative depreciation system with respect to such property. Pursuant to paragraph (b) of this section, B, which has a substituted basis determined pursuant to section 1031(d) of $500,000 in DA, must depreciate the aircraft over the remaining recovery period of FA, using the same depreciation method and convention. Z holds tax-exempt use property with a basis of $10,000, which must be depreciated under the alternative depreciation system.

(iii) Assume the same facts as in paragraph (i) of this *Example 2,* except that B and Z are members of an affiliated group that files a consolidated federal income tax return. Of B's $500,000 basis in DA, $10,000 is subject to section 168(i)(7) and therefore not subject to this section. The remaining $490,000 of basis is subject to this section. But see §1.1502–80(f) making section 1031 inapplicable to intercompany transactions occurring in consolidated return years beginning on or after July 12, 1995.

(e) *Effective date.* This section applies to transfers made on or after April 20, 1995.

[T.D. 8667, 61 FR 18676, Apr. 29, 1996]

§1.168(i)–0 Table of contents for the general asset account rules.

This section lists the major paragraphs contained in §1.168(i)–1.

§1.168(i)–1 General asset accounts.

(a) Scope.
(b) Definitions.
(1) Unadjusted depreciable basis.
(2) Unadjusted depreciable basis of the general asset account.
(3) Adjusted depreciable basis of the general asset account.
(4) Expensed cost.
(c) Establishment of general asset accounts.
(1) Assets eligible for general asset accounts.
(i) General rules.
(ii) Special rules for assets generating foreign source income.
(2) Grouping assets in general asset accounts.
(i) General rules.
(ii) Special rules.
(d) Determination of depreciation allowance.
(1) In general.
(2) Special rule for passenger automobiles.
(e) Disposition of an asset from a general asset account.
(1) Scope.

(2) General rules for a disposition.
(i) No immediate recovery of basis.
(ii) Treatment of amount realized.
(iii) Effect of disposition on a general asset account.
(iv) Coordination with nonrecognition provisions.
(v) Examples.
(3) Special rules.
(i) In general.
(ii) Disposition of all assets remaining in a general asset account.
(iii) Disposition of an asset in a qualifying disposition.
(iv) Transactions subject to section 168(i)(7).
(v) Anti-abuse rule.
(f) Assets generating foreign source income.
(1) In general.
(2) Source of ordinary income, gain, or loss.
(i) Source determined by allocation and apportionment of depreciation allowed.
(ii) Formula for determining foreign source income, gain, or loss.
(3) Section 904(d) separate categories.
(g) Assets subject to recapture.
(h) Changes in use.
(1) Conversion to personal use.
(2) Other changes in use.
(i) Identification of disposed or converted asset.
(j) Effect of adjustments on prior dispositions.
(k) Election.
(1) Irrevocable election.
(2) Time for making election.
(3) Manner of making election.
(l) Effective date.

[T.D. 8566, 59 FR 51371, Oct. 11, 1994]

§ 1.168(i)–1 General asset accounts.

(a) *Scope.* This section provides rules for general asset accounts under section 168(i)(4). The provisions of this section apply only to assets for which an election has been made under paragraph (k) of this section.

(b) *Definitions.* For purposes of this section, the following definitions apply:

(1) *Unadjusted depreciable basis* is the basis of an asset for purposes of section 1011 without regard to any adjustments described in sections 1016(a)(2) and (3).

(2) *Unadjusted depreciable basis of the general asset account* is the sum of the unadjusted depreciable bases of all assets included in the general asset account.

(3) *Adjusted depreciable basis of the general asset account* is the unadjusted depreciable basis of the general asset account less the adjustments to basis described in sections 1016(a)(2) and (3).

(4) *Expensed cost* is the amount of any allowable credit or deduction treated as a deduction allowable for depreciation or amortization for purposes of section 1245 (for example, a credit allowable under section 30 or a deduction allowable under section 179, 179A, or 190).

(c) *Establishment of general asset accounts*—(1) *Assets eligible for general asset accounts*—(i) *General rules.* Assets that are subject to either the general depreciation system of section 168(a) or the alternative depreciation system of section 168(g) may be accounted for in one or more general asset accounts. An asset may be included in a general asset account only to the extent of the asset's unadjusted depreciable basis (for example, if, in 1995, a taxpayer places in service an asset that costs $20,000 and elects under section 179 to expense $17,500 of that asset's cost, the unadjusted depreciable basis of the asset is $2,500 and, therefore, only $2,500 of the asset's cost may be included in a general asset account). However, an asset is not to be included in a general asset account if the asset is used both in a trade or business (or for the production of income) and in a personal activity at any time during the taxable year in which the asset is first placed in service by the taxpayer.

(ii) *Special rules for assets generating foreign source income*—(A) Assets that generate foreign source income, both United States and foreign source income, or combined gross income of a FSC (as defined in section 922), DISC (as defined in section 992(a)), or possessions corporation (as defined in section 936) and its related supplier, may be included in a general asset account if the requirements of paragraph (c)(2)(i) of this section are satisfied. If, however, the inclusion of these assets in a general asset account results in a substantial distortion of income, the Commissioner may disregard the general asset account election and make any reallocations of income or expense necessary to clearly reflect income.

(B) A general asset account shall be treated as a single asset for purposes of applying the rules in § 1.861- 9T(g)(3) (relating to allocation and apportionment of interest expense under the asset method). A general asset account that generates income in more than one grouping of income (statutory and residual) is a multiple category asset (as defined in §1.861–9T(g)(3)(ii)), and the income yield from the general asset account must be determined by applying the rules for multiple category assets as if the general asset account were a single asset.

(2) *Grouping assets in general asset accounts*—(i) *General rules.* If a taxpayer makes the election under paragraph (k) of this section, assets that are subject to the election are grouped into one or more general asset accounts. Assets that are eligible to be grouped into a single general asset account may be divided into more than one general asset account. Each general asset account must include only assets that—

(A) Have the same asset class (for further guidance, see Rev. Proc. 87–56, 1987–2 C.B. 674, and §601.601(d)(2)(ii)(*b*) of this chapter);

(B) Have the same applicable depreciation method;

(C) Have the same applicable recovery period;

(D) Have the same applicable convention; and

(E) Are placed in service by the taxpayer in the same taxable year.

(ii) *Special rules.* In addition to the general rules in paragraph (c)(2)(i) of this section, the following rules apply when establishing general asset accounts—

(A) Assets without an asset class, but with the same characteristics described in paragraphs (c)(2)(i)(B), (C), (D), and (E) of this section, may be grouped into a general asset account;

(B) Assets subject to the mid-quarter convention may only be grouped into a general asset account with assets that are placed in service in the same quarter of the taxable year;

(C) Assets subject to the mid-month convention may only be grouped into a general asset account with assets that are placed in service in the same month of the taxable year; and

(D) Passenger automobiles for which the depreciation allowance is limited under section 280F(a) must be grouped into a separate general asset account.

(d) *Determination of depreciation allowance*—(1) *In general.* Depreciation allowances are determined for each general asset account by using the applicable depreciation method, recovery period, and convention for the assets in the account. The depreciation allowances are recorded in a depreciation reserve account for each general asset account. The allowance for depreciation under this section constitutes the amount of depreciation allowable under section 167(a).

(2) *Special rule for passenger automobiles.* For purposes of applying section 280F(a), the depreciation allowance for a general asset account established for passenger automobiles is limited for each taxable year to the amount prescribed in section 280F(a) multiplied by the excess of the number of automobiles originally included in the account over the number of automobiles disposed of during the taxable year or in any prior taxable year in a transaction described in paragraph (e)(3)(iii) (disposition of an asset in a qualifying disposition), (e)(3)(iv) (transactions subject to section 168(i)(7)), (e)(3)(v) (anti-abuse rule), (g) (assets subject to recapture), or (h)(1) (conversion to personal use) of this section.

(e) *Disposition of an asset from a general asset account*—(1) *Scope.* This paragraph (e) provides rules applicable to dispositions of assets included in a general asset account. For purposes of this paragraph (e), an asset in a general asset account is disposed of when ownership of the asset is transferred or when the asset is permanently withdrawn from use either in the taxpayer's trade or business or in the production of income. A disposition includes the sale, exchange, retirement, physical abandonment, or destruction of an asset. A disposition also occurs when an asset is transferred to a supplies, scrap, or similar account. A disposition does not include, however, the retirement of a structural component of real property.

(2) *General rules for a disposition*—(i) *No immediate recovery of basis.* Immediately before a disposition of any asset in a general asset account, the asset is treated as having an adjusted basis of zero for purposes of section 1011. Therefore, no loss is realized upon

the disposition of an asset from the general asset account. Similarly, where an asset is disposed of by transfer to a supplies, scrap, or similar account, the basis of the asset in the supplies, scrap, or similar account will be zero.

(ii) *Treatment of amount realized.* Any amount realized on a disposition is recognized as ordinary income (notwithstanding any other provision of subtitle A of the Internal Revenue Code (Code)) to the extent the sum of the unadjusted depreciable basis of the general asset account and any expensed cost (as defined in paragraph (b)(4) of this section) for assets in the account exceeds any amounts previously recognized as ordinary income upon the disposition of other assets in the account. The recognition and character of any excess amount realized are determined under other applicable provisions of the Code (other than sections 1245 and 1250 or provisions of the Code that treat gain on a disposition as subject to section 1245 or 1250).

(iii) *Effect of disposition on a general asset account.* The unadjusted depreciable basis and the depreciation reserve of the general asset account are not affected as a result of a disposition of an asset from the general asset account.

(iv) *Coordination with nonrecognition provisions.* For purposes of determining the basis of an asset acquired in a transaction described in paragraph (e)(3)(iii)(B)(*4*) of this section (relating to certain nonrecognition provisions), the amount of ordinary income recognized under this paragraph (e)(2) is treated as the amount of gain recognized on the disposition.

(v) *Examples.* The following examples illustrate the application of this paragraph (e)(2).

Example 1. (i) *R,* a calendar-year corporation, maintains one general asset account for ten machines. The machines cost a total of $10,000 and were placed in service in June 1995. Of the ten machines, one machine costs $8,200 and nine machines cost a total of $1,800. Assume this general asset account has a depreciation method of 200 percent declining balance, a recovery period of 5 years, and a half-year convention. *R* does not make a section 179 election for any of the machines. As of January 1, 1996, the depreciation reserve of the account is $2,000 [(($10,000 − $0) × 40%)/2].

(ii) On February 8, 1996, *R* sells the machine that cost $8,200 to an unrelated party for $9,000. Under paragraph (e)(2)(i) of this section, this machine has an adjusted basis of zero.

(iii) On its 1996 tax return, *R* recognizes the amount realized of $9,000 as ordinary income because such amount does not exceed the unadjusted depreciable basis of the general asset account ($10,000), plus any expensed cost for assets in the account ($0), less amounts previously recognized as ordinary income ($0). Moreover, the unadjusted depreciable basis and depreciation reserve of the account are not affected by the disposition of the machine. Thus, the depreciation allowance for the account in 1996 is $3,200 (($10,000 − $2,000)×40%).

Example 2. (i) The facts are the same as in *Example 1.* In addition, on June 4, 1997, *R* sells seven machines to an unrelated party for a total of $1,100. In accordance with paragraph (e)(2)(i) of this section, these machines have an adjusted basis of zero.

(ii) On its 1997 tax return, *R* recognizes $1,000 as ordinary income (the unadjusted depreciable basis of $10,000, plus the expensed cost of $0, less the amount of $9,000 previously recognized as ordinary income). The recognition and character of the excess amount realized of $100 ($1,100 − $1,000) are determined under applicable provisions of the Code other than section 1245 (such as section 1231). Moreover, the unadjusted depreciable basis and depreciation reserve of the account are not affected by the disposition of the machines. Thus, the depreciation allowance for the account in 1997 is $1,920 (($10,000 − $5,200)×40%).

(3) *Special rules*—(i) *In general.* This paragraph (e)(3) provides the rules for terminating general asset account treatment upon certain dispositions. While the rules under paragraphs (e)(3)(ii) and (iii) of this section are optional rules, the rules under paragraphs (e)(3)(iv) and (v) of this section are mandatory rules. A taxpayer applies paragraph (e)(3)(ii) or (iii) of this section by reporting the gain, loss, or other deduction on the taxpayer's timely filed (including extensions) income tax return for the taxable year in which the disposition occurs. For purposes of applying paragraph (e)(3)(iii) through (v) of this section, see paragraph (i) of this section for identifying the unadjusted depreciable basis of a disposed asset.

(ii) *Disposition of all assets remaining in a general asset account*—(A) *Optional termination of a general asset account.*

Upon the disposition of all of the assets, or the last asset, in a general asset account, a taxpayer may apply this paragraph (e)(3)(ii) to recover the adjusted depreciable basis of the general asset account (rather than having paragraph (e)(2) of this section apply). Under this paragraph (e)(3)(ii), the general asset account terminates and the amount of gain or loss for the general asset account is determined under section 1001(a) by taking into account the adjusted depreciable basis of the general asset account at the time of the disposition. The recognition and character of the gain or loss are determined under other applicable provisions of the Code, except that the amount of gain subject to section 1245 (or section 1250) is limited to the excess of the depreciation allowed or allowable for the general asset account, including any expensed cost (or the excess of the additional depreciation allowed or allowable for the general asset account), over any amounts previously recognized as ordinary income under paragraph (e)(2) of this section.

(B) *Example.* The following example illustrates the application of this paragraph (e)(3)(ii).

Example. (i) *T*, a calendar-year corporation, maintains a general asset account for 1,000 calculators. The calculators cost a total of $60,000 and were placed in service in 1995. Assume this general asset account has a depreciation method of 200 percent declining balance, a recovery period of 5 years, and a half-year convention. *T* does not make a section 179 election for any of the calculators. In 1996, *T* sells 200 of the calculators to an unrelated party for a total of $10,000 and recognizes the $10,000 as ordinary income in accordance with paragraph (e)(2) of this section.

(ii) On March 26, 1997, *T* sells the remaining calculators in the general asset account to an unrelated party for $35,000. *T* chooses to apply paragraph (e)(3)(ii) of this section. As a result, the account terminates and gain or loss is determined for the account.

(iii) On the date of disposition, the adjusted depreciable basis of the account is $23,040 (unadjusted depreciable basis of $60,000 less the depreciation allowed or allowable of $36,960). Thus, in 1997, *T* recognizes gain of $11,960 (amount realized of $35,000 less the adjusted depreciable basis of $23,040). The gain of $11,960 is subject to section 1245 to the extent of the depreciation allowed or allowable for the account (plus the expensed cost for assets in the account) less the amounts previously recognized as ordinary income ($36,960 + $0 − $10,000 = $26,960). As a result, the entire gain of $11,960 is subject to section 1245.

(iii) *Disposition of an asset in a qualifying disposition*—(A) *Optional determination of the amount of gain, loss, or other deduction.* In the case of a qualifying disposition of an asset (described in paragraph (e)(3)(iii)(B) of this section), a taxpayer may apply this paragraph (e)(3)(iii) (rather than having paragraph (e)(2) of this section apply). Under this paragraph (e)(3)(iii), general asset account treatment for the asset terminates as of the first day of the taxable year in which the qualifying disposition occurs, and the amount of gain, loss, or other deduction for the asset is determined by taking into account the asset's adjusted basis. The adjusted basis of the asset at the time of the disposition equals the unadjusted depreciable basis of the asset less the depreciation allowed or allowable for the asset, computed by using the depreciation method, recovery period, and convention applicable to the general asset account in which the asset was included. The recognition and character of the gain, loss, or other deduction are determined under other applicable provisions of the Code, except that the amount of gain subject to section 1245 (or section 1250) is limited to the lesser of—

(*1*) The depreciation allowed or allowable for the asset, including any expensed cost (or the additional depreciation allowed or allowable for the asset); or

(*2*) The excess of—

(*i*) The original unadjusted depreciable basis of the general asset account plus, in the case of section 1245 property originally included in the general asset account, any expensed cost; over

(*ii*) The cumulative amounts of gain previously recognized as ordinary income under either paragraph (e)(2) of this section or section 1245 (or section 1250).

(B) *Qualifying dispositions.* A qualifying disposition is a disposition that does not involve all the assets, or the last asset, remaining in a general asset account and that is—

(*1*) A direct result of a fire, storm, shipwreck, or other casualty, or from theft;

(*2*) A charitable contribution for which a deduction is allowable under section 170;

(*3*) A direct result of a cessation, termination, or disposition of a business, manufacturing or other income producing process, operation, facility, plant, or other unit (other than by transfer to a supplies, scrap, or similar account); or

(*4*) A transaction, other than a transaction described in paragraph (e)(3)(iv) of this section (pertaining to transactions subject to section 168(i)(7)), to which a nonrecognition section of the Code applies (determined without regard to this section), such as section 1031 or 1033.

(C) *Effect of a qualifying disposition on a general asset account.* If the taxpayer applies this paragraph (e)(3)(iii) to a qualifying disposition of an asset, then—

(*1*) The asset is removed from the general asset account as of the first day of the taxable year in which the qualifying disposition occurs;

(*2*) The unadjusted depreciable basis of the general asset account is reduced by the unadjusted depreciable basis of the asset as of the first day of the taxable year in which the disposition occurs;

(*3*) The depreciation reserve of the general asset account is reduced by the depreciation allowed or allowable for the asset as of the end of the taxable year immediately preceding the year of disposition, computed by using the depreciation method, recovery period, and convention applicable to the general asset account in which the asset was included; and

(*4*) For purposes of determining the amount of gain realized on subsequent dispositions that is subject to ordinary income treatment under paragraph (e)(2)(ii) of this section, the amount of any expensed cost with respect to the asset is disregarded.

(D) *Example.* The provisions of this paragraph (e)(3)(iii) are illustrated by the following example.

Example. (i) *Z*, a calendar-year corporation, maintains one general asset account for 12 machines. Each machine costs $15,000 and was placed in service in 1995. Of the 12 machines, nine machines that cost a total of $135,000 are used in *Z's* Kentucky plant, and three machines that cost a total of $45,000 are used in *Z's* Ohio plant. Assume this general asset account has a depreciation method of 200 percent declining balance, a recovery period of 5 years, and a half-year convention. *Z* does not make a section 179 election for any of the machines. As of January 1, 1997, the depreciation reserve for the account is $93,600.

(ii) On May 27, 1997, *Z* sells its entire manufacturing plant in Ohio to an unrelated party. The sales proceeds allocated to each of the three machines at the Ohio plant is $5,000. Because this transaction is a qualifying disposition under paragraph (e)(3)(iii)(B)(*3*) of this section, *Z* chooses to apply paragraph (e)(3)(iii) of this section.

(iii) For *Z*'s 1997 return, the depreciation allowance for the account is computed as follows. As of December 31, 1996, the depreciation allowed or allowable for the three machines at the Ohio plant is $23,400. Thus, as of January 1, 1997, the unadjusted depreciable basis of the account is reduced from $180,000 to $135,000 ($180,000 less the unadjusted depreciable basis of $45,000 for the three machines), and the depreciation reserve of the account is decreased from $93,600 to $70,200 ($93,600 less the depreciation allowed or allowable of $23,400 for the three machines as of December 31, 1996). Consequently, the depreciation allowance for the account in 1997 is $25,920 (($135,000 − $70,200) × 40%).

(iv) For *Z*'s 1997 return, gain or loss for each of the three machines at the Ohio plant is determined as follows. The depreciation allowed or allowable in 1997 for each machine is $1,440 [(($15,000 − $7,800) × 40%) / 2]. Thus, the adjusted basis of each machine under section 1011 is $5,760 (the adjusted depreciable basis of $7,200 removed from the account less the depreciation allowed or allowable of $1,440 in 1997). As a result, the loss recognized in 1997 for each machine is $760 ($5,000 − $5,760), which is subject to section 1231.

(iv) *Transactions subject to section 168(i)(7).* If an asset in a general asset account is transferred in a transaction described in section 168(i)(7)(B) (pertaining to treatment of transferees in certain nonrecognition transactions), the transferor must remove the transferred asset from the general asset account as of the first day of the taxable year in which the transaction occurs. In addition, the adjustments to the general asset account described in paragraph (e)(3)(iii)(C)(*2*) through (*4*) of this section must be made. The transferee is bound by the transferor's election under paragraph (k) of this section with respect to so much of the asset's basis in the hands of the transferee as does not exceed the asset's adjusted basis in the hands of the transferor. If all of the assets, or the last asset, in a general asset account are transferred, the transferee's basis in the assets or asset transferred is equal to the adjusted depreciable basis of the general asset account as of the beginning of the transferor's taxable year in which the transaction occurs, decreased by the amount of depreciation allocable to the transferor for the year of the transfer.

(v) *Anti-abuse rule*—(A) *In general.* If an asset in a general asset account is disposed of by a taxpayer in a transaction described in paragraph (e)(3)(v)(B) of this section, general asset account treatment for the asset terminates as of the first day of the taxable year in which the disposition occurs. Consequently, the taxpayer must determine the amount of gain, loss, or other deduction attributable to the disposition in the manner described in paragraph (e)(3)(iii)(A) of this section (notwithstanding that paragraph (e)(3)(iii)(A) of this section is an optional rule) and must make the adjustments to the general asset account described in paragraph (e)(3)(iii)(C)(*1*) through (*4*) of this section.

(B) *Abusive transactions.* A transaction is described in this paragraph (e)(3)(v)(B) if the transaction is not described in paragraph (e)(3)(iv) of this section and the transaction is entered into, or made, with a principal purpose of achieving a tax benefit or result that would not be available absent an election under this section. Examples of these types of transactions include—

(*1*) A transaction entered into with a principal purpose of shifting income or deductions among taxpayers in a manner that would not be possible absent an election under this section in order to take advantage of differing effective tax rates among the taxpayers; or

(*2*) An election made under this section with a principal purpose of disposing of an asset from a general asset account in order to utilize an expiring net operating loss or credit. The fact that a taxpayer with a net operating loss carryover or a credit carryover transfers an asset to a related person or transfers an asset pursuant to an arrangement where the asset continues to be used (or is available for use) by the taxpayer pursuant to a lease (or otherwise) indicates, absent strong evidence to the contrary, that the transaction is described in this paragraph (e)(3)(v)(B).

(f) *Assets generating foreign source income*—(1) *In general.* This paragraph (f) provides the rules for determining the source of any income, gain, or loss recognized, and the appropriate section 904(d) separate limitation category or categories for any foreign source income, gain, or loss recognized, on a disposition (within the meaning of paragraph (e)(1) of this section) of an asset in a general asset account that consists of assets generating both United States and foreign source income. These rules apply only to a disposition to which paragraph (e)(2) (general disposition rules), (e)(3)(ii) (disposition of all assets remaining in a general asset account), (e)(3)(iii) (disposition of an asset in a qualifying disposition), or (e)(3)(v) (anti-abuse rule) of this section applies.

(2) *Source of ordinary income, gain, or loss*—(i) *Source determined by allocation and apportionment of depreciation allowed.* The amount of any ordinary income, gain, or loss that is recognized on the disposition of an asset in a general asset account must be apportioned between United States and foreign sources based on the allocation and apportionment of the—

(A) Depreciation allowed for the general asset account as of the end of the taxable year in which the disposition occurs if paragraph (e)(2) of this section applies to the disposition;

(B) Depreciation allowed for the general asset account as of the time of the disposition if the taxpayer applies paragraph (e)(3)(ii) of this section to the disposition of all of the assets, or the last asset, in the general asset account; or

(C) Depreciation allowed for the disposed asset for only the taxable year in which the disposition occurs if the taxpayer applies paragraph (e)(3)(iii) to the disposition of the asset in a qualifying disposition or if the asset is disposed in a transaction described in paragraph (e)(3)(v) (anti-abuse rule) of this section.

(ii) *Formula for determining foreign source income, gain, or loss.* The amount of ordinary income, gain, or loss recognized on the disposition that shall be treated as foreign source income, gain, or loss must be determined under the formula in this paragraph (f)(2)(ii). For purposes of this formula, the allowed depreciation deductions are determined for the applicable time period provided in paragraph (f)(2)(i) of this section. The formula is:

$$\begin{array}{c}\text{Foreign Source Income,}\\ \text{Gain, or Loss}\\ \text{from the Disposition}\\ \text{of an Asset}\end{array} = \begin{array}{c}\text{Total Ordinary Income,}\\ \text{Gain, or Loss}\\ \text{from Disposition}\\ \text{of an Asset}\end{array} \times \begin{array}{c}\text{Allowed Depreciation Deductions}\\ \text{Allocated and Apportioned to}\\ \text{Foreign Source Income/Total}\\ \text{Allowed Depreciation Deductions}\\ \text{for the General Asset Account}\\ \text{or for the Disposed Asset}\\ \text{(as applicable)}\end{array}$$

(3) *Section 904(d) separate categories.* If the assets in the general asset account generate foreign source income in more than one separate category under section 904(d)(1) or another section of the Code (for example, income treated as foreign source income under section 904(g)(10)), or under a United States income tax treaty that requires the foreign tax credit limitation to be determined separately for specified types of income, the amount of ‘‘foreign source income, gain, or loss from the disposition of an asset’’ (as determined under the formula in paragraph (f)(2)(ii) of this section) must be allocated and apportioned to the applicable separate category or categories under the formula in this paragraph (f)(3). For purposes of this formula, the allowed depreciation deductions are determined for the applicable time period provided in paragraph (f)(2)(i) of this section. The formula is:

$$\begin{array}{c}\text{Foreign Source Income,}\\ \text{Gain, or Loss}\\ \text{In a Separate}\\ \text{Category}\end{array} = \begin{array}{c}\text{Foreign Source Income,}\\ \text{Gain, or Loss}\\ \text{from the Disposition}\\ \text{of an Asset}\end{array} \times \begin{array}{c}\text{Allowed Depreciation Deductions}\\ \text{Allocated and Apportioned to a}\\ \text{Separate Category/Total}\\ \text{Allowed Depreciation Deductions}\\ \text{and Apportioned to}\\ \text{Foreign Source Income}\end{array}$$

(g) *Assets subject to recapture.* If the basis of an asset in a general asset account is increased as a result of the recapture of any allowable credit or deduction (for example, the basis adjustment for the recapture amount under section 30(d)(2), 50(c)(2), 179(d)(10), or 179A(e)(4)), general asset account treatment for the asset terminates as of the first day of the taxable year in which the recapture event occurs. Consequently, the taxpayer must remove the asset from the general asset account as of that day and must make the adjustments to the general asset account described in paragraph (e)(3)(iii)(C)(*2*) through (*4*) of this section.

(h) *Changes in use*—(1) *Conversion to personal use.* An asset in a general asset account becomes ineligible for general asset account treatment if a taxpayer uses the asset in a personal activity during a taxable year. Upon a conversion to personal use, the taxpayer must remove the asset from the general asset account as of the first day of the taxable year in which the change in use occurs and must make the adjustments to the general asset account described in paragraph (e)(3)(iii)(C)(*2*) through (*4*) of this section.

(2) *Other changes in use.* [Reserved].

(i) *Identification of disposed or converted asset.* A taxpayer may use any reasonable method that is consistently applied to the taxpayer's general asset accounts for purposes of determining the unadjusted depreciable basis of a disposed or converted asset in a transaction described in paragraph (e)(3)(iii) (disposition of an asset in a qualifying disposition), (e)(3)(iv) (transactions subject to section 168(i)(7)), (e)(3)(v) (anti-abuse rule), (g) (assets subject to recapture), or (h)(1) (conversion to personal use) of this section.

(j) *Effect of adjustments on prior dispositions.* The adjustments to a general asset account under paragraph (e)(3)(iii), (e)(3)(iv), (e)(3)(v), (g), or (h)(1) of this section have no effect on the recognition and character of prior dispositions subject to paragraph (e)(2) of this section.

(k) *Election*—(1) *Irrevocable election.* If a taxpayer makes an election under this paragraph (k), the taxpayer consents to, and agrees to apply, all of the provisions of this section to the assets included in a general asset account. Except as provided in paragraph (c)(1)(ii)(A), (e)(3), (g), or (h)(1) of this section, an election made under this section is irrevocable and will be binding on the taxpayer for computing taxable income for the taxable year for which the election is made and for all subsequent taxable years. An election under this paragraph (k) is made separately by each person owning an asset to which this section applies (for example, by each member of a consolidated group, at the partnership level (and not by the partner separately), or at the S corporation level (and not by the shareholder separately)).

(2) *Time for making election.* The election to apply this section shall be made on the taxpayer's timely filed (including extensions) income tax return for the taxable year in which the assets included in the general asset account are placed in service by the taxpayer.

(3) *Manner of making election.* In the year of election, a taxpayer makes the election under this section by typing or legibly printing at the top of the Form 4562, ''GENERAL ASSET ACCOUNT ELECTION MADE UNDER SECTION 168(i)(4),'' or in the manner provided for on Form 4562 and its instructions. The taxpayer shall maintain records (for example, ''General Asset Account #1 - all 1995 additions in asset class 00.11 for Salt Lake City, Utah facility'') that identify the assets included in each general asset account, that establish the unadjusted depreciable basis and depreciation reserve of the general asset account, and that reflect the amount realized during the taxable year upon dispositions from each general asset account. (But see section 179(c) and §1.179–5 for the recordkeeping requirements for section 179 property.) The taxpayer's recordkeeping practices should be consistently applied to the general asset accounts. If Form 4562 is revised or renumbered, any reference in this section to that form shall be treated as a reference to the revised or renumbered form.

(l) *Effective date.* This section applies to depreciable assets placed in service in taxable years ending on or after October 11, 1994. For depreciable assets placed in service after December 31, 1986, in taxable years ending before October 11, 1994, the Internal Revenue Service will allow any reasonable method that is consistently applied to the taxpayer's general asset accounts.

[T.D. 8566, 59 FR 51371, Oct. 11, 1994; 59 FR 64849, Dec. 16, 1994]

§1.168(i)–2 Lease term.

(a) *In general.* For purposes of section 168, a lease term is determined under all the facts and circumstances. Paragraph (b) of this section and §1.168(j)–1T, Q&A 17, describe certain circumstances that will result in a period of time not included in the stated duration of an original lease (additional period) nevertheless being included in the lease term. These rules do not prevent the inclusion of an additional period in the lease term in other circumstances.

(b) *Lessee retains financial obligation*—(1) *In general.* An additional period of time during which a lessee may not continue to be the lessee will nevertheless be included in the lease term if the lessee (or a related person)—

(i) Has agreed that one or both of them will or could be obligated to make a payment of rent or a payment in the nature of rent with respect to such period; or

(ii) Has assumed or retained any risk of loss with respect to the property for such period (including, for example, by holding a note secured by the property).

(2) *Payments in the nature of rent.* For purposes of paragraph (b)(1)(i) of this section, a payment in the nature of rent includes a payment intended to substitute for rent or to fund or supplement the rental payments of another. For example, a payment in the nature of rent includes a payment of any kind (whether denominated as supplemental rent, as liquidated damages, or otherwise) that is required to be made in the event that—

(i) The leased property is not leased for the additional period;

(ii) The leased property is leased for the additional period under terms that do not satisfy specified terms and conditions;

(iii) There is a failure to make a payment of rent with respect to such additional period; or

(iv) Circumstances similar to those described in paragraph (b)(2) (i), (ii), or (iii) of this section occur.

(3) *De minimis rule.* For the purposes of this paragraph (b), obligations to make de minimis payments will be disregarded.

(c) *Multiple leases or subleases.* If property is subject to more than one lease (including any sublease) entered into as part of a single transaction (or a series of related transactions), the lease term includes all periods described in one or more of such leases. For example, if one taxable corporation leases property to another taxable corporation for a 20-year term and, as part of the same transaction, the lessee subleases the property to a tax-exempt entity for a 10-year term, then the lease term of the property for purposes of section 168 is 20 years. During the period of tax-exempt use, the property must be depreciated under the alternative depreciation system using the straight line method over the greater of its class life or 25 years (125 percent of the 20-year lease term).

(d) *Related person.* For purposes of paragraph (b) of this section, a person is related to the lessee if such person is described in section 168(h)(4).

(e) *Changes in status.* Section 168(i)(5) (changes in status) applies if an additional period is included in a lease term under this section and the leased property ceases to be tax-exempt use property for such additional period.

(f) *Example.* The following example illustrates the principles of this section. The example does not address common law doctrines or other authorities that may apply to cause an additional period to be included in the lease term or to recharacterize a lease as a conditional sale or otherwise for federal income tax purposes. Unless otherwise indicated, parties to the transactions are not related to one another.

Example Financial obligation with respect to an additional period—(i) *Facts.* X, a taxable corporation, and Y, a foreign airline whose income is not subject to United States taxation, enter into a lease agreement under which X agrees to lease an aircraft to Y for a period of 10 years. The lease agreement provides that, at the end of the lease period, Y is obligated to find a subsequent lessee (replacement lessee) to enter into a subsequent lease (replacement lease) of the aircraft from X for an additional 10-year period. The provisions of the lease agreement require that any replacement lessee be unrelated to Y and that it not be a tax-exempt entity as defined in section 168(h)(2). The provisions of the lease agreement also set forth the basic terms and conditions of the replacement lease, including its duration and the required rental payments. In the event Y fails to secure a replacement lease, the lease agreement requires Y to make a payment to X in an amount determined under the lease agreement.

(ii) *Application of this section.* The lease agreement between X and Y obligates Y to make a payment in the event the aircraft is not leased for the period commencing after the initial 10-year lease period and ending on the date the replacement lease is scheduled to end. Accordingly, pursuant to paragraph (b) of this section, the term of the lease between X and Y includes such additional period, and the lease term is 20 years for purposes of section 168.

(iii) *Facts modified.* Assume the same facts as in paragraph (i) of this *Example,* except that Y is required to guarantee the payment of rentals under the 10-year replacement lease and to make a payment to X equal to the present value of any excess of the replacement lease rental payments specified in the lease agreement between X and Y, over the rental payments actually agreed to be paid by the replacement lessee. Pursuant to paragraph (b) of this section, the term of the lease between X and Y includes the additional period, and the lease term is 20 years for purposes of section 168.

(iv) *Changes in status.* If, upon the conclusion of the stated duration of the lease between X and Y, the aircraft either is returned to X or leased to a replacement lessee that is not a tax-exempt entity as defined in section 168(h)(2), the subsequent method of depreciation will be determined pursuant to section 168(i)(5).

(g) *Effective date*—(1) *In general.* Except as provided in paragraph (g)(2) of this section, this section applies to leases entered into on or after April 20, 1995.

(2) *Special rules.* Paragraphs (b)(1)(ii) and (c) of this section apply to leases entered into after April 26, 1996.

[T.D. 8667, 61 FR 18677, Apr. 29, 1996]

§ 1.168(j)–1T Questions and answers concerning tax-exempt entity leasing rules (temporary).

The following questions and answers concern tax-exempt entity leasing under section 168(j) of the Internal Revenue Code of 1954, as enacted by section 31 of the Tax Reform Act of 1984 (''TRA'') (Pub. L. 98–369):

CONSEQUENCES OF TAX-EXEMPT USE STATUS

Q–1. If recovery property is subject to the tax-exempt entity leasing provisions of section 168(j), how must the taxpayer compute the property's recovery deductions?

A–1. The taxpayer must compute the property's recovery deductions in accordance with section 168(j) (1) and (2); that is, the taxpayer must use the straight line method and the specified recovery period. For property other than 18-year real property, the applicable recovery percentages for the specified recovery period are to be determined with reference to the tables contained in Prop. Treas. Reg. § 1.168–2(g)(3)(iv)(A). For 18-year real property for which a 40-year recovery period is required, the applicable recovery percentages are to be determined under the following table:

40-YEAR STRAIGHT LINE METHOD (ASSUMING MID-MONTH CONVENTION)

If the recovery year is—	And the month in the first recovery year the property is placed in service is—											
	1	2	3	4	5	6	7	8	9	10	11	12
	The applicable recovery percentage is—

Q–2. If recovery property that was placed in service after December 31, 1980 by a taxable entity subsequently becomes tax-exempt use property, how are such property's cost recovery deductions under section 168 affected?

A–2. A change to tax-exempt use property, as defined in section 168(j)(3), will cause the cost recovery deductions under the accelerated cost recovery system (ACRS) to be recomputed. The allowable recovery deduction for the taxable year in which the change occurs (and for subsequent taxable years) must be determined as if the property had originally been tax-exempt use property. Proper adjustment must be made under the principles of Prop. Treas. Reg. § 1.168–2(j)(3)(i)(B) to account for the difference between the deductions allowable with respect to the property prior to the year of change and those which would have been allowable had the taxpayer used the recovery period and method for tax-exempt use property under section 168(j) (1) and (2). However, no adjustment is made pursuant to the provisions of this A–2 if section 168(j)(2)(C) applies, that is, if the taxpayer had selected a longer recovery period in the year the property was placed in service than the recovery period prescribed for such property under section 168(j)(1).

Example (1). On July 1, 1983, X, a calendar year taxpayer, places in service 5-year recovery property with an unadjusted basis of $100. For 1983, X's allowable deduction is $15 (*i.e.*, .15 × $100). In 1984, the property becomes tax-exempt use property. Under section 168(j), assume the prescribed recovery period is 12 years. For 1984 (and subsequent taxable years), X's allowable deduction is determined as if the property had been tax-exempt use property since 1983, that is, the year it was placed in service. Thus, taxable year 1984 is the property's second recovery year of its 12-year recovery period. Additionally, X must account for the excess allowable recovery deduction of $11 (*i.e.*, the difference between the recovery allowance for 1983 ($15) and the allowance for that year had the property been tax-exempt use property ($4)) in accordance with the principles of Prop. Treas. Reg. § 1.168–2(j)(3)(i)(B). Thus, the recovery allowances in 1984 and 1985 are $7.97, determined as follows:

Unadjusted basis multiplied by the applicable recovery percentage for second recovery year ($100×.09	$9.00
Excess allowable recovery deduction multiplied by the applicable recovery percentage for second recovery year divided by the sum of the remaining unused applicable percentages for tax-exempt use property existing as of the taxable year of change (1984) (($11×.09)/.96)	−1.03
Difference—allowable deduction for 1984	$7.97
Unadjusted basis multiplied by the applicable recovery percentage for third recovery year ($100×.09)	$9.00
Excess allowable recovery deduction multiplied by the applicable recovery percentage for third recovery year divided by the sum of the remaining unused applicable percentages for tax-exempt use property existing as of the taxable year of change (1984) (($11×.09)/.96)	−1.03

Difference—allowable deduction for 1985 .... $7.97

Additionally, X must make a similar adjustment for the taxable years 1986 through 1995, that is, his fourth through thirteenth recovery years.

Example (2). Assume the same facts as in *Example (1)* except that in 1983, X elected under section 168 (b) (3) with respect to the 5-year property to use the optional recovery percentages over a 25-year recovery period. Based on these facts, the provisions of this A–2 do not apply.

DEFINITION OF TAX-EXEMPT USE PROPERTY

Mixed Leases of Real and Personal Property

Q–3. How is a mixed lease of real property and personal property (*e.g.,* a building with furniture) to be treated for purposes of applying the rules of section 168(j)(3) defining which property constitutes tax-exempt use property?

A–3. The general rule is that 18-year real property and property other than 18-year real property are tested separately to determine whether each constitutes tax-exempt use property. However, if a lease of section 1245 class property is incidental to a lease of 18-year real property, and the 18-year real property is not tax-exempt use property, then the section 1245 class property also does not constitute tax-exempt use property. A lease of section 1245 class property will be considered incidental if the adjusted basis of all section 1245 class property leased in the same transaction is 1 percent or less of the adjusted basis of all 18-year real property leased in such transaction.

Buildings Which Are Partially Tax-Exempt Use Property

Q–4. If part of a building is leased to a tax-exempt entity in a disqualified lease and part of the building is leased other than to a tax-exempt entity in a disqualified lease, to what extent do the tax-exempt entity leasing rules apply to such building?

A–4. The taxpaper must determine the amount of the building's unadjusted basis that is properly allocable to the portion of the building that is tax-exempt use property; the section 168(j) rules apply to the allocated amount. Solely for purposes of determining what percentage of the building's basis is subject to the tax-exempt entity leasing rules, no part of the basis is allocated to common areas.

Example. A constructs a 3-story building in 1984 at a cost of $900,000. Each floor consists of 30,000 square feet. The only common area (10,000 square feet) in the building is on the first floor. A leases the first floor (other than the common areas) to a firm that is not a tax-exempt entity. A leases the top two floors to a tax-exempt entity in a 25-year lease. The top two floors constitute tax-exempt use property. Assume that square footage is the appropriate method for allocating basis in this case. Thus, A must allocate $675,000 of the $900,000 basis to the tax-exempt use portion, determined as follows:

$$\frac{\begin{array}{c}\text{square footage of building which is tax-exempt}\\ \text{use property (excluding common areas)}\end{array}}{\begin{array}{c}\text{total square footage in the building}\\ \text{(excluding common areas)}\end{array}} = \frac{60{,}000 \text{ sq. feet}}{80{,}000 \text{ sq. feet}} = 3/4$$

$$3/4 \times \$900{,}000 = \$675{,}000$$

A must compute his recovery deductions on this portion of the basis ($675,000) in accordance with the rules of section 168(j) (1) and (2).

Requirement of a Lease

Q–5. Can the use of property by a party other than a tax-exempt entity result in the property being treated as tax-exempt use property within the meaning of section 168(j)(3)?

A–5. Yes, if based on all the facts and circumstances it is more appropriate to characterize the transaction as a lease to a tax-exempt entity. A transaction can be characterized as a lease to a tax-exempt entity under section 168(j)(6)(A), which provides that ''the term 'lease' includes any grant of a right to use property''; or under the service contract rules of section 7701(e). See Q&A #18 for rules regarding service contracts.

Example. A trust is executed on January 1, 1984, to create a pooled income fund (P) that meets the requirements of section 642(c)(5). A university (U) that is tax-exempt under section 501(c)(3) is the remainderman of the pooled income fund. P's purpose is to construct and operate an athletic center on land adjacent to U's campus. Construction of the athletic center, which has a 50-year useful life, was completed and the center was placed in service on February 1, 1985. The athletic center is managed for a fee by M, an unrelated taxable organization which operates athletic facilities open to the public. Office space at the facility is occupied rent-free by both the U athletic department and M. Scheduling of activities at the center is handled jointly by members of U's athletic department and M. General operating expenses of the athletic center are paid by P. Although the athletic center is open to the public for a membership fee, the majority of members are U's students who pay membership fees as part of their tuition. These fees are remitted by U to P. This arrangement is in substance a grant to U of a right to use the facility, and therefore a lease to U under section 168(j)(6)(A). U, as remainderman, will have obtained title to the entire building when the last pooled income fund donor dies. This arrangement is a disqualified lease because either (1) U has the equivalent of a fixed price purchase option under section 168(j)(3)(B)(ii)(II) (if U receives title as remainderman before the end of the useful life of the building), or (2) the lease has a term in excess of 20 years under section 168(j)(3)(B)(ii)(III) (if U does not receive title as remainderman until 20 years have elapsed), or both. Therefore, the allowable recovery deductions (without regard to salvage value) must be computed in accordance with section 168(j) (1) and (2). In addition, because this arrangement is treated as a lease under section 168(j), the facility is used by U for purposes of section 48(a)(4), and thus no investment tax credit is permitted with respect to any portion of the facility. This arrangement also may be treated as a lease to U for all purposes of chapter 1 of the Internal Revenue Code under section 7701 (e).

''More Than 35 Percent of the Property'' Test

Q–6. How is the percentage of 18-year real property leased to a tax-exempt entity in a disqualified lease to be determined for purposes of the ''more than 35 percent of the property'' test of section 168(j)(3)(B)(iii)?

A–6. The phrase ''more than 35 percent of the property'' means more than 35 percent of the net rentable floor space of the property. The net rentable floor space in a building does not include the common areas of the building, regardless of the terms of the lease. For purposes of the ''more than 35 percent of the property'' rule, two or more buildings will be treated as separate properties unless they are part of the same project, in which case they will be treated as one property. Two or more buildings will be treated as part of the same project if the buildings are constructed, under a common plan, within a reasonable time of each other on the same site and will be used in an integrated manner.

Q–7. Are disqualified leases to different tax-exempt entities (regardless of whether they are related) aggregated in determining whether 18-year real property is tax-exempt use property?

A–7. Yes.

Example. A tax-exempt entity participates in industrial development bond financing for the acquisition of a new building by a taxable entity. The tax-exempt entity leases 60 percent of the net rentable floor space in the building for 5 years. Sixty percent of the building is tax-exempt use property. If the same tax-exempt entity leased only 19 percent of the net rentable floor space in the building for 5 years, no portion of the building would be tax-exempt use property because not more than 35 percent of the property is leased to a tax-exempt entity pursuant to a disqualified lease. If such tax-exempt entity leased only 19 percent of the net rentable floor space in the building for 5 years and another tax-exempt entity leased 20 percent of the net rentable floor space in the building for a term in excess of 20 years (or a related entity leased 20 percent of the building for 5 years), 39 percent of the building would be tax-exempt use property. See A–4 regarding the determination of the amount of the building's unadjusted basis that is properly allocable to the portion of the building that is tax-exempt use property.

''Predominantly Used'' Test

Q–8. What does the term ''predominantly used'' mean for purposes of the section 168(j)(3)(D) exception to the tax-exempt use property rules?

A–8. ''Predominantly used'' means that for more than 50 percent of the time used, as determined for each taxable year, the real or personal property is used in an unrelated trade or business the income of which is subject to tax under section 511 (determined without regard to the debt-financed income rules of section 514). If only a portion of property is predominantly used in an unrelated trade or business, the remainder may nevertheless be tax-exempt use property.

Q–9. How is the ‘‘predominantly used’’ test of section 168(j)(3)(D) to be applied to a building?

A–9. The ‘‘predominantly used’’ test is to be applied to a building in the following manner:

(i) Identify the discrete portions (excluding common areas) of the building which are leased to a tax-exempt entity in a disqualified lease under section 168(j)(3)(B)(ii). A discrete portion of a building is an area physically separated from other areas. An area is physically separated from other areas if separated by permanent walls or by partitions serving as room dividers if such partitions remain in place throughout the taxable year. A discrete portion can be the entire building, floors, wings, offices, rooms, or a combination thereof. For example, a building whose entire internal space consists of a single large room used as a gymnasium has only one discrete portion. On the other hand, if the building has 3 stories with 10 offices on each floor, each of the 30 offices is a discrete portion.

(ii) Determine whether each discrete portion is predominantly used in an unrelated trade or business subject to tax under section 511. See A–8 for the rules regarding how to make this determination.

(iii) Once the discrete portions of the building that constitute tax-exempt use property have been identified, an appropriate allocation of basis must be made to such discrete portions. See A–4 for rules regarding how to make such allocation.

(iv) The application of these rules is illustrated by the following example:

Example. A building, constructed in 1985, is leased in its entirety to a tax-exempt entity (E) pursuant to a 25-year lease. The building has 25,000 square feet of net rentable floor space and consists of an auditorium (15,000 square feet), a retail shop (10,000 square feet), plus common area of 5,000 square feet. E uses the auditorium 80 percent of the time in its exempt activity and 20 percent of the time in an unrelated trade or business subject to tax under section 511. The retail shop is used 90 percent of the time in an unrelated trade or business subject to tax under section 511 and 10 percent of the time in an exempt activity. Thus, the auditorium is tax-exempt use property; the retail shop is not. An appropriate allocation of basis to the auditorium must be made. See A–4.

DEFINITION OF TAX-EXEMPT ENTITY

Q–10. What elections must be made in order to avoid the ‘‘5-year lookback’’ rule of section 168(j)(4)(E)(i)?

A–10. Only organizations which were exempt from tax under section 501(a) as organizations described in section 501(c)(12) (and which are no longer tax-exempt) may avoid the 5-year lookback rule of section 168(j)(4)(E)(i). In order to avoid the 5-year lookback rule with respect to any property, two elections are required. First, the organization must elect not to be exempt from tax under section 501(a) during the tax-exempt use period (as defined in section 168(j)(4)(E)(ii)(II)) with respect to the property. Second, the organization must elect to be taxed on the exempt arbitrage profits as provided in section 31(g)(16) of the Tax Reform Act of 1984. See Temp. Treas. Reg. §301.9100–6T(a) for the time and manner of making these elections. These elections, once made, are irrevocable.

Q–11. Does the term ‘‘tax-exempt entity’’ include tax-exempt plans of deferred compensation and similar arrangements?

A–11. Yes. For purposes of section 168 (j), the term ‘‘tax-exempt entity’’ includes trusts or other entities that are tax-qualified under section 401 (a), individual retirement accounts, simplified employee pensions, and other tax-exempt arrangements described in subchapter D of chapter 1 of the Internal Revenue Code.

SPECIAL RULES FOR HIGH TECHNOLOGY EQUIPMENT

Q–12. What effect do the tax-exempt entity leasing provisions have on ‘‘qualified technological equipment’’?

A–12. ‘‘Qualified technological equipment’’ which is leased to a tax-exempt entity for a term of 5 years or less shall not constitute tax-exempt use property. If ‘‘qualified technological equipment’’ which is leased to a tax-exempt entity for a term of more than 5 years constitutes tax-exempt use property (as defined in section 168(j)(3)) and is not used predominantly outside the United States, the rules of section 168(j) (1) and (2) apply except that the recovery period to be used for such equipment shall be 5 years regardless of the length of the lease term. For purposes of section 168(j)(5), ‘‘qualified technological equipment’’ means (1) any computer or peripheral equipment, (2) any high technology telephone station equipment installed on the customer’s premises, and (3) any high technology medical equipment. For definitions of these terms, see A–13 through A–16.

Q–13. What is a ‘‘computer’’ as that term is used in section 168(j)(5)(C)(i)(I)?

A–13. Computers are electronically activated devices that are programmable by the user and that are capable of accepting information, applying prescribed processes to it, and supplying the results of those processes with or without human intervention. Computers consist of a central processing unit containing extensive storage, logic, arithmetic, and control capabilities. A computer does not include any equipment which is an integral part of property that is not a user-programmable device, any video games or other devices used by the user primarily for amusement or entertainment purposes, or any typewriters, calculators, adding or accounting machines, copiers, duplicating equipment, or similar equipment. A computer does not include any equipment that is not tangible personal property.

Q–14. What is ‘‘peripheral equipment’’ as that term is used in section 168(j)(5)(C)(i)(I)?

A–14. Peripheral equipment means tangible personal property such as auxiliary machines, whether on-line or off-line, that are designed to be placed under the control of the central processing unit of the computer. Some examples of peripheral equipment are: card readers, card punches, magnetic tape feeds, high speed printers, optical character readers, tape cassettes, mass storage units, paper tape equipment, keypunches, data entry devices, teleprinters, terminals, tape drives, disc drives, disc files, disc packs, visual image projector tubes, card sorters, plotters, and collators. Peripheral equipment does not include equipment not included in Asset Depreciation Range (ADR) 00.12 listed in section 3 of Rev. Proc. 83–35, 1983–1 C.B. 745, 746. Peripheral equipment also does not include any equipment that is an integral part of property that is not a user-programmable device, any video games or other devices used by the user primarily for amusement or entertainment purposes, or any typewriters, calculators, adding or accounting machines, copiers, duplicating equipment, or similar equipment.

Q–15. What does ‘‘high technology telephone station equipment’’ mean as that term is used in section 168(j)(5)(C)(i)(II)?

A–15. High technology telephone station equipment includes only tangible personal property described in asset depreciation range (ADR) class 48.13 listed in section 3 of Rev. Proc. 83–35, 1983–1 C.B. 745, 758 that has a high technology content and which, because of such high technology content, can reasonably be expected to become obsolete before the expiration of its physical useful life. For example, telephone booths and telephones which include only a standard dialing feature are not high technology equipment. However, telephones with features such as an abbreviated dialing short program, an automatic callback, or conference call feature may qualify as high technology equipment. High technology telephone station equipment may include terminal equipment including such extra features but not terminal equipment used in conjunction with features offered through central office capacity. There are no current plans to utilize the regulatory authority provided in section 168(j)(5)(C)(iv).

Q–16. What is ‘‘high technology medical equipment’’ as that term is used in section 168 (j)(5)(C)(i)(III)?

A–16. High technology medical equipment is any electronic, electromechanical, or computer-based high technology equipment which is tangible personal property used in the screening, monitoring, observation, diagnosis, or treatment of human patients in a laboratory, medical, or hospital environment. High technology medical equipment includes only equipment that has a high technology content and which, because of such high technology content, can reasonably be expected to become obsolete before the expiration of its physical useful life. High technology medical equipment may include computer axial tomography (C.A.T.) scanners, nuclear magnetic resonance equipment, clinical chemistry analyzers, drug monitors, diagnostic ultrasound scanners, nuclear cameras, radiographic and fluoroscopic systems, Holter monitors, and bedside monitors. Incidental use of any such equipment for othe purposes, such as research, will not prevent it from qualifying as high technology medical equipment. There are no current plans to utilize the regulatory authority provided in section 168(j)(5)(C)(iv).

LEASE TERM

Q–17. What is included in determining the length of a lease term?

A–17. (i) The lease term starts when the property is first made available to the lessee under the lease. The lease term includes not only the stated duration, but also any additional period of time which is within the ''realistic contemplation of the parties at the time the property is first put into service. *Hokanson* v. *Commissioner,* 730 F.2d 1245, 1248 (9th Cir. 1984). A subsequent period of time is included in the term of the original lease if the circumstances indicate that the parties, upon entering into the original lease, had informally agreed that there would be an extension of the original lease.

(ii) With respect to personal property, the lease term includes all periods for which the tax-exempt lessee or a related party (as defined under section 168(j)(7)) has a legally enforceable option to renew the lease, or the lessor has a legally enforceable option to compel its renewal by the tax-exempt entity or a related party. This is true regardless of the renewal terms of the lease agreement or whether the lease is in fact renewed.

(iii) With respect to real property, the lease term includes all periods for which the tax-exempt lessee or a related party (as defined under section 168(j)(7)) has a legally enforceable option to renew the lease, or the lessor has a legally enforceable option to compel its renewal by the tax-exempt entity or a related party, unless the option to renew is at fair market value, determined at the time of renewal. The *Hokanson* facts and circumstances test (see (i) above) may cause the term of a fair market value renewal option to be treated as part of the original lease term.

(iv) Successive leases that are part of the same transaction or a series of related transactions concerning the same or substantially similar property shall be treated as one lease. This rule applies if at substantially the same time or as part of one arrangement the parties enter into multiple leases covering the same or substantially similar property, each having a different term. If so, then the original lease term will be treated as running through the term of the lease that has the last expiration date of the multiple leases. The multiple lease rule will not apply merely because the parties enter into a new lease at fair market rental value at the end of the original lease term.

(v) The application of the above rules is illustrated by the following examples:

Example (1). On December 30, 1984, X, a taxable corporation, and Y, a tax-exempt entity, enter into a requirements contract for a period of 3 years. The requirements contract sets the terms and conditions under which X and Y will do business on those occasions when X actually leases items of personal property to Y. The requirements contract imposes no obligation on either party to actually enter into a lease agreement. Pursuant to this requirements contract, on January 1, 1985, X and Y enter into three separate leases. Under the leases, Y obtained the use of three identical items of personal property, each for a term of six months beginning on January 1, 1985. On March 1, 1985, Y entered into a fourth lease for the use of a fourth item of personal property substantially similar to the other three items for a term of 20 months beginning on that date. The mere fact that all 4 leases were entered into pursuant to the same requirements contract and involved the same or substantially similar property does not require aggregation of the terms of such leases under section 168(j)(6)(B).

Example (2). Assume the same facts as in *example* (1) except that, instead of the 4 leases entered into in example (1), on January 1, 1985, pursuant to the requirements contract, X and Y enter into a lease for an item of personal property for one year. On January 10, 1986, after the end of the one-year lease term, X and Y enter into a second lease with respect to the same or substantially similar equipment. Assuming that the requirements contract itself is not a lease and assuming that the parties did not have any informal or implicit understanding (other than the general expectation of doing some business in the future) to enter into the second lease when the first lease was entered into, these two leases are not aggregated. The mere fact that the parties entered into two leases under the requirements contract does not result in the application of the section 168(j)(6)(B) rules for successive leases.

Example (3). The facts are the same as in *example* (2) except that the parties did have an understanding, informal or otherwise, at the time of the first lease that they would enter into a second lease of the same personal property. The terms of the leases are aggregated.

Example (4). The facts are the same as in *example* (2) except that, instead of the leases entered into in example (2), on January 1, 1985, X and Y enter into two separate leases, each for a term of one year. One lease is for the period beginning on January 1, 1985 and ending on December 31, 1985. The other lease is for the period beginning on January 1, 1986 and ending on December 31, 1986. Both leases involve the same or substantially similar personal property. Under the successive lease rule, the terms of both leases are aggregated for purposes of determining the term of either lease under section 168(j)(6)(B). This result occurs because the two leases were entered into as part of the same transaction, and they relate to the same or substantially similar personal property.

SERVICE CONTRACT ISSUES

Q–18. How is the treatment of service contracts affected by the service contract rules set forth in section 7701(e)?

A–18. If a contract which purports to be a service contract is treated as a lease under section 7701(e), such contract is to be treated as a lease for all purposes of Chapter 1 of the Internal Revenue Code (including, for example, section 168(j) and section 48(a) (4) and (5)).

Q–19. Does a contract to provide heating, maintenance, etc. services in low-income housing come within the low-income housing exception in section 7701(e)(5) to the service contract rules set forth in section 7701(e)?

A–19. No. Although certain low-income housing operated by or for an organization described in paragraphs (3) or (4) of section 501(c) is not subject to the service contract rules in section 7701(e), a contract, for instance, to provide heating services to low-income housing units, such as by installing and operating a furnace, does not constitute ‘‘low-income housing’’ within the meaning of section 7701(e)(5). Thus, the rules of section 7701(e) apply to such contracts in determining whether they are properly treated as leases.

PARTNERSHIP ISSUES

Q–20. Do the provisions applicable to property leased to partnerships, set forth in section 168(j)(8), and the provisions applicable to property owned by partnerships, set forth in section 168(j)(9), apply to pass-through entities other than partnerships?

A–20. Yes. Rules similar to those provided in paragraphs (8), (9)(A), (9)(B), and (9)(C) of section 168(j) and those provided in Q & A’s 21–26 apply to pass-through entities other than partnerships.

Q–21. What rules apply to property owned by a partnership in which one or more partners is a tax-exempt entity?

A–21. If property is owned by a partnership having both taxable and tax-exempt entities as partners, and any allocation to a tax-exempt entity partner is not a ‘‘qualified allocation’’ under section 168(j)(9)(B), then such entity’s proportionate share of the property is to be treated as tax-exempt use property for all purposes. However, the property will not be tax-exempt use property if it is predominantly used by the partnership in an activity which, with respect to the tax-exempt entity, is an unrelated trade or business. An activity is an unrelated trade or business with respect to a tax-exempt entity if such entity’s distributive share of the partnership’s gross income from the activity is includible in computing its unrelated business taxable income under section 512(c) (determined without regard to the debt-financed income rules of section 514). A tax-exempt entity partner's proportionate share of property of a partnership equals such partner's share of that item of the partnership's income or gain (excluding income or gain allocated under section 704(c)) in which the tax-exempt entity has the highest share. If the tax-exempt entity partner's share of any item of income or gain (excluding income or gain allocated under section 704(c)) may vary during the period it is a partner, the previous sentence shall be applied with reference to the highest share of any such item that it may receive at any time during such period. The application of these rules is illustrated by the following example:

Example. A partnership (P) operates a factory, which consists of a building and various items of machinery. P has one tax-exempt entity (E) as a partner, and E's proportionate share is 10 percent (*i.e.*, 10 percent is the largest share of any item of income or gain that E may receive during the time E is a partner). Unless P's allocations to E are qualified under section 168(j)(9)(B), 10 percent of each item of partnership property (including the building) is tax-exempt use property, notwithstanding the 35 percent threshold test of section 168(j)(3)(B)(iii) that is otherwise applicable to 18-year real property. However, the property will not be tax-exempt use property if it is predominantly used by the partnership in an activity which, with respect to E, is an unrelated trade or business (determined without regard to the debt-financed income rules of section 514).

Q–22. What consititutes a "qualified allocation" under section 168(j)(9)(B)?

A–22. (i) A "qualified allocation" means any allocation to a tax-exempt entity which is consistent with such entity's being allocated the same share (*i.e.*, the identical percentage) of each and every item of partnership income, gain, loss, deduction, credit, and basis during the entire period such entity is a partner. Except as provided in A–23, an allocation is not qualified if it does not have substantial economic effect under section 704(b). However, for purposes of the two preceding sentences, items allocated under section 704(c) (relating to contributed property) are not taken into account. An allocation is not a "qualified allocation" under section 168(j)(9)(B) if the partnership agreement provides for, or the partners have otherwise formally or informally agreed to, any change (regardless of whether such change is contingent upon the happening of one or more events) in the tax-exempt entity's distributive share of income, gain, loss, deduction, credit, or basis at any time during the entire period the tax-exempt entity is a partner.

(ii) A change in a tax-exempt entity's distributive share of income, gain, loss, deduction, credit, or basis which occurs as a result of a sale or redemption of a partnership interest (or portion thereof) or a contribution of cash or property to the partnership shall be disregarded in determining whether the partnership allocations are qualified, provided that such transaction is based on fair market value at the time of the transaction and that the allocations are qualified after the change. For this purpose, the consideration determined by the parties dealing at arm's length and with adverse interests normally will be deemed to satisfy the fair market value requirement. In addition, a change in a tax-exempt entity's distributive share which occurs as a result of a partner's default (other than a prearranged default) under the terms of the partnership agreement will be disregarded, provided that the allocations are qualified after the change, and that the change does not have the effect of avoiding the restrictions of section 168(j)(9). Any of the above-described transactions between existing partners (and parties related to them) will be closely scrutinized.

Example (1). A, a taxable entity, and B, a tax-exempt entity, form a partnership in 1985. A contributes $800,000 to the partnership; B contributes $200,000. The partnership agreement allocates 95 percent of each item of income, gain, loss, deduction, credit, and basis to A; B's share of each of these items is 5 percent. Liquidation proceeds are, throughout the term of the partnership, to be distributed in accordance with the partner's capital account balances, and any partner with a deficit in his capital account following the distribution of liquidation proceeds is required to restore the amount of such deficit to the partnership. Assuming that these allocations have substantial economic effect within the meaning of section 704(b)(2), they are qualified because B's distributive share of each item of income, gain, loss, deduction, credit, and basis will remain the same during the entire period that B is a partner. The fact that the liquidation proceeds may be distributed in a ratio other than 95 percent/5 percent does not cause the allocations not to be qualified.

Example (2). A, B, and E are members of a partnership formed on July 1, 1984. On that date the partnership places in service a building and section 1245 class property. A and B are taxable entities; E is a tax-exempt entity. The partnership agreement provides that during the first 5 years of the partnership, A and B are each allocated 40 percent of each item of income, gain, loss, deduction, credit, and basis; E is allocated 20 percent. Thereafter, A, B, and E are each allocated 33⅓ percent of each item of income, gain, loss, deduction, credit, and basis. Assume that these allocations meet the substantial economic effect test of section 704(b)(2) and E's distributive share of the partnership's income is not unrelated trade or business income subject to tax under section 511. The allocations to E are not qualified allocations under section 168(j)(9)(B) because E's distributive share of partnership items does not remain the same during the entire period that E is a partner in the partnership. Thus, 33⅓ percent of the building and 33⅓ percent of the section 1245 class property are tax-exempt use property from the time each is placed in service by the partnership and are thus subject to the cost recovery rules of section 168(j) (1) and (2). In addition, no investment tax credit is allowed for 33⅓ percent of the section 1245 class property because of section 48(a)(4).

Q–23. In determining whether allocations constitute qualified allocations, what rules are applied to test allocations that are not governed by the substantial economic effect rules?

A–23. A–22 provides the general rules to be used in determining whether an allocation is a qualified allocation, including the rule that the allocation must have substantial economic effect. However, certain allocations are not governed by the substantial economic effect rules (*e.g.*, an allocation of basis of an oil and gas property is generally governed by section 613A(c)(7)(D), rather than section 704(b)), and other allocations cannot satisfy the substantial economic effect rules (*e.g.*, allocations of credits, allocations of deduction and loss attributable to nonrecourse debt, and allocations of percentage depletion in excess of basis). Since allocations in either of these categories cannot be tested under the substantial economic effect test, these allocations, in order to be qualified, must comply with the relevant Code or regulation section that governs the particular allocation (*e.g.*, in the case of an allocation of basis of an oil and gas property, section 613A(c)(7)(D)).

Q–24. Will the Internal Revenue Service issue letter rulings on the issue of whether an allocation is a ‘‘qualified allocation’’ for purposes of section 168(j)(9)?

A–24. The Internal Revenue Service will accept requests for rulings on the question of whether an allocation is a ‘‘qualified allocation’’ for purposes of section 168(j)(9). Such requests should be submitted in accordance with the appropriate revenue procedure. One requirement of a qualified allocation is that such allocation must have substantial economic effect under section 704(b)(2). Currently, the Service will not rule on the question of whether an allocation has substantial economic effect under section 704(b)(2). Therefore, unless and until this policy is changed, a ruling request regarding a qualified allocation must contain a representation that the subject allocation has substantial economic effect (or complies with A–23, if applicable).

Q–25. Do priority cash distributions which constitute guaranteed payments under section 707(c) disqualify an otherwise qualified allocation?

A–25. Priority cash distributions to partners which constitute guaranteed payments will not disqualify an otherwise qualified allocation if the priority cash distributions are reasonable in amount (*e.g.*, equal to the Federal short-term rate described in section 1274(d)) and are made in equal priorities to all partners in proportion to their capital in the partnership. Other guaranteed payments will be closely scrutinized and, in appropriate cases, will disqualify an otherwise qualified allocation.

Example. A and B form Partnership AB to operate a manufacturing business. A is a tax-exempt entity; B is a taxable person. A contributes $500,000 to the partnership; B contributes $100,000. The partnership agreement provides that A and B are each entitled to cash distributions each year, in equal priority, in an amount equal to 8 percent of their capital contribution. Assume that these payments are reasonable in amount and constitute guaranteed payments under section 707(c). Without taking into consideration the guaranteed payments, all allocations constitute qualified allocations under section 168(j)(9)(B) and A–22. These guaranteed payments will not disqualify such allocations.

Q–26. Can property be treated as tax-exempt use property under both the general rule of section 168(j)(3) and the partnership provisions of section 168(j)(9)?

A–26. Yes. For example, a tax-exempt entity may be a partner in a partnership that owns a building 60 percent of which is tax-exempt use property because it is leased to an unrelated tax-exempt entity under a 25-year lease. The status of the remaining 40 percent depends on whether or not allocations under the partnership agreement are qualified under section 168(j)(9). If the allocations are not qualified under section 168(j)(9), the tax-exempt entity's proportionate share (as determined under section 168(j)(9)(C)) of the remaining 40 percent will be tax-exempt use property. For example, if the tax-exempt entity's proportionate share is 30 percent, then 12 percent of the remaining 40 percent (*i.e.*, .30 times .40) is tax-exempt use property and a total of 72 percent of the property (60 percent +12 percent) is tax-exempt use property.

EFFECTIVE DATE QUESTIONS

Q–27. Does an amendment to a lease (or sublease) to a tax-exempt entity of property which, pursuant to the effective date provisions of section 31(g) of TRA, is not subject to section 168(j) cause such property to be subject to the provisions of section 168(j)?

A–27. An amendment to such a lease (or sublease) does not cause such property to be subject to the provisions of section 168(j) unless the amendment increases the term of the lease (or sublease). However, if the amendment increases the amount of property subject to the lease, the additional property must be tested independently under the effective date provisions of section 31(g) of TRA. See A–31 for special rules regarding improvements to property.

Example. On May 1, 1983, X, a taxable entity, and E, a tax-exempt entity, enter into a lease whereby X will lease to E the top 4 floors of a ten-story building for a lease term of 25 years. In 1985, the lease is amended to provide that E will lease an additional floor for the balance of the lease term. At that time the annual rent due under the lease is increased. Pursuant to the provisions of section 31(g)(2)(A) of TRA, section 168(j) does not apply to the lease to E of the top 4 floors of the building. Assuming that no other provision of section 31(g) of TRA provides otherwise, the floor added to the lease in 1985 is subject to the provisions of section 168(j).

Q–28. If property which is not subject to section 168(j) by virtue of the effective date provisions of section 31(g) of TRA is sold, subject to the lease to the tax-exempt entity, what are the consequences?

A–28. Property to which section 168(j) does not apply by virtue of the effective date provisions set forth in section 31(g) (2), (3), and (4) of TRA will not become subject to section 168(j) merely by reason of a transfer of the property subject to the lease by the lessor (or a transfer of the contract to acquire, construct, reconstruct, or rehabilitate the property), so long as the lessee (or party obligated to lease) does not change. For purposes of the preceding sentence, the term ‘‘transfer’’ includes the sale-leaseback by a taxable lessor of its interest in the property, subject to the underlying lease to the tax-exempt entity. However, if property is transferred to a partnership or other pass-through entity after the effective date of section 168(j)(9) (see section 31(g) of TRA), such property is subject to the provisions of section 168(j)(9).

Q–29. Can property which was leased to a tax-exempt entity after May 23, 1983 and acquired by a partnership before October 22, 1983 be tax-exempt use property?

A–29. Yes. Because the property was leased to a tax-exempt entity after May 23, 1983, it may be tax-exempt use property under section 168(j)(3) and section 31(g)(1) of TRA. However, if the partnership included a tax-exempt entity as a partner, section 168(j)(9) would be inapplicable under section 31(g)(3)(B) of TRA because the partnership acquired the property before October 22, 1983.

Q–30. What is a binding contract for purposes of the transitional rules in section 31(g) of TRA?

A–30. (i) A contract is binding only if it is enforceable under State law against the taxpayer or a predecessor and does not limit damages to a specified amount, as for example, by a liquidated damages provision. A contract that limits damages to an amount equal to at least 5 percent of the total contract price will not be treated as limiting damages for this purpose. In determining whether a contract limits damages, the fact that there may be little or no damages because the contract price does not significantly differ from fair market value will not be taken into account. For example, if a taxpayer entered into an irrevocable contract to purchase an asset for $100 and the contract contained no provision for liquidated damages, the contract is considered binding notwithstanding the fact that the property had a fair market value of $99 and under local law the seller would only recover the difference in the event the purchaser failed to perform. If the contract provided for a refund of the purchase price in lieu of any damages allowable by law in the event of breach or cancellation, the contract is not considered binding.

(ii) A contract is binding even if subject to a condition, so long as the condition is not within the control of either party or a predecessor in interest. A contract will not be treated as ceasing to be binding merely because the parties make insubstantial changes in its terms or because any term is to be determined by a standard beyond the control of either party. A contract which imposes significant obligations on the taxpayer (or a predecessor) will be treated as binding notwithstanding the fact that insubstantial terms remain to be negotiated by the parties to the contract.

(iii) A binding contract to acquire a component part of a larger piece of property will not be treated as a binding contract to acquire the larger piece of property. For example, if a tax-exempt entity entered into a binding contract on May 1, 1983 to acquire a new aircraft engine, there would be a binding contract to acquire only the engine, not the entire aircraft.

Q–31. If an improvement is made to a property that is ‘‘grandfathered’’ (*i.e.*, property that is not subject to section 168(j) because of the effective date provisions of section 31(g) of TRA), to what extent will such improvement be grandfathered?

A–31. Section 31(g)(20)(B) provides that a ‘‘substantial improvement’’ to property is treated as a separate property for purposes of the effective date provisions of section 31(g) of TRA. As a result, a ‘‘substantial improvement’’ will not be grandfathered unless such ‘‘substantial improvement’’ is grandfathered under a provision other than section 31(g)(20)(B). A property that is grandfathered will not become subject to section 168(j) merely because an improvement is made to such property, regardless of whether the improvement is a ‘‘substantial improvement’’. If an improvement other than a ‘‘substantial improvement’’ is made to property (other than land) that is grandfathered, that improvement also will be grandfathered. The determination of whether new construction constitutes an improvement to property or the creation of a new separate property will be based on all facts and circumstances. Furthermore, any improvement to land will be treated as a separate property.

Example. On January 3, 1983, T, a taxable entity, entered into a lease of a parking lot to E, a tax-exempt entity. On January 1, 1985, T begins construction of a building for use by E on the site of the parking lot. The building is completed and placed in service in November 1985. The building is treated as a separate property, and is thus subject to the provisions of section 168(j), unless the building is grandfathered under a provision other than section 31(g)(20)(B) of TRA.

Q–32. What is ‘‘significant official governmental action’’ for purposes of the section 31(g)(4) transitional rule of TRA?

A–32. (i) ‘‘Significant official governmental action’’ involves three separate requirements. First, the action must be an official action. Second, the action must be specific action with respect to a particular project. Third, the action must be taken by a governmental entity having authority to commit the tax-exempt entity to the project, to provide funds for it, or to approve the project under State or local law.

(ii) The first requirement of official action means that the governing body must adopt a resolution or ordinance, or take similar official action, on or before November 1, 1983. The action qualifies only if it conforms with Federal, State, and local law (as applicable) and is a proper exercise of the powers of the governing body. Moreover, the action must not have been withdrawn. There must be satisfactory written evidence of the action that was in existence on or before November 1, 1983. Satisfactory written evidence includes a formal resolution or ordinance, minutes of meetings, and binding contracts with third parties pursuant to which third parties are to render services in furtherance of the project.

(iii) The second requirement of specific action is directed at the substance of the action taken. The action must be a specific action with respect to a particular project in which the governing body indicates an intent to have the project (or the design work for it) proceed. This requires that a specific project have been formulated and that the significant official action be a step toward consummation of the project. If the action does not relate to a specific project or merely directs that a proposal or recommendation be formulated, it will not qualify. The following set of actions with respect to a particular project constitute specific action: the hiring of bond counsel or bond underwriters necessary to assist inthe issuance and sale of bonds to finance a particular project or the adoption of an inducement resolution relating to bonds to be issued for such a project; applying for an Urban Development Action Grant on behalf of the project described in the application, receiving such a grant concerning the project, or the recommendation of a city planning authority to proceed with a project; the enactment of a State law authorizing the sale, lease, or construction of the property; the appropriation of funds for the property or authorization of a feasibility study or a development services contract with respect to it; the approval of financing arrangements by a regulatory agency; the enactment of a State law designed to provide funding for a project; the certification of a building as a historic structure by a State agency and the Department of the Interior; or the endorsement of the application for a certification of need with respect to a medical facility by a regulatory agency other than the agency empowered to issue such a certificate.

(iv) The third requirement for significant official governmental action is that the action must be taken by a Federal, State, or local governing body having authority to commit the tax-exempt entity to the project, to provide funds for it, or to approve the project under applicable law.

If the chief executive or another representative of a governing body has such authority, action by such representative would satisfy the requirement of this (iv). A governing body may have the authority to commit the tax-exempt entity to a project notwithstanding the fact that the project cannot be consummated without other governmental action being taken. For example, a city council will be treated as having authority to commit a city to do a sale-leaseback of its city hall notwithstanding the fact that State law needs to be amended to permit such a transaction. Similarly, if a local project cannot be completed without Federal approval, either legislative or administrative, the obtaining of such approval satisfies the requirements of this (iv).

(v) Routine governmental action at a local level will not qualify as significant official governmental action. Routine governmental action includes the granting of building permits or zoning changes and the issuance of environmental impact statements.

(vi) In order to qualify under the transitional rule of TRA section 31(g)(4), a sale and leaseback pursuant to a binding contract entered into before January 1, 1985 must be part of the project as to which there was significant official governmental action. Except as provided in the following sentence, where there has been significant official governmental action on or before November 1, 1983 with respect to the construction, reconstruction or rehabilitation of a property, the sale and leaseback of such property pursuant to a binding contract entered into before January 1, 1985 will be treated as part of the project which was the subject of the significant official governmental action. However, if the construction, reconstruction or rehabilitation was substantially completed prior to January 1, 1983, the sale and leaseback of such property will be treated as a separate project, unless the sale and leaseback was contemplated at the time of the significant official governmental action. Nevertheless, where the sale and leaseback is treated as a separate project, section 31(g)(4) may apply if there was significant official governmental action on or before November 1, 1983, with respect to such sale and leaseback. The application of this provision is illustrated by the following example:

Example. In the summer of 1927, the Board of Aldermen of City C passed a resolution authorizing the design and contruction of a new city hall and appropriated the funds necessary for such project. Construction was completed in 1928. At the time of the significant official governmental action, City C had no plan to enter into a sale-leaseback arrangement with respect to the facility. On December 15, 1984, City C entered into a binding sale-leaseback arrangement concerning the city hall. This transaction will not qualify for exclusion from section 168(j) under the section 31(g)(4) of TRA since construction of the facility in question was substantially completed before January 1, 1983. If, however, there had been significant official governmental action on or before November 1, 1983 with respect to the sale-leaseback project, then the transitional rule of section 31(g)(4) of TRA would apply.

[T.D. 8033, 50 FR 27224, July 2, 1985, as amended by T.D. 8435, 57 FR 43896, Sept. 23, 1992]

§ 1.168A–1 Amortization of emergency facilities; general rule.

(a) A person (including an estate or trust (see section 642(f) and § 1.642(f)–1) and a partnership (see section 703 and § 1.703–1)) is entitled, by election, to a deduction with respect to the amortization of the adjusted basis (for determining gain) of an emergency facility, such amortization to be based on a period of 60 months. As to the adjusted basis of an emergency facility, see § 1.168A–5. The taxpayer may elect to begin the 60-month amortization period with (1) the month following the month in which such facility was completed or acquired, or (2) the taxable year succeeding that in which such facility was completed or acquired (see § 1.168A–2). The date on which, or the month within which, an emergency facility is completed or acquired is to be determined upon the facts in the particular case. Ordinarily, the taxpayer is in possession of all the facts and, therefore, in a position to ascertain such date. A statement of the date ascertained by the taxpayer, together with a statement of the pertinent facts relied upon, should be filed with the taxpayer's election to take amortization deductions with respect to such facility.

(b) Generally, an amortization deduction will not be allowed with respect to an emergency facility for any taxable year unless such facility has been certified before the date of filing of the taxpayer's income tax return for such taxable year. However, this limitation does not apply in the case of a certificate made after August 22, 1957, for an emergency facility to provide primary processing for uranium ore or uranium concentrate under a program of the Atomic Energy Commission for the development of any sources of uranium ore or uranium concentrate, if application for such certificate was filed either (1) before September 2, 1958, and before the expiration of six months after the beginning of construction, reconstruction, erection, or installation or the date of acquisition of the facility, or (2) after September 1, 1958, and on or before December 2, 1958.

(c) In general, with respect to each month of the 60-month period which falls within the taxable year, the amortization deduction is an amount equal to the adjusted basis of the facility at the end of each month divided by the number of months (including the particular month for which the deduction is computed) remaining in the 60-month period. The adjusted basis at the end of any month shall be computed without regard to the amortization deduction for such month. The total amortization deduction with respect to an emergency facility for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year. The amortization deduction taken for any month is in lieu of the deduction for depreciation which would otherwise be allowable under section 167. See, however, § 1.168A–6, relating to depreciation with respect to any portion of the emergency facility not subject to amortization.

(d) This section may be illustrated by the following examples:

Example (1). On July 1, 1954, the X Corporation, which makes its income tax returns on the calendar year basis, begins the construction of an emergency facility which is completed on September 30, 1954, at a cost of $240,000. The certificate covers the entire construction. The X Corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with October, the month following its completion. The adjusted basis of the facility at the end of October is $240,000. The allowable amortization deduction with respect to such facility for the taxable year 1954 is $12,000, computed as follows:

Monthly amortization deductions:	
October: $240,000 divided by 60	$4,000
November: $236,000 ($240,000 minus $4,000) divided by 59	4,000
December: $232,000 ($236,000 minus $4,000) divided by 58	4,000
Total amortization deduction for 1954	12,000

Example (2). The Y Corporation, which makes its income tax returns on the basis of a fiscal year ending November 30, purchases an emergency facility (No. 1) on July 29, 1955. On June 15, 1955, it begins the construction of an emergency facility (No. 2) which is completed on August 2, 1955. The entire acquisition and construction of such facilities are covered by the certificate. The Y Corporation elects to take amortization deductions with respect to both facilities and to begin the 60-month amortization period in each case with the month following the month of acquisition or completion. At the end of the first month of the amortization period the adjusted basis of facility No. 1 is $300,000 and the adjusted basis of facility No. 2 is $54,000. In September 1955, facility No. 1 is damaged by fire, as a result of which its adjusted basis is properly reduced by $25,370. The allowable amortization deduction with respect to such facilities for the taxable year ending November 30, 1955, is $21,410, computed as follows:

Facility No. 1

Monthly amortization deductions:	
August: $300,000 divided by 60	$5,000
September: $269,630 ($300,000 minus $5,000 and $25,370) divided by 59	4,570
October: $265,060 ($269,630 minus $4,570) divided by 58	4,570
November: $260,490 ($265,060 minus $4,570) divided by 57	4,570
Amortization deduction for 1955	18,710

Facility No. 2

Monthly amortization deductions:	
September: $54,000 divided by 60	$900
October: $53,100 divided by 59	900
November: $52,200 divided by 58	900
Amortization deduction for 1955	2,700
Total amortization deduction for 1955	21,410

Example (3). On June 15, 1954, the Z Corporation, which makes its income tax returns on the calendar year basis, completes the construction of an emergency facility at a cost of $110,000. In its income tax return for 1954, filed on March 15, 1955, the Z Corporation elects to take amortization deductions with respect to such facility and to begin the 60-month amortization period with July 1954, the month following its completion. No certificate with respect to such facility is made until April 10, 1955, and therefore no amortization deduction with respect to such facility is allowable for any month in the taxable year 1954. The Z Corporation is entitled, however, to take a deduction for depreciation of such facility for the taxable year 1954, such deduction being assumed, for the purposes of this example, to be $2,000. Accordingly, the adjusted basis of such facility at the end of January 1955 (without regard to the amortization deduction for such month) is $108,000 ($110,000 minus $2,000). For the taxable year 1955, the Z Corporation is, with respect to such facility, entitled to an amortization deduction of $24,000, computed as follows:

Monthly amortization deductions:	
January: $108,000 divided by 54	$2,000
February: $106,000 ($108,000 minus $2,000) divided by 53	2,000
March: $104,000 ($106,000 minus $2,000) divided by 52	2,000
For the remaining nine months (similarly computed)	18,000
Total amortization deduction for 1955	24,000

Since the Z Corporation elected in its return for 1954 to take amortization deductions with respect to such facility and to begin the 60-month amortization period with July 1954, it must compute its amortization deductions for the 12 months in the taxable year 1955 on the basis of the remaining months of the established 60-month amortization period, as indicated in the above computation.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated and amended by T.D. 8116, 51 FR 46618, Dec. 24, 1986]

§ 1.168A–2 Election of amortization.

(a) *General rule.* An election by the taxpayer to take amortization deductions with respect to an emergency facility and to begin the 60-month amortization period either with the month following the month in which such facility was completed or acquired, or with the taxable year succeeding the taxable year in which such facility was completed or acquired, shall be made by a statement to that effect in its return for the taxable year in which falls the first month of the 60-month amortization period so elected. However, if the facility is described in section 168(e)(2)(C) and an application for a certificate is filed within the period prescribed by section 9(c) of the Technical Amendments Act of 1958 (72 Stat. 1609) and paragraph (b) of § 1.168A–1, the election may be made by a statement in an amended income tax return for the taxable year in which falls the first month of the 60-month amortization period so elected. The statement and amended return in such case must be filed not later than 90 days after the date the certificate is made or not later than April 4, 1960, whichever is later. Amended income tax returns or claims for credit or refund should also be filed for other taxable years which are within such amortization period and which precede the taxable year in which the election is made. Nothing in this paragraph should be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(b) *Election not made, in prescribed manner.* If the statement of election is not made by the taxpayer as prescribed in paragraph (a) of this section, it may, in the discretion of the Commissioner and for good cause shown, be made in such manner and form and within such time as may be approved by the Commissioner.

(c) *Other requirements and considerations.* No method of making such election other than those prescribed in this section and corresponding sections of prior regulations is permitted. Any statement of election should contain a description clearly identifying each emergency facility for which an amortization deduction is claimed. A taxpayer which does not elect, in the manner prescribed in this section or corresponding sections of prior regulations, to take amortization deductions with respect to an emergency facility shall not be entitled to such deductions.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated and amended by T.D. 8116, 51 FR 46618, Dec. 24, 1986]

§ 1.168A–3 Election to discontinue amortization.

(a) If a taxpayer has elected to take amortization deductions with respect to an emergency facility, it may, after such election and prior to the expiration of the 60-month amortization period, discontinue the amortization deductions for the remainder of the 60-month period. An election to discontinue the amortization deductions shall be made by a notice in writing filed with the district director for the internal revenue district in which the return of the taxpayer is required to be filed, specifying the month as of the beginning of which the taxpayer elects to discontinue such deductions. Such notice shall be filed before the beginning of the month specified therein, and shall contain a description clearly identifying the emergency facility with respect to which the taxpayer elects to discontinue the amortization deductions. If the taxpayer so elects to discontinue the amortization deductions, it shall not be entitled to any further amortization deductions with respect to such facility.

(b) A taxpayer which thus elects to discontinue amortization deductions with respect to an emergency facility is entitled, if such facility is depreciable property under section 167 and the regulations thereunder, to a deduction for depreciation with respect to such facility. The deduction for depreciation shall begin with the first month as to which the amortization deduction is not applicable, and shall be computed on the adjusted basis of the property as of the beginning of such month (see section 1011 and the regulations thereunder).

(c) This section may be illustrated by the following example:

Example. On July 1, 1954, the X Corporation, which makes its income tax returns on the calendar year basis, purchases an emergency facility, consisting of land with a building thereon, at a cost of $306,000 of which $60,000 is allocable to the land and $246,000 to the building. The certificate covers the entire acquisition. The corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with the taxable year 1955. Depreciation of the building in the amount of $6,000 is deducted and allowed for the taxable year 1954. On March 25, 1956, the corporation files notice with the district director of its election to discontinue the amortization deductions beginning with the month of April 1956. The adjusted basis of the facility on January 31, 1955, is $300,000, or the cost of the facility ($306,000) less the depreciation allowed for 1954 ($6,000). The amortization deductions for the taxable year 1955 and the months of January, February, and March 1956, amount to $75,000, or $5,000 per month for 15 months. Since, at the beginning of the amortization period (January 1, 1955), the adjusted basis of the land ($60,000) is one-fifth of the adjusted basis of the entire facility ($300,000) and since there are no adjustments to basis other than on account of amortization during the period, the adjusted basis of the land should be reduced by $15,000, or one-fifth of the entire amortization deduction, and the adjusted basis of the building should be reduced by $60,000, or four-fifths of the entire amortization deduction. Accordingly, the adjusted basis of the facility as of April 1, 1956, is $225,000, of which $180,000 is allocable to the building for the purpose of depreciation deductions under section 167, and $45,000 is allocable to the land.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated by T.D. 8116, 51 FR 46619, Dec. 24, 1986]

§1.168A–4 Definitions.

As used in the regulations under section 168, the term—

(a) ‘‘Certifying authority’’ means the certifying authority designated by the President by Executive order.

(b) ‘‘Emergency facility’’ means any facility, land, building, machinery, or equipment, or any part thereof, the acquisition of which occurred after December 31, 1949, or the construction, reconstruction, erection, or installation of which was completed after such date, and with respect to which a certificate under section 168(e) has been made. In the case of an application for a certificate under section 168(e) which is filed after March 23, 1951, only the part of any such facility which is constructed, reconstructed, erected, or installed by any person not earlier than six months prior to the filing of such application, and which is certified in accordance with section 168(e), shall be deemed to be an emergency facility, notwithstanding that the other part of such facility was constructed, reconstructed, erected, or installed earlier than six months prior to the filing of such application. However, if the facility is one described in section 168(e)(2)(C) and the application was filed after September 1, 1958, and on or before December 2, 1958, the preceding sentence shall not apply. The term ‘‘emergency facility,’’ as so defined, may include, among other things, improvements of land, such as the construction of roads, bridges, and airstrips, and the dredging of channels.

(c) ‘‘Emergency period’’ means the period beginning on January 1, 1950, and ending on the date on which the President proclaims that the utilization of a substantial portion of the certified emergency facilities is no longer required in the interest of national defense.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated by T.D. 8116, 51 FR 46619, Dec. 24, 1986]

§1.168A–5 Adjusted basis of emergency facility.

(a) *In general.* (1) The adjusted basis of an emergency facility for the purpose of computing the amortization deduction may differ from what would otherwise constitute the adjusted basis of such emergency facility in that it shall be the adjusted basis for determining gain (see Part II (section 1011 and following), Subchapter 0, Chapter 1 of the Code) and in that it may be only a portion of what would otherwise constitute the adjusted basis. It will be only a portion of such other adjusted basis if only a portion of the basis (unadjusted) is attributable to certified construction, reconstruction, erection, installation, or acquisition taking place after December 31, 1949. Also, it will be only a portion of what would otherwise constitute the adjusted basis of the emergency facility if only a portion of the basis (unadjusted) is certified as attributable to defense purposes or, in the case of a certification after August 22, 1957, if only a portion of the basis (unadjusted) is certified as attributable to the national defense program. It is therefore necessary first to determine the unadjusted basis of the emergency facility from which the adjusted basis for amortization purposes is derived.

(2) The unadjusted basis for amortization purposes is the same as the unadjusted basis otherwise determined only when the entire construction, reconstruction, erection, installation, or acquisition takes place after December 31, 1949, and is certified in its entirety by the certifying authority.

(3) In cases in which only a portion of the construction, reconstruction, erection, installation, or acquisition takes place after December 31, 1949, and that portion is certified in its entirety by the certifying authority, the unadjusted basis for the purpose of amortization is so much of the entire unadjusted basis as is attributable to the certified construction, reconstruction, erection, installation, or acquisition which takes place after December 31, 1949. For example, the X Corporation begins the construction of a facility on November 15, 1949, and such facility is completed on April 1, 1952, at a cost of $5,000,000, of which $4,600,000 is attributable to construction after December 31, 1949. The entire construction after December 31, 1949, is certified by the certifying authority. The unadjusted basis of the emergency facility for amortization purposes is therefore $4,600,000. For depreciation of the remaining portion ($400,000) of the cost see § 1.168A–6.

(4) If the certifying authority certifies only a portion of the construction, reconstruction, erection, installation, or acquisition of property which takes place after December 31, 1949, the unadjusted basis for amortization purposes is limited to such portion so certified. Assuming the same facts as in the example in subparagraph (3) of this paragraph, except that only 50 percent of the construction, reconstruction, erection, installation, or acquisition after December 31, 1949, is certified, the unadjusted basis for amortization purposes is 50 percent of $4,600,000, or $2,300,000.

(5) The adjusted basis of an emergency facility for amortization purposes is the unadjusted basis for amortization purposes less the adjustments properly applicable thereto. Such adjustments are those specified in sections 1016 and 1017, except that no adjustments are to be taken into account which increase the adjusted basis. (See paragraph (b) of this section.) If the taxpayer constructs, reconstructs, erects, installs, or acquires an emergency facility pursuant to a cost reimbursement contract with an obligation for reimbursement by the United States of all or a part of the cost of such facility, the unadjusted basis of such facility for amortization purposes shall not include that part of the cost for which the taxpayer is entitled to reimbursement, and the amount received as reimbursement shall be treated as a capital receipt. However, amounts received by a taxpayer which represent in fact compensation by reason of termination of a government contract or payment for articles under such a contract, though denominated reimbursements for all or a part of the cost of an emergency facility, are not to be treated as capital receipts but are to be taken into account in computing income, and are therefore not to be applied in reduction of the basis of such facility.

(6) The following examples will illustrate the computation of the adjusted basis of an emergency facility for amortization purposes:

Example (1). The X Corporation completes an emergency facility on July 1, 1954, the entire unadjusted basis of which is $500,000, and the unadjusted basis of which for the purpose of amortization is $300,000. The X Corporation elects to begin amortization as of January 1, 1955. The only adjustment to basis for the period July 1, 1954, to January 31, 1955, other than depreciation or amortization for January 1955, is $5,000 for depreciation for the last six months of 1954. The adjusted basis for the purpose of amortization is therefore $300,000 less $3,000 (300,000/500,000×$5,000), or $297,000.

Example (2). On July 31, 1956, the Y Corporation has an emergency facility (a building) which was completed on July 1, 1952, the entire basis of which is $500,000 and the unadjusted basis of which for the purpose of amortization is $300,000. The corporation elected to begin amortization as of January 1, 1953, at which time it was entitled to $5,000 depreciation for the last six months of 1952. On July 1, 1956, the facility was damaged by fire, as the result of which its adjusted basis is properly reduced by $200,000. The adjusted basis of the emergency facility as of July 1956 for the purpose of amortization and depreciation, and the adjusted basis for other purposes, are $23,849.18, $49,250.82, and $73,100.00, respectively, computed as follows:

	For amortization	For depreciation	For other purposes
Unadjusted basis	$300,000.00	$200,000.00	$500,000
Less depreciation to Jan. 1, 1953	3,000.00	2,000.00	5,000
Adjusted basis January 1953	297,000.00	198,000.00	495,000
Less amortization for 42 months	207,900.00	....	207,900
Less depreciation for 42 months	....	14,000.00	14,000
Adjusted basis at time of fire	89,100.00	184,000.00	273,100
Less fire loss (apportioned as explained below)	65,250.82	134,749.18	200,000
Adjusted basis after fire loss	23,849.18	49,250.82	73,100

The $200,000 fire loss is applied against the adjusted basis for the purpose of amortization and the adjusted basis for the purpose of depreciation in the proportion that each such adjusted basis at the time of the fire bears to their sum, i.e., 89,100/273,100×$200,000 or $65,250.82, against the amortization basis, and 184,000/273,100×$200,000, or $134,749.18 against the depreciation basis.

(b) *Capital additions.* (1) If, after the completion or acquisition of an emergency facility which has been certified by the certifying authority, further expenditures are made for construction, reconstruction, erection, installation, or acquisition attributable to such facility but not covered by such certification, such expenditures shall not be added to the adjusted basis of the emergency facility for amortization purposes under such certification. If such further expenditures are separately certified in accordance with the provisions of section 168(e) (1) or (2) and this section, they are treated as certified expenditures in connection with a new and separate emergency facility and, if proper election is made, will be taken into account in computing the adjusted basis of such new and separate emergency facility for the purpose of amortization.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. On March 1, 1954, the certifying authority certifies as an emergency facility a heating plant proposed to be constructed by the Z Corporation. Such facility is completed on July 1, 1954. The Z Corporation, on August 1, 1954, begins the installation in the plant of an additional boiler, which is not included in the certification for the plant but is certified as a new and separate emergency facility. For amortization purposes, the adjusted basis of the heating plant is determined without including the cost of the additional boiler. Such cost is taken into account in computing the adjusted basis of the new and separate emergency facility (the boiler), as to which the taxpayer has a separate election for amortization purposes and a separate amortization period.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated and amended by T.D. 8116, 51 FR 46619, Dec. 24, 1986]

§1.168A–6 Depreciation of portion of emergency facility not subject to amortization.

(a) The rule that an amortization deduction with respect to an emergency facility is in lieu of any deduction for depreciation which would otherwise be allowable under section 167 is subject to the exception provided in section 168(f). Under this exception, if the property constituting such facility is depreciable property under section 167 and the regulations thereunder and if the adjusted basis of such facility as computed under section 1011 for purposes other than the amortization deductions is in excess of the adjusted basis computed for the purpose of the amortization deductions, then the excess shall be charged off over the useful life of the facility and recovered through depreciation deductions. Thus, if the construction of an emergency facility is begun on or before December 31, 1949, and completed after such date, no amortization deductions are allowable with respect to the amount attributable to such construction on or before such date (see §1.168A–5). However, if the property constituting such facility is depreciable property under section 167 and the regulations thereunder, then the depreciation deduction provided by such section and regulations is allowable with respect to the amount attributable to such construction on or before December 31, 1949.

(b) Similarly, if only a portion of the construction, reconstruction, erection, installation, or acquisition after December 31, 1949, of an emergency facility has been certified by the certifying authority, and if such facility is depreciable property under section 167 and the regulations thereunder, then the depreciation deduction provided by such section and regulations is allowable with respect to the portion which has not been so certified.

(c) For illustration of the treatment of a depreciable portion of an emergency facility, see example (2) in paragraph (a)(6) of §1.168A–5.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated and amended by T.D. 8116, 51 FR 46619, Dec. 24, 1986]

§1.168A–7 Payment by United States of unamortized cost of facility.

(a) Section 168(g) contemplates that certain payments may be made by the United States to a taxpayer as compensation for the unamortized cost of an emergency facility. If any such payment is properly includible in gross income and has been certified, as provided in section 168(g), as having been paid under the circumstances described therein, a taxpayer which is recovering the adjusted basis of an emergency facility through amortization rather than depreciation may elect to take an amount equal to such payment as an amortization deduction with respect to such facility for the month in which such payment is so includible. Such amortization deduction shall be in lieu of the amortization deduction otherwise allowable with respect to such facility for such month, but it shall not in any case exceed the adjusted basis of such facility (see §1.168A–5) as of the end of such month (computed without regard to any amortization deduction for such month). The election referred to in this paragraph shall be made in the return for the taxable year in which the amount of such payment is includible in gross income.

(b) If a taxpayer is recovering the adjusted basis of an emergency facility through depreciation rather than amortization, the depreciation deduction allowable under section 167 for the month in which the amount of any such payment is includible in gross income shall, at the taxpayer's election, be increased by such amount; but the total deduction with respect to the certified portion of such facility shall not in any case exceed the adjusted basis of such facility (computed as provided in section 168(e) and §1.168A–5 for amortization purposes) as of the end of such month (computed without regard to any amount allowable for such month under section 167 or 168(g)(2)). The election referred to in this paragraph shall be made in the return for the taxable year in which the amount of such payment is includible in gross income.

(c) This section may be illustrated by the following examples:

Example (1). On January 31, 1954, the X Corporation purchases an emergency facility at a cost of $600,000. The certificate covers the entire acquisition. The X Corporation elects to take amortization deductions with respect to such facility and to begin the 60-month amortization period with February 1954, the month following the month of acquisition. On July 15, 1955, as a result of the cancellation of certain contracts with the X Corporation, the United States makes a payment of $300,000 to the corporation as compensation for the unamortized cost of such facility. The $300,000 payment is includible in the X Corporation's gross income for July 1955. The adjusted basis of such facility for amortization purposes as of the end of July 1955, computed without regard to any amortization deduction for such month, is $430,000. Accordingly, the corporation is entitled to take an amortization deduction of $300,000 for such month, in lieu of the $10,000 amortization deduction which is otherwise allowable.

Example (2). On November 30, 1954, the Y Corporation purchases an emergency facility, consisting of land with a building thereon, at a cost of $500,000, of which $200,000 is allocable to the land and $300,000 to the building. The certificate covers the entire acquisition. The Y Corporation does not elect to take amortization deductions with respect to such facility, but is entitled to a depreciation deduction with respect to the building at the rate of 3 percent per annum, or $750 per month. On August 12, 1956, as a result of cancellation of certain contracts, the United States makes a payment of $400,000 to the corporation as compensation for the unrecovered cost of such facility. The $400,000 is includible in the Y Corporation's gross income for August 1956. The adjusted basis of the facility as of the end of August 1956, computed without regard to depreciation for such month, is $485,000, of which amount $200,000 is allocable to the land and $285,000 to the building. Accordingly, the corporation is entitled to increase the $750 depreciation deduction for August 1956 by the full amount of the $400,000 payment.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated and amended by T.D. 8116, 51 FR 46619, Dec. 24, 1986]

§1.169–1 Amortization of pollution control facilities.

(a) *Allowance of deduction*—(1) *In general.* Under section 169(a), every person, at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis (as defined in §1.169–3) of any certified pollution control facility (as defined in §1.169–2), based on a period of 60 months. Under section 169(b) and paragraph (a) of §1.169–4, the taxpayer may further elect to begin such 60-month period either with the month following the month in which the facility is completed or acquired or with the first month of the taxable year succeeding the taxable year in which such facility is completed or acquired. Under section 169(c), a taxpayer who has elected under section 169(b) to take the amortization deduction provided by section 169(a) may, at any time after making such election and prior to the expiration of the 60-month amortization period, elect to discontinue the amortization deduction for the remainder of the 60-month period in the manner prescribed in paragraph (b)(1) of §1.169–4. In addition, if on or before May 18, 1971, an election under section 169(a) has been made, consent is hereby given to revoke such election without the consent of the Commissioner in the manner prescribed in (b)(2) of §1.169–4.

(2) *Amount of deduction.* With respect to each month of such 60-month period which falls within the taxable year, the amortization deduction shall be an amount equal to the amortizable basis of the certified pollution control facility at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in such 60-month period. The amortizable basis at the end of any month shall be computed without regard to the amortization deduction for such month. The total amortization deduction with respect to a certified pollution control facility for a taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year. If a certified pollution control facility is sold or exchanged or otherwise disposed of during 1 month, the amortization deduction (if any) allowable to the original holder in respect of such month shall be that portion of the amount to which such person would be entitled for a full month which the number of days in such month during which the facility was held by such person bears to the total number of days in such month.

(3) *Effect on other deductions.* (i) The amortization deduction provided by section 169 with respect to any month shall be in lieu of the depreciation deduction which would otherwise be allowable under section 167 or a deduction in lieu of depreciation which would otherwise be allowable under paragraph (b) of §1.162–11 for such month.

(ii) If the adjusted basis of such facility as computed under section 1011 for purposes other than the amortization deduction provided by section 169 is in excess of the amortizable basis, as computed under §1.169–3, such excess shall be recovered through depreciation deductions under the rules of section 167. See section 169(g).

(iii) See section 179 and paragraph (e)(1)(ii) of §1.179–1 and paragraph (b)(2) of §1.169–3 for additional first-year depreciation in respect of a certified pollution control facility.

(4) [Reserved]

(5) *Special rules.* (i) In the case of a certified pollution control facility held by one person for life with the remainder to another person, the amortization deduction under section 169(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(ii) If the assets of a corporation which has elected to take the amortization deduction under section 169(a) are acquired by another corporation in a transaction to which section 381 (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the distributor or transferor corporation for purposes of this section.

(iii) For the right of estates and trusts to amortize pollution control facilities see section 642(f) and §1.642 (f)–1. For the allowance of the amortization deduction in the case of pollution control facilities of partnerships, see section 703 and §1.703–1.

(6) *Depreciation subsequent to discontinuance or in the case of revocation of amortization.* A taxpayer which elects in the manner prescribed under paragraph (b) (1) of §1.169–4 to discontinue amortization deductions or under paragraph (b) (2) of §1.169–4 to revoke an election under section 169(a) with respect to a certified pollution control facility is entitled, if such facility is of a character subject to the allowance for depreciation provided in section 167, to a deduction for depreciation (to the extent allowable) with respect to such facility. In the case of an election to discontinue an amortization deduction, the deduction for depreciation shall begin with the first month as to which such amortization deduction is not applicable and shall be computed on the adjusted basis of the property as of the beginning of such month (see section 1011 and the regulations thereunder). Suchdepreciation deduction shall be based upon the remaining portion of the period authorized under section 167 for the facility as determined, as of the first day of the first month as of which the amortization deduction is not applicable. If the taxpayer so elects to discontinue the amortization deduction under section 169(a), such taxpayer shall not be entitled to any further amortization deduction under this section and section 169(a) with respect to such pollution control facility. In the case of a revocation of an election under section 169(a), the deduction for depreciation shall begin as of the time such depreciation deduction would have been taken but for the election under section 169(a). See paragraph (b)(2) of §1.169–4 for rules as to filing amended returns for years for which amortization deductions have been taken.

(7) *Definitions.* Except as otherwise provided in §1.169–2, all terms used in section 169 and the regulations thereunder shall have the meaning provided by this section and §§1.169–2 through 1.169–4.

(b) *Examples.* This section may be illustrated by the following examples:

Example (1). On September 30, 1970, the X Corporation, which uses the calendar year as its taxable year, completes the installation of a facility all of which qualifies as a certified pollution control facility within the meaning of paragraph (a) of §1.169–2. The cost of the facility is $120,000 and the period referred to in paragraph (a)(6) of §1.169–2 is 10 years in accordance with the rules set forth in paragraph (a) of §1.169–4, on its income tax return filed for 1970, X elects to take amortization deductions under section 169(a) with respect to the facility and to begin the 60-month amortization period with October 1970, the month following the month in which it was completed. The amortizable basis at the end of October 1970 (determined without regard to the amortization deduction under section 169(a) for that month) is $120,000. The allowable amortization deduction with respect to such facility for the taxable year 1970 is $6,000, computed as follows:

Monthly amortization deductions:	
October: $120,000 divided by 60	$2,000
November: $118,000 (that is, $120,000 minus $2,000) divided by 59	2,000
December: $116,000 (that is, $118,000 minus $2,000) divided by 58	2,000
Total amortization deduction for 1970	6,000

Example (2). Assume the same facts as in example (1). Assume further that on May 20, 1972, X properly files notice of its election to discontinue the amortization deductions with the month of June 1972. The adjusted basis of the facility as of June 1, 1972, is $80,000, computed as follows:

Yearly amortization deductions:	
1970 (as computed in example (1))	$6,000
1971 (computed in accordance with example (1))	24,000
1972 (for the first 5 months of 1972 computed in accordance with example (1))	10,000
Total amortization deductions for 20 months	40,000
Adjusted basis as beginning of amortization period	120,000
Less: Amortization deductions	40,000
Adjusted basis as of June 1, 1972	80,000

Beginning as of June 1, 1972, the deduction for depreciation under section 167 is allowable with respect to the property on its adjusted basis of $80,000.

[T.D. 7116, 36 FR 9012, May 18, 1971; 36 FR 9770, May 28, 1971, as amended by T.D. 7203, 37 FR 17133, Aug. 25, 1972]

§1.169–2 Definitions.

(a) *Certified pollution control facility*—(1) *In general.* Under section 169 (d), the term ''certified pollution control facility'' means a facility which—

(i) The Federal certifying authority certifies, in accordance with the rules prescribed in paragraph (c) of this section, is a ''treatment facility'' described in subparagraph (2) of this paragraph, and

(ii) Is ''a new identifiable facility'' (as defined in paragraph (b) of this section).

For profitmaking abatement works limitation, see paragraph (d) of this section.

(2) *Treatment facility.* For purposes of subparagraph (1)(i) of this paragraph, a ''treatment facility'' is a facility which (i) is used to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, or storing of pollutants, contaminants, wastes, or heat and (ii) is used in connection with a plant or other property in operation before January 1, 1969. Determinations under subdivision (i) of this subparagraph shall be made solely by the Federal certifying authority. See subparagraph (3) of this paragraph. For meaning of the phrases ''plant or other property'' and ''in operation before January 1, 1969,'' see subparagraphs (4) and (5), respectively, of this paragraph.

(3) *Facilities performing multiple functions or used in connection with several plants, etc.* (i) If a facility is designed to perform or does perform a function in addition to abating or controlling water or atmospheric pollution or contamination by removing, altering, disposing or storing pollutants, contaminants, wastes, or heat, such facility shall be a treatment facility only with respect to that part of the cost thereof which is certified by the Federal certifying authority as attributable to abating of controlling water or atmospheric pollution or contamination. For example, if a machine which performs a function in addition to abating water pollution is installed at a cost of $100,000 in, and is used only in connection with, a plant which was in operation before January 1, 1969, and if the Federal certifying authority certifies that $30,000 of the cost of such machine is allocable to its function of abating water pollution, such $30,000 will be deemed to be the adjusted basis for purposes of determining gain for purposes of paragraph (a) of §1.169–3.

(ii) If a facility is used in connection with more than one plant or other property, and at least one such plant or other property was not in operation before January 1, 1969, such facility shall be a treatment facility only to the extent of that part of the cost thereof certified by the Federal certifying authority as attributable to abating or controlling water or atmospheric pollution in connection with plants or other property in operation before January 1, 1969. For example, if a machine is constructed after December 31, 1968, at a cost of $100,000 and is used in connection with a number of plants only some of which were in operation before January 1, 1969, and if the Federal certifying authority certifies that $20,000 of the cost of such machine is allocable to its function of abating or controlling water pollution in connection with the plants or other property in operation before January 1, 1969, such $20,000 will be deemed to be the adjusted basis for purposes of determining gain for purposes of paragraph (a) of §1.169–3. In a case in which the Federal certifying authority certifies the percentage of a facility which is used in connection with plants or other property in operation before January 1, 1969, the adjusted basis for the purposes of determining gain for purposes of paragraph (a) of §1.169–3 of the portion of the facility so used shall be the adjusted basis for determining gain of the entire facility multiplied by such percentage.

(4) *Plant or other property.* As used in subparagraph (2) of this paragraph, the phrase ''plant or other property'' means any tangible property whether or not such property is used in the trade or business or held for the production of income. Such term includes,

for example, a papermill, a motor vehicle, or a furnace in an apartment house.

(5) *In operation before January 1, 1969.* (i) For purposes of subparagraph (2) of this paragraph and section 169 (d), a plant or other property will be considered to be in operation before January 1, 1969, if prior to that date such plant or other property was actually performing the function for which it was constructed or acquired. For example, a papermill which is completed in July 1968, but which is not actually used to produce paper until 1969 would not be considered to be in operation before January 1, 1969. The fact that such plant or other property was only operating at partial capacity prior to January 1, 1969, or was being used as a standby facility prior to such date, shall not prevent its being considered to be in operation before such date.

(ii)*(a)* A piece of machinery which replaces one which was in operation prior to January 1, 1969, and which was a part of the manufacturing operation carried on by the plant but which does not substantially increase the capacity of the plant will be considered to be in operation prior to January 1, 1969. However, an additional machine that is added to a plant which was in operation before January 1, 1969, and which represents a substantial increase in the plant's capacity will not be considered to have been in operation before such date. There shall be deemed to be a substantial increase in the capacity of a plant or other property as of the time its capacity exceeds by more than 20 percent its capacity on December 31, 1968.

(b) In addition, if the total replacements of equipment in any single taxable year beginning after December 31, 1968, represents the replacement of a substantial portion of a manufacturing plant which had been in operation before such date, such replacement shall be considered to result in a new plant which was not in operation before such date. Thus, if a substantial portion of a plant which was in existence before January 1, 1969, is subsequently destroyed by fire and such substantial portion is replaced in a taxable year beginning after that date, such replacement property shall not be considered to have been in operation before January 1, 1969. The replacement of a substantial portion of a plant or other property shall be deemed to have occurred if, during a single taxable year, the taxpayer replaces manufacturing or production facilities or equipment which comprises such plant or other property and which has an adjusted basis (determined without regard to the adjustments provided in section 1016(a) (2) and (3)) in excess of 20 percent of the adjusted basis (so determined) of such plant or other property determined as of the first day of such taxable year.

(6) *Useful life.* For purposes of section 169 and the regulations thereunder, the terms ''useful life'' and ''actual useful life'' shall mean the shortest period authorized under section 167 and the regulations thereunder if an election were not made under section 169.

(b) *New identifiable facility*—(1) *In general.* For purposes of paragraph (a)(1)(ii) of this section, the term ''new identifiable facility'' includes only tangible property (not including a building and its structural components referred to in subparagraph (2) (i) of this paragraph, other than a building and its structural components which under subparagraph (2) (ii) of this paragraph is exclusively a treatment facility) which—

(i) Is of a character subject to the allowance for depreciation provided in section 167,

(ii)*(a)* Is property the construction, reconstruction, or erection (as defined in subparagraph (2) (iii) of this paragraph) of which is completed by the taxpayer after December 31, 1968, or

(b) Is property acquired by the taxpayer after December 31, 1968, if the original use of the property commences with the taxpayer and commences after such date (see subparagraph (2) (iii) of this paragraph), and

(iii) Is placed in service (as defined in subparagraph (2) (v) of this paragraph) prior to January 1, 1975.

(2) *Meaning of terms.* (i) For purposes of subparagraph (1) of this paragraph, the terms ''building'' and ''structural component'' shall be construed in a manner consistent with the principles set forth in paragraph (e) of § 1.48–1.

Thus, for example, the following rules are applicable:

(a) The term ‘‘building’’ generally means any structure or edifice enclosing a space within its walls, and usually covered by a roof, the purpose of which is, for example, to provide shelter or housing, or to provide working, office, parking, display, or sales space. The term includes, for example, structures such as apartment houses, factory and office buildings, warehouses, barns, garages, railway or bus stations, and stores. Such term includes any such structure constructed by, or for, a lessee even if such structure must be removed, or ownership of such structure reverts to the lessor, at the termination of the lease. Such term does not include (*1*) a structure which is essentially an item of machinery or equipment, or (*2*) an enclosure which is so closely combined with the machinery or equipment which it supports, houses, or serves that it must be replaced, retired, or abandoned contemporaneously with such machinery or equipment, and which is depreciated over the life of such machinery or equipment. Thus, the term ‘‘building’’ does not include such structures as oil and gas storage tanks, grain storage bins, silos, fractioning towers, blast furnaces, coke ovens, brick kilns, and coal tipples.

(b) The term ‘‘structural components’’ includes, for example, chimneys, and other components relating to the operating or maintenance of a building. However, the term ‘‘structural components’’ does not include machinery or a device which serves no function other than the abatement or control of water or atmospheric pollution.

(ii) For purposes of subparagraph (1) of this paragraph, a building and its structural components will be considered to be exclusively a treatment facility if its only function is the abatement or control of air or water pollution. However, the incidental recovery of profits from wastes or otherwise shall not be deemed to be a function other than the abatement or control of air or water pollution. A building and its structural components which serve no function other than the treatment of wastes will be considered to be exclusively a treatment facility even if it contains areas for employees to operate the treatment facility, rest rooms for such workers, and an office for the management of such treatment facility. However, for example, if a portion of a building is used for the treatment of sewage and another portion of the building is used for the manufacture of machinery, the building is not exclusively a treatment facility. The Federal certifying authority will not certify as to what is a building and its structural components within the meaning of subdivision (i) of this subparagraph.

(iii) For purposes of subparagraph (1)(ii) *(a)* and *(b)* of this paragraph (relating to construction, reconstruction, or erection after December 31, 1968, and original use after December 31, 1968) and paragraph (b)(1) of § 1.169–3 (relating to definition of amortizable basis), the principles set forth in paragraph (a) (1) and (2) of § 1.167(c)–1 and in paragraphs (b) and (c) of § 1.48–2 shall be applied. Thus, for example, the following rules are applicable:

(a) Property is considered as constructed, reconstructed, or erected by the taxpayer if the work is done for him in accordance with his specifications.

(b) The portion of the basis of property attributable to construction, reconstruction, or erection after December 31, 1968, consists of all costs of construction, reconstruction, or erection allocable to the period after December 31, 1968, including the cost or other basis of materials entering into such work (but not including, in the case of reconstruction of property, the adjusted basis of the property as of the time such reconstruction is commenced).

(c) It is not necessary that materials entering into construction, reconstruction or erection be acquired after December 31, 1968, or that they be new in use.

(d) If construction or erection by the taxpayer began after December 31, 1968, the entire cost or other basis of such construction or erection may be taken into account for purposes of determining the amortizable basis under section 169.

(e) Construction, reconstruction, or erection by the taxpayer begins when physical work is started on such construction, reconstruction, or erection.

(f) Property shall be deemed to be acquired when reduced to physical possession or control.

(g) The term ''original use'' means the first use to which the property is put, whether or not such use corresponds to the use of such property by the taxpayer. For example, a reconditioned or rebuilt machine acquired by the taxpayer after December 31, 1968, for pollution control purposes will not be treated as being put to original use by the taxpayer regardless of whether it was used for purposes other than pollution control by its previous owner. Whether property is reconditioned or rebuilt property is a question of fact. Property will not be treated as reconditioned or rebuilt merely because it contains some used parts.

(iv) For purposes of subparagraph (1)(iii) of this paragraph (relating to property placed in service prior to January 1, 1975), the principles set forth in paragraph (d) of § 1.46–3 are applicable. Thus, property shall be considered placed in service in the earlier of the following taxable years:

(a) The taxable year in which, under the taxpayer's depreciation practice, the period for depreciation with respect to such property begins or would have begun; or

(b) The taxable year in which the property is placed in a condition or state of readiness and availability for the abatement or control of water or atmospheric pollution.

Thus, if property meets the conditions of *(b)* of this subdivision in a taxable year, it shall be considered placed in service in such year notwithstanding that the period for depreciation with respect to such property begins or would have begun in a succeeding taxable year because, for example, under the taxpayer's depreciation practice such property is or would have been accounted for in a multiple asset account and depreciation is or would have been computed under an ''averaging convention'' (§ 1.167(a)–10), or depreciation with respect to suchproperty would have been computed under the completed contract method, the unit of production method, or the retirement method. In the case of property acquired by a taxpayer for use in his trade or business (or in the production of income), property shall be considered in a condition or state of readiness and availability for the abatement or control of water or atmospheric pollution if, for example, equipment is acquired for the abatement or control of water or atmospheric pollution and is operational but is undergoing testing to eliminate any defects. However, materials and parts acquired to be used in the construction of an item of equipment shall not be considered in a condition or state of readiness and availability for the abatement or control of water or atmospheric pollution.

(c) *Certification*—(1) *In general.* For purposes of paragraph (a)(1) of this section, a facility is certified in accordance with the rules prescribed in this paragraph if—

(i) The State certifying authority (as defined in subparagraph (2) of this paragraph) having jurisdiction with respect to such facility has certified to the Federal certifying authority (as defined in subparagraph (3) of this paragraph) that the facility was constructed, reconstructed, erected, or acquired in conformity with the State program or requirements for the abatement or control of water or atmospheric pollution or contamination applicable at the time of such certification, and

(ii) The Federal certifying authority has certified such facility to the Secretary or his delegate as *(a)* being in compliance with the applicable regulations of Federal agencies (such as, for example, the Atomic Energy Commission's regulations pertaining to radiological discharge (10 CFR Part 20)) and *(b)* being in furtherance of the general policy of the United States for cooperation with the States in the prevention and abatement of water pollution under the Federal Water Pollution Control Act, as amended (33 U.S.C. 1151–1175) or in the prevention and abatement of atmospheric pollution and contamination under the Clean Air Act, as amended (42 U.S.C. 1857 et seq.).

(2) *State certifying authority.* The term ''state certifying authority'' means—

(i) In the case of water pollution, the State water pollution control agency as defined in section 23(a) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1173(a)),

(ii) In the case of air pollution, the air pollution control agency designated pursuant to section 302(b)(1) of the Clean Air Act, as amended (42 U.S.C. 1857h(b)), and

(iii) Any interstate agency authorized to act in place of a certifying authority of a State. See section 23(a) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1173(b)) and section 302(c) of the Clean Air Act, as amended (42 U.S.C. 1857h(c)).

(3) *Federal certifying authority.* The term ‘‘Federal certifying authority’’ means the Administrator of the Environmental Protection Agency (see Reorganization Plan No. 3 of 1970, 35 FR 15623).

(d) *Profitmaking abatement works, etc.*—(1) *In general.* Section 169(e) provides that the Federal certifying authority shall not certify any property to the extent it appears that by reason of estimated profits to be derived through the recovery of wastes or otherwise in the operation of such property its costs will be recovered over the period referred to in paragraph (a) (6) of this section for such property. The Federal certifying authority need not certify the amount of estimated profits to be derived from such recovery of wastes or otherwise with respect to such facility. Such estimated profits shall be determined pursuant to subparagraph (2) of this paragraph. However, the Federal certifying authority shall certify—

(i) Whether, in connection with any treatment facility so certified, there is potential cost recovery through the recovery of wastes or otherwise, and

(ii) A specific description of the wastes which will be recovered, or the nature of such cost recovery if otherwise than through the recovery of wastes.

For effect on computation of amortizable basis, see paragraph (c) of §1.169–3.

(2) *Estimated profits.* For purpose of this paragraph, the term ‘‘estimated profits’’ means the estimated gross receipts from the sale of recovered wastes reduced by the sum of the (i) estimated average annual maintenance and operating expenses, including utilities and labor, allocable to that portion of the facility which is certified as a treatment facility pursuant to paragraph (a)(1)(i) of this section which produces the recovered waste from which the gross receipts are derived, and (ii) estimated selling expenses. However, in determining expenses to be subtracted neither depreciation nor amortization of the facility is to be taken into account. Estimated profits shall not include any estimated savings to the taxpayer by reason of the taxpayer’s reuse or recycling of wastes or other items recovered in connection with the operation of the plant or other property served by the treatment facility.

(3) *Special rules.* The estimates of cost recovery required by subparagraph (2) of this paragraph shall be based on the period referred to in paragraph (a)(6) of this section. Such estimates shall be made at the time the election provided for by section 169 is made and shall also be set out in the application for certification made to the Federal certifying authority. There shall be no redetermination of estimated profits due to unanticipated fluctuations in the market price for wastes or other items, to an unanticipated increase or decrease in the costs of extracting them from the gas or liquid released, or to other unanticipated factors or events occurring after certification.

[T.D. 7116, 36 FR 9013, May 18, 1971; 36 FR 9770, May 28, 1971]

§1.169–3 Amortizable basis.

(a) *In general.* The amortizable basis of a certified pollution control facility for the purpose of computing the amortization deduction under section 169 is the adjusted basis of such facility for purposes of determining gain (see Part II (section 1011 and following) Subchapter O, Chapter 1 of the Code), as modified by paragraphs (b), (c), and (d) of this section. For the adjusted basis for purposes of determining gain (computed without regard to such modifications) of a facility which performs a function in addition to pollution control, or which is used in connection with more than one plant or other property, or both, see paragraph (a)(3) of §1.169–2. For rules as to additions and improvements to such a facility, see paragraph (f) of this section.

(b) *Limitation to post-1968 construction, reconstruction, or erection.* (1) If the construction, reconstruction, or erection was begun before January 1, 1969, there shall be included in the amortizable basis only so much of the adjusted basis of such facility for purposes of determining gain (referred to in paragraph (a) of this section) as is properly attributable under the rules set forth in paragraph (b)(2)(iii) of § 1.169–2 to construction, reconstruction, or erection after December 31, 1968. See section 169 (d)(4). For example, assume a certified pollution control facility for which the shortest period authorized under section 167 is 10 years has a cost of $500,000, of which $450,000 is attributable to construction after December 31, 1968. Further, assume such facility does not perform a function in addition to pollution control and is used only in connection with a plant in operation before January 1, 1969. The facility would have an amortizable basis of $450,000 (computed without regard to paragraphs (c) and (d) of this section). For depreciation of the remaining portion ($50,000) of the cost, see section 169(g) and paragraph (a)(3)(ii) of § 1.169–1. For the definition of the term ''certified pollution control facility'' see paragraph (a) of § 1.169–2.

(2) If the taxpayer elects to begin the 60-month amortization period with the first month of the taxable year succeeding the taxable year in which such facility is completed or acquired and a depreciation deduction is allowable under section 167 (including an additional first-year depreciation allowance under section 179) with respect to the facility for the taxable year in which it is completed or acquired, the amount determined under subparagraph (1) of this paragraph shall be reduced by an amount equal to (i) the amount of such allowable depreciation multiplied by (ii) a fraction the numerator of which is the amount determined under subparagraph (1) of this paragraph, and the denominator of which is its total cost. The additional first-year allowance for depreciation under section 179 will be allowable only for the year in which the facility is completed or acquired and only if the taxpayer elects to begin the amortization deduction under section 169 with the taxable year succeeding the taxable year in which such facility is completed or acquired. See paragraph (e)(1)(ii) of § 1.179–1.

(c) *Modification for profitmaking abatement works, etc.* If it appears that by reason of estimated profits to be derived through the recovery of wastes or otherwise (as determined by applying the rules prescribed in paragraph (d) of § 1.169–2) a portion or all of the total costs of the certified pollution control facility will be recovered over the period referred to in paragraph (a)(b) of § 1.169–2, its amortizable basis (computed without regard to this paragraph and paragraph (d) of this section) shall be reduced by an amount equal to (1) its amortizable basis (so computed) multiplied by (2) a fraction the numerator of which is such estimated profits and the denominator of which is its adjusted basis for purposes of determining gain. See section 169(e).

(d) *Cases in which the period referred to in paragraph (a)(6) of § 1.169–2 exceeds 15 years.* If as to a certified pollution control facility the period referred to in paragraph (a)(6) of § 1.169–2 exceeds 15 years (determined as of the first day of the first month for which a deduction is allowable under the election made under the section 169(b) and paragraph (a) of § 1.169–4), the amortizable basis of such facility shall be an amount equal to (1) its amortizable basis (computed without regard to this paragraph) multiplied by (2) a fraction the numerator of which is 15 years and the denominator of which is the number of years of such period. See section 169(f) (2)(A).

(e) *Examples.* This section may be illustrated by the following example:

Example (1). The X Corporation, which uses the calendar year as its taxable year, began the installation of a facility on November 1, 1968, and completed the installation on June 30, 1970, at a cost of $400,000. All of the facility qualifies as a certified pollution control facility within the meaning of paragraph (a) of § 1.169–2. $40,000 of such cost is attributable to construction prior to January 1, 1969. The X Corporation elects to take amortization deductions under section 169(a) with respect to the facility and to begin the 60-month amortization period with January 1, 1971. The corporation takes a depreciation deduction under sections 167 and 179 of $10,000 (the amount allowable, of which $2,000 is for additional first year depreciation under section 179) for the last 6 months of 1970. It is estimated that over the period referred to in paragraph (a) (6) of §1.169–2 (20 years) as to such facility, $80,000 in profits will be realized from the sale of wastes recovered in its operation. The amortizable basis of the facility for purposes of computing the amortization deduction as of January 1, 1971, is $210,600, computed as follows:

(1) Portion of $400,000 cost attributable to post-1968 construction, reconstruction, or erection ...		$360,000
(2) Reduction for portion of depreciation deduction taken for the taxable year in which the facility was completed:		
(a) $10,000 depreciation deduction taken for last 6 months of 1970 including $2,000 for additional first year depreciation under section 179	$10,000	
(b) Multiplied by the amount in line (1) and divided by the total cost of the facility ($360,000/ $400,000)	0.9	$9,000
(3) Subtotal		$351,000
(4) Modification for profitmaking abatement works: Multiply line (3) by estimated profits through waste recovery ($80,000) and divide by the adjusted basis for determining gain of the facility ($400,000).		
(5) Reduction		$70,200
(6) Subtotal		$280,800
(7) Modification for period referred to in paragraph (a)(6) of §1.169–2 exceeding 15 years: Multiply by 15 years and divide by such period (determined in accordance with paragraph (d) of this section) (20 years)		0.75
(8) Amortizable basis		$210,600

Example (2). Assume the same facts as in example (1) except that the facility is used in connection with a number of separate plants some of which were in operation before January 1, 1969, that the Federal certifying authority certifies that 80 percent of the capacity of the facility is allocable to the plants which were in operation before such date, and that all of the waste recovery is allocable to the portion of the facility used in connection with the plants in operation before January 1, 1969. The amortizable basis of such facility, for purposes of computing the amortization deduction as of January 1, 1971, is $157,950 computed as follows:

(1) Adjusted basis for purposes of determining gain: Multiply percent certified as allocable to plants in operation before January 1, 1969 (80 percent) by cost of entire facility ($400,000)		$320,000
(2) Portion of adjusted basis for determining gain attributable to post-1968 construction, reconstruction, or rection: Multiply line (1) by portion of total cost of facility attributable to post-1968 construction, reconstruction, or erection ($360,000) and divide by the total cost of the facility ($400,000)		$288,000
(3) Reduction for portion of depreciation deduction taken for the taxable year in which the facility was completed:		
(a) $10,000 depreciation deduction taken for last 6 months of 1970 including $2,000 for additional first year depreciation under section 170	$10,000	
(b) Multiplied by the amount in line (2) and divided by the total cost of the facility ($288,000/$400,000)	0.72	$7,200
(4) Subtotal		$280,800
(5) Modification for profitmaking abatement works; Multiply line (4) by estimated profits through waste recovery ($80,000) and divide by the amount in line (1) ($320,000).		
(6) Reduction		$70,200
(7) Subtotal		$210,600
(8) Modification for period referred to in paragraph (a)(6) of §1.169–2 exceeding 15 years: Multiply by 15 years and divide by such period (determined in accordance with paragraph (d) of this section) (20 years)		0.75
(9) Amortizable basis		$157,950

(f) *Additions or improvements.* (1) If after the completion or acquisition of a certified pollution control facility further expenditures are made for additional construction, reconstruction, or improvements, the cost of such additions or improvements made prior to the beginning of the amortization period shall increase the amortizable basis of such facility, but the cost of additions or improvements made after the amortization period has begun, shall not increase the amortizable basis. See section 169(f)(2)(B).

(2) If expenditures for such additional construction, reconstruction, or improvements result in a facility which is new and is separately certified as a certified pollution control facility as defined in section 169(d)(1) and paragraph (a) of §1.169–2, and, if proper election is made, such expenditures shall be taken into account in computing under paragraph (a) of this section the amortizable basis of such new and separately certified pollution control facility.

[T.D. 7116, 36 FR 9015, May 18, 1971; 36 FR 9770, May 28, 1971]

§1.169–4 Time and manner of making elections.

(a) *Election of amortization*—(1) *In general.* Under section 169(b), an election by the taxpayer to take an amortization deduction with respect to a certified pollution control facility and to begin the 60-month amortization period (either with the month following the month in which the facility is completed or acquired, or with the first month of the taxable year succeeding the taxable year in which such facility is completed or acquired) shall be made by a statement to that effect attached to its return for the taxable year in which falls the first month of the 60-month amortization period so elected. Such statement shall include the following information (if not otherwise included in the documents referred to in subdivision (ix) of this subparagraph):

(i) A description clearly identifying each certified pollution control facility for which an amortization deduction is claimed;

(ii) The date on which such facility was completed or acquired (see paragraph (b)(2)(iii) of §1.169–2);

(iii) The period referred to in paragraph (a)(6) of §1.169–2 for the facility as of the date the property is placed in service;

(iv) The date as of which the amortization period is to begin;

(v) The date the plant or other property to which the facility is connected began operating (see paragraph (a)(5) of §1.169–2);

(vi) The total costs and expenditures paid or incurred in the acquisition, construction, and installation of such facility;

(vii) A description of any wastes which the facility will recover during the course of its operation, and a reasonable estimate of the profits which will be realized by the sale of such wastes whether pollutants or otherwise, over the period referred to in paragraph (a)(6) of §1.169–2 as to the facility. Such estimate shall include a schedule setting forth a detailed computation illustrating how the estimate was arrived at including every element prescribed in the definition of estimated profits in paragraph (d)(2) of §1.169–2;

(viii) A computation showing the amortizable basis (as defined in §1.169–3) of the facility as of the first month for which the amortization deduction provided for by section 169(a) is elected; and

(ix)*(a)* A statement that the facility has been certified by the Federal certifying authority, together with a copy of such certification, and a copy of the application for certification which was filed with and approved by the Federal certifying authority or *(b)*, if the facility has not been certified by the Federal certifying authority, a statement that application has been made to the proper State certifying authority (see paragraph (c)(2) of §1.169–2) together with a copy of such application and (except in the case of an election to which subparagraph (4) of this paragraph applies) a copy of the application filed or to be filed with the Federal certifying authority.

If subdivision (ix)*(b)* of this subparagraph applies, within 90 days after receipt by the taxpayer, the certification from the Federal certifying authority shall be filed by the taxpayer with the district director, or with the director of the internal revenue service center, with whom the return referred to in this subparagraph was filed.

(2) *Special rule.* If the return for the taxable year in which falls the first month of the 60-month amortization period to be elected is filed before November 16, 1971, without making the election for such year, then on or before December 31, 1971 (or if there is no State certifying authority in existence on November 16, 1971, on or before the 90th day after such authority is established), the election may be made by a statement attached to an amended income tax return for the taxable year in which falls the first month of the 60-month amortization period so elected. Amended income tax returns or claims for credit or refund must also be filed at this time for other taxable years which are within the amortization period and which are subsequent to the taxable year for which the election is made. Nothing in this paragraph should be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(3) *Other requirements and considerations.* No method of making the election provided for in section 169(a) other than that prescribed in this section shall be permitted on or after May 18, 1971. A taxpayer which does not elect in the manner prescribed in this section to take amortization deductions

with respect to a certified pollution control facility shall not be entitled to such deductions. In the case of a taxpayer which elects prior to May 18, 1971, the statement required by subparagraph (1) of this paragraph shall be attached to its income tax return for either its taxable year in which December 31, 1971, occurs or its taxable year preceding such year.

(4) *Elections filed before February 29, 1972.* If a statement of election required by subparagraph (1) of this paragraph is attached to a return (including an amended return referred to in subparagraph (2) of this paragraph) filed before February 29, 1972, such statement of election need not include a copy of the Federal application to be filed with the Federal certifying authority but a copy of such application must be filed no later than February 29, 1972, by the taxpayer with the district director, or with the director of the internal revenue service center, with whom the return or amended return referred to in this subparagraph was filed.

(b) *Election to discontinue or revoke amortization*—(1) *Election to discontinue.* An election to discontinue the amortization deduction provided by section 169(c) and paragraph (a)(1) of §1.169–1 shall be made by a statement in writing filed with the district director, or with the director of the internal revenue service center, with whom the return of the taxpayer is required to be filed for its taxable year in which falls the first month for which the election terminates. Such statement shall specify the month as of the beginning of which the taxpayer elects to discontinue such deductions. Unless the election to discontinue amortization is one to which subparagraph (2) of this paragraph applies, such statement shall be filed before the beginning of the month specified therein. In addition, such statement shall contain a description clearly identifying the certified pollution control facility with respect to which the taxpayer elects to discontinue the amortization deduction, and, if a certification has previously been issued, a copy of the certification by the Federal certifying authority. If at the time of such election a certification has not been issued (or if one has been issued it has not been filed as provided in paragraph (a)(1) of this section), the taxpayer shall file, with respect to any taxable year or years for which a deduction under section 169 has been taken, a copy of such certification within 90 days after receipt thereof. For purposes of this paragraph, notification to the Secretary or his delegate from the Federal certifying authority that the facility no longer meets the requirements under which certification was originally granted by the State or Federal certifying authority shall have the same effect as a notice from the taxpayer electing to terminate amortization as of the month following the month such facility ceased functioning in accordance with such requirements.

(2) *Revocation of elections made prior to May 18, 1971.* If on or before May 18, 1971, an election under section 169(a) has been made, such election may be revoked (see paragraph (a)(1) of §1.169–1) by filing on or before August 16, 1971, a statement of revocation of an election under section 169(a) in accordance with the requirements in subparagraph (1) of this paragraph for filing a notice to discontinue an election. If such election to revoke is for a period which falls within one or more taxable years for which an income tax return has been filed, amended income tax returns shall be filed for any such taxable years in which deductions were taken under section 169 on or before August 16, 1971.

[T.D. 7116, 36 FR 9016, May 18, 1971, as amended by T.D. 7135, 36 FR 14183, July 31, 1971; 36 FR 24995, Dec. 28, 1971]

SUBCHAPTER A—INCOME TAX (Continued)

PART 1—INCOME TAXES

Normal Taxes and Surtaxes (Continued)

COMPUTATION OF TAXABLE INCOME (Continued)

ITEMIZED DEDUCTIONS FOR INDIVIDUALS AND CORPORATIONS (CONTINUED)

Sec.
1.170–0 Effective dates.
1.170–1 Charitable, etc., contributions and gifts; allowance of deduction (before amendment by Tax Reform Act of 1969).
1.170–2 Charitable deductions by individuals; limitations (before amendment by Tax Reform Act of 1969).
1.170–3 Contributions or gifts by corporations (before amendment by Tax Reform Act of 1969).
1.170A–1 Charitable, etc., contributions and gifts; allowance of deduction.
1.170A–2 Amounts paid to maintain certain students as members of the taxpayer's household.
1.170A–3 Reduction of charitable contribution for interest on certain indebtedness.
1.170A–4 Reduction in amount of charitable contributions of certain appreciated property.
1.170A–4A Special rule for the deduction of certain charitable contributions of inventory and other property.
1.170A–5 Future interests in tangible personal property.
1.170A–6 Charitable contributions in trust.
1.170A–7 Contributions not in trust of partial interests in property.
1.170A–8 Limitations on charitable deductions by individuals.
1.170A–9 Definition of section 170(b)(1)(A) organization.
1.170A–10 Charitable contributions carryovers of individuals.
1.170A–11 Limitation on, and carryover of, contributions by corporations.
1.170A–12 Valuation of a remainder interest in real property for contributions made after July 31, 1969.
1.170A–13 Recordkeeping and return requirements for deductions for charitable contributions.
1.170A–14 Qualified conservation contributions.
1.171–1 Bond premium.
1.171–2 Amortization of bond premium.
1.171–3 Special rules for certain bonds.
1.171–4 Election to amortize bond premium on taxable bonds.
1.171–5 Effective date and transition rules.
1.172–1 Net operating loss deduction.
1.172–2 Net operating loss in case of a corporation.
1.172–3 Net operating loss in case of a taxpayer other than a corporation.
1.172–4 Net operating loss carrybacks and net operating loss carryovers.
1.172–5 Taxable income which is subtracted from net operating loss to determine carryback or carryover.
1.172–6 Illustration of net operating loss carrybacks and carryovers.
1.172–7 Joint return by husband and wife.
1.172–8 Net operating loss carryovers for regulated transportation corporations.
1.172–9 Election with respect to portion of net operating loss attributable to foreign expropriation loss.
1.172–10 Net operating losses of real estate investment trusts.
1.172–13 Product liability losses.
1.173–1 Circulation expenditures.
1.174–1 Research and experimental expenditures; in general.
1.174–2 Definition of research and experimental expenditures.
1.174–3 Treatment as expenses.
1.174–4 Treatment as deferred expenses.
1.175–1 Soil and water conservation expenditures; in general.
1.175–2 Definition of soil and water conservation expenditures.
1.175–3 Definition of ''the business of farming.''
1.175–4 Definition of ''land used in farming.''
1.175–5 Percentage limitation and carryover.
1.175–6 Adoption or change of method.
1.175–7 Allocation of expenditures in certain circumstances.
1.177–1 Election to amortize trademark and trade name expenditures.
1.178–1 Depreciation or amortization of improvements on leased property and cost of acquiring a lease.
1.178–2 Related lessee and lessor.
1.178–3 Reasonable certainty test.
1.179–0 Table of contents for section 179 expensing rules.
1.179–1 Election to expense certain depreciable assets.
1.179–2 Limitations on amount subject to section 179 election.
1.179–3 Carryover of disallowed deduction.
1.179–4 Definitions.
1.179–5 Time and manner of making election.
1.179–6 Effective date.
1.179A–1 Recapture of deduction for qualified clean-fuel vehicle property and qualified clean-fuel vehicle refueling property.
1.180–1 Expenditures by farmers for fertilizer, etc.
1.180–2 Time and manner of making election and revocation.

1.182–1 Expenditures by farmers for clearing land; in general.
1.182–2 Definition of ‘‘the business of farming.’’
1.182–3 Definition, exceptions, etc., relating to deductible expenditures.
1.182–4 Definition of ‘‘land suitable for use in farming’’, etc.
1.182–5 Limitation.
1.182–6 Election to deduct land clearing expenditures.
1.183–1 Activities not engaged in for profit.
1.183–2 Activity not engaged in for profit defined.
1.183–3 Election to postpone determination with respect to the presumption described in section 183(d). [Reserved]
1.183–4 Taxable years affected.
1.186–1 Recoveries of damages for antitrust violations, etc.
1.187–1 Amortization of certain coal mine safety equipment.
1.187–2 Definitions.
1.188–1 Amortization of certain expenditures for qualified on-the-job training and child care facilities.
1.190–1 Expenditures to remove architectural and transportation barriers to the handicapped and elderly.
1.190–2 Definitions.
1.190–3 Election to deduct architectural and transportation barrier removal expenses.
1.193–1 Deduction for tertiary injectant expenses.
1.194–1 Amortization of reforestation expenditures.
1.194–2 Amount of deduction allowable.
1.194–3 Definitions.
1.194–4 Time and manner of making election.
1.195–1 Election to amortize start-up expenditures.
1.197–1T Certain elections for intangible property (temporary).

ADDITIONAL ITEMIZED DEDUCTIONS FOR INDIVIDUALS

1.211–1 Allowance of deductions.
1.212–1 Nontrade or nonbusiness expenses.
1.213–1 Medical, dental, etc., expenses.
1.214–1 Expenses for the care of certain dependents incurred during taxable years beginning before January 1, 1972.
1.214A–1 Certain expenses to enable individuals to be gainfully employed incurred during taxable years beginning after December 31, 1971, and before January 1, 1976.
1.214A–2 Limitations on deductible amounts.
1.214A–3 Reduction of expenses for certain disability payments and adjusted gross income.
1.214A–4 Special rules applicable to married individuals.
1.214A–5 Other special rules relating to employment-related expenses.
1.215–1 Periodic alimony, etc., payments.
1.215–1T Alimony, etc., payments (temporary).
1.216–1 Amounts representing taxes and interest paid to cooperative housing corporation.
1.216–2 Treatment as property subject to depreciation.
1.217–1 Deduction for moving expenses paid or incurred in taxable years beginning before January 1, 1970.
1.217–2 Deduction for moving expenses paid or incurred in taxable years beginning after December 31, 1969.
1.218–0 Deduction for political and newsletter fund contributions.
1.219–1 Deduction for retirement savings.
1.219–2 Definition of active participant.

SPECIAL DEDUCTIONS FOR CORPORATIONS

1.241–1 Allowance of special deductions.
1.242–1 Deduction for partially tax-exempt interest.
1.243–1 Deduction for dividends received by corporations.
1.243–2 Special rules for certain distributions.
1.243–3 Certain dividends from foreign corporations.
1.243–4 Qualifying dividends.
1.243–5 Effect of election.
1.244–1 Deduction for dividends received on certain preferred stock.
1.244–2 Computation of deduction.
1.245–1 Dividends received from certain foreign corporations.
1.246–1 Deductions not allowed for dividends from certain corporations.
1.246–2 Limitation on aggregate amount of deductions.
1.246–3 Exclusion of certain dividends.
1.246–4 Dividends from a DISC or former DISC.
1.246–5 Reduction of holding periods in certain situations.
1.247–1 Deduction for dividends paid on preferred stock of public utilities.
1.248–1 Election to amortize organizational expenditures.
1.249–1 Limitation on deduction of bond premium on repurchase.

ITEMS NOT DEDUCTIBLE

1.261–1 General rule for disallowance of deductions.
1.262–1 Personal, living, and family expenses.
1.263(a)–1 Capital expenditures; In general.
1.263(a)–2 Examples of capital expenditures.
1.263(a)–3 Election to deduct or capitalize certain expenditures.
1.263(b)–1 Expenditures for advertising or promotion of good will.
1.263(c)–1 Intangible drilling and development costs in the case of oil and gas wells.

1.263(e)–1 Expenditures in connection with certain railroad rolling stock.
1.263(f)–1 Reasonable repair allowance.
1.263A–0 Outline of regulations under section 263A.
1.263A–0T Outline of regulations under section 263A (temporary).
1.263A–1 Uniform capitalization of costs.
1.263A–2 Rules relating to property produced by the taxpayer.
1.263A–3 Rules relating to property acquired for resale.
1.263A–4 Rules for property produced in a farming trade or business. [Reserved]
1.263A–4T Rules for property produced in a farming business (temporary).
1.263A–5 Exception for qualified creative expenses incurred by certain free-lance authors, photographers, and artists. [Reserved]
1.263A–6 Rules for foreign persons. [Reserved]
1.263A–7 Changing a method of accounting under section 263A.
1.263A–8 Requirement to capitalize interest.
1.263A–9 The avoided cost method.
1.263A–10 Unit of property.
1.263A–11 Accumulated production expenditures.
1.263A–12 Production period.
1.263A–13 Oil and gas activities.
1.263A–14 Rules for related persons.
1.263A–15 Effective dates, transitional rules, and anti-abuse rule.
1.264–1 Premiums on life insurance taken out in a trade or business.
1.264–2 Single premium life insurance, endowment, or annuity contracts.
1.264–3 Effective date; taxable years ending after March 1, 1954, subject to the Internal Revenue Code of 1939.
1.264–4 Other life insurance, endowment, or annuity contracts.
1.265–1 Expenses relating to tax-exempt income.
1.265–2 Interest relating to tax-exempt income.
1.265–3 Nondeductibility of interest relating to exempt–interest dividends.
1.266–1 Taxes and carrying charges chargeable to capital account and treated as capital items.
1.267(a)–1 Deductions disallowed.
1.267(a)–2T Temporary regulations; questions and answers arising under the Tax Reform Act of 1984 (temporary).
1.267(a)–3 Deduction of amounts owed to related foreign persons.
1.267(b)–1 Relationships.
1.267(c)–1 Constructive ownership of stock.
1.267(d)–1 Amount of gain where loss previously disallowed.
1.267(d)–2 Effective date; taxable years subject to the Internal Revenue Code of 1939.
1.267(f)–1 Controlled groups.
1.268–1 Items attributable to an unharvested crop sold with the land.
1.269–1 Meaning and use of terms.
1.269–2 Purpose and scope of section 269.
1.269–3 Instances in which section 269(a) disallows a deduction, credit, or other allowance.
1.269–4 Power of district director to allocate deduction, credit, or allowance in part.
1.269–5 Time of acquisition of control.
1.269–6 Relationship of section 269 to section 382 before the Tax Reform Act of 1986.
1.269–7 Relationship of section 269 to sections 382 and 383 after the Tax Reform Act of 1986.
1.270–1 Limitation on deductions allowable to individuals in certain cases.
1.271–1 Debts owed by political parties.
1.272–1 Expenditures relating to disposal of coal or domestic iron ore.
1.273–1 Life or terminable interests.
1.274–1 Disallowance of certain entertainment, gift and travel expenses.
1.274–2 Disallowance of deductions for certain expenses for entertainment, amusement, recreation, or travel.
1.274–3 Disallowance of deduction for gifts.
1.274–4 Disallowance of certain foreign travel expenses.
1.274–5T Substantiation requirements (temporary).
1.274–6 Expenditures deductible without regard to trade or business or other income producing activity.
1.274–6T Substantiation with respect to certain types of listed property for taxable years beginning after 1985 (temporary).
1.274–7 Treatment of certain expenditures with respect to entertainment-type facilities.
1.274–8 Effective date.
1.274(d)–1 Substantiation requirements.
1.274(d)–1T Substantiation requirements (temporary).
1.275–1 Deduction denied in case of certain taxes.
1.276–1 Disallowance of deductions for certain indirect contributions to political parties.
1.278–1 Capital expenditures incurred in planting and developing citrus and almond groves.
1.279–1 General rule; purpose.
1.279–2 Amount of disallowance of interest on corporate acquisition indebtedness.
1.279–3 Corporate acquisition indebtedness.
1.279–4 Special rules.
1.279–5 Rules for application of section 279(b).
1.279–6 Application of section 279 to certain affiliated groups.
1.279–7 Effect on other provisions.
1.280B–1 Demolition of structures.
1.280C–1 Disallowance of certain deductions for wage or salary expenses.
1.280C–3 Disallowance of certain deductions for qualified clinical testing expenses when section 28 credit is allowable.

1.280C–4 Credit for increasing research activities.
1.280F–1T Limitations on investment tax credit and recovery deductions under section 168 for passenger automobiles and certain other listed property; overview of regulations (temporary).
1.280F–2T Limitations on recovery deductions and the investment tax credit for certain passenger automobiles (temporary).
1.280F–3T Limitations on recovery deductions and the investment tax credit when the business use percentage of listed property is not greater than 50 percent (temporary).
1.280F–4T Special rules for listed property (temporary).
1.280F–5T Leased property (temporary).

PART 1—INCOME TAXES

Normal Taxes and Surtaxes (Continued)

COMPUTATION OF TAXABLE INCOME (Continued)

ITEMIZED DEDUCTIONS FOR INDIVIDUALS AND CORPORATIONS (CONTINUED)

§ 1.170–0 Effective dates.

Except as otherwise provided in this section, the provisions of section 170 and §§ 1.170–1 through 1.170–3 are applicable to contributions paid in taxable years beginning before January 1, 1970, and all references therein to sections of the Code are to sections of the Internal Revenue Code of 1954 prior to the amendments made by section 201(a) of the Tax Reform Act of 1969 (83 Stat. 549). Except as otherwise provided therein, §§ 1.170A through 1.170A–11 are applicable to contributions paid in taxable years beginning after December 31, 1969. In a case where a provision in §§1.170A through 1.170A–11 is applicable to a contribution paid in a taxable year beginning before January 1, 1970, such provision shall apply to the contribution and §§1.170–1 through 1.170–3 shall not apply to the contribution.

[T.D. 7207, 37 FR 20767, Oct. 5, 1972]

§1.170–1 Charitable, etc., contributions and gifts; allowance of deduction (before amendment by Tax Reform Act of 1969).

(a) *In general*—(1) *General rule.* Any charitable contribution (as defined in section 170(c)) actually paid during the taxable year is allowable as a deduction in computing taxable income, regardless of the method of accounting employed or when pledged. In addition, contributions by corporations may under certain circumstances be deductible even though not paid during the taxable year (see §1.170–3), and subject to the provisions of section 170(b)(5) and paragraph (g) of §1.170–2, certain excess charitable contributions made by individuals in taxable years beginning after December 31, 1963, shall be treated as paid in certain succeeding taxable years. The deduction is subject to the limitations of section 170(b) (see §§1.170–2 and 1.170–3) and is subject to verification by the district director. For rules relating to the determination of, and the deduction for, amounts paid to maintain certain students as members of the taxpayer's household and treated under section 170(d) as paid for the use of an organization described in section 170(c) (2), (3), or (4), see paragraph (f) of §1.170–2. For a special rule relating to the computation of the amount of the deduction with respect to a contribution of section 1245 or section 1250 property, see section 170(e).

(2) *Information required in support of deductions for taxable years beginning before January 1, 1964.* In connection with claims for deductions for charitable contributions paid in taxable years beginning before January 1, 1964, taxpayers shall state in their income tax returns the name and address of each organization to which a contribution was made and the amount and approximate date of the actual payment of each contribution. Any deduction for charitable contribution must be substantiated, when required by the district director, by a statement from the organization to which the contribution was made indicating whether the organization is a domestic organization, the name and address of the contributor, the amount of the contribution, and the date of its actual payment, and by such other information as the district director may deem necessary.

(3) *Information required in support of deductions for taxable years beginning after December 31, 1963*—(i) *In general.* In connection with claims for deductions for charitable contributions paid in taxable years beginning after December 31, 1963, taxpayers shall state in their income tax returns the name of each organization to which a contribution was made and the amount and date of the actual payment of each contribution. If a contribution is made in property other than money, the taxpayer shall state the kind of property contributed (for example, used clothing, paintings, securities) and shall state the method utilized in determining the fair market value of the property at the time the contribution was made. In any case in which a taxpayer makes numerous cash contributions to an organization during the taxable year, the taxpayer may state the total cash payments made to such organization during the taxable year in lieu of listing each cash contribution and the date of payment.

(ii) *Contribution by individual of property other than money.* If an individual taxpayer makes a charitable contribution of an item of property other than money and claims a deduction in excess of $200 in respect of his contribution of such item, he shall attach to his income tax return a statement setting forth the following information with respect to such item:

(*a*) The name and address of the organization to which the contribution was made.

(*b*) The date of the actual contribution.

(*c*) A description of the property in sufficient detail to identify the particular property contributed including, in the case of tangible property, the physical condition of the property at the time of contribution. In the case of securities, the name of the issuer, the type of security, and whether or not such security is regularly traded on a stock exchange or in an over-the-counter market.

(*d*) The manner (for example, by purchase, gift, bequest, inheritance, exchange, etc.) and the approximate date of acquisition of the property by the taxpayer. If the property was created, produced, or manufactured by the taxpayer, the approximate date the property was substantially completed.

(*e*) The fair market value of the property at the time the contribution was made, showing the method utilized in determining the fair market value. (If the valuation was determined by appraisal, a copy of the signed report of the appraiser should be submitted.)

(*f*) In the case of property (not including securities) held by the taxpayer for a period less than five years immediately preceding the date on which the contribution was made, the cost or other basis, adjusted as provided by section 1016. If available, the cost or other basis, adjusted as provided by section 1016, of property (not including securities) held for a period of five years or more prior to the time of contribution should be submitted.

(*g*) In the case of section 1245 or section 1250 property, the reduction by reason of section 170(e) in the amount of the charitable contribution taken into account under section 170.

(*h*) The terms of any agreement or understanding entered into by or on behalf of the taxpayer relating to the use, sale, or disposition of the property contributed. For example, there must be attached to the income tax return of an individual taxpayer the terms of any agreement or understanding which restricts the donee's right to dispose of the donated property (either temporarily or permanently) or which reserves to, or confers upon, anyone other than the donee organization (or an organization participating with such organization in cooperative fund raising) any right to the income from such property, to the possession of the property (including the right to vote securities), to acquire such property by purchase or otherwise, or to designate who shall have such income, possession, or right to acquire. Notwithstanding the above, it will not be necessary to set forth the terms of any agreement or understanding which merely earmarks contributed property for a particular charitable use, such as the use of donated furniture in the reading room of the donee organization's library.

(*i*) The total amount claimed as a deduction for the taxable year due to the contribution of the property. If less than the entire interest in the property is contributed during the taxable year, the amount claimed as a deduction in any prior year or years for contributions of other interests in such property, the name and address of each organization to which any such contribution was made, the place where the property (if tangible property) is located or kept and the name of the person having actual possession of the property, if other than the organization to which the property giving rise to the deduction was contributed.

(iii) *Statement from donee organization.* Any deduction for a charitable contribution must be substantiated, when required by the district director, by a statement from the organization to which the contribution was made indicating whether the organization is a domestic organization, the name and address of the contributor, the amount of the contribution, the date of actual receipt of the contribution, and such other information as the district director may deem necessary. If the contribution includes an item of property (other than money or securities which are regularly traded on a stock exchange or in an over-the-counter market) which the donee deems to have a fair market value in excess of $200 at the time of receipt, such statement shall also indicate for each such item its location if retained by the organization, the amount received by the organization on any sale of the property and the date of sale, or in case of other disposition of the property, the method of disposition.

(b) *Time of making contribution.* Ordinarly a contribution is made at the time delivery is effected. In the case of a check, the unconditional delivery (or mailing) of a check which subsequently clears in due course will constitute an effective contribution on the date of delivery (or mailing). If a taxpayer unconditionally delivers (or mails) a properly endorsed stock certificate to a charitable donee or the donee's agent, the gift is completed on the date of delivery (or mailing, provided that such certificate is received in the ordinary course of the mails). If the donor delivers the certificate to his bank or broker as the donor's agent, or to the issuing corporation or its agent, for transfer into the name of the donee, the gift is completed on the date the stock is transferred on the books of the corporation. For rules relating to a contribution consisting of a future interest in tangible personal property, see paragraph (d)(2) of this section.

(c) *Contribution in property*—(1) *General rules.* If a contribution is made in property other than money, the amount of the deduction is determined by the fair market value of the property at the time of the contribution. The fair market value is the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. If the contribution is made in property of a type which the taxpayer sells in the course of his business, the fair market value is the price which the taxpayer would have received if he had sold the contributed property in the lowest usual market in which he customarily sells, at the time and place of the contribution (and in the case of a contribution of goods in quantity, in the quantity contributed). The usual market of a manufacturer or other producer consists of the wholesalers or other distributors to or through whom he customarily sells, unless he sells only at retail in which event it is his retail customers. If a donor makes a charitable contribution of, for example, stock in trade at a time when he could not reasonably have been expected to realize its usual selling price, the value of the gift is not the usual selling price but is the amount for which the quantity of merchandise contributed would have been sold by the donor at the time of the contribution. Costs and expenses incurred in the year of contribution in producing or acquiring the contributed property are not deductible and are not a part of the cost of goods sold. Similarly, to the extent that costs and expenses incurred in a prior taxable year in producing or acquiring the contributed property are reflected in the cost of goods sold in the year of contribution, cost of goods sold must be reduced by such costs and expenses. Transfers of property to an organization described in section 170(c) which bear a direct relationship to the taxpayer's business and which are made with a reasonable expectation of financial return commensurate with the amount of the transfer may constitute allowable deductions as trade or business expenses rather than as charitable contributions. See section 162 and the regulations thereunder.

(2) *Reduction for certain interest.* (i) With respect to charitable contributions made after December 31, 1957, section 170(b)(4) requires that the amount of the charitable deduction be reduced for certain interest to the extent necessary to avoid the reduction of the same amount both as an interest deduction under section 163 and as a deduction for charitable contributions under section 170. The reduction is to be determined in accordance with subdivisions (ii) and (iii) of this subparagraph.

(ii) With respect to charitable contributions made after December 31, 1957, in determining the amount to be taken into account as a charitable contribution for purposes of section 170, the amount determined without regard to section 170(b)(4) or this subparagraph shall be reduced by the amount of interest which has been paid (or is to be paid) by the taxpayer, which is attributable to any liability connected with the contribution, and which is attributable to any period of time after the making of the contribution. The deduction otherwise allowable for charitable contributions under section 170 is required to be reduced pursuant to section 170(b)(4) only if, in connection with a charitable contribution, a liability is assumed by the recipient of the contribution or by any other person, or if the charitable contribution is of property which is subject to a liability. Thus, if the contribution is made in property and the transfer is conditioned upon the assumption of a liability by the donee or by some other person, any interest paid (or to be paid) by the taxpayer, attributable to the liability, and with respect to a period after the making of the contribution, will serve to reduce the amount that may be taken into account as a charitable contribution for purposes of section 170. The adjustment referred to in this subdivision must also be made where the contributed property is subject to a liability and the value of the property reflects the payment by the donor of interest with respect to a period of time after the making of the contribution.

(iii) If, in connection with the charitable contribution, after December 31, 1957, of a bond, a liability is assumed by the recipient or by any other person, or if the bond is subject to a liability, then, in determining the amount to be taken into account as a charitable contribution under section 170, the amount determined without regard to section 170(b)(4) or this subparagraph shall, without regard to whether any reduction may be required by subdivision (ii) of this subparagraph, also be reduced for interest which has been paid (or is to be paid) by the taxpayer on indebtedness incurred or continued to purchase or carry such bond, and which is attributable to any period before the making of the contribution. However, the reduction referred to in this subdivision shall be made only to the extent that such reduction does not exceed the interest (including bond discount and other interest equivalent) receivable on the bond, and attributable to any period before the making of the contribution which is not, by reason of the taxpayer's method of accounting, includible in the taxpayer's gross income for any taxable year. For purposes of section 170(b)(4) and this subdivision the term *bond* means any bond, debenture, note, or certificate or other evidence of indebtedness.

(iv) The provisions of this subparagraph may be illustrated by the following examples:

Example 1. A, an individual using the cash receipts and disbursements method of accounting, on January 1, 1960, contributed to a charitable organization real estate having a fair market value of $10,000. In connection with the contribution the charitable organization assumed an indebtedness of $8,000 which A had incurred. A has prepaid two years' interest on that indebtedness (for 1960 and 1961) amounting to $960, and has taken an interest deduction of $960 for such amount. The amount of the gift, determined without regard to this subparagraph, is $2,960 ($10,000 less $8,000, the outstanding indebtedness, plus $960, the amount of prepaid interest). In determining the amount of the deduction for charitable contributions, the value of the gift ($2,960) must be reduced by $960 to eliminate from the computation of such deduction that portion thereof for which A has been allowed an interest deduction.

Example 2. On January 1, 1960, B, an individual using the cash receipts and disbursements method of accounting, purchased for $9,600 a 5 1/2 percent $10,000, 20-year M Corporation bond, the interest on which was payable semiannually on June 30 and December 31. The M Corporation had issued the bond on January 1, 1950, at a discount of $720 from the principal amount. On December 1, 1960, B donated the bond to a charitable organization, and, in connection with the contribution, the charitable organization assumed an indebtedness of $7,000 which B had incurred to purchase and carry the bond. During the calendar year 1960 B paid accrued interest of $330 on the indebtedness for the period from January 1 to December 1, 1960, and has taken an interest deduction of $330 for such amount. No portion of the bond discount of $36 a year ($720 divided by 20 years) has been included in B's income, and of the $550 of annual interest receivable on the bond, he included in income only the June 30 payment of $275. The market value of the bond on the date of the contribution was $9,902. Such value reflects a proportionate part of the original bond discount ($9,280 plus $393, or $9,673) and of interest receivable of $229 which had accrued from July 1 to December 1, 1960. The amount of the charitable contribution determined without regard to this subparagraph is $2,902 ($9,902, the value of the property on the date of gift, less $7,000, the amount of the liability assumed by the charitable organization). In determining the amount of the allowable deduction for charitable contributions, the value of the gift ($2,902) must be reduced to eliminate from the deduction that portion thereof for which B has been allowed an interest deduction. Although the amount of such interest deduction was $330, the reduction required by this subparagraph is limited to $262, since the reduction is not in excess of the amount of interest income on the bond ($229 of accrued interest plus $33, the amount of bond discount attributable to the eleven-month period B held the bond).

(3) *Reduction for depreciable property.* (i) With respect to a charitable contribution of section 1245 property (as defined in section 1245(a)(3)), or section 1250 property (as defined in section 1250(c)), section 170(e) requires that the amount of the charitable contribution taken into account under section 170 shall be reduced by the amount which would have been treated (but was not actually treated) as gain to which section 1245(a)(1) or 1250(a) (relating to gain from dispositions of depreciable property) applies if the property contributed had been sold at its fair market value (determined at the time of such contribution).

(ii) Section 170(e) applies to charitable contributions of section 1245 property in taxable years beginning after December 31, 1962, except that in respect of section 1245 property which is an elevator or escalator section 170(e) applies to charitable contributions after December 31, 1963. Section 170(e) applies to charitable contributions of section 1250 property after December 31, 1963.

(iii) The provisions of this subparagraph may be illustrated by the following example:

Example. Jones contributes to a charitable organization section 1245 property which has an adjusted basis of $10,000, a recomputed basis (as defined in section 1245 (a)(2)) of $14,000, and a fair market value of $17,000. If Jones had instead sold the property at its fair market value, he would have recognized gain under section 1245(a)(1) of $4,000. See paragraph (b) of §1.1245–1. Under section 170(e), the amount of the charitable contribution taken into account under section 170 is reduced by $4,000. Accordingly, the amount of the charitable contribution is $13,000 ($17,000 minus $4,000).

(d) *Transfers of income and future interests*—(1) *In general.* A deduction may be allowed for a contribution of an interest in the income from property or an interest in the remainder (but see subparagraph (2) of this paragraph for rules relating to transfers, after December 31, 1963, of future interests in tangible personal property). The income or remainder interest shall be valued according to the tables referred to in paragraph (d) of §1.170–2. For rules with respect to certain transfers to a trust, see paragraph (d) of §1.170–2.

(2) *Future interests in tangible personal property.* (i) Except as otherwise provided in subdivision (iii) of this subparagraph, a contribution consisting of a transfer, after December 31, 1963, in a taxable year ending after such date, of a future interest in tangible personal property shall be treated as made only when:

(*a*) All intervening interests in, and rights to the actual possession or enjoyment of, the property have expired, or

(*b*) Are held by persons other than the taxpayer or those standing in a relationship to the taxpayer described in section 267(b) and the regulations thereunder (relating to losses, expenses, and interest with respect to transactions between related taxpayers).

Section 170(f) and this subparagraph have no application in respect of a transfer of an undivided present interest in property. For example, a contribution of an undivided one-quarter interest in a painting with respect to which the donee is entitled to possession during three months of each year shall be treated as made upon the receipt by the donee of a formally executed and acknowledged deed of gift. Section 170(f) and this subparagraph have no application in respect of a transfer of a future interest in intangible personal property or in real property. However, a fixture which is intended to be severed from real property shall be treated as tangible personal property. For example, a contribution of a future interest in a chandelier which is attached to a building is considered a contribution which consists of a future interest in tangible personal property if the transferor intends that it be detached from the building at or prior to the time when the charitable organization's right to possession or enjoyment of the chandelier is to commence. For purposes of section 170(f) and this subparagraph, the term *future interest* has generally the same meaning as it has when used in section 2503, relating to taxable gifts, see §25.2503–3 of Part 25 of this chapter (Gift Tax Regulations), and such term includes reversions, remainders, and other interests or estates, whether vested or contingent, and whether or not supported by a particular interest or estate, which are limited to commence in use, possession or enjoyment at some future date or time. The term *future interest* includes situations in which a donor purports to give tangible personal property to a charitable organization, but has an understanding, arrangement, agreement, etc. (whether written or oral) with the charitable organization which has the effect of reserving to, or retaining in, such donor a right to the use, possession, or enjoyment of the property.

(ii) The provisions of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example 1. On December 31, 1964, A, an individual who reports his income on the calendar year basis, conveys by deed of gift to a museum title to a painting, but reserves to himself the right to the use, possession, and enjoyment of the painting during his lifetime. At the time of the gift the value of the painting is $90,000. Since the contribution consists of a future interest in tangible personal property in which the donor has retained an intervening interest, no contribution is considered as having been made in 1964.

Example 2. Assume the same facts as in *Example (1)* except that on December 31, 1965, A relinquishes all of his right to the use, possession, and enjoyment of the painting and delivers the painting to the museum. Assuming that the value of the painting has increased to $95,000, A is treated as having made a charitable contribution of $95,000 in 1965.

Example 3. Assume the same facts as *Example (1)* except A dies without relinquishing his right to the use, possession, and enjoyment of the painting. Since A did not relinquish his right to the use, possession, and enjoyment of the property during his life, A is treated as not having made a charitable contribution of the painting for income tax purposes.

Example 4. Assume the same facts as in *Example (1)* except A, on December 31, 1965, transfers his interest in the painting to his son, B. Since the relationship between A and B is one described in section 267(b), no contribution of the remainder interest in the painting is considered as having been made in 1965.

Example 5. Assume the same facts as in *Example (4).* Also assume that on December 31, 1966, B conveys the interest measured by A's life to the museum. B has made a charitable contribution of the present interest in the painting conveyed to the museum (i.e., the life interest measured by A's life expectancy in 1966 valued according to paragraph (f), Table 1, of §20.2031–7 of Part 20 of this chapter (Estate Tax Regulations)). In addition, since all intervening interests in, and rights to the actual possession or enjoyment of the property, have expired, a charitable contribution of the remainder interest is treated as having been made by A in 1966. Such remainder interest shall also be valued according to paragraph (f), Table 1, of §20.2031–7 of Part 20 of this chapter (Estate Tax Regulations)).

(iii) Section 209(f)(3) of the Revenue Act of 1964 (78 Stat. 47) provides an exception to the rule set forth in section 170(f). Pursuant to the exception, section 170(f) and subdivision (i) of this subparagraph shall not apply in the case of a transfer of a future interest in tangible personal property made after December 31, 1963, and before July 1, 1964, where:

(a) The sole intervening interest or right is a nontransferable life interest reserved by the donor, or

(b) In the case of a joint gift by husband and wife, the sole intervening interest or right is a nontransferable life interest reserved by the donors which expires not later than the death of whichever of such donors dies later.

For purposes of the preceding sentence, the right to make a transfer of the reserved life interest to the donee of the future interest shall not be treated as making a life interest transferable.

(e) *Transfers subject to a condition or a power.* If as of the date of a gift a transfer for charitable purposes is dependent upon the performance of some act or the happening of a precedent event in order that it might become effective, no deduction is allowable unless the possibility that the charitable transfer will not become effective is so remote as to be negligible. If an interest passes to or is vested in charity on the date of the gift and the interest would be defeated by the performance of some act or the happening of some event, the occurrence of which appeared to have been highly improbable on the date of the gift, the deduction is allowable. The deduction is not allowed in the case of a transfer in trust conveying a present interest in income if by reason of all the conditions and circumstances surrounding the transfer it appears that the charity may not receive the beneficial enjoyment of the interest.

For example, assume that assets placed in trust consist of stock in a corporation the fiscal policies of which are controlled by the donor and his family, that the trustees and remaindermen are likewise members of the donor's family, and that the governing instrument contains no adequate guarantee of the requisite income to the charitable organization. Under such circumstances, no deduction will be allowed. Similarly, if the trustees were not members of the donor's family but had no power to sell or otherwise dispose of closely held stock, or otherwise insure the requisite enjoyment of income to the charitable organization, no deduction would be allowed.

(f) *Exceptions.* (1) This section does not apply to contributions by estates and trusts (see section 642(c)). For disallowance of certain charitable deductions otherwise allowable under section 170, see sections 503(e) and 681(b)(5) (relating to organizations engaged in prohibited transactions). For disallowance of deductions for contributions to or for the use of communist controlled organizations, see section 11(a) of the Internal Security Act of 1950, as amended (50 U.S.C. 790). For denial of deduction for charitable contributions as trade or business expenses and rules with respect to treatment of payments to organizations other than those described in section 170(c), see section 162 and the regulations thereunder.

(2) No deduction shall be allowed under section 170 for amounts paid to an organization:

(i) A substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation, or

(ii) Which participates in or intervenes in any political campaign on behalf of any candidate for public office.

For purposes of determining whether an organization is attempting to influence legislation or is engaging in political activities, see section 501(c)(3) and the regulations thereunder. Moreover, no deduction shall be allowed under section 170 for expenditures for lobbying purposes, promotion or defeat of legislation, etc. See also the regulations under section 162.

(3) No deduction for charitable contributions is allowed in computing the taxable income of a common trust fund or of a partnership. See sections 584(d) and 703(a)(2)(D). However, a partner's distributive share of charitable contributions actually paid by a partnership during its taxable year may be allowed as a deduction in the partner's separate return for his taxable year with or within which the taxable year of the partnership ends, to the extent that the aggregate of his share of the partnership contributions and his own contributions does not exceed the limitations in section 170 (b). In the case of a nonresident alien individual, or a citizen of the United States entitled to the benefits of section 931, see sections 873(c), 876, and 931.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6605, 27 FR 8094, Aug. 15, 1962; T.D. 6785, 29 FR 18499, Dec. 29, 1964; T.D. 6832, 30 FR 8574, July 7, 1965; T.D. 6900, 31 FR 14633, Nov. 17, 1966; T.D. 7084, 36 FR 266, Jan. 8, 1971; T.D. 7207, 37 FR 20768, Oct. 4, 1972]

§1.170–2 Charitable deductions by individuals; limitations (before amendment by Tax Reform Act of 1969).

(a) *In general.* (1) A deduction is allowable to an individual under section 170 only for charitable contributions actually paid during the taxable year, regardless of when pledged and regardless of the method of accounting employed by the taxpayer in keeping his books and records. A contribution to an organization described in section 170(c) is deductible even though some portion of the funds of the organization may be used in foreign countries for charitable or educational purposes. The deduction by an individual for charitable contributions under section 170 is limited generally to 20 percent of the taxpayer's adjusted gross income (computed without regard to any net operating loss carryback to the taxable year under section 172). If a husband and wife make a joint return, the deduction for contributions is the aggregate of the contributions made by the spouses, and the limitation in section 170(b) is based on the aggregate adjusted gross income of the spouses. The 20-percent limitation applies to amounts contributed during the taxable year ‘‘to or for the use of’’ those recipients described in section 170(c), including amounts treated under section 170(d) as paid for the use of an organization described in section 170(c) (2), (3), or (4). See paragraph (f) of this section. The limitation is computed without regard to contributions qualifying for the additional 10-percent deduction. For examples of the application of the 10- and 20-percent limitation, see paragraph (b)(5) of this section. For special rules reducing amount of certain charitable deductions, see paragraph (c)(2) of § 1.170–1.

(2) No deduction is allowable for contribution of services. However, unreimbursed expenditures made incident to the rendition of services to an organization contributions to which are deductible may constitute a deductible contribution. For example, the cost of a uniform without general utility which is required to be worn in performing donated services is deductible. Similarly, out-of-pocket transportation expenses necessarily incurred in rendering donated services are deductible. Reasonable expenditures for meals and lodging necessarily incurred while away from home in the course of rendering donated services also are deductible. For the purposes of this section, the phrase *while away from home* has the same meaning as that phrase is used for purposes of section 162.

(3)(i) In the case of an annuity or portion thereof purchased from an organization described in section 170(c), there shall be allowed as a deduction the excess of the amount paid over the value at the time of purchase of the annuity or portion purchased.

(ii) The value of the annuity or portion is the value of the annuity determined in accordance with section 101(b) and the regulations thereunder.

(b) *Additional 10-percent deduction*—(1) *In general.* In addition to the deduction which may be allowed for contributions subject to the general 20-percent limitation, an individual may deduct charitable contributions made during the taxable year to the organizations specified in section 170(b)(1)(A) to the extent that such contributions in the aggregate do not exceed 10 percent of his adjusted gross income (computed without regard to any net operating loss carryback to the taxable year under section 172). The additional 10-percent deduction may be allowed with respect to contributions to:

(i) A church or a convention or association of churches,

(ii) An educational organization referred to in section 503(b)(2) and defined in subparagraph (3)(i) of this paragraph,

(iii) A hospital referred to in section 503(b)(5) and defined in subparagraph (4)(i) of this paragraph,

(iv) Subject to certain conditions and limitations set forth in subparagraph (4)(ii) of this paragraph, and for taxable years beginning after December 31, 1955, a medical research organization referred to in section 503(b)(5),

(v) Subject to certain limitations and conditions set forth in subparagraph (3)(ii) of this paragraph, and for taxable years beginning after December 31, 1960, an organization referred to in section 503(b)(3) which is organized and operated for the benefit of certain State and municipal colleges and universities,

(vi) For taxable years beginning after December 31, 1963, a governmental unit referred to in section 170(c)(1), and

(vii) Subject to certain limitations and conditions set forth in subparagraph (5) of this paragraph, and for taxable years beginning after December 31, 1963, an organization referred to in section 170(c)(2).

To qualify for the additional 10-percent deduction the contributions must be made ‘‘to’’, and not merely ‘‘for the use of’’, one of the specified organizations. A contribution to an organization referred to in section 170(c)(2) (other than an organization specified in subdivisions (i) through (vi) of this subparagraph) which, for taxable years beginning after December 31, 1963, is not ‘‘publicly supported’’ under the rules of subparagraph (5) of this paragraph will not qualify for the additional 10-percent deduction even though such organization makes the contribution available to an organization which is specified in section 170(b)(1)(A). The computation of this additional deduction is not necessary unless the total contributions paid during the taxable year are in excess of the general 20-percent limitation. Where the total contributions exceed the 20-percent limitation, the taxpayer should first ascertain the amount of charitable contributions subject to the 10-percent limitation, and any excess over the 10-percent limitation should then be added to all other contributions and limited by the 20-percent limitation. For provisions relating to a carryover of certain charitable contributions made by individuals, see paragraph (g) of this section.

(2) *Church.* For definition of *church,* see the regulations under section 511.

(3) *Educational organization and organizations for the benefit of certain State and municipal colleges and universities*—(i) *Educational organization.* An *educational organization* within the meaning of section 170(b)(1)(A) is one whose primary function is the presentation of formal instruction and which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on. The term, therefore, includes institutions such as primary, secondary, preparatory, or high schools, and colleges and universities. It includes Federal, State, and other public-supported schools which otherwise come within the definition. It does not include organizations engaged in both educational and noneducational activities unless the latter are merely incidental to and growing out of the educational activities. A recognized university which incidentally operates a museum or sponsors concerts is an educational organization. However, the operation of a school by a museum does not necessarily qualify the museum as an educational organization. A gift to an educational institution through an alumni association or a class organization, which acts simply as a fund-raising or collection agency through which gifts may be made currently to the institution, is a gift to the educational organization if the entire gift inures to its benefit, but not if any part of it inures to the general or operating fund of the agency. Similarly, a gift to one or more educational institutions through an association of educational institutions will be considered a gift to the institutions if it inures entirely to their benefit.

(ii) *Organizations for the benefit of certain State and municipal colleges and universities. (a)* For taxable years beginning after December 31, 1960, gifts made to an organization referred to in section 503(b)(3) organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of certain colleges and universities, may be taken into account in computing the additional 10-percent limitation. The phrase *expenditures to or for the benefit of certain colleges and universities* includes expenditures made for any one or more of the normally accepted functions of colleges and universities, for example, for the acquisition and maintenance of real property comprising part of the campus area, the erection of or participation in the erection of college or university buildings, scholarships, libraries, student loans, and the acquisition and maintenance of equipment and furnishings used for or in conjunction with normally accepted functions of colleges and universities.

(b) The recipient organization must be one which normally receives a substantial portion of its support from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public, or from a combination of two or more of such sources. An example of an indirect contribution from the public would be the receipt by the organization of its share of the proceeds of an annual collection campaign of a community chest, community fund, or united fund.

(c) The college or university (including land grant colleges and universities) to be benefited must be an educational organization referred to in section 170(b)(1)(A)(ii) and subdivision (i) of this subparagraph; and must be an agency or instrumentality of a State or political subdivision thereof, or must be owned or operated by a State or political subdivision thereof or by an agency or instrumentality of one or more States or political subdivisions.

(4) *Hospital and medical research organization*—(i) *Hospital.* The term *hospital,* as used in section 170(b)(1)(A), means an organization the principal purposes or functions of which are the providing of hospital or medical care. The term includes Federal and State hospitals

otherwise coming within the definition but does not include medical education organizations, or medical research organizations. See, however, subdivision (ii) of this subparagraph, relating to contributions to certain medical research organizations for taxable years beginning after December 31, 1955. A rehabilitation institution or an outpatient clinic may qualify as a hospital if its principal purposes or functions are the providing of hospital or medical care. The term *hospital* does not include convalescent homes or homes for children or the aged, nor does the term include institutions whose principal purposes or functions are to train handicapped individuals to pursue some vocation.

(ii) *Certain medical research organizations. (a)* For taxable years beginning after December 31, 1955, certain charitable contributions made to certain medical research organizations may be taken into account in computing the additional 10-percent limitation. To be so taken into account the charitable contribution must be made to a medical research organization that is directly engaged in the continuous active conduct of medical research in conjunction with a hospital (as defined in subdivision (i) of this subparagraph), and, during the calendar year in which the contribution is made, the organization must be committed to spend the contribution for such active conduct of medical research before January 1 of the fifth calendar year beginning after the date the contribution is made.

(b) As used in section 170(b)(1)(A) and this subparagraph, the term *medical research organization* means an organization the principal purpose or function of which is to engage in medical research. Medical research may be defined as the conduct of investigations, experiments, and studies to discover, develop, or verify knowledge relating to the causes, diagnosis, treatment, prevention, or control of physical or mental diseases and impairments of man. To qualify as a medical research organization, the organization must have the appropriate equipment and professional personnel necessary to carry out its principal function.

(c) The organization must, at the time of the contribution, be directly engaged in the continuous active conduct of medical research in conjunction with a hospital described in subdivision (i) of this subparagraph. The organization need not be formally affiliated with a hospital to be considered engaged in the active conduct of medical research in conjunction with a hospital, but it must be physically connected, or closely associated, with a hospital. In any case, there must be a joint effort on the part of the research organization and the hospital pursuant to an understanding that the two organizations shall maintain continuing close cooperation in the active conduct of medical research. For example, the necessary joint effort will normally be found to exist if the activities of the medical research organization are carried on in space located within or adjacent to a hospital provided that the organization is permitted to utilize the facilities (including equipment, case studies, etc.) of the hospital on a continuing basis in the active conduct of medical research. A medical research organization which is closely associated, in the manner described above, with a particular hospital or particular hospitals, may be considered to be pursuing research in conjunction with a hospital if the necessary joint effort is supported by substantial evidence of the close cooperation of the members of the research organization and the staff of the particular hospital or hospitals. The active participation in medical research by the staff of the particular hospital or hospitals will be considered as evidence of the requisite joint effort. If the organization's primary purpose is to disburse funds to other organizations for the conduct of research by them, or, if the organization's primary purpose is to extend research grants or scholarships to others, it is not directly engaged in the active conduct of medical research, and contributions to such an organization may not be taken into account for purposes of the additional 10-percent limitation.

(d) A charitable contribution to a medical research organization may be taken into account in computing the additional 10-percent limitation only if the organization is committed to spend such contribution for medical research

in conjunction with a hospital on or before the first day of the fifth calendar year which begins after the date the contribution is made. The organization's commitment that the contribution will be spent within the prescribed time only for the prescribed purposes must be legally enforceable. A promise in writing to the donor in consideration of his making a contribution that such contribution will be so spent within the prescribed time will constitute a commitment. The expenditure of contributions received for plant, facilities, or equipment, used solely for medical research purposes shall ordinarily be considered to be an expenditure for medical research for purposes of section 170(b) and this section. If a contribution is made in other than money, it shall be considered spent for medical research if the funds from the proceeds of a disposition thereof are spent by the organization within the five-year period for medical research; or, if such property is of such a kind that it is used on a continuing basis directly in connection with such research, it shall be considered spent for medical research in the year in which it is first so used.

(5) *Corporation, trust, or community chest, fund, or foundation*—(i) *In general.* *(a)* For taxable years beginning after December 31, 1963, gifts made to a corporation, trust, or community chest, fund, or foundation, referred to in section 170(c)(2) (other than an organization specified in subparagraph (1) (i) through (vi) of this paragraph), may be taken into account in computing the additional 10-percent limitation, provided the organization is a ''publicly supported'' organization. For purposes of this subparagraph, an organization is ''publicly supported'' if it normally receives a substantial part of its support from a governmental unit referred to in section 170(c)(1) or from direct or indirect contributions from the general public.

(b) An important factor in determining whether an organization normally receives a substantial part of its support from ''direct or indirect contributions from the general public'' is the extent to which the organization derives its support from or through voluntary contributions made by persons representing the general public. Except in unusual situations (particularly in the case of newly created organizations), an organization is not ''publicly supported'' if it receives contributions only from the members of a single family or from a few individuals.

(ii) *Special rules and meaning of terms.* *(a)* For purposes of this subparagraph, the term *support*, except as otherwise provided in *(b)* of this subdivision (ii), means all forms of support including (but not limited to) contributions received by the organization, investment income (such as, interest, rents, royalties, and dividends), and net income from unrelated business activities whether or not such activities are carried on regularly as a trade or business.

(b) The term *support* does not include:

(1) Any amounts received from the exercise or performance by an organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a). In general, such amounts include amounts received from any activity the conduct of which is substantially related to the furtherance of such purpose or function (other than through the production of income).

(2) Any gain upon the sale or exchange of property which would be considered under any section of the Code as gain from the sale or exchange of a capital asset.

(3) Contributions of services for which a deduction is not allowable.

(c) The term *support from a governmental unit* includes:

(1) Any amounts received from a governmental unit including donations or contributions and amounts received in connection with a contract entered into with a governmental unit for the performance of services or in connection with a government research grant, provided such amounts are not excluded from the term *support* under *(b)* of this subdivision (ii). For purposes of *(b)(1)* of this subdivision (ii), an amount paid by a governmental unit to an organization is not received from the exercise or performance of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a) if the purpose of the payment is to enable the organization to provide a service to, or

maintain a facility for, the direct benefit of the public, as, for example, the maintenance of library facilities which are open to the public.

(2) Tax revenues levied for the benefit of the organization and either paid to or expended on behalf of the organization.

(3) The value of services or facilities (exclusive of services or facilities generally furnished, without charge, to the public) furnished by a governmental unit to the organization without charge, as, for example, where a city pays the salaries of personnel used to guard a museum, art gallery, etc., or provides, rent free, the use of a building. However, the term does not include the value of any exemption from Federal, State, or local tax or any similar benefit.

(d) The term *indirect contributions from the general public* includes contributions received by the organization from organizations which normally receive a substantial part of their support from direct contributions from the general public.

(iii) *Determination of whether organization is ''publicly supported''—(a) In general.* No single test which would be appropriate in every case may be prescribed for determining whether a corporation, trust, or community chest, fund, or foundation, referred to in section 170(c)(2), is ''publicly supported''. For example, since the statutory test is whether the organization normally receives a substantial part of its support from the prescribed sources, a test which would be appropriate in the case of an organization which has been in operation for a number of years would not necessarily be appropriate in the case of a newly established organization. The determination of whether an organization is ''publicly supported'' depends on the facts and circumstances in each case. Thus, although a ''mechanical test'' is set forth in *(b)* of this subdivision (iii), such test is not an exclusive test. Accordingly, an organization which does not qualify as a ''publicly supported'' organization by application of the ''mechanical test'' may qualify as a ''publicly supported'' organization on the basis of the facts and circumstances in its case. For provisions relating to the facts and circumstances test, see *(c)* of this subdivision (iii).

(b) Mechanical test. An organization will be considered to be a ''publicly supported'' organization for its current taxable year and the taxable year immediately succeeding its current year, if, for the four taxable years immediately preceding the current taxable year, the total amount of the support which the organization receives from governmental units, from donations made directly or indirectly by the general public, or from a combination of these sources equals 33⅓ percent or more of the total support of the organization for such four taxable years. The rule in the preceding sentence does not apply if there are substantial changes in the organization's character, purposes, or methods of operation in the current year, and does not apply in respect of the immediately succeeding taxable year if such changes occur in such year. In determining whether the 33⅓-percent-of-support test is met, contributions by an individual, trust, or corporation shall be taken into account only to the extent that the total amount of the contributions by any such individual, trust, or corporation during the four-taxable-year period does not exceed 1 percent of the organization's total support for such four taxable years. In applying the 1-percent limitation, all contributions made by a donor and by any person or persons standing in a relationship to the donor which is described in section 267(b) and the regulations thereunder shall be treated as made by one person. The 1-percent limitation shall not apply to support from governmental units referred to in section 170(c)(1) or to contributions from ''publicly supported'' organizations. A national organization which carries out its purposes through local chapters with which it has an identity of aims and purposes may, for purposes of determining whether the organization and the local chapters meet the mechanical test, make the computation on an aggregate basis.

Example. For the years 1964 through 1967, X, an organization referred to in section 170(c)(2), received support (as defined in subdivision (ii) of this subparagraph) of $600,000 from the following sources:

Investment income	$300,000

City Y (a governmental unit referred to in section 170(c)(1))	40,000
United Fund (an organization referred to in section 170(c)(2) which is "publicly supported")	40,000
Contributions	220,000
Total support	600,000

For the years 1964 through 1967, X received in excess of 33⅓ percent of its support from a governmental unit referred to in section 170(c)(1) and from direct and indirect contributions from the general public computed as follows:

33⅓ percent of total support	$200,000
Support from a governmental unit referred to in section 170(c)(1)	40,000
Indirect contributions from the general public (United Fund)	40,000
Contributions by various donors (no one donor having made contributions which total in excess of $6,000—1 percent of total support)	50,000
12 contributions (each in excess of $6,000—1 percent of total support) 12×$6,000	72,000
	202,000

Since the amount of X's support from governmental units referred to in section 170 (c)(1) and from direct and indirect contributions from the general public in the years 1964 through 1967 is in excess of 33⅓ percent of X's total support for such four taxable years, X is considered a ''publicly supported'' organization with respect to contributions made to it during 1968 and 1969 without regard to whether X receives 33⅓ percent of its support during 1968 or 1969 from such sources (assuming that there are no substantial changes in X's character, purposes, or methods of operation).

(c) Facts and circumstances test. (1) A corporation, trust, or community chest, fund or foundation referred to in section 170(c)(2) which does not qualify as a ''publicly supported'' organization under the mechanical test described in (b) of this subdivision (iii) (including an organization which has not been in existence for a sufficient length of time to make such test applicable) may be a ''publicly supported'' organization on the basis of the facts and circumstances in its case.

(2) The facts and circumstances which are relevant and the weight to be accorded such facts and circumstances may differ in certain cases depending, for example, on the nature of the organization and the period of time it has been in existence. However, under no circumstances will an organization which normally receives substantially all of its contributions (directly or indirectly) from the members of a single family or from a few individuals qualify as a ''publicly supported'' organization.

(3) For purposes of the facts and circumstances test the most important consideration is the organization's source of support. An organization will be considered a ''publicly supported'' organization if it is constituted so as to attract substantial support from contributions, directly or indirectly, from a representative number of persons in the community or area in which it operates. In determining what is a ''representative number of persons,'' consideration must be given to the type of organization and whether or not the organization limits its activities to a special field which can be expected to appeal to a limited number of persons. An organization is so constituted if, for example, it establishes that it does in fact receive substantial support from contributions from a representative number of persons; that pursuant to its organizational structure and method of operation it makes bona fide solicitations for broad based public support, or, in the case of a newly created organization, that its organizational structure and method of operation are such as to require bona fide solicitations for broad based public support; that it receives substantial support from a community chest or similar public federated fund raising organization, such as a United Fund or United Appeal; or that it has a substantial number of members (in relation to the community it serves, the nature of its activities, and its total support) who pay annual membership dues.

(4) Although primary consideration will be given to the source of an organization's support, other relevant factors may be taken into account in determining whether or not the organization is of a public nature, such as:

(i) Whether the organization has a governing body (whether designated in the organization's bylaws, certificate of incorporation, deed of trust, etc., as a Board of Directors, Board of Trustees, etc.) which is comprised of public officials, of individuals chosen by public officials acting in their capacity as such, or of citizens broadly representative of the interests and views of the public. This characteristic does not

exist if the membership of an organization's governing body is such as to indicate that it represents the personal or private interests of a limited number of donors to the organization (or persons standing in a relationship to such donors which is described in section 267(b) and the regulations thereunder), rather than the interests of the community or the general public.

(ii) Whether the organization annually or more frequently makes available to the public financial reports or, in the case of a newly created organization, is constituted so as to require such reporting. For this purpose an information or other return made pursuant to a requirement of a governmental unit shall not be considered a financial report. An organization shall be considered as making financial reports of its operations available to the public if it publishes a financial report in a newspaper which is widely circulated in the community in which the organization operates or if it makes a bona fide dissemination of a brochure containing a financial report.

(iii) If the organization is of a type which generally holds open to the public its buildings (as in the case of a museum) or performances conducted by it (as in the case of a symphonic orchestra), whether the organization actually follows such practice, or, in the case of a newly created organization, is so organized as to require that its facilities be open to the public.

(5) The application of this subdivision *(c)* may be illustrated by the following examples:

Example 1. M, a community trust, is an organization referred to in section 170(c)(2). In 1950, M was organized in the X Community by several leading trusts and financial institutions with the purpose of serving permanently the educational and charitable needs of the X Community by providing a means by which the public may establish funds or make gifts of various amounts to established funds which are administered as an aggregate fund with provision for distribution of income and, in certain cases, principal for educational or charitable purposes by a single impartial committee. The M Organization, by distribution of pamphlets to the public through participating trustee banks, actively solicits members of the X Community and other concerned parties to establish funds within the trust or to contribute to established funds within the trust. Under the declaration of trust, a contributor to a fund may suggest or request (but not require) that his contribution be used in respect of his preferred charitable, educational, or other benevolent purpose, and distributions of the income from the fund, and in certain cases the principal, will be made by the Distribution Committee with regard to such request unless changing conditions make such purpose unnecessary, undesirable, impractical, or impossible in which case income and (where the contributor has so specified) principal will be distributed by the Distribution Committee in order to promote the public welfare more effectively. Where a contributor has not expressed a desire as to a charitable, educational, or other benevolent purpose, the Distribution Committee will distribute the entire annual income from the fund to such a purpose agreed upon by such committee. The Distribution Committee is composed of representatives of the community chosen one each by the X Bar Association, the X Medical Society, the mayor of X Community, the judge of the highest X Court, and the president of the X College, and two representatives chosen by the participating trustee banks. There are a number of separate funds within the trust administered by several participating banks. M has consistently distributed or used its entire annual income for projects with purposes described in section 170(c)(2)(B) from which members of the public may benefit or to other organizations described in section 170(b)(1)(A) which so distribute or use such income. Through its participating trustee banks, M annually makes available to the public a brochure containing a financial statement of its operations including a list of all receipts and disbursements. Under the facts and circumstances, M is a ''publicly supported'' organization.

Example 2. Assume the same facts as in *Example (1)* except that M has been in existence for only one year and only two contributors have established funds within the trust. The Distribution Committee has been chosen and is required by the governing declaration of trust to make annual distribution of the entire income of the trust to projects with purposes described in section 170(c)(2)(B) from which members of the public may benefit or to other organizations described in section 170(b)(1)(A) which so distribute or use such income. The declaration of trust and other governing instruments require (1) that the M Community Trust actively solicit contributions from members of the X Community through dissemination of literature and other public appeals, and (2) that it make available to the members of the X Community, annual financial reports of its operations. Under the facts and circumstances, M is a ''publicly supported'' organization.

Example 3. N, an art museum, is an organization referred to in section 170(c)(2). In 1930, N was founded in Y City by the members of a single family to collect, preserve, interpret, and display to the public important works of art. N is governed by a self-perpetuating Board of Trustees limited by the governing instruments to a maximum membership of 20 individuals. The original board consisted almost entirely of members of the founding family. Since 1945, members of the founding family or persons standing in a relationship to the members of such family described in section 267(b) have annually constituted less than one-fifth of the Board of Trustees. The remaining board members are citizens of Y City from a variety of professions and occupations who represent the interests and views of the people of Y City in the activities carried on by the organization rather than the personal or private interests of the founding family. N solicits contributions from the general public and for each of its four most recent taxable years has received total contributions in small sums (less than $100) in excess of $10,000. For N's four most recent taxable years, investment income from several large endowment funds has constituted 75 percent of its total support. N normally expends a substantial part of its annual income for purposes described in section 170(c)(2)(B). N has, for the entire period of its existence, been open to the public and more than 300,000 people (from the Y City and elsewhere) have visited the museum in each of its four most recent taxable years. N annually publishes a financial report of its operation in the Y City newspaper. Under the facts and circumstances, N museum is a ''publicly supported'' organization.

Example 4. In 1960, the O Philharmonic Orchestra was organized in Z City through the combined efforts of a local music society and a local women's club to present to the public a wide variety of musical programs intended to foster music appreciation in the community. O is an organization referred to in section 170(c)(2). The orchestra is composed of professional musicians who are paid by the association. Twelve performances, open to the public, are scheduled each year. The admission charge for each of these performances is $3. In addition, several performances are staged annually without charge. In each of its four most recent taxable years, O has received separate contributions of $10,000 from A, B, C, and D (not members of a single family) and support of $5,000 from the Z Community Chest, a public federated fund raising organization operating in Z City. O is governed by a Board of Directors comprised of five individuals. A faculty member of a local college, the president of a local music society, the head of a local banking institution, a prominent doctor, and a member of the governing body of the local Chamber of Commerce currently serve on the Board and represent the interests and views of the community in the activities carried on by O. O annually files a financial report with Z City which makes such report available for public inspection. Under the facts and circumstances, O is a ''publicly supported'' organization.

Example 5. P is a newly created organization of a type referred to in section 170 (c)(2). P's charter requires that its governing body be selected by public officials and by public organizations representing the community in which it operates. Pursuant to P's charter, a continuing fund raising campaign which will encompass the entire community has been planned. P's charter requires that its entire annual income be distributed to or used for projects with purposes described in section 170(c)(2)(B) and that it make available to the public annual financial reports of its operations. By reason of the express provisions of P's charter relating to its organizational structure and prescribed methods of operation, P is a ''publicly supported'' organization.

(6) *Examples.* The application of the special 10-percent limitation and the general 20-percent limitation on contributions by individuals may be illustrated by the following examples:

Example 1. A, an individual, reports his income on the calendar year basis and for the year 1957 has an adjusted gross income of $10,000. During 1957 he made the following charitable contributions:

1. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	$2,400	
2. Other charitable contributions	700	
3. Total contributions paid	3,100	

		Deductible contributions
4. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	2,400	
5. Special limitation under section 170(b)(1)(A): 10 percent of adjusted gross income	1,000	
6. Deductible amount: line 4 or line 5, whichever is the lesser		$1,000
7. Excess of line 4 over line 5	1,400	
8. Add: Other charitable contributions	700	

		Deductible contributions
9. Contributions subject to the general 20-percent limitation under section 170(b)(1)(B)	2,100	
10. Limitation under section 170(b)(1)(B): 20 percent of the adjusted gross income	2,000	
11. Deductible amount: line 9 or line 10, whichever is the lesser		2,000
12. Contributions not deductible	100	
13. Total deduction for contributions		3,000

Example 2. B, an individual, reports his income on the calendar year basis and for the year 1957 has an adjusted gross income of $10,000. During 1957 he made the following charitable contributions:

1. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	$700	
2. Other charitable contributions	2,400	
3. Total contributions paid	3,100	
4. Contributions qualifying for the additional 10-percent deduction under section 170(b)(1)(A)	700	
5. Limitation described in section 170(b)(1)(A): 10 percent of the adjusted gross income	1,000	
6. Deductible amount: line 4 or line 5, whichever is the lesser		$700
7. Excess of line 4 over line 5	0	
8. Add: Other charitable contributions	2,400	
9. Contributions subject to the general 20-percent limitation under section 170(b)(1)(B)	2,400	
10. Limitation under section 170(b)(1)(B): 20 percent of the adjusted gross income	2,000	
11. Deductible amount: line 9 or line 10, whichever is the lesser		2,000
12. Contributions not deductible	400	
13. Total deduction for contributions		2,700

(c) *Unlimited deduction for individuals*—(1) *In general.* (i) The deduction for charitable contributions made by an individual is not subject to the 10- and 20-percent limitations of section 170(b) if in the taxable year and each of 8 of the 10 preceding taxable years the sum of his charitable contributions paid during the year, plus his payments during the year on account of Federal income taxes, is more than 90 percent of his taxable income for the year (or net income, in years governed by the Internal Revenue Code of 1939). In determining the applicability of the 10- and 20-percent limitations of section 170(b) for taxable years beginning after December 31, 1957, there may be substituted, in lieu of the amount of income tax paid during any year, the amount of income tax paid in respect of such year, provided that any amount so included for the year in respect of which payment was made shall not be included for any other year. For the purpose of the first sentence of this paragraph, taxable income under the 1954 Code is determined without regard to the deductions for charitable contributions under section 170, for personal exemptions under section 151, or for a net operating loss carryback under section 172. On the other hand, for this purpose net income under the 1939 Code is computed without the benefit only of the deduction for charitable contributions. See section 120 of the Internal Revenue Code of 1939. The term *income tax* as used in section 170(b)(1)(C) means only Federal income taxes, and does not include the taxes imposed on self-employment income, on employees under the Federal Insurance Contributions Act, and on railroad employees and their representatives under the Railroad Retirement Tax Act by Chapters 2, 21, and 22, respectively, or corresponding provisions of the Internal Revenue Code of 1939. For purposes of section 170(b)(1)(C) and this paragraph, the amount of income tax paid during a taxable year shall be determined (except as provided in subdivision (ii) of this subparagraph) by including all payments made by the taxpayer during such taxable year on account of his Federal income taxes (whether for the taxable year or for preceding taxable years). Such payments would include any amount paid during the taxable year as estimated tax (exclusive of any portion of such amount for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter (2) for that year, payment of the final installment of estimated tax (exclusive of any portion of such installment, for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter 2) for the preceding taxable year, final payment for the preceding taxable year, and any payment of a deficiency for an earlier taxable year, to the extent that such payments do not exceed the tax for the taxable year for which payment is made. Any payment of income tax with respect to which the taxpayer receives a refund or credit shall be reduced by the amount of such refund or credit. Any such refund or credit shall be applied against the most recent payments for the taxable year in respect of which the refund or credit arose.

(ii) For any taxable year beginning after December 31, 1957, the applicability of the 10- and 20-percent limitations of section 170(b) may be determined either with reference to the income tax paid during the year or any prior year, or with reference to the income tax paid in respect of any such year or prior years. The 90-percent test of section 170(b)(1)(C) may be applied for the taxable year, or for any one or more of the preceding 10 taxable years, by taking into account the income taxes paid in respect of that year or years, and for the balance of the 10 years by taking into account the income tax payments made during those years. Thus, a taxable year which qualifies under either of the two permissible methods shall be considered as a qualifying year irrespective of whether the taxable year begins before or after December 31, 1957. However, a particular income tax payment may only be taken into account once, either with respect to the year of liability or for the year of payment.

(2) *Joint returns*—(i) *Joint return for current taxable year.* If a husband and wife make a joint return for any taxable year, their deduction for charitable contributions is not subject to the 10- and 20-percent limitations of section 170(b), if, under the rules of subparagraph (1) of this paragraph, in the taxable year and in each of 8 of the 10 preceding taxable years (regardless of whether separate or joint returns were filed), the aggregate charitable contributions of both spouses paid during the year, plus their aggregate payments during the year on account of Federal income taxes (or, if the taxable year begins after December 31, 1957, the aggregate tax paid in respect of such taxable year or any preceding taxable year) exceed 90 percent of their aggregate taxable incomes for the year.

(ii) *Separate return by spouse or by unremarried widow or widower.* If a spouse, or the unremarried widow or widower of a deceased spouse, makes a separate return for any taxable year, his deduction for charitable contributions is not subject to the 10- and 20-percent limitations of section 170(b), if, under the rules of subparagraph (1) of this paragraph, in the taxable year and each of 8 of the 10 preceding taxable years:

(a) For which the taxpayer filed a joint return with his spouse, either their aggregate charitable contributions and payments of Federal income taxes made during the taxable year (or if the taxable year begins after December 31, 1957, made in respect of such taxable year or any preceding taxable year) exceed 90 percent of their aggregate taxable income for that year, or the taxpayer's separate charitable contributions and payments of Federal income taxes allocable to his separate income and made during the taxable year (or if the taxable year begins after December 31, 1957, made in respect of such taxable year or any preceding taxable year) exceed 90 percent of his separate taxable income for that year, and *(b)* For which the taxpayer did not file a joint return with his spouse, the aggregate of his charitable contributions and payments of Federal income taxes made during the taxable year (or, if the taxable year begins after December 31, 1957, the payments of income taxes

made in respect of such taxable year or any preceding taxable year) exceeds 90 percent of his taxable income for that year.

For the purpose of the preceding sentence, the word *spouse* does not include a spouse from whom the taxpayer has been divorced.

(iii) *Joint return with former spouse for prior taxable year.* A divorced or remarried taxpayer who filed a joint return for a prior taxable year with a former spouse shall, for purposes of applying this paragraph, be treated in the same manner as if he had filed a separate return for such prior taxable year, and as if his Federal income tax liability and taxable income for such prior taxable year were his allocable portions of the joint tax liability and combined taxable income, respectively, for such year.

(iv) *Allocation.* Whenever it is necessary to allocate the joint tax liability or the combined taxable income, or both, for a taxable year for which a joint return was filed, a computation shall be made for the taxpayer and for his spouse or former spouse showing for each of them the Federal income taxes and taxable income which would be determined if separate returns had been filed by them for such taxable year. The joint tax liability and conbined taxable income for such taxable year shall then be allocated proportionately to the income taxes and taxable income, respectively, so computed. Whenever it is necessary to determine the separate payments made by a taxpayer in respect of a joint tax liability, the amount paid by him during the taxable year as estimated tax (exclusive of any portion of such amount for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by Chapter 2) for that year shall be included to the extent it does not exceed his allocable portion of the joint tax under Chapter 1 (exclusive of tax under section 56) for the taxable year, and any amount paid by him for a prior year (whether as the final installment of estimated tax—exclusive of any portion of such installment, for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by Chapter 2—for the preceding taxable year, or a final payment for the preceding year, or the payment of a deficiency for an earlier year) shall be included to the extent such amount, when added to amounts previously paid by him for such prior year, does not exceed his allocable portion of the joint tax liability for the prior year.

(d) *Denial of deduction in case of certain transfers in trust*—(1) *Reversionary interest in grantor.* No charitable deduction will be allowed for the value of any interest in property transferred to a trust after March 9, 1954, if the grantor at the time of the transfer has a reversionary interest in the corpus or income and the value of such reversionary interest exceeds 5 percent of the total value on which the charitable deduction would, but for section 170(b)(1)(D), be determined. For purposes of this paragraph, the term *reversionary interest* means a possibility that after the possession or enjoyment of property or its income has been obtained by a charitable donee, the property or its income may revest in the grantor or his estate, or may be subject to a power exercisable by the grantor or a nonadverse party (within the meaning of section 672 (b)), or both, to revest in, or return to or for the benefit of, the grantor or his estate the property or income therefrom. An interest of the grantor which, in any event, will terminate before the ripening of the assured charitable gift for which a deduction is claimed is not considered a reversionary interest for purposes of this section. For example, assume that a taxpayer conveyed property to a trust under the terms of which the income is payable to the taxpayer's wife for her life, and, if she predeceases him, to him for his life, and after the death of both the property is to be transferred to a charitable organization.

(2) *Valuation of interests.* The present value of the remainder interest in the property, taking into account the value of the life estates reserved to the taxpayer and his wife, may be allowed as a charitable deduction. Where the corpus of the trust is to return to the grantor after a number of years certain, the value of the reversionary interest at the time of the transfer may

be computed by the use of tables showing the present value at 3 1/2 percent a year, compuounded annually, of $1 payable at the end of a number of years certain. See paragraph (f), Table II, of §20.2031–7 of this chapter (Estate Tax Regulations). Where the value of a reversionary interest is dependent upon the continuation or termination of the life of one or more persons, it must be determined on the basis of Table 38 of United States Life Tables and Actuarial Tables 1939–1941, published by the United States Department of Commerce, Bureau of the Census, and interest at the rate of 3 1/2 percent a year, compounded annually. See paragraph (f), Table I, of §20.2031–7 of this chapter (Estate Tax Regulations) for valuations based on one life, and ''Actuarial Values for Estate and Gift Tax'' (Internal Revenue Service Publication No. 11, Rev. 5–59) for values based on more than one life. In an actual case (not merely hypothetical), the grantor or his legal representative may, upon request, obtain the information necessary to determine such a value from the district director with whom the grantor files his return. The request must be accompanied by a statement showing the date of birth of each person the duration of whose life may affect the value of the reversionary interest and by copies of the instruments relevant to the transfer.

(e) *Fiscal years and short taxable years ending after March 9, 1954, subject to the Internal Revenue Code of 1939.* Pursuant to section 7851(a)(1)(C) of the Internal Revenue Code of 1954, the regulations prescribed in paragraph (d) of this section, to the extent that they relate to transfers in trust occurring after March 9, 1954, shall apply to all taxable years ending after March 9, 1954, even though those years may be subject to the Internal Revenue Code of 1939.

(f) *Amounts paid to maintain certain students as members of the taxpayer's household*—(1) *In General.* (i) For taxable years beginning after December 31, 1959, the term *charitable contribution* includes amounts paid by the taxpayer during the taxable year to maintain certain students as members of his household which, under the provisions of section 170(d) and this paragraph, are treated as amounts paid for the use of an organization described in section 170(c) (2), (3), or (4), and such amounts, to the extent they do not exceed the limitations under section 170(d)(2) and paragraph (f)(2) of this section, are deductible contributions under section 170. In order for such amounts to be so treated, the student must be an individual who is neither a dependent (as defined in section 152) of the taxpayer nor related to the taxpayer in a manner described in any of the paragraphs (1) through (8) of section 152(a), and such individual must be a member of the taxpayer's household pursuant to a written agreement between the taxpayer and an organization described in section 170(c) (2), (3), or (4) to implement a program of the organization to provide educational opportunities for pupils or students placed in private homes by such organization. Furthermore, such amounts must be paid to maintain such individual during the period in the taxable year he is a member of the taxpayer's household and is a full-time pupil or student in the twelfth or any lower grade at an educational institution (as defined in section 151(e)(4)) located in the United States. Amounts paid outside of the period (but within the taxable year) for expenses necessary for the maintenance of the student during the period will qualify for the charitable deduction if the other limitation requirements of the section are met.

(ii) For purposes of paragraph (i) of this section, amounts treated as charitable contributions include only those amounts actually paid by the taxpayer during the taxable year which are directly attributable to the maintenance of the student while he is a member of the taxpayer's household and is attending school on a full-time basis. This would include amounts paid to ensure the well-being of the individual and to carry out the purpose for which the individual was placed in the taxpayer's home. For example, a deduction would be allowed for amounts paid for books, tuition, food, clothing, transportation, medical and dental care, and recreation for the individual. Amounts treated as charitable contributions under this paragraph do not include amounts which the taxpayer would have expended had the student not been in the household. They would not include, for example, amounts paid in connection with the taxpayer's home for taxes, insurance, interest on a mortgage, repairs, etc. Moreover, such amounts do not include any depreciation sustained by the taxpayer in maintaining such student or students in his household, nor do they include the value of any services rendered on behalf of such student or students by the taxpayer or any member of the taxpayer's household.

(iii) For purposes of section 170(d) and this paragraph, an individual will be considered to be a full-time pupil or student at an educational institution only if he is enrolled for a course of study (prescribed for a full-time student) at such institution and is attending classes on a full-time basis. Nevertheless, such individual may be absent from school due to special circumstances and still be considered to be in full-time attendance. Periods during the regular school term when the school is closed for holidays, such as Christmas and Easter, and for periods between semesters are treated as periods during which the pupil or student is in full-time attendance at the school. Also, absences during the regular school term due to illness of such individual shall not prevent him from being considered as a full-time pupil or student. Similarly, absences from the taxpayer's household due to special circumstances will not disqualify the student as a member of the household. Summer vacations between regular school terms are not considered periods of school attendance.

(iv) As in the case of other charitable deductions, any deduction claimed for amounts described in section 170(d) and this paragraph which are treated as charitable contributions under section 170(c) is subject to verification by the district director. When claiming a deduction for such amounts, the taxpayer should submit a copy of his agreement with the organization sponsoring the individual placed in the taxpayer's household together with a summary of the various items for which amounts were paid to maintain such individual, and a statement as to the date the individual became a member of the household and the period of his attendance at school and the name and location of such school. Substantiation of amounts claimed must be supported by adequate records of the amounts actually paid. Due to the nature of certain items, such as food, a record of amounts spent for all members of the household, with an equal portion thereof allocated to each member, will be acceptable.

(2) *Limitations.* Section 170(d) and this paragraph shall apply to amounts paid during the taxable year only to the extent that the amounts paid in maintaining each pupil or student do not exceed $50 multiplied by the number of full calendar months in the taxable year that the pupil or student is maintained in accordance with the provisions of this paragraph. For purposes of such limitation, if 15 or more days of a calendar month fall within the period to which the maintenance of such pupil or student relates, such month is considered as a full calendar month. To the extent that such amounts qualify as charitable contributions under section 170(c), the aggregate of such amounts plus other contributions made during the taxable year is deductible under section 170, subject to the 20-percent limitation provided in section 170(b)(1)(B). Also, see § 1.170–2(a)(1).

(3) *Compensation or reimbursement.* Amounts paid during the taxable year to maintain a pupil or student as a member of the taxpayer's household, as provided in paragraph (f)(1) of this section, shall not be taken into account under section 170(d) of this paragraph, if the taxpayer receives any money or other property as compensation or reimbursement for any portion of such amounts. The taxpayer will not be denied the benefits of section 170(d) if he prepays an extraordinary or nonrecurring expense, such as a hospital bill or vacation trip, at the request of the individual's parents or the sponsoring organization and is reimbursed for such prepayment. The value of services performed by the pupil or student in attending to ordinary chores of the household will not generally be considered to constitute compensation or reimbursement. However, if the pupil or student is taken into the taxpayer's household to replace a former employee of the taxpayer or gratuitously

to perform substantial services for the taxpayer, the facts and circumstances may warrant a conclusion that the taxpayer received reimbursement for maintaining the pupil or student.

(4) *No other amount allowed as deduction.* Except to the extent that amounts described in section 170(d) and this paragraph are treated as charitable contributions under section 170(c) and, therefore, deductible under section 170(a), no deduction is allowed for any amount paid to maintain an individual, as a member of the taxpayer's household, in accordance with the provisions of section 170(d) and this paragraph.

(5) *Examples.* Application of the provisions of this paragraph may be illustrated by the following examples:

Example 1. The X organization is an organization described in section 170(c)(2) and is engaged in a program under which a number of European children are placed in the homes of United States residents in order to further the children's high school education. In accordance with the provisions of subparagraph (1) of this paragraph, the taxpayer, A, who reports his income on the calendar year basis, agreed with X to take two of the children, and they were placed in the taxpayer's home on January 2, 1960, where they remained until January 21, 1961, during which time they were fully maintained by the taxpayer. The children enrolled at the local high school for the full course of study prescribed for tenth grade students and attended the school on a full-time basis for the spring semester starting January 18, 1960, and ending June 3, 1960, and for the fall semester starting September 1, 1960, and ending January 13, 1961. The total cost of food paid by A in 1960 for himself, his wife, and the two children amounted to $1,920, or $40 per month for each member of the household. Since the children were actually full-time students for only 8 1/2 months during 1960, the amount paid for food for each child during that period amounted to $340. Other amounts paid during the 8 1/2 month period for each child for laundry, lights, water, recreation, and school supplies amounted to $160. Thus, the amounts treated under section 170(d) and this paragraph as paid for the use of X would, with respect to each child, total $500 ($340+$160), or a total for both children of $1,000, subject to the limitations of subparagraph (2) of this paragraph. Since, for purposes of such limitations, the children were full-time students for only 8 full calendar months during 1960 (less than 15 days in January 1960), the taxpayer may treat only $800 as a charitable contribution made in 1960, that is, $50 multiplied by the 8 full calendar months, or $400 paid for the maintenance of each child. Neither the excess payments nor amounts paid to maintain the children during the period before school opened and for the period in summer between regular school terms is taken into account by reason of section 170(d). Also, because the children were full-time students for less than 15 days in January 1961 (although maintained in the taxpayer's household for 21 days), amounts paid to maintain the children during 1961 would not qualify as a charitable contribution.

Example 2. A religious organization described in section 170(c)(2) has a program for providing educational opportunities for children it places in private homes. In order to implement the program, the taxpayer, H, who resides with his wife, son, and daughter of high school age in a town in the United States, signs an agreement with the organization to maintain a girl sponsored by the organization as a member of his household while the child attends the local high school for the regular 1960–61 school year. The child is a full-time student at the school during the school year starting September 6, 1960, and ending June 6, 1961, and is a member of the taxpayer's household during that period. Although the taxpayer pays $200 during the school period falling in 1960, and $240 during the school period falling in 1961, to maintain the child, he cannot claim either amount as a charitable contribution because the child's parents, from time to time during the school year, send butter, eggs, meat, and vegetables to H to help defray the expenses of maintaining the child. This is considered property received as reimbursement under subparagraph (3) of this paragraph. Had her parents not contributed the food, the fact that the child, in addition to the normal chores she shared with the taxpayer's daughter, such as cleaning their own rooms and helping with the shopping and cooking, was responsible for the family laundry and for the heavy cleaning of the entire house while the taxpayer's daughter had no comparable responsibilities would also preclude a claim for a charitable deduction. These substantial gratuitous services are considered property received as reimbursement under subparagraph (3) of this paragraph.

Example 3. A taxpayer resides with his wife in a city in the eastern United States. He agrees, in writing, with a fraternal society described in section 170(c)(4) to accept a child selected by the society for maintenance by him as a member of his household during 1961 in order that the child may attend the local grammar school as a part of the society's program to provide elementary education for certain children selected by it. The taxpayer maintains the child, who has as his principal place of abode the home of the taxpayer, and is a member of the taxpayer's household, during the entire year

1961. The child is a full-time student at the local grammar school for 9 full calendar months during the year. Under the agreement, the society pays the taxpayer $30 per month to help maintain the child. Since the $30 per month is considered as compensation or reimbursement to the taxpayer for some portion of the maintenance paid on behalf of the child, no amounts paid with respect to such maintenance can be treated as amounts paid in accordance with section 170(d). In the absence of the $30 per month payments, if the child qualifies as a dependent of the taxpayer under section 152(a)(9), that fact would also prevent the maintenance payments from being treated as charitable contributions paid for the use of the fraternal society.

(g) *Charitable contributions carryover of individuals*—(1) *Computation of excess charitable contributions made in contribution year.* Subject to certain conditions and limitations, the excess of:

(i) The amount of the charitable contributions made by an individual in a taxable year beginning after December 31, 1963 (hereinafter in this paragraph referred to as the ‘‘contribution year’’), to organizations specified in section 170(b)(1)(A) (see paragraph (b) of this section), over

(ii) Thirty percent of his adjusted gross income (computed without regard to any net operating loss carryback to such year under section 172) for such contribution year, shall be treated as a charitable contribution paid by him to an organization specified in section 170(b)(1)(A) and paragraph (b) of this section, relating to the additional 10-percent deduction, in each of the 5 taxable years immediately succeeding the contribution year in order of time. (For provisions requiring a reduction of such excess, see subparagraph (5) of this paragraph.) The provisions of this subparagraph apply even though the taxpayer elects under section 144 to take the standard deduction in the contribution year instead of itemizing the deductions (other than those specified in sections 62 and 151) allowable in computing taxable income for the contribution year. No excess charitable contribution carryover shall be allowed with respect to contributions ‘‘for the use of’’ rather than ‘‘to’’ organizations described in section 170(b)(1)(A) and paragraph (b) of this section or with respect to contributions made ‘‘to’’ or ‘‘for the use of’’ organizations which are not described in such sections. The provisions of section 170(b)(5) and this paragraph are not applicable in the case of estates or trusts, see section 642(c), relating to deductions for amounts paid or permanently set aside for a charitable purpose, and the regulations thereunder. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that H and W (husband and wife) have adjusted gross income for 1964 of $50,000 and for 1965 of $40,000 and file a joint return for each year. Assume further that in 1964 they contribute $16,500 to a church and $1,000 to X (an organization not referred to in section 170(b)(1)(A)) and in 1965 contribute $11,000 to the church and $400 to X. They may claim a charitable contribution deduction of $15,000 in 1964, and the excess of $16,500 (contribution to the church) over $15,000 (30 percent of adjusted gross income) or $1,500 constitutes a charitable contribution carryover which shall be treated as a charitable contribution paid by them to an organization referred to in section 170(b)(1)(A) in each of the 5 succeeding taxable years in order of time. No carryover is allowed with respect to the $1,000 contribution made to X in 1964. Since 30 percent of their adjusted gross income for 1965 ($12,000) exceeds the charitable contributions of $11,000 made by them in 1965 to organizations referred to in section 170(b)(1)(A) (computed without regard to section 170(b)(5) and this paragraph) the portion of the 1964 carryover equal to such excess of $1,000 ($12,000 minus $11,000) is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1965; the remaining $500 constitutes an unused charitable contribution carryover. No carryover is allowed with respect to the $400 contribution made to X in 1965.

Example 2. Assume the same facts as in *Example (1)* except that H and W have adjusted gross income for 1965 of $42,000. Since 30 percent of their adjusted gross income for 1965 ($12,600) exceeds by $1,600 the charitable contribution of $11,000 made by them in 1965 to organizations referred to in section 170(b)(1)(A) (computed without regard to section 170(b)(5) and this paragraph), the full amount of the 1964 carryover of $1,500 is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1965. They may also claim a charitable contribution of $100 ($12,600 −$12,500 ($11,000+$1,500)) with respect to the gift to X in 1965. No carryover is allowed with respect to the $300 ($400−$100) of the contribution to X which is not deductible in 1965.

(2) *Determination of amount treated as paid in taxable years succeeding contribution year.* Notwithstanding the provisions of subparagraph (1) of this paragraph, the amount of the excess computed in accordance with the provisions of subparagraphs (1) and (5) of this paragraph which is to be treated as paid in any one of the 5 taxable years immediately succeeding the contribution year to an organization specified in section 170(b)(1)(A) shall not exceed the lesser of the amount computed under subdivision (i) or (ii) of this subparagraph:

(i) The amount by which *(a)* 30 percent of the taxpayer's adjusted gross income for such succeeding taxable year (computed without regard to any net operating loss carryback to such succeeding taxable year under section 172) exceeds *(b)* the sum of *(1)* the charitable contributions actually made (computed without regard to the provisions of section 170(b)(5) and this paragraph) by the taxpayer in such succeeding taxable year to organizations referred to in section 170(b)(1)(A), and (2) the charitable contributions made to organizations referred to in section 170(b)(1)(A) in taxable years (excluding any taxable year beginning before January 1, 1964) preceding the contribution year which, pursuant to the provisions of section 170(b)(5) and this paragraph, are treated as having been paid to an organization referred to in section 170(b)(1)(A) in such succeeding year.

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contribution in the contribution year, computed under subparagraphs (1) and (5) of this paragraph. In the case of the second, third, fourth, and fifth succeeding taxable years, the portion of the excess charitable contribution in the contribution year (computed under subparagraphs (1) and (5) of this paragraph) which has not been treated as paid to a section 170(b)(1)(A) organization in a year intervening between the contribution year and such succeeding taxable year.

If a taxpayer, in any one of the four taxable years succeeding a contribution year, elects under section 144 to take the standard deduction in the amount provided for in section 141 instead of itemizing the deductions (other than those specified in sections 62 and 151) allowable in computing taxable income, there shall be treated as paid (but not allowable as a deduction) in the standard deduction year the amount determined under subdivision (i) or (ii) of this subparagraph, whichever is the lesser. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that B has adjusted gross income for 1966 of $20,000 and for 1967 of $30,000. Assume further that in 1966 B contributed $8,000 to a church and in 1967 he contributes $7,500 to the church. B may claim a charitable contribution deduction of $6,000 in 1966, and the excess of $8,000 (contribution to the church) over $6,000 (30 percent of B's adjusted gross income) or $2,000 constitutes a charitable contribution carryover which shall be treated as a charitable contribution paid by B to an organization referred to in section 170(b)(1)(A) in the 5 taxable years succeeding 1966 in order of time. (B made no excess contributions in 1964 or 1965 which should be treated as paid in years succeeding 1964 or 1965.) B may claim a charitable contribution deduction of $9,000 in 1967. Such $9,000 consists of the $7,500 contribution to the church in 1967 and $1,500 carried over from 1966 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1967. The $1,500 contribution treated as paid in 1967 is computed as follows:

1966 excess contributions		$2,000
30 percent of B's adjusted gross income for 1967		9,000
Less:		
Contributions actually made in 1967 to section 170(b)(1)(A) organizations	$7,500	
Contributions made to section 170(b)(1)(A) organizations in taxable years prior to 1966 treated as having been paid in 1967	0	7,500
		1,500

Amount of 1966 excess treated as paid in 1967—the lesser of $2,000 (1966 excess contributions) or $1,500 (30 percent of adjusted gross income for 1967 ($9,000) over the section 170(b)(1)(A) contributions actually made in 1967 ($7,500) and the section 170(b)(1)(A) contributions made in years prior to 1966 treated as having been paid in 1967 (0))	1,500

If the excess contributions made by B in 1966 had been $1,000 instead of $2,000, then, for purposes of this example, the amount of the 1966 excess treated as paid in 1967 would be $1,000 rather than $1,500.

Example 2. Assume the same facts as in *Example (1)*, and, in addition, that B has adjusted gross income for 1968 of $10,000 and for 1969 of $20,000. Assume further with respect to 1968 that B elects under section 144 to take the standard deduction in computing taxable income and that his actual contributions to organizations specified in section 170(b)(1)(A) are $300. Assume further with respect to 1969, that B itemizes his deductions which include a $5,000 contribution to a church. B's deductions for 1968 are not increased by reason of the $500 available as a charitable contribution carryover from 1966 (excess contributions made in 1966 ($2,000) less the amount of such excess treated as paid in 1967 ($1,500)) since B elected to take the standard deduction in 1968. However, for purposes of determining the amount of the excess charitable contributions made in 1966 which is available as a carryover to 1969, B is required to treat such $500 as a charitable contribution paid in 1968—the lesser of $500 or $2,700 (30 percent of adjusted gross income ($3,000) over contributions actually made in 1968 to section 170(b)(1)(A) organizations ($300)). Therefore, even though the $5,000 contribution made by B in 1969 to a church does not amount to 30 percent of B's adjusted gross income for 1969 (30 percent of $20,000=$6,000), B may claim a charitable contribution deduction of only the $5,000 actually paid in 1969 since the entire excess charitable contribution made in 1966 ($2,000) has been treated as paid in 1967 ($1,500) and 1968 ($500).

Example 3. Assume the following factual situation for C who itemizes his deductions in computing taxable income for each of the years set forth in the example:

	1964	1965	1966	1967	1968
Adjusted gross income	$10,000	$7,000	$15,000	$10,000	$9,000
Contributions to section 170(b)(1)(A) organizations (no other contributions)	4,000	3,000	5,000	1,000	1,500
Allowable charitable contributions deductions computed without regard to carryover of contributions	3,000	2,100	4,500	1,000	1,500
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	1,000	900	500	0	0

Since C's contributions in 1967 and 1968 to section 170(b)(1)(A) organizations are less than 30 percent of his adjusted gross income for such years, the excess contributions for 1964, 1965, and 1966 are treated as having been paid to section 170(b)(1)(A) organizations in 1967 and 1968 as follows:

1967

Contribution year	*Total excess*	*Less: Amount treated as paid in year prior to 1967*	*Available charitable contribution carryovers*
1964	$1,000	0	$1,000
1965	900	0	900
1966	500	0	500
			2,400
30 percent of B's adjusted gross income for 1967			3,000
Less: Charitable contributions made in 1967 to section 170(b)(1)(A) organizations			1,000
			2,000
Amount of excess contributions treated as paid in 1967—the lesser of $2,400 (available carryovers to 1967) or $2,000 (excess of 30 percent of adjusted gross income ($3,000) over contributions actually made in 1967 to section 170(b)(1)(A) organizations ($1,000))			2,000

1968

Contribution year	*Total excess*	*Less: Amount treated as paid in year prior to 1968*	*Available charitable contribution carryovers*
1964	$1,000	$1,000	0
1965	900	900	0
1966	500	100	$400
1967	0	0	0
			400
30 percent of B's adjusted gross income for 1968			2,700
Less: Charitable contributions made in 1968 to section 170(b)(1)(A) organizations			1,500
			1,200
Amount of excess contributions treated as paid in 1968—the lesser of $400 (available carryovers to 1968) or $1,200 (30 percent of adjusted gross income $2,700) over contributions actually made in 1968 to section 170(b)(1)(A) organizations ($1,500)			400

(3) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year (computed as provided in subparagraphs (1) and (5) of this paragraph) shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of contributions made to organizations referred to in section 170(b)(1)(A) shall be limited to the amount of such contributions which did not exceed 30 percent of the donor's adjusted gross income (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the contribution year.

(4) *Effect of net operating loss carryback to taxable years succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is treated as paid (as provided in subparagraph (2) of this paragraph) in a current taxable year (hereinafter referred to in this subparagraph as the "deduction year") shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the deduction year which is a carryback or carryover to taxable years succeeding the deduction year, the amount of contributions made to organizations referred to in section 170(b)(1)(A) in the deduction year shall be limited to the amount of such contributions which were actually made in such year and those which were treated as paid in such year which did not exceed 30 percent of the donor's adjusted gross income (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the deduction year.

(5) *Reduction of excess contributions.* An individual having a net operating loss carryover from a prior taxable year which is available as a deduction in a contribution year must apply the special rule of section 170(b)(5)(B) and this subparagraph in computing the excess described in subparagraph (1) of this paragraph for such contribution year. In determining the amount of excess charitable contributions that shall be treated as paid in each of the 5 taxable years succeeding the contribution year, the excess charitable contributions described in such subparagraph (1) must be reduced by the amount by which such excess reduces taxable income (for purposes of determining the portion of a net operating loss which shall be carried to taxable years succeeding the contribution year under the second sentence of section 172(b)(2)) and increases the net operating loss which is carried to a succeeding taxable year. In reducing taxable income under the second sentence of section 172(b)(2), an individual who has made charitable contributions in the contribution year to both organizations specified in section 170(b)(1)(A) (see paragraph (b) of this section) and to organizations not so specified must first deduct contributions made to the section 170(b)(1)(A) organizations from his adjusted gross income computed without regard to his net operating loss deduction before any of the contributions made to organizations not specified in section 170(b)(1)(A) may be deducted

from such adjusted gross income. Thus, if the excess of the contributions made in the contribution year to organizations specified in section 170(b)(1)(A) over the amount deductible in such contribution year is utilized to reduce taxable income (under the provisions of section 172 (b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding year or years, no part of the excess charitable contributions made in such contribution year shall be treated as paid in any of the 5 immediately succeeding taxable years. If only a portion of the excess charitable contributions is so used, the excess charitable contributions will be reduced only to that extent. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. B, an individual, reports his income on the calendar year basis and for the year 1964 has adjusted gross income (computed without regard to any net operating loss deduction) of $50,000. During 1964 he made charitable contributions in the amount of $20,000 all of which were to organizations specified in section 170(b)(1)(A). B has a net operating loss carryover from 1963 of $50,000. In the absence of the net operating loss deduction B would have been allowed a deduction for charitable contributions of $15,000. After the application of the net operating loss deduction, B is allowed no deduction for charitable contributions, and there is (before applying the special rule of section 170(b)(5)(B) and this subparagraph) a tentative excess charitable contribution of $20,000. For purposes of determining the net operating loss which remains to be carried over to 1965, B computes his taxable income for his prior taxable year, 1964, under section 172(b)(2) by deducting the $15,000 charitable contribution. After the $50,000 net operating loss carryover is applied against the $35,000 of taxable income for 1964 (computed in accordance with section 172(b)(2), assuming no deductions other than the charitable contribution deduction are applicable in making such computation), there remains a $15,000 net operating loss carryover to 1965. Since the application of the net operating loss carryover of $50,000 from 1963 reduces the 1964 adjusted gross income (for purposes of determining 1964 tax liability) to zero, no part of the $20,000 of charitable contributions in that year is deductible under section 170(b)(1). However, in determining the amount of the excess charitable contributions which shall be treated as paid in taxable years 1965, 1966, 1967, 1968, 1969, the $20,000 must be reduced by the portion thereof ($15,000) which was used to reduce taxable income for 1964 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover to 1965 from zero to $15,000.

Example 2. Assume the same facts as in *Example (1)*, except that B's total contributions of $20,000 made during 1964 consisted of $15,000 to organizations specified in section 170(b)(1)(A) and $5,000 to organizations not so specified. Under these facts there is a tentative excess charitable contribution of $15,000, rather than $20,000 as in *Example (1)*. For purposes of determining the net operating loss which remains to be carried over to 1965, B computes his taxable income for his prior taxable year, 1964, under section 172(b)(2) by deducting the $15,000 of charitable contributions made to organizations specified in section 170(b)(1)(A). Since the excess charitable contribution of $15,000 determined in accordance with subparagraph (1) of this paragraph was used to reduce taxable income for 1964 (as computed for purposes of the second sentence of section 172(b)(2)) and thereby served to increase the net operating loss carryover to 1965 from zero to $15,000, no part of such excess charitable contributions made in the contribution year shall be treated as paid in any of the five immediately succeeding taxable years. No carryover is allowed with respect to the $5,000 of charitable contributions made in 1964 to organizations not specified in section 170(b)(1)(A).

(6) *Change in type of return filed*—(i) *From joint return to separate returns.* If a husband and wife—

(a) Make a joint return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of subparagraphs (1) and (5) of this paragraph, and

(b) Make separate returns for one or more of the 5 taxable years immediately succeeding such contribution year, any excess charitable contribution for the contribution year which is unused at the beginning of the first such taxable year for which separate returns are filed shall be allocated between the husband and wife. For purposes of the allocation, a computation shall be made of the amount of any excess charitable contribution which each spouse would have computed in accordance with subparagraphs (1) and (5) of this paragraph if separate returns (rather than a joint return) had been filed for the contribution year. The

portion of the total unused excess charitable contribution for the contribution year allocated to each spouse shall be an amount which bears the same ratio to such unused excess charitable contribution as such spouse's excess contribution (based on the separate return computation) bears to the total excess contributions of both spouses (based on the separate return computation). To the extent that a portion of the amount allocated to either spouse in accordance with the foregoing provisions of this subdivision is not treated in accordance with the provisions of subparagraph (2) of this paragraph as a charitable contribution paid to an organization specified in section 170(b)(1)(A) in the taxable year in which a separate return or separate returns are filed, each spouse shall for purposes of subparagraph (2) of this paragraph treat his respective unused portion as the available charitable contributions carryover to the next succeeding taxable year in which the joint excess charitable contribution may be treated as paid in accordance with subparagraph (1) of this paragraph. If such husband and wife make a joint return in one of the five taxable years immediately succeeding the contribution year with respect to which a joint excess charitable contribution is computed and following the first succeeding year in which such husband and wife filed a separate return or separate returns, the amounts allocated to each spouse in accordance with this subdivision for such first year reduced by the portion of such amounts treated as paid to an organization specified in section 170(b)(1)(A) in such first year and in any taxable year intervening between such first year and the succeeding taxable year in which the joint return is filed shall be aggregated for purposes of determining the amount of the available charitable contributions carryover to such succeeding taxable year. The provisions of this subdivision (i) may be illustrated by the following example:

Example. H and W file joint returns for 1964, 1965, and 1966, and in 1967 they file separate returns. In each such year H and W itemize their deductions in computing taxable income. Assume the following factual situation with respect to H and W for 1964:

1964

	H	*W*	*Joint return*
Adjusted gross income	$50,000	$40,000	$90,000
Contributions to section 170(b)(1)(A) organization (no other contributions)	27,000	20,000	47,000
Allowable charitable contribution deductions	15,000	12,000	27,000
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	12,000	8,000	20,000

The joint excess charitable contribution of $20,000 is to be treated as having been paid to a section 170(b)(1)(A) organization in the five succeeding taxable years. Assume that in 1965, the portion of such excess treated as paid by H and W is $3,000 and that in 1966, the portion of such excess treated as paid is $7,000. Thus, the unused portion of the excess charitable contribution made in the contribution year is $10,000 ($20,000 less $3,000 (amount treated as paid in 1965) and $7,000 (amount treated as paid in 1966)). Since H and W file separate returns in 1967, $6,000 of such $10,000 is allocable to H and $4,000 is allocable to W. Such allocation is computed as follows:

$12,000 (excess charitable contributions made by H (based on separate return computation) in 1964)/$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1964)×$10,000=$6,000

$8,000 (excess charitable contributions made by W (based on separate return computation) in 1964)/$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1964)×$10,000=$4,000

In 1967 H has adjusted gross income of $70,000 and he contributes $14,000 to an organization specified in section 170(b)(1)(A). In 1967 W has adjusted gross income of $50,000, and she contributes $10,000 to an organization specified in section 170(b)(1)(A). H may claim a charitable contribution deduction of $20,000 in 1967, and W may claim a charitable contribution deduction of $14,000 in 1967. H's $20,000 deduction consists of the $14,000 contribution to the section 170(b)(1)(A) organization in 1967 and $6,000 carried over from 1964 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1967. W's $14,000 deduction consists of the $10,000 contribution made to a section 170(b)(1)(A) organization in 1967 and $4,000 carried over from 1964 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1967. The $6,000 contribution treated as paid in 1967 by H, and the $4,000 contribution treated as paid in 1967 by W are computed as follows:

	H	W
Available charitable contribution carryover (see computations above)	$6,000	$4,000
30-percent of adjusted gross income	21,000	15,000
Contributions made in 1967 to section 170(b)(1)(A) organization (no other contributions)	14,000	10,000
Amount of allowable deduction unused	7,000	5,000
Amount of excess contributions treated as paid in 1967—the lesser of $6,000 (available carryover of H to 1967) or $7,000 (excess of 30 percent of adjusted gross income ($21,000) over contributions actually made in 1967 to section 170(b)(1)(A) organizations ($14,000))	6,000	
The lesser of $4,000 (available carryover of W to 1967) or $5,000 (excess of 30 percent of adjusted gross income ($15,000) over contributions actually made in 1967 to section 170(b)(1)(A) organizations ($10,000))		4,000

(ii) *From separate returns to joint return and remarried taxpayers.* If in the case of a husband and wife:

(a) Either or both of the spouses make a separate return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of subparagraphs (1) and (5) of this paragraph, and

(b) Such husband and wife make a joint return for one or more of the taxable years immediately succeeding such contribution year, the excess charitable contribution of the husband and wife for the contribution year which is unused at the beginning of the first taxable year for which a joint return is filed shall be aggregated for purposes of determining the portion of such unused charitable contribution which shall be treated in accordance with subparagraph (2) of this paragraph as a charitable contribution paid to an organization specified in section 170(b)(1)(A). The provisions of this subdivision are also applicable in the case of two single individuals who are subsequently married and file a joint return. A remarried taxpayer who filed a joint return with a former spouse in a contribution year with respect to which an excess charitable contribution was computed and who in any one of the five taxable years immediately succeeding such contribution year files a joint return with his (or her) present spouse shall treat the unused portion of such excess charitable contribution allocated to him (or her) in accordance with subdivision (i) of this subparagraph in the same manner as the unused portion of an excess charitable contribution computed in a contribution year in which he filed a separate return for purposes of determining the amount which in accordance with subparagraph (2) of this paragraph shall be treated as paid to an organization specified in section 170(b)(1)(A) in such succeeding year.

(iii) *Unused excess charitable contribution of deceased spouse.* In case of the death of one spouse, any unused portion of an excess charitable contribution which is allocable (in accordance with subdivision (i) of this subparagraph) to such spouse shall not be treated as paid in the taxable year in which such death occurs or in any subsequent taxable year except on a separate return made for the deceased spouse by a fiduciary for the taxable year which ends with the date of death or on a joint return for the taxable year in which such death occurs. The application of this subdivision may be illustrated by the following example:

Example. Assume the same facts as in the example in subdivision (i) of this subparagraph except that H dies in 1966 and W files a separate return for 1967. W made a joint return for herself and H for 1966. In that example, the unused excess charitable contribution as of January 1, 1967, was $10,000, $6,000 of which was allocable to H and $4,000 to W. No portion of the $6,000 allocable to H may be treated as paid by W or any other person in 1967 or any subsequent year.

(7) *Information required in support of a deduction of an amount treated as paid.* If, in a taxable year, a deduction is claimed in respect of an excess charitable contribution which, in accordance with the provisions of subparagraph (2) of this paragraph, is treated (in whole or in part) as paid in such taxable year, the taxpayer shall attach to his return a statement showing:

(i) The year (or years) in which the excess charitable contributions were made (the contribution year or years),

(ii) The excess charitable contributions made in each contribution year,

(iii) The portion of such excess (or each such excess) treated as paid in accordance with subparagraph (2) of this paragraph in any taxable year intervening between the contribution year and the taxable year for which the return is made, and

(iv) Such other information as the return or the instructions relating thereto may require.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6605, 27 FR 8096, Aug. 15, 1962; T.D. 6639, 28 FR 1762, Feb. 26, 1963; T.D. 6732, 29 FR 6280, May 13, 1964; T.D. 6900, 31 FR 14634, Nov. 17, 1966; T.D. 7207, 37 FR 20768, Oct. 4, 1972; T.D. 7427, 41 FR 34026, Aug. 12, 1976]

§1.170–3 Contributions or gifts by corporations (before amendment by Tax Reform Act of 1969).

(a) *In general.* The deduction by a corporation in any taxable year for charitable contributions, as defined in section 170(c), is limited to 5 percent of its taxable income for the year computed without regard to:

(1) The deduction for charitable contributions,

(2) The special deductions for corporations allowed under part VIII (except section 248), subchapter B, chapter 1 of the Code,

(3) Any net operating loss carryback to the taxable year under section 172,

(4) The special deduction for Western Hemisphere trade corporations under section 922, and

(5) Any capital loss carryback to the taxable year under section 1212(a)(1).

A contribution by a corporation to a trust, chest, fund, or foundation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes or for the prevention of cruelty to children or animals is deductible only if the contribution is to be used in the United States or its possessions for those purposes. See section 170(c)(2). For the purposes of section 170, amounts excluded from the gross income of a corporation under section 114 (relating to sports programs conducted for the American National Red Cross) are not to be considered contributions or gifts. For reduction or disallowance of certain charitable, etc., deductions, see paragraphs (c)(2), (e), and (f) of §1.170–1.

(b) *Election by corporations on an accrual method.* A corporation reporting its taxable income on an accrual method may elect to have a charitable contribution (as defined in section 170 (c)) considered as paid during the taxable year, if payment is actually made on or before the fifteenth day of the third month following the close of the year and if, during the year, the board of directors authorized the contribution. The election must be made at the time the return for the taxable year is filed, by reporting the contribution on the return. There shall be attached to the return when filed a written declaration that the resolution authorizing the contribution was adopted by the board of directors during the taxable year, and the declaration shall be verified by a statement signed by an officer authorized to sign the return that it is made under the penalties of perjury. There shall also be attached to the return when filed a copy of the resolution of the board of directors authorizing the contribution.

(c) *Charitable contributions carryover of corporations*—(1) *Contributions made in taxable years beginning before January 1, 1962.* Subject to the rules set forth in subparagraph (3) of this paragraph, any contributions made by a corporation in a taxable year (hereinafter in this paragraph referred to as the contribution year) subject to the Code beginning before January 1, 1962, in excess of the amount deductible in such contribution year under the 5-percent limitation of section 170(b)(2) are deductible in each of the two succeeding taxable years in order of time, but only to the extent of the lesser of the following amounts:

(i) The excess of the maximum amount deductible for the succeeding year under the 5-percent limitation of section 170(b)(2) over the contributions made in that year; and

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess contributions; and, in the case of the second taxable year succeeding the contribution year, the portion of the excess contributions not deductible in the first succeeding taxable year.

The application of the rules in this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of $10,000 in June 1961, anticipating taxable income for 1961 of $200,000. Its actual taxable income (without regard to any deduction for charitable contributions) for 1961 is only $50,000 and the charitable deduction for that year is limited to $2,500 (5 percent of $50,000). The excess charitable contribution not deductible in 1961 ($7,500) represents a carryover potentially available as a deduction in the two succeeding taxable years. The corporation has taxable income (without regard to any deduction for charitable contributions) of $150,000 in 1962 and makes a charitable contribution of $2,500 in that year. For 1962, the corporation may deduct as a charitable contribution the amount of $7,500 (5 percent of $150,000). This amount consists first of the $2,500 contribution made in 1962, and $5,000 of the $7,500 carried over from 1961. The remaining $2,500 carried over from 1961 and not allowable as a deduction in 1962 because of the 5-percent limitation may be carried over to 1963. The corporation has taxable income (without regard to any deduction for charitable contributions) of $100,000 in 1963 and makes a charitable contribution of $3,000. For 1963, the corporation may deduct under section 170 the amount of $5,000 (5 percent of $100,000). This amount consists first of the $3,000 contributed in 1963, and $2,000 of the $2,500 carried over from 1961 to 1963. The remaining $500 of the carryover from 1961 is not allowable as a deduction in any year because of the 2-year limitation with respect to excess contributions made in taxable years beginning before January 1, 1962.

(2) *Contributions made in taxable years beginning after December 31, 1961.* Subject to the rules set forth in subparagraph (3) of this paragraph, any contributions made by a corporation in a taxable year (hereinafter in this paragraph referred to as the contribution year) beginning after December 31, 1961, in excess of the amount deductible in such contribution year under the 5-percent limitation of section 170(b)(2) are deductible in each of the five succeeding taxable years in order of time, but only to the extent of the lesser of the following amounts:

(i) The excess of the maximum amount deductible for such succeeding taxable year under the 5-percent limitation of section 170(b)(2) over the sum of the contributions made in that year plus the aggregate of the excess contributions which were made in taxable years before the contribution year and which are deductible under this paragraph in such succeeding taxable year; or

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess contributions, and in the case of the second, third, fourth, or fifth taxable years succeeding the contribution year, the portion of the excess contributions not deductible under this subparagraph for any taxable year intervening between the contribution year and such succeeding taxable year.

The application of the rules of this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of $20,000 in June 1964, anticipating taxable income for 1964 of $400,000. Its actual taxable income (without regard to any deduction for charitable contributions) for 1964 is only $100,000 and the charitable deduction for that year is limited to $5,000 (5 percent of $100,000). The excess charitable contribution not deductible in 1964 ($15,000) represents a carryover potentially available as a deduction in the five succeeding taxable years. The corporation has taxable income (without regard to any deduction for charitable contributions) of $150,000 in 1965 and makes a charitable contribution of $5,000 in that year. For 1965 the corporation may deduct as a charitable contribution the amount of $7,500 (5 percent of $150,000). This amount consists first of the $5,000 contribution made in 1965, and $2,500 carried over from 1964. The remaining $12,500 carried over from 1964 and not allowable as a deduction for 1965 because of the 5-percent limitation may be carried over to 1966. The corporation has taxable income (without regard to any deduction for charitable contributions) of $200,000 in 1966 and makes a charitable contribution of $5,000. For 1966, the corporation may deduct the amount of $10,000 (5 percent of $200,000). This amount consists first of the $5,000 contributed in 1966, and $5,000 of the $12,500 carried over from 1964 to 1966. The remaining $7,500 of the carryover from 1964 is available for purposes of computing the charitable contributions carryover from 1964 to 1967, 1968, and 1969.

(3) *Reduction of excess contributions.* A corporation having a net operating loss carryover (or carryovers) must apply the special rule of section 170(b)(3) and this subparagraph before computing under subparagraph (1) or (2) of this

paragraph the charitable contributions carryover for any taxable year subject to the Internal Revenue Code of 1954. In determining the amount of charitable contributions that may be deducted in accordance with the rules set forth in subparagraph (1) or (2) of this paragraph in taxable years succeeding the contribution year, the excess of contributions made by a corporation in the contribution year over the amount deductible in such year must be reduced by the amount by which such excess reduces taxable income (for purposes of determining the net operating loss carryover under the second sentence of section 172(b)(2) and increases a net operating loss carryover to a succeeding taxable year. Thus, if the excess of the contributions made in a taxable year over the amount deductible in the taxable year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding year or years, no charitable contributions carryover will be allowed. If only a portion of the excess charitable contributions is so used, the charitable contributions carryover. will be reduced only to that extent. The application of the rules of this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of $10,000 during the taxable year 1960. Its taxable income for 1960 is $80,000 (computed without regard to any net operating loss deduction and computed in accordance with section 170(b)(2) without regard to any deduction for charitable contributions). The corporation has a net operating loss carryover from 1959 of $80,000. In the absence of the net operating loss deduction the corporation would have been allowed a deduction for charitable contributions of $4,000 (5 percent of $80,000). After the application of the net operating loss deduction the corporation is allowed no deduction for charitable contributions, and there is a tentative charitable contribution carryover of $10,000. For purposes of determining the net operating loss carryover to 1961 the corporation computes its taxable income for its prior taxable year 1960 under section 172(b)(2) by deducting the $4,000 charitable contribution. Thus, after the $80,000 net operating loss carryover is applied against the $76,000 of taxable income for 1960 (computed in accordance with section 172(b)(2)), there remains a $4,000 net operating loss carryover to 1961. Since the application of the net operating loss carryover of $80,000 from 1959 reduces the taxable income for 1960 to zero, no part of the $10,000 of charitable contributions in that year is deductible under section 170(b)(2). However, in determining the amount of the allowable charitable contributions carryover to the taxable years 1961 and 1962, the $10,000 must be reduced by the portion thereof ($4,000) which was used to reduce taxable income for 1960 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover to 1961 from zero to $4,000.

(4) *Year contribution is made.* For purposes of this paragraph, contributions made by a corporation in a contribution year include contributions which, in accordance with the provisions of section 170(a)(2) and paragraph (b) of this section, are considered as paid during such contribution year.

(5) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year (computed as provided in this paragraph) shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of contributions shall be limited to the maximum amount deductible under the 5-percent limitation of section 170(b)(2) (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the contribution year.

(6) *Effect of net operating loss carryback to taxable years succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is deductible (as provided in this paragraph) in a current taxable year (hereinafter referred to in this subparagraph as the ‘‘deduction year’’) shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining (under the provisions of section 172(b)(2)) the amount of the net operating loss for any year subsequent to

the deduction year which is a carryback or a carryover to taxable years succeeding the deduction year, the amount of contributions shall be limited to the maximum amount deductible under the 5-percent limitation of section 170(b)(2) (computed without regard to any net operating loss carryback or any of the modifications referred to in section 172(d)) for the deduction year.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6605, 27 FR 8096, Aug. 15, 1962; T.D. 6900, 31 FR 14640, Nov. 17, 1966; T.D. 7207, 37 FR 20768, Oct. 4, 1972]

§1.170A–1 Charitable, etc., contributions and gifts; allowance of deduction.

(a) *Allowance of deduction.* Any charitable contribution, as defined in section 170(c), actually paid during the taxable year is allowable as a deduction in computing taxable income irrespective of the method of accounting employed or of the date on which the contribution is pledged. However, charitable contributions by corporations may under certain circumstances be deductible even though not paid during the taxable year as provided in section 170(a)(2) and §1.170A–11. For rules relating to recordkeeping and return requirements in support of deductions for charitable contributions (whether by an itemizing or nonitemizing taxpayer) see §1.170A–13. The deduction is subject to the limitations of section 170(b) and §1.170A–8 or §1.170A–11. Subject to the provisions of section 170(d) and §§1.170A–10 and 1.170A–11, certain excess charitable contributions made by individuals and corporations shall be treated as paid in certain succeeding taxable years. For provisions relating to direct charitable deductions under section 63 by nonitemizers, see section 63 (b)(1)(C) and (i) and section 170(i). For rules relating to the detemination of, and the deduction for, amounts paid to maintain certain students as members of the taxpayer's household and treated under section 170(g) as paid for the use of an organization described in section 170(c) (2), (3), or (4), see §1.170A–2. For the reduction of any charitable contributions for interest on certain indebtedness, see section 170(f)(5) and §1.170A–3. For a special rule relating to the computation of the amount of the deduction with respect to a charitable contribution of certain ordinary income or capital gain property, see section 170(e) and §§1.170A–4 and 1.170A–4A. For rules for postponing the time for deduction of a charitable contribution of a future interest in tangible personal property, see section 170(a)(3) and §1.170A–5. For rules with respect to transfers in trust and of partial interests in property, see section 170(e), section 170(f) (2) and (3), §§1.170A–4, 1.170A–6, and 1.170A–7. For definition of the term *section 170(b)(1)(A) organization,* see §1.170A–9. For valuation of a remainder interest in real property, see section 170(f)(4) and the regulations thereunder. The deduction for charitable contributions is subject to verification by the district director.

(b) *Time of making contribution.* Ordinarily, a contribution is made at the time delivery is effected. The unconditional delivery or mailing of a check which subsequently clears in due course will constitute an effective contribution on the date of delivery or mailing. If a taxpayer unconditionally delivers or mails a properly endorsed stock certificate to a charitable donee or the donee's agent, the gift is completed on the date of delivery or, if such certificate is received in the ordinary course of the mails, on the date of mailing. If the donor delivers the stock certificate to his bank or broker as the donor's agent, or to the issuing corporation or its agent, for transfer into the name of the donee, the gift is completed on the date the stock is transferred on the books of the corporation. For rules relating to the date of payment of a contribution consisting of a future interest in tangible personal property, see section 170(a)(3) and §1.170A–5.

(c) *Value of a contribution in property.* (1) If a charitable contribution is made in property other than money, the amount of the contribution is the fair market value of the property at the time of the contribution reduced as provided in section 170(e)(1) and paragraph (a) of §1.170A–4, or section 170(e)(3) and paragraph (c) of §1.170A–4A.

(2) The fair market value is the price at which the property would change

hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. If the contribution is made in property of a type which the taxpayer sells in the course of his business, the fair market value is the price which the taxpayer would have received if he had sold the contributed property in the usual market in which he customarily sells, at the time and place of the contribution and, in the case of a contribution of goods in quantity, in the quantity contributed. The usual market of a manufacturer or other producer consists of the wholesalers or other distributors to or through whom he customarily sells, but if he sells only at retail the usual market consists of his retail customers.

(3) If a donor makes a charitable contribution of property, such as stock in trade, at a time when he could not reasonably have been expected to realize its usual selling price, the value of the gift is not the usual selling price but is the amount for which the quantity of property contributed would have been sold by the donor at the time of the contribution.

(4) Any costs and expenses pertaining to the contributed property which were incurred in taxable years preceding the year of contribution and are properly reflected in the opening inventory for the year of contribution must be removed from inventory and are not a part of the cost of goods sold for purposes of determining gross income for the year of contribution. Any costs and expenses pertaining to the contributed property which are incurred in the year of contribution and would, under the method of accounting used, be properly reflected in the cost of goods sold for such year are to be treated as part of the costs of goods sold for such year. If costs and expenses incurred in producing or acquiring the contributed property are, under the method of accounting used, properly deducted under section 162 or other section of the Code, such costs and expenses will be allowed as deductions for the taxable year in which they are paid or incurred whether or not such year is the year of the contribution. Any such costs and expenses which are treated as part of the cost of goods sold for the year of contribution, and any such costs and expenses which are properly deducted under section 162 or other section of the Code, are not to be treated under any section of the Code as resulting in any basis for the contributed property. Thus, for example, the contributed property has no basis for purposes of determining under section 170(e)(1)(A) and paragraph (a) of §1.170A–4 the amount of gain which would have been recognized if such property had been sold by the donor at its fair market value at the time of its contribution. The amount of any charitable contribution for the taxable year is not to be reduced by the amount of any costs or expenses pertaining to the contributed property which was properly deducted under section 162 or other section of the Code for any taxable year preceding the year of the contribution. This subparagraph applies only to property which was held by the taxpayer for sale in the course of a trade or business. The application of this subparagraph may be illustrated by the following examples:

Example 1. In 1970, A, an individual using the calendar year as the taxable year and the accrual method of accounting, contributed to a church property from inventory having a fair market value of $600. The closing inventory at the end of 1969 properly included $400 of costs attributable to the acquisition of such property, and in 1969 A properly deducted under section 162 $50 of administrative and other expenses attributable to such property. Under section 170(e)(1)(A) and paragraph (a) of §1.170A–4, the amount of the charitable contribution allowed for 1970 is $400 ($600 − [$600 − $400]). Pursuant to this subparagraph, the cost of goods sold to be used in determining gross income for 1970 may not include the $400 which was included in opening inventory for that year.

Example 2. The facts are the same as in *Example (1)* except that the contributed property was acquired in 1970 at a cost of $400. The $400 cost of the property is included in determining the cost of goods sold for 1970, and $50 is allowed as a deduction for that year under section 162. A is not allowed any deduction under section 170 for the contributed property, since under section 170(e)(1)(A) and paragraph (a) of §1.170A–4 the amount of the charitable contribution is reduced to zero ($600 − [$600 − $0]).

Example 3. In 1970, B, an individual using the calendar year as the taxable year and the accrual method of accounting, contributed to a church property from inventory having a fair market value of $600. Under § 1.471–3(c), the closing inventory at the end of 1969 properly included $450 costs attributable to the production of such property, including $50 of administrative and other indirect expenses which, under his method of accounting, was properly added to inventory rather than deducted as a business expense. Under section 170(e)(1)(A) and paragraph (a) of § 1.170A–4, the amount of the charitable contribution allowed for 1970 is $450 ($600 − [$600 − $450]). Pursuant to this subparagraph, the cost of goods sold to be used in determining gross income for 1970 may not include the $450 which was included in opening inventory for that year.

Example 4. The facts are the same as in *Example (3)* except that the contributed property was produced in 1970 at a cost of $450, including $50 of administrative and other indirect expenses. The $450 cost of the property is included in determining the cost of goods sold for 1970. B is not allowed any deduction under section 170 for the contributed property, since under section 170(e)(1)(A) and paragraph (a) of § 1.170A–4 the amount of the charitable contribution is reduced to zero ($600 − [$600 − $0]).

Example 5. In 1970, C, a farmer using the cash method of accounting and the calendar year as the taxable year, contributed to a church a quantity of grain which he had raised having a fair market value of $600. In 1969, C paid expenses of $450 in raising the property which he properly deducted for such year under section 162. Under section 170(e)(1)(A) and paragraph (a) of § 1.170A–4, the amount of the charitable contribution in 1970 is reduced to zero ($600 − [$600 − $0]). Accordingly, C is not allowed any deduction under section 170 for the contributed property.

Example 6. The facts are the same as in *Example (5)* except that the $450 expenses incurred in raising the contributed property were paid in 1970. The result is the same as in *Example (5)*, except the amount of $450 is deductible under section 162 for 1970.

(5) Transfers of property to an organization described in section 170(c) which bear a direct relationship to the taxpayer’s trade or business and which are made with a reasonable expectation of financial return commensurate with the amount of the transfer may constitute allowable deductions as trade or business expenses rather than as charitable contributions. See section 162 and the regulations thereunder.

(d) *Purchase of an annuity.* (1) In the case of an annuity or portion thereof purchased from an organization described in section 170(c), there shall be allowed as a deduction the excess of the amount paid over the value at the time of purchase of the annuity or portion purchased.

(2) The value of the annuity or portion is the value of the annuity determined in accordance with paragraph (e)(1)(iii) *(b)(2)* of § 1.101–2.

(3) For determining gain on any such transaction constituting a bargain sale, see section 1011(b) and § 1.1011–2.

(e) *Transfers subject to a condition or power.* If as of the date of a gift a transfer for charitable purposes is dependent upon the performance of some act or the happening of a precedent event in order that it might become effective, no deduction is allowable unless the possibility that the charitable transfer will not become effective is so remote as to be negligible. If an interest in property passes to, or is vested in, charity on the date of the gift and the interest would be defeated by the subsequent performance of some act or the happening of some event, the possibility of occurrence of which appears on the date of the gift to be so remote as to be negligible, the deduction is allowable. For example, A transfers land to a city government for as long as the land is used by the city for a public park. If on the date of the gift the city does plan to use the land for a park and the possibility that the city will not use the land for a public park is so remote as to be negligible, A is entitled to a deduction under section 170 for his charitable contribution.

(f) *Special rules applicable to certain contributions.* (1) See section 14 of the Wild and Scenic Rivers Act (Pub. L. 90–542, 82 Stat. 918) for provisions relating to the claim and allowance of the value of certain easements as a charitable contribution under section 170.

(2) For treatment of gifts accepted by the Secretary of State or the Secretary of Commerce, for the purpose of organizing and holding an international conference to negotiate a Patent Corporation Treaty, as gifts to or for the use of the United States, see section 3 of joint resolution of December 24, 1969 (Pub. L. 91–160, 83 Stat. 443).

(3) For treatment of gifts accepted by the Secretary of the Department of Housing and Urban Development, for the purpose of aiding or facilitating the

work of the Department, as gifts to or for the use of the United States, see section 7(k) of the Department of Housing and Urban Development Act (42 U.S.C. 3535), as added by section 905 of Pub. L. 91–609 (84 Stat. 1809).

(g) *Contributions of services.* No deduction is allowable under section 170 for a contribution of services. However, unreimbursed expenditures made incident to the rendition of services to an organization contributions to which are deductible may constitute a deductible contribution. For example, the cost of a uniform without general utility which is required to be worn in performing donated services is deductible. Similarly, out-of-pocket transportation expenses necessarily incurred in performing donated services are deductible. Reasonable expenditures for meals and lodging necessarily incurred while away from home in the course of performing donated services also are deductible. For the purposes of this paragraph, the phrase *while away from home* has the same meaning as that phrase is used for purposes of section 162 and the regulations thereunder.

(h) *Payment in exchange for consideration*—(1) *Burden on taxpayer to show that all or part of payment is a charitable contribution or gift.* No part of a payment that a taxpayer makes to or for the use of an organization described in section 170(c) that is in consideration for (as defined in §1.170A–13(f)(6)) goods or services (as defined in §1.170A–13(f)(5)) is a contribution or gift within the meaning of section 170(c) unless the taxpayer—

(i) Intends to make a payment in an amount that exceeds the fair market value of the goods or services; and

(ii) Makes a payment in an amount that exceeds the fair market value of the goods or services.

(2) *Limitation on amount deductible*—(i) *In general.* The charitable contribution deduction under section 170(a) for a payment a taxpayer makes partly in consideration for goods or services may not exceed the excess of—

(A) The amount of any cash paid and the fair market value of any property (other than cash) transferred by the taxpayer to an organization described in section 170(c); over

(B) The fair market value of the goods or services the organization provides in return.

(ii) *Special rules.* For special limits on the deduction for charitable contributions of ordinary income and capital gain property, see section 170(e) and §§1.170A–4 and 1.170A–4A.

(3) *Certain goods or services disregarded.* For purposes of section 170(a) and paragraphs (h)(1) and (h)(2) of this section, goods or services described in §1.170A–13(f)(8)(i) or §1.170A–13(f)(9)(i) are disregarded.

(4) *Donee estimates of the value of goods or services may be treated as fair market value*—(i) *In general.* For purposes of section 170(a), a taxpayer may rely on either a contemporaneous written acknowledgment provided under section 170(f)(8) and §1.170A–13(f) or a written disclosure statement provided under section 6115 for the fair market value of any goods or services provided to the taxpayer by the donee organization.

(ii) *Exception.* A taxpayer may not treat an estimate of the value of goods or services as their fair market value if the taxpayer knows, or has reason to know, that such treatment is unreasonable. For example, if a taxpayer knows, or has reason to know, that there is an error in an estimate provided by an organization described in section 170(c) pertaining to goods or services that have a readily ascertainable value, it is unreasonable for the taxpayer to treat the estimate as the fair market value of the goods or services. Similarly, if a taxpayer is a dealer in the type of goods or services provided in consideration for the taxpayer's payment and knows, or has reason to know, that the estimate is in error, it is unreasonable for the taxpayer to treat the estimate as the fair market value of the goods or services.

(5) *Examples.* The following examples illustrate the rules of this paragraph (h).

Example 1. Certain goods or services disregarded. Taxpayer makes a $50 payment to Charity *B*, an organization described in section 170(c), in exchange for a family membership. The family membership entitles Taxpayer and members of Taxpayer's family to certain benefits. These benefits include free admission to weekly poetry readings, discounts on merchandise sold by *B* in its gift shop or by mail order, and invitations to special events for members only, such as lectures or informal receptions. When *B* first offers its membership package for the year, *B* reasonably projects that each special event for members will have a cost to *B,* excluding any allocable overhead, of $5 or less per person attending the event. Because the family membership benefits are disregarded pursuant to § 1.170A–13(f)(8)(i), Taxpayer may treat the $50 payment as a contribution or gift within the meaning of section 170(c), regardless of Taxpayer's intent and whether or not the payment exceeds the fair market value of the goods or services. Furthermore, any charitable contribution deduction available to Taxpayer may be calculated without regard to the membership benefits.

Example 2. Treatment of good faith estimate at auction as the fair market value. Taxpayer attends an auction held by Charity *C,* an organization described in section 170(c). Prior to the auction, *C* publishes a catalog that meets the requirements for a written disclosure statement under section 6115(a) (including *C*'s good faith estimate of the value of items that will be available for bidding). A representative of *C* gives a copy of the catalog to each individual (including Taxpayer) who attends the auction. Taxpayer notes that in the catalog *C*'s estimate of the value of a vase is $100. Taxpayer has no reason to doubt the accuracy of this estimate. Taxpayer successfully bids and pays $500 for the vase. Because Taxpayer knew, prior to making her payment, that the estimate in the catalog was less than the amount of her payment, Taxpayer satisfies the requirement of paragraph (h)(1)(i) of this section. Because Taxpayer makes a payment in an amount that exceeds that estimate, Taxpayer satisfies the requirements of paragraph (h)(1)(ii) of this section. Taxpayer may treat *C*'s estimate of the value of the vase as its fair market value in determining the amount of her charitable contribution deduction.

Example 3. Good faith estimate not in error. Taxpayer makes a $200 payment to Charity *D,* an organization described in section 170(c). In return for Taxpayer's payment, *D* gives Taxpayer a book that Taxpayer could buy at retail prices typically ranging from $18 to $25. *D* provides Taxpayer with a good faith estimate, in a written disclosure statement under section 6115(a), of $20 for the value of the book. Because the estimate is within the range of typical retail prices for the book, the estimate contained in the written disclosure statement is not in error. Although Taxpayer knows that the book is sold for as much as $25, Taxpayer may treat the estimate of $20 as the fair market value of the book in determining the amount of his charitable contribution deduction.

(i) [Reserved]

(j) *Exceptions and other rules.* (1) The provisions of section 170 do not apply to contributions by an estate; nor do they apply to a trust unless the trust is a private foundation which, pursuant to section 642(c)(6) and § 1.642(c)–4, is allowed a deduction under section 170 subject to the provisions applicable to individuals.

(2) No deduction shall be allowed under section 170 for a charitable contribution to or for the use of an organization or trust described in section 508(d) or 4948(c)(4), subject to the conditions specified in such sections and the regulations thereunder.

(3) For disallowance of deductions for contributions to or for the use of communist controlled organizations, see section 11(a) of the Internal Security Act of 1950, as amended (50 U.S.C. 790).

(4) For denial of deductions for charitable contributions as trade or business expenses and rules with respect to treatment of payments to organizations other than those described in section 170(c), see section 162 and the regulations thereunder.

(5) No deduction shall be allowed under section 170 for amounts paid to an organization:

(i) Which is disqualified for tax exemption under section 501(c)(3) by reason of attempting to influence legislation, or

(ii) Which participates in, or intervenes in (including the publishing or distribution of statements), any political campaign on behalf of or in opposition to any candidate for public office.

For purposes of determining whether an organization is attempting to influence legislation or is engaging in political activities, see sections 501(c)(3), 501(h), 4911 and the regulations thereunder.

(6) No deduction shall be allowed under section 170 for expenditures for lobbying purposes, the promotion or defeat of legislation, etc. See also the regulations under sections 162 and 4945.

(7) No deduction for charitable contributions is allowed in computing the taxable income of a common trust fund or of a partnership. See sections 584(d)(3) and 703(a)(2)(D). However, a partner's distributive share of charitable contributions actually paid by a partnership during its taxable year

may be allowed as a deduction in the partner's separate return for his taxable year with or within which the taxable year of the partnership ends, to the extent that the aggregate of his share of the partnership contributions and his own contributions does not exceed the limitations in section 170(b).

(8) For charitable contributions paid by a nonresident alien individual or a foreign corporation, see §1.170A–4(b)(5) and sections 873, 876, 877, and 882(c), and the regulations thereunder.

(9) For charitable contributions paid by a citizen of the United States or a domestic corporation entitled to the benefits of section 931 (relating to income from sources within possessions of the United States), see section 931(d) and the regulations thereunder.

(10) For carryover of excess charitable contributions in certain corporate acquisitions, see section 381(c)(19) and the regulations thereunder.

(11) No deduction shall be allowed under section 170 for out-of-pocket expenditures on behalf of an eligible organization (within the meaning of §1.501(h)–2(b)(1)) if the expenditure is made in connection with influencing legislation (within the meaning of section 501(c)(3) or §56.4911–2), or in connection with the payment of the organization's tax liability under section 4911. For the treatment of similar expenditures on behalf of other organizations see paragraph (h)(6) of this section.

(k) *Effective date.* In general this section applies to contributions made in taxable years beginning after December 31, 1969. Paragraph (j)(11) of this section, however, applies only to out-of-pocket expenditures made in taxable years beginning after December 31, 1976. In addition, paragraph (h) of this section applies only to payments made on or after December 16, 1996. However, taxpayers may rely on the rules of paragraph (h) of this section for payments made on or after January 1, 1994.

(68A Stat. 58, 26 U.S.C. 170(a)(1); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7207, 37 FR 20771, Oct. 4, 1972, as amended by T.D. 7340, 40 FR 1238, Jan. 7, 1975; T.D. 7807, 47 FR 4510, Feb. 1, 1982; T.D. 8002, 49 FR 50666, Dec. 31, 1984; T.D. 8308, 55 FR 35587, Aug. 31, 1990; T.D. 8690, 61 FR 65951, Dec. 16, 1996]

§1.170A–2 Amounts paid to maintain certain students as members of the taxpayer's household.

(a) *In general.* (1) The term *charitable contributions* includes amounts paid by the taxpayer during the taxable year to maintain certain students as members of his household which, under the provisions of section 170(h) and this section, are treated as amounts paid for the use of an organization described in section 170(c) (2), (3), or (4), and such amounts, to the extent they do not exceed the limitations under section 170(h)(2) and paragraph (b) of this section, are contributions deductible under section 170. In order for such amounts to be so treated, the student must be an individual who is neither a dependent (as defined in section 152) of the taxpayer nor related to the taxpayer in a manner described in any of the paragraphs (1) through (8) of section 152(a), and such individual must be a member of the taxpayer's household pursuant to a written agreement between the taxpayer and an organization described in section 170(c) (2), (3), or (4) to implement a program of the organization to provide educational opportunities for pupils or students placed in private homes by such organization. Furthermore, such amounts must be paid to maintain such individual during the period in the taxable year he is a member of the taxpayer's household and is a full-time pupil or student in the 12th or any lower grade at an educational institution, as defined in section 151(e)(4) and §1.151–3, located in the United States. Amounts paid outside of such period, but within the taxable year, for expenses necessary for the maintenance of the student during the period will qualify for the charitable contributions deduction if the other limitation requirements of the section are met.

(2) For purposes of subparagraph (1) of this paragraph, amounts treated as charitable contributions include only those amounts actually paid by the taxpayer during the taxable year which are directly attributable to the maintenance of the student while he is a member of the taxpayer's household and is attending an educational institution on a full-time basis. This would include amounts paid to insure the well-being of the individual and to carry out the purpose for which the individual was placed in the taxpayer's home. For example, a deduction under section 170 would be allowed for amounts paid for books, tuition, food, clothing, transportation, medical and dental care, and recreation for the individual. Amounts treated as charitable contributions under this section do not include amounts which the taxpayer would have expended had the student not been in the household. They would not include, for example, amounts paid in connection with the taxpayer's home for taxes, insurance, interest on a mortgage, repairs, etc. Moreover, such amounts do not include any depreciation sustained by the taxpayer in maintaining such student or students in his household, nor do they include the value of any services rendered on behalf of such student or students by the taxpayer or any member of the taxpayer's household.

(3) For purposes of section 170(h) and this section, an individual will be considered to be a full-time pupil or student at an educational institution only if he is enrolled for a course of study prescribed for a full-time student at such institution and is attending classes on a full-time basis. Nevertheless, such individual may be absent from school due to special circumstances and still be considered to be in full-time attendance. Periods during the regular school term when the school is closed for holidays, such as Christmas and Easter, and for periods between semesters are treated as periods during which the pupil or student is in full-time attendance at the school. Also, absences during the regular school term due to illness of such individual shall not prevent him from being considered as a full-time pupil or student. Similarly, absences from the taxpayer's household due to special circumstances will not disqualify the student as a member of the household. Summer vacations between regular school terms are not considered periods of school attendance.

(4) When claiming a deduction for amounts described in section 170(h) and this section, the taxpayer must submit with his return a copy of his agreement with the organization sponsoring the individual placed in the taxpayer's household, together with a summary of the various items for which amounts were paid to maintain such individual, and a statement as to the date the individual became a member of the household and the period of his full-time attendance at school and the name and location of such school. Substantiation of amounts claimed must be supported by adequate records of the amounts actually paid. Due to the nature of certain items, such as food, a record of amount spent for all members of the household, with an equal portion thereof allocated to each member, will be acceptable.

(b) *Limitations.* Section 170(h) and this section shall apply to amounts paid during the taxable year only to the extent that the amounts paid in maintaining each pupil or student do not exceed $50 multiplied by the number of full calendar months in the taxable year that the pupil or student is maintained in accordance with the provisions of this section. For purposes of such limitation if 15 or more days of a calendar month fall within the period to which the maintenance of such pupil or student relates, such month is considered as a full calendar month. To the extent that such amounts qualify as charitable contributions under section 170(c), the aggregate of such amounts plus other contributions made during the taxable year for the use of an organization described in section 170(c) is deductible under section 170 subject to the limitation provided in section 170(b)(1)(B) and paragraph (c) of § 1.170A–8.

(c) *Compensation or reimbursement.* Amounts paid during the taxable year to maintain a pupil or student as a member of the taxpayer's household as provided in paragraph (a) of this section, shall not be taken into account under section 170(h) and this section, if the taxpayer receives any money or other property as compensation or reimbursement for any portion of such amounts. The taxpayer will not be denied the benefits of section 170(h) if he prepays an extraordinary or nonrecurring expense such as a hospital bill or vacation trip, at the request of the individual's parents or the sponsoring organization and is reimbursed for such prepayment. The value of services performed by the pupil or student in attending to ordinary chores of the household will generally not be considered to constitute compensation or reimbursement. However, if the pupil or student is taken into the taxpayer's household to replace a former employee of the taxpayer or gratuitously to perform substantial services for the taxpayer, the facts and circumstances may warrant a conclusion that the taxpayer received reimbursement for maintaining the pupil or student.

(d) *No other amount allowed as deduction.* Except to the extent that amounts described in section 170(h) and this section are treated as charitable contributions under section 170(c) and, therefore, deductible under section 170(a), no deduction is allowed for any amount paid to maintain an individual, as a member of the taxpayer's household, in accordance with the provisions of section 170(h) and this section.

(e) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. The X organization is an organization described in section 170(c)(2) and is engaged in a program under which a number of European children are placed in the homes of U.S. residents in order to further the children's high school education. In accordance with paragraph (a) of this section, the taxpayer, A, who reports his income on the calendar year basis, agreed with X to take two of the children, and they were placed in the taxpayer's home on January 2, 1970, where they remained until January 21, 1971, during which time they were fully maintained by the taxpayer. The children enrolled at the local high school for the full course of study prescribed for 10th grade students and attended the school on a full-time basis for the spring semester starting January 18, 1970, and ending June 3, 1970, and for the fall semester starting September 1, 1970, and ending January 13, 1971. The total cost of food paid by A in 1970 for himself, his wife, and the two children amounted to $1,920, or $40 per month for each member of the household. Since the children were actually full-time students for only 8 1/2 months during 1970, the amount paid for food for each child during that period amounted to $340. Other amounts paid during the 8 1/2 -month period for each child for laundry, lights, water, recreation, and school supplies amounted to $160. Thus, the amounts treated under section 170(h) and this section as paid for the use of X would, with respect to each child, total $500 ($340+$160), or a total for both children of $1,000, subject to the limitations of paragraph (b) of this section. Since, for purposes of such limitations, the children were full-time students for only 8 full calendar months during 1970 (less than 15 days in January 1970), the taxpayer may treat only $800 as a charitable contribution made in 1970, that is, $50 multiplied by the 8 full calendar months, or $400 paid for the maintenance of each child. Neither the excess payments nor amounts paid to maintain the children during the period before school opened and for the period in summer between regular school terms is taken into account by reason of section 170(h). Also, because the children were full-time students for less than 15 days in January 1971 (although maintained in the taxpayer's household for 21 days), amounts paid to maintain the children during 1971 would not qualify as a charitable contribution.

Example 2. A religious organization described in section 170(c)(2) has a program for providing educational opportunities for children it places in private homes. In order to implement the program, the taxpayer, H, who resides with his wife, son, and daughter of high school age in a town in the United States, signs an agreement with the organization to maintain a girl sponsored by the organization as a member of his household while the child attends the local high school for the regular 1970–71 school year. The child is a full-time student at the school during the school year starting September 6, 1970, and ending June 6, 1971, and is a member of the taxpayer's household during that period. Although the taxpayer pays $200 during the school period falling in 1970, and $240 during the school period falling in 1971, to maintain the child, he cannot claim either amount as a charitable contribution because the child's parents, from time to time during the school year, send butter, eggs, meat, and vegetables to H to help defray the expenses of maintaining the child. This is considered property received as reimbursement under paragraph (c) of this section. Had her parents not contributed the food, the fact that the child, in addition to the normal chores she shared with the taxpayer's daughter, such as cleaning their own rooms and helping with the shopping and cooking, was responsible for the family laundry and for the heavy cleaning of the entire house while the taxpayer's daughter had no comparable responsibilities would also preclude a claim for a charitable contributions deduction. These substantial gratuitous services are considered property received as reimbursement under paragraph (c) of this section.

Example 3. A taxpayer resides with his wife in a city in the eastern United States. He agrees, in writing, with a fraternal society described in section 170(c)(4) to accept a child selected by the society for maintenance by him as a member of his household during 1971 in order that the child may attend the local grammar school as a part of the society's program to provide elementary education for certain children selected by it. The taxpayer maintains the child, who has as his principal place of abode the home of the taxpayer, and is a member of the taxpayer's household, during the entire year 1971. The child is a full-time student at the local grammar school for 9 full calendar months during the year. Under the agreement, the society pays the taxpayer $30 per month to help maintain the child. Since the $30 per month is considered as compensation or reimbursement to the taxpayer for some portion of the maintenance paid on behalf of the child, no amounts paid with respect to such maintenance can be treated as amounts paid in accordance with section 170(h). In the absence of the $30 per month payments, if the child qualifies as a dependent of the taxpayer under section 152(a)(9), that fact would also prevent the maintenance payments from being treated as charitable contributions paid for the use of the fraternal society.

(f) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20774, Oct. 4, 1972]

§ 1.170A–3 Reduction of charitable contribution for interest on certain indebtedness.

(a) *In general.* Section 170(f)(5) requires that the amount of a charitable contribution be reduced for certain interest to the extent necessary to avoid the deduction of the same amount both as an interest deduction under section 163 and as a deduction for charitable contributions under section 170. The reduction is to be determined in accordance with paragraphs (b) and (c) of this section.

(b) *Interest attributable to postcontribution period.* In determining the amount to be taken into account as a charitable contribution for purposes of section 170, the amount determined without regard to section 170(f)(5) or this section shall be reduced by the amount of interest which has been paid, or is to be paid, by the taxpayer, which is attributable to any liability connected with the contribution, and which is attributable to any period of time after the making of the contribution. The deduction otherwise allowable for charitable contributions under section 170 is required to be reduced pursuant to section 170(f)(5) and this section only if, in connection with a charitable contribution, a liability is assumed by the recipient of the contribution or by any other person or if the charitable contribution is of property which is subject to a liability. Thus, if a charitable contribution is made in property and the transfer is conditioned upon the assumption of a liability by the donee or by some other person, the contribution must be reduced by the amount of any interest which has been paid, or will be paid, by the taxpayer, which is attributable to the liability, and which is attributable to any period after the making of the contribution. The adjustment referred to in this paragraph must also be made where the contributed property is subject to a liability and the value of the property reflects the payment by the donor of interest with respect to a period of time after the making of the contribution.

(c) *Interest attributable to precontribution period.* If, in connection with the charitable contribution of a bond, a liability is assumed by the recipient or by any other person, or if the bond is subject to a liability, then, in determining the amount to be taken into account as a charitable contribution under section 170, the amount determined without regard to section 170(f)(5) and this section shall, without regard to whether any reduction may be required by paragraph (b) of this section, also be reduced for interest which has been paid, or is to be paid, by the taxpayer on indebtedness incurred or continued to purchase or carry such bond, and which is attributable to any period before the making of the contribution. However, the reduction referred to in this paragraph shall be made only to the extent that such reduction does not exceed the interest (including bond discount and other interest equivalent) receivable on the bond, and attributable to any period before the making of the contribution which is not, by reason of the taxpayer's method of accounting, includible in the taxpayer's gross income for any taxable year. For purposes of section 170(f)(5) and this section the term *bond* means any bond, debenture, note, or certificate or other evidence of indebtedness.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. On January 1, 1970, A, a cash basis taxpayer using the calendar year as the taxable year, contributed to a charitable organization real estate having a fair market value and adjusted basis of $10,000. In connection with the contribution the charitable organization assumed an indebtedness of $8,000 which A had incurred. On December 31, 1969, A prepaid one year's interest on that indebtedness for 1970, amounting to $960, and took an interest deduction of $960 for such amount. The amount of the gift, determined without regard to this section, is $2,960 ($10,000 less $8,000, the outstanding indebtedness, plus $960, the amount of prepaid interest). In determining the amount of the deduction for the charitable contribution, the value of the gift ($2,960) must be reduced by $960 to eliminate from the computation of such deduction that portion thereof for which A has been allowed an interest deduction.

Example 2. (a) On January 1, 1970, B, an individual using the cash receipts and disbursements method of accounting, purchased for $9,950 a 5 1/2 percent $10,000, 20-year M Corporation bond, the interest on which was payable semiannually on June 30 and December 31. The M Corporation had issued the bond on January 1, 1960, at a discount of $720 from the principal amount. On December 1, 1970, B donated the bond to a charitable organization, and, in connection with the contribution, the charitable organization assumed an indebtedness of $7,000 which B had incurred to purchase and carry the bond.

(b) During the calendar year 1970 B paid accrued interest of $330 on the indebtedness for the period from January 1, 1970, to December 1, 1970, and has taken an interest deduction of $330 for such amount. No portion of the bond discount of $36 a year ($720 divided by 20 years) has been included in B's income, and of the $550 of annual interest receivable on the bond, he included in income only the June 30, 1970, payment of $275.

(c) The market value of the bond on December 1, 1970, was $9,902. Such value includes $229 of interest receivable which had accrued from July 1 to December 1, 1970.

(d) The amount of the charitable contribution determined without regard to this section is $2,902 ($9,902, the value of the property on the date of gift, less $7,000, the amount of the liability assumed by the charitable organization). In determining the amount of the allowable deduction for charitable contributions, the value of the gift ($2,902) must be reduced to eliminate from the deduction that portion thereof for which B has been allowed an interest deduction. Although the amount of such interest deduction was $330, the reduction required by this section is limited to $262, since the reduction is not in excess of the amount of interest income on the bond ($229 of accrued interest plus $33, the amount of bond discount attributable to the 11-month period B held the bond).

(e) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20775, Oct. 4, 1972]

§1.170A–4 Reduction in amount of charitable contributions of certain appreciated property.

(a) *Amount of reduction.* Section 170(e)(1) requires that the amount of the charitable contribution which would be taken into account under section 170(a) without regard to section 170(e) shall be reduced before applying the percentage limitations under section 170(b):

(1) In the case of a contribution by an individual or by a corporation of ordinary income property, as defined in paragraph (b)(1) of this section, by the amount of gain (hereinafter in this section referred to as ordinary income) which would have been recognized as gain which is not long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization,

(2) In the case of a contribution by an individual of section 170(e) capital gain property, as defined in paragraph (b)(2) of this section, by 50 percent of the

amount of gain (hereinafter in this section referred to as long-term capital gain) which would have been recognized as long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization, and

(3) In the case of a contribution by a corporation of section 170(e) capital gain property, as defined in paragraph (b)(2) of this section, by 62 1/2 percent of the amount of gain (hereinafter in this section referred to as long-term capital gain) which would have been recognized as long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization.

Section 170(e)(1) and this paragraph do not apply to reduce the amount of the charitable contribution where, by reason of the transfer of the contributed property, ordinary income or capital gain is recognized by the donor in the same taxable year in which the contribution is made. Thus, where income or gain is recognized under section 453(d) upon the transfer of an installment obligation to a charitable organization, or under section 454(b) upon the transfer of an obligation issued at a discount to such an organization, or upon the assignment of income to such an organization, section 170(e)(1) and this paragraph do not apply if recognition of the income or gain occurs in the same taxable year in which the contribution is made. Section 170(e)(1) and this paragraph apply to a charitable contribution of an interest in ordinary income property or section 170(e) capital gain property which is described in paragraph (b) of § 1.170A–6, or paragraph (b) of § 1.170A–7. For purposes of applying section 170(e)(1) and this paragraph it is immaterial whether the charitable contribution is made ''to'' the charitable organization or whether it is made ''for the use of'' the charitable organization. See § 1.170A–8(a)(2).

(b) *Definitions and other rules.* For purposes of this section:

(1) *Ordinary income property.* The term *ordinary income property* means property any portion of the gain on which would not have been long term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization. Such term includes, for example, property held by the donor primarily for sale to customers in the ordinary course of his trade or business, a work of art created by the donor, a manuscript prepared by the donor, letters and memorandums prepared by or for the donor, a capital asset held by the donor for not more than 1 year (6 months for taxable years beginning before 1977; 9 months for taxable years beginning in 1977), and stock described in section 306(a), 341(a), or 1248(a) to the extent that, after applying such section, gain on its disposition would not have been long-term capital gain. The term does not include an income interest in respect of which a deduction is allowed under section 170(f)(2)(B) and paragraph (c) of § 1.170A–6.

(2) *Section 170(e) capital gain property.* The term *section 170(e) capital gain property* means property any portion of the gain on which would have been treated as long-term capital gain if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization and which:

(i) Is contributed to or for the use of a private foundation, as defined in section 509(a) and the regulations thereunder, other than a private foundation described in section 170(b)(1)(E),

(ii) Constitutes tangible personal property contributed to or for the use of a charitable organization, other than a private foundation to which subdivision (i) of this subparagraph applies, which is put to an unrelated use by the charitable organization within the meaning of subparagraph (3) of this paragraph, or

(iii) Constitutes property not described in subdivision (i) or (ii) of this subparagraph which is 30-percent capital gain property to which an election under paragraph (d)(2) of § 1.170A–8 applies.

For purposes of this subparagraph a fixture which is intended to be severed from real property shall be treated as tangible personal property.

(3) *Unrelated use*—(i) *In general.* The term *unrelated use* means a use which is unrelated to the purpose or function

constituting the basis of the charitable organization's exemption under section 501 or, in the case of a contribution of property to a governmental unit, the use of such property by such unit for other than exclusively public purposes. For example, if a painting contributed to an educational institution is used by that organization for educational purposes by being placed in its library for display and study by art students, the use is not an unrelated use; but if the painting is sold and the proceeds used by the organization for educational purposes, the use of the property is an unrelated use. If furnishings contributed to a charitable organization are used by it in its offices and buildings in the course of carrying out its functions, the use of the property is not an unrelated use. If a set or collection of items of tangible personal property is contributed to a charitable organization or governmental unit, the use of the set or collection is not an unrelated use if the donee sells or otherwise disposes of only an insubstantial portion of the set or collection. The use by a trust of tangible personal property contributed to it for the benefit of a charitable organization is an unrelated use if the use by the trust is one which would have been unrelated if made by the charitable organization.

(ii) *Proof of use.* For purposes of applying subparagraph (2)(ii) of this paragraph, a taxpayer who makes a charitable contribution of tangible personal property to or for the use of a charitable organization or governmental unit may treat such property as not being put to an unrelated use by the donee if:

(a) He establishes that the property is not in fact put to an unrelated use by the donee, or

(b) At the time of the contribution or at the time the contribution is treated as made, it is reasonable to anticipate that the property will not be put to an unrelated use by the donee. In the case of a contribution of tangible personal property to or for the use of a museum, if the object donated is of a general type normally retained by such museum or other museums for museum purposes, it will be reasonable for the donor to anticipate, unless he has actual knowledge to the contrary, that the object will not be put to an unrelated use by the donee, whether or not the object is later sold or exchanged by the donee.

(4) *Property used in trade or business.* For purposes of applying subparagraphs (1) and (2) of this paragraph, property which is used in the trade or business, as defined in section 1231(b), shall be treated as a capital asset, except that any gain in respect of such property which would have been recognized if the property had been sold by the donor at its fair market value at the time of its contribution to the charitable organization shall be treated as ordinary income to the extent that such gain would have constituted ordinary income by reason of the application of section 617 (d)(1), 1245(a), 1250(a), 1251(c), 1252(a), or 1254(a).

(5) *Nonresident alien individuals and foreign corporations.* The reduction in the case of a nonresident alien individual or a foreign corporation shall be determined by taking into account the gain which would have been recognized and subject to tax under chapter 1 of the Code if the property had been sold or disposed of within the United States by the donor at its fair market value at the time of its contribution to the charitable organization. However, the amount of such gain which would have been subject to tax under section 871(a) or 881 (relating to gain not effectively connected with the conduct of a trade or business within the United States) if there had been a sale or other disposition within the United States shall be treated as long-term capital gain. Thus, a charitable contribution by a nonresident alien individual or a foreign corporation of property the sale or other disposition of which within the United States would have resulted in gain subject to tax under section 871(a) or 881 will be reduced only as provided in section 170(e)(1)(B) and paragraph (a)(2) or (3) of this section, but only if the property contributed is described in subdivision (i), (ii), or (iii) of subparagraph (2) of this paragraph. A charitable contribution by a nonresident alien individual or a foreign corporation of property the sale or other disposition of which within the United States would have resulted in gain subject to tax under section 871(a) or 881

will in no case be reduced under section 170(e)(1)(A) and paragraph (a)(1) of this section.

(c) *Allocation of basis and gain*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph:

(i) If a taxpayer makes a charitable contribution of less than his entire interest in appreciated property, whether or not the transfer is made in trust, as, for example, in the case of a transfer of appreciated property to a pooled income fund described in section 642(c)(5) and § 1.642(c)–5, and is allowed a deduction under section 170 for a portion of the fair market value of such property, then for purposes of applying the reduction rules of section 170(e)(1) and this section to the contributed portion of the property the taxpayer's adjusted basis in such property at the time of the contribution shall be allocated under section 170(e)(2) between the contributed portion of the property and the noncontributed portion.

(ii) The adjusted basis of the contributed portion of the property shall be that portion of the adjusted basis of the entire property which bears the same ratio to the total adjusted basis as the fair market value of the contributed portion of the property bears to the fair market value of the entire property.

(iii) The ordinary income and the long-term capital gain which shall be taken into account in applying section 170(e)(1) and paragraph (a) of this section to the contributed portion of the property shall be the amount of gain which would have been recognized as ordinary income and long-term capital gain if such contributed portion had been sold by the donor at its fair market value at the time of its contribution to the charitable organization.

(2) *Bargain sale.* (i) Section 1011(b) and § 1.1011–2 apply to bargain sales of property to charitable organizations. For purposes of applying the reduction rules of section 170(e)(1) and this section to the contributed portion of the property in the case of a bargain sale, there shall be allocated under section 1011(b) to the contributed portion of the property that portion of the adjusted basis of the entire property that bears the same ratio to the total adjusted basis as the fair market value of the contributed portion of the property bears to the fair market value of the entire property. For purposes of applying section 170(e)(1) and paragraph (a) of this section to the contributed portion of the property in such a case, there shall be allocated to the contributed portion the amount of gain that is not recognized on the bargain sale but that would have been recognized if such contributed portion had been sold by the donor at its fair market value at the time of its contribution to the charitable organization.

(ii) The term *bargain sale,* as used in this subparagraph, means a transfer of property which is in part a sale or exchange of the property and in part a charitable contribution, as defined in section 170(c), of the property.

(3) *Ratio of ordinary income and capital gain.* For purposes of applying subparagraphs (1)(iii) and (2)(i) of this paragraph, the amount of ordinary income (or long-term capital gain) which would have been recognized if the contributed portion of the property had been sold by the donor at its fair market value at the time of its contribution shall be that amount which bears the same ratio to the ordinary income (or long-term capital gain) which would have been recognized if the entire property had been sold by the donor at its fair market value at the time of its contribution as (i) the fair market value of the contributed portion at such time bears to (ii) the fair market value of the entire property at such time. In the case of a bargain sale, the fair market value of the contributed portion for purposes of subdivision (i) is the amount determined by subtracting from the fair market value of the entire property the amount realized on the sale.

(4) *Donee's basis of property acquired.* The adjusted basis of the contributed portion of the property, as determined under subparagraph (1) or (2) of this paragraph, shall be used by the donee in applying to the contributed portion such provisions as section 514(a)(1), relating to adjusted basis of debt-financed property; section 1015(a), relating to basis of property acquired by gift; section 4940(c)(4), relating to capital gains and losses in determination of net investment income; and section

4942(f)(2)(B), relating to net short-term capital gain in determination of tax on failure to distribute income. The fair market value of the contributed portion of the property at the time of the contribution shall not be used by the donee as the basis of such contributed portion.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. (a) On July 1, 1970, C, an individual, makes the following charitable contributions, all of which are made to a church except in the case of the stock (as indicated):

Property	Fair market value	Adjusted basis	Recognized gain sold
Ordinary income property	$50,000	$35,000	$15,000
Property which, if sold, would produce long-term capital gain:			
(1) Stock held more than 6 months contributed to—.			
(i) A church	25,000	21,000	4,000
(ii) A private foundation not described in section 170(b)(1)(E)	15,000	10,000	5,000
(2) Tangible personal property held more than 6 months (put to unrelated use by church)	12,000	6,000	6,000
Total	102,000	72,000	30,000

(b) After making the reductions required by paragraph (a) of this section, the amount of charitable contributions allowed (before application of section 170(b) limitations) is as follows:

Property	Fair market value	Reduction	Contribution allowed
Ordinary income property	$50,000	$15,000	$35,000
Property which, if sold, would produce long-term capital gain:			
(1) Stock contributed to:.			
(i) The church	25,000	....	25,000
(ii) The private foundation	15,000	2,500	12,500
(2) Tangible personal property	12,000	3,000	9,000
Total	102,000	20,500	81,500

(c) If C were a corporation, rather than an individual, the amount of charitable contributions allowed (before application of section 170(b) limitation) would be as follows:

Property	Fair market value	Reduction	Contribution allowed
Ordinary income property	$50,000	$15,000	$35,000
Property which, if sold, would produce long-term capital gain:			
(1) Stock contributed to:.			
(i) The church	25,000	....	25,000
(ii) The private foundation	15,000	3,125	11,875
(2) Tangible personal property	12,000	3,750	8,250
Total	102,000	21,875	80,125

Example 2. On March 1, 1970, D, an individual, contributes to a church intangible property to which section 1245 applies which has a fair market value of $60,000 and an adjusted basis of $10,000. At the time of the contribution D has used the property in his business for more than 6 months. If the property had been sold by D at its fair market value at the time of its contribution, it is assumed that under section 1245 $20,000 of the gain of $50,000 would have been treated as ordinary income and $30,000 would have been long-term capital gain. Under paragraph (a)(1) of this section, D's contribution of $60,000 is reduced by $20,000.

Example 3. The facts are the same as in *Example (2)* except that the property is contributed to a private foundation not described in section 170(b)(1)(E). Under paragraph (a) (1) and (2) of this section, D's contribution is reduced by $35,000 (100 percent of the ordinary income of $20,000 and 50 percent of the long-term capital gain of $30,000).

Example 4. (a) In 1971, E, an individual calendar-year taxpayer, contributes to a church stock held for more than 6 months which has a fair market value of $90,000 and an adjusted basis of $10,000. In 1972, E also contributes to a church stock held for more than 6 months which has a fair market value of $20,000 and an adjusted basis of $10,000. E's contribution base for 1971 is $200,000; and for 1972, is $150,000. E makes no other charitable contributions for these 2 taxable years.

(b) For 1971 the amount of the contribution which may be taken into account under section 170(a) is limited by section 170(b)(1)(D)(i) to $60,000 ($200,000×30%), and A is allowed a deduction for $60,000. Under section 170(b)(1)(D)(ii), E has a $30,000 carryover to 1972 of 30-percent capital gain property, as defined in paragraph (d)(3) of §1.170A–8. For 1972 the amount of the charitable contributions deduction is $45,000 (total contributions of $50,000 [$30,000+$20,000] but not to exceed 30% of $150,000).

(c) Assuming, however, that in 1972 E elects under section 170(b)(1)(D)(iii) and paragraph (d)(2) of §1.170A–8 to have section 170(e)(1)(B) apply to his contributions and carryovers of 30-percent capital gain property, he must apply section 170(d)(1) as if section 170(e)(1)(B) had applied to the contribution for 1971. If section 170 (e)(1)(B) had applied in 1971 to his contributions of 30-percent capital gain property, E's contribution would have been reduced from $90,000 to $50,000, the reduction of $40,000 being 50 percent of the gain of $80,000 ($90,000 − $10,000) which would have been recognized as long-term capital gain if the property had been sold by E at its fair market value at the time of its contribution to the church. Accordingly, by taking the election into account, E has no carryover of 30-percent capital gain property to 1972 since the charitable contributions deduction of $60,000 allowed for 1971 in respect of that property exceeds the reduced contribution of $50,000 for 1971 which may be taken into account by reason of the election. The charitable contributions deduction of $60,000 allowed for 1971 is not reduced by reason of the election.

(d) Since by reason of the election E is allowed under paragraph (a)(2) of this section a charitable contributions deduction for 1972 of $15,000 ($20,000 − [($20,000 − $10,000)×50%]) and since the $30,000 carryover from 1971 is eliminated, it would not be to E's advantage to make the election under section 170(b)(1)(D)(iii) in 1972.

Example 5. In 1970, F, an individual calendar-year taxpayer, sells to a church for $4,000 ordinary income property with a fair market value of $10,000 and an adjusted basis of $4,000. F's contribution base for 1970 is $20,000, and F makes no other charitable contributions in 1970. Thus, F makes a charitable contribution to the church of $6,000 ($10,000 − $4,000 amount realized), which is 60% of the value of the property. The amount realized on the bargain sale is 40% ($4,000/$10,000) of the value of the property. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of $1,600 ($4,000 adjusted basis × 40%) is allocated under § 1.1011–2(b) to the noncontributed portion of the property, and F recognizes $2,400 ($4,000 amount realized less $1,600 adjusted basis) of ordinary income. Under paragraphs (a)(1) and (c)(2)(i) of this section, F's contribution of $6,000 is reduced by $3,600 ($6,000 − [$4,000 adjusted basis × 60%]) (*i.e.*, the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of $2,400 consists of the portion ($4,000 × 60%) of the adjusted basis not allocated to the noncontributed portion of the property. That is, the reduced contribution consists of the portion of the adjusted basis allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is $6,400 ($4,000 + $2,400).

Example 6. In 1970, G, an individual calendar-year taxpayer, sells to a church for $6,000 ordinary income property with a fair market value of $10,000 and an adjusted basis of $4,000. G's contribution base for 1970 is $20,000, and G makes no other charitable contributions in 1970. Thus, G makes a charitable contribution to the church of $4,000 ($10,000 − $6,000 amount realized), which is 40% of the value of the property. The amount realized on the bargain sale is 60% ($6,000/$10,000) of the value of the property. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of $2,400 ($4,000 adjusted basis × 60%) is allocated under § 1.1011–2(b) to the noncontributed portion of the property, and G recognizes $3,600 ($6,000 amount realized less $2,400 adjusted basis) of ordinary income. Under paragraphs (a)(1) and (c)(2)(i) of this section, G's contribution of $4,000 is reduced by $2,400 ($4,000 − [$4,000 adjusted basis × 40%]) (*i.e.*, the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of $1,600 consist of the portion ($4,000×40%) of the adjusted basis not allocated to the noncontributed portion of the property. That is, the reduced contribution consists of the portion of the adjusted basis allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is $7,600 ($6,000+$1,600).

Example 7. In 1970, H, an individual calendar-year taxpayer, sells to a church for $2,000 stock held for not more than 6 months which has an adjusted basis of $4,000 and a fair market value of $10,000. H's contribution base for 1970 is $20,000, and H makes no other charitable contributions in 1970. Thus, H makes a charitable contribution to the church of $8,000 ($10,000 − $2,000 amount realized), which is 80% of the value of the property. The amount realized on the bargain sale is 20% ($2,000/$10,000) of the value of the property. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of $800 ($4,000 adjusted basis × 20%) is allocated under § 1.1011–2(b) to the noncontributed portion of the property, and H recognizes $1,200 ($2,000 amount realized less $800 adjusted basis) of ordinary income. Under paragraphs (a)(1) and (c)(2)(i) of this section, H's contribution of $8,000 is reduced by $4,800 ($8,000 − [$4,000 adjusted basis×80%]) (*i.e.*, the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of $3,200 consists of the portion ($4,000×80%) of the adjusted basis not allocated to the noncontributed portion of the property. That is, the reduced contribution consists of the portion of the adjusted basis allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is $5,200 ($2,000+$3,200).

Example 8. In 1970, F, an individual calendar-year taxpayer, sells for $4,000 to a private foundation not described in section 170(b)(1)(E) property to which section 1245 applies which has a fair market value of $10,000 and an adjusted basis of $4,000. F's contribution base for 1970 is $20,000, and F makes no other charitable contributions in 1970. At the time of the bargain sale, F has used the property in his business for more than 6 months. Thus F makes a charitable contribution of $6,000 ($10,000 − $4,000 amount realized), which is 60% of the value of the property. The amount realized on the bargain sale is 40% ($4,000/$10,000) of the value of the property. If the property had been sold by F at its fair market value at the time of its contribution, it is assumed that under section 1245 $4,000 of the gain of $6,000 ($10,000 − $4,000 adjusted basis) would have been treated as ordinary income and $2,000 would have been long-term capital gain. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of $1,600 ($4,000 adjusted basis × 40%) is allocated under §1.1011–2(b) to the noncontributed portion of the property, and F's recognized gain of $2,400 ($4,000 amount realized less $1,600 adjusted basis) consists of $1,600 ($4,000×40%) of ordinary income and $800 ($2,000×40%) of long-term capital gain. Under paragraphs (a) and (c)(2)(i) of this section, F's contribution of $6,000 is reduced by $3,000 (the sum of $2,400 ($4,000×60%) of ordinary income and $600 ([$2,000×60%] × 50%) of long-term capital gain) (*i.e.,* the amount of gain that would have been recognized on the contributed portion had the property been sold). The reduced contribution of $3,000 consists of $2,400 ($4,000×60%) of adjusted basis and $600 ([$2,000×60%] × 50%) of long-term capital gain not used as a reduction under paragraph (a)(2) of this section. Under sections 1012 and 1015(a) the basis of the property to the private foundation is $6,400 ($4,000+$2,400).

Example 9. On January 1, 1970, A, an individual, transfers to a charitable remainder annuity trust described in section 664 (d)(1) stock which he has held for more than 6 months and which has a fair market value of $250,000 and an adjusted basis of $50,000, an irrevocable remainder interest in the property being contributed to a private foundation not described in section 170(b)(1)(E). The trusts provides that an annuity of $12,500 a year is payable to A at the end of each year for 20 years. By reference to §20.2031–7A(c) of this chapter (Estate Tax Regulations) the figure in column (2) opposite 20 years is 11.4699. Therefore, under §1.664–2 the fair market value of the gift of the remainder interest to charity is $106,626.25 ($250,000 − [$12,500×11.4699]). Under paragraph (c)(1)(ii) of this section, the adjusted basis allocated to the contributed portion of the property is $21,325.25 ($50,000×$106,626.25/$250,000). Under paragraphs (a)(2) and (c)(1) of this section, A's contribution is reduced by $42,650.50 (50 percent × [$106,626.25 − $21,325.25]) to $63,975.75 ($106,626.25 − $42,650.50). If, however, the irrevocable remainder interest in the property had been contributed to a section 170(b)(1)(A) organization, A's contribution of $106,626.25 would not be reduced under paragraph (a) of this section.

Example 10. (a) On July 1, 1970, B, a calendar-year individual taxpayer, sells to a church for $75,000 intangible property to which section 1245 applies which has a fair market value of $250,000 and an adjusted basis of $75,000. Thus, B makes a charitable contribution to the church of $175,000 ($250,000 − $75,000 amount realized), which is 70% ($175,000/$250,000) of the value of the property, the amount realized on the bargain sale is 30% ($75,000/$250,000) of the value of the property. At the time of the bargain sale, B has used the property in his business for more than 6 months. B's contribution base for 1970 is $500,000, and B makes no other charitable contributions in 1970. If the property had been sold by B at its fair market value at the time of its contribution, it is assumed that under section 1245 $105,000 of the gain of $175,000 ($250,000 − $75,000 adjusted basis) would have been treated as ordinary income and $70,000 would have been long-term capital gain. In applying section 1011(b) to the bargain sale, adjusted basis in the amount of $22,500 ($75,000 adjusted basis × 30%) is allocated under §1.1011–2(b) to the noncontributed portion of the property and B's recognized gain of $52,500 ($75,000 amount realized less $22,500 adjusted basis) consists of $31,500 ($105,000×30%) of ordinary income and $21,000 ($70,000×30%) of long term capital gain.

(b) Under paragraphs (a)(1) and (c)(2)(i) of this section B's contribution of $175,000 is reduced by $73,500 ($105,000×70%) (*i.e.,* the amount of ordinary income that would have been recognized on the contributed portion had the property been sold). The reduced contribution of $101,500 consists of $52,500 [$75,000×70%] of adjusted basis allocated to the contributed portion of the property and $49,000 [$70,000×70%] of long-term capital gain allocated to the contributed portion. Under sections 1012 and 1015(a) the basis of the property to the church is $127,500 ($75,000+$52,500).

(e) *Effective date.* This section applies only to contributions paid after December 31, 1969, except that, in the case of a charitable contribution of a letter, memorandum, or property similar to a letter or memorandum, it applies to contributions paid after July 25, 1969.

[T.D. 7207, 37 FR 20776, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7728, 45 FR 72650, Nov. 3, 1980; T.D. 7807, 47 FR 4510, Feb. 1, 1982; T.D. 8176, 53 FR 5569, Feb. 25, 1988; T.D. 8540, 59 FR 30102, June 10, 1994]

§ 1.170A–4A Special rule for the deduction of certain charitable contributions of inventory and other property.

(a) *Introduction.* Section 170(e)(3) provides a special rule for the deduction of certain qualified contributions of inventory and certain other property. To be treated as a ''qualified contribution'', a contribution must meet the restrictions and requirements of section 170(e)(3)(A) and paragraph (b) of this section. Paragraph (b)(1) of this section describes the corporations whose contributions may be subject to this section, the exempt organizations to which these contributions may be made, and the kinds of property which may be contributed. Under paragraph (b)(2) of this section, the use of the property must be related to the purpose or function constituting the ground for the exemption of the organization to which the contribution is made. Also, the property must be used for the care of the ill, needy, or infants. Under paragraph (b)(3) of this section, the recipient organization may not, except as there provided, require or receive in exchange money, property, or services for the transfer or use of property contributed under section 170(e)(3). Under paragraph (b)(4) of this section, the recipient organization must provide the contributing taxpayer with a written statement representing that the organization intends to comply with the restrictions set forth in paragraph (b) (2) and (3) of this section on the use and transfer of the property. Under paragraph (b)(5) of this section, the contributed property must conform to any applicable provisions of the Federal Food, Drug, and Cosmetic Act (as amended), and the regulations thereunder, at the date of contribution and for the immediately preceding 180 days. Paragraph (c) of this section provides the rules for determining the amount of reduction of the charitable contribution under section 170(e)(3). In general, the amount of the reduction is equal to one-half of the amount of gain (other than gain described in paragraph (d) of this section) which would not have been long-term capital gain if the property had been sold by the donor-taxpayer at fair market value at the date of contribution. If, after this reduction, the amount of the deduction would be more than twice the basis of the contributed property, the amount of the deduction is accordingly further reduced under paragraph (c)(1) of this section. The basis of contributed property which is inventory is determined under paragraph (c)(2) of this section, and the donor's cost of goods sold for the year of contribution must be adjusted under paragraph (c)(3) of this section. Under paragraph (d) of this section, a deduction is not allowed for any amount which, if the property had been sold by the donor-taxpayer, would have been gain to which the recapture provisions of section 617, 1245, 1250, 1251, or 1252 would have applied. For purposes of section 170(e)(3) the rules of § 1.170A–4 apply where not inconsistent with the rules of this section.

(b) *Qualified contributions*—(1) *In general.* A contribution of property qualifies under section 170(e)(3) of this section only if it is a charitable contribution:

(i) By a corporation, other than a corporation which is an electing small business corporation within the meaning of section 1371(b);

(ii) To an organization described in section 501(c)(3) and exempt under section 501(a), other than a private foundation, as defined in section 509(a), which is not an operating foundation, as defined in section 4942(j)(e);

(iii) Of property described in section 1221 (1) or (2);

(iv) Which contribution meets the restrictions and requirements of paragraph (b) (2) through (5) of this section.

(2) *Restrictions on use of contributed property.* In order for the contribution to qualify under this section, the contributed property is subject to the following restrictions in use. If the transferred property is used or transferred by the donee organization (or by any subsequent transferee that furnished to the donee organization the written statement described in paragraph

(b)(4)(ii) of this section) in a manner inconsistent with the requirements of subdivision (i) or (ii) of this paragraph (b)(2) or the requirements of paragraph (b)(3) of this section, the donor's deduction is reduced to the amount allowable under section 170 of the regulations thereunder, determined without regard to section 170(e)(3) of this section. If, however, the donor establishes that, at the time of the contribution, the donor reasonably anticipated that the property would be used in a manner consistent with those requirements, then the donor's deduction is not reduced.

(i) *Requirement of use for exempt purpose.* The use of the property must be related to the purpose or function constituting the ground for exemption under section 501(c)(3) of the organization to which the contribution is made. The property may not be used in connection with any activity which gives rise to unrelated trade or business income, as defined in sections 512 and 513 and the regulations thereunder.

(ii) *Requirement of use for care of the ill, needy, or infants*—(A) *In general.* The property must be used for the care of the ill, needy, or infants, as defined in this subdivision (ii). The property itself must ultimately either be transferred to (or for the use of) the ill, needy, or infants for their care or be retained for their care. No other person may use the contributed property except as incidental to primary use in the care of the ill, needy, or infants. The organization may satisfy the requirement of this subdivision by transferring the property to a relative, custodian, parent or guardian of the ill or needy individual or infant, or to any other individual if it makes a reasonable effort to ascertain that the property will ultimately be used primarily for the care of the ill or needy individual, or infant, and not for the primary benefit of any other person. The recipient organization may transfer the property to another exempt organization within the jurisdiction of the United States which meets the description contained in paragraph (b)(1)(ii) of this section, or to an organization not within the jurisdiction of the United States that, but for the fact that it is not within the jurisdiction of the United States, would be described in paragraph (b)(1)(ii) of this section. If an organization transfers the property to another organization, the transferring organization must obtain a written statement from the transferee organization as set forth in paragraph (b)(4) of this section. If the property is ultimately transferred to, or used for the benefit of, ill or needy persons, or infants, not within the jurisdiction of the United States, the organization which so transfers the property outside the jurisdiction of the United States must necessarily be a corporation. See section 170(c)(2) and §1.170A–11(a). For purposes of this subdivision, if the donee-organization charges for its transfer of contributed property (other than a fee allowed by paragraph (b)(3)(ii) of this section), the requirement of this subdivision is not met. See paragraph (b)(3) of this section.

(B) *Definition of the ill.* An ill person is a person who requires medical care within the meaning of §1.213–1(e). Examples of ill persons include a person suffering from physical injury, a person with a significant impairment of a bodily organ, a person with an existing handicap, whether from birth or later injury, a person suffering from malnutrition, a person with a disease, sickness, or infection which significantly impairs physical health, a person partially or totally incapable of self-care (including incapacity due to old age). A person suffering from mental illness is included if the person is hospitalized or institutionalized for the mental disorder, or, although the person is nonhospitalized or noninstitutionalized, if the person's mental illness constitutes a significant health impairment.

(C) *Definition of care of the ill.* Care of the ill means alleviation or cure of an existing illness and includes care of the physical, mental, or emotional needs of the ill.

(D) *Definition of the needy.* A needy person is a person who lacks the necessities of life, involving physical, mental, or emotional well-being, as a result of poverty or temporary distress. Examples of needy persons include a person who is financially impoverished as a result of low income and lack of financial resources, a person who temporarily lacks food or shelter (and the means to provide for it), a person who is the victim of a natural disaster (such as fire or flood), a person who is the victim of a civil disaster (such as a civil disturbance), a person who is temporarily not self-sufficient as a result of a sudden and severe personal or family crisis (such as a person who is the victim of a crime of violence or who has been physically abused), a person who is a refugee or immigrant and who is experiencing language, cultural, or financial difficulties, a minor child who is not self-sufficient and who is not cared for by a parent or guardian, and a person who is not self-sufficient as a result of previous institutionalization (such as a former prisoner or a former patient in a mental institution).

(E) *Definition of care of the needy.* Care of the needy means alleviation or satisfaction of an existing need. Since a person may be needy in some respects and not needy in other respects, care of the needy must relate to the particular need which causes the person to be needy. For example, a person whose temporary need arises from a natural disaster may need temporary shelter and food but not recreational facilities.

(F) *Definition of infant.* An infant is a minor child (as determined under the laws of the jurisdiction in which the child resides).

(G) *Definition of care of an infant.* Care of an infant means performance of parental functions and provision for the physical, mental, and emotional needs of the infant.

(3) *Restrictions on Transfer of contributed property*—(i) *In general.* Except as otherwise provided in subdivision (ii) of this paragraph (b)(3), a contribution will not qualify under this section, if the donee-organization or any transferee of the donee-organization requires or receives any money, property, or services for the transfer or use of property contributed under section 170(e)(3). For example, if an organization provides temporary shelter for a fee, and also provides free meals to ill or needy individuals, or infants using food contributed under this section the contribution of food is subject to this section (if the other requirements of this section are met). However, the fee charged by the organization for the shelter may not be increased merely because meals are served to the ill or needy individuals or infants.

(ii) *Exception.* A contribution may qualify under this section if the donee-organization charges a fee to another organization in connection with its transfer of the donated property, if:

(A) The fee is small or nominal in relation to the value of the transferred property and is not determined by this value; and

(B) The fee is designed to reimburse the donee-organization for its administrative, warehousing, or other similar costs.

For example, if a charitable organization (such as a food bank) accepts surplus food to distribute to other charities which give the food to needy persons, a small fee may be charged to cover administrative, warehousing, and other similar costs. This fee may be charged on the basis of the total number of pounds of food distributed to the transferee charity but not on the basis of the value of the food distributed. The provisions of this subdivision (ii) do not apply to a transfer of donated property directly from an organization to ill or needy individuals, or infants.

(4) *Requirement of a written statement*—(i) *Furnished to taxpayer.* In the case of any contribution made on or after March 3, 1982, the donee-organization must furnish to the taxpayer a written statement which:

(A) Describes the contributed property, stating the date of its receipt;

(B) Represents that the property will be used in compliance with section 170(e)(3) and paragraphs (b) (2) and (3) of this section;

(C) Represents that the donee-organization meets the requirements of paragraph (b)(1)(ii) of this section; and

(D) Represents that adequate books and records will be maintained, and made available to the Internal Revenue Service upon request.

The written statement must be furnished within a reasonable period after the contribution, but not later than the date (including extensions) by which the donor is required to file a United States corporate income tax return for the year in which the contribution was made. The books and records described in (D) of this subdivision (i) need not trace the receipt and disposition of specific items of donated property if they disclose compliance with the requirements by reference to aggregate quantities of donated property. The books and records are adequate if they reflect total amounts received and distributed (or used), and outline the procedure used for determining that the ultimate recipient of the property is an ill or needy individual, or infant. However, the books and records need not reflect the names of the ultimate individual recipients or the property distributed to (or used by) each one.

(ii) *Furnished to transferring organization.* If an organization that received a contribution under this section transfers the contributed property to another organization on or after March 3, 1982, the transferee organization must furnish to the transferring organization a written statement which contains the information required in paragraph (b)(4)(i) (A), (B) and (D) of this section. The statement must also represent that the transferee organization meets the requirements of paragraph (b)(1)(ii) of this section (or, in the case of a transferee organization which is a foreign organization not within the jurisdiction of the United States, that, but for such fact, the organization would meet the requirements of paragraph (b)(1)(ii) of this section). The written statement must be furnished within a reasonable period after the transfer.

(5) *Requirement of compliance with the Federal Food, Drug, and Cosmetic Act*—(i) *In general.* With respect to property contributed under this section which is subject to the Federal Food, Drug, and Cosmetic Act (as amended), and regulations thereunder, the contributed property must comply with the applicable provisions of that Act and regulations thereunder at the date of the contribution and for the immediately preceding 180 days. In the case of specific items of contributed property not in existence for the entire period of 180 days immediately preceding the date of contribution, the requirement of this paragraph (b)(5) is considered met if the contributed property complied with that Act and the regulations thereunder during the period of its existence and at the date of contribution and if, for the 180 day period prior to contribution other property (if any) held by the taxpayer at any time during that period, which property was fungible with the contributed property, complied with that Act and the regulations thereunder during the period held by the taxpayer.

(ii) *Example.* The rule of this paragraph (b)(5) may be illustrated by the following example.

Example. Corporation X a grocery store, contributes 12 crates of navel oranges. The oranges were picked and placed in the grocery store's stock two weeks prior to the date of contribution. The contribution satisfies the requirements of this paragraph (b)(5) if X complied with the Act and regulations thereunder for 180 days prior to the date of contribution with respect to all navel oranges in stock during that period.

(c) *Amount of reduction*—(1) *In general.* Section 170(e)(3)(B) requires that the amount of the charitable contribution subject to this section which would be taken into account under section 170(a), without regard to section 170(e), must be reduced before applying the percentage limitations under section 170(b). The amount of the first reduction is equal to one-half of the amount of gain which would not have been long-term capital gain if the property had been sold by the donor-taxpayer at its fair market value on the date of its contribution, excluding, however, any amount described in paragraph (d) of this section. If the amount of the charitable contribution which remains after this reduction exceeds twice the basis of the contributed property, then the amount of the charitable contribution is reduced a second time to an amount which is equal to twice the amount of the basis of the property.

(2) *Basis of contributed property which is inventory.* For the purposes of this section, notwithstanding the rules of §1.170A–1(c)(4), the basis of contributed property which is inventory must be determined under the donor's method of accounting for inventory for purposes of United States income tax. The donor must use as the basis of the contributed item the inventoriable carrying cost assigned to any similar item not included in closing inventory. For example, under the LIFO dollar value

method of accounting for inventory, where there has been an invasion of a prior year's layer, the donor may choose to treat the item contributed as having a basis of the unit's cost with reference to the layer(s) of prior year(s) cost or with reference to the current year cost.

(3) *Adjustment to cost of goods sold.* Notwithstanding the rules of § 1.170A–1(c)(4), the donor of the property which is inventory contributed under this section must make a corresponding adjustment to cost of goods sold by decreasing the cost of goods sold by the lesser of the fair market value of the contributed item or the amount of basis determined under paragraph (c)(2) of this section.

(4) *Examples.* The rules of this paragraph (c) may be illustrated by the following examples:

Example 1. During 1978 corporation X, a calendar year taxpayer, makes a qualified contribution of women's coats which were section 1221(1) property. The fair market value of the property at the date of contribution is $1,000, and the basis of the property is $200. The amount of the charitable contribution which would be taken into account under section 170(a) is the fair market value ($1,000). The amount of gain which would not have been long-term capital gain if the property had been sold is $800 ($1,000 − $200). The amount of the contribution is reduced by one-half the amount which would not have been capital gain if the property had been sold ($800/2=–$400).

After this reduction, the amount of the contribution which may be taken into account is $600 ($1,000 − $400). A second reduction is made in the amount of the charitable contribution because this amount (as first reduced to $600) is more than $400 which is an amount equal to twice the basis of the property. The amount of the further reduction is $200 [$600 − (2×$200)], and the amount of the contribution as finally reduced is $400 [$1,00 − ($400+$200)]. X would also have to decrease its cost of goods sold for the year of contribution by $200.

Example 2. Assume the same facts as set forth in *Example (1)* except that the basis of the property is $600. The amount of the first reduction is $200 (($1,000 − $600)/2).

As reduced, the amount of the contribution which may be taken into account is $800 ($1,000 − $200). There is no second reduction because $800 is less than $1,200 which is twice the basis of the property. However, X would have to decrease its cost of goods sold for the year of contribution by $600.

(d) *Recapture excluded.* A deduction is not allowed under section 170(e)(3) or this section for any amount which, if the property had been sold by the donor-taxpayer on the date of its contribution for an amount equal to its fair market value, would have been treated as ordinary income under section 617, 1245, 1250, 1251, or 1252. Thus, before making either reduction required by section 170(e)(3)(B) and paragraph (c) of this section, the fair market value of the contributed property must be reduced by the amount of gain that would have been recognized (if the property had been sold) as ordinary income under section 617, 1245, 1250, 1251, or 1252.

(e) *Effective date.* This section applies to qualified contributions made after October 4, 1976.

[T.D. 7807, 47 FR 4510, Feb. 1, 1982, as amended by T.D. 7962, 49 FR 27317, July 3, 1984]

§ 1.170A–5 Future interests in tangible personal property.

(a) *In general.* (1) A contribution consisting of a transfer of a future interest in tangible personal property shall be treated as made only when all intervening interests in, and rights to the actual possession or enjoyment of, the property:

(i) Have expired, or

(ii) Are held by persons other than the taxpayer or those standing in a relationship to the taxpayer described in section 267(b) and the regulations thereunder, relating to losses, expenses, and interest with respect to transactions between related taxpayers.

(2) Section 170(a)(3) and this section have no application in respect of a transfer of an undivided present interest in property. For example, a contribution of an undivided one-quarter interest in a painting with respect to which the donee is entitled to possession during 3 months of each year shall be treated as made upon the receipt by the donee of a formally executed and acknowledged deed of gift. However, the period of initial possession by the donee may not be deferred in time for more than 1 year.

(3) Section 170(a)(3) and this section have no application in respect of a

transfer of a future interest in intangible personal property or in real property. However, a fixture which is intended to be severed from real property shall be treated as tangible personal property. For example, a contribution of a future interest in a chandelier which is attached to a building is considered a contribution which consists of a future interest in tangible personal property if the transferor intends that it be detached from the building at or prior to the time when the charitable organization's right to possession or enjoyment of the chandelier is to commence.

(4) For purposes of section 170(a)(3) and this section, the term *future interest* has generally the same meaning as it has when used in section 2503 and §25.2503–3 of this chapter (Gift Tax Regulations); it includes reversions, remainders, and other interests or estates, whether vested or contingent, and whether or not supported by a particular interest or estate, which are limited to commence in use, possession, or enjoyment at some future date or time. The term *future interest* includes situations in which a donor purports to give tangible personal property to a charitable organization, but has an understanding, arrangement, agreement, etc., whether written or oral, with the charitable organization which has the effect of reserving to, or retaining in, such donor a right to the use, possession, or enjoyment of the property.

(5) In the case of a charitable contribution of a future interest to which section 170(a)(3) and this section apply the other provisions of section 170 and the regulations thereunder are inapplicable to the contribution until such time as the contribution is treated as made under section 170(a)(3).

(b) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. On December 31, 1970, A, an individual who reports his income on the calendar year basis, conveys by deed of gift to a museum title to a painting, but reserves to himself the right to the use, possession, and enjoyment of the painting during his lifetime. It is assumed that there was no intention to avoid the application of section 170(f)(3)(A) by the conveyance. At the time of the gift the value of the painting is $90,000. Since the contribution consists of a future interest in tangible personal property in which the donor has retained an intervening interest, no contribution is considered to have been made in 1970.

Example 2. Assume the same facts as in *Example (1)* except that on December 31, 1971, A relinquishes all of his right to the use, possession, and enjoyment of the painting and delivers the painting to the museum. Assuming that the value of the painting has increased to $95,000, A is treated as having made a charitable contribution of $95,000 in 1971 for which a deduction is allowable without regard to section 170(f)(3)(A).

Example 3. Assume the same facts as in *Example (1)* except A dies without relinquishing his right to the use, possession, and enjoyment of the painting. Since A did not relinquish his right to the use, possession, and enjoyment of the property during his life, A is treated as not having made a charitable contribution of the painting for income tax purposes.

Example 4. Assume the same facts as in *Example (1)* except A, on December 31, 1971, transfers his interest in the painting to his son, B, who reports his income on the calendar year basis. Since the relationship between A and B is one described in section 267(b), no contribution of the remainder interest in the painting is considered to have been made in 1971.

Example 5. Assume the same facts as in *Example (4).* Also assume that on December 31, 1972, B conveys to the museum the interest measured by A's life. B has made a charitable contribution of the present interest in the painting conveyed to the museum. In addition, since all intervening interests in, and rights to the actual possession or enjoyment of the property, have expired, a charitable contribution of the remainder interest is treated as having been made by A in 1972 for which a deduction is allowable without regard to section 170(f)(3)(A). Such remainder interest is valued according to §20.2031–7A(c) of this chapter (estate tax regulations), determined by subtracting the value of B's interest measured by A's life expectancy in 1972, and B receives a deduction in 1972 for the life interest measured by A's life expectancy and valued according to Table A(1) in such section.

Example 6. On December 31, 1970, C, an individual who reports his income on the calendar year basis, transfers a valuable painting to a pooled income fund described in section 642(c)(5), which is maintained by a university. C retains for himself for life an income interest in the painting, the remainder interest in the painting being contributed to the university. Since the contribution consists of a future interest in tangible personal property in which the donor has retained an intervening interest, no charitable contribution is considered to have been made in 1970.

Example 7. On January 15, 1972, D, an individual who reports his income on the calendar year basis, transfers a capital asset held for more than 6 months consisting of a valuable painting to a pooled income fund described in section 642(c)(5), which is maintained by a university, and creates an income interest in such painting for E for life. E is an individual not standing in a relationship to D described in section 267(b). The remainder interest in the property is contributed by D to the university. The trustee of the pooled income fund puts the painting to an unrelated use within the meaning of paragraph (b)(3) of § 1.170A–4. Accordingly, D is allowed a deduction under section 170 in 1972 for the present value of the remainder interest in the painting, after reducing such amount under section 170 (e)(1)(B)(i) and paragraph (a)(2) of § 1.170A–4. This reduction in the amount of the contribution is required since under paragraph (b)(3) of that section the use by the pooled income fund of the painting is a use which would have been an unrelated use if it had been made by the university.

(c) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20779, Oct. 4, 1972, as amended by T.D. 8540, 59 FR 30102, June 10, 1994]

§ 1.170A–6 Charitable contributions in trust.

(a) *In general.* (1) No deduction is allowed under section 170 for the fair market value of a charitable contribution of any interest in property which is less than the donor's entire interest in the property and which is transferred in trust unless the transfer meets the requirements of paragraph (b) or (c) of this section. If the donor's entire interest in the property is transferred in trust and is contributed to a charitable organization described in section 170(c), a deduction is allowed under section 170. Thus, if on July 1, 1972, property is transferred in trust with the requirement that the income of the trust be paid for a term of 20 years to a church and thereafter the remainder be paid to an educational organization described in section 170(b)(1)(A), a deduction is allowed for the value of such property. See section 170(f)(2) and (3)(B), and paragraph (b)(1) of § 1.170A–7.

(2) A deduction is allowed without regard to this section for a contribution of a partial interest in property if such interest is the taxpayer's entire interest in the property, such as an income interest or a remainder interest. If, however, the property in which such partial interest exists was divided in order to create such interest and thus avoid section 170(f)(2), the deduction will not be allowed. Thus, for example, assume that a taxpayer desires to contribute to a charitable organization the reversionary interest in certain stocks and bonds which he owns. If the taxpayer transfers such property in trust with the requirement that the income of the trust be paid to his son for life and that the reversionary interest be paid to himself and immediately after creating the trust contributes the reversionary interest to a charitable organization, no deduction will be allowed under section 170 for the contribution of the taxpayer's entire interest consisting of the reversionary interest in the trust.

(b) *Charitable contribution of a remainder interest in trust*—(1) *In general.* No deduction is allowed under section 170 for the fair market value of a charitable contribution of a remainder interest in property which is less than the donor's entire interest in the property and which the donor transfers in trust unless the trust is:

(i) A pooled income fund described in section 642(c)(5) and § 1.642(c)–5,

(ii) A charitable remainder annuity trust described in section 664(d)(1) and § 1.664–2, or

(iii) A charitable remainder unitrust described in section 664(d)(2) and § 1.664–3.

(2) *Value of a remainder interest.* The fair market value of a remainder interest in a pooled income fund shall be computed under § 1.642(c)–6. The fair market value of a remainder interest in a charitable remainder annuity trust shall be computed under § 1.664–2. The fair market value of a remainder interest in a charitable remainder unitrust shall be computed under § 1.664–4. However, in some cases a reduction in the amount of a charitable contribution of the remainder interest may be required. See section 170(e) and § 1.170A–4.

(c) *Charitable contribution of an income interest in trust*—(1) *In general.* No deduction is allowed under section 170 for the fair market value of a charitable contribution of an income interest in property which is less than the donor's entire interest in the property and which the donor transfers in trust unless the income interest is either a guaranteed annuity interest or a unitrust interest, as defined in paragraph (c)(2) of this section, and the grantor is treated as the owner of such interest for purposes of applying section 671, relating to grantors and others treated as substantial owners. See section 4947(a)(2) for the application to such income interests in trust of the provisions relating to private foundations and section 508(e) for rules relating to provisions required in the governing instruments.

(2) *Definitions.* For purposes of this paragraph:

(i) *Guaranteed annuity interest.* (A) An income interest is a ''guaranteed annuity interest'', only if it is an irrevocable right pursuant to the governing instrument of the trust to receive a guaranteed annuity. A guaranteed annuity is an arrangement under which a determinable amount is paid periodically, but not less often than annually, for a specified term or for the life or lives of an individual or individuals, each of whom must be living at the date of transfer and can be ascertained at such date. For example, the annuity may be paid for the life of A plus a term of years. An amount is determinable if the exact amount which must be paid under the conditions specified in the governing instrument of the trust can be ascertained as of the date of transfer. For example, the amount to be paid may be a stated sum for a term, or for the life of an individual, at the expiration of which it may be changed by a specified amount, but it may not be redetermined by reference to a fluctuating index such as the cost of living index. In further illustration, the amount to be paid may be expressed in terms of a fraction or percentage of the cost of living index on the date of transfer.

(B) An income interest is a guaranteed annuity interest only if it is a guaranteed annuity interest in every respect. For example, if the income interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a guaranteed annuity interest.

(C) Where a charitable interest is in the form of a guaranteed annuity interest, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay the guaranteed annuity interest shall be paid to or for the use of a charitable organization. Nevertheless, the amount of the deduction under section 170(f)(2)(B) shall be limited to the fair market value of the guaranteed annuity interest as determined under paragraph (c)(3) of this section. For a rule relating to treatment by the grantor of any contribution made by the trust in excess of the amount required to pay the guaranteed annuity interest, see paragraph (d)(2)(ii) of this section.

(D) If the present value on the date of transfer of all the income interests for a charitable purpose exceeds 60 percent of the aggregate fair market value of all amounts in the trust (after the payment of liabilities), the income interest will not be considered a guaranteed annuity interest unless the governing instrument of the trust prohibits both the acquisition and the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired such assets. The requirement in this subdivision (D) for a prohibition in the governing instrument against the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired the assets shall not apply to a transfer in trust made on or before May 21, 1972.

(E) An income interest consisting of an annuity transferred in trust after May 21, 1972, will not be considered a guaranteed annuity interest if any amount other than an amount in payment of a guaranteed annuity interest may be paid by the trust for a private purpose before the expiration of all the income interests for a charitable purpose, unless such amount for a private purpose is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). The exception in the immediately preceding sentence with respect to any guaranteed annuity for a private purpose shall apply only if the obligation to pay the annuity for a charitable purpose begins as of the date of creation of the trust and the obligation to pay the guaranteed annuity for a private purpose does not precede in point of time the obligation to pay the annuity for a charitable purpose and only if the governing instrument of the trust does not provide for any preference or priority in respect of any payment of the guaranteed annuity for a private purpose as opposed to any payment of any annuity for a charitable purpose. For purposes of this subdivision (E), an amount is not paid for a private purpose if it is paid for an adequate and full consideration in money or money's worth. See § 53.4947–1 (c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

Example. In 1975, E transfers $75,000 in trust with the requirement that an annuity of $5,000 a year, payable annually at the end of each year, be paid to B, an individual, for a period of 5 years and thereafter an annuity of $5,000 a year, payable annually at the end of each year, be paid to M Charity for a period of 5 years. The remainder is to be paid to C, an individual. No deduction is allowed under subparagraph (1) of this paragraph with respect to the charitable annuity because it is not a ''guaranteed annuity interest'' within the meaning of this subdivision.

(F) For rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the guaranteed annuity interest is in trust and for rules governing payment of private income interests by a split-interest trust, see section 4947(a)(2) and (b)(3)(A), and the regulations thereunder.

(ii) *Unitrust interest.* (A) An income interest is a ''unitrust interest'' only if it is an irrevocable right pursuant to the governing instrument of the trust to receive payment, not less often than annually of a fixed percentage of the net fair market value of the trust assets, determined annually. In computing the net fair market value of the trust assets, all assets and liabilities shall be taken into account without regard to whether particular items are taken into account in determining the income of the trust. The net fair market value of the trust assets may be determined on any one date during the year or by taking the average of valuations made on more than one date during the year, provided that the same valuation date or dates and valuation methods are used each year. Where the governing instrument of the trust does not specify the valuation date or dates, the trustee shall select such date or dates and shall indicate his selection on the first return on Form 1041 which the trust is required to file. Payments under a unitrust interest may be paid for a specified term or for the life or lives of an individual or individuals, each of whom must be living at the date of transfer and can be ascertained at such date. For example, the unitrust interest may be paid for the life of A plus a term of years.

(B) An income interest is a unitrust interest only if it is a unitrust interest in every respect. For example, if the income interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a unitrust interest.

(C) Where a charitable interest is in the form of a unitrust interest, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay the unitrust interest shall be paid to or for the use of a charitable organization. Nevertheless, the amount of the deduction under section 170(f)(2)(B) shall be limited to the fair market value of the unitrust interest as determined under paragraph (c)(3) of this section. For a rule relating to treatment by the grantor of any contribution made by the trust in excess of the amount required to pay the unitrust interest, see paragraph (d)(2)(ii) of this section.

(D) An income interest in the form of a unitrust interest will not be considered a unitrust interest if any amount other than an amount in payment of a unitrust interest may be paid by the trust for a private purpose before the expiration of all the income interests for a charitable purpose, unless such amount for a private purpose is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947 (a)(2)(B). The exception in the immediately preceding sentence with respect to any unitrust interest for a private purpose shall apply only if the obligation to pay the unitrust interest for a charitable purpose begins as of the date of creation of the trust and the obligation to pay the unitrust interest for a private purpose does not precede in point of time the obligation to pay the unitrust interest for a charitable purpose and only if the governing instrument of the trust does not provide for any preference or priority in respect of any payment of the unitrust interest for a private purpose as opposed to any payments of any unitrust interest for a charitable purpose. For purposes of this subdivision (D), an amount is not paid for a private purpose if it is paid for an adequate and full consideration in money or money's worth. See §53.4947–1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(E) For rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the unitrust interest is in trust and for rules governing payment of private income interests by a split-interest trust, see section 4947(a)(2) and (b)(3)(A), and the regulations thereunder.

(3) *Valuation of income interest.* (i) The deduction allowed by section 170(f)(2)(B) for a charitable contribution of a guaranteed annuity interest is limited to the fair market value of such interest on the date of contribution, as computed under §20.2031–7 or, for certain prior periods, 20.2031–7A of this chapter (Estate Tax Regulations).

(ii) The deduction allowed under section 170(f)(2)(B) for a charitable contribution of a unitrust interest is limited to the fair market value of the unitrust interest on the date of contribution. The fair market value of the unitrust interest shall be determined by subtracting the present value of all interests in the transferred property other than the unitrust interest from the fair market value of the transferred property.

(iii) If by reason of all the conditions and circumstances surrounding a transfer of an income interest in property in trust it appears that the charity may not receive the beneficial enjoyment of the interest, a deduction will be allowed under paragraph (c)(1) of this section only for the minimum amount it is evident the charity will receive. The application of this subdivision may be illustrated by the following examples:

Example 1. In 1972, B transfers $20,000 in trust with the requirement that M Church be paid a guaranteed annuity interest (as defined in subparagraph (2)(i) of this paragraph) of $4,000, payable annually at the end of each year for 9 years, and that the residue revert to himself. Since the fair market value of an annuity of $4,000 a year for a period of 9 years, as determined under §20.2031–7A(c) of this chapter, is $27,206.80 ($4,000 × 6.8017), it appears that M will not receive the beneficial enjoyment of the income interest. Accordingly, even though B is treated as the owner of the trust under section 673, he is allowed a deduction under subparagraph (1) of this paragraph for only $20,000, which is the minimum amount it is evident M will receive.

Example 2. In 1975, C transfers $40,000 in trust with the requirement that D, an individual, and X Charity be paid simultaneously guaranteed annuity interests (as defined in subparagraph (2)(i) of this paragraph) of $5,000 a year each, payable annually at the end of each year, for a period of 5 years and that the remainder be paid to C's children. The fair market value of two annuities of $5,000 each a year for a period of 5 years is $42,124 ([$5,000 × 4.2124] × 2), as determined under §20.2031–7A(c) of this chapter. The trust instrument provides that in the event the trust fund is insufficient to pay both annuities in a given year, the trust fund will be evenly divided between the charitable and private annuitants. The deduction under subparagraph (1) of this paragraph with respect to the charitable annuity will be limited to $20,000, which is the minimum amount it is evident X will receive.

Example 3. In 1975, D transfers $65,000 in trust with the requirement that a guaranteed annuity interest (as defined in subparagraph (2)(i) of this paragraph) of $5,000 a year, payable annually at the end of each year, be paid to Y Charity for a period of 10 years and that a guaranteed annuity interest (as defined in subparagraph (2)(i) of this paragraph) of $5,000 a year, payable annually at the end of each year, be paid to W, his wife, aged 62, for 10 years or until her prior death. The annuities are to be paid simultaneously, and the remainder is to be paid to D's children. The fair market value of the private annuity is $33,877 ($5,000 × 6.7754), as determined pursuant to § 20.2031–7A(c) of this chapter and by the use of factors involving one life and a term of years as published in Publication 723A (12–70). The fair market value of the charitable annuity is $36,800.50 ($5,000 × 7.3601), as determined under § 20.2031–7A(c) of this chapter. It is not evident from the governing instrument of the trust or from local law that the trustee would be required to apportion the trust fund between the wife and charity in the event the fund were insufficient to pay both annuities in a given year. Accordingly, the deduction under subparagraph (1) of this paragraph with respect to the charitable annuity will be limited to $31,123 ($65,000 less $33,877 [the value of the private annuity]), which is the minimum amount it is evident Y will receive.

(iv) See paragraph (b)(1) of § 1.170A–4 for rule that the term *ordinary income property* for purposes of section 170(e) does not include an income interest in respect of which a deduction is allowed under section 170(f)(2)(B) and this paragraph.

(4) *Recapture upon termination of treatment as owner.* If for any reason the donor of an income interest in property ceases at any time before the termination of such interest to be treated as the owner of such interest for purposes of applying section 671, as for example, where he dies before the termination of such interest, he shall for purposes of this chapter be considered as having received, on the date he ceases to be so treated, an amount of income equal to (i) the amount of any deduction he was allowed under section 170 for the contribution of such interest reduced by (ii) the discounted value of all amounts which were required to be, and actually were, paid with respect to such interest under the terms of trust to the charitable organization before the time at which he ceases to be treated as the owner of the interest. The discounted value of the amounts described in subdivision (ii) of this subparagraph shall be computed by treating each such amount as a contribution of a remainder interest after a term of years and valuing such amount as of the date of contribution of the income interest by the donor, such value to be determined under § 20.2031–7 of this chapter consistently with the manner in which the fair market value of the income interest was determined pursuant to subparagraph (3)(i) of this paragraph. The application of this subparagraph will not be construed to disallow a deduction to the trust for amounts paid by the trust to the charitable organization after the time at which the donor ceased to be treated as the owner of the trust.

(5) *Illustrations.* The application of this paragraph may be illustrated by the following examples:

Example 1. On January 1, 1970, A contributes to a church in trust a 9-year irrevocable income interest in property. Both A and the trust report income on a calendar year basis. The fair market value of the property placed in trust is $10,000. The trust instrument provides that the church will receive an annuity of $500, payable annually at the end of each year for 9 years. The income interest is a guaranteed annuity interest as defined in subparagraph (2)(i) of this paragraph; upon termination of such interest the residue of the trust is to revert to A. By reference to § 20.2031–7A(c) of this chapter, it is found that the figure in column (2) opposite 9 years is 6.8017. The present value of the annuity is therefore $3,400.85 ($500 × 6.8017). The present value of the income interest and A's charitable contribution for 1970 is $3,400.85.

Example 2. (a) On January 1, 1970, B contributes to a church in trust a 9-year irrevocable income interest in property. Both B and the trust report income on a calendar year basis. The fair market value of the property placed in trust is $10,000. The trust instrument provides that the trust will pay to the church at the end of each year for 9 years 5 percent of the fair market value of all property in the trust at the beginning of the year. The income interest is a unitrust interest as defined in subparagraph (2)(ii) of this paragraph; upon termination of such interest the residue of the trust is to revert to B.

(b) By reference to Table F in § 1.664–4 (b)(5), the adjusted payout rate is 4.717 percent (5 percent × 0.943396). The present value of the reversion is $6,473.75, computed by reference to Table D in § 1.664–4A(c), as follows:

Factor at 4.6 percent for 9 years	0.654539

Factor at 4.8 percent for 9 years	.642292
Difference	.012247
Interpolation adjustment:	

4.717%−4.6%/0.2%=×/0.012247
×=0.007164

Factor at 4.6 percent for 9 years	.654539
Less: Interpolation adjustment	.007164
Interpolated factor	.647375
Present value of reversion ($10,000×0.647375)	$6,473.75

(c) The present value of the income interest and B's charitable contribution for 1970 is $3,526.25 ($10,000−$6,473.75).

Example 3. (a) On January 1, 1970, C contributes to a church in trust a 9-year irrevocable income interest in property. Both C and the trust report income on a calendar year basis. The fair market value of the property placed in trust is $10,000. The trust instrument provides that the church will receive an annuity of $500, payable annually at the end of each year for 9 years. The income interest is a guaranteed annuity interest as defined in subparagraph (2)(i) of this paragraph; upon termination of such interest the residue of the trust is to revert to C. C's charitable contribution for 1970 is $3,400.85, determined as provided in *Example (1)*. The trust earns income of $600 in 1970, $400 in 1971, and $500 in 1972, all of which is taxable to C under section 671. The church is paid $500 at the end of 1970, 1971, and 1972, respectively. On December 31, 1972, C dies and ceases to be treated as the owner of the income interest under section 673.

(b) Pursuant to subparagraph (4) of this paragraph, the discounted value as of January 1, 1970, of the amounts paid to the church by the trust is $1,336.51, determined by reference to column (4) of §20.2031–7A(c) of this chapter, as follows:

Annuity	Amount paid	Years from Jan. 1, 1970, to payment date	Discount factor	Discount value as of Jan. 1, 1970
Payment date				
Dec. 31, 1970	$500	1	0.943396	$471.70
Dec. 31, 1971	500	2	.889996	445.00
Dec. 31, 1972	500	3	.839619	419.81
Total discounted value	....	....	....	1,336.51

(c) Pursuant to subparagraph (4) of this paragraph, there must be included in C's gross income for 1972 the amount of $2,064.34 ($3,400.85 less $1,336.51).

(d) For deduction by the trust for amounts paid to the church after December 31, 1972, see section 642(c)(1) and the regulations thereunder.

(d) *Denial of deduction for certain contributions by a trust.* (1) If by reason of section 170(f)(2)(B) and paragraph (c) of this section a charitable contributions deduction is allowed under section 170 for the fair market value of an income interest transferred in trust, neither the grantor of the income interest, the trust, nor any other person shall be allowed a deduction under section 170 or any other section for the amount of any charitable contribution made by the trust with respect to, or in fulfillment of, such income interest.

(2) Section 170(f)(2)(C) and subparagraph (1) of this paragraph shall not be construed, however, to:

(i) Disallow a deduction to the trust, pursuant to section 642(c)(1) and the regulations thereunder, for amounts paid by the trust after the grantor ceases to be treated as the owner of the income interest for purposes of applying section 671 and which are not taken into account in determining the amount of recapture under paragraph (c)(4) of this section, or

(ii) Disallow a deduction to the grantor under section 671 and §1.671–2(c) for a charitable contribution made by the trust in excess of the contribution required to be made by the trust under the terms of the trust instrument with respect to, or in fulfillment of, the income interest.

(3) Although a deduction for the fair market value of an income interest in property which is less than the donor's entire interest in the property and which the donor transfers in trust is disallowed under section 170 because such interest is not a guaranteed annuity interest, or a unitrust interest, as defined in paragraph (c)(2) of this section, the donor may be entitled to a deduction under section 671 and §1.671–2(c) for any charitable contributions made by the trust if he is treated as the owner of such interest for purposes of applying section 671.

(e) *Effective date.* This section applies only to transfers in trust made after July 31, 1969.

(83 Stat. 544, 26 U.S.C. 170(f)(4); 83 Stat. 560, 26 U.S.C. 642(c)(5); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7207, 37 FR 20780, Oct. 5, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7340, 40 FR 1238, Jan. 7, 1975; T.D. 7955, 49 FR 19975, May 11, 1984; T.D. 8540, 59 FR 30102, June 10, 1994]

§ 1.170A–7 Contributions not in trust of partial interests in property.

(a) *In general.* (1) In the case of a charitable contribution, not made by a transfer in trust, of any interest in property which consists of less than the donor's entire interest in such property, no deduction is allowed under section 170 for the value of such interest unless the interest is an interest described in paragraph (b) of this section. See section 170(f)(3)(A). For purposes of this section, a contribution of the right to use property which the donor owns, for example, a rent-free lease, shall be treated as a contribution of less than the taxpayer's entire interest in such property.

(2)(i) A deduction is allowed without regard to this section for a contribution of a partial interest in property if such interest is the taxpayer's entire interest in the property, such as an income interest or a remainder interest. Thus, if securities are given to A for life, with the remainder over to B, and B makes a charitable contribution of his remainder interest to an organization described in section 170(c), a deduction is allowed under section 170 for the present value of B's remainder interest in the securities. If, however, the property in which such partial interest exists was divided in order to create such interest and thus avoid section 170(f)(3)(A), the deduction will not be allowed. Thus, for example, assume that a taxpayer desires to contribute to a charitable organization an income interest in property held by him, which is not of a type described in paragraph (b)(2) of this section. If the taxpayer transfers the remainder interest in such property to his son and immediately thereafter contributes the income interest to a charitable organization, no deduction shall be allowed under section 170 for the contribution of the taxpayer's entire interest consisting of the retained income interest. In further illustration, assume that a taxpayer desires to contribute to a charitable organization the reversionary interest in certain stocks and bonds held by him, which is not of a type described in paragraph (b)(2) of this section. If the taxpayer grants a life estate in such property to his son and immediately thereafter contributes the reversionary interest to a charitable organization, no deduction will be allowed under section 170 for the contribution of the taxpayer's entire interest consisting of the reversionary interest.

(ii) A deduction is allowed without regard to this section for a contribution of a partial interest in property if such contribution constitutes part of a charitable contribution not in trust in which all interests of the taxpayer in the property are given to a charitable organization described in section 170(c). Thus, if on March 1, 1971, an income interest in property is given not in trust to a church and the remainder interest in the property is given not in trust to an educational organization described in section 170(b)(1)(A), a deduction is allowed for the value of such property.

(3) A deduction shall not be disallowed under section 170(f)(3)(A) and this section merely because the interest which passes to, or is vested in, the charity may be defeated by the performance of some act or the happening of some event, if on the date of the gift it appears that the possibility that such act or event will occur is so remote as to be negligible. See paragraph (e) of § 1.170A–1.

(b) *Contributions of certain partial interests in property for which a deduction is allowed.* A deduction is allowed under section 170 for a contribution not in trust of a partial interest which is less than the donor's entire interest in property and which qualifies under one of the following subparagraphs:

(1) *Undivided portion of donor's entire interest.* (i) A deduction is allowed under section 170 for the value of a charitable contribution not in trust of an undivided portion of a donor's entire interest in property. An undivided portion of a donor's entire interest in

property must consist of a fraction or percentage of each and every substantial interest or right owned by the donor in such property and must extend over the entire term of the donor's interest in such property and in other property into which such property is converted. For example, assuming that in 1967 B has been given a life estate in an office building for the life of A and that B has no other interest in the office building, B will be allowed a deduction under section 170 for his contribution in 1972 to charity of a one-half interest in such life estate in a transfer which is not made in trust. Such contribution by B will be considered a contribution of an undivided portion of the donor's entire interest in property. In further illustration, assuming that in 1968 C has been given the remainder interest in a trust created under the will of his father and C has no other interest in the trust, C will be allowed a deduction under section 170 for his contribution in 1972 to charity of a 20-percent interest in such remainder interest in a transfer which is not made in trust. Such contribution by C will be considered a contribution of an undivided portion of the donor's entire interest in property. If a taxpayer owns 100 acres of land and makes a contribution of 50 acres to a charitable organization, the charitable contribution is allowed as a deduction under section 170. A deduction is allowed under section 170 for a contribution of property to a charitable organization whereby such organization is given the right, as a tenant in common with the donor, to possession, dominion, and control of the property for a portion of each year appropriate to its interest in such property. However, for purposes of this subparagraph a charitable contribution in perpetuity of an interest in property not in trust where the donor transfers some specific rights and retains other substantial rights will not be considered a contribution of an undivided portion of the donor's entire interest in property to which section 170(f)(3)(A) does not apply. Thus, for example, a deduction is not allowable for the value of an immediate and perpetual gift not in trust of an interest in original historic motion picture films to a charitable organization where the donor retains the exclusive right to make reproductions of such films and to exploit such reproductions commercially.

(ii) With respect to contributions made on or before December 17, 1980, for purposes of this subparagraph a charitable contribution of an open space easement in gross in perpetuity shall be considered a contribution of an undivided portion of the donor's entire interest in property to which section 170(f)(3)(A) does not apply. For this purpose an easement in gross is a mere personal interest in, or right to use, the land of another; it is not supported by a dominant estate but is attached to, and vested in, the person to whom it is granted. Thus, for example, a deduction is allowed under section 170 for the value of a restrictive easement gratuitously conveyed to the United States in perpetuity whereby the donor agrees to certain restrictions on the use of his property, such as, restrictions on the type and height of buildings that may be erected, the removal of trees, the erection of utility lines, the dumping of trash, and the use of signs. For the deductibility of a qualified conservation contribution, see §1.170A–14.

(2) *Partial interests in property which would be deductible in trust.* A deduction is allowed under section 170 for the value of a charitable contribution not in trust of a partial interest in property which is less than the donor's entire interest in the property and which would be deductible under section 170(f)(2) and §1.170A–6 if such interest had been transferred in trust.

(3) *Contribution of a remainder interest in a personal residence.* A deduction is allowed under section 170 for the value of a charitable contribution not in trust of an irrevocable remainder interest in a personal residence which is not the donor's entire interest in such property. Thus, for example, if a taxpayer contributes not in trust to an organization described in section 170(c) a remainder interest in a personal residence and retains an estate in such property for life or for a term of years, a deduction is allowed under section 170 for the value of such remainder interest not transferred in trust. For purposes of section 170(f)(3)(B)(i) and this

subparagraph, the term *personal residence* means any property used by the taxpayer as his personal residence even though it is not used as his principal residence. For example, the taxpayer's vacation home may be a personal residence for purposes of this subparagraph. The term *personal residence* also includes stock owned by a taxpayer as a tenant-stockholder in a cooperative housing corporation (as those terms are defined in section 216(b) (1) and (2)) if the dwelling which the taxpayer is entitled to occupy as such stockholder is used by him as his personal residence.

(4) *Contribution of a remainder interest in a farm.* A deduction is allowed under section 170 for the value of a charitable contribution not in trust of an irrevocable remainder interest in a farm which is not the donor's entire interest in such property. Thus, for example, if a taxpayer contributes not in trust to an organization described in section 170(c) a remainder interest in a farm and retains an estate in such farm for life or for a term of years, a deduction is allowed under section 170 for the value of such remainder interest not transferred in trust. For purposes of section 170(f)(3)(B)(i) and this subparagraph, the term *farm* means any land used by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. A farm includes the improvements thereon.

(5) *Qualified conservation contribution.* A deduction is allowed under section 170 for the value of a qualified conservation contribution. For the definition of a qualified conservation contribution, see § 1.170A–14.

(c) *Valuation of a partial interest in property.* Except as provided in § 1.170A–14, the amount of the deduction under section 170 in the case of a charitable contribution of a partial interest in property to which paragraph (b) of this section applies is the fair market value of the partial interest at the time of the contribution. See § 1.170A–1(c). The fair market value of such partial interest must be determined in accordance with § 20.2031–7, of this chapter (Estate Tax Regulations), except that, in the case of a charitable contribution of a remainder interest in real property which is not transferred in trust, the fair market value of such interest must be determined in accordance with section 170(f)(4) and § 1.170A–12. In the case of a charitable contribution of a remainder interest in the form of a remainder interest in a pooled income fund, a charitable remainder annuity trust, or a charitable remainder unitrust, the fair market value of the remainder interest must be determined as provided in paragraph (b)(2) of § 1.170A–6. However, in some cases a reduction in the amount of a charitable contribution of the remainder interest may be required. See section 170(e) and paragraph (a) of § 1.170A–4.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. A, an individual owning a 10-story office building, donates the rent-free use of the top floor of the building for the year 1971 to a charitable organization. Since A's contribution consists of a partial interest to which section 170(f)(3)(A) applies, he is not entitled to a charitable contributions deduction for the contribution of such partial interest.

Example 2. In 1971, B contributes to a charitable organization an undivided one-half interest in 100 acres of land, whereby as tenants in common they share in the economic benefits from the property. The present value of the contributed property is $50,000. Since B's contribution consists of an undivided portion of his entire interest in the property to which section 170(f)(3)(B) applies, he is allowed a deduction in 1971 for his charitable contribution of $50,000.

Example 3. In 1971, D loans $10,000 in cash to a charitable organization and does not require the organization to pay any interest for the use of the money. Since D's contribution consists of a partial interest to which section 170(f)(3)(A) applies, he is not entitled to a charitable contributions deduction for the contribution of such partial interest.

(e) *Effective date.* This section applies only to contributions made after July 31, 1969. The deduction allowable under § 1.170A–7(b)(1)(ii) shall be available only for contributions made on or before December 17, 1980. Except as otherwise provided in § 1.170A–14(g)(4)(ii), the deduction allowable under § 1.170A–

7(b)(5) shall be available for contributions made on or after December 18, 1980.

(83 Stat. 544, 26 U.S.C. 170(f)(4); 83 Stat. 560, 26 U.S.C. 642(c)(5); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7207, 37 FR 20782, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972; as amended by T.D. 7955, 49 FR 19975, May 11, 1984; T.D. 8069, 51 FR 1498, Jan. 14, 1986; T.D. 8540, 59 FR 30102, June 10, 1994]

§1.170A–8 Limitations on charitable deductions by individuals.

(a) *Percentage limitations*—(1) *In general.* An individual's charitable contributions deduction is subject to 20-, 30-, and 50-percent limitations unless the individual qualifies for the unlimited charitable contributions deduction under section 170(b)(1)(C). For a discussion of these limitations and examples of their application, see paragraphs (b) through (f) of this section. If a husband and wife make a joint return, the deduction for contributions is the aggregate of the contributions made by the spouses, and the limitations in section 170(b) and this section are based on the aggregate contribution base of the spouses. A charitable contribution by an individual to or for the use of an organization described in section 170(c) may be deductible even though all, or some portion, of the funds of the organization may be used in foreign countries for charitable or educational purposes.

(2) *''To'' or ''for the use of'' defined.* For purposes of section 170, a contribution of an income interest in property, whether or not such contributed interest is transferred in trust, for which a deduction is allowed under section 170(f)(2)(B) or (3)(A) shall be considered as made ''for the use of'' rather than ''to'' the charitable organization. A contribution of a remainder interest in property, whether or not such contributed interest is transferred in trust, for which a deduction is allowed under section 170(f)(2)(A) or (3)(A), shall be considered as made ''to'' the charitable organization except that, if such interest is transferred in trust and, pursuant to the terms of the trust instrument, the interest contributed is, upon termination of the predecessor estate, to be held in trust for the benefit of such organization, the contribution shall be considered as made ''for the use of'' such organization. Thus, for example, assume that A transfers property to a charitable remainder annuity trust described in section 664(d)(1) which is required to pay to B for life an annuity equal to 5 percent of the initial fair market value of the property transferred in trust. The trust instrument provides that after B's death the remainder interest in the trust is to be transferred to M Church or, in the event M Church is not an organization described in section 170(c) when the amount is to be irrevocably transferred to such church, to an organization which is described in section 170(c) at that time. The contribution by A of the remainder interest shall be considered as made ''to'' M Church. However, if in the trust instrument A had directed that after B's death the remainder interest is to be held in trust for the benefit of M Church, the contribution shall be considered as made ''for the use of'' M Church. This subparagraph does not apply to the contribution of a partial interest in property, or of an undivided portion of such partial interest, if such partial interest is the donor's entire interest in the property and such entire interest was not created to avoid section 170(f)(2) or (3)(A). See paragraph (a)(2) of §1.170A–6 and paragraphs (a)(2)(i) and (b)(1) of §1.170A–7.

(b) *50-percent limitation.* An individual may deduct charitable contributions made during a taxable year to any one or more section 170(b)(1)(A) organizations, as defined in §1.170A–9, to the extent that such contributions in the aggregate do not exceed 50 percent of his contribution base, as defined in section 170(b)(1)(F) and paragraph (e) of this section, for the taxable year. However, see paragraph (d) of this section for a limitation on the amount of charitable contributions of 30-percent capital gain property. To qualify for the 50-percent limitation the contributions must be made ''to,'' and not merely ''for the use of,'' one of the specified organizations. A contribution to an organization referred to in section 170(c)(2), other than a section 170(b)(1)(A) organization, will not qualify for the 50-percent limitation even though such organization makes the contribution available to an organization which is a section 170 (b)(1)(A) organization. For provisions relating to the carryover of contributions in excess of 50-percent of an individual's contribution base see section 170(d)(1) and paragraph (b) of § 1.170A–10.

(c) *20-percent limitation.* (1) An individual may deduct charitable contributions made during a taxable year:

(i) To any one or more charitable organizations described in section 170(c) other than section 170(b)(1)(A) organizations, as defined in § 1.170A–9, and,

(ii) For the use of any charitable organization described in section 170(c), to the extent that such contributions in the aggregate do not exceed the lesser of the limitations under subparagraph (2) of this paragraph.

(2) For purposes of subparagraph (1) of this paragraph the limitations are:

(i) 20 percent of the individual's contribution base, as defined in paragraph (e) of this section, for the taxable year, or

(ii) The excess of 50 percent of the individual's contribution base, as so defined, for the taxable year over the total amount of the charitable contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section, determined by first reducing the amount of such contributions under section 170(e)(1) and paragraph (a) of § 1.170A–4 but without applying the 30-percent limitation under section 170(b)(1)(D)(i) and paragraph (d)(1) of this section.

However, see paragraph (d) of this section for a limitation on the amount of charitable contributions of 30-percent capital gain property. If an election under section 170(b)(1)(D)(iii) and paragraph (d)(2) of this section applies to any contributions of 30-percent capital gain property made during the taxable year or carried over to the taxable year, the amount allowed for the taxable year under paragraph (b) of this section with respect to such contributions for purposes of applying subdivision (ii) of this subparagraph shall be the reduced amount of such contributions determined by applying paragraph (d)(2) of this section.

(d) *30-percent limitation*—(1) *In general.* An individual may deduct charitable contributions of 30-percent capital gain property, as defined in subparagraph (3) of this paragraph, made during a taxable year to or for the use of any charitable organization described in section 170(c) to the extent that such contributions in the aggregate do not exceed 30-percent of his contribution base, as defined in paragraph (e) of this section, subject, however, to the 50- and 20-percent limitations prescribed by paragraphs (b) and (c) of this section. For purposes of applying the 50-percent and 20-percent limitations described in paragraphs (b) and (c) of this section, charitable contributions of 30-percent capital gain property paid during the taxable year, and limited as provided by this subparagraph, shall be taken into account after all other charitable contributions paid during the taxable year. For provisions relating to the carryover of certain contributions of 30-percent capital gain property in excess of 30-percent of an individual's contribution base, see section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A–10.

(2) *Election by an individual to have section 170(e)(1)(B) apply to contributions*—(i) *In general.* (A) An individual may elect under section 170(b)(1)(D)(iii) for any taxable year to have the reduction rule of section 170(e)(1)(B) and paragraph (a) of § 1.170A–4 apply to all his charitable contributions of 30-percent capital gain property made during such taxable year or carried over to such taxable year from a taxable year beginning after December 31, 1969. If such election is made such contributions shall be treated as contributions of section 170(e) capital gain property in accordance with paragraph (b)(2)(iii) of § 1.170A–4. The election may be made with respect to contributions of 30-percent capital gain property carried over to the taxable year even though the individual has not made any contribution of 30-percent capital gain property in such year. If such an election is made, section 170(b)(1)(D) (i) and (ii) and subparagraph (1) of this paragraph shall not apply to such contributions made during such year. However, such contributions must be reduced as required under section 170(e)(1)(B) and paragraph (a) of § 1.170A–4.

(B) If there are carryovers to such taxable year of charitable contributions of 30-percent capital gain property made in preceding taxable years beginning after December 31, 1969, the amount of such contributions in each such preceding year shall be reduced as if section 170(e)(1)(B) had applied to them in the preceding year and shall be carried over to the taxable year and succeeding taxable years under section 170(d)(1) and paragraph (b) of §1.170A–10 as contributions of property other than 30-percent capital gain property. For purposes of applying the immediately preceding sentence, the percentage limitations under section 170(b) for the preceding taxable year and for any taxable years intervening between such year and the year of the election shall not be redetermined and the amount of any deduction allowed for such years under section 170 in respect of the charitable contributions of 30-percent capital gain property in the preceding taxable year shall not be redetermined. However, the amount of the deduction so allowed under section 170 in the preceding taxable year must be subtracted from the reduced amount of the charitable contributions made in such year in order to determine the excess amount which is carried over from such year under section 170(d)(1). If the amount of the deduction so allowed in the preceding taxable year equals or exceeds the reduced amount of the charitable contributions, there shall be no carryover from such year to the year of the election.

(C) An election under this subparagraph may be made for each taxable year in which charitable contributions of 30-percent capital gain property are made or to which they are carried over under section 170(b)(1)(D)(ii). If there are also carryovers under section 170(d)(1) to the year of the election by reason of an election made under this subparagraph for a previous taxable year, such carryovers under section 170(d)(1) shall not be redetermined by reason of the subsequent election.

(ii) *Husband and wife making joint return.* If a husband and wife make a joint return of income for a contribution year and one of the spouses elects under this subparagraph in a later year when he files a separate return, or if a spouse dies after a contribution year for which a joint return is made, any excess contribution of 30-percent capital gain property which is carried over to the election year from the contribution year shall be allocated between the husband and wife as provided in paragraph (d)(4) (i) and (iii) of §1.170A–10. If a husband and wife file separate returns in a contribution year, any election under this subparagraph in a later year when a joint return is filed shall be applicable to any excess contributions of 30-percent capital gain property of either taxpayer carried over from the contribution year to the election year. The immediately preceding sentence shall also apply where two single individuals are subsequently married and file a joint return. A remarried individual who filed a joint return with his former spouse for a contribution year and thereafter files a joint return with his present spouse shall treat the carryover to the election year as provided in paragraph (d)(4)(ii) of §1.170A–10.

(iii) *Manner of making election.* The election under subdivision (i) of this subparagraph shall be made by attaching to the income tax return for the election year a statement indicating that the election under section 170(b)(1)(D)(iii) and this subparagraph is being made. If there is a carryover to the taxable year of any charitable contributions of 30-percent capital gain property from a previous taxable year or years, the statement shall show a recomputation, in accordance with this subparagraph and §1.170A–4, of such carryover, setting forth sufficient information with respect to the previous taxable year or any intervening year to show the basis of the recomputation. The statement shall indicate the district director, or the director of the internal revenue service center, with whom the return for the previous taxable year or years was filed, the name or names in which such return or returns were filed, and whether each such return was a joint or separate return.

(3) *30-percent capital gain property defined.* If there is a charitable contribution of a capital asset which, if it were sold by the donor at its fair market value at the time of its contribution, would result in the recognition of gain

all, or any portion, of which would be long-term capital gain and if the amount of such contribution is not required to be reduced under section 170(e)(1)(B) and § 1.170A–4(a)(2), such capital asset shall be treated as ''30-percent capital gain property'' for purposes of section 170 and the regulations thereunder. For such purposes any property which is property used in the trade or business, as defined in section 1231(b), shall be treated as a capital asset. However, see paragraph (b)(4) of § 1.170A–4. For the treatment of such property as section 170(e) capital gain property, see paragraph (b)(2)(iii) of § 1.170A–4.

(e) *Contribution base defined.* For purposes of section 170 the term *contribution base* means adjusted gross income under section 62, computed without regard to any net operating loss carryback to the taxable year under section 172. See section 170(b)(1)(F).

(f) *Illustrations.* The application of this section may be illustrated by the following examples:

Example 1. B, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. During 1970 he makes charitable contributions of $70,000 in cash, of which $40,000 is given to section 170(b)(1)(A) organizations and $30,000 is given to other organizations described in section 170(c). Accordingly, B is allowed a charitable contributions deduction of $50,000 (50% of $100,000), which consists of the $40,000 contributed to section 170(b)(1)(A) organizations and $10,000 of the $30,000 contributed to the other organizations. Under paragraph (c) of this section, only $10,000 of the $30,000 contributed to the other organizations is allowed as a deduction since such contribution of $30,000 is allowed to the extent of the lesser of $20,000 (20% of $100,000) or $10,000 ([50% of $100,000]−$40,000 (contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section)). Under section 170 (b)(1)(D)(ii) and (d)(1) and § 1.170A–10, B is not allowed a carryover to 1971 or to any other taxable year for any of the $20,000 ($30,000−$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 2. C, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. During 1970 he makes charitable contributions of $40,000 in 30-percent capital gain property to section 170(b)(1)(A) organizations and of $30,000 in cash to other organizations described in section 170(c). The 20-percent limitation in section 170(b)(1)(B) and paragraph (c) of this section is applied before the 30-percent limitation in section 170(b)(1)(D)(i) and paragraph (d) of this section; accordingly section 170(b)(1)(B)(ii) limits the deduction for the $30,000 cash contribution to $10,000 ([50% of $100,000]− $40,000). The amount of the contribution of 30-percent capital gain property is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to $30,000 (30% of $100,000). Accordingly, C's charitable contributions deduction for 1970 is limited to $40,000 ($10,000+$30,000). Under section 170 (b)(1)(D)(ii) and paragraph (c) of § 1.170A–10, C is allowed a carryover to 1971 of $10,000 ($40,000−$30,000) in respect of his contributions of 30-percent capital gain property. C is not allowed a carryover to 1971 or to any other taxable year for any of the $20,000 cash ($30,000−$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 3. (a) D, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. During 1970 he makes charitable contributions of $70,000 in cash, of which $40,000 is given to section 170(b)(1)(A) organizations and $30,000 is given to other organizations described in section 170(c). During 1971 D makes charitable contributions to a section 170(b)(1)(A) organization of $12,000, consisting of cash of $1,000 and $11,000 in 30-percent capital gain property. His contribution base for 1971 is $10,000.

(b) For 1970, D is allowed a charitable contributions deduction of $50,000 (50% of $100,000), which consists of the $40,000 contributed to section 170(b)(1)(A) organizations and $10,000 of the $30,000 contributed to the other organizations. Under paragraph (c) of this section, only $10,000 of the $30,000 contributed to the other organizations is allowed as a deduction since such contribution of $30,000 is allowed to the extent of the lesser of $20,000 (20% of $100,000) or $10,000 ([50% of $100,000]−$40,000 (contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section)). D is not allowed a carryover to 1971 or to any other taxable year for any of the $20,000 ($30,000−$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(c) For 1971, D is allowed a charitable contributions deduction of $4,000, consisting of $1,000 cash and $3,000 of the 30-percent capital gain property (30% of $10,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A–10, D is allowed a carryover to 1972 of $8,000 ($11,000−$3,000) in respect of his contribution of 30-percent capital gain property in 1971.

Example 4. (a) E, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. During 1970 he makes charitable contributions of $70,000 in cash, of which $40,000 is given to section 170(b)(1)(A) organizations and $30,000 is given to other organizations described in section 170(c). During 1971 E makes charitable contributions to a section 170(b)(1)(A) organization of $14,000 consisting of cash of $3,000 and $11,000 in 30-percent capital gain property. His contribution base for 1971 is $10,000.

(b) For 1970, E is allowed a charitable contributions deduction of $50,000 (50% of $100,000), which consists of the $40,000 contributed to section 170(b)(1)(A) organizations and $10,000 of the $30,000 contributed to the other organizations. Under paragraph (c) of this section, only $10,000 of the $30,000 contributed to the other organizations is allowed as a deduction since such contribution of $30,000 is allowed to the extent of the lesser of $20,000 (20% of $100,000) or ($10,000 ([50% of $100,000]−$40,000 (contributions allowed under section 170(b)(1)(A) and paragraph (b) of this section)). E is not allowed a carryover to 1971 or to any other taxable year for any of the $20,000 ($30,000−$10,000) not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(c) For 1971, E is allowed a charitable contributions deduction of $5,000 (50% of $10,000), consisting of $3,000 cash and $2,000 of the $3,000 (30% of $10,000) 30-percent capital gain property which is taken into account. This result is reached because, as provided in section 170(b)(1)(D)(i) and paragraph (d)(1) of this section, cash contributions are taken into account before charitable contributions of 30-percent capital gain property. Under section 170(b)(1)(D)(ii) and (d)(1) and paragraphs (b) and (c) of §1.170A–10, E is allowed a carryover of $9,000 ([$11,000−$3,000] plus [$6,000 −$5,000]) to 1972 in respect of his contribution of 30-percent capital gain property in 1971.

Example 5. In 1970, C, a calendar-year individual taxpayer, contributes to section 170(b)(1)(A) organizations the amount of $8,000, consisting of $3,000 in cash and $5,000 in 30-percent capital gain property. In 1970, C also makes charitable contributions of $8,500 in 30 percent capital gain property to other organizations described in section 170(c). C's contribution base for 1970 is $20,000. The 20-percent limitation in section 170(b)(1)(B) and paragraph (c) of this section is applied before the 30-percent limitation in section 170(b)(1)(D)(i) and paragraph (d) of this section; accordingly, section 170(b)(1)(B)(ii) limits the deduction for the $8,500 of contributions to the other organizations described in section 170(c) to $2,000 ([50% of $20,000]−[$3,000+$5,000]). However, the total amount of contributions of 30-percent capital gain property which is allowed as a deduction for 1970 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to $6,000 (30% of $20,000), consisting of the $5,000 contribution to the section 170(b)(1)(A) organizations and $1,000 of the contributions to the other organizations described in section 170(c). Accordingly C is allowed a charitable contributions deduction for 1970 of $9,000, which consists of $3,000 cash and $6,000 of the $13,500 of 30-percent capital gain property. C is not allowed to carryover to 1971 or any other year the remaining $7,500 because his contributions of 30-percent capital gain property for 1970 to section 170(b)(1)(A) organizations amount only to $5,000 and do not exceed $6,000 (30% of $20,000). Thus, the requirement of section 170(b)(1)(D)(ii) is not satisfied.

Example 6. During 1971, D, a calendar-year individual taxpayer, makes a charitable contribution to a church of $8,000, consisting of $5,000 in cash and $3,000 in 30-percent capital gain property. For such year, D's contribution base is $10,000. Accordingly, D is allowed a charitable contributions deduction for 1971 of $5,000 (50% of $10,000) of cash. Under section 170(d)(1) and paragraph (b) of §1.170A–10, D is allowed a carryover to 1972 of his $3,000 contribution of 30-percent capital gain property, even though such amount does not exceed 30 percent of his contribution base for 1971.

Example 7. In 1970, E, a calendar-year individual taxpayer, makes a charitable contribution to a section 170(b)(1)(A) organization in the amount of $10,000, consisting of $8,000 in 30-percent capital gain property and of $2,000 (after reduction under section 170(e)) in other property. E's contribution base of 1970 is $20,000. Accordingly, E is allowed a charitable contributions deduction for 1970 of $8,000, consisting of the $2,000 of property the amount of which was reduced under section 170(e) and $6,000 (30% of $20,000) of the 30-percent capital gain property. Under section 170(b)(1)(D)(ii) and paragraph (c) of §1.170A–10, E is allowed to carryover to 1971 $2,000 ($8,000−$6,000) of his contribution of 30-percent capital gain property.

Example 8. (a) In 1972, F, calendar-year individual taxpayer, makes a charitable contribution to a church of $4,000, consisting of $1,000 in cash and $3,000 in 30-percent capital gain property. In addition, F makes a charitable contribution in 1972 of $2,000 in cash to an organization described in section 170(c)(4). F also has a carryover from 1971 under section 170(d)(1) of $5,000 (none of which consists of contributions of 30-percent capital gain property) and a carryover from 1971 under section 170(b)(1)(D)(ii) of $6,000 of contributions of 30-percent capital gain property. F's contribution base for 1972 is $11,000.

Accordingly, F is allowed a charitable contributions deduction for 1972 of $5,500 (50% of $11,000), which consists of $1,000 cash contributed in 1972 to the church, $3,000 of 30-percent capital gain property contributed in 1972 to the church, and $1,500 (carryover of $5,000 but not to exceed [$5,500−($1,000 +$3,000)]) of the carryover from 1971 under section 170(d)(1).

(b) No deduction is allowed for 1972 for the contribution in that year of $2,000 cash to the section 170(c)(4) organization since section 170(b)(1)(B)(ii) and paragraph (c) of this section limit the deduction for such contribution to $0([50% of $11,000]−[$1,000 +$1,500+$3,000]). Moreover, F is not allowed a carryover to 1973 or to any other year for any of such $2,000 cash contributed to the section 170(c)(4) organization.

(c) Under section 170(d)(1) and paragraph (b) of § 1.170A–10, F is allowed a carryover to 1973 from 1971 of $3,500 ($5,000−$1,500) of contributions of other than 30-percent capital gain property. Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A–10, F is allowed a carryover to 1973 from 1971 of $6,000 ($6,000−$0 of such carryover treated as paid in 1972) of contributions of 30-percent capital gain property. The portion of such $6,000 carryover from 1971 which is treated as paid in 1972 is $0 ([50% of $11,000]−[$4,000 contributions to the church in 1972 plus $1,500 of section 170(d)(1) carryover treated as paid in 1972]).

Example 9. (a) In 1970, A, a calendar-year individual taxpayer, makes a charitable contribution to a church of 30-percent capital gain property having a fair market value of $60,000 and an adjusted basis of $10,000. A's contribution base for 1970 is $50,000, and he makes no other charitable contributions in that year. A does not elect for 1970 under paragraph (d)(2) of this section to have section 170(e)(1)(B) apply to such contribution. Accordingly, under section 170(b)(1)(D)(i) and paragraph (d) of this section, A is allowed a charitable contributions deduction for 1970 of $15,000 (30% of $50,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A–10, A is allowed a carryover to 1971 of $45,000 ($60,000−$15,000) for his contribution of 30-percent capital gain property.

(b) In 1971, A makes a charitable contribution to a church of 30-percent capital gain property having a fair market value of $11,000 and an adjusted basis of $10,000. A's contribution base for 1971 is $60,000, and he makes no other charitable contributions in that year. A elects for 1971 under paragraph (d)(2) of this section to have section 170(e)(1)(B) and § 1.170A–4 apply to his contribution of $11,000 in that year and to his carryover of $45,000 from 1970. Accordingly, he is required to recompute his carryover from 1970 as if section 170(e)(1)(B) had applied to his contribution of 30-percent capital gain property in that year.

(c) If section 170(e)(1)(B) had applied in 1970 to his contribution of 30-percent capital gain property, A's contribution would have been reduced from $60,000 to $35,000, the reduction of $25,000 being 50 percent of the gain of $50,000 ($60,000−$10,000) which would have been recognized as long-term capital gain if the property had been sold by A at its fair market value at the time of the contribution in 1970. Accordingly, by taking the election under paragraph (d)(2) of this section into account, A has a recomputed carryover to 1971 of $20,000 ($35,000− $15,000) of his contribution of 30-percent capital gain property in 1970. However, A's charitable contributions deduction of $15,000 allowed for 1970 is not recomputed by reason of the election.

(d) Pursuant to the election for 1971, the contribution of 30-percent capital gain property for 1971 is reduced from $11,000 to $10,500, the reduction of $500 being 50 percent of the gain of $1,000 ($11,000−$10,000) which would have been recognized as long-term capital gain if the property had been sold by A at its fair market value at the time of its contribution in 1971.

(e) Accordingly, A is allowed a charitable contributions deduction for 1971 of $30,000 (total contributions of $30,500 [$20,000+ $10,500] but not to exceed 50% of $60,000).

(f) Under section 170(d)(1) and paragraph (b) of § 1.170A–10, A is allowed a carryover of $500 ($30,500−$30,000) to 1972 and the 3 succeeding taxable years. The $500 carryover, which by reason of the election is no longer treated as a contribution of 30-percent capital gain property, is treated as carried over under paragraph (b) of § 1.170A–10 from 1970 since in 1971 current year contributions are deducted before contributions which are carried over from preceding taxable years.

Example 10. The facts are the same as in *Example (9)* except that A also makes a charitable contribution in 1971 of $2,000 cash to a private foundation not described in section 170(b)(1)(E) and that A's contribution base for that year is $62,000, instead of $60,000. Accordingly, A is allowed a charitable contributions deduction for 1971 of $31,000, determined in the following manner Under section 170(b)(1)(A) and paragraph (b) of this section, A is allowed a charitable contributions deduction for 1971 of $30,500, consisting of $10,500 of property contributed to the church in 1971 and of $20,000 (carryover of $20,000 but not to exceed [($62,000×50%)−$10,500]) of contributions of property carried over to 1971 under section 170(d)(1) and paragraph (b) of § 1.170A–10. Under section 170(b)(1)(B) and paragraph (c) of this section, A is allowed a charitable contributions deduction for 1971 of $500 ([50% of $62,000]−[$10,500+ $20,000]) of cash contributed to the private foundation in that year. A is not allowed a carryover to 1972 or to any other taxable year for any of the $1,500 ($2,000−$500) cash not deductible in 1971 under section 170(b)(1)(B) and paragraph (c) of this section.

Example 11. The facts are the same as in *Example (9)* except that A's contribution base for 1970 is $120,000. Thus, before making the election under paragraph (d)(2) of this section for 1971, A is allowed a charitable contributions deduction for 1970 of $36,000 (30% of $120,000) and is allowed a carryover to 1971 of $24,000 ($60,000−$36,000). By making the election for 1971, A is required to recompute the carryover from 1970, which is reduced from $24,000 to zero, since the charitable contributions deduction of $36,000 allowed for 1970 exceeds the reduced $35,000 contribution for 1970 which iay be taken into account by reason of the election for 1971. Accordingly, A is allowed a deduction for 1971 of $10,500 and is allowed no carryover to 1972, since the reduced contribution for 1971 ($10,500) does not exceed the limitation of $30,000 (50% of $60,000) for 1971 which applies under section 170(d)(1) and paragraph (b) of §1.170A–10. A's charitable contributions deduction of $36,000 allowed for 1970 is not recomputed by reason of the election. Thus, it is not to A's advantage to make the election under paragraph (d)(2) of this section.

Example 12. (a) B, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. During 1970 he makes charitable contributions of $70,000, consisting of $50,000 in 30-percent capital gain property contributed to a church and $20,000 in cash contributed to a private foundation not described in section 170(b)(1)(E). For 1971, B's contribution base is $40,000, and in that year he makes a charitable contribution of $5,000 in cash to such private foundation. During the years involved B makes no other charitable contributions.

(b) The amount of the contribution of 30-percent capital gain property which may be taken into account for 1970 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to $30,000 (30% of $100,000). Accordingly, under section 170(b)(1)(A) and paragraph (b) of this section B is allowed a deduction for 1970 of $30,000 of 30-percent capital gain property (contribution of $30,000 but not to exceed $50,000 [50% of $100,000]). No deduction is allowed for 1970 for the contribution in that year of $20,000 of cash to the private foundation since section 170(b)(1)(B)(ii) and paragraph (c) of this section limit the deduction for such contribution to $0 ([50% of $100,000]− $50,000, the amount of the contribution of 30-percent capital gain property).

(c) Under section 170(b)(1)(D)(ii) and paragraph (c) of §1.170A–10, B is allowed a carryover to 1971 of $20,000 ($50,000−[30% of $100,000]) of his contribution in 1970 of 30-percent capital gain property. B is not allowed a carryover to 1971 or to any other taxable year for any of the $20,000 cash contribution in 1970 which is not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(d) The amount of the contribution of 30-percent capital gain property which may be taken into account for 1971 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to $12,000 (30% of $40,000).

Accordingly, under section 170(b)(1)(A) and paragraph (b) of this section B is allowed a deduction for 1971 of $12,000 of 30-percent capital gain property (contribution of $12,000 but not to exceed $20,000 [50% of $40,000]). No deduction is allowed for 1971 for the contribution in that year of $5,000 of cash to the private foundation, since section 170(b)(1)(B)(ii) and paragraph (c) of this section limit the deduction for such contribution to $0 ([50% of $40,000] −$20,000 carryover of 30-percent capital gain property from 1970).

(e) Under section 170(b)(1)(D)(ii) and paragraph (c) of §1.170A–10, B is allowed a carryover to 1972 of $8,000 ($20,000−[30% of $40,000]) of his contribution in 1970 of 30-percent capital gain property. B is not allowed a carryover to 1972 or to any other taxable year for any of the $5,000 cash contribution for 1971 which is not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 13. D, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. On March 1, 1970, he contributes to a church intangible property to which section 1245 applies which has a fair market value of $60,000 and an adjusted basis of $10,000. At the time of the contribution D has used the property in his business for more than 6 months. If the property had been sold by D at its fair market value at the time of its contribution, it is assumed that under section 1245 $20,000 of the gain of $50,000 would have been treated as ordinary income and $30,000 would have been long-term capital gain. Since the property contributed is ordinary income property within the meaning of paragraph (b)(1) of §1.170A–4, D's contribution of $60,000 is reduced under paragraph (a)(1) of such section to $40,000 ($60,000−$20,000 ordinary income). However, since the property contributed is also 30-percent capital gain property within the meaning of paragraph (d)(3) of this section, D's deduction for 1970 is limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to $30,000 (30% of $100,000). Under section 170(b)(1)(D)(ii) and paragraph (c) of §1.170A–10, D is allowed to carry over to 1971 $10,000 ($40,000−$30,000) of his contribution of 30-percent capital gain property.

Example 14. C, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $50,000. During 1970 he makes charitable contributions to a church of $57,000, consisting of $2,000 cash and of 30-percent capital gain property with a fair market value of $55,000 and an adjusted basis of $15,000. In addition, C contributes $3,000 cash in 1970 to a private foundation not described in section 170(b)(1)(E). For 1970, C elects under paragraph (d)(2) of this section to have section 170(e)(1)(B) and §1.170A–4(a) apply to his contribution of property to the church. Accordingly, for 1970 C's contribution of property to the church is reduced from $55,000 to $35,000, the reduction of $20,000 being 50 percent of the gain of $40,000 ($55,000 −$15,000) which would have been recognized as long-term capital gain if the property had been sold by C at its fair market value at the time of its contribution to the church. Under section 170(b)(1)(A) and paragraph (b) of this section, C is allowed a charitable contributions deduction for 1970 of $25,000 ([$2,000+$35,000] but not to exceed [$50,000×50%]). Under section 170(d)(1) and paragraph (b) of § 1.170A–10, C is allowed a carryover from 1970 to 1971 of $12,000 ($37,000−$25,000). No deduction is allowed for 1970 for the contribution in that year of $3,000 cash to the private foundation since section 170(b)(1)(B) and paragraph (c) of this section limit the deduction for such contribution to the smaller of $10,000 ($50,000×20%) or $0 ([$50,000×50%]−$25,000). C is not allowed a carryover from 1970 for any of the $3,000 cash contribution in that year which is not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

Example 15. (a) D, an individual, reports his income on the calendar-year basis and for 1970 has a contribution base of $100,000. During 1970 he makes a charitable contribution to a church of 30-percent capital gain property with a fair market value of $40,000 and an adjusted basis of $21,000. In addition, he contributes $23,000 cash in 1970 to a private foundation not described in section 170(b)(1)(E). For 1970, D elects under paragraph (d)(2) of this section to have section 170(e)(1)(B) and § 1.170A–4(a) apply to his contribution of property to the church. Accordingly, for 1970 D's contribution of property to the church is reduced from $40,000 to $30,500, the reduction of $9,500 being 50 percent of the gain of $19,000 ($40,000−$21,000) which would have been recognized as long-term capital gain if the property had been sold by D at its fair market value at the time of its contribution to the church. Under section 170(b)(1)(A) and paragraph (b) of this section, D is allowed a charitable contributions deduction for 1970 of $30,500 for the property contributed to the church. In addition, under section 170(b)(1)(B) and paragraph (c) of this section D is allowed a deduction of $19,500 for the cash contributed to the private foundation, since such contribution of $23,000 is allowed to the extent of the lesser of $20,000 (20% of $100,000) or $19,500 ([$100,000×50%]−$30,500). D is not allowed a carryover to 1971 or to any other taxable year for any of the $3,500 ($23,000−$19,500) of cash not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(b) If D had not made the election under paragraph (d)(2) of this section for 1970, his deduction for 1970 under section 170(a) for the $40,000 contribution of property to the church would have been limited by section 170(b)(1)(D)(i) and paragraph (d) of this section to $30,000 (30% of $100,000), and under section 170(b)(1)(D)(ii) and paragraph (c) of § 1.170A–10 he would have been allowed a carryover to 1971 of $10,000 ($40,000−$30,000) for his contribution of such property. In addition, he would have been allowed under section 170(b)(1)(B)(ii) and paragraph (c) of this section for 1970 a charitable contributions deduction of $10,000 ([$100,000×50%]−$40,000) for the cash contributed to the private foundation. In such case, D would not have been allowed a carryover to 1971 or to any other taxable year for any of the $13,000 ($23,000−$10,000) of cash not deductible under section 170(b)(1)(B) and paragraph (c) of this section.

(g) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969.

[T.D. 7207, 37 FR 20783, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972]

§ 1.170A–9 Definition of section 170(b)(1)(A) organization.

The term *section 170(b)(1)(A) organization* as used in the regulations under section 170 means any organization described in paragraphs (a) through (i) of this section, effective with respect to taxable years beginning after December 31, 1969, except as otherwise provided. Section 1.170–2(b) shall continue to be applicable with respect to taxable years beginning prior to January 1, 1970. The term *one or more organizations described in section 170(b)(1)(A) (other than in clauses (vii) and (viii))* as used in sections 507 and 509 of the Code and the regulations thereunder means one or more organizations described in paragraphs (a) through (e) of this section, except as modified by the regulations under part II of subchapter F of chapter I or under chapter 42.

(a) *Church or a convention or association of churches.* An organization is described in section 170(b)(1)(A)(i) if it is a church or a convention or association of churches.

(b) *Educational organization and organizations for the benefit of certain State and municipal colleges and universities*—(1) *Educational organization.* An educational organization is described in section 170(b)(1)(A)(ii) if its primary function is the presentation of formal instruction and it normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on. The term includes institutions such as primary, secondary, preparatory, or high schools, and colleges and universities.

It includes Federal, State, and other public-supported schools which otherwise come within the definition. It does not include organizations engaged in both educational and noneducational activities unless the latter are merely incidental to the educational activities. A recognized university which incidentally operates a museum or sponsors concerts is an educational organization within the meaning of section 170(b)(1)(A)(ii). However, the operation of a school by a museum does not necessarily qualify the museum as an educational organization within the meaning of this subparagraph.

(2) *Organizations for the benefit of certain State and municipal colleges and universities.* (i) An organization is described in section 170(b)(1)(A)(iv) if it meets the support requirements of subdivision (ii) of this subparagraph and is organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of a college or university which is an organization described in subdivision (iii) of this subparagraph. The phrase ‘‘expenditures to or for the benefit of a college or university’’ includes expenditures made for any one or more of the normal functions of colleges and universities such as the acquisition and maintenance of real property comprising part of the campus area; the erection of, or participation in the erection of, college or university buildings; the acquisition and maintenance of equipment and furnishings used for, or in conjunction with, normal functions of colleges and universities; or expenditures for scholarships, libraries and student loans.

(ii) To qualify under section 170(b)(1)(A)(iv), the organization receiving the contribution must normally receive a substantial part of its support from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public, or from a combination of two or more of such sources. For such purposes, the term ‘‘support’’ does not include income received in the exercise or performance by the organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a). An example of an indirect contribution from the public is the receipt by the organization of its share of the proceeds of an annual collection campaign of a community chest, community fund, or united fund. In determining the amount of support received by such organization with respect to a contribution of property which is subject to reduction under section 170(e), the fair market value of the property shall be taken into account.

(iii) The college or university (including a land grant college or university) to be benefited must be an educational organization referred to in section 170(b)(1)(A)(ii) and subparagraph (1) of this paragraph which is an agency or instrumentality of a State or political subdivision thereof, or which is owned or operated by a State or political subdivision thereof or by an agency or instrumentality of one or more States or political subdivisions.

(c) *Hospitals and medical research organizations*—(1) *Hospitals.* An organization (other than one described in subparagraph (2) of this paragraph) is described in section 170(b)(1)(a)(iii) if:

(i) It is a hospital, and

(ii) Its principal purpose or function is the providing of medical or hospital care or medical education or medical research.

The term *hospital* includes (A) Federal hospitals and (B) State, county, and municipal hospitals which are instrumentalities of governmental units referred to in section 170(c)(1) and otherwise come within the definition. A rehabilitation institution, outpatient clinic, or community mental health or drug treatment center may qualify as a ‘‘hospital’’ within the meaning of subdivision (i) of this subparagraph if its principal purpose or function is the providing of hospital or medical care. For purposes of this subdivision, the term ‘‘medical care’’ shall include the treatment of any physical or mental disability or condition, whether on an inpatient or outpatient basis, provided the cost of such treatment is deductible under section 213 by the person treated. An organization, all the accommodations of which qualify as being part of a ‘‘skilled nursing facility’’ within the meaning of 42 U.S.C. 1395x(j), may qualify as a ‘‘hospital’’ within the meaning of subdivision (i) of this subparagraph if its principal purpose or function is the providing of hospital or medical care. For taxable years ending after June 28, 1968, the term ''hospital'' also includes cooperative hospital service organizations which meet the requirements of section 501(e) and §1.501(e)–1. The term ''hospital'' does not, however, include convalescent homes or homes for children or the aged, nor does the term include institutions whose principal purpose or function is to train handicapped individuals to pursue some vocation. An organization whose principal purpose or function is the providing of medical education or medical research will not be considered a ''hospital'' within the meaning of subdivision (i) of this subparagraph, unless it is also actively engaged in providing medical or hospital care to patients on its premises or in its facilities, on an inpatient or outpatient basis, as an integral part of its medical education or medical research functions. See, however, subparagraph (2) of this paragraph with respect to certain medical research organizations.

(2) *Certain medical research organizations*—(i) *Introduction.* A medical research organization is described in section 170(b)(1)(A)(iii) if the principal purpose or functions of such organization are medical research and if it is directly engaged in the continuous active conduct of medical research in conjunction with a hospital. In addition, for purposes of the 50 percent limitation of section 170(b)(1)(A) with respect to a contribution, during the calendar year in which the contribution is made such organization must be committed to spend such contribution for such research before January 1 of the fifth calendar year which begins after the date such contribution is made. An organization need not receive contributions deductible under section 170 to qualify as a medical research organization and such organization need not be committed to spend amounts to which the limitation of section 170(b)(1)(A) does not apply within the 5-year period referred to in this subdivision. However, the requirement of continuous active conduct of medical research indicates that the type of organization contemplated in this subparagraph is one which is primarily engaged directly in the continuous active conduct of medical research, as compared to an inactive medical research organization or an organization primarily engaged in funding the programs of other medical research organizations. As in the case of a hospital, since an organization is ordinarily not described in section 170(b)(1)(A)(iii) as a hospital unless it functions primarily as a hospital, similarly a medical research organization is not so described unless it is primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital. Accordingly, the rules of this subparagraph shall only apply with respect to such medical research organizations.

(ii) *General rule.* An organization (other than a hospital described in subparagraph (1) of this paragraph) is described in section 170(b)(1)(A)(iii) only if within the meaning of this subparagraph:

(A) The principal purpose or functions of such organization are to engage primarily in the conduct of medical research, and

(B) It is primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital which is *(1)* described in section 501(c)(3), *(2)* a federal hospital, or *(3)* an instrumentality of a governmental unit referred to in section 170(c)(1).

However, in order for a contribution to such organization to qualify for purposes of the 50 percent limitation of section 170(b)(1)(A), during the calendar year in which such contribution is made or treated as made, such organization must be committed (within the meaning of subdivision (viii) of this subparagraph) to spend such contribution for such active conduct of medical research before January 1 of the fifth calendar year beginning after the date such contribution is made. For the meaning of the term ''medical research'' see subdivision (iii) of this subparagraph. For the meaning of the term ''principal purpose or functions'' see subdivision (iv) of this subparagraph. For the meaning of the term ''primarily engaged directly in the continuous active conduct of medical research'' see subdivision (v) of this subparagraph. For the meaning of the term ‘‘medical research in conjunction with a hospital’’ see subdivision (vii) of this subparagraph.

(iii) *Definition of medical research.* Medical research means the conduct of investigations, experiments, and studies to discover, develop, or verify knowledge relating to the causes, diagnosis, treatment, prevention, or control of physical or mental diseases and impairments of man. To qualify as a medical research organization, the organization must have or must have continuously available for its regular use the appropriate equipment and professional personnel necessary to carry out its principal function. Medical research encompasses the associated disciplines spanning the biological, social and behavioral sciences. Such disciplines include chemistry, (biochemistry, physical chemistry, bioorganic chemistry, etc.), behavioral sciences (psychiatry, physiological psychology, neurophysiology, neurology, neurobiology, and social psychology, etc.), biomedical engineering (applied biophysics, medical physics, and medical electronics, *e.g.,* developing pacemakers and other medically related electrical equipment), virology, immunology, biophysics, cell biology, molecular biology, pharmacology, toxicology, genetics, pathology, physiology, microbiology, parasitology, endocrinology, bacteriology, and epidemiology.

(iv) *Principal purpose or functions.* An organization must be organized for the principal purpose of engaging primarily in the conduct of medical research in order to be an organization meeting the requirements of this subparagraph. An organization will normally be considered to be so organized if it is expressly organized for the purpose of conducting medical research and is actually engaged primarily in the conduct of medical research. Other facts and circumstances, however, may indicate that an organization does not meet the principal purpose requirement of this subdivision even where its governing instrument so expressly provides. An organization that otherwise meets all of the requirements of this subparagraph (including this subdivision) to qualify as a medical research organization will not fail to so qualify solely because its governing instrument does not specifically state that its principal purpose is to conduct medical research.

(v) *Primarily engaged directly in the continuous active conduct of medical research.* (A) In order for an organization to be primarily engaged directly in the continuous active conduct of medical research, the organization must either devote a substantial part of its assets to, or expend a significant percentage of its endowment for, such purposes, or both. Whether an organization devotes a substantial part of its assets to, or makes significant expenditures for, such continuous active conduct depends upon the facts and circumstances existing in each specific case. An organization will be treated as devoting a substantial part of its assets to, or expending a significant percentage of its endowment for, such purposes if it meets the appropriate test contained in paragraph (c)(2)(v)*(b)* of this section. If an organization fails to satisfy both of such tests, in evaluating the facts and circumstances, the factor given most weight is the margin by which the organization failed to meet such tests. Some of the other facts and circumstances to be considered in making such a determination are:

(*1*) If the organization fails to satisfy the tests because it failed to properly value its assets or endowment, then upon determination of the improper valuation it devotes additional assets to, or makes additional expenditures for, such purposes, so that it satisfies such tests on an aggregate basis for the prior year in addition to such tests for the current year.

(*2*) The organization acquires new assets or has a significant increase in the value of its securities after it had developed a budget in a prior year based on the assets then owned and the then current values.

(*3*) The organization fails to make expenditures in any given year because of the interrelated aspects of its budget and long-term planning requirements, for example, where an organization prematurely terminates an unsuccessful program and because of long-term planning requirements it will not be able to establish a fully operational replacement program immediately.

(*4*) The organization has as its objective to spend less than a significant percentage in a particular year but make up the difference in the subsequent few years, or to budget a greater percentage earlier year and a lower percentage in in a later year.

(B) For purposes of this section, an organization which devotes more than one half of its assets to the continuous active conduct of medical research will be considered to be devoting a substantial part of its assets to such conduct within the meaning of paragraph (c)(2)(v)*(a)* of this section. An organization which expends funds equaling 3.5 percent or more of the fair market value of its endowment for the continuous active conduct of medical research will be considered to have expended a significant percentage of its endowment for such purposes within the meaning of paragraph (c)(2)(v)*(a)* of this section.

(C) Engaging directly in the continuous active conduct of medical research does not include the disbursing of funds to other organizations for the conduct of research by them or the extending of grants or scholarships to others. Therefore, if an organization's primary purpose is to disburse funds to other organizations for the conduct of research by them or to extend grants or scholarships to others, it is not primarily engaged directly in the continuous active conduct of medical research.

(vi) *Special rules.* The following rules shall apply in determining whether a substantial part of an organization's assets are devoted to, or its endowment is expended for, the continuous active conduct of medical research activities:

(A) An organization may satisfy the tests of paragraph (c)(2)(v)*(b)* of this section by meeting such tests either for a computation period consisting of the immediately preceding taxable year, or for the computation period consisting of the immediately preceding four taxable years. In addition, for taxable years beginning in 1970, 1971, 1972, 1973, and 1974, if an organization meets such tests for the computation period consisting of the first four taxable years beginning after December 31, 1969, an organization will be treated as meeting such tests, not only for the taxable year beginning in 1974, but also for the preceding four taxable years. Thus, for example, if a calendar year organization failed to satisfy such tests for a computation period consisting of 1969, 1970, 1971, or 1972, but on the basis of a computation period consisting of the years 1970 through 1973, it expended funds equaling 3.5 percent or more of the fair market value of its endowment for the continuous active conduct of medical research, such organization will be considered to have expended a significant percentage of its endowment for such purposes for the taxable years 1970 through 1974. In applying such tests for a four-year computation period, although the organization's expenditures for the entire four-year period shall be aggregated, the fair market value of its endowment for each year shall be summed, even though, in the case of an asset held throughout the four-year period, the fair market value of such an asset will be counted four times. Similarly, the fair market value of an organization's assets for each year of a four-year computation period shall be summed.

(B) Any property substantially all the use of which is ‘‘substantially related’’ (within the meaning of section 514(b)(1)(A)) to the exercise or performance of the organization's medical research activities will not be treated as part of its endowment.

(C) The valuation of assets must be made with commonly accepted methods of valuation. A method of valuation made in accordance with the principles stated in the regulations under section 2031 constitutes an acceptable method of valuation. Assets may be valued as of any day in the organization's taxable year to which such valuation applies, provided the organization follows a consistent practice of valuing such asset as of such date in all taxable years. For purposes of paragraph (c)(2)(v) of this section, an asset held by the organization for part of a taxable year shall be taken into account by multiplying the fair market value of such asset by a fraction, the numerator of which is the number of days in such taxable year that the foundation held such asset and the denominator of which is the number of days in such taxable year.

(vii) *Medical research in conjunction with a hospital.* The organization need not be formally affiliated with a hospital to be considered primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital, but in any event there must be a joint effort on the part of the research organization and the hospital pursuant to an understanding that the two organizations will maintain continuing close cooperation in the active conduct of medical research. For example, the necessary joint effort will normally be found to exist if the activities of the medical research organization are carried on in space located within or adjacent to a hospital, the organization is permitted to utilize the facilities (including equipment, case studies, etc.) of the hospital on a continuing basis directly in the active conduct of medical research, and there is substantial evidence of the close cooperation of the members of the staff of the research organization and members of the staff of the particular hospital or hospitals. The active participation in medical research by members of the staff of the particular hospital or hospitals will be considered to be evidence of such close cooperation. Because medical research may involve substantial investigation, experimentation and study not immediately connected with hospital or medical care, the requisite joint effort will also normally be found to exist if there is an established relationship between the research organization and the hospital which provides that the cooperation of appropriate personnel and the use of facilities of the particular hospital or hospitals will be required whenever it would aid such research.

(viii) *Commitment to spend contributions.* The organization's commitment that the contribution will be spent within the prescribed time only for the prescribed purposes must be legally enforceable. A promise in writing to the donor in consideration of his making a contribution that such contribution will be so spent within the prescribed time will constitute a commitment. The expenditure of contributions received for plant, facilities, or equipment, used solely for medical research purposes (within the meaning of subdivision (ii) of this subparagraph), shall ordinarily be considered to be an expenditure for medical research. If a contribution is made in other than money, it shall be considered spent for medical research if the funds from the proceeds of a disposition thereof are spent by the organization within the five-year period for medical research; or, if such property is of such a kind that it is used on a continuing basis directly in connection with such research, it shall be considered spent for medical research in the year in which it is first so used. A medical research organization will be presumed to have made the commitment required under this subdivision with respect to any contribution if its governing instrument or by-laws require that every contribution be spent for medical research before January 1 of the fifth year which begins after the date such contribution is made.

(ix) *Organizational period for new organizations.* A newly created organization, for its ''organizational'' period, shall be considered to be primarily engaged directly in the continuous active conduct of medical research in conjunction with a hospital within the meaning of subdivisions (v) and (vii) of this subparagraph if during such period the organization establishes to the satisfaction of the Commissioner that it reasonably can be expected to be so engaged by the end of such period. The information to be submitted shall include detailed plans showing the proposed initial medical research program, architectural drawings for the erection of buildings and facilities to be used for medical research in accordance with such plans, plans to assemble a professional staff and detailed projections showing the timetable for the expected accomplishment of the foregoing. The ''organizational'' period shall be that period which is appropriate to implement the proposed plans, giving effect to the proposed amounts involved and the magnitude and complexity of the projected medical research program, but in no event in excess of three years following organization.

(x) *Examples.* The application of this subparagraph may be illustrated by the following examples:

Example 1. N, an organization referred to in section 170(c)(2), was created to promote human knowledge within the field of medical research and medical education. All of N's assets were contributed to it by A and consist of a diversified portfolio of stocks and bonds. N's endowment earns 3.5 percent annually, which N expends in the conduct of various medical research programs in conjunction with Y hospital. N is located adjacent to Y hospital, makes substantial use of Y's facilities and there is close cooperation between the staffs of N and Y. N is directly engaged in the continuous active conduct of medical research in conjunction with a hospital, meets the principal purpose test described in subdivision (iv) of this subparagraph, and is therefore an organization described in section 170(b)(1)(A)(iii).

Example 2. O, an organization referred to in section 170(c)(2), was created to promote human knowledge within the field of medical research and medical education. All of O's assets consist of a diversified portfolio of stocks and bonds. O's endowment earns 3.5 percent annually, which O expends in the conduct of various medical research programs in conjunction with certain hospitals. However, in 1974, O receives a substantial bequest of additional stocks and bonds. O's budget for 1974 does not take into account the bequest and as a result O expends only 3.1 percent of its endowment in 1974. However, O establishes that it will expend at least 3.5 percent of its endowment for the active conduct of medical research for taxable years 1975 through 1978. O is therefore directly engaged in the continuous active conduct of medical research in conjunction with a hospital for taxable year 1975. Since O also meets the principal purpose test described in subdivision (iv) of this subparagraph, it is therefore an organization described in section 170(b)(1)(A)(iii) for taxable year 1975.

Example 3. M, an organization referred to in section 170(c)(2), was created to promote human knowledge within the field of medical research and medical education. M's activities consist of the conduct of medical research programs in conjunction with various hospitals. Under such programs, researchers employed by M engage in research at laboratories set aside for M within the various hospitals. Substantially all of M's assets consists of 100 percent of the stock of X corporation, which has a fair market value of approximately 100 million dollars. X pays M approximately 3.3 million dollars in dividends annually, which M expends in the conduct of its medical research programs. Since M expends only 3.3 percent of its endowment, which does not constitute a significant percentage, in the active conduct of medical research, M is not an organization described in section 170(b)(1)(A)(iii) because M is not engaged in the continuous active conduct of medical research.

(xi) *Special rule for organizations with existing ruling.* This subdivision shall apply to an organization that prior to January 1, 1970, had received a ruling or determination letter which has not been expressly revoked holding the organization to be a medical research organization described in section 170(b)(1)(A)(iii) and with respect to which the facts and circumstances on which the ruling was based have not substantially changed. An organization to which this subdivision applies shall be treated as an organization described in section 170(b)(1)(A)(iii) for a period not ending prior to 90 days after February 13, 1976 (or where appropriate, for taxable years beginning before such 90th day). In addition, with respect to a grantor or contributor under sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522, the status of an organization to which this subdivision applies will not be affected until notice of change of status under section 170(b)(1)(A)(iii) is made to the public (such as by publication in the Internal Revenue Bulletin). The preceding sentence shall not apply if the grantor or contributor had previously acquired knowledge that the Internal Revenue Service had given notice to such organization that it would be deleted from classification as a section 170(b)(1)(A)(iii) organization.

(d) *Governmental unit.* A governmental unit is described in section 170(b)(1)(A)(v) if it is referred to in section 170(c)(1).

(e) *Definition of section 170(b)(1)(A)(vi) organization*—(1) *In general.* An organization is described in section 170 (b)(1)(A)(vi) if it is:

(i) A corporation, trust, or community chest, fund, or foundation, referred to in section 170(c)(2) (other than an organization specifically described in paragraphs (a) through (d) of this section), and

(ii) A ''publicly supported'' organization.

For purposes of this paragraph, an organization is *publicly supported* if it normally receives a substantial part of its support from a governmental unit referred to in section 170(c)(1) or from direct or indirect contributions from the general public. An organization will be treated as being ‘‘public supported’’ if it meets the requirements of either subparagraph (2) or subparagraph (3) of this paragraph. Types of organizations which, subject to the provisions of this paragraph, generally qualify under section 170(b)(1)(A)(vi) as ‘‘publicly supported’’ are publicly or governmentally supported museums of history, art, or science, libraries, community centers to promote the arts, organizations providing facilities for the support of an opera, symphony orchestra, ballet, or repertory drama or for some other direct service to the general public, and organizations such as the American Red Cross or the United Givers Fund.

(2) *Determination whether an organization is ‘‘publicly supported’’; 33⅓ percent-of-support test.* An organization will be treated as a ‘‘publicly supported’’ organization if the total amount of support which the organization ‘‘normally’’ (as defined in subparagraph (4) of this paragraph) receives from governmental units referred to in section 170(c)(1), from contributions made directly or indirectly by the general public, or from a combination of these sources, equals at least 33 1/3 percent of the total support ‘‘normally’’ received by the organization. See subparagraphs (6), (7), and (8) of this paragraph for the definition of ‘‘support.’’ The application of this test is illustrated by *Example 1* of subparagraph (9) of this paragraph.

(3) *Determination whether an organization is ‘‘publicly supported’’; facts and circumstances test for organizations failing to meet 33 1/3 percent-of-support test.* Even if an organization fails to meet the 33 1/3 percent-of-support test described in subparagraph (2) of this paragraph, it will be treated as a ‘‘publicly supported’’ organization if it normally receives a substantial part of its support from governmental units, from direct or indirect contributions from the general public, or from a combination of these sources, and meets the other requirements of this subparagraph. In order to satisfy this subparagraph, an organization must meet the requirements of subdivisions (i) and (ii) of this subparagraph in order to establish, under all the facts and circumstances, that it normally receives a substantial part of its support from governmental units or from direct or indirect contributions from the general public, and it must be in the nature of a ‘‘publicly supported’’ organization, taking into account the factors described in subdivisions (iii) through (vii) of this subparagraph. The requirements and factors referred to in the preceding sentence with respect to a ‘‘publicly supported’’ organization (other than one described in subparagraph (2) of this paragraph) are:

(i) *Ten percent-of-support limitation.* The percentage of support ‘‘normally’’ (as defined in subparagraph (4) of this paragraph) received by an organization from governmental units, from contributions made directly or indirectly by the general public, or from a combination of these sources, must be ‘‘substantial.’’ For purposes of this subparagraph, an organization will not be treated as ‘‘normally’’ receiving a ‘‘substantial’’ amount of governmental or public support unless the total amount of governmental and public support ‘‘normally’’ received equals at least 10 percent of the total support ‘‘normally’’ received by such organization. See subparagraphs (6), (7), and (8) of this paragraph for the definition of ‘‘support.’’

(ii) *Attraction of public support.* An organization must be so organized and operated as to attract new and additional public or governmental support on a continuous basis. An organization will be considered to meet this requirement if it maintains a continuous and bona fide program for solicitation of funds from the general public, community, or membership group involved, or if it carries on activities designed to attract support from governmental units or other organizations described in section 170 (b)(1)(A)(i) through (vi). In determining whether an organization maintains a continuous and bona fide program for solicitation of funds from the general public or community, consideration will be given to whether the scope of its fundraising activities is reasonable in light of its charitable activities. Consideration will also be given to the fact that an organization may, in its early years of existence, limit the scope of its solicitation to persons deemed most likely to provide seed money in an amount sufficient to enable it to commence its charitable activities and expand its solicitation program.

In addition to the requirements set forth in subdivisions (i) and (ii) of this subparagraph which must be satisfied, all pertinent facts and circumstances, including the following factors, will be taken into consideration in determining whether an organization is ''publicly supported'' within the meaning of subparagraph (1) of this paragraph. However, an organization is not generally required to satisfy all of the factors in subdivisions (iii) through (vii) of this subparagraph. The factors relevant to each case and the weight accorded to any one of them may differ depending upon the nature and purpose of the organization and the length of time it has been in existence.

(iii) *Percentage of financial support.* The percentage of support received by an organization from public or governmental sources will be taken into consideration in determining whether an organization is ''publicly supported.'' The higher the percentage of support above the 10 percent requirement of subdivision (i) of this subparagraph from public or governmental sources, the lesser will be the burden of establishing the publicly supported nature of the organization through other factors described in this subparagraph, while the lower the percentage, the greater will be the burden. If the percentage of the organization's support from public or governmental sources is low because it receives a high percentage of its total support from investment income on its endowment funds, such fact will be treated as evidence of compliance with this subdivision if such endowment funds were originally contributed by a governmental unit or by the general public. However, if such endowment funds were originally contributed by a few individuals or members of their families, such fact will increase the burden on the organization of establishing compliance with the other factors described in this subparagraph.

(iv) *Sources of support.* The fact that an organization meets the requirement of subdivision (i) of this subparagraph through support from governmental units or directly or indirectly from a representative number of persons, rather than receiving almost all of its support from the members of a single family, will be taken into consideration in determining whether an organization is ''publicly supported.'' In determining what is a ''representative number of persons,'' consideration will be given to the type of organization involved, the length of time it has been in existence, and whether it limits its activities to a particular community or region or to a special field which can be expected to appeal to a limited number of persons.

(v) *Representative governing body.* The fact that an organization has a governing body which represents the broad interests of the public, rather than the personal or private interests of a limited number of donors (or persons standing in a relationship to such donors which is described in section 4946(a)(1)(C) through (G)) will be taken into account in determining whether an organization is ''publicly supported.'' An organization will be treated as meeting this requirement if it has a governing body (whether designated in the organization's governing instrument or bylaws as a Board of Directors, Board of Trustees, etc.) which is comprised of public officials acting in their capacities as such; of individuals selected by public officials acting in their capacities as such; of persons having special knowledge or expertise in the particular field or discipline in which the organization is operating; of community leaders, such as elected or appointed officials, clergymen, educators, civic leaders, or other such persons representing a broad cross-section of the views and interests of the community; or, in the case of a membership organization, of individuals elected pursuant to the organization's governing instrument or bylaws by a broadly based membership.

(vi) *Availability of public facilities or services; public participation in programs or policies.* (A) The fact that an organization is of the type which generally provides facilities or services directly for the benefit of the general public on a continuing basis (such as a museum or library which holds open its building and facilities to the public, a symphony orchestra which gives public performances, a conservation organization which provides educational services to the public through the distribution of educational materials, or an old age home which provides domiciliary or nursing services for members of the general public) will be considered evidence that such organization is ‘‘publicly supported.’’

(B) The fact that an organization is an educational or research institution which regularly publishes scholarly studies that are widely used by colleges and universities or by members of the general public will also be considered evidence that such organization is ‘‘publicly supported.’’

(C) Similarly, the following factors will also be considered evidence that an organization is ‘‘publicly supported:’’

(*1*) The participation in, or sponsorship of, the programs of the organization by members of the public having special knowledge or expertise, public officials, or civic or community leaders;

(*2*) The maintenance of a definitive program by an organization to accomplish its charitable work in the community, such as slum clearance or developing employment opportunities; and

(*3*) The receipt of a significant part of its funds from a public charity or governmental agency to which it is in some way held accountable as a condition of the grant, contract, or contribution.

(vii) *Additional factors pertinent to membership organizations.* The following are additional factors to be considered in determining whether a membership organization is ‘‘publicly supported’’:

(A) Whether the solicitation for dues-paying members is designed to enroll a substantial number of persons in the community or area, or in a particular profession or field of special interest (taking into account the size of the area and the nature of the organization’s activities);

(B) Whether membership dues for individual (rather than institutional) members have been fixed at rates designed to make membership available to a broad cross section of the interested public, rather than to restrict membership to a limited number of persons; and

(C) Whether the activities of the organization will be likely to appeal to persons having some broad common interest or purpose, such as educational activities in the case of alumni associations, musical activities in the case of symphony societies, or civic affairs in the case of parent-teacher associations.

See *Examples (2) through (5)* contained in subparagraph (9) of this paragraph for illustrations of this subparagraph.

(4) *Definition of ‘‘normally’’; general rule*—(i) *Normally; one-third support test.* For purposes of subparagraph (2) of this paragraph, an organization will be considered as ‘‘normally’’ meeting the 33 1/3 percent-of-support test for its current taxable year and the taxable year immediately succeeding its current year, if, for the 4 taxable years immediately preceding the current taxable year, the organization meets the 33 1/3 percent-of-support test described in subparagraph (2) of this paragraph on an aggregate basis.

(ii) *Normally; facts and circumstances test.* For purposes of subparagraph (3) of this paragraph, an organization will be considered as ‘‘normally’’ meeting the requirements of subparagraph (3) of this paragraph for its current taxable year and the taxable year immediately succeeding its current year, if, for the 4 taxable years immediately preceding the current taxable year, the organization meets the requirements of subparagraph (3) (i) and (ii) of this paragraph on an aggregate basis and satisfies a sufficient combination of the factors set forth in subparagraph (3) (iii) through (vii) of this paragraph. In the case of subparagraph (3) (iii) and (iv) of this paragraph, facts pertinent to years preceding 4 taxable years immediately preceding the current taxable year may also be taken into consideration. The combination of factors set forth in subparagraph (3) (iii) through (vii) of this paragraph which an organization ‘‘normally’’ must meet does not have to be the same for each 4-year period so long as there exists a sufficient combination of factors to show compliance with subparagraph (3) of this paragraph.

(iii) *Special rule.* The fact that an organization has ''normally'' met the requirements of subparagraph (2) of this paragraph for a current taxable year, but is unable ''normally'' to meet such requirements for a succeeding taxable year, will not in itself prevent such organization from meeting the requirements of subparagraph (3) of this paragraph for such succeeding taxable year.

(iv) *Illustration.* The application of subdivisions (i), (ii), and (iii) of this subparagraph may be illustrated by the following example:

Example X, an organization described in section 170(c)(2), meets the 33 1/3 percent-of-support test described in subparagraph (2) of this paragraph in taxable year 1975 on the basis of support received during taxable years 1971, 1972, 1973, and 1974. It therefore ''normally'' meets the requirements of subparagraph (2) of this paragraph for 1975 and 1976, the taxable year immediately succeeding 1975 (the current taxable year). For the taxable year 1976, X is unable to meet the 33 1/3 percent-of-support test described in subparagraph (2) of this paragraph on the basis of support received during taxable years 1972, 1973, 1974, and 1975. If X can meet the requirements of subparagraph (3) of this paragraph on the basis of taxable years 1972, 1973, 1974, and 1975, X will meet the requirements of subparagraph (3) of this paragraph for 1977 (the taxable year immediately succeeding 1976, the current taxable year) under subdivision (ii) of this subparagraph. However, if on the basis of both the taxable years 1972 through 1975 and 1973 through 1976, X, fails to meet the requirements of both subparagraphs (2) and (3) of this paragraph, X will not be described in section 170(b)(1)(A)(vi) for 1977. However, X will not be disqualified as a section 170(b)(1)(A)(vi) organization for taxable year 1976, because it ''normally'' met the requirements of subparagraph (2) of this paragraph on the basis of the taxable years 1971 through 1974, unless the provisions of subdivision (v) of this subparagraph become applicable.

(v) *Exception for material changes in sources of support*—(A) *In general.* If for the current taxable year there are substantial and material changes in an organization's sources of support other than changes arising from unusual grants excluded under subparagraph (6)(ii) of this paragraph, then in applying subparagraph (2) or (3) of this paragraph, neither the 4-year computation period applicable to such year as an immediately succeeding taxable year or as a current taxable year shall apply, and in lieu of such computation periods there shall be applied a computation period consisting of the taxable year of substantial and material changes and the 4 taxable years immediately preceding such year. Thus, for example, if there are substantial and material changes in an organization's sources of support for taxable year 1976, then even though such organization meets the requirements of subparagraph (2) or (3) of this paragraph based on a computation period of taxable years 1971–74 or 1972–75, such an organization will not meet the requirements of section 170(b)(1)(A)(vi) unless it meets the requirements of subparagraph (2) or (3) of this paragraph for a computation period consisting of the taxable years 1972–76. See *Example 3* in § 1.509(a)–3(c)(6) for an illustration of a similar rule. An example of a substantial and material change is the receipt of an unusually large contribution or bequest which does not qualify as an unusual grant under subparagraph (6)(ii) of this paragraph. See subparagraph (6)(iv)*(b)* of this paragraph as to the procedure for obtaining a ruling whether an unusually large grant may be excluded as an unusual grant.

(B) *Status of grantors and contributors.* If as a result of *(a)* of this subdivision, an organization is not able to meet the requirements of either the 33 1/3 percent-of-support test described in subparagraph (2) of this paragraph, or the facts and circumstances test described in subparagraph (3) of this paragraph for its current taxable year, its status (with respect to a grantor or contributor under sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522) will not be affected until notice of change of status under section 170(b)(1)(A)(vi) is made to the public (such as by publication in the Internal Revenue Bulletin). The preceding sentence shall not apply, however, if the grantor or contributor was responsible for, or was aware of, the substantial and material change referred to in *(a)* of this subdivision, or acquired knowledge that the Internal Revenue Service had given notice to such organization that it would be deleted from classification as a section 170(b)(1)(A)(vi) organization.

(C) *Reliance by grantors and contributors.* A grantor or contributor, other than one of the organization's founders, creators, or foundation managers (within the meaning of section 4946(b)) will not be considered to be responsible for, or aware of, the substantial and material change referred to in *(a)* of this subdivision, if such grantor or contributor has made such grant or contribution in reliance upon a written statement by the grantee organization that such grant or contribution will not result in the loss of such organization's classification as a publicly supported organization as described in section 170(b)(1)(A)(vi). Such statement must be signed by a responsible officer of the grantee organization and must set forth sufficient information, including a summary of the pertinent financial data for the 4 preceding years, to assure a reasonably prudent man that his grant or contribution will not result in the loss of the grantee organization's classification as a publicly supported organization as described in section 170(b)(1)(A)(vi). If a reasonable doubt exists as to the effect of such grant or contribution, or if the grantor or contributor is one of the organizations' founders, creators, or foundation managers, the procedure set forth in subparagraph (6)(iv)*(b)* of this paragraph may be followed by the grantee organization for the protection of the grantor or contributor.

(vi) *Special rule for new organizations.* If an organization has been in existence for at least 1 taxable year consisting of at least 8 months, but for fewer than 5 taxable years, the number of years for which the organization has been in existence immediately preceding each current taxable year being tested will be substituted for the 4-year period described in subdivision (i) or (ii) of this subparagraph to determine whether the organization ''normally'' meets the requirements of subparagraph (2) or (3) of this paragraph. However, if subdivision (v)*(a)* of this subparagraph applies, then the period consisting of the number of years for which the organization has been in existence (up to and including the current year) will be substituted for the 4-year period described in subdivision (i) or (ii) of this subparagraph. An organization which has been in existence for at least 1 taxable year, consisting of 8 or more months, may be issued a ruling or determination letter if it ''normally'' meets the requirements of subparagraph (2) or (3) of this paragraph for the number of years described in this subdivision. Such an organization may apply for a ruling or determination letter under the provisions of this subparagraph, rather than under the provisions of subparagraph (5) of this paragraph. The issuance of a ruling or determination letter will be discretionary with the Commissioner. See subparagraph (5)(v) of this paragraph as to the initial determination of the status of a newly created organization. This subdivision shall not apply to those organizations receiving an extended advance ruling under subparagraph (5)(iv) of this paragraph.

(vii) *Special rule for organizations with existing ruling.* This subdivision shall apply to an organization that prior to January 1, 1970, had received a ruling or determination letter which has not been expressly revoked holding the organization to be a publicly supported organization described in section 170(b)(1)(A)(vi) and with respect to which the facts and circumstances on which the ruling was based have notssubstantially changed. An organization to which this subdivision applies shall be treated as an organization described in section 170(b)(1)(A)(vi) for a period not ending prior to 90 days after December 29, 1972. In addition, with respect to a grantor or contributor under sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522, the status of an organization to which this subdivision applies will not be affected until notice of change of status under section 170(b)(1)(A)(vi) is made to the public (such as by publication in the Internal Revenue Bulletin). The preceding sentence shall not apply if the grantor or contributor had previously acquired knowledge that the Internal Revenue Service had given notice to such organization that it would be deleted from classification as a section 170(b)(1)(A)(vi) organization.

(viii) *Termination of status.* For the transitional rules applicable to an organization that is unable to meet the requirements of this paragraph for its first taxable year beginning after December 31, 1969 (as extended by § 1.507–2(j)) and wishes to terminate its private foundation status, see § 1.507–2(c) (2) and (3).

(ix) *Status of ruling.* The provisions of this subparagraph do not require an organization to file a new application with the Internal Revenue Service every 2 years in order to maintain or reaffirm its status as a ''publicly supported'' organization described in section 170(b)(1)(A)(vi).

(5) *Advance rulings to newly created organizations*—(i) *In general.* A ruling or determination letter that an organization is described in section 170 (b)(1)(A)(vi) will not be issued to a newly created organization prior to the close of its first taxable year consisting of at least 8 months. However, such organization may request a ruling or determination letter that it will be treated as a section 170(b)(1)(A)(vi) organization for its first 2 taxable years (or its first 3 taxable years, if its first taxable year consists of less than 8 months). For purposes of this section, such 2- or 3-year period, whichever is applicable, shall be referred to as the advance ruling period. Such an advance ruling or determination letter may be issued if the organization can reasonably be expected to meet the requirements of subparagraph (2) or (3) of this paragraph during the advance ruling period. The issuance of a ruling or determination letter will be discretionary with the Commissioner.

(ii) *Basic consideration.* In determining whether an organization can reasonably be expected (within the meaning of subdivision (i) of this subparagraph) to meet the requirements of subparagraph (2) or (3) of this paragraph for its advance ruling period or extended advance ruling period as provided in subdivision (iv) of this subparagraph, if applicable, the basic consideration is whether its organizational structure, proposed programs or activities, and intended method of operation are such as to attract the type of broadly based support from the general public, public charities, and governmental units which is necessary to meet such tests. The information to be considered for this purpose shall consist of all pertinent facts and circumstances relating to the requirements set forth in subparagraph (3) of this paragraph.

(iii) *Status of newly created organizations*—(A) *Advance ruling.* This subdivision shall apply to a newly created organization which has received an advance ruling or determination letter under subdivision (i) of this subparagraph, or an extended advance ruling or determination letter under subdivision (iv) of this subparagraph, that it will be treated as a section 170(b)(1)(A)(vi) organization for its advance or extended advance ruling period. So long as such an organization's ruling or determination letter has not been terminated by the Commissioner before the expiration of the advance or extended advance ruling period, then whether or not such organization has satisfied the requirements of subparagraph (2) or (3) of this paragraph during such advance or extended advance ruling period, such an organization will be treated as an organization described in section 170(b)(1)(A)(vi) in accordance with (*b*) and (*c*) of this subdivision, both for purposes of the organization and any grantor or contributor to such organization.

(B) *Reliance period.* Except as provided in (*a*) and (*c*) of this subdivision, an organization described in *(a)* of this subdivision will be treated as an organization described in section 170(b)(1)(A)(vi) for all purposes other than sections 507(d) and 4940 for the period beginning with its inception and ending 90 days after its advance or extended advance ruling period. Such period will be extended until a final determination is made of such an organization's status only if the organization submits, within the 90-day period, information needed to determine whether it meets the requirements of subparagraph (2) or (3) of this paragraph for its advance or extended advance ruling period (even if such organization fails to meet the requirements of such subparagraph (2) or (3)). However, since this subparagraph does not apply to the tax imposed by section 4940, if it is subsequently determined that the organization was a private foundation from its inception, then the tax imposed by section 4940 shall be due without regard to the advance or extended advance ruling or determination letter. Consequently, if any amount of tax under section 4940 in such a case is not paid on or before the last date prescribed for payment, the organization is liable for interest in accordance with section 6601. However, since any failure to pay such tax during the period referred to in this subparagraph is due to reasonable cause, the penalty under section 6651 with respect to the tax imposed by section 4940 shall not apply.

(C) *Grantors or contributors.* If a ruling or determination letter is terminated by the Commissioner prior to the expiration of the period described in (b) of this subdivision, for purposes of sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522, the status of grants or contributions with respect to grantors or contributors to such organizations will not be affected until notice of change of status of such organization is made to the public (such as by publication of the Internal Revenue Bulletin). The preceding sentence shall not apply however, if the grantor or contributor was responsible for, or aware of, the act or failure to act that resulted in the organization's loss of classification under section 170(b)(1)(A)(vi) or acquired knowledge that the Internal Revenue Service had given notice to such organization that it would be deleted from such classification. Prior to the making of any grant or contribution which allegedly will not result in the grantee's loss of classification under section 170(b)(1)(A)(vi), a potential grantee organization may request a ruling whether such grant or contribution may be made without such loss of classification. A request for such ruling may be filed by the grantee organization with the district director. The issuance of such ruling will be at the sole discretion of the Commissioner. The organization must submit all information necessary to make a determination on the factors referred to in subparagraph (6)(iii) of this paragraph. If a favorable ruling is issued, such ruling may be relied upon by the grantor or contributor of the particular contribution in question for purposes of sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522 and by the grantee organization for purposes of subparagraph (6)(ii) of this paragraph.

(iv) *Extension of advance ruling period.* (A) The advance ruling period described in subdivision (i) of this subparagraph shall be extended for a period of 3 taxable years after the close of the unextended advance ruling period if the organization so requests, but only if such organization's request accompanies its request for an advance ruling and is filed with a consent under section 6501(c)(4) to the effect that the period of limitation upon assessment under section 4940 for any taxable year within the extended advance ruling period shall not expire prior to 1 year after the date of the expiration of the time prescribed by law for the assessment of a deficiency for the last taxable year within the extended advance ruling period. An organization's extended advance ruling period is 5 taxable years if its first taxable year consists of at least 8 months, or is 6 years if its first taxable year is less than 8 months.

(B) *Notwithstanding* (*a*) of this subdivision, an organization which has received or applied for an advance ruling prior to January 29, 1973, may file its request for the 3-year extension within 90 days from such date, but only if it files the consents required in this section.

(C) See subdivision (v) of this subparagraph for the effect upon the initial determination of status of an organization which receives a ruling for an extended advance ruling period.

(v) *Initial determination of status.* (A) The initial determination of status of a newly created organization is the first determination (other than by issuance of an advance ruling or determination letter under subdivision (i) of this subparagraph or an extended advance ruling or determination letter under subdivision (iv) of this subparagraph) that the organization will be considered as ''normally'' meeting the requirements of subparagraph (2) or (3) of this paragraph for a period beginning with its first taxable year.

(B) In the case of a new organization whose first taxable year is at least 8 months, except as provided for in subdivision (v)(*d*) of this subparagraph, the initial determination of status shall be based on a computation period of either the first taxable year or the first and second taxable years.

(C) In the case of a new organization whose first taxable year is less than 8 taxable months, except as provided for in subdivision (v)(*d*) of this subparagraph, the initial determination of status shall be based on a computation period of either the first and second taxable years or the first, second, and third taxable years.

(D) In the case of an organization which has received a ruling or determination letter for an extended advance ruling period under subdivision (iv) of this subparagraph, the initial determination of status shall be based on a computation period of all of the taxable years in the extended advance ruling period. However, where the ruling or determination letter for an extended advance ruling period under subdivision (iv) of this subparagraph is terminated by the Commissioner prior to the expiration of the relevant period described in subdivision (iii)(*b*) of this subparagraph, the initial determination of status shall be based on a computation period of the period provided in (*b*) or (*c*) of this subdivision or, if greater, the number of years to which the advance ruling applies.

(E) An initial determination that an organization will be considered as ''normally'' meeting the requirements of subparagraph (2) or (3) of this paragraph shall be effective for each taxable year in the computation period plus (except as provided by subparagraph (4)(v)(*a*) of this paragraph, relating to material changes in sources of support) the 2 taxable years immediately succeeding the computation period. Therefore, in the case of an organization referred to in (*b*) of this subdivision to which subparagraph (4)(v)(*a*) of this paragraph does not apply, with respect to its first, second, and third taxable years, such an organization shall be described in section 170(b)(1)(A)(vi) if it meets the requirements of subparagraph (2) or (3) of this paragraph for either its first taxable year or for its first and second taxable years on an aggregate basis. In addition, if it meets the requirements of subparagraph (2) or (3) of this paragraph for its first and second taxable years, it shall be described in section 170(b)(1)(A)(vi) for its fourth taxable year. Once an organization is considered as ''normally'' meeting the requirements of subparagraph (2) or (3) of this paragraph for a period specified under this subdivision, subparagraph (4) (i), (ii), (v), or (vi) of this paragraph shall apply.

(F) The provisions of this subdivision may be illustrated by the following examples:

Example 1. X, a calendar year organization described in section 501(c)(3), is created in February 1972. The support received from the public in 1972 by X will satisfy the one-third support test described in subparagraph (4)(i) of this paragraph over its first taxable year, 1972. X may therefore get an initial determination that it meets the requirements of subparagraph (2) of this paragraph for its first taxable year beginning in February 1972 and ending on December 31, 1972. This determination will be effective for taxable years 1972, 1973, and 1974.

Example 2. Assume the same facts as in *Example (1)* except that X also receives a substantial contribution from one individual in 1972 which is not excluded from the denominator of the one-third support fraction described in subparagraph (4)(i) of this paragraph by reason of the unusual grant provision of subparagraph (6)(ii) of this paragraph. Because of this substantial contribution, X fails to satisfy the one-third support test over its first taxable year, 1972. X also fails to satisfy the ''facts and circumstances'' test described in subparagraph (4)(ii) of this paragraph for its first taxable year, 1972. However, the support received from the public over X's first and second taxable years in the aggregate will satisfy the one-third support test. X may therefore get an initial determination that it meets the requirements of subparagraph (2) of this paragraph for its first and second taxable years in the aggregate beginning in February 1972 and ending on December 31, 1973. This determination will be effective for taxable years 1972, 1973, 1974, and 1975.

Example 3. Y, a calendar year organization described in section 501(c)(3), is created in July 1972. Y requests and receives an extended advance ruling period of 5 full taxable years plus its initial short taxable year of 6 months under subparagraph (5)(iv) of this paragraph. The extended advance ruling period begins in July 1972 and ends on December 31, 1977. The support received from the public over Y's first through sixth taxable years in the aggregate will satisfy the one-third support test described in subparagraph (4)(i) of this paragraph. Therefore, Y in 1978 may get an initial determination that it meets the requirements of subparagraph (2) of this paragraph in the aggregate over all the taxable years in its extended advance ruling period beginning in July 1972 and ending on December 31, 1977. This determination will be effective for taxable years 1972 through 1979.

Example 4. Assume the same facts as in *Example (3)* except that the ruling for the extended advance ruling period is terminated prospectively at the end of 1975, so that Y may not rely upon such ruling for 1976 or any succeeding year. The support received from the public over Y's first through fourth taxable years (1972 through 1975) will not satisfy either the one-third support test described in subparagraph (4)(i) of this paragraph, or the ''facts and circumstances'' test described in subparagraph (4)(ii) of this paragraph. Because the ruling was terminated the computation period for Y's initial determination of status is the period 1972 through 1975. Since Y has not met the requirements of either subparagraph (2) or (3) of this paragraph for such computation period, Y is not described in section 170(b)(1)(A)(vi) for purposes of its initial determination of status. If Y is not described in section 170(b)(1)(A) (i) through (v) or section 509(a) (2), (3), or (4), then Y is a private foundation. As of 1976, Y shall be treated as a private foundation for all purposes (except as provided in subdivision (iii)(*c*) of this subparagraph with respect to grantors and contributors), and as of July 1972 for purposes of the tax imposed by section 4940 and for purposes of section 507(d) (relating to aggregate tax benefit).

(vi) *Failure to obtain advance ruling.* (A) Unless a newly created organization has obtained an advance ruling or determination letter under subdivision (i) of this subparagraph, or an extended advance ruling or determination letter under subdivision (iv) of this subparagraph, that it will be treated as a section 170(b)(1)(A)(vi) organization for its advance or extended advance ruling period, it cannot rely upon the possibility it will meet the requirements of subparagraph (2) or (3) of this paragraph for a taxable year which begins before the close of either applicable computation period provided for in subdivision (v) *(b)* or *(c)* of this subparagraph. Therefore, such an organization, in order to avoid the risk of subsequently being determined to be a private foundation because of failure to qualify under section 170(b)(1)(A)(vi) and therefore under section 509(a)(1), may comply with the rules applicable to private foundations and may pay, for example, the tax imposed by section 4940. In that event, if the organization subsequently meets the requirements of subparagraph (2) or (3) of this paragraph for either applicable computation period, it shall be treated as a section 170(b)(1)(A)(vi) organization from its inception and, therefore, any tax imposed under chapter 42 shall be refunded and section 509(b) shall not apply.

(B) If a newly created organization fails to obtain an advance ruling or determination letter under subdivision (i) of this subparagraph, or an extended advance ruling or determination letter under subdivision (iv) of this subparagraph, and fails to meet the requirements of subparagraph (2) or (3) of this paragraph for the first applicable computation period provided for in subdivision (v) *(b)* or *(c)* of this subparagraph, see section 6651 for penalty for failure to file return and pay tax.

(6) *Definition of support; meaning of general public*—(i) *In general.* In determining whether the 33 1/3 percent-of-support test described in subparagraph (2) of this paragraph or the 10 percent-of-support limitation described in subparagraph (3)(i) of this paragraph is ''normally'' met, contributions by an individual, trust; or corporation shall be taken into account as ''support'' from direct or indirect contributions from the general public only to the extent that the total amount of the contributions by any such individual, trust, or corporation during the period described in subparagraph (4) (i), (ii), (v), or (vi) or (5)(v) of this paragraph does not exceed 2 percent of the organization's total support for such period, except as provided in subdivision (ii) of this subparagraph. Therefore, any contribution by one individual will be included in full in the denominator of the fraction determining the 33 1/3 percent-of-support or the 10 percent-of-support limitation, but will only be includible in the numerator of such fraction to the extent that such amount does not exceed 2 percent of the denominator. In applying the 2 percent limitation, all contributions made by a donor and by any person or persons standing in a relationship to the donor which is described in section 4946(a)(1) (C) through (G) and the regulations thereunder shall be treated as made by one person. The 2 percent limitation shall not

apply to support received from governmental units referred to in section 170(c)(1) or to contributions from organizations described in section 170(b)(1)(A)(vi), except as provided in subdivision (v) of this subparagraph. For purposes of subparagraphs (2), (3)(i) and (7)(ii)*(b)* of this paragraph, the term ''indirect contributions from the general public'' includes contributions received by the organization from organizations (such as section 170(b)(1)(A)(vi) organizations) which normally receive a substantial part of their support from direct contributions from the general public, except as provided in subdivision (v) of this subparagraph. See the examples in subparagraph (9) of this paragraph for the application of this subdivision.

(ii) *Exclusion of unusual grants.* For purposes of applying the 2 percent limitation described in subdivision (i) of this subparagraph to determine whether the 33 1/3 percent-of-support test in subparagraph (2) of this paragraph or the 10 percent-of-support limitation in subparagraph (3)(i) of this paragraph is satisfied, one or more contributions may be excluded from both the numerator and the denominator of the applicable percent-of-support fraction if such contributions meet the requirements of subdivision (iii) of this subparagraph. The exclusion provided by this subdivision is generally intended to apply to substantial contributions or bequests from disinterested parties which contributions or bequests:

(A) Are attracted by reason of the publicly supported nature of the organization;

(B) Are unusual or unexpected with respect to the amount thereof; and

(C) Would, by reason of their size, adversely affect the status of the organization as normally being publicly supported for the applicable period described in subparagraph (4) or (5) of this paragraph.

In the case of a grant (as defined in § 1.509(a)–3(g)) which meets the requirements of this subdivision, if the terms of the granting instrument (whether executed before or after 1969) require that the funds be paid to the recipient organization over a period of years, the amount received by the organization each year pursuant to the terms of such grant may be excluded for such year. However, no item of gross investment income may be excluded under this subparagraph. The provisions of this subparagraph shall apply to exclude unusual grants made during any of the applicable periods described in subparagraph (4), (5), or (6) of this paragraph. See subdivision (iv) of this subparagraph as to reliance by a grantee organization upon an unusual grant ruling under this subparagraph.

(iii) *Determining factors.* In determining whether a particular contribution may be excluded under subdivision (ii) of this subparagraph all pertinent facts and circumstances will be taken into consideration. No single factor will necessarily be determinative. For some of the factors similar to the factors to be considered, see § 1.509(a)–3(c)(4).

(iv) *Grantors and contributors.* (A) As to the status of grants and contributions which result in substantial and material changes in the organization (as described in subparagraph (4)(v)*(a)* of this paragraph) and which fail to meet the requirements for exclusion under subdivision (ii) of this subparagraph, see the rules prescribed in subparagraph (4)(v) *(b)* and *(c)* of this paragraph.

(B) Prior to the making of any grant or contribution which will allegedly meet the requirements for exclusion under subdivision (ii) of this subparagraph, a potential grantee organization may request a ruling whether such grant or contribution may be so excluded. Requests for such ruling may be filed by the grantee organization with the district director. The issuance of such ruling will be at the sole discretion of the Commissioner. The organization must submit all information necessary to make a determination on the factors referred to in subdivision (iii) of this subparagraph. If a favorable ruling is issued, such ruling may be relied upon by the grantor or contributor of the particular contribution in question for purposes of sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522 and by the grantee organization for purposes of subdivision (ii) of this subparagraph.

(v) *Grants from public charities.* Pursuant to subdivision (i) of this subparagraph, contributions received from a governmental unit or from a section 170(b)(1)(A)(vi) organization are not subject to the 2 percent limitation described in that subdivision unless such contributions represent amounts which have been expressly or impliedly earmarked by a donor to such governmental unit or section 170(b)(1)(A)(vi) organization as being for, or for the benefit of, the particular organization claiming section 170 (b)(1)(A)(vi) status. See §1.509(a)–3 (j)(3) for examples illustrating the rules of this subdivision.

(7) *Definition of support; special rules and meaning of terms*—(i) *Definition of support.* For purposes of this paragraph, the term *support* shall be as defined in section 509(d) (without regard to section 509(d)(2)). The term ''support'' does not include:

(A) Any amounts received from the exercise or performance by an organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a). In general, such amounts include amounts received from any activity the conduct of which is substantially related to the furtherance of such purpose or function (other than through the production of income), or

(B) Contributions of services for which a deduction is not allowable.

For purposes of the 33 1/3 percent-of-support test in subparagraph (2) of this paragraph and the 10 percent-of-support limitation in subparagraph (3)(i) of this paragraph, all amounts received which are described in *(a)* or *(b)* of this division are to be excluded from both the numerator and the denominator of the fractions determining compliance with such tests, except as provided in subdivision (ii) of this subparagraph.

(ii) *Organizations dependent primarily on gross receipts from related activities.* Notwithstanding the provisions of subdivision (i) of this subparagraph, an organization will not be treated as satisfying the 33 1/3 percent-of-support test in subparagraph (2) of this paragraph or the 10 percent-of-support limitation in subparagraph (3)(i) of this paragraph if it receives:

(A) Almost all of its support (as defined in section 509(d)) from gross receipts from related activities; and

(B) An insignificant amount of its support from governmental units (without regard to amounts referred to in subdivision (i)*(a)* of this subparagraph) and contributions made directly or indirectly by the general public.

For example X, an organization described in section 501(c)(3), is controlled by A, its president. X received $500,000 during the 4 taxable years immediately preceding its current taxable year under a contract with the Department of Transportation, pursuant to which X has engaged in research to improve a particular vehicle used primarily by the Federal Government. During this same period, the only other support received by X consisted of $5,000 in small contributions primarily from X's employees and business associates. The $500,000 amount constitutes support under section 509(d)(2) and 509(d)(2)*(a)* of this subdivision. Under these circumstances, X meets the conditions of *(a)* and *(b)* of this subdivision and will not be treated as meeting the requirements of either subparagraph (2) or subparagraph (3) of this paragraph. As to the rules applicable to organizations which fail to qualify under section 170(b)(1)(A)(vi) because of the provisions of this subdivision, see section 509(a)(2) and the regulations thereunder. For the distinction between gross receipts (as referred to in section 509(d)(2)) and gross investment income (as referred to in section 509(d)(4)), see §1.509(a)–3(m).

(iii) *Membership fees.* For purposes of this subparagraph, the term ''support'' shall include ''membership fees'' within the meaning of §1.509(a)–3(h) (that is, if the basic purpose for making a payment is to provide support for the organization rather than to purchase admissions, merchandise, services, or the use of facilities).

(8) *Support from a governmental unit.* (i) For purposes of subparagraphs (2) and (3)(i) of this paragraph, the term ''support from a governmental unit'' includes any amounts received from a governmental unit, including donations or contributions and amounts received in connection with a contract entered into with a governmental unit

for the performance of services or in connection with a Government research grant. However, such amounts will not constitute ‘‘support from a governmental unit’’ for such purposes if they constitute amounts received from the exercise or performance of the organization’s exempt functions as provided in subparagraph (7)(i)*(a)* of this paragraph.

(ii) For purposes of subdivision (i) of this subparagraph, any amount paid by a governmental unit to an organization is not to be treated as received from the exercise or performance of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a) (within the meaning of subparagraph (7)(i)*(a)* of this paragraph) if the purpose of the payment is primarily to enable the organization to provide a service to, or maintain a facility for, the direct benefit of the public (regardless of whether part of the expense of providing such service or facility is paid for by the public), rather than to serve the direct and immediate needs of the payor. For example:

(A) Amounts paid for the maintenance of library facilities which are open to the public.

(B) Amounts paid under Government programs to nursing homes or homes for the aged in order to provide health care or domiciliary services to residents of such facilities, and

(C) Amounts paid to child placement or child guidance organizations under Government programs for services rendered to children in the community, are considered payments the purpose of which is primarily to enable the recipient organization to provide a service or maintain a facility for the direct benefit of the public, rather than to serve the direct and immediate needs of the payor. Furthermore, any amount received from a governmental unit under circumstances such that the amount would be treated as a ‘‘grant’’ within the meaning of § 1.509(a)–3(g) will generally constitute ‘‘support from a governmental unit’’ described in this subdivision, rather than an amount described in subparagraph (7)(i)*(a)* of this paragraph.

(9) *Examples.* The application of subparagraphs (1) through (8) of this paragraph may be illustrated by the following examples:

Example 1. (a) M is an organization referred to in section 170(c)(2). For the years 1970 through 1973 (the applicable period with respect to the taxable year 1974 under subparagraph (4) of this paragraph), M received support (as defined in subparagraphs (6) through (8) of this paragraph) of $600,000 from the following sources:

Investment income	$300,000
City Y (a governmental unit referred to in section 170(c)(1))	40,000
United Fund (an organization referred to in section 170(b)(1)(A)(vi)	40,000
Contributions	220,000
Total support	600,000

(b) With respect to the taxable year 1974, M ‘‘normally’’ received in excess of 33 1/3 percent of its support from a governmental unit referred to in section 170(c)(1) and from direct and indirect contributions from the general public (as defined in subparagraph (6) of this paragraph) computed as follows:

33⅓ percent of total support	$200,000
Support from a governmental unit referred to in section 170(c)(1)	40,000
Indirect contributions from the general public (United Fund)	40,000
Contributions by various donors (no one having made contributions which total in excess of $12,000—2 percent of total support)	50,000
Six contributions (each in excess of $12,000—2 percent total support) 6×$12,000	72,000
	202,000

(c) Since the amount of X’s support from governmental units referred to in section 170(c)(1) and from direct and indirect contributions from the general public with respect to the taxable year 1974 ‘‘normally’’ exceeds 33 1/3 percent of M’s total support for the applicable period (1970–73), X meets the 33 1/3 percent-of-support test under subparagraph (2) of this paragraph and is therefore treated as satisfying the requirements for classification as a ‘‘publicly supported’’ organization under subparagraph (2) of this paragraph for the taxable years 1974 and 1975 (there being no substantial and material changes in the organization’s character, purposes, methods of operation, or sources of support in these years).

Example 2. N is an organization referred to in section 170(c)(2). It was created to maintain public gardens containing botanical specimens and displaying statuary and other art objects. The facilities, works of art, and a large endowment were all contributed by a single contributor. The members of the governing body of the organization are unrelated to its creator. The gardens are open to the public without charge and attract a substantial number of visitors each year. For the 4 taxable years immediately preceding the current taxable year, 95 percent of the organization's total support was received from investment income from its original endowment. N also maintains a membership society which is supported by members of the general public who wish to contribute to the upkeep of the gardens by paying a small annual membership fee. Over the 4-year period in question, these fees from the general public constituted the remaining 5 percent of the organization's total support for such period. Under these circumstances, N does not meet the 33 1/3 percent-of-support test under subparagraph (2) of this paragraph for its current taxable year. Furthermore, since only 5 percent of its total support is, with respect to the current taxable year, normally received from the general public, N does not satisfy the 10 percent-of-support limitation described in subparagraph (3)(i) of this paragraph and cannot therefore be classified as ‘‘publicly supported'' under subparagraph (3) of this paragraph. For its current taxable year, N therefore, is not an organization described in section 170(b)(1)(A)(vi). Since N has failed to satisfy the 10 percent-of-support limitation under subparagraph (3)(i) of this paragraph, none of the other requirements or factors set forth in subparagraph (3) (iii) through (vii) of this paragraph can be considered in determining whether N qualifies as a ‘‘publicly supported'' organization.

Example 3. (a) O, an art museum, is an organization referred to in section 170(c)(2). In 1930, O was founded in Y City by the members of a single family to collect, preserve, interpret, and display to the public important works of art. O is governed by a Board of Trustees which originally consisted almost entirely of members of the founding family. However, since 1945, members of the founding family or persons standing in a relationship to the members of such family described in section 4946(a)(1)(C) through (G) have annually constituted less than one-fifth of the Board of Trustees. The remaining board members are citizens of Y City from a variety of professions and occupations who represent the interests and views of the people of Y City in the activities carried on by the organization rather than the personal or private interests of the founding family. O solicits contributions from the general public and for each of its 4 most recent taxable years has received total contributions (in small sums of less than $100, none of which exceeds 2 percent of O's total support for such period) in excess of $10,000. These contributions from the general public (as defined in subparagraph (6) of this paragraph) represent 25 percent of the organization's total support for such 4-year period. For this same period, investment income from several large endowment funds has constituted 75 percent of its total support. O expends substantially all of its annual income for its exempt purposes and thus depends upon the funds it annually solicits from the public as well as its investment income in order to carry out its activities on a normal and continuing basis and to acquire new works of art. O has, for the entire period of its existence, been open to the public and more than 300,000 people (from Y City and elsewhere) have visited the museum in each of its four most recent taxable years.

(b) Under these circumstances, O does not meet the 33 1/3 percent-of-support test under subparagraph (2) of this paragraph for its current year since it has received only 25 percent of its total support for the applicable 4-year period from the general public. However, under the facts set forth above, O has met the 10 percent-of-support limitation under subparagraph (3)(i), as well as the requirements of subparagraph (3)(ii), of this paragraph. Under all of the facts set forth in this example, O is considered as meeting the requirements of subparagraph (3) of this paragraph on the basis of satisfying subparagraph (3) (i) and (ii) of this paragraph and the factors set forth in subparagraph (3) (iii), (iv), (v), and (vi) of this paragraph, and is therefore classified as a ‘‘publicly supported organization'' under subparagraph (1) of this paragraph for its current taxable year and the immediately succeeding taxable year (there being no substantial and material changes in the organization's character, purposes, methods of operation, or sources of support in these years).

Example 4. (a) In 1960, the P Philharmonic Orchestra was organized in Z City through the combined efforts of a local music society and a local women's club to present to the public a wide variety of musical programs intended to foster music appreciation in the community. P is an organization referred to in section 170(c)(2). The orchestra is composed of professional musicians who are paid by the association. Twelve performances open to the public are scheduled each year. A small admission charge is made for each of these performances. In addition, several performances are staged annually without charge. During its 4 most recent taxable years, P has received separate contributions of $200,000 each from A and B (not members of a single family) and support of $120,000 from the Z Community Chest, a public federated fundraising organization operating in Z City. P depends on these funds in order to carry out its activities and will continue to depend on contributions of this type to be made in the future. P has also begun a fundraising campaign in an attempt to expand its activities for the coming years. P is governed by a Board of Directors comprised of five individuals. A faculty member of a local college, the president of a local music society, the head of a local banking institution, a prominent doctor, and a member of the governing body of the local chamber of commerce currently serve on the Board and represent the interests and views of the community in the activities carried on by P.

(b) With respect to P's current taxable year, P's sources of support are computed on the basis of the 4 immediately preceding years, as follows:

Contributions	$520,000
Receipts from performances	100,000
Total support	620,000
Less:	
Receipts from performances (excluded under subparagraph (7)(i)(*a*) of this paragraph)	100,000
Total support for purposes of subparagraphs (2) and (3)(i) of this paragraph	520,000

(c) For purposes of subparagraphs (2) and (3)(i) of this paragraph, P's support is computed as follows:

Z Community Chest (indirect support from the general public)	$120,000
Two contributions (each in excess of $10,400—2 percent of total support) 2×$10,400	20,800
Total	140,800

(d) P's support from the general public, directly and indirectly, does not meet the 33 1/3 percent-of-support test under subparagraph (2) of this paragraph ($140,800/$520,000=27 percent of total support). However, since P receives 27 percent of its total support from the general public, it meets the 10 percent-of-support limitation under subparagraph (3)(i) of this paragraph. P also meets the requirements of subparagraph (3)(ii) of this paragraph. As a result of satisfying these requirements and the factors set forth in subparagraph (3) (iii), (iv), (v), and (vi) of this paragraph, P is considered as meeting the requirements of subparagraph (3) of this paragraph and is therefore considered to be a ''publicly supported'' organization under subparagraph (1) of this paragraph.

(e) If, instead of the above facts, P were a newly created organization, P could obtain a ruling pursuant to subparagraph (5) of this paragraph by reason of its purposes, organizational structure and proposed method of operation. Even if P had initially been founded by the contributions of a few individuals, such fact would not, in and of itself, disqualify P from receiving a ruling under subparagraph (5) of this paragraph.

Example 5. (a) Q is an organization referred to in section 170(c)(2). It is a philanthropic organization founded in 1965 by A for the purpose of making annual contributions to worthy charities. A created Q as a charitable trust by the transfer of $500,000 worth of appreciated securities to Q.

Pursuant to the trust agreement, A and two other members of his family are the sole trustees and are vested with the right to appoint successor trustees. In each of its four most recent taxable years, Q received $15,000 in investment income from its original endowment. Each year Q makes a solicitation for funds by operating a charity ball at A's residence. Guests are invited and requested to make contributions of $100 per couple. During the 4-year period involved, $15,000 was received from the proceeds of these events. A and his family have also made contributions to Q of $25,000 over the course of the organization's 4 most recent taxable years. Q makes disbursements each year of substantially all of its net income to the public charities chosen by the trustees.

(b) With respect to Q's current taxable year, Q's sources of support are computed on the basis of the 4 immediately preceding years as follows:

Investment income	$60,000
Contributions	40,000
Total support	100,000

(c) For purposes of subparagraphs (2) and (3)(i) of this paragraph, Q's support is computed as follows:

Contributions from the general public	$15,000
One contribution (in excess of $2,000—2 percent of total support) 1×$2,000	2,000
Total	17,000

(d) Q's support from the general public does not meet the 33 1/3 percent-of-support test under subparagraph (2) of this paragraph ($17,000/$100,000=17 percent of total support). Thus, Q's classification as a ''publicly supported'' organization depends on whether it meets the requirements of subparagraph (3) of this paragraph. Even though it satisfies the 10 percent-of-support limitation under subparagraph (3)(i) of this paragraph, its method of solicitation makes it questionable whether Q satisfies the requirements of subparagraph (3)(ii) of this paragraph. Because of its method of operating, Q also has a greater burden of establishing its publicly supported nature under subparagraph (3)(iii) of this paragraph. Based upon the foregoing and upon Q's failure to receive favorable consideration under the factors set forth in subparagraph (3) (iv), (v), and (vi) of this paragraph, Q does not satisfy the requirements of subparagraph (3) of this paragraph as a ''publicly supported'' organization.

(e) If, instead of the above facts, Q were a newly created organization, Q would not be able to receive a ruling pursuant to subparagraph (5) of this paragraph. Its purposes, organizational structure, and method of operation would be insufficient to establish that Q could reasonably be expected to meet the requirements of subparagraph (2) or (3) of this paragraph for its first 2 or its first 5 taxable years.

(10) *Community trusts; introduction.* Community trusts have often been established to attract large contributions

of a capital or endowment nature for the benefit of a particular community or area, and often such contributions have come initially from a small number of donors. While the community trust generally has a governing body comprised of representatives of the particular community or area, its contributions are often received and maintained in the form of separate trusts or funds, which are subject to varying degrees of control by the governing body. To qualify as a ‘‘publicly supported’’ organization, a community trust must meet the 33 1/3 percent-of-support test of paragraph (e)(2) of this section, or, if it cannot meet that test, be organized and operated so as to attract new and additional public or governmental support on a continuous basis sufficient to meet the facts and circumstances test of paragraph (e)(3) of this section. Such facts and circumstances test includes a requirement of attraction of public support in paragraph (e)(3)(ii) of this section which, as applied to community trusts will generally satisfied, if they seek gifts and bequests from a wide range of potential donors in the community or area served, through banks or trust companies, through attorneys or other professional persons, or in other appropriate ways which call attention to the community trust as a potential recipient of gifts and berquests made for the benefit of the community or area served. A community trust is not required to engage in periodic, community-wide, fund-raising campaigns directed toward attracting a large number of small contributions in a manner similiar to campaigns conducted by a community chest or united fund. Paragraph (e) (12) and (13) of this section provide a transitional ruling period for certain community trusts in existence before November 11, 1976 that had irregular public support, so that they can meet the requirements of paragraph (e) (2) or (3) of this section based on the 4-year computation period described in paragraph (e)(4) of this section. Paragraph (e)(11) of this section provides rules for determining the extent to which separate trusts or funds may be treated as component parts of a community trust, fund or foundation (herein collectively referred to as a ‘‘community trust’’, and sometimes referred to as an ‘‘organization’’) for purposes of meeting the requirements of this paragraph for classification as a ‘‘publicly supported’’ organization. Paragraph (e)(14) of this section contains rules for trusts or funds which are prevented from qualifying as component parts of a community trust by paragraph (e)(11) of this section.

(11) *Community trusts; requirements for treatment as a single entity*—(i) *General rule.* For purposes of sections 170, 501, 507, 508, 509, and Chapter 42, any organization that meets the requirements contained in paragraph (e)(11) (iii) through (iv) of this section will be treated as a single entity, rather than as an aggregation of separate funds, and except as otherwise provided, all funds associated with such organization (whether a trust, not-for-profit corporation, unincorporated association, or a combination thereof) which meet the requirements of paragraph (e)(11)(ii) of this section will be treated as component parts of such organization.

(ii) *Component part of a community trust.* In order to be treated as a component part of a community trust referred to in paragraph (e)(11) of this section (rather than as a separate trust or not-for-profit corporation or association) a trust or fund:

(A) Must be created by a gift, bequest, legacy, devise, or other transfer to a community trust which is treated as a single entity under paragraph (e)(11) of this section; and

(B) May not be directly or indirectly subjected by the transferor to any material restriction or condition (within the meaning of §1.507–2(a)(8) with respect to the transferred assets.

For purposes of paragraph (e)(11)(ii)(B) of this section, if the transferor is not a private foundation, the provisions of §1.507–2(a)(8) shall be applied to the trust or fund as if the transferor were a private foundation established and funded by the person establishing the trust or fund and such foundation transferred all its assets to the trust or fund. Any transfer made to a fund or trust which is treated as a component part of a community trust under paragraph (e)(11)(ii) of this section will be treated as a transfer made ‘‘to’’ a ‘‘publicly supported’’ community trust for purposes of section 170(b)(1)(A) and 507(b)(1)(A) if such community trust meets the requirements of section 170(b)(10(A)(vi) as a ''publicly supported'' organization at the time of the transfer, except as provided in § 1.170A–9(e)(4)(v)(*b*) or § 1.508–1(b) (4) and (6) (relating, generally, to reliance by grantors and contributors). See, also, paragraph (e)(14) (ii) and (iii) of this section for special provisions relating to split-interest trusts and certain private foundations described in section 170(b)(1)(E)(iii).

(iii) *Name.* The organization must be commonly known as a community trust, fund, foundation or other similar name conveying the concept of a capital or endoment fund to support charitable activities (within the meaning of section 170(c)(1) or (2)(B)) in the community or area it serves.

(iv) *Common instrument.* All funds of the organization must be subject to a common governing instrument or a master trust or agency agreement (herein referred to as the ''governing instrument''), which may be embodied in a single document or several documents containing common language. Language in an instrument of transfer to the community trust making a fund subject to the community trust's governing instrument or master trust or agency agreement will satisfy the requirements of paragraph (e)(11)(iv) of this section. In addition, if a community trust adopts a new governing instrument (or creates a corporation) to put into effect new provisions (applying to future transfers to the community trust), the adoption of such new governing instrument (or creation of a corporation with a governing instrument) which contains common language with the existing governing instrument shall not preclude the community trust from meeting the requirements of such paragraph (e)(11)(iv).

(v) *Common governing body.* (A) The organization must have a common governing body or distribution committee (herein referred to as the ''governing body'') which either directs or, in the case of a fund designated for specified beneficiaries, monitors the distribution of all of the funds exclusively for charitable purposes (within the meaning of section 170(c) (1) or (2)(B)). For purposes of this (v) a fund is designated for specified beneficiaries only if no person is left with the discretion to direct the distribution of the fund.

(B) *Powers of modification and removal.* Except as provided in paragraph (e)(11)(v)(C) of this section, the governing body must have the power in the governing instrument, the instrument of transfer, the resolutions or bylaws of the governing body, a written agreement, or otherwise—

(1) To modify any restriction or condition on the distribution of funds for any specified charitable purposes or to specified charitable purposes or to specified organizations if in the sole judgment of the governing body (without the necessity of the approval of any participating trustee, custodian, or agent), such restriction or condition becomes, in effect, unnecessary, incapable of fulfillment, or inconsistent with the charitable needs of the community or area served;

(2) To replace any participating trustee, custodian, or agent for breach of fiduciary duty under State law; and

(3) To replace any participating trustee, custodian, or agent for failure to produce a reasonable (as determined by the governing body) return of net income (within the meaning of paragraph (e)(11)(v)(F) of this section) over a reasonable period of time (as determined by the governing body).

The fact that the exercise of any such power in paragraph (e)(11)(v)(B) *(1), (2)* or *(3)* of this section is reviewable by an appropriate State authority will not preclude the community trust from meeting the requirements of paragraph (e)(11)(v)(B) of this section.

(C) *Transitional rule. (1)* Notwithstanding paragraph (e)(11)(v)(B) of this section, if a community trust meets the requirements of paragraph (e)(11)(v)(C)*(2)* of this section, then in the case of any instrument of transfer which is executed before July 19, 1977 and is not revoked or amended thereafter (with respect to any dispositive provision affecting the transfer to the community trust), and in the case of any instrument of transfer which is irrevocable on January 19, 1982, the governing body must have the power to cause proceedings to be instituted (by request to the appropriate State authority):

(i) To modify any restriction or condition on the distribution of funds for any specified charitable purposes or to specified organizations if in the judgment of the governing body such restriction or condition becomes, in effect, unnecessary, incapable of fulfillment, or inconsistent with the charitable needs of the community or area served; and *(ii)* To remove any participating trustee, custodian, or agent for breach of fiduciary duty under State law.

The necessity for the governing body to obtain the approval of a participating trustee to exercise such a power shall be treated as not preventing the governing body from having such power, unless (and until) such approval has been (or is) requested by the governing body and has been (or is) denied.

(*2*) Paragraph (e)(11)(v)(C)(*1*) of this section shall not apply unless the community trust meets the requirements of paragraph (e)(11)(v)(B) of this section, with respect to funds other than those under instruments of transfer described in the first sentence of such paragraph (e)(11)(v)(C)(*1*), by January 19, 1978, or such later date as the Commissioner may provide for such community trust, and unless the community trust does not, once it so complies, thereafter solicit for funds that will not qualify under the requirements of such paragraph (e)(11)(v)(B).

(D) *Inconsistent State law. (1)* For purposes of paragraph (e)(11)(v)(B) *(1), (2),* or *(3)* or (C)(*1*) *(i)* or (*ii*) or (E) of this section, if a power described in such a provision is inconsistent with State law even if such power were expressly granted to the governing body by the governing instrument and were accepted without limitation under an instrument of transfer, then the community trust will be treated as meeting the requirements of such a provision if it meets such requirements to the fullest extent possible consistent with State law (if such power is or had been so expressly granted).

(2) For example, if, under the conditions of paragraph (e)(11)(v)(D)(*1*) of this section, the power to modify is inconsistent with State law, but the power to institute proceedings to modify if so expressly granted, would be consistent with State law, the community trust will be treated as meeting such requirements to the fullest extent possible if the governing body has the power (in the governing instrument or otherwise) to institute proceedings to modify a condition or restriction. On the other hand, if in such a case the community trust has only the power to cause proceedings to be instituted to modify a condition or restriction, it will not be treated as meeting such requirements to the fullest extent possible.

(3) In addition, if, for example, under the conditions of paragraph (e)(11)(v)(D)(*1)* of this section, the power to modify and the power to institute proceedings to modify a condition or restriction is inconsistent with State law, but the power to cause such proceedings to be instituted would be consistent with State law, if it were expressly granted in the governing instrument and if the approval of the State Attorney General were obtained, then the community trust will be treated as meeting such requirements to the fullest extent possible if it has the power (in the governing instrument or otherwise) to cause such proceedings to be instituted, even if such proceedings can be instituted only with the approval of the State Attorney General.

(E) *Exercise of powers.* The governing body shall (by resolution or otherwise) commit itself to exercise the powers described in paragraph (e)(11)(v) (B), (C) and (D) of this section in the best interests of the community trust. The governing body will be considered not to be so committed where it has grounds to exercise such a power and fails to exercise it by taking appropriate action. Such appropriate action may include, for example, consulting with the appropriate State authority prior to taking action to replace a participating trustee.

(F) *Reasonable return.* In addition to the requirements of paragraph (e)(11)(v) (B), (C), (D) or (E) of this section, the governing body shall (by resolution or otherwise) commit itself to obtain information and take other appropriate steps with the view to seeing that each participating trustee, custodian, or agent, with respect to each restricted (within the meaning of paragraph (e)(13)(x) of this section) trust or fund that is, and with respect to the aggregate of the unrestricted trusts or funds that are, a component part of the community trust, administers such trust or fund in accordance with the terms of its governing instrument and accepted standards of fiduciary conduct to produce a reasonable return of net income (or appreciation where not inconsistent with the community trust's need for current income), with due regard to safety of principal, in furtherance of the exempt purposes of the community trust (except for assets held for the active conduct of the community trust's exempt activities). In the case of a low return of net income (and, where appropriate, appreciation), the Internal Revenue Service will examine carefully whether the governing body has, in fact, committed itself to take the appropriate steps.

(vi) *Common reports.* The organization must prepare periodic financial reports treating all of the funds which are held by the community trust, either directly or in component parts, as funds of the organization.

(vii) *Transitional rule.* If the governing instrument of a community trust (or an instrument of transfer) is inconsistent with the requirements of paragraph (e)(11) (iv) or (v) of this section but with respect to gifts or bequests acquired before January 1, 1982, the community trust changes its governing instrument (or instrument of transfer) by the later of November 11, 1977, or one year after the gift or bequest is acquired, in order to conform such instruments to such provisions, then such an instrument shall be treated as consistent with paragraph (e)(11) (iv) or (v) of this section for taxable years beginning after December 31, 1969. In addition, if prior to the later of such dates, the organization has instituted court proceedings in order to conform such an instrument, then it may apply (prior to the later of such dates) for an extension of the period to conform such instrument to such provisions. Such application shall be made to the Commissioner of Internal Revenue, Attention: E:EO, Washington, DC 20224. The Commissioner, at the Commissioner's discretion, may grant such an extension, if in the Commissioner's opinion such a change will conform the instrument to such provisions and will be made within a reasonable time.

(12) *Community trusts qualifying for 5-year transitional ruling period*—(i) *In general.* Paragraph (e) (12) and (13) of this section contain transitional rules for certain community trusts in existence before November 11, 1976 which are unable to meet the requirements of paragraph (e) (2) or (3) of this section based upon a 4-year computation period under paragraph (e)(4) of this section. A community trust that satisfies the requirements of paragraph (e)(12)(ii) of this section will be eligible for a transitional ruling or determination letter that it will be treated as a section 170(b)(1)(A)(vi) organization for a 5-year transitional ruling period (referred to in this section as ''transitional ruling or determination letter''). These transitional rules apply to:

(A) A community trust which has been in existence less than 9 taxable years before November 11, 1976; and

(B) Other community trusts that for each taxable year beginning after December 31, 1969, and before January 1, 1978, qualify as ''publicly supported'' under paragraph (e) (2) or (3) of this section based upon a computation period of either:

(1) 10 taxable years, or

(2) The number of taxable years (but not more than 20 nor less than 10) preceding such taxable year that the organization was in existence.

For special rules in applying the requirements of paragraph (e) (2) or (3) of this section based upon such computation periods, see paragraph (e)(12)(v) of this section. For purposes of paragraph (e)(12) of this section the initial taxable year of the 5-year transitional ruling period (hereinafter referred to as the ''transitional ruling period'') shall be the organization's taxable year beginning in 1977, and (unless terminated earlier) the last year of the transitional ruling period is the organization's taxable year which begins in 1981.

(ii) *Transitional 5-year ruling.* (A) If a community trust meets the requirements of paragraph (e) (11), (12) and (13) of this section and can reasonably be expected to meet the requirements of paragraph (e) (2) or (3) of this section:

(1) For each of its taxable years (if such a year begins after its tenth taxable year) beginning in 1978, 1979, 1980 and 1981 based upon a 10-year computation period, and

(2) For its taxable year beginning in 1982 based upon a 4-year computation period under paragraph (e)(4) of this section;

it may, at the discretion of the Commissioner, receive a transitional ruling or determination letter for the transitional ruling period.

(B)*(1)* However, if for the taxable year beginning in 1977, a community trust can meet the requirements of paragraph (e)(12)(i)(B) of this section only by using the computation period of its existence described in paragraph (e)(12)(i)(B)*(2)* of this section, then the community trust may meet the requirements of paragraph (e)(12)(ii)(A)*(1)* of this section if it is reasonably expected to meet the requirements of paragraph (e) (2) or (3) of this section for each of its taxable years beginning in 1978, 1979, 1980 and 1981 based upon a computation period consisting of the number of taxable years (but not more than 20 nor less than 10) preceding such taxable year that the organization was in existence.

(2) In the case of a community trust that will not have been in existence more than ten taxable years as of its taxable year beginning in 1981, a transitional ruling or determination letter for the transitional ruling period will not be granted unless the community trust can reasonably be expected to meet the requirements of paragraph (e) (2) or (3) of this section for its taxable year beginning in 1982 based upon a 4-year computation period under paragraph (e)(4) of this section and also a computation period consisting of the taxable years the organization has been in existence (other than the organization's taxable year beginning in 1982).

(C) A community trust that is eligible for a transitional ruling or determination letter must apply with the district director for such ruling or determination letter within one year after November 11, 1976. A transitional ruling or determination letter will be granted only if the requesting organization files with its request for such ruling or determination letter a consent letter under section 6501(c)(4) to the effect that the period of limitation upon assessment under section 4940 for all taxable years beginning before January 1, 1982 during the transitional ruling period shall not expire prior to 1 year after the date of the expiration of the time prescribed by law for the assessment of a deficiency for its taxable year beginning in 1981. The provisions of paragraph (e)(5)(iii) of this section (relating to reliance upon ruling) shall apply with respect to a community trust which receives a transitional ruling or determination letter and with respect to its grantors and contributors, expect that the transitional ruling period described in paragraph (e)(12)(ii) of this section shall be substituted for the advance ruling period described in paragraph (e)(5) (i) or (iv) of this section.

(D) A community trust does not have to meet the requirements of paragraph (e)(13) of this section for taxable years beginning prior to the date of its application for a transitional ruling or determination letter or for any taxable year beginning after the expiration or termination of its transitional ruling or determination letter. In applying paragraph (e)(13) of this section to organizations applying for a transitional ruling or determination letter, paragraph (e)(13) (x) and (xii) of this section (relating to unrestricted gifts and excess holdings, respectively) shall be applied without regard to assets acquired prior to November 11, 1976. In addition, if within 1 year from acquiring any asset, the community trust removes any restriction inconsistent with paragraph (e)(13) of this section, such asset shall be treated as if it were not subject to such restriction as of the time it was acquired. Since under paragraph (e)(12)(ii)(D) of this section, a community trust does not have to meet the requirements of paragraph (e)(13) of this section for taxable years beginning prior to the date of its application for the transitional ruling or determination letter, then if the community trust makes such application in its taxable year beginning 1977 and it terminates such ruling or determination letter in such year as well, such a community trust does not have to meet such requirements for any taxable year.

(E) After the transitional ruling or determination letter of an organization has expired or been terminated under paragraph (e)(12)(iii) of this section, the organization must qualify as a ''publicly supported'' organization pursuant to the rules set forth in paragraph (e) (1) through (11) of this section. Thus, since the transitional ruling period of a community trust expires with its taxable year beginning in 1981, for its taxable year beginning in 1982 and thereafter, the community trust must meet the requirements of paragraph (e) (2) or (3) of this section based upon the 4-year computation period under paragraph (e)(4) of this section.

(iii) *Termination of transitional ruling.* (A) The transitional ruling or determination letter issued under this paragraph is subject to termination under paragraph (e)(12)(iii) (B) or (D) of this section without a request from the organization. In addition, such a ruling or determination letter is subject to termination under paragraph (e)(12)(iii)(E) of this section at the request of the organization. A transitional ruling or determination letter is subject to termination for any taxable year beginning after December 31, 1976, and before January 1, 1982, under paragraph (e)(12)(iii) (B), (D) or (E) of this section.

(B) The transitional ruling or determination letter issued under this paragraph shall be terminated for any taxable year (if such a year begins after its tenth taxable year) beginning in 1978, 1979, 1980 or 1981 for which a community trust receiving such a ruling or determination letter fails to meet the requirements of paragraph (e) (2) or (3) of this section for a 10-year computation period, except as provided in paragraph (e)(12)(iii)(C) of this section.

(C) In applying paragraph (e)(12)(iii)(B) of this section to a community trust described in paragraph (e)(12)(ii)(B)*(1)* of this section, a computation period consisting of the number of taxable years (but not more than 20 nor less than 10) preceding such taxable year that the organization has been in existence shall be substituted for the 10-year computation period until the first taxable year beginning in 1978, 1979, 1980 or 1981 that the community trust can meet the requirements of paragraph (e) (2) or (3) of this section based upon a 10-year computation period.

(D) The Commissioner may, at the discretion of the Commissioner, terminate the transitional ruling or determation letter of any community trust for any taxable year beginning prior to January 1, 1982, for which the organization fails to meet the requirements of paragraph (e) (11), (12) or (13) of this section as provided in paragraph (e)(12)(ii) of this section.

(E) A community trust may request an immediate termination of the community trust's transitional ruling or determination letter in order that, for the current taxable year, it may be determined if such community trust meets the requirements of paragraph (e) (2) or (3) of this section based upon a 4-year computation period under paragraph (e)(4) of this section. Such a request shall be granted and the transitional ruling or determination letter terminated only if the community trust meets such requirements, and in the case of an organization that has been in existence less than 11 taxable years at the time of such request, the organization also meets the requirements of paragraph (e) (2) or (3) of this section for the computation period consisting of the taxable years that the organization has been in existence.

(iv) *Initial determination of status.* (A) The initial determination of status of a community trust is the first determination (other than by issuance of an advance ruling or determination letter under paragraph (e)(5) or a transitional ruling or determination letter under paragraph (e)(12)(ii) of this section) that the community trust will be considered as ''normally'' meeting the requirements of paragraph (e) (2) or (3) of this section for a period beginning with its first taxable year.

(B)*(1)* In the case of a community trust described in paragraph (e)(12)(i)(B) of this section, the initial determination of status shall be made for the community trust's taxable year beginning in 1977 if such community trust has met the requirements of paragraph (e) (2) or (3) of this section for its taxable year beginning in 1977, based upon a 10-year computation period.

(2) In the case of any other community trust described in paragraph (e)(12)(i)(B) of this section (but not described in paragraph (e)(12)(iv) (B)*(1)* of this section), the initial determination of status shall be made for its first taxable year beginning after December 31, 1976 and before January 1, 1982, for which it meets the requirements of paragraph (e) (2) or (3) of this section based upon a 10-year computation period (if the community trust has received a transitional ruling or determination letter that has not been terminated before such taxable year).

(C) In the case of a community trust described in paragraph (e)(12)(i)(A) of this section (relating to an organization in existence less than 9 taxable years) that reaches its 11th taxable year before its taxable year beginning in 1982, its initial determination of status a 10-year computation period (if it has received a transitional ruling or determination letter that has not been terminated before such taxable year).

(D) If a community trust has not received an initial determination of status shall be for its 11th taxable year based upon prior to the expiration or termination of its transitional ruling period, the initial determination of status shall be made:

(1) In the case of an expiration, for the taxable year beginning in 1982, or

(2) In the case of a termination, for the last taxable year of the terminated transitional period.

Based upon a 4-year computation period under paragraph (e)(4) of this section. In the case of an organization that has been in existence less than 11 taxable years at such time, the initial determination of status shall also be based upon a computation period consisting of the taxable years it has been in existence. For example, if the initial determination of status (for an organization that has been in existence for at least 11 taxable years) is made for its taxable year beginning in 1982, then, except as provided in paragraph (e)(4)(v) of this section (relating to exception for material changes of support), such determination shall be based upon a 4-year computation period ending with the taxable year beginning in 1980 or 1981 (treating the taxable year beginning in 1982, as the subsequent year or current year, respectively).

On the other hand, if, for example, the transitional ruling or determination letter is terminated in the taxable year beginning in 1980, then, except as provided in such paragraph (e)(4)(v), the initial determination of status shall be made for the taxable year beginning in 1980 based upon the 4-year computation period ending with the taxable year beginning in 1978 or 1979.

(v) *Special rules*—(A) Consequences of organization failing to meet requirements at end of transitional period. If upon the expiration (or termination) of the transitional period an organization with a transitional ruling or determination letter fails to meet the requirements of paragraph (e) (2) or (3) of this section based upon the 4-year computation period of paragraph (e)(4) of this section, it shall not be treated as an organization described in section 170(b)(1)(A)(vi) for its taxable year beginning in 1982 (or for the last taxable year of its terminated transitional period, as the case may be). If, by reason of failing to qualify as an organization described in section 170(b)(1)(A)(vi), such organization becomes a private foundation, then the organization will be a private foundation for its taxable year beginning in 1982 (or the last taxable year of its terminated transitional period, as the case may be) and all subsequent taxable years, unless and until it terminates its status under section 507. In addition, such an organization is a private foundation for all taxable years beginning prior to its taxable year beginning in 1982 (or for the last taxable year of the terminated transition period, as the case may be), except:

(1) That if the organization had received an initial determination of status that it met the requirements of paragraph (e) (2) or (3) of this section, then the organization will be treated as ''publicly supported'' for the taxable

years to which the initial determination of status is effective, as well as for all taxable years beginning after the last of such years and before January 1, 1982, for which the organization consecutively meets the requirements of paragraph (e) (2) or (3) of this section based upon a 10-year computation period,

(2) That in the case of an organization that has reached its tenth taxable year of existence before January 1, 1970, if the organization has not received an initial determination of status prior to its taxable year beginning in 1982, then the organization will be treated as ''publicly supported'' for each taxable year beginning before January 1, 1977, that the organization, beginning with the taxable year beginning in 1970, consecutively met the requirements of paragraph (e) (2) or (3) of this section based upon a 10-year computation period, or

(3) That in the case of an organization whose 11th taxable year of its existence began after December 31, 1970 and before January 1, 1977, if the organization has not received an initial determination of status prior to its taxable year beginning in 1982, but the organization for its 11th taxable year of existence met the requirements of paragraph (e) (2) or (3) of this section based upon a 10-year computation period, then the organization will be treated as ''publicly supported'' for the first 12 taxable years of its existence. In addition, such an organization will be so treated for its 13th taxable year and each subsequent taxable year (if such a year begins before January 1, 1977) that the organization, beginning with its 12th taxable year, consecutively met the requirements of paragraph (e) (2) or (3) of this section based upon a 10-year computation period.

(4) To the extent provided in paragraph (e)(4)(vii) of this section (relating to special rule for organization with existing rulings), § 1.508–1(b) (relating to notice that an organization is not a private foundation) or § 1.509(a)–7 (relating to reliance by grantors and contributors to section 509(a) (1), (2), and (3) organizations).

(B) *Computation period.* In applying the requirements of paragraph (e) (2) or (3) of this section to a 10-year or other computation period under paragraph (e) (12) or (13) of this section, such 10-year or other computation period shall be substituted for the 4-year computation period of paragraph (e)(4) of this section. Thus, for example, an organization will (except as provided in paragraph (e)(4)(v) of this section relating to exemption for material changes in sources of support) meet the ''publicly supported'' test of this paragraph for the taxable year beginning in 1977 based upon a 10-year computation period, if it met the requirements of paragraph (e) (2) or (3) of this section for a computation period consisting of either the taxable years beginning in the years 1966 through 1975 or the years 1967 through 1976, since under paragraph (e)(4) of this section, meeting the requirements for a computation period is effective for the current taxable year and the immediately succeeding taxable year. However, in substituting a 10-year or other computation period for the 4-year computation period of paragraph (e)(4) of this section, the rules of such paragraph (e) (4) and (6) apply, including the 2-percent limitation under paragraph (e)(6)(i) of this section and the exclusion for unusual grants under paragraph (e)(6)(ii) of this section. In applying such provisions, the fact that the computation period is other than a 4-year computation period shall be taken into account, so that, for example, the 2-percent limitation shall be applied, in the case of a 10-year computation period, with reference to 2 percent of the organization's total support for the 10-year computation period rather than a 4-year computation period.

In addition, in substituting a 10-year or other computation period for purposes of paragraph (e)(3) of this section, all of the facts and circumstances referred to in such paragraph (e)(3) shall be considered with respect to such period, viewing such period as a whole. See, also, paragraph (e)(10) of this section with respect to the organization being organized and operated to attract public support.

(C) *First taxable year of less than 8 months.* In the case of an organization whose first taxable year consisted of less than 8 months, in order to coordinate the rules of paragraph (e)(12) of this section with the rules of paragraph (e)(5) of this section, in applying the rules of paragraph (e)(12) of this section, such an organization shall be treated as organized at the beginning of its succeeding taxable year, so that such succeeding taxable year shall be treated as its first taxable year of existence. However, the support received for the period preceding such succeeding taxable year shall be taken into account with the support received in such succeeding taxable year.

(13) *Community trusts; requirements for 5-year transitional ruling period*—(i) *In general.* In order for a community trust to be eligible for a transitional ruling or determination letter for the transitional ruling period under paragraph (e)(12) of this section, it must establish that it is organized, and will be operated, in such manner that it can reasonably be expected to meet the requirements of paragraph (e)(13) of this section, and can reasonably be expected to meet the requirements of paragraph (e) (2) or (3) of this section, for each taxable year during and immediately following the transitional ruling period, as provided in paragraph (e)(12)(ii) of this section. In determining whether an organization can reasonably be expected to meet the requirements of paragraph (e) (2) or (3) of this section for each such taxable year, the basic consideration is whether its organizational structure, proposed programs or activities, and intended method of operation are such as to attract the type of broadly based support from the general public, public charities, and governmental units which is necessary to meet such tests. The information to be considered for this purpose shall consist of all pertinent facts and circumstances relating to the requirements set forth in paragraph (e)(3) of this section. For purposes of meeting the requirements of paragraph (e)(13) of this section, a community trust may, prior to its application for a transitional ruling or determination letter under paragraph (e)(12)(i)(C) of this section, adopt a resolution stating that, as a matter of policy, it will attempt to meet the conditions set forth in paragraph (e)(13) of this section during the transitional ruling period. A community trust will not be treated as failing to satisfy the requirements of paragraph (e)(13) of this section merely because the governing body, or any of its trustees, agents, or custodians, fails to meet one or more of the requirements contained in paragraph (e)(13) (ii) through (xiii) of this section by reason of isolated and nonrepetitive acts. However, any continuing pattern on the part of the governing body, or its trustees, agents or custodians, indicating a continued and repetitive failure to comply with a policy of meeting such requirements will result in termination of the transitional ruling or determination letter under paragraph (e)(12)(iii)(D) of this section.

(ii) *Area.* The community trust is organized and operated exclusively to carry out charitable purposes (within the meeting of section 170(c) (1) or (2)(B)) primarily within a broad geographical area which it serves, such as a municipality, county, metropolitan area, State or region.

(iii) *General composition of governing body.* The governing body must represent the board interests of the public rather than the personal or private interests of a limited number of donors. An organization will be treated as meeting this requirement if it has a governing body comprised of public officials acting in their capacities as such; individuals selected by public officials acting in their capacities as such; persons having special knowledge or expertise in a particular field or discipline in which the community trust operates; community leaders, such as elected or appointed officials, clergymen, educators, civic leaders; or other such persons representing a broad cross-section of the views and interests of the area served.

(iv) *Rules for governing body.* With respect to terms of office beginning after the date of the application of the community trust for a transitional ruling or determination letter:

(A) Its governing body is comprised of members who may serve a period of not more than ten consecutive years;

(B) Upon completion of a period of service (beginning before or after such date) no person may serve within a period consisting of the lesser of 5 years or the number of consecutive years the member has immediately completed serving;

(C) Persons who would be described in section 4946(a)(1) (A) or (C) through (G) if the community trust were a private foundation do not constitute more than one-third of its governing body; and

(D) Representatives of banks or trust companies which serve as trustees, investment managers, custodians, or agents, plus persons described in paragraph (e)(13)(iv)(C) of this section, do not constitute a majority of the governing body.

No term of office beginning on or before the date of such application may continue for more than 10 years from such date.

(v) *Fiduciary responsibility.* Fiduciary responsibility with respect to the funds of the community trust is imposed, either by the master trust or agency agreement or by State law, on either its governing body or its trustee banks or trust companies or both.

(vi) *Ultimate control of assets.* Neither its governing body, nor any of its trustees, investment managers, custodians or agents may be subjected by any donor to the community trust to any material condition or restriction within the meaning of §1.507–2(a)(8) which would prevent it from exercising ultimate control over its assets.

(vii) *Administration.* Administration and investment of all gifts and bequests are accomplished through:

(A) A governing body which directly holds, administers or invests such gifts and bequests exclusively for charitable purposes;

(B) Banks or trust companies (acting or appointed as trustees), investment managers, custodians or agents of the community trust or one or more components thereof; or

(C) A combination of such persons.

(viii) *Annual distributions.* It makes annual distributions for purposes described in section 170(c) (1) or (2)(B), including administrative expenses and amounts paid to acquire an asset used (or held for use) directly in carrying out one or more of such purposes, in an amount not less than its adjusted net income (as defined in section 4942(f)). For purposes of paragraph (e)(13)(viii) of this section, the term ‘‘distributions’’ shall include amounts set aside for a specific project, but only if prior to making the set-aside the organization has, pursuant to a request for a ruling, established to the satisfaction of the Commissioner that:

(A) The amount will be paid for the specific project within 5 years; and

(B) The project is one which can be better accomplished by such set-aside than by immediate distribution of funds.

All annual distributions required to be made pursuant to paragraph (e)(13)(viii) of this section, except for set-asides, must be made no later than the close of the organization’s first taxable year after the taxable year for which the adjusted net income is computed. Thus, in the case of a calendar year community trust which has received a transitional ruling or determination letter upon an application made in 1977, it must make distributions under paragraph (e)(13)(vii) of this section for 1978, 1979, 1980 and 1981 based upon its adjusted net income for 1977, 1978, 1979 and 1980, respectively, unless its transitional ruling or determination letter is terminated. If such a community trust’s transitional ruling or determination letter is terminated in 1979, it must make distributions under paragraph (e)(13)(viii) of this section only for 1978 based upon its adjusted net income for 1977. On the other hand, if such ruling or letter is terminated in 1977 or 1978, no distribution under paragraph (e)(13)(viii) of this section need be made.

(ix) *Net income.* The community trust’s funds must, on an aggregate basis, be invested to produce an annual adjusted net income (as defined in section 4942(f)) of not less than two-thirds of what would be its minimum investment return (within the meaning of section 4942(e)) if such organization were a private foundation.

(x) *Unrestricted gifts.* At least one-half of the total income which the community trust derives from the investment of gifts and bequests received must be unrestricted (within the meaning of this (x)) with respect to its availability for distribution by the governing body. For purposes of this (x), any income which has been designated by the donor of the gift or bequest to which such income is attributable as being available only for the use or benefit of a broad charitable purpose, such as the encouragement of higher education or the promotion of better health care in the community, will be treated as unrestricted. However, any income which has been designated for the use or benefit of a named charitable organization or agency or for the use or benefit of a particular class of charitable organizations or agencies, the members of which are readily ascertainable and are less than five in number, will be treated as restricted.

(xi) *Self-dealing.* The community trust may not engage in any act with any person (other than a foundation manager acting only in such capacity) which would constitute self-dealing within the meaning of section 4941 if such community trust were a private foundation.

(xii) *Excess holdings.* The community trust must dispose of any holdings which would constitute excess business holdings (within the meaning of section 4943—applied on a component-by-component basis as if each component were a private foundation, except that components will be combined for purposes of this paragraph if such components would have been described in section 4946(a)(1)(H)(ii)).

(xiii) *Expenditure responsibility.* The community trust must exercise expenditure responsibility (within the meaning of section 4945(h)) through either its governing body, trustees, investment managers, custodians, or agents with respect to any grant which would otherwise constitute a taxable expenditure under section 4945(d)(4) if the community trust were a private foundation, except that it need not make the reports required of private foundations by section 4945(h)(3).

(14) *Community trusts; treatment of trusts and not-for-profit corporations and associations not included as components.* (i) For purposes of sections 170, 501, 507, 508, 509 and Chapter 42, any trust or not-for-profit corporation or association which is alleged to be a component part of a community trust, but which fails to meet the requirements of paragraph (e)(11)(ii) of this section, shall not be treated as a component part of a community trust and, if a trust, shall be treated as a separate trust and be subject to the provisions of section 501 or section 4947(a) (1) or (2), as the case may be. If such organization is a not-for-profit corporation or association, it will be treated as a separate entity, and, if it is described in section 501(c)(3), it will be treated as a private foundation unless it is described in section 509(a) (1), (2), (3), or (4). Any transfer made in connection with the creation of such separate trust or not-for-profit organization, or to such entity, will not be treated as being made ‘‘to’’ the community trust or one of its components for purposes of sections 170(b)(1)(A) and 507(b)(1)(A) even though a deduction with respect to such transfer is allowable under §1,170–1(e), §20.2055–2(b), or §25.2522(a)–2(b), unless such treatment is permitted under §1.170A–9(e)(4)(v)*(b)* or §1.508–1(b)(4). In the case of a fund which is ultimately treated as not being a component part of a community trust pursuant to paragraph (e)(14) of this section, if the Forms 990 filed annually by the community trust included financial information with respect to such fund and treated such fund in the same manner as other component parts thereof, such returns filed by the community trust prior to the taxable year in which the Commissioner notifies such fund that it will not be treated as a component part will be treated as its separate return for purpose of Subchapter A of Chapter 61 of Subtitle F, and the first such return filed by the community trust will be treated as the notification required of the separate entity for purposes of section 508(a).

(ii) If a transfer is made in trust to a community trust to make income or other payments for a period of a life or lives in being or a term of years to any individual or for any noncharitable purpose, followed by payments to or for the use of the community trust (such as in the case of a charitable remainder annuity trust or a charitable remainder unitrust described in section 664 or a pooled income fund described in section 642(c)(5)), such trust will be treated as a component part of the community trust upon the termination of all intervening noncharitable interests and rights to the actual possession or enjoyment of the property if such trust satisfies the requirements of paragraph (e)(11) of this section at such time. Until such time, the trust will be treated as a separate trust. If a transfer is made in trust to a community trust to make income or other payments to or for the use of the community trust, followed by payments to any individual or for any noncharitable purpose, such trust will be treated as a separate trust rather than as a component part of the community trust. See section 4947(a)(2) and the regulations thereunder for the treatment of such split-interest trusts. The provisions of this (ii) only provide rules for determining when a charitable remainder trust or pooled income fund may be treated as a component part of a community trust and are not intended to preclude a community trust from maintaining a charitable remainder trust or pooled income fund. Thus, for purposes of grantors and contributors, a pooled income fund of a ‘‘publicly supported’’ community trust shall be treated no differently than a pooled income fund of any other ‘‘publicly supported’’ organization.

(iii) An organization described in section 170(b)(1)(E)(iii) will not ordinarily satisfy the requirements of paragraph (e)(11)(ii) of this section because of the unqualified right of the donor to designate the recipients of the income and principal of the trust. Such organization will therefore ordinarily be treated as other than a component part of a community trust under paragraph (e)(14)(i) of this section. However, see section 170(b)(1)(E)(iii) and the regulations thereunder with respect to the treatment of contributions to such organizations.

(f) *Private operating foundation.* An organization is described in section 170(b)(1) (A)(vii) and (E)(i) if it is a private ‘‘operating foundation’’ as defined in section 4942(j)(3) and the regulations thereunder.

(g) *Private nonoperating foundation distributing amount equal to all contributions received*—(1) *In general.* (i) An organization is described in section 170(b)(1) (A)(vii) and (E)(ii) if it is a private foundation which, not later than the 15th day of the third month after the close of its taxable year in which any contributions are received, distributes an amount equal in value to 100 percent of all contributions received in such year. Such distributions must be qualifying distributions (as defined in section 4942(g) without regard to paragraph (3) thereof) which are treated, after the application of section 4942(g)(3), as distributions out of corpus in accordance with section 4942(h). Qualifying distributions, as defined in section 4942(g) without regard to paragraph (3) thereof, cannot be made to (i) an organization controlled directly or indirectly by the foundation or by one or more disqualified persons (as defined in section 4946) with respect to the foundation or (ii) a private foundation which is not an operating foundation (as defined in section 4942(j)(3)). The phrase ‘‘after the application of section 4942(g)(3)’’ means that every contribution described in section 4942(g)(3) received by a private foundation described in this subparagraph in a particular taxable year must be distributed (within the meaning of section 4942(g)(3)(A)) by such foundation not later than the 15th day of the third month after the close of such taxable year in order for any other distribution by such foundation to be counted toward the 100-percent requirement described in this subparagraph.

(ii) In order for an organization to meet the distribution requirements of subdivision (i) of this subparagraph, it must, not later than the 15th day of the third month after the close of its taxable year in which any contributions are received, distribute (within the meaning of subdivision (i) of this subparagraph) an amount equal in value to 100 percent of all contributions received in such year and have no remaining undistributed income for such year.

(iii) The provisions of this subparagraph may be illustrated by the following examples:

Example 1. X is a private foundation on a calendar year basis. As of January 1, 1971, X had no undistributed income for 1970. X’s distributable amount for 1971 was $600,000. In July 1971, A, an individual, contributed $500,000 (fair market value determined at the time of the contribution) of appreciated property to X (which, if sold, would give rise to long-term capital gain). X did not receive any other contribution in either 1970 or 1971. During 1971, X made qualifying distributions of $700,000 which were treated as made out of the undistributed income for 1971 and $100,000 out of corpus. X will meet the requirements of section 170(b)(1)(E)(ii) for 1971 if it makes additional qualifying distributions of $400,000 out of corpus by March 15, 1972.

Example 2. Assume the facts as stated in *Example 1,* except that as of January 1, 1971, X had $100,000 of undistributed income for 1970. Under these circumstances, the $700,000 distributed by X in 1971 would be treated as made out of the undistributed income for 1970 and 1971. X would therefore have to make additional qualifying distributions of $500,000 out of corpus between January 1, 1972, and March 15, 1972, in order to meet the requirements of section 170(b)(1)(E)(ii) for 1971.

(2) *Special rules.* In applying subparagraph (1) of this paragraph:

(i) For purposes of section 170(b)(1)(A)(vii), an organization described in section 170(b)(1)(E)(ii) must distribute all contributions received in any year, whether of cash or property. However, solely for purposes of section 170(e)(1)(B)(ii), an organization described in section 170(b)(1)(E)(ii) is required to distribute all contributions of property only received in any year. Contributions for purposes of this paragraph do not include bequests, legacies, devises, or transfers within the meaning of section 2055 or 2106(a)(2) with respect to which a deduction was not allowed under section 170.

(ii) Any distributions made by a private foundation pursuant to subparagraph (1) of this paragraph with respect to a particular taxable year shall be treated as made first out of contributions of property and then out of contributions of cash received by such foundation in such year.

(iii) A private foundation is not required to trace specific contributions of property, or amounts into which such contributions are converted, to specific distributions.

(iv) For purposes of satisfying the requirements of section 170(b)(1)(D)(ii), except as provided to the contrary in this subdivision (iv), the fair market value of contributed property, determined on the date of contribution, is required to be used for purposes of determining whether an amount equal in value to 100 percent of the contribution received has been distributed. However, reasonable selling expenses, if any, incurred by the foundation in the sale of the contributed property may be deducted from the fair market value of the contributed property on the date of contribution, and distribution of the balance of the fair market value will satisfy the 100 percent distribution requirement. If a private foundation receives a contribution of property and, within 30 days thereafter, either sells the property or makes an in kind distribution of the property to a public charity, then at the choice of the private foundation the gross amount received on the sale (less reasonable selling expenses incurred) or the fair market value of the contributed property at the date of its distribution to the public charity, and not the fair market value of the contributed property on the sale of contribution (less reasonable selling expenses, if any), is considered to be the amount of the fair market value of the contributed property for purposes of the requirements of section 170(b)(1)(D)(ii).

(v) A private foundation may satisfy the requirements of subparagraph (1) of this paragraph for a particular taxable year by electing (pursuant to section 4942(h)(2) and the regulations thereunder) to treat a portion or all of one or more distributions, made not later than the 15th day of the third month after the close of such year, as made out of corpus.

(3) *Transitional rules*—(i) *Taxable years beginning before January 1, 1970, and ending after December 31, 1969.* In order for an organization to meet the distribution requirements of subparagraph (1)(i) of this paragraph for a taxable year which begins before January 1, 1970, and ends after December 31, 1969, it must, not later than the 15th day of the third month after the close of such taxable year, distribute (within the meaning of subparagraph (1)(i) of this paragraph) an amount equal in value to 100 percent of all contributions (other than contributions described in section 4942(g)(3)) which were received between January 1, 1970, and the last day of such taxable year. Because the organization is not subject to the provisions of section 4942 for such year, the organization need not satisfy subparagraph (1)(ii) of this paragraph or the phrase ‘‘after the application of section 4942(g)(3)’’ for such year.

(ii) *Extension of period.* For purposes of section 170(b)(1)(A)(vii) and 170(e)(1)(B)(ii), in the case of a taxable year ending in either 1970, 1971 or 1972, the period referred to in section 170(b)(1)(E)(ii) for making distributions shall not expire before April 2, 1973.

(4) *Adequate records required.* A taxpayer claiming a deduction under section 170 for a charitable contribution to a foundation described in subparagraph (1) of this paragraph must obtain adequate records or other sufficient evidence from such foundation showing that the foundation made the required qualifying distributions within the time prescribed. Such records or other evidence must be attached to the taxpayer's return for the taxable year for which the charitable contribution deduction is claimed. If necessary, an amended income tax return or claim for refund may be filed in accordance with § 301.6402–2 and § 301.6402–3 of this chapter (procedure and administration regulations).

(h) *Private foundation maintaining a common fund*—(1) *Designation by substantial contributors.* An organization is described in section 170(b)(1) (A)(vii) and (E)(iii) if it is a private foundation all of the contributions to which are pooled in a common fund and which would be described in section 509(a)(3) but for the right of any donor who is a substantial contributor or his spouse to designate annually the recipients, from among public charities, of the income attributable to the donor's contribution to the fund and to direct (by deed or by will) the payment, to public charities, of the corpus in the common fund attributable to the donor's contribution. For purposes of this paragraph, the private foundation is to be treated as meeting the requirements of section 509(a)(3) (A) and (B) even though donors to the foundation, or their spouses, retain the right to, and in fact do, designate public charities to receive income or corpus from the fund.

(2) *Distribution requirements.* To qualify under subparagraph (1) of this paragraph, the private foundation described therein must be required by its governing instrument to distribute, and it must in fact distribute (including administrative expenses):

(i) All of the adjusted net income (as defined in section 4942(f)) of the common fund to one or more public charities not later than the 15th day of the third month after the close of the taxable year in which such income is realized by the fund, and

(ii) All the corpus attributable to any donor's contribution to the fund to one or more public charities not later than 1 year after the donor's death or after the death of the donor's surviving spouse if such surviving spouse has the right to designate the recipients of such corpus.

(3) *Failure to designate.* A private foundation will not fail to qualify under this paragraph merely because a substantial contributor or his spouse fails to exercise his right to designate the recipients of income or corpus of the fund, provided that the income and corpus attributable to his contribution are distributed as required by subparagraph (2) of this paragraph.

(4) *Definitions.* For purposes of this paragraph:

(i) The term *substantial contributor* is as defined in section 507(d)(2) and the regulations thereunder.

(ii) The term *public charity* means an organization described in section 170(b)(1)(A) (i) through (vi). If an organization is described in section 170(b)(1)(A) (i) through (vi), and is also described in section 170(b)(1)(A)(viii), it shall be treated as a public charity for purposes of this paragraph.

(iii) The term *income attributable to* means the income earned by the fund which is properly allocable to the contributed amount by any reasonable and consistently applied method. See, for example, § 1.642(c)–5(c).

(iv) The term *corpus attributable to* means the portion of the corpus of the fund attributable to the contributed amount. Such portion may be determined by any reasonable and consistently applied method.

(v) The term *donor* means any individual who makes a contribution (whether of cash or property) to the private foundation, whether or not such individual is a substantial contributor.

(i) *Section 509(a) (2) or (3) organization.* An organization is described in section

170(b)(1)(A)(viii) if it is described in section 509(a) (2) or (3) and the regulations thereunder.

[T.D. 7242, 38 FR 12, Jan. 3, 1973; 38 FR 3598, Feb. 8, 1973, as amended by T.D. 7406, 41 FR 7096, Feb. 17, 1976; T.D. 7440, 41 FR 50650, Nov. 17, 1976; T.D. 7456, 42 FR 4436, Jan. 25, 1977; T.D. 7679, 45 FR 13452, Feb. 29, 1980; T.D. 8100, 51 FR 31614, Sept. 4, 1986]

§1.170A–10 Charitable contributions carryovers of individuals.

(a) *In general.* (1) Section 170(d)(1), relating to carryover of charitable contributions in excess of 50 percent of contribution base, and section 170(b)(1)(D)(ii), relating to carryover of charitable contributions in excess of 30 percent of contribution base, provide for excess charitable contributions carryovers by individuals of charitable contributions to section 170(b)(1)(A) organizations described in §1.170A–9. These carryovers shall be determined as provided in paragraphs (b) and (c) of this section. No excess charitable contributions carryover shall be allowed with respect to contributions ‘‘for the use of,’’ rather than ‘‘to,’’ section 170(b)(1)(A) organizations or with respect to contributions ‘‘to’’ or ‘‘for the use of’’ organizations which are not section 170(b)(1)(A) organizations. See §1.170A–8(a)(2) for definitions of ‘‘to’’ or ‘‘for the use of’’ a charitable organization.

(2) The carryover provisions apply with respect to contributions made during a taxable year in excess of the applicable percentage limitation even though the taxpayer elects under section 144 to take the standard deduction in that year instead of itemizing the deduction allowable in computing taxable income for that year.

(3) For provisions requiring a reduction of the excess charitable contribution computed under paragraph (b)(1) or (c)(1) of this section when there is a net operating loss carryover to the taxable year, see paragraph (d)(1) of this section.

(4) The provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section do not apply to contributions by an estate; nor do they apply to a trust unless the trust is a private foundation which, pursuant to §1.642(c)–4, is allowed a deduction under section 170 subject to the provisions applicable to individuals.

(b) *50-percent charitable contributions carryover of individuals*—(1) *Computation of excess of charitable contributions made in a contribution year.* Under section 170(d)(1), subject to certain conditions and limitations, the excess of:

(i) The amount of the charitable contributions made by an individual in a taxable year (hereinafter) in this paragraph referred to as the ‘‘contribution year’’) to section 170(b)(1)(A) organizations described in §1.170A–9, over

(ii) 50 percent of his contribution base, as defined in section 170(b)(1)(F), for such contribution year, shall be treated as a charitable contribution paid by him to a section 170(b)(1)(A) organization in each of the 5 taxable years immediately succeeding the contribution year in order of time. However, such excess to the extent it consists of contributions of 30-percent capital gain property, as defined in §1.170A–8(d)(3), shall be subject to the rules of section 170(b)(1)(D)(ii) and paragraph (c) of this section in the years to which it is carried over. A charitable contribution made in a taxable year beginning before January 1, 1970, to a section 170(b)(1)(A) organization and carried over to a taxable year beginning after December 31, 1969, under section 170(b)(5) (before its amendment by the Tax Reform Act of 1969) shall be treated in such taxable year beginning after December 31, 1969, as a charitable contribution of cash subject to the limitations of this paragraph, whether or not such carryover consists of contributions of 30-percent capital gain property or of ordinary income property described in §1.170A–4(b)(1). For purposes of applying this paragraph and paragraph (c) of this section, such a carryover from a taxable year beginning before January 1, 1970, which is so treated as paid to a section 170(b)(1)(A) organization in a taxable year beginning after December 31, 1969, shall be treated as paid to such an organization under section 170(d)(1) and this section. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that H and W (husband and wife) have a contribution base for 1970 of $50,000 and for 1971 of $40,000 and file a joint return for each year. Assume further that in 1970 they make a charitable contribution in cash of $26,500 to a church and $1,000 to X (not a section 170(b)(1)(A) organization) and in 1971 they make a charitable contribution in cash of $19,000 to a church and $600 to X. They may claim a charitable contributions deduction of $25,000 in 1970, and the excess of $26,500 (contribution to the church) over $25,000 (50 percent of contribution base), or $1,500, constitutes a charitable contributions carryover which shall be treated as a charitable contribution paid by them to a section 170(b)(1)(A) organization in each of the 5 succeeding taxable years in order of time. No carryover is allowed with respect to the $1,000 contribution made to X in 1970. Since 50 percent of their contribution base for 1971 ($20,000) exceeds the charitable contributions of $19,000 made by them in 1971 to section 170(b)(1)(A) organizations (computed without regard to section 170 (b)(1)(D)(ii) and (d)(1) and this section), the portion of the 1970 carryover equal to such excess of $1,000 ($20,000 minus $19,000) is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1971; the remaining $500 constitutes an unused charitable contributions carryover. No deduction for 1971, and no carryover, are allowed with respect to the $600 contribution made to X in 1971.

Example 2. Assume the same facts as in *Example (1)* except that H and W have a contribution base for 1971 of $42,000. Since 50 percent of their contribution base for 1971 ($21,000) exceeds by $2,000 the charitable contribution of $19,000 made by them in 1971 to the section 170(b)(1)(A) organization (computed without regard to section 170 (b)(1)(D)(ii) and (d)(1) and this section), the full amount of the 1970 carryover of $1,500 is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1971. They may also claim a charitable contribution of $500 ($21,000 −$20,500[$19,000+$1,500]) with respect to the gift to X in 1971. No carryover is allowed with respect to the $100 ($600−$500) of the contribution to X which is not deductible in 1971.

(2) *Determination of amount treated as paid in taxable years succeeding contribution year.* In applying the provisions of subparagraph (1) of this paragraph, the amount of the excess computed in accordance with the provisions of such subparagraph and paragraph (d)(1) of this section which is to be treated as paid in any one of the 5 taxable years immediately succeeding the contribution year to a section 170(b)(1)(A) organization shall not exceed the lesser of the amounts computed under subdivisions (i) to (iii), inclusive, of this subparagraph:

(i) The amount by which 50 percent of the taxpayer's contribution base for such succeeding taxable year exceeds the sum of:

(a) The charitable contributions actually made (computed without regard to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section) by the taxpayer in such succeeding taxable year to section 170(b)(1)(A) organizations, and

(b) The charitable contributions, other than contributions of 30-percent capital gain property, made to section 170(b)(1)(A) organizations in taxable years preceding the contribution year which, pursuant to the provisions of section 170(d)(1) and this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year.

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contribution in the contribution year, computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section.

(iii) In the case of the second, third, fourth, and fifth taxable years succeeding the contribution year, the portion of the excess charitable contribution in the contribution year, computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section, which has not been treated as paid to a section 170(b)(1)(A) organization in a year intervening between the contribution year and such succeeding taxable year.

For purposes of applying subdivision (i)*(a)* of this subparagraph, the amount of charitable contributions of 30-percent capital gain property actually made in a taxable year succeeding the contribution year shall be determined by first applying the 30-percent limitation of section 170(b)(1)(D)(i) and paragraph (d) of § 1.170A–8. If a taxpayer, in any one of the 4 taxable years succeeding a contribution year, elects under section 144 to take the standard deduction instead of itemizing the deductions allowable in computing taxable income, there shall be treated as paid (but not allowable as a deduction) in such standard deduction year the lesser of the amounts determined under subdivisions (i) to (iii), inclusive, of this subparagraph. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that B has a contribution base for 1970 of $20,000 and for 1971 of $30,000. Assume further that in 1970 B contributed $12,000 in cash to a church and in 1971 he contributed $13,500 in cash to the church. B may claim a charitable contributions deduction of $10,000 in 1970, and the excess of $12,000 (contribution to the church) over $10,000 (50 percent of B's contribution base), or $2,000, constitutes a charitable contributions carryover which shall be treated as a charitable contribution paid by B to a section 170(b)(1)(A) organization in the 5 taxable years succeeding 1970 in order of time. B may claim a charitable contributions deduction of $15,000 in 1971. Such $15,000 consists of the $13,500 contribution to the church in 1971 and $1,500 carried over from 1970 and treated as a charitable contribution paid to a section 170(b)(1)(A) organization in 1971. The $1,500 contribution treated as paid in 1971 is computed as follows:

1970 excess contributions		$2,000
50 percent of B's contribution base for 1971		15,000
Less:		
Contributions actually made in 1971 to section 170(b)(1)(A) organizations	$13,500	
Contributions made to section 170(b)(1)(A) organizations in taxable years prior to 1970 treated as having been paid in 1971	0	13,500
Balance		1,500
Amount of 1970 excess treated as paid in 1971—the lesser of $2,000 (1970 excess contributions) or $1,500 (excess of 50 percent of contribution base for 1971 ($15,000) over the sum of the section 170(b)(1)(A) contributions actually made in 1971 ($13,500) and the section 170(b)(1)(A) contributions made in years prior to 1970 treated as having been paid in 1971 ($0))		1,500

If the excess contributions made by B in 1970 had been $1,000 instead of $2,000, then, for purposes of this example, the amount of the 1970 excess treated as paid in 1971 would be $1,000 rather than $1,500.

Example 2. Assume the same facts as in *Example (1)*, and, in addition, that B has a contribution base for 1972 of $10,000 and for 1973 of $20,000. Assume further with respect to 1972 that B elects under section 144 to take the standard deduction in computing taxable income and that his actual contributions to section 170(b)(1)(A) organizations in that year are $300 in cash. Assume further with respect to 1973 that R itemizes his deductions, which include a $5,000 cash contribution to a church. B's deductions for 1972 are not increased by reason of the $500 available as a charitable contributions carryover from 1970 (excess contributions made in 1970 ($2,000) less the amount of such excess treated as paid in 1971 ($1,500)), since B elected to take the standard deduction in 1972. However, for purposes of determining the amount of the excess charitable contributions made in 1970 which is available as a carryover to 1973, B is required to treat such $500 as a charitable contribution paid in 1972—the lesser of $500 or $4,700 (50 percent of contribution base ($5,000) over contributions actually made in 1972 to section 170(b)(1)(A) organizations ($300)). Therefore, even though the $5,000 contribution made by B in 1973 to a church does not amount to 50 percent of B's contribution base for 1973 (50 percent of $20,000), B may claim a charitable contributions deduction of only the $5,000 actually paid in 1973 since the entire excess charitable contribution made in 1970 ($2,000) has been treated as paid in 1971 ($1,500) and 1972 ($500).

Example 3. Assume the following factual situation for C who itemizes his deductions in computing taxable income for each of the years set forth in the example:

	1970	1971	1972	1973	1974
Contribution base	$10,000	$7,000	$15,000	$10,000	$9,000
Contributions of cash to section 170(b)(1)(A) organizations (no other contributions)	6,000	4,400	8,000	3,000	1,500
Allowable charitable contributions deductions computed without regard to carryover of contributions	5,000	3,500	7,500	3,000	1,500
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	1,000	900	500	0	0

Since C's contributions in 1973 and 1974 to section 170(b)(1)(A) organizations are less than 50 percent of his contribution base for such years, the excess contributions for 1970, 1971, and 1972 are treated as having been paid to section 170(b)(1)(A) organizations in 1973 and 1974 as follows:

1973

Contribution year	Total excess	Less: Amount treated as paid in year prior to 1973	Available charitable contributions carryovers
1970	$1,000	0	$1,000
1971	900	0	900
1972	500	0	500
Total			2,400
50 percent of B's contribution base for 1973			$5,000
Less: Charitable contributions made in 1973 to section 170(b)(1)(A) organizations			3,000
			2,000
Amount of excess contributions treated as paid in 1973—lesser of $2,400 (available carryovers to 1973) or $2,000 (excess of 50 percent of contribution base ($5,000) over contributions actually made in 1973 to section 170(b)(1)(A) organizations ($3,000))			2,000

1974

Contribution year	Total excess	Less: Amount treated as paid in year prior to 1974	Available charitable contributions carryovers
1970	$1,000	$1,000	
1971	900	900	
1972	500	100	$40
1973	0	0	
Total			400
50 percent of B's contribution base for 1974			$4,500
Less: Charitable contributions made in 1974 to section 170(b)(1)(A) organizations			1,500
			3,000
Amount of excess contributions treated as paid in 1974—the lesser of $400 (available carryovers to 1974) or $3,000 (excess of 50 percent of contribution base ($4,500) over contributions actually made in 1974 to section 170(b)(1)(A) organizations ($1,500))			400

(c) *30-percent charitable contributions carryover of individuals*—(1) *Computation of excess of charitable contributions made in a contribution year.* Under section 170(b)(1)(D)(ii), subject to certain conditions and limitations, the excess of:

(i) The amount of the charitable contributions of 30-percent capital gain property, as defined in § 1.170A–8(d)(3), made by an individual in a taxable year (hereinafter in this paragraph referred to as the ''contribution year'') to section 170(b)(1)(A) organizations described in § 1.170A–9, over

(ii) 30 percent of his contribution base for such contribution year, shall, subject to section 170(b)(1)(A) and paragraph (b) of § 1.170A–8, be treated as a charitable contribution of 30-percent capital gain property paid by him to a section 170(b)(1)(A) organization in each of the 5 taxable years immediately succeeding the contribution year in order of time. In addition, any charitable contribution of 30-percent capital gain property which is carried over to such years under section 170(d)(1) and paragraph (b) of this section shall also be treated as though it were a carryover of 30-percent capital gain property under section 170(b)(1)(D)(ii) and this paragraph. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. Assume that H and W (husband and wife) have a contribution base for 1970 of $50,000 and for 1971 of $40,000 and file a joint return for each year. Assume further that in 1970 they contribute $20,000 cash and $13,000 of 30-percent capital gain property to a church, and that in 1971 they contribute $5,000 cash and $10,000 of 30-percent capital gain property to a church. They may claim a charitable contributions deduction of $25,000 in 1970 and the excess of $33,000 (contributed to the church) over $25,000 (50 percent of contribution base), or $8,000, constitutes a charitable contributions carryover which shall be treated as a charitable contribution of 30-percent capital gain property paid by them to a section 170(b)(1)(A) organization in each of the 5 succeeding taxable years in order of time. Since 30 percent of their contribution base for 1971 ($12,000) exceeds the charitable contributions of 30-percent capital gain property ($10,000) made by them in 1971 to section 170(b)(1)(A) organizations (computed without regard to section 170 (b)(1)(D)(ii) and (d)(1) and this section), the portion of the 1970 carryover equal to such excess of $2,000 ($12,000—$10,000) is treated, pursuant to the provisions of subparagraph (2) of this paragraph, as paid to a section 170(b)(1)(A) organization in 1971; the remaining $6,000 constitutes an unused charitable contributions carryover in respect of 30-percent capital gain property from 1970.

Example 2. Assume the same facts as in *Example (1)* except the $33,000 of charitable contributions in 1970 are all 30-percent capital gain property. Since their charitable contributions in 1970 exceed 30 percent of their contribution base ($15,000) by $18,000 ($33,000—$15,000), they may claim a charitable contributions deduction of $15,000 in 1970, and the excess of $33,000 over $15,000, or $18,000, constitutes a charitable contributions carryover which shall be treated as a charitable contribution of 30-percent capital gain property paid by them to a section 170(b)(1)(A) organization in each of the 5 succeeding taxable years in order of time. Since they are allowed to treat only $2,000 of their 1970 contribution as paid in 1971, they have a remaining unused charitable contributions carryover of $16,000 in respect of 30-percent capital gain property from 1970.

(2) *Determination of amount treated as paid in taxable years succeeding contribution year.* In applying the provisions of subparagraph (1) of this paragraph, the amount of the excess computed in accordance with the provisions of such subparagraph and paragraph (d)(1) of this section which is to be treated as paid in any one of the 5 taxable years immediately succeeding the contribution year to a section 170(b)(1)(A) organization shall not exceed the least of the amounts computed under subdivisions (i) to (iv), inclusive, of this subparagraph:

(i) The amount by which 30 percent of the taxpayer's contribution base for such succeeding taxable year exceeds the sum of:

(a) The charitable contributions of 30-percent capital gain property actually made (computed without regard to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section) by the taxpayer in such succeeding taxable year to section 170(b)(1)(A) organizations, and

(b) The charitable contributions of 30-percent capital gain property made to section 170(b)(1)(A) organizations in taxable years preceding the contribution year, which, pursuant to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year.

(ii) The amount by which 50 percent of the taxpayer's contribution base for such succeeding taxable year exceeds the sum of:

(a) The charitable contributions actually made (computed without regard to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section) by the taxpayer in such succeeding taxable year to section 170(b)(1)(A) organizations,

(b) The charitable contributions of 30-percent capital gain property made to section 170(b)(1)(A) organizations in taxable years preceding the contribution year which, pursuant to the provisions of section 170 (b)(1)(D)(ii) and (d)(1) and this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year, and

(c) The charitable contributions, other than contributions of 30-percent capital gain property, made to section 170(b)(1)(A) organizations which, pursuant to the provisions of section 170(d)(1) and paragraph (b) of this section, are treated as having been paid to a section 170(b)(1)(A) organization in such succeeding year.

(iii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contribution of 30-percent capital gain property in the contribution year, computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section.

(iv) In the case of the second, third, fourth, and fifth succeeding taxable years succeeding the contribution year, the portion of the excess charitable contribution of 30-percent capital gain property in the contribution year (computed under subparagraph (1) of this paragraph and paragraph (d)(1) of this section) which has not been treated as paid to a section 170(b)(1)(A) organization in a year intervening between the contribution year and such succeeding taxable year.

For purposes of applying subdivisions (i) and (ii) of this subparagraph, the amount of charitable contributions of 30-percent capital gain property actually made in a taxable year succeeding the contribution year shall be determined by first applying the 30-percent limitation of section 170(b)(1)(D)(i) and paragraph (d) of §1.170A–8. If a taxpayer, in any one of the four taxable years succeeding a contribution year, elects under section 144 to take the standard deduction instead of itemizing the deductions allowable in computing taxable income, there shall be treated as paid (but not allowable as a deduction) in the standard deduction year the least of the amounts determined under subdivisions (i) to (iv), inclusive, of this subparagraph. The provisions of this subparagraph may be illustrated by the following example:

Example. Assume the following factual situation for C who itemizes his deductions in computing taxable income for each of the years set forth in the example:

	1970	1971	1972	1973	1974
Contribution base	$10,000	$15,000	$20,000	$15,000	$33,000
Contributions of cash to section 170(b)(1)(A) organizations	2,000	8,500	0	14,000	700
Contributions of 30-percent capital gain property to section 170(b)(1)(A) organizations	5,000	0	7,800	0	6,400
Allowable charitable contributions deductions (computed without regard to carryover of contributions) subject to limitations of:					
50 percent	2,000	7,500	0	7,500	700
30 percent	3,000	0	6,000	0	6,400
Total	5,000	7,500	6,000	7,500	7,100
Excess of contributions for taxable year to be treated as paid in 5 succeeding taxable years:					
Carryover of contributions of property other than 30-percent capital gain property	0	1,000	0	6,500	
Carryover of contributions of 30-percent capital gain property.	2,000	0	1,800	0	

C's excess contributions for 1970, 1971, 1972, and 1973 which are treated as having been paid to section 170(b)(1)(A) organizations in 1972, 1973, and 1974 are indicated below. The portion of the excess charitable contribution for 1972 of 30-percent capital gain property which is not treated as paid in 1974 ($1,800–$900) is available as a carryover to 1975.

1971

Contribution	Total excess		Less: Amount treated as paid in years prior to 1971	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	$2,000	0	0	$2,000
50 percent of C's contribution base for 1971				$7,500	
30 percent of C's contribution base for 1971					4,500
Less: Charitable contributions actually made in 1971 to section 170(b)(1)(A) organizations ($8,500, but not to exceed 50% of contribution base)				7,500	0
Excess				0	4,500
The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1971 is the least of:					
(i) Available carryover from 1970 to 1971 of contributions of 30-percent capital gain property				2,000	
(ii) Excess of 50 percent of contribution base for 1971 ($7,500) over sum of contributions actually made in 1971 to section 170(b)(1)(A) organizations ($7,500)				0	
(iii) Excess of 30 percent of contribution base for 1971 ($4,500) over contributions of 30 percent capital gain property actually made in 1971 to section 170(b)(1)(A) organizations ($0)				4,500	
Amount treated as paid					0

1972

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1972	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	$2,000	0	0	$2,000
1971	$1,000	0	0	$1,000	0
				1,000	2,000
50 percent of C's contribution base for 1972				10,000	
30 percent of C's contribution base for 1972					6,000
Less: Charitable contributions actually made in 1972 to section 170(b)(1)(A) organizations ($7,800, but not to exceed 30% of contribution base)				0	6,000
Excess				10,000	0

1972

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1972	Available charitable contributions carryovers	
	50%	30%		50%	30%
(1) The amount of excess contributions for 1971 of property other than 30-percent capital gain property which is treated as paid in 1972 is the lesser of:					
(i) Available carryover from 1971 to 1972 of contributions of property other than 30-percent capital gain property				1,000	
(ii) Excess of 50 percent of contribution base for 1972 ($10,000) over contributions actually made in 1972 to section 170(b)(1)(A) organizations ($6,000)				4,000	
Amount treated as paid					1,000
(2) The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1972 is the least of:					
(i) Available carryover from 1970 to 1972 of contributions of 30-percent capital gain property				2,000	
(ii) Excess of 50 percent of contribution base for 1972 ($10,000) over sum of contributions actually made in 1972 to section 170(b)(1)(A) organizations ($6,000) and excess contributions for 1971 treated under item (1) above as paid in 1972 ($1,000)				3,000	
(iii) Excess of 30 percent of contribution base for 1972 ($6,000) over contributions of 30-percent capital gain property actually made in 1972 to section 170(b)(1)(A) organizations ($6,000)				0	
Amount treated as paid					0

1973

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1973	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	$2,000	0	0	$2,000
1971	$1,000	0	$1,000	0	0
1972	0	1,800	0	0	1,800
				0	3,800
50 percent of C's contribution base for 1973				$7,500	
30 percent of C's contribution base for 1973					4,500
Less: Charitable contributions actually made in 1973 to section 170(b)(1)(A) organizations ($14,000, but not to exceed 50% of contribution base)				7,500	0
Excess				0	4,500
(1) The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1973 is the least of:					
(i) Available carryover from 1970 to 1973 of contributions of 30-percent capital gain property				2,000	
(ii) Excess of 50 percent of contribution base for 1973 ($7,500) over contributions actually made in 1973 to section 170(b)(1)(A) organizations ($7,500)				0	
(iii) Excess of 30 percent of contribution base for 1973 ($4,500) over contributions of 30-percent capital gain property actually made in 1973 to section 170(b)(1)(A) organizations ($0)				4,500	
Amount treated as paid				0	
(2) The amount of excess contributions for 1972 of 30-percent capital gain property which is treated as paid in 1973 is the least of:					
(i) Available carryover from 1972 to 1973 of contributions of 30-percent capital gain property				1,800	
(ii) Excess of 50 percent of contribution base for 1973 ($7,500) over contributions actually made in 1973 to section 170(b)(1)(A) organizations ($7,500)				0	
(iii) Excess of 30 percent of contribution base for 1973 ($4,500) over sum of contributions of 30-percent capital gain property actually made in 1973 to section 170(b)(1)(A) organizations ($0) and excess contributions for 1970 treated under item (1) above as paid in 1973 ($0)				4,500	
Amount treated as paid				0	

1974

Contribution year	Total excess		Less: Amount treated as paid in years prior to 1974	Available charitable contributions carryovers	
	50%	30%		50%	30%
1970	0	$2,000	0	0	$2,000
1971	$1,000	0	$1,000	0	0
1972	0	1,800	0	0	1,800
1973	6,500	0	0	$6,500	0
				6,500	3,800

50 percent of C's contribution base for 1974	16,500	....
30 percent of C's contribution base for 1974	....	9,900
Less: Charitable contributions actually made in 1974 to section 170(b)(1)(A) organizations	700	6,400
Excess	15,800	3,500
(1) The amount of excess contributions for 1973 of property other than 30-percent capital gain property which is treated as paid in 1974 is the lesser of:		
(i) Available carryover from 1973 to 1974 of contributions of property other than 30-percent capital gain property	6,500	....
(ii) Excess of 50 percent of contribution base for 1974 ($16,500) over contributions actually made in 1974 to section 170(b)(1)(A) organizations ($7,100)	9,400	....
Amount treated as paid	....	6,500
(2) The amount of excess contributions for 1970 of 30-percent capital gain property which is treated as paid in 1974 is the least of:		
(i) Available carryover from 1970 to 1974 of contributions of 30-percent capital gain property	$2,000	....
(ii) Excess of 50 percent of contribution base for 1974 ($16,500) over sum of contributions actually made in 1974 to section 170(b)(1)(A) organizations ($7,100) and excess contributions for 1973 of property other than 30-percent capital gain property treated under item (1) above as paid in 1974 ($6,500)	2,900	....
(iii) Excess of 30 percent of contribution base for 1974 ($9,900) over contributions of 30-percent capital gain property actually made in 1974 to section 170(b)(1)(A) organizations ($6,400)	3,500	....
Amount treated as paid	....	$2,000
(3) The amount of excess contributions for 1972 of 30-percent capital gain property which is treated as paid in 1974 is the least of:		
(i) Available carryover from 1972 to 1974 of contributions of 30-percent capital gain property	1,800	....
(ii) Excess of 50 percent of contribution base for 1974 ($16,500) over sum of contributions actually made in 1974 to section 170(b)(1)(A) organizations ($7,100) and excess contributions for 1973 and 1970 treated under items (1) and (2) above as paid in 1974 ($8,500)	900	....
(iii) Excess of 30 percent of contribution base for 1974 ($9,900) over sum of contributions of 30-percent capital gain property actually made in 1974 to section 170(b)(1)(A) organizations ($6,400) and excess contributions for 1970 of 30-percent capital gain property treated under item (2) above as paid in 1974 ($2,000)	1,500	....
Amount treated as paid	....	900

(d) *Adjustments*—(1) *Effect of net operating loss carryovers on carryover of excess contributions.* An individual having a net operating loss carryover from a prior taxable year which is available as a deduction in a contribution year must apply the special rule of section 170(d)(1)(B) and this subparagraph in computing the excess described in paragraph (b)(1) or (c)(1) of this section for such contribution year. In determining the amount of excess charitable contributions that shall be treated as paid in each of the 5 taxable years succeeding the contribution year, the excess charitable contributions described in paragraph (b)(1) or (c)(1) of this section must be reduced by the amount by which such excess reduces taxable income (for purposes of determining the portion of a net operating loss which shall be carried to taxable years succeeding the contribution year under the second sentence of section 172(b)(2)) and increases the net operating loss which is carried to a succeeding taxable year. In reducing taxable income under the second sentence of section 172(b)(2), an individual who has made charitable contributions in the contribution year to both section 170(b)(1)(A) organizations, as defined in §1.170A–9, and to organizations which are not section 170(b)(1)(A) organizations must first deduct contributions made to the section 170(b)(1)(A) organizations from his adjusted gross income computed without regard to his net operating loss deduction before any of the contributions made to organizations which are not section 170(b)(1)(A) organizations may be deducted from such adjusted gross income. Thus, if the excess of the contributions made in the contribution year to section 170(b)(1)(A) organizations over the amount deductible in such contribution year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding year or years, no part of the excess charitable contributions made in such contribution year shall be treated as paid in any of the 5 immediately succeeding taxable years. If only a portion of the excess charitable contributions is so used, the excess charitable contributions shall be reduced only to that extent. The provisions of this subparagraph may be illustrated by the following examples:

Example 1. B, an individual, reports his income on the calendar year basis and for the year 1970 has adjusted gross income (computed without regard to any net operating loss deduction) of $50,000. During 1970 he made charitable contributions of cash in the amount of $30,000 all of which were to section 170(b)(1)(A) organizations. B has a net operating loss carryover from 1969 of $50,000. In the absence of the net operating loss deduction B would have been allowed a deduction for charitable contributions of $25,000. After the application of the net operating loss deduction, B is allowed no deduction for charitable contributions, and there is (before applying the special rule of section 170(d)(1)(B) and this subparagraph) a tentative excess charitable contribution of $30,000. For purposes of determining the net operating loss which remains to be carried over to 1971, B computes his taxable income for 1970 under section 172(b)(2) by deducting the $25,000 charitable contribution. After the $50,000 net operating loss carryover is applied against the $25,000 of taxable income for 1970 (computed in accordance with section 172(b)(2), assuming no deductions other than the charitable contributions deduction are applicable in making such computation), there remains a $25,000 net operating loss carryover to 1971. Since the application of the net operating loss carryover of $50,000 from 1969 reduces the 1970 adjusted gross income (for purposes of determining 1970 tax liability) to zero, no part of the $25,000 of charitable contributions in that year is deductible under section 170(b)(1). However, in determining the amount of the excess charitable contributions which shall be treated as paid in taxable years 1971, 1972, 1973, 1974, and 1975, the $30,000 must be reduced to $5,000 by the portion of the excess charitable contributions ($25,000) which was used to reduce taxable income for 1970 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover to 1971 from zero to $25,000.

Example 2. Assume the same facts as in *Example (1),* except that B's total charitable contributions of $30,000 in cash made during 1970 consisted of $25,000 to section 170(b)(1)(A) organizations and $5,000 to organizations other than section 170(b)(1)(A) organizations. Under these facts there is a tentative excess charitable contribution of $25,000, rather than $30,000 as in *Example (1).* For purposes of determining the net operating loss which remains to be carried over to 1971, B computes his taxable income for 1970 under section 172(b)(2) by deducting the $25,000 of charitable contributions made to section 170(b)(1)(A) organizations. Since the excess charitable contribution of $25,000 determined in accordance with paragraph (b)(1) of this section was used to reduce taxable income for 1970 (as computed for purposes of the second sentence of section 172(b)(2)) and thereby served to increase the net operating loss carryover to 1971 from zero to $25,000, no part of such excess charitable contributions made in the contribution year shall be treated as paid in any of the five immediately succeeding taxable years. No carryover is allowed with respect to the $5,000 of charitable contributions made in 1970 to organizations other than section 170(b)(1)(A) organizations.

Example 3. Assume the same facts as in *Example (1),* except that B's total contributions of $30,000 made during 1970 were of 30-percent capital gain property. Under these facts there is a tentative excess charitable contribution of $30,000. For purposes of determining the net operating loss which remains to be carried over to 1971, B computes his taxable income for 1970 under section 172(b)(2)(B) by deducting the $15,000 (30% of $50,000) contribution of 30-percent capital gain property which would have been deductible in 1970 absent the net operating loss deduction. Since $15,000 of the excess charitable contribution of $30,000 determined in accordance with paragraph (c)(1) of this section was used to reduce taxable income for 1970 (as computed for purposes of the second sentence of section 172(b)(2)) and thereby served to increase the net operating loss carryover to 1971 from zero to $15,000, only $15,000 ($30,000—$15,000) of such excess shall be treated as paid in taxable years 1971, 1972, 1973, 1974, and 1975.

(2) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year computed as provided in paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. Thus, for example, assuming that in 1970 there is an excess contribution of $50,000 (determined as provided in paragraph (b)(1) of this section) which is to be carried to the 5 succeeding taxable years and that in 1973 the taxpayer has a net operating loss which may be carried back to 1970, the excess contribution of $50,000 for 1970 is not increased by reason of the fact that the adjusted gross income for 1970 (on which such excess contribution was based) is subsequently decreased by the carryback of the net operating loss from 1973. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of contributions made to section 170(b)(1)(A) organizations shall be limited to the amount of such contributions which did not exceed 50 percent or, in the case of 30-percent capital gain property, 30 percent of the donor's contribution base, computed without regard to any of the modifications referred to in section 172(d), for the contribution year. Thus, for example, assume that the taxpayer has a net operating loss in 1973 which is carried back to 1970 and in turn to 1971 and that he has made charitable contributions in 1970 to section 170(b)(1)(A) organizations. In determining the maximum amount of such charitable contributions which may be deducted in 1970 for purposes of determining the taxable income for 1970 which is deducted under section 172(b)(2) from the 1973 loss in order to ascertain the amount of such loss which is carried back to 1971, the 50-percent limitation of section 170(b)(1)(A) is based upon the adjusted gross income for 1970 computed without taking into account the net operating loss carryback from 1973 and without making any of the modifications specified in section 172(d).

(3) *Effect of net operating loss carryback to taxable years succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is treated as paid, as provided in paragraph (b)(2) or (c)(2) of this section, in a current taxable year (hereinafter referred to in this subparagraph as the ‘‘deduction year’’) shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any taxable year subsequent to the deduction year which is a carryback or carryover to taxable years succeeding the deduction year, the amount of contributions made to section 170(b)(1)(A) organizations in the deduction year shall be limited to the amount of such contributions, which were actually made in such year and those which were treated as paid in such year, which did not exceed 50 percent or, in the case of 30-percent capital gain property, 30 percent of the donor's contribution base, computed without regard to any of the modifications referred to in section 172(d), for the deduction year.

(4) *Husband and wife filing joint returns*—(i) *Change from joint return to separate returns.* If a husband and wife:

(a) Make a joint return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph, and

(b) Make separate returns for one or more of the 5 taxable years immediately succeeding such contribution year, any excess charitable contribution for the contribution year which is unused at the beginning of the first such taxable year for which separate returns are filed shall be allocated between the husband and wife. For purposes of the allocation, a computation

shall be made of the amount of any excess charitable contribution which each spouse would have computed in accordance with paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph if separate returns (rather than a joint return) had been filed for the contribution year. The portion of the total unused excess charitable contribution for the contribution year allocated to each spouse shall be an amount which bears the same ratio to such unused excess charitable contribution as such spouse's excess contribution, based on the separate return computation, bears to the total excess contributions of both spouses, based on the separate return computation. To the extent that a portion of the amount allocated to either spouse in accordance with the foregoing provisions of this subdivision is not treated in accordance with the provisions of paragraph (b)(2) or (c)(2) of this section as a charitable contribution paid to a section 170(b)(1)(A) organization in the taxable year in which a separate return or separate returns are filed, each spouse shall for purposes of paragraph (b)(2) or (c)(2) of this section treat his respective unused portion as the available charitable contributions carryover to the next succeeding taxable year in which the joint excess charitable contribution may be treated as paid in accordance with paragraph (b)(1) or (c)(1) of this section. If such husband and wife make a joint return in one of the 5 taxable years immediately succeeding the contribution year with respect to which a joint excess charitable contribution is computed and following such first taxable year for which such husband and wife filed a separate return, the amounts allocated to each spouse in accordance with this subdivision for such first year reduced by the portion of such amounts treated as paid to a section 170(b)(1)(A) organization in such first year and in any taxable year intervening between such first year and the succeeding taxable year in which the joint return is filed shall be aggregated for purposes of determining the amount of the available charitable contributions carryover to such succeeding taxable year. The provisions of this subdivision may be illustrated by the following example:

Example. (a) H and W file joint returns for 1970, 1971, and 1972, and in 1973 they file separate returns. In each such year H and W itemize their deductions in computing taxable income. Assume the following factual situation with respect to H and W for 1970:

1970

	H	W	Joint return
Contribution base	$50,000	$40,000	$90,000
Contributions of cash to section 170(b)(1)(A) organizations (no other contributions)	37,000	28,000	65,000
Allowable charitable contributions deductions	25,000	20,000	45,000
Excess contributions for taxable year to be treated as paid in 5 succeeding taxable years	12,000	8,000	20,000

(b) The joint excess charitable contribution of $20,000 is to be treated as having been paid to a section 170(b)(1)(A) organization in the 5 succeeding taxable years. Assume that in 1971 the portion of such excess treated as paid by H and W is $3,000, and that in 1972 the portion of such excess treated as paid is $7,000. Thus, the unused portion of the excess charitable contribution made in the contribution year is $10,000 ($20,000 less $3,000 [amount treated as paid in 1971] and $7,000 [amount treated as paid in 1972]). Since H and W file separate returns in 1973, $6,000 of such $10,000 is allocable to H, and $4,000 is allocable to W. Such allocation is computed as follows:

$12,000 (excess charitable contributions made by H (based on separate return computation) in 1970)/$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1970)×$10,000=$6,000

$8,000 (excess charitable contributions made by W (based on separate return computation) in 1970)/$20,000 (total excess charitable contributions made by H and W (based on separate return computation) in 1970)×$10,000=$4,000

(c) In 1973 H has a contribution base of $70,000, and he contributes $14,000 in cash to a section 170(b)(1)(A) organization. In 1973 W has a contribution base of $50,000, and she contributes $10,000 in cash to a section 170(b)(1)(A) organization. Accordingly, H may claim a charitable contributions deduction of $20,000 in 1973, and W may claim a charitable contributions deduction of $14,000 in 1973. H's $20,000 deduction consists of the $14,000 contribution made to the section 170(b)(1)(A) organization in 1973 and the $6,000 carried over from 1970 and treated as a charitable contribution paid by him to a section 170(b)(1)(A) organization in 1973. W's

$14,000 deduction consists of the $10,000 contribution made to a section 170(b)(1)(A) organization in 1973 and the $4,000 carried over from 1970 and treated as a charitable contribution paid by her to a section 170(b)(1)(A) organization in 1973.

(d) The $6,000 contribution treated as paid in 1973 by H, and the $4,000 contribution treated as paid in 1973 by W, are computed as follows:

	H	W
Available charitable contribution carryover (see computations in (b))	$6,000	$4,000
50 percent of contribution base	35,000	25,000
Contributions of cash made in 1973 to section 170(b)(1)(A) organizations (no other contributions)	14,000	10,000
	21,000	15,000
Amount of excess contributions treated as paid in 1973: The lesser of $6,000 (available carryover of H to 1973) or $21,000 (excess of 50 percent of contribution base ($35,000) over contributions actually made in 1973 to section 170(b)(1)(A) organizations ($14,000))	$6,000	
The lesser of $4,000 (available carryover of W to 1973) or $15,000 (excess of 50 percent of contribution base ($25,000) over contributions actually made in 1973 to section 170(b)(1)(A) organizations ($10,000))	....	$4,000

(e) It is assumed that H and W made no contributions of 30-percent capital gain property during these years. If they had made such contributions, there would have been similar adjustments based on 30 percent of the contribution base.

(ii) *Change from separate returns to joint return.* If in the case of a husband and wife:

(a) Either or both of the spouses make a separate return for a contribution year and compute an excess charitable contribution for such year in accordance with the provisions of paragraph (b)(1) or (c)(1) of this section and subparagraph (1) of this paragraph, and

(b) Such husband and wife make a joint return for one or more of the taxable years succeeding such contribution year, the excess charitable contribution of the husband and wife for the contribution year which is unused at the beginning of the first taxable year for which a joint return is filed shall be aggregated for purposes of determining the portion of such unused charitable contribution which shall be treated in accordance with paragraph (b)(2) or (c)(2) of this section as a charitable contribution paid to a section 170(b)(1)(A) organization. The provisions of this subdivision also apply in the case of two single individuals who are subsequently married and file a joint return. A remarried taxpayer who filed a joint return with a former spouse in a contribution year with respect to which an excess charitable contribution was computed and who in any one of the 5 taxable years succeeding such contribution year files a joint return with his or her present spouse shall treat the unused portion of such excess charitable contribution allocated to him or her in accordance with subdivision (i) of this subparagraph in the same manner as the unused portion of an excess charitable contribution computed in a contribution year in which he filed a separate return, for purposes of determining the amount which in accordance with paragraph (b)(2) or (c)(2) of this section shall be treated as paid to an organization specified in section 170(b)(1)(A) in such succeeding year.

(iii) *Unused excess charitable contribution of deceased spouse.* In case of the death of one spouse, any unused portion of an excess charitable contribution which is allocable in accordance with subdivision (i) of this subparagraph to such spouse shall not be treated as paid in the taxable year in which such death occurs or in any subsequent taxable year except on a separate return made for the deceased spouse by a fiduciary for the taxable year which ends with the date of death or on a joint return for the taxable year in which such death occurs. The application of this subdivision may be illustrated by the following example:

Example. Assume the same facts as in the example in subdivision (i) of this subparagraph except that H dies in 1972 and W files a separate return for 1973. W made a joint return for herself and H for 1972. In the example, the unused excess charitable contribution as of January 1, 1973, was $10,000, $6,000 of which was allocable to H and $4,000 to W. No portion of the $6,000 allocable to H may be treated as paid by W or any other person in 1973 or any subsequent year.

(e) *Information required in support of a deduction of an amount carried over and treated as paid.* If, in a taxable year, a deduction is claimed in respect of an excess charitable contribution which, in accordance with the provisions of paragraph (b)(2) or (c)(2) of this section, is treated (in whole or in part) as paid in such taxable year, the taxpayer shall attach to his return a statement showing:

(1) The contribution year (or years) in which the excess charitable contributions were made,

(2) The excess charitable contributions made in each contribution year, and the amount of such excess charitable contributions consisting of 30-percent capital gain property,

(3) The portion of such excess, or of each such excess, treated as paid in accordance with paragraph (b)(2) or (c)(2) of this section in any taxable year intervening between the contribution year and the taxable year for which the return is made, and the portion of such excess which consists of 30-percent capital gain property.

(4) Whether or not an election under section 170(b)(1)(D)(iii) has been made which affects any of such excess contributions of 30-percent capital gain property, and

(5) Such other information as the return or the instructions relating thereto may require.

(f) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969. For purposes of applying section 170(d)(1) with respect to contributions paid in a taxable year beginning before January 1, 1970, subsection (b)(1)(D), subsection (e), and paragraphs (1), (2), (3), and (4) of subsection (f) of section 170 shall not apply. See section 201(g)(1)(D) of the Tax Reform Act of 1969 (83 Stat. 564).

[T.D. 7207, 37 FR 20787, Oct. 4, 1972; 37 FR 22982, Oct. 27, 1972, as amended by T.D. 7340, 40 FR 1240, Jan. 7, 1975]

§1.170A–11 Limitation on, and carryover of, contributions by corporations.

(a) *In general.* The deduction by a corporation in any taxable year for charitable contributions, as defined in section 170(c), is limited to 5 percent of its taxable income for the year, computed without regard to:

(1) The deduction under section 170 for charitable contributions,

(2) The special deductions for corporations allowed under Part VIII (except section 248), Subchapter B, Chapter 1 of the Code,

(3) Any net operating loss carryback to the taxable year under section 172, and

(4) Any capital loss carryback to the taxable year under section 1212(a)(1).

A charitable contribution by a corporation to a trust, chest, fund, or foundation described in section 170(c)(2) is deductible under section 170 only if the contribution is to be used in the United States or its possessions exclusively for religious, charitable, scientific, literary, or educational purposes or for the prevention of cruelty to children or animals. For the purposes of section 170, amounts excluded from the gross income of a corporation under section 114, relating to sports programs conducted for the American National Red Cross, are not to be considered contributions or gifts.

(b) *Election by corporations on an accrual method.* (1) A corporation reporting its taxable income on an accrual method may elect to have a charitable contribution treated as paid during the taxable year, if payment is actually made on or before the 15th day of the third month following the close of such year and if, during such year, its board of directors authorizes the charitable contribution. If by reason of such an election a charitable contribution (other than a contribution of a letter, memorandum, or property similar to a letter or memorandum) paid in a taxable year beginning after December 31, 1969, is treated as paid during a taxable year beginning before January 1, 1970, the provisions of §1.170A–4 shall not be applied to reduce the amount of such contribution. However, see section 170(e) before its amendment by the Tax Reform Act of 1969.

(2) The election must be made at the time the return for the taxable year is filed, by reporting the contribution on the return. There shall be attached to the return when filed a written declaration that the resolution authorizing the contribution was adopted by the board of directors during the taxable year, and the declaration shall be

verified by a statement signed by an officer authorized to sign the return that it is made under the penalties of perjury. There shall also be attached to the return when filed a copy of the resolution of the board of directors authorizing the contribution.

(c) *Charitable contributions carryover of corporations*—(1) *In general.* Subject to the reduction provided in subparagraph (2) of this paragraph, any charitable contributions made by a corporation in a taxable year (hereinafter in this paragraph referred to as the ''contribution year'') in excess of the amount deductible in such contribution year under the 5-percent limitation of section 170(b)(2) are deductible in each of the five succeeding taxable years in order of time, but only to the extent of the lesser of the following amounts:

(i) The excess of the maximum amount deductible for such succeeding taxable year under the 5-percent limitation of section 170(b)(2) over the sum of the charitable contributions made in that year plus the aggregate of the excess contributions which were made in taxable years before the contribution year and which are deductible under this paragraph in such succeeding taxable year; or

(ii) In the case of the first taxable year succeeding the contribution year, the amount of the excess charitable contributions, and in the case of the second, third, fourth, and fifth taxable years succeeding the contribution year, the portion of the excess charitable contributions not deductible under this subparagraph for any taxable year intervening between the contribution year and such succeeding taxable year.

This paragraph applies to excess charitable contributions by a corporation, whether or not such contributions are made to, or for the use of, the donee organization and whether or not such organization is a section 170(b)(1)(A) organization, as defined in § 1.170A–9. For purposes of applying this paragraph, a charitable contribution made in a taxable year beginning before January 1, 1970, which is carried over to taxable year beginning after December 31, 1969, under section 170(b)(2) (before its amendment by the Tax Reform Act of 1969) and is deductible in such taxable year beginning after December 31, 1969, shall be treated as deductible under section 170(d)(1) and this paragraph. The application of this subparagraph may be illustrated by the following example:

Example. A corporation which reports its income on the calendar year basis makes a charitable contribution of $20,000 in 1970. Its taxable income (determined without regard to any deduction for charitable contributions) for 1970 is $100,000. Accordingly, the charitable contributions deduction for that year is limited to $5,000 (5 percent of $100,000). The excess charitable contribution not deductible in 1970 ($15,000) is a carryover to 1971. The corporation has taxable income (determined without regard to any deduction for charitable contributions) of $150,000 in 1971 and makes a charitable contribution of $5,000 in that year. For 1971 the corporation may deduct as a charitable contribution the amount of $7,500 (5 percent of $150,000). This amount consists of the $5,000 contribution made in 1971 and of the $2,500 carried over from 1970. The remaining $12,500 carried over from 1970 and not allowable as a deduction for 1971 because of the 5-percent limitation may be carried over to 1972. The corporation has taxable income (determined without regard to any deduction for charitable contributions) of $200,000 in 1972 and makes a charitable contribution of $5,000 in that year. For 1972 the corporation may deduct the amount of $10,000 (5 percent of $200,000). This amount consists of the $5,000 contributed in 1972, and $5,000 of the $12,500 carried over from 1970 to 1972. The remaining $7,500 of the carryover from 1970 is available for purposes of computing the charitable contributions carryover from 1970 to 1973, 1974, and 1975.

(2) *Effect of net operating loss carryovers on carryover of excess contributions.* A corporation having a net operating loss carryover from any taxable year must apply the special rule of section 170(d)(2)(B) and this subparagraph before computing under subparagraph (1) of this paragraph the excess charitable contributions carryover from any taxable year. In determining the amount of excess charitable contributions that may be deducted in accordance with subparagraph (1) of this paragraph in taxable years succeeding the contribution year, the excess of the charitable contributions made by a corporation in the contributions year over the amount deductible in such year must be reduced by the amount by which such excess reduces taxable income for purposes of determining the

net operating loss carryover under the second sentence of section 172(b)(2)) and increases a net operating loss carryover to a succeeding taxable year. Thus, if the excess of the contributions made in a taxable year over the amount deductible in the taxable year is utilized to reduce taxable income (under the provisions of section 172(b)(2)) for such year, thereby serving to increase the amount of the net operating loss carryover to a succeeding taxable year or years, no charitable contributions carryover will be allowed. If only a portion of the excess charitable contributions is so used, the charitable contributions carryover will be reduced only to that extent. The application of this subparagraph may be illustrated by the following example:

Example. A corporation, which reports its income on the calendar year basis, makes a charitable contribution of $10,000 during 1971. Its taxable income for 1971 is $80,000 (computed without regard to any net operating loss deduction and computed in accordance with section 170(b)(2) without regard to any deduction for charitable contributions). The corporation has a net operating loss carryover from 1970 of $80,000. In the absence of the net operating loss deduction the corporation would have been allowed a deduction for charitable contributions of $4,000 (5 percent of $80,000). After the application of the net operating loss deduction the corporation is allowed no deduction for charitable contributions, and there is a tentative charitable contribution carryover from 1971 of $10,000. For purposes of determining the net operating loss carryover to 1972 the corporation computes its taxable income for 1971 under section 172(b)(2) by deducting the $4,000 charitable contribution. Thus, after the $80,000 net operating loss carryover is applied against the $76,000 of taxable income for 1971 (computed in accordance with section 172(b)(2)), there remains a $4,000 net operating loss carryover to 1972. Since the application of the net operating loss carryover of $80,000 from 1970 reduces the taxable income for 1971 to zero, no part of the $10,000 of charitable contributions in that year is deductible under section 170(b)(2). However, in determining the amount of the allowable charitable contributions carryover from 1971 to 1972, 1973, 1974, 1975, and 1976, the $10,000 must be reduced by the portion thereof ($4,000) which was used to reduce taxable income for 1971 (as computed for purposes of the second sentence of section 172(b)(2)) and which thereby served to increase the net operating loss carryover from 1970 to 1972 from zero to $4,000.

(3) *Effect of net operating loss carryback to contribution year.* The amount of the excess contribution for a contribution year computed as provided in subparagraph (1) of this paragraph shall not be increased because a net operating loss carryback is available as a deduction in the contribution year. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any year subsequent to the contribution year which is a carryback or carryover to taxable years succeeding the contribution year, the amount of any charitable contributions shall be limited to the amount of such contributions which did not exceed 5 percent of the donor's taxable income, computed as provided in paragraph (a) of this section and without regard to any of the modifications referred to in section 172(d), for the contribution year. For illustrations see paragraph (d)(2) of §1.170A–10.

(4) *Effect of net operating loss carryback to taxable year succeeding the contribution year.* The amount of the charitable contribution from a preceding taxable year which is deductible (as provided in this paragraph) in a current taxable year (hereinafter referred to in this subparagraph as the ''deduction year'') shall not be reduced because a net operating loss carryback is available as a deduction in the deduction year. In addition, in determining under the provisions of section 172(b)(2) the amount of the net operating loss for any taxable year subsequent to the deduction year which is a carryback or a carryover to taxable years succeeding the deduction year, the amount of contributions made in the deduction year shall be limited to the amount of such contributions, which were actually made in such year and those which were deductible in such year under section 170(d)(2), which did not exceed 5 percent of the donor's taxable income, computed as provided in paragraph (a) of this section and without regard to any of the modifications referred to in section 172(d), for the deduction year.

(5) *Year contribution is made.* For purposes of this paragraph, contributions made by a corporation in a contribution year include contributions which,

in accordance with the provisions of section 170(a)(2) and paragraph (b) of this section, are considered as paid during such contribution year.

(d) *Effective date.* This section applies only to contributions paid in taxable years beginning after December 31, 1969. For purposes of applying section 170(d)(2) with respect to contributions paid, or treated under section 170(a)(2) as paid, in a taxable year beginning before January 1, 1970, subsection (e), and paragraphs (1), (2), (3), and (4) of subsection (f) of section 170 shall not apply. See section 201(g)(1)(D) of the Tax Reform Act of 1969 (83 Stat. 564).

[T.D. 7207, 37 FR 20793, Oct. 4, 1972, as amended by T.D. 7807, 47 FR 4512, Feb. 1, 1982]

§ 1.170A–12 Valuation of a remainder interest in real property for contributions made after July 31, 1969.

(a) *In general.* (1) Section 170(f)(4) provides that, in determining the value of a remainder interest in real property for purposes of section 170, depreciation and depletion of such property shall be taken into account. Depreciation shall be computed by the straight line method and depletion shall be computed by the cost depletion method. Section 170(f)(4) and this section apply only in the case of a contribution, not made in trust, of a remainder interest in real property made after July 31, 1969, for which a deduction is otherwise allowable under section 170.

(2) In the case of the contribution of a remainder interest in real property consisting of a combination of both depreciable and nondepreciable property, or of both depletable and nondepletable property, and allocation of the fair market value of the property at the time of the contribution shall be made between the depreciable and nondepreciable property, or the depletable and nondepletable property, and depreciation or depletion shall be taken into account only with respect to the depreciable or depletable property. The expected value at the end of its ‘‘estimated useful life’’ (as defined in paragraph (d) of this section) of that part of the remainder interest consisting of depreciable property shall be considered to be nondepreciable property for purposes of the required allocation. In the case of the contribution of a remainder interest in stock in a cooperative housing corporation (as defined in section 216(b)(1)), an allocation of the fair market value of the stock at the time of the contribution shall be made to reflect the respective values of the depreciable and nondepreciable property underlying such stock, and depreciation on the depreciable part shall be taken into account for purposes of valuing the remainder interest in such stock.

(3) If the remainder interest that has been contributed follows only one life, the value of the remainder interest shall be computed under the rules contained in paragraph (b) of this section. If the remainder interest that has been contributed follows a term for years, the value of the remainder interest shall be computed under the rules contained in paragraph (c) of this section. If the remainder interest that has been contributed is dependent upon the continuation or the termination of more than one life or upon a term certain concurrent with one or more lives, the provisions of paragraph (e) of this section shall apply. In every case where it is provided in this section that the rules contained in § 25.2512–5 (or, for certain prior periods, § 25.2512–5A) of this chapter (Gift Tax Regulations) apply, such rules shall apply notwithstanding the general effective date for such rules contained in paragraph (a) of such section. Except as provided in § 1.7520–3(b) of this chapter, for transfers of remainder interests after April 30, 1989, the present value of the remainder interest is determined under § 25.2512–5 of this chapter by use of the interest rate component on the date the interest is transferred unless an election is made under section 7520 and § 1.7520–2 of this chapter to compute the present value of the interest transferred by use of the interest rate component for either of the 2 months preceding the month in which the interest is transferred. In some cases, a reduction in the amount of a charitable contribution of a remainder interest, after the computation of its value under section 170(f)(4) and this section, may be required. See section 170(e) and § 1.170A–4.

(b) *Valuation of a remainder interest following only one life*—(1) *General rule.* The value of a remainder interest in real property following only one life is determined under the rules provided in § 20.2031–7 (or for certain prior periods, § 20.2031–7A) of this chapter (Estate Tax Regulations), using the interest rate and life contingencies prescribed for the date of the gift. See, however, § 1.7520–3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). However, if any part of the real property is subject to exhaustion, wear and tear, or obsolescence, the special factor determined under paragraph (b)(2) of this section shall be used in valuing the remainder interest in that part. Further, if any part of the property is subject to depletion of its natural resources, such depletion is taken into account in determining the value of the remainder interest.

(2) *Computation of depreciation factor.* If the valuation of the remainder interest in depreciable property is dependent upon the continuation of one life, a special factor must be used. The factor determined under this paragraph (b)(2) is carried to the fifth decimal place. The special factor is to be computed on the basis of the interest rate and life contingencies prescribed in § 20.2031–7 (or for certain prior periods, § 20.2031–7A) of this chapter (Estate Tax Regulations) and on the assumption that the property depreciates on a straight-line basis over its estimated useful life. For transfers for which the valuation date is after April 30, 1989, special factors for determining the present value of a remainder interest following one life and an example describing the computation are contained in Internal Revenue Service Publication 1459, ‘‘Actuarial Values, Gamma Volume,’’ (8–89). This publication is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:R (IRS Publication 1459), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. See, however, § 1.7520–3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). Otherwise, in the case of the valuation of a remainder interest following one life, the special factor may be obtained through use of the following formula:

$$\left(1+\frac{i}{2}\right)\sum_{t=0}^{n-1} V^{(t+1)}\left[\left(1-\frac{l_{x+t+1}}{l_x}\right)-\left(1-\frac{l_{x+t}}{l_x}\right)\right]\left(1-\frac{1}{2n}-\frac{t}{n}\right)$$

Where:

n=the estimated number of years of useful life,

i=the applicable interest rate under section 7520 of the Internal Revenue Code,

v=1 divided by the sum of 1 plus the applicable interest rate under section 7520 of the Internal Revenue Code,

x=the age of the life tenant, and

lx=number of persons living at age x as set forth in Table 80CNSMT of § 20.2031–7 (or, for prior periods, in § 20.2031–7A) of this chapter.

(3) The following example illustrates the provisions of this paragraph (b):

Example. In June 1992, A, who is 62, donates to Y University a remainder interest in a personal residence, consisting of a house and land, subject to a reserved life estate in A. At the time of the gift, the land has a value of $30,000 and the house has a value of $100,000 with an estimated useful life of 45 years, at the end of which the value of the house is expected to be $20,000. The portion of the property considered to be depreciable is $80,000 (the value of the house ($100,000) less its expected value at the end of 45 years ($20,000)). The portion of the property considered to be nondepreciable is $50,000 (the value of the land at the time of the gift ($20,000) plus the expected value of the house at the end of 45 years ($20,000)). The interest rate prescribed under section 7520 for June 1992 is 8.4 percent. Based on an interest rate of 8.4 percent, the remainder factor for $1.00 prescribed in § 20.2031–7 of this chapter for a person age 62 is 0.29567. The value of the nondepreciable remainder interest is $14,783.50 (0.29567 times $50,000). The value of the depreciable remainder interest is $17,387.20 (0.21734, computed under the formula described in paragraph (b)(2) of this section, times $80,000). Therefore, the value of the remainder interest is $32,170.70.

(c) *Valuation of a remainder interest following a term for years.* The value of a remainder interest in real property following a term for years shall be determined under the rules provided in §25.2512–5 (or, for certain prior periods, §25.2512–5A) of this chapter (Gift Tax Regulations) using Table B provided in paragraph (f) of such sections. However, if any part of the real property is subject to exhaustion, wear and tear, or obsolescence, in valuing the remainder interest in that part the value of such part is adjusted by subtracting from the value of such part the amount determined by multiplying such value by a fraction, the numerator of which is the number of years in the term or, if less, the estimated useful life of the property, and the denominator of which is the estimated useful life of the property. The resultant figure is the value of the property to be used in §25.2512–5 (or, for certain prior periods, §25.2512–5A) of this chapter (Gift Tax Regulations). Further, if any part of the property is subject to depletion of its natural resources, such depletion shall be taken into account in determining the value of the remainder interest. The provisions of this paragraph as it relates to depreciation are illustrated by the following example:

Example. In 1972, B donates to Z University a remainder interest in his personal residence, consisting of a house and land, subject to a 20 year term interest provided for his sister. At such time the house has a value of $60,000, and an expected useful life of 45 years, at the end of which time it is expected to have a value of $10,000, and the land has a value of $8,000. The value of the portion of the property considered to be depreciable is $50,000 (the value of the house ($60,000) less its expected value at the end of 45 years ($10,000)), and this is multiplied by the fraction 20/45. The product, $22,222.22, is subtracted from $68,000, the value of the entire property, and the balance, $45,777.78, is multiplied by the factor .311805 (see §25.2512–5A(c)). The result, $14,273.74, is the value of the remainder interest in the property.

(d) *Definition of estimated useful life.* For the purposes of this section, the determination of the estimated useful life of depreciable property shall take account of the expected use of such property during the period of the life estate or term for years. The term ‘‘estimated useful life’’ means the estimated period (beginning with the date of the contribution) over which such property may reasonably be expected to be useful for such expected use. This period shall be determined by reference to the experience based on any prior use of the property for such purposes if such prior experience is adequate. If such prior experience is inadequate or if the property has not been previously used for such purposes, the estimated useful life shall be determined by reference to the general experience of persons normally holding similar property for such expected use, taking into account present conditions and probable future developments. The estimated useful life of such depreciable property is not limited to the period of the life estate or term for years preceding the remainder interest. In determining the expected use and the estimated useful life of the property, consideration is to be given to the provisions of the governing instrument creating the life estate or term for years or applicable local law, if any, relating to use, preservation, and maintenance of the property during the life estate or term for years. In arriving at the estimated useful life of the property, estimates, if available, of engineers or other persons skilled in estimating the useful life of similar property may be taken into account. At the option of the taxpayer, the estimated useful life of property contributed after December 31, 1970, for purposes of this section, shall be an asset depreciation period selected by the taxpayer that is within the permissible asset depreciation range for the relevant asset guideline class established pursuant to §1.167(a)–11(b) (4)(ii). For purposes of the preceding sentence, such period, range, and class shall be those which are in effect at the time that the contribution of the remainder interest was made. At the option of the taxpayer, in the case of property contributed before January 1, 1971, the estimated useful life, for purposes of this section, shall be the guideline life provided in Revenue Procedure 62–21 for the relevant asset guideline class.

(e) *Valuation of a remainder interest following more than one life or a term certain concurrent with one or more lives.*

(1)(i) If the valuation of the remainder interest in the real property is dependent upon the continuation or the termination of more than one life or upon a term certain concurrent with one or more lives, a special factor must be used.

(ii) The special factor is to be computed on the basis of—

(A) Interest at the rate prescribed under § 25.2512–5 (or, for certain prior periods, § 25.2512–5A) of this chapter, compounded annually;

(B) Life contingencies determined from the values that are set forth in the mortality table in § 20.2031–7 (or, for certain prior periods, § 20.2031–7A) of this chapter; and

(C) If depreciation is involved, the assumption that the property depreciates on a straight-line basis over its estimated useful life.

(iii) If any part of the property is subject to depletion of its natural resources, such depletion must be taken into account in determining the value of the remainder interest.

(2) In the case of the valuation of a remainder interest following two lives, the special factor may be obtained through use of the following formula:

$$\left(1+\frac{i}{2}\right)\sum_{t=0}^{n-1} V^{(t+1)}\left[\left(1-\frac{l_{x+t+1}}{l_x}\right)\left(1-\frac{l_{y+t+1}}{l_y}\right)-\left(1-\frac{l_{x+t}}{l_x}\right)\left(1-\frac{l_{y+t}}{l_y}\right)\right]\left(1-\frac{1}{2n}-\frac{t}{n}\right)$$

Where:

n=the estimated number of years of useful life,

i=the applicable interest rate under section 7520 of the Internal Revenue Code,

v=1 divided by the sum of 1 plus the applicable interest rate under section 7520 of the Internal Revenue Code,

x and y=the ages of the life tenants, and

lx and ly=the number of persons living at ages x and y as set forth in Table 80CNSMT in § 20.2031–7 (or, for prior periods, in § 20.2031–7A) of this chapter.

(3) Notwithstanding that the taxpayer may be able to compute the special factor in certain cases under paragraph (2), if a special factor is required in the case of an actual contribution, the Commissioner will furnish the factor to the donor upon request. The request must be accompanied by a statement of the sex and date of birth of each person the duration of whose life may affect the value of the remainder interest, copies of the relevant instruments, and, if depreciation is involved, a statement of the estimated useful life of the depreciable property. However, since remainder interests in that part of any property which is depletable cannot be valued on a purely actuarial basis, special factors will not be furnished with respect to such part. Requests should be forwarded to the Commissioner of Internal Revenue, Attention: E:A:G, Washington, DC 20224.

[T.D. 7370, 40 FR 34337, Aug. 15, 1975, as amended by T.D. 7955, 49 FR 19975, May 11, 1984; T.D. 8540, 59 FR 30102, 30104, June 10, 1994]

§ 1.170A–13 Recordkeeping and return requirements for deductions for charitable contributions.

(a) *Charitable contributions of money made in taxable years beginning after December 31, 1982*—(1) *In general.* If a taxpayer makes a charitable contribution of money in a taxable year beginning after December 31, 1982, the taxpayer shall maintain for each contribution one of the following:

(i) A cancelled check.

(ii) A receipt from the donee charitable organization showing the name of the donee, the date of the contribution, and the amount of the contribution. A letter or other communication from the donee charitable organization acknowledging receipt of a contribution and showing the date and amount of the contribution constitutes a receipt for purposes of this paragraph (a).

(iii) In the absence of a canceled check or receipt from the donee charitable organization, other reliable written records showing the name of the donee, the date of the contribution, and the amount of the contribution.

(2) *Special rules*—(i) *Reliability of records.* The reliability of the written records described in paragraph (a)(1)(iii) of this section is to be determined on the basis of all of the facts and circumstances of a particular case. In all events, however, the burden shall be on the taxpayer to establish reliability. Factors indicating that the written records are reliable include, but are not limited to:

(A) The contemporaneous nature of the writing evidencing the contribution.

(B) The regularity of the taxpayer's recordkeeping procedures. For example, a contemporaneous diary entry stating the amount and date of the donation and the name of the donee charitable organization made by a taxpayer who regularly makes such diary entries would generally be considered reliable.

(C) In the case of a contribution of a small amount, the existence of any written or other evidence from the donee charitable organization evidencing receipt of a donation that would not otherwise constitute a receipt under paragraph (a)(1)(ii) of this section (including an emblem, button, or other token traditionally associated with a charitable organization and regularly given by the organization to persons making cash donations).

(ii) *Information stated in income tax return.* The information required by paragraph (a)(1)(iii) of this section shall be stated in the taxpayer's income tax return if required by the return form or its instructions.

(3) *Taxpayer option to apply paragraph (d)(1) to pre-1985 contribution.* See paragraph (d)(1) of this section with regard to contributions of money made on or before December 31, 1984.

(b) *Charitable contributions of property other than money made in taxable years beginning after December 31, 1982*—(1) *In general.* Except in the case of certain charitable contributions of property made after December 31, 1984, to which paragraph (c) of this section applies, any taxpayer who makes a charitable contribution of property other than money in a taxable year beginning after December 31, 1982, shall maintain for each contribution a receipt from the donee showing the following information:

(i) The name of the donee.

(ii) The date and location of the contribution.

(iii) A description of the property in detail reasonably sufficient under the circumstances. Although the fair market value of the property is one of the circumstances to be taken into account in determining the amount of detail to be included on the receipt, such value need not be stated on the receipt.

A letter or other written communication from the donee acknowledging receipt of the contribution, showing the date of the contribution, and containing the required description of the property contributed constitutes a receipt for purposes of this paragraph. A receipt is not required if the contribution is made in circumstances where it is impractical to obtain a receipt (*e.g.*, by depositing property at a charity's unattended drop site). In such cases, however, the taxpayer shall maintain reliable written records with respect to each item of donated property that include the information required by paragraph (b)(2)(ii) of this section.

(2) *Special rules*—(i) *Reliability of records.* The rules described in paragraph (a)(2)(i) of this section also apply to this paragraph (b) for determining the reliability of the written records described in paragraph (b)(1) of this section

(ii) *Content of records.* The written records described in paragraph (b)(1) of this section shall include the following information and such information shall be stated in the taxpayers income tax return if required by the return form or its instructions:

(A) The name and address of the donee organization to which the contribution was made.

(B) The date and location of the contribution.

(C) A description of the property in detail reasonable under the circumstances (including the value of the property), and, in the case of securities, the name of the issuer, the type of security, and whether or not such security is regularly traded on a stock exchange or in an over-the-counter market.

(D) The fair market value of the property at the time the contribution was made, the method utilized in determining the fair market value, and, if the valuation was determined by appraisal, a copy of the signed report of the appraiser.

(E) In the case of property to which section 170(e) applies, the cost or other basis, adjusted as provided by section 1016, the reduction by reason of section 170(e)(1) in the amount of the charitable contribution otherwise taken into account, and the manner in which such reduction was determined. A taxpayer who elects under paragraph (d)(2) of §1.170A–8 to apply section 170(e)(1) to contributions and carryovers of 30 percent capital gain property shall maintain a written record indicating the years for which the election was made and showing the contributions in the current year and carryovers from preceding years to which it applies. For the definition of the term ''30-percent capital gain property,'' see paragraph (d)(3) of §1.170A–8.

(F) If less than the entire interest in the property is contributed during the taxable year, the total amount claimed as a deduction for the taxable year due to the contribution of the property, and the amount claimed as a deduction in any prior year or years for contributions of other interests in such property, the name and address of each organization to which any such contribution was made, the place where any such property which is tangible property is located or kept, and the name of any person, other than the organization to which the property giving rise to the deduction was contributed, having actual possession of the property.

(G) The terms of any agreement or understanding entered into by or on behalf of the taxpayer which relates to the use, sale, or other disposition of the property contributed, including for example, the terms of any agreement or understanding which:

(*1*) Restricts temporarily or permanently the donee's right to use or dispose of the donated property,

(*2*) Reserves to, or confers upon, anyone (other than the donee organization or an organization participating with the donee organization in cooperative fundraising) any right to the income from the donated property or to the possession of the property, including the right to vote donated securities, to acquire the property by purchase or otherwise, or to designate the person having such income, possession, or right to acquire, or

(*3*) Earmarks donated property for a particular use.

(3) *Deductions in excess of $500 claimed for a charitable contribution of property other than money*—(i) *In general.* In addition to the information required under paragraph (b)(2)(ii) of this section, if a taxpayer makes a charitable contribution of property other than money in a taxable year beginning after December 31, 1982, and claims a deduction in excess of $500 in respect of the contribution of such item, the taxpayer shall maintain written records that include the following information with respect to such item of donated property, and shall state such information in his or her income tax return if required by the return form or its instructions:

(A) The manner of acquisition, as for example by purchase, gift bequest, inheritance, or exchange, and the approximate date of acquisition of the property by the taxpayer or, if the property was created, produced, or manufactured by or for the taxpayer, the approximate date the property was substantially completed.

(B) The cost or other basis, adjusted as provided by section 1016, of property, other than publicly traded securities, held by the taxpayer for a period of less than 12 months (6 months for property contributed in taxable years beginning after December 31, 1982, and on or before June 6, 1988, immediately preceding the date on which the contribution was made and, when the information is available, of property, other than publicly traded securities, held for a period of 12 months or more (6 months or more for property contributed in taxable years beginning after December 31, 1982, and on or before June 6, 1988, preceding the date on which the contribution was made.

(ii) *Information on acquisition date or cost basis not available.* If the return form or its instructions require the taxpayer to provide information on either the acquisition date of the property or the cost basis as described in paragraph (b)(3)(i) (A) and (B), respectively, of this section, and the taxpayer has reasonable cause for not being able to provide such information, the taxpayer shall attach an explanatory statement to the return. If a taxpayer has reasonable cause for not being able to provide such information, the taxpayer shall not be disallowed a charitable contribution deduction under section 170 for failure to comply with paragraph (b)(3)(i) (A) and (B) of the section.

(4) *Taxpayer option to apply paragraph (d) (1) and (2) to pre-1985 contributions.* See paragraph (d) (1) and (2) of this section with regard to contributions of property made on or before December 31, 1984.

(c) *Deductions in excess of $5,000 for certain charitable contributions of property made after December 31, 1984*—(1) *General Rule*—(i) *In general.* This paragraph applies to any charitable contribution made after December 31, 1984, by an individual, closely held corporation, personal service corporation, partnership, or S corporation of an item of property (other than money and publicly traded securities to which § 1.170A–13(c)(7)(xi)(B) does not apply if the amount claimed or reported as a deduction under section 170 with respect to such item exceeds $5,000. This paragraph also applies to charitable contributions by C corporations (as defined in section 1361(a)(2) of the Code) to the extent described in paragraph (c)(2)(ii) of this section. No deduction under section 170 shall be allowed with respect to a charitable contribution to which this paragraph applies unless the substantiation requirements described in paragraph (c)(2) of this section are met. For purposes of this paragraph (c), the amount claimed or reported as a deduction for an item of property is the aggregate amount claimed or reported as a deduction for a charitable contribution under section 170 for such items of property and all similar items of property (as defined in paragraph (c)(7)(iii) of this section) by the same donor for the same taxable year (whether or not donated to the same donee).

(ii) *Special rule for property to which section 170(e) (3) or (4) applies.* For purposes of this paragraph (c), in computing the amount claimed or reported as a deduction for donated property to which section 170(e) (3) or (4) applies (pertaining to certain contributions of inventory and scientific equipment) there shall be taken into account only the amount claimed or reported as a deduction in excess of the amount which would have been taken into account for tax purposes by the donor as costs of goods sold if the donor had sold the contributed property to the donee. For example, assume that a donor makes a contribution from inventory of clothing for the care of the needy to which section 170(e)(3) applies. The cost of the property to the donor was $5,000, and, pursuant to section 170(e)(3)(B), the donor claims a charitable contribution deduction of $8,000 with respect to the property. Therefore, $3,000 ($8,000–$5,000) is the amount taken into account for purposes of determining whether the $5,000 threshold of this paragraph (c)(1) is met.

(2) *Substantiation requirements*—(i) *In general.* Except as provided in paragraph (c)(2)(ii) of this section, a donor who claims or reports a deduction with respect to a charitable contribution to which this paragraph (c) applies must comply with the following three requirements:

(A) Obtain a qualified appraisal (as defined in paragraph (c) (3) of this section) for such property contributed. If the contributed property is a partial interest, the appraisal shall be of the partial interest.

(B) Attach a fully completed appraisal summary (as defined in paragraph (c) (4) of this section) to the tax return (or, in the case of a donor that is a partnership or S corporation, the information return) on which the deduction for the contribution is first claimed (or reported) by the donor.

(C) Maintain records containing the information required by paragraph (b) (2) (ii) of this section.

(ii) *Special rules for certain nonpublicly traded stock, certain publicly traded securities, and contributions by certain C corporations.* (A) In cases described in paragraph (c)(2)(ii)(B) of this section, a qualified appraisal is not required, and only a partially completed appraisal summary form (as described in paragraph (c)(4)(iv)(A) of this section) is required to be attached to the tax or information return specified in paragraph (c)(2)(i)(B) of this section. However, in all cases donors must maintain records containing the information required by paragraph (b)(2)(ii) of this section.

(B) This paragraph (c)(2)(ii) applies in each of the following cases:

(*1*) The contribution of nonpublicly traded stock, if the amount claimed or reported as a deduction for the charitable contribution of such stock is greater than $5,000 but does not exceed $10,000;

(*2*) The contribution of a security to which paragraph (c)(7)(xi)(B) of this section applies; and

(*3*) The contribution of an item of property or of similar items of property described in paragraph (c)(1) of this section made after June 6, 1988, by a C corporation (as defined in section 1361(a)(2) of the Code), other than a closely held corporation or a personal service corporation.

(3) *Qualified appraisal*—(i) *In general.* For purposes of this paragraph (c), the term ‘‘qualified appraisal’’ means an appraisal document that—

(A) Relates to an appraisal that is made not earlier than 60 days prior to the date of contribution of the appraised property nor later than the date specified in paragraph (c)(3)(iv)(B) of this section;

(B) Is prepared, signed, and dated by a qualified appraiser (within the meaning of paragraph (c)(5) of this section);

(C) Includes the information required by paragraph (c)(3)(ii) of this section; and

(D) Does not involve an appraisal fee prohibited by paragraph (c)(6) of this section.

(ii) *Information included in qualified appraisal.* A qualified appraisal shall include the following information:

(A) A description of the property in sufficient detail for a person who is not generally familiar with the type of property to ascertain that the property that was appraised is the property that was (or will be) contributed;

(B) In the case of tangible property, the physical condition of the property;

(C) The date (or expected date) of contribution to the donee;

(D) The terms of any agreement or understanding entered into (or expected to be entered into) by or on behalf of the donor or donee that relates to the use, sale, or other disposition of the property contributed, including, for example, the terms of any agreement or understanding that—

(*1*) Restricts temporarily or permanently a donee’s right to use or dispose of the donated property,

(*2*) Reserves to, or confers upon, anyone (other than a donee organization or an organization participating with a donee organization in cooperative fundraising) any right to the income from the contributed property or to the possession of the property, including the right to vote donated securities, to acquire the property by purchase or otherwise, or to designate the person having such income, possession, or right to acquire, or

(*3*) Earmarks donated property for a particular use;

(E) The name, address, and (if a taxpayer identification number is otherwise required by section 6109 and the regulations thereunder) the identifying number of the qualified appraiser; and, if the qualified appraiser is acting in his or her capacity as a partner in a partnership, an employee of any person (whether an individual, corporation, or partnerships), or an independent contractor engaged by a person other than the donor, the name, address, and taxpayer identification number (if a number is otherwise required by section 6109 and the regulations thereunder) of the partnership or the person who employs or engages the qualified appraiser;

(F) The qualifications of the qualified appraiser who signs the appraisal, including the appraiser’s background, experience, education, and membership, if any, in professional appraisal associations;

(G) A statement that the appraisal was prepared for income tax purposes;

(H) The date (or dates) on which the property was appraised;

(I) The appraised fair market value (within the meaning of § 1.170A–1 (c)(2)) of the property on the date (or expected date) of contribution;

(J) The method of valuation used to determine the fair market value, such as the income approach, the market-data approach, and the replacement-cost-less-depreciation approach; and

(K) The specific basis for the valuation, such as specific comparable sales transactions or statistical sampling, including a justification for using sampling and an explanation of the sampling procedure employed.

(iii) *Effect of signature of the qualified appraiser.* Any appraiser who falsely or fraudulently overstates the value of the contributed property referred to in a qualified appraisal or appraisal summary (as defined in paragraphs (c) (3) and (4), respectively, of this section) that the appraiser has signed may be subject to a civil penalty under section 6701 for aiding and abetting an understatement of tax liability and, moreover, may have appraisals disregarded pursuant to 31 U.S.C. 330(c).

(iv) *Special rules*—(A) *Number of qualified appraisals.* For purposes of paragraph (c)(2)(i)(A) of this section, a separate qualified appraisal is required for each item of property that is not included in a group of similar items of property. See paragraph (c)(7)(iii) of this section for the definition of similar items of property. Only one qualified appraisal is required for a group of similar items of property contributed in the same taxable year of the donor, although a donor may obtain separate qualified appraisals for each item of property. A qualified appraisal prepared with respect to a group of similar items of property shall provide all the information required by paragraph (c)(3)(ii) of this section for each item of similar property, except that the appraiser may select any items whose aggregate value is appraised at $100 or less and provide a group description of such items.

(B) *Time of receipt of qualified appraisal.* The qualified appraisal must be received by the donor before the due date (including extensions) of the return on which a deduction is first claimed (or reported in the case of a donor that is a partnership or S corporation) under section 170 with respect to the donated property, or, in the case of a deduction first claimed (or reported) on an amended return, the date on which the return is filed.

(C) *Retention of qualified appraisal.* The donor must retain the qualified appraisal in the donor's records for so long as it may be relevant in the administration of any internal revenue law.

(D) *Appraisal disregarded pursuant to 31 U.S.C. 330(c).* If an appraisal is disregarded pursuant to 31 U.S.C. 330(c) it shall have no probative effect as to the value of the appraised property. Such appraisal will, however, otherwise constitute a ‘‘qualified appraisal’’ for purposes of this paragraph (c) if the appraisal summary includes the declaration described in paragraph (c)(4)(ii)(L)(*2*) and the taxpayer had no knowledge that such declaration was false as of the time described in paragraph (c)(4)(i)(B) of this section.

(4) *Appraisal summary*—(i) *In general.* For purposes of this paragraph (c), except as provided in paragraph (c)(4)(iv)(A) of this section, the term *appraisal summary* means a summary of a qualified appraisal that—

(A) Is made on the form prescribed by the Internal Revenue Service;

(B) Is signed and dated (as described in paragraph (c)(4)(iii) of this section) by the donee (or presented to the donee for signature in cases described in paragraph (c)(4)(iv)(C)(*2*) of this section);

(C) Is signed and dated by the qualified appraiser (within the meaning of paragraph (c)(5) of this section) who prepared the qualified appraisal (within the meaning of paragraph (c)(3) of this section); and

(D) Includes the information required by paragraph (c)(4)(ii) of this section.

(ii) *Information included in an appraisal summary.* An appraisal summary shall include the following information:

(A) The name and taxpayer identification number of the donor (social security number if the donor is an individual or employer identification number if the donor is a partnership or corporation);

(B) A description of the property in sufficient detail for a person who is not generally familiar with the type of property to ascertain that the property that was appraised is the property that was contributed;

(C) In the case of tangible property, a brief summary of the overall physical condition of the property at the time of the contribution;

(D) The manner of acquisition (*e.g.*, purchase, exchange, gift, or bequest) and the date of acquisition of the property by the donor, or, if the property was created, produced, or manufactured by or for the donor, a statment to that effect and the approximate date the property was substantially completed;

(E) The cost or other basis of the property adjusted as provided by section 1016;

(F) The name, address, and taxpayer identification number of the donee;

(G) The date the donee received the property;

(H) For charitable contributions made after June 6, 1988, a statement explaining whether or not the charitable contribution was made by means of a bargain sale and the amount of any consideration received from the donee for the contribution;

(I) The name, address, and (if a taxpayer identification number is otherwise required by section 6109 and the regulations thereunder) the identifying number of the qualified appraiser who signs the appraisal summary and of other persons as required by paragraph (c)(3)(ii)(E) of this section;

(J) The appraised fair market value of the property on the date of contribution;

(K) The declaration by the appraiser described in paragraph (c)(5)(i) of this section;

(L) A declaration by the appraiser stating that—

(*1*) The fee charged for the appraisal is not of a type prohibited by paragraph (c)(6) of this section; and

(*2*) Appraisals prepared by the appraiser are not being disregarded pursuant to 31 U.S.C. 330(c) on the date the appraisal summary is signed by the appraiser; and

(M) Such other information as may be specified by the form.

(iii) *Signature of the original donee.* The person who signs the appraisal summary for the donee shall be an official authorized to sign the tax or information returns of the donee, or a person specifically authorized to sign appraisal summaries by an official authorized to sign the tax or information returns of such done. In the case of a donee that is a governmental unit, the person who signs the appraisal summary for such donee shall be the official authorized by such donee to sign appraisal summaries. The signature of the donee on the appraisal summary does not represent concurrence in the appraised value of the contributed property. Rather, it represents acknowledgment of receipt of the property described in the appraisal summary on the date specified in the appraisal summary and that the donee understands the information reporting requirements imposed by section 6050L and § 1.6050L–1. In general, § 1.6050L–1 requires the donee to file an information return with the Internal Revenue Service in the event the donee sells, exchanges, consumes, or otherwise disposes of the property (or any portion thereof) described in the appraisal summary within 2 years after the date of the donor's contribution of such property.

(iv) *Special rules*—(A) *Content of appraisal summary required in certain cases.* With respect to contributions of nonpublicly traded stock described in paragraph (c)(2)(ii)(B)(*1*) of this section, contributions of securities described in paragraph (c)(7)(xi)(B) of this section, and contributions by C corporations described in paragraph (c)(2)(ii)(B)(*3*) of this section, the term *appraisal summary* means a document that—

(*1*) Complies with the requirements of paragraph (c)(4)(i) (A) and (B) of this section,

(*2*) Includes the information required by paragraph (c)(4)(ii) (A) through (H) of this section,

(*3*) Includes the amount claimed or reported as a charitable contribution deduction, and

(*4*) In the case of securities described in paragraph (c)(7)(xi)(B) of this section, also includes the pertinent average trading price (as described in paragraph (c)(7)(xi)(B)(*2*)(iii) of this section).

(B) *Number of appraisal summaries.* A separate appraisal summary for each item of property described in paragraph (c)(1) of this section must be attached to the donor's return. If, during the donor's taxable year, the donor contributes similar items of property described in paragraph (c)(1) of this section to more than one donee, the donor shall attach to the donor's return a separate appraisal summary for each donee. See paragraph (c)(7)(iii) of this section for the definition of similar items of property. If, however, during the donor's taxable year, a donor contributes similar items of property described in paragraph (c)(1) of this section to the same donee, the donor may attach to the donor's return a single appraisal summary with respect to all similar items of property contributed to the same donee. Such an appraisal summary shall provide all the information required by paragraph (c)(4)(ii) of this section for each item of property, except that the appraiser may select any items whose aggregate value is appraised at $100 or less and provide a group description for such items.

(C) *Manner of acquisition, cost basis and donee's signature. (1)* If a taxpayer has reasonable cause for being unable to provide the information required by paragraph (c)(4)(ii) (D) and (E) of this section (relating to the manner of acquisition and basis of the contributed property), an appropriate explanation should be attached to the appraisal summary. The taxpayer's deduction will not be disallowed simply because of the inability (for reasonable cause) to provide these items of information.

(*2*) In rare and unusual circumstances in which it is impossible for the taxpayer to obtain the signature of the donee on the appraisal summary as required by paragraph (c)(4)(i)(B) of this section, the taxpayer's deduction will not be disallowed for that reason provided that the taxpayer attaches a statement to the appraisal summary explaining, in detail, why it was not possible to obtain the donee's signature. For example, if the donee ceases to exist as an entity subsequent to the date of the contribution and prior to the date when the appraisal summary must be signed, and the donor acted reasonably in not obtaining the donee's signature at the time of the contribution, relief under this paragraph (c)(4)(iv)(C)(*2*) would generally be appropriate.

(D) *Information excluded from certain appraisal summaries.* The information required by paragraph (c)(4)(i)(C), paragraph (c)(4)(ii) (D), (E), (H) through (M), and paragraph (c)(4)(iv)(A)(*3*), and the average trading price referred to in paragraph (c)(4)(iv)(A)(*4*) of this section do not have to be included on the appraisal summary at the time it is signed by the donee or a copy is provided to the donee pursuant to paragraph (c)(4)(iv)(E) of this section.

(E) *Statement to be furnished by donors to donees.* Every donor who presents an appraisal summary to a donee for signature after June 6, 1988, in order to comply with paragraph (c)(4)(i)(B) of this section shall furnish a copy of the appraisal summary to such donee.

(F) *Appraisal summary required to be provided to partners and S corporation shareholders.* If the donor is a partnership or S corporation, the donor shall provide a copy of the appraisal summary to every partner or shareholder, respectively, who receives an allocation of a charitable contribution deduction under section 170 with respect to the property described in the appraisal summary.

(G) *Partners and S corporation shareholders.* A partner of a partnership or shareholder of an S corporation who receives an allocation of a deduction under section 170 for a charitable contribution of property to which this paragraph (c) applies must attach a copy of the partnership's or S corporation's appraisal summary to the tax return on which the deduction for the contribution is first claimed. If such appraisal summary is not attached, the partner's or shareholder's deduction shall not be allowed except as provided for in paragraph (c)(4)(iv)(H) of this section.

(H) *Failure to attach appraisal summary.* In the event that a donor fails to attach to the donor's return an appraisal summary as required by paragraph (c)(2)(i)(B) of this section, the Internal Revenue Service may request that the donor submit the appraisal summary within 90 days of the request. If such a request is made and the donor complies with the request within the 90-day period, the deduction under section 170 shall not be disallowed for failure to attach the appraisal summary, provided that the donor's failure to attach the appraisal summary was a good faith omission and the requirements of paragraph (c) (3) and (4) of this section are met (including the completion of the qualified appraisal prior to the date specified in paragraph (c)(3)(iv)(B) of this section).

(5) *Qualified appraiser*—(i) *In general.* The term *qualified appraiser* means an individual (other than a person described in paragraph (c)(5)(iv) of this section) who includes on the appraisal summary (described in paragraph (c)(4) of this section), a declaration that—

(A) The individual either holds himself or herself out to the public as an appraiser or performs appraisals on a regular basis;

(B) Because of the appraiser's qualifications as described in the appraisal (pursuant to paragraph (c)(3)(ii)(F) of this section), the appraiser is qualified to make appraisals of the type of property being valued;

(C) The appraiser is not one of the persons described in paragraph (c)(5)(iv) of this section; and

(D) The appraiser understands that an intentionally false or fraudulent overstatement of the value of the property described in the qualified appraisal or appraisal summary may subject the appraiser to a civil penalty under section 6701 for aiding and abetting an understatement of tax liability, and, moreover, the appraiser may have appraisals disregarded pursuant to 31 U.S.C. 330(c) (see paragraph (c)(3)(iii) of this section).

(ii) *Exception.* An individual is not a qualified appraiser with respect to a particular donation, even if the declaration specified in paragraph (c)(5)(i) of this section is provided in the appraisal summary, if the donor had knowledge of facts that would cause a reasonable person to expect the appraiser falsely to overstate the value of the donated property (*e.g.,* the donor and the appraiser make an agreement concerning the amount at which the property will be valued and the donor knows that such amount exceeds the fair market value of the property).

(iii) *Numbers of appraisers.* More than one appraiser may appraise the donated property. If more than one appraiser appraises the property, the donor does not have to use each appraiser's appraisal for purposes of substantiating the charitable contribution deduction pursuant to this paragraph (c). If the donor uses the appraisal of more than one appraiser, or if two or more appraisers contribute to a single appraisal, each appraiser shall comply with the requirements of this paragraph (c), including signing the qualified appraisal and appraisal summary as required by paragraphs (c)(3)(i)(B) and (c)(4)(i)(C) of this section, respectively.

(iv) *Qualified appraiser exclusions.* The following persons cannot be qualified appraisers with respect to particular property:

(A) The donor or the taxpayer who claims or reports a deductions under section 170 for the contribution of the property that is being appraised.

(B) A party to the transaction in which the donor acquired the property being appraised (*i.e.,* the person who sold, exchanged, or gave the property to the donor, or any person who acted as an agent for the transferor or for the donor with respect to such sale, exchange, or gift), unless the property is donated within 2 months of the date of acquisition and its appraised value does not exceed its acquisition price.

(C) The donee of the property.

(D) Any person employed by any of the foregoing persons (*e.g.,* if the donor acquired a painting from an art dealer, neither the art dealer nor persons employed by the dealer can be qualified appraisers with respect to that painting).

(E) Any person related to any of the foregoing persons under section 267(b), or, with respect to appraisals made after June 6, 1988, married to a person who is in a relationship described in section 267(b) with any of the foregoing persons.

(F) An appraiser who is regularly used by any person described in paragraph (c)(5)(iv) (A), (B), or (C) of this section and who does not perform a majority of his or her appraisals made during his or her taxable year for other persons.

(6) *Appraisal fees*—(i) *In general.* Except as otherwise provided in paragraph (c)(6)(ii) of this section, no part of the fee arrangement for a qualified appraisal can be based, in effect, on a percentage (or set of percentages) of the appraised value of the property. If a fee arrangement for an appraisal is based in whole or in part on the amount of the appraised value of the property, if any, that is allowed as a deduction under section 170, after Internal Revenue Service examination or otherwise, it shall be treated as a fee based on a percentage of the appraised value of the property. For example, an appraiser's fee that is subject to reduction by the same percentage as the appraised value may be reduced by the Internal Revenue Service would be treated as a fee that violates this paragraph (c)(6).

(ii) *Exception.* Paragraph (c)(6)(i) of this section does not apply to a fee paid to a generally recognized association that regulates appraisers provided all of the following requirements are met:

(A) The association is not organized for profit and no part of the net earnings of the association inures to the benefit of any private shareholder or individual (these terms have the same meaning as in section 501(c)),

(B) The appraiser does not receive any compensation from the association or any other persons for making the appraisal, and

(C) The fee arrangement is not based in whole or in part on the amount of the appraised value of the donated property, if any, that is allowed as a deduction under section 170 after Internal Revenue Service examination or otherwise.

(7) *Meaning of terms.* For purposes of this paragraph (c)—

(i) *Closely held corporation.* The term *closely held corporation* means any corporation (other than an S corporation) with respect to which the stock ownership requirement of paragraph (2) of section 542(a) of the Code is met.

(ii) *Personal service corporation.* The term *personal service corporation* means any corporation (other than an S corporation) which is a service organization (within the meaning of section 414(m)(3) of the Code).

(iii) *Similar items of property.* The phrase *similar items of property* means property of the same generic category or type, such as stamp collections (including philatelic supplies and books on stamp collecting), coin collections (including numismatic supplies and books on coin collecting), lithographs, paintings, photographs, books, nonpublicly traded stock, nonpublicly traded securities other than nonpublicly trade stock, land, buildings, clothing, jewelry, funiture, electronic equipment, household appliances, toys, everyday kitchenware, china, crystal, or silver. For example, if a donor claims on her return for the year deductions of $2,000 for books given by her to College A, $2,500 for books given by her to College B, and $900 for books given by her to College C, the $5,000 threshold of paragraph (c)(1) of this section is exceeded. Therefore, the donor must obtain a qualified appraisal for the books and attach to her return three appraisal summaries for the books donated to A, B, and C. For rules regarding the number of qualified appraisals and appraisal summaries required when similar items of property are contributed, see paragraphs (c)(3)(iv)(A) and (c)(4)(iv)(B), respectively, of this section.

(iv) *Donor.* The term *donor* means a person or entity (other than an organization described in section 170(c) to which the donated property was previously contributed) that makes a charitable contribution of property.

(v) *Donee.* The term *donee* means—

(A) Except as provided in paragraph (c)(7)(v) (B) and (C) of this section, an organization described in section 170(c) to which property is contributed,

(B) Except as provided in paragraph (c)(7)(v)(C) of this section, in the case of a charitable contribution of property placed in trust for the benefit of an organization described in section 170(c), the trust, or

(C) In the case of a charitable contribution of property placed in trust for the benefit of an organization described in section 170(c) made on or before June 6, 1988, the beneficiary that is an organization described in section 170(c), or if the trust has assumed the duties of a donee by signing the appraisal summary pursuant to paragraph (c)(4)(i)(B) of this section, the trust.

In general, the term, refers only to the original donee. However, with respect to paragraph (c)(3)(ii)(D), the last sentence of paragraph (c)(4)(iii), and paragraph (c)(5)(iv)(C) of this section, the term *donee* means the original donee and all successor donees in cases where the original donee transfers the contributed property to a successor donee after July 5, 1988.

(vi) *Original donee.* The term *original donee* means the donee to or for which property is initially donated by a donor.

(vii) *Successor donee.* The term *successor donee* means any donee of property other than its original donee (*i.e.*, a transferee of property for less than fair market value from an original donee or another successor donee).

(viii) *Fair market value.* For the meaning of the term *fair market value,* see section 1.170A–1(c)(2).

(ix) *Nonpublicly traded securities.* The term *nonpublicly traded securities* means securities (within the meaning of section 165(g)(2) of the Code) which are not publicly traded securities as defined in paragraph (c)(7)(xi) of this section.

(x) *Nonpublicly traded stock.* The term *nonpublicly traded stock* means any stock of a corporation (evidence by a stock certificate) which is not a publicly traded security. The term stock does not include a debenture or any other evidence of indebtedness.

(xi) *Publicly traded securities*—(A) *In general.* Except as provided in paragraph (c)(7)(xi)(C) of this section, the term *publicly traded securities* means securities (within the meaning of section 165(g)(2) of the Code) for which (as of the date of the contribution) market quotations are readily available on an established securities market. For purposes of this section, market quotations are readily available on an established securities market with respect to a security if:

(*1*) The security is listed on the New York Stock Exchange, the American Stock Exchange, or any city or regional exchange in which quotations are published on a daily basis, including foreign securities listed on a recognized foreign, national, or regional exchange in which quotations are published on a daily basis;

(*2*) The security is regularly traded in the national or regional over-the-counter market, for which published quotations are available; or

(*3*) The security is a share of an open-end investment company (commonly known as a mutual fund) registered under the Investment Company Act of 1940, as amended (15 U.S.C. 80a–1 to 80b–2), for which quotations are published on a daily basis in a newspaper of general circulation throughout the United States.

(If the market value of an issue of a security is reflected only on an interdealer quotation system, the issue shall not be considered to be publicly traded unless the special rule described in paragraph (c)(7)(xi)(B) of this section is satisfied.)

(B) *Special rule*—(*1*) *In General.* An issue of a security that does not satisfy the requirements of paragraph (c)(7)(xi)(A) (*1*), (*2*), or (*3*) of this section shall nonetheless be considered to have market quotations readily available on an established securities market for purposes of paragraph (c)(7)(xi)(A) of this section if all of the following five requirements are met:

(*i*) The issue is regularly traded during the computational period (as defined in paragraph (c)(7)(xi)(B)(*2*)(*iv*) of this section) in a market that is reflected by the existence of an interdealer quotation system for the issue,

(*ii*) The issuer or an agent of the issuer computes the average trading price (as defined in paragraph (c)(7)(xi)(B)(*2*)(*iii*) of this section) for the issue for the computational period,

(*iii*) The average trading price and total volume of the issue during the computational period are published in a newspaper of general circulation throughout the United States not later than the last day of the month following the end of the calendar quarter in which the computational period ends, (*iv*) The issuer or its agent keeps books and records that list for each transaction during the computational period involving each issue covered by this procedure the date of the settlement of the transaction, the name and address of the broker or dealer making the market in which the transaction occurred, and the trading price and volume, and

(*v*) The issuer or its agent permits the Internal Revenue Service to review the books and records described in paragraph (c)(7)(xi)(B)(*1*)(*iv*) of this section with respect to transactions during the computational period upon giving reasonable notice to the issuer or agent.

(*2*) *Definitions.* For purposes of this paragraph (c)(7)(xi)(B)—

(*i*) *Issue of a security.* The term *issue of a security* means a class of debt securities with the same obligor and identical terms except as to their relative denominations (amounts) or a class of stock having identical rights.

(*ii*) *Interdealer quotation system.* The term *interdealer quotation system* means any system of general circulation to brokers and dealers that regularly disseminates quotations of obligations by two or more identified brokers or dealers, who are not related to either the issuer of the security or to the issuer's agent, who compute the average trading price of the security. A quotation sheet prepared and distributed by a broker or dealer in the regular course of its business and containing only quotations of such broker or dealer is not an interdealer quotation system.

(*iii*) *Average trading price.* The term *average trading price* means the mean price of all transactions (weighted by volume), other than original issue or redemption transactions, conducted through a United States office of a broker or dealer who maintains a market in the issue of the security during the computational period. For this purpose, bid and asked quotations are not taken into account.

(*iv*) *Computational period.* For calendar quarters beginning on or after June 6, 1988, the term *computational period* means weekly during October through December (beginning with the first Monday in October and ending with the first Sunday following the last Monday in December) and monthly during January through September (beginning January 1). For calendar quarters beginning before June 6, 1988, the term *computational period* means weekly during October through December and monthly during January through September.

(C) *Exception.* Securities described in paragraph (c)(7)(xi) (A) or (B) of this section shall not be considered publicly traded securities if—

(*1*) The securities are subject to any restrictions that materially affect the value of the securities to the donor or prevent the securities from being freely traded, or

(*2*) If the amount claimed or reported as a deduction with respect to the contribution of the securities is different than the amount listed in the market quotations that are readily available on an established securities market pursuant to paragraph (c)(7)(xi) (A) or (B) of this section.

(D) *Market quotations and fair market value.* The fair market value of a publicly traded security, as defined in this paragraph (c)(7)(xi), is not necessarily equal to its market quotation, its average trading price (as defined in paragraph (c)(7)(xi)(B)(*2*)(*iii*) of this section), or its face value, if any. See section 1.170A–1(c)(2) for the definition of *fair market value.*

(d) *Charitable contributions; information required in support of deductions for taxable years beginning before January 1, 1983*—(1) *In general.* This paragraph (d)(1) shall apply to deductions for charitable contributions made in taxable years beginning before January 1, 1983. At the option of the taxpayer the requirements of this paragraph (d)(1) shall also apply to all charitable contributions made on or before December 31, 1984 (in lieu of the requirements of paragraphs (a) and (b) of this section). In connection with claims for deductions for charitable contributions, taxpayers shall state in their income tax returns the name of each organization to which a contribution was made and the amount and date of the actual payment of each contribution. If a contribution is made in property other than money, the taxpayer shall state the kind of property contributed, for example, used clothing, paintings, or securities, the method utilized in determining the fair market value of the property at the time the contribution was made, and whether or not the amount of the contribution was reduced under section 170(e). If a taxpayer makes more than one cash contribution to an organization during the taxable year, then in lieu of listing each cash contribution and the date of payment the taxpayer may state the total cash payments made to such organization during the taxable year. A taxpayer who elects under paragraph (d)(2) of §1.170A–8 to apply section 170(e)(1) to his contributions and carryovers of 30-percent capital gain property must file a statement with his return indicating that he has made the election and showing the contributions in the current year and carryovers from preceding years to which it applies. For the definition of the term *30-percent capital gain property*, see paragraph (d)(3) of §1.170A–8.

(2) *Contribution by individual of property other than money.* This paragraph (d)(2) shall apply to deductions for charitable contributions made in taxable years beginning before January 1, 1983. At the option of the taxpayer, the requirements of this paragraph (d)(2) shall also apply to contributions of property made on or before December 31, 1984 (in lieu of the requirements of paragraph (b) of this section). If an individual taxpayer makes a charitable contribution of an item of property other than money and claims a deduction in excess of $200 in respect of his contribution of such item, he shall attach to his income tax return the following information with respect to such item:

(i) The name and address of the organization to which the contribution was made.

(ii) The date of the actual contribution.

(iii) A description of the property in sufficient detail to identify the particular property contributed, including in the case of tangible property the physical condition of the property at the time of contribution, and, in the case of securities, the name of the issuer, the type of security, and whether or not such security is regularly traded on a stock exchange or in an over-the-counter market.

(iv) The manner of acquisition, as, for example, by purchase, gift, bequest, inheritance, or exchange, and the approximate date of acquisition of the property by the taxpayer or, if the property was created, produced, or manufactured by or for the taxpayer, the approximate date the property was substantially completed.

(v) The fair market value of the property at the time the contribution was made, the method utilized in determining the fair market value, and, if the valuation was determined by appraisal, a copy of the signed report of the appraiser.

(vi) The cost or other basis, adjusted as provided by section 1016, of property, other than securities, held by the taxpayer for a period of less than 5 years immediately preceding the date on which the contribution was made and, when the information is available, of property, other than securities, held for a period of 5 years or more preceding the date on which the contribution was made.

(vii) In the case of property to which section 170(e) applies, the cost or other basis, adjusted as provided by section 1016, the reduction by reason of section 170(e)(1) in the amount of the charitable contribution otherwise taken into account, and the manner in which such reduction was determined.

(viii) The terms of any agreement or understanding entered into by or on behalf of the taxpayer which relates to the use, sale, or disposition of the property contributed, as, for example, the terms of any agreement or understanding which:

(A) Restricts temporarily or permanently the donee's right to dispose of the donated property,

(B) Reserves to, or confers upon, anyone other than the donee organization or other than an organization participating with such organization in cooperative fundraising, any right to the income from such property, to the possession of the property, including the right to vote securities, to acquire such property by purchase or otherwise, or to designate the person to have such income, possession, or right to acquire, or

(C) Earmarks contributed property for a particular charitable use, such as the use of donated furniture in the reading room of the donee organization's library.

(ix) The total amount claimed as a deduction for the taxable year due to the contribution of the property and, if less than the entire interest in the property is contributed during the taxable year, the amount claimed as a deduction in any prior year or years for contributions of other interests in such property, the name and address of each organization to which any such contribution was made, the place where any such property which is tangible property is located or kept, and the name of any person, other than the organization to which the property giving rise to the deduction was contributed, having actual possession of the property.

(3) *Statement from donee organization*. Any deduction for a charitable contribution must be substantiated, when required by the district director, by a statement from the organization to which the contribution was made indicating whether the organization is a domestic organization, the name and address of the contributor, the amount of the contribution, the date of actual receipt of the contribution, and such other information as the district director may deem necessary. If the contribution includes an item of property, other than money or securities which are regularly traded on a stock exchange or in an over-the-counter market, which the donee deems to have a fair market value in excess of $500 ($200 in the case of a charitable contribution made in a taxable year beginning before January 1, 1983) at the time of receipt, such statement shall also indicate for each such item its location if it is retained by the organization, the amount received by the organization on any sale of the property and the date of sale or, in case of any other disposition of the property, the method of disposition. In the case of any contribution of tangible personal property, the statement shall indicate the use of the property by the organization and whether or not it is used for a purpose or function constituting the basis for the donee organization's exemption from income tax under section 501 or, in the case of a governmental unit, whether or not it is used for exclusively public purposes.

(e) [Reserved]

(f) *Substantiation of charitable contributions of $250 or more*—(1) *In general*. No deduction is allowed under section 170(a) for all or part of any contribution of $250 or more unless the taxpayer substantiates the contribution with a contemporaneous written acknowledgment from the donee organization. A taxpayer who makes more than one contribution of $250 or more to a donee organization in a taxable year may substantiate the contributions with one or more contemporaneous written acknowledgments. Section 170(f)(8) does not apply to a payment of $250 or more if the amount contributed (as determined under §1.170A–1(h)) is less than $250. Separate contributions of less than $250 are not subject to the requirements of section 170(f)(8), regardless of whether the sum of the contributions made by a taxpayer to a donee organization during a taxable year equals $250 or more.

(2) *Written acknowledgment*. Except as otherwise provided in paragraphs (f)(8) through (f)(11) and (f)(13) of this section, a written acknowledgment from a donee organization must provide the following information—

(i) The amount of any cash the taxpayer paid and a description (but not necessarily the value) of any property other than cash the taxpayer transferred to the donee organization;

(ii) A statement of whether or not the donee organization provides any goods or services in consideration, in whole or in part, for any of the cash or other property transferred to the donee organization;

(iii) If the donee organization provides any goods or services other than intangible religious benefits (as described in section 170(f)(8)), a description and good faith estimate of the value of those goods or services; and

(iv) If the donee organization provides any intangible religious benefits, a statement to that effect.

(3) *Contemporaneous*. A written acknowledgment is contemporaneous if it is obtained by the taxpayer on or before the earlier of—

(i) The date the taxpayer files the original return for the taxable year in which the contribution was made; or

(ii) The due date (including extensions) for filing the taxpayer's original return for that year.

(4) *Donee organization.* For purposes of this paragraph (f), a donee organization is an organization described in section 170(c).

(5) *Goods or services.* Goods or services means cash, property, services, benefits, and privileges.

(6) *In consideration for.* A donee organization provides goods or services in consideration for a taxpayer's payment if, at the time the taxpayer makes the payment to the donee organization, the taxpayer receives or expects to receive goods or services in exchange for that payment. Goods or services a donee organization provides in consideration for a payment by a taxpayer include goods or services provided in a year other than the year in which the taxpayer makes the payment to the donee organization.

(7) *Good faith estimate.* For purposes of this section, good faith estimate means a donee organization's estimate of the fair market value of any goods or services, without regard to the manner in which the organization in fact made that estimate. See §1.170A–1(h)(4) for rules regarding when a taxpayer may treat a donee organization's estimate of the value of goods or services as the fair market value.

(8) *Certain goods or services disregarded*—(i) *In general.* For purposes of section 170(f)(8), the following goods or services are disregarded—

(A) Goods or services that have insubstantial value under the guidelines provided in Revenue Procedures 90–12, 1990–1 C.B. 471, 92–49, 1992-1 C.B. 987, and any successor documents. (See §601.601(d)(2)(ii) of the Statement of Procedural Rules, 26 CFR part 601.); and

(B) Annual membership benefits offered to a taxpayer in exchange for a payment of $75 or less per year that consist of—

(*1*) Any rights or privileges, other than those described in section 170(l), that the taxpayer can exercise frequently during the membership period. Examples of such rights and privileges may include, but are not limited to, free or discounted admission to the organization's facilities or events, free or discounted parking, preferred access to goods or services, and discounts on the purchase of goods or services; and

(*2*) Admission to events during the membership period that are open only to members of a donee organization and for which the donee organization reasonably projects that the cost per person (excluding any allocable overhead) attending each such event is within the limits established for ''low cost articles'' under section 513(h)(2). The projected cost to the donee organization is determined at the time the organization first offers its membership package for the year (using section 3.07 of Revenue Procedure 90–12, or any successor documents, to determine the cost of any items or services that are donated).

(ii) *Examples.* The following examples illustrate the rules of this paragraph (f)(8).

Example 1. Membership benefits disregarded. Performing Arts Center *E* is an organization described in section 170(c). In return for a payment of $75, *E* offers a package of basic membership benefits that includes the right to purchase tickets to performances one week before they go on sale to the general public, free parking in *E*'s garage during evening and weekend performances, and a 10% discount on merchandise sold in *E*'s gift shop. In return for a payment of $150, *E* offers a package of preferred membership benefits that includes all of the benefits in the $75 package as well as a poster that is sold in *E*'s gift shop for $20. The basic membership and the preferred membership are each valid for twelve months, and there are approximately 50 performances of various productions at *E* during a twelve-month period. *E*'s gift shop is open for several hours each week and at performance times. *F*, a patron of the arts, is solicited by *E* to make a contribution. *E* offers *F* the preferred membership benefits in return for a payment of $150 or more. *F* makes a payment of $300 to *E*. *F* can satisfy the substantiation requirement of section 170(f)(8) by obtaining a contemporaneous written acknowledgment from *E* that includes a description of the poster and a good faith estimate of its fair market value ($20) and disregards the remaining membership benefits.

Example 2. Contemporaneous written acknowledgment need not mention rights or privileges that can be disregarded. The facts are the same as in Example 1, except that *F* made a payment of $300 and received only a basic membership. *F* can satisfy the section 170(f)(8) substantiation requirement with a contemporaneous written acknowledgment stating that no goods or services were provided.

Example 3. Rights or privileges that cannot be exercised frequently.

Community Theater Group *G* is an organization described in section 170(c). Every summer, *G* performs four different plays. Each play is performed two times. In return for a membership fee of $60, *G* offers its members free admission to any of its performances. Non-members may purchase tickets on a performance by performance basis for $15 a ticket. *H,* an individual who is a sponsor of the theater, is solicited by *G* to make a contribution. *G* tells *H* that the membership benefit will be provided in return for any payment of $60 or more. *H* chooses to make a payment of $350 to *G* and receives in return the membership benefit. *G'* s membership benefit of free admission is not described in paragraph (f)(8)(i)(B) of this section because it is not a privilege that can be exercised frequently (due to the limited number of performances offered by *G*). Therefore, to meet the requirements of section 170(f)(8), a contemporaneous written acknowledgment of *H*'s $350 payment must include a description of the free admission benefit and a good faith estimate of its value.

Example 4. Multiple memberships. In December of each year, *K*, an individual, gives each of her six grandchildren a junior membership in Dinosaur Museum, an organization described in section 170(c). Each junior membership costs $50, and *K* makes a single payment of $300 for all six memberships. A junior member is entitled to free admission to the museum and to weekly films, slide shows, and lectures about dinosaurs. In addition, each junior member receives a bimonthly, non-commercial quality newsletter with information about dinosaurs and upcoming events. *K*'s contemporaneous written acknowledgment from Dinosaur Museum may state that no goods or services were provided in exchange for *K*'s payment.

(9) *Goods or services provided to employees or partners of donors*—(i) *Certain goods or services disregarded.* For purposes of section 170(f)(8), goods or services provided by a donee organization to employees of a donor, or to partners of a partnership that is a donor, in return for a payment to the organization may be disregarded to the extent that the goods or services provided to each employee or partner are the same as those described in paragraph (f)(8)(i) of this section.

(ii) *No good faith estimate required for other goods or services.* If a taxpayer makes a contribution of $250 or more to a donee organization and, in return, the donee organization offers the taxpayer's employees or partners goods or services other than those described in paragraph (f)(9)(i) of this section, the contemporaneous written acknowledgment of the taxpayer's contribution is not required to include a good faith estimate of the value of such goods or services but must include a description of those goods or services.

(iii) *Example.* The following example illustrates the rules of this paragraph (f)(9).

Example. Museum *J* is an organization described in section 170(c). For a payment of $40, *J* offers a package of basic membership benefits that includes free admission and a 10% discount on merchandise sold in *J*'s gift shop. *J*'s other membership categories are for supporters who contribute $100 or more. Corporation *K* makes a payment of $50,000 to *J* and, in return, *J* offers *K*'s employees free admission for one year, a tee-shirt with *J*'s logo that costs *J* $4.50, and a gift shop discount of 25% for one year. The free admission for *K*'s employees is the same as the benefit made available to holders of the $40 membership and is otherwise described in paragraph (f)(8)(i)(B) of this section. The tee-shirt given to each of *K*'s employees is described in paragraph (f)(8)(i)(A) of this section. Therefore, the contemporaneous written acknowledgment of *K*'s payment is not required to include a description or good faith estimate of the value of the free admission or the tee-shirts. However, because the gift shop discount offered to *K*'s employees is different than that offered to those who purchase the $40 membership, the discount is not described in paragraph (f)(8)(i) of this section. Therefore, the contemporaneous written acknowledgment of *K*'s payment is required to include a description of the 25% discount offered to *K*'s employees.

(10) *Substantiation of out-of-pocket expenses.* A taxpayer who incurs unreimbursed expenditures incident to the rendition of services, within the meaning of §1.170A–1(g), is treated as having obtained a contemporaneous written acknowledgment of those expenditures if the taxpayer—

(i) Has adequate records under paragraph (a) of this section to substantiate the amount of the expenditures; and

(ii) Obtains by the date prescribed in paragraph (f)(3) of this section a statement prepared by the donee organization containing—

(A) A description of the services provided by the taxpayer;

(B) A statement of whether or not the donee organization provides any goods or services in consideration, in whole or in part, for the unreimbursed expenditures; and

(C) The information required by paragraphs (f)(2) (iii) and (iv) of this section.

(11) *Contributions made by payroll deduction*—(i) *Form of substantiation.* A contribution made by means of withholding from a taxpayer's wages and payment by the taxpayer's employer to a donee organization may be substantiated, for purposes of section 170(f)(8), by both—

(A) A pay stub, Form W–2, or other document furnished by the employer that sets forth the amount withheld by the employer for the purpose of payment to a donee organization; and

(B) A pledge card or other document prepared by or at the direction of the donee organization that includes a statement to the effect that the organization does not provide goods or services in whole or partial consideration for any contributions made to the organization by payroll deduction.

(ii) *Application of $250 threshold.* For the purpose of applying the $250 threshold provided in section 170(f)(8)(A) to contributions made by the means described in paragraph (f)(11)(i) of this section, the amount withheld from each payment of wages to a taxpayer is treated as a separate contribution.

(12) *Distributing organizations as donees.* An organization described in section 170(c), or an organization described in 5 CFR 950.105 (a Principal Combined Fund Organization for purposes of the Combined Federal Campaign) and acting in that capacity, that receives a payment made as a contribution is treated as a donee organization solely for purposes of section 170(f)(8), even if the organization (pursuant to the donor's instructions or otherwise) distributes the amount received to one or more organizations described in section 170(c). This paragraph (f)(12) does not apply, however, to a case in which the distributee organization provides goods or services as part of a transaction structured with a view to avoid taking the goods or services into account in determining the amount of the deduction to which the donor is entitled under section 170.

(13) *Transfers to certain trusts.* Section 170(f)(8) does not apply to a transfer of property to a trust described in section 170(f)(2)(B), a charitable remainder annuity trust (as defined in section 664(d)(1)), or a charitable remainder unitrust (as defined in section 664(d)(2) or (d)(3) or §1.664(3)(a)(1)(i)(*b*)). Section 170(f)(8) does apply, however, to a transfer to a pooled income fund (as defined in section 642(c)(5)); for such a transfer, the contemporaneous written acknowledgment must state that the contribution was transferred to the donee organization's pooled income fund and indicate whether any goods or services (in addition to an income interest in the fund) were provided in exchange for the transfer. The contemporaneous written acknowledgment is not required to include a good faith estimate of the income interest.

(14) *Substantiation of payments to a college or university for the right to purchase tickets to athletic events.* For purposes of paragraph (f)(2)(iii) of this section, the right to purchase tickets for seating at an athletic event in exchange for a payment described in section 170(l) is treated as having a value equal to twenty percent of such payment. For example, when a taxpayer makes a payment of $312.50 for the right to purchase tickets for seating at an athletic event, the right to purchase tickets is treated as having a value of $62.50. The remaining $250 is treated as a charitable contribution, which the taxpayer must substantiate in accordance with the requirements of this section.

(15) *Substantiation of charitable contributions made by a partnership or an S corporation.* If a partnership or an S corporation makes a charitable contribution of $250 or more, the partnership or S corporation will be treated as the taxpayer for purposes of section 170(f)(8). Therefore, the partnership or S corporation must substantiate the contribution with a contemporaneous written acknowledgment from the donee organization before reporting the contribution on its income tax return for the year in which the contribution

was made and must maintain the contemporaneous written acknowledgment in its records. A partner of a partnership or a shareholder of an S corporation is not required to obtain any additional substantiation for his or her share of the partnership's or S corporation's charitable contribution.

(16) *Purchase of an annuity.* If a taxpayer purchases an annuity from a charitable organization and claims a charitable contribution deduction of $250 or more for the excess of the amount paid over the value of the annuity, the contemporaneous written acknowledgment must state whether any goods or services in addition to the annuity were provided to the taxpayer. The contemporaneous written acknowledgment is not required to include a good faith estimate of the value of the annuity. See § 1.170A–1(d)(2) for guidance in determining the value of the annuity.

(17) *Substantiation of matched payments*—(i) *In general.* For purposes of section 170, if a taxpayer's payment to a donee organization is matched, in whole or in part, by another payor, and the taxpayer receives goods or services in consideration for its payment and some or all of the matching payment, those goods or services will be treated as provided in consideration for the taxpayer's payment and not in consideration for the matching payment.

(ii) *Example.* The following example illustrates the rules of this paragraph (f)(17).

Example Taxpayer makes a $400 payment to Charity *L*, a donee organization. Pursuant to a matching payment plan, Taxpayer's employer matches Taxpayer's $400 payment with an additional payment of $400. In consideration for the combined payments of $800, *L* gives Taxpayer an item that it estimates has a fair market value of $100. *L* does not give the employer any goods or services in consideration for its contribution. The contemporaneous written acknowledgment provided to the employer must include a statement that no goods or services were provided in consideration for the employer's $400 payment. The contemporaneous written acknowledgment provided to Taxpayer must include a statement of the amount of Taxpayer's payment, a description of the item received by Taxpayer, and a statement that *L*'s good faith estimate of the value of the item received by Taxpayer is $100.

(18) *Effective date.* This paragraph (f) applies to contributions made on or after December 16, 1996. However, taxpayers may rely on the rules of this paragraph (f) for contributions made on or after January 1, 1994.

[T.D. 8002, 49 FR 50664 and 50666, Dec. 31, 1984, as amended by T.D. 8003, 49 FR 50659, Dec. 31, 1984; T.D. 8199, 53 FR 16080, May 5, 1988; 53 FR 18372, May 23, 1988; T.D. 8623, 60 FR 53128, Oct. 12, 1995; T.D. 8690, 61 FR 65952, Dec. 16, 1996]

§ 1.170A–14 Qualified conservation contributions.

(a) *Qualified conservation contributions.* A deduction under section 170 is generally not allowed for a charitable contribution of any interest in property that consists of less than the donor's entire interest in the property other than certain transfers in trust (see § 1.170A–6 relating to charitable contributions in trust and § 1.170A–7 relating to contributions not in trust of partial interests in property). However, a deduction may be allowed under section 170(f)(3)(B)(iii) for the value of a qualified conservation contribution if the requirements of this section are met. A qualified conservation contribution is the contribution of a qualified real property interest to a qualified organization exclusively for conservation purposes. To be eligible for a deduction under this section, the conservation purpose must be protected in perpetuity.

(b) *Qualified real property interest*—(1) *Entire interest of donor other than qualified mineral interest.* (i) The entire interest of the donor other than a qualified mineral interest is a qualified real property interest. A qualified mineral interest is the donor's interest in subsurface oil, gas, or other minerals and the right of access to such minerals.

(ii) A real property interest shall not be treated as an entire interest other than a qualified mineral interest by reason of section 170(h)(2)(A) and this paragraph (b)(1) if the property in which the donor's interest exists was divided prior to the contribution in order to enable the donor to retain control of more than a qualified mineral interest or to reduce the real property interest donated. See Treasury regulations § 1.170A–7(a)(2)(i). An entire interest in real property may consist of an undivided interest in the property. But see section 170(h)(5)(A) and the regulations thereunder (relating to the requirement that the conservation purpose which is the subject of the donation must be protected in perpetuity). Minor interests, such as rights-of-way, that will not interfere with the conservation purposes of the donation, may be transferred prior to the conservation contribution without affecting the treatment of a property interest as a qualified real property interest under this paragraph (b)(1).

(2) *Perpetual conservation restriction.* A ‘‘perpetual conservation restriction’’ is a qualified real property interest. A ‘‘perpetual conservation restriction’’ is a restriction granted in perpetuity on the use which may be made of real property—including, an easement or other interest in real property that under state law has attributes similar to an easement (e.g., a restrictive covenant or equitable servitude). For purposes of this section, the terms *easement, conservation restriction,* and *perpetual conservation restriction* have the same meaning. The definition of *perpetual conservation restriction* under this paragraph (b)(2) is not intended to preclude the deductibility of a donation of affirmative rights to use a land or water area under §1.170A–13(d)(2). Any rights reserved by the donor in the donation of a perpetual conservation restriction must conform to the requirements of this section. See *e.g.,* paragraph (d)(4)(ii), (d)(5)(i), (e)(3), and (g)(4) of this section.

(c) *Qualified organization*—(1) *Eligible donee.* To be considered an eligible donee under this section, an organization must be a qualified organization, have a commitment to protect the conservation purposes of the donation, and have the resources to enforce the restrictions. A conservation group organized or operated primarily or substantially for one of the conservation purposes specified in section 170(h)(4)(A) will be considered to have the commitment required by the preceding sentence. A qualified organization need not set aside funds to enforce the restrictions that are the subject of the contribution. For purposes of this section, the term *qualified organization* means:

(i) A governmental unit described in section 170(b)(1)(A)(v);

(ii) An organization described in section 170(b)(1)(A)(vi);

(iii) A charitable organization described in section 501(c)(3) that meets the public support test of section 509(a)(2);

(iv) A charitable organization described in section 501(c)(3) that meets the requirements of section 509(a)(3) and is controlled by an organization described in paragraphs (c)(1) (i), (ii), or (iii) of this section.

(2) *Transfers by donee.* A deduction shall be allowed for a contribution under this section only if in the instrument of conveyance the donor prohibits the donee from subsequently transferring the easement (or, in the case of a remainder interest or the reservation of a qualified mineral interest, the property), whether or not for consideration, unless the donee organization, as a condition of the subsequent transfer, requires that the conservation purposes which the contribution was originally intended to advance continue to be carried out. Moreover, subsequent transfers must be restricted to organizations qualifying, at the time of the subsequent transfer, as an eligible donee under paragraph (c)(1) of this section. When a later unexpected change in the conditions surrounding the property that is the subject of a donation under paragraph (b)(1), (2), or (3) of this section makes impossible or impractical the continued use of the property for conservation purposes, the requirement of this paragraph will be met if the property is sold or exchanged and any proceeds are used by the donee organization in a manner consistent with the conservation purposes of the original contribution. In the case of a donation under paragraph (b)(3) of this section to which the preceding sentence applies, see also paragraph (g)(5)(ii) of this section.

(d) *Conservation purposes*—(1) *In general.* For purposes of section 170(h) and this section, the term *conservation purposes* means—

(i) The preservation of land areas for outdoor recreation by, or the education of, the general public, within the meaning of paragraph (d)(2) of this section,

(ii) The protection of a relatively natural habitat of fish, wildlife, or plants, or similar ecosystem, within the meaning of paragraph (d)(3) of this section,

(iii) The preservation of certain open space (including farmland and forest land) within the meaning of paragraph (d)(4) of this section, or

(iv) The preservation of a historically important land area or a certified historic structure, within the meaning of paragraph (d)(5) of this section.

(2) *Recreation or education*—(i) *In general.* The donation of a qualified real property interest to preserve land areas for the outdoor recreation of the general public or for the education of the general public will meet the conservation purposes test of this section. Thus, conservation purposes would include, for example, the preservation of a water area for the use of the public for boating or fishing, or a nature or hiking trail for the use of the public.

(ii) *Access.* The preservation of land areas for recreation or education will not meet the test of this section unless the recreation or education is for the substantial and regular use of the general public.

(3) *Protection of environmental system*—(i) *In general.* The donation of a qualified real property interest to protect a significant relatively natural habitat in which a fish, wildlife, or plant community, or similar ecosystem normally lives will meet the conservation purposes test of this section. The fact that the habitat or environment has been altered to some extent by human activity will not result in a deduction being denied under this section if the fish, wildlife, or plants continue to exist there in a relatively natural state. For example, the preservation of a lake formed by a man-made dam or a salt pond formed by a man-made dike would meet the conservation purposes test if the lake or pond were a nature feeding area for a wildlife community that included rare, endangered, or threatened native species.

(ii) *Significant habitat or ecosystem.* Significant habitats and ecosystems include, but are not limited to, habitats for rare, endangered, or threatened species of animal, fish, or plants; natural areas that represent high quality examples of a terrestrial community or aquatic community, such as islands that are undeveloped or not intensely developed where the coastal ecosystem is relatively intact; and natural areas which are included in, or which contribute to, the ecological viability of a local, state, or national park, nature preserve, wildlife refuge, wilderness area, or other similar conservation area.

(iii) *Access.* Limitations on public access to property that is the subject of a donation under this paragraph (d)(3) shall not render the donation nondeductible. For example, a restriction on all public access to the habitat of a threatened native animal species protected by a donation under this paragraph (d)(3) would not cause the donation to be nondeductible.

(4) *Preservation of open space*—(i) *In general.* The donation of a qualified real property interest to preserve open space (including farmland and forest land) will meet the conservation purposes test of this section if such preservation is—

(A) Pursuant to a clearly delineated Federal, state, or local governmental conservation policy and will yield a significant public benefit, or

(B) For the scenic enjoyment of the general public and will yield a significant public benefit.

An open space easement donated on or after December 18, 1980, must meet the requirements of section 170(h) in order to be deductible.

(ii) *Scenic enjoyment*—(A) *Factors.* A contribution made for the preservation of open space may be for the scenic enjoyment of the general public. Preservation of land may be for the scenic enjoyment of the general public if development of the property would impair the scenic character of the local rural or urban landscape or would interfere with a scenic panorama that can be enjoyed from a park, nature preserve, road, waterbody, trail, or historic structure or land area, and such area or transportation way is open to, or utilized by, the public. ''Scenic enjoyment'' will be evaluated by considering all pertinent facts and circumstances germane to the contribution. Regional variations in topography, geology, biology, and cultural and economic conditions require flexibility in the application of this test, but do not lessen the burden on the taxpayer to demonstrate the scenic characteristics of a donation under this paragraph. The application of a particular objective factor to help define a view as *scenic* in one setting may in fact be entirely inappropriate in another setting. Among the factors to be considered are:

(*1*) The compatibility of the land use with other land in the vicinity;

(*2*) The degree of contrast and variety provided by the visual scene;

(*3*) The openness of the land (which would be a more significant factor in an urban or densely populated setting or in a heavily wooded area);

(*4*) Relief from urban closeness;

(*5*) The harmonious variety of shapes and textures;

(*6*) The degree to which the land use maintains the scale and character of the urban landscape to preserve open space, visual enjoyment, and sunlight for the surrounding area;

(*7*) The consistency of the proposed scenic view with a methodical state scenic identification program, such as a state landscape inventory; and

(*8*) The consistency of the proposed scenic view with a regional or local landscape inventory made pursuant to a sufficiently rigorous review process, especially if the donation is endorsed by an appropriate state or local governmental agency.

(B) *Access.* To satisfy the requirement of scenic enjoyment by the general public, visual (rather than physical) access to or across the property by the general public is sufficient. Under the terms of an open space easement on scenic property, the entire property need not be visible to the public for a donation to qualify under this section, although the public benefit from the donation may be insufficient to qualify for a deduction if only a small portion of the property is visible to the public.

(iii) *Governmental conservation policy*—(A) *In general.* The requirement that the preservation of open space be pursuant to a clearly delineated Federal, state, or local governmental policy is intended to protect the types of property identified by representatives of the general public as worthy of preservation or conservation. A general declaration of conservation goals by a single official or legislative body is not sufficient. However, a governmental conservation policy need not be a certification program that identifies particular lots or small parcels of individually owned property. This requirement will be met by donations that further a specific, identified conservation project, such as the preservation of land within a state or local landmark district that is locally recognized as being significant to that district; the preservation of a wild or scenic river, the preservation of farmland pursuant to a state program for flood prevention and control; or the protection of the scenic, ecological, or historic character of land that is contiguous to, or an integral part of, the surroundings of existing recreation or conservation sites. For example, the donation of a perpetual conservation restriction to a qualified organization pursuant to a formal resolution or certification by a local governmental agency established under state law specifically identifying the subject property as worthy of protection for conservation purposes will meet the requirement of this paragraph. A program need not be funded to satisfy this requirement, but the program must involve a significant commitment by the government with respect to the conservation project. For example, a governmental program according preferential tax assessment or preferential zoning for certain property deemed worthy of protection for conservation purposes would constitute a significant commitment by the government.

(B) *Effect of acceptance by governmental agency.* Acceptance of an easement by an agency of the Federal Government or by an agency of a state or local government (or by a commission, authority, or similar body duly constituted by the state or local government and acting on behalf of the state or local government) tends to establish the requisite clearly delineated governmental policy, although such acceptance, without more, is not sufficient. The more rigorous the review process by the governmental agency, the more the acceptance of the easement tends to establish the requisite clearly delineated governmental policy. For example, in a state where the legislature has established an Environmental Trust to accept gifts to the state which meet certain conservation purposes and to submit the gifts to a review that requires the approval of the state's highest officials, acceptance of a gift by the Trust tends to establish the requisite clearly delineated governmental policy. However, if the Trust merely accepts such gifts without a review process, the requisite clearly delineated governmental policy is not established.

(C) *Access.* A limitation on public access to property subject to a donation under this paragraph (d)(4)(iii) shall not render the deduction nondeductible unless the conservation purpose of the donation would be undermined or frustrated without public access. For example, a donation pursuant to a governmental policy to protect the scenic character of land near a river requires visual access to the same extent as would a donation under paragraph (d)(4)(ii) of this section.

(iv) *Significant public benefit*—(A) *Factors.* All contributions made for the preservation of open space must yield a significant public benefit. Public benefit will be evaluated by considering all pertinent facts and circumstances germane to the contribution. Factors germane to the evaluation of public benefit from one contribution may be irrelevant in determining public benefit from another contribution. No single factor will necessarily be determinative. Among the factors to be considered are:

(*1*) The uniqueness of the property to the area;

(*2*) The intensity of land development in the vicinity of the property (both existing development and foreseeable trends of development);

(*3*) The consistency of the proposed open space use with public programs (whether Federal, state or local) for conservation in the region, including programs for outdoor recreation, irrigation or water supply protection, water quality maintenance or enhancement, flood prevention and control, erosion control, shoreline protection, and protection of land areas included in, or related to, a government approved master plan or land management area;

(*4*) The consistency of the proposed open space use with existing private conservation programs in the area, as evidenced by other land, protected by easement or fee ownership by organizations referred to in § 1.170A–14(c)(1), in close proximity to the property;

(*5*) The likelihood that development of the property would lead to or contribute to degradation of the scenic, natural, or historic character of the area;

(*6*) The opportunity for the general public to use the property or to appreciate its scenic values;

(*7*) The importance of the property in preserving a local or regional landscape or resource that attracts tourism or commerce to the area;

(*8*) The likelihood that the donee will acquire equally desirable and valuable substitute property or property rights;

(*9*) The cost to the donee of enforcing the terms of the conservation restriction;

(*10*) The population density in the area of the property; and

(*11*) The consistency of the proposed open space use with a legislatively mandated program identifying particular parcels of land for future protection.

(B) *Illustrations.* The preservation of an ordinary tract of land would not in and of itself yield a significant public benefit, but the preservation of ordinary land areas in conjunction with other factors that demonstrate significant public benefit or the preservation of a unique land area for public employment would yield a significant public benefit. For example, the preservation of a vacant downtown lot would not by itself yield a significant public benefit, but the preservation of the downtown lot as a public garden would, absent countervailing factors, yield a significant public benefit. The following are other examples of contributions which would, absent countervailing factors, yield a significant public benefit: The preservation of farmland pursuant to a state program for flood prevention and control; the preservation of a unique natural land formation for the enjoyment of the general public; the preservation of woodland along a public highway pursuant to a government program to preserve the appearance of the area so as to maintain the scenic view from the highway; and the preservation of a stretch of undeveloped property located between a public highway and the ocean in order to maintain the scenic ocean view from the highway.

(v) *Limitation.* A deduction will not be allowed for the preservation of open space under section 170(h)(4)(A)(iii), if the terms of the easement permit a degree of intrusion or future development that would interfere with the essential scenic quality of the land or with the governmental conservation policy that is being furthered by the donation. See §1.170A–14(e)(2) for rules relating to inconsistent use.

(vi) *Relationship of requirements*—(A) *Clearly delineated governmental policy and significant public benefit.* Although the requirements of ‘‘clearly delineated governmental policy’’ and ‘‘significant public benefit’’ must be met independently, for purposes of this section the two requirements may also be related. The more specific the governmental policy with respect to the particular site to be protected, the more likely the governmental decision, by itself, will tend to establish the significant public benefit associated with the donation. For example, while a statute in State X permitting preferential assessment for farmland is, by definition, governmental policy, it is distinguishable from a state statute, accompanied by appropriations, naming the X River as a valuable resource and articulating the legislative policy that the X River and the relatively natural quality of its surrounding be protected. On these facts, an open space easement on farmland in State X would have to demonstrate additional factors to establish ‘‘significant public benefit.’’ The specificity of the legislative mandate to protect the X River, however, would by itself tend to establish the significant public benefit associated with an open space easement on land fronting the X River.

(B) *Scenic enjoyment and significant public benefit.* With respect to the relationship between the requirements of ‘‘scenic enjoyment’’ and ‘‘significant public benefit,’’ since the degrees of scenic enjoyment offered by a variety of open space easements are subjective and not as easily delineated as are increasingly specific levels of governmental policy, the significant public benefit of preserving a scenic view must be independently established in all cases.

(C) *Donations may satisfy more than one test.* In some cases, open space easements may be both for scenic enjoyment and pursuant to a clearly delineated governmental policy. For example, the preservation of a particular scenic view identified as part of a scenic landscape inventory by a rigorous governmental review process will meet the tests of both paragraphs (d)(4)(i)(A) and (d)(4)(i)(B) of this section.

(5) *Historic preservation*—(i) *In general.* The donation of a qualified real property interest to preserve an historically important land area or a certified historic structure will meet the conservation purposes test of this section. When restrictions to preserve a building or land area within a registered historic district permit future development on the site, a deduction will be allowed under this section only if the terms of the restrictions require that such development conform with appropriate local, state, or Federal standards for construction or rehabilitation within the district. See also, §1.170A–14(h)(3)(ii).

(ii) *Historically important land area.* The term *historically important land area* includes:

(A) An independently significant land area including any related historic resources (for example, an archaeological site or a Civil War battlefield with related monuments, bridges, cannons, or houses) that meets the National Register Criteria for Evaluation in 36 CFR 60.4 (Pub. L. 89–665, 80 Stat. 915);

(B) Any land area within a registered historic district including any buildings on the land area that can reasonably be considered as contributing to the significance of the district; and

(C) Any land area (including related historic resources) adjacent to a property listed individually in the National Register of Historic Places (but not within a registered historic district) in a case where the physical or environmental features of the land area contribute to the historic or cultural integrity of the property.

(iii) *Certified historic structure.* The term *certified historic structure,* for purposes of this section, means any building, structure or land area which is—

(A) Listed in the National Register, or

(B) Located in a registered historic district (as defined in section 48(g)(3)(B)) and is certified by the Secretary of the Interior (pursuant to 36 CFR 67.4) to the Secretary of the Treasury as being of historic significance to the district.

A *structure* for purposes of this section means any structure, whether or not it is depreciable. Accordingly easements on private residences may qualify under this section. In addition, a structure would be considered to be a certified historic structure if it were certified either at the time the transfer was made or at the due date (including extensions) for filing the donor's return for the taxable year in which the contribution was made.

(iv) *Access.* (A) In order for a conservation contribution described in section 170(h)(4)(A)(iv) and this paragraph (d)(5) to be deductible, some visual public access to the donated property is required. In the case of an historically important land area, the entire property need not be visible to the public for a donation to qualify under this section. However, the public benefit from the donation may be insufficient to qualify for a deduction if only a small portion of the property is so visible. Where the historic land area or certified historic structure which is the subject of the donation is not visible from a public way (*e.g.,* the structure is hidden from view by a wall or shrubbery, the structure is too far from the public way, or interior characteristics and features of the structure are the subject of the easement), the terms of the easement must be such that the general public is given the opportunity on a regular basis to view the characteristics and features of the property which are preserved by the easement to the extent consistent with the nature and condition of the property.

(B) Factors to be considered in determining the type and amount of public access required under paragraph (d)(5)(iv)(A) of this section include the historical significance of the donated property, the nature of the features that are the subject of the easement, the remoteness or accessibility of the site of the donated property, the possibility of physical hazards to the public visiting the property (for example, an unoccupied structure in a dilapidated condition), the extent to which public access would be an unreasonable intrusion on any privacy interests of individuals living on the property, the degree to which public access would impair the preservation interests which are the subject of the donation, and the availability of opportunities for the public to view the property by means other than visits to the site.

(C) The amount of access afforded the public by the donation of an easement shall be determined with reference to the amount of access permitted by the terms of the easement which are established by the donor, rather than the amount of access actually provided by the donee organization. However, if the donor is aware of any facts indicating that the amount of access that the donee organization will provide is significantly less than the amount of access permitted under the terms of the easement, then the amount of access afforded the public shall be determined with reference to this lesser amount.

(v) *Examples.* The provisions of paragraph (d)(5)(iv) of this section may be illustrated by the following examples:

Example 1. A and his family live in a house in a certified historic district in the State of X. The entire house, including its interior, has architectural features representing classic Victorian period architecture. A donates an exterior and interior easement on the property to a qualified organization but continues to live in the house with his family. A's house is surrounded by a high stone wall which obscures the public's view of it from the street. Pursuant to the terms of the easement, the house may be opened to the public from 10:00 a.m. to 4:00 p.m. on one Sunday in May and one Sunday in November each year for house and garden tours. These tours are to be under the supervision of the donee and open to members of the general public upon payment of a small fee. In addition, under the terms of the easement, the donee organization is given the right to photograph the interior and exterior of the house and distribute such photographs to magazines, newsletters, or other publicly available publications. The terms of the easement also permit persons affiliated with educational organizations, professional architectural associations, and historical societies to make an appointment through the donee organization to study the property. The donor is not aware of any facts indicating that the public access to be provided by the donee organization will be significantly less than that permitted by the terms of the easement. The 2 opportunities for public visits per year, when combined with the ability of the general public to view the architectural characteristics and features that are the subject of the easement through photographs, the opportunity for scholarly study of the property, and the fact that the house is used as an occupied residence, will enable the donation to satisfy the requirement of public access.

Example 2. B owns an unoccupied farmhouse built in the 1840's and located on a property that is adjacent to a Civil War battlefield. During the Civil War the farmhouse was used as quarters for Union troops. The battlefield is visited year round by the general public. The condition of the farmhouse is such that the safety of visitors will not be jeopardized and opening it to the public will not result in significant deterioration. The farmhouse is not visible from the battlefield or any public way. It is accessible only by way of a private road owned by B. B donates a conservation easement on the farmhouse to a qualified organization. The terms of the easement provide that the donee organization may open the property (via B's road) to the general public on four weekends each year from 8:30 a.m. to 4:00 p.m. The donation does not meet the public access requirement because the farmhouse is safe, unoccupied, and easily accessible to the general public who have come to the site to visit Civil War historic land areas (and related resources), but will only be open to the public on four weekends each year. However, the donation would meet the public access requirement if the terms of the easement permitted the donee organization to open the property to the public every other weekend during the year and the donor is not aware of any facts indicating that the donee organization will provide significantly less access than that permitted.

(e) *Exclusively for conservation purposes*—(1) *In general.* To meet the requirements of this section, a donation must be exclusively for conservation purposes. See paragraphs (c)(1) and (g)(1) through (g)(6)(ii) of this section. A deduction will not be denied under this section when incidental benefit inures to the donor merely as a result of conservation restrictions limiting the uses to which the donor's property may be put.

(2) *Inconsistent use.* Except as provided in paragraph (e)(4) of this section, a deduction will not be allowed if the contribution would accomplish one of the enumerated conservation purposes but would permit destruction of other significant conservation interests. For example, the preservation of farmland pursuant to a State program for flood prevention and control would not qualify under paragraph (d)(4) of this section if under the terms of the contribution a significant naturally occurring ecosystem could be injured or destroyed by the use of pesticides in the operation of the farm. However, this requirement is not intended to prohibit uses of the property, such as selective timber harvesting or selective farming if, under the circumstances, those uses do not impair significant conservation interests.

(3) *Inconsistent use permitted.* A use that is destructive of conservation interests will be permitted only if such use is necessary for the protection of the conservation interests that are the subject of the contribution. For example, a deduction for the donation of an easement to preserve an archaeological site that is listed on the National Register of Historic Places will not be disallowed if site excavation consistent with sound archaeological practices may impair a scenic view of which the land is a part. A donor may continue a pre-existing use of the property that does not conflict with the conservation purposes of the gift.

(f) *Examples.* The provisions of this section relating to conservation purposes may be illustrated by the following examples.

Example 1. State S contains many large tract forests that are desirable recreation and scenic areas for the general public. The forests' scenic values attract millions of people to the State. However, due to the increasing intensity of land development in State S, the continued existence of forestland parcels greater than 45 acres is threatened. J grants a perpetual easement on a 100-acre parcel of forestland that is part of one of the State's scenic areas to a qualifying organization. The easement imposes restrictions on the use of the parcel for the purpose of maintaining its scenic values. The restrictions include a requirement that the parcel be maintained forever as open space devoted exclusively to conservation purposes and wildlife protection, and that there be no commercial, industrial, residential, or other development use of such parcel. The law of State S recognizes a limited public right to enter private land, particularly for recreational pursuits, unless such land is posted or the landowner objects. The easement specifically restricts the landowner from posting the parcel, or from objecting, thereby maintaining public access to the parcel according to the custom of the State. J's parcel provides the opportunity for the public to enjoy the use of the property and appreciate its scenic values. Accordingly, J's donation qualifies for a deduction under this section.

Example 2. A qualified conservation organization owns Greenacre in fee as a nature preserve. Greenacre contains a high quality example of a tall grass prairie ecosystem. Farmacre, an operating farm, adjoins Greenacre and is a compatible buffer to the nature preserve. Conversion of Farmacre to a more intense use, such as a housing development, would adversely affect the continued use of Greenacre as a nature preserve because of human traffic generated by the development. The owner of Farmacre donates an easement preventing any future development on Farmacre to the qualified conservation organization for conservation purposes. Normal agricultural uses will be allowed on Farmacre. Accordingly, the donation qualifies for a deduction under this section.

Example 3. H owns Greenacre, a 900-acre parcel of woodland, rolling pasture, and orchards on the crest of a mountain. All of Greenacre is clearly visible from a nearby national park. Because of the strict enforcement of an applicable zoning plan, the highest and best use of Greenacre is as a subdivision of 40-acre tracts. H wishes to donate a scenic easement on Greenacre to a qualifying conservation organization, but H would like to reserve the right to subdivide Greenacre into 90-acre parcels with no more than one single-family home allowable on each parcel. Random building on the property, even as little as one home for each 90 acres, would destroy the scenic character of the view. Accordingly, no deduction would be allowable under this section.

Example 4. Assume the same facts as in *example (3),* except that not all of Greenacre is visible from the park and the deed of easement allows for limited cluster development of no more than five nine-acre clusters (with four houses on each cluster) located in areas generally not visible from the national park and subject to site and building plan approval by the donee organization in order to preserve the scenic view from the park. The donor and the donee have already identified sites where limited cluster development would not be visible from the park or would not impair the view. Owners of homes in the clusters will not have any rights with respect to the surrounding Greenacre property that are not also available to the general public. Accordingly, the donation qualifies for a deduction under this section.

Example 5. In order to protect State S's declining open space that is suited for agricultural use from increasing development pressure that has led to a marked decline in such open space, the Legislature of State S passed a statute authorizing the purchase of ''agricultural land development rights'' on open acreage. Agricultural land development rights allow the State to place agricultural preservation restrictions on land designated as worthy of protection in order to preserve open space and farm resources. Agricultural preservation restrictions prohibit or limit construction or placement of buildings except those used for agricultural purposes or dwellings used for family living by the farmer and his family and employees; removal of mineral substances in any manner that adversely affects the land's agricultural potential; or other uses detrimental to retention of the land for agricultural use. Money has been appropriated for this program and some landowners have in fact sold their ''agricultural land development rights'' to State S. K owns and operates a small dairy farm in State S located in an area designated by the Legislature as worthy of protection. K desires to preserve his farm for agricultural purposes in perpetuity. Rather than selling the development rights to State S, K grants to a qualified organization an agricultural preservation restriction on his property in the form of a conservation easement. K reserves to himself, his heirs and assigns the right to manage the farm consistent with sound agricultural and management practices. The preservation of K's land is pursuant to a clearly delineated governmental policy of preserving open space available for agricultural use, and will yield a significant public benefit by preserving open space against increasing development pressures.

(g) *Enforceable in perpetuity*—(1) *In general.* In the case of any donation under this section, any interest in the property retained by the donor (and the donor's successors in interest) must be subject to legally enforceable restrictions (for example, by recordation in the land records of the jurisdiction in which the property is located) that will prevent uses of the retained interest inconsistent with the conservation purposes of the donation. In the case of a contribution of a remainder interest, the contribution will not qualify if the tenants, whether they are tenants for life or a term of years, can use the property in a manner that diminishes the conservation values which are intended to be protected by the contribution.

(2) *Protection of a conservation purpose in case of donation of property subject to a mortgage.* In the case of conservation contributions made after February 13, 1986, no deducion will be permitted under this section for an interest in property which is subject to a mortgage unless the mortgagee subordinates its rights in the property to the right of the qualified organization to enforce the conservation purposes of the gift in perpetuity. For conservation contributions made prior to February 14, 1986, the requirement of section 170 (h)(5)(A) is satisfied in the case of mortgaged property (with respect to which the mortgagee has not subordinated its rights) only if the donor can demonstrate that the conservation purpose is protected in perpetuity without subordination of the mortgagee's rights.

(3) *Remote future event.* A deduction shall not be disallowed under section 170(f)(3)(B)(iii) and this section merely because the interest which passes to, or is vested in, the donee organization may be defeated by the performance of some act or the happening of some event, if on the date of the gift it appears that the possibility that such act or event will occur is so remote as to be negligible. See paragraph (e) of §1.170A–1. For example, a state's statutory requirement that use restrictions must be rerecorded every 30 years to remain enforceable shall not, by itself, render an easement nonperpetual.

(4) *Retention of qualified mineral interest*—(i) *In general.* Except as otherwise provided in paragraph (g)(4)(ii) of this section, the requirements of this section are not met and no deduction shall be allowed in the case of a contribution of any interest when there is a retention by any person of a qualified mineral interest (as defined in paragraph (b)(1)(i) of this section) if at any time there may be extractions or removal of minerals by any surface mining method. Moreover, in the case of a qualified mineral interest gift, the requirement that the conservation purposes be protected in perpetuity is not satisfied if any method of mining that is inconsistent with the particular conservation purposes of a contribution is permitted at any time. See also §1.170A–14(e)(2). However, a deduction under this section will not be denied in the case of certain methods of mining that may have limited, localized impact on the real property but that are not irremediably destructive of significant conservation interests. For example, a deduction will not be denied in a case where production facilities are concealed or compatible with existing topography and landscape and when surface alteration is to be restored to its original state.

(ii) *Exception for qualified conservation contributions after July 1984.* (A) A contribution made after July 18, 1984, of a qualified real property interest described in section 170(h)(2)(A) shall not be disqualified under the first sentence of paragraph (g)(4)(i) of this section if the following requirements are satisfied.

(*1*) The ownership of the surface estate and mineral interest were separated before June 13, 1976, and remain so separated up to and including the time of the contribution.

(*2*) The present owner of the mineral interest is not a person whose relationship to the owner of the surface estate is described at the time of the contribution in section 267(b) or section 707(b), and

(*3*) The probability of extraction or removal of minerals by any surface mining method is so remote as to be negligible.

Whether the probability of extraction or removal of minerals by surface mining is so remote as to be negligible is a question of fact and is to be made on a case by case basis. Relevant factors to be considered in determining if the probability of extraction or removal of minerals by surface mining is so remote as to be negligible include: Geological, geophysical or economic data showing the absence of mineral reserves on the property, or the lack of commercial feasibility at the time of the contribution of surface mining the mineral interest.

(B) If the ownership of the surface estate and mineral interest first became separated after June 12, 1976, no deduction is permitted for a contribution under this section unless surface mining on the property is completely prohibited.

(iii) *Examples.* The provisions of paragraph (g)(4)(i) and (ii) of this section may be illustrated by the following examples:

Example 1. K owns 5,000 acres of bottomland hardwood property along a major watershed system in the southern part of the United States. Agencies within the Department of the Interior have determined that southern bottomland hardwoods are a rapidly diminishing resource and a critical ecosystem in the south because of the intense pressure to cut the trees and convert the land to agricultural use. These agencies have further determined (and have indicated in correspondence with K) that bottomland hardwoods provide a superb habitat for numerous species and play an important role in controlling floods and purifying rivers. K donates to a qualified organization his entire interest in this property other than his interest in the gas and oil deposits that have been identified under K's property. K covenants and can ensure that, although drilling for gas and oil on the property may have some temporary localized impact on the real property, the drilling will not interfere with the overall conservation purpose of the gift, which is to protect the unique bottomland hardwood ecosystem. Accordingly, the donation qualifies for a deduction under this section.

Example 2. Assume the same facts as in *Example (1)*, except that in 1979, K sells the mineral interest to A, an unrelated person, in an arm's-length transaction, subject to a recorded prohibition on the removal of any minerals by any surface mining method and a recorded prohibition against any mining technique that will harm the bottomland hardwood ecosystem. After the sale to A, K donates a qualified real property interest to a qualified organization to protect the bottomland hardwood ecosystem. Since at the time of the transfer, surface mining and any mining technique that will harm the bottomland hardwood ecosystem are completely prohibited, the donation qualifies for a deduction under this section.

(5) *Protection of conservation purpose where taxpayer reserves certain rights*—(i) *Documentation.* In the case of a donation made after February 13, 1986, of any qualified real property interest when the donor reserves rights the exercise of which may impair the conservation interests associated with the property, for a deduction to be allowable under this section the donor must make available to the donee, prior to the time the donation is made, documentation sufficient to establish the condition of the property at the time of the gift. Such documentation is designed to protect the conservation interests associated with the property, which although protected in perpetuity by the easement, could be adversely affected by the exercise of the reserved rights. Such documentation may include:

(A) The appropriate survey maps from the United States Geological Survey, showing the property line and other contiguous or nearby protected areas;

(B) A map of the area drawn to scale showing all existing man-made improvements or incursions (such as roads, buildings, fences, or gravel pits), vegetation and identification of flora and fauna (including, for example, rare species locations, animal breeding and roosting areas, and migration routes), land use history (including present uses and recent past disturbances), and distinct natural features (such as large trees and aquatic areas);

(C) An aerial photograph of the property at an appropriate scale taken as close as possible to the date the donation is made; and

(D) On-site photographs taken at appropriate locations on the property. If the terms of the donation contain restrictions with regard to a particular natural resource to be protected, such as water quality or air quality, the condition of the resource at or near the time of the gift must be established. The documentation, including the maps and photographs, must be accompanied by a statement signed by the donor and a representative of the donee clearly referencing the documentation and in substance saying ''This natural resources inventory is an accurate representation of [the protected property] at the time of the transfer.''.

(ii) *Donee's right to inspection and legal remedies.* In the case of any donation referred to in paragraph (g)(5)(i) of this section, the donor must agree to notify the donee, in writing, before exercising any reserved right, *e.g.* the right to extract certain minerals which may have an adverse impact on the conservation interests associated with the qualified real property interest. The terms of the donation must provide a right of the donee to enter the property at reasonable times for the purpose of inspecting the property to determine if there is compliance with the terms of the donation. Additionally, the terms of the donation must provide a right of the donee to enforce the conservation restrictions by appropriate legal proceedings, including but not limited to, the right to require the restoration of the property to its condition at the time of the donation.

(6) *Extinguishment.* (i) In general. If a subsequent unexpected change in the conditions surrounding the property that is the subject of a donation under this paragraph can make impossible or impractical the continued use of the property for conservation purposes, the conservation purpose can nonetheless be treated as protected in perpetuity if the restrictions are extinguished by judicial proceeding and all of the donee's proceeds (determined under paragraph (g)(6)(ii) of this section) from a subsequent sale or exchange of the property are used by the donee organization in a manner consistent with the conservation purposes of the original contribution.

(ii) *Proceeds.* In case of a donation made after February 13, 1986, for a deduction to be allowed under this section, at the time of the gift the donor must agree that the donation of the perpetual conservation restriction gives rise to a property right, immediately vested in the donee organization, with a fair market value that is at least equal to the proportionate value that the perpetual conservation restriction at the time of the gift, bears to the value of the property as a whole at that time. See §1.170A–14(h)(3)(iii) relating to the allocation of basis. For purposes of this paragraph (g)(6)(ii), that proportionate value of the donee's property rights shall remain constant. Accordingly, when a change in conditions give rise to the extinguishment of a perpetual conservation restriction under paragraph (g)(6)(i) of this section, the donee organization, on a subsequent sale, exchange, or involuntary conversion of the subject property, must be entitled to a portion of the proceeds at least equal to that proportionate value of the perpetual conservation restriction, unless state law provides that the donor is entitled to the full proceeds from the conversion without regard to the terms of the prior perpetual conservation restriction.

(h) *Valuation*—(1) *Entire interest of donor other than qualified mineral interest.* The value of the contribution under section 170 in the case of a contribution of a taxpayer's entire interest in property other than a qualified mineral interest is the fair market value of the surface rights in the property contributed. The value of the contribution shall be computed without regard to the mineral rights. See paragraph (h)(4), *example (1),* of this section.

(2) *Remainder interest in real property.* In the case of a contribution of any remainder interest in real property, section 170(f)(4) provides that in determining the value of such interest for purposes of section 170, depreciation and depletion of such property shall be taken into account. See §1.170A–12. In the case of the contribution of a remainder interest for conservation purposes, the current fair market value of the property (against which the limitations of §1.170A–12 are applied) must take into account any pre-existing or contemporaneously recorded rights limiting, for conservation purposes, the use to which the subject property may be put.

(3) *Perpetual conservation restriction*—(i) *In general.* The value of the contribution under section 170 in the case of a charitable contribution of a perpetual conservation restriction is the fair market value of the perpetual conservation restriction at the time of the contribution. See §1.170A–7(c). If there is a substantial record of sales of easements comparable to the donated easement (such as purchases pursuant to a governmental program), the fair market value of the donated easement is based on the sales prices of such comparable easements. If no substantial record of market-place sales is available to use as a meaningful or valid comparison, as a general rule (but not necessarily in all cases) the fair market value of a perpetual conservation

restriction is equal to the difference between the fair market value of the property it encumbers before the granting of the restriction and the fair market value of the encumbered property after the granting of the restriction. The amount of the deduction in the case of a charitable contribution of a perpetual conservation restriction covering a portion of the contiguous property owned by a donor and the donor's family (as defined in section 267(c)(4)) is the difference between the fair market value of the entire contiguous parcel of property before and after the granting of the restriction. If the granting of a perpetual conservation restriction after January 14, 1986, has the effect of increasing the value of any other property owned by the donor or a related person, the amount of the deduction for the conservation contribution shall be reduced by the amount of the increase in the value of the other property, whether or not such property is contiguous. If, as a result of the donation of a perpetual conservation restriction, the donor or a related person receives, or can reasonably expect to receive, financial or economic benefits that are greater than those that will inure to the general public from the transfer, no deduction is allowable under this section. However, if the donor or a related person receives, or can reasonably expect to receive, a financial or economic benefit that is substantial, but it is clearly shown that the benefit is less than the amount of the transfer, then a deduction under this section is allowable for the excess of the amount transferred over the amount of the financial or economic benefit received or reasonably expected to be received by the donor or the related person. For purposes of this paragraph (h)(3)((i), related person shall have the same meaning as in either section 267(b) or section 707(b). (See *Example (10)* of paragraph (h)(4) of this section.)

(ii) *Fair market value of property before and after restriction.* If before and after valuation is used, the fair market value of the property before contribution of the conservation restriction must take into account not only the current use of the property but also an objective assessment of how immediate or remote the likelihood is that the property, absent the restriction, would in fact be developed, as well as any effect from zoning, conservation, or historic preservation laws that already restrict the property's potential highest and best use. Further, there may be instances where the grant of a conservation restriction may have no material effect on the value of the property or may in fact serve to enhance, rather than reduce, the value of property. In such instances no deduction would be allowable. In the case of a conservation restriction that allows for any development, however limited, on the property to be protected, the fair maket value of the property after contribution of the restriction must take into account the effect of the development. In the case of a conservation easement such as an easement on a certified historic structure, the fair market value of the property after contribution of the restriction must take into account the amount of access permitted by the terms of the easement. Additionally, if before and after valuation is used, an appraisal of the property after contribution of the restriction must take into account the effect of restrictions that will result in a reduction of the potential fair market value represented by highest and best use but will, nevertheless, permit uses of the property that will increase its fair market value above that represented by the property's current use. The value of a perpetual conservation restriction shall not be reduced by reason of the existence of restrictions on transfer designed solely to ensure that the conservation restriction will be dedicated to conservation purposes. See § 1.170A–14 (c)(3).

(iii) *Allocation of basis.* In the case of the donation of a qualified real property interest for conservation purposes, the basis of the property retained by the donor must be adjusted by the elimination of that part of the total basis of the property that is properly allocable to the qualified real property interest granted. The amount of the basis that is allocable to the qualified real property interest shall bear the same ratio to the total basis of the property as the fair market value of the qualified real property interest bears to the fair market value of the property before the granting of the qualified real property interest. When a taxpayer donates to a qualifying conservation organization an easement on a structure with respect to which deductions are taken for depreciation, the reduction required by this paragraph (h)(3)(ii) in the basis of the property retained by the taxpayer must be allocated between the structure and the underlying land.

(4) *Examples.* The provisions of this section may be illustrated by the following examples. In examples illustrating the value or deductibility of donations, the applicable restrictions and limitations of §1.170A–4, with respect to reduction in amount of charitable contributions of certain appreciated property, and §1.170A–8, with respect to limitations on charitable deductions by individuals. must also be taken into account.

Example 1. A owns Goldacre, a property adjacent to a state park. A wants to donate Goldacre to the state to be used as part of the park, but A wants to reserve a qualified mineral interest in the property, to exploit currently and to devise at death. The fair market value of the surface rights in Goldacre is $200,000 and the fair market value of the mineral rights in $100.000. In order to ensure that the quality of the park will not be degraded, restrictions must be imposed on the right to extract the minerals that reduce the fair market value of the mineral rights to $80,000. Under this section, the value of the contribution is $200,000 (the value of the surface rights).

Example 2. In 1984 B, who is 62, donates a remainder interest in Greenacre to a qualifying organization for conservation purposes. Greenacre is a tract of 200 acres of undeveloped woodland that is valued at $200,000 at its highest and best use. Under §1.170A–12(b), the value of a remainder interest in real property following one life is determined under §25.2512–5 of this chapter (Gift Tax Regulations). (See §25.2512–5A of this chapter with respect to the valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred before December 1, 1983.) Accordingly, the value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is $55,996 ($200,000×.27998).

Example 3. Assume the same facts as in *Example (2)*, except that Greenacre is B's 200-acre estate with a home built during the colonial period. Some of the acreage around the home is cleared; the balance of Greenacre, except for access roads, is wooded and undeveloped. See section 170(f)(3)(B)(i). However, B would like Greenacre to be maintained in its current state after his death, so he donates a remainder interest in Greenacre to a qualifying organization for conservation purposes pursunt to section 170 (f)(3)(B)(iii) and (h)(2)(B). At the time of the gift the land has a value of $200,000 and the house has a value of $100,000. The value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is computed pursuant to §1.170A–12. See §1.170A–12(b)(3).

Example 4. Assume the same facts as in *Example (2)*, except that at age 62 instead of donating a remainder interest B donates an easement in Greenacre to a qualifying organization for conservation purposes. The fair market value of Greenacre after the donation is reduced to $110,000. Accordingly, the value of the easement, and thus the amount eligible for a deduction under section 170(f), is $90,000 ($200,000 less $110,000).

Example 5. Assume the same facts as in *Example (4)*, and assume that three years later, at age 65, B decides to donate a remainder interest in Greenacre to a qualifying organization for conservation purposes. Increasing real estate values in the area have raised the fair market value of Greenacre (subject to the easement) to $130,000. Accordingly, the value of the remainder interest, and thus the amount eligible for a deduction under section 170(f), is $41,639 ($130,000×.32030).

Example 6. Assume the same facts as in *Example (2)*, except that at the time of the donation of a remainder interest in Greenacre, B also donates an easement to a different qualifying organization for conservation purposes. Based on all the facts and circumstances, the value of the easement is determined to be $100,000. Therefore, the value of the property after the easement is $100,000 and the value of the remainder interest, and thus the amount eligible for deduction under section 170(f), is $27,998 ($100,000×.27998).

Example 7. C owns Greenacre, a 200-acre estate containing a house built during the colonial period. At its highest and best use, for home development, the fair market value of Greenacre is $300,000. C donates an easement (to maintain the house and Green acre in their current state) to a qualifying organization for conservation purposes. The fair market value of Greenacre after the donation is reduced to $125,000. Accordingly, the value of the easement and the amount eligible for a deduction under section 170(f) is $175.000 ($300,000 less $125,000).

Example 8. Assume the same facts as in *Example (7)* and assume that three years later, C decides to donate a remainder interest in Greenacre to a qualifying organization for conservation purposes. Increasing real estate values in the area have raised the fair market value of Greenacre to $180.000. Assume that because of the perpetual easement prohibiting any development of the land, the value of the house is $120,000 and the value of the land is $60,000. The value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is computed pursuant to §1.170A–12. See §1.170A–12(b)(3).

Example 9. D owns property with a basis of $20,000 and a fair market value of $80,000. D donates to a qualifying organization an easement for conservation purposes that is determined under this section to have a fair market value of $60,000. The amount of basis allocable to the easement is $15,000 ($60,000/ $80,000=$15,000/$20,000). Accordingly, the basis of the property is reduced to $5,000 ($20,000 minus $15,000).

Example 10. E owns 10 one-acre lots that are currently woods and parkland. The fair market value of each of E's lots is $15,000 and the basis of each lot is $3,000. E grants to the county a perpetual easement for conservation purposes to use and maintain eight of the acres as a public park and to restrict any future development on those eight acres. As a result of the restrictions, the value of the eight acres is reduced to $1,000 an acre. However, by perpetually restricting development on this portion of the land, E has ensured that the two remaining acres will always be bordered by parkland, thus increasing their fair market value to $22,500 each. If the eight acres represented all of E's land, the fair market value of the easement would be $112,000, an amount equal to the fair market value of the land before the granting of the easement (8×$15,000=$120,000) minus the fair market value of the encumbered land after the granting of the easement (8×$1,000=$8,000). However, because the easement only covered a portion of the taxpayer's contiguous land, the amount of the deduction under section 170 is reduced to $97,000 ($150,000–$53,000), that is, the difference between the fair market value of the entire tract of land before ($150,000) and after ((8×$1,000)+(2× $22,500)) the granting of the easement.

Example 11. Assume the same facts as in *example (10).* Since the easement covers a portion of E's land, only the basis of that portion is adjusted. Therefore, the amount of basis allocable to the easement is $22,400 ((8×$3,000)×($112,000/$120,000)). Accordingly, the basis of the eight acres encumbered by the easement is reduced to $1,600 ($24,000–$22,400), or $200 for each acre. The basis of the two remaining acres is not affected by the donation.

Example 12. F owns and uses as professional offices a two-story building that lies within a registered historic district. F's building is an outstanding example of period architecture with a fair market value of $125,000. Restricted to its current use, which is the highest and best use of the property without making changes to the facade, the building and lot would have a fair market value of $100,000, of which $80,000 would be allocable to the building and $20,000 woud be allocable to the lot. F's basis in the property is $50,000, of which $40,000 is allocable to the building and $10,000 is allocable to the lot. F's neighborhood is a mix of residential and commercial uses, and it is possible that F (or another owner) could enlarge the building for more extensive commercial use, which is its highest and best use. However, this would require changes to the facade. F would like to donate to a qualifying preservation organization an easement restricting any changes to the facade and promising to maintain the facade in perpetuity. The donation would qualify for a deduction under this section. The fair market value of the easement is $25,000 (the fair market value of the property before the easement, $125,000, minus the fair market value of the property after the easement, $100,000). Pursuant to §1.170A–14(h)(3)(iii), the basis allocable to the easement is $10,000 and the basis of the underlying property (building and lot) is reduced to $40,000.

(i) *Substantiation requirement.* If a taxpayer makes a qualified conservation contribution and claims a deduction, the taxpayer must maintain written records of the fair market value of the underlying property before and after the donation and the conservation purpose furthered by the donation and such information shall be stated in the taxpayer's income tax return if required by the return or its instructions. See also §1.170A–13(c) (relating to substantiation requirements for deductions in excess of $5,000 for charitable contributions made after 1984), and section 6659 (relating to additions to tax in the case of valuation overstatements).

(j) *Effective date.* Except as otherwise provided in §1.170A–14(g)(4)(ii), this section applies only to contributions made on or after December 18, 1980.

[T.D. 8069, 51 FR 1499, Jan. 14, 1986; 51 FR 5322, Feb. 13, 1986; 51 FR 6219, Feb. 21, 1986, as amended by T.D. 8199, 53 FR 16085, May 5, 1988; T.D. 8540, 59 FR 30105, June 10, 1994]

§1.171–1 Bond premium.

(a) *Overview*—(1) *In general.* This section and §§1.171–2 through 1.171–5 provide rules for the determination and amortization of bond premium by a holder. In general, a holder amortizes bond premium by offsetting the interest allocable to an accrual period with the premium allocable to that period. Bond premium is allocable to an accrual period based on a constant yield. The use of a constant yield to amortize bond premium is intended to generally conform the treatment of bond premium to the treatment of original issue discount under sections 1271 through 1275. Unless otherwise provided, the terms used in this section and §§1.171–2 through 1.171–5 have the same meaning as those terms in sections 1271 through 1275 and the corresponding regulations. Moreover, unless otherwise provided, the provisions of this section and §§1.171–2 through 1.171–5 apply in a manner consistent with those of sections 1271 through 1275 and the corresponding regulations. In addition, the anti-abuse rule in §1.1275–2(g) applies for purposes of this section and §§1.171–2 through 1.171–5.

(2) *Cross-references.* For rules dealing with the adjustments to a holder's basis to reflect the amortization of bond premium, see §1.1016–5(b). For rules dealing with the treatment of bond issuance premium by an issuer, see §1.163–13.

(b) *Scope*—(1) *In general.* Except as provided in paragraph (b)(2) of this section and §1.171–5, this section and §§1.171–2 through 1.171–4 apply to any bond that, upon its acquisition by the holder, is held with bond premium. For purposes of this section and §§1.171–2 through 1.171–5, the term *bond* has the same meaning as the term *debt instrument* in §1.1275–1(d).

(2) *Exceptions.* This section and §§1.171–2 through 1.171–5 do not apply to—

(i) A bond described in section 1272(a)(6)(C) (regular interests in a REMIC, qualified mortgages held by a REMIC, and certain other debt instruments, or pools of debt instruments, with payments subject to acceleration);

(ii) A bond to which §1.1275–4 applies (relating to certain debt instruments that provide for contingent payments);

(iii) A bond held by a holder that has made a §1.1272–3 election with respect to the bond;

(iv) A bond that is stock in trade of the holder, a bond of a kind that would properly be included in the inventory of the holder if on hand at the close of the taxable year, or a bond held primarily for sale to customers in the ordinary course of the holder's trade or business; or

(v) A bond issued before September 28, 1985, unless the bond bears interest and was issued by a corporation or by a government or political subdivision thereof.

(c) *General rule*—(1) *Tax-exempt obligations.* A holder must amortize bond premium on a bond that is a tax-exempt obligation. See §1.171–2(c) *Example 4.*

(2) *Taxable bonds.* A holder may elect to amortize bond premium on a taxable bond. Except as provided in paragraph (c)(3) of this section, a taxable bond is any bond other than a tax-exempt obligation. See §1.171–4 for rules relating to the election to amortize bond premium on a taxable bond.

(3) *Bonds the interest on which is partially excludable.* For purposes of this section and §§1.171–2 through 1.171–5, a bond the interest on which is partially excludable from gross income is treated as two instruments, a tax-exempt obligation and a taxable bond. The holder's basis in the bond and each payment on the bond are allocated between the two instruments based on a reasonable method.

(d) *Determination of bond premium*—(1) *In general.* A holder acquires a bond at a premium if the holder's basis in the bond immediately after its acquisition by the holder exceeds the sum of all amounts payable on the bond after the acquisition date (other than payments of qualified stated interest). This excess is bond premium, which is amortizable under §1.171–2.

(2) *Additional rules for amounts payable on certain bonds.* Additional rules apply to determine the amounts payable on a variable rate debt instrument, an inflation-indexed debt instrument, a bond that provides for certain alternative payment schedules, and a bond that provides for remote or incidental contingencies. See §1.171–3.

(e) *Basis.* A holder determines its basis in a bond under this paragraph (e). This determination of basis applies only for purposes of this section and §§1.171–2 through 1.171–5. Because of the application of this paragraph (e), the holder's basis in the bond for purposes of these sections may differ from the holder's basis for determining gain or loss on the sale or exchange of the bond.

(1) *Determination of basis*—(i) *In general.* In general, the holder's basis in the bond is the holder's basis for determining loss on the sale or exchange of the bond.

(ii) *Bonds acquired in certain exchanges.* If the holder acquired the bond in exchange for other property (other than in a reorganization defined in section 368) and the holder's basis in the bond is determined in whole or in part by reference to the holder's basis in the other property, the holder's basis in the bond may not exceed its fair market value immediately after the exchange. See paragraph (f) *Example 1* of this section. If the bond is acquired in a reorganization, see section 171(b)(4)(B).

(iii) *Convertible bonds*—(A) *General rule.* If the bond is a convertible bond, the holder's basis in the bond is reduced by an amount equal to the value of the conversion option. The value of the conversion option may be determined under any reasonable method. For example, the holder may determine the value of the conversion option by comparing the market price of the convertible bond to the market prices of similar bonds that do not have conversion options. See paragraph (f) *Example 2* of this section.

(B) *Convertible bonds acquired in certain exchanges.* If the bond is a convertible bond acquired in a transaction described in paragraph (e)(1)(ii) of this section, the holder's basis in the bond may not exceed its fair market value immediately after the exchange reduced by the value of the conversion option.

(C) *Definition of convertible bond.* A convertible bond is a bond that provides the holder with an option to convert the bond into stock of the issuer, stock or debt of a related party (within the meaning of section 267(b) or 707(b)(1)), or into cash or other property in an amount equal to the approximate value of such stock or debt.

(2) *Basis in bonds held by certain transferees.* Notwithstanding paragraph (e)(1) of this section, if the bond is transferred basis property (as defined in section 7701(a)(43)) and the transferor had acquired the bond at a premium, the holder's basis in the bond is—

(i) The holder's basis for determining loss on the sale or exchange of the bond; reduced by

(ii) Any amounts that the transferor could not have amortized under this paragraph (e) or under § 1.171–4(c), except to the extent that the holder's basis already reflects a reduction attributable to such nonamortizable amounts.

(f) *Examples.* The following examples illustrate the rules of this section:

Example 1. Bond received in liquidation of a partnership interest—(i) *Facts.* PR is a partner in partnership PRS. PRS does not have any unrealized receivables or inventory items as defined in section 751. On January 1, 1998, PRS distributes to PR a taxable bond, issued by an unrelated corporation, in liquidation of PR's partnership interest. At that time, the fair market value of PR's partnership interest is $40,000 and the basis is $100,000. The fair market value of the bond is $40,000.

(ii) *Determination of basis.* Under section 732(b), PR's basis in the bond is equal to PR's basis in the partnership interest. Therefore, PR's basis for determining loss on the sale or exchange of the bond is $100,000. However, because the distribution is treated as an exchange for purposes of section 171(b)(4), PR's basis in the bond is $40,000 for purposes of this section and §§ 1.171–2 through 1.171–5. See paragraph (e)(1)(ii) of this section.

Example 2. Convertible bond—(i) *Facts.* On January 11, 1998, A purchases for $1,100 B corporation's bond maturing on January 1, 2001, with a stated principal amount of $1,000, payable at maturity. The bond provides for unconditional payments of interest of $30 on January 1 and July 1 of each year. In addition, the bond is convertible into 15 shares of B corporation stock at the option of the holder. On January 1, 1998, B corporation's nonconvertible, publicly-traded, three-year debt with a similar credit rating trades at a price that reflects a yield of 6.75 percent, compounded semiannually.

(ii) *Determination of basis.* A's basis for determining loss on the sale or exchange of the bond is $1,100. As of January 1, 1998, discounting the remaining payments on the bond at the yield at which B's similar nonconvertible bonds trade (6.75 percent, compounded semiannually) results in a present value of $980. Thus, the value of the conversion option is $120. Under paragraph (e)(1)(iii)(A) of this section, A's basis is $980 ($1,100 − $120) for purposes of this section and §§ 1.171–2 through 1.171–5. The sum of all amounts payable on the bond other than qualified stated interest is $1,000. Because

A's basis (as determined under paragraph (e)(1)(iii)(A) of this section) does not exceed $1,000, A does not acquire the bond at a premium.

[T.D. 8746, 62 FR 68177, Dec. 31, 1997]

§1.171–2 Amortization of bond premium.

(a) *Offsetting qualified stated interest with premium*—(1) *In general.* A holder amortizes bond premium by offsetting the qualified stated interest allocable to an accrual period with the bond premium allocable to the accrual period. This offset occurs when the holder takes the qualified stated interest into account under the holder's regular method of accounting.

(2) *Qualified stated interest allocable to an accrual period.* See §1.446–2(b) to determine the accrual period to which qualified stated interest is allocable and to determine the accrual of qualified stated interest within an accrual period.

(3) *Bond premium allocable to an accrual period.* The bond premium allocable to an accrual period is determined under this paragraph (a)(3). Within an accrual period, the bond premium allocable to the period accrues ratably.

(i) *Step one: Determine the holder's yield.* The holder's yield is the discount rate that, when used in computing the present value of all remaining payments to be made on the bond (including payments of qualified stated interest), produces an amount equal to the holder's basis in the bond as determined under §1.171–1(e). For this purpose, the remaining payments include only payments to be made after the date the holder acquires the bond. The yield is calculated as of the date the holder acquires the bond, must be constant over the term of the bond, and must be calculated to at least two decimal places when expressed as a percentage.

(ii) *Step two: Determine the accrual periods.* A holder determines the accrual periods for the bond under the rules of §1.1272–1(b)(1)(ii).

(iii) *Step three: Determine the bond premium allocable to the accrual period.* The bond premium allocable to an accrual period is the excess of the qualified stated interest allocable to the accrual period over the product of the holder's adjusted acquisition price (as defined in paragraph (b) of this section) at the beginning of the accrual period and the holder's yield. In performing this calculation, the yield must be stated appropriately taking into account the length of the particular accrual period. Principles similar to those in §1.1272–1(b)(4) apply in determining the bond premium allocable to an accrual period.

(4) *Bond premium in excess of qualified stated interest*—(i) *Taxable bonds*—(A) *Bond premium deduction.* In the case of a taxable bond, if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to the accrual period, the excess is treated by the holder as a bond premium deduction under section 171(a)(1) for the accrual period. However, the amount treated as a bond premium deduction is limited to the amount by which the holder's total interest inclusions on the bond in prior accrual periods exceed the total amount treated by the holder as a bond premium deduction on the bond in prior accrual periods. A deduction determined under this paragraph (a)(4)(i)(A) is not subject to section 67 (the 2-percent floor on miscellaneous itemized deductions). See *Example 1* of §1.171–3(e).

(B) *Carryforward.* If the bond premium allocable to an accrual period exceeds the sum of the qualified stated interest allocable to the accrual period and the amount treated as a deduction for the accrual period under paragraph (a)(4)(i)(A) of this section, the excess is carried forward to the next accrual period and is treated as bond premium allocable to that period.

(ii) *Tax-exempt obligations.* In the case of a tax-exempt obligation, if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to the accrual period, the excess is a nondeductible loss. If a regulated investment company (RIC) within the meaning of section 851 has excess bond premium for an accrual period that would be a nondeductible loss under the prior sentence, the RIC must use this excess bond premium to reduce its tax-exempt interest income on other tax-exempt obligations held during the accrual period.

(5) *Additional rules for certain bonds.* Additional rules apply to determine the amortization of bond premium on a variable rate debt instrument, an inflation-indexed debt instrument, a bond that provides for certain alternative payment schedules, and a bond that provides for remote or incidental contingencies. See § 1.171–3.

(b) *Adjusted acquisition price.* The adjusted acquisition price of a bond at the beginning of the first accrual period is the holder's basis as determined under § 1.171–1(e). Thereafter, the adjusted acquisition price is the holder's basis in the bond decreased by—

(1) The amount of bond premium previously allocable under paragraph (a)(3) of this section; and

(2) The amount of any payment previously made on the bond other than a payment of qualified stated interest.

(c) *Examples.* The following examples illustrate the rules of this section. Each example assumes the holder uses the calendar year as its taxable year and has elected to amortize bond premium, effective for all relevant taxable years. In addition, each example assumes a 30-day month and 360-day year. Although, for purposes of simplicity, the yield as stated is rounded to two decimal places, the computations do not reflect this rounding convention. The examples are as follows:

Example 1. Taxable bond—(i) *Facts.* On February 1, 1999, A purchases for $110,000 a taxable bond maturing on February 1, 2006, with a stated principal amount of $100,000, payable at maturity. The bond provides for unconditional payments of interest of $10,000, payable on February 1 of each year. A uses the cash receipts and disbursements method of accounting, and A decides to use annual accrual periods ending on February 1 of each year.

(ii) *Amount of bond premium.* The interest payments on the bond are qualified stated interest. Therefore, the sum of all amounts payable on the bond (other than the interest payments) is $100,000. Under § 1.171–1, the amount of bond premium is $10,000 ($110,000 − $100,000).

(iii) *Bond premium allocable to the first accrual period.* Based on the remaining payment schedule of the bond and A's basis in the bond, A's yield is 8.07 percent, compounded annually. The bond premium allocable to the accrual period ending on February 1, 2000, is the excess of the qualified stated interest allocable to the period ($10,000) over the product of the adjusted acquisition price at the beginning of the period ($110,000) and A's yield (8.07 percent, compounded annually). Therefore, the bond premium allocable to the accrual period is $1,118.17 ($10,000 − $8,881.83).

(iv) *Premium used to offset interest.* Although A receives an interest payment of $10,000 on February 1, 2000, A only includes in income $8,881.83, the qualified stated interest allocable to the period ($10,000) offset with bond premium allocable to the period ($1,118.17). Under § 1.1016–5(b), A's basis in the bond is reduced by $1,118.17 on February 1, 2000.

Example 2. Alternative accrual periods—(i) *Facts.* The facts are the same as in *Example 1* of this paragraph (c) except that A decides to use semiannual accrual periods ending on February 1 and August 1 of each year.

(ii) *Bond premium allocable to the first accrual period.* Based on the remaining payment schedule of the bond and A's basis in the bond, A's yield is 7.92 percent, compounded semiannually. The bond premium allocable to the accrual period ending on August 1, 1999, is the excess of the qualified stated interest allocable to the period ($5,000) over the product of the adjusted acquisition price at the beginning of the period ($110,000) and A's yield, stated appropriately taking into account the length of the accrual period (7.92 percent/2). Therefore, the bond premium allocable to the accrual period is $645.29 ($5,000 − $4,354.71). Although the accrual period ends on August 1, 1999, the qualified stated interest of $5,000 is not taken into income until February 1, 2000, the date it is received. Likewise, the bond premium of $645.29 is not taken into account until February 1, 2000. The adjusted acquisition price of the bond on August 1, 1999, is $109,354.71 (the adjusted acquisition price at the beginning of the period ($110,000) less the bond premium allocable to the period ($645.29)).

(iii) *Bond premium allocable to the second accrual period.* Because the interval between payments of qualified stated interest contains more than one accrual period, the adjusted acquisition price at the beginning of the second accrual period must be adjusted for the accrued but unpaid qualified stated interest. See paragraph (a)(3)(iii) of this section and § 1.1272–1(b)(4)(i)(B). Therefore, the adjusted acquisition price on August 1, 1999, is $114,354.71 ($109,354.71 + $5,000). The bond premium allocable to the accrual period ending on February 1, 2000, is the excess of the qualified stated interest allocable to the period ($5,000) over the product of the adjusted acquisition price at the beginning of the period ($114,354.71) and A's yield, stated appropriately taking into account the length of the accrual period (7.92 percent/2). Therefore, the bond premium allocable to the accrual period is $472.88 ($5,000 − $4,527.12).

(iv) *Premium used to offset interest.* Although A receives an interest payment of $10,000 on February 1, 2000, A only includes in income

$8,881.83, the qualified stated interest of $10,000 ($5,000 allocable to the accrual period ending on August 1, 1999, and $5,000 allocable to the accrual period ending on February 1, 2000) offset with bond premium of $1,118.17 ($645.29 allocable to the accrual period ending on August 1, 1999, and $472.88 allocable to the accrual period ending on February 1, 2000). As indicated in *Example 1* of this paragraph (c), this same amount would be taken into income at the same time had A used annual accrual periods.

Example 3. Holder uses accrual method of accounting—(i) *Facts.* The facts are the same as in *Example 1* of this paragraph (c) except that A uses an accrual method of accounting. Thus, for the accrual period ending on February 1, 2000, the qualified stated interest allocable to the period is $10,000, and the bond premium allocable to the period is $1,118.17. Because the accrual period extends beyond the end of A's taxable year, A must allocate these amounts between the two taxable years.

(ii) *Amounts allocable to the first taxable year.* The qualified stated interest allocable to the first taxable year is $9,166.67 ($10,000 × 11/12). The bond premium allocable to the first taxable year is $1,024.99 ($1,118.17 x 11/12).

(iii) *Premium used to offset interest.* For 1999, A includes in income $8,141.68, the qualified stated interest allocable to the period ($9,166.67) offset with bond premium allocable to the period ($1,024.99). Under §1.1016–5(b), A's basis in the bond is reduced by $1,024.99 in 1999.

(iv) *Amounts allocable to the next taxable year.* The remaining amounts of qualified stated interest and bond premium allocable to the accrual period ending on February 1, 2000, are taken into account for the taxable year ending on December 31, 2000.

Example 4. Tax-exempt obligation—(i) *Facts.* On January 15, 1999, C purchases for $120,000 a tax-exempt obligation maturing on January 15, 2006, with a stated principal amount of $100,000, payable at maturity. The obligation provides for unconditional payments of interest of $9,000, payable on January 15 of each year. C uses the cash receipts and disbursements method of accounting, and C decides to use annual accrual periods ending on January 15 of each year.

(ii) *Amount of bond premium.* The interest payments on the obligation are qualified stated interest. Therefore, the sum of all amounts payable on the obligation (other than the interest payments) is $100,000. Under §1.171–1, the amount of bond premium is $20,000 ($120,000—$100,000).

(iii) *Bond premium allocable to the first accrual period.* Based on the remaining payment schedule of the obligation and C's basis in the obligation, C's yield is 5.48 percent, compounded annually. The bond premium allocable to the accrual period ending on January 15, 2000, is the excess of the qualified stated interest allocable to the period ($9,000) over the product of the adjusted acquisition price at the beginning of the period ($120,000) and C's yield (5.48 percent, compounded annually). Therefore, the bond premium allocable to the accrual period is $2,420.55 ($9,000 − $6,579.45).

(iv) *Premium used to offset interest.* Although C receives an interest payment of $9,000 on January 15, 2000, C only receives tax-exempt interest income of $6,579.45, the qualified stated interest allocable to the period ($9,000) offset with bond premium allocable to the period ($2,420.55). Under §1.1016–5(b), C's basis in the obligation is reduced by $2,420.55 on January 15, 2000.

[T.D. 8746, 62 FR 68178, Dec. 31, 1997]

§1.171–3 Special rules for certain bonds.

(a) *Variable rate debt instruments.* A holder determines bond premium on a variable rate debt instrument by reference to the stated redemption price at maturity of the equivalent fixed rate debt instrument constructed for the variable rate debt instrument. The holder also allocates any bond premium among the accrual periods by reference to the equivalent fixed rate debt instrument. The holder constructs the equivalent fixed rate debt instrument, as of the date the holder acquires the variable rate debt instrument, by using the principles of §1.1275–5(e). See paragraph (e) *Example 1* of this section.

(b) *Inflation-indexed debt instruments.* A holder determines bond premium on an inflation-indexed debt instrument by assuming that there will be no inflation or deflation over the remaining term of the instrument. The holder also allocates any bond premium among the accrual periods by assuming that there will be no inflation or deflation over the remaining term of the instrument. The bond premium allocable to an accrual period offsets qualified stated interest allocable to the period. Notwithstanding §1.171–2(a)(4), if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to the period, the excess is treated as a deflation adjustment under §1.1275–7T(f)(1)(i). See §1.1275–7T for other rules relating to inflation-indexed debt instruments.

(c) *Yield and remaining payment schedule of certain bonds subject to contingencies*—(1) *Applicability.* This paragraph (c) provides rules that apply in determining the yield and remaining payment schedule of certain bonds that provide for an alternative payment schedule (or schedules) applicable upon the occurrence of a contingency (or contingencies). This paragraph (c) applies, however, only if the timing and amounts of the payments that comprise each payment schedule are known as of the date the holder acquires the bond (the acquisition date) and the bond is subject to paragraph (c)(2), (3), or (4) of this section. A bond does not provide for an alternative payment schedule merely because there is a possibility of impairment of a payment (or payments) by insolvency, default, or similar circumstances. See § 1.1275–4 for the treatment of a bond that provides for a contingency that is not described in this paragraph (c).

(2) *Remaining payment schedule that is significantly more likely than not to occur.* If, based on all the facts and circumstances as of the acquisition date, a single remaining payment schedule for a bond is significantly more likely than not to occur, this remaining payment schedule is used to determine and amortize bond premium under §§ 1.171–1 and 1.171–2.

(3) *Mandatory sinking fund provision.* Notwithstanding paragraph (c)(2) of this section, if a bond is subject to a mandatory sinking fund provision described in § 1.1272–1(c)(3), the provision is ignored for purposes of determining and amortizing bond premium under §§ 1.171–1 and 1.171–2.

(4) *Treatment of certain options*—(i) *Applicability.* Notwithstanding paragraphs (c)(2) and (3) of this section, the rules of this paragraph (c)(4) determine the remaining payment schedule of a bond that provides the holder or issuer with an unconditional option or options, exercisable on one or more dates during the remaining term of the bond, to alter the bond's remaining payment schedule.

(ii) *Operating rules.* A holder determines the remaining payment schedule of a bond by assuming that each option will (or will not) be exercised under the following rules:

(A) *Issuer options.* In general, the issuer is deemed to exercise or not exercise an option or combination of options in the manner that minimizes the holder's yield on the obligation. However, the issuer of a taxable bond is deemed to exercise or not exercise a call option or combination of call options in the manner that maximizes the holder's yield on the bond.

(B) *Holder options.* A holder is deemed to exercise or not exercise an option or combination of options in the manner that maximizes the holder's yield on the bond.

(C) *Multiple options.* If both the issuer and the holder have options, the rules of paragraphs (c)(4)(ii)(A) and (B) of this section are applied to the options in the order that they may be exercised. Thus, the deemed exercise of one option may eliminate other options that are later in time.

(5) *Subsequent adjustments*—(i) *In general.* Except as provided in paragraph (c)(5)(ii) of this section, if a contingency described in this paragraph (c) (including the exercise of an option described in paragraph (c)(4) of this section) actually occurs or does not occur, contrary to the assumption made pursuant to paragraph (c) of this section (a change in circumstances), then solely for purposes of section 171, the bond is treated as retired and reacquired by the holder on the date of the change in circumstances for an amount equal to the adjusted acquisition price of the bond as of that date. If, however, the change in circumstances results in a substantially contemporaneous pro-rata prepayment as defined in § 1.1275–2(f)(2), the pro-rata prepayment is treated as a payment in retirement of a portion of the bond. See paragraph (e) *Example 2* of this section.

(ii) *Bond premium deduction on the issuer's call of a taxable bond.* If a change in circumstances results from an issuer's call of a taxable bond or a partial call that is a pro-rata prepayment, the holder may deduct as bond premium an amount equal to the excess, if any, of the holder's adjusted acquisition price of the bond over the greater of—

(A) The amount received on redemption; and

(B) The amounts that would have been payable under the bond (other than payments of qualified stated interest) if no change in circumstances had occurred.

(d) *Remote and incidental contingencies*. For purposes of determining and amortizing bond premium, if a bond provides for a contingency that is remote or incidental (within the meaning of § 1.1275–2(h)), the holder takes the contingency into account under the rules for remote and incidental contingencies in § 1.1275–2(h).

(e) *Examples*. The following examples illustrate the rules of this section. Each example assumes the holder uses the calendar year as its taxable year and has elected to amortize bond premium, effective for all relevant taxable years. In addition, each example assumes a 30-day month and 360-day year. Although, for purposes of simplicity, the yield as stated is rounded to two decimal places, the computations do not reflect this rounding convention. The examples are as follows:

Example 1. Variable rate debt instrument—(i) *Facts*. On March 1, 1999, E purchases for $110,000 a taxable bond maturing on March 1, 2007, with a stated principal amount of $100,000, payable at maturity. The bond provides for unconditional payments of interest on March 1 of each year based on the percentage appreciation of a nationally-known commodity index. On March 1, 1999, it is reasonably expected that the bond will yield 12 percent, compounded annually. E uses the cash receipts and disbursements method of accounting, and E decides to use annual accrual periods ending on March 1 of each year. Assume that the bond is a variable rate debt instrument under § 1.1275–5.

(ii) *Amount of bond premium*. Because the bond is a variable rate debt instrument, E determines and amortizes its bond premium by reference to the equivalent fixed rate debt instrument constructed for the bond as of March 1, 1999. Because the bond provides for interest at a single objective rate that is reasonably expected to yield 12 percent, compounded annually, the equivalent fixed rate debt instrument for the bond is an eight-year bond with a principal amount of $100,000, payable at maturity. It provides for annual payments of interest of $12,000. E's basis in the equivalent fixed rate debt instrument is $110,000. The sum of all amounts payable on the equivalent fixed rate debt instrument (other than payments of qualified stated interest) is $100,000. Under § 1.171–1, the amount of bond premium is $10,000 ($110,000 − $100,000).

(iii) *Bond premium allocable to each accrual period*. E allocates bond premium to the remaining accrual periods by reference to the payment schedule on the equivalent fixed rate debt instrument. Based on the payment schedule of the equivalent fixed rate debt instrument and E's basis in the bond, E's yield is 10.12 percent, compounded annually. The bond premium allocable to the accrual period ending on March 1, 2000, is the excess of the qualified stated interest allocable to the period for the equivalent fixed rate debt instrument ($12,000) over the product of the adjusted acquisition price at the beginning of the period ($110,000) and E's yield (10.12 percent, compounded annually). Therefore, the bond premium allocable to the accrual period is $870.71 ($12,000 − $11,129.29). The bond premium allocable to all the accrual periods is listed in the following schedule:

Accrual period ending	Adjusted acquisition price at beginning of accrual period	Premium allocable to accrual period
3/1/00	$110,000.00	$870.71
3/1/01	109,129.29	958.81
3/1/02	108,170.48	1,055.82
3/1/03	107,114.66	1,162.64
3/1/04	105,952.02	1,280.27
3/1/05	104,671.75	1,409.80
3/1/06	103,261.95	1,552.44
3/1/07	101,709.51	1,709.51
		10,000.00

(iv) *Qualified stated interest for each accrual period*. Assume the bond actually pays the following amounts of qualified stated interest:

Accrual period ending	Qualified stated interest
3/1/00	$2,000.00
3/1/01	0.00
3/1/02	0.00
3/1/03	10,000.00
3/1/04	8,000.00
3/1/05	12,000.00
3/1/06	15,000.00
3/1/07	8,500.00

(v) *Premium used to offset interest*. E's interest income for each accrual period is determined by offsetting the qualified stated interest allocable to the period with the bond premium allocable to the period. For the accrual period ending on March 1, 2000, E includes in income $1,129.29, the qualified stated interest allocable to the period ($2,000) offset with the bond premium allocable to the period ($870.71). For the accrual period ending on March 1, 2001, the bond premium allocable to the accrual period ($958.81) exceeds the qualified stated interest allocable to the period ($0) and, therefore, E does not have interest income for this accrual period.

However, under § 1.171–2(a)(4)(i)(A), E may deduct as bond premium $958.81, the excess of the bond premium allocable to the accrual period ($958.81) over the qualified stated interest allocable to the accrual period ($0). For the accrual period ending on March 1, 2002, the bond premium allocable to the accrual period ($1,055.82) exceeds the qualified stated interest allocable to the accrual period ($0) and, therefore, E does not have interest income for the accrual period. Under § 1.171–2(a)(4)(i)(A), E's deduction for bond premium for the accrual period is limited to $170.48, the excess of E's total interest inclusions on the bond in prior accrual periods ($1,129.29) over the total amount treated by E as a bond premium deduction in prior accrual periods ($958.81). Under § 1.171–2(a)(4)(i)(B), E must carry forward the remaining $885.34 of bond premium allocable to the period ending March 1, 2002, and treat it as bond premium allocable to the period ending March 1, 2003. The amount E includes in income for each accrual period is shown in the following schedule:

Accrual period ending	Qualified stated interest	Premium allocable to accrual period	Interest income	Premium deduction	Premium carryforward
3/1/00	$2,000.00	$870.71	$1,129.29		
3/1/01	0.00	958.81	0.00	$958.81	
3/1/02	0.00	1,055.82	0.00	170.48	$885.34
3/1/03	10,000.00	1,162.64	7,951.93		
3/1/04	8,000.00	1,280.27	6,719.73		
3/1/05	12,000.00	1,409.80	10,590.20		
3/1/06	15,000.00	1,552.44	13,447.56		
3/1/07	8,500.00	1,709.51	6,790.49		
		10,000.00			

Example 2. Partial call that results in a pro-rata prepayment—(i) *Facts.* On April 1, 1999, M purchases for $110,000 N's taxable bond maturing on April 1, 2006, with a stated principal amount of $100,000, payable at maturity. The bond provides for unconditional payments of interest of $10,000, payable on April 1 of each year. N has the option to call all or part of the bond on April 1, 2001, at a 5 percent premium over the principal amount. M uses the cash receipts and disbursements method of accounting.

(ii) *Determination of yield and the remaining payment schedule.* M's yield determined without regard to the call option is 8.07 percent, compounded annually. M's yield determined by assuming N exercises its call option is 6.89 percent, compounded annually. Under paragraph (c)(4)(ii)(A) of this section, it is assumed N will not exercise the call option because exercising the option would minimize M's yield. Thus, for purposes of determining and amortizing bond premium, the bond is assumed to be a seven-year bond with a single principal payment at maturity of $100,000.

(iii) *Amount of bond premium.* The interest payments on the bond are qualified stated interest. Therefore, the sum of all amounts payable on the bond (other than the interest payments) is $100,000. Under § 1.171–1, the amount of bond premium is $10,000 ($110,000 − $100,000).

(iv) *Bond premium allocable to the first two accrual periods.* For the accrual period ending on April 1, 2000, M includes in income $8,881.83, the qualified stated interest allocable to the period ($10,000) offset with bond premium allocable to the period ($1,118.17). The adjusted acquisition price on April 1, 2000, is $108,881.83 ($110,000 − $1,118.17). For the accrual period ending on April 1, 2001, M includes in income $8,791.54, the qualified stated interest allocable to the period ($10,000) offset with bond premium allocable to the period ($1,208.46). The adjusted acquisition price on April 1, 2001, is $107,673.37 ($108,881.83 − $1,208.46).

(v) *Partial call.* Assume N calls one-half of M's bond for $52,500 on April 1, 2001. Because it was assumed the call would not be exercised, the call is a change in circumstances. However, the partial call is also a pro-rata prepayment within the meaning of § 1.1275–2(f)(2). As a result, the call is treated as a retirement of one-half of the bond. Under paragraph (c)(5)(ii) of this section, M may deduct $1,336.68, the excess of its adjusted acquisition price in the retired portion of the bond ($107,673.37/2, or $53,836.68) over the amount received on redemption ($52,500). M's adjusted basis in the portion of the bond that remains outstanding is $53,836.68 ($107,673.37 − $53,836.68).

[T.D. 8746, 62 FR 68180, Dec. 31, 1997]

§ 1.171–4 Election to amortize bond premium on taxable bonds.

(a) *Time and manner of making the election*—(1) *In general.* A holder makes the election to amortize bond premium by offsetting interest income with bond premium in the holder's timely filed federal income tax return for the first taxable year to which the holder desires the election to apply. The holder should attach to the return a statement that the holder is making the election under this section.

(2) *Coordination with OID election.* If a holder makes an election under §1.1272–3 for a bond with bond premium, the holder is deemed to have made the election under this section.

(b) *Scope of election.* The election under this section applies to all taxable bonds held during or after the taxable year for which the election is made.

(c) *Election to amortize made in a subsequent taxable year*—(1) *In general.* If a holder elects to amortize bond premium and holds a taxable bond acquired before the taxable year for which the election is made, the holder may not amortize amounts that would have been amortized in prior taxable years had an election been in effect for those prior years.

(2) *Example.* The following example illustrates the rule of this paragraph (c):

Example. (i) *Facts.* On May 1, 1999, C purchases for $130,000 a taxable bond maturing on May 1, 2006, with a stated principal amount of $100,000, payable at maturity. The bond provides for unconditional payments of interest of $15,000, payable on May 1 of each year. C uses the cash receipts and disbursements method of accounting and the calendar year as its taxable year. C has not previously elected to amortize bond premium, but does so for 2002.

(ii) *Amount to amortize.* C's basis for determining loss on the sale or exchange of the bond is $130,000. Thus, under §1.171–1, the amount of bond premium is $30,000. Under §1.171–2, if a bond premium election were in effect for the prior taxable years, C would have amortized $3,257.44 of bond premium on May 1, 2000, and $3,551.68 of bond premium on May 1, 2001, based on annual accrual periods ending on May 1. Thus, for 2002 and future years to which the election applies, C may amortize only $23,190.88 ($30,000 − $3,257.44 − $3,551.68).

(d) *Revocation of election.* The election under this section may not be revoked unless approved by the Commissioner. Because a revocation of the election is a change in accounting method, a taxpayer must follow the rules under §1.446–1(e)(3)(i) to request the Commissioner's consent to revoke the election. A revocation of the election applies to all taxable bonds held during or after the taxable year for which the revocation is effective. The holder may not amortize any remaining bond premium on bonds held at the beginning of the taxable year for which the revocation is effective. Therefore, no adjustment under section 481 is allowed upon the revocation of the election because no items of income or deduction are omitted or duplicated.

[T.D. 8746, 62 FR 68182, Dec. 31, 1997]

§1.171–5 Effective date and transition rules.

(a) *Effective date*—(1) *In general.* Sections 1.171–1 through 1.171–4 apply to bonds acquired on or after March 2, 1998. However, if a holder makes the election under §1.171–4 for the taxable year containing March 2, 1998, or any subsequent taxable year, §§1.171–1 through 1.171–4 apply to bonds held on or after the first day of the taxable year in which the election is made.

(2) *Transition rule for use of constant yield.* Notwithstanding paragraph (a)(1) of this section, §1.171–2(a)(3) (providing that the bond premium allocable to an accrual period is determined with reference to a constant yield) does not apply to a bond issued before September 28, 1985.

(b) *Coordination with existing election.* A holder is deemed to have made the election under §1.171–4 for the taxable year containing March 2, 1998, if the holder elected to amortize bond premium under section 171 and that election is effective on March 2, 1998. If the holder is deemed to have made the election under §1.171–4 for the taxable year containing March 2, 1998, §§1.171–1 through 1.171–4 apply to bonds acquired on or after the first day of that taxable year. See §1.171–4(d) for rules relating to a revocation of an election under section 171.

(c) *Accounting method changes*—(1) *Consent to change.* A holder required to change its method of accounting for bond premium to comply with §§1.171–1 through 1.171–3 must secure the consent of the Commissioner in accordance with the requirements of §1.446–1(e). Paragraph (c)(2) of this section provides the Commissioner's automatic consent for certain changes. A holder making the election under §1.171–4 does not need the Commissioner's consent to make the election.

(2) *Automatic consent.* The Commissioner grants consent for a holder to change its method of accounting for bond premium with respect to taxable bonds to which §§ 1.171–1 through 1.171–3 apply. Because this change is made on a cut-off basis, no items of income or deduction are omitted or duplicated and, therefore, no adjustment under section 481 is allowed. The consent granted by this paragraph (c)(2) applies provided—

(i) The holder elected to amortize bond premium under section 171 for a taxable year prior to the taxable year containing March 2, 1998, and that election has not been revoked;

(ii) The change is made for the first taxable year for which the holder must account for a bond under §§ 1.171–1 through 1.171–3; and

(iii) The holder attaches to its return for the taxable year containing the change a statement that it has changed its method of accounting under this section.

[T.D. 8746, 62 FR 68182, Dec. 31, 1997]

§ 1.172–1 Net operating loss deduction.

(a) *Allowance of deduction.* Section 172(a) allows as a deduction in computing taxable income for any taxable year subject to the Code the aggregate of the net operating loss carryovers and net operating loss carrybacks to such taxable year. This deduction is referred to as the net operating loss deduction. The net operating loss is the basis for the computation of the net operating loss carryovers and net operating loss carrybacks and ultimately for the net operating loss deduction itself. The net operating loss deduction shall not be disallowed for any taxable year merely because the taxpayer has no income from a trade or business for the taxable year.

(b) *Steps in computation of net operating loss deduction.* The three steps to be taken in the ascertainment of the net operating loss deduction for any taxable year subject to the Code are as follows:

(1) Compute the net operating loss for any preceding or succeeding taxable year from which a net operating loss may be carried over or carried back to such taxable year.

(2) Compute the net operating loss carryovers to such taxable year from such preceding taxable years and the net operating loss carrybacks to such taxable year from such succeeding taxable years.

(3) Add such net operating loss carryovers and carrybacks in order to determine the net operating loss deduction for such taxable year.

(c) *Statement with tax return.* Every taxpayer claiming a net operating loss deduction for any taxable year shall file with his return for such year a concise statement setting forth the amount of the net operating loss deduction claimed and all material and pertinent facts relative thereto, including a detailed schedule showing the computation of the net operating loss deduction.

(d) *Ascertainment of deduction dependent upon net operating loss carryback.* If the taxpayer is entitled in computing his net operating loss deduction to a carryback which he is not able to ascertain at the time his return is due, he shall compute the net operating loss deduction on his return without regard to such net operating loss carryback. When the taxpayer ascertains the net operating loss carryback, he may within the applicable period of limitations file a claim for credit or refund of the overpayment, if any, resulting from the failure to compute the net operating loss deduction for the taxable year with the inclusion of such carryback; or he may file an application under the provisions of section 6411 for a tentative carryback adjustment.

(e) *Law applicable to computations.* (1) In determining the amount of any net operating loss carryback or carryover to any taxable year, the necessary computations involving any other taxable year shall be made under the law applicable to such other taxable year.

(2) The net operating loss for any taxable year shall be determined under the law applicable to that year without regard to the year to which it is to be carried and in which, in effect, it is to be deducted as part of the net operating loss deduction.

(3) The amount of the net operating loss deduction which shall be allowed for any taxable year shall be determined under the law applicable to that year.

(f) *Electing small business corporations.* In determining the amount of the net operating loss deduction of any corporation, there shall be disregarded the net operating loss of such corporation for any taxable year for which such corporation was an electing small business corporation under subchapter S (section 1371 and following), chapter 1 of the Code. In applying section 172(b)(1) and (2) to a net operating loss sustained in a taxable year in which the corporation was not an electing small business corporation, a taxable year in which the corporation was an electing small business corporation is counted as a taxable year to which such net operating loss is carried back or over. However, the taxable income for such year as determined under section 172(b)(2) is treated as if it were zero for purposes of computing the balance of the loss available to the corporation as a carryback or carryover to other taxable years in which the corporation is not an electing small business corporation. See section 1374 and the regulations thereunder for allowance of a deduction to shareholders for a net operating loss sustained by an electing small business corporation.

(g) *Husband and wife.* The net operating loss deduction of a husband and wife shall be determined in accordance with this section, but subject also to the provisions of §1.172–7.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§1.172–2 Net operating loss in case of a corporation.

(a) *Modification of deductions.* A net operating loss is sustained by a corporation in any taxable year if and to the extent that, for such year, there is an excess of deductions allowed by chapter 1 of the Code over gross income computed thereunder. In determining the excess of deductions over gross income for such purpose—

(1) *Items not deductible.* No deduction shall be allowed under—

(i) Section 172 for the net operating loss deduction, and

(ii) Section 922 in respect of Western Hemisphere trade corporations;

(2) *Dividends received.* The 85-percent limitation provided by section 246(b) shall not apply to the deductions otherwise allowed under—

(i) Section 243(a) in respect of dividends received from domestic corporations.

(ii) Section 244 in respect of dividends received on preferred stock of public utilities, and

(iii) Section 245 in respect of dividends received from foreign corporations; and

(3) *Dividends paid.* The deduction granted by section 247 in respect of dividends paid on the preferred stock of public utilities shall be computed without regard to subsection (a)(1)(B) of Section 247.

(b) *Example.* The following example illustrates the application of paragraph (a):

Example For the calendar year 1981, the X corporation has a gross income of $400,000 and total deductions allowed by chapter 1 of the Code of $375,000 exclusive of any net operating loss deduction and exclusive of any deduction for dividends received or paid. Corporation X in 1981 received $100,000 of dividends entitled to the benefits of section 243(a). These dividends are included in Corporation X's $400,000 gross income. Corporation X has no other deductions to which section 172(d) applies. On the basis of these facts, Corporation X has a net operating loss for the year 1981 of $60,000, computed as follows:

Deductions for 1981	$375,000
Plus: Deduction for dividends received, computed without regard to the limitation provided in section 246(b) (85% of $100,000)	85,000
Total	460,000
Less: Gross income for 1981 (including $100,000 dividends)	400,000
Net operating loss for 1981	60,000

(c) *Qualified real estate investment trusts.* For taxable years ending after October 4, 1976, the net operating loss of a qualified real estate investment trust (as defined in §1.172–10(b)) is computed by taking into account the adjustments described in section 857(b)(2) (other than the deduction for dividends paid, as defined in section 561), as well as the modifications required by paragraph (a)(1) of this section. Thus, for example, the special deductions for dividends received, etc., provided in part VIII of subchapter B (other than section 248), as well as the net operating loss deduction under section 172, are not allowed in computing the net operating loss of a qualified real estate investment trust.

[T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§ 1.172–3 Net operating loss in case of a taxpayer other than a corporation.

(a) *Modification of deductions.* A net operating loss is sustained by a taxpayer other than a corporation in any taxable year if and to the extent that, for such year there is an excess of deductions allowed by chapter 1 of the Internal Revenue Code over gross income computed thereunder. In determining the excess of deductions over gross income for such purpose:

(1) *Items not deductible.* No deduction shall be allowed under:

(i) Section 151 for the personal exemptions or under any other section which grants a deduction in lieu of the deductions allowed by section 151,

(ii) Section 172 for the net operating loss deduction, and

(iii) Section 1202 in respect of the net long-term capital gain.

(2) *Capital losses.* (i) The amount deductible on account of business capital losses shall not exceed the sum of the amount includible on account of business capital gains and that portion of nonbusiness capital gains which is computed in accordance with paragraph (c) of this section.

(ii) The amount deductible on account of nonbusiness capital losses shall not exceed the amount includible on account of nonbusiness capital gains.

(3) *Nonbusiness deductions*—(i) *Ordinary deductions.* Ordinary nonbusiness deductions shall be taken into account without regard to the amount of business deductions and shall be allowed in full to the extent, but not in excess, of that amount which is the sum of the ordinary nonbusiness gross income and the excess of nonbusiness capital gains over nonbusiness capital losses. See paragraph (c) of this section. For purposes of section 172, nonbusiness deductions and income are those deductions and that income which are not attributable to, or derived from, a taxpayer's trade or business. Wages and salary constitute income attributable to the taxpayer's trade or business for such purposes.

(ii) *Sale of business property.* Any gain or loss on the sale or other disposition of property which is used in the taxpayer's trade or business and which is of a character that is subject to the allowance for depreciation provided in section 167, or of real property used in the taxpayer's trade or business, shall be considered, for purposes of section 172(d)(4), as attributable to, or derived from, the taxpayer's trade or business. Such gains and losses are to be taken into account fully in computing a net operating loss without regard to the limitation on nonbusiness deductions. Thus, a farmer who sells at a loss land used in the business of farming may, in computing a net operating loss, include in full the deduction otherwise allowable with respect to such loss, without regard to the amount of his nonbusiness income and without regard to whether he is engaged in the trade or business of selling farms. Similarly, an individual who sells at a loss machinery which is used in his trade or business and which is of a character that is subject to the allowance for depreciation may, in computing the net operating loss, include in full the deduction otherwise allowable with respect to such loss.

(iii) *Casualty losses.* Any deduction allowable under section 165(c)(3) for losses of property not connected with a trade or business shall not be considered, for purposes of section 172(d)(4), to be a nonbusiness deduction but shall be treated as a deduction attributable to the taxpayer's trade or business.

(iv) *Self-employed retirement plans.* Any deduction allowed under section 404, relating to contributions of an employer to an employees' trust or annuity plan, or under section 405(c), relating to contributions to a bond purchase plan, to the extent attributable to contributions made on behalf of an individual while he is an employee within the meaning of section 401(c)(1), shall not be treated, for purposes of section

172(d)(4), as attributable to, or derived from, the taxpayer's trade or business, but shall be treated as a nonbusiness deduction.

(v) *Limitation.* The provisions of this subparagraph shall not be construed to permit the deduction of items disallowed by subparagraph (1) of this paragraph.

(b) *Treatment of capital loss carryovers.* Because of the distinction between business and nonbusiness capital gains and losses, a taxpayer who has a capital loss carryover from a preceding taxable year, includible by virtue of section 1212 among the capital losses for the taxable year in issue, is required to determine how much of such capital loss carryover is a business capital loss and how much is a nonbusiness capital loss. In order to make this determination, the taxpayer shall first ascertain what proportion of the net capital loss for such preceding taxable year was attributable to an excess of business capital losses over business capital gains for such year, and what proportion was attributable to an excess of nonbusiness capital losses over nonbusiness capital gains. The same proportion of the capital loss carryover from such preceding taxable year shall be treated as a business capital loss and a nonbusiness capital loss, respectively. In order to determine the composition (business—nonbusiness) of a net capital loss for a taxable year, for purposes of this paragraph, if such net capital loss is computed under paragraph (b) of §1.1212–1 and takes into account a capital loss carryover from a preceding taxable year, the composition (business—nonbusiness) of the net capital loss for such preceding taxable year must also be determined. For purposes of this paragraph, the term *capital loss carryover* means the sum of the short-term and long-term capital loss carryovers from such year. This paragraph may be illustrated by the following examples:

Example 1. (i) A, an individual, has $5,000 ordinary taxable income (computed without regard to the deductions for personal exemptions) for the calendar year 1954 and also has the following capital gains and losses for such year: Business capital gains of $2,000; business capital losses of $3,200; nonbusiness capital gains of $1,000; and nonbusiness capital losses of $1,200.

(ii) A's net capital loss for the taxable year 1954 is $400, computed as follows:

Capital losses	$4,400
Capital gains	3,000
Excess of capital losses over capital gains	1,400
Less: $1,000 of such ordinary taxable income	1,000
Net capital loss for 1954	400

(iii) A's capital losses for 1954 exceeded his capital gains for such year by $1,400. Since A's business capital losses for 1954 exceeded his business capital gains for such year by $1,200, 6/7ths ($1,200/$1,400) of A's net capital loss for 1954 is attributable to an excess of his business capital losses over his business capital gains for such year. Similarly, 1/7th of the net capital loss is attributable to the excess of nonbusiness capital losses over nonbusiness capital gains. Since the capital loss carryover for 1954 to 1955 is $400, 6/7ths of $400, or $342.86, shall be treated as a business capital loss in 1955; and 1/7th of $400, or $57.14, as a nonbusiness capital loss.

Example 2. (i) A, an individual who is computing a net operating loss for the calendar year 1966, has a capital loss carryover from 1965 of $8,000. In order to apply the provisions of this paragraph, A must determine what portion of the $8,000 carryover is attributable to the excess of business capital losses over business capital gains and what portion thereof is attributable to the excess of nonbusiness capital losses over nonbusiness capital gains. For 1965, A had $10,000 ordinary taxable income (computed without regard to the deductions for personal exemptions), and a short-term capital loss carryover of $6,000 from 1964. In order to determine the composition (business—nonbusiness) of the $8,000 carryover from 1965, A first determines that of the $6,000 carryover from 1964, $5,000 is a business capital loss and $1,000 is a nonbusiness capital loss. This must be done since, under paragraph (b) of §1.1212–1, the net capital loss for 1965 is computed by taking into account the capital loss carryover from 1964. A's capital gains and losses for 1965 are as follows:

	1965	Carried over from 1964
Business capital gains	$2,000	0
Business capital losses	3,000	$5,000
Nonbusiness capital gains	4,000	0
Nonbusiness capital losses	6,000	1,000

(ii) A's net capital loss for the taxable year 1965 is $8,000, computed as follows:

Capital losses (including carryovers)	$15,000
Capital gains	6,000
Excess of capital losses over capital gains	9,000
Less: $1,000 of such ordinary taxable income	1,000
Net capital loss for 1965	8,000

(iii) A's capital losses, including carryovers, for 1965 exceeded his capital gains for such year by $9,000. Since A's business capital losses for 1965 exceeded his business capital gains for such year by $6,000, 2/3rds ($6,000/$9,000) of A's net capital loss for 1965 is attributable to an excess of his business capital losses over his business capital gains for such year. Similarly, 1/3rd of the net capital loss is attributable to the excess of nonbusiness capital losses over nonbusiness capital gains. Since the total capital loss carryover from 1965 to 1966 is $8,000, 2/3rds of $8,000, or $5,333.33, shall be treated as a business capital loss in 1966; and 1/3rd of $8,000, or $2,666.67, as a nonbusiness capital loss.

(c) *Determination of portion of nonbusiness capital gains available for the deduction of business capital losses.* In the computation of a net operating loss a taxpayer other than a corporation must use his nonbusiness capital gains for the deduction of his nonbusiness capital losses. Any amount not necessary for this purpose shall then be used for the deduction of any excess of ordinary nonbusiness deductions over ordinary nonbusiness gross income. The remainder, computed by applying the excess ordinary nonbusiness deductions against the excess nonbusiness capital gains, shall be treated as nonbusiness capital gains and used for the purpose of determining the deductibility of business capital losses under paragraph (a)(2)(i) of this section. This principle may be illustrated by the following example:

Example. (1) A, an individual, has a total nonbusiness gross income of $20,500, computed as follows:

Ordinary gross income	$7,500
Capital gains	13,000
Total gross income	20,500

(2) A also has total nonbusiness deductions of $16,000, computed as follows:

Ordinary deductions	$9,000
Capital loss	7,000
Total deductions	16,000

(3) The portion of nonbusiness capital gains to be used for the purpose of determining the deductibility of business capital losses is $4,500, computed as follows:

Nonbusiness capital gains		$13,000
Less: Nonbusiness capital loss		7,000
Excess to be taken into account for purposes of paragraph (a)(3)(i) of this section		6,000
Ordinary nonbusiness deductions	$9,000	
Less: Ordinary nonbusiness gross income	7,500	
		1,500
Portion of nonbusiness capital gains to be used for purposes of paragraph (a)(2)(i) of this section		4,500

(d) *Joint net operating loss of husband and wife.* In the case of a husband and wife, the joint net operating loss for any taxable year for which a joint return is filed is to be computed on the basis of the combined income and deductions of both spouses, and the modifications prescribed in paragraph (a) of this section are to be computed as if the combined income and deductions of both spouses were the income and deductions of one individual.

(e) *Illustration of computation of net operating loss of a taxpayer other than a corporation*—(1) *Facts.* For the calendar year 1954 A, an individual, has gross income of $483,000 and allowable deductions of $540,000. The latter amount does not include the net operating loss deduction or any deduction on account of the sale or exchange of capital assets. Included in gross income are business capital gains of $50,000 and ordinary nonbusiness income of $10,000. Included among the deductions are ordinary nonbusiness deductions of $12,000 and a deduction of $600 for his personal exemption. A has a business capital loss of $60,000 in 1954. A has no other items of income or deductions to which section 172(d) applies.

(2) *Computation.* On the basis of these facts, A has a net operating loss for 1954 of $104,400, computed as follows:

Deductions for 1954 (as specified in first sentence of subparagraph (1))		$540,000
Plus: Amount of business capital loss ($60,000) to extent such amount does not exceed business capital gains ($50,000)		50,000
Total		590,000
Less: Excess of ordinary nonbusiness deductions over ordinary nonbusiness gross income ($12,000 minus $10,000)	$2,000	
Deduction for personal exemption	600	
		$2,600
Deductions for 1954 adjusted as required by section 172(d)		587,400
Gross income for 1954	483,000	
Net operating loss for 1954	104,400	

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6828, 30 FR 7805, June 17, 1965; T.D. 6862, 30 FR 14427, Nov. 18, 1965; T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§1.172–4 Net operating loss carrybacks and net operating loss carryovers.

(a) *General provisions*—(1) *Years to which loss may be carried*—(i) *In general.* In order to compute the net operating loss deduction the taxpayer must first determine the part of any net operating losses for any preceding or succeeding taxable years which are carrybacks or carryovers to the taxable year in issue.

(ii) *General rule for carrybacks and carryovers.* Except as provided in section 172 (b)(1)(C), (D), (E), (F), (G), (H), (I), and (J), paragraphs (a)(1)(iii), (iv), (v), and (vi) of this section, and §1.172–10(a), a net operating loss shall be carried back to the 3 preceding taxable years and carried over to the 15 succeeding taxable years (5 succeeding taxable years for a loss sustained in a taxable year ending before January 1, 1976).

(iii) *Loss of a regulated transportation corporation.* Except as provided in subdivision (iv) of this subparagraph and §1.172–10(a), a net operating loss sustained by a taxpayer which is a regulated transportation corporation (as defined in section 172(g)(1)) in a taxable year ending before January 1, 1976, shall, subject to the provisions of section 172(g) and §1.172–8, be carried back to the taxable years specified in paragraph (a)(1)(ii) of this section and shall be carried over to the 7 succeeding taxable years.

(iv) *Loss attributable to foreign expropriation.* If the provisions of section 172(b)(3)(A) and §1.172–9 are satisfied, the portion of a net operating loss attributable to a foreign expropriation loss (as defined in section 172(h)) shall not be a net operating loss carryback to any taxable year preceding the taxable year of such loss and shall be a net operating loss carryover to each of the 10 taxable years following the taxable year of such loss.

(v) *Loss of a financial institution.* A net operating loss sustained in a taxable year beginning after December 31, 1975, by a taxpayer to which section 585, 586, or 593 applies shall be carried back (except as provided in §1.172–10(a)) to the 10 preceding taxable years and shall be carried over to the 5 succeeding taxable years.

(vi) *Loss of a Bank for Cooperatives.* A net operating loss sustained by a taxpayer which is a Bank for Cooperatives (organized and chartered pursuant to section 2 of the Farm Credit Act of 1933 (12 U.S.C. 1134)) shall be carried back (except as provided in §1.172–10(a)) to the 10 preceding taxable years and shall be carried over to the 5 succeeding taxable years.

(2) *Periods of less than 12 months.* A fractional part of a year which is a taxable year under sections 441(b) and 7701(a)(23) is a preceding or a succeeding taxable year for the purpose of determining under section 172 the first, second, etc., preceding or succeeding taxable year.

(3) *Amount of loss to be carried.* The amount which is carried back or carried over to any taxable year is the net operating loss to the extent it was not absorbed in the computation of the taxable (or net) income for other taxable years, preceding such taxable year, to which it may be carried back or carried over. For the purpose of determining the taxable (or net) income for any such preceding taxable year, the various net operating loss carryovers and carrybacks to such taxable year are considered to be applied in reduction of the taxable (or net) income in the order of the taxable years from which such losses are carried over or carried back, beginning with the loss for the earliest taxable year.

(4) *Husband and wife.* The net operating loss carryovers and carrybacks of a husband and wife shall be determined in accordance with this section, but subject also to the provisions of §1.172–7.

(5) *Corporate acquisitions.* For the computation of the net operating loss carryovers in the case of certain acquisitions of the assets of a corporation by another corporation, see section 381 and the regulations thereunder.

(6) *Special limitations.* For special limitations on the net operating loss carryovers in certain cases of change in both the ownership and the trade or business of a corporation and in certain cases of corporate reorganization lacking specified continuity of ownership, see section 382 and the regulations thereunder.

(7) *Electing small business corporations.* For special rule applicable to corporations which were electing small business corporations under Subchapter S (section 1361 and following), chapter 1 of the Code, during one or more of the taxable years described in section 172 (b)(1), see paragraph (f) of § 1.172–1.

(b) *Portion of net operating loss which is a carryback or a carryover to the taxable year in issue.* (1) A net operating loss shall first be carried to the earliest of the several taxable years for which such loss is allowable as a carryback or a carryover, and shall then be carried to the next earliest of such several taxable years, etc. Except as provided in § 1.172–9, the entire net operating loss shall be carried back to such earliest year.

(2) The portion of the loss which shall be carried to any of such several taxable years subsequent to the earliest taxable year is the excess of such net operating loss over the sum of the taxable incomes (computed as provided in § 1.172–5) for all of such several taxable years preceding such subsequent taxable year.

(3) If a portion of the net operating loss for a taxable year is attributable to a foreign expropriation loss (as defined in section 172(h)) and if an election under paragraph (c) of §1.172–9 is made with respect to such portion of the net operating loss, then see § 1.172–9 for the separate treatment of such portion of the net operating loss.

(c) *Illustration.* The principles of this section are illustrated in § 1.172–6.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8107, 51 FR 43345, Dec. 2, 1986]

§ 1.172–5 Taxable income which is subtracted from net operating loss to determine carryback or carryover.

(a) *Taxable year subject to the Internal Revenue Code of 1954.* The taxable income for any taxable year subject to the Internal Revenue Code of 1954 which is subtracted from the net operating loss for any other taxable year to determine the portion of such net operating loss which is a carryback or a carryover to a particular taxable year is computed with the modifications prescribed in this paragraph. These modifications shall be made independently of, and without reference to, the modifications required by §§ 1.172–2(a) and 1.172–3(a) for purposes of computing the net operating loss itself.

(1) *Modifications applicable to unincorporated taxpayers only.* In the case of a taxpayer other than a corporation, in computing taxable income and adjusted gross income:

(i) No deduction shall be allowed under section 151 for the personal exemptions (or under any other section which grants a deduction in lieu of the deductions allowed by section 151) and under section 1202 in respect of the net long-term capital gain.

(ii) The amount deductible on account of losses from sales or exchanges of capital assets shall not exceed the amount includible on account of gains from sales or exchanges of capital assets.

(2) *Modifications applicable to all taxpayers.* In the case either of a corporation or of a taxpayer other than a corporation:

(i) *Net operating loss deduction.* The net operating loss deduction for such taxable year shall be computed by taking into account only such net operating losses otherwise allowable as carrybacks or carryovers to such taxable year as were sustained in taxable years preceding the taxable year in which the taxpayer sustained the net operating loss from which the taxable income is to be deducted. Thus, for such purposes, the net operating loss for the loss year or any taxable year thereafter shall not be taken into account.

Example. The taxpayer's income tax returns are made on the basis of the calendar year. In computing the net operating loss deduction for 1954, the taxpayer has a carryover from 1952 of $9,000, a carryover from 1953 of $6,000, a carryback from 1955 of $18,000, and a carryback from 1956 of $10,000, or an aggregate of $43,000 in carryovers and carrybacks. Thus, the net operating loss deduction for 1954, for purposes of determining the tax liability for 1954, is $43,000. However, in computing the taxable income for 1954 which is subtracted from the net operating loss for 1955 for the purpose of determining the portion of such loss which may be carried over to subsequent taxable years, the net operating loss deduction for 1954 is $15,000, that is, the aggregate of the $9,000 carryover from 1952 and the $6,000 carryover from 1953. In computing the net operating loss deduction for such purpose, the $18,000 carryback from 1955 and the $10,000 carryback from 1956 are disregarded. In computing the taxable income for 1954, however, which is subtracted from the net operating loss for 1956 for the purpose of determining the portion of such loss which may be carried over to subsequent taxable years, the net operating loss deduction for 1954 is $33,000, that is, the aggregate of the $9,000 carryover from 1952, the $6,000 carryover from 1953, and the $18,000 carryback from 1955. In computing the net operating loss deduction for such purpose, the $10,000 carryback from 1956 is disregarded.

(ii) *Recomputation of percentage limitations.* Unless otherwise specifically provided in this subchapter, any deduction which is limited in amount to a percentage of the taxpayer's taxable income or adjusted gross income shall be recomputed upon the basis of the taxable income or adjusted gross income, as the case may be, determined with the modifications prescribed in this paragraph. Thus, in the case of an individual the deduction for medical expenses would be recomputed after making all the modifications prescribed in this paragraph, whereas the deduction for charitable contributions would be determined without regard to any net operating loss carryback but with regard to any other modifications so prescribed. See, however, the regulations under paragraph (g) of § 1.170–2 (relating to charitable contributions carryover of individuals) and paragraph (c) of § 1.170–3 (relating to charitable contributions carryover of corporations) for special rules regarding charitable contributions in excess of the percentage limitations which may be treated as paid in succeeding taxable years.

Example 1. For the calendar year 1954 the taxpayer, an individual, files a return showing taxable income of $4,800, computed as follows:

Salary		$5,000
Net long-term capital gain		4,000
Total gross income		9,000
Less: Deduction allowed by section 1202 in respect of net long-term capital gain		2,000
Adjusted gross income		7,000
Less:		
Deduction for personal exemption	$600	
Deduction for medical expense ($410 actually paid but allowable only to extent in excess of 3 percent of adjusted gross income)	200	
Deduction for charitable contributions ($2,000 actually paid but allowable only to extent not in excess of 20 percent of adjusted gross income)	$1,400	
		$2,200
Taxable income		4,800

In 1955 the taxpayer undertakes the operation of a trade or business and sustains therein a net operating loss of $3,000. Under section 172(b)(2), it is determined that the entire $3,000 is a carryback to 1954. In 1956 he sustains a net operating loss of $10,000 in the operation of the business. In determining the amount of the carryover of the 1956 loss to 1957, the taxable income for 1954 as computed under this paragraph is $3,970, determined as follows:

Salary		$5,000
Net long-term capital gain		4,000
Total gross income		9,000
Less: Deduction for carryback of 1955 net operating loss		3,000
Adjusted gross income		6,000
Less:		
Deduction for medical expense ($410 actually paid but allowable only to extent in excess of 3 percent of adjusted gross income as modified under this paragraph)	$230	
Deduction for charitable contributions ($2,000 actually paid but allowable only to extent not in excess of 20 percent of adjusted gross income determined with all the modifications prescribed in this paragraph other than the net operating loss carryback)	1,800	
		2,030
Taxable income		3,970

Example 2. For the calendar year 1959 the taxpayer, an individual, files a return showing taxable income of $5,700, computed as follows:

Salary		$5,000
Net long-term capital gain		4,000
Total gross income		9,000
Less: Deduction allowed by section 1202 in respect of net long-term capital gain		2,000
Adjusted gross income		7,000
Less:		
Deduction for personal exemption	$600	
Standard deduction allowed by section 141	$700	
		$1,300
Taxable income		5,700

In 1960 the taxpayer undertakes the operation of a trade or business and sustains therein a net operating loss of $4,700. In 1961 he sustains a net operating loss of $10,000 in the operation of the business. Under section 172(b)(2), it is determined that the entire amount of each loss, $4,700 and $10,000, is a carryback to 1959. In determining the amount of the carryover of the 1961 loss to 1962, the taxable income for 1959 as computed under this paragraph is $3,870, determined as follows:

Salary	$5,000
Net long-term capital gain	4,000
Total gross income	9,000
Less: Deduction for carryback of 1960 net operating loss	4,700
Adjusted gross income	4,300
Less: Standard deduction	430
Taxable income	3,870

(iii) *Minimum limitation.* The taxable income, as modified under this paragraph, shall in no case be considered less than zero.

(3) *Electing small business corporations.* For special rule applicable to corporations which were electing small business corporations under Subchapter S (section 1361 and following), Chapter 1 of the Code, during one or more of the taxable years described in section 172(b)(1), see paragraph (f) of § 1.172–1.

(4) *Qualified real estate investment trust.* Where a net operating loss is carried over to a qualified taxable year (as defined in § 1.172–10(b)) ending after October 4, 1976, the real estate investment trust taxable income (as defined in section 857(b)(2)) shall be used as the ‘‘taxable income’’ for that taxable year to determine, under section 172(b)(2), the balance of the net operating loss available as a carryover to a subsequent taxable year. The real estate investment trust taxable income, however, is computed by applying the rules applicable to corporations in paragraph (a)(2) of this section. Thus, in computing real estate investment trust taxable income for purposes of section 172(b)(2), the net operating loss deduction for the taxable year shall be computed in accordance with paragraph (a)(2)(i) of this section. The principles of this subparagraph may be illustrated by the following examples:

Example 1. Corporation X, a calendar year taxpayer, is formed on January 1, 1977. X incurs a net operating loss of $100,000 for its taxable year 1977, which under section 172(b)(2), is a carryover to 1978. For 1978 X is a qualified real estate investment trust (as defined in § 1.172–10(b)) and has real estate investment trust taxable income (determined without regard to the deduction for dividends paid or the net operating loss deduction) of $150,000, all of which consists of ordinary income. X pays dividends in 1978 totaling $120,000 that qualify for the deduction for dividends paid under section 857(b)(2)(B). The portion of the 1977 net operating loss available as a carryover to 1979 and subsequent years is $70,000 (i.e., the excess of the amount of the net operating loss ($100,000) over the amount of the real estate investment trust taxable income for 1978 ($30,000), determined by taking into account the deduction for dividends paid allowable under section 857(b)(2)(B) and without taking into account the net operating loss of 1977).

Example 2. (i) Assume the same facts as in *Example (1)*, except that the $150,000 of real estate investment trust taxable income (determined without the net operating loss deduction or the dividends paid deduction) consists of $80,000 of ordinary income and $70,000 of net capital gain. The amount of capital gain dividends which may be paid for 1978 is limited to $50,000, that is, the amount of the real estate investment trust taxable income for 1978, determined by taking into account the net operating loss deduction for the taxable year, but not the deduction for dividends paid ($150,000 minus $100,000). See § 1.857–6(e)(1)(ii).

(ii) X designated $50,000 of the $120,000 of dividends paid as capital gains dividends (as defined in section 857(b)(3)(C) and § 1.857–6(e)). Thus, $70,000 is an ordinary dividend. Since both ordinary dividends and capital gains dividends are taken into account in computing the deduction for dividends paid under section 857(b)(2)(B), the result will be the same as in *Example (1)*; that is, the portion of the 1977 net operating loss available as a carryover to 1979 and subsequent years is $70,000.

(b) [Reserved]

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6862, 30 FR 14428, Nov. 18, 1965; T.D. 6900, 31 FR 14641, Nov. 17, 1966; T.D. 7767, 46 FR 11263, Feb. 6, 1981; T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172–6 Illustration of net operating loss carrybacks and carryovers.

The application of § 1.172–4 may be illustrated by the following example:

(a) *Facts.* The books of the taxpayer, whose return is made on the basis of the calendar year, reveal the following facts:

Taxable year	*Taxable income*	*Net operating loss*
1954	$15,000	
1955	30,000	
1956		($75,000)
1957	20,000	
1958		(150,000)
1959	30,000	
1960	35,000	
1961	75,000	
1962	17,000	
1963	53,000	

The taxable income thus shown is computed without any net operating loss deduction. The assumption is also made that none of the other modifications prescribed in §1.172–5 apply. There are no net operating losses for 1950, 1951, 1952, 1953, 1964, 1965, or 1966.

(b) *Loss sustained in 1956.* The portions of the $75,000 net operating loss for 1956 which shall be used as carrybacks to 1954 and 1955 and as carryovers to 1957, 1958, 1959, 1960, and 1961 are computed as follows:

(1) *Carryback to 1954.* The carryback to this year is $75,000, that is, the amount of the net operating loss.

(2) *Carryback to 1955.* The carryback to this year is $60,000, computed as follows:

Net operating loss	$75,000
Less:	
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	15,000
Carryback	60,000

(3) *Carryover to 1957.* The carryover to this year is $30,000, computed as follows:

Net operating loss		$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
		45,000
Carryover		30,000

(4) *Carryover to 1958.* The carryover to this year is $10,000, computed as follows:

Net operating loss		$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	
		65,000
Carryover		10,000

(5) *Carryover to 1959.* The carryover to this year is $10,000, computed as follows:

Net operating loss		$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	
Taxable income for 1958 (a year in which a net operating loss was sustained)	0	
		65,000
Carryover		10,000

(6) *Carryover to 1960.* The carryover to this year is $0, computed as follows:

Net operating loss		$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	
Taxable income for 1958 (a year in which a net operating loss was sustained)	0	
Taxable income for 1959 (computed without the deduction of the carryover from 1956 or the carryover from 1958)	30,000	
		95,000
Carryover		0

(7) *Carryover to 1961.* The carryover to this year is $0, computed as follows:

Net operating loss		$75,000
Less:		
Taxable income for 1954 (computed without the deduction of the carryback from 1956)	$15,000	
Taxable income for 1955 (computed without the deduction of the carryback from 1956 or the carryback from 1958)	30,000	
Taxable income for 1957 (computed without the deduction of the carryover from 1956 or the carryback from 1958)	20,000	

Taxable income for 1958 (a year in which a net operating loss was sustained)	0	
Taxable income for 1959 (computed without the deduction of the carryover from 1956 or the carryover from 1958)	30,000	
Taxable income for 1960 (computed without the deduction of the carryover from 1956 or the carryover from 1958)	35,000	
		130,000
Carryover		0

(c) *Loss sustained in 1958.* The portions of the $150,000 net operating loss for 1958 which shall be used as carrybacks to 1955, 1956, and 1957 and as carryovers to 1959, 1960, 1961, 1962, and 1963 are computed as follows:

(1) *Carryback to 1955.* The carryback to this year is $150,000, that is, the amount of the net operating loss.

(2) *Carryback to 1956.* The carryback to this year is $150,000, computed as follows:

Net operating loss	$150,000
Less:	
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0
Carryback	150,000

(3) *Carryback to 1957.* The carryback to this year is $150,000, computed as follows:

Net operating loss		$150,000
Less:		
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0	
Taxable income for 1956 (a year in which a net operating loss was sustained)	0	
		0
Carryback		150,000

(4) *Carryover to 1959.* The carryover to this year is $150,000, computed as follows:

Net operating loss		$150,000
Less:		
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0	
Taxable income for 1956 (a year in which a net operating loss was sustained)	0	
Taxable income for 1957 (the $20,000 taxable income for such year reduced by the carryover to such year of $30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0	
		0
Carryover		150,000

(5) *Carryover to 1960.* The carryover to this year is $130,000, computed as follows:

Net operating loss		$150,000
Less:		
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0	
Taxable income for 1956 (a year in which a net operating loss was sustained)	0	
Taxable income for 1957 (the $20,000 taxable income for such year reduced by the carryover to such year of $30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0	
Taxable income for 1959 (the $30,000 taxable income for such year reduced by the carryover to such year of $10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	$20,000	
		20,000
Carryover		130,000

(6) *Carryover to 1961.* The carryover to this year is $95,000, computed as follows:

Net operating loss		$150,000
Less:		
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0	
Taxable income for 1956 (a year in which a net operating loss was sustained)	0	
Taxable income for 1957 (the $20,000 taxable income for such year reduced by the carryover to such year of $30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0	
Taxable income for 1959 (the $30,000 taxable income for such year reduced by the carryover to such year of $10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	$20,000	

Taxable income for 1960 (the $35,000 taxable income for such year reduced by the carryover to such year of $0 from 1956, the carryover from 1958 to 1960 not being taken into account)	35,000	
		55,000
Carryover		95,000

(7) *Carryover to 1962.* The carryover to this year is $20,000, computed as follows:

Net operating loss		$150,000
Less:		
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0	
Taxable income for 1956 (a year in which a net operating loss was sustained)	0	
Taxable income for 1957 (the $20,000 taxable income for such year reduced by the carryover to such year of $30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0	
Taxable income for 1959 (the $30,000 taxable income for such year reduced by the carryover to such year of $10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	$20,000	
Taxable income for 1960 (the $35,000 taxable income for such year reduced by the carryover to such year of $0 from 1956, the carryover from 1958 to 1960 not being taken into account)	35,000	
Taxable income for 1961 (the $75,000 taxable income for such year reduced by the carryover to such year of $0 from 1956, the carryover from 1958 to 1961 not being taken into account)	75,000	
		130,000
Carryover		20,000

(8) *Carryover to 1963.* The carryover to this year is $3,000, computed as follows:

Net operating loss		$150,000
Less:		
Taxable income for 1955 (the $30,000 taxable income for such year reduced by the carryback to such year of $60,000 from 1956, the carryback from 1958 to 1955 not being taken into account)	0	
Taxable income for 1956 (a year in which a net operating loss was sustained)	0	
Taxable income for 1957 (the $20,000 taxable income for such year reduced by the carryover to such year of $30,000 from 1956, the carryback from 1958 to 1957 not being taken into account)	0	
Taxable income for 1959 (the $30,000 taxable income for such year reduced by the carryover to such year of $10,000 from 1956, the carryover from 1958 to 1959 not being taken into account)	$20,000	
Taxable income for 1960 (the $35,000 taxable income for such year reduced by the carryover to such year of $0 from 1956, the carryover from 1958 to 1960 not being taken into account)	35,000	
Taxable income for 1961 (the $75,000 taxable income for such year reduced by the carryover to such year of $0 from 1956, the carryover from 1958 to 1961 not being taken into account)	75,000	
Taxable income for 1962 (computed without the deduction of the carryover from 1958)	17,000	
		147,000
Carryover		3,000

(d) *Determination of net operating loss deduction for each year.* The carryovers and carrybacks computed under paragraphs (b) and (c) of this section are used as a basis for the computation of the net operating loss deduction in the following manner:

Taxable year	Carryover		Carryback		Net operating loss deduction
	From 1956	From 1958	From 1956	From 1958	
1954	$0	$0	$75,000	$0	$75,000
1955	0	0	60,000	150,000	210,000
1957	30,000	0	0	150,000	180,000
1959	10,000	150,000	0	0	160,000
1960	0	130,000	0	0	130,000
1961	0	95,000	0	0	95,000
1962	0	20,000	0	0	20,000
1963	0	3,000	0	0	3,000

§ 1.172–7 Joint return by husband and wife.

(a) *In general.* This section prescribes additional rules for computing the net operating loss carrybacks and carryovers of a husband and wife making a joint return for one or more of the taxable years involved in the computation of the net operating loss deduction.

(b) *From separate to joint return.* If a husband and wife, making a joint return for any taxable year, did not make a joint return for any of the taxable years involved in the computation of a net operating loss carryover or a net operating loss carryback to the taxable year for which the joint return is made, such separate net operating loss carryover or separate net operating loss carryback is a joint net operating loss carryover or joint net operating loss carryback to such taxable year.

(c) *Continuous use of joint return.* If a husband and wife making a joint return for a taxable year made a joint return for each of the taxable years involved in the computation of a net operating loss carryover or net operating loss carryback to such taxable year, the joint net operating loss carryover or joint net operating loss carryback to such taxable year is computed in the same manner as the net operating loss carryover or net operating loss carryback of an individual under § 1.172–4 but upon the basis of the joint net operating losses and the combined taxable income of both spouses.

(d) *From joint to separate return.* If a husband and wife making separate returns for a taxable year made a joint return for any, or all, of the taxable years involved in the computation of a net operating loss carryover or net operating loss carryback to such taxable year, the separate net operating loss carryover or separate net operating loss carryback of each spouse to the taxable year is computed in the manner set forth in § 1.172–4 but with the following modifications:

(1) *Net operating loss.* The net operating loss of each spouse for a taxable year for which a joint return was made shall be deemed to be that portion of the joint net operating loss (computed in accordance with paragraph (d) of § 1.172–3) which is attributable to the gross income and deductions of such spouse, gross income and deductions being taken into account to the same extent that they are taken into account in computing the joint net operating loss.

(2) *Taxable income to be subtracted*—(i) *Net operating loss of other spouse.* The taxable income of a particular spouse for any taxable year which is subtracted from the net operating loss of such spouse for another taxable year in order to determine the amount of such loss which may be carried back or carried over to still another taxable year is deemed to be, in a case in which such taxable income was reported in a joint return, the sum of the following:

(a) That portion of the combined taxable income of both spouses for such year for which the joint return was made which is attributable to the gross income and deductions of the particular spouse, gross income and deductions being taken into account to the same extent that they are taken into account in computing such combined taxable income, and

(b) That portion of such combined taxable income which is attributable to the other spouse; but, if such other spouse sustained a net operating loss in a taxable year beginning on the same date as the taxable year in which the particular spouse sustained the net operating loss from which the taxable income is subtracted, then such portion shall first be reduced by such net operating loss of such other spouse.

(ii) *Modifications.* For purposes of this subparagraph, the combined taxable income shall be computed as though the combined income and deductions of both spouses were those of one individual. The provisions of § 1.172–5 shall apply in computing the combined taxable income for such purposes except that the net operating loss deduction shall be determined without taking into account any separate net operating loss of either spouse, or any joint net operating loss of both spouses, which was sustained in a taxable year beginning on or after the date of the beginning of the taxable year in which the particular spouse sustained the net operating loss from which the taxable income is subtracted.

(e) *Recurrent use of joint return.* If a husband and wife making a joint return for any taxable year made a joint return for one or more, but not all, of the taxable years involved in the computation of a net operating loss carryover or net operating loss carryback to such taxable year, such net operating loss carryover or net operating loss carryback to the taxable year is computed in the manner set forth in paragraph (d) of this section. Such net operating loss carryover or net operating loss carryback is considered a joint net operating loss carryover or joint net operating loss carryback to such taxable year.

(f) *Joint carryovers and carrybacks.* The joint net operating loss carryovers and the joint net operating loss carrybacks to any taxable year for which a joint return is made are all the net operating loss carryovers and net operating loss carrybacks of both spouses to such taxable year. For example, a husband and wife file a joint return for the calendar year 1956, having a joint taxable income for such year. The wife filed a separate return for the calendar years 1954 and 1955, in which years she sustained net operating losses. The husband filed separate returns for his fiscal year ending June 30, 1955, and, having received permission to change his accounting period to a calendar year basis, for the 6-month period ending December 31, 1955. The husband sustained net operating losses in both such taxable years. Since the husband and wife did not file a joint return for any taxable year involved in the computation of the net operating loss carryovers to 1956 from 1954 and 1955, the joint net operating loss carryovers to 1956 are the separate net operating loss carryovers of the wife from the calendar years 1954 and 1955 and the separate net operating loss carryovers of the husband from the fiscal year ending June 30, 1955, and from the short taxable year ending December 31, 1955. If the husband and wife also file joint returns for the calendar years 1957, 1958, and 1959, having joint taxable income in 1957 and 1958 and a joint net operating loss in 1959, the joint net operating loss carrybacks to 1956, 1957, and 1958 from 1959 are computed on the basis of the joint net operating loss for 1959, since separate returns were not made for any taxable year involved in the computation of such carrybacks.

(g) *Illustration of principles.* In the following examples, which illustrate the application of this section, it is assumed that there are no items of adjustment under section 172(b)(2)(A) and that the taxable income or loss in each case is the taxable income or loss determined without any net operating loss deduction. The taxpayers in each example, H, a husband, and W, his wife, report their income on the calendar-year basis.

Example 1. H and W filed joint returns for 1954 and 1955. They sustained a joint net operating loss of $1,000 for 1954 and a joint net operating loss of $2,000 for 1955. For 1954 the deductions of H exceeded his gross income by $700, and the deductions of W exceeded her gross income by $300, the total of such amounts being $1,000. Therefore, $700 of the $1,000 joint net operating loss for 1954 is considered the net operating loss of H for 1954, and $300 of such joint net operating loss is considered the net operating loss of W for 1954. For 1955 the gross income of H exceeded his deductions, so that his separate taxable income would be $1,500, and the deductions of W exceeded her gross income by $3,500. Therefore, all of the $2,000 joint net operating loss for 1955 is considered the separate net operating loss of W for 1955.

Example 2. (i) H and W filed joint returns for 1954 and 1956, and separate returns for 1955 and 1957. For the years 1954, 1955, 1956, and 1957 they had taxable incomes and net operating losses as follows, losses being indicated in parentheses:

	1954	1955	1956	1957
H	($5,000)	($2,500)	$6,500	($4,000)
W	(3,000)	2,000	3,000	(1,500)
Total	(8,000)	....	9,500	....

(ii) The net operating loss carryover of H from 1957 to 1958 is $4,000, that is, his $4,000 net operating loss for 1957 which is not reduced by any part of the taxable income for 1956, since none of such taxable income is attributable to H and the portion attributable to W is entirely offset by her separate net operating loss for her taxable year 1957, which taxable year begins on the same date as H's taxable year 1957. H's $4,000 net operating loss for 1957 likewise is not reduced by reference to 1955 since H sustained a loss in 1955. The $0 taxable income for 1956 which reduces H's net operating loss for 1957 is computed as follows:

(iii) The combined taxable income of $9,500 for 1956 is reduced to $1,000 by the net operating loss deduction for such year of $8,500. This net operating loss deduction is computed without taking into account any net operating loss of either H or W sustained in a taxable year beginning on or after January 1, 1957, the date of the beginning of the taxable year in which H sustained the net operating loss from which the taxable income is subtracted. This $8,500 is composed of H's carryovers of $5,000 from 1954 and $2,500 from 1955, and of W's carryover of $1,000 from 1954 (the excess of W's $3,000 loss for 1954 over her $2,000 income for 1955). None of the $1,000 combined taxable income for 1956 (computed with the net operating loss deduction described above) is attributable to H since it is caused by W's income (computed after deducting her separate carryover) offsetting H's loss (computed by deducting from his income his separate carryovers). No part of the $1,000 combined taxable income for 1956 which is attributable to W is used to reduce H's net operating loss for 1957 since such taxable income attributable to W must first be reduced by W's $1,500 net operating loss for 1957, her taxable year beginning on the same date as the taxable year of H in which he sustained the net operating loss from which the taxable income is subtracted.

(iv) The net operating loss carryover of W from 1957 to 1958 is $500, her $1,500 loss reduced by the sum of her $0 taxable income for 1955 (computed by taking into account her $3,000 carryover from 1954) and her $1,000 taxable income for 1956, that is, the portion of the combined taxable income for 1956 which is attributable to her.

Example 3. (i) Assume the same facts as in *Example (2)* except that for 1957 the net operating loss of W is $200 instead of $1,500.

(ii) The net operating loss carryover of H from 1957 to 1958 is $3,200, that is, his $4,000 net operating loss for 1957 reduced by the sum of his $0 taxable income for 1955 (a year in which he sustained a loss) and his $800 taxable income for 1956. Such $800 is computed as follows:

(iii) The combined taxable income for 1956, computed with the net operating loss deduction in the manner described in *Example (2)*, remains $1,000, no part of which is attributable to H. To the $0 taxable income attributable to H for 1956 there is added $800, the excess of the $1,000 taxable income for such year attributable to W over her $200 net operating loss sustained in 1957, a taxable year beginning on the same date as the taxable year of H in which he sustained the $4,000 net operating loss from which the taxable income is subtracted.

(iv) W has no net operating loss carryover from 1957 to 1958 since her net operating loss of $200 for 1957 does not exceed the $1,000 taxable income for 1956 attributable to her.

Example 4. (i) Assume the same facts as in *Example (2)*, except that W changes her accounting period in 1957 to a fiscal year ending on January 31, and has neither income nor losses for the taxable year January 1, 1957, to January 31, 1957, or for the fiscal year February 1, 1957, to January 31, 1958, but has a net operating loss of $200 for the fiscal year February 1, 1958, to January 31, 1959.

(ii) The net operating loss carryover of H from 1957 to 1958 is $3,000, that is, his net operating loss of $4,000 for 1957 reduced by the sum of his $0 taxable income for 1955 (a year in which he sustained a loss) and his $1,000 taxable income for 1956. Such $1,000 is computed as follows:

(iii) The combined taxable income for 1956, computed with the net operating loss deduction in the manner described in *Example (2)*, remains $1,000, no part of which is attributable to H. To the $0 taxable income attributable to H for 1956 there is added the $1,000 taxable income attributable to W for such year. The taxable income attributable to W is not reduced by any amount since she does not have a net operating loss for her taxable year beginning on January 1, 1957, the date of the beginning of the taxable year of H in which he sustained the $4,000 net operating loss from which his taxable income is subtracted.

(iv) The net operating loss carryover of W from the fiscal year beginning February 1, 1958, to her next fiscal year is $200, that is, her net operating loss of $200 for the fiscal year beginning February 1, 1958, reduced by the sum of her $0 taxable income for 1956, her $0 taxable income for the taxable year January 1, 1957, to January 31, 1957 (a year in which she had neither income nor loss), and her $0 taxable income for the fiscal year February 1, 1957, to January 31, 1958 (also a year in which she had neither income nor loss). The $0 taxable income for 1956 is computed as follows:

(v) The combined taxable income of $9,500 for 1956 is reduced to $0 amount by the net operating loss deduction for such year of $12,500. This net operating loss deduction is computed by taking into account the net operating loss of H for 1957 since it was sustained in a taxable year beginning before February 1, 1958, the date of the beginning of the taxable year of W in which she sustained the $200 net operating loss from which her taxable income is subtracted. This $12,500 is composed of H's carryovers of $5,000 from 1954 and $2,500 from 1955 and of his carryback of $4,000 from 1957, plus W's carryover of $1,000 from 1954 (the excess of W's $3,000 loss for 1954 over her $2,000 income for 1955). Since there is no combined taxable income for 1956, there is no taxable income attributable to W for such year.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§1.172–8 Net operating loss carryovers for regulated transportation corporations.

(a) *In general.* A net operating loss sustained in a taxable year ending before January 1, 1976, shall be a carryover to the 7 succeeding taxable years if the taxpayer is a regulated transportation corporation (as defined in paragraph (b) of this section) for the loss year and for the 6th and 7th succeeding taxable years. If, however, the taxpayer is a regulated transportation corporation for the loss year and for the 6th succeeding taxable year, but not for the 7th succeeding taxable year, then the loss shall be a carryover to the 6 succeeding taxable years. If the taxpayer is not a regulated transportation corporation for the 6th succeeding taxable year then this section shall not apply. A net operating loss sustained in a taxable year ending after December 31, 1975, shall be a carryover to the 15 succeeding taxable years.

(b) *Regulated transportation corporations.* A corporation is a *regulated transportation corporation* for a taxable year if it is included within one or more of the following categories:

(1) Eighty percent or more of the corporation's gross income (computed without regard to dividends and capital gains and losses) for such taxable year is income from transportation sources described in paragraph (c) of this section.

(2) The corporation is a railroad corporation, subject to Part I of the Interstate Commerce Act, which is either a lessor railroad corporation described in section 7701(a)(33)(G) or a common parent railroad corporation described in section 7701(a)(33)(H).

(3) The corporation is a member of a regulated transportation system for the taxable year. For purposes of this section, a member of a regulated transportation system for a taxable year means a member of an affiliated group of corporations making a consolidated return for such year, if 80 percent or more of the sum of the gross incomes of the members of the affiliated group for such year (computed without regard to dividends, capital gains and losses, or eliminations for intercompany transactions) is derived from transportation sources described in paragraph (c) of this section. For purposes of this subparagraph, income derived by a corporation described in subparagraph (2) of this paragraph from leases described in section 7701(a)(33)(G) shall be considered as income from transportation sources described in paragraph (c) of this section.

(c) *Transportation sources.* For purposes of this section, income from ‘‘transportation sources’’ means income received directly in consideration for transportation services, and income from the furnishing or sale of essential facilities, products, and other services which are directly necessary and incidental to the furnishing of transportation services. For purposes of the preceding sentence, the term *transportation services* means:

(1) Transportation by railroad as a common carrier subject to the jurisdiction of the Interstate Commerce Commission;

(2)(i) Transportation, which is not included in subparagraph (1) of this paragraph:

(a) On an intrastate, suburban, municipal, or interurban electric railroad,

(b) On an intrastate, municipal, or suburban trackless trolley system,

(c) On a municipal or suburban bus system, or

(d) By motor vehicle not otherwise included in this subparagraph, if the rates for the furnishing or sale of such transportation are established or approved by a regulatory body described in section 7701(a)(33)(A);

(ii) In the case of a corporation which establishes to the satisfaction of the district director that:

(a) Its revenue from regulated rates from transportation services described in subdivision (i) of this subparagraph and its revenue derived from unregulated rates are derived from its operation of a single interconnected and coordinated system or from the operation of more than one such system, and

(b) The unregulated rates have been and are substantially as favorable to

users and consumers as are the regulated rates, transportation, which is not included in subparagraph (1) of this paragraph, from which such revenue from unregulated rates is derived.

(3) Transportation by air as a common carrier subject to the jurisdiction of the Civil Aeronautics Board; and

(4) Transportation by water by common carrier subject to the jurisdiction of either the Interstate Commerce Commission under Part III of the Interstate Commerce Act (54 Stat. 929), or the Federal Maritime Board under the Intercoastal Shipping Act, 1933 (52 Stat. 965).

(d) *Corporate acquisitions.* This section shall apply to a carryover of a net operating loss sustained by a regulated transportation corporation (as defined in paragraph (b) of this section) to which an acquiring corporation succeeds under section 381(a) only if the acquiring corporation is a regulated transportation corporation (as defined in paragraph (b) of this section):

(1) For the sixth succeeding taxable year in the case of a carryover to the sixth succeeding taxable year, and

(2) For the sixth and seventh succeeding taxable years in the case of a carryover to the seventh succeeding taxable year.

[T.D. 6862, 30 FR 14430, Nov. 18, 1965, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172–9 Election with respect to portion of net operating loss attributable to foreign expropriation loss.

(a) *In general.* If a taxpayer has a net operating loss for a taxable year ending after December 31, 1958, and if the foreign expropriation loss for such year (as defined in paragraph (b)(1) of this section) equals or exceeds 50 percent of the net operating loss for such year, then the taxpayer may elect (at the time and in the manner provided in paragraph (c) (1) or (2) of this section, whichever is applicable) to have the provisions of this section apply. If the taxpayer so elects, the portion of the net operating loss for such taxable year attributable (under paragraph (b)(2) of this section) to such foreign expropriation loss shall not be a net operating loss carryback to any taxable year preceding the taxable year of such loss and shall be a net operating loss carryover to each of the ten taxable years following the taxable year of such loss. In such case, the portion, if any, of the net operating loss not attributable to a foreign expropriation loss shall be carried back or carried over as provided in paragraph (a)(1)(ii) of § 1.172–4.

(b) *Determination of ''foreign expropriation loss''*—(1) *Definition of ''foreign expropriation loss''.* The term *foreign expropriation loss* means, for any taxable year, the sum of the losses allowable as deductions under section 165 (other than losses from, or which under section 165(g) or 1231(a) are treated or considered as losses from, sales or exchanges of capital assets and other than losses described in section 165(i)(1)) sustained by reason of the expropriation, intervention, seizure, or similar taking of property by the government or any foreign country, any political subdivision thereof, or any agency or instrumentality of the foregoing. For purposes of the preceding sentence, a debt which becomes worthless in whole or in part, shall, to the extent of any deduction allowed under section 166(a), be treated as a loss allowable as a deduction under section 165.

(2) *Portion of the net operating loss attributable to a foreign expropriation loss.* (i) Except as provided in subdivision (ii) of this subparagraph, the portion of the net operating loss for any taxable year attributable to a foreign expropriation loss is the amount of the foreign expropriation loss for such taxable year (determined under subparagraph (1) of this paragraph).

(ii) The portion of the net operating loss for a taxable year attributable to a foreign expropriation loss shall not exceed the amount of the net operating loss, computed under section 172(c), for such year.

(3) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example 1. M Corporation, a domestic calendar year corporation manufacturing cigars in the United States, owns, in country X, a tobacco plantation having an adjusted basis of $400,000 and farm equipment having an adjusted basis of $300,000. On January 15, 1961, country X expropriates the plantation and equipment without any allowance for compensation. For the taxable year 1961, M Corporation sustains a loss from the operation of its business (not including losses from the seizure of its plantation and equipment in country X) of $200,000, which loss would not have been sustained in the absence of the seizure. Accordingly, M has a net operating loss of $900,000 (the sum of $400,000, $300,000, and $200,000). For purposes of section 172(k)(1), M Corporation has a foreign expropriation loss for 1961 of $700,000 (the sum of $400,000 and $300,000, the losses directly sustained by reason of the seizure of its property by country X). Since the foreign expropriation loss for 1961, $700,000, equals or exceeds 50 percent of the net operating loss for such year, or $450,000 (i.e., 50 percent of $900,000), M Corporation may make the election under paragraph (c)(2) of this section with respect to $700,000, the portion of the net operating loss attributable to the foreign expropriation loss.

Example 2. Assume the same facts as in *Example (1)* except that for 1961, M Corporation has operating profits of $300,000 (not including losses from the seizure of its plantation and equipment in country X) so that its net operating loss (as defined in section 172(c)) is only $400,000. Under the provisions of section 172(k)(2) and paragraph (b)(2) of this section, the portion of the net operating loss for 1961 attributable to a foreign expropriation loss is limited to $400,000, the amount of the net operating loss.

(c) *Time and manner of making election*—(1) *Taxable years ending after December 31, 1963.* In the case of a taxpayer who has a foreign expropriation loss for a taxable year ending after December 31, 1963, the election referred to in paragraph (a) of this section shall be made by attaching to the taxpayer's income tax return (filed within the time prescribed by law, including extensions of time) for the taxable year of such foreign expropriation loss a statement containing the information required by subparagraph (3) of this paragraph. Such election shall be irrevocable after the due date (including extensions of time) of such return.

(2) *Information required.* The statement referred to in subparagraph (1) of this paragraph shall contain the following information:

(i) The name, address, and taxpayer account number of the taxpayer;

(ii) A statement that the taxpayer elects under section 172(b)(3)(A)(ii) or (iii), whichever is applicable, to have section 172(b)(1)(D) of the Code apply;

(iii) The amount of the net operating loss for the taxable year; and

(iv) The amount of the foreign expropriation loss for the taxable year, including a schedule showing the computation of such foreign expropriation loss.

(d) *Amount of foreign expropriation loss which is a carryover to the taxable year in issue*—(1) *General.* If a portion of a net operating loss for the taxable year is attributable to a foreign expropriation loss and if an election under paragraph (a) of this section has been made with respect to such portion of the net operating loss, then such portion shall be considered to be a separate net operating loss for such year, and, for the purpose of determining the amount of such separate loss which may be carried over to other taxable years, such portion shall be applied after the other portion (if any) of such net operating loss. Such separate loss shall be carried to the earliest of the several taxable years to which such separate loss is allowable as a carryover under the provisions of paragraph (a)(1)(iv) of §1.172–4, and the amount of such separate loss which shall be carried over to any taxable year subsequent to such earliest year is an amount (not exceeding such separate loss) equal to the excess of:

(i) The sum of *(a)* such separate loss and *(b)* the other portion (if any) of the net operating loss (i.e., that portion not attributable to a foreign expropriation loss) to the extent such other portion is a carryover to such earliest taxable year, over

(ii) The sum of the aggregate of the taxable incomes (computed as provided in §1.172–5) for all of such several taxable years preceding such subsequent taxable year.

(2) *Cross reference.* The portion of a net operating loss which is not attributable to a foreign expropriation loss shall be carried back or carried over, in accordance with the rules provided in paragraph (b)(1) of §1.172–4, as if such portion were the only net operating loss for such year.

(3) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example 1. Corporation A, organized in 1960 and whose return is made on the basis of the calendar year, incurs for 1960 a net operating loss of $10,000, of which $7,500 is attributable to a foreign expropriation loss. With respect to such $7,500, A makes the election described in paragraph (a) of this section. In each of the years 1961, 1962, 1963, 1964, and 1965, A has taxable income in the amount of $600 (computed without any net operating loss deduction). The assumption is made that none of the other modifications prescribed in § 1.172–5 apply. The portion of the net operating loss attributable to the foreign expropriation loss which is a carryover to the year 1966 is $7,000, which is the sum of $7,500 (the portion of the net operating loss attributable to the foreign expropriation loss) and $2,500 (the other portion of the net operating loss available as a carryover to 1961), minus $3,000 (the aggregate of the taxable incomes for taxable years 1961 through 1965).

Example 2. Assume the same facts as in *Example (1)* except that taxable income for each of the years 1961 through 1965 is $400 (computed without any net operating loss deduction). The carryover to the year 1966 is $7,500, that is, the sum of $7,500 (the portion of the net operating loss attributable to the foreign expropriation loss) and $2,500 (the other portion of the net operating loss available as a carryover to 1961), minus $2,000 (the aggregate of the taxable incomes for taxable years 1961 through 1965), but limited to $7,500 (the portion of the net operating loss attributable to the foreign expropriation loss).

(e) *Taxable income which is subtracted from net operating loss to determine carryback or carryover.* In computing taxable income for a taxable year (hereinafter called a ‘‘prior taxable year’’) for the purpose of determining the portion of a net operating loss for another taxable year which shall be carried to each of the several taxable years subsequent to the earliest taxable year to which such loss may be carried, the net operating loss deduction for any such prior taxable year shall be determined without regard to that portion, if any, of a net operating loss for a taxable year attributable to a foreign expropriation loss, if such portion may not, under the provisions of section 172(b)(1)(D) and paragraph (a)(1)(iv) of § 1.172–4, be carried back to such prior taxable year. Thus, if the taxpayer has a foreign expropriation loss for 1962 and elects the 10-year carryover with respect to the portion of his net operating loss for 1962 attributable to the foreign expropriation loss, then in computing taxable income for the year 1960 for the purpose of determining the portion of a net operating loss for 1963 which is carried to years subsequent to 1960, the net operating loss deduction for 1960 is determined without regard to the portion of the net operating loss for 1962 attributable to the foreign expropriation loss, since under the provisions of section 172(b)(1)(D) and paragraph (a)(1)(iv) of § 1.172–4 such portion of the net operating loss for 1962 may not be carried back to 1960.

[T.D. 6862, 30 FR 14431, Nov. 18, 1965, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172–10 Net operating losses of real estate investment trusts.

(a) *Taxable years to which a loss may be carried.* (1) A net operating loss sustained by a qualified real estate investment trust (as defined in paragraph (b)(1) of this section) in a qualified taxable year (as defined in paragraph (b)(2) of this section) ending after October 4, 1976, shall not be carried back to a preceding taxable year.

(2) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending before October 5, 1976, shall be carried back to the 3 preceding taxable years. However, see § 1.857–2(a)(5), which does not allow the net operating loss deduction in computing real estate investment trust taxable income for taxable years ending before October 5, 1976.

(3) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending after December 31, 1972, shall be carried over to the 15 succeeding taxable years. However, see § 1.857–2(a)(5).

(4) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending before January 1, 1973, shall be carried over to 8 succeeding taxable years. However, see § 1.857–2(a)(5).

(5) A net operating loss sustained in a taxable year for which the taxpayer is not a qualified real estate investment trust generally may be carried back to the 3 preceding taxable years; however, a net operating loss sustained in a taxable year ending after December 31, 1975, shall not be carried back to any qualified taxable year. However, see § 1.857–2(a)(5), with respect to a net

operating loss sustained in a taxable year ending before January 1, 1976.

(6) A net operating loss sustained in a taxable year ending after December 31, 1975, for which the taxpayer is not a qualified real estate investment trust generally may be carried over to the 15 succeeding taxable years.

(7)(i) A net operating loss sustained in a taxable year ending before January 1, 1986, for which the taxpayer is not a qualified real estate investment trust generally may be a net operating loss carryover to each of the 5 succeeding taxable years. However, where the loss was a net operating loss carryback to one or more qualified taxable years, the net operating loss, in accordance with paragraph (a)(7)(ii) of this section shall be—

(A) Carried over to the 15 succeeding taxable years if the loss could be a net operating loss carryover to a taxable year ending in 1981, or

(B) Carried over to the 5, 6, 7, or 8 succeeding taxable years if paragraph (a)(7)(i)(A) of this section does not apply.

(ii) For purposes of determining whether a net operating loss could be a carryover to a taxable year ending in 1981 under paragraph (a)(7)(i)(A) of this section or, where paragraph (a)(7)(i)(A) of this section does not apply, to determine the actual carryover period under paragraph (a)(7)(i)(B) of this section, the net operating loss shall have a carryover period of 5 years, and such period shall be increased (to a number not greater than 8) by the number of qualified taxable years to which such loss was a net operating loss carryback; however, where the taxpayer acted so as to cause itself to cease to be a qualified real estate investment trust and the principal purpose for such action was to secure the benefit of the allowance of a net operating loss carryover under section 172(b)(1)(B), the net operating loss carryover period shall be limited to 5 years. However, see §1.857–2(a)(5).

(8) A qualified taxable year is a taxable year preceding or following the taxable year of the net operating loss, for purposes of section 172(b)(1), even though the loss may not be carried to, or allowed as a deduction in, such qualified taxable year. Thus, a qualified taxable year ending before October 5, 1976 (for which no net operating loss deduction is allowable) is nevertheless a preceding or following taxable year for purposes of section 172(b)(1). Moreover, a qualified taxable year ending after October 4, 1976 (to which a net operating loss cannot be carried back because of section 172(b)(1)(E)) is nevertheless a preceding taxable year for purposes of section 172(b)(1). For purposes of determining, under section 172(b)(2), the balance of the loss available as a carryback or carryover to other taxable years, however, the net operating loss is not reduced on account of such qualified taxable year being a preceding or following taxable year.

(b) *Definitions.* For purposes of this section and §§1.172–2 and 1.172–5:

(1) The term *qualified real estate investment trust* means, with respect to any taxable year, a real estate investment trust within the meaning of part II of subchapter M which is taxable for such year under that part as a real estate investment trust, and

(2) The term *qualified taxable year* means a taxable year for which the taxpayer is a qualified real estate investment trust.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example 1—(i) *Facts.* X was a qualified real estate investment trust for the taxable years ending on December 31, 1972, and December 31, 1973. X was not a qualified real estate investment trust for the taxable years ending on December 31, 1971, and December 31, 1974. X sustained a net operating loss for the taxable year ending on December 31, 1974.

(ii) *Applicable carryback and carryover periods.* The net operating loss must be carried back to the 3 preceding taxable years. Under §1.857–2 (a)(5) the net operating loss deduction shall not be allowed in computing real estate investment trust taxable income for the years ending December 31, 1972, and December 31, 1973. Where a net operating loss is sustained in a taxable year ending before January 1, 1976, for which the taxpayer is not a qualified real estate investment trust and the loss is a net operating loss carryback to one or more qualified taxable years, the carryover period is determined under §1.172–10 (a)(7); the carryover period is determined by first applying the rule provided in paragraph (a)(7)(ii) of this section to obtain the carryover period for purposes of determining whether the net operating loss could have been a net operating loss carryover to a taxable year ending in 1981. Under these facts, paragraph (a)(7)(ii) of this section provides for a 7-year carryover period (5 years increased by the 2 qualified taxable years to which the loss was a net operating loss carryback); therefore, since the carryover period provided for by paragraph (a)(7)(ii) of this section would allow the net operating loss to be a net operating loss carryover to a taxable year ending in 1981, under paragraph (a)(7)(ii)(A) of this section the applicable carryover period is 15 years (provided that X did not act so as to cause itself to cease to qualify as a real estate investment trust for the principal purpose of securing the benefit of a net operating loss carryover under section 172 (b)(1)(B)).

Example 2—(i) *Facts.* The facts are the same as in *example* (1) except that the taxable year ending December 31, 1973, was not a qualified taxable year for X.

(ii) *Applicable carryback and carryover periods.* The net operating loss must be carried back to the 3 preceding taxable years. Section 1.857–2 (a)(5) provides that the net operating loss deduction shall not be allowed in computing real estate investment trust taxable income for the year ending December 31, 1972. Under these facts the carryover period is determined under § 1.172–10 (a)(7). Paragraph (a)(7)(ii) of this section provides for a 6 year carryover period (5 years increased by the 1 qualified taxable year to which the loss was a net operating loss carryback); therefore, since a 6 year carryover period would not allow the net operating loss to be a net operating loss carryover to a taxable year ending in 1981, paragraph (a)(7)(i)(A) of this section does not apply. Where the rule stated in paragraph (a)(7)(i)(A) of this section does not apply, paragraph (a)(7)(i)(B) of this section provides that the applicable carryover period is the carryover period determined under paragraph (a)(7)(ii) of this section, which, in this case, is 6 years (provided that the principal purpose for X acting so as to cause itself to cease to qualify as a real estate investment trust was not to secure the benefit of the allowance of a net operating loss carryover under section 172 (b)(1)(B)).

(d) *Cross references.* See §§ 1.172–2(c) and 1.172–5(a)(5) for the computation of the net operating loss of a qualified real estate investment trust for a taxable year ending after October 4, 1976, and the amount of a net operating loss which is absorbed when carried over to a qualified taxable year ending after October 4, 1976. See § 1.857–2(a)(5), which provides that for a taxable year ending before October 5, 1976, the net operating loss deduction is not allowed in computing the real estate investment trust taxable income of a qualified real estate investment trust.

[T.D. 7767, 46 FR 11263, Feb. 6, 1981, as amended by T.D. 8107, 51 FR 43346, Dec. 2, 1986]

§ 1.172–13 Product liability losses.

(a) *Entitlement to 10-year carryback*—(1) *In general.* Unless an election is made pursuant to paragraph (c) of this section, in the case of a taxpayer which has a product liability loss (as defined in section 172(j) and paragraph (b)(1) of this section) for a taxable year beginning after September 30, 1979 (hereinafter ‘‘loss year’’), the product liability loss shall be a net operating loss carryback to each of the 10 taxable years preceding the loss year.

(2) *Years to which loss may be carried.* A product liability loss shall first be carried to the earliest of the taxable years to which such loss is allowable as a carryback and shall then be carried to the next earliest of such taxable years, etc.

(3) *Example.* The application of this paragraph may be illustrated as follows:

Example Taxpayer A incurs a net operating loss for taxable year 1980 of $80,000, of which $60,000 is a product liability loss. A’s taxable income for each of the 10 years immediately preceding taxable year 1980 was $5,000. The product liability loss of $60,000 is first carried back to the 10th through the 4th preceding taxable years ($5,000 per year), thus offsetting $35,000 of the loss. The remaining $25,000 of product liability loss is added to the remaining portion of the total net operating loss for taxable year 1980 which was not a product liability loss ($20,000), and the total is then carried back to the 3rd through 1st years preceding taxable year 1980, which offsets $15,000 of this loss. The remaining loss ($30,000) is carried forward pursuant to section 172(b)(1) and the regulations thereunder without regard to whether all or any portion thereof originated as a product liability loss.

(b) *Definitions*—(1) *Product liability loss.* The term *product liability loss* means, for any taxable year, the lesser of—

(i) The net operating loss for the current taxable year (not including the portion of such net operating loss attributable to foreign expropriation losses, as defined in § 1.172–11), or

(ii) The total of the amounts allowable as deductions under sections 162 and 165 directly attributable to—

(A) Product liability (as defined in paragraph (b)(2) of this section), and

(B) Expenses (including settlement payments) incurred in connection with the investigation or settlement of or opposition to claims against the taxpayer on account of alleged product liability.

Indirect corporate expense, or overhead, is not to be allocated to product liability claims so as to become a product liability loss.

(2) *Product liability.* (i) The term *product liability* means the liability of a taxpayer for damages resulting from physical injury or emotional harm to individuals, or damage to or loss of the use of property, on account of any defect in any product which is manufactured, leased, or sold by the taxpayer. The preceding sentence applies only to the extent that the injury, harm, or damage occurs after the taxpayer has completed or terminated operations with respect to the product, including, but not limited to the manufacture, installation, delivery, or testing of the product, and has relinquished possession of such product.

(ii) The term *product liability* does not include liabilities arising under warranty theories relating to repair or replacement of the property that are essentially contract liabilities. For example, the costs incurred by a taxpayer in repairing or replacing defective products under the terms of a warranty, express or implied, are not product liability losses. On the other hand, the taxpayer's liability for damage done to other property or for harm done to persons that is attributable to a defective product may be product liability losses regardless of whether the claim sounds in tort or contract. Further, liability incurred as a result of services performed by a taxpayer is not product liability. For purposes of the preceding sentence, where both a product and services are integral parts of a transaction, product liability does not arise until all operations with respect to the product are completed and the taxpayer has relinquished possession of it. On the other hand, any liability that arises after completion of the initial delivery, installation, servicing, testing, etc., is considered ‘‘product liability’’ even if such liability arises during the subsequent servicing of the product pursuant to a service agreement or otherwise.

(iii) Liability for injury, harm, or damage due to a defective product as described in this subparagraph shall be ‘‘product liability’’ notwithstanding that the liability is not considered product liability under the law of the State in which such liability arose.

(iv) Amounts paid for insurance against product liability risks are not paid on account of product liability.

(v) Notwithstanding subparagraph (iv), an amount is paid on account of product liability (even if such amount is paid to an insurance company) if the amount satisifies the provisions of paragraph (b)(2) (i) through (iii) of this section and the amount—

(A) Is paid on account of specific claims against the taxpayer (or on account of expenses incurred in connection with the investigation or settlement of or opposition to such claims), subsequent to the events giving rise to the claims and pursuant to a contract entered into before those events,

(B) Is not refundable, and

(C) Is not applicable to other claims, other expenses or to subsequent coverage.

(3) *Examples.* Paragraph (b)(2) of this section is illustrated by the following examples:

Example 1. X, a manufacturer of heating equipment, sells a boiler to A, a homeowner. Subsequent to the sale and installation of the boiler, the boiler explodes due to a defect causing physical injury to A. A sues X for damages for the injuries sustained in the explosion and is awarded $250,000, which X pays. The payment was made on account of product liability.

Example 2. Assume the same facts as in *Example (1)* and that A also sues under the contract with X to recover for the cost of the boiler and recovers $1,000, the boiler's replacement cost. The $1,000 payment is not a payment on account of product liability. Similarly, if X agrees to repair the destroyed boiler, any amount expended by X for such repair is not payment made on account of product liability.

Example 3. Y, a professional medical association, is sued by B, a patient, in an action based on the malpractice of one of its doctors. B recovers $25,000. Because the suit was based on the services of B, the payment is not made on account of product liability.

Example 4. R, a retailer of communications equipment, sells a telecommunication device to C. R also contracts with C to service the equipment for 3 years. While R is installing the equipment, the unit catches on fire due to faulty wiring within the unit and destroys C's office. Because R had not relinquished possession of this equipment when the fire started, any amount paid to C by R for the damage to C's property on account of the defective product is not payment on account of product liability.

Example 5. Assume the same facts as in *Example (4)* except that the fire and resulting property damages occurred after R had installed the equipment and relinquished possession of it. Any amount paid for the property damages sustained on account of the defective product is payment on account of product liability.

Example 6. Assume the same facts as in *Example (4)* except that the equipment catches on fire during the subsequent servicing of the unit. Because C is in possession of the unit during the servicing, any amount paid for the property damage sustained on account of the defective product would be payment on account of product liability.

Example 7. X, a manufacturer of computers, sells a computer to A. X also has its employees periodically service the computer for A from time to time after it is placed in service. After the initial delivery, installation, servicing, and testing of the computer is completed, the computer catches on fire while X's employee is servicing the equipment. This fire causes property damage to A's office and physical injury to A. Any amount paid for the property or physical damage sustained on account of the defective product is payment on account of product liability.

(c) *Election*—(1) *In general.* The 10-year carryback provision of this section applies, except as provided in this paragraph, to any taxpayer who, for a taxable year beginning after September 30, 1979, incurs a product liability loss. Any taxpayer entitled to a 10-year carryback under paragraph (a) of this section in any loss year may elect (at the time and in the manner provided in paragraph (c)(2) of this section) to have the carryback period with respect to the product liability loss determined without regard to the carryback rules provided by paragraph (a) of this section. If the taxpayer so elects, the product liability loss shall not be carried back to the 10th through the 4th taxable years preceding the loss year. In such case, the product liability loss shall be carried back or carried over as provided by section 172(b) (except subparagraph (1)(I) thereof) and the regulations thereunder.

(2) *Time and manner of making election.* An election by any taxpayer entitled to the 10-year carryback for the product liability loss to have the carryback with respect to such loss determined without regard to the 10-year carryback provision of paragraph (a) of this section must be made by attaching to the taxpayer's tax return (filed within the time prescribed by law, including extensions of time) for the taxable year in which such product liability loss is sustained, a statement containing the information required by paragraph (c)(3) of this section. Such election, once made for any taxable year, shall be irrevocable after the due date (including extensions of time) of the taxpayer's tax return for that taxable year.

(3) *Information required.* In the case of a statement filed after April 25, 1983, the statement referred to in paragraph (c)(2) of this section shall contain the following information:

(i) The name, address, and taxpayer identifying number of the taxpayer; and

(ii) A statement that the taxpayer elects under section 172(j)(3) not to have section 172(b)(1)(I) apply.

(4) *Relationship with section 172(b)(3)(C) election.* If a taxpayer sustains during the taxable year both a net operating loss not attributable to product liability and a product liability loss (as defined in section 172(j)(1) and paragraph (b)(1) of this section), an election pursuant to section 172(b)(3)(C) (relating to election to relinquish the entire carryback period) does not preclude the product liability loss from being carried back 10 years under section 172(b)(1)(I) and paragraph (a)(1) of this section.

[T.D. 8096, 51 FR 30482, Aug. 27, 1986]

§ 1.173–1 Circulation expenditures.

(a) *Allowance of deduction.* Section 173 provides for the deduction from gross income of all expenditures to establish, maintain, or increase the circulation of a newspaper, magazine, or other periodical, subject to the following limitations:

(1) No deduction shall be allowed for expenditures for the purchase of land

or depreciable property or for the acquisition of circulation through the purchase of any part of the business of another publisher of a newspaper, magazine, or other periodical;

(2) The deduction shall be allowed only to the publisher making the circulation expenditures; and

(3) The deduction shall be allowed only for the taxable year in which such expenditures are paid or incurred.

Subject to the provisions of paragraph (c) of this section, the deduction permitted under section 173 and this paragraph shall be allowed without regard to the method of accounting used by the taxpayer and notwithstanding the provisions of section 263 and the regulations thereunder, relating to capital expenditures.

(b) *Deferred expenditures.* Notwithstanding the provisions of paragraph (a)(3) of this section, expenditures paid or incurred in a taxable year subject to the Internal Revenue Code of 1939 which are deferrable pursuant to I.T. 3369 (C.B. 1940–1, 46), as modified by Rev. Rul. 57–87 (C.B. 1957–1, 507) may be deducted in the taxable year subject to the Internal Revenue Code of 1954 to which so deferred.

(c) *Election to capitalize.* (1) A taxpayer entitled to the deduction for circulation expenditures provided in section 173 and paragraph (a) of this section may, in lieu of taking such deduction, elect to capitalize the portion of such circulation expenditures which is properly chargeable to capital account. As a general rule, expenditures normally made from year to year in an effort to maintain circulation are not properly chargeable to capital account; conversely, expenditures made in an effort to establish or to increase circulation are properly chargeable to capital account. For example, if a newspaper normally employs five persons to obtain renewals of subscriptions by telephone, the expenditures in connection therewith would not be properly chargeable to capital account. However, if such newspaper, in a special effort to increase its circulation, hires for a limited period 20 additional employees to obtain new subscriptions by means of telephone calls to the general public, the expenditures in connection therewith would be properly chargeable to capital account. If an election is made by a taxpayer to treat any portion of his circulation expenditures as chargeable to capital account, the election must apply to all such expenditures which are properly so chargeable. In such case, no deduction shall be allowed under section 173 for any such expenditures. In particular cases, the extent to which any deductions attributable to the amortization of capital expenditures are allowed may be determined under sections 162, 263, and 461.

(2) A taxpayer may make the election referred to in subparagraph (1) of this paragraph by attaching a statement to his return for the first taxable year to which the election is applicable. Once an election is made, the taxpayer must continue in subsequent taxable years to charge to capital account all circulation expenditures properly so chargeable, unless the Commissioner, on application made to him in writing by the taxpayer, permits a revocation of such election for any subsequent taxable year or years. Permission to revoke such election may be granted subject to such conditions as the Commissioner deems necessary.

(3) Elections filed under section 23(bb) of the Internal Revenue Code of 1939 shall be given the same effect as if they were filed under section 173. (See section 7807(b)(2).)

§1.174–1 Research and experimental expenditures; in general.

Section 174 provides two methods for treating research or experimental expenditures paid or incurred by the taxpayer in connection with his trade or business. These expenditures may be treated as expenses not chargeable to capital account and deducted in the year in which they are paid or incurred (see §1.174–3), or they may be deferred and amortized (see §1.174–4). Research or experimental expenditures which are neither treated as expenses nor deferred and amortized under section 174 must be charged to capital account. The expenditures to which section 174 applies may relate either to a general research program or to a particular project. See §1.174–2 for the definition of research and experimental expenditures. The term *paid or incurred,* as used in section 174 and in §§1.174–1 to

1.174–4, inclusive, is to be construed according to the method of accounting used by the taxpayer in computing taxable income. See section 7701(a)(25).

§ 1.174–2 Definition of research and experimental expenditures.

(a) *In general.* (1) The term *research or experimental expenditures,* as used in section 174, means expenditures incurred in connection with the taxpayer's trade or business which represent research and development costs in the experimental or laboratory sense. The term generally includes all such costs incident to the development or improvement of a product. The term includes the costs of obtaining a patent, such as attorneys' fees expended in making and perfecting a patent application. Expenditures represent research and development costs in the experimental or laboratory sense if they are for activities intended to discover information that would eliminate uncertainty concerning the development or improvement of a product. Uncertainty exists if the information available to the taxpayer does not establish the capability or method for developing or improving the product or the appropriate design of the product. Whether expenditures qualify as research or experimental expenditures depends on the nature of the activity to which the expenditures relate, not the nature of the product or improvement being developed or the level of technological advancement the product or improvement represents.

(2) For purposes of this section, the term *product* includes any pilot model, process, formula, invention, technique, patent, or similar property, and includes products to be used by the taxpayer in its trade or business as well as products to be held for sale, lease, or license.

(3) The term *research or experimental expenditures* does not include expenditures for—

(i) The ordinary testing or inspection of materials or products for quality control (quality control testing);

(ii) Efficiency surveys;

(iii) Management studies;

(iv) Consumer surveys;

(v) Advertising or promotions;

(vi) The acquisition of another's patent, model, production or process; or

(vii) Research in connection with literary, historical, or similar projects.

(4) For purposes of paragraph (a)(3)(i) of this section, testing or inspection to determine whether particular units of materials or products conform to specified parameters is quality control testing. However, quality control testing does not include testing to determine if the design of the product is appropriate.

(5) See section 263A and the regulations thereunder for cost capitalization rules which apply to expenditures paid or incurred for research in connection with literary, historical, or similar projects involving the production of property, including the production of films, sound recordings, video tapes, books, or similar properties.

(6) Section 174 applies to a research or experimental expenditure only to the extent that the amount of the expenditure is reasonable under the circumstances. In general, the amount of an expenditure for research or experimental activities is reasonable if the amount would ordinarily be paid for like activities by like enterprises under like circumstances. Amounts supposedly paid for research that are not reasonable under the circumstances may be characterized as disguised dividends, gifts, loans, or similar payments. The reasonableness requirement of this paragraph (a)(6) does not apply to the reasonableness of the type or nature of the activities themselves.

(7) This paragraph (a) applies to taxable years beginning after October 3, 1994.

(8) The provisions of this section apply not only to costs paid or incurred by the taxpayer for research or experimentation undertaken directly by him but also to expenditures paid or incurred for research or experimentation carried on in his behalf by another person or organization (such as a research institute, foundation, engineering company, or similar contractor). However, any expenditures for research or experimentation carried on in the taxpayer's behalf by another person are not expenditures to which section 174

relates, to the extent that they represent expenditures for the acquisition or improvement of land or depreciable property, used in connection with the research or experimentation, to which the taxpayer acquires rights of ownership.

(9) The application of subparagraph (2) of this paragraph may be illustrated by the following examples:

Example 1. A engages B to undertake research and experimental work in order to create a particular product. B will be paid annually a fixed sum plus an amount equivalent to his actual expenditures. In 1957, A pays to B in respect of the project the sum of $150,000 of which $25,000 represents an addition to B's laboratory and the balance represents charges for research and experimentation on the project. It is agreed between the parties that A will absorb the entire cost of this addition to B's laboratory which will be retained by B. A may treat the entire $150,000 as expenditures under section 174.

Example 2. X Corporation, a manufacturer of explosives, contracts with the Y research organization to attempt through research and experimentation the creation of a new process for making certain explosives. Because of the danger involved in such an undertaking, Y is compelled to acquire an isolated tract of land on which to conduct the research and experimentation. It is agreed that upon completion of the project Y will transfer this tract, including any improvements thereon, to X. Section 174 does not apply to the amount paid to Y representing the costs of the tract of land and improvements.

(b) *Certain expenditures with respect to land and other property.* (1) Expenditures by the taxpayer for the acquisition or improvement of land, or for the acquisition or improvement of property which is subject to an allowance for depreciation under section 167 or depletion under section 611, are not deductible under section 174, irrespective of the fact that the property or improvements may be used by the taxpayer in connection with research or experimentation. However, allowances for depreciation or depletion of property are considered as research or experimental expenditures, for purposes of section 174, to the extent that the property to which the allowances relate is used in connection with research or experimentation. If any part of the cost of acquisition or improvement of depreciable property is attributable to research or experimentation (whether made by the taxpayer or another), see subparagraphs (2), (3), and (4) of this paragraph.

(2) Expenditures for research or experimentation which result, as an end product of the research or experimentation, in depreciable property to be used in the taxpayer's trade or business may, subject to the limitations of subparagraph (4) of this paragraph, be allowable as a current expense deduction under section 174(a). Such expenditures cannot be amortized under section 174(b) except to the extent provided in paragraph (a)(4) of §1.174–4.

(3) If expenditures for research or experimentation are incurred in connection with the construction or manufacture of depreciable property by another, they are deductible under section 174(a) only if made upon the taxpayer's order and at his risk. No deduction will be allowed (i) if the taxpayer purchases another's product under a performance guarantee (whether express, implied, or imposed by local law) unless the guarantee is limited, to engineering specifications or otherwise, in such a way that economic utility is not taken into account; or (ii) for any part of the purchase price of a product in regular production. For example, if a taxpayer orders a specially-built automatic milling machine under a guarantee that the machine will be capable of producing a given number of units per hour, no portion of the expenditure is deductible since none of it is made at the taxpayer's risk. Similarly, no deductible expense is incurred if a taxpayer enters into a contract for the construction of a new type of chemical processing plant under a turn-key contract guaranteeing a given annual production and a given consumption of raw material and fuel per unit. On the other hand, if the contract contained no guarantee of quality of production and of quantity of units in relation to consumption of raw material and fuel, and if real doubt existed as to the capabilities of the process, expenses for research or experimentation under the contract are at the taxpayer's risk and are deductible under section 174(a). However, see subparagraph (4) of this paragraph.

(4) The deductions referred to in subparagraphs (2) and (3) of this paragraph for expenditures in connection with the acquisition or production of depreciable property to be used in the taxpayer's trade or business are limited to amounts expended for research or experimentation. For the purpose of the preceding sentence, amounts expended for research or experimentation do not include the costs of the component materials of the depreciable property, the costs of labor or other elements involved in its construction and installation, or costs attributable to the acquisition or improvement of the property. For example, a taxpayer undertakes to develop a new machine for use in his business. He expends $30,000 on the project of which $10,000 represents the actual costs of material, labor, etc., to construct the machine, and $20,000 represents research costs which are not attributable to the machine itself. Under section 174(a) the taxpayer would be permitted to deduct the $20,000 as expenses not chargeable to capital account, but the $10,000 must be charged to the asset account (the machine).

(c) *Exploration expenditures.* The provisions of section 174 are not applicable to any expenditures paid or incurred for the purpose of ascertaining the existence, location, extent, or quality of any deposit of ore, oil, gas or other mineral. See sections 617 and 263.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 8562, 59 FR 50160, Oct. 3, 1994]

§ 1.174–3 Treatment as expenses.

(a) *In general.* Research or experimental expenditures paid or incurred by a taxpayer during the taxable year in connection with his trade or business are deductible as expenses, and are not chargeable to capital account, if the taxpayer adopts the method provided in section 174(a). See paragraph (b) of this section. If adopted, the method shall apply to all research and experimental expenditures paid or incurred in the taxable year of adoption and all subsequent taxable years, unless a different method is authorized by the Commissioner under section 174(a)(3) with respect to part or all of the expenditures. See paragraph (b)(3) of this section. Thus, if a change to the deferred expense method under section 174(b) is authorized by the Commissioner with respect to research or experimental expenditures attributable to a particular project or projects, the taxpayer, for the taxable year of the change and for subsequent taxable years, must apply the deferred expense method to all such expenditures paid or incurred during any of those taxable years in connection with the particular project or projects, even though all other research and experimental expenditures are required to be deducted as current expenses under this section. In no event will the taxpayer be permitted to adopt the method described in this section as to part of the expenditures relative to a particular project and adopt for the same taxable year a different method of treating the balance of the expenditures relating to the same project.

(b) *Adoption and change of method*—(1) *Adoption without consent.* The method described in this section may be adopted for any taxable year beginning after December 31, 1953, and ending after August 16, 1954. The consent of the Commissioner is not required if the taxpayer adopts the method for the first such taxable year in which he pays or incurs research or experimental expenditures. The taxpayer may do so by claiming in his income tax return for such year a deduction for his research or experimental expenditures. If the taxpayer fails to adopt the method for the first taxable year in which he incurs such expenditures, he cannot do so in subsequent taxable years unless he obtains the consent of the Commissioner under section 174(a)(2)(B) and subparagraph (2) of this paragraph. See, however, subparagraph (4) of this paragraph, relating to extensions of time.

(2) *Adoption with consent.* A taxpayer may, with the consent of the Commissioner, adopt at any time the method provided in section 174(a). The method adopted in this manner shall be applicable only to expenditures paid or incurred during the taxable year for which the request is made and in subsequent taxable years. A request to adopt this method shall be in writing and shall be addressed to the Commissioner

of Internal Revenue, Attention: T:R, Washington, DC, 20224. The request shall set forth the name and address of the taxpayer, the first taxable year for which the adoption of the method is requested, and a description of the project or projects with respect to which research or experimental expenditures are to be, or have already been, paid or incurred. The request shall be signed by the taxpayer (or his duly authorized representative) and shall be filed not later than the last day of the first taxable year for which the adoption of the method is requested. See, however, subparagraph (4) of this paragraph, relating to extensions of time.

(3) *Change of method.* An application for permission to change to a different method of treating research or experimental expenditures shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington, DC, 20224. The application shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the last day of the first taxable year for which the change in method is to apply. See, however, subparagraph (4) of this paragraph, relating to extensions of time. The application shall:

(i) State the first year to which the requested change is to be applicable;

(ii) State whether the change is to apply to all research or experimental expenditures paid or incurred by the taxpayer, or only to expenditures attributable to a particular project or projects;

(iii) Include such information as will identify the project or projects to which the change is applicable;

(iv) Indicate the number of months (not less than 60) selected for amortization of the expenditures, if any, which are to be treated as deferred expenses under section 174(b);

(v) State that, upon approval of the application, the taxpayer will make an accounting segregation on his books and records of the research or experimental expenditures to which the change in method is to apply; and

(vi) State the reasons for the change. If permission is granted to make the change, the taxpayer shall attach a copy of the letter granting permission to his income tax return for the first taxable year in which the different method is effective.

(4) *Special rules.* If the last day prescribed by law for filing a return for any taxable year (including extensions thereof) to which section 174(a) is applicable falls before January 2, 1958, consent is hereby given for the taxpayer to adopt the expense method or to change from the expense method to a different method. In the case of a change from the expense method to a different method, the taxpayer, on or before January 2, 1958, must submit to the district director for the internal revenue district in which the return was filed the information required by subparagraph (3) of this paragraph. For any taxable year for which the expense method or a different method is adopted pursuant to this subparagraph, an amended return reflecting such method shall be filed on or before January 2, 1958, if such return is necessary.

§1.174–4 Treatment as deferred expenses.

(a) *In general.* (1) If a taxpayer has not adopted the method provided in section 174(a) of treating research or experimental expenditures paid or incurred by him in connection with his trade or business as currently deductible expenses, he may, for any taxable year beginning after December 31, 1953, elect to treat such expenditures as deferred expenses under section 174(b), subject to the limitations of subparagraph (2) of this paragraph. If a taxpayer has adopted the method of treating such expenditures as expenses under section 174(a), he may not elect to defer and amortize any such expenditures unless permission to do so is granted under section 174(a)(3). See paragraph (b) of this section.

(2) The election to treat research or experimental expenditures as deferred expenses under section 174(b) applies only to those expenditures which are chargeable to capital account but which are not chargeable to property of a character subject to an allowance for depreciation or depletion under section

167 or 611, respectively. Thus, the election under section 174(b) applies only if the property resulting from the research or experimental expenditures has no determinable useful life. If the property resulting from the expenditures has a determinable useful life, section 174(b) is not applicable, and the capitalized expenditures must be amortized or depreciated over the determinable useful life. Amounts treated as deferred expenses are properly chargeable to capital account for purposes of section 1016(a)(1), relating to adjustments to basis of property. See section 1016(a)(14). See section 174(c) and paragraph (b)(1) of § 1.174–2 for treatment of expenditures for the acquisition or improvement of land or of depreciable or depletable property to be used in connection with the research or experimentation.

(3) Expenditures which are treated as deferred expenses under section 174(b) are allowable as a deduction ratably over a period of not less than 60 consecutive months beginning with the month in which the taxpayer first realizes benefits from the expenditures. The length of the period shall be selected by the taxpayer at the time he makes the election to defer the expenditures. If a taxpayer has two or more separate projects, he may select a different amortization period for each project. In the absence of a showing to the contrary, the taxpayer will be deemed to have begun to realize benefits from the deferred expenditures in the month in which the taxpayer first puts the process, formula, invention, or similar property to which the expenditures relate to an income-producing use. See section 1016(a)(14) for adjustments to basis of property for amounts allowed as deductions under section 174(b) and this section. See section 165 and the regulations thereunder for rules relating to the treatment of losses resulting from abandonment.

(4) If expenditures which the taxpayer has elected to defer and deduct ratably over a period of time in accordance with section 174(b) result in the development of depreciable property, deductions for the unrecovered expenditures, beginning with the time the asset becomes depreciable in character, shall be determined under section 167 (relating to depreciation) and the regulations thereunder. For example, for the taxable year 1954, A, who reports his income on the basis of a calendar year, elects to defer and deduct ratably over a period of 60 months research and experimental expenditures made in connection with a particular project. In 1956, the total of the deferred expenditures amounts to $60,000. At that time, A has developed a process which he seeks to patent. On July 1, 1956, A first realized benefits from the marketing of products resulting from this process. Therefore, the expenditures deferred are deductible ratably over the 60-month period beginning with July 1, 1956 (when A first realized benefits from the project). In his return for the year 1956. A deducted $6,000; in 1957, A deducted $12,000 ($1,000 per month). On July 1, 1958, a patent protecting his process is obtained by A. In his return for 1958, A is entitled to a deduction of $6,000, representing the amortizable portion of the deferred expenses attributable to the period prior to July 1, 1958. The balance of the unrecovered expenditures ($60,000 minus $24,000, or $36,000) is to be recovered as a depreciation deduction over the life of the patent commencing with July 1, 1958. Thus, one-half of the annual depreciation deduction based upon the useful life of the patent is also deductible for 1958 (from July 1 to December 31).

(5) The election shall be applicable to all research and experimental expenditures paid or incurred by the taxpayer or, if so limited by the taxpayer's election, to all such expenditures with respect to the particular project, subject to the limitations of subparagraph (2) of this paragraph. The election shall apply for the taxable year for which the election is made and for all subsequent taxable years, unless a change to a different treatment is authorized by the Commissioner under section 174(b)(2). See paragraph (b)(2) of this section. Likewise, the taxpayer shall adhere to the amortization period selected at the time of the election unless a different period of amortization with respect to a part or all of the expenditures is similarly authorized. However, no change in method will be permitted with respect to expenditures paid or incurred before the taxable

year to which the change is to apply. In no event will the taxpayer be permitted to treat part of the expenditures with respect to a particular project as deferred expenses under section 174(b) and to adopt a different method of treating the balance of the expenditures relating to the same project for the same taxable year. The election under this section shall not apply to any expenditures paid or incurred before the taxable year for which the taxpayer makes the election.

(b) *Election and change of method*—(1) *Election.* The election under section 174(b) shall be made not later than the time (including extensions) prescribed by law for filing the return for the taxable year for which the method is to be adopted. The election shall be made by attaching a statement to the taxpayer's return for the first taxable year to which the election is applicable. The statement shall be signed by the taxpayer (or his duly authorized representative), and shall:

(i) Set forth the name and address of the taxpayer;

(ii) Designate the first taxable year to which the election is to apply;

(iii) State whether the election is intended to apply to all expenditures within the permissible scope of the election, or only to a particular project or projects, and, if the latter, include such information as will identify the project or projects as to which the election is to apply;

(iv) Set forth the amount of all research or experimental expenditures paid or incurred during the taxable year for which the election is made;

(v) Indicate the number of months (not less than 60) selected for amortization of the deferred expenses for each project; and

(vi) State that the taxpayer will make an accounting segregation in his books and records of the expenditures to which the election relates.

(2) *Change to a different method or period.* Application for permission to change to a different method of treating research or experimental expenditures or to a different period of amortization for deferred expenses shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington, DC, 20224. The application shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the end of the first taxable year in which the different method or different amortization period is to be used (unless subparagraph (3) of this paragraph, relating to extensions of time, is applicable). The application shall set forth the following information with regard to the research or experimental expenditures which are being treated under section 174(b) as deferred expenses:

(i) Total amount of research or experimental expenditures attributable to each project;

(ii) Amortization period applicable to each project; and

(iii) Unamortized expenditures attributable to each project at the beginning of the taxable year in which the application is filed.

In addition, the application shall set forth the length of the new period or periods proposed, or the new method of treatment proposed, the reasons for the proposed change, and such information as will identify the project or projects to which the expenditures affected by the change relate. If permission is granted to make the change, the taxpayer shall attach a copy of the letter granting the permission to his income tax return for the first taxable year in which the different method or period is to be effective.

(3) *Special rules.* If the last day prescribed by law for filing a return for any taxable year for which the deferred method provided in section 174(b) has been adopted falls before January 2, 1958, consent is hereby given for the taxpayer to change from such method and adopt a different method of treating research or experimental expenditures, provided that on or before January 2, 1958, he submits to the district director for the district in which the return was filed the information required by subparagraph (2) of this paragraph, relating to a change to a different method or period. For any taxable year for which the different method is adopted pursuant to this subparagraph, an amended return reflecting such method shall be filed on or before January 2, 1958.

(c) *Example.* The application of this section is illustrated by the following example:

Example. N Corporation is engaged in the business of manufacturing chemical products. On January 1, 1955, work is begun on a special research project. N Corporation elects, pursuant to section 174(b), to defer the expenditures relating to the special project and to amortize the expenditures over a period of 72 months beginning with the month in which benefits from the expenditures are first realized. On January 1, 1955, N Corporation also purchased for $57,600 a building having a remaining useful life of 12 years as of the date of purchase and no salvage value at the end of the period. Fifty percent of the building's facilities are to be used in connection with the special research project. During 1955, N Corporation pays or incurs the following expenditures relating to the special research project:

Salaries	$15,000
Heat, light and power	700
Drawings	2,000
Models	6,500
Laboratory materials	8,000
Attorneys' fees	1,400
Depreciation on building attributable to project (50 percent of $4,800 allowable depreciation)	2,400
Total research and development expenditures	36,000

The above expenditures result in a process which is marketable but not patentable and which has no determinable useful life. N Corporation first realizes benefits from the process in January 1956. N Corporation is entitled to deduct the amount of $6,000 ($36,000×12 months÷72 months) as deferred expenses under section 174(b) in computing taxable income for 1956.

§ 1.175–1 Soil and water conservation expenditures; in general.

Under section 175, a farmer may deduct his soil or water conservation expenditures which do not give rise to a deduction for depreciation and which are not otherwise deductible. The amount of the deduction is limited annually to 25 percent of the taxpayer's gross income from farming. Any excess may be carried over and deducted in succeeding taxable years. As a general rule, once a farmer has adopted this method of treating soil and water conservation expenditures, he must deduct all such expenditures (subject to the 25-percent limitation) for the current and subsequent taxable years. If a farmer does not adopt this method, such expenditures increase the basis of the property to which they relate.

§ 1.175–2 Definition of soil and water conservation expenditures.

(a) *Expenditures treated as a deduction.* (1) The method described in section 175 applies to expenditures paid or incurred for the purpose of soil or water conservation in respect of land used in farming, or for the prevention of erosion of land used in farming, but only if such expenditures are made in the furtherance of the business of farming. More specifically, a farmer may deduct expenditures made for these purposes which are for (i) the treatment or moving of earth, (ii) the construction, control, and protection of diversion channels, drainage ditches, irrigation ditches, earthen dams, watercourses, outlets, and ponds, (iii) the eradication of brush, and (iv) the planting of windbreaks. Expenditures for the treatment or moving of earth include but are not limited to expenditures for leveling, conditioning, grading, terracing, contour furrowing, and restoration of soil fertility. For rules relating to the allocation of expenditures that benefit both land used in farming and other land of the taxpayer, see § 1.175–7.

(2) The following are examples of soil and water conservation: (i) Constructing terraces, or the like, to detain or control the flow of water, to check soil erosion on sloping land, to intercept runoff, and to divert excess water to protected outlets; (ii) constructing water detention or sediment retention dams to prevent or fill gullies, to retard or reduce run-off of water, or to collect stock water; and (iii) constructing earthen floodways, levies, or dikes, to prevent flood damage to farmland.

(b) *Expenditures not subject to section 175 treatment.* (1) The method described in section 175 applies only to expenditures for nondepreciable items. Accordingly, a taxpayer may not deduct expenditures for the purchase, construction, installation, or improvement of structures, appliances, or facilities subject to the allowance for depreciation. Thus, the method does not apply to depreciable nonearthen items such as those made of masonry or concrete (see section 167). For example, expenditures in respect of depreciable property include those for materials, supplies, wages, fuel, hauling, and dirt moving for making structures such as tanks, reservoirs, pipes, conduits, canals, dams, wells, or pumps composed of masonry, concrete, tile, metal, or wood. However, the method applies to expenditures for earthen items which are not subject to a depreciation allowance. For example, expenditures for earthen terraces and dams which are nondepreciable are deductible under section 175. For taxable years beginning after December 31, 1959, in the case of expenditures paid or incurred by farmers for fertilizer, lime, etc., for purposes other than soil or water conservation, see section 180 and the regulations thereunder.

(2) The method does not apply to expenses deductible apart from section 175. Adoption of the method is not necessary in order to deduct such expenses in full without limitation. Thus, the method does not apply to interest (deductible under section 163), nor to taxes (deductible under section 164). It does not apply to expenses for the repair of completed soil or water conservation structures, such as costs of annual removal of sediment from a drainage ditch. It does not apply to expenditures paid or incurred primarily to produce an agricultural crop even though they incidentally conserve soil. Thus, the cost of fertilizing (the effectiveness of which does not last beyond one year) used to produce hay is deductible without adoption of the method prescribed in section 175. For taxable years beginning after December 31, 1959, in the case of expenditures paid or incurred by farmers for fertilizer, lime, etc., for purposes other than soil or water conservation, see section 180 and the regulations thereunder. However, the method would apply to expenses incurred to produce vegetation primarily to conserve soil or water or to prevent erosion. Thus, for example, the method would apply to such expenditures as the cost of dirt moving, lime, fertilizer, seed and planting stock used in gulley stabilization, or in stabilizing severely eroded areas, in order to obtain a soil binding stand of vegetation on raw or infertile land.

(c) *Assessments.* The method applies also to that part of assessments levied by a soil or water conservation or drainage district to reimburse it for its expenditures which, if actually paid or incurred during the taxable year by the taxpayer directly, would be deductible under section 175. Depending upon the farmer's method of accounting, the time when the farmer pays or incurs the assessment, and not the time when the expenditures are paid or incurred by the district, controls the time the deduction must be taken. The provisions of this paragraph may be illustrated by the following example:

Example. In 1955 a soil and water conservation district levies an assessment of $700 upon a farmer on the cash method of accounting. The assessment is to reimburse the district for its expenditures in 1954. The farmer's share of such expenditures is as follows: $400 for digging drainage ditches for soil conservation and $300 for assets subject to the allowance for depreciation. If the farmer pays the assessment in 1955 and has adopted the method of treating expenditures for soil or water conservation as current expenses under section 175, he may deduct in 1955 the $400 attributable to the digging of drainage ditches as a soil conservation expenditure subject to the 25-percent limitation.

(74 Stat. 1001; 26 U.S.C. 180)

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6548, 26 FR 1487, Feb. 22, 1961; T.D. 7740, 45 FR 78634, Nov. 26, 1980]

§1.175–3 Definition of "the business of farming."

The method described in section 175 is available only to a taxpayer engaged in ''the business of farming''. A taxpayer is engaged in the business of farming if he cultivates, operates, or manages a farm for gain or profit, either as owner or tenant. For the purpose of section 175, a taxpayer who receives a rental (either in cash or in kind) which is based upon farm production is engaged in the business of farming. However, a taxpayer who receives a fixed rental (without reference to production) is engaged in the business of farming only if he participates to a material extent in the operation or management of the farm. A taxpayer engaged in forestry or the growing of timber is not thereby engaged in the business of farming. A person cultivating or operating a farm for recreation or pleasure rather than a profit is not engaged in the business of farming. For the purpose of this section, the term *farm* is used in its ordinary, accepted sense and includes stock, dairy, poultry, fish, fruit, and truck farms, and also plantations, ranches, ranges, and orchards. A fish farm is an area where fish are grown or raised, as opposed to merely caught or harvested; that is, an area where they are artificially fed, protected, cared for, etc. A taxpayer is engaged in ‘‘the business of farming’’ if he is a member of a partnership engaged in the business of farming. See paragraphs (a)(8)(i) and (c)(1)(iv) of § 1.702–1.

[T.D. 6649, 28 FR 3762, Apr. 18, 1963]

§ 1.175–4 Definition of "land used in farming."

(a) *Requirements.* For purposes of section 175, the term *land used in farming* means land which is used in the business of farming and which meets both of the following requirements:

(1) The land must be used for the production of crops, fruits, or other agricultural products, including fish, or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. Land used for the sustenance of livestock includes land used for grazing such livestock.

(2) The land must be or have been so used either by the taxpayer or his tenant at some time before or at the same time as, the taxpayer makes the expenditures for soil or water conservation or for the prevention of the erosion of land. The taxpayer will be considered to have used the land in farming before making such expenditure if he or his tenant has employed the land in a farming use in the past. If the expenditures are made by the taxpayer in respect of land newly acquired from one who immediately prior to the acquisition was using it in farming, the taxpayer will be considered to be using the land in farming at the time that such expenditures are made, if the use which is made by the taxpayer of the land from the time of its acquisition by him is substantially a continuation of its use in farming, whether for the same farming use as that of the taxpayer's predecessor or for one of the other uses specified in paragraph (a)(1) of this section.

(b) *Examples.* The provisions of paragraph (a) of this section may be illustrated by the following examples:

Example 1. A purchases an operating farm from B in the autumn after B has harvested his crops. Prior to spring plowing and planting when the land is idle because of the season, A makes certain soil and water conservation expenditures on this farm. At the time such expenditures are made the land is considered to be used by A in farming, and A may deduct such expenditures under section 175, subject to the other requisite conditions of such section.

Example 2. C acquires uncultivated land, not previously used in farming, which he intends to develop for farming. Prior to putting this land into production it is necessary for C to clear brush, construct earthen terraces and ponds, and make other soil and water conservation expenditures. The land is not used in farming at the same time that such expenditures are made. Therefore, C may not deduct such expenditures under section 175.

Example 3. D acquires several tracts of land from persons who had used such land immediately prior to D's acquisition for grazing cattle. D intends to use the land for growing grapes. In order to make the land suitable for this use, D constructs earthen terraces, builds drainage ditches and irrigation ditches, extensively treats the soil, and makes other soil and water conservation expenditures. The land is considered to be used in farming by D at the time he makes such expenditures, even though it is being prepared for a different type of farming activity than that engaged in by D's predecessors. Therefore, D may deduct such expenditures under section 175, subject to the other requisite conditions of such section.

(c) *Cross reference.* For rules relating to the allocation of expenditures that benefit both land used in farming and other land of the taxpayer, see § 1.175–7.

[T.D. 7740, 45 FR 78634, Nov. 26, 1980]

§ 1.175–5 Percentage limitation and carryover.

(a) *The limitation*—(1) *General rule.* The amount of soil and water conservation expenditures which the taxpayer may deduct under section 175 in any one taxable year is limited to 25 percent of his ‘‘gross income from farming’’.

(2) *Definition of ''gross income from farming.''* For the purpose of section 175, the term *gross income from farming* means the gross income of the taxpayer, derived in ''the business of farming'' as defined in §1.175–3, from the production of crops, fruits, or other agricultural products, including fish, or from livestock (including livestock held for draft, breeding, or dairy purposes). It includes such income from land used in farming other than that upon which expenditures are made for soil or water conservation or for the prevention of erosion of land. It does not include gains from sales of assets such as farm machinery or gains from the disposition of land. A taxpayer shall compute his ''gross income from farming'' in accordance with his accounting method used in determining gross income. (See the regulations under section 61 relating to accounting methods used by farmers in determining gross income.) The provisions of this subparagraph may be illustrated by the following example:

Example. A, who uses the cash receipts and disbursements method of accounting, includes in his ''gross income from farming'' for purposes of determining the 25-percent limitation the following items:

Proceeds from sale of his 1955 yield of corn	$10,000
Gain from disposition of old breeding cows replaced by younger cows	500
Total gross income from farming	10,500

A must exclude from ''gross income from farming'' the following items which are included in his gross income:

Gain from sale of tractor	$100
Gain from sale of 40 acres of taxpayer's farm	8,000
Interest on loan to neighboring farmer	100

(3) *Deduction qualifies for net operating loss deduction.* Any amount allowed as a deduction under section 175, either for the year in which the expenditure is paid or incurred or for the year to which it is carried, is taken into account in computing a net operating loss for such taxable year. If a deduction for soil or water conservation expenditures has been taken into account in computing a net operating loss carryback or carryover, it shall not be considered a soil or water conservation expenditure for the year to which the loss is carried, and therefore, is not subject to the 25-percent limitation for that year. The provisions of this subparagraph may be illustrated by the following example:

Example. Assume that in 1956 A has gross income from farming of $4,000, soil and water conservation expenditures of $1,600 and deductible farm expenses of $3,500. Of the soil and water conservation expenditures $1,000 is deductible in 1956. The $600 in excess of 25 percent of A's gross income from farming is carried over into 1957. Assuming that A has no other income, his deductions of $4,500 ($1,000 plus $3,500) exceed his gross income of $4,000 by $500. This $500 will constitute a net operating loss which he must carry back two years and carry forward five years, until it has offset $500 of taxable income. No part of this $500 net operating loss carryback or carryover will be taken into account in determining the amount of soil and water conservation expenditures in the years to which it is carried.

(b) *Carryover of expenditures in excess of deduction.* The deduction for soil and water conservation expenditures in any one taxable year is limited to 25 percent of the taxpayer's gross income from farming. The taxpayer may carry over the excess of such expenditures over 25 percent of his gross income from farming into his next taxable year, and, if not deductible in that year, into the next year, and so on without limit as to time. In determining the deductible amount of such expenditures for any taxable year, the actual expenditures of that year shall be added to any such expenditures carried over from prior years, before applying the 25-percent limitation. Any such expenditures in excess of the deductible amount may be carried over during the taxpayer's entire existence. For this purpose in a farm partnership, since the 25-percent limitation is applied to each partner, not the partnership, the carryover may be carried forward during the life of the partner. The provisions of this paragraph may be illustrated by the following example:

Example. Assume the expenditures and income shown in the following table:

Year	Deductible soil and water conservation expenditures		Total	25 percent of gross income from farming	Excess to be carried forward
	Paid or incurred during taxable year	Carried forward from prior year			
1954	$900	None	$900	$800	$100
1955	1,000	$100	1,100	900	200
1956	None	200	200	1,000	None

The deduction for 1954 is limited to $800. The remainder, $100 ($900 minus $800), not being deductible for 1954, is a carryover to 1955. For 1955, accordingly, the total of the expenditures to be taken into account is $1,100 (the $100 carryover and the $1,000 actually paid in that year). The deduction for 1955 is limited to $900, and the remainder of the $1,100 total, or $200, is a carryover to 1956. The deduction for 1956 consists solely of this carryover of $200. Since the total expenditures, actual and carried-over, for 1956 are less than 25 percent of gross income from farming, there is no carryover into 1957.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6649, 28 FR 3762, Apr. 18, 1963]

§ 1.175–6 Adoption or change of method.

(a) *Adoption with consent.* A taxpayer may, without consent, adopt the method of treating expenditures for soil or water conservation as expenses for the first taxable year:

(1) Which begins after December 31, 1953, and ends after August 16, 1954, and

(2) For which soil or water conservation expenditures described in section 175(a) are paid or incurred.

Such adoption shall be made by claiming the deduction on his income tax return. For a taxable year ending prior to May 31, 1957, the adoption of the method described in section 175 shall be made by claiming the deduction on such return for that year, or by claiming the deduction on an amended return filed for that year on or before August 30, 1957.

(b) *Adoption with consent.* A taxpayer may adopt the method of treating soil and water conservation expenditures as provided by section 175 for any taxable year to which the section is applicable if consent is obtained from the district director for the internal revenue district in which the taxpayer's return is required to be filed.

(c) *Change of method.* A taxpayer who has adopted the method of treating expenditures for soil or water conservation, as provided by section 175, may change from this method and capitalize such expenditures made after the effective date of the change, if he obtains the consent of the district director for the internal revenue district in which his return is required to be filed.

(d) *Request for consent to adopt or change method.* Where the consent of the district director is required under paragraph (b) or (c) of this section, the request for his consent shall be in writing, signed by the taxpayer or his authorized representative, and shall be filed not later than the date prescribed by law for filing the income tax return for the first taxable year to which the adoption of, or change of, method is to apply, or not later than August 20, 1957, following their adoption, whichever is later. The request shall:

(1) Set forth the name and address of the taxpayer;

(2) Designate the first taxable year to which the method or change of method is to apply;

(3) State whether the method or change of method is intended to apply to all expenditures within the permissible scope of section 175, or only to a particular project or farm and, if the latter, include such information as will identify the project or farm as to which the method or change of method is to apply;

(4) Set forth the amount of all soil and water conservation expenditures paid or incurred during the first taxable year for which the method or change of method is to apply; and

(5) State that the taxpayer will make an accounting segregation in his books and records of the expenditures to which the election relates.

(e) *Scope of method.* Except with the consent of the district director as provided in paragraph (b) or (c) of this section, the taxpayer's method of treating soil and water conservation expenditures described in section 175 shall apply to all such expenditures for the taxable year of adoption and all subsequent taxable years. Although a taxpayer may have elected to deduct soil and water conservation expenditures, he may request an authorization to capitalize his soil and water conservation expenditures attributable to a special project or single farm. Similarly, a taxpayer who has not elected to deduct such expenditures may request an authorization to deduct his soil and water conservation expenditures attributable to a special project or single farm. The authorization with respect to the special project or single farm will not affect the method adopted with respect to the taxpayer's regularly incurred soil and water conservation expenditures. No adoption of, or change of, the method under section 175 will be permitted as to expenditures actually paid or incurred before the taxable year to which the method or change of method is to apply. Thus, if a taxpayer adopts such method for 1956, he cannot deduct any part of such expenditures which he capitalized, or should have capitalized, in 1955. Likewise, if a taxpayer who has adopted such method has an unused carryover of such expenditures in excess of the 25-percent limitation, and is granted consent to capitalize soil and water conservation expenditures beginning in 1956, he cannot capitalize any part of the unused carryover. The excess expenditures carried over continue to be deductible to the extent of 25 percent of the taxpayer's gross income from farming. No adjustment to the basis of land shall be made under section 1016 for expenditures to which the method under section 175 applies. For example, A has an unused carryover of soil and water conservation expenditures amounting to $5,000 as of December 31, 1956. On January 1, 1957, A sells his farm and goes out of the business of farming. The unused carryover of $5,000 cannot be added to the basis of the farm for purposes of determining gain or loss on its sale. In 1959, A purchases another farm and resumes the business of farming. In such year, A may deduct the amount of the unused carryover to the extent of 25 percent of his gross income from farming and may carry over any excess to subsequent years.

§1.175–7 Allocation of expenditures in certain circumstances.

(a) *General rule.* If at the time the taxpayer paid or incurred expenditures for the purpose of soil or water conservation, or for the prevention of erosion of land, it was reasonable to believe that such expenditures would directly and substantially benefit land of the taxpayer which does not qualify as ''land used in farming,'' as defined in §1.175–4, as well as land of the taxpayer which does so qualify, then, for purposes of section 175, only a part of the taxpayer's total expenditures is in respect of ''land used in farming.''

(b) *Method of allocation.* The part of expenditures allocable to ''land used in farming'' generally equals the amount which bears the same proportion to the total amount of such expenditures as the area of land of the taxpayer used in farming which it was reasonable to believe would be directly and substantially benefited as a result of the expenditures bears to the total area of land of the taxpayer which it was reasonable to believe would be so benefited. If it is established by clear and convincing evidence that, in the light of all the facts and circumstances, another method of allocation is more reasonable than the method provided in the preceding sentence, the taxpayer may allocate the expenditures under that other method. For purposes of this section, the term *land of the taxpayer* means land with respect to which the taxpayer has title, leasehold, or some other substantial interest.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example 1. A owns a 200-acre tract of land, 80 acres of which qualify as ''land used in farming.'' A makes expenditures for the purpose of soil and water conservation which can reasonably be expected to directly and substantially benefit the entire 200-acre tract. In the absence of clear and convincing evidence that a different allocation is more reasonable, A may deduct 40 percent (80/200) of such expenditures under section 175. The same result would obtain if A had made the expenditures after newly acquiring the tract from a person who had used 80 of the 200 acres in farming immediately prior to A's acquisition.

Example 2. Assume the same facts as in *Example (1),* except that A's expenditures for the purpose of soil and water conservation can reasonably be expected to directly and substantially benefit only the 80 acres which qualify as land used in farming; any benefit to the other 120 acres would be minor and incidental. A may deduct all of such expenditures under section 175.

Example 3. Assume the same facts as in *Example (1),* except that A's expenditures for the purpose of soil and water conservation can reasonably be expected to directly and substantially benefit only the 120 acres which do not qualify as land used in farming. A may not deduct any of such expenditures under section 175. The same result would obtain even if A had leased the 200-acre tract to B in the expectation that B would farm the entire tract.

[T.D. 7740, 45 FR 78635, Nov. 26, 1980]

§ 1.177–1 Election to amortize trademark and trade name expenditures.

(a) *In general.* (1) Section 177 provides that a taxpayer may elect to treat any trademark or trade name expenditure (defined in section 177(b) and paragraph (b) of this section) paid or incurred during a taxable year beginning after December 31, 1955, as a deferred expense. Any expenditure so treated shall be allowed as a deduction ratably over the number of continuous months (not less than 60) selected by the taxpayer, beginning with the first month of the taxable year in which the expenditure is paid or incurred. The term *paid or incurred,* as used in section 177 and this section, is to be construed according to the method of accounting used by the taxpayer in computing taxable income. See section 7701(a)(25). An election under section 177 is irrevocable insofar as it applies to a particular trademark or trade name expenditure, but separate elections may be made with respect to other trademark or trade name expenditures. See subparagraph (3) of this paragraph. See also paragraph (c) of this section for time and manner of making election.

(2) The number of continuous months selected by the taxpayer may be equal to or greater, but not less than 60, but in any event the deduction must begin with the first month of the taxable year in which the expenditure is paid or incurred. The number of months selected by the taxpayer at the time he makes the election may not be subsequently changed but shall be adhered to in computing taxable income for the taxable year for which the election is made and all subsequent taxable years.

(3) Section 177 permits an election by the taxpayer for each separate trademark or trade name expenditure. Thus, a taxpayer who has several trademark or trade name expenditures in a taxable year may elect under section 177 with respect to some of such expenditures and not elect with respect to the other expenditures. Also, a taxpayer may choose different amortization periods for different trademark or trade name expenditures with respect to which he has made the election under section 177.

(4) All trademark and trade name expenditures are properly chargeable to capital account for purposes of section 1016(a)(1), relating to adjustments to basis of property, whether or not they are to be amortized under section 177. However, the trademark and trade name expenditures with respect to which the taxpayer has made an election under section 177 must be kept in a separate account in the taxpayer's books and records. See paragraph (c) of this section. See also section 1016(a)(16) and paragraph (m) of § 1.1016–5 for adjustments to basis of property for amounts allowed as deductions under section 177 and this section.

(b) *Trademark and trade name expenditures defined.* (1) The term *trademark and trade name expenditures,* as used in section 177 and this section, means any expenditure which:

(i) Is directly connected with the acquisition, protection, expansion, registration (Federal, State, or foreign), or defense of a trademark or trade name;

(ii) Is chargeable to capital account; and

(iii) Is not part of the consideration or purchase price paid for a trademark, trade name, or a business (including goodwill) already in existence.

An expenditure which fails to meet one or more of these tests is not a trademark or trade name expenditure for purposes of section 177 and this section.

Amounts paid in connection with the acquisition of an existing trademark or trade name may not be amortized under section 177 even though such amounts may be paid to protect or expand a previously owned trademark or trade name through purchase of a competitive trademark. Similarly, the provisions of section 177 and this section are not applicable to expenditures paid or incurred for an agreement to discontinue the use of a trademark or trade name (if the effect of the agreement is the purchase of a trademark or trade name) nor to expenditures paid or incurred in acquiring franchises or rights to the use of a trademark or trade name. Generally, section 177 will apply to expenditures such as legal fees and other costs in connection with the acquisition of a certificate of registration of a trademark from the United States or other government, artists' fees and similar expenses connected with the design of a distinctive mark for a product or service, litigation expenses connected with infringement proceedings, and costs in connection with the preparation and filing of an application for renewal of registration and continued use of a trademark.

(2) Expenditures for a trademark or trade name which has a determinable useful life and which would otherwise be depreciable under section 167 must be deferred and amortized under section 177 if an election under section 177 is made with respect to such expenditures.

(3) The following examples illustrate the application of section 177:

Example 1. X Corporation engages an artist to design a distinctive trademark for its product. At the same time it retains an attorney to prepare the papers necessary for registration of this trademark with the Federal Government. The fees of both the artist and the attorney may be amortized under section 177 over a period of not less than 60 continuous months.

Example 2. Y Corporation wishes to expand the market served by its product. It acquires a competing firm in a neighboring State. The contract of sale provides for a purchase price of $250,000 of which $225,000 shall constitute payment for physical assets and $25,000 for the trademark and goodwill. No part of the purchase price may be amortized under section 177.

Example 3. M Corporation brings suit against N Corporation for infringement of M's trademark. The costs of this litigation may be amortized under section 177.

(c) *Time and manner of making election.* (1) A taxpayer who elects to defer and amortize any trademark or trade name expenditure paid or incurred during a taxable year beginning after December 31, 1955, shall, within the time prescribed by law (including extensions thereof) for filing his income tax return for that year, attach to his income tax return a statement signifying his election under section 177 and setting forth the following:

(i) Name and address of the taxpayer, and the taxable year involved;

(ii) An identification of the character and amount of each expenditure to which the election applies and the number of continuous months (not less than 60) during which the expenditures are to be ratably deducted; and

(iii) A declaration by the taxpayer that he will make an accounting segregation on his books and records of the trademark and trade name expenditures for which the election has been made, sufficient to permit an identification of the character and amount of each such expenditure and the amortization period selected for each expenditure.

(2) The provisions of subparagraph (1) of this paragraph shall apply to income tax returns and statements required to be filed after May 4, 1960. Elections properly made in accordance with the provisions of Treasury Decision 6209, approved October 26, 1956 (21 FR 8319, C.B. 1956–2, 1370), continue in effect.

§1.178–1 Depreciation or amortization of improvements on leased property and cost of acquiring a lease.

(a) *In general.* Section 178 provides rules for determining the amount of the deduction allowable for any taxable year to a lessee for depreciation or amortization of improvements made on leased property and as amortization of the cost of acquiring a lease. For purposes of section 178 the term *depreciation* means the deduction allowable for exhaustion, wear and tear, or obsolescence under provisions of the Code such as section 167 or 611 and the regulations thereunder and the term *amortization* means the deduction allowable for amortization of buildings or other improvements made on leased property or for amortization of the cost of acquiring a lease under provisions of the Code such as section 162 or 212 and the regulations thereunder. The provisions of section 178 are applicable with respect to costs of acquiring a lease incurred, and improvements begun, after July 28, 1958, other than improvements which, on July 28, 1958, and at all times thereafter, the lessee was under a binding legal obligation to make.

(b) *Determination of amount of deduction.* (1) In determining the amount of the deduction allowable to a lessee (other than a lessee who is related to the lessor within the meaning of § 1.178–2) for any taxable year for depreciation or amortization of improvements made on leased property, or for amortization in respect of the cost of acquiring a lease, the term of the lease shall, except as provided in subparagraph (2) of this paragraph, be treated as including all periods for which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee (whether or not specifically provided for in the lease) if:

(i) In the case of any building erected, or other improvements made, by the lessee on the leased property, the portion of the term of the lease (excluding all periods for which the lease may subsequently be renewed, extended, or continued pursuant to an option or options exercisable by the lessee) remaining upon the completion of such building or other improvements is less than 60 percent of the estimated useful life of such building or other improvements; or

(ii) In the case of any cost of acquiring the lease, less than 75 percent of such cost is attributable to the portion of the term of the lease (excluding all periods for which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee) remaining on the date of its acquisition.

(2) The rules provided in subparagraph (1) of this paragraph shall not apply if the lessee establishes that, as of the close of the taxable year, it is more probable that the lease will not be renewed, extended, or continued than that the lease will be renewed, extended, or continued. In such case, the cost of improvements made on leased property or the cost of acquiring a lease shall be amortized over the remaining term of the lease without regard to any options exercisable by the lessee to renew, extend, or continue the lease. The probability test referred to in the first sentence of this subparagraph shall be applicable to each option period to which the lease may be renewed, extended, or continued. The establishment by a lessee as of the close of the taxable year that it is more probable that the lease will not be renewed, extended, or continued will ordinarily be effective as of the close of such taxable year and any subsequent taxable year, and the deduction for amortization will be based on the term of the lease without regard to any periods for which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee. However, in appropriate cases, if the facts as of the close of any subsequent taxable year indicate that it is more probable that the lease will be renewed, extended, or continued, the deduction for amortization (or depreciation) shall, beginning with the first day of such subsequent taxable year, be determined by including in the remaining term of the lease all periods for which it is more probable that the lease will be renewed, extended, or continued.

(3) If at any time the remaining term of the lease determined in accordance with section 178 and this section is equal to or of longer duration than the then estimated useful life of the improvements made on the leased property by the lessee, the cost of such improvements shall be depreciated over the estimated useful life of such improvements under the provisions of section 167 and the regulations thereunder.

(4) For purposes of section 178(a)(1) and this section, the date on which the building erected or other improvements made are completed is the date on which the building or improvements are usable, whether or not used.

(5)(i) For purposes of section 178(a)(2) and this section, the portion of the cost of acquiring a lease which is attributable to the term of the lease remaining on the date of its acquisition without regard to options exercisable by the lessee to renew, extend, or continue the lease shall be determined on the basis of the facts and circumstances of each case. In some cases, it may be appropriate to determine such portion of the cost of acquiring a lease by applying the principles used to measure the present value of an annuity. Where that method is used, such portion shall be determined by multiplying the cost of the lease by a fraction, the numerator comprised of a factor representing the present value of an annually recurring savings of $1 per year for the period of the remaining term of the lease (without regard to options to renew, extend, or continue the lease) at an appropriate rate of interest (determined on the basis of all the facts and circumstances in each case), and the denominator comprised of a factor representing the present value of $1 per year for the period of the remaining term of the lease including the options to renew, extend, or continue the lease at an appropriate rate of interest.

(ii) The provisions of this subparagraph may be illustrated by the following example:

Example. Lessee A acquires a lease with respect to unimproved property at a cost of $100,000 at which time there are 21 years remaining in the original term of the lease with two renewal options of 21 years each. The lease provides for a uniform annual rental for the remaining term of the lease and the renewal periods. It has been determined that this is an appropriate case for the application of the principles used to measure the present value of an annuity. Assume that in this case the appropriate rate of interest is 5 percent. By applying the tables (Inwood) used to measure the present value of an annuity of $1 per year, the factor representing the present value of $1 per annum for 21 years at 5% is ascertained to be 12.821, and the factor representing the present value of $1 per annum for 63 years at 5% is 19.075. The portion of the cost of the lease ($100,000) attributable to the remaining term of the original lease (21 years) is 67.21% or $67,210 determined as follows:

12.821/19.075 or 67.21%.

(6) The provisions of this paragraph may be illustrated by the following examples:

Example 1. Lessee A constructs a building on land leased from lessor B. The construction is commenced on August 1, 1958, and is completed and placed in service on December 31, 1958, at which time A has 15 years remaining on his lease with an option to renew for an additional 20 years. Lessee A computes his taxable income on a calendar year basis. Lessee A was not, on July 28, 1958, under a binding legal obligation to erect the building. The building has an estimated useful life of 30 years. A is not related to B. Since the portion of the term of the lease (without regard to any renewals) remaining upon completion of the building (15 years) is less than 60 percent of the estimated useful life of the building (60 percent of 30 years, or 18 years), the term of the lease shall be treated as including the remaining portion of the original lease period and the renewal period, or 35 years. Since the estimated useful life of the building (30 years) is less than 35 years, the cost of the building shall, in accord with paragraph (b)(3) of this section, be depreciated under the provisions of section 167, over its estimated useful life. If, however, lessee A establishes, as of the close of the taxable year 1958, it is more probable that the lease will not be renewed than that it will be renewed, then in such case the remaining term of the lease shall be treated as including only the 15-year period remaining in the original lease. Since this is less than the estimated useful life of the building, the remaining cost of the building would be amortized over such 15-year period under the provisions of section 162 and the regulations thereunder.

Example 2. Assume the same facts as in *Example (1)*, except that A has 21 years remaining on his lease with an option to renew for an additional 10 years. Section 178(a) and paragraph (b)(1) of this section do not apply since the term of the lease remaining on the date of completion of the building (21 years) is not less than 60 percent of the estimated useful life of the building (60 percent of 30 years, or 18 years).

Example 3. Assume the same facts as in *Example (1)*, except that A has no renewal option until July 1, 1961, when lessor B grants A an option to renew the lease for a 10-year period. Because there is no option to renew the lease, the term of the lease is, for the taxable years 1959 and 1960 and for the first six months of the taxable year 1961, determined without regard to section 178(a). However, as of July 1, 1961, the date the renewal option is granted, section 178(a) and paragraph (b)(1) of this section become applicable since the portion of the term of the lease remaining upon completion of the building (15 years) was less than 60 percent of the estimated useful life of the building (60 percent of 30 years, or 18 years). As of July 1, 1961, the term of the lease shall be treated as including the remaining portion of the original lease period (12 1/2 years) and the 10-year renewal period, or 22 1/2 years, unless lessee A can establish that, as of the close of 1961, it is more probable that the lease will not be renewed than that it will be.

Example 4. On January 1, 1959, lessee A pays $10,000 to acquire a lease for 20 years with two options exercisable by him to renew for periods of 5 years each. Of the total $10,000 cost to acquire the lease, $7,000 was paid for the original 20-year lease period and the balance of $3,000 was paid for the renewal options. Since the $7,000 cost of acquiring the initial lease is less than 75 percent of the $10,000 cost of the lease ($7,500), the term of the lease shall be treated as including the original lease period and the 2 renewal periods, or 30 years. However, if lessee A establishes that, as of the close of the taxable year 1959, it is more probable that the lease will not be renewed than that it will be renewed, the term of the lease shall be treated as including only the original lease period, or 20 years.

Example 5. Assume the same facts as in *Example (4)*, except that the portion of the total cost ($10,000) paid for the 20-year original lease period is $8,000. Since the $8,000 cost of acquiring the original lease is not less than 75 percent of the $10,000 cost of the lease ($7,500), section 178(a) and paragraph (b)(1) of this section do not apply.

(c) *Application of section 178(a) where lessee gives notice to lessor of intention to exercise option.* (1) If the lessee has given notice to the lessor of his intention to renew, extend, or continue a lease, the lessee shall, for purposes of applying the provisions of section 178(a) and paragraph (b)(1) of this section, take into account such renewal or extension in determining the portion of the term of the lease remaining upon the completion of the improvements or on the date of the acquisition of the lease.

(2) The application of the provisions of this paragraph may be illustrated by the following examples:

Example 1. Lessee A constructs a building on land leased from lessor B. The construction was commenced on September 1, 1958, and was completed and placed in service on December 31, 1958. Lessee A was not, on July 28, 1958, under a binding legal obligation to erect the building. A and B are not related. At the time the building was completed (December 31, 1958), lessee A had 3 years remaining on his lease with 2 options to renew for periods of 20 years each. The estimated useful life of the building is 50 years. Prior to completion of the building, lessee A gives notice to lessor B of his intention to exercise the first 20-year option. Therefore, the portion of the term of the lease remaining on January 1, 1959, shall be the 3 years remaining in the original lease period plus the 20-year renewal period, or 23 years. Since the term of the lease remaining upon completion of the building (23 years) is less than 60 percent of the estimated useful life of the building (60 percent of 50 years, or 30 years), the provisions of section 178(a) and paragraph (b)(1) of this section are applicable. Accordingly, the term of the lease shall be treated as including the aggregate of the remaining term of the original lease (23 years) and the second 20-year renewal period or 43 years, unless lessee A establishes that it is more probable that the lease will not be renewed, extended, or continued under the second 20-year option than that it will be so renewed, extended, or continued under such option. If this is established by lessee A, then the term of the lease shall be treated as including only the remaining portion of the original lease period and the first 20-year renewal period, or 23 years.

Example 2. Assume the same facts as in *Example (1)*, except that the estimated useful life of the building is 30 years. Since the term of the lease remaining upon completion of the building (23 years) is not less than 60 percent of the estimated life of the building (60 percent of 30 years, or 18 years), the provisions of section 178(a) and paragraph (b)(1) of this section do not apply.

Example 3. If in *Examples (1)* and *(2)*, the lessee failed to give notice of his intention to exercise the renewal option, the renewal period would not be taken into account in computing the percentage requirements under section 178(a) and paragraph (b)(1) of this section. Thus, unless lessee A establishes the required probability, the provisions of section 178(a) and paragraph (b)(1) of this section would apply in both examples since the term of the lease remaining upon completion of the building (3 years) is less than 60 percent of the estimated useful life of the building in either example (60 percent of 50 years, or 30 years; 60 percent of 30 years, or 18 years).

(d) *Application of section 178 where lessee is related to lessor.* (1)(i) If the lessee and lessor are related persons within the meaning of section 178(b)(2) and § 1.178–2 at any time during the taxable year, the lease shall be treated as including a period of not less duration than the remaining estimated useful life of improvements made by the lessee on leased property for purposes of determining the amount of deduction allowable to the lessee for such taxable year for depreciation or amortization in respect of any building erected or other improvements made on leased property. If the lessee and lessor cease to be related persons during any taxable year, then for the immediately following and subsequent taxable years during which they continue to be unrelated, the amount allowable to the lessee as a deduction shall be determined without reference to section 178(b) and in accordance with section 178(a) or section 178(c), whichever is applicable.

(ii) Although the related lessee and lessor rule of section 178(b) and §1.178–2 does not apply in determining the period over which the cost of acquiring a lease may be amortized, the relationship between a lessee and lessor will be a significant factor in applying section 178 (a) and (c) in cases in which the lease may be renewed, extended, or continued pursuant to an option or options exercisable by the lessee.

(2) The application of the provisions of this paragraph may be illustrated by the following examples:

Example 1. Lessee A constructs a building on land leased from lessor B. The construction was commenced on August 1, 1958, and was completed and put in service on December 31, 1958. Lessee A was not on July 28, 1958, under a binding legal obligation to erect the building. On the completion date of the building, lessee A had 20 years remaining in his original lease period with an option to renew for an additional 20 years. The building has an estimated useful life of 50 years. During the taxable years 1959 and 1960, A and B are related persons within the meaning of section 178(b)(2) and §1.178–2, but they are not related persons at any time during the taxable year 1961 or during any subsequent taxable year. Since A and B are related persons during the taxable years 1959 and 1960, the term of the lease shall, for each of those years, be treated as 50 years. Section 178(a) and paragraph (b)(1) of this section become applicable in the taxable year 1961 since A and B are not related persons at any time during that year and because the portion of the original lease period remaining at the time the building was completed (20 years) is less than 60 percent of the estimated useful life of the building (60 percent of 50 years, or 30 years). Thus, the term of the lease shall, beginning on January 1, 1961, be treated as including the remaining portion of the original lease period (18 years) and the renewal period (20 years), or 38 years, unless lessee A can establish that, as of the close of the taxable year 1961 or any subsequent taxable year, it is more probable that the lease will not be renewed than that it will be renewed.

Example 2. Assume the same facts as in *Example (1),* except that the estimated useful life of the building is 30 years. During the taxable years 1959 and 1960, the term of the lease shall be treated as 30 years. For the taxable year 1961, however, neither section 178(a) nor section 178(b) apply since the percentage requirement of section 178(a) and paragraph (b) of this section are not satisfied and A and B are not related persons within the meaning of section 178(b)(2) and §1.178–2.

[T.D. 6520, 25 FR 13689, Dec. 24, 1960]

§1.178–2 Related lessee and lessor.

(a) For purposes of section 178 and §1.178–1, a lessor and lessee shall be considered to be related persons if:

(1) The lessor and lessee are members of an affiliated group, as defined in section 1504 and the regulations thereunder; or

(2) The relationship between the lessor and lessee is one described in section 267(b), except that the phrase ‘‘80 percent or more’’ shall be substituted for the phrase ‘‘more than 50 percent’’ wherever such phrase appears in section 267(b).

(b) In the application of section 267(b) for purposes of section 178, the rules provided in section 267(c) shall apply, except that the family of an individual shall include only his spouse, ancestors, and lineal descendants. Thus, if the lessee is the brother or sister of the lessor, the lessee and lessor will not be considered to be related persons for purposes of section 178 and §1.178–1. If the lessor leases property to a corporation of which he owns 80 percent or more in value of the outstanding stock, the lessor and lessee shall be considered to be related persons. On the other hand, if the lessor leases property to a corporation of which he owns less than 80 percent in value of the outstanding stock and his brother owns the remaining stock, the lessor and lessee will not be considered to be related persons.

(c) If a relationship described in section 267(b) exists independently of family status, the brother-sister exception does not apply. For example, if the lessor leases property to the fiduciary of a trust of which he is the grantor, the lessor and lessee will be considered to be related persons for purposes of section 178. This result obtains whether or not the fiduciary is the brother or sister of the lessor since the disqualifying relationship exists because of the grantor-fiduciary status and not because of family status.

[T.D. 6520, 25 FR 13691, Dec. 24, 1960]

§ 1.178–3 Reasonable certainty test.

(a) In any case in which neither section 178 (a) nor (b) applies, the determination as to the amount of the deduction allowable to a lessee for any taxable year for depreciation or amortization in respect of any building erected, or other improvements made, on leased property, or in respect of any cost of acquiring a lease, shall be made with reference to the original term of the lease (excluding any period for which the lease may subsequently be renewed, extended, or continued pursuant to an option exercisable by the lessee) unless the lease has been renewed, extended, or continued, or the facts show with reasonable certainty that the lease will be renewed, extended, or continued. In a case in which the facts show with reasonable certainty that the lease will be renewed, extended, or continued, the term of the lease shall, beginning with the taxable year in which such reasonable certainty is shown, be treated as including the period or periods for which it is reasonably certain that the lease will be renewed, extended, or continued. If the lessee has given notice to the lessor of his intention to renew, extend, or continue a lease, the lease shall be considered as renewed, extended, or continued for the periods specified in the notice. See paragraph (c) of § 1.178–1.

(b) The reasonable certainty test is applicable to each option to which the lease is subject. Thus, in a case of two successive options, the facts in a particular taxable year may show with reasonable certainty that the lease will be renewed pursuant to an exercise of only the first option; and, beginning with such year, the term of the lease will be treated as including the first option, but not the second. If in a subsequent taxable year the facts show with reasonable certainty that the second option will also be exercised, the term of the lease shall, beginning with such subsequent taxable year, be treated as including both options. Although the related lessee and lessor rule of section 178(b) and paragraph (d) of § 1.178–1 does not apply in determining the period over which the cost of acquiring a lease may be amortized, the relationship between the lessee and lessor will be a significant factor in determining whether the ‘‘reasonable certainty’’ rule of section 178(c) and this section applies.

(c) The application of the provisions of this section may be illustrated by the following examples:

Example 1. Corporation A leases land from lessor B for a period of 30 years beginning with January 1, 1958. Corporation A and lessor B are not related persons. The lease provides that Corporation A will have two renewal options of 5 years each at the same annual rental as specified in the lease for the initial 30 years. Corporation A constructs a factory building on the leased land at a cost of $100,000. Corporation A was not, on July 28, 1958, under a binding legal obligation to erect the building. The construction was commenced on August 1, 1958, and was completed and placed in service on December 31, 1958. On January 1, 1959, Corporation A has 29 years remaining in the initial term of the lease. The estimated useful life of the building on January 1, 1959, is 40 years. The location of the leased property is particularly suitable for Corporation A’s business and the annual rental of the property is lower than A would have to pay for other suitable property. No factors are present which establish that these conditions will not continue to exist beyond the initial term of the lease. Since the period remaining in the initial term of the lease on January 1, 1959 (29 years) is not less than 60 percent of the estimated useful life of the building (60 percent of 40 years, or 24 years), the provisions of section 178(a) and paragraph (b)(1) of § 1.178–1 do not apply, and since Corporation A and lessor B are not related, section 178(b) and paragraph (d) of § 1.178–1 do not apply. However, since the facts show with reasonable certainty that Corporation A will renew the lease for the period of the two options (10 years), the cost of the building shall be amortized over the term of the lease, including the two renewal options, or 39 years.

Example 2. Assume the same facts as in *Example (1)*, except that a term of 30 years is the longest period that lessor B is willing to lease the unimproved property; that there was no agreement that Corporation A will have any renewal options; and that any other location would be as suitable for Corporation A’s business as the leased property. Since the facts do not show with reasonable certainty that the initial term of the lease will be renewed, extended, or continued, Corporation A shall amortize the cost of the building over the remaining term of the lease, or 29 years.

[T.D. 6520, 25 FR 13691, Dec. 24, 1960]

§1.179–0 Table of contents for section 179 expensing rules.

This section lists captioned paragraphs contained in §§1.179–1 through 1.179–6.

§1.179–1 Election to Expense Certain Depreciable Assets

(a) In general.
(b) Cost subject to expense.
(c) Proration not required.
(1) In general.
(2) Example.
(d) Partial business use.
(1) In general.
(2) Example.
(3) Additional rules that may apply.
(e) Change in use; recapture.
(1) In general.
(2) Predominant use.
(3) Basis; application with section 1245.
(4) Carryover of disallowed deduction.
(5) Example.
(f) Basis.
(1) In general.
(2) Special rules for partnerships and S corporations.
(3) Special rules with respect to trusts and estates which are partners or S corporation shareholders.
(g) Disallowance of the section 38 credit.
(h) Partnerships and S corporations.
(1) In general.
(2) Example.
(i) Leasing of section 179 property.
(1) In general.
(2) Noncorporate lessor.
(j) Application of sections 263 and 263A.
(k) Cross references.

§1.179–2 Limitations on Amount Subject to Section 179 Election

(a) In general.
(b) Dollar limitation.
(1) In general.
(2) Excess section 179 property.
(3) Application to partnerships.
(i) In general.
(ii) Example.
(iii) Partner's share of section 179 expenses.
(iv) Taxable year.
(v) Example.
(4) S corporations.
(5) Joint returns.
(i) In general.
(ii) Joint returns filed after separate returns.
(iii) Example.
(6) Married individuals filing separately.
(i) In general.
(ii) Example.
(7) Component members of a controlled group.
(i) In general.
(ii) Statement to be filed.
(iii) Revocation.
(c) Taxable income limitation.
(1) In general.
(2) Application to partnerships and partners.
(i) In general.
(ii) Taxable year.
(iii) Example.
(iv) Taxable income of a partnership.
(v) Partner's share of partnership taxable income.
(3) S corporations and S corporation shareholders.
(i) In general.
(ii) Taxable income of an S corporation.
(iii) Shareholder's share of S corporation taxable income.
(4) Taxable income of a corporation other than an S corporation.
(5) Ordering rule for certain circular problems.
(i) In general.
(ii) Example.
(6) Active conduct by the taxpayer of a trade or business.
(i) Trade or business.
(ii) Active conduct.
(iii) Example.
(iv) Employees.
(7) Joint returns.
(i) In general.
(ii) Joint returns filed after separate returns.
(8) Married individuals filing separately.
(d) Examples.

§1.179–3 Carryover of Disallowed Deduction

(a) In general.
(b) Deduction of carryover of disallowed deduction.
(1) In general.
(2) Cross references.
(c) Unused section 179 expense allowance.
(d) Example.
(e) Recordkeeping requirement and ordering rule.
(f) Dispositions and other transfers of section 179 property.
(1) In general.
(2) Recapture under section 179(d)(10).
(g) Special rules for partnerships and S corporations.
(1) In general.
(2) Basis adjustment.
(3) Dispositions and other transfers of section 179 property by a partnership or an S corporation.
(4) Example.
(h) Special rules for partners and S corporation shareholders.
(1) In general.
(2) Dispositions and other transfers of a partner's interest in a partnership or a shareholder's interest in an S corporation.
(3) Examples.

§ 1.179–4 Definitions

(a) Section 179 property.
(b) Section 38 property.
(c) Purchase.
(d) Cost.
(e) Placed in service.
(f) Controlled group of corporations and component member of controlled group.

§ 1.179–5 Time and Manner of Making Election

(a) Election.
(b) Revocation.

§ 1.179–6 Effective Date

[T.D. 8455, 57 FR 61316, Dec. 24, 1992]

§ 1.179–1 Election to expense certain depreciable assets.

(a) *In general.* Section 179(a) allows a taxpayer to elect to expense the cost (as defined in § 1.179–4(d)), or a portion of the cost, of section 179 property (as defined in § 1.179–4(a)) for the taxable year in which the property is placed in service (as defined in § 1.179–4(e)). The election is not available for trusts, estates, and certain noncorporate lessors. See paragraph (i)(2) of this section for rules concerning noncorporate lessors. However, section 179(b) provides certain limitations on the amount that a taxpayer may elect to expense in any one taxable year. See §§ 1.179–2 and 1.179–3 for rules relating to the dollar and taxable income limitations and the carryover of disallowed deduction rules. For rules describing the time and manner of making an election under section 179, see § 1.179–5. For the effective date, see § 1.179–6.

(b) *Cost subject to expense.* The expense deduction under section 179 is allowed for the entire cost or a portion of the cost of one or more items of section 179 property. This expense deduction is subject to the limitations of section 179(b) and § 1.179–2. The taxpayer may select the properties that are subject to the election as well as the portion of each property's cost to expense.

(c) *Proration not required*—(1) *In general.* The expense deduction under section 179 is determined without any proration based on—

(i) The period of time the section 179 property has been in service during the taxable year; or

(ii) The length of the taxable year in which the property is placed in service.

(2) *Example.* The following example illustrates the provisions of paragraph (c)(1) of this section.

Example. On December 1, 1991, X, a calendar-year corporation, purchases and places in service section 179 property costing $20,000. For the taxable year ending December 31, 1991, X may elect to claim a section 179 expense deduction on the property (subject to the limitations imposed under section 179(b)) without proration of its cost for the number of days in 1991 during which the property was in service.

(d) *Partial business use*—(1) *In general.* If a taxpayer uses section 179 property for trade or business as well as other purposes, the portion of the cost of the property attributable to the trade or business use is eligible for expensing under section 179 provided that more than 50 percent of the property's use in the taxable year is for trade or business purposes. The limitations of section179(b) and § 1.179–2 are applied to the portion of the cost attributable to the trade or business use.

(2) *Example.* The following example illustrates the provisions of paragraph (d)(1) of this section.

Example. A purchases section 179 property costing $10,000 in 1991 for which 80 percent of its use will be in A's trade or business. The cost of the property adjusted to reflect the business use of the property is $8,000 (80 percent × $10,000). Thus, A may elect to expense up to $8,000 of the cost of the property (subject to the limitations imposed under section 179(b) and § 1.179–2).

(3) *Additional rules that may apply.* If a section 179 election is made for ''listed property'' within the meaning of section 280F(d)(4) and there is personal use of the property, section 280F(d)(1), which provides rules that coordinate section 179 with the section 280F limitation on the amount of depreciation, may apply. If section 179 property is no longer predominantly used in the taxpayer's trade or business, paragraphs (e) (1) through (4) of this section, relating to recapture of the section 179 deduction, may apply.

(e) *Change in use; recapture*—(1) *In general.* If a taxpayer's section 179 property is not used predominantly in a trade or business of the taxpayer at any time before the end of the property's recovery period, the taxpayer must recapture in the taxable year in which the section 179 property is not used predominantly in a trade or business any benefit derived from expensing such property. The benefit derived from expensing the property is equal to the excess of the amount expensed under this section over the total amount that would have been allowable for prior taxable years and the taxable year of recapture as a deduction under section 168 (had section 179 not been elected) for the portion of the cost of the property to which the expensing relates (regardless of whether such excess reduced the taxpayer's tax liability). For purposes of the preceding sentence (i) the ''amount expensed under this section'' shall not include any amount that was not allowed as a deduction to a taxpayer because the taxpayer's aggregate amount of allowable section 179 expenses exceeded the section 179(b) dollar limitation, and (ii) in the case of an individual who does not elect to itemize deductions under section 63(g) in the taxable year of recapture, the amount allowable as a deduction under section 168 in the taxable year of recapture shall be determined by treating property used in the production of income other than rents or royalties as being property used for personal purposes. The amount to be recaptured shall be treated as ordinary income for the taxable year in which the property is no longer used predominantly in a trade or business of the taxpayer. For taxable years following the year of recapture, the taxpayer's deductions under section 1688(a) shall be determined as if no section 179 election with respect to the property had been made. However, see section 280F(d)(1) relating to the coordination of section 179 with the limitation on the amount of depreciation for luxury automobiles and where certain property is used for personal purposes. If the recapture rules of both section 280F(b)(2) and this paragraph (e)(1) apply to an item of section 179 property, the amount of recapture for such property shall be determined only under the rules of section 280F(b)(2).

(2) *Predominant use.* Property will be treated as not used predominantly in a trade or business of the taxpayer if 50 percent or more of the use of such property during any taxable year within the recapture period is for a use other than in a trade or business of the taxpayer. If during any taxable year of the recapture period the taxpayer disposes of the property (other than in a disposition to which section 1245(a) applies) or ceases to use the property in a trade or business in a manner that had the taxpayer claimed a credit under section 38 for such property such disposition or cessation in use would cause recapture under section 47, the property will be treated as not used in a trade or business of the taxpayer. However, for purposes of applying the recapture rules of section 47 pursuant to the preceding sentence, converting the use of the property from use in trade or business to use in the production of income will be treated as a conversion to personal use.

(3) *Basis; application with section 1245.* The basis of property with respect to which there is recapture under paragraph (e)(1) of this section shall be increased immediately before the event resulting in such recapture by the amount recaptured. If section 1245(a) applies to a disposition of property, there is no recapture under paragraph (e)(1) of this section.

(4) *Carryover of disallowed deduction.* See §1.179–3 for rules on applying the recapture provisions of this paragraph (e) when a taxpayer has a carryover of disallowed deduction.

(5) *Example.* The following example illustrates the provisions of paragraphs (e)(1) through (e)(4) of this section.

Example. A, a calendar-year taxpayer, purchases and places in service on January 1, 1991, section 179 property costing $15,000. The property is 5-year property for section 168 purposes and is the only item of depreciable property placed in service by A during 1991. A properly elects to expense $10,000 of the cost and elects under section 168(b)(5) to depreciate the remaining cost under the straight-line method. On January 1, 1992, A converts the property from use in A's business to use for the production of income, and A uses the property in the latter capacity for the entire year. A elects to itemize deductions for 1992. Because the property was not predominantly used in A's trade or business in 1992, A must recapture any benefit derived from expensing the property under section 179. Had A not elected to expense the $10,000 in 1991, A would have been entitled to deduct, under section 168, 10 percent of the $10,000 in 1991, and 20 percent of the $10,000 in 1992. Therefore, A must include $7,000 in ordinary income for the 1992 taxable year, the excess of $10,000 (the section 179 expense amount) over $3,000 (30 percent of $10,000).

(f) *Basis*—(1) *In general.* A taxpayer who elects to expense under section 179 must reduce the depreciable basis of the section 179 property by the amount of the section 179 expense deduction.

(2) *Special rules for partnerships and S corporations.* Generally, the basis of a partnership or S corporation's section 179 property must be reduced to reflect the amount of section 179 expense elected by the partnership or S corporation. This reduction must be made in the basis of partnership or S corporation property even if the limitations of section 179(b) and § 1.179–2 prevent a partner in a partnership or a shareholder in an S corporation from deducting all or a portion of the amount of the section 179 expense allocated by the partnership or S corporation. See § 1.179–3 for rules on applying the basis provisions of this paragraph (f) when a person has a carryover of disallowed deduction.

(3) *Special rules with respect to trusts and estates which are partners or S corporation shareholders.* Since the section 179 election is not available for trusts or estates, a partner or S corporation shareholder that is a trust or estate may not deduct its allocable share of the section 179 expense elected by the partnership or S corporation. The partnership or S corporation's basis in section 179 property shall not be reduced to reflect any portion of the section 179 expense that is allocable to the trust or estate. Accordingly, the partnership or S corporation may claim a depreciation deduction under section 168 or a section 38 credit (if available) with respect to any depreciable basis resulting from the trust or estate's inability to claim its allocable portion of the section 179 expense.

(g) *Disallowance of the section 38 credit.* If a taxpayer elects to expense under section 179, no section 38 credit is allowable for the portion of the cost expensed. In addition, no section 38 credit shall be allowed under section 48(d) to a lessee of property for the portion of the cost of the property that the lessor expensed under section 179.

(h) *Partnerships and S corporations*—(1) *In general.* In the case of property purchased and placed in service by a partnership or an S corporation, the determination of whether the property is section 179 property is made at the partnership or S corporation level. The election to expense the cost of section 179 property is made by the partnership or the S corporation. See sections 703(b), 1363(c), 6221, 6231(a)(3), 6241, and 6245.

(2) *Example.* The following example illustrates the provisions of paragraph (h)(1) of this section.

Example. A owns certain residential rental property as an investment. A and others form ABC partnership whose function is to rent and manage such property. A and ABC partnership file their income tax returns on a calendar-year basis. In 1991, ABC partnership purchases and places in service office furniture costing $20,000 to be used in the active conduct of ABC's business. Although the office furniture is used with respect to an investment activity of A, the furniture is being used in the active conduct of ABC's trade or business. Therefore, because the determination of whether property is section 179 property is made at the partnership level, the office furniture is section 179 property and ABC may elect to expense a portion of its cost under section 179.

(i) *Leasing of section 179 property*—(1) *In general.* A lessor of section 179 property who is treated as the owner of the property for Federal tax purposes will be entitled to the section 179 expense deduction if the requirements of section 179 and the regulations thereunder are met. These requirements will not be met if the lessor merely holds the property for the production of income. For certain leases entered into prior to January 1, 1984, the safe harbor provisions of section 168(f)(8) apply in determining whether an agreement is treated as a lease for Federal tax purposes.

(2) *Noncorporate lessor.* In determining the class of taxpayers (other than an estate or trust) for which section 179 is applicable, section 179(d)(5) provides that if a taxpayer is a noncorporate lessor (*i.e.*, a person who is not a corporation and is a lessor), the taxpayer shall not be entitled to claim a section 179 expense for section 179 property purchased and leased by the taxpayer unless the taxpayer has satisfied all of the requirements of section 179(d)(5)(A) or (B).

(j) *Application of sections 263 and 263A.* Under section 263(a)(1)(G), expenditures for which a deduction is allowed under section 179 and this section are excluded from capitalization under section 263(a). Under this paragraph (j), amounts allowed as a deduction under section 179 and this section are excluded from the application of the uniform capitalization rules of section 263A.

(k) *Cross references.* See section 453(i) and the regulations thereunder with respect to installment sales of section 179 property. See section 1033(g)(3) and the regulations thereunder relating to condemnation of outdoor advertising displays. See section 1245(a) and the regulations thereunder with respect to recapture rules for section 179 property.

[T.D. 8121, 52 FR 410, Jan. 6, 1987, as amended by T.D. 8455, 57 FR 61316, Dec. 24, 1992]

§1.179–2 Limitations on amount subject to section 179 election.

(a) *In general.* Sections 179(b) (1) and (2) limit the aggregate cost of section 179 property that a taxpayer may elect to expense under section 179 for any one taxable year (dollar limitation). See paragraph (b) of this section. Section 179(b)(3)(A) limits the aggregate cost of section 179 property that a taxpayer may deduct in any taxable year (taxable income limitation). See paragraph (c) of this section. Any cost that is elected to be expensed but that is not currently deductible because of the taxable income limitation may be carried forward to the next taxable year (carryover of disallowed deduction). See §1.179–3 for rules relating to carryovers of disallowed deductions. See also sections 280F(a), (b), and (d)(1) relating to the coordination of section 179 with the limitations on the amount of depreciation for luxury automobiles and other listed property. The dollar and taxable income limitations apply to each taxpayer and not to each trade or business in which the taxpayer has an interest.

(b) *Dollar limitation*—(1) *In general.* The aggregate cost of section 179 property that a taxpayer may elect to expense under section 179 for any taxable year is $10,000 reduced (but not below zero) by the amount of any excess section 179 property (described in paragraph (b)(2) of this section) placed in service during the taxable year.

(2) *Excess section 179 property.* The amount of any excess section 179 property for a taxable year equals the excess (if any) of—

(i) The cost of section 179 property placed in service by the taxpayer in the taxable year; over

(ii) $200,000.

(3) *Application to partnerships*—(i) *In general.* The dollar limitation of this paragraph (b) applies to the partnership as well as to each partner. In applying the dollar limitation to a taxpayer that is a partner in one or more partnerships, the partner's share of section 179 expenses allocated to the partner from each partnership is aggregated with any nonpartnership section 179 expenses of the taxpayer for the taxable year. However, in determining the excess section 179 property placed in service by a partner in a taxable year, the cost of section 179 property placed in service by the partnership is not attributed to any partner.

(ii) *Example.* The following example illustrates the provisions of paragraph (b)(3)(i) of this section.

Example. During 1991, CD, a calendar-year partnership, purchases and places in service section 179 property costing $150,000 and elects under section 179(c) and §1.179–5 to expense $10,000 of the cost of that property. CD properly allocates to C, a calendar-year taxpayer and a partner in CD, $5,000 of section 179 expenses (C's distributive share of CD's section 179 expenses for 1991). In applying the dollar limitation to C for 1991, C must include the $5,000 of section 179 expenses allocated from CD. However, in determining the amount of any excess section 179 property C placed in service during 1991, C does not include any of the cost of section 179 property placed in service by CD, including the $5,000 of cost represented by the $5,000 of section 179 expenses allocated to C by the partnership.

(iii) *Partner's share of section 179 expenses.* Section 704 and the regulations thereunder govern the determination of a partner's share of a partnership's section 179 expenses for any taxable year. However, no allocation among partners of the section 179 expenses may be modified after the due date of the partnership return (without regard to extensions of time) for the taxable year for which the election under section 179 is made.

(iv) *Taxable year.* If the taxable years of a partner and the partnership do not coincide, then for purposes of section 179, the amount of the partnership's section 179 expenses attributable to a partner for a taxable year is determined under section 706 and the regulations thereunder (generally the partner's distributive share of partnership section 179 expenses for the partnership year that ends with or within the partner's taxable year).

(v) *Example.* The following example illustrates the provisions of paragraph (b)(3)(iv) of this section.

Example. AB partnership has a taxable year ending January 31. A, a partner of AB, has a taxable year ending December 31. AB purchases and places in service section 179 property on March 10, 1991, and elects to expense a portion of the cost of that property under section 179. Under section 706 and § 1.706–1(a)(1), A will be unable to claim A's distributive share of any of AB's section 179 expenses attributable to the property placed in service on March 10, 1991, until A's taxable year ending December 31, 1992.

(4) *S Corporations.* Rules similar to those contained in paragraph (b)(3) of this section apply in the case of S corporations (as defined in section 1361(a)) and their shareholders. Each shareholder's share of the section 179 expenses of an S corporation is determined under section 1366.

(5) *Joint returns*—(i) *In General.* A husband and wife who file a joint income tax return under section 6013(a) are treated as one taxpayer in determining the amount of the dollar limitation under paragraph (b)(1) of this section, regardless of which spouse purchased the property or placed it in service.

(ii) *Joint returns filed after separate returns.* In the case of a husband and wife who elect under section 6013(b) to file a joint income tax return for a taxable year after the time prescribed by law for filing the return for such taxable year has expired, the dollar limitation under paragraph (b)(1) of this section is the lesser of—

(A) The dollar limitation (as determined under paragraph (b)(5)(i) of this section); or

(B) The aggregate cost of section 179 property elected to be expensed by the husband and wife on their separate returns.

(iii) *Example.* The following example illustrates the provisions of paragraph (b)(5)(ii) of this section.

Example. During 1991, Mr. and Mrs. B, both calendar-year taxpayers, purchase and place in service section 179 property costing $100,000. On their separate returns for 1991, Mr. B elects to expense $3,000 of section 179 property as an expense and Mrs. B elects to expense $4,000. After the due date of the return they elect under section 6013(b) to file a joint income tax return for 1991. The dollar limitation for their joint income tax return is $7,000, the lesser of the dollar limitation ($10,000) or the aggregate cost elected to be expensed under section 179 on their separate returns ($3,000 elected by Mr. B plus $4,000 elected by Mrs. B, or $7,000).

(6) *Married individuals filing separately*—(i) *In general.* In the case of an individual who is married but files a separate income tax return for a taxable year, the dollar limitation of this paragraph (b) for such taxable year is the amount that would be determined under paragraph (b)(5)(i) of this section if the individual filed a joint income tax return under section 6013(a) multiplied by either the percentage elected by the individual under this paragraph (b)(6) or 50 percent. The election in the preceding sentence is made in accordance with the requirements of section 179(c) and § 1.179–5. However, the amount determined under paragraph (b)(5)(i) of this section must be multiplied by 50 percent if either the individual or the individual's spouse does not elect a percentage under this paragraph (b)(6) or the sum of the percentages elected by the individual and the individual's spouse does not equal 100 percent. For purposes of this paragraph (b)(6), marital status is determined under section 7703 and the regulations thereunder.

(ii) *Example.* The following example illustrates the provisions of paragraph (b)(6)(i) of this section.

Example. Mr. and Mrs. D, both calendar-year taxpayers, file separate income tax returns for 1991. During 1991, Mr. D places $195,000 of section 179 property in service and Mrs. D places $9,000 of section 179 property in service. Neither of them elects a percentage under paragraph (b)(6)(i) of this section. The 1991 dollar limitation for both Mr. D and Mrs. D is determined by multiplying by 50 percent the dollar limitation that would apply had they filed a joint income tax return. Had Mr. and Mrs. D filed a joint return for 1991, the dollar limitation would have been $6,000, $10,000 reduced by the excess section 179 property they placed in service during 1991 ($195,000 placed in service by Mr. D plus $9,000 placed in service by Mrs. D less $200,000, or $4,000). Thus, the 1991 dollar limitation for Mr. and Mrs. D is $3,000 each ($6,000 multiplied by 50 percent).

(7) *Component members of a controlled group*—(i) *In general.* Component members of a controlled group (as defined in §1.179–4(f)) on December 31 are treated as one taxpayer in applying the dollar limitation of sections 179(b) (1) and (2) and this paragraph (b). The expense deduction may be taken by any one component member or allocated (for the taxable year of each member that includes that December 31) among the several members in any manner. Any allocation of the expense deduction must be pursuant to an allocation by the common parent corporation if a consolidated return is filed for all component members of the group, or in accordance with an agreement entered into by the members of the group if separate returns are filed. If a consolidated return is filed by some component members of the group and separate returns are filed by other component members, the common parent of the group filing the consolidated return must enter into an agreement with those members that do not join in filing the consolidated return allocating the amount between the group filing the consolidated return and the other component members of the controlled group that do not join in filing the consolidated return. The amount of the expense allocated to any component member, however, may not exceed the cost of section 179 property actually purchased and placed in service by the member in the taxable year. If the component members have different taxable years, the term *taxable year* in sections 179(b) (1) and (2) means the taxable year of the member whose taxable year begins on the earliest date.

(ii) *Statement to be filed.* If a consolidated return is filed, the common parent corporation must file a separate statement attached to the income tax return on which the election is made to claim an expense deduction under section 179. See §1.179–5. If separate returns are filed by some or all component members of the group, each component member not included in a consolidated return must file a separate statement attached to the income tax return on which an election is made to claim a deduction under section 179. The statement must include the name, address, employer identification number, and the taxable year of each component member of the controlled group, a copy of the allocation agreement signed by persons duly authorized to act on behalf of the component members, and a description of the manner in which the deduction under section 179 has been divided among the component members.

(iii) *Revocation.* If a consolidated return is filed for all component members of the group, an allocation among such members of the expense deduction under section 179 may not be revoked after the due date of the return (including extensions of time) of the common parent corporation for the taxable year for which an election to take an expense deduction is made. If some or all of the component members of the controlled group file separate returns for taxable years including a particular December 31 for which an election to take the expense deduction is made, the allocation as to all members of the group may not be revoked after the due date of the return (including extensions of time) of the component member of the controlled group whose taxable year that includes such December 31 ends on the latest date.

(c) *Taxable income limitation*—(1) *In general.* The aggregate cost of section 179 property elected to be expensed under section 179 that may be deducted for any taxable year may not exceed the aggregate amount of taxable income of the taxpayer for such taxable year that is derived from the active conduct by the taxpayer of any trade or business during the taxable year. For purposes of section 179(b)(3) and this paragraph (c), the aggregate amount of taxable income derived from the active conduct by an individual, a partnership, or an S corporation of any trade or business is computed by aggregating the net income (or loss) from all of the trades or businesses actively conducted by the individual, partnership, or S corporation during the taxable year. Items of income that are derived from the active conduct of a trade or business include section 1231 gains (or losses) from the trade or business and interest from working capital of the trade or business. Taxable income derived from the active conduct of a trade or business is computed without regard to the deduction allowable under section 179, any section 164(f) deduction, any net operating loss carryback or carryforward, and deductions suspended under any section of the Code. See paragraph (c)(6) of this section for rules on determining whether a taxpayer is engaged in the active conduct of a trade or business for this purpose.

(2) *Application to partnerships and partners*—(i) *In general.* The taxable income limitation of this paragraph (c) applies to the partnership as well as to each partner. Thus, the partnership may not allocate to its partners as a section 179 expense deduction for any taxable year more than the partnership's taxable income limitation for that taxable year, and a partner may not deduct as a section 179 expense deduction for any taxable year more than the partner's taxable income limitation for that taxable year.

(ii) *Taxable year.* If the taxable year of a partner and the partnership do not coincide, then for purposes of section 179, the amount of the partnership's taxable income attributable to a partner for a taxable year is determined under section 706 and the regulations thereunder (generally the partner's distributive share of partnership taxable income for the partnership year that ends with or within the partner's taxable year).

(iii) *Example.* The following example illustrates the provisions of paragraph (c)(2)(ii) of this section.

Example AB partnership has a taxable year ending January 31. A, a partner of AB, has a taxable year ending December 31. For AB's taxable year ending January 31, 1992, AB has taxable income from the active conduct of its trade or business of $100,000, $90,000 of which was earned during 1991. Under section 706 and § 1.706–1(a)(1), A includes A's entire share of partnership taxable income in computing A's taxable income limitation for A's taxable year ending December 31, 1992.

(iv) *Taxable income of a partnership.* The taxable income (or loss) derived from the active conduct by a partnership of any trade or business is computed by aggregating the net income (or loss) from all of the trades or businesses actively conducted by the partnership during the taxable year. The net income (or loss) from a trade or business actively conducted by the partnership is determined by taking into account the aggregate amount of the partnership's items described in section 702(a) (other than credits, tax-exempt income, and guaranteed payments under section 707(c)) derived from that trade or business. For purposes of determining the aggregate amount of partnership items, deductions and losses are treated as negative income. Any limitation on the amount of a partnership item described in section 702(a) which may be taken into account for purposes of computing the taxable income of a partner shall be disregarded in computing the taxable income of the partnership.

(v) *Partner's share of partnership taxable income.* A taxpayer who is a partner in a partnership and is engaged in the active conduct of at least one of the partnership's trades or businesses includes as taxable income derived from the active conduct of a trade or business the amount of the taxpayer's allocable share of taxable income derived from the active conduct by the partnership of any trade or business (as determined under paragraph (c)(2)(iv) of this section).

(3) *S corporations and S corporation shareholders*—(i) *In general.* Rules similar to those contained in paragraphs (c)(2) (i) and (ii) of this section apply in the case of S corporations (as defined in section 1361(a)) and their shareholders. Each shareholder's share of the taxable income of an S corporation is determined under section 1366.

(ii) *Taxable income of an S corporation.* The taxable income (or loss) derived from the active conduct by an S corporation of any trade or business is computed by aggregating the net income (or loss) from all of the trades or businesses actively conducted by the S corporation during the taxable year. The net income (or loss) from a trade or business actively conducted by an S corporation is determined by taking into account the aggregate amount of the S corporation's items described in section 1366(a) (other than credits, tax-exempt income, and deductions for compensation paid to an S corporation's shareholder-employees) derived from that trade or business. For purposes of determining the aggregate amount of S corporation items, deductions and losses are treated as negative income. Any limitation on the amount of an S corporation item described in section 1366(a) which may be taken into account for purposes of computing the taxable income of a shareholder shall be disregarded in computing the taxable income of the S corporation.

(iii) *Shareholder's share of S corporation taxable income.* Rules similar to those contained in paragraph (c)(2)(v) and (c)(6)(ii) of this section apply to a taxpayer who is a shareholder in an S corporation and is engaged in the active conduct of the S corporation's trades or businesses.

(4) *Taxable income of a corporation other than an S corporation.* The aggregate amount of taxable income derived from the active conduct by a corporation other than an S corporation of any trade or business is the amount of the corporation's taxable income before deducting its net operating loss deduction and special deductions (as reported on the corporation's income tax return), adjusted to reflect those items of income or deduction included in that amount that were not derived by the corporation from a trade or business actively conducted by the corporation during the taxable year.

(5) *Ordering rule for certain circular problems*—(i) *In general.* A taxpayer who elects to expense the cost of section 179 property (the deduction of which is subject to the taxable income limitation) also may have to apply another Internal Revenue Code section that has a limitation based on the taxpayer's taxable income. Except as provided in paragraph (c)(1) of this section, this section provides rules for applying the taxable income limitation under section 179 in such a case. First, taxable income is computed for the other section of the Internal Revenue Code. In computing the taxable income of the taxpayer for the other section of the Internal Revenue Code, the taxpayer's section 179 deduction is computed by assuming that the taxpayer's taxable income is determined without regard to the deduction under the other Internal Revenue Code section. Next, after reducing taxable income by the amount of the section 179 deduction so computed, a hypothetical amount of deduction is determined for the other section of the Internal Revenue Code. The taxable income limitation of the taxpayer under section 179(b)(3) and this paragraph (c) then is computed by including that hypothetical amount in determining taxable income.

(ii) *Example.* The following example illustrates the ordering rule described in paragraph (c)(5)(i) of this section.

Example. X, a calendar-year corporation, elects to expense $10,000 of the cost of section 179 property purchased and placed in service during 1991. Assume X's dollar limitation is $10,000. X also gives a charitable contribution of $5,000 during the taxable year. X's taxable income for purposes of both sections 179 and 170(b)(2), but without regard to any deduction allowable under either section 179 or section 170, is $11,000. In determining X's taxable income limitation under section 179(b)(3) and this paragraph (c), X must first compute its section 170 deduction. However, section 170(b)(2) limits X's charitable contribution to 10 percent of its taxable income determined by taking into account its section 179 deduction. Paragraph (c)(5)(i) of this section provides that in determining X's section 179 deduction for 1991, X first computes a hypothetical section 170 deduction by assuming that its section 179 deduction is not affected by the section 170 deduction. Thus, in computing X's hypothetical section 170 deduction, X's taxable income limitation under section 179 is $11,000 and its section 179 deduction is $10,000. X's hypothetical section 170 deduction is $100 (10 percent of $1,000 ($11,000 less $10,000 section 179 deduction)). X's taxable income limitation for section 179 purposes is then computed by deducting the hypothetical charitable contribution of $100 for 1991. Thus, X's section 179 taxable income limitation is $10,900 ($11,000 less hypothetical $100 section 170 deduction), and its section 179 deduction for 1991 is $10,000. X's section 179 deduction so calculated applies for all purposes of the Code, including the computation of its actual section 170 deduction.

(6) *Active conduct by the taxpayer of a trade or business*—(i) *Trade or business.* For purposes of this section and §1.179–4(a), the term *trade or business* has the same meaning as in section 162 and the regulations thereunder. Thus, property held merely for the production of income or used in an activity not engaged in for profit (as described in section 183) does not qualify as section 179

property and taxable income derived from property held for the production of income or from an activity not engaged in for profit is not taken into account in determining the taxable income limitation.

(ii) *Active conduct.* For purposes of this section, the determination of whether a trade or business is actively conducted by the taxpayer is to be made from all the facts and circumstances and is to be applied in light of the purpose of the active conduct requirement of section 179(b)(3)(A). In the context of section 179, the purpose of the active conduct requirement is to prevent a passive investor in a trade or business from deducting section 179 expenses against taxable income derived from that trade or business. Consistent with this purpose, a taxpayer generally is considered to actively conduct a trade or business if the taxpayer meaningfully participates in the management or operations of the trade or business. Generally, a partner is considered to actively conduct a trade or business of the partnership if the partner meaningfully participates in the management or operations of the trade or business. A mere passive investor in a trade or business does not actively conduct the trade or business.

(iii) *Example.* The following example illustrates the provisions of paragraph (c)(6)(ii) of this section.

Example. A owns a salon as a sole proprietorship and employs B to operate it. A periodically meets with B to review developments relating to the business. A also approves the salon's annual budget that is prepared by B. B performs all the necessary operating functions, including hiring beauticians, acquiring the necessary beauty supplies, and writing the checks to pay all bills and the beauticians' salaries. In 1991, B purchased, as provided for in the salon's annual budget, equipment costing $9,500 for use in the active conduct of the salon. There were no other purchases of section 179 property during 1991. A's net income from the salon, before any section 179 deduction, totaled $8,000. A also is a partner in PRS, a calendar-year partnership, which owns a grocery store. C, a partner in PRS, runs the grocery store for the partnership, making all the management and operating decisions. PRS did not purchase any section 179 property during 1991. A's allocable share of partnership net income was $6,000. Based on the facts and circumstances, A meaningfully participates in the management of the salon. However, A does not meaningfully participate in the management or operations of the trade or business of PRS. Under section 179(b)(3)(A) and this paragraph (c), A's aggregate taxable income derived from the active conduct by A of any trade or business is $8,000, the net income from the salon.

(iv) *Employees.* For purposes of this section, employees are considered to be engaged in the active conduct of the trade or business of their employment. Thus, wages, salaries, tips, and other compensation (not reduced by unreimbursed employee business expenses) derived by a taxpayer as an employee are included in the aggregate amount of taxable income of the taxpayer under paragraph (c)(1) of this section.

(7) *Joint returns*—(i) *In general.* The taxable income limitation of this paragraph (c) is applied to a husband and wife who file a joint income tax return under section 6013(a) by aggregating the taxable income of each spouse (as determined under paragraph (c)(1) of this section).

(ii) *Joint returns filed after separate returns.* In the case of a husband and wife who elect under section 6013(b) to file a joint income tax return for a taxable year after the time prescribed by law for filing the return for such taxable year, the taxable income limitation of this paragraph (c) for the taxable year for which the joint return is filed is determined under paragraph (c)(7)(i) of this section.

(8) *Married individuals filing separately.* In the case of an individual who is married but files a separate tax return for a taxable year, the taxable income limitation for that individual is determined under paragraph (c)(1) of this section by treating the husband and wife as separate taxpayers.

(d) *Examples.* The following examples illustrate the provisions of paragraphs (b) and (c) of this section.

Example 1. (i) During 1991, PRS, a calendar-year partnership, purchases and places in service $50,000 of section 179 property. The taxable income of PRS derived from the active conduct of all its trades or businesses (as determined under paragraph (c)(1) of this section) is $8,000.

(ii) Under the dollar limitation of paragraph (b) of this section, PRS may elect to expense $10,000 of the cost of section 179 property purchased in 1991. Assume PRS elects under section 179(c) and §1.179–5 to expense $10,000 of the cost of section 179 property purchased in 1991.

(iii) Under the taxable income limitation of paragraph (c) of this section, PRS may allocate to its partners as a deduction only $8,000 of the cost of section 179 property in 1991. Under section 179(b)(3)(B) and §1.179–3(a), PRS may carry forward the remaining $2,000 it elected to expense, which would have been deductible under section 179(a) for 1991 absent the taxable income limitation.

Example 2. (i) The facts are the same as in *Example 1,* except that on December 31, 1991, PRS allocates to A, a calendar-year taxpayer and a partner in PRS, $7,000 of section 179 expenses and $2,000 of taxable income. A was engaged in the active conduct of a trade or business of PRS during 1991.

(ii) In addition to being a partner in PRS, A conducts a business as a sole proprietor. During 1991, A purchases and places in service $201,000 of section 179 property in connection with the sole proprietorship. A's 1991 taxable income derived from the active conduct of this business is $6,000.

(iii) Under the dollar limitation, A may elect to expense only $9,000 of the cost of section 179 property purchased in 1991, the $10,000 limit reduced by $1,000 (the amount by which the cost of section 179 property placed in service during 1991 ($201,000) exceeds $200,000). Under paragraph (b)(3)(i) of this section, the $7,000 of section 179 expenses allocated from PRS is subject to the $9,000 limit. Assume that A elects to expense $2,000 of the cost of section 179 property purchased by A's sole proprietorship in 1991. Thus, A has elected to expense under section 179 an amount equal to the dollar limitation for 1991 ($2,000 elected to be expensed by A's sole proprietorship plus $7,000, the amount of PRS's section 179 expenses allocated to A in 1991).

(iv) Under the taxable income limitation, A may only deduct $8,000 of the cost of section 179 property elected to be expensed in 1991, the aggregate taxable income derived from the active conduct of A's trades or businesses in 1991 ($2,000 from PRS and $6,000 from A's sole proprietorship). The entire $2,000 of taxable income allocated from PRS is included by A as taxable income derived from the active conduct by A of a trade or business because it was derived from the active conduct of a trade or business by PRS and A was engaged in the active conduct of a trade or business of PRS during 1991. Under section 179(b)(3)(B) and §1.179–3(a), A may carry forward the remaining $1,000 A elected to expense, which would have been deductible under section 179(a) for 1991 absent the taxable income limitation.

[T.D. 8455, 57 FR 61318, Dec. 24, 1992]

§1.179–3 Carryover of disallowed deduction.

(a) *In general.* Under section 179(b)(3)(B), a taxpayer may carry forward for an unlimited number of years the amount of any cost of section 179 property elected to be expensed in a taxable year but disallowed as a deduction in that taxable year because of the taxable income limitation of section 179(b)(3)(A) and §1.179–2(c) (‘‘carryover of disallowed deduction’’). This carryover of disallowed deduction may be deducted under section 179(a) and §1.179–1(a) in a future taxable year as provided in paragraph (b) of this section.

(b) *Deduction of carryover of disallowed deduction*—(1) *In general.* The amount allowable as a deduction under section 179(a) and §1.179–1(a) for any taxable year is increased by the lesser of—

(i) The aggregate amount disallowed under section 179(b)(3)(A) and §1.179–2(c) for all prior taxable years (to the extent not previously allowed as a deduction by reason of this section); or

(ii) The amount of any unused section 179 expense allowance for the taxable year (as described in paragraph (c) of this section).

(2) *Cross references.* See paragraph (f) of this section for rules that apply when a taxpayer disposes of or otherwise transfers section 179 property for which a carryover of disallowed deduction is outstanding. See paragraph (g) of this section for special rules that apply to partnerships and S corporations and paragraph (h) of this section for special rules that apply to partners and S corporation shareholders.

(c) *Unused section 179 expense allowance.* The amount of any unused section 179 expense allowance for a taxable year equals the excess (if any) of—

(1) The maximum cost of section 179 property that the taxpayer may deduct under section 179 and §1.179–1 for the taxable year after applying the limitations of section 179(b) and §1.179–2; over

(2) The amount of section 179 property that the taxpayer actually elected to expense under section 179 and §1.179–1(a) for the taxable year.

(d) *Example.* The following example illustrates the provisions of paragraphs (b) and (c) of this section.

Example. A, a calendar-year taxpayer, has a $3,000 carryover of disallowed deduction for an item of section 179 property purchased and placed in service in 1991. In 1992, A purchases and places in service an item of section 179 property costing $25,000. A's 1992 taxable income from the active conduct of all A's trades or businesses is $100,000. A elects, under section 179(c) and § 1.179–5, to expense $8,000 of the cost of the item of section 179 property purchased in 1992. Under paragraph (b) of this section, A may deduct $2,000 of A's carryover of disallowed deduction from 1991 (the lesser of A's total outstanding carryover of disallowed deductions ($3,000), or the amount of any unused section 179 expense allowance for 1992 ($10,000 limit less $8,000 elected to be expensed, or $2,000)). For 1993, A has a $1,000 carryover of disallowed deduction for the item of section 179 property purchased and placed in service in 1991.

(e) *Recordkeeping requirement and ordering rule.* The properties and the apportionment of cost that will be subject to a carryover of disallowed deduction are selected by the taxpayer in the year the properties are placed in service. This selection must be evidenced on the taxpayer's books and records and be applied consistently in subsequent years. If no selection is made, the total carryover of disallowed deduction is apportioned equally over the items of section 179 property elected to be expensed for the taxable year. For this purpose, the taxpayer treats any section 179 expense amount allocated from a partnership (or an S corporation) for a taxable year as one item of section 179 property. If the taxpayer is allowed to deduct a portion of the total carryover of disallowed deduction under paragraph (b) of this section, the taxpayer must deduct the cost of section 179 property carried forward from the earliest taxable year.

(f) *Dispositions and other transfers of section 179 property*—(1) *In general.* Upon a sale or other disposition of section 179 property, or a transfer of section 179 property in a transaction in which gain or loss is not recognized in whole or in part (including transfers at death), immediately before the transfer the adjusted basis of the section 179 property is increased by the amount of any outstanding carryover of disallowed deduction with respect to the property. This carryover of disallowed deduction is not available as a deduction to the transferor or the transferee of the section 179 property.

(2) *Recapture under section 179(d)(10).* Under § 1.179–1(e), if a taxpayer's section 179 property is subject to recapture under section 179(d)(10), the taxpayer must recapture the benefit derived from expensing the property. Upon recapture, any outstanding carryover of disallowed deduction with respect to the property is no longer available for expensing. In determining the amount subject to recapture under section 179(d)(10) and § 1.179–1(e), any outstanding carryover of disallowed deduction with respect to that property is not treated as an amount expensed under section 179.

(g) *Special rules for partnerships and S corporations*—(1) *In general.* Under section 179(d)(8) and § 1.179–2(c), the taxable income limitation applies at the partnership level as well as at the partner level. Therefore, a partnership may have a carryover of disallowed deduction with respect to the cost of its section 179 property. Similar rules apply to S corporations. This paragraph (g) provides special rules that apply when a partnership or an S corporation has a carryover of disallowed deduction.

(2) *Basis adjustment.* Under § 1.179–1(f)(2), the basis of a partnership's section 179 property must be reduced to reflect the amount of section 179 expense elected by the partnership. This reduction must be made for the taxable year for which the election is made even if the section 179 expense amount, or a portion thereof, must be carried forward by the partnership. Similar rules apply to S corporations.

(3) *Dispositions and other transfers of section 179 property by a partnership or an S corporation.* The provisions of paragraph (f) of this section apply in determining the treatment of any outstanding carryover of disallowed deduction with respect to section 179 property disposed of, or transferred in a nonrecognition transaction, by a partnership or an S corporation.

(4) *Example.* The following example illustrates the provisions of this paragraph (g).

Example. ABC, a calendar-year partnership, owns and operates a restaurant business. During 1992, ABC purchases and places in service two items of section 179 property—a cash register costing $4,000 and office furniture costing $6,000. ABC elects to expense under section 179(c) the full cost of the cash register and the office furniture. For 1992, ABC has $6,000 of taxable income derived from the active conduct of its restaurant business. Therefore, ABC may deduct only $6,000 of section 179 expenses and must carry forward the remaining $4,000 of section 179 expenses at the partnership level. ABC must reduce the adjusted basis of the section 179 property by the full amount elected to be expensed. However, ABC may not allocate to its partners any portion of the carryover of disallowed deduction until ABC is able to deduct it under paragraph (b) of this section.

(h) *Special rules for partners and S corporation shareholders*—(1) *In general.* Under section 179(d)(8) and §1.179–2(c), a partner may have a carryover of disallowed deduction with respect to the cost of section 179 property elected to be expensed by the partnership and allocated to the partner. A partner who is allocated section 179 expenses from a partnership must reduce the basis of his or her partnership interest by the full amount allocated regardless of whether the partner may deduct for the taxable year the allocated section 179 expenses or is required to carry forward all or a portion of the expenses. Similar rules apply to S corporation shareholders.

(2) *Dispositions and other transfers of a partner's interest in a partnership or a shareholder's interest in an S corporation.* A partner who disposes of a partnership interest, or transfers a partnership interest in a transaction in which gain or loss is not recognized in whole or in part (including transfers of a partnership interest at death), may have an outstanding carryover of disallowed deduction of section 179 expenses allocated from the partnership. In such a case, immediately before the transfer the partner's basis in the partnership interest is increased by the amount of the partner's outstanding carryover of disallowed deduction with respect to the partnership interest. This carryover of disallowed deduction is not available as a deduction to the transferor or transferee partner of the section 179 property. Similar rules apply to S corporation shareholders.

(3) *Examples.* The following examples illustrate the provisions of this paragraph (h).

Example 1. (i) G is a general partner in GD, a calendar-year partnership, and is engaged in the active conduct of GD's business. During 1991, GD purchases and places section 179 property in service and elects to expense a portion of the cost of the property under section 179. GD allocates $2,500 of section 179 expenses and $15,000 of taxable income (determined without regard to the section 179 deduction) to G. The income was derived from the active conduct by GD of a trade or business.

(ii) In addition to being a partner in GD, G conducts a business as a sole proprietor. During 1991, G purchases and places in service office equipment costing $25,000 and a computer costing $10,000 in connection with the sole proprietorship. G elects under section 179(c) and §1.179–5 to expense $7,500 of the cost of the office equipment. G has a taxable loss (determined without regard to the section 179 deduction) derived from the active conduct of this business of $12,500.

(iii) G has no other taxable income (or loss) derived from the active conduct of a trade or business during 1991. G's taxable income limitation for 1991 is $2,500 ($15,000 taxable income allocated from GD less $12,500 taxable loss from the sole proprietorship). Therefore, G may deduct during 1991 only $2,500 of the $10,000 of section 179 expenses. G notes on the appropriate books and records that G expenses the $2,500 of section 179 expenses allocated from GD and carries forward the $7,500 of section 179 expenses with respect to the office equipment purchased by G's sole proprietorship.

(iv) On January 1, 1992, G sells the office equipment G's sole proprietorship purchased and placed in service in 1991. Under paragraph (f) of this section, immediately before the sale G increases the adjusted basis of the office equipment by $7,500, the amount of the outstanding carryover of disallowed deduction with respect to the office equipment.

Example 2. (i) Assume the same facts as in *Example 1,* except that G notes on the appropriate books and records that G expenses $2,500 of section 179 expenses relating to G's sole proprietorship and carries forward the remaining $5,000 of section 179 expenses relating to G's sole proprietorship and $2,500 of section 179 expenses allocated from GD.

(ii) On January 1, 1992, G sells G's partnership interest to A. Under paragraph (h)(2) of this section, immediately before the sale G increases the adjusted basis of G's partnership interest by $2,500, the amount of the outstanding carryover of disallowed deduction with respect to the partnership interest.

[T.D. 8455, 57 FR 61321, Dec. 24, 1992]

§1.179–4 Definitions.

The following definitions apply for purposes of section 179 and §§1.179–1 through 1.179–6:

(a) *Section 179 property.* The term *section 179 property* means any tangible property described in section 179(d)(1) that is acquired by purchase for use in the active conduct of the taxpayer's trade or business (as described in § 1.179–2(c)(6)). For purposes of this paragraph (a), the term *trade or business* has the same meaning as in section 162 and the regulations thereunder.

(b) *Section 38 property.* The term *section 38 property* shall have the same meaning assigned to it in section 48(a) and the regulations thereunder.

(c) *Purchase.* (1)(i) Except as otherwise provided in paragraph (d)(2) of this section, the term *purchase* means any acquisition of the property, but only if all the requirements of paragraphs (c)(1) (ii), (iii), and (iv) of this section are satisfied.

(ii) Property is not acquired by purchase if it is acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under section 267 or 707(b). The property is considered not acquired by purchase only to the extent that losses would be disallowed under section 267 or 707(b). Thus, for example, if property is purchased by a husband and wife jointly from the husband's father, the property will be treated as not acquired by purchase only to the extent of the husband's interest in the property. However, in applying the rules of section 267 (b) and (c) for this purpose, section 267(c)(4) shall be treated as providing that the family of an individual will include only his spouse, ancestors, and lineal descendants. For example, a purchase of property from a corporation by a taxpayer who owns, directly or indirectly, more than 50 percent in value of the outstanding stock of such corporation does not qualify as a purchase under section 179(d)(2); nor does the purchase of property by a husband from his wife. However, the purchase of section 179 property by a taxpayer from his brother or sister does qualify as a purchase for purposes of section 179(d)(2).

(iii) The property is not acquired by purchase if acquired from a component member of a controlled group of corporations (as defined in paragraph (g) of this section) by another component member of the same group.

(iv) The property is not acquired by purchase if the basis of the property in the hands of the person acquiring it is determined in whole or in part by reference to the adjusted basis of such property in the hands of the person from whom acquired, or is determined under section 1014(a), relating to property acquired from a decedent. For example, property acquired by gift or bequest does not qualify as property acquired by purchase for purposes of section 179(d)(2); nor does property received in a corporate distribution the basis of which is determined under section 301(d)(2)(B), property acquired by a corporation in a transaction to which section 351 applies, property acquired by a partnership through contribution (section 723), or property received in a partnership distribution which has a carryover basis under section 732(a)(1).

(2) Property deemed to have been acquired by a new target corporation as a result of a section 338 election (relating to certain stock purchases treated as asset acquisitions) will be considered acquired by purchase.

(d) *Cost.* The cost of section 179 property does not include so much of the basis of such property as is determined by reference to the basis of other property held at any time by the taxpayer. For example, X Corporation purchases a new drill press costing $10,000 in November 1984 which qualifies as section 179 property, and is granted a trade-in allowance of $2,000 on its old drill press. The old drill press had a basis of $1,200. Under the provisions of sections 1012 and 1031(d), the basis of the new drill press is $9,200 ($1,200 basis of oil drill press plus cash expended of $8,000). However, only $8,000 of the basis of the new drill press qualifies as cost for purposes of the section 179 expense deduction; the remaining $1,200 is not part of the cost because it is determined by reference to the basis of the old drill press.

(e) *Placed in service.* The term *placed in service* means the time that property is first placed by the taxpayer in a condition or state of readiness and availability for a specifically assigned function, whether for use in a trade or business, for the production of income, in a tax-exempt activity, or in a personal activity. See §1.46–3(d)(2) for examples regarding when property shall be considered in a condition or state of readiness and availability for a specifically assigned function.

(f) *Controlled group of corporations and component member of controlled group.* The terms *controlled group of corporations* and *component member* of a controlled group of corporations shall have the same meaning assigned to those terms in section 1563 (a) and (b), except that the phrase ''more than 50 percent'' shall be substituted for the phrase ''at least 80 percent'' each place it appears in section 1563(a)(1).

[T.D. 8121, 52 FR 413, Jan. 6, 1987. Redesignated by T.D. 8455, 57 FR 61321, 61323, Dec. 24, 1992]

§1.179–5 Time and manner of making election.

(a) *Election.* A separate election must be made for each taxable year in which a section 179 expense deduction is claimed with respect to section 179 property. The election under section 179 and §1.179–1 to claim a section 179 expense deduction for section 179 property shall be made on the taxpayer's first income tax return for the taxable year to which the election applies (whether or not the return is timely) or on an amended return filed within the time prescribed by law (including extensions) for filing the return for such taxable year. The election shall be made by showing as a separate item on the taxpayer's income tax return the following items:

(1) The total section 179 expense deduction claimed with respect to all section 179 property selected, and

(2) The portion of that deduction allocable to each specific item.

The person shall maintain records which permit specific identification of each piece of section 179 property and reflect how and from whom such property was acquired and when such property was placed in service. However, for this purpose a partner (or an S corporation shareholder) treats partnership (or S corporation) section 179 property for which section 179 expenses are allocated from a partnership (or an S corporation) as one item of section 179 property. The election to claim a section 179 expense deduction under this section, with respect to any property, is irrevocable and will be binding on the taxpayer with respect to such property for the taxable year for which the election is made and for all subsequent taxable years, unless the Commissioner consents to the revocation of the election. Similarly, the selection of section 179 property by the taxpayer to be subject to the expense deduction and apportionment scheme must be adhered to in computing the taxpayer's taxable income for the taxable year for which the election is made and for all subsequent taxable years, unless consent to change is given by the Commissioner.

(b) *Revocation.* Any election made under section 179, and any specification contained in such election, may not be revoked except with the consent of the Commissioner. Such consent will be granted only in extraordinary circumstances. Requests for consent must be filed with the Commissioner of Internal Revenue, Washington, DC 20224. The request must include the name, address, and taxpayer identification number of the taxpayer and must be signed by the taxpayer or his duly authorized representative. It must be accompanied by a statement showing the year and property involved, and must set forth in detail the reasons for the request.

[T.D. 8121, 52 FR 414, Jan. 6, 1987. Redesignated by T.D. 8455, 57 FR 61321, 61323, Dec. 24, 1992]

§1.179–6 Effective date.

The provisions of §§1.179–1 through 1.179–5 are effective for property placed in service in taxable years ending after January 25, 1993. However, a taxpayer may apply the provisions of §§1.179–1 through 1.179–5 to property placed in service after December 31, 1986, in taxable years ending on or before January 25, 1993. Otherwise, for property placed in service after December 31, 1986, in taxable years ending on or before January 25, 1993, the final regulations under section 179 as in effect for the year the property was placed in service apply, except to the extent modified by the changes made to section 179 by the Tax Reform Act of 1986, the Technical and Miscellaneous Revenue Act of 1988, and the Revenue Reconciliation Act of 1990. For that property, a taxpayer may apply any reasonable method that clearly reflects income in applying the changes to section 179, provided the taxpayer consistently applies the method to the property.

[T.D. 8455, 57 FR 61323, Dec. 24, 1992]

§ 1.179A–1 Recapture of deduction for qualified clean-fuel vehicle property and qualified clean-fuel vehicle refueling property.

(a) *In general.* If a recapture event occurs with respect to a taxpayer's qualified clean-fuel vehicle property or qualified clean-fuel vehicle refueling property, the taxpayer must include the recapture amount in taxable income for the taxable year in which the recapture event occurs.

(b) *Recapture event*—(1) *Qualified clean-fuel vehicle property*—(i) *In general.* A recapture event occurs if, within 3 full years from the date a vehicle of which qualified clean-fuel vehicle property is a part is placed in service, the property ceases to be qualified clean-fuel vehicle property. Property ceases to be qualified clean-fuel vehicle property if—

(A) The vehicle is modified by the taxpayer so that it may no longer be propelled by a clean-burning fuel;

(B) The vehicle is used by the taxpayer in a manner described in section 50(b);

(C) The vehicle otherwise ceases to qualify as property defined in section 179A(c); or

(D) The taxpayer receiving the deduction under section 179A sells or disposes of the vehicle and knows or has reason to know that the vehicle will be used in a manner described in paragraph (b)(1)(i) (A), (B), or (C) of this section.

(ii) *Exception for disposition.* Except as provided in paragraph (b)(1)(i)(D) of this section, a sale or other disposition (including a disposition by reason of an accident or other casualty) of qualified clean-fuel vehicle property is not a recapture event.

(2) *Qualified clean-fuel vehicle refueling property*—(i) *In general.* A recapture event occurs if, at any time before the end of its recovery period, the property ceases to be qualified clean-fuel vehicle refueling property. Property ceases to be qualified clean-fuel vehicle refueling property if—

(A) The property no longer qualifies as property described in section 179A(d);

(B) The property is no longer used predominantly in a trade or business (property will be treated as no longer used predominantly in a trade or business if 50 percent or more of the use of the property in a taxable year is for use other than in a trade or business);

(C) The property is used by the taxpayer in a manner described in section 50(b); or

(D) The taxpayer receiving the deduction under section 179A sells or disposes of the property and knows or has reason to know that the property will be used in a manner described in paragraph (b)(2)(i) (A), (B), or (C) of this section.

(ii) *Exception for disposition.* Except as provided in paragraph (b)(2)(i)(D) of this section, a sale or other disposition (including a disposition by reason of an accident or other casualty) of qualified clean-fuel vehicle refueling property is not a recapture event.

(c) *Recapture date*—(1) *Qualified clean-fuel vehicle property.* The recapture date is the actual date of the recapture event unless an event described in paragraph (b)(1)(i)(B) of this section occurs, in which case the recapture date is the first day of the recapture year.

(2) *Qualified clean-fuel vehicle refueling property.* The recapture date is the actual date of the recapture event unless the recapture occurs as a result of an event described in paragraph (b)(2)(i) (B) or (C) of this section, in which case the recapture date is the first day of the recapture year.

(d) *Recapture amount*—(1) *Qualified clean-fuel vehicle property.* The recapture amount is equal to the benefit of the section 179A deduction allowable multiplied by the recapture percentage. The recapture percentage is—

(i) 100, if the recapture date is within the first full year after the date the vehicle is placed in service;

(ii) 66⅔, if the recapture date is within the second full year after the date the vehicle is placed in service; or

(iii) 33⅓, if the recapture date is within the third full year after the date the vehicle is placed in service.

(2) *Qualified clean-fuel vehicle refueling property.* The recapture amount is equal to the benefit of the section 179A deduction allowable multiplied by the following fraction. The numerator of the fraction equals the total recovery period for the property minus the number of recovery years prior to, but not including, the recapture year. The denominator of the fraction equals the total recovery period.

(e) *Basis adjustment.* As of the first day of the taxable year in which the recapture event occurs, the basis of the vehicle of which qualified clean-fuel vehicle property is a part or the basis of qualified clean-fuel vehicle refueling property is increased by the recapture amount. For a vehicle or refueling property that is of a character that is subject to an allowance for depreciation, this increase in basis is recoverable over its remaining recovery period beginning as of the first day of the taxable year in which the recapture event occurs.

(f) *Application of section 1245 for sales and other dispositions.* For purposes of section 1245, the amount of the deduction allowable under section 179A(a) with respect to any property that is (or has been) of a character subject to an allowance for depreciation is treated as a deduction allowed for depreciation under section 167. Therefore, upon a sale or other disposition of depreciable qualified clean-fuel vehicle refueling property or a depreciable vehicle of which qualified clean-fuel vehicle property is a part, section 1245 will apply to any gain recognized to the extent the basis of the depreciable property or vehicle was reduced under section 179A(e)(6) net of any basis increase described in paragraph (e) of this section.

(g) *Examples.* The following examples illustrate the provisions of this section:

Example 1. A, a calendar-year taxpayer, purchases and places in service for personal use on January 1, 1995, a clean-fuel vehicle, a portion of which is qualified clean-fuel vehicle property, costing $25,000. The qualified clean-fuel vehicle property costs $11,000. On A's 1995 federal income tax return, A claims a section 179A deduction of $2,000. On January 2, 1996, A sells the vehicle to an unrelated third party who subsequently converts the vehicle into a gasoline-propelled vehicle on October 15, 1996. There is no recapture upon the sale of the vehicle by A provided A did not know or have reason to know that the purchaser intended to convert the vehicle to a gasoline-propelled vehicle.

Example 2. B, a calendar-year taxpayer, purchases and places in service for personal use on October 11, 1994, a clean-fuel vehicle costing $20,000, a portion of which is qualified clean-fuel vehicle property. The qualified clean-fuel vehicle property costs $10,000. On B's 1994 federal income tax return, B claims a deduction of $2,000, which reduces B's gross income by $2,000. The basis of the vehicle is reduced to $18,000 ($20,000 − $2,000). On January 31, 1996, B sells the vehicle to a tax-exempt entity. Because B knowingly sold the vehicle to a tax-exempt entity described in section 50(b) in the second full year from the date the vehicle was placed in service, B must recapture $1,333 ($2,000 × 66⅔ percent). This recapture amount increases B's gross income by $1,333 on B's 1996 federal income tax return and is added to the basis of the motor vehicle as of January 1, 1996, the beginning of the taxable year of recapture.

Example 3. X, a calendar-year taxpayer, purchases and places in service for its business use on January 1, 1994, qualified clean-fuel vehicle refueling property costing $400,000. Assume this property has a 5-year recovery period. On X's 1994 federal income tax return, X claims a deduction of $100,000, which reduces X's gross income by $100,000. The basis of the property is reduced to $300,000 ($400,000 − $100,000) prior to any adjustments for depreciation. In 1996, more than 50 percent of the use of the property is other than in X's trade or business.

Because the property is no longer used predominantly in X's business, X must recapture three-fifths of the section 179A deduction or $60,000 ($100,000×(5–2)/5 = $60,000) and include that amount in gross income on its 1996 federal income tax return. The recapture amount of $60,000 is added to the basis of the property as of January 1, 1996, the beginning of the taxable year of recapture, and to the extent the property remains depreciable, the adjusted basis is recoverable over the remaining recovery period.

Example 4. X, a calendar-year taxpayer, purchases and places in service for business use on January 1, 1994, qualified clean-fuel vehicle refueling property costing $350,000. Assume this property has a 5-year recovery period. On X's 1994 federal income tax return, X claims a deduction of $100,000, which reduces X's gross income by $100,000. The basis of the property is reduced to $250,000 ($350,000 − $100,000) prior to any adjustments for depreciation. In 1995, X converts the property to store and dispense gasoline. Because the property is no longer used as qualified clean-fuel vehicle refueling property in 1995, X must recapture four-fifths of the section 179A deduction or $80,000 ($100,000×(5–1)/5 = $80,000) and include that amount in gross income on its 1995 federal income tax return. The recapture amount of $80,000 is added to the basis of the property as of January 1, 1995, the beginning of the taxable year of recapture, and to the extent the property remains depreciable, the adjusted basis is recoverable over the remaining recovery period.

Example 5. The facts are the same as in *Example 4.* In 1996, X sells the refueling property for $351,000, recognizing a gain from this sale. Under paragraph (f) of this section, section 1245 will apply to any gain recognized on the sale of depreciable property to the extent the basis of the property was reduced by the section 179A deduction net of any basis increase from recapture of the section 179A deduction. Accordingly, the gain from the sale of the property is subject to section 1245 to the extent of the depreciation allowance for the property plus the deduction allowed under section 179A ($100,000), less the previous recapture amount ($80,000). Any remaining amount of gain may be subject to other applicable provisions of the Internal Revenue Code.

(h) *Effective date.* This section is effective on October 14, 1994. If the recapture date is before the effective date of this section, a taxpayer may use any reasonable method to recapture the benefit of any deduction allowable under section 179A(a) consistent with section 179A and its legislative history. For this purpose, the recapture date is defined in paragraph (c) of this section.

[T.D.8606, 60 FR 39651, Aug. 3, 1995]

§ 1.180–1 Expenditures by farmers for fertilizer, etc.

(a) *In general.* A taxpayer engaged in the business of farming may elect, for any taxable year beginning after December 31, 1959, to treat as deductible expenses those expenditures otherwise chargeable to capital account which are paid or incurred by him during the taxable year for the purchase or acquisition of fertilizer, lime, ground limestone, marl, or other materials to enrich, neutralize, or condition land used in farming, and those expenditures otherwise chargeable to capital account paid or incurred for the application of such items and materials to such land. No election is required to be made for those expenditures which are not capital in nature. Section 180, § 1.180–2, and this section are not applicable to those expenses which are deductible under section 162 and the regulations thereunder or which are subject to the method described in section 175 and the regulations thereunder.

(b) *Land used in farming.* For purposes of section 180(a) and of paragraph (a) of this section, the term *land used in farming* means land used (before or simultaneously with the expenditures described in such section and such paragraph) by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock. See section 180(b). Expenditures for the initial preparation of land never previously used for farming purposes by the taxpayer or his tenant (although chargeable to capital account) are not subject to the election. The principles stated in §§ 1.175–3 and 1.175–4 are equally applicable under this section in determining whether the taxpayer is engaged in the business of farming and whether the land is used in farming.

(74 Stat. 1001, 26 U.S.C. 180)

[T.D. 6548, 26 FR 1486, Feb. 22, 1961]

§ 1.180–2 Time and manner of making election and revocation.

(a) *Election.* The claiming of a deduction on the taxpayer's return for an amount to which section 180 applies for amounts (otherwise chargeable to capital account) expended for fertilizer, lime, etc., shall constitute an election under section 180 and paragraph (a) of § 1.180–1. Such election shall be effective only for the taxable year for which the deduction is claimed.

(b) *Revocation.* Once the election is made for any taxable year such election may not be revoked without the consent of the district director for the district in which the taxpayer's return is required to be filed. Such requests for consent shall be in writing and signed by the taxpayer or his authorized representative and shall set forth:

(1) The name and address of the taxpayer;

(2) The taxable year to which the revocation of the election is to apply;

(3) The amount of expenditures paid or incurred during the taxable year, or portions thereof (where applicable), previously taken as a deduction on the

return in respect of which the revocation of the election is to be applicable; and

(4) The reasons for the request to revoke the election.

(74 Stat. 1001, 26 U.S.C. 180)

[T.D. 6548, 26 FR 1486, Feb. 22, 1961]

§1.182–1 Expenditures by farmers for clearing land; in general.

Under section 182, a taxpayer engaged in the business of farming may elect, in the manner provided in §1.182–6, to deduct certain expenditures paid or incurred by him in any taxable year beginning after December 31, 1962, in the clearing of land. The expenditures to which the election applies are all expenditures paid or incurred during the taxable year in clearing land for the purpose of making the ‘‘land suitable for use in farming’’ (as defined in §1.182–4) which are not otherwise deductible (exclusive of expenditures for or in connection with depreciable items referred to in paragraph (b)(1) of §1.182–3), but only if such expenditures are made in furtherance of the taxpayer’s business of farming. The term *expenditures* to which the election applies also includes a reasonable allowance for depreciation (not otherwise allowable) on equipment used in the clearing of land provided such equipment, if used in the carrying on of a trade or business, would be subject to the allowance for depreciation under section 167. (See paragraph (c) of §1.182–3.) (See section 175 and the regulations thereunder for deductibility of certain expenditures for treatment or moving of earth by a farmer where the land already qualifies as land used in farming as defined in §1.175–4.) The amount deductible for any taxable year is limited to the lesser of $5,000 or 25 percent of the taxable income derived from farming (as defined in paragraph (a)(2) of §1.182–5) during the taxable year. Expenditures paid or incurred in a taxable year in excess of the amount deductible under section 182 for such taxable year shall be treated as capital expenditures and shall constitute an adjustment to the basis of the land under section 1016(a).

[T.D. 6794, 30 FR 790, Jan. 26, 1965]

§1.182–2 Definition of “the business of farming.”

Under section 182, the election to deduct expenditures incurred in the clearing of land is applicable only to a taxpayer who is engaged in ‘‘the business of farming’’ during the taxable year. A taxpayer is engaged in the business of farming if he cultivates, operates, or manages a farm for gain or profit, either as owner or tenant. For purposes of section 182, a taxpayer who receives a rental (either in cash or in kind) which is based upon farm production is engaged in the business of farming. However, a taxpayer who receives a fixed rental (without reference to production) is engaged in the business of farming only if he participates to a material extent in the operation or management of the farm. A taxpayer engaged in forestry or the growing of timber is not thereby engaged in the business of farming. A person cultivating or operating a farm for recreation or pleasure rather than for profit is not engaged in the business of farming. For purposes of section 182 and this section, the term *farm* is used in its ordinary, accepted sense and includes stock, dairy, poultry, fish, fruit, and truck farms, and also plantations, ranches, ranges, and orchards. A fish farm is an area where fish are grown or raised, as opposed to merely caught or harvested; that is, an area where they are artificially fed, protected, cared for, etc. A taxpayer is engaged in ‘‘the business of farming’’ if he is a member of a partnership engaged in the business of farming. See §1.702–1.

[T.D. 6794, 30 FR 790, Jan. 26, 1965]

§1.182–3 Definition, exceptions, etc., relating to deductible expenditures.

(a) *Clearing of land.* (1) For purposes of section 182, the term *clearing of land* includes (but is not limited to):

(i) The removal of rocks, stones, trees, stumps, brush or other natural impediments to the use of the land in farming through blasting, cutting, burning, bulldozing, plowing, or in any other way;

(ii) The treatment or moving of earth, including the construction, repair or removal of nondepreciable earthen structures, such as dikes or levies, if the purpose of such treatment or moving of earth is to protect, level, contour, terrace, or condition the land so as to permit its use as farming land; and

(iii) The diversion of streams and watercourses, including the construction of nondepreciable drainage facilities, provided that the purpose is to remove or divert water from the land so as to make it available for use in farming.

(2) The following are examples of land clearing activities:

(i) The cutting of trees, the blasting of the resulting stumps, and the burning of the residual undergrowth;

(ii) The leveling of land so as to permit irrigation or planting;

(iii) The removal of salt or other minerals which might inhibit cultivation of the soil;

(iv) The draining and filling in of a swamp or marsh; and

(v) The diversion of a stream from one watercourse to another.

(b) *Expenditures not allowed as a deduction under section 182.* (1) Section 182 applies only to expenditures for nondepreciable items. Accordingly, a taxpayer may not deduct expenditures for the purchase, construction, installation, or improvement of structures, appliances, or facilities which are of a character which is subject to the allowance for depreciation under section 167 and the regulations thereunder. Expenditures in respect of such depreciable property include those for materials, supplies, wages, fuel, freight, and the moving of earth, paid or incurred with respect to tanks, reservoirs, pipes, conduits, canals, dams, wells, or pumps constructed of masonry, concrete, tile, metal, wood, or other nonearthen material.

(2) Expenditures which are deductible without regard to section 182 are not deductible under section 182. Thus, such expenditures are deductible without being subject to the limitations imposed by section 182(b) and § 1.182–5. For example, section 182 does not apply to the ordinary and necessary expenses incurred in the business of farming which are deductible under section 162 even though they might otherwise be considered to be clearing of land expenditures. Section 182 also does not apply to interest (deductible under section 163) nor to taxes (deductible under section 164). Similarly, section 182 does not apply to any expenditures (whether or not currently deductible) paid or incurred for the purpose of soil or water conservation in respect of land used in farming, or for the prevention of erosion of land used in farming, within the meaning of section 175 and the regulations thereunder, nor to expenditures deductible under section 180 and the regulations thereunder, relating to expenditures for fertilizer, etc.

(c) *Depreciation.* In addition to expenditures for the activities described in paragraph (a) of this section, there also shall be treated as an expenditure to which section 182 applies a reasonable allowance for depreciation not otherwise deductible on property of the taxpayer which is used in the clearing of land for the purpose of making such land suitable for use in farming, provided the property is property which, if used in a trade or business, would be subject to the allowance for depreciation under section 167. Depreciation allowable as a deduction under section 182 is limited to the portion of depreciation which is attributable to the use of the property in the clearing of land. The depreciation shall be computed in accordance with section 167 and the regulations thereunder. To the extent an amount representing a reasonable allowance for depreciation with respect to property used in clearing land is treated as an expenditure to which section 182 applies, such depreciation shall, for purposes of chapter 1 of the Code, be treated as an amount allowed under section 167 for depreciation. Thus, if a deduction is allowed for depreciation under section 182 in respect of property used in clearing land, proper adjustment to the basis of the property so used shall be made under section 1016(a).

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§ 1.182–4 Definition of "land suitable for use in farming", etc.

For purposes of section 182, the term *land suitable for use in farming* means land which, as a result of the land clearing activities described in paragraph (a) of § 1.182–3, could be used by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products, including fish, or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. Land used for the sustenance of livestock includes land used for grazing such livestock. Expenditures are considered to be for the purpose of making land suitable for use in farming by the taxpayer or his tenant only if made to prepare the land which is cleared for use by the taxpayer or his tenant in farming. Thus, if the taxpayer pays or incurs expenditures to clear land for the purpose of sale (whether or not for use in farming by the purchaser) or to be held by the taxpayer or his tenant other than for use in farming, section 182 does not apply to such expenditures. Whether the land is cleared for the purpose of making it suitable for use in farming by the taxpayer or his tenant, is a question of fact which must be resolved on the basis of all the relevant facts and circumstances. For purposes of section 182, it is not necessary that the land cleared actually be used in farming following the clearing activities. However, the fact that following the clearing operation, the land is used by the taxpayer or his tenant in the business of farming will, in most cases, constitute evidence that the purpose of the clearing was to make land suitable for use in farming by the taxpayer or his tenant. On the other hand, if the land cleared is sold or converted to nonfarming use soon after the taxpayer has completed his clearing activities, there will be a presumption that the expenditures were not made for the purpose of making the land suitable for use in farming by the taxpayer or his tenant. Other factors which will be considered in determining the taxpayer's purpose for clearing the land are, for example, the acreage, location, and character of the land cleared, the nature of the taxpayer's farming operation, and the use to which adjoining or nearby land is put.

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§1.182–5 Limitation.

(a) *Limitation*—(1) *General rule.* The amount of land clearing expenditures which the taxpayer may deduct under section 182 in any one taxable year is limited to the lesser of $5,000 or 25 percent of his ‘‘taxable income derived from farming’’. Expenditures in excess of the applicable limitation are to be charged to the capital account and constitute additions to the taxpayer's basis in the land.

(2) *Definition of ‘‘taxable income derived from farming’’.* For purposes of section 182, the term *taxable income derived from farming* means the gross income derived from the business of farming reduced by the deductions attributable to such gross income. Gross income derived from the business of farming is the gross income of the taxpayer derived from the production of crops, fruits, or other agricultural products, including fish, or from livestock (including livestock held for draft, breeding or dairy purposes). It does not include gains from sales of assets such as farm machinery or gains from the disposition of land. The deductions attributable to the business of farming are all the deductions allowed by Chapter 1 of the Code (other than the deduction allowed by section 182) for expenditures or charges (including depreciation and amortization) paid or incurred in connection with the production or raising of crops, fruits, or other agricultural products, including fish, or livestock. However, the deduction under section 1202 (relating to the capital gains deduction) attributable to gain on the sale or other disposition of assets (other than draft, breeding, or dairy stock), and the net operating loss deduction (computed under section 172) shall not be taken into account in computing ‘‘taxable income derived from farming.’’ Similarly, deductible losses on the sale, disposition, destruction, condemnation, or abandonment of assets (other than draft, breeding, or dairy stock) shall not be considered as deductions attributable to the business of farming. A taxpayer shall compute his gross income from farming in accordance with his accounting method used in determining gross income. (See

the regulations under section 61 relating to accounting methods used by farmers in determining gross income.)

(b) *Examples.* The provisions of paragraph (a) of this section may be illustrated by the following examples:

Example 1. For the taxable year 1963, A, who uses the cash receipts and disbursements method of accounting, incurs expenditures to which section 182 applies in the amount of $2,000 and makes the election under section 182. A has the following items of income and deductions (without regard to section 182 expenditures).

Income:		
Proceeds from sale of his 1963 yield of corn	$10,000	
Proceeds from sales of milk	8,000	
Gain from disposition of old breeding cows	500	
Gain from sale of tractor	100	
Gain from sale of farmland	5,000	
Interest on loan to brother	100	
	23,700	
Deductions:		
Cost of labor	4,000	
Cost of feed	3,000	
Depreciation on farm equipment and buildings	2,500	
Cost of maintenance, fuel, etc	2,000	
Interest paid, mortgage on farm buildings	1,000	
Interest paid, personal loan	500	
Loss on destruction of barn	2,000	
Loss on sale of truck	300	
Section 1202 deduction—gain on sale of cows (500× 1/2)	250	
Section 1202 deduction—net gain on disposition of section 1231 property, other than cows [$2,800 ($5,100 − $2,300) × 1/2]	1,400	
		$16,950
Net income before section 182 deduction		6,750

For purposes of computing taxable income derived from farming under section 182, the following items of income and deductions are not taken into account:

Income:		
Gain from the sale of tractor	$100	
Gain from the sale of farmland	5,000	
Interest on loan to brother	100	
		$5,200
Deductions:		
Interest paid, personal loan	$500	
Loss on destruction of barn	2,000	
Loss on sale of truck	300	
Section 1202 deduction—Net gain from disposition of 1231 assets other than cows	1,400	
		$4,200

A's ''taxable income derived from farming'' for purposes of section 182 is $5,750; income of $18,500 ($23,700 − $5,200), less deductions of $12,750 ($16,950 − $4,200). A may deduct $1,437.50 (25% of $5,750) under section 182. The excess expenditures in the amount of $562.50 are to be charged to capital account and serve to increase the taxpayer's basis of the land.

Example 2. Assume the same facts as in *Example (1)* and in addition, assume that A is allowed a deduction for a net operating loss carryback from the taxable year 1966 in the amount of $3,000. The net operating loss deduction will not be taken into account in computing A's ''taxable income derived from farming'' for 1963 Accordingly, A will not be required to recompute such taxable income for purposes of applying the limitation on the deduction provided in section 182 and the deduction of $1,437.50 will not be reduced.

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§ 1.182–6 Election to deduct land clearing expenditures.

(a) *Manner of making election.* The election to deduct expenditures for land clearing provided by section 182(a) shall be made by means of a statement attached to the taxpayer's income tax return for the taxable year for which such election is to apply. The statement shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the time prescribed by law for filing the income tax return (including extensions thereof) for the taxable year for which the election is to apply. The statement shall also set forth the amount and description of the expenditures for land clearing claimed as a deduction under section 182, and shall include a computation of ''taxable income derived from farming'', if the amount of such income is not the same as the net income from farming shown on Schedule F of Form 1040, increased by the amount of the deduction claimed under section 182.

(b) *Scope of election.* An election under section 182(a) shall apply only to the taxable year for which made. However, once made, an election applies to all expenditures described in § 1.182–3 paid or incurred during the taxable year, and is binding for such taxable year unless the district director consents to a revocation of such election. Requests for consent to revoke an election under section 182 shall be made by means of a letter to the district director for the district in which the taxpayer is required to file his return, setting forth the taxpayer's name, address and identification number, the year for which it is desired to revoke the election, and the reasons therefor. However, consent will not be granted where the only reason therefor is a change in tax consequences.

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

§1.183–1 Activities not engaged in for profit.

(a) *In general.* Section 183 provides rules relating to the allowance of deductions in the case of activities (whether active or passive in character) not engaged in for profit by individuals and electing small business corporations, creates a presumption that an activity is engaged in for profit if certain requirements are met, and permits the taxpayer to elect to postpone determination of whether such presumption applies until he has engaged in the activity for at least 5 taxable years, or, in certain cases, 7 taxable years. Whether an activity is engaged in for profit is determined under section 162 and section 212 (1) and (2) except insofar as section 183(d) creates a presumption that the activity is engaged in for profit. If deductions are not allowable under sections 162 and 212 (1) and (2), the deduction allowance rules of section 183(b) and this section apply. Pursuant to section 641(b), the taxable income of an estate or trust is computed in the same manner as in the case of an individual, with certain exceptions not here relevant. Accordingly, where an estate or trust engages in an activity or activities which are not for profit, the rules of section 183 and this section apply in computing the allowable deductions of such trust or estate. No inference is to be drawn from the provisions of section 183 and the regulations thereunder that any activity of a corporation (other than an electing small business corporation) is or is not a business or engaged in for profit. For rules relating to the deductions that may be taken into account by taxable membership organizations which are operated primarily to furnish services, facilities, or goods to members, see section 277 and the regulations thereunder. For the definition of an activity not engaged in for profit, see §1.183–2. For rules relating to the election contained in section 183(e), see §1.183–3.

(b) *Deductions allowable*—(1) *Manner and extent.* If an activity is not engaged in for profit, deductions are allowable under section 183(b) in the following order and only to the following extent:

(i) Amounts allowable as deductions during the taxable year under Chapter 1 of the Code without regard to whether the activity giving rise to such amounts was engaged in for profit are allowable to the full extent allowed by the relevant sections of the Code, determined after taking into account any limitations or exceptions with respect to the allowability of such amounts. For example, the allowability-of-interest expenses incurred with respect to activities not engaged in for profit is limited by the rules contained in section 163(d).

(ii) Amounts otherwise allowable as deductions during the taxable year under Chapter 1 of the Code, but only if such allowance does not result in an adjustment to the basis of property, determined as if the activity giving rise to such amounts was engaged in for profit, are allowed only to the extent the gross income attributable to such activity exceeds the deductions allowed or allowable under subdivision (i) of this subparagraph.

(iii) Amounts otherwise allowable as deductions for the taxable year under Chapter 1 of the Code which result in (or if otherwise allowed would have resulted in) an adjustment to the basis of property, determined as if the activity giving rise to such deductions was engaged in for profit, are allowed only to the extent the gross income attributable to such activity exceeds the deductions allowed or allowable under subdivisions (i) and (ii) of this subparagraph. Deductions falling within this subdivision include such items as depreciation, partial losses with respect to property, partially worthless debts, amortization, and amortizable bond premium.

(2) *Rule for deductions involving basis adjustments*—(i) *In general.* If deductions are allowed under subparagraph (1)(iii) of this paragraph, and such deductions are allowed with respect to more than one asset, the deduction allowed with respect to each asset shall be determined separately in accordance

with the computation set forth in subdivision (ii) of this subparagraph.

(ii) *Basis adjustment fraction.* The deduction allowed under subparagraph (1)(iii) of this paragraph is computed by multiplying the amount which would have been allowed, had the activity been engaged in for profit, as a deduction with respect to each particular asset which involves a basis adjustment, by the basis adjustment fraction:

(a) The numerator of which is the total of deductions allowable under subparagraph (1)(iii) of this paragraph, and

(b) The denominator of which is the total of deductions which involve basis adjustments which would have been allowed with respect to the activity had the activity been engaged in for profit.

The amount resulting from this computation is the deduction allowed under subparagraph (1)(iii) of this paragraph with respect to the particular asset. The basis of such asset is adjusted only to the extent of such deduction.

(3) *Examples.* The provisions of subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples:

Example 1. A, an individual, maintains a herd of dairy cattle, which is an ''activity not engaged in for profit'' within the meaning of section 183(c). A sold milk for $1,000 during the year. During the year A paid $300 State taxes on gasoline used to transport the cows, milk, etc., and paid $1,200 for feed for the cows. For the year A also had a casualty loss attributable to this activity of $500. A determines the amount of his allowable deductions under section 183 as follows:

(i) First, A computes his deductions allowable under subparagraph (1)(i) of this paragraph as follows:

State gasoline taxes specifically allowed under section 164(a)(5) without regard to whether the activity is engaged in for profit	$300
Casualty loss specifically allowed under section 165(c)(3) without regard to whether the activity is engaged in for profit ($500 less $100 limitation)	400
Deductions allowable under subparagraph (1)(i) of this paragraph	700

(ii) Second, A computes his deductions allowable under subparagraph (1)(ii) of this paragraph (deductions which would be allowed under chapter 1 of the Code if the activity were engaged in for profit and which do not involve basis adjustments) as follows:

Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph:

Income from milk sales	$1,000
Gross income from activity	1,000
Less: deductions allowable under subparagraph (1)(i) of this paragraph	700
Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph	300
Feed for cows	1,200
Deduction allowed under subparagraph (1)(ii) of this paragraph	300

$900 of the feed expense is not allowed as a deduction under section 183 because the total feed expense ($1,200) exceeds the maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph ($300). In view of these circumstances, it is not necessary to determine deductions allowable under subparagraph (1)(iii) of this paragraph which would be allowable under chapter 1 of the Code if the activity were engaged in for profit and which involve basis adjustment (the $100 of casualty loss not allowable under subparagraph (1)(i) of this paragraph because of the limitation in section 165(c)(3)) because none of such amount will be allowed as a deduction under section 183.

Example 2. Assume the same facts as in *Example (1),* except that A also had income from sales of hay grown on the farm of $1,200 and that depreciation of $750 with respect to a barn, and $650 with respect to a tractor would have been allowed with respect to the activity had it been engaged in for profit. A determines the amount of his allowable deductions under section 183 as follows:

(i) First, A computes his deductions allowable under subparagraph (1)(i) of this paragraph as follows:

State gasoline taxes specifically allowed under section 164(a)(5) without regard to whether the activity is engaged in for profit	$300
Casualty loss specifically allowed under section 165(c)(3) without regard to whether the activity is engaged in for profit ($500 less $100 limitation)	400
Deductions allowable under subparagraph (1)(i) of this paragraph	700

(ii) Second, A computes his deductions allowable under subparagraph (1)(ii) of this paragraph (deductions which would be allowable under chapter 1 of the Code if the activity were engaged in for profit and which do not involve basis adjustments) as follows:

Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph:

Income from milk sales	$1,000
Income from hay sales	1,200
Gross income from activity	2,200
Less: deductions allowable under subparagraph (1)(i) of this paragraph	700
Maximum amount of deductions allowable under subparagraph (1)(ii) of this paragraph	1,500
Feed for cows	1,200

The entire $1,200 of expenses relating to feed for cows is allowable as a deduction under subparagraph (1)(ii) of this paragraph, since it does not exceed the maximum amount of deductions allowable under such subparagraph.

(iii) Last, A computes the deductions allowable under subparagraph (1)(iii) of this paragraph (deductions which would be allowable under chapter 1 of the Code if the activity were engaged in for profit and which involve basis adjustments) as follows:

Maximum amount of deductions allowable under subparagraph (1)(iii) of this paragraph:

Gross income from farming		$2,200
Less: Deductions allowed under subparagraph (1)(i) of this paragraph	$700	
Deductions allowed under subparagraph (1)(ii) of this paragraph	1,200	1,900
Maximum amount of deductions allowable under subparagraph (1)(iii) of this paragraph		300

(iv) Since the total of A's deductions under chapter 1 of the Code (determined as if the activity was engaged in for profit) which involve basis adjustments ($750 with respect to barn, $650 with respect to tractor, and $100 with respect to limitation on casualty loss) exceeds the maximum amount of the deductions allowable under subparagraph (1)(iii) of this paragraph ($300), A computes his allowable deductions with respect to such assets as follows:

A first computes his basis adjustment fraction under subparagraph (2)(ii) of this paragraph as follows:

The numerator of the fraction is the maximum of deductions allowable under subparagraph (1)(iii) of this paragraph which involve basis adjustments	$300
The denominator of the fraction is the total of deductions that involve basis adjustments which would have been allowed with respect to the activity had the activity been engaged in for profit	1,500

The basis adjustment fraction is then applied to the amount of each deduction which would have been allowable if the activity were engaged in for profit and which involves a basis adjustment as follows:

Depreciation allowed with respect to barn (300/1,500×$750)	$150
Depreciation allowed with respect to tractor (300/1,500×$650)	130
Deduction allowed with respect to limitation on casualty loss (300/1,500×$100)	20

The basis of the barn and of the tractor are adjusted only by the amount of depreciation actually allowed under section 183 with respect to each (as determined by the above computation). The basis of the asset with regard to which the casualty loss was suffered is adjusted only to the extent of the amount of the casualty loss actually allowed as a deduction under subparagraph (1) (i) and (iii) of this paragraph.

(4) *Rule for capital gains and losses*—(i) *In general.* For purposes of section 183 and the regulations thereunder, the gross income from any activity not engaged in for profit includes the total of all capital gains attributable to such activity determined without regard to the section 1202 deduction. Amounts attributable to an activity not engaged in for profit which would be allowable as a deduction under section 1202, without regard to section 183, shall be allowable as a deduction under section 183(b)(1) in accordance with the rules stated in this subparagraph.

(ii) *Cases where deduction not allowed under section 183.* No deduction is allowable under section 183(b)(1) with respect to capital gains attributable to an activity not engaged in for profit if:

(a) Without regard to section 183 and the regulations thereunder, there is no excess of net long-term capital gain over net short-term capital loss for the year, or

(b) There is no excess of net long-term capital gain attributable to the activity over net short-term capital loss attributable to the activity.

(iii) *Allocation of deduction.* If there is:

(a) An excess of net long-term capital gain over net short-term capital loss attributable to an activity not engaged in for profit, and

(b) Such an excess attributable to all activities, determined without regard to section 183 and the regulations thereunder, the deduction allowable under section 183(b)(1) attributable to capital gains with respect to each activity not engaged in for profit (with respect to which there is an excess of net long-term capital gain over net short-term capital loss for the year) shall be an amount equal to the deduction allowable under section 1202 for the taxable year (determined without regard to section 183) multiplied by a fraction the numerator of which is the excess of the net long-term capital gain attributable to the activity over the net short-term capital loss attributable to the activity and the denominator of which is an amount equal to the total excess of net long-term capital gain over net short-term capital loss for all activities with respect to which there is such excess. The amount

of the total section 1202 deduction allowable for the year shall be reduced by the amount determined to be allocable to activities not engaged in for profit and accordingly allowed as a deduction under section 183(b)(1).

(iv) *Example.* The provisions of this subparagraph may be illustrated by the following example:

Example. A, an individual who uses the cash receipts and disbursement method of accounting and the calendar year as the taxable year, has three activities not engaged in for profit. For his taxable year ending on December 31, 1973, A has a $200 net long-term capital gain from activity No. 1, a $100 net short-term capital loss from activity No. 2, and a $300 net long-term capital gain from activity No. 3. In addition, A has a $500 net long-term capital gain from another activity which he engages in for profit. A computes his deductions for capital gains for calendar year 1973 as follows:

Section 1202 deduction without regard to section 183 is determined as follows:

Net long-term capital gain from activity No. 1	$200
Net long-term capital gain from activity No. 3	300
Net long-term capital gain from activity engaged in for profit	500
Total net long-term capital gain from all activities	1,000
Less: Net short-term capital loss attributable to activity No. 2	100
Aggregate net long-term capital gain over net short-term capital loss from all activities	900
Section 1202 deduction determined without regard to section 183 (one-half of $900)	$450

Allocation of the total section 1202 deduction among A's various activities:

Portion allocable to activity No. 1 which is deductible under section 183(b)(1) (Excess net long-term capital gain attributable to activity No. 1 ($200) over total excess net long-term capital gain attributable to all of A's activities with respect to which there is such an excess ($1,000) times amount of section 1202 deduction ($450))	90
Portion allocable to activity No. 3 which is deductible under section 183(b)(1) (Excess net long-term capital gain attributable to activity No. 3 ($300) over total excess net long-term capital gain attributable to all of A's activities with respect to which there is such an excess ($1,000) times amount of section 1202 deduction ($450))	135
Portion allocable to all activities engaged in for profit (total section 1202 deduction ($450) less section 1202 deduction allowable to activities Nos. 1 and 3 ($225))	225
Total section 1202 deduction deductible under sections 1202 and 183(b)(1)	450

(c) *Presumption that activity is engaged in for profit*—(1) *In general.* If for:

(i) Any 2 of 7 consecutive taxable years, in the case of an activity which consists in major part of the breeding, training, showing, or racing of horses, or

(ii) Any 2 of 5 consecutive taxable years, in the case of any other activity, the gross income derived from an activity exceeds the deductions attributable to such activity which would be allowed or allowable if the activity were engaged in for profit, such activity is presumed, unless the Commissioner establishes to the contrary, to be engaged in for profit. For purposes of this determination the deduction permitted by section 1202 shall not be taken into account. Such presumption applies with respect to the second profit year and all years subsequent to the second profit year within the 5- or 7-year period beginning with the first profit year. This presumption arises only if the activity is substantially the same activity for each of the relevant taxable years, including the taxable year in question. If the taxpayer does not meet the requirements of section 183(d) and this paragraph, no inference that the activity is not engaged in for profit shall arise by reason of the provisions of section 183. For purposes of this paragraph, a net operating loss deduction is not taken into account as a deduction. For purposes of this subparagraph a short taxable year constitutes a taxable year.

(2) *Examples.* The provisions of subparagraph (1) of this paragraph may be illustrated by the following examples, in each of which it is assumed that the taxpayer has not elected, in accordance with section 183(e), to postpone determination of whether the presumption described in section 183(d) and this paragraph is applicable.

Example 1. For taxable years 1970–74, A, an individual who uses the cash receipts and disbursement method of accounting and the calendar year as the taxable year, is engaged in the activity of farming. In taxable years 1971, 1973, and 1974, A's deductible expenditures with respect to such activity exceed his gross income from the activity. In taxable years 1970 and 1972 A has income from the sale of farm produce of $30,000 for each year. In each of such years A had expenses for feed for his livestock of $10,000, depreciation of equipment of $10,000, and fertilizer cost of $5,000 which he elects to take as a deduction. A also has a net operating loss carryover to taxable year 1970 of $6,000. A is presumed, for taxable years 1972, 1973, and 1974, to have engaged in the activity of farming for profit, since for 2 years of a 5-consecutive-year period the gross income from the activity ($30,000 for each year) exceeded the deductions (computed without regard to the net operating loss) which are allowable in the case of the activity ($25,000 for each year).

Example 2. For the taxable years 1970 and 1971, B, an individual who uses the cash receipts and disbursement method of accounting and the calendar year as taxable year, engaged in raising pure-bred Charolais cattle for breeding purposes. The operation showed a loss during 1970. At the end of 1971, B sold a substantial portion of his herd and the cattle operation showed a profit for that year. For all subsequent relevant taxable years B continued to keep a few Charolais bulls at stud. In 1972, B started to raise Tennessee Walking Horses for breeding and show purposes, utilizing substantially the same pasture land, barns, and (with structural modifications) the same stalls. The Walking Horse operations showed a small profit in 1973 and losses in 1972 and 1974 through 1976.

(i) Assuming that under paragraph (d)(1) of this section the raising of cattle and raising of horses are determined to be separate activities, no presumption that the Walking Horse operation was carried on for profit arises under section 183(d) and this paragraph since this activity was not the same activity that generated the profit in 1971 and there are not, therefore, 2 profit years attributable to the horse activity.

(ii) Assuming the same facts as in (i) above, if there were no stud fees received in 1972 with respect to Charolais bulls, but for 1973 stud fees with respect to such bulls exceed deductions attributable to maintenance of the bulls in that year, the presumption will arise under section 183(d) and this paragraph with respect to the activity of raising and maintaining Charolais cattle for 1973 and for all subsequent years within the 5-year period beginning with taxable year 1971, since the activity of raising and maintaining Charolais cattle is the same activity in 1971 and in 1973, although carried on by B on a much reduced basis and in a different manner. Since it has been assumed that the horse and cattle operations are separate activities, no presumption will arise with respect to the Walking Horse operation because there are not 2 profit years attributable to such horse operation during the period in question.

(iii) Assuming, alternatively, that the raising of cattle and raising of horses would be considered a single activity under paragraph (d)(1) of this section, B would receive the benefit of the presumption beginning in 1973 with respect to both the cattle and horses since there were profits in 1971 and 1973. The presumption would be effective through 1977 (and longer if there is an excess of income over deductions in this activity in 1974, 1975, 1976, or 1977 which would extend the presumption) if, under section 183(d) and subparagraph (3) of this paragraph, it was determined that the activity consists in major part of the breeding, training, showing, or racing of horses. Otherwise, the presumption would be effective only through 1975 (assuming no excess of income over deductions in this activity in 1974 or 1975 which would extend the presumption).

(3) *Activity which consists in major part of the breeding, training, showing, or racing of horses.* For purposes of this paragraph an activity consists in major part of the breeding, training, showing, or racing of horses for the taxable year if the average of the portion of expenditures attributable to breeding, training, showing, and racing of horses for the 3 taxable years preceding the taxable year (or, in the case of an activity which has not been conducted by the taxpayer for 3 years, for so long as it has been carried on by him) was at least 50 percent of the total expenditures attributable to the activity for such prior taxable years.

(4) *Transitional rule.* In applying the presumption described in section 183(d) and this paragraph, only taxable years beginning after December 31, 1969, shall be taken into account. Accordingly, in the case of an activity referred to in subparagraph (1) (i) or (ii) of this paragraph, section 183(d) does not apply prior to the second profitable taxable year beginning after December 31, 1969, since taxable years prior to such date are not taken into account.

(5) *Cross reference.* For rules relating to section 183(e) which permits a taxpayer to elect to postpone determination of whether any activity shall be presumed to be “an activity engaged in for profit” by operation of the presumption described in section 183(d) and this paragraph until after the close of the fourth taxable year (sixth taxable year, in the case of activity which consists in major part of breeding, training, showing, or racing of horses) following the taxable year in which the taxpayer first engages in the activity, see §1.183–3.

(d) *Activity defined*—(1) *Ascertainment of activity.* In order to determine whether, and to what extent, section 183 and the regulations thereunder apply, the activity or activities of the taxpayer must be ascertained. For instance, where the taxpayer is engaged in several undertakings, each of these may be a separate activity, or several undertakings may constitute one activity. In ascertaining the activity or activities of the taxpayer, all the facts and circumstances of the case must be taken into account. Generally, the most significant facts and circumstances in making this determination are the degree of organizational and economic interrelationship of various undertakings, the business purpose which is (or might be) served by carrying on the various undertakings separately or together in a trade or business or in an investment setting, and the similarity of various undertakings. Generally, the Commissioner will accept the characterization by the taxpayer of several undertakings either as a single activity or as separate activities. The taxpayer's characterization will not be accepted, however, when it appears that his characterization is artificial and cannot be reasonably supported under the facts and circumstances of the case. If the taxpayer engages in two or more separate activities, deductions and income from each separate activity are not aggregated either in determining whether a particular activity is engaged in for profit or in applying section 183. Where land is purchased or held primarily with the intent to profit from increase in its value, and the taxpayer also engages in farming on such land, the farming and the holding of the land will ordinarily be considered a single activity only if the farming activity reduces the net cost of carrying the land for its appreciation in value. Thus, the farming and holding of the land will be considered a single activity only if the income derived from farming exceeds the deductions attributable to the farming activity which are not directly attributable to the holding of the land (that is, deductions other than those directly attributable to the holding of the land such as interest on a mortgage secured by the land, annual property taxes attributable to the land and improvements, and depreciation of improvements to the land).

(2) *Rules for allocation of expenses.* If the taxpayer is engaged in more than one activity, an item of deduction or income may be allocated between two or more of these activities. Where property is used in several activities, and one or more of such activities is determined not to be engaged in for profit, deductions relating to such property must be allocated between the various activities on a reasonable and consistently applied basis.

(3) *Example.* The provisions of this paragraph may be illustrated by the following example:

Example. (i) A, an individual, owns a small house located near the beach in a resort community. Visitors come to the area for recreational purposes during only 3 months of the year. During the remaining 9 months of the year houses such as A's are not rented. Customarily, A arranges that the house will be leased for 2 months of 3-month recreational season to vacationers and reserves the house for his own vacation during the remaining month of the recreational season. In 1971, A leases the house for 2 months for $1,000 per month and actually uses the house for his own vacation during the other month of the recreational season. For 1971, the expenses attributable to the house are $1,200 interest, $600 real estate taxes, $600 maintenance, $300 utilities, and $1,200 which would have been allowed as depreciation had the activity been engaged in for profit. Under these facts and circumstances, A is engaged in a single activity, holding the beach house primarily for personal purposes, which is an ''activity not engaged in for profit'' within the meaning of section 183(c). See paragraph (b)(9) of § 1.183–2.

(ii) Since the $1,200 of interest and the $600 of real estate taxes are specifically allowable as deductions under sections 163 and 164(a) without regard to whether the beach house activity is engaged in for profit, no allocation of these expenses between the uses of the beach house is necessary. However, since section 262 specifically disallows personal, living, and family expenses as deductions, the maintenance and utilities expenses and the depreciation from the activity must be allocated between the rental use and the personal use of the beach house. Under the particular facts and circumstances, 2/3 (2 months of rental use over 3 months of total use) of each of these expenses are allocated to the rental use, and 1/3 (1 month of personal use over 3 months of total use) of each of these expenses are allocated to the personal use as follows:

	Rental use 2/3 —expenses allocable to section 183(b)(2)	Personal use 1/3 —expenses allocable to section 262
Maintenance expense $600	$400	$200
Utilities expense $300	200	100
Depreciation $1,200	800	400
Total	1,400	700

The $700 of expenses and depreciation allocated to the personal use of the beach house are disallowed as a deduction under section 262. In addition, the allowability of each of the expenses and the depreciation allocated to section 183(b)(2) is determined under paragraph (b)(1) (ii) and (iii) of this section. Thus, the maximum amount allowable as a deduction under section 183(b)(2) is $200 ($2,000 gross income from activity, less $1,800 deductions under section 183(b)(1)). Since the amounts described in section 183(b)(2) ($1,400) exceed the maximum amount allowable ($200), and since the amounts described in paragraph (b)(1)(ii) of this section ($600) exceed such maximum amount allowable ($200), none of the depreciation (an amount described in paragraph (b)(1)(iii) of this section) is allowable as a deduction.

(e) *Gross income from activity not engaged in for profit defined.* For purposes of section 183 and the regulations thereunder, gross income derived from an activity not engaged in for profit includes the total of all gains from the sale, exchange, or other disposition of property, and all other gross receipts derived from such activity. Such gross income shall include, for instance, capital gains, and rents received for the use of property which is held in connection with the activity. The taxpayer may determine gross income from any activity by subtracting the cost of goods sold from the gross receipts so long as he consistently does so and follows generally accepted methods of accounting in determining such gross income.

(f) *Rule for electing small business corporations.* Section 183 and this section shall be applied at the corporate level in determining the allowable deductions of an electing small business corporation.

[T.D. 7198, 37 FR 13680, July 13, 1972]

§1.183–2 Activity not engaged in for profit defined.

(a) *In general.* For purposes of section 183 and the regulations thereunder, the term *activity not engaged in for profit* means any activity other than one with respect to which deductions are allowable for the taxable year under section 162 or under paragraph (1) or (2) of section 212. Deductions are allowable under section 162 for expenses of carrying on activities which constitute a trade or business of the taxpayer and under section 212 for expenses incurred in connection with activities engaged in for the production or collection of income or for the management, conservation, or maintenance of property held for the production of income. Except as provided in section 183 and §1.183–1, no deductions are allowable for expenses incurred in connection with activities which are not engaged in for profit. Thus, for example, deductions are not allowable under section 162 or 212 for activities which are carried on primarily as a sport, hobby, or for recreation. The determination whether an activity is engaged in for profit is to be made by reference to objective standards, taking into account all of the facts and circumstances of each case. Although a reasonable expectation of profit is not required, the facts and circumstances must indicate that the taxpayer entered into the activity, or continued the activity, with the objective of making a profit. In determining whether such an objective exists, it may be sufficient that there is a small chance of making a large profit. Thus it may be found that an investor in a wildcat oil well who incurs very substantial expenditures is in the venture for profit even though the expectation of a profit might be considered unreasonable. In determining whether an activity is engaged in for profit, greater weight is given to objective facts than to the taxpayer's mere statement of his intent.

(b) *Relevant factors.* In determining whether an activity is engaged in for profit, all facts and circumstances with respect to the activity are to be taken into account. No one factor is determinative in making this determination. In addition, it is not intended that only the factors described in this paragraph are to be taken into account in making the determination, or that a determination is to be made on the basis that the number of factors (whether or not listed in this paragraph) indicating a lack of profit objective exceeds the number of factors indicating a profit objective, or vice versa. Among the factors which should normally be taken into account are the following:

(1) *Manner in which the taxpayer carries on the activity.* The fact that the taxpayer carries on the activity in a businesslike manner and maintains complete and accurate books and records may indicate that the activity is engaged in for profit. Similarly, where an activity is carried on in a manner substantially similar to other activities of the same nature which are profitable, a profit motive may be indicated. A change of operating methods, adoption of new techniques or abandonment of unprofitable methods in a manner consistent with an intent to improve profitability may also indicate a profit motive.

(2) *The expertise of the taxpayer or his advisors.* Preparation for the activity by extensive study of its accepted business, economic, and scientific practices, or consultation with those who are expert therein, may indicate that the taxpayer has a profit motive where the taxpayer carries on the activity in accordance with such practices. Where a taxpayer has such preparation or procures such expert advice, but does not carry on the activity in accordance with such practices, a lack of intent to derive profit may be indicated unless it appears that the taxpayer is attempting to develop new or superior techniques which may result in profits from the activity.

(3) *The time and effort expended by the taxpayer in carrying on the activity.* The fact that the taxpayer devotes much of his personal time and effort to carrying on an activity, particularly if the activity does not have substantial personal or recreational aspects, may indicate an intention to derive a profit. A taxpayer's withdrawal from another occupation to devote most of his energies to the activity may also be evidence that the activity is engaged in for profit. The fact that the taxpayer devotes a limited amount of time to an activity does not necessarily indicate a lack of profit motive where the taxpayer employs competent and qualified persons to carry on such activity.

(4) *Expectation that assets used in activity may appreciate in value.* The term *profit* encompasses appreciation in the value of assets, such as land, used in the activity. Thus, the taxpayer may intend to derive a profit from the operation of the activity, and may also intend that, even if no profit from current operations is derived, an overall profit will result when appreciation in the value of land used in the activity is realized since income from the activity together with the appreciation of land will exceed expenses of operation. See, however, paragraph (d) of § 1.183–1 for definition of an activity in this connection.

(5) *The success of the taxpayer in carrying on other similar or dissimilar activities.* The fact that the taxpayer has engaged in similar activities in the past and converted them from unprofitable to profitable enterprises may indicate that he is engaged in the present activity for profit, even though the activity is presently unprofitable.

(6) *The taxpayer's history of income or losses with respect to the activity.* A series of losses during the initial or start-up stage of an activity may not necessarily be an indication that the activity is not engaged in for profit. However, where losses continue to be sustained beyond the period which customarily is necessary to bring the operation to profitable status such continued losses, if not explainable, as due to customary business risks or reverses, may be indicative that the activity is not being engaged in for profit. If losses are sustained because of unforeseen or fortuitous circumstances which are beyond the control of the taxpayer, such as drought, disease, fire, theft, weather damages, other involuntary conversions, or depressed market conditions, such losses would not be an indication that the activity is not engaged in for profit. A series of years in which net income was realized would of

course be strong evidence that the activity is engaged in for profit.

(7) *The amount of occasional profits, if any, which are earned.* The amount of profits in relation to the amount of losses incurred, and in relation to the amount of the taxpayer's investment and the value of the assets used in the activity, may provide useful criteria in determining the taxpayer's intent. An occasional small profit from an activity generating large losses, or from an activity in which the taxpayer has made a large investment, would not generally be determinative that the activity is engaged in for profit. However, substantial profit, though only occasional, would generally be indicative that an activity is engaged in for profit, where the investment or losses are comparatively small. Moreover, an opportunity to earn a substantial ultimate profit in a highly speculative venture is ordinarily sufficient to indicate that the activity is engaged in for profit even though losses or only occasional small profits are actually generated.

(8) *The financial status of the taxpayer.* The fact that the taxpayer does not have substantial income or capital from sources other than the activity may indicate that an activity is engaged in for profit. Substantial income from sources other than the activity (particularly if the losses from the activity generate substantial tax benefits) may indicate that the activity is not engaged in for profit especially if there are personal or recreational elements involved.

(9) *Elements of personal pleasure or recreation.* The presence of personal motives in carrying on of an activity may indicate that the activity is not engaged in for profit, especially where there are recreational or personal elements involved. On the other hand, a profit motivation may be indicated where an activity lacks any appeal other than profit. It is not, however, necessary that an activity be engaged in with the exclusive intention of deriving a profit or with the intention of maximizing profits. For example, the availability of other investments which would yield a higher return, or which would be more likely to be profitable, is not evidence that an activity is not engaged in for profit. An activity will not be treated as not engaged in for profit merely because the taxpayer has purposes or motivations other than solely to make a profit. Also, the fact that the taxpayer derives personal pleasure from engaging in the activity is not sufficient to cause the activity to be classified as not engaged in for profit if the activity is in fact engaged in for profit as evidenced by other factors whether or not listed in this paragraph.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example 1. The taxpayer inherited a farm from her husband in an area which was becoming largely residential, and is now nearly all so. The farm had never made a profit before the taxpayer inherited it, and the farm has since had substantial losses in each year. The decedent from whom the taxpayer inherited the farm was a stockbroker, and he also left the taxpayer substantial stock holdings which yield large income from dividends. The taxpayer lives on an area of the farm which is set aside exclusively for living purposes. A farm manager is employed to operate the farm, but modern methods are not used in operating the farm. The taxpayer was born and raised on a farm, and expresses a strong preference for living on a farm. The taxpayer's activity of farming, based on all the facts and circumstances, could be found not to be engaged in for profit.

Example 2. The taxpayer is a wealthy individual who is greatly interested in philosophy. During the past 30 years he has written and published at his own expense several pamphlets, and he has engaged in extensive lecturing activity, advocating and disseminating his ideas. He has made a profit from these activities in only occasional years, and the profits in those years were small in relation to the amounts of the losses in all other years. The taxpayer has very sizable income from securities (dividends and capital gains) which constitutes the principal source of his livelihood. The activity of lecturing, publishing pamphlets, and disseminating his ideas is not an activity engaged in by the taxpayer for profit.

Example 3. The taxpayer, very successful in the business of retailing soft drinks, raises dogs and horses. He began raising a particular breed of dogs many years ago in the belief that the breed was in danger of declining, and he has raised and sold the dogs in each year since. The taxpayer recently began raising and racing thoroughbred horses. The losses from the taxpayer's dog and horse activities have increased in magnitude over the years, and he has not made a profit on these operations during any of the last 15 years. The taxpayer generally sells the dogs only to friends, does not advertise the dogs for sale, and shows the dogs only infrequently. The taxpayer races his horses only at the ‘‘prestige’’ tracks at which he combines his racing activities with social and recreational activities. The horse and dog operations are conducted at a large residential property on which the taxpayer also lives, which includes substantial living quarters and attractive recreational facilities for the taxpayer and his family. Since (i) the activity of raising dogs and horses and racing the horses is of a sporting and recreational nature, (ii) the taxpayer has substantial income from his business activities of retailing soft drinks, (iii) the horse and dog operations are not conducted in a businesslike manner, and (iv) such operations have a continuous record of losses, it could be determined that the horse and dog activities of the taxpayer are not engaged in for profit.

Example 4. The taxpayer inherited a farm of 65 acres from his parents when they died 6 years ago. The taxpayer moved to the farm from his house in a small nearby town, and he operates it in the same manner as his parents operated the farm before they died. The taxpayer is employed as a skilled machine operator in a nearby factory, for which he is paid approximately $8,500 per year. The farm has not been profitable for the past 15 years because of rising costs of operating farms in general, and because of the decline in the price of the produce of this farm in particular. The taxpayer consults the local agent of the State agricultural service from time to time, and the suggestions of the agent have generally been followed. The manner in which the farm is operated by the taxpayer is substantially similar to the manner in which farms of similar size, and which grow similar crops in the area, are operated. Many of these other farms do not make profits. The taxpayer does much of the required labor around the farm himself, such as fixing fences, planting crops, etc. The activity of farming could be found, based on all the facts and circumstances, to be engaged in by the taxpayer for profit.

Example 5. A, an independent oil and gas operator, frequently engages in the activity of searching for oil on undeveloped and unexplored land which is not near proven fields. He does so in a manner substantially similar to that of others who engage in the same activity. The chances, based on the experience of A and others who engaged in this activity, are strong that A will not find a commercially profitable oil deposit when he drills on land not established geologically to be proven oil bearing land. However, on the rare occasions that these activities do result in discovering a well, the operator generally realizes a very large return from such activity. Thus, there is a small chance that A will make a large profit from his soil exploration activity. Under these circumstances, A is engaged in the activity of oil drilling for profit.

Example 6. C, a chemist, is employed by a large chemical company and is engaged in a wide variety of basic research projects for his employer. Although he does no work for his employer with respect to the development of new plastics, he has always been interested in such development and has outfitted a workshop in his home at his own expense which he uses to experiment in the field. He has patented several developments at his own expense but as yet has realized no income from his inventions or from such patents. C conducts his research on a regular, systematic basis, incurs fees to secure consultation on his projects from time to time, and makes extensive efforts to ‘‘market’’ his developments. C has devoted substantial time and expense in an effort to develop a plastic sufficiently hard, durable, and malleable that it could be used in lieu of sheet steel in many major applications, such as automobile bodies. Although there may be only a small chance that C will invent new plastics, the return from any such development would be so large that it induces C to incur the costs of his experimental work. C is sufficiently qualified by his background that there is some reasonable basis for his experimental activities. C’s experimental work does not involve substantial personal or recreational aspects and is conducted in an effort to find practical applications for his work. Under these circumstances, C may be found to be engaged in the experimental activities for profit.

[T.D. 7198, 37 FR 13683, July 13, 1972]

§ 1.183–3 Election to postpone determination with respect to the presumption described in section 183(d). [Reserved]

§ 1.183–4 Taxable years affected.

The provisions of section 183 and the regulations thereunder shall apply only with respect to taxable years beginning after December 31, 1969. For provisions applicable to prior taxable years, see section 270 and § 1.270–1.

[T.D. 7198, 37 FR 13685, July 13, 1972]

§ 1.186–1 Recoveries of damages for antitrust violations, etc.

(a) *Allowance of deduction.* Under section 186, when a compensatory amount which is included in gross income is received or accrued during a taxable year for a compensable injury, a deduction is allowed in an amount equal to the lesser of (1) such compensatory amount, or (2) the unrecovered losses sustained as a result of such compensable injury.

(b) *Compensable injury*—(1) *In general.* For purposes of this section, the term *compensable injury* means any of the injuries described in subparagraph (2), (3), or (4) of this paragraph.

(2) *Patent infringement.* An injury sustained as a result of an infringement of a patent issued by the United States (whether or not issued to the taxpayer or another person or persons) constitutes a compensable injury. The term *patent issued by the United States* means any patent issued or granted by the United States under the authority of the Commissioner of Patents pursuant to 35 U.S.C. 153.

(3) *Breach of contract or of fiduciary duty or relationship.* An injury sustained as a result of a breach of contract (including an injury sustained by a third party beneficiary) or a breach of fiduciary duty or relationship constitutes a compensable injury.

(4) *Injury suffered under certain antitrust law violations.* An injury sustained in business, or to property, by reason of any conduct forbidden in the antitrust laws for which a civil action may be brought under section 4 of the Act of October 15, 1914 (15 U.S.C. 15), commonly known as the Clayton Act, constitutes a compensable injury.

(c) *Compensatory amount*—(1) *In general.* For purposes of this section, the term, *compensatory amount* means any amount received or accrued during the taxable year as damages as a result of an award in, or in settlement of, a civil action for recovery for a compensable injury, reduced by any amounts paid or incurred in the taxable year in securing such award or settlement. The term *compensatory amount* includes only amounts compensating for actual economic injury. Thus, additional amounts representing punitive, exemplary, or treble damages are not included within the term. Where, for example, a taxpayer recovers treble damages under section 4 of the Clayton Act, only one-third of the recovery representing economic injury constitutes a compensatory amount. In the absence of any indication to the contrary, amounts received in settlement of an action shall be deemed to be a recovery for an actual economic injury except to the extent such settlement amounts exceed actual damages claimed by the taxpayer in such action.

(2) *Interest on a compensatory amount.* Interest attributable to a compensatory amount shall not be included within the term *compensatory amount.*

(3) *Settlement of a civil action for damages*—(i) *Necessity for an action.* The term *compensatory amount* does not include an amount received or accrued in settlement of a claim for a compensable injury if the amount is received or accrued prior to institution of an action. An action shall be considered as instituted upon completion of service of process, in accordance with the laws and rules of the court in which the action has been commenced or to which the action has been removed, upon all defendants who pay or incur an obligation to pay a compensatory amount.

(ii) *Specifications of the parties.* If an action for a compensable injury is settled, the specifications of the parties will generally determine compensatory amounts unless such specifications are not reasonably supported by the facts and circumstances of the case. For example, the parties may provide that the sum of $1,000 represents actual damages sustained as the result of antitrust violations and that the total amount of the settlement after the trebling of damages is $3,000. In such case, only the sum of $1,000 would be a compensatory amount. In the absence of specifications of the parties, the complaint filed by the taxpayer may be considered in determining what portion of the amount of the settlement is a compensatory amount.

(4) *Amounts paid or incurred in securing the award or settlement.* For purposes of this section, the term *amounts paid or incurred in the taxable year in securing such award or settlement* shall include legal expenses such as attorney's fees, witness fees, accountant fees, and court costs. Expenses incurred in securing a recovery of both a compensatory amount and other amounts from the same action shall be allocated among such amounts in the ratio each of such amounts bears to the total recovery. For instance, where a taxpayer incurs attorney's fees and other expenses of $3,000 in recovering $10,000 as

a compensatory amount, $5,000 as a return of capital, and $25,000 as punitive damages from the same action, the taxpayer shall allocate $750 of the expenses to the compensatory amount (10,000/40,000×3,000), $375 to the return of capital (5,000/40,000×3,000), and $1,875 to the punitive damages (25,000/40,000× 3,000).

(d) *Unrecovered losses*—(1) *In general.* For purposes of this section, the term *unrecovered losses sustained as a result of such compensable injury* means the sum of the amounts of the net operating losses for each taxable year in whole or in part within the injury period, to the extent that such net operating losses are attributable to such compensable injury, reduced by (i) the sum of any amounts of such net operating losses which were allowed as a net operating loss carryback or carryover for any prior taxable year under the provisions of section 172, and (ii) the sum of any amounts allowed as deductions under section 186 (a) and this section for all prior taxable years with respect to the same compensable injury. Accordingly, a deduction is permitted under section 186(a) and this section with respect to net operating losses whether or not the period for carryover under section 172 has expired.

(2) *Injury period.* For purposes of this section, the term *injury period* means (i) with respect to an infringement of a patent, the period during which the infringement of the patent continued, (ii) with respect to a breach of contract or breach of fiduciary duty or relationship, the period during which amounts would have been received or accrued but for such breach of contract or breach of fiduciary duty or relationship, or (iii) with respect to injuries sustained by reason of a violation of section 4 of the Clayton Act, the period during which such injuries were sustained. The injury period will be determined on the basis of the facts and circumstances of the taxpayer's situation. The injury period may include a periods before and after the period covered by the civil action instituted.

(3) *Net operating losses attributable to compensable injuries.* A net operating loss for any taxable year shall be treated as attributable (whether actually attributable or not) to a compensable injury to the extent the compensable injury is sustained during the taxable year. For purposes of determining the extent of the compensable injury sustained during a taxable year, a judgment for a compensable injury apportioning the amount of the recovery (not reduced by any amounts paid or incurred in securing such recovery) to specific taxable years within the injury period will be conclusive. If a judgment for a compensable injury does not apportion the amount of the recovery to specific taxable years within the injury period, the amount of the recovery will be prorated among the years within the injury period in the proportion that the net operating loss sustained in each of such years bear to the total net operating losses sustained for all such years. If an action is settled, the specifications of the parties will generally determine the apportionment of the amount of the recovery unless such specifications are not reasonably supported by the facts and circumstances of the case. In the absence of specifications of the parties, the amount of the recovery will be prorated among the years within the injury period in the proportion that the net operating loss sustained in each of such years bears to the total net operating losses sustained for all such years.

(4) *Application of losses attributable to a compensable injury.* If only a portion of a net operating loss for any taxable year is attributable to a compensable injury, such portion shall (in applying section 172 for purposes of this section) be considered to be a separate net operating loss for such year to be applied after the other portion of such net operating loss. If, for example, in the year of the compensable injury the net operating loss was $1,000 and the amount of the compensable injury was $600, the amount of $400 not attributable to the compensable injury would be used first to offset profits in the carryover or carryback periods as prescribed by section 172. After the amount not attributable to the compensable injury is used to offset profits in other years, then the amount attributable to the compensable injury will be applied against profits in the carryover or carryback periods.

(e) *Effect on net operating loss carryovers*—(1) *In general.* Under section 186 (e) if for the taxable year in which a compensatory amount is received or accrued any portion of the net operating loss carryovers to such year is attributable to the compensable injury for which such amount is received or accrued, such portion of the net operating loss carryovers must be reduced by the excess, if any, of (i) the amount computed under section 186(e)(1) with respect to such compensatory amount, over (ii) the amount computed under section 186(e)(2) with respect to such compensable injury.

(2) *Amount computed under section 186(e)(1).* The amount computed under section 186(e)(1) is equal to the deduction allowed under section 186(a) with respect to the compensatory amount received or accrued for the taxable year.

(3) *Amount computed under section 186(e)(2).* The amount computed under section 186(e)(2) is equal to that portion of the unrecovered losses sustained as a result of the compensable injury with respect to which, as of the beginning of the taxable year, the period for carryover under section 172 has expired without benefit to the taxpayer, but only to the extent that such portion of the unrecovered losses did not reduce an amount computed under section 186(e)(1) for any prior taxable year.

(4) *Increase in income under section 172(b)(2).* If there is a reduction for any taxable year under subparagraph (1) of this paragraph in the portion of the net operating loss carryovers to such year attributable to a compensable injury, then, solely for purposes of determining the amount of such portion which may be carried to subsequent taxable years, the income of such taxable year, as computed under section 172(b)(2), shall be increased by the amount of the reduction computed under subparagraph (1) of this paragraph, for such year.

(f) *Illustration.* The provisions of section 186 and this section may be illustrated by the following example:

Example. (i) As of the beginning of his taxable year 1969, taxpayer A has a net operating loss carryover from his taxable year 1966 of $550 of which $250 is attributable to a compensable injury. In addition, he has a net operating loss attributable to the compensable injury of $150 with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer. In 1969, he receives a $100 compensatory amount with respect to that injury and he has $75 in other income. Thus, A has gross income of $175 and he is entitled to a $100 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the unrecovered losses sustained as a result of the compensable injury ($250+$150=$400). No portion of the net operating loss carryover to the current taxable year attributable to the compensable injury is reduced under section 186(e) since the amount determined under section 186(e)(1) ($100) does not exceed the amount determined under section 186(e)(2) ($150). Therefore, A applies a net operating loss carryover of $550 against his remaining income of $75 and retains a net operating loss carryover of $475 to following years of which amount $250 remains attributable to the compensable injury. In addition, he retains $50 of net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(ii) In 1970, A receives a $200 compensatory amount with respect to the same compensable injury and has $75 of other income. Thus, A has gross income of $275 and he is entitled to a $200 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the remaining unrecovered loss sustained as a result of the compensable injury ($250+$50=$300). The net operating loss carryover to the current taxable year of $250 attributable to the compensable injury is reduced under section 186(e) by $150, which is the excess of the amount determined under section 186(e)(1) ($200) over the amount determined under section 186(e)(2) ($50). Therefore, A applies net operating loss carryovers of $325 ($225 not attributable to the compensable injury, +$100 attributable to such injury) against his remaining income of $75. A retains net operating loss carryovers of $250 for following years, of which amount $100 is attributable to the compensable injury. A has used all of his net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(iii) In 1971, A receives a $200 compensatory amount with respect to the same compensable injury and has $75 of other income. Thus, A has gross income of $275 and he is entitled to a $100 deduction (the amount of unrecovered losses) under section 186(a) and this section since this amount is less than the compensatory amount received ($200). The net operating loss carryover to the current taxable year of $100 attributable to the compensable injury is reduced under section 186(e) by $100, which is the excess of the amount determined under section 186(e)(1) ($100) over the amount determined under section 186(e)(2) ($0). Therefore, A applies net operating loss carryovers of $150 against his remaining income of $175 ($100 compensatory amount plus $75 other income) which leaves $25 taxable income. No net operating loss carryover remains for following years.

(g) *Effective date.* The provisions of this section are applicable as to compensatory amounts received or accrued in taxable years beginning after December 31, 1968, even though the compensable injury was sustained in taxable years beginning before such date.

[T.D. 7220, 37 FR 24744, Nov. 21, 1972]

§ 1.187–1 Amortization of certain coal mine safety equipment.

(a) *Allowance of deduction*—(1) *In general.* Under section 187(a), every person, at his election, shall be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of any certified coal mine safety equipment (as defined in § 1.187–2), based on a period of 60 months. Such 60-month period shall, at the election of the taxpayer, begin either with the month following the month in which such equipment was placed in service or with the succeeding taxable year. For rules as to making or discontinuing the election, see paragraphs (b) and (c) of this section. For the computation of the adjusted basis (for determining gain) of any certified coal mine safety equipment, see paragraph (b) of § 1.187–2.

(2) *Amount of deduction.* (i) Such amortization deduction shall be an amount, with respect to each month of such 60-month period which falls within the taxable year, equal to the adjusted basis for determining gain of the certified coal mine safety equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in such 60-month period. Such adjusted basis at the end of any month shall be computed without regard to the amortization deduction for such month. The total amortization deduction with respect to any certified coal mine safety equipment for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year.

(ii) If any certified coal mine safety equipment is sold or exchanged or otherwise disposed of during a particular month, then the amortization deduction (if any) allowable to the transferor in respect of that month shall be that portion of the amount to which such person would be entitled for a full month which the number of days in such month during which the equipment was held by such person bears to the total number of days in such month.

(3) *Effect on other deductions.* (i) The amortization deduction provided by section 187(a) with respect to any month shall be in lieu of the depreciation deduction which would otherwise be allowable with respect to such equipment under section 167 for such month.

(ii) If the adjusted basis of such coal mine safety equipment as computed under section 1011 for purposes other than the amortization deduction provided by section 187(a) is in excess of the adjusted basis, as computed under paragraph (b) of § 1.187–2, then such excess shall be recovered through depreciation deductions under the rules of section 167. See section 187(e), and paragraph (b)(2) of § 1.187–2.

(iii) See section 179 and paragraph (e)(1)(ii) of § 1.179–1 for additional first-year depreciation in respect of certified coal mine safety equipment.

(4) *Special rules.* (i) If the assets of a corporation which has elected to take the amortization deduction under section 187(a) are acquired by another corporation in a transaction to which section 381 (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the transferor or distributor corporation for purposes of this section.

(ii) For the right of estates and trusts to take the amortization deduction provided by section 187 see section 642(f) and § 1.642(f)-1.

(iii) For the allowance of the amortization deduction in the case of coal mine safety equipment of partnerships see section 703 and § 1.703–1.

(iv) In the case of certified coal mine safety equipment held by one person for life with the remainder to another person, the amortization deduction under section 187(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(5) *Effective date.* The provisions of this paragraph shall apply to taxable years ending after December 31, 1969.

(6) *Meaning of terms.* Except as otherwise provided in §1.187–2, all terms used in section 187 and the regulations thereunder shall have the meaning provided by this section and §1.187–2.

(b) *Election of amortization*—(1) *In general.* Under section 187(b), an election by the taxpayer to make amortization deductions with respect to any certified coal mine safety equipment and to begin the 60-month amortization period shall be made by a statement to that effect attached to his return for the taxable year in which falls the first month of the 60-month amortization period so elected. Such statement shall include the following information:

(i) A description clearly identifying each piece of certified coal mine safety equipment for which an amortization deduction is claimed;

(ii) The date on which such equipment was ‘‘placed in service’’ (see paragraph (a)(2)(i) of §1.187–2);

(iii) The date on which the amortization period began;

(iv) The total costs paid or incurred in the acquisition and installation of such equipment;

(v) A computation showing the adjusted basis (as defined in paragraph (b) of §1.187–2) of the equipment as of the beginning of the amortization period;

(vi) In the case of electric face equipment which is newly acquired by the taxpayer, a statement that the equipment has been certified by the Secretary of the Interior or the Director of the Bureau of Mines as being permissible within the meaning of section 305(a)(2) of the Federal Coal Mine Health and Safety Act of 1969; and

(vii) In the case of property placed in service in connection with used electric face equipment (within the meaning of paragraph (a)(2)(ii) of §1.187–2), a statement that such property has resulted in the used electric face equipment becoming permissible and a copy of the notification that such property is permissible.

(2) *Late certification.* If, 90 days before the date on which the return described in this paragraph is due, a piece of coal mine safety equipment has not been certified as permissible by the Secretary of the Interior or the Director of the Bureau of Mines, then the election may be made by a statement in an amended income tax return for the taxable year in which falls the first month of the 60-month amortization period so elected. The statement and amended return in such case must be filed not later than 90 days after the date the equipment is certified as permissible by the Secretary of the Interior or the Director of the Bureau of Mines. Amended income tax returns or claims for credit or refund should also be filed at this time for other taxable years which are within the amortization period and which are subsequent to the taxable year for which the election is made. Nothing in this paragraph shall be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(3) *Other requirements and considerations.* No method of making the election provided for in section 187(a) other than that prescribed in this section shall be permitted on or after August 11, 1971. A taxpayer who does not elect in the manner prescribed in this section to take amortization deductions with respect to certified coal mine safety equipment shall not be entitled to such deductions. In the case of a taxpayer who has elected prior to August 11, 1971 the statement required by subparagraph (1) of this paragraph shall be attached to his income tax return for his taxable year in which August 11, 1971 occurs.

(c) *Election to discontinue or revoke amortization*—(1) *Election to discontinue.* (i) Under section 187(c), if a taxpayer has elected to take the amortization deduction provided by section 187(a) with respect to any certified coal mine safety equipment, he may, after such election and prior to the expiration of the 60-month amortization period, elect to discontinue the amortization deduction for the remainder of the 60-month period for such equipment.

(ii) An election to discontinue the amortization deduction shall be made by a statement in writing filed with the District Director or with the director of the Internal Revenue Service center with whom the return of the taxpayer is required to be filed for its taxable year in which falls the first month for which the election terminates. In addition, a copy of such statement shall be attached to the taxpayer's income tax return filed for such taxable year. Such statement shall specify the month as of the beginning of which the taxpayer elects to discontinue such deductions, and shall be filed before the beginning of the month specified therein. In addition, such notice shall contain a description clearly identifying the certified coal mine safety equipment with respect to which the taxpayer elects to discontinue the amortization deduction. If the taxpayer so elects to discontinue the amortization deduction, he shall not be entitled to any further amortization deductions under section 187 with respect to such equipment.

(2) *Revocation of elections made prior to August 11, 1971.* If before August 11, 1971 an election under section 187(a) has been made, consent is hereby given for the taxpayer to revoke such election without the consent of the Commissioner. Such election may be revoked by filing a notice of revocation on or before November 9, 1971. Such notice shall be in the form and shall be filed in the manner required by subparagraph (1)(ii) of this paragraph. If such revocation is for a period which falls within one or more taxable years for which an income tax return has been filed, an amended income tax return shall be filed for any taxable year in which a deduction was taken under section 187 on or before November 9, 1971.

(3) *Depreciation subsequent to discontinuance or in the case of revocation of amortization.* (i) A taxpayer who elects in the manner prescribed under subparagraph (1) of this section to discontinue amortization deductions under section 187(a) or under subparagraph (2) of this paragraph to revoke an election made prior to August 11, 1971 with respect to an item of certified coal mine safety equipment may be entitled to a deduction for depreciation with respect to such equipment. See section 167 and the regulations thereunder.

(ii) In the case of an election to discontinue an amortization deduction under section 187, the deduction for depreciation shall be computed beginning with the first month as to which such amortization deduction is not applicable, and shall be based upon the adjusted basis (see section 1011 and the regulations thereunder) of the property as of the beginning of such month. Such depreciation deduction shall be based upon the remaining portion of the period authorized under section 167 for the facility, as determined as of the first day of the first month as of which the amortization deduction is not applicable.

(iii) In the case of a revocation of an election under section 187 referred to in paragraph (c)(2) of this section the deduction for depreciation shall begin as of the time such depreciation deduction would have been taken but for the election under section 187. See subparagraph (2) of this section for rules as to filing amended returns for years for which amortization deductions have been taken.

(d) *Examples.* This section may be illustrated by the following examples:

Example 1. On September 30, 1970, the X Corporation, which uses the calendar year as its taxable year, places in service a piece of coal mine safety equipment required as a result of the Federal Coal Mine Health and Safety Act of 1969 which is certified as indicated in paragraph (a) of § 1.187–2. The cost of the equipment is $120,000. On its income tax return filed for 1970, the corporation elects to take the amortization deductions allowed by section 187(a) with respect to the equipment and to begin the 60-month amortization period with October 1970, the month following the month in which it was placed in service. The adjusted basis at the end of October 1970 (determined without regard to the amortization deduction allowed by section 187(a) for that month) is $120,000. The allowable amortization deduction with respect to such equipment for the taxable year 1970 is $6,000, computed as follows:

Monthly amortization deductions:	
October: $120,000 divided by 60	$2,000
November: $118,000 ($120,000 minus $2,000) divided by 59	2,000
December: $116,000 ($118,000 minus $2,000) divided by 58	2,000
Total amortization deduction for 1970	6,000

Example 2. Assume the same facts as in *Example (1).* Assume further that on May 20, 1972, X properly files notice of its election to discontinue the amortization deductions with the month of June 1972. The adjusted basis of the equipment as of June 1, 1972 (assuming no capital additions or improvements) is $80,000, computed as follows: Yearly amortization deductions computed in accordance with *Example (1):*

1970	$6,000
1971	24,000
1972 (for the first 5 months)	10,000
Total amortization deductions for 20 months	40,000
Adjusted basis at beginning of amortization period	120,000
Less: Amortization deductions	40,000
Adjusted basis as of June 1, 1972	80,000

Beginning as of June 1, 1972, the deduction for depreciation under section 167 is allowable with respect to the property on its adjusted basis of $80,000.

Example 3. Assume the same facts as in *Example (1),* except that on its income tax return filed in 1970, X does not elect to take amortization deductions allowed by section 187(a) but that on its income tax return filed for 1971 X elects to begin the amortization period as of January 1, 1971, the taxable year succeeding the taxable year the equipment was placed in service. Assume further that the only adjustment to basis for the period October 1, 1970, to January 1, 1971, is $3,000 for depreciation (the amount allowable, of which $2,000 is for additional first year depreciation under section 179) for the last 3 months of 1970. The adjusted basis (for determining gain) for purposes of section 187 as of that date is $120,000 less $3,000 or $117,000.

[T.D. 7137, 36 FR 14733, Aug. 11, 1971; 36 FR 16656, Aug. 25, 1971]

§1.187–2 Definitions.

(a) *Certified coal mine safety equipment*—(1) *In general*—(i) The term *certified coal mine safety equipment* means property which:

(a) Is electric face equipment (within the meaning of section 305 of the Federal Coal Mine Health and Safety Act of 1969) required in order to meet the requirements of section 305(a)(2) of such Act,

(b) The Secretary of the Interior or the Director of the Bureau of Mines certifies is permissible within the meaning of such section 305(a)(2), and

(c) Is placed in service (as defined in subparagraph (2)(i) of this paragraph) before January 1, 1975.

(ii) In addition, property placed in service in connection with any used electric face equipment which the Secretary of the Interior or the Director of the Bureau of Mines certifies makes such used electric face equipment permissible shall be treated as a separate item of certified coal mine safety equipment. See subparagraph (2)(ii) of this paragraph.

(2) *Meaning of terms.* (i) For purposes of subparagraph (1)(i)(c) of this paragraph, the term *placed in service* shall have the meaning assigned to such term in paragraph (d) of §1.46–3.

(ii) For purposes of subparagraph (1)(ii) of this paragraph, the term *property* includes those costs of converting existing nonpermissible electric face equipment to a permissible condition which are chargeable to capital account under the principles of §1.1016–2. Property is considered to be placed in service in connection with used electric face equipment (which was not permissible) if its use causes such electric face equipment to be certified as permissible.

(b) *Adjusted basis*—(1) *In general.* The basis upon which the deduction with respect to amortization allowed by section 187 is to be computed with respect to any item of certified coal mine safety equipment shall be the adjusted basis provided in section 1011 for the purpose of determining gain on the sale or other disposition of such property (see part II (section 1011 and following) subchapter O, chapter 1 of the Code) computed as of the first day of the amortization period. For an example showing the determination of the adjusted basis referred to in the preceding sentence in the case where the amortization period begins with the taxable year succeeding the taxable year in which the property is placed in service see *Example (3)* in paragraph (d) of §1.187–1.

(2) *Capital additions.* The adjusted basis of any certified coal mine safety equipment, with respect to which an election is made under section 187(b), shall not be increased, for purposes of section 187, for amounts chargeable to the capital account for additions or improvements after the amortization period has begun. However, nothing contained in this section or §1.187–1 shall

be deemed to disallow a deduction for depreciation for such capital additions. Thus, for example, if a taxpayer places a piece of certified coal mine safety equipment in service in 1971 and in 1972 makes improvements to it the expenditures for which are chargeable to the capital account, such improvements shall not increase the adjusted basis of the equipment for purposes of computing the amortization deduction allowed by section 187(a). However, the depreciation deduction provided by section 167 shall be allowed with respect to such improvements in accordance with the principles of section 167.

[T.D. 7137, 36 FR 14734, Aug. 11, 1971; 36 FR 19251, Oct. 1, 1971]

§ 1.188–1 Amortization of certain expenditures for qualified on-the-job training and child care facilities.

(a) *Allowance of deduction*—(1) *In general.* Under section 188, at the election of the taxpayer, any eligible expenditure (as defined in paragraph (d)(1) of this section) made by such taxpayer to acquire, construct, reconstruct, or rehabilitate section 188 property (as defined in paragraph (d)(2) of this section) shall be allowable as a deduction ratably over a period of 60 months. Such 60-month period shall begin with the month in which such property is placed in service. For rules for making the election, see paragraph (b) of this section. For rules relating to the termination of an election, see paragraph (c) of this section.

(2) *Amount of deduction*—(i) *In general.* For each eligible expenditure attributable to an item of section 188 property the amortization deduction shall be an amount, with respect to each month of the 60-month amortization period which falls within the taxable year, equal to the elgible expenditure divided by 60. The total amortization deduction with respect to each item of section 188 property for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year. The total amortization deduction under section 188 for a particular taxable year is the sum of the amortization deductions allowable with respect to each item of section 188 property for that taxable year.

(ii) *Separate amortization period for each expenditure.* Each eligible expenditure attributable to an item of section 188 property to which an election relates shall be amortized over a 60-month period beginning with the month in which the item of section 188 property is placed in service. Thus, if a taxpayer makes an eligible expenditure for an addition to, or improvement of, section 188 property, such expenditure must be amortized over a separate 60-month period beginning with the month in which the section 188 property is placed in service.

(iii) *Separate items.* The determination of what constitutes a separate item of section 188 property is to be made on the basis of the facts and circumstances of each individual case. Additions or improvements to an existing item of section 188 property are treated as a separate item of section 188 property. In general, each item of personal property is a separate item of property and each building, or separate element or structural component thereof, is a separate item of property. For purposes of subdivisions (i) and (ii) of this subparagraph, two or more items of property may be treated as a single item of property if such items (A) are placed in service within the same month of the taxable year, (B) have same estimated useful life, and (C) are to be used in a functionally related manner in the operation of a qualified on-the-job training or child care facility or are integrally related facilities (described in paragraph (d) (3) or (4) of this section.

(iv) *Disposition of property or termination of election.* If an item of section 188 property is sold or exchanged or otherwise disposed of (or if the item of property ceases to be used as section 188 property by the taxpayer) during a particular month, then the amortization deduction (if any) allowable to the taxpayer in respect of that item for that month shall be an amount which bears the same ratio to the amount to which the taxpayer would be entitled for a full month as the number of days in such month during which the property was held by him (or used by him as section 188 property) bears to the total number of days in such month.

(3) *Effect on other deductions.* The amortization deduction provided by section 188(a) with respect to any month shall be in lieu of any depreciation deduction which would otherwise be allowable under sections 167 or 179 with respect to that portion of the adjusted basis of the property attributable to an adjustment under section 1016(a)(1) made on account of an eligible expenditure.

(4) *Depreciation with respect to property ceasing to be used as section 188 property.* A taxpayer is entitled to a deduction for the depreciation (to the extent allowable under section 167) of property with respect to which the election under section 188 is terminated under the provisions of paragraph (c) of this section. The deduction for depreciation shall begin with the date of such termination and shall be computed on the adjusted basis of the property as of such date. The depreciation deduction shall be based upon the estimated remaining useful life and salvage value authorized under section 167 for the property as of the termination date.

(5) *Investment credit not to be allowed.* Any property with respect to which an election has been made under section 188(a) shall not be treated as section 38 property within the meaning of section 48(a).

(6) *Special rules*—(i) *Life estates.* In the case of section 188 property held by one person for life with the remainder to another person, the amortization deduction under section 188(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(ii) *Certain corporate acquistions.* If the assets of a corporation which has elected to take the amortization deduction under section 188(a) are acquired by another corporation in a transaction to which section 381(a) (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the distributor or transferor corporation for purposes of this section.

(iii) *Estates and trusts.* For the allowance of the amortization deduction in the case of estates and trusts, see section 642(f) and §1.642(f)–(1).

(iv) *Partnerships.* For the allowance of the amortization deduction in the case of partnerships, see section 703 and §1.703–1.

(b) *Time and manner of making election*—(1) *In general.* Except as otherwise provided in subparagraph (2) of this paragraph, an election to amortize an eligible expenditure under section 188 shall be made by attaching, to the taxpayer's income tax return for the taxable period for which the deduction is first allowable to such taxpayer, a written statement containing:

(i) A description clearly identifying each item of property (or two or more items of property treated as a single item) forming a part of a qualified on-the-job training or child care facility to which the election relates. e.g., building, classroom equipment, etc.;

(ii) The date on which the eligible expenditure was made for such item of property (or the period during which eligible expenditures were made for two or more items of property treated as a single item of property);

(iii) The date on which such item of property was ''placed in service'' (see paragraph (d)(5) of this section);

(iv) The amount of the eligible expenditure of such item of property (or the total amount of expenditures for two or more items of property treated as a single item); and

(v) The annual amortization deduction claimed with respect to such item of property.

If the taxpayer does not file a timely return (taking into account extensions of the time for filing) for the taxable year for which the election is first to be made, the election shall be filed at the time the taxpayer files his first return for that year. The election may be made with an amended return only if such amended return is filed no later than the time prescribed by law (including extensions thereof) for filing the return for the taxable year of election.

(2) *Special rule.* With respect to any return filed before (90 days after the date on which final regulations are filed with the Office of the Federal

Register), the election to amortize an eligible expenditure for section 188 property shall be made by a statement on, or attached to, the income tax return (or an amended return) for the taxable year, indicating that an election is being made under section 188 and setting forth information to identify the election and the facility or facilities to which it applies. An election made under the provisions of this subparagraph, must be made not later than (i) the time, including extensions thereof, prescribed by law for filing the income tax return for the first taxable year for which the election is being made or (ii) before (90 days after the date on which final regulations under section 188 are filed with the Office of the Federal Register), whichever is later. Nothing in this subparagraph shall be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(3) *No other method of making election.* No method for making the election under section 188(a) other than the method prescribed in this paragraph shall be permitted. If an election to amortize section 188 property is not made within the time and in the manner prescribed in this paragraph, no election may be made (by the filing of an amended return or in any other manner) with respect to such section 188 property.

(4) *Effect of election.* An election once made may not be revoked by a taxpayer with respect to any item of section 188 property to which the election relates. The election of the amortization deducted for an item of section 188 property shall not affect the taxpayer's right to elect or not to elect the amortization deduction as to other items of section 188 property even though the items are part of the same facility. For rules relating to the termination of an election other than by revocation by the taxpayer, see paragraph (c) of this section.

(c) *Termination of election.* If the specific use of an item of section 188 property in connection with a qualified on-the-job training or child care facility is discontinued, the election made with respect to that item of property shall be terminated. The termination shall be effective with respect to such item of property as of the earliest date on which the taxpayer's specific use of the item is no longer in connection with the operation of a qualified on-the-job training or child care facility. If a facility ceases to meet the applicable requirements of paragraph (d)(3) of this section, relating to qualified on-the-job training facilities, or paragraph (d)(4) of this section, relating to qualified child care facilities, the election or elections made with respect to the items of section 188 property comprising such facility shall be terminated. The termination shall be effective with respect to such items of poperty as of the earliest date on which the facility is no longer qualified under the applicable rules. For rules relating to depreciation with respect to property ceasing to be used as section 188 property, see paragraph (a)(4) of this section.

(d) *Definitions and special requirements*—(1) *Eligible expenditure.* For purposes of this section, the term *eligible expenditure* means an expenditure:

(i) Chargeable to capital account;

(ii) Made after December 31, 1971, and before January 1, 1982, to acquire, construct, reconstruct, or rehabilitate section 188 property which is a qualified child care center facility (or, made after December 31, 1971, and before January 1, 1977, to acquire, construct, reconstruct, or rehabilitate section 188 property which is a qualified on-the-job training facility); and

(iii) For which, but only to the extent that, a grant or other reimbursement excludable from gross income is not, directly or indirectly, payable to, or for the benefit of, the taxpayer with respect to such expenditure under any job training or child care program established or funded by the United States, a State, or any instrumentality of the foregoing, or the District of Columbia.

For purposes of this subparagraph, an expenditure is considered to be made when actually paid by a taxpayer who computes his taxable income under the cash receipts and disbursements method or when the obligation therefore is incurred by a taxpayer who computes his taxable income under the accrual method. See subparagraph (5) of this paragraph for the determination of when section 188 property is placed in service for purposes of beginning the 60-month amortization period.

(2) *Section 188 property.* Section 188 property is tangible property which is:

(i) Of a character subject to depreciation;

(ii) Located within the United States; and

(iii) Specifically used as an integral part of a qualified on-the-job training facility (as defined in subparagraph (3) of this paragraph) or as an integral part of a qualified child care center facility (as defined in subparagraph (4) of this paragraph.)

(3) *Qualified on-the-job training facility.* A *qualified on-the-job training facility* is a facility specifically used by an employer as an on-the-job training facility in connection with an occupational training program for his employees or prospective employees provided that with respect to such program:

(i) All of the following requirements are met:

(A) There is offered at the training facility a systematic program comprised of work and training and related instruction;

(B) The occupation, together with a listing of its basic skills, and the estimated schedule of time for accomplishments of such skills, are clearly identified;

(C) The content of the training is adequate to qualify the employee, or prospective employee, for the occupation for which the individual is being trained;

(D) The skills are to be imparted by competent instructors;

(E) Upon completion of the training, placement is to be based primarily upon the skills learned through the training program;

(F) The period of training is not less than the time necessary to acquire minimum job skills nor longer than the usual period of training for the same occupation; and

(G) There is reasonable certainty that employment will be available with the employer in the occupation for which the training is provided; or

(ii) The employer has entered into an agreement with the United States, or a State agency, under the provisions of the Manpower Development and Training Act of 1962, as amended and supplemented (42 U.S.C. 2571 *et seq.*), the Economic Opportunity Act of 1964, as amended and supplemented (42 U.S.C. 2701 *et seq.*), section 432(b)(1) of the Social Security Act, as amended and supplemented (42 U.S.C. 632(b)(1)), the National Apprenticeship Act of 1937, as amended and supplemented (29 U.S.C. 50 *et seq.*), or other similar Federal statute.

A *facility* consists of a building or any portion of a building and its structural components in which training is conducted, and equipment or other personal property necessary to teach a trainee the basic skills required for satisfactory performance in the occupation for which the training is being given. A facility also includes a building or portion of a building which provides essential services for trainees during the course of the training program, such as a dormitory or dining hall. For purposes of this section, a facility is considered to be specifically used as an on-the-job training facility if such facility is actually used for such purposes and is not used in a significant manner for any purpose other than job training or the furnishing of essential services for trainees such as meals and lodging. For purposes of the preceding sentence if a facility is used 20 percent of the time for a purpose other than on-the-job training or providing trainees with essential services, it would not satisfy the significant use test. Thus, a production facility is not an on-the-job training facility for purposes of section 188 simply because new employees receive training on the machines they will be using as fully productive employees. A facility is considered to be used by an employer in connection with an occupational training program for his employees or prospective employees if at least 80 percent of the trainees participating in the program are employees or prospective employees. For purposes of this section, a prospective employee is a trainee with respect to whom it is reasonably expected that the trainee will be employed by the employer upon successful completion of the training program.

(4) *Qualified child care facility.* A *qualified child care facility* is a facility which is:

(i) Particulary suited to provide child care services and specifically used by an employer to provide such services primarily for his employees' children;

(ii) Operated as a licensed or approved facility under applicable local law, if any, relating to the day care of children; and

(iii) If directly or indirectly funded to any extent by the United States, established and operated in compliance with the requirements contained in Part 71 of Title 45 of the Code of Federal Regulations, relating to Federal Interagency Day Care Requirements. For purposes of this subparagraph, a *facility* consists of the buildings, or portions or structural components thereof, in which children receive such personal care protection, and supervision in the absence of their parents as may be required to meet their needs, and the equipment or other personal property necessary to render such services. Whether or not a facility, or any component property thereof, is particularly suited for the needs of the children being cared for depends upon the facts and circumstances of each individual case. Generally, a building and its structural component, or a room therein, and equipment are particulary suitable for furnishing child care service if they are designed or adapted for such use or satisfy requirements under local law for such use as a condition to granting a license for the operation of the facility. For example, such property includes special kitchen or toilet facilities connected to the building or room in which the services are rendered and equipment such as children's desks, chairs, and play or instructional equipment. Such property would not include general purpose rooms used for many purposes (for example, a room used as an employee recreation center during the evening) nor would it include a room or a part of a room which is simply screened off for use by children during the day. For purposes of this section, a facility is considered to be specifically used as a child care facility if such facility is actually used for such purpose and is not used in a significant manner for any purpose other than child care. For purposes of this subparagraph, a child care facility is used by an employer to provide child care services primarily for children of employees of the employer if, for any month, no more than 20 percent of the average daily enrolled or attending children for such month are other than children of such employees.

(5) *Placed in service.* For purposes of section 188 and this section, the term *placed in service* shall have the meaning assigned to such term in paragraph (d) of § 1.46–3.

(6) *Employees.* For purposes of section 188 and this section, the terms *employees* and *prospective employees* include employees and prospective employees of a member of a controlled group of corporations (within the meaning of section 1563) of which the taxpayer is a member.

(e) *Effective date.* The provisions of section 188 and this section apply to taxable years ending after December 31, 1971.

[T.D. 7599, 44 FR 14549, Mar. 13, 1979]

§ 1.190–1 Expenditures to remove architectural and transportation barriers to the handicapped and elderly.

(a) *In general.* Under section 190 of the Internal Revenue Code of 1954, a taxpayer may elect, in the manner provided in § 1.190–3 of this chapter, to deduct certain amounts paid or incurred by him in any taxable year beginning after December 31, 1976, and before January 1, 1980, for qualified architectural and transportation barrier removal expenses (as defined in § 1.190–2(b) of this chapter). In the case of a partnership, the election shall be made by the partnership. The election applies to expenditures paid or incurred during the taxable year which (but for the election) are chargeable to capital account.

(b) *Limitation.* The maximum deduction for a taxpayer (including an affiliated group of corporations filing a consolidated return) for any taxable year is $25,000. The $25,000 limitation applies to a partnership and to each partner. Expenditures paid or incurred in a taxable year in excess of the amount deductible under section 190 for such taxable year are capital expenditures and are adjustments to basis under section

1016(a). A partner must combine his distributive share of the partnership's deductible expenditures (after application of the $25,000 limitation at the partnership level) with that partner's distributive share of deductible expenditures from any other partnership plus that partner's own section 190 expenditures, if any (if he makes the election with respect to his own expenditures), and apply the partner's $25,000 limitation to the combined total to determine the aggregate amount deductible by that partner. In so doing, the partner may allocate the partner's $25,000 limitation among the partner's own section 190 expenditures and the partner's distributive share of partnership deductible expenditures in any manner. If such allocation results in all or a portion of the partner's distributive share of a partnership's deductible expenditures not being an allowable deduction by the partner, the partnership may capitalize such unallowable portion by an appropriate adjustment to the basis of the relevant partnership property under section 1016. For purposes of adjustments to the basis of properties held by a partnership, however, it shall be presumed that each partner's distributive share of partnership deductible expenditures (after application of the $25,000 limitation at the partnership level) was allowable in full to the partner. This presumption can be rebutted only by clear and convincing evidence that all or any portion of a partner's distributive share of the partnership section 190 deduction was not allowable as a deduction to the partner because it exceeded that partner's $25,000 limitation as allocated by him. For example, suppose for 1978 A's distributive share of the ABC partnership's deductible section 190 expenditures (after application of the $25,000 limitation at the partnership level) is $15,000. A also made section 190 expenditures of $20,000 in 1978 which he elects to deduct. A allocates $10,000 of his $25,000 limitation to his distributive share of the ABC expenditures and $15,000 to his own expenditures. A may capitalize the excess $5,000 of his own expenditures. In addition, if ABC obtains from A evidence which meets the requisite burden of proof, it may capitalize the $5,000 of A's distributive share which is not allowable as a deduction to A.

[T.D. 7634, 44 FR 43270, July 24, 1979]

§1.190–2 Definitions.

For purposes of section 190 and the regulations thereunder:

(a) *Architectural and transportation barrier removal expenses.* The term *architectural and transportation barrier removal expenses* means expenditures for the purpose of making any facility, or public transportation vehicle, owned or leased by the taxpayer for use in connection with his trade or business more accessible to, or usable by, handicapped individuals or elderly individuals. For purposes of this section:

(1) The term *facility* means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or similar real or personal property.

(2) The term *public transportation vehicle* means a vehicle, such as a bus, a railroad car, or other conveyance, which provides to the public general or special transportation service (including such service rendered to the customers of a taxpayer who is not in the trade or business of rendering transportation services).

(3) The term *handicapped individual* means any individual who has:

(i) A physical or mental disability (including, but not limited to, blindness or deafness) which for such individual constitutes or results in a functional limitation to employment, or

(ii) A physical or mental impairment (including, but not limited to, a sight or hearing impairment) which substantially limits one or more of such individual's major life activities, such as performing manual tasks, walking, speaking, breathing, learning, or working.

(4) The term *elderly individual* means an individual age 65 or over.

(b) *Qualified architectual and transportation barrier removal expense*—(1) *In general.* The term *qualified architectural and transportation barrier removal expense* means an architectural or transportation barrier removal expense (as defined in paragraph (a) of this section) with respect to which the taxpayer establishes, to the satisfaction of the Commissioner or his delegate, that the resulting removal of any such barrier conforms a facility or public transportation vehicle to all the requirements set forth in one or more of paragraphs (b) (2) through (22) of this section or in one or more of the subdivisions of paragraph (b) (20) or (21). Such term includes only expenses specifically attributable to the removal of an existing architectural or transportation barrier. It does not include any part of any expense paid or incurred in connection with the construction or comprehensive renovation of a facility or public transportation vehicle or the normal replacement of depreciable property. Such term may include expenses of construction, as, for example, the construction of a ramp to remove the barrier posed for wheelchair users by steps. Major portions of the standards set forth in this paragraph were adapted from ''American National Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped'' (1971), the copyright for which is held by the American National Standards Institute, 1430 Broadway, New York, New York 10018.

(2) *Grading.* The grading of ground, even contrary to existing topography, shall attain a level with a normal entrance to make a facility accessible to individuals with physical disabilities.

(3) *Walks.* (i) A public walk shall be at least 48 inches wide and shall have a gradient not greater than 5 percent. A walk of maximum or near maximum grade and of considerable length shall have level areas at regular intervals. A walk or driveway shall have a nonslip surface.

(ii) A walk shall be of a continuing common surface and shall not be interrupted by steps or abrupt changes in level.

(iii) Where a walk crosses a walk, a driveway, or a parking lot, they shall blend to a common level. However, the preceding sentence does not require the elimination of those curbs which are a safety feature for the handicapped, particularly the blind.

(iv) An inclined walk shall have a level platform at the top and at the bottom. If a door swings out onto the platform toward the walk, such platform shall be at least 5 feet deep and 5 feet wide. If a door does not swing onto the platform or toward the walk, such platform shall be at least 3 feet deep and 5 feet wide. A platform shall extend at least 1 foot beyond the strike jamb side of any doorway.

(4) *Parking lots.* (i) At least one parking space that is accessible and approximate to a facility shall be set aside and identified for use by the handicapped.

(ii) A parking space shall be open on one side to allow room for individuals in wheelchairs and individuals on braces or crutches to get in and out of an automobile onto a level surface which is suitable for wheeling and walking.

(iii) A parking space for the handicapped, when placed between two conventional diagonal or head-on parking spaces, shall be at least 12 feet wide.

(iv) A parking space shall be positioned so that individuals in wheelchairs and individuals on braces or crutches need not wheel or walk behind parked cars.

(5) *Ramps.* (i) A ramp shall not have a slope greater than 1 inch rise in 12 inches.

(ii) A ramp shall have at least one handrail that is 32 inches in height, measured from the surface of the ramp, that is smooth, and that extends 1 foot beyond the top and bottom of the ramp. However, the preceding sentence does not require a handrail extension which is itself a hazard.

(iii) A ramp shall have a nonslip surface.

(iv) A ramp shall have a level platform at the top and at the bottom. If a door swings out onto the platform or toward the ramp, such platform shall be at least 5 feet deep and 5 feet wide. If a door does not swing onto the platform or toward the ramp, such platform shall be at least 3 feet deep and 5 feet wide. A platform shall extend at least 1 foot beyond the strike jamb side of any doorway.

(v) A ramp shall have level platforms at not more than 30-foot intervals and at any turn.

(vi) A curb ramp shall be provided at an intersection. The curb ramp shall not be less than 4 feet wide; it shall not have a slope greater than 1 inch rise in 12 inches. The transition between the two surfaces shall be smooth. A curb ramp shall have a nonslip surface.

(6) *Entrances.* A building shall have at least one primary entrance which is usable by individuals in wheelchairs and which is on a level accessible to an elevator.

(7) *Doors and doorways.* (i) A door shall have a clear opening of no less than 32 inches and shall be operable by a single effort.

(ii) The floor on the inside and outside of a doorway shall be level for a distance of at least 5 feet from the door in the direction the door swings and shall extend at least 1 foot beyond the strike jamb side of the doorway.

(iii) There shall be no sharp inclines or abrupt changes in level at a doorway. The threshold shall be flush with the floor. The door closer shall be selected, placed, and set so as not to impair the use of the door by the handicapped.

(8) *Stairs.* (i) Stairsteps shall have round nosing of between 1 and 1½ inch radius.

(ii) Stairs shall have a handrail 32 inches high as measured from the tread at the face of the riser.

(iii) Stairs shall have at least one handrail that extends at least 18 inches beyond the top step and beyond the bottom step. The preceding sentence does not require a handrail extension which is itself a hazard.

(iv) Steps shall have risers which do not exceed 7 inches.

(9) *Floors.* (i) Floors shall have a nonslip surface.

(ii) Floors on a given story of a building shall be of a common level or shall be connected by a ramp in accordance with subparagraph (5) of this paragraph.

(10) *Toilet rooms.* (i) A toilet room shall have sufficient space to allow traffic of individuals in wheelchairs.

(ii) A toilet room shall have at least one toilet stall that:

(A) Is at least 36 inches wide;

(B) Is at least 56 inches deep;

(C) Has a door, if any, that is at least 32 inches wide and swings out;

(D) Has handrails on each side, 33 inches high and parallel to the floor, 1½ inches in outside diameter, 1½ inches clearance between rail and wall, and fastened securely at ends and center; and

(E) Has a water closet with a seat 19 to 20 inches from the finished floor.

(iii) A toilet room shall have, in addition to or in lieu of a toilet stall described in (ii), at least one toilet stall that:

(A) Is at least 66 inches wide;

(B) Is at least 60 inches deep;

(C) Has a door, if any, that is at least 32 inches wide and swings out;

(D) Has a handrail on one side, 33 inches high and parallel to the floor, 1½ inches in outside diameter, 1½ inches clearance between rail and wall, and fastened securely at ends and center; and

(E) Has a water closet with a seat 19 to 20 inches from the finished floor, centerline located 18 inches from the side wall on which the handrail is located.

(iv) A toilet room shall have lavatories with narrow aprons. Drain pipes and hot water pipes under a lavatory shall be covered or insulated.

(v) A mirror and a shelf above a lavatory shall be no higher than 40 inches above the floor, measured from the top of the shelf and the bottom of the mirror.

(vi) A toilet room for men shall have wall-mounted urinals with the opening of the basin 15 to 19 inches from the finished floor or shall have floor-mounted urinals that are level with the main floor of the toilet room.

(vii) Towel racks, towel dispensers, and other dispensers and disposal units shall be mounted no higher than 40 inches from the floor.

(11) *Water fountains.* (i) A water fountain and a cooler shall have upfront spouts and controls.

(ii) A water fountain and a cooler shall be hand-operated or hand-and-foot-operated.

(iii) A water fountain mounted on the side of a floor-mounted cooler shall not be more than 30 inches above the floor.

(iv) A wall-mounted, hand-operated water cooler shall be mounted with the basin 36 inches from the floor.

(v) A water fountain shall not be fully recessed and shall not be set into an alcove unless the alcove is at least 36 inches wide.

(12) *Public telephones.* (i) A public telephone shall be placed so that the dial and the headset can be reached by individuals in wheelchairs.

(ii) A public telephone shall be equipped for those with hearing disabilities and so identified with instructions for use.

(iii) Coin slots of public telephones shall be not more than 48 inches from the floor.

(13) *Elevators.* (i) An elevator shall be accessible to, and usable by the handicapped or the elderly on the levels they use to enter the building and all levels and areas normally used.

(ii) Cab size shall allow for the turning of a wheelchair. It shall measure at least 54 by 68 inches.

(iii) Door clear opening width shall be at least 32 inches.

(iv) All essential controls shall be within 48 to 54 inches from cab floor. Such controls shall be usable by the blind and shall be tactilely identifiable.

(14) *Controls.* Switches and controls for light, heat, ventilation, windows, draperies, fire alarms, and all similar controls of frequent or essential use, shall be placed within the reach of individuals in wheelchairs. Such switches and controls shall be no higher than 48 inches from the floor.

(15) *Identification.* (i) Raised letters or numbers shall be used to identify a room or an office. Such identification shall be placed on the wall to the right or left of the door at a height of 54 inches to 66 inches, measured from the finished floor.

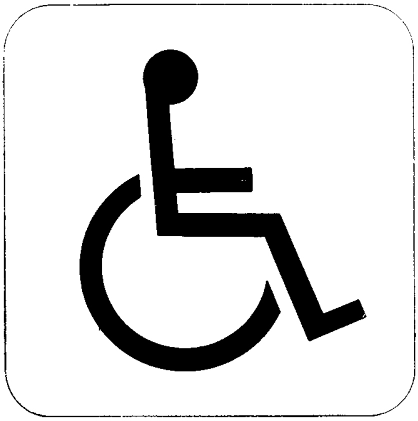
(ii) A door that might prove dangerous if a blind person were to exit or enter by it (such as a door leading to a loading platform, boiler room, stage, or fire escape) shall be tactilely identifiable.

(16) *Warning signals.* (i) An audible warning signal shall be accompanied by a simultaneous visual signal for the benefit of those with hearing disabilities.

(ii) A visual warning signal shall be accompanied by a simultaneous audible signal for the benefit of the blind.

(17) *Hazards.* Hanging signs, ceiling lights, and similar objects and fixtures shall be placed at a minimum height of 7 feet, measured from the floor.

(18) *International accessibility symbol.* The international accessibility symbol (see illustration) shall be displayed on routes to and at wheelchair-accessible entrances to facilities and public transportation vehicles.



(19) *Additional standards for rail facilities.* (i) A rail facility shall contain a fare control area with at least one entrance with a clear opening at least 36 inches wide.

(ii) A boarding platform edge bordering a drop-off or other dangerous condition shall be marked with a warning device consisting of a strip of floor material differing in color and texture from the remaining floor surface. The gap between boarding platform and vehicle doorway shall be minimized.

(20) *Standards for buses.* (i) A bus shall have a level change mechanism (e.g., lift or ramp) to enter the bus and sufficient clearance to permit a wheelchair user to reach a secure location.

(ii) a bus shall have a wheelchair securement device. However, the preceding sentence does not require a wheelchair securement device which is itself a barrier or hazard.

(iii) The vertical distance from a curb or from street level to the first front door step shall not exceed 8 inches; the riser height for each front doorstep after the first step up from the curb or street level shall also not exceed 8 inches; and the tread depth of steps at front and rear doors shall be no less than 12 inches.

(iv) A bus shall contain clearly legible signs that indicate that seats in the front of the bus are priority seats for handicapped or elderly persons, and that encourage other passengers to make such seats available to handicapped and elderly persons who wish to use them.

(v) Handrails and stanchions shall be provided in the entranceway to the bus in a configuration that allows handicapped and elderly persons to grasp such assists from outside the bus while starting to board and to continue to use such assists throughout the boarding and fare collection processes. The configuration of the passenger assist system shall include a rail across the front of the interior of the bus located to allow passengers to lean against it while paying fares. Overhead handrails shall be continuous except for a gap at the rear doorway.

(vi) Floors and steps shall have nonslip surfaces. Step edges shall have a band of bright contrasting color running the full width of the step.

(vii) A stepwell immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread. Other stepwells shall have, at all times, at least 2 foot-candles of illumination measured on the step tread.

(viii) The doorways of the bus shall have outside lighting that provides at least 1 foot-candle of illumination on the street surface for a distance of 3 feet from all points on the bottom step tread edge. Such lighting shall be located below window level and shall be shielded to protect the eyes of entering and exiting passengers.

(ix) The fare box shall be located as far forward as practicable and shall not obstruct traffic in the vestibule.

(21) *Standards for rapid and light rail vehicles.* (i) Passenger doorways on the vehicle sides shall have clear openings at least 32 inches wide.

(ii) Audible or visual warning signals shall be provided to alert handicapped and elderly persons of closing doors.

(iii) Handrails and stanchions shall be sufficient to permit safe boarding, onboard circulation, seating and standing assistance, and unboarding by handicapped and elderly persons. On a levelentry vehicle, handrails, stanchions, and seats shall be located so as to allow a wheelchair user to enter the vehicle and position the wheelchair in a location which does not obstruct the movement of other passengers. On a vehicle that requires the use of steps in the boarding process, handrails and stanchions shall be provided in the entranceway to the vehicle in a configuration that allows handicapped and elderly persons to grasp such assists from outside the vehicle while starting to board, and to continue using such assists throughout the boarding process.

(iv) Floors shall have nonslip surfaces. Step edges on a light rail vehicle shall have a band of bright contrasting color running the full width of the step.

(v) A stepwell immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread. Other stepwells shall have, at all times, at least 2 foot-candles of illumination measured on the step tread.

(vi) Doorways on a light rail vehicle shall have outside lighting that provides at least 1 foot-candle of illumination on the street surface for a distance of 3 feet from all points on the bottom step tread edge. Such lighting shall be located below window level and shall be shielded to protect the eyes of entering and exiting passengers.

(22) *Other barrier removals.* The provisions of this subparagraph apply to any barrier which would not be removed by compliance with paragraphs (b)(2) through (21) of this section. The requirements of this subparagraph are:

(i) A substantial barrier to the access to or use of a facility or public transportation vehicle by handicapped or elderly individuals is removed;

(ii) The barrier which is removed had been a barrier for one or more major classes of such individuals (such as the blind, deaf, or wheelchair users); and

(iii) The removal of that barrier is accomplished without creating any new barrier that significantly impairs access to or use of the facility or vehicle by such class or classes.

[T.D. 7634, 44 FR 43270, July 24, 1979]

§ 1.190–3 Election to deduct architectural and transportation barrier removal expenses.

(a) *Manner of making election.* The election to deduct expenditures for removal of architectural and transportation barriers provided by section 190(a) shall be made by claiming the deduction as a separate item identified as such on the taxpayer's income tax return for the taxable year for which such election is to apply (or, in the case of a partnership, to the return of partnership income for such year). For the election to be valid, the return must be filed not later than the time prescribed by law for filing the return (including extensions thereof) for the taxable year for which the election is to apply.

(b) *Scope of election.* An election under section 190(a) shall apply to all expenditures described in § 1.190–2 (or in the case of a taxpayer whose architectural and transportation barrier removal expenses exceed $25,000 for the taxable year, to the $25,000 of such expenses with respect to which the deduction is claimed) paid or incurred during the taxable year for which made and shall be irrevocable after the date by which any such election must have been made.

(c) *Records to be kept.* In any case in which an election is made under section 190(a), the taxpayer shall have available, for the period prescribed by paragraph (e) of § 1.6001–1 of this chapter (Income Tax Regulations), records and documentation, including architectural plans and blueprints, contracts, and any building permits, of all the facts necessary to determine the amount of any deduction to which he is entitled by reason of the election, as well as the amount of any adjustment to basis made for expenditures in excess of the amount deductible under section 190.

[T.D. 7634, 44 FR 13273, July 24, 1979]

§ 1.193–1 Deduction for tertiary injectant expenses.

(a) *In general.* Subject to the limitations and restrictions of paragraphs (c) and (d) of this section, there shall be allowed as a deduction from gross income an amount equal to the qualified tertiary injectant expenses of the taxpayer. This deduction is allowed for the later of:

(1) The taxable year in which the injectant is injected, or

(2) The taxable year in which the expenses are paid or incurred.

(b) *Definitions*—(1) *Qualified tertiary injectant expenses.* Except as otherwise provided in this section, the term *qualified tertiary injectant expense* means any cost paid or incurred for any tertiary injectant which is used as part of a tertiary recovery method.

(2) *Tertiary recovery method. Tertiary recovery method* means:

(i) Any method which is described in subparagraphs (1) through (9) of section 212.78(c) of the June 1979 energy regulations (as defined by section 4996(b)(8)(C)),

(ii) Any method for which the taxpayer has obtained the approval of the Associate Chief Counsel (Technical), under section 4993(d)(1)(B) for purposes of Chapter 45 of the Internal Revenue Code,

(iii) Any method which is approved in the regulations under section 4993(d)(1)(B), or

(iv) Any other method to provide tertiary enhanced recovery for which the taxpayer obtains the approval of the

Associate Chief Counsel (Technical) for purposes of section 193.

(c) *Special rules for hydrocarbons*—(1) *In general.* If an injectant contains more than an insignificant amount of recoverable hydrocarbons, the amount deductible under section 193 and paragraph (a) of this section shall be limited to the cost of the injectant reduced by the lesser of:

(i) The fair market value of the hydrocarbon component in the form in which it is recovered, or

(ii) The cost to the taxpayer of the hydrocarbon component of the injectant. Price levels at the time of injection are to be used in determining the fair market value of the recoverable hydrocarbons.

(2) *Presumption of recoverability.* Except to the extent that the taxpayer can demonstrate otherwise, all hydrocarbons shall be presumed recoverable and shall be presumed to have the same value on recovery that they would have if separated from the other components of the injectant before injection. Estimates based on generally accepted engineering practices may provide evidence of limitations on the amount or value of recoverable hydrocarbons.

(3) *Significant amount.* For purposes of section 193 and this section, an injectant contains more than an insignificant amount of recoverable hydrocarbons if the fair market value of the recoverable hydrocarbon component of the injectant, in the form in which it is recovered, equals or exceeds 25 percent of the cost of the injectant.

(4) *Hydrocarbon defined.* For purposes of section 193 and this section, the term *hydrocarbon* means all forms of natural gas and crude oil (which includes oil recovered from sources such as oil shale and condensate).

(5) *Injectant defined.* For purposes of applying this paragraph (c), an injectant is the substance or mixture of substances injected at a particular time. Substances injected at different times are not treated as components of a single injectant even if the injections are part of a single tertiary recovery process.

(d) *Application with other deductions.* No deduction shall be allowed under section 193 and this section for any expenditure:

(1) With respect to which the taxpayer has made an election under section 263(c) or

(2) With respect to which a deduction is allowed or allowable under any other provision of chapter 1 of the Code.

(e) *Examples.* The application of this section may be illustrated by the following examples:

Example 1. B, a calendar year taxpayer why uses the cash receipts and disbursements method of accounting, uses an approved tertiary recovery method for the enhanced recovery of crude oil from one of B's oil properties. During 1980, B pays $100x for a tertiary injectant which contains 1,000y units of hydrocarbon; if separated from the other components of the injectant before injection, the hydrocarbons would have a fair market value of $80x. B uses this injectant during the recovery effort during 1981. B has not made any election under section 263(c) with respect to the expenditures for the injectant, and no section of chapter 1 of the Code other than section 193 allows a deduction for the expenditure. B is unable to demonstrate that the value of the injected hydrocarbons recovered during production will be less than $80x. B's deduction under section 193 is limited to the excess of the cost for the injectant over the fair market value of the hydrocarbon component expected to be recovered ($100x—$80x=$20x). B may claim the deduction only for 1981, the year of the injection.

Example 2. Assume the same facts as in *Example (1)* except that through engineering studies B has shown that 700y units or 70 percent of the hydrocarbon injected is nonrecoverable. The recoverable hydrocarbons have a fair market value of $24x (30 percent of $80x). The recoverable hydrocarbon portion of the injectant is 24 percent of the cost of the injectant ($24x divided by $100x). The injectant does not contain a significant amount of recoverable hydrocarbons. B may claim a deduction for $100x, the entire cost of the injectant.

Example 3. Assume the same facts as in *Example (1)* except that through laboratory studies B has shown that because of chemical changes in the course of production the injected hydrocarbons that are recovered will have a fair market value of only $40x. B may claim a deduction for $60x, the excess of the cost of the injectant ($100x) over the fair market value of the recoverable hydrocarbons ($40x).

Example 4. B prepares an injectant from crude oil and certain non-hydrocarbon materials purchased by B. The total cost of the injectant to B is $100x, of which $24x is attributable to the crude oil. The fair market value of the crude oil used in the injectant is $27x. B is unable to demonstrate that the value of the crude oil from the injectant that will be recovered is less than $27x. The injectant contains more than an insignificant amount of recoverable hydrocarbons because the value of the recoverable crude oil ($27x) exceeds $25x (25 percent of $100x, the cost of the injectant). Because the cost to B of the hydrocarbon component of the injectant ($24x) is less than the fair market value of the hydrocarbon component in the form in which it is recovered ($27x), the cost rather than the value is taken into account in the adjustment required under paragraph (c)(1) of this section. B's deduction under section 193 is limited to the excess of the cost of the injectant over the cost of the hydrocarbon component ($100x—$24x=$76x).

(Secs. 193 and 7805, Internal Revenue Code of 1954, 94 Stat. 286, 26 U.S.C. 193; 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7980, 49 FR 39052, Oct. 3, 1984]

§ 1.194–1 Amortization of reforestation expenditures.

(a) *In general.* Section 194 allows a taxpayer to elect to amortize over an 84-month period, up to $10,000 of reforestation expenditures (as defined in § 1.194–3(c)) incurred by the taxpayer in a taxable year in connection with qualified timber property (as defined in § 1.194–3(a)). The election is not available to trusts. Only those reforestation expenditures which result in additions to capital accounts after December 31, 1979 are eligible for this special amortization.

(b) *Determination of amortization period.* The amortization period must begin on the first day of the first month of the last half of the taxable year during which the taxpayer incurs the reforestation expenditures. For example, the 84-month amortization period begins on July 1 of a taxable year for a calendar year taxpayer, regardless of whether the reforestation expenditures are incurred in January or December of that taxable year. Therefore, a taxpayer will be allowed to claim amortization deductions for only six months of each of the first and eighth taxable years of the period over which the reforestation expenditures will be amortized.

(c) *Recapture.* If a taxpayer disposes of qualified timber property within ten years of the year in which the amortizable basis was created and the taxpayer has claimed amortization deductions under section 194, part or all of any gain on the disposition may be recaptured as ordinary income. See section 1245.

[T.D. 7927, 48 FR 55849, Dec. 16, 1983]

§ 1.194–2 Amount of deduction allowable.

(a) *General rule.* The allowable monthly deduction with respect to reforestation expenditures made in a taxable year is determined by dividing the amount of reforestation expenditures made in such taxable year (after applying the limitations of paragraph (b) of this section) by 84. In order to determine the total allowable amortization deduction for a given month, a taxpayer should add the monthly amortization deductions computed under the preceding sentence for qualifying expenditures made by the taxpayer in the taxable year and the preceding seven taxable years.

(b) *Dollar limitation*—(1) *Maximum amount subject to election.* A taxpayer may elect to amortize up to $10,000 of qualifying reforestation expenditures each year under section 194. However, the maximum amortizable amount is $5,000 in the case of a married individual (as defined in section 143) filing a separate return. No carryover or carryback of expenditures in excess of $10,000 is permitted. The maximum annual amortization deduction for expenditures incurred in any taxable year is $1,428.57 ($10,000/7). The maximum deduction in the first and eighth taxable years of the amortization period is one-half that amount, or $714.29, because of the half-year convention provided in § 1.194–1(b). Total deductions for any one year under this section will reach $10,000 only if a taxpayer incurs and elects to amortize the maximum $10,000 of expenditures each year over an 8-year period.

(2) *Allocation of amortizable basis among taxpayer's timber properties.* The limit of $10,000 on amortizable reforestation expenditures applies to expenditures paid or incurred during a taxable year on all of the taxpayer's timber properties. A taxpayer who incurs more than $10,000 in qualifying expenditures in connection with more than one qualified timber property during a taxable year may select the properties for which section 194 amortization will be elected as well as the manner in which

the $10,000 limitation on amortizable basis is allocated among such properties. For example, A incurred $10,000 of qualifying reforestation expenditures on each of four properties in 1981. A may elect under section 194 to amortize $2,500 of the amount spent on each property, $5,000 of the amount spent on any two properties, the entire $10,000 spent on any one property, or A may allocate the $10,000 maximum amortizable basis among some or all of the properties in any other manner.

(3) *Basis*—(i) *In general.* Except as provided in paragraph (b)(3)(ii) of this section, the basis of a taxpayer's interest in qualified timber property for which an election is made under section 194 shall be adjusted to reflect the amount of the section 194 amortization deduction allowable to the taxpayer.

(ii) *Special rule for trusts.* Although a trust may be a partner of a partnership, income beneficiary of an estate, or (for taxable years beginning after December 31, 1982) shareholder of an S corporation, it may not deduct its allocable share of a section 194 amortization deduction allowable to such a partnership, estate, or S corporation. In addition, the basis of the interest held by the partnership, estate, or S corporation in the qualified timber property shall not be adjusted to reflect the portion of the section 194 amortization deduction that is allocable to the trust.

(4) *Allocation of amortizable basis among component members of a controlled group.* Component members of a controlled group (as defined in §1.194–3(d)) on a December 31 shall be treated as one taxpayer in applying the $10,000 limitation of paragraph (b)(1) of this section. The amortizable basis may be allocated to any one such member or allocated (for the taxable year of each such member which includes such December 31) among the several members in any manner, *Provided* That the amount of amortizable basis allocated to any member does not exceed the amount of amortizable basis actually acquired by the member in the taxable year. The allocation is to be made (i) by the common parent corporation if a consolidated return is filed for all component members of the group, or (ii) in accordance with an agreement entered into by the members of the group if separate returns are filed. If a consolidated return is filed by some component members of the group and separate returns are filed by other component members, then the common parent of the group filing the consolidated return shall enter into an agreement with those members who do not join in filing the consolidated return allocating the amount between the group filing the return and the other component members of the controlled group who do not join in filing the consolidated return. If a consolidated return is filed, the common parent corporation shall file a separate statement attached to the income tax return on which an election is made to amortize reforestation costs under section 194. See §1.194–4. If separate returns are filed by some or all component members of the group, each component member to which is allocated any part of the deduction under secton 194 shall file a separate statement attached to the income tax return in which an election is made to amortize reforestation expenditures. See §1.194–4. Such statement shall include the name, address, employer identification number, and the taxable year of each component member of the controlled group, a copy of the allocation agreement signed by persons duly authorized to act on behalf of those members who file separate returns, and a description of the manner in which the deduction under section 194 has been divided among them.

(5) *Partnerships*—(i) *Election to be made by partnership.* A partnership makes the election to amortize qualified reforestation expenditures of the partnership. See section 703(b).

(ii) *Dollar limitations applicable to partnerships.* The dollar limitations of section 194 apply to the partnership as well as to each partner. Thus, a partnership may not elect to amortize more than $10,000 of reforestation expenditures under section 194 in any taxable year.

(iii) *Partner's share of amortizable basis.* Section 704 and the regulations thereunder shall govern the determination of a partner's share of a partnership's amortizable reforestation expenditures for any taxable year.

(iv) *Dollar limitation applicable to partners.* A partner shall in no event be entitled in any taxable year to claim a deduction for amortization based on more than $10,000 ($5,000 in the case of a married taxpayer who files a separate return) of amortizable basis acquired in such taxable year regardless of the source of the amortizable basis. In the case of a partner who is a member of two or more partnerships that elect under section 194, the partner's aggregate share of partnership amortizable basis may not exceed $10,000 or $5,000, whichever is applicable. In the case of a member of a partnership that elects under section 194 who also has separately acquired qualified timber property, the aggregate of the member's partnership and non-partnership amortizable basis may not exceed $10,000 or $5,000 whichever is applicable.

(6) *S corporations.* For taxable years beginning after December 31, 1982, rules similar to those contained in paragraph (b)(5) (ii) and (iv) of this section shall apply in the case of S corporations (as defined in section 1361(a)) and their shareholders.

(7) *Estates.* Estates may elect to amortize in each taxable year up to a maximum of $10,000 of qualifying reforestation expenditures under section 194. Any amortizable basis acquired by an estate shall be apportioned between the estate and the income beneficiary on the basis of the income of the estate allocable to each. The amount of amortizable basis apportioned from an estate to a beneficiary shall be taken into account in determining the $10,000 (or $5,000) amount of amortizable basis allowable to such beneficiary under this section.

(c) *Life tenant and remainderman.* If property is held by one person for life with remainder to another person, the life tenant is entitled to the full benefit of any amortization allowable under section 194 on qualifying expenditures he or she makes. Any remainder interest in the property is ignored for this purpose.

[T.D. 7927, 48 FR 55849, Dec. 16, 1983]

§ 1.194–3 Definitions.

(a) *Qualified timber property.* The term *qualified timber property* means property located in the United States which will contain trees in significant commercial quantities. The property may be a woodlot or other site but must consist of at least one acre which is planted with tree seedlings in the manner normally used in forestation or reforestation. The property must be held by the taxpayer for the growing and cutting of timber which will either be sold for use in, or used by the taxpayer in, the commercial production of timber products. A taxpayer does not have to own the property in order to be eligible to elect to amortize costs attributable to it under section 194. Thus, a taxpayer may elect to amortize qualifying reforestation expenditures incurred by such taxpayer on leased qualified timber property. Qualified timber property does not include property on which the taxpayer has planted shelter belts (for which current deductions are allowed under section 175) or ornamental trees, such as Christmas trees.

(b) *Amortizable basis.* The term *amortizable basis* means that portion of the basis of qualified timber property which is attributable to reforestation expenditures.

(c) *Reforestation expenditures*—(1) *In general.* The term *reforestation expenditures* means direct costs incurred to plant or seed for forestation or reforestation purposes. Qualifying expenditures include amounts spent for site preparation, seed or seedlings, and labor and tool costs, including depreciation on equipment used in planting or seeding. Only those costs which must be capitalized and are included in the adjusted basis of the property qualify as reforestation expenditures. Costs which are currently deductible do not qualify.

(2) *Cost-sharing programs.* Any expenditures for which the taxpayer has been reimbursed under any governmental reforestation cost-sharing program do not qualify as reforestation expenditures unless the amounts reimbursed have been included in the gross income of the taxpayer.

(d) *Definitions of controlled group of corporations and component member of controlled group.* For purposes of section 194, the terms *controlled group of corporations* and *component member* of a controlled group of corporations shall have the same meaning assigned to those terms in section 1563 (a) and (b), except that the phrase ''more than 50 percent'' shall be substituted for the phrase ''at least 80 percent'' each place it appears in section 1563(a)(1).

[T.D. 7927, 48 FR 55850, Dec. 16, 1983]

§1.194–4 Time and manner of making election.

(a) *In general.* Except as provided in paragraph (b) of this section, an election to amortize reforestation expenditures under section 194 shall be made by entering the amortization deduction claimed at the appropriate place on the taxpayer's income tax return for the year in which the expenditures were incurred, and by attaching a statement to such return. The statement should state the amounts of the expenditures, describe the nature of the expenditures, and give the date on which each was incurred. The statement should also state the type of timber being grown and the purpose for which it is being grown. A separate statement must be included for each property for which reforestation expenditures are being amortized under section 194. The election may only be made on a timely return (taking into account extensions of the time for filing) for the taxable year in which the amortizable expenditures were made.

(b) *Special rule.* With respect to any return filed before March 15, 1984, on which a taxpayer was eligible to, but did not make an election under section 194, the election to amortize reforestation expenditures under section 194 may be made by a statement on, or attached to, the income tax return (or an amended return) for the taxable year, indicating that an election is being made under section 194 and setting forth the information required under paragraph (a) of this section. An election made under the provisions of this paragraph (b) must be made not later than,

(1) The time prescribed by law (including extensions thereof) for filing the income tax return for the year in which the reforestation expenditures were made, or

(2) March 15, 1984, whichever is later. Nothing in this paragraph shall be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(c) *Revocation.* An application for consent to revoke an election under section 194 shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Washington, DC 20224. The application shall set forth the name and address of the taxpayer, state the taxable years for which the election was in effect, and state the reason for revoking the election. The application shall be signed by the taxpayer or a duly authorized representative of the taxpayer and shall be filed at least 90 days prior to the time prescribed by law (without regard to extensions thereof) for filing the income tax return for the first taxable year for which the election is to terminate. Ordinarily, the request for consent to revoke the election will not be granted if it appears from all the facts and circumstances that the only reason for the desired change is to obtain a tax advantage.

[T.D. 7927, 48 FR 55851, Dec. 16, 1983]

§1.195–1 Election to amortize start-up expenditures.

(a) *In general.* Under section 195(b), a taxpayer may elect to amortize start-up expenditures (as defined in section 195(c)(1)). A taxpayer who elects to amortize start-up expenditures must, at the time of the election, select an amortization period of not less than 60 months, beginning with the month in which the active trade or business begins. The election applies to all of the taxpayer's start-up expenditures with respect to the trade or business. The election to amortize start-up expenditures is irrevocable, and the amortization period selected by the taxpayer in making the election may not subsequently be changed.

(b) *Time and manner of making election.* The election to amortize start-up expenditures under section 195 shall be made by attaching a statement containing the information described in paragraph (c) of this section to the taxpayer's return. The statement must be filed no later than the date prescribed by law for filing the return (including any extensions of time) for the taxable year in which the active trade or business begins. The statement may be filed with a return for any taxable year prior to the year in which the taxpayer's active trade or business begins, but no later than the date prescribed in the preceding sentence. Accordingly, an election under section 195 filed for any taxable year prior to the year in which the taxpayer's active trade or business begins (and pursuant to which the taxpayer commenced amortizing start-up expenditures in that prior year) will become effective in the month of the year in which the taxpayer's active trade or business begins.

(c) *Information required.* The statement shall set forth a description of the trade or business to which it relates with sufficient detail so that expenses relating to the trade or business can be identified properly for the taxable year in which the statement is filed and for all future taxable years to which it relates. The statement also shall include the number of months (not less than 60) over which the expenditures are to be amortized, and to the extent known at the time the statement is filed, a description of each start-up expenditure incurred (whether or not paid) and the month in which the active trade or business began (or was acquired). A revised statement may be filed to include any start-up expenditures not included in the taxpayer's original election statement, but the revised statement may not include any expenditures for which the taxpayer had previously taken a position on a return inconsistent with their treatment as start-up expenditures. The revised statement may be filed with a return filed after the return that contained the election.

(d) *Effective date.* This section applies to elections filed on or after December 17, 1998.

[T.D. 8797, 63 FR 69555, Dec. 17, 1998]

§ 1.197–1T Certain elections for intangible property (temporary).

(a) *In general.* This section provides rules for making the two elections under section 13261 of the Omnibus Budget Reconciliation Act of 1993 (OBRA '93). Paragraph (c) of this section provides rules for making the section 13261(g)(2) election (the retroactive election) to apply the intangibles provisions of OBRA '93 to property acquired after July 25, 1991, and on or before August 10, 1993 (the date of enactment of OBRA '93). Paragraph (d) of this section provides rules for making the section 13261(g)(3) election (binding contract election) to apply prior law to property acquired pursuant to a written binding contract in effect on August 10, 1993, and at all times thereafter before the date of acquisition. The provisions of this section apply only to property for which an election is made under paragraph (c) or (d) of this section.

(b) *Definitions and special rules*—(1) *Intangibles provisions of OBRA '93.* The intangibles provisions of OBRA '93 are sections 167(f) and 197 of the Internal Revenue Code (Code) and all other pertinent provisions of section 13261 of OBRA '93 (e.g., the amendment of section 1253 in the case of a franchise, trademark, or trade name).

(2) *Transition period property.* The transition period property of a taxpayer is any property that was acquired by the taxpayer after July 25, 1991, and on or before August 10, 1993.

(3) *Eligible section 197 intangibles.* The eligible section 197 intangibles of a taxpayer are any section 197 intangibles that—

(i) Are transition period property; and

(ii) Qualify as amortizable section 197 intangibles (within the meaning of section 197(c)) if an election under section 13261(g)(2) of OBRA '93 applies.

(4) *Election date.* The election date is the date (determined after application of section 7502(a)) on which the taxpayer files the original or amended return to which the election statement described in paragraph (e) of this section is attached.

(5) *Election year.* The election year is the taxable year of the taxpayer that includes August 10, 1993.

(6) *Common control.* A taxpayer is under common control with the electing taxpayer if, at any time after August 2, 1993, and on or before the election date (as defined in paragraph (b)(4) of this section), the two taxpayers would be treated as a single taxpayer under section 41(f)(1) (A) or (B).

(7) *Applicable convention for sections 197 and 167(f) intangibles.* For purposes

of computing the depreciation or amortization deduction allowable with respect to transition period property described in section 167(f) (1) or (3) or with respect to eligible section 197 intangibles—

(i) Property acquired at any time during the month is treated as acquired as of the first day of the month and is eligible for depreciation or amortization during the month; and

(ii) Property is not eligible for depreciation or amortization in the month of disposition.

(8) *Application to adjustment to basis of partnership property under section 734(b) or 743(b).* Any increase in the basis of partnership property under section 734(b) (relating to the optional adjustment to basis of undistributed partnership property) or section 743(b) (relating to the optional adjustment to the basis of partnership property) will be taken into account under this section by a partner as if the increased portion of the basis were attributable to the partner's acquisition of the underlying partnership property on the date the distribution or transfer occurs. For example, if a section 754 election is in effect and, as a result of its acquisition of a partnership interest, a taxpayer obtains an increased basis in an intangible held through the partnership, the increased portion of the basis in the intangible will be treated as an intangible asset newly acquired by that taxpayer on the date of the transaction.

(9) *Former member.* A former member of a consolidated group is a corporation that was a member of the consolidated group at any time after July 25, 1991, and on or before August 2, 1993, but that is not under common control with the common parent of the group for purposes of paragraph (c)(1)(ii) of this section.

(c) *Retroactive election*—(1) *Effect of election*—(i) *On taxpayer.* Except as provided in paragraph (c)(1)(v) of this section, if a taxpayer makes the retroactive election, the intangibles provisions of OBRA '93 will apply to all the taxpayer's transition period property. Thus, for example, section 197 will apply to all the taxpayer's eligible section 197 intangibles.

(ii) *On taxpayers under common control.* If a taxpayer makes the retroactive election, the election applies to each taxpayer that is under common control with the electing taxpayer. If the retroactive election applies to a taxpayer under common control, the intangibles provisions of OBRA '93 apply to that taxpayer's transition period property in the same manner as if that taxpayer had itself made the retroactive election. However, a retroactive election that applies to a nonelecting taxpayer under common control is not treated as an election by that taxpayer for purposes of re-applying the rule of this paragraph (c)(1)(ii) to any other taxpayer.

(iii) *On former members of consolidated group.* A retroactive election by the common parent of a consolidated group applies to transition period property acquired by a former member while it was a member of the consolidated group and continues to apply to that property in each subsequent consolidated or separate return year of the former member.

(iv) *On transferred assets*—(A) *In general.* If property is transferred in a transaction described in paragraph (c)(1)(iv)(C) of this section and the intangibles provisions of OBRA '93 applied to such property in the hands of the transferor, the property remains subject to the intangibles provisions of OBRA '93 with respect to so much of its adjusted basis in the hands of the transferee as does not exceed its adjusted basis in the hands of the transferor. The transferee is not required to apply the intangibles provisions of OBRA '93 to any other transition period property that it owns, however, unless such provisions are otherwise applicable under the rules of this paragraph (c)(1).

(B) *Transferee election.* If property is transferred in a transaction described in paragraph (c)(1)(iv)(C)(*1*) of this section and the transferee makes the retroactive election, the transferor is not required to apply the intangibles provisions of OBRA '93 to any of its transition period property (including the property transferred to the transferee in the transaction described in paragraph (c)(1)(iv)(C)(*1*) of this section), unless such provisions are otherwise applicable under the rules of this paragraph (c)(1).

(C) *Transactions covered.* This paragraph (c)(1)(iv) applies to—

(*1*) Any transaction described in section 332, 351, 361, 721, 731, 1031, or 1033; and

(*2*) Any transaction between corporations that are members of the same consolidated group immediately after the transaction.

(D) *Exchanged basis property.* In the case of a transaction involving exchanged basis property (e.g., a transaction subject to section 1031 or 1033)—

(*1*) Paragraph (c)(1)(iv)(A) of this section shall not apply; and

(*2*) If the intangibles provisions of OBRA '93 applied to the property by reference to which the exchanged basis is determined (the predecessor property), the exchanged basis property becomes subject to the intangibles provisions of OBRA '93 with respect to so much of its basis as does not exceed the predecessor property's basis.

(E) *Acquisition date.* For purposes of paragraph (b)(2) of this section (definition of transition period property), property (other than exchanged basis property) acquired in a transaction described in paragraph (c)(1)(iv)(C)(*1*) of this section generally is treated as acquired when the transferor acquired (or was treated as acquiring) the property (or predecessor property). However, if the adjusted basis of the property in the hands of the transferee exceeds the adjusted basis of the property in the hands of the transferor, the property, with respect to that excess basis, is treated as acquired at the time of the transfer. The time at which exchanged basis property is considered acquired is determined by applying similar principles to the transferee's acquisition of predecessor property.

(v) *Special rule for property of former member of consolidated group*—(A) *Intangibles provisions inapplicable for certain periods.* If a former member of a consolidated group makes a retroactive election pursuant to paragraph (c)(1)(i) of this section or if an election applies to the former member under the common control rule of paragraph (c)(1)(ii) of this section, the intangibles provisions of OBRA '93 generally apply to all transition period property of the former member. The intangibles provisions of OBRA '93 do not apply, however, to the transition period property of a former member (including a former member that makes or is bound by a retroactive election) during the period beginning immediately after July 25, 1991, and ending immediately before the earlier of—

(*1*) The first day after July 25, 1991, that the former member was not a member of a consolidated group; or

(*2*) The first day after July 25, 1991, that the former member was a member of a consolidated group that is otherwise required to apply the intangibles provisions of OBRA '93 to its transition period property (e.g., because the common control election under paragraph (c)(1)(ii) of this section applies to the group).

(B) *Subsequent adjustments.* See paragraph (c)(5) of this section for adjustments when the intangibles provisions of OBRA '93 first apply to the transition period property of the former member after the property is acquired.

(2) *Making the election*—(i) *Partnerships, S corporations, estates, and trusts.* Except as provided in paragraph (c)(2)(ii) of this section, in the case of transition period property of a partnership, S corporation, estate, or trust, only the entity may make the retroactive election for purposes of paragraph (c)(1)(i) of this section.

(ii) *Partnerships for which a section 754 election is in effect.* In the case of increased basis that is treated as transition period property of a partner under paragraph (b)(8) of this section, only that partner may make the retroactive election for purposes of paragraph (c)(1)(i) of this section.

(iii) *Consolidated groups.* An election by the common parent of a consolidated group applies to members and former members as described in paragraphs (c)(1)(ii) and (iii) of this section. Further, for purposes of paragraph (c)(1)(ii) of this section, an election by the common parent is not treated as an election by any subsidiary member. A retroactive election cannot be made by a corporation that is a subsidiary member of a consolidated group on August 10, 1993, but an election can be made on behalf of the subsidiary member under paragraph (c)(1)(ii) of this section (e.g., by the common parent of the group). See paragraph (c)(1)(iii) of this section for rules concerning the effect of the common parent's election on transition period property of a former member.

(3) *Time and manner of election*—(i) *Time.* In general, the retroactive election must be made by the due date (including extensions of time) of the electing taxpayer's Federal income tax return for the election year. If, however, the taxpayer's original Federal income tax return for the election year is filed before April 14, 1994, the election may be made by amending that return no later than September 12, 1994.

(ii) *Manner.* The retroactive election is made by attaching the election statement described in paragraph (e) of this section to the taxpayer's original or amended income tax return for the election year. In addition, the taxpayer must—

(A) Amend any previously filed return when required to do so under paragraph (c)(4) of this section; and

(B) Satisfy the notification requirements of paragraph (c)(6) of this section.

(iii) *Effect of nonconforming elections.* An attempted election that does not satisfy the requirements of this paragraph (c)(3) (including an attempted election made on a return for a taxable year prior to the election year) is not valid.

(4) *Amended return requirements*—(i) *Requirements.* A taxpayer subject to this paragraph (c)(4) must amend all previously filed income tax returns as necessary to conform the taxpayer's treatment of transition period property to the treatment required under the intangibles provisions of OBRA '93. See paragraph (c)(5) of this section for certain adjustments that may be required on the amended returns required under this paragraph (c)(4) in the case of certain consolidated group member dispositions and tax-free transactions.

(ii) *Applicability.* This paragraph (c)(4) applies to a taxpayer if—

(A) The taxpayer makes the retroactive election; or

(B) Another person's retroactive election applies to the taxpayer or to any property acquired by the taxpayer.

(5) *Adjustment required with respect to certain consolidated group member dispositions and tax-free transactions*—(i) *Application.* This paragraph (c)(5) applies to transition period property if the intangibles provisions of OBRA '93 first apply to the property while it is held by the taxpayer but do not apply to the property for some period (the "interim period") after the property is acquired (or considered acquired) by the taxpayer. For example, this paragraph (c)(5) may apply to transition period property held by a former member of a consolidated group if a retroactive election is made by or on behalf of the former member but is not made by the consolidated group. See paragraph (c)(1)(v) of this section.

(ii) *Required adjustment to income.* If this paragraph (c)(5) applies, an adjustment must be taken into account in computing taxable income of the taxpayer for the taxable year in which the intangibles provisions of OBRA '93 first apply to the property. The amount of the adjustment is equal to the difference for the transition period property between—

(A) The sum of the depreciation, amortization, or other cost recovery deductions that the taxpayer (and its predecessors) would have been permitted if the intangibles provisions of OBRA '93 applied to the property during the interim period; and

(B) The sum of the depreciation, amortization, or other cost recovery deductions that the taxpayer (and its predecessors) claimed during that interim period.

(iii) *Required adjustment to basis.* The taxpayer also must make a corresponding adjustment to the basis of its transition period property to reflect any adjustment to taxable income with respect to the property under this paragraph (c)(5).

(6) *Notification requirements*—(i) *Notification of commonly controlled taxpayers.* A taxpayer that makes the retroactive election must provide written notification of the retroactive election (on or before the election date) to each taxpayer that is under common control with the electing taxpayer.

(ii) *Notification of certain former members, former consolidated groups, and transferees.* This paragraph (c)(6)(ii) applies to a common parent of a consolidated group that makes or is notified of a retroactive election that applies to transition period property of a former member, a corporation that makes or is notified of a retroactive election that affects any consolidated group of which the corporation is a former member, or a taxpayer that makes or is notified of a retroactive election that applies to transition period property the taxpayer transfers in a transaction described in paragraph (c)(1)(iv)(C) of this section. Such common parent, former member, or transferor must provide written notification of the retroactive election to any affected former member, consolidated group, or transferee. The written notification must be provided on or before the election date in the case of an election by the common parent, former member, or transferor, and within 30 days of the election date in the case of an election by a person other than the common parent, former member, or transferor.

(7) *Revocation.* Once made, the retroactive election may be revoked only with the consent of the Commissioner.

(8) *Examples.* The following examples illustrate the application of this paragraph (c).

Example 1. (i) X is a partnership with 5 equal partners, A through E. X acquires in 1989, as its sole asset, intangible asset M. X has a section 754 election in effect for all relevant years. F, an unrelated individual, purchases A's entire interest in the X partnership in January 1993 for $700. At the time of F's purchase, X's inside basis for M is $2,000, and its fair market value is $3,500.

(ii) Under section 743(b), X makes an adjustment to increase F's basis in asset M by $300, the difference between the allocated purchase price and M's inside basis ($700 − $400 = $300). Under paragraphs (b)(8) and (c)(2)(ii) of this section, if F makes the retroactive election, the section 743(b) basis increase of $300 in M is an amortizable section 197 intangible even though asset M is not an amortizable section 197 intangible in the hands of X. F's increase in the basis of asset M is amortizable over 15 years beginning with the month of F's acquisition of the partnership interest. With respect to the remaining $400 of basis, F is treated as stepping into A's shoes and continues A's amortization (if any) in asset M. F's retroactive election applies to all other intangibles acquired by F or a taxpayer under common control with F.

Example 2. A, a calendar year taxpayer, is under common control with B, a June 30 fiscal year taxpayer. A files its original election year Federal income tax return on March 15, 1994, and does not make either the retroactive election or the binding contract election. B files its election year tax return on September 15, 1994, and makes the retroactive election. B is required by paragraph (c)(6)(i) of this section to notify A of its election. Even though A had already filed its election year return, A is bound by B's retroactive election under the common control rules. Additionally, if A had made a binding contract election, it would have been negated by B's retroactive election. Because of B's retroactive election, A must comply with the requirements of this paragraph (c), and file amended returns for the election year and any affected prior years as necessary to conform the treatment of transition period property to the treatment required under the intangibles provisions of OBRA '93.

Example 3. (i) P and Y, calendar year taxpayers, are the common parents of unrelated calendar year consolidated groups. On August 15, 1991, S, a subsidiary member of the P group, acquires a section 197 intangible with an unadjusted basis of $180. Under prior law, no amortization or depreciation was allowed with respect to the acquired intangible. On November 1, 1992, a member of the Y group acquires the S stock in a taxable transaction. On the P group's 1993 consolidated return, P makes the retroactive election. The P group also files amended returns for its affected prior years. Y does not make the retroactive election for the Y group.

(ii) Under paragraph (c)(1)(iii) of this section, a retroactive election by the common parent of a consolidated group applies to all transition period property acquired by a former member while it was a member of the group. The section 197 intangible acquired by S is transition period property that S, a former member of the P group, acquired while a member of the P group. Thus, P's election applies to the acquired asset. P must notify S of the election pursuant to paragraph (c)(6)(ii) of this section.

(iii) S amortizes the unadjusted basis of its eligible section 197 intangible ($180) over the 15-year amortization period using the applicable convention beginning as of the first day of the month of acquisition (August 1, 1991). Thus, the P group amends its 1991 consolidated tax return to take into account $5 of amortization ($180/15 years × 5/12 year = $5) for S.

(iv) For 1992, S is entitled to $12 of amortization ($180/15). Assume that under § 1.1502–76, $10 of S's amortization for 1992 is allocated to the P group's consolidated return and $2 is allocated to the Y group's return. The P group amends its 1992 consolidated tax return to reflect the $10 deduction for S. The Y group must amend its 1992 return to reflect the $2 deduction for S.

Example 4. (i) The facts are the same as in *Example 3,* except that the retroactive election is made for the Y group, not for the P group.

(ii) The Y group amends its 1992 consolidated return to claim a section 197 deduction of $2 ($180/15 years × 2/12 year = $2) for S.

(iii) Under paragraph (c)(1)(ii) of this section, the retroactive election by Y applies to all transition period property acquired by S. However, under paragraph (c)(1)(v)(A) of this section, the intangibles provisions of OBRA '93 do not apply to S's transition period property during the period when it held such property as a member of P group. Instead, these provisions become applicable to S's transition period property beginning on November 1, 1992, when S becomes a member of Y group.

(iv) Because the P group did not make the retroactive election, there is an interim period during which the intangibles provisions of OBRA '93 do not apply to the asset acquired by S. Thus, under paragraph (c)(5) of this section, the Y group must take into account in computing taxable income in 1992 an adjustment equal to the difference between the section 197 deduction that would have been permitted if the intangibles provisions of OBRA '93 applied to the property for the interim period (i.e., the period for which S was included in the P group's 1991 and 1992 consolidated returns) and any amortization or depreciation deductions claimed by S for the transferred intangible for that period. The retroactive election does not affect the P group, and the P group is not required to amend its returns.

Example 5. The facts are the same as in *Example 3,* except that both P and Y make the retroactive election. P must notify S of its election pursuant to paragraph (c)(6)(ii) of this section. Further, both the P and Y groups must file amended returns for affected prior years. Because there is no period of time during which the intangibles provisions of OBRA '93 do not apply to the asset acquired by S, the Y group is permitted no adjustment under paragraph (c)(5) of this section for the asset.

(d) *Binding contract election*—(1) *General rule*—(i) *Effect of election.* If a taxpayer acquires property pursuant to a written binding contract in effect on August 10, 1993, and at all times thereafter before the acquisition (an eligible acquisition) and makes the binding contract election with respect to the contract, the law in effect prior to the enactment of OBRA '93 will apply to all property acquired pursuant to the contract. A separate binding contract election must be made with respect to each eligible acquisition to which the law in effect prior to the enactment of OBRA '93 is to apply.

(ii) *Taxpayers subject to retroactive election.* A taxpayer may not make the binding contract election if the taxpayer or a person under common control with the taxpayer makes the retroactive election under paragraph (c) of this section.

(iii) *Revocation.* A binding contract election, once made, may be revoked only with the consent of the Commissioner.

(2) *Time and manner of election*—(i) *Time.* In general, the binding contract election must be made by the due date (including extensions of time) of the electing taxpayer's Federal income tax return for the election year. If, however, the taxpayer's original Federal income tax return for the election year is filed before April 14, 1994, the election may be made by amending that return no later than September 12, 1994.

(ii) *Manner.* The binding contract election is made by attaching the election statement described in paragraph (e) of this section to the taxpayer's original or amended income tax return for the election year.

(iii) *Effect of nonconforming election.* An attempted election that does not satisfy the requirements of this paragraph (d)(2) is not valid.

(e) *Election statement*—(1) *Filing requirements.* For an election under paragraph (c) or (d) of this section to be valid, the electing taxpayer must:

(i) File (with its Federal income tax return for the election year and with any affected amended returns required under paragraph (c)(4) of this section) a written election statement, as an attachment to Form 4562 (Depreciation and Amortization), that satisfies the requirements of paragraph (e)(2) of this section; and

(ii) Forward a copy of the election statement to the Statistics Branch (QAM:S:6111), IRS Ogden Service Center, ATTN: Chief, Statistics Branch, P.O. Box 9941, Ogden, UT 84409.

(2) *Content of the election statement.* The written election statement must include the information in paragraphs (e)(2) (i) through (vi) and (ix) of this section in the case of a retroactive election, and the information in paragraphs (e)(2) (i) and (vii) through (ix) of

this section in the case of a binding contract election. The required information should be arranged and identified in accordance with the following order and numbering system—

(i) The name, address and taxpayer identification number (TIN) of the electing taxpayer (and the common parent if a consolidated return is filed).

(ii) A statement that the taxpayer is making the retroactive election.

(iii) Identification of the transition period property affected by the retroactive election, the name and TIN of the person from which the property was acquired, the manner and date of acquisition, the basis at which the property was acquired, and the amount of depreciation, amortization, or other cost recovery under section 167 or any other provision of the Code claimed with respect to the property.

(iv) Identification of each taxpayer under common control (as defined in paragraph (b)(6) of this section) with the electing taxpayer by name, TIN, and Internal Revenue Service Center where the taxpayer's income tax return is filed.

(v) If any persons are required to be notified of the retroactive election under paragraph (c)(6) of this section, identification of such persons and certification that written notification of the election has been provided to such persons.

(vi) A statement that the transition period property being amortized under section 197 is not subject to the anti-churning rules of section 197(f)(9).

(vii) A statement that the taxpayer is making the binding contract election.

(viii) Identification of the property affected by the binding contract election, the name and TIN of the person from which the property was acquired, the manner and date of acquisition, the basis at which the property was acquired, and whether any of the property is subject to depreciation under section 167 or to amortization or other cost recovery under any other provision of the Code.

(ix) The signature of the taxpayer or an individual authorized to sign the taxpayer's Federal income tax return.

(f) *Effective date.* These regulations are effective March 15, 1994.

[T.D. 8528, 59 FR 11920, Mar. 15, 1994]

ADDITIONAL ITEMIZED DEDUCTIONS FOR INDIVIDUALS

§ 1.211–1 Allowance of deductions.

In computing taxable income under section 63(a), the deductions provided by sections 212, 213, 214, 215, 216, and 217 shall be allowed subject to the exceptions provided in Part IX, Subchapter B, Chapter 1 of the Code (section 261 and following, relating to items not deductible).

[T.D. 6796, 30 FR 1037, Feb. 2, 1965]

§ 1.212–1 Nontrade or nonbusiness expenses.

(a) An expense may be deducted under section 212 only if:

(1) It has been paid or incurred by the taxpayer during the taxable year (i) for the production or collection of income which, if and when realized, will be required to be included in income for Federal income tax purposes, or (ii) for the management, conservation, or maintenance of property held for the production of such income, or (iii) in connection with the determination, collection, or refund of any tax; and

(2) It is an ordinary and necessary expense for any of the purposes stated in subparagraph (1) of this paragraph.

(b) The term *income* for the purpose of section 212 includes not merely income of the taxable year but also income which the taxpayer has realized in a prior taxable year or may realize in subsequent taxable years; and is not confined to recurring income but applies as well to gains from the disposition of property. For example, if defaulted bonds, the interest from which if received would be includible in income, are purchased with the expectation of realizing capital gain on their resale, even though no current yield thereon is anticipated, ordinary and necessary expenses thereafter paid or incurred in connection with such bonds are deductible. Similarly, ordinary and necessary expenses paid or incurred in the management, conservation, or maintenance of a building devoted to rental purposes are deductible notwithstanding that there is actually no income therefrom in the taxable year, and regardless of the manner in which or the purpose for which the property in question was acquired. Expenses paid or incurred in managing, conserving, or maintaining property held for investment may be deductible under section 212 even though the property is not currently productive and there is no likelihood that the property will be sold at a profit or will otherwise be productive of income and even though the property is held merely to minimize a loss with respect thereto.

(c) In the case of taxable years beginning before January 1, 1970, expenses of carrying on transactions which do not constitute a trade or business of the taxpayer and are not carried on for the production or collection of income or for the management, conservation, or maintenance of property held for the production of income, but which are carried on primarily as a sport, hobby, or recreation are not allowable as nontrade or nonbusiness expenses. The question whether or not a transaction is carried on primarily for the production of income or for the management, conservation, or maintenance of property held for the production or collection of income, rather than primarily as a sport, hobby, or recreation, is not to be determined solely from the intention of the taxpayer but rather from all the circumstances of the case. For example, consideration will be given to the record of prior gain or loss of the taxpayer in the activity, the relation between the type of activity and the principal occupation of the taxpayer, and the uses to which the property or what it produces is put by the taxpayer. For provisions relating to activities not engaged in for profit applicable to taxable years beginning after December 31, 1969, see section 183 and the regulations thereunder.

(d) Expenses, to be deductible under section 212, must be ‘‘ordinary and necessary’’. Thus, such expenses must be reasonable in amount and must bear a reasonable and proximate relation to the production or collection of taxable income or to the management, conservation, or maintenance of property held for the production of income.

(e) A deduction under section 212 is subject to the restrictions and limitations in part IX (section 261 and following), subchapter B, chapter 1 of the Code, relating to items not deductible. Thus, no deduction is allowable under section 212 for any amount allocable to the production or collection of one or more classes of income which are not includible in gross income, or for any amount allocable to the management, conservation, or maintenance of property held for the production of income which is not included in gross income. See section 265. Nor does section 212 allow the deduction of any expenses which are disallowed by any of the provisions of subtitle A of the Code, even though such expenses may be paid or incurred for one of the purposes specified in section 212.

(f) Among expenditures not allowable as deductions under section 212 are the following: Commuter’s expenses; expenses of taking special courses or training; expenses for improving personal appearance; the cost of rental of a safe-deposit box for storing jewelry and other personal effects; expenses such as those paid or incurred in seeking employment or in placing oneself in a position to begin rendering personal services for compensation, campaign expenses of a candidate for public office, bar examination fees and other expenses paid or incurred in securing admission to the bar, and corresponding fees and expenses paid or incurred by physicians, dentists, accountants, and other taxpayers for securing the right to practice their respective professions. See, however, section 162 and the regulations thereunder.

(g) Fees for services of investment counsel, custodial fees, clerical help, office rent, and similar expenses paid or incurred by a taxpayer in connection with investments held by him are deductible under section 212 only if (1) they are paid or incurred by the taxpayer for the production or collection of income or for the management, conservation, or maintenance of investments held by him for the production of income; and (2) they are ordinary and necessary under all the circumstances, having regard to the type of investment and to the relation of the taxpayer to such investment.

(h) Ordinary and necessary expenses paid or incurred in connection with the management, conservation, or maintenance of property held for use as a residence by the taxpayer are not deductible. However, ordinary and necessary expenses paid or incurred in connection with the management, conservation, or maintenance of property held by the taxpayer as rental property are deductible even though such property was formerly held by the taxpayer for use as a home.

(i) Reasonable amounts paid or incurred by the fiduciary of an estate or trust on account of administration expenses, including fiduciaries' fees and expenses of litigation, which are ordinary and necessary in connection with the performance of the duties of administration are deductible under section 212, notwithstanding that the estate or trust is not engaged in a trade or business, except to the extent that such expenses are allocable to the production or collection of tax-exempt income. But see section 642 (g) and the regulations thereunder for disallowance of such deductions to an estate where such items are allowed as a deduction under section 2053 or 2054 in computing the net estate subject to the estate tax.

(j) Reasonable amounts paid or incurred for the services of a guardian or committee for a ward or minor, and other expenses of guardians and committees which are ordinary and necessary, in connection with the production or collection of income inuring to the ward or minor, or in connection with the management, conservation, or maintenance of property, held for the production of income, belonging to the ward or minor, are deductible.

(k) Expenses paid or incurred in defending or perfecting title to property, in recovering property (other than investment property and amounts of income which, if and when recovered, must be included in gross income), or in developing or improving property, constitute a part of the cost of the property and are not deductible expenses. Attorneys' fees paid in a suit to quiet title to lands are not deductible; but if the suit is also to collect accrued rents thereon, that portion of such fees is deductible which is properly allocable to the services rendered in collecting such rents. Expenses paid or incurred in protecting or asserting one's right to property of a decedent as heir or legatee, or as beneficiary under a testamentary trust, are not deductible.

(l) Expenses paid or incurred by an individual in connection with the determination, collection, or refund of any tax, whether the taxing authority be Federal, State, or municipal, and whether the tax be income, estate, gift, property, or any other tax, are deductible. Thus, expenses paid or incurred by a taxpayer for tax counsel or expenses paid or incurred in connection with the preparation of his tax returns or in connection with any proceedings involved in determining the extent of his tax liability or in contesting his tax liability are deductible.

(m) An expense (not otherwise deductible) paid or incurred by an individual in determining or contesting a liability asserted against him does not become deductible by reason of the fact that property held by him for the production of income may be required to be used or sold for the purpose of satisfying such liability.

(n) Capital expenditures are not allowable as nontrade or nonbusiness expenses. The deduction of an item otherwise allowable under section 212 will not be disallowed simply because the taxpayer was entitled under Subtitle A of the Code to treat such item as a capital expenditure, rather than to deduct it as an expense. For example, see section 266. Where, however, the item may properly be treated only as a capital expenditure or where it was properly so treated under an option granted in Subtitle A of the Code, no deduction is allowable under section 212; and this is true regardless of whether any basis adjustment is allowed under any other provision of the Code.

(o) The provisions of section 212 are not intended in any way to disallow expenses which would otherwise be allowable under section 162 and the regulations thereunder. Double deductions are not permitted. Amounts deducted under one provision of the Internal Revenue Code of 1954 cannot again be deducted under any other provision thereof.

(p) *Frustration of public policy.* The deduction of a payment will be disallowed under section 212 if the payment is of a type for which a deduction would be disallowed under section 162(c), (f), or (g) and the regulations thereunder in the case of a business expense.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 12, 1960, as amended by T.D. 7198, 37 FR 13685, July 13, 1972; T.D. 7345, 40 FR 7439, Feb. 20, 1975]

§1.213–1 Medical, dental, etc., expenses.

(a) *Allowance of deduction.* (1) Section 213 permits a deduction of payments for certain medical expenses (including expenses for medicine and drugs). Except as provided in paragraph (d) of this section (relating to special rule for decedents) a deduction is allowable only to individuals and only with respect to medical expenses actually paid during the taxable year, regardless of when the incident or event which occasioned the expenses occurred and regardless of the method of accounting employed by the taxpayer in making his income tax return. Thus, if the medical expenses are incurred but not paid during the taxable year, no deduction for such expenses shall be allowed for such year.

(2) Except as provided in subparagraphs (4)(i) and (5)(i) of this paragraph, only such medical expenses (including the allowable expenses for medicine and drugs) are deductible as exceed 3 percent of the adjusted gross income for the taxable year. For taxable years beginning after December 31, 1966, the amounts paid during the taxable year for insurance that constitute expenses paid for medical care shall, for purposes of computing total medical expenses, be reduced by the amount determined under subparagraph (5)(i) of this paragraph. For the amounts paid during the taxable year for medicine and drugs which may be taken into account in computing total medical expenses, see paragraph (b) of this section. For the maximum deduction allowable under section 213 in the case of certain taxable years, see paragraph (c) of this section. As to what constitutes ‘‘adjusted gross income’’, see section 62 and the regulations thereunder.

(3)(i) For medical expenses paid (including expenses paid for medicine and drugs) to be deductible, they must be for medical care of the taxpayer, his spouse, or a dependent of the taxpayer and not be compensated for by insurance or otherwise. Expenses paid for the medical care of a dependent, as defined in section 152 and the regulations thereunder, are deductible under this section even though the dependent has gross income equal to or in excess of the amount determined pursuant to §1.151–2 applicable to the calendar year in which the taxable year of the taxpayer begins. Where such expenses are paid by two or more persons and the conditions of section 152(c) and the regulations thereunder are met, the medical expenses are deductible only by the person designated in the multiple support agreement filed by such persons and such deduction is limited to the amount of medical expenses paid by such person.

(ii) An amount excluded from gross income under section 105 (c) or (d) (relating to amounts received under accident and health plans) and the regulations thereunder shall not constitute compensation for expenses paid for medical care. Exclusion of such amounts from gross income will not affect the treatment of expenses paid for medical care.

(iii) The application of the rule allowing a deduction for medical expenses to the extent not compensated for by insurance or otherwise may be illustrated by the following example in which it is assumed that neither the taxpayer nor his wife has attained the age of 65:

Example. Taxpayer H, married to W and having one dependent child, had adjusted gross income for 1956 of $3,000. During 1956 he paid $300 for medical care, of which $100 was for treatment of his dependent child and $200 for an operation on W which was performed in September 1955. In 1956 he received a payment of $50 for health insurance to cover a portion of the cost of W's operation performed during 1955. The deduction allowable under section 213 for the calendar year 1956, provided the taxpayer itemizes his deductions and does not compute his tax under section 3 by use of the tax table, is $160, computed as follows:

Payments in 1956 for medical care	$300
Less: Amount of insurance received in 1956	50
Payments in 1956 for medical care not compensated for during 1956	250
Less: 3 percent of $3,000 (adjusted gross income)	90
Excess, allowable as a deduction for 1956	160

(4)(i) For taxable years beginning before January 1, 1967, where either the taxpayer or his spouse has attained the age of 65 before the close of the taxable year, the 3-percent limitation on the deduction for medical expenses does not apply with respect to expenses for medical care of the taxpayer or his spouse. Moreover, for taxable years beginning after December 31, 1959, and before January 1, 1967, the 3-percent limitation on the deduction for medical expenses does not apply to amounts paid for the medical care of a dependent (as defined in sec. 152) who is the mother or father of the taxpayer or his spouse and who has attained the age of 65 before the close of the taxpayer's taxable year. For taxable years beginning before January 1, 1964, and for taxable years beginning after December 31, 1966, all amounts paid by the taxpayer for medicine and drugs are subject to the 1-percent limitation provided by section 213(b). For taxable years beginning after December 31, 1963, and before January 1, 1967, the 1-percent limitation provided by section 213(b) does not apply, under certain circumstances, to amounts paid by the taxpayer for medicine and drugs for the taxpayer and his spouse or for a dependent (as defined in sec. 152) who is the mother or father of the taxpayer or of his spouse. (For additional provisions relating to the 1-percent limitation with respect to medicine and drugs, see paragraph (b) of this section.) For taxable years beginning before January 1, 1967, whether or not the 3-percent or 1-percent limitation applies, the total medical expenses deductible under section 213 are subject to the limitations described in section 213(c) and paragraph (c) of this section and, where applicable, to the limitations described in section 213(g) and § 1.213–2.

(ii) The age of a taxpayer shall be determined as of the last day of his taxable year. In the event of the taxpayer's death, his taxable year shall end as of the date of his death. The age of a taxpayer's spouse shall be determined as of the last day of the taxpayer's taxable year, except that, if the spouse dies within such taxable year, her age shall be determined as of the date of her death. Likewise, the age of the taxpayer's dependent who is the mother or father of the taxpayer or of his spouse shall be determined as of the last day of the taxpayer's taxable year but not later than the date of death of such dependent.

(iii) The application of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example 1. Taxpayer A, who attained the age of 65 on February 22, 1956, makes his return on the basis of the calendar year. During the year 1956, A had adjusted gross income of $8,000, and paid the following medical bills: (*a*) $560 (7 percent of adjusted gross income) for the medical care of himself and his spouse, and (*b*) $160 (2 percent of adjusted gross income) for the medical care of his dependent son. No part of these payments was for medicine and drugs nor compensated for by insurance or otherwise. The allowable deduction under section 213 for 1956 is $560, the full amount of the medical expenses for the taxpayer and his spouse. No deduction is allowable for the amount of $160 paid for medical care of the dependent son since the amount of such payment (determined without regard to the payments for the care of the taxpayer and his spouse) does not exceed 3 percent of adjusted gross income.

Example 2. H and W, who have a dependent child, made a joint return for the calendar year 1956. H became 65 years of age on August 15, 1956. The adjusted gross income of H and W in 1956 was $40,000 and they paid in such year the following amounts for medical care: *(a)* $3,000 for the medical care of H; *(b)* $2,000 for the medical care of W; and *(c)* $3,000 for the medical care of the dependent child. No part of these payments was for medicine and drugs nor compensated for by insurance or otherwise. The allowable deduction under section 213 for medical expenses paid in 1956 is $6,800 computed as follows:

Payments for medical care of H and W in 1956		$5,000
Payments for medical care of the dependent in 1956	$3,000	
Less: 3 percent of $40,000 (adjusted gross income)	1,200	
		1,800
Allowable deduction for 1956		6,800

Example 3. D and his wife, E, made a joint income tax return for the calendar year 1962, and reported adjusted gross income of $30,000. On December 13, 1962, D attained the age of 65. During the year 1962, D's father, F,

who was 87 years of age, received over half of his support from, and was a dependent (as defined in section 152) of, D. However, D could not claim an exemption under section 151 for F because F had gross income from rents in 1962 of $800. D paid the following medical expenses in 1962, none of which were compensated for by insurance or otherwise: hospital and doctor bills for D and E, $6,500; hospital and doctor bills for F, $4,850; medicine and drugs for D and E, $225, and for F, $225. Since none of the medical expenses are subject to the 3-percent limitation, the amount of medical expenses to be taken into account (before computing the maximum deduction) is $11,500, computed as follows:

Hospital and doctor bills—for D and E		$6,500
Hospital and doctor bills—for F		4,850
Medicine and drugs—for D and E	$225	
Medicine and drugs—for F	$225	
Total medicine and drugs	450	
Less: 1 percent of adjusted gross income ($30,000)	300	
Allowable expenses for medicine and drugs		$150
Total medical expenses taken into account		11,500

Since an exemption cannot be claimed for F on the 1962 return of D and E, their deduction for medical expenses (assuming that section 213(g) does not apply) is limited to $10,000 for that year ($5,000 multiplied by the two exemptions allowed for D and E under section 151(b)). If these identical facts had occurred in a taxable year beginning before January 1, 1962, the medical expense deduction for D and E would, for such taxable year, be limited to $5,000 ($2,500 multiplied by the two exemptions allowed for D and E under section 151(b)). See paragraph (c) of this section.

Example 4. Assume the same facts as in *Example 3*, except that D furnished the entire support of his father's twin sister, G, who had no gross income during 1962 and for whom D was entitled to a dependency exemption. In addition, D paid $4,800 to doctors and hospitals during 1962 for the medical care of G. No part of the $4,800 was for medicine and drugs, and no amount was compensated for by insurance or otherwise. For purposes of the maximum limitation under section 213(c), the maximum deduction for medical expenses on the 1962 return of D and E is limited to $15,000 ($5,000 multiplied by 3, the number of exemptions allowed under section 151, exclusive of the exemptions for old age or blindness). If these identical facts had occurred in a taxable year beginning before January 1, 1962, the medical expense deduction for D and E would, for such taxable year, be limited to $7,500 ($2,500 multiplied by the three exemptions allowed under section 151, exclusive of the exemptions for old age or blindness). The medical expenses to be taken into account by D and E for 1962 and the maximum deductions allowable for such expenses are $15,400 and $15,000, respectively, computed as follows:

Medical expenses per *Example (3)*		$11,500
Add: Expenses paid for G	$4,800	
Less: 3 percent of adjusted gross income ($30,000)	900	
		3,900
Total medical expenses taken into account		15,400
Maximum deduction for 1962 ($5,000 multiplied by 3 exemptions)		15,000
Medical expenses not deductible		400

Example 5. Assume that the facts set forth in *Example 3* had occurred in respect of the calendar year 1964 rather than the calendar year 1962. Since both D and his father, F, had attained the age of 65 before the close of the taxable year, the 1-percent limitation does not apply to the amounts paid for medicine and drugs for D, E, and F. Accordingly, the total medical expenses taken into account by D and E for 1964 would be $11,800 (rather than $11,500 as in *Example 3*) computed as follows:

Hospital and doctor bills—for D and E	$6,500
Hospital and doctor bills—for F	4,350
Medicine and drugs—for D and E	225
Medicine and drugs—for F	225
Total medical expenses taken into account	11,800

(5)(i) For taxable years beginning after December 31, 1966, there may be deducted without regard to the 3-percent limitation the lesser of—(a) One-half of the amounts paid during the taxable year for insurance which constitute expenses for medical care for the taxpayer, his spouse, and dependents; or (b) $150.

(ii) The application of subdivision (i) of this subparagraph may be illustrated by the following example:

Example. H and W made a joint return for the calendar year 1967. The adjusted gross income of H and W for 1967 was $10,000 and they paid in such year $370 for medical care of which amount $350 was paid for insurance which constitutes medical care for H and W. No part of the payment was for medicine and drugs or was compensated for by insurance or otherwise. The allowable deduction under section 213 for medical expenses paid in 1967 is $150, computed as follows:

(1) Lesser of $175 (one-half of amounts paid for insurance) or $150			$150
(2) Payments for medical care	$370		
(3) Less line 1	150		
(4) Medical expenses to be taken into account under 3-percent limitation (line 2 minus line 3)		$220	

(5) Less: 3 percent of $10,000 (adjusted gross income)	300	
(6) Excess allowable as a deduction for 1967 (excess of line 4 over line 5)		0
(7) Allowable medical expense deduction for 1967 (line 1 plus line 6)		$150

(b) *Limitation with respect to medicine and drugs*—(1) *Taxable years beginning before January 1, 1964.* (i) Amounts paid during taxable years beginning before January 1, 1964, for medicine and drugs are to be taken into account in computing the allowable deduction for medical expenses paid during the taxable year only to the extent that the aggregate of such amounts exceeds 1 percent of the adjusted gross income for the taxable year. Thus, if the aggregate of the amounts paid for medicine and drugs exceeds 1 percent of adjusted gross income, the excess is added to other medical expenses for the purpose of computing the medical expense deduction. The application of this subdivision may be illustrated by the following example:

Example. The taxpayer, a single individual with no dependents, had an adjusted gross income of $6,000 for the calendar year 1956. During 1956, he paid a doctor $300 for medical services, a hospital $100 for hospital care, and also spent $100 for medicine and drugs. These payments were not compensated for by insurance or otherwise. The deduction allowable under section 213 for the calendar year 1956 is $260, computed as follows:

Payments for medical care in 1956:

Doctor		$300
Hospital		100
Medicine and drugs	$100	
Less: 1 percent of $6,000 (adjusted gross income)	60	40
Total medical expenses taken into account		440
Less: 3 percent of $6,000 (adjusted gross income)		180
Allowable deduction for 1956		260

(ii) For taxable years beginning before January 1, 1964, the 1-percent limitation is applicable to all amounts paid by a taxpayer during the taxable year for medicine and drugs. Moreover, this limitation applies regardless of the fact that the amounts paid are for medicine and drugs for the taxpayer, his spouse, or dependent parent (the mother or father of the taxpayer or of his spouse) who has attained the age of 65 before the close of the taxable year. In a case where either a taxpayer or his spouse has attained the age of 65 and the taxpayer pays an amount in excess of 1 percent of adjusted gross income for medicine and drugs for himself, his spouse, and his dependents, it is necessary to apportion the 1 percent of adjusted gross income (the portion which is not taken into account as expenses paid for medical care) between the taxpayer and his spouse on the one hand and his dependents on the other. The part of the 1 percent allocable to the taxpayer and his spouse is an amount which bears the same ratio to 1 percent of his adjusted gross income which the amount paid for medicine and drugs for the taxpayer and his spouse bears to the total amount paid for medicine and drugs for the taxpayer, his spouse, and his dependents. The balance of the 1 percent shall be allocated to his dependents. The amount paid for medicine and drugs in excess of the allocated part of the 1 percent shall be taken into account as payments for medical care for the taxpayer and his spouse on the one hand and his dependents on the other, respectively. A similar apportionment must be made in the case of a dependent parent (65 years of age or over) of the taxpayer or his spouse. The application of this subdivision (ii) may be illustrated by the following example:

Example. H and W, who have a dependent child, made a joint return for the calendar year 1956. H became 65 years of age on September 15, 1956. The adjusted gross income of H and W for 1956 is $10,000. During the year, H and W paid the following amounts for medical care: (i) $1,000 for doctors and hospital expenses and $180 for medicine and drugs for themselves; and (ii) $500 for doctors and hospital expenses and $140 for medicine and drugs for the dependent child. These payments were not compensated for by insurance or otherwise. The deduction allowable under section 213(a)(2) for medical expenses paid in 1956 is $1,420, computed as follows:

H and W:			
Payments for doctors and hospital			$1,000.00
Payments for medicine and drugs		$180.00	
Less: Limitation for medicine and drugs (see computation below)		56.25	123.75
Medical expenses for H and W to be taken into account			1,123.75

Dependent:			
Payments for doctors and hospital		500.00	
Payments for medicine and drugs	$140.00		
Less: Limitation for medicine and drugs (see computation below)	43.75	96.25	
Total medical expenses		596.25	
Less: 3 percent of $10,000 (adjusted gross income)		300.00	
Medical expenses for the dependent to be taken into account			296.25
Allowable deductions for 1956			1,420.00
Payments for medicine and drugs:			
H and W			180.00
Dependent			140.00
Total payments			320.00
Less: 1 percent of $10,000 (adjusted gross income)			100.00
Payments to be taken into account			20.00
Allocation of 1-percent exclusion:			
H and W (180÷320×$100)			56.25
Dependent (140÷320×$100)			43.75
Total			100.00

(2) *Taxable years beginning after December 31, 1963.* (i) Except as otherwise provided in subdivision (ii) of this subparagraph, amounts paid during taxable years beginning after December 31, 1963, for medicine and drugs are to be taken into account in computing the allowable deduction for medical expenses paid during the taxable year only to the extent that the aggregate of such amounts exceeds 1 percent of the adjusted gross income for the taxable year. Thus, if the aggregate of the amounts paid for medicine and drugs which are subject to the 1-percent limitation exceeds 1 percent of adjusted gross income, the excess is added to other medical expenses for the purpose of computing the medical expense deduction.

(ii) The 1-percent limitation provided by section 213 does not apply to amounts paid by a taxpayer during a taxable year beginning after December 31, 1963, and before January 1, 1967, for medicine and drugs for the medical care of the taxpayer and his spouse if either has attained the age of 65 before the close of the taxable year. Moreover, for taxable years beginning after December 31, 1963, and before January 1, 1967, the 1-percent limitation with respect to medicine and drugs does not apply to amounts paid for the medical care of a dependent (as defined in sec. 152) who is the mother or father of the taxpayer or of his spouse and who has attained the age of 65 before the close of the taxpayer's taxable year. Amounts paid for medicine and drugs which are not subject to the limitation on medicine and drugs are added to other medical expenses of a taxpayer and his spouse or the dependent (as the case may be) for the purpose of computing the medical expense deduction.

(iii) The application of this subparagraph may be illustrated by the following examples:

Example 1. H and W, who have a dependent child, C, were both under 65 years of age at the close of the calendar year 1964 and made a joint return for that calendar year. During the year 1964, H's mother, M, attained the age of 65, and was a dependent (as defined in section 152) of H. The adjusted gross income of H and W in 1964 was $12,000. During 1964 H and W paid the following amounts for medical care: (i) $600 for doctors and hospital expenses and $120 for medicine and drugs for themselves; (ii) $350 for doctors and hospital expenses and $60 for medicine and drugs for C; and (iii) $400 for doctors and hospital expenses and $100 for medicine and drugs for M. These payments were not compensated for by insurance or otherwise. The deduction allowable under section 213(a) (1) for medical expenses paid in 1964 is $1,150, computed as follows:

H, W, and C:			
Payments for doctors and hospital		$950	
Payments for medicine and drugs	$180		
Less: 1 percent of $12,000 (adjusted gross income)	120	60	
Total medical expenses		1,010	
Less: 3 percent of $12,000 (adjusted gross income)		360	
Medical expenses of H, W, and C to be taken into account			$650

M:		
Payments for doctors and hospitals	400	
Payments for medicine and drugs	100	
Medical expenses of M to be taken into account		500
Allowable deduction for 1964		1,150

Example 2. H and W, who have a dependent child, C, made a joint return for the calendar year 1964, and reported adjusted gross income of $12,000. H became 65 years of age on January 23, 1964. F, the 87 year old father of W, was a dependent of H. During 1964, H and W paid the following amounts for medical care: (i) $400 for doctors and hospital expenses and $75 for medicine and drugs for H; (ii) $200 for doctors and hospital expenses and $100 for medicine and drugs for W; (iii) $200 for doctors and hospital expenses and $175 for medicine and drugs for C; and (iv) $700 for doctors and hospital expenses and $150 for medicine and drugs for F. These payments were not compensated for by insurance or otherwise. The deduction allowable under section 213(a) (2) for medical expenses paid in 1964 is $1,625, computed as follows:

H and W:			
Payments for doctors and hospital		$600	
Payments for medicine and drugs		175	
Medical expenses for H and W to be taken into account			$775
F:			
Payments for doctors and hospital		700	
Payments for medicine and drugs		150	
Medical expenses for F to be taken into account			850
C:			
Payments for doctors and hospital		200	
Payments for medicine and drugs	$175		
Less: 1 percent of $12,000 (adjusted gross income)	120	55	
Total medical expenses		255	
Less: 3 percent of $12,000 (adjusted gross income)		360	
Medical expenses for C to be taken into account			0
Allowable deduction for 1964.			1,625

Example 3. Assume the same facts as example (2) except that the calendar year of the return is 1967 and the amounts paid for medical care were paid during 1967. The deduction allowable under section 213(a) for medical expenses paid in 1967 is $1,520, computed as follows:

Payments for doctors and hospitals:				
H	$400			
W	200			
C	200			
F	700		$1,500	
Payments for medicine and drugs:				
H	75			
W	100			
C	175			
F	150			
		$500		
Less: 1 percent of $12,000 (adjusted gross income)		120	380	
Medical expenses to be taken into account				$1,880
Less: 3 percent of $12,000 (adjusted gross income)				360
Allowable medical expense deduction for 1967				1,520

(3) *Definition of medicine and drugs.* For definition of medicine and drugs, see paragraph (e) (2) of this section.

(c) *Maximum limitations.* (1) For taxable years beginning after December 31, 1966, there shall be no maximum limitation on the amount of the deduction allowable for payment of medical expenses.

(2) Except as provided in section 213(g) and § 1.213–2 (relating to maximum limitations with respect to certain aged and disabled individuals for taxable years beginning before January 1, 1967), for taxable years beginning after December 31, 1961, and before January 1, 1967, the maximum deduction allowable for medical expenses paid in any one taxable year is the lesser of:

(i) $5,000 multiplied by the number of exemptions allowed under section 151 (exclusive of exemptions allowed under section 151(c) for a taxpayer or spouse attaining the age of 65, or section 151(d) for a taxpayer who is blind or a spouse who is blind);

(ii) $10,000, if the taxpayer is single, not the head of a household (as defined in section 1(b) (2)) and not a surviving spouse (as defined in section 2(b)), or is married and files a separate return; or

(iii) $20,000 if the taxpayer is married and files a joint return with his spouse under section 6013, or is the head of a household (as defined in section 1(b) (2)), or a surviving spouse (as defined in section 2(b)).

(3) The application of subparagraph (2) of this paragraph may be illustrated by the following example:

Example. H and W made a joint return for the calendar year 1962 and were allowed five exemptions (exclusive of exemptions under sec. 151 (c) and (d)), one for each taxpayer and three for their dependents. The adjusted gross income of H and W in 1962 was $80,000. They paid during such year $26,000 for medical care, no part of which is compensated for by insurance or otherwise. The deduction allowable under section 213 for the calendar year 1962 is $20,000, computed as follows:

Payments for medical care in 1962	$26,000
Less: 3 percent of $80,000 (adjusted gross income)	2,400
Excess of medical expenses in 1962 over 3 percent of adjusted gross income	23,600
Allowable deduction for 1962 ($5,000 multiplied by five exemptions allowed under sec. 151 (b) and (e) but not in excess of $20,000)	20,000

(4) Except as provided in section 213(g) and §1.213–2 (relating to certain aged and disabled individuals), for taxable years beginning before January 1, 1962, the maximum deduction allowable for medical expenses paid in any 1 taxable year is the lesser of:

(i) $2,500 multiplied by the number of exemptions allowed under section 151 (exclusive of exemptions allowed under section 151(c) for a taxpayer or spouse attaining the age of 65, or section 151(d) for a taxpayer who is blind or a spouse who is blind);

(ii) $5,000, if the taxpayer is single, not the head of a household (as defined in section 1(b) (2)) and not a surviving spouse (as defined in section 2(b)) or is married and files a separate return; or

(iii) $10,000, if the taxpayer is married and files a joint return with his spouse under section 6013, or is head of a household (as defined in section 1(b) (2)), or a surviving spouse (as defined in section 2(b)).

(5) For the maximum deduction allowable for taxable years beginning before January 1, 1967, if the taxpayer or his spouse is age 65 or over and is disabled, see §1.213–2.

(d) *Special rule for decedents.* (1) For the purpose of section 213 (a), expenses for medical care of the taxpayer which are paid out of his estate during the 1-year period beginning with the day after the date of his death shall be treated as paid by the taxpayer at the time the medical services were rendered. However, no credit or refund of tax shall be allowed for any taxable year for which the statutory period for filing a claim has expired. See section 6511 and the regulations thereunder.

(2) The rule prescribed in subparagraph (1) of this paragraph shall not apply where the amount so paid is allowable under section 2053 as a deduction in computing the taxable estate of the decedent unless there is filed in duplicate (i) a statement that such amount has not been allowed as a deduction under section 2053 in computing the taxable estate of the decedent and (ii) a waiver of the right to have such amount allowed at any time as a deduction under section 2053. The statement and waiver shall be filed with or for association with the return, amended return, or claim for credit or refund for the decedent for any taxable year for which such an amount is claimed as a deduction.

(e) *Definitions*—(1) *General.* (i) The term *medical care* includes the diagnosis, cure, mitigation, treatment, or prevention of disease. Expenses paid for ‘‘medical care’’ shall include those paid for the purpose of affecting any structure or function of the body or for transportation primarily for and essential to medical care. See subparagraph (4) of this paragraph for provisions relating to medical insurance.

(ii) Amounts paid for operations or treatments affecting any portion of the body, including obstetrical expenses and expenses of therapy or X-ray treatments, are deemed to be for the purpose of affecting any structure or function of the body and are therefore paid for medical care. Amounts expended for illegal operations or treatments are not deductible. Deductions for expenditures for medical care allowable under section 213 will be confined strictly to expenses incurred primarily for the prevention or alleviation of a physical or mental defect or illness. Thus, payments for the following are payments for medical care: hospital services, nursing services (including nurses' board where paid by the taxpayer), medical, laboratory, surgical, dental and other diagnostic and healing services, X-rays, medicine and drugs (as defined in subparagraph (2) of this paragraph, subject to the 1-percent limitation in paragraph (b) of this section), artificial teeth or limbs, and ambulance hire. However, an expenditure which is merely beneficial to the general health of an individual, such as an expenditure for a vacation, is not an expenditure for medical care.

(iii) Capital expenditures are generally not deductible for Federal income tax purposes. See section 263 and the regulations thereunder. However, an expenditure which otherwise qualifies as a medical expense under section 213 shall not be disqualified merely because it is a capital expenditure. For purposes of section 213 and this paragraph, a capital expenditure made by the taxpayer may qualify as a medical expense, if it has as its primary purpose the medical care (as defined in subdivisions (i) and (ii) of this subparagraph) of the taxpayer, his spouse, or his dependent. Thus, a capital expenditure which is related only to the sick person and is not related to permanent improvement or betterment of property, if it otherwise qualifies as an expenditure for medical care, shall be deductible; for example, an expenditure for eye glasses, a seeing eye dog, artificial teeth and limbs, a wheel chair, crutches, an inclinator or an air conditioner which is detachable from the property and purchased only for the use of a sick person, etc. Moreover, a capital expenditure for permanent improvement or betterment of property which would not ordinarily be for the purpose of medical care (within the meaning of this paragraph) may, nevertheless, qualify as a medical expense to the extent that the expenditure exceeds the increase in the value of the related property, if the particular expenditure is related directly to medical care. Such a situation could arise, for example, where a taxpayer is advised by a physician to install an elevator in his residence so that the taxpayer's wife who is afflicted with heart disease will not be required to climb stairs. If the cost of installing the elevator is $1,000 and the increase in the value of the residence is determined to be only $700, the difference of $300, which is the amount in excess of the value enhancement, is deductible as a medical expense. If, however, by reason of this expenditure, it is determined that the value of the residence has not been increased, the entire cost of installing the elevator would qualify as a medical expense. Expenditures made for the operation or maintenance of a capital asset are likewise deductible medical expenses if they have as their primary purpose the medical care (as defined in subdivisions (i) and (ii) of this subparagraph) of the taxpayer, his spouse, or his dependent. Normally, if a capital expenditure qualifies as a medical expense, expenditures for the operation or maintenance of the capital asset would also qualify provided that the medical reason for the capital expenditure still exists. The entire amount of such operation and maintenance expenditures qualifies, even if none or only a portion of the original cost of the capital asset itself qualified.

(iv) Expenses paid for transportation primarily for and essential to the rendition of the medical care are expenses paid for medical care. However, an amount allowable as a deduction for ‘‘transportation primarily for and essential to medical care’’ shall not include the cost of any meals and lodging while away from home receiving medical treatment. For example, if a doctor prescribes that a taxpayer go to a warm climate in order to alleviate a specific chronic ailment, the cost of meals and lodging while there would not be deductible. On the other hand, if the travel is undertaken merely for the general improvement of a taxpayer's health, neither the cost of transportation nor the cost of meals and lodging would be deductible. If a doctor prescribes an operation or other medical care, and the taxpayer chooses for purely personal considerations to travel to another locality (such as a resort area) for the operation or the other medical care, neither the cost of transportation nor the cost of meals and lodging (except where paid as part of a hospital bill) is deductible.

(v) The cost of in-patient hospital care (including the cost of meals and lodging therein) is an expenditure for medical care. The extent to which expenses for care in an institution other than a hospital shall constitute medical care is primarily a question of fact which depends upon the condition of the individual and the nature of the services he receives (rather than the nature of the institution). A private establishment which is regularly engaged in providing the types of care or services outlined in this subdivision shall be considered an institution for purposes of the rules provided herein. In general, the following rules will be applied:

(a) Where an individual is in an institution because his condition is such

that the availability of medical care (as defined in subdivisions (i) and (ii) of this subparagraph) in such institution is a principal reason for his presence there, and meals and lodging are furnished as a necessary incident to such care, the entire cost of medical care and meals and lodging at the institution, which are furnished while the individual requires continual medical care, shall constitute an expense for medical care. For example, medical care includes the entire cost of institutional care for a person who is mentally ill and unsafe when left alone. While ordinary education is not medical care, the cost of medical care includes the cost of attending a special school for a mentally or physically handicapped individual, if his condition is such that the resources of the institution for alleviating such mental or physical handicap are a principal reason for his presence there. In such a case, the cost of attending such a special school will include the cost of meals and lodging, if supplied, and the cost of ordinary education furnished which is incidental to the special services furnished by the school. Thus, the cost of medical care includes the cost of attending a special school designed to compensate for or overcome a physical handicap, in order to qualify the individual for future normal education or for normal living, such as a school for the teaching of braille or lip reading. Similarly, the cost of care and supervision, or of treatment and training, of a mentally retarded or physically handicapped individual at an institution is within the meaning of the term *medical care.*

(b) Where an individual is in an institution, and his condition is such that the availability of medical care in such institution is not a principal reason for his presence there, only that part of the cost of care in the institution as is attributable to medical care (as defined in subdivisions (i) and (ii) of this subparagraph) shall be considered as a cost of medical care; meals and lodging at the institution in such a case are not considered a cost of medical care for purposes of this section. For example, an individual is in a home for the aged for personal or family considerations and not because he requires medical or nursing attention. In such case, medical care consists only of that part of the cost for care in the home which is attributable to medical care or nursing attention furnished to him; his meals and lodging at the home are not considered a cost of medical care.

(c) It is immaterial for purposes of this subdivision whether the medical care is furnished in a Federal or State institution or in a private institution.

(vi) See section 262 and the regulations thereunder for disallowance of deduction for personal living, and family expenses not falling within the definition of medical care.

(2) *Medicine and drugs.* The term *medicine and drugs* shall include only items which are legally procured and which are generally accepted as falling within the category of medicine and drugs (whether or not requiring a prescription). Such term shall not include toiletries or similar preparations (such as toothpaste, shaving lotion, shaving cream, etc.) nor shall it include cosmetics (such as face creams, deodorants, hand lotions, etc., or any similar preparation used for ordinary cosmetic purposes) or sundry items. Amounts expended for items which, under this subparagraph, are excluded from the term *medicine and drugs* shall not constitute amounts expended for ‘‘medical care’’.

(3) *Status as spouse or dependent.* In the case of medical expenses for the care of a person who is the taxpayer’s spouse or dependent, the deduction under section 213 is allowable if the status of such person as ‘‘spouse’’ or ‘‘dependent’’ of the taxpayer exists either at the time the medical services were rendered or at the time the expenses were paid. In determining whether such status as ‘‘spouse’’ exists, a taxpayer who is legally separated from his spouse under a decree of separate maintenance is not considered as married. Thus, payments made in June 1956 by A, for medical services rendered in 1955 to B, his wife, may be deducted by A for 1956 even though, before the payments were made, B may have died or in 1956 secured a divorce. Payments made in July 1956 by C, for medical services rendered to D in 1955 may be deducted by C for 1956 even though C and D were not married until June 1956.

(4) *Medical insurance.* (i)*(a)* For taxable years beginning after December 31, 1966, expenditures for insurance shall constitute expenses paid for medical care only to the extent that such amounts are paid for insurance covering expenses of medical care referred to in subparagraph (1) of this paragraph. In the case of an insurance contract under which amounts are payable for other than medical care (as, for example, a policy providing an indemnity for loss of income or for loss of life, limb, or sight):

(1) No amount shall be treated as paid for insurance covering expenses of medical care referred to in subparagraph (1) of this paragraph unless the charge for such insurance is either separately stated in the contract or furnished to the policyholder by the insurer in a separate statement,

(2) The amount taken into account as the amount paid for such medical insurance shall not exceed such charge, and

(3) No amount shall be treated as paid for such medical insurance if the amount specified in the contract (or furnished to the policyholder by the insurer in a separate statement) as the charge for such insurance is unreasonably large in relation to the total charges under the contract.

For purposes of the preceding sentence, amounts will be considered payable for other than medical care under the contract if the contract provides for the waiver of premiums upon the occurrence of an event. In determining whether a separately stated charge for insurance covering expenses of medical care is unreasonably large in relation to the total premium, the relationship of the coverages under the contract together with all of the facts and circumstances shall be considered. In determining whether a contract constitutes an ‘‘insurance’’ contract it is irrelevant whether the benefits are payable in cash or in services. For example, amounts paid for hospitalization insurance, for membership in an association furnishing cooperative or so-called free-choice medical service, or for group hospitalization and clinical care are expenses paid for medical care. Premiums paid under Part B, Title XVIII of the Social Security Act (42 U.S.C. 1395j–1395w), relating to supplementary medical insurance benefits for the aged, are amounts paid for insurance covering expenses of medical care. Taxes imposed by any governmental unit do not, however, constitute amounts paid for such medical insurance.

(b) For taxable years beginning after December 31, 1966, subject to the rules of *(a)* of this subdivision, premiums paid during a taxable year by a taxpayer under the age of 65 for insurance covering expenses of medical care for the taxpayer, his spouse, or a dependent after the taxpayer attains the age of 65 are to be treated as expenses paid during the taxable year for insurance covering expenses of medical care if the premiums for such insurance are payable (on a level payment basis) under the contract:

(1) For a period of 10 years or more, or

(2) Until the year in which the taxpayer attains the age of 65 (but in no case for a period of less than 5 years).

For purposes of this subdivision (*b*), premiums will be considered payable on a level payment basis if the total premium under the contract is payable in equal annual or more frequent installments. Thus, a total premium of $10,000 payable over a period of 10 years at $1,000 a year shall be considered payable on a level payment basis.

(ii) For taxable years beginning before January 1, 1967, expenses paid for medical care shall include amounts paid for accident or health insurance. In determining whether a contract constitutes an ‘‘insurance’’ contract it is irrelevant whether the benefits are payable in cash or in services. For example, amounts paid for hospitalization insurance, for membership in an association furnishing cooperative or so-called free-choice medical service, or for group hospitalization and clinical care are expenses paid for medical care.

(f) *Exclusion of amounts allowed for care of certain dependents.* Amounts taken into account under section 44A in computing a credit for the care of certain dependents shall not be treated as expenses paid for medical care.

(g) *Reimbursement for expenses paid in prior years.* (1) Where reimbursement, from insurance or otherwise, for medical expenses is received in a taxable year subsequent to a year in which a deduction was claimed on account of such expenses, the reimbursement must be included in gross income in such subsequent year to the extent attributable to (and not in excess of) deductions allowed under section 213 for any prior taxable year. See section 104, relating to compensation for injuries or sickness, and section 105(b), relating to amounts expended for medical care, and the regulations thereunder, with regard to amounts in excess of or not attributable to deductions allowed.

(2) If no medical expense deduction was taken in an earlier year, for example, if the standard deduction under section 141 was taken for the earlier year, the reimbursement received in the taxable year for the medical expense of the earlier year is not includible in gross income.

(3) In order to allow the same aggregate medical expense deductions as if the reimbursement received in a subsequent year or years had been received in the year in which the payments for medical care were made, the following rules shall be followed:

(i) If the amount of the reimbursement is equal to or less than the amount which was deducted in a prior year, the entire amount of the reimbursement shall be considered attributable to the deduction taken in such prior year (and hence includible in gross income); or

(ii) If the amount of the reimbursement received in such subsequent year or years is greater than the amount which was deducted for the prior year, that portion of the reimbursement received which is equal in amount to the deduction taken in the prior year shall be considered as attributable to such deduction (and hence includible in gross income); but

(iii) If the deduction for the prior year would have been greater but for the limitations on the maximum amount of such deduction provided by section 213 (c), then the amount of the reimbursement attributable to such deduction (and hence includible in gross income) shall be the amount of the reimbursement received in a subsequent year or years reduced by the amount disallowed as a deduction because of the maximum limitation, but not in excess of the deduction allowed for the previous year.

(4) The application of subparagraphs (1), (2), and (3) of this paragraph may be illustrated by the following examples. Examples (1) and (2) reflect the maximum limitation on the medical expense deduction applicable to taxable years beginning after December 31, 1961. Examples (3) and (4) reflect the maximum limitation on the medical expense deduction applicable to taxable years beginning prior to January 1, 1962. For explanation of such maximum medical expense limitations, see paragraph (c) of this section.

Example 1. Taxpayer A, a single individual (not the head of a household and not a surviving spouse) with one dependent, is entitled to two exemptions under the provisions of section 151. He had an adjusted gross income of $35,000 for the calendar year 1962. During 1962 he paid $16,000 for medical care. A received no reimbursement for such medical expenses in 1962, but in 1963 he received $6,000 upon an insurance policy covering the medical expenses which he paid in 1962. A was allowed a deduction of $10,000 (the maximum) from his adjusted gross income for 1962. The amount which A must include in his gross income for 1963 is $1,050, and the amount to be excluded from gross income for 1963 is $4,950, computed as follows:

Payments for medical care in 1962 (not reimbursed in 1962)	$16,000
Less: 3 percent of $35,000 (adjusted gross income)	1,050
Excess of medical expenses not reimbursed in 1962 over 3 percent of adjusted gross income	10,000
Allowable deduction for 1962	10,000
Amount by which the medical deductions for 1962 would have been greater than $10,000 but for the limitations on the maximum amount provided by section 213	4,950
Reimbursement received in 1963	$6,000
Less: Amount by which the medical deduction for 1962 would have been greater than $10,000 but for the limitation on the maximum amount provided by section 213	4,950
Reimbursement received in 1963 reduced by the amount by which the medical deduction for 1962 would have been greater than $10,000 but for the limitations on the maximum amount provided by section 213	1,050
Amount attributed to medical deduction taken for 1962	1,050
Amount to be included in gross income for 1963	1,050
Amount to be excluded from gross income for 1963 ($6,000 less $1,050)	4,950

Example 2. Assuming that A, in example (1), received $15,000 in 1963 as reimbursement for the medical expenses which he paid in 1962, the amount which A must include in his gross income for 1963 is $10,000, and the amount to be excluded from gross income for 1963 is $5,000, computed as follows:

Reimbursement received in 1963	$15,000
Less: Amount by which the medical deduction for 1962 would have been greater than $10,000 but for the limitations on the maximum amount provided by section 213	4,950
Reimbursement received in 1963 reduced by the amount by which the medical deduction for 1962 would have been greater than $10,000 but for the limitations on the maximum amount provided by section 213	10,050
Deduction allowable for 1962	10,000
Amount of reimbursement received in 1963 to be included in gross income for 1963 as attributable to deduction allowable for 1962	10,000
Amount to be excluded from gross income for 1963 ($15,000 less $10,000)	5,000

Example 3. Taxpayer A, a single individual (not the head of a household and not a surviving spouse) with one dependent, is entitled to two exemptions under the provisions of section 151. He had an adjusted gross income of $35,000 for the calendar year 1956. During 1956 he paid $9,000 for medical care. A received no reimbursement for such medical expenses in 1956, but in 1957 he received $6,000 upon an insurance policy covering the medical expenses which he paid in 1956. A was allowed a deduction of $5,000 (the maximum) from his adjusted gross income for 1956. The amount which A must include in his gross income for 1957 is $3,050 and the amount to be excluded from gross income for 1957 is $2,950, computed as follows:

Payments for medical care in 1956 (not reimbursed in 1956)	$9,000
Less: 3 percent of $35,000 (adjusted gross income)	1,050
Excess of medical expenses not reimbursed in 1956 over 3 percent of adjusted gross income	7,950
Allowable deduction for 1956	5,000
Amount by which the medical deductions for 1956 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	2,950
Reimbursement received in 1957	6,000
Less: Amount by which the medical deduction for 1956 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	2,950
Reimbursement received in 1957 reduced by the amount by which the medical deduction for 1956 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	8,050
Amount attributed to medical deduction taken for 1956	3,050
Amount to be included in gross income for 1957	3,050
Amount to be excluded from gross income for 1957 ($6,000 less $3,050)	2,950

Example 4. Assuming that A, in example (3), received $8,000 in 1957 as reimbursement for the medical expenses which he paid in 1956, the amount which A must include in his gross income for 1957 is $5,000 and the amount to be excluded from gross income for 1957 is $3,000 computed as follows:

Reimbursement received in 1957	$8,000
Less: Amount by which the medical deduction for 1956 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	2,950
Reimbursement received in 1957 reduced by the amount by which the medical deduction for 1956 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	5,050
Deduction allowable for 1956	5,000
Amount of reimbursement received in 1957 to be included in gross income for 1957 as attributable to deduction allowable for 1956	5,000
Amount to be excluded from gross income for 1957 ($8,000 less $5,000)	3,000

(h) *Substantiation of deductions.* In connection with claims for deductions under section 213, the taxpayer shall furnish the name and address of each person to whom payment for medical expenses was made and the amount and date of the payment thereof in each case. If payment was made in kind, such fact shall be so reflected. Claims for deductions must be substantiated, when requested by the district director, by a statement or itemized invoice from the individual or entity to which payment for medical expenses was made showing the nature of the service rendered, and to or for whom rendered; the nature of any other item of expense and for whom incurred and for what specific purpose, the amount paid therefor and the date of the payment thereof; and by such other information as the district director may deem necessary.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 1.213–1, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 1.214–1 Expenses for the care of certain dependents incurred during taxable years beginning before January 1, 1972.

(a) *General rule.* (1) This section applies only for expenses incurred during taxable years beginning before January 1, 1972. For expenses incurring in taxable years beginning after December 31, 1971, see section 1.214A, and §§214A–1 through 1.214A–5.

(2) Section 214 allows, subject to certain limitations, a deduction from gross income of expenses paid for the care of certain dependents where the care is for the purpose of enabling the taxpayer to be gainfully employed. Such expenses are referred to in this section as ''child care'' expenses. The deduction is allowed only for expenses incurred while the taxpayer is gainfully employed or in active search of gainful employment. The employment which is the cause of the incurring of the expenses may, however, consist of service either within or without the home of the taxpayer. Self-employment constitutes employment for purposes of section 214.

(b) *Taxpayers who may qualify for the deduction.* The deduction provided in section 214 is allowed only to a taxpayer who is a woman, a widower, or, for taxable years beginning after December 31, 1963, a husband whose wife is incapacitated or institutionalized. For purposes of this paragraph, the following rules apply:

(1) *A widower.* The deduction is allowed for expenses paid by a taxpayer who is a widower at the time the expenses are incurred. The term *widower* includes (i) a man whose wife has died and who has not remarried, (ii) a man who is divorced from his wife and has not remarried, and (iii) a man who is legally separated from his wife under a decree of legal separation.

(2) *A married woman whose husband is capable of self-support.* If the expenses are paid by a woman (i) who is married at the time the expenses are incurred, (ii) whose husband at that time is not incapable of self-support because he is mentally defective or physically disabled, (iii) who is not divorced or legally separated at the end of the taxable year, and (iv) in the case of a woman who has been deserted by her husband and who does not meet all of the conditions set forth in subparagraph (4)(ii) of this paragraph, the deduction is allowed, but only if she files a joint income tax return with her husband for the taxable year in which the expenses are paid. Further, the amount otherwise deductible shall be reduced by the amount, if any, by which the combined adjusted gross income of the taxpayer and her spouse for the taxable year in which the expenses are paid exceeds $4,500 (for taxable years beginning before January 1, 1964) or $6,000 (for taxable years beginning after December 31, 1963). The amount otherwise deductible is the amount expended for child care or the maximum deduction allowable for any taxable year (see paragraph (c) of this section), whichever is the lesser. The determination of whether the taxpayer's husband is incapable of self-support because of a mental defect or physical disability shall be made without regard to his income from sources other than his own earnings. For purposes of this subparagraph, the term *earnings* means wages, salaries, commissions, professional fees, and other amounts received as compensation for personal services actually rendered. It does not include income such as pensions, annuities, sick pay, interest, dividends, or rents.

(3) *A married woman whose husband is incapable of self-support.* (i) The deduction is allowed without regard to the limitations described in subparagraph (2) of this paragraph for expenses paid by a married woman whose husband is incapable of self-support because he is mentally defective or physically disabled (as defined in subparagraph (2) of this paragraph) at the time the expenses are incurred.

(ii) A married woman claiming a deduction under this subparagraph shall submit with her income tax return in which the deduction is claimed information disclosing *(a)* the nature of her husband's disability, *(b)* the period of the disability, *(c)* the amount of her husband's earnings (if any) during the period he was incapable of self-support, and *(d)* such other information as is required by the return or instructions relating to the return. Where the husband is capable of self-support for part of a taxable year the child care expenses incurred for such part shall be treated under subparagraph (2) of this paragraph. See example (8) of paragraph (c)(3)(i) or example (8) of paragraph (c)(3)(ii) (whichever is applicable) of this section.

(4) *A single woman.* (i) The deduction is also allowed without regard to the limitation described in subparagraph (2) of this paragraph for expenses paid by a woman who *(a)* is unmarried at the time the expenses are incurred, or *(b)* is, at the close of the taxable year, legally separated from her husband under a decree of divorce or of separate maintenance.

(ii) For taxable years ending after April 2, 1963, the deduction is also allowed without regard to the limitation described in subparagraph (2) of this paragraph for expenses paid by a woman who *(a)* has been deserted by her husband, *(b)* at the time her return for the taxable year is filed, does not know the whereabouts of her husband, *(c)* has not known the whereabouts of her husband at any time during the taxable year, and *(d)* has applied to a court of competent jurisdiction for appropriate process to compel her husband to pay support or otherwise to comply with the law or a judicial order. In general, a wife shall be considered to be deserted by her husband during any period of time during which there is an actual, willful, and voluntary abandonment of the wife by her husband which abandonment is in violation of a legal obligation without legal justification or excuse. The determination as to whether a wife has been deserted by her husband is a question of fact which will not necessarily be governed by provisions of state law relating to desertion or abandonment. The determination as to whether a wife knew the whereabouts of her husband at any particular moment of time will be determined in the light of the particular facts of each case. A wife will be considered to have known the whereabouts of her husband if on a particular day she knew the address at which he was, on such day, residing or carrying on his trade or business, or if she knew the name and address of the person by whom he was employed on such day. A wife will not be considered to have known the whereabouts of her husband merely because she had information that he was residing or working in a particular city or state. To satisfy the requirement of (d) of this subdivision the wife must have initiated legal proceedings consistent with the applicable state law for the purpose of compelling her husband to pay support or, upon failure of the husband to comply with an order or decree of a court requiring the payment of support, must have initiated legal proceedings, consistent with the applicable state law, for the purpose of requiring compliance by the husband of the order or decree of the court. As used in this subdivision, the term *legal proceedings* includes criminal and quasi criminal proceedings as well as civil proceedings.

(5) *A husband whose wife is incapacitated or institutionalized*—(i) *In general.* Subject to certain limitations, the deduction is allowed for expenses paid in a taxable year beginning after December 31, 1963, by a husband if the expenses are incurred during a period in which his wife is incapacitated. However, the deduction is allowed only if the wife is incapacitated for a period of at least 90 consecutive days or a shorter period if the period of incapacitation is terminated by her death. The period of incapacitation need not occur entirely within one taxable year.

(ii) *Limitation on deduction.* Except as otherwise provided in this subdivision, the deduction is allowed only if the husband files a joint income tax return with his wife for the taxable year in which the expenses are paid. Further, the amount otherwise deductible shall be reduced by the amount, if any, by which the combined adjusted gross income of the husband and his spouse exceeds $6,000 for the taxable year in which the expenses are paid. The amount otherwise deductible is the amount expended for child care (and incurred during the period the wife was incapacitated) or the maximum deduction allowable for any taxable year beginning after December 31, 1963 (see paragraph (c) (2) of this section), whichever is the lesser. The limitations set forth in this subdivision do not apply to any expenses incurred in any period during which the taxpayer's wife is institutionalized if (*a*) the institutionaliza- tion is for a period of at least 90 consecutive days, or *(b)* the period of institutionalization (regardless of its length) is terminated by her death. The period of institutionalization referred to in subdivision *(a)* or *(b)* of this subdivision need not occur entirely within one taxable year.

(iii) *Incapacitated wife.* A wife is considered to be incapacitated during any period of time during which she is incapable of caring for herself because of a mental or physical defect. A wife is not considered to be incapacitated solely by reason of the fact that she has a mental or physical defect. A wife is incapacitated only if she is mentally or physically defective and as a result of the mental or physical defect is incapable of caring for herself. The fact that a wife, by reason of a mental or physical defect, is incapable of self-support, is unable to engage in any substantial gainful activity, or is unable to perform the normal household functions of a housewife or to care for her minor children, does not, of itself, establish that the wife is incapable of caring for herself. A wife who is mentally or physically defective to the extent that she cannot dress herself or cannot provide for her personal hygienical or nutritional needs will, ordinarily, be considered as incapable of caring for herself. Thus, a wife who because of an injury (whether temporary or permanent) is confined to a bed or to a wheel chair, even though otherwise enjoying good health, is incapable of caring for herself. In addition, a wife who is physically handicapped, or a wife who is mentally defective and has suicidal or other dangerous tendencies, and for such reason requires constant attention of another person is considered to be incapable of caring for herself. A wife is also considered to be incapacitated during any period of time (whether or not for 90 consecutive days) during which she is institutionalized.

(iv) *Institutionalized wife.* A wife is considered to be institutionalized only while she is, for purposes of receiving medical care or treatment, an inpatient, resident, or inmate of a public or private hospital, or other similar institution. A wife who resides at a hospital, sanitarium, or other similar institution other than for purposes of receiving medical care or treatment, as, for example, by reason of her employment, is not institutionalized. Generally, a wife is not considered institutionalized while residing at a health or beauty ranch or similar establishment even though some medical care or treatment is provided.

(v) *Information to be submitted with return.* A married man claiming a deduction under this subparagraph shall submit with his income tax return in which the deduction is claimed information disclosing, if his wife is institutionalized, the period of institutionalization and the name and address of the institution where the wife received medical care or treatment, or, if his wife is incapacitated (but not institutionalized), the nature and period of her incapacitation. There shall also be submitted such other information as is required by the return or instructions relating to the return. In addition, there should be submitted, wherever possible, a certificate of the attending physician indicating the nature and duration of the wife's mental or physical defect.

(vi) *Computation of 90-day period—(a) Incapacitation.* For the purpose of determining whether a wife is incapacitated for a period of at least 90 consecutive days, different periods of incapacitation which are separated by a period of time during which the wife is not incapacitated cannot be added together. Thus, if a wife is incapacitated during the months of March and April (61 days) and is incapacitated during the entire month of October (31 days), she is not incapacitated for a period of at least 90 consecutive days. Since a wife who is institutionalized is considered to be incapacitated, the period during which a wife is institutionalized is added to a consecutive period during which she is incapacitated (but not institutionalized) for the purpose of determining whether the wife is incapacitated for a period of at least 90 consecutive days. Thus, the 90-consecutive-day requirement is met where a wife remains at home unable to care for herself because of a mental or physical defect for 60 consecutive days and immediately thereafter enters an institution where she continuously remains for an additional 30 days receiving medical care or treatment, whether or not she is able to care for herself during such 30 days.

(b) Institutionalization. For the purpose of determining whether a wife is

institutionalized for a period of at least 90 consecutive days, different periods of institutionalization which are separated by a period of time during which the wife was not institutionalized cannot be added together. Thus, if a wife is institutionalized during the months of March and April (61 days), spends the months of May and June at home, and is institutionalized during the entire month of July (31 days), she is not institutionalized for a period of at least 90 consecutive days. However, if the wife is incapacitated during all of May and June, the entire period (March through July) constitutes a continuous period of incapacitation, see subdivision (*a*) of this subdivision. The running of a period of institutionalization is not discontinued because of, but rather such period includes, brief absences from the institution such as on weekends or holidays, and transfers from one institution to another.

(vii) *Rule where period of incapacitation does not occur in one taxable year.* The 90-consecutive-day period of incapacitation or of institutionalization need not occur entirely within one taxable year. If part of a period of at least 90 days of incapacitation, or part of a period of incapacitation of less than 90 days which is terminated by reason of the death of the wife, occurs in one taxable year and the remainder occurs in the succeeding taxable year, a deduction is allowed for the child care expenses incurred during the part of the period occurring in each such year, subject, however, to all other conditions and limitations. However, no deduction is allowed for expenses paid in any taxable year which begins before January 1, 1964 (see subdivision (i) of this subparagraph).

(6) *Determination of status.* If child care expenses are incurred in one taxable year and paid in another, the status of a taxpayer described in subparagraphs (1) to (5) of this paragraph, inclusive, shall be determined as of the time at which the expenses are incurred and not when such expenses are paid.

(c) *Computation of deduction*—(1) *In general.* The deduction for child care expenses is allowable only with respect to such expenses actually paid during the taxable year regardless of when the event which occasioned the expenses occurred and regardless of the method of accounting employed by the taxpayer in making his income tax return. If child care expenses are incurred but not paid during the taxable year, no deduction can be taken for such year. Thus, if an expenditure was incurred in December of a particular year, but not paid until January of the following calendar year, no deduction may be taken for the earlier calendar year.

(2) *Dollar limitation on amount of deduction*—(i) *Taxable years beginning before January 1, 1964.* For any taxable year beginning before January 1, 1964, the deduction for child care expenses may not exceed $600 regardless of the number of dependents for whose care the expenses are incurred.

(ii) *Taxable years beginning after December 31, 1963.* Except as otherwise provided in this subdivision, the deduction for child care expenses, for any taxable year beginning after December 31, 1963, may not exceed $600. If the taxpayer has two or more dependents at any time during the taxable year, the $600 limit is increased by the amount of child care expenses incurred by the taxpayer for the period or periods during which the taxpayer has two or more dependents. The $600 limit may not be increased to an amount in excess of $900. For a further limitation on the amount of the allowable deduction, see subparagraphs (2) and (5) of paragraph (b) of this section.

(3) *Examples.* The following examples illustrate the computation of the deduction allowed by section 214 in the case of a taxpayer making his return on the basis of the calendar year. In each example it is assumed that the expenses are of the type which would qualify for the deduction.

(i) The following examples apply to taxable years beginning before January 1, 1964:

Example 1. M was a widower during 1954, until September 1, when he remarried. He paid $50 each month in 1954 for child care expenses. He may take into account, for purposes of the deduction allowed by section 214, only the expenses paid during the taxable year which were incurred while he was unmarried. Since the expenses were $400 ($50 per month from January to August, inclusive), the amount of the deduction is $400. If M had paid $100 per month during 1954, the deduction would be limited to $600, although the expenses incurred while M was unmarried amount to $800.

Example 2. H and W were married during the entire year 1954. W, the wife, paid $900 for child care expenses incurred during the year. The combined adjusted gross income of H and W for 1954 was $5,000. The allowable deduction under section 214 is $100 ($600, the maximum deduction allowable, reduced by $500, the excess of adjusted gross income of $5,000 over $4,500). The deduction of $100 is allowable only if H and W made a joint return for 1954.

Example 3. The facts are the same as in example (2), except that the child care expenses paid during the year were $400. No deduction is allowable under section 214, since the amount of expenses paid, $400, is less than $500 (the excess of the adjusted gross income over $4,500).

Example 4. During 1954, W, a woman, paid $50 each month for child care expenses. She was unmarried until April 1, 1954, and was married for the remainder of the year. H, her husband, was capable of self-support, and the combined adjusted gross income of husband and wife was $4,700. H and W made a joint return for 1954. The total deduction allowable to W under section 214 is $400, computed as follows: $150 as expenses incurred while W was a single woman, and $250 as expenses incurred while W was married; the $250 is arrived at by taking the amount expended while H and W were married, $450, and reducing it by $200 (the excess of adjusted gross income, $4,700 over $4,500).

Example 5. The facts are the same as in example (4), except that the amounts paid are $75 per month ($225 being paid for expenses incurred while W was single and $675 while she was married). The total allowable deduction in this case is $600. $225 is deductible as expenses incurred while W was a single woman. $400 of the expenses incurred during the period of marriage is also deductible. However, the maximum deduction allowable to W is $600. The allowable amount for expenses incurred during the period of marriage is determined as follows: $675 (the amount expended during the period) is reduced to $600 (the maximum deduction allowable) and $600 is then reduced by $200 (the excess of adjusted gross income $4,700 over $4,500) to $400.

Example 6. H and W were married during 1954 prior to July 1, when they received a decree of divorce. She did not remarry during 1954. W paid $100 per month for child care expenses during 1954. The allowable deduction is $600. Since W is considered to have been a single woman during all of 1954, the limitations with respect to the deduction allowed to a married woman are not applicable, and only the $600 limitation applies.

Example 7. H and W married on July 1, 1954. At all times in 1954, until July 1, H was a widower and W was a widow. H and W each paid $750 for child care in 1954, prior to their marriage. Each is allowed a deduction for 1954 of $600, regardless of their adjusted gross income and of the amount of their child care expenditures while married, and whether or not a joint return was filed. However, no additional deduction would be allowed for child care expenses paid after their marriage.

Example 8. H and W were married at all times during the year 1954. As a result of an accident, H incurred injuries which rendered him incapable of self-support during 1954 until September 1. The adjusted gross income of H and W for 1954 was $4,700. W paid $60 each month in 1954 for child care expenses. The deduction allowable to W by section 214 is $520. This amount is composed of $480, representing the amounts paid during H's period of disability, and $40, representing the allowable deduction of expenses paid in the amount of $240 from September to December, inclusive ($240 is reduced by $200, the excess of the adjusted gross income ($4,700) over $4,500).

Example 9. H and W were married from January 1, 1954 to October 1, 1954, when H died. The combined adjusted gross income of the spouses was $4,800. W paid $50 per month for child care expenses throughout the entire year. The deduction allowed to W if she filed a separate return is $150, the amount paid while she was a widow. If a joint return is filed on behalf of the widow and her deceased husband, the deduction allowable is $300 which includes $150 deductible as a married woman (the amount expended during marriage, $450, being reduced by $300, the excess of $4,800 over $4,500).

(ii) The following examples apply to taxable years beginning after December 31, 1963:

Example 1. B was a widower during 1964, until August 1, when he remarried. He had two dependent children aged 7 and 10. He paid $90 each month in 1964 for child care expenses. His wife was not incapacitated or institutionalized at any time during 1964. He may take into account, for purposes of the deduction allowed by section 214, only those expenses paid during the taxable year which were incurred while he was unmarried. Therefore, the amount of the deduction allowable is $630 ($90 per month from January to July, inclusive). If B had only one dependent during the period he was unmarried, the amount of the deduction allowable would be limited to $600.

Example 2. H and W were married during the entire year 1964. They have one dependent child age 11. W, the wife, paid $800 for child care expenses incurred during the year. The combined adjusted gross income of H and W was $6,400. The allowable deduction under section 214 is $200, computed as follows: $600, the maximum deduction allowable for one dependent, is reduced by $400, the excess of adjusted gross income ($6,400) over $6,000. The deduction of $200 is allowable only if H and W made a joint return for 1964.

Example 3. The facts are the same as in example (2), except that the child care expenses paid during the year were $400. No deduction is allowable under section 214, since the amount of expenses paid, $400, does not exceed the excess of the adjusted gross income ($6,400) over $6,000.

Example 4. During 1964, W, a woman paid $60 each month for child care expenses for her dependent child age 11. She was a widow from January 1, through March 31, and was married for the remainder of the year. H, her husband, was capable of self-support, and the combined adjusted gross income of H and W for 1964 was $6,200. H and W made a joint return for 1964. The total deduction allowable to W under section 214 is $520, computed as follows: $180, as expenses incurred while W was a single woman, plus $340, as expenses incurred while W was married. The $340 is arrived at by reducing the amount expended while H and W were married, $540, by $200 (the excess of adjusted gross income ($6,200) over $6,000).

Example 5. The facts are the same as in example (4), except that the amounts paid for child care expenses are $75 per month ($225 being paid for expenses incurred while W was single and $675 while she was married). The total allowable deduction in this case is $600. $225 is deductible as expenses incurred while W was a single woman. $400 of the expenses incurred during the period of marriage is also deductible. However, the maximum deduction allowable to W is $600. The allowable amount for expenses incurred during the period of marriage is determined as follows: $675 (the amount expended during such period) is reduced to $600 (the maximum deduction allowable for one dependent) and $600 is then reduced by $200 (the excess of adjusted gross income ($6,200) over $6,000) to $400.

Example 6. H and W were married during 1964 prior to July 1, when they received a decree of divorce. W did not remarry during 1964. She had two dependent children age 6 and 8. W paid $100 per month for child care expenses during 1964. The allowable deduction is $900. Since W is considered to have been a single woman during all of 1964, the limitations with respect to the deduction allowed to a married woman are not applicable, and only the maximum dollar limitation applies ($900 for two dependents for the entire year). If W had only one dependent during the entire year, the allowable deduction would be limited to $600.

Example 7. H and W were married on July 1, 1964. At all times in 1964, until July 1, H was a widower and W was a widow. H and W each paid $600 for child care expenses in 1964, prior to their marriage. W had a dependent child age 6, and H had a dependent child age 8. Their combined adjusted gross income for 1964 was $6,400, and they made a joint return. From July 1, to the end of 1964, W paid $100 per month for child care expenses for both children. If a joint return is not made, H and W are each allowed a deduction of $600, regardless of their adjusted gross income, but no additional deduction would be allowed for child care expenses paid after their marriage. If a joint return is made, H is allowed a deduction of $600 for the expenses paid by him as a widower, and W is allowed a deduction of $800, computed as follows: $600 for expenses paid by her as a widow, and $200 for expenses incurred and paid by her after her marriage. The $200 is arrived at by reducing the amount expended by W from July 1, to the remainder of 1964 (when she had two dependents), $600, by $400, the excess of the adjusted gross income ($6,400) over $6,000. If after her marriage W had incurred and paid child care expenses in the amount of $1,000, W would be allowed a deduction of $900, computed as follows: $600 for expenses paid by her as a widow, and $300 for expenses incurred and paid by her after her marriage. The $300 is arrived at by reducing the $1,000 to $900 (the maximum deduction allowed for two dependents) and the $900 is reduced by $400 (the excess of adjusted gross income, $6,400 over $6,000); and the remainder, $500, is then reduced to $300, which represents the difference between the maximum dollar limitation for two dependents ($900) and the amount paid by W as a widow, $600.

Example 8. H and W were married at all times during 1964. As a result of an accident, H incurred injuries which rendered him incapable of self-support during 1964 until September 1. They had one dependent child age 10. The adjusted gross income of H and W for 1964 was $6,200. W paid $60 each month in 1964 for child care expenses. The deduction allowable to W under section 214 is $520. This amount is composed of $480, the amounts paid during H's period of disability and $40, the expenses paid from September to December, inclusive ($240) reduced by $200, the excess of the adjusted gross income ($6,200) over $6,000.

Example 9. H and W were married from January 1, 1964, until October 1, 1964, when H died. H and W had one child age 10. The combined adjusted gross income of H and W was $6,300. W paid $50 per month for child care expenses throughout the entire year. The deduction allowed to W if she filed a separate return is $150, the amount paid while she was a widow. If a joint return is filed on behalf of the widow and her deceased husband, the deduction allowable is $300, computed as follows: $150 for expenses incurred while W was a widow, and $150 for expenses incurred while W was married (the amount expended during marriage, $450, is reduced by $300, the excess of the adjusted gross income ($6,300) over $6,000).

Example 10. H and W were married at all times during 1964 and have two children. On March 1, 1964, the older child attained age 13 and during the remainder of the year was not a dependent as defined in section 214(d)(1). W incurred and paid $90 each month for child care expenses. H and W's adjusted gross income for 1964 was $6,100, and they made a joint return. The deduction allowable to W under section 214 is $680, computed as follows: $900 (the amount expended from March 1, to the end of 1964) is reduced to $600 (the maximum amount allowable for one dependent) to which is added $180 (the amount expended while H and W had two dependent children under age 13); a total of $780, which amount is reduced by $100 (the excess of the adjusted gross income ($6,100) over $6,000).

Example 11. H and W were married during the entire year 1964 and have two dependents. On March 1, 1964, W became incapacitated and remained unable to care for herself until April 1, 1964, at which time she was admitted to a hospital for medical treatment. W remained in the hospital continuously until June 1, 1964, at which time she returned home. On June 1, 1964, and for the remainder of 1964, W was capable of caring for herself. H incurred and paid $90 a month for child care expenses during 1964. H and W's adjusted gross income for 1964 was $6,100, and they made a joint return for 1964. For purposes of section 214, W is considered to be incapacitated from March 1, 1964 to May 31, 1964, inclusive (a period of at least 90 consecutive days). The allowable deduction is $170, computed as follows: $270, the amount incurred while W was incapacitated, is reduced by $100, the excess of adjusted gross income ($6,100) over $6,000).

Example 12. The facts are the same as in example (11), except that W was in the hospital until August 1, 1964. On August 1, 1964, and for the remainder of 1964, W was capable of caring for herself. The allowable deduction is $360 (the amount incurred while W was institutionalized). No deduction is allowed for the $90 of expenses incurred during March, 1964, because such amount is less than $100 (the excess of the adjusted gross income ($6,100) over $6,000).

(d) *Dependents*—(1) *In general.* The deduction provided by section 214 is allowed only for expenses paid for the care of an individual who (for the taxable year of the taxpayer in which the expenses are incurred) is a dependent of the taxpayer for whom an exemption is allowed under section 151(e)(1). Furthermore, the dependent must, at the time the expenses are incurred, be:

(i) For taxable years beginning before January 1, 1964, under the age of 12 years,

(ii) For taxable years beginning after December 31, 1963, under the age of 13 years, or

(iii) Mentally or physically unable to care for himself.

(2) *Special rules.* (i) It is not necessary that the dependent be permanently disabled in order for the amount expended for his care to be deductible. However, the mere fact that the disability, whether temporary or permanent, renders him incapable of self-support does not necessarily mean that he is incapable of self-care within the meaning of subparagraph (1)(iii) of this paragraph.

(ii) A dependent who has not attained the age of 13 years (for taxable years beginning before January 1, 1964, who has not attained the age of 12 years) is deemed mentally or physically unable to care for himself. Thus, the deduction for expenses paid for the care of a dependent under the age of 13 years (for taxable years beginning before January 1, 1964, under the age of 12 years) is allowable even though the dependent is not a child or stepchild of the taxpayer.

(iii) The rules provided in sections 151 and 152, with respect to the definition and qualification of an individual as a dependent, govern for the purpose of section 214. Thus, expenses for the care of a child or stepchild under the age of 13 years (for taxable years beginning before Jan. 1, 1964, under the age of 12 years) whom the taxpayer supports are deductible even though the child or stepchild has gross income equal to or in excess of the amount determined pursuant to §1.151–2 applicable to the calendar year in which the taxable year of the taxpayer begins. On the other hand, expenses for the care of an aged parent would not be deductible if the gross income condition of §1.151–2 is not met.

(iv) The term *dependent* does not include the spouse of a taxpayer.

(e) *Payments to a dependent.* No deduction is allowed under section 214 for expenses paid to an individual for whom the taxpayer is allowed, for the taxable year in which the expenses are paid, an exemption under section 151. Thus, if the taxpayer, a working widow, supports her mother and is entitled to claim her as a dependent, she may not deduct amounts paid to the mother for the care of the taxpayer's children.

(f) *What expenses are deductible*—(1) *In general.* In order for an expense to be deductible under section 214, it must meet three conditions: First, the expense must be for the care of a dependent; second, it must be for a dependent's care while the taxpayer is gainfully employed or in search of gainful employment; and third, the expense must be for the purpose of enabling the taxpayer to be gainfully employed. In determining whether an expense meets these conditions, all the facts and circumstances of the case must be taken into consideration.

(2) *Definition of care of a dependent.* (i) In general, the phrase *expenses for the care of a dependent* means amounts expended for the primary purpose of assuring the dependent's well being and protection. It does not include all benefits which may be bestowed upon him. Accordingly, amounts expended to provide food, clothing, or education, are not, in themselves, amounts expended for ''care'' so as to be deductible under section 214. However, where the manner of providing care is such that the expense which must be incurred includes payments for other benefits which are inseparably a part of the care, the full amount of the expense will be considered to be incurred for care. Thus, the full amount paid to a nursery school will be considered to be for the care of the child, even though the school also furnishes lunch, recreational activities, and other benefits.

(ii) The manner of providing the care need not be the least expensive method available to the taxpayer. For example, the taxpayer's mother may reside at the taxpayer's home and be available to afford the taxpayer's child adequate care. Regardless of this fact, the expense incurred for the child at a nursery school or day camp may be expense for the care of the child. See, however, subparagraph (4) of this paragraph with respect to the requirement that the expense must be for the purpose of enabling the taxpayer to be gainfully employed.

(iii) Where a portion of an expenditure is for the care of a dependent and a portion is for other unrelated purposes, a reasonable allocation shall be made and only the portion of the amount paid which is attributable to the care shall be considered an amount to which section 214 is applicable. This rule is applicable if, for example, a servant performs household duties and also cares for the children of the taxpayer. In this case, however, where one of the children is under 13 (for taxable years beginning before January 1, 1964, under 12), and the other (or others) is over such age, there need be no further allocation between the children under such age and those over such age.

(3) *Period of employment.* Since the deduction is allowed only for expenses for care for those periods during which the taxpayer is gainfully employed (or in active search of gainful employment), an allocation may be required when an expense covers periods of care in which no employment is involved. Thus, if a taxpayer pays $50 each month during the year for care of his child at a foster home, and the taxpayer is employed (or in search of employment) for only two months during the year, the deduction is limited to $100.

(4) *Purpose of expenditure.* Even if an expense is incurred for the care of a dependent, it is not deductible unless it is incurred for the purpose of permitting the taxpayer to be gainfully employed. Whether that is the true purpose of the expense depends upon the facts and circumstances of the particular case. Thus, the fact that the cost of providing care for a dependent is greater than the amounts anticipated to be received from the employment of the taxpayer may indicate that the purpose of the expenditure is other than to permit the taxpayer to be gainfully employed.

(5) *Examples.* The following examples illustrate the application of this paragraph:

Example 1. A widow has a child who is too young to attend public school. In order that she may be gainfully employed, the widow places the child in a nursery school while she is at work. The expenses paid to the nursery school are child care expenses to which the deduction under section 214 is applicable. Assuming the nursery school provides lunch for the child, no allocation is required between that part of the expense which might be considered to be for the lunch as distinguished from the expense of assuring the child's protection.

Example 2. The taxpayer, a single woman, in order to be gainfully employed employs a housekeeper who cares for the taxpayer's two children, aged 9 and 13 years, respectively, in addition to performing regular household duties of cleaning and cooking. If it is assumed that the compensation paid to the housekeeper is $1,200 during the year, and that $500 is allocated to the care of the children, a deduction of $500 is allowed under section 214. No allocation is required for purposes of determining which part of the $500 is for the care of the 9 year old child. If the expenses allocable to the care of the children were $700, the amount of the deduction would be $600, the maximum amount allowable for one dependent.

Example 3. The taxpayer, a single woman, has a dependent grandchild 10 years of age who has been attending public school. The taxpayer who has been working part time is offered a position involving full-time employment which she can accept only if arrangements are made for the care of the child from 8 a.m. to 5:30 p.m. Such arrangements are made at a private school to which she sends the child. The expenses paid to the school are for the care of the child without allocation between that part of the expense which represents tuition and that part which represents true care. The expense is considered to be incurred for the purpose of enabling the taxpayer to be gainfully employed.

Example 4. The taxpayer, a widow with a substantial income, has a child aged 11 who has been attending boarding school for several years. The taxpayer, who has been performing gratuitous services for a philanthropic organization, accepts a part-time job with the organization for which she is paid a small salary. From these facts it would appear that the expense of continuing the child in the boarding school is not for the purpose of enabling the taxpayer to be gainfully employed, whether or not the expense is considered to be incurred for the care of the child.

Example 5. The taxpayer, a widower, has a child who is physically incapable of caring for himself. In order to be gainfully employed the taxpayer sends the child to a school for children who are physically handicapped. The expense of the school, whether a day school or a boarding school, is a child care expense.

Example 6. The taxpayer, a single woman, lives with her mother who is an invalid incapable of caring for herself. In order to be gainfully employed the taxpayer hires a practical nurse whose sole duty consists of providing for the care of the mother while the taxpayer is at work. The expense paid to the nurse may be a ‘‘child care’’ expense.

(g) *Expenses qualifying under section 213.* (1) An expense which may constitute an amount otherwise deductible under section 213, relating to medical, etc., expenses, may also, as in example (6) of paragraph (f) of this section, constitute an expense for which a deduction is allowable under section 214. In such a case, that part of the amount for which a deduction is allowed under section 214 shall not be treated as an expense under section 213.

(2) On the other hand, where an amount is treated as a medical expense under section 213 for purposes of determining the amount deductible under that section, it shall not be allowed as a deduction under section 214.

(3) The provisions of this paragraph may be illustrated by the following examples:

Example 1. W, a single woman, pays $720 during the taxable year for the care of her child who suffers from infantile paralysis. It is assumed that the expenses are of a nature which qualify as medical expenses under section 213. It is also assumed that these expenses are for the purpose of permitting W to be gainfully employed. W's adjusted gross income for the taxable year is $5,000. She is allowed a deduction of $600 for child care expenses under section 214. The balance of the expenses, or $120, she treats as medical expenses. However, this amount does not exceed 3 percent of her adjusted gross income and is thus not allowable as a deduction under section 213.

Example 2. It would not be proper in the case presented in (1) for W first to determine under section 213 her deductible medical expenses (which would be $570 ($720 less 3% × $5,000)), and then claim as a deduction under section 214 the $150 which is not deductible under section 213. The $150 would be disallowed under section 214 for the reason that it was treated as a medical expense in determining the amount deductible under section 213.

Example 3. W, a single woman under the age of 65 years, is also the head of a household. She pays $12,000 during the taxable year for child care expenses which also qualify as medical expenses under section 213. W's adjusted gross income for the taxable year is $18,000. She is allowed a deduction of $600 for child care expenses under section 214. The balance, or $11,400, is treated as medical expenses. The allowable deduction under section 213 for such expenses is the excess of 3 percent of W's adjusted gross income, or $10,860, but subject to the maximum limitation in section 213.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6740, 29 FR 7715, June 17, 1964; T.D. 6778, 29 FR 17900, Dec. 17, 1964; T.D. 7114, 36 FR 9020, May 18, 1971; T.D. 7411, 41 FR 15404, Apr. 13, 1976; T.D. 7643, 44 FR 50337, Aug. 28, 1979]

§ 1.214A–1 Certain expenses to enable individuals to be gainfully employed incurred during taxable years beginning after December 31, 1971, and before January 1, 1976.

(a) *In general.* (1) For expenses incurred during taxable years beginning after December 31, 1971, and before January 1, 1976, section 214 allows (subject to the requirements of this section and §§ 1.214A–2 through 1.214A–5) a deduction for employment-related expenses (as defined in paragraph (c) of this section) which are paid during the taxable year by an individual who maintains a household (within the meaning of paragraph (d) of this section) that includes as a member one or more qualifying individuals (as defined in paragraph (b) of this section). The deduction for expenses allowed under section 214 may be taken only as an itemized deduction and may not be taken into account in determining adjusted gross income under section 62. No deduction shall be allowed under section 214 in respect of any expenses incurred during a taxable year beginning after March 29, 1975, and before January 1, 1976, for which the taxpayer's adjusted gross income is $44,600 or more (or incurred during a taxable year beginning after December 31, 1971, and before March 30, 1975, for which the taxpayer's adjusted gross income is $27,600 or more). Expenses which are taken into account in determining the deduction under section 214:

(i) Must first be reduced by that amount by which a disabled dependent's (age 15 or over) adjusted gross income and nontaxable disability payments for the taxable year exceed $750 or by the total amount of a disabled spouse's nontaxable disability payments (see section 214(e)(5) and § 1.214A–3),

(ii) Are then disallowed to the extent that, for any calendar month, they exceed $400, determined after taking into account the $200 (or more) per calendar-month limitation on the amount of expenses incurred outside the household for the care of a dependent (or dependents) under the age of 15 (see section 214(c)(1) and (2) and § 1.214A–2 (a) and (b)), and

(iii) Finally, when the taxpayer's adjusted gross income for the taxable year exceeds the sum of $35,000 (or $18,000 in the case of a taxable year beginning after December 31, 1971, and before March 30, 1975), must be further reduced, on a monthly basis, by one-half of the amount by which the adjusted gross income for the calendar year exceeds such sum (see section 214(d) and § 1.214A–2(c)).

(2) The deduction for employment-related expenses is allowable only for such expenses as are actually paid during the taxable year regardless of when the event which occasions the expenses occurs and of the taxpayer's method of accounting. If such expenses are incurred but not paid during the taxable year, no deduction may be taken for such year. Thus, if such an expense is incurred in the last month of a taxable year but not paid until the following taxable year, a deduction for such expense shall not be allowed for the earlier taxable year. However, if the requirements for deductibility, other than payment, are satisfied in the last month of the taxable year, and the item is paid in the following taxable year, a deduction is allowed under section 214 for such following taxable year.

(3) The requirements of section 214, this section, and §§ 1.214A–2 through 1.214A–5 are to be applied to such expenses as of the time they are incurred regardless of when they are paid.

(4) For special rules relating to the deduction of employment-related expenses which may also qualify as medical expenses deductible under section 213, see § 1.214A–5(b).

(5) For substantiation of the deduction, see paragraph (e) of this section.

(b) *Qualifying individual*—(1) *In general.* A person is considered to be a qualifying individual if he is either (i) the taxpayer's dependent who is under the age of 15 and is an individual for whom the taxpayer is entitled to a deduction for a personal exemption under section 151(e); (ii) the taxpayer's dependent (not described in subdivision (i)) who is physically or mentally incapable of caring for himself; or (iii) the taxpayer's spouse who is physically or mentally incapable of caring for himself. The term *dependent*, as used in this subparagraph, includes any individual who is a dependent within the meaning of section 152. For the rules for determining which parent may claim a child as a dependent where the parents are divorced, legally separated, or separated under a written separation agreement, see section 152(e) and the regulations thereunder.

(2) *Qualification on a daily basis.* The status of a person as a qualifying individual will be determined on a daily basis. Thus, if a dependent or spouse of a taxpayer ceases to be a qualifying individual on September 16, the dependent or spouse will be treated as a qualifying individual through September 15 only.

(3) *Physical or mental incapacity.* An individual will be considered to be physically or mentally incapable of caring for himself if as a result of a physical or mental defect he is incapable of caring for his hygienical or nutritional needs, or requires full time attention of another person for his own safety or the safety of others. The fact that an individual, by reason of a physical or mental defect, is unable to engage in any substantial gainful activity, or is unable to perform the normal household functions of a homemaker or to care for minor children, will not of itself establish that the individual is physically or mentally incapable of caring for himself. An individual who is physically handicapped or is mentally defective, and for such reason requires constant attention of another person, is considered to be physically or mentally incapable of caring for himself.

(c) *Employment-related expenses*—(1) *Gainful employment*—(i) *In general.* Expenses are considered to be employment-related expenses only if they are incurred to enable the taxpayer to be gainfully employed and are paid for household services or for the care of one or more qualifying individuals. The expenses must be incurred while the taxpayer is gainfully employed or is in active search of gainful employment. The employment may consist of service either within or without the home of the taxpayer and may include self-employment. Unpaid volunteer work or work for a nominal salary does not constitute qualifying employment. An expense will not be considered to be employment-related merely because it is incurred while the taxpayer is gainfully employed. Whether the purpose of the expense is to enable the taxpayer to be gainfully employed depends upon the facts and circumstances of the particular case. Thus, the fact that the cost of providing care for a qualifying individual is greater than the amounts anticipated to be received from the employment of the taxpayer may indicate that the purpose of the expenditure is other than to permit the taxpayer to be gainfully employed. Any tax required to be paid by the taxpayer under section 3111 (relating to the Federal Insurance Contributions Act) in respect of any wages which otherwise constitute employment-related expenses shall be considered to be an employment-related expense.

(ii) *Determination of period of employment on a daily basis.* An allocation of expenses is required on a daily basis when such expenses cover any period during part of which the taxpayer is gainfully employed or is in active search of gainful employment and during the other part of which there is no employment or active search for gainful employment. Thus, for example, if a taxpayer incurs during each month of the taxable year $60 of expenses which would be employment-related if he were gainfully employed all year, and the taxpayer is gainfully employed, or in active search of gainful employment, for only 2 months and 10 days during such year, the amount of employment-related expenses is limited to $140. If a taxpayer is married, both he and his spouse must be gainfully employed on a substantially full-time basis (see §1.214A–4(b)). However, certain married individuals living apart are treated as not married for this purpose (see §1.214A–4(c)).

(2) *Household services.* Expenses will be considered to be paid for household services if they are paid for the performance in and about the taxpayer's home of ordinary and usual services necessary to the maintenance of the household. However, expenses will not be considered as paid for household services unless the expenses are attributable in part to the care of the qualifying individual. Thus, amounts paid for the services of a domestic maid or cook will be considered to be expenses paid for household services if a part of

those services is provided to the qualifying individual. Amounts paid for the services of an individual who is employed as a chauffeur, bartender, or gardener, however, will not be considered to be expenses paid for household services.

(3) *Care of qualifying individual*—(i) *In general.* The primary purpose of expenses for the care of a qualifying individual must be to assure that individual's well-being and protection. Not all benefits bestowed upon such an individual will be considered as provided for his care. Accordingly, amounts paid to provide food, clothing, or education are not expenses paid for the care of a qualifying individual. However, where the manner of providing care is such that the expense which is incurred includes expense for other benefits which are inseparably a part of the care, the full amount of the expense will be considered to be incurred for care. Thus, for example, the full amount paid to a nursery school in which a qualifying child is enrolled will be considered to be for the care of the child, even though the school also furnishes lunch, recreational activities, and other benefits. Educational expenses incurred for a child in the first or higher grade level are not expenses incurred for the care of one or more qualifying individuals. Expenses incurred for transportation of a qualifying individual described in paragraph (b)(1)(i) of this section between the taxpayer's household and a place outside the taxpayer's household where services for the care of such qualifying individual are provided will not be considered to be incurred for the care of such qualifying individual.

(ii) *Manner of providing care.* The manner of providing the care need not be the least expensive alternative available to the taxpayer. For example, the taxpayer's mother may reside at the taxpayer's home and be available to provide adequate care at no cost for the taxpayer's wife who is physically or mentally incapable of caring for herself. Nevertheless, the expenses incurred in providing a nurse for the wife may be an expense for the care of the wife. See, however, paragraph (c)(1)(i) of this section with respect to the requirement that the expense must be for the purpose of permitting the taxpayer to be gainfully employed.

(4) *Allocation of expenses.* Where a portion of an expense is for household services or for the care of a qualifying individual and a portion of such expense is for other unrelated purposes, a reasonable allocation must be made and only the portion of the expense paid which is attributable to such household services or care will be considered to be an employment-related expense. No such allocation is required to be made, however, if the portion of expense for the unrelated purpose is minimal or insignificant. Such an allocation must be made, for example, if a servant performs household duties, cares for the children of the taxpayer, and also performs social services for the taxpayer (for which a deduction is not allowable) and clerical services in the office of the taxpayer outside the home (for which a deduction may be allowable under section 162). Since a household service expense may be considered employment-related in its entirety even though it is only in part attributable to the care of a qualifying individual, no allocation is required between the part of the household service expense which is attributable to that care of a qualifying individual and that part which is not so attributable.

(5) *Illustrations.* The application of this paragraph may be illustrated by the following examples:

Example 1. The taxpayer lives with her mother who is physically incapable of caring for herself. In order to be gainfully employed the taxpayer hires a practical nurse whose sole duty consists of providing for the care of the mother in the home while the taxpayer is at work. All amounts spent for the services of the nurse are employment-related expenses.

Example 2. The taxpayer has a dependent child 10 years of age who has been attending public school. The taxpayer who has been working part time is offered a position involving full-time employment which she can accept only if the child is placed in a boarding school. The taxpayer accepts the position, and the child is sent to a boarding school. The expenses paid to the school must be allocated between that part of the expenses which represents care for the child and that part which represents tuition for education. The part of the expense representing care of the child is considered to be incurred for the purpose of permitting the taxpayer to be gainfully employed.

Example 3. The taxpayer, in order to be gainfully employed, employs a housekeeper who cares for the taxpayer's two children, aged 9 and 15 years, respectively, performs regular household services of cleaning and cooking, and chauffeurs the taxpayer to and from his place of employment. The chauffeuring service never requires more than 30 minutes out of the total period of employment each day. No allocation is required for purposes of determining the portion of the expense attributable to the chauffeuring (not a household service expense) since it is de minimis. Further, no allocation is required for the purpose of determining the portion of the expense attributable to the care of the 15 year old child (not a qualifying individual) since the household expense is in part attributable to the care of the 9 year old child, who is a qualifying individual. Accordingly, the entire expense of employing the housekeeper is an employment-related expense.

(d) *Maintenance of a household*—(1) *In general.* An individual is considered to have maintained a household for his taxable year (or lesser period) only if he (and his spouse if he is married) have furnished over one-half of the cost incurred for such taxable year (or lesser period) in maintaining the household. The household must actually constitute for the taxable year the principal place of abode of the taxpayer and the qualifying individual or individuals described in paragraph (b) of this section. It is not sufficient that the taxpayer maintain the household without being its occupant. A physical change in the location of the home will not, however, prevent the home from constituting the principal place of abode of the taxpayer and a qualifying individual. The fact that an individual is born or dies during the taxable year will not prevent a home from constituting his principal place of abode for such year. An individual will not be considered to have terminated a household as his principal place of abode merely by reason of temporary absences therefrom by reason of illness, education, business, vacation, military service, or a custody agreement.

(2) *Two or more families.* Solely for purposes of section 214 and this section, if two or more families occupy living quarters in common, each of such families will be treated as constituting a separate household, and the taxpayer who provides more than one-half of the costs of maintaining such a separate household will be treated as maintaining such household. Thus, for example, if two unrelated women each with children occupy living quarters in common and each woman pays more than one-half of her proportionate share of household costs incurred by both families, each woman will be treated as maintaining her separate household.

(3) *Costs of maintaining a household.* The cost of maintaining a household shall be the expenses incurred for the mutual benefit of the occupants thereof by reason of its operation as the principal place of abode of such occupants. The expenses of maintaining a household include property taxes, mortgage interest, rent, utility charges, upkeep and repairs, property insurance, and food consumed on the premises. Such expenses do not include the cost of clothing, education, medical treatment, vacations, life insurance, or transportation or payments on mortgage principal or for the purchase, permanent improvement, betterment, or replacement of property. However, the cost of maintaining a household shall not include any amount which represents the value of services performed in the household by the taxpayer or by a qualifying individual described in paragraph (b) of this section. Expenses incurred in respect of which money or other property is received as compensation or reimbursement may not be included as a cost of maintaining a household.

(4) *Monthly proration of annual costs.* In determining the cost incurred for a period of less than a taxable year in maintaining a household, the cost incurred during the entire taxable year must be prorated on the basis of the number of calendar months within such lesser period. For this purpose a period of less than a calendar month will be treated as a calendar month. Thus, for example, if the cost of maintaining a household for a taxable year is $6,600, and the period in respect of which a determination is being made under section 214 is from June 20 to December 31, the taxpayer must furnish more than $1,925 ([$6,600×7/12]×50%) in maintaining the household from June 1 to December 31.

(e) *Substantiation.* A taxpayer claiming a deduction under paragraph (a) of this section for employment-related expenses must substantiate by adequate records or other sufficient evidence any deductions taken under this section. For example, if requested, the taxpayer must furnish information as to the nature and period of the physical or mental incapacitation of any dependent or spouse in respect of whom a deduction is claimed, including necessary information from the attending physician as to the nature of the physical or mental incapacity.

[T.D. 7411, 41 FR 5405, Apr. 13, 1976, as amended by T.D. 7643, 44 FR 50337, Aug. 28, 1979]

§ 1.214A–2 Limitations on deductible amounts.

(a) *Overall monthly limitation of $400.* The deduction under section 214(a) and § 1.214A–1(a) for employment-related expenses is not allowed in respect of any such expenses in excess of $400 incurred during any one calendar month. For purposes of the limitation of $400, a period of less than a calendar month will be treated as a calendar month. Any amount by which employment-related expenses incurred during any calendar month exceed $400 may not be carried to another calendar month and used in determining the employment-related expenses incurred in such other calendar month. Thus, for example, if a taxpayer incurs employment-related expenses of $500 during each of the first 6 months of the taxable year and only $200 of such expenses during each of the last 6 months, the amount of his deduction for the payment during such taxable year of such expenses shall be limited by this paragraph to $3,600, consisting of $2,400 ($400×6) incurred during the first 6 months of the taxable year and $1,200 ($200×6) incurred during the last 6 months of the taxable year. The limitation provided by this paragraph must be applied after making the reduction in the amount of employment-related expenses provided by paragraph (a) of § 1.214A–3 (relating to disability payments) and after the application of the limitation upon the amount deductible provided by paragraph (b) of this section.

(b) *Restriction to expenses incurred for services in the household*—(1) *In general.* Except as otherwise provided in paragraph (b)(2) of this section, deduction shall be allowed under § 1.214 A–1(a) only for employment-related expenses incurred for services performed in the household of the taxpayer. Thus, for example, if a taxpayer places his invalid father in a nursing home, he is not entitled to deduct his employment-related expenses incurred for his father's care provided by the nursing home. If, however, the taxpayer's father remains in the home used as the household, the taxpayer is allowed to deduct his employment-related expenses attributable to the employment in the household of a nurse to care for his father.

(2) *Exception for certain expenses incurred outside the household.* A deduction shall be allowed under § 1.214A–1(a) for employment-related expenses incurred for services performed outside the household of the taxpayer only if such expenses are incurred for the care of one or more dependents of the taxpayer who are under the age of 15 and who are persons for whom the taxpayer is entitled to a deduction for a personal exemption under section 151(e). The amount of such expenses incurred during a calendar month for services performed outside the household of the taxpayer which may be deducted is limited to:

(i) $200, in the case of one such dependent,

(ii) $300, in the case of two such dependents, or

(iii) $400, in the case of three or more such dependents.

For purposes of the limitation under this subparagraph, a period of less than a calendar month will be treated as a calendar month. Any amount which is taken into account after the application of such limitation is also subject to the monthly limitation of $400 provided by paragraph (a) of this section.

(3) *Illustrations.* The application of this paragraph may be illustrated by the following examples:

Example 1. If during a calendar month a taxpayer incurs employment-related expenses of $150 for services performed within his household and $300 for services performed outside the household for the care of his child, age 5, the taxpayer is entitled to deduct only $350 of such expenses. In such case the $300 for services performed outside the household is limited to $200 by subparagraph (2) of this paragraph.

Example 2. If the facts are the same as in example (1) except that during the month the taxpayer incurs employment-related expenses of $250 for services performed within his household, the taxpayer is entitled to deduct only $400 of the total expenses incurred. In such case the total expenses incurred during the month which may be taken into account ($450) are limited to $400 by paragraph (a) of this section.

(c) *Taxpayer's income limitation*—(1) *In general.* This paragraph applies only if the adjusted gross income of the taxpayer for the taxable year exceeds the amount of $35,000, in the case of a taxable year beginning after March 29, 1975, and before January 1, 1976 (or the amount of $18,000 in the case of a taxable year beginning after December 31, 1971, and before March 30, 1975). In either case, in determining the deduction allowable under §1.214A–1(a) for employment-related expenses, the amount of such expenses incurred during any calendar month of the taxable year must be reduced by an amount equal to the excess of the adjusted gross income of the taxpayer for the taxable year over the applicable income limitation ($35,000 or $18,000 as the case may be) divided by twice the number of calendar months in the taxable year. For purposes of applying the taxpayer's income limitation a period of less than a calendar month will be treated as a calendar month. The limitation provided by this paragraph must be applied after making the reduction in the amount of employment-related expenses provided by paragraph (a) of §1.214A–3 and after the application of the limitations upon the amount deductible provided by paragraph (a) of §1.214A–3 and after the application of the limitations upon the amount deductible provided by paragraphs (a) and (b) of this section. The application of this subparagraph may be illustrated by the following examples:

Example 1. A, a single individual who uses the fiscal year ending March 31 as the taxable year, incurs (and pays) during May 1975 employment-related expenses of $600. He has adjusted gross income of $41,000 for the fiscal year ending March 31, 1976. Under these circumstances the amount of employment-related expenses for the month of May 1975 which may be taken into account under paragraph (a) of §1.214A–1 is $150, determined as follows:

Employment-related expenses incurred during May ($600, but not to exceed $400 under par. (a) of this section)	$400
Less: Reduction under this subparagraph:	
Adjusted gross income for taxable year	41,000
Less: Taxpayer's income limitation applicable to taxable year beginning after March 29, 1975	35,000
Excess adjusted gross income over income limitation	6,000
Excess divided by twice the number of calendar months in taxable year ($6,000+[2×12])	250
Employment-related expenses to be taken into account	150

Example 2. Assume the same facts as in example (1) except that A incurs employment-related expenses of only $200 during May 1975. Under these circumstances no amount of employment-related expenses may be taken into account for the month of May under paragraph (a) of §1.214A–1 because the expenses of $200 for the month are fully offset by the reduction of $250 required under this subparagraph.

Example 3. B, a single individual who uses the calendar year as the taxable year, incurs and pays during June, 1975, employment-related expenses of $500. On August 31, 1975, B dies. His adjusted gross income for the taxable year ending August 31 is $22,800. Under such circumstances the amount of employment-related expenses for the month of June which may be taken into account under paragraph (a) of §1.214A–1 is $100, determined as follows:

Employment-related expenses incurred during June ($500, but not to exceed $400 under par. (a) of this sec.)	$400
Less: Reduction under this subparagraph:	
Adjusted gross income for taxable year	22,800
Less: Taxpayer's income limitation applicable to taxable year beginning before March 30, 1975	18,000
Excess adjusted gross income over income limitation	4,800
Excess divided by twice the number of calendar months in taxable year ($4,800+[2×8])	300
Employment-related expenses to be taken into account	100

(2) *Marital status.* For purposes of paragraph (c)(1) of this section, the adjusted gross income of the taxpayer for his taxable year shall include the adjusted gross income of his spouse for such year if he is married for the entire taxable year. If the taxpayer is married during only a part of his taxable year, his adjusted gross income for the taxable year shall include the adjusted gross income of his spouse for only

such period within the taxable year during which he is married. Thus, if the taxpayer and his wife use the calendar year as the taxable year and the taxpayer's wife dies on May 15 and he does not remarry before the close of his taxable year, the adjusted gross income of the wife for the period from January 1 to May 15 must be included in applying the income limitation for the taxable year under section 214(d) and paragraph (c)(1) of this section. If, however, in such case the taxpayer were to remarry on October 15 of his taxable year and file a single return jointly with the second wife, the adjusted gross income of the first wife for the period from January 1 to May 15 and the adjusted gross income of the second wife for the period from October 15 to December 31 must be included in applying the income limitation for the taxable year under paragraph (c)(1) of this section.

[T.D. 7411, 41 FR 15407, Apr. 13, 1976, as amended by T.D. 7643, 44 FR 50337, Aug. 28, 1979]

§ 1.214A–3 Reduction of expenses for certain disability payments and adjusted gross income.

(a) *Amount of reduction.* This section applies only if the taxpayer incurs employment-related expenses during a taxable year solely attributable to a qualifying individual who is either a dependent (other than a dependent described in § 1.214A–1(b)(1)(i)) of the taxpayer or a spouse of the taxpayer and who is physically or mentally incapable of caring for himself. The amount of such expenses, which may be taken into account under section 214 shall be reduced:

(1) In the case of such expenses attributable to a dependent who is physically or mentally incapable of caring for himself, by the excess, if any, over $750 of the sum of (i) such dependent's adjusted gross income for such taxable year and (ii) the disability payments (as defined in paragraph (b) of this section) he receives during such year, and

(2) In the case of such expenses attributable to a spouse who is physically or mentally incapable of caring for himself, by the disability payments (as defined in paragraph (b) of this section) such spouse receives during such taxable year.

The reduction so required must be made on the basis of a calendar month. Thus, the employment-related expenses attributable to a spouse which are incurred during any calendar month of the taxable year must be reduced by an amount equal to the disability payments received by the spouse during such taxable year divided by the number of calendar months therein during which such employment-related expenses are incurred. Further, the employment-related expenses attributable to a dependent which are incurred during any calendar month of the taxable year must be reduced by an amount equal to the excess described in paragraph (a)(1) of this section divided by the number of calendar months therein during which such employment-related expenses are incurred. For purposes of this reduction, a period of less than a calendar month will be treated as a calendar month. The reduction is not required to be made in respect of any employment-related expenses solely attributable to a dependent under the age of 15 for whom the taxpayer is entitled to a deduction for a personal exemption under section 151(e). The reduction required by this paragraph must be made before applying the limitations under section 214 (c) and (d) and § 1.214A–2 for the taxable year. The application of this paragraph may be illustrated by the following examples:

Example 1. A, a taxpayer who uses the calendar year as the taxable year, incurs $250 of employment-related expenses during each month of 1972 for services within his household. B, his wife, is physically incapable of caring for herself. During 1972, B receives total disability payments of $1,200, consisting of a lump-sum disability payment of $300 received in June and disability payments of $75 received each month. Under such circumstances, A may take into account $150 of his employment-related expenses for each month of 1972, determined as follows:

Employment-related expenses attributable to B incurred during each month	$250
Less: Disability payments received by B in 1972 divided by number of calendar months in 1972 during which employment-related expenses attributable to B are incurred ($1,200÷12)	100
Employment-related expenses to be taken into account	150

Example 2. B, a single individual who uses the calendar year as the taxable year, incurs

$200 of employment-related expenses during each month of 1972 for services within his household. C, his son aged 15, is physically incapable of caring for himself. During 1972, C receives total disability payments of $1,200, consisting of a lump-sum disability payment of $300 received in June and disability payments of $75 received each month. For 1972, C has adjusted gross income of $1,050. Under such circumstances, B may take into account $75 of his employment-related expenses for each month of 1972, determined as follows:

Employment-related expenses attributable to C incurred during each month	$200
Less: Reduction under this paragraph:	
C's adjusted gross income for 1972	1,050
Disability payments received by C in 1972	1,200
Total	2,250
Less: Income limitation	750
Excess under subparagraph (1) of this paragraph	1,500
Excess divided by number of calendar months in 1972 during which employment-related expenses attributable to C are incurred ($1,500÷12)	125
Employment-related expenses to be taken into account	75

Example 3. H, a taxpayer who uses the calendar year as the taxable year, incurs employment-related expenses attributable to W, his wife, during five months of 1972, including $350 for the month of July, for services within his household. W, who is physically incapable of caring for herself, receives during 1972 total disability payments of $625. Under such circumstances, H may take into account $225 of his employment-related expenses for July, determined as follows:

Employment-related expenses attributable to W incurred during July	$350
Less: Disability payments received by W in 1972 divided by number of calendar months in 1972 during which employment-related expenses attributable to W are incurred ($625÷5)	125
Employment-related expenses to be taken into account	225

Example 4. S, a single individual who uses the calendar year as the taxable year, incurs and pays during 1972 $450 of employment-related expenses attributable to P, his father, for each of the six months during which his father is incapacitated. During 1972, P receives adjusted gross income of $1,266, a gift of $300, and a disability payment of $55 for each month of disability. During 1972 S receives adjusted gross income of less than $18,000. Under such circumstances, S may deduct $1,854 for 1972 under section 214, determined as follows:

Employment-related expenses attributable to P incurred during each month of his incapacity	$450
Less: Reduction under this paragraph:	
P's adjusted gross income for 1972	1,266
Disability payments received by P in 1972	330
Total	1,596
Less: Income limitation	750
Excess under subparagraph (1) of this paragraph	846
Excess divided by number of calendar months in 1972 during which employment-related expenses attributable to P are incurred ($846÷6)	141
Employment-related expenses to be taken into account for each month of P's incapacity	309
Deduction for 1972 ($309×6)	1,854

(b) *Disability payment defined.* For purposes of paragraph (a) of this section, the term *disability payment* means any payment not includible in gross income which is made on account of the physical or mental incapacity of an individual. A disability payment may include social security payments, State or local payments, private disability insurance payments, or payments from a private person on account of a civil wrong, if attributable to the mental or physical disability of the individual. Gifts are not considered to be disability payments for purposes of this paragraph.

(c) *Expenses not solely attributable.* An employment-related expense which is not solely attributable to a qualifying individual to whom paragraph (a) (1) or (2) of this section applies shall not be reduced under this section. Thus, for example, if household expenses are incurred with respect to a qualifying individual to whom paragraph (a) (1) or (2) of this section applies and also with respect to a qualifying dependent under the age of 15, such expenses shall not be considered to be solely attributable to a qualifying individual to whom paragraph (a) (1) or (2) of this section applies, and such expenses shall not be reduced under this section. The application of this paragraph may be illustrated by the following examples:

Example 1. A taxpayer has a child, aged 6, and his spouse is physically incapable of caring for herself. During the taxable year he incurs employment-related expenses of $500 solely attributable to the care of the child, of $1,000 solely attributable to the care of his spouse, and of $1,500 for household services attributable to both the child and spouse. Of the taxpayer's total employment-related expenses of $3,000, only the $1,000 solely attributable to his spouse must be reduced as provided in paragraph (a) of this section.

Example 2. A taxpayer has a dependent, aged 15, and a spouse both of whom are physically incapable of caring for themselves. During the taxable year he incurs employment-related expenses of $500 solely attributable to the care of the dependent, of $1,000 solely attributable to the care of his spouse, and of $1,500 for household services equally attributable to both the dependent and spouse. The $1,500 of household expenses must be allocated one-half to the dependent and one-half to the spouse. Accordingly, employment-related expenses of $1,250 are attributable to the dependent, and employment-related expenses of $1,750 are attributable to the spouse. The expenses attributable to each must be reduced as provided in paragraph (a) of this section.

(d) *Ordering of reductions and limitations.* For purposes of determining the amount of employment-related expenses which may be taken into account under section 214, the employment-related expenses incurred by the taxpayer during any calendar month of the taxable year are first to be reduced by the amount of reduction determined under section 214(e)(5) and paragraph (a) (1) or (2) of this section in respect of disability payments and adjusted gross income, then by the outside-of-household limitation prescribed by section 214(c)(2)(B) and § 1.214A–2(b)(2), then by the overall monthly limitation of $400 prescribed by section 214(c)(1) and § 1.214A–2(a), and finally by the taxpayer's income limitation ($35,000 or $18,000, as the case may be) prescribed by section 214(d) and § 1.214A–2(c), in that order. The application of this subparagraph may be illustrated by the following examples:

Example 1. The taxpayer's wife is physically incapable of caring for herself. He incurs employment-related expenses of $1,000 during the calendar month for services within the household. Disability payments of the wife applicable to such month under paragraph (a)(2) of this section amount to $350. The taxpayer's excess adjusted gross income (over the taxpayer's income limitation) applicable to such month under § 1.214A–2(c)(1) amounts to $300. Under such circumstances, the amount of employment-related expenses for such month which may be taken into account for purposes of section 214 is $100, determined as follows:

Employment-related expenses	$1,000
Less: Reduction under paragraph (a)(2) of this section	350
Balance	650
Application of limitation under § 1.214A–2(a) (employment-related expenses of $650, but not to exceed $400)	400
Less: Reduction under § 1.214A–2(c)(1)	300
Employment-related expenses to be taken into account	100

Example 2. The taxpayer's child, aged 15, is physically incapable of caring for himself the taxpayer incurs employment-related expenses of $487 duing June for services within the household. The excess of the adjusted gross income and disability payments of the dependent child for the taxable year (over the $750 limitation) applicable to June under paragraph (a)(1) of this section amounts to $112. The taxpayer's excess adjusted gross income (over the taxpayer's income limitation) applicable to June under § 1.214A–2(c)(1) amounts to $125. Under such circumstances, the amount of employment-related expenses for June which may be taken into account for purposes of section 214 is $250, determined as follows:

Employment-related expenses	$487
Less: Reduction under paragraph (a)(1) of this section	112
Balance	375
Less: Reduction under § 1.214A–2(c)(1)	125
Employment-related expenses to be taken into account	250

[T.D. 7411, 41 FR 15408, Apr. 13, 1976]

§ 1.214A–4 Special rules applicable to married individuals.

(a) *Joint return requirement.* This section applies only if the taxpayer is married at the close of a taxable year in which employment-related expenses are paid. In such a case the deduction provided by section 214(a) and § 1.214A–1(a) for such expenses shall be allowed only if for such taxable year the taxpayer files a single return jointly with his spouse. If either spouse dies during the taxable year and a joint return may be made for such year under section 6013(a)(2) for the survivor and the deceased spouse, the deduction shall be allowed for such year only if a joint return is made. If, however, the surviving spouse remarries before the end of his taxable year in which his first spouse dies, a deduction is allowed under section 214(a) on the separate return which is made for the decedent spouse. For purposes of this section, certain married individuals living apart are treated as not married, as provided in paragraph (c) of this section.

(b) *Gainful employment requirement*—(1) *In general.* The employment-related expenses incurred during any month of any period within the taxable year of a taxpayer who is married for such period shall be taken into account under section 214(a) and §1.214A–1(a) only if both the taxpayer and his spouse are gainfully employed on a substantially full-time basis or are in active search of gainful employment on a substantially full-time basis, or if his spouse is physically or mentally incapable of caring for herself. For such purposes, an individual is considered to be gainfully employed on a substantially full-time basis if he is employed for three-quarters or more of the normal or customary work week (or the equivalent on the average during a month).

(2) *Determination of qualifying periods on a daily basis.* For purposes of this paragraph, the determination as to whether an individual is gainfully employed on a substantially full-time basis shall be made on a daily basis in accordance with the provisions of paragraph (c)(1)(ii) of §1.214A–1, and the determination as to whether a spouse is physically or mentally incapable of caring for himself shall be made on a daily basis in accordance with paragraph (b)(2) of such section. Thus, for example, if a taxpayer is gainfully employed throughout the taxable year on a substantially full-time basis but his spouse ceases on August 17 of such year to be employed on a substantially full-time basis and on November 16 of the same year becomes physically or mentally incapable of caring for herself, an allocation must be made to determine the period ending on August 17 during which both spouses are gainfully employed on a substantially full-time basis, and the incapacitated spouse is to be treated as a qualifying individual described in section 214(b)(1)(C) only for the period commencing with November 16. Employment-related expenses incurred from August 18 through November 15 may not be taken into account since only one spouse is gainfully employed on a substantially full-time basis during such period and the other spouse is not physically or mentally incapable of caring for herself during such period.

(c) *Certain married individuals living apart.* For purposes of section 214 an individual who for his taxable year would be treated as not married under section 143(a)(2), or would be treated as not married under section 143(b) if paragraph (1) of such section referred to any dependent of the taxpayer (and not simply to a son, stepson, daughter, or stepdaughter of such individual), shall be treated as not married for such taxable year. Thus, an individual who is married within the meaning of section 143(a) will be treated as not married for his entire taxable year for purposes of section 214, if:

(1) He files a separate return for such year,

(2) He maintains as his home a household which constitutes for more than one-half of such year the principal place of abode of one or more of his dependents with respect to whom he is entitled to a deduction under section 151 for such year,

(3) He furnishes over one-half of the cost of maintaining such household for such year, and

(4) His spouse is not a member of such household for any part of such year.

Thus, for example, an individual who is married during the taxable year and is living apart from his spouse, but is not legally separated under a decree of divorce or separate maintenance, may, if he is treated as not married by reason of this paragraph, determine the limitation upon the amount of his employment-related expenses without taking into account the adjusted gross income of his spouse under §1.214A–2(c)(2), without complying with the requirement under paragraph (a) of this section for filing a joint return with his spouse, and without complying with the requirement under paragraph (b) of this section that his spouse be gainfully employed. The principles of §1.143–1(b) shall apply in making determinations under this paragraph.

[T.D. 7411, 41 FR 15409, Apr. 13, 1976]

§ 1.214A–5 Other special rules relating to employment-related expenses.

(a) *Payments to related individuals.* No deduction will be allowed under section 214(a) and § 1.214A–1(a) for the amount of any employment-related expenses paid by the taxpayer to an individual who bears to the taxpayer any relationship described in section 152(a) (1) through (8). These relationships are those of a son or daughter or descendant thereof; a stepson or stepdaughter; a brother, sister, stepbrother, or stepsister; a father or mother or an ancestor of either; a stepfather or stepmother; a nephew or niece; an uncle or aunt; or a son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law. In addition, no deduction will be allowed under section 214(a) for the amount of any employment-related expenses paid by the taxpayer to an individual who qualifies as a dependent of the taxpayer for the taxable year within the meaning of section 152(a)(9), which relates to an individual (other than the taxpayer's spouse) whose principal place of abode for the taxable year is the home of the taxpayer and who is a member of the taxpayer's household.

(b) *Expenses qualifying as medical expenses.* An expense which may constitute an amount otherwise deductible under section 213, relating to medical, etc., expenses, may also constitute an expense for which a deduction is allowable under section 214(a) and § 1.214A–1(a). In such a case, that part of the amount for which a deduction is allowed under section 214(a) will not be considered as an expense allowable as a deduction under section 213. On the other hand, where an amount is treated as a medical expense under section 213 for purposes of determining the amount deductible under that section, it may not be treated as an employment-related expense for purposes of section 214. The application of this paragraph may be illustrated by the following examples:

Example 1. A Taxpayer pays $520 of employment-related expenses in the taxable year for the care of his child during one month of such year when the child is physically incapable of caring for himself. These expenses are incurred for services performed in the taxpayer's household and are of a nature which qualify as medical expenses under section 213. The taxpayer's adjusted gross income for the taxable year is $5,000. Of the total expenses, the taxpayer may take $400 into account under section 214; the balance of the expenses, or $120, may be treated as medical expenses to which section 213 applies. However, this amount does not exceed 3 percent of the taxpayer's adjusted gross income for the taxable year and is thus not allowable as a deduction under section 213.

Example 2. Assume the same facts as in *Example (1).* In such case it is not proper for the taxpayer first to determine under section 213 his deductible medical expenses of $370 ($520—[$5,000×3%]) and then claim the $150 balance as employment-related expenses for purposes of section 214. This result is reached because the $150 balance has been treated as a medical expense in determining the amount deductible under section 213.

Example 3. A taxpayer incurs and pays $1,000 of employment-related expenses each month during the taxable year for the care of his child. These expenses are incurred for services performed in the taxpayer's household, and they also qualify as medical expenses under section 213. The taxpayer's adjusted gross income for the taxable year is $18,000. No reduction in the amount of the expenses is required under § 1.214A–3, and the taxpayer takes $4,800 ($400×12) of such expenses into account under section 214. The balance, or $7,200, he treats as medical expenses for purposes of section 213. The allowable deduction under section 213 for such expenses is limited to the excess of such balance of $7,200 over $540 (3 percent of the taxpayer's adjusted gross income of $18,000), or $6,600.

[T.D. 7411, 41 FR 15410, Apr. 13, 1976]

§ 1.215–1 Periodic alimony, etc., payments.

(a) A deduction is allowable under section 215 with respect to periodic payments in the nature of, or in lieu of, alimony or an allowance for support actually paid by the taxpayer during his taxable year and required to be included in the income of the payee wife or former wife, as the case may be, under section 71. As to the amounts required to be included in the income of such wife or former wife, see section 71 and the regulations thereunder. For definition of *husband* and *wife* see section 7701(a) (17).

(b) The deduction under section 215 is allowed only to the obligor spouse. It is not allowed to an estate, trust, corporation, or any other person who may pay the alimony obligation of such obligor spouse. The obligor spouse, however, is not allowed a deduction for any periodic payment includible under section 71 in the income of the wife or former wife, which payment is attributable to property transferred in discharge of his obligation and which, under section 71(d) or section 682, is not includible in his gross income.

(c) The following examples, in which both H and W file their income tax returns on the basis of a calendar year, illustrate cases in which a deduction is or is not allowed under section 215:

Example 1. Pursuant to the terms of a decree of divorce, H, in 1956, transferred securities valued at $100,000 in trust for the benefit of W, which fully discharged all his obligations to W. The periodic payments made by the trust to W are required to be included in W's income under section 71. Such payments are stated in section 71(d) not to be includible in H's income and, therefore, under section 215 are not deductible from his income.

Example 2. A decree of divorce obtained by W from H incorporated a previous agreement of H to establish a trust, the trustees of which were instructed to pay W $5,000 a year for the remainder of her life. The court retained jurisdiction to order H to provide further payments if necessary for the support of W. In 1956 the trustee paid to W $4,000 from the income of the trust and $1,000 from the corpus of the trust. Under the provisions of sections 71 and 682(b), W would include $5,000 in her income for 1956. H would not include any part of the $5,000 in his income nor take a deduction therefor. If H had paid the $1,000 to W pursuant to court order rather than allowing the trustees to pay it out of corpus, he would have been entitled to a deduction of $1,000 under the provisions of section 215.

(d) For other examples, see sections 71 and 682 and the regulations thereunder.

§1.215–1T Alimony, etc., payments (temporary).

Q–1 What information is required by the Internal Revenue Service when an alimony or separate maintenance payment is claimed as a deduction by a payor?

A–1 The payor spouse must include on his/her first filed return of tax (Form 1040) for the taxable year in which the payment is made the payee's social security number, which the payee is required to furnish to the payor. For penalties applicable to a payor spouse who fails to include such information on his/her return of tax or to a payee spouse who fails to furnish his/her social security number to the payor spouse, see section 6676.

(98 Stat. 798, 26 U.S.C. 1041(d)(4); 98 Stat. 802, 26 U.S.C. 152(e)(2)(A); 98 Stat. 800, 26 U.S.C. 215(c); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7973, 49 FR 34458, Aug. 31, 1984]

§1.216–1 Amounts representing taxes and interest paid to cooperative housing corporation.

(a) *General rule.* A tenant-stockholder of a cooperative housing corporation may deduct from his gross income amounts paid or accrued within his taxable year to a cooperative housing corporation representing his proportionate share of:

(1) The real estate taxes allowable as a deduction to the corporation under section 164 which are paid or incurred by the corporation before the close of the taxable year of the tenant-stockholder on the houses (or apartment building) and the land on which the houses (or apartment building) are situated, or

(2) The interest allowable as a deduction to the corporation under section 163 which is paid or incurred by the corporation before the close of the taxable year of the tenant-stockholder on its indebtedness contracted in the acquisition, construction, alteration, rehabilitation, or maintenance of the houses (or apartment building), or in the acquisition of the land on which the houses (or apartment building) are situated.

(b) *Limitation.* The deduction allowable under section 216 shall not exceed the amount of the tenant-stockholder's proportionate share of the taxes and interest described therein. If a tenant-stockholder pays or incurs only a part of his proportionate share of such taxes and interest to the corporation, only the amount so paid or incurred which represents taxes and interest is allowable as a deduction under section 216. If a tenant-stockholder pays an amount, or incurs an obligation for an amount, to the corporation on account of such taxes and interest and other items, such as maintenance, overhead expenses, and reduction of mortgage indebtedness, the amount representing such taxes and interest is an amount which bears the same ratio to the total amount of the tenant-stockholder's payment or liability, as the case may be, as the total amount of the tenant-stockholder's proportionate share of such taxes and interest bears to the total amount of the tenant-stockholder's proportionate share of the taxes, interest, and other items on account of which such payment is made or liability incurred. No deduction is allowable under section 216 for that part of amounts representing the taxes or interest described in that section which are deductible by a tenant-stockholder under any other provision of the Code.

(c) *Disallowance of deduction for certain payments to the corporation.* For taxable years beginning after December 31, 1986, no deduction shall be allowed to a stockholder during any taxable year for any amount paid or accrued to a cooperative housing corporation (in excess of the stockholder's proportionate share of the items described in paragraphs (a) (1) and (2) of this section) which is allocable to amounts that are paid or incurred at any time by the cooperative housing corporation and which is chargeable to the corporation's capital account. Examples of expenditures chargeable to the corporation's capital account include the cost of paving a community parking lot, the purchase of a new boiler or roof, and the payment of the principal of the corporation's building mortgage. The adjusted basis of the stockholder's stock in such corporation shall be increased by the amount of such disallowance. This paragraph may be illustrated by the following example:

Example The X corporation is a cooperative housing corporation within the meaning of section 216. In 1988 X uses $275,000 that it received from its shareholders in such year to purchase and place in service a new boiler. The $275,000 will be chargeable to the corporation's capital account. A owns 10% of the shares of X and uses in a trade or business the dwelling unit appurtenant to A's shares and was responsible for paying 10% of the cost of the boiler. A is thus responsible for $27,500 of the cost of the boiler, which amount A will not be able to deduct currently. A will, however, add the $27,500 to A's basis for A's shares in X.

(d) *Tenant-stockholder's proportionate share*—(1) *General rule.* The tenant-stockholder's proportionate share is that proportion which the stock of the cooperative housing corporation owned by the tenant-stockholder is of the total outstanding stock of the corporation, including any stock held by the corporation. For taxable years beginning after December 31, 1969, if the cooperative housing corporation had issued stock to a governmental unit, as defined in paragraph (g) of this section, then in determining the total outstanding stock of the corporation, the governmental unit shall be deemed to hold the number of shares that it would have held, with respect to the apartments or houses it is entitled to occupy, if it had been a tenant-stockholder. That is, the number of shares the governmental unit is deemed to hold is determined in the same manner as if stock had been issued to it as a tenant-stockholder. For example, if a cooperative housing corporation requires each tenant-stockholder to buy one share of stock for each one thousand dollars of value of the apartment he is entitled to occupy, a governmental unit shall be deemed to hold one share of stock for each one thousand dollars of value of the apartments it is entitled to occupy, regardless of the number of shares formally issued to it.

(2) *Special rule*—(i) *In general.* For taxable years beginning after December 31, 1986, if a cooperative housing corporation allocates to each tenant-stockholder a portion of the real estate taxes or interest (or both) that reasonably reflects the cost to the corporation of the taxes or interest attributable to each tenant-stockholder's dwelling unit (and the unit's share of the common areas), the cooperative housing corporation may elect to treat the amounts so allocated as the tenant-stockholders' proportionate shares.

(ii) *Time and manner of making election.* The election referred to in paragraph (d)(2)(i) of this section is effective only if, by January 31 of the year following the first calendar year that includes any period to which the election applies, the cooperative housing corporation furnishes to each person that is a tenant-stockholder during that period a written statement showing the amount of real estate taxes or interest (or both) allocated to the tenant-stockholder with respect to the tenant-stockholder's dwelling unit or units and share of common areas for that period. The election must be made by attaching a statement to the corporation's timely filed tax return (taking extensions into account) for the first taxable year for which the election is to be effective. The statement must contain the name, address, and taxpayer identification number of the cooperative housing corporation, identify the election as an election under section 216(b)(3)(B)(ii) of the Code, indicate whether the election is being made with respect to the allocation of real estate taxes or interest (or both), and include a description of the method of allocation being elected. The election applies for the taxable year and succeeding taxable years. It is revocable only with the consent of the Commissioner and will be binding on all tenant-stockholders.

(iii) *Reasonable allocation.* It is reasonable to allocate to each tenant-stockholder a portion of the real estate taxes or interest (or both) that bears the same ratio to the cooperative housing corporation's total interest or real estate taxes as the fair market value of each dwelling unit (including the unit's share of the common areas) bears to the fair market value of all the dwelling units with respect to which stock is outstanding (including stock held by the corporation) at the time of allocation. If real estate taxes are separately assessed on each dwelling unit by the relevant taxing authority, an allocation of real estates taxes to tenant-stockholders based on separate assessments is a reasonable allocation. If one or more of the tenant-stockholders prepays any portion of the principal of the indebtedness and gives rise to interest, an allocation of interest to those tenant-stockholders will be a reasonable allocation of interest if the allocation is reduced to reflect the reduction in the debt service attributable to the prepayment. In addition, similar kinds of allocations may also be reasonable, depending on the facts and circumstances.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example 1. The X Corporation is a cooperative housing corporation within the meaning of section 216. In 1970, it acquires a building containing 40 category A apartments and 25 category B apartments, for $750,000. The value of each category A apartment is $12,500, and of each category B apartment is $10,000. X values each share of stock issued with respect to the category A apartments at $125, and sells 4,000 shares of its stock, along with the right to occupy the 40 category A apartments, to 40 tenant-stockholders for $500,000. X also sells 1,000 shares of nonvoting stock to G, a State housing authority qualifying as a governmental unit under paragraph (f) of this section, for $250,000. The purchase of this stock gives G the right to occupy all the category B apartments. G is deemed to hold the number of shares that it would have held if it had been a tenant-stockholder. G is therefore deemed to own 2,000 shares of stock of X. All stockholders are required to pay a specified part of the corporation's expenses. F, one of the tenant-stockholders, purchased 100 shares of the category A stock for $12,500 in order to obtain a right to occupy a category A apartment. Since there are 6,000 total shares deemed outstanding, F's proportionate share is 1/60 (100/6,000).

Example 2. The X Corporation is a cooperative housing corporation within the meaning of section 216. In 1960 it acquired a housing development containing 100 detached houses, each house having the same value. X issued one share of stock to each of 100 tenant-stockholders, each share carrying the right to occupy one of the houses. In 1971 X redeemed 40 of its 100 shares. It then sold to G, a municipal housing authority qualifying as a governmental unit under paragraph (f) of this section, 1,000 shares of preferred stock and the right to occupy the 40 houses with respect to which the stock had been redeemed. X sold the preferred stock to G for an amount equal to the cost of redeeming the 40 shares. G also agreed to pay 40 percent of X's expenses. For purposes of determining the total stock which X has outstanding, G is deemed to hold 40 shares of X.

Example 3. The X Corporation is a cooperative housing corporation within the meaning of section 216. In 1987, it acquires for $1,000,000 a building containing 10 category A apartments, 10 category B apartments, and 10 category C apartments. The value of each category A apartment is $20,000, of each category B apartment is $30,000 and of each category C apartment is $50,000. X issues 1 share of stock to each of the 30 tenant-stockholders, each share carrying the right to occupy one of the apartments. X allocates the real estate taxes and interest to the tenant-stockholders on the basis of the fair market value of their respective apartments. Since the total fair market value of all of the apartments is $1,000,000, the allocation of taxes and interest to each tenant-stockholder that has the right to occupy a category A apartment is 2/100 ($20,000/$1,000,000). Similarly, the allocation of taxes and interest to each tenant-stockholder who has a right to occupy a category B apartment is 3/100 ($30,000/$1,000,000) and of a category C apartment is 5/100 ($50,000/$1,000,000). X may elect in accordance with the rules described in paragraph (d)(2) of this section to treat the amounts so allocated as each tenant-stockholder's proportionate share of real estate taxes and interest.

Example 4. The Y Corporation is a cooperative housing corporation within the meaning of section 216. In 1987, it acquires a housing development containing 5 detached houses for $1,500,000, incurring an indebtedness of $1,000,000 for the purchase of the property. Each house is valued at $300,000, although the shares appurtenant to those houses have been sold to tenant-stockholders for $100,000. Y issues one share of stock to each of the five tenant-stockholders, each share carrying the right to occupy one of the houses. A, a tenant-stockholder, prepays all of the corporation's indebtedness allocable to A's house. The periodic charges payable to Y by A are reduced commensurately with the reduction in Y's debt service. Because no part of the indebtedness remains outstanding with respect to A's house, A's share of the interest expense is $0. The other four tenant-stockholders do not prepay their share of the indebtedness. Accordingly, 1/4 of the interest is allocated to each of the tenant-stockholders other than A. Y may elect in accordance with the rules described in paragraph (d)(2) of this section to treat the amounts so allocated as each tenant-stockholder's proportionate share of interest.

Example 5. The Z Corporation is a cooperative housing corporation within the meaning of section 216. In 1987, it acquires a building containing 10 apartments. One of the apartments is occupied by a senior citizen. Under local law, a senior citizen who owns and occupies a residential apartment is entitled to a $500 reduction in local property taxes assessed upon the apartment. As a result, Z corporation is eligible under local law for a reduction in local property taxes assessed upon the building. Z's real estate tax assessment for the year would have been $10,000, however, with the senior citizen reduction, the assessment is $9,500. The proprietary lease provides for a reduced maintenance fee to the senior citizen tenant-stockholder in accordance with the real estate tax reduction. Accordingly, each apartment owner is assessed $1,000 for local real estate taxes, except the senior citizen tenant-stockholder, who is assessed $500. Z may elect in accordance with the rules described in paragraph (d)(2) of this section to treat the amounts so allocated as each tenant-stockholder's proportionate share of taxes.

(e) *Cooperative housing corporation.* In order to qualify as a ‘‘cooperative housing corporation’’ under section 216, the requirements of subparagraphs (1) through (4) of this paragraph must be met.

(1) *One class of stock.* The corporation shall have one and only one class of stock outstanding. However, a special classification of preferred stock, in a nominal amount not exceeding $100, issued to a Federal housing agency or other governmental agency solely for the purpose of creating a security device on the mortgage indebtedness of the corporation, shall be disregarded for purposes of determining whether the corporation has one class of stock outstanding and such agency will not be considered a stockholder for purposes of section 216 and this section. Furthermore, for taxable years beginning after December 31, 1969, a special class of stock issued to a governmental unit, as defined in paragraph (g) of this section, shall also be disregarded for purposes of this paragraph in determining whether the corporation has one class of stock outstanding.

(2) *Right of occupancy.* Each stockholder of the corporation, whether or not the stockholder qualifies as a tenant-stockholder under section 216(b)(2) and paragraph (f) of this section, must be entitled to occupy for dwelling purposes an apartment in a building or a unit in a housing development owned or leased by such corporation. The stockholder is not required to occupy the premises. The right as against the corporation to occupy the premises is sufficient. Such right must be conferred on each stockholder solely by reasons of his or her ownership of stock in the corporation. That is, the stock must entitle the owner thereof either to occupy the premises or to a lease of the premises. The fact that the right to continue to occupy the premises is dependent upon the payment of charges to the corporation in the nature of rentals or assessments is immaterial.

For taxable years beginning after December 31, 1986, the fact that, by agreement with the cooperative housing corporation, a person or his nominee may not occupy the house or apartment without the prior approval of such corporation will not be taken into account for purposes of this paragraph in the following cases.

(i) In any case where a person acquires stock of the cooperative housing corporation by operation of law, by inheritance, or by foreclosure (or by instrument in lieu of foreclosure),

(ii) In any case where a person other than an individual acquires stock in the cooperative housing corporation, and

(iii) In any case where the person from whom the corporation has acquired the apartments or houses (or leaseholds therein) acquires any stock of the cooperative housing corporation from the corporation not later than one year after the date on which the apartments or houses (or leaseholds therein) are transferred to the corporation by such person. For purposes of the preceding sentence, paragraphs (e)(2) (i) and (ii) of this section will not apply to acquisitions of stock by foreclosure by the person from whom the corporation has acquired the apartments or houses (or leaseholds therein).

(3) *Distributions.* None of the stockholders of the corporation may be entitled, either conditionally or unconditionally, except upon a complete or partial liquidation of the corporation, to receive any distribution other than out of earnings and profits of the corporation.

(4) *Gross income.* Eighty percent or more of the gross income of the corporation for the taxable year of the corporation in which the taxes and interest are paid or incurred must be derived from the tenant-stockholders. For purposes of the 80-percent test, in taxable years beginning after December 31, 1969, gross income attributable to any house or apartment which a governmental unit is entitled to occupy, pursuant to a lease or stock ownership, shall be disregarded.

(f) *Tenant-stockholder.* The term *tenant-stockholder* means a person that is a stockholder in a cooperative housing corporation, as defined in section 216(b)(1) and paragraph (e) of this section, and whose stock is fully paid up in an amount at least equal to an amount shown to the satisfaction of the district director as bearing a reasonable relationship to the portion of the fair market value, as of the date of the original issuance of the stock, of the corporation's equity in the building and the land on which it is situated that is attributable to the apartment or housing unit which such person is entitled to occupy (within the meaning of paragraph (e)(2) of this section). Notwithstanding the preceding sentence, for taxable years beginning before January 1, 1987, tenant-stockholders include only individuals, certain lending institutions, and certain persons from whom the cooperative housing corporation has acquired the apartments or houses (or leaseholds thereon).

(g) *Governmental unit.* For purposes of section 216(b) and this section, the term *governmental unit* means the United States or any of its possessions, a State or any political subdivision thereof, or any agency or instrumentality of the foregoing empowered to acquire shares in a cooperative housing corporation for the purpose of providing housing facilities.

(h) *Examples.* The application of section 216(a) and (b) and this section may be illustrated by the following examples, which refer to apartments but which are equally applicable to housing units:

Example 1. The X Corporation is a cooperative housing corporation within the meaning of section 216. In 1970, at a total cost of $200,000, it purchased a site and constructed thereon a building with 15 apartments. The fair market value of the land and building was $200,000 at the time of completion of the building. The building contains five category A apartment units, each of equal value, and 10 category B apartment units. The total value of all of the category A apartment units is $100,000. The total value of all of the category B apartments is also $100,000. Upon completion of the building, the X Corporation mortgaged the land and building for $100,000, and sold its total authorized capital stock for $100,000. The stock attributable to the category A apartments was purchased by five individuals, each of whom paid $10,000 for 100 shares, or $100 a share. Each certificate for 100 shares of such stock provides that the holder thereof is entitled to a lease of a particular apartment in the building for a specified term of years. The stock attributable to the category B apartments was purchased by a governmental unit for $50,000. Since the shares sold to the tenant-stockholders are valued at $100 per share, the governmental unit is deemed to hold a total of 500 shares. The certificate of such stock provides that the governmental unit is entitled to a lease of all of the category B apartments. All leases provide that the lessee shall pay his proportionate part of the corporation's expenses. In 1970 the original owner of 100 shares of stock attributable to the category A apartments and to the lease to apartment No. 1 made a gift of the stock and lease to A, an individual. The taxable year of A and of the X Corporation is the calendar year. The corporation computes its taxable income on an accrual method, while A computes his taxable income on the cash receipts and disbursements method. In 1971, the X Corporation incurred expenses aggregating $13,800, including $4,000 for the real estate taxes on the land and building, and $5,000 for the interest on the mortgage. In 1972, A pays the X Corporation $1,380, representing his proportionate part of the expenses incurred by the corporation. The entire gross income of the X Corporation for 1971 was derived from the five tenant-stockholders and from the governmental unit. A is entitled under section 216 to a deduction of $900 in computing his taxable income for 1972. The deduction is computed as follows:

Shares of X Corporation owned by A		100
Shares of X Corporation owned by four other tenant-stockholders		400
Shares of X Corporation deemed owned by governmental unit		500
Total shares of X Corporation outstanding		1,000
A's proportionate share of the stock of X Corporation (100/1,000)		1/10
Expenses incurred by X Corporation:		
Real estate taxes	$4,000	
Interest	5,000	
Other	4,800	
Total		$13,800
Amount paid by A		1,380
A's proportionate share of real estate taxes and interest based on his stock ownership (1/10 of $9,000)		$900
A's proportionate share of total corporate expenses based on his stock ownership (1/10 of $13,800)		1,380
Amount of A's payment representing real estate taxes and interest (900/1,380 of $1,380)		$900
A's allowable deduction		$900

Since the stock which A acquired by gift was fully paid up by his donor in an amount equal to the portion of the fair market value, as of the date of the original issuance of the stock, of the corporation's equity in the land and building which is attributable to apartment No. 1, the requirement of section 216 in this regard is satisfied. The fair market value at the time of the gift of the corporation's equity attributable to the apartment is immaterial.

Example 2. The facts are the same as in *Example (1)* except that the building constructed by the X Corporation contained, in addition to the 15 apartments, business space on the ground floor, which the corporation rented at $2,400 for the calendar year 1971. The corporation deducted the $2,400 from its expenses in determining the amount of the expenses to be prorated among its tenant-stockholders. The amount paid by A to the corporation in 1972 is $1,140 instead of $1,380. More than 80 percent of the gross income of the corporation for 1971 was derived from tenant-stockholders. A is entitled under section 216 to a deduction of $743.48 in computing his taxable income for 1972. The deduction is computed as follows:

Expenses incurred by X Corporation	$13,800.00	
Less: Rent from business space	2,400.00	
Expenses to be prorated among tenant-stockholders		$11,400.00
Amount paid by A		1,140.00
A's proportionate share of real estate taxes and interest based on his stock ownership (1/10 of $9,000)		900.00
A's proportionate share of total corporate expenses based on his stock ownership (1/10 of $13,800)		1,380.00
Amount of A's payment representing real estate taxes and interest (900/1380 of $1,140)		743.48
A's allowable deduction		743.48

Since the portion of A's payment allocable to real estate taxes and interest is only $743.48, that amount instead of $900 is allowable as a deduction in computing A's taxable income for 1972.

Example 3. The facts are the same as in *Example (1)* except that the amount paid by A to the X Corporation in 1972 is $1,000 instead of $1,380. A is entitled under section 216 to a deduction of $652.17 in computing his taxable income for 1972. The deduction is computed as follows:

Amount paid by A	$1,000.00
A's proportionate share of real estate taxes and interest based on his stock ownership (1/10 of $9,000)	900.00
A's proportionate share of total corporate expenses based on his stock ownership (1/10 of $13,800)	1,380.00
Amount of A's payment representing real estate taxes and interest (900/1380 of $1,000)	652.17
A's allowable deduction	652.17

Since the portion of A's payment allocable to real estate taxes and interest is only $652.17, that amount instead of $900 is allowable as a deduction in computing A's taxable income for 1972.

Example 4. The facts are the same as in *Example (1)* except that X Corporation leases recreational facilities from Y Corporation for use by the tenant-stockholders of X. Under the terms of the lease, X is obligated to pay an annual rental of $5,000 plus all real estate taxes assessed against the facilities. In 1971 X paid, in addition to the $13,800 of expenses enumerated in *Example (1)*, $5,000 rent and $1,000 real estate taxes. In 1972 A pays the X Corporation $2,000, no part of which is refunded to him in 1972. A is entitled under section 216 to a deduction of $900 in computing his taxable income for 1972. The deduction is computed as follows:

Expenses to be prorated among tenant-stockholders	$19,800
Amount paid by A	2,000
A's proportionate share of real estate taxes and interest based on his stock ownership (1/10 of $9,000)	900
A's proportionate share of total corporate expenses based on his stock ownership (1/10 of $19,800)	1,980
Amount of A's payment representing real estate taxes and interest (900/1,980 of $1,980)	900
A's allowable deduction	900

The $1,000 of real estate taxes assessed against the recreational facilities constitutes additional rent and hence is not deductible by A as taxes under section 216. A's allowable deduction is limited to his proportionate share of real estate taxes and interest based on stock ownership and cannot be increased by the payment of an amount in excess of his proportionate share.

[T.D. 7092, 36 FR 4597, Mar. 10, 1971; 36 FR 4985, Mar. 16, 1971, as amended by T.D. 8316, 55 FR 42004, Oct. 17, 1990]

§1.216–2 Treatment as property subject to depreciation.

(a) *General rule.* For taxable years beginning after December 31, 1961, stock in a cooperative housing corporation (as defined by section 216(b) (1) and paragraph (c) of §1.216–1) owned by a tenant-stockholder (as defined by section 216(b) (2) and paragraph (d) of §1.216–1) who uses the proprietary lease or right of tenancy, which was conferred on him solely by reason of his ownership of such stock, in a trade or business or for the production of income shall be treated as property subject to the allowance for depreciation under section 167(a) in the manner and to the extent prescribed in this section.

(b) *Determination of allowance for depreciation*—(1) *In general.* Subject to the special rules provided in subparagraphs (2) and (3) of this paragraph and the limitation provided in paragraph (c) of this section, the allowance for depreciation for the taxable year with respect to stock of a tenant-stockholder, subject to the extent provided in this section to an allowance for depreciation, shall be determined:

(i) By computing the amount of depreciation (amortization in the case of a leasehold) which would be allowable under one of the methods of depreciation prescribed in section 167(b) and the regulations thereunder (in paragraph (a) of §1.162–11 and §1.167(a)–4 in the case of a leasehold) in respect of the depreciable (amortizable) real property owned by the cooperative housing corporation in which such tenant-stockholder has a proprietary lease or right of tenancy,

(ii) By reducing the amount of depreciation (amortization) so computed in the same ratio as the rentable space in such property which is not subject to a proprietary lease or right of tenancy by reason of stock ownership but which is held for rental purposes bears to the total rentable space in such property, and

(iii) By computing such tenant-stockholder's proportionate share of such annual depreciation (amortization), so reduced.

As used in this section, the terms *depreciation* and *depreciable real property* include amortization and amortizable leasehold of real property. As used in this section, the tenant-stockholder's proportionate share is that proportion which stock of the cooperative housing corporation owned by the tenant-stockholder is of the total outstanding stock of the corporation, including any stock held by the corporation. In order to determine whether a tenant-stockholder may use one of the methods of depreciation prescribed in section 167(b) (2), (3), or (4) for purposes of subdivision (i) of this subparagraph, the limitations provided in section 167(c) on the use of such methods of depreciation shall be applied with respect to the depreciable real property owned by the cooperative housing corporation in which the tenant-stockholder has a proprietary lease or right of tenancy, rather than with respect to the stock in the cooperative housing corporation owned by the tenant-stockholder or with respect to the proprietary lease or right of tenancy conferred on the tenant-stockholder by reason of his ownership of such stock. The allowance for depreciation determined under this subparagraph shall be properly adjusted where only a portion of the property occupied under a proprietary lease or right of tenancy is used in a trade or business or for the production of income.

(2) *Stock acquired subsequent to first offering.* Except as provided in subparagraph (3), in the case of a tenant-stockholder who purchases stock other than as part of the first offering of stock by the corporation, the basis of the depreciable real property for purposes of the computation required by subparagraph (1)(i) of this paragraph shall be the amount obtained by:

(i) Multiplying the taxpayer's cost per share by the total number of outstanding shares of stock of the corporation, including any shares held by the corporation,

(ii) Adding thereto the mortgage indebtedness to which such depreciable real property is subject on the date of purchase of such stock, and

(iii) Subtracting from the sum so obtained the portion thereof not properly allocable as of the date such stock was purchased to the depreciable real property owned by the cooperative housing corporation in which such tenant-stockholder has a proprietary lease or right of tenancy.

In order to prevent an overstatement or understatement of the basis of the depreciable real property for purposes of the computation required by subparagraph (1)(i) of this paragraph, appropriate adjustment for purposes of the computations described in subdivisions (i) and (ii) of this subparagraph shall be made in respect of prepayments and delinquencies on account of the corporation's mortgage indebtedness. Thus, for purposes of subdivision (i) of this subparagraph, the taxpayer's cost per share shall be reduced by an amount determined by dividing the total mortgage indebtedness prepayments in respect of the shares purchased by the taxpayer by the number of such shares. For purposes of subdivision (ii) of this subparagraph, the mortgage indebtedness shall be increased by the sum of all prepayments applied in reduction of the mortgage indebtedness and shall be decreased by any amount due under the terms of the mortgage and unpaid.

(3) *Conversion subsequent to date of acquisition.* In the case of a tenant-stockholder whose proprietary lease or right of tenancy is converted, in whole or in part, to use in a trade or business or for the production of income on a date subsequent to the date on which he acquired the stock conferring on him such lease or right of tenancy, the basis of the depreciable real property for purposes of the computation required by subparagraph (1)(i) of this paragraph shall be the fair market value of such depreciable real property on the date of the conversion if the fair market value is less than the adjusted basis of such property in the hands of the cooperative housing corporation provided in section 1011 without taking into account any adjustment for depreciation required by section 1016(a)(2). Such fair market value shall be deemed to be equal to the adjusted basis of such property, taking into account adjustments required by section 1016(a)(2) computed as if the corporation had used the straight line method of depreciation, in the absence of evidence establishing that the fair market value so attributed to the property is unrealistic. In the case of a tenant-stockholder who purchases stock other than as part of the first offering of stock of the corporation, and at a later date converts his proprietary lease to use for business or production of income:

(i) The adjusted basis of the cooperative housing corporation's depreciable real property without taking into account any adjustment for depreciation shall be the amount determined in accordance with subdivisions (i), (ii), and (iii) of subparagraph (2) of this paragraph, and

(ii) The fair market value shall be deemed to be equal to such adjusted basis reduced by the amount of depreciation, computed under the straight line method, which would have been allowable in respect of depreciable real property having a cost or other basis equal to the amount representing such adjusted basis in the absence of evidence establishing that the fair market value so attributed to the property is unrealistic.

(c) *Limitation.* If the allowance for depreciation for the taxable year determined in accordance with the provisions of paragraph (b) of this section exceeds the adjusted basis (provided in section 1011) of the stock described in paragraph (a) of this section allocable to the tenant-stockholder's proprietary lease or right of tenancy used in a trade or business or for the production of income, such excess is not allowable as a deduction. For taxable years beginning after December 31, 1986, such excess, subject to the provisions of this paragraph (c), is allowable as a deduction for depreciation in the succeeding taxable year. To determine the portion of the adjusted basis of such stock which is allocable to such proprietary lease or right of tenancy, the adjusted basis is reduced by taking into account the same factors as are taken into account under paragraph (b)(1) of this section in determining the allowance for depreciation.

(d) *Examples.* The provisions of section 216(c) and this section may be illustrated by the following examples:

Example 1. The Y corporation, a cooperative housing corporation within the meaning of section 216, in 1961 purchased a site and constructed thereon a building with 10 apartments at a total cost of $250,000 ($200,000 being allocable to the building and $50,000 being allocable to the land). Such building was completed on January 1, 1962, and at that time had an estimated useful life of 50 years, with an estimated salvage value of $20,000. Each apartment is of equal value. Upon completion of the building, Y corporation mortgaged the land and building for $150,000 and sold its total authorized capital stock, consisting of 1000 shares of common stock, for $100,000. The stock was purchased by 10 individuals each of whom paid $10,000 for 100 shares. Each certificate for 100 shares provides that the holder thereof is entitled to a proprietary lease of a particular apartment in the building. Each lease provides that the lessee shall pay his proportionate share of the corporation's expenses including an amount on account of the curtailment of Y's mortgage indebtedness. B, a calendar year taxpayer, is the original owner of 100 shares of stock in Y corporation. On January 1, 1962, B subleases his apartment for a term of 5 years. B's stock in Y corporation is treated as property subject to the allowance for depreciation under section 167(a), and B, who uses the straight line method of depreciation for purposes of the computation prescribed by paragraph (b)(1)(i) of this section, computes the allowance for depreciation for the taxable year 1962 with respect to such stock as follows:

Y's basis in the building	$200,000
Less: Estimated salvage value	$20,000
Y's basis for depreciation	$180,000
Annual straight line depreciation on Y's building (1/50 of $180,000)	$3,600
Proportion of outstanding shares of stock of Y corporation (1,000) owned by B (100)	1/10
B's proportionate share of annual depreciation (1/10 of $3,600)	$360
Depreciation allowance for 1962 with respect to B's stock (if the limitation in paragraph (c) of this section is not applicable)	$360

Example 2. The facts are the same as in *Example (1)* except that the building constructed by Y corporation contained, in addition to the 10 apartments, space on the ground floor for 2 stores which were rented to persons who do not have a proprietary lease of such space by reason of stock ownership. Y corporation's building has a total area of 16,000 square feet, the 10 apartments in such building have an area of 10,000 square feet, and the 2 stores on the ground floor have an area of 2,000 square feet. Thus, the total rentable space in Y corporation's building is 12,000 square feet. B, who uses the straight line method of depreciation for purposes of the computation prescribed by paragraph (b)(1)(i) of this section, computes the allowance for depreciation for the taxable year 1962 with respect to his stock in Y corporation as follows:

Y's basis in the building	$200,000
Less: Estimated salvage value	20,000
Y's basis for depreciation	180,000
Annual straight line depreciation on Y's building (1/50 of $180,000)	3,600
Less: Amount representing rentable space not subject to proprietary lease but held for rental purposes over total rentable space 2,000÷12,000 (of $3,600)	600
Annual depreciation, as reduced	3,000
B's proportionate share of annual depreciation (1/10 of $3,000)	300
Depreciation allowance for 1962 with respect to B's stock (if the limitation in paragraph (c) of this section is not applicable)	300

Example 3. The facts are the same as in *Example (1)* except that B occupies his apartment from January 1, 1962, until December 31, 1966, and that on January 1, 1967, B sells his stock to C, an individual, for $15,000. C thereby obtains a proprietary lease from Y corporation with the same rights and obligations as B's lease provided. Y corporation's records disclose that its outstanding mortgage indebtedness is $135,000 on January 1,

1967. C, a physician, uses the entire apartment solely as an office. C's stock in Y corporation is treated as property subject to the allowance for depreciation under section 167(a), and C, who uses the straight line method of depreciation for purposes of the computation prescribed by paragraph (b)(1)(i) of this section, computes the allowance for depreciation for the taxable year 1967 with respect to such stock as follows:

Price paid for each share of stock in Y corporation purchased by C on 1–1–67 ($15,000÷100)	$150
Per share price paid by C multiplied by total shares of stock in Y corporation outstanding on 1–1–67 ($150×1,000)	150,000
Y's mortgage indebtedness outstanding on 1–1–67	135,000
	285,000
Less: Amount attributable to land (assumed to be 1/5 of $285,000)	57,000
	228,000
Less: Estimated salvage value	20,000
Basis of Y's building for purposes of computing C's depreciation	208,000
Annual straight line depreciation (1/45 of $208,000)	4,622.22
C's proportionate share of annual depreciation (1/10 of $4,622.22)	462.22
Depreciation allowance for 1967 with respect to C's stock (if the limitation in paragraph (c) of this section is not applicable)	462.22

[T.D. 6725, 29 FR 5665, Apr. 29, 1964, as amended by T.D. 8316, 55 FR 42006, Oct. 17, 1990]

§ 1.217–1 Deduction for moving expenses paid or incurred in taxable years beginning before January 1, 1970.

(a) *Allowance of deduction*—(1) *In general.* Section 217(a) allows a deduction from gross income for moving expenses paid or incurred by the taxpayer during the taxable year in connection with the commencement of work as an employee at a new principal place of work. Except as provided in section 217, no deduction is allowable for any expenses incurred by the taxpayer in connection with moving himself, the members of his family or household, or household goods and personal effects. The deduction allowable under this section is only for expenses incurred after December 31, 1963, in taxable years ending after such date and beginning before January 1, 1970, except in cases where a taxpayer makes an election under paragraph (g) of § 1.217–2 with respect to moving expenses paid or incurred before January 1, 1971, in connection with the commencement of work by such taxpayer as an employee at a new principal place of work of which such taxpayer has been notified by his employer on or before December 19, 1969. To qualify for the deduction the expenses must meet the definition of the term "moving expenses" provided in section 217(b); the taxpayer must meet the conditions set forth in section 217(c); and, if the taxpayer receives a reimbursement or other expense allowance for an item of expense, the deduction for the portion of the expense reimbursed is allowable only to the extent that such reimbursement or other expense allowance is included in his gross income as provided in section 217(e). The deduction is allowable only to a taxpayer who pays or incurs moving expenses in connection with his commencement of work as an employee and is not allowable to a taxpayer who pays or incurs such expenses in connection with his commencement of work as a self-employed individual. The term *employee* as used in this section has the same meaning as in § 31.3401(c)–1 of this chapter (Employment Tax Regulations). All references to section 217 in this section are to section 217 prior to the effective date of section 231 of the Tax Reform Act of 1969 (83 Stat. 577).

(2) *Commencement of work.* To be deductible, the moving expenses must be paid or incurred by the taxpayer in connection with the commencement of work by him at a new principal place of work (see paragraph (c)(3) of this section for a discussion of the term *principal place of work*). While it is not necessary that the taxpayer have a contract or commitment of employment prior to his moving to a new location, the deduction is not allowable unless employment actually does occur. The term *commencement* includes (i) the beginning of work by a taxpayer for the first time or after a substantial period of unemployment or part-time employment, (ii) the beginning of work by a taxpayer for a different employer, or (iii) the beginning of work by a taxpayer for the same employer at a new location. To qualify as being in connection with the commencement of work, the move for which moving expenses are incurred must bear a reasonable

proximity both in time and place to such commencement. In general, moving expenses incurred within one year of the date of the commencement of work are considered to be reasonably proximate to such commencement. Moving expenses incurred in relocating the taxpayer's residence to a location which is farther from his new principal place of work than was his former residence are not generally to be considered as incurred in connection with such commencement of work. For example, if A is transferred by his employer from place X to place Y and A's old residence while he worked at place X is 25 miles from Y, A will not generally be entitled to deduct moving expenses in moving to a new residence 40 miles from Y even though the minimum distance limitation contained in section 217(c)(1) is met. If, however, A is required, as a condition of his employment, to reside at a particular place, or if such residency will result in an actual decrease in his commuting time or expense, the expenses of the move may be considered as incurred in connection with his commencement of work at place Y.

(b) *Definition of moving expenses*—(1) *In general.* Section 217(b) defines the term *moving expenses* to mean only the reasonable expenses (i) of moving household goods and personal effects from the taxpayer's former residence to his new residence, and (ii) of traveling (including meals and lodging) from the taxpayer's former residence to his new place of residence. The test of deductibility thus is whether the expenses are reasonable and are incurred for the items set forth in (i) and (ii) above.

(2) *Reasonable expenses.* (i) The term *moving expenses* includes only those expenses which are reasonable under the circumstances of the particular move. Generally, expenses are reasonable only if they are paid or incurred for movement by the shortest and most direct route available from the taxpayer's former residence to his new residence by the conventional mode or modes of transportation actually used and in the shortest period of time commonly required to travel the distance involved by such mode. Expenses paid or incurred in excess of a reasonable amount are not deductible. Thus, if moving or travel arrangements are made to provide a circuitous route for scenic, stopover, or other similar reasons, the additional expenses resulting therefrom are not deductible since they do not meet the test of reasonableness.

(ii) The application of this subparagraph may be illustrated by the following example:

Example. A, an employee of the M Company works and maintains his principal residence in Boston, Massachusetts. Upon receiving orders from his employer that he is to be transferred to M's Los Angeles, California office, A motors to Los Angeles with his family with stopovers at various cities between Boston and Los Angeles to visit friends and relatives. In addition, A detours into Mexico for sight-seeing. Because of the stopovers and tour into Mexico, A's travel time and distance are increased over what they would have been had he proceeded directly to Los Angeles. To the extent that A's route of travel between Boston and Los Angeles is in a generally southwesterly direction it may be said that he is traveling by the shortest and most direct route available by motor vehicle. Since A's excursion into Mexico is away from the usual Boston-Los Angeles route, the portion of the expenses paid or incurred attributable to such excursion is not deductible. Likewise, that portion of the expenses attributable to A's delays en route not necessitated by reasons of rest or repair of his vehicle are not deductible.

(3) *Expenses of moving household goods and personal effects.* Expenses of moving household goods and personal effects include expenses of transporting such goods and effects owned by the taxpayer or a member of his household from the taxpayer's former residence to his new residence, and expenses of packing, crating and in-transit storage and insurance for such goods and effects. Expenses paid or incurred in moving household goods and personal effects to a taxpayer's new residence from a place other than his former residence are allowable, but only to the extent that such expenses do not exceed the amount which would be allowable had such goods and effects been moved from the taxpayer's former residence. Examples of items not deductible as moving expenses include, but are not limited to, storage charges (other than in-transit), costs incurred in the acquisition of property, costs incurred and losses sustained in the disposition of property, penalties for breaking leases,

mortgage penalties, expenses of refitting rugs or draperies, expenses of connecting or disconnecting utilities, losses sustained on the disposal of memberships in clubs, tuition fees, and similar items.

(4) *Expenses of traveling.* Expenses of traveling include the cost of transportation and of meals and lodging en route (including the date of arrival) of both the taxpayer and members of his household, who have both the taxpayer's former residence and the taxpayer's new residence as their principal place of abode, from the taxpayer's former residence to his new place of residence. Expenses of traveling do not include, for example: living or other expenses of the taxpayer and members of his household following their date of arrival at the new place of residence and while they are waiting to enter the new residence or waiting for their household goods to arrive; expenses in connection with house or apartment hunting; living expenses preceding the date of departure for the new place of residence; expenses of trips for purposes of selling property; expenses of trips to the former residence by the taxpayer pending the move by his family to the new place of residence; or any allowance for depreciation. The deduction for traveling expenses is allowable for only one trip made by the taxpayer and members of his household; however, it is not necessary that the taxpayer and all members of his household travel together or at the same time.

(5) *Residence.* The term *former residence* refers to the taxpayer's principal residence before his departure for his new principal place of work. The term *new residence* refers to the taxpayer's principal residence within the general location of his new principal place of work. Thus, neither term includes other residences owned or maintained by the taxpayer or members of his family or seasonal residences such as a summer beach cottage. Whether or not property is used by the taxpayer as his residence, and whether or not property is used by the taxpayer as his principal residence (in the case of a taxpayer using more than one property as a residence), depends upon all the facts and circumstances in each case. Property used by the taxpayer as his principal residence may include a houseboat, a house trailer, or similar dwelling. The term *new place of residence* generally includes the area within which the taxpayer might reasonably be expected to commute to his new principal place of work. The application of the terms *former residence*, *new residence* and *new place of residence* as defined in this paragraph and as used in section 217(b)(1) may be illustrated in the following manner: Expenses of moving household goods and personal effects are moving expenses when paid or incurred for transporting such items from the taxpayer's former residence to the taxpayer's new residence (such as from one street address to another). Expenses of traveling, on the other hand, are limited to those incurred between the taxpayer's former residence (a geographic point) and his new place of residence (a commuting area) up to and including the date of arrival. The date of arrival is the day the taxpayer secures lodging within that commuting area, even if on a temporary basis.

(6) *Individuals other than taxpayer.* In addition to the expenses set forth in section 217(b)(1) which are attributable to the taxpayer alone, the same type of expenses attributable to certain individuals other than the taxpayer, if paid or incurred by the taxpayer, are deductible. Those other individuals must (i) be members of the taxpayer's household, and (ii) have both the taxpayer's former residence and his new residence as their principal place of abode. A member of the taxpayer's household may not be, for example, a tenant residing in the taxpayer's residence, nor an individual such as a servant, governess, chauffeur, nurse, valet, or personal attendant.

(c) *Conditions for allowance*—(1) *In general.* Section 217(c) provides two conditions which must be satisfied in order for a deduction of moving expenses to be allowed under section 217(a). The first is a minimum distance requirement prescribed by section 217(c)(1), and the second is a minimum period of employment requirement prescribed by section 217(c)(2).

(2) *Minimum distance.* For purposes of applying the minimum distance requirement of section 217(c)(1) all taxpayers are divided into one or the other of the following categories: taxpayers having a former principal place of work, and taxpayers not having a former principal place of work. In this latter category are individuals who are seeking full-time employment for the first time (for example, recent high school or college graduates), or individuals who are re-entering the labor force after a substantial period of unemployment or part-time employment.

(i) In the case of a taxpayer having a former principal place of work, section 217(c)(1)(A) provides that no deduction is allowable unless the distance between his new principal place of work and his former residence exceeds by at least 20 miles the distance between his former principal place of work and such former residence.

(ii) In the case of a taxpayer not having a former principal place of work, section 217(c)(1)(B) provides that no deduction is allowable unless the distance between his new principal place of work and his former residence is at least 20 miles.

(iii) For purposes of measuring distances under section 217(c)(1) all computations are to be made on the basis of a straight-line measurement.

(3) *Principal place of work.* (i) A taxpayer's ''principal place of work'' usually is the place at which he spends most of his working time. Generally, where a taxpayer performs services as an employee, his principal place of work is his employer's plant, office, shop, store or other property. However, a taxpayer may have a principal place of work even if there is no one place at which he spends a substantial portion of his working time. In such case, the taxpayer's principal place of work is the place at which his business activities are centered— for example, because he reports there for work, or is otherwise required either by his employer or the nature of his employment to ''base'' his employment there. Thus, while a member of a railroad crew, for example, may spend most of his working time aboard a train, his principal place of work is his home terminal, station, or other such central point where he reports in, checks out, or receives instructions. In those cases where the taxpayer is employed by a number of employers on a relatively short-term basis, and secures employment by means of a union hall system (such as a construction or building trades worker), the taxpayer's principal place of work would be the union hall.

(ii) In cases where a taxpayer has more than one employment (i.e., more than one employer at any particular time) his principal place of work is usually determined with reference to his principal employment. The location of a taxpayer's principal place of work is necessarily a question of fact which must be determined on the basis of the particular circumstances in each case. The more important factors to be considered in making a factual determination regarding the location of a taxpayer's principal place of work are *(a)* the total time ordinarily spent by the taxpayer at each place, *(b)* the degree of the taxpayer's business activity at each place, and *(c)* the relative significance of the financial return to the taxpayer from each place.

(iii) In general, a place of work is not considered to be the taxpayer's principal place of work for purposes of this section if the taxpayer maintains an inconsistent position, for example, by claiming an allowable deduction under section 162 (relating to trade or business expenses) for traveling expenses ''while away from home'' with respect to expenses incurred while he is not away from such place of work and after he has incurred moving expenses for which a deduction is claimed under this section.

(4) *Minimum period of employment.* Under section 217(c)(2), no deduction is allowed unless, during the 12-month period immediately following the taxpayer's arrival in the general location of his new principal place of work, he is a full-time employee, in such general location, during at least 39 weeks.

(i) The 12-month period and the 39-week period set forth in section 217(c)(2) are measured from the date of the taxpayer's arrival in the general location of his new principal place of work. Generally, the taxpayer's date of arrival is the date of the termination of the last trip preceding the taxpayer's commencement of work on a regular basis, regardless of the date on which the taxpayer's family or household goods and effects arrive.

(ii) It is not necessary that the taxpayer remain in the employ of the same employer for 39 weeks, but only that he be employed in the same general location of his new principal place of work during such period. The *general location* of the new principal place of work refers to the area within which an individual might reasonably be expected to commute to such place of work, and will usually be the same area as is known as the *new place of residence*; see paragraph (b)(5) of this section.

(iii) Only a week during which the taxpayer is a full-time employee qualifies as a week of work for purposes of the 39-week requirement of section 217(c)(2). Whether an employee is a full-time employee during any particular week depends upon the customary practices of the occupation in the geographic area in which the taxpayer works. In the case of occupations where employment is on a seasonal basis, weeks occuring in the off-season when no work is required or available (as the case may be) may be counted as weeks of full-time employment only if the employee's contract or agreement of employment covers the off-season period and the off-season period is less than 6 months. Thus, a school teacher whose employment contract covers a 12-month period and who teaches on a full-time basis for more than 6 months in fulfillment of such contract is considered a full-time employee during the entire 12-month period. A taxpayer will not be deemed as other than a full-time employee during any week merely because of periods of involuntary temporary absence from work, such as those due to illness, strikes, shutouts, layoffs, natural disasters, etc.

(iv) In the case of taxpayers filing a joint return, either spouse may satisfy this 39-week requirement. However, weeks worked by one spouse may not be added to weeks worked by the other spouse in order to satisfy such requirement.

(v) The application of this subparagraph may be illustrated by the following examples:

Example 1. A is an electrician residing in New York City. Having heard of the possibility of better employment prospects in Denver, Colorado, he moves himself, his family and his household goods and personal effects, at his own expense, to Denver where he secures employment with the M Aircraft Corporation. After working full-time for 30 weeks his job is terminated, and he subsequently moves to and secures employment in Los Angeles, California, which employment lasts for more than 39 weeks. Since A was not employed in the general location of his new principal place of employment while in Denver for at least 39 weeks, no deduction is allowable for moving expenses paid or incurred between New York City and Denver. A will be allowed to deduct only those moving expenses attributable to his move from Denver to Los Angeles, assuming all other conditions of section 217 are met.

Example 2. Assume the same facts as in *Example (1)*, except that B, A's wife, secures employment in Denver at the same time as A, and that she continues to work in Denver for at least 9 weeks after A's departure for Los Angeles. Since she has met the 39-week requirement in Denver, and assuming all other requirements of section 217 are met, the moving expenses paid by A attributable to the move from New York City to Denver will be allowed as a deduction, provided A and B filed a joint return.

Example 3. Assume the same facts as in *Example (1)*, except that B, A's wife, secures employment in Denver on the same day that A departs for Los Angeles, and continues to work in Denver for 9 weeks thereafter. Since neither A (who has worked 30 weeks) nor B (who has worked 9 weeks) has independently satisfied the 39-week requirement, no deduction for moving expenses attributable to the move from New York City to Denver is allowable.

(d) *Rules for application of section 217(c)(2)*—(1) *Inapplicability of 39-week test to reimbursed expenses.* (i) Paragraph (1) of section 217(d) provides that the 39-week employment condition of section 217(c)(2) does not apply to any moving expense item to the extent that the taxpayer receives reimbursement or other allowance from his employer for such item. A reimbursement or other allowance to an employee for expenses of moving, in the absence of a specific allocation by the employer, is allocated first to items deductible under section 217(a) and then, if a balance remains, to items not so deductible.

(ii) The application of this subparagraph may be illustrated by the following examples:

Example 1. A, a recent college graduate, with his residence in Washington, DC, is hired by the M Corporation in San Francisco, California. Under the terms of the employment contract, M agrees to reimburse A for three-fifths of his moving expenses from Washington to San Francisco. A moves to San Francisco, and pays $1,000 for expenses incurred, for which he is reimbursed $600 by M. After working for M for a period of 3 months, A becomes dissatisfied with the job and returns to Washington to continue his education. Since he has failed to satisfy the 39-week requirement of section 217(c)(2) the expenses totaling $400 for which A has received no reimbursement are not deductible. Under the special rule of section 217(d)(1), however, the deduction for the $600 reimbursed moving expenses is not disallowed by reason of section 217(c)(2).

Example 2. B, a self-employed accountant, who works and resides in Columbus, Ohio, is hired by the N Company in St. Petersburg, Florida. Pursuant to its policy with respect to newly hired employees, N agrees to reimburse B to the extent of $1,000 of the expenses incurred by him in connection with his move to St. Petersburg, allocating $700 for the items specified in section 217(b)(1), and $300 for ‘‘temporary living expenses.’’ B moves to St. Petersburg, and incurs $800 of ‘‘moving expenses’’ and $300 of ‘‘temporary living expenses’’ in St. Petersburg. B receives reimbursement of $1,000 from N, which amount is included in his gross income. Assuming B fails to satisfy the 39-week test of section 217(c)(2), he will nevertheless be allowed to deduct $700 as a moving expense. On the other hand, had N made no allocation between deductible and non-deductible items, B would have been allowed to deduct $800 since, in the absence of a specific allocation of the reimbursement by N, it is presumed that the reimbursement was for items specified in section 217(b)(1) to the extent thereof.

(2) *Election of deduction before 39-week test is satisfied.* (i) Paragraph (2) of section 217(d) provides a special rule which applies in those cases where a taxpayer paid or incurred, in a particular taxable year, moving expenses which would be deductible in that taxable year except for the fact that the 39-week employment condition of section 217(c)(2) has not been satisfied before the time prescribed by law (including extensions thereof) for filing the return for such taxable year. The rule provides that where a taxpayer has paid or incurred moving expenses and as of the date prescribed by section 6072 for filing his return for such taxable year, including extensions thereof as may be allowed under section 6081, there remains unexpired a sufficient portion of the 12-month period so that it is still possible for the taxpayer to satisfy the 39-week requirement, then the taxpayer may elect to claim a deduction for such moving expenses on the return for such taxable year. The election shall be exercised by taking the deduction on the return filed within the time prescribed by section 6072 (including extensions as may be allowed under section 6081). It is not necessary that the taxpayer wait until the date prescribed by law for filing his return in order to make the election. He may make the election on an early return based upon the facts known on the date such return is filed. However, an election made on an early return will become invalid if, as of the date prescribed by law for filing the return, it is not possible for the taxpayer to satisfy the 39-week requirement.

(ii) In the event that a taxpayer does not elect to claim a deduction for moving expenses on the return for the taxable year in which such expenses were paid or incurred in accordance with (i) of this subparagraph, and the 39-week employment condition of section 217(c)(2) (as well as all other requirements of section 217) is subsequently satisfied, then the taxpayer may file an amended return for the taxable year in which such moving expenses were paid or incurred on which he may claim a deduction under section 217. The taxpayer may, in lieu of filing an amended return, file a claim for refund based upon the deduction allowable under section 217.

(iii) The application of this subparagraph may be illustrated by the following examples:

Example 1. A is transferred by his employer, M, from Boston, Massachusetts, to Cleveland, Ohio, and begins working there on November 1, 1964, followed by his family and household goods and personal effects on November 15, 1964. Moving expenses are paid or incurred by A in 1964 in connection with this move. On April 15, 1965, when A files his income tax return for the year 1964, A has been a full-time employee in Cleveland for approximately 24 weeks. Notwithstanding the fact that as of April 15, 1965, A has not satisfied the 39-week employment condition of section 217(c)(2) he may nevertheless elect to claim his 1964 moving expenses on his 1964 income tax return since there is still sufficient time remaining before November 1, 1965, within which to satisfy the 39-week requirement.

Example 2. Assume the facts are the same as in *Example (1),* except that as of April 15, 1965, A has left the employ of M, and is in the process of seeking further employment in Cleveland. Since, under these conditions, A may be unsure whether or not he will be able to satisfy the 39-week requirement by November 1, 1965, he may not wish to avail himself of the election provided by section 217(d)(2). In such event, A may wait until he has actually satisfied the 39-week requirement, at which time he may file an amended return claiming as a deduction the moving expenses paid or incurred in 1964. A may, in lieu of filing an amended return, file a claim for refund based upon a deduction for such expenses. Should A fail to satisfy the 39-week requirement on or before November 1, 1965, no deduction is allowable for moving expenses incurred in 1964.

(3) *Recapture of deduction where 39-week test is not met.* Paragraph (3) of section 217(d) provides a special rule which applies in cases where a taxpayer has deducted moving expenses under the election provided in section 217(d)(2) prior to his satisfying the 39-week employment condition of section 217(c)(2), and the 39-week test is not satisfied during the taxable year immediately following the taxable year in which the expenses were deducted. In such cases an amount equal to the expenses which were deducted must be included in the taxpayer's gross income for the taxable year immediately following the taxable year in which the expenses were deducted. In the event the taxpayer has deducted moving expenses under the election provided in section 217(d)(2) for the taxable year, and subsequently files an amended return for such year on which he eliminates such deduction, such expenses will not be deemed to have been deducted for purposes of the recapture rule of the preceding sentence.

(e) *Disallowance of deduction with respect to reimbursements not included in gross income.* Section 217(e) provides that no deduction shall be allowed under section 217 for any item to the extent that the taxpayer receives reimbursement or other expense allowance for such item unless the amount of such reimbursement or other expense allowance is included in his gross income. A reimbursement or other allowance to an employee for expenses of moving, in the absence of a specific allocation by the employer, is allocated first to items deductible under section 217(a) and then, if a balance remains, to items not so deductible. For purposes of this section, moving services furnished in-kind, directly or indirectly, by a taxpayer's employer to the taxpayer or members of his household are considered as being a reimbursement or other allowance received by the taxpayer for moving expenses. If a taxpayer pays or incurs moving expenses and either prior or subsequent thereto receives reimbursement or other expense allowance for such item, no deduction is allowed for such moving expenses unless the amount of the reimbursement or other expense allowance is included in his gross income in the year in which such reimbursement or other expense allowance is received. In those cases where the reimbursement or other expense allowance is received by a taxpayer for an item of moving expense subsequent to his having claimed a deduction for such item, and such reimbursement or other expense allowance is properly excluded from gross income in the year in which received, the taxpayer must file an amended return for the taxable year in which the moving expenses were deducted and decrease such deduction by the amount of the reimbursement or other expense allowance not included in gross income. This does not mean, however, that a taxpayer has an option to include or not include in his gross income an amount received as reimbursement or other expense allowance in connection with his move as an employee. This question remains one which must be resolved under section 61(a) (relating to the definition of gross income).

[T.D. 6796, 30 FR 1038, Feb. 2, 1965, as amended by T.D. 7195, 37 FR 13535, July 11, 1972]

§ 1.217–2 Deduction for moving expenses paid or incurred in taxable years beginning after December 31, 1969.

(a) *Allowance of deduction*—(1) *In general.* Section 217(a) allows a deduction from gross income for moving expenses paid or incurred by the taxpayer during the taxable year in connection with his commencement of work as an employee or as a self-employed individual at a new principal place of work. For purposes of this section, amounts are considered as being paid or incurred by an individual whether goods or services are furnished to the taxpayer directly (by an employer, a client, a customer, or similar person) or indirectly (paid to a third party on behalf of the taxpayer by an employer, a client, a customer, or similar person). A cash basis taxpayer will treat moving expenses as being paid for purposes of section 217 and this section in the year in which the taxpayer is considered to have received such payment under section 82 and §1.82–1. No deduction is allowable under section 162 for any expenses incurred by the taxpayer in connection with moving from one residence to another residence unless such expenses are deductible under section 162 without regard to such change in residence. To qualify for the deduction under section 217 the expenses must meet the definition of the term *moving expenses* provided in section 217(b) and the taxpayer must meet the conditions set forth in section 217(c). The term *employee* as used in this section has the same meaning as in §31.3401(c)–1 of this chapter (Employment Tax Regulations). The term *self-employed individual* as used in this section is defined in paragraph (f)(1) of this section.

(2) *Expenses paid in a taxable year other than the taxable year in which reimbursement representing such expenses is received.* In general, moving expenses are deductible in the year paid or incurred. If a taxpayer who uses the cash receipts and disbursements method of accounting receives reimbursement for a moving expense in a taxable year other than the taxable year the taxpayer pays such expense, he may elect to deduct such expense in the taxable year that he receives such reimbursement, rather than the taxable year when he paid such expense in any case where:

(i) The expense is paid in a taxable year prior to the taxable year in which the reimbursement is received, or

(ii) The expense is paid in the taxable year immediately following the taxable year in which the reimbursement is received, provided that such expense is paid on or before the due date prescribed for filing the return (determined with regard to any extension of time for such filing) for the taxable year in which the reimbursement is received.

An election to deduct moving expenses in the taxable year that the reimbursement is received shall be made by claiming the deduction on the return, amended return, or claim for refund for the taxable year in which the reimbursement is received.

(3) *Commencement of work.* (i) To be deductible the moving expenses must be paid or incurred by the taxpayer in connection with his commencement of work at a new principal place of work (see paragraph (c)(3) of this section for a discussion of the term *principal place of work*). Except for those expenses described in section 217(b)(1) (C) and (D) it is not necessary for the taxpayer to have made arrangements to work prior to his moving to a new location; however, a deduction is not allowable unless employment or self-employment actually does occur. The term *commencement* includes *(a)* the beginning of work by a taxpayer as an employee or as a self-employed individual for the first time or after a substantial period of unemployment or part-time employment, *(b)* the beginning of work by a taxpayer for a different employer or in the case of a self-employed individual in a new trade or business, or *(c)* the beginning of work by a taxpayer for the same employer or in the case of a self-employed individual in the same trade or business at a new location. To qualify as being in connection with the commencement of work, the move must bear a reasonable proximity both in time and place to such commencement at the new principal place of work. In general, moving expenses incurred within 1 year of the date of the commencement of work are considered to be reasonably proximate in time to such commencement. Moving expenses incurred after the 1-year period may be considered reasonably proximate in time if it can be shown that circumstances existed which prevented the taxpayer from incurring the expenses of moving within the 1-year period allowed. Whether circumstances

existed which prevented the taxpayer from incurring the expenses of moving within the period allowed is dependent upon the facts and circumstances of each case. The length of the delay and the fact that the taxpayer may have incurred part of the expenses of the move within the 1-year period allowed shall be taken into account in determining whether expenses incurred after such period are allowable. In general, a move is not considered to be reasonably proximate in place to the commencement of work at the new princpal place of work where the distance between the taxpayer's new residence and his new principal place of work exceeds the distance between his former residence and his new principal place of work. A move to a new residence which does not satisfy this test may, however, be considered reasonably proximate in place to the commencement of work if the taxpayer can demonstrate, for example, that he is required to live at such residence as a condition of employment or that living at such residence will result in an actual decrease in commuting time or expense. For example, assume that in 1977 A is transferred by his employer to a new principal place of work and the distance between his former residence and his new principal place of work is 35 miles greater than was the distance between his former residence and his former principal place of work. However, the distance between his new residence and his new principal place of work is 10 miles greater than was the distance between his former residence and his new principal place of work. Although the minimum distance requirement of section 217(c)(1) is met the expenses of moving to the new residence are not considered as incurred in connection with A's commencement of work at his new principal place of work since the new residence is not proximate in place to the new place of work. If, however, A can demonstrate, for example, that he is required to live at such new residence as a condition of employment or if living at such new residence will result in an actual decrease in commuting time or expense, the expenses of the move may be considered as incurred in connection with A's commencement of work at his new principal place of work.

(ii) The provisions of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example 1. Assume that A is tranferred by his employer from Boston, MA, to Washington, DC. A moves to a new residence in Washington, DC, and commences work on February 1, 1971. A's wife and his two children remain in Boston until June 1972 in order to allow A's children to complete their grade school education in Boston. On June 1, 1972, A sells his home in Boston and his wife and children move to the new residence in Washington, DC. The expenses incurred on June 1, 1972, in selling the old residence and in moving A's family, their household goods, and personal effects to the new residence in Washington are allowable as a deduction although they were incurred 16 months after the date of the commencement of work by A since A has moved to and established a new residence in Washington, DC, and thus incurred part of the total expenses of the move prior to the expiration of the 1-year period.

Example 2. Assume that A is transferred by his employer from Washington, DC, to Baltimore, MD. A commences work on January 1, 1971, in Baltimore. A commutes from his residence in Washington to his new principal place of work in Baltimore for a period of 18 months. On July 1, 1972, A decides to move to and establish a new residence in Baltimore. None of the moving expenses otherwise allowable under section 217 may be deducted since A neither incurred the expenses within 1 year nor has shown circumstances under which he was prevented from moving within such period.

(b) *Definition of moving expenses*—(1) *In general.* Section 217(b) defines the term *moving expenses* to mean only the reasonable expenses (i) of moving household goods and personal effects from the taxpayer's former residence to his new residence, (ii) of traveling (including meals and lodging) from the taxpayer's former residence to his new place of residence, (iii) of traveling (including meals and lodging), after obtaining employment, from the taxpayer's former residence to the general location of his new principal place of work and return, for the principal purpose of searching for a new residence, (iv) of meals and lodging while occupying temporary quarters in the general location of the new principal place of work during any period of 30 consecutive days after obtaining employment, or (v) of a nature constituting qualified residence sale, purchase, or lease expenses. Thus, the test of deductibility is whether the expenses are reasonable and are incurred for the items set forth in subdivisions (i) through (v) of this subparagraph.

(2) *Reasonable expenses.* (i) The term *moving expenses* includes only those expenses which are reasonable under the circumstances of the particular move. Expenses paid or incurred in excess of a reasonable amount are not deductible. Generally, expenses paid or incurred for movement of household goods and personal effects or for travel (including meals and lodging) are reasonable only to the extent that they are paid or incurred for such movement or travel by the shortest and most direct route available from the former residence to the new residence by the conventional mode or modes of transportation actually used and in the shortest period of time commonly required to travel the distance involved by such mode. Thus, if moving or travel arrangements are made to provide a circuitous route for scenic, stopover, or other similar reasons, additional expenses resulting therefrom are not deductible since they are not reasonable nor related to the commencement of work at the new principal place of work. In addition, expenses paid or incurred for meals and lodging while traveling from the former residence to the new place of residence or to the general location of the new principal place of work and return or occupying temporary quarters in the general location of the new principal place of work are reasonable only if under the facts and circumstances involved such expenses are not lavish or extravagant.

(ii) The application of this subparagraph may be illustrated by the following example:

Example. A, an employee of the M Company works and maintains his residence in Boston, MA. Upon receiving orders from his employer that he is to be transferred to M's Los Angeles, CA, office, A motors to Los Angeles with his family with stopovers at various cities between Boston and Los Angeles to visit friends and relatives. In addition, A detours into Mexico for sightseeing. Because of the stopovers and tour into Mexico, A's travel time and distance are increased over what they would have been had he proceeded directly to Los Angeles. To the extent that A's route of travel between Boston and Los Angeles is in a generally southwesterly direction it may be said that he is traveling by the shortest and most direct route available by motor vehicle. Since A's excursion into Mexico is away from the usual Boston-Los Angeles route, the portion of the expenses paid or incurred attributable to such excursion is not deductible. Likewise, that portion of the expenses attributable to A's delay en route in visiting personal friends and sightseeing are not deductible.

(3) *Expense of moving household goods and personal effects.* Expenses of moving household goods and personal effects include expenses of transporting such goods and effects from the taxpayer's former residence to his new residence, and expenses of packing, crating, and in-transit storage and insurance for such goods and effects. Such expenses also include any costs of connecting or disconnecting utilities required because of the moving of household goods, appliances, or personal effects. Expenses of storing and insuring household goods and personal effects constitute in-transit expenses if incurred within any consecutive 30-day period after the day such goods and effects are moved from the taxpayer's former residence and prior to delivery at the taxpayer's new residence. Expenses paid or incurred in moving household goods and personal effects to the taxpayer's new residence from a place other than his former residence are allowable, but only to the extent that such expenses do not exceed the amount which would be allowable had such goods and effects been moved from the taxpayer's former residence. Expenses of moving household goods and personal effects do not include, for example, storage charges (other than in-transit), costs incurred in the acquisition of property, costs incurred and losses sustained in the disposition of property, penalties for breaking leases, mortgage penalties, expenses of refitting rugs or draperies, losses sustained on the disposal of memberships in clubs, tuition fees, and similar items. The above expenses may, however, be described in other provisions of section 217(b) and if so a deduction may be allowed for them subject to the allowable dollar limitations.

(4) *Expenses of traveling from the former residence to the new place of residence.* Expenses of traveling from the former residence to the new place of

residence include the cost of transportation and of meals and lodging en route (including the date of arrival) from the taxpayer's former residence to his new place of residence. Expenses of meals and lodging incurred in the general location of the former residence within 1 day after the former residence is no longer suitable for occupancy because of the removal of household goods and personal effects shall be considered as expenses of traveling for purposes of this subparagraph. The date of arrival is the day the taxpayer secures lodging at the new place of residence, even if on a temporary basis. Expenses of traveling from the taxpayer's former residence to his new place of residence do not include, for example, living or other expenses following the date of arrival at the new place of residence and while waiting to enter the new residence or waiting for household goods to arrive, expenses in connection with house or apartment hunting, living expenses preceding date of departure for the new place of residence (other than expenses of meals and lodging incurred within 1 day after the former residence is no longer suitable for occupancy), expenses of trips for purposes of selling property, expenses of trips to the former residence by the taxpayer pending the move by his family to the new place of residence, or any allowance for depreciation. The above expenses may, however, be described in other provisions of section 217(b) and if so a deduction may be allowed for them subject to the allowable dollar limitations. The deduction for traveling expenses from the former residence to the new place of residence is allowable for only one trip made by the taxpayer and members of his household; however, it is not necessary that the taxpayer and all members of his household travel together or at the same time.

(5) *Expenses of traveling for the principal purpose of looking for a new residence.* Expenses of traveling, after obtaining employment, from the former residence to the general location of the new principal place of work and return, for the principal purpose of searching for a new residence include the cost of transportation and meals and lodging during such travel and while at the general location of the new place of work for the principal purpose of searching for a new residence. However, such expenses do not include, for example, expenses of meals and lodging of the taxpayer and members of his household before departing for the new principal place of work, expenses for trips for purposes of selling property, expenses of trips to the former residence by the taxpayer pending the move by his family to the place of residence, or any allowance for depreciation. The above expenses may, however, be described in other provisions of section 217(b) and if so a deduction may be allowed for them. The deduction for expenses of traveling for the principal purpose of looking for a new residence is not limited to any number of trips by the taxpayer and by members of his household. In addition, the taxpayer and all members of his household need not travel together or at the same time. Moreover, a trip need not result in acquisition of a lease of property or purchase of property. An employee is considered to have obtained employment in the general location of the new principal place of work after he has obtained a contract or agreement of employment. A self-employed individual is considered to have obtained employment when he has made substantial arrangements to commence work at the new principal place of work (see paragraph (f)(2) of this section for a discussion of the term *made substantial arrangements to commence to work*).

(6) *Expenses of occupying temporary quarters.* Expenses of occupying temporary quarters include only the cost of meals and lodging while occupying temporary quarters in the general location of the new principal place of work during any period of 30 consecutive days after the taxpayer has obtained employment in such general location. Thus, expenses of occupying temporary quarters do not include, for example, the cost of entertainment, laundry, transportation, or other personal, living family expenses, or expenses of occupying temporary quarters in the general location of the former place of work. The 30 consecutive day period is any one period of 30 consecutive days which can begin, at the option of the taxpayer, on any day after the day the

taxpayer obtains employment in the general location of the new principal place of work.

(7) *Qualified residence sale, purchase, or lease expenses.* Qualified residence sale, purchase, or lease expenses (hereinafter ''qualified real estate expenses'') are only reasonable amounts paid or incurred for any of the following purposes:

(i) Expenses incident to the sale or exchange by the taxpayer or his spouse of the taxpayer's former residence which, but for section 217 (b) and (e), would be taken into account in determining the amount realized on the sale or exchange of the residence. These expenses include real estate commissions, attorneys' fees, title fees, escrow fees, so called ''points'' or loan placement charges which the seller is required to pay, State transfer taxes and similar expenses paid or incurred in connection with the sale or exchange. No deduction, however, is permitted under section 217 and this section for the cost of physical improvements intended to enhance salability by improving the condition or appearance of the residence.

(ii) Expenses incident to the purchase by the taxpayer or his spouse of a new residence in the general location of the new principal place of work which, but for section 217 (b) and (e), would be taken into account in determining either the adjusted basis of the new residence or the cost of a loan. These expenses include attorney's fees, escrow fees, appraisal fees, title costs, so-called ''points'' or loan placement charges not representing payments or prepayments of interest, and similar expenses paid or incurred in connection with the purchase of the new residence. No deduction, however, is permitted under section 217 and this section for any portion of real estate taxes or insurance, so-called ''points'' or loan placement charges which are, in essence, prepayments of interest, or the purchase price of the residence.

(iii) Expenses incident to the settlement of an unexpired lease held by the taxpayer or his spouse on property used by the taxpayer as his former residence. These expenses include consideration paid to a lessor to obtain a release from a lease, attorneys' fees, real estate commissions, or similar expenses incident to obtaining a release from a lease or to obtaining an assignee or a sublessee such as the difference between rent paid under a primary lease and rent received under a sublease. No deduction, however, is permitted under section 217 and this section for the cost of physical improvement intended to enhance marketability of the leasehold by improving the condition or appearance of the residence.

(iv) Expenses incident to the acquisition of a lease by the taxpayer or his spouse. These expenses include the cost of fees or commissions for obtaining a lease, a sublease, or an assignment of an interest in property used by the taxpayer as his new residence in the general location of the new principal place of work. No deduction, however, is permitted under section 217 and this section for payments or prepayments of rent or payments representing the cost of a security or other similar deposit.

Qualified real estate expenses do not include losses sustained on the disposition of property or mortgage penalties, to the extent that such penalties are otherwise deductible as interest.

(8) *Residence.* The term *former residence* refers to the taxpayer's principal residence before his departure for his new principal place of work. The term *new residence* refers to the taxpayer's principal residence within the general location of his new principal place of work. Thus, neither term includes other residences owned or maintained by the taxpayer or members of his family or seasonal residences such as a summer beach cottage. Whether or not property is used by the taxpayer as his principal residence depends upon all the facts and circumstances in each case. Property used by the taxpayer as his principal residence may include a houseboat, a housetrailer, or similar dwelling. The term *new place of residence* generally includes the area within which the taxpayer might reasonably be expected to commute to his new principal place of work.

(9) *Dollar limitations.* (i) Expenses described in subparagraphs (A) and (B) of section 217(b)(1) are not subject to an overall dollar limitation. Thus, assuming all other requirements of section

217 are satisfied, a taxpayer who, in connection with his commencement of work at a new principal place of work, pays or incurs reasonable expenses of moving household goods and personal effects from his former residence to his new place of residence and reasonable expenses of traveling, including meals and lodging, from his former residence to his new place of residence is permitted to deduct the entire amount of these expenses.

(ii) Expenses described in subparagraphs (C), (D), and (E) of section 217(b)(1) are subject to an overall dollar limitation for each commencement of work of 3,000 ($2,500 in the case of a commencement of work in a taxable year beginning before January 1, 1977), of which the expenses described in subparagraphs (C) and (D) of section 217(b)(1) cannot exceed $1,500 ($1,000 in the case of a commencement of work in a taxable year beginning before January 1, 1977). The dollar limitation applies to the amount of expenses paid or incurred in connection with each commencement of work and not to the amount of expenses paid or incurred in each taxable year. Thus, for example, a taxpayer who paid or incurred $2,000 of expenses described in subparagraphs (C), (D), and (E) of section 217(b)(1) in taxable year 1977 in connection with his commencement of work at a principal place of work and paid or incurred an additional $2,000 of such expenses in taxable year 1978 in connection with the same commencement of work is permitted to deduct the $2,000 of such expenses paid or incurred in taxable year 1977 and only $1,000 of such expenses paid or incurred in taxable year 1978.

(iii) A taxpayer who pays or incurs expenses described in subparagraphs (C), (D), and (E) of section 217(b)(1) in connection with the same commencement of work may choose to deduct any combination of such expenses within the dollar amounts specified in subdivision (ii) of this subparagraph. For example, a taxpayer who pays or incurs such expenses in connection with the same commencement of work may either choose to deduct: *(a)* Expenses described in subparagraphs (C) and (D) of section 217(b)(1) to the extent of $1,500 ($1,000 in the case of a commencement of work in a taxable year beginning before January 1, 1977) before deducting any of the expenses described in subparagraph (E) of such section, or *(b)* expenses described in subparagraph (E) of section 217(b)(1) to the extent of $3,000 ($2,500 in the case of a commencement of work in a taxable year beginning before January 1, 1977) before deducting any of the expenses described in subparagraphs (C) and (D) of such section.

(iv) For the purpose of computing the dollar limitation contained in subparagraph (A) of section 217(b)(3) a commencement of work by a taxpayer at a new principal place of work and a commencement of work by his spouse at a new principal place of work which are in the same general location constitute a single commencement of work. Two principal places of work are treated as being in the same general location where the taxpayer and his spouse reside together and commute to their principal places of work. Two principal places of work are not treated as being in the same general location where, as of the close of the taxable year, the taxpayer and his spouse have not shared the same new residence nor made specific plans to share the same new residence within a determinable time. Under such circumstances, the separate commencements of work by a taxpayer and his spouse will be considered separately in assigning the dollar limitations and expenses to the appropriate return in the manner described in subdivisions (v) and (vi) of this subparagraph.

(v) Moving expenses (described in subparagraphs (C), (D), and (E) of section 217(b)(1)), paid or incurred with respect to the commencement of work by both a husband and wife which is considered a single commencement of work under subdivision (iv) of this subparagraph are subject to an overall dollar limitation of $3,000 ($2,500 in the case of a commencement of work in a taxable year beginning before January 1, 1977), per move of which the expenses described in subparagraphs (C) and (D) of section 217(b)(1) cannot exceed $1,500 ($1,000 in the case of a commencement of work in a taxable year beginning before January 1, 1977). If separate returns are filed with respect to the commencement of work by both a husband and wife which is considered a single commencement of work under subdivision (iv) of this subparagraph, moving expenses (described in subparagraphs (C), (D), and (E) of section 217(b)(1)) are subject to an overall dollar limitation of $1,500 ($1,250 in the case of a commencement of work in a taxable year beginning before January 1, 1977), per move of which the expenses described in subparagraphs (C) and (D) of section 217(b)(1) cannot exceed $750 ($500 in the case of a commencement of work in a taxable year beginning before January 1, 1977) with respect to each return. Where moving expenses are paid or incurred in more than 1 taxable year with respect to a single commencement of work by a husband and wife they shall, for purposes of applying the dollar limitations to such move, be subject to a $3,000 and $1,500 limitation ($2,500 and $1,000, respectively, in the case of a commencement of work in a taxable year beginning before January 1, 1977) for all such years that they file a joint return and shall be subject to a separate $1,500 and $750 limitation ($1,250 and $500, respectively, in the case of a commencement of work in a taxable year beginning before January 1, 1977) for all such years that they file separate returns. If a joint return is filed for the first taxable year moving expenses are paid or incurred with respect to a move but separate returns are filed in a subsequent year, the unused portion of the amount which may be deducted shall be allocated equally between the husband and wife in the later year. If separate returns are filed for the first taxable year such moving expenses are paid or incurred but a joint return is filed in a subsequent year, the deductions claimed on their separate returns shall be aggregated for purposes of determining the unused portion of the amount which may be deducted in the later year.

(vi) The application of subdivisions (iv) and (v) of this subparagraph may be illustrated by the following examples:

Example 1. A, who was transferred by his employer, effective January 15, 1977, moved from Boston, MA, to Washington, DC. A's wife was transferred by her employer, effective January 15, 1977, from Boston, MA, to Baltimore, MD. A and his wife reside together at the same new residence. A and his wife are cash basis taxpayers and file a joint return for taxable year 1977. Because A and his wife reside together at the new residence, the commencement of work by both is considered a single commencement of work under subdivision (iv) of this subparagraph. They are permitted to deduct with respect to their commencement of work in Washington and Baltimore up to $3,000 of the expenses described in subparagraphs (C), (D), and (E) of section 217(b)(1) of which the expenses described in subparagraphs (C) and (D) of such section cannot exceed $1,500.
